Eastern Washington University is a regional, comprehensive public university primarily located in Cheney, Washington, with programs offered in Spokane and throughout the state. Eastern offers 135 areas of study, including nine master’s degrees, 12 graduate certificates, 39 graduate programs, two educational specialist degrees and one applied doctorate.

Eastern is a driving force for the culture, economy and vitality of the Inland Northwest region. The University’s beautiful campus, NCAA Division I athletics and opportunities for hands-on, real-world learning provide a classic, yet unique college experience. A focus on personal attention, faculty excellence and community collaboration allows Eastern to accomplish its mission for preparing well-rounded students ready to hit the ground running in their chosen career fields.
WELCOME

EWU, home of the EAGLES!

On behalf of the Board of Trustees, administration, faculty and staff of Eastern Washington University, welcome to our new and continuing students!

EWU has established a tradition blending excellent academic programs with a sweeping array of student success initiatives that promote degree completion. Within the pages of this catalog you will find the best thoughts of our faculty reflected in rigorous programs of study that will prepare you well for the exciting opportunities awaiting you after graduation!

The achievements of EWU students in the classroom are often connected to their involvement in the community around them. We encourage all of our students to participate in service learning opportunities, clubs and student organizations and intramural sports. Remember that academic success requires studying too! Stop by the Learning Commons in the library and use the collaborative learning space to work on projects with your classmates or take advantage of the support services found there.

Our pledge is to promote a student experience that is rewarding and motivational. From learning labs to faculty mentors you will find everything you need to achieve your goals both academically and as a valued member of the university community.
MISSION

Our Values
EWU is dedicated to the following key values.

Access—we expand access to opportunity and success for students.

Inclusiveness—our diversity makes EWU a stronger community.

Integrity—we foster a culture of respect, commitment and honesty.

Quality—we strive for excellence in everything we do.

Student-Centered Learning Environment—students are the reason we exist.

Our Mission
EWU expands opportunities for personal transformation through excellence in learning.

EWU achieves this mission by:

• creating environments for personal transformation that enrich the lives of individuals, families, communities and society at large.

• developing faculty and staff by growing and strengthening an intellectual community and supporting professional development.

• expanding opportunity for all students by providing critical access to first generation students, underserved populations, place-bound students, and other students who may not have the opportunity for higher education.

• fostering excellence in learning through quality academic programs, undergraduate and graduate student research and individual student-faculty interaction. Students extend their learning beyond the classroom through co-curricular programs, life skills development, internship programs, volunteering and service learning.

Our Vision
EWU envisions a future of professionally, socially and culturally engaged leaders, citizens and communities.

EWU is a driving force for the culture, economy, workforce and vitality of Washington state.

Our graduates think critically and make meaningful contributions to both their career fields and their communities.
A History of Eastern Washington University

More than 100 years ago, with a contribution of $10,000, the wealthy transportation industrialist Benjamin Cheney helped the citizens of the local community fulfill their dream of an institute of higher learning. The Benjamin P. Cheney Academy opened its doors to more than 200 students in 1882.

The academy became the State Normal School at Cheney in 1889, the same year that Washington gained statehood. The school was proudly designated as an institution “for the purpose of instruction of persons, both male and female, in the art of teaching the various branches that pertain to a good common school.”

The school was a fully accredited four-year degree-granting institution, offering majors in numerous subjects, when it became Eastern Washington College of Education in 1937.

The campus grew rapidly in size and program offerings in the decades following World War II and in 1961, reflecting these changes, was renamed Eastern Washington State College. As the regional needs for professionals in many fields grew, Eastern added a wide range of undergraduate and graduate degree programs. In 1977, the state legislature changed the school’s name to Eastern Washington University.

Since its inception as a teacher’s academy more than 120 years ago, Eastern has steadily responded to the higher education needs of the Inland Northwest. Today Eastern provides career preparation in diverse fields including business, technology and health care, education for civic and community leadership and engagement in the fine arts.

As a leader in the life and culture of the region, Eastern enrolls students from nearly every state in the union and more than 20 countries. The diversity and vitality of the university community has as its foundation a talented and dedicated faculty. Three-quarters of Eastern’s full-time faculty hold doctoral degrees. Maintaining a student-to-faculty ratio of approximately 21:1, Eastern continues to offer small classes, personalized instruction and individual attention.

As the higher education provider of choice for more than 12,791 students, Eastern Washington University is a major force in the civic, cultural, scientific and economic development of the state and region.

Disclaimer

This catalog provides a general guideline of courses offered by Eastern Washington University. The classes and programs described herein are implemented at the sole discretion of EWU and are subject to change at any time without notice. Information contained on classes and programs are illustrative only and are not intended to create any contractual obligation or covenant with EWU.

Limitation of Liability

Eastern Washington University’s total liability for claims arising from a contractual relationship with the student in any way related to classes or programs shall be limited to the tuition and expenses paid by the student to EWU for those classes or programs. In no event shall EWU be liable for any special, indirect, incidental or consequential damages, including but not limited to, loss of earnings or profits.
LOCATIONS

Cheney

Eastern Washington University, 526 5th Street, Cheney, WA 99004:
EWU is located in the inland northwest and known for its scenic beauty and impressive array of recreational and entertainment activities. The university is situated on a 300-acre residential campus in Cheney, in close proximity to Spokane, a metropolitan area of more than 417,000 people, located 275 miles east of Seattle. Spokane is the heart of a region that offers students extensive opportunities for internships, research and collaboration with industries, businesses, agencies and schools. EWU has facilities at the Riverpoint Higher Education campus, that is a 25-minute drive from Cheney. Maps are inside the back cover of this catalog.

EWU Spokane

Eastern Washington University, Riverpoint campus is an integral part of Spokane’s University District. Located just east of the downtown business core, the campus includes the following facilities:

Eastern Washington University Center: 668 N. Riverpoint Blvd., Spokane WA, 99202: houses a graduate program through Eastern’s School of Social Work, graduate and undergraduate programs offered through Eastern’s College of Business and Public Administration and the Student Support Center, providing a wide range of services for students from all campuses.

Health Science Building, 310 N. Riverpoint Blvd., Spokane, WA 99202: The Health Science Building houses five state-of-the-art Eastern programs in the College of Health Science and Public Health: Occupational Therapy; Physical Therapy; Dental Hygiene; RIDE (Regional Initiatives in Dental Education; and Communication Disorders in cooperation with Washington State University, called the University Programs in Communication Disorders (UPCD).

Nursing Building, 412 E. Spokane Falls Blvd., Spokane, WA 99202-2118: houses the Intercollegiate College of Nursing. It was established in 1968 and remains the nation’s oldest nursing education consortium, serving as the school of nursing for Eastern Washington University, Washington State University and Whitworth College. It has five sites across the state with the main facility located in Spokane.

Riverpoint ONE, 501 N. Riverpoint Blvd: houses faculty for the following programs: MFA in Creative Writing, MS in Communications, Addiction Studies minor and the BA in Interdisciplinary Studies.

Statewide Locations for Eastern

In addition to the programs located in Cheney and Spokane, Eastern provides several high-demand programs to other areas in Washington. These include:

Eastern Online (http://outreach.ewu.edu/departments/easternonline)
509.359.2268 or toll free 800.924.6606

Eastern Online offers courses in over 60 academic areas, including majors, minors, certificates, and required courses for a variety of disciplines through the University’s online learning management system. Eastern online provides students with flexible access to EWU courses from any geographic location.

Eastern Washington University (EWU) at Bellevue College (BC) (http://outreach.ewu.edu/departments/offcampus)
3000 Landerholm Circle SE, Bellevue, WA 98007
425.564.5100

EWU and BC are collaborating to serve the BC student body and regional population with career advancement opportunities through high-quality baccalaureate degree completion programs. Eastern offers upper division
courses on the BC campus that lead to five of EWU's baccalaureate degrees:

- BA in Business Administration
- BA in Children's Studies
- BA in Interdisciplinary Studies
- BA in Psychology
- BS in Technology, Applied Technology option

**Eastern Washington University (EWU) at Lower Columbia College (LCC)**

Contact Interdisciplinary Studies for information, 509.359.6524.

Eastern Washington University and Lower Columbia College (LCC) are collaborating in order to serve the LCC student body and regional population with career advancement opportunities through high-quality baccalaureate degree completion programs.

Students can access an online BA in Interdisciplinary Studies degree or complete coursework at LCC in the BS in Technology, Applied Technology option.

**EWU degrees that are accessible at LCC**

- BA in Interdisciplinary Studies
- BS in Technology, Applied Technology option

**Global Initiatives**

103 Hargreaves Hall
509.359.2331
Email: global@ewu.edu
Web: global.ewu.edu (http://global.ewu.edu) Facebook: ewuglobal

- Study Abroad
- International Student and Scholar Services
- Partnerships and Projects

Eastern is committed to enriching multicultural diversity through the purposeful expansion of our global presence.

Did you know:

- EWU students, faculty and staff hail from over 50 countries;
- EWU offers hundreds of study abroad choices to undergraduate and graduate students;
- six hundred international students study at EWU via several campuses in Washington state;
- EWU colleagues conduct academic research on all seven continents;
- EWU hosts an average of 12 foreign scholars each year in Cheney and Spokane;
- EWU actively maintains partnerships with 42 institutions in 10 different countries.

Eastern Washington University also works diligently with governmental and non-profit associations to align our international strategy and partnerships with the needs of the region we serve. In addition to providing comprehensive support services for international students, domestic students interested in study abroad and visiting scholars, the Office of Global Initiatives (OGI) team develops new global programming opportunities for students, faculty, alumni and community members. The OGI team also administers the Global Connections Living Learning Community (LLC) in partnership with Housing and Residential Life. As part of this effort, OGI student ambassadors (GA) support new international students as they transition and integrate into the EWU community.

**Interdisciplinary Studies**

509.359.2402

Interdisciplinary Studies offers baccalaureate degrees for students seeking a broad background applicable to a variety career fields. The program has the following options: Liberal Arts, Prior Learning, Addiction Studies, Pre-Occupational Therapy, or Philosophical Studies.

**International Field Study**

509.359.6256 or toll free 800.541.2125

High school students and current EWU students participating in educational travel earn academic credit through Eastern Washington University’s International Field Studies program. International Field Study offers post baccalaureate credit for teachers and education professionals.

**Off Campus Programs**

509.359.7380

Off-campus programs enable students to take courses with EWU faculty and earn undergraduate and graduate degrees from Eastern Washington University regional campuses throughout the State.

Current off campus program locations include the following sites:

- Bellevue College
- Clark College, Everett
- Community College
- North Seattle College
- South Seattle College

**Running Start (High School Students)**

345 Senior Hall
509.359.6155

Running Start provides an opportunity for juniors and seniors in Washington’s public high schools to earn EWU college credit. Students may be able to take a full college load at little or no cost.

**Summer Session**

509.359.2201

Summer session enables high school students, college students, and working professionals the opportunity to advance their academic and professional careers. Summer session offers more than 100 courses that
are condensed into 4- and 8-week sessions, allowing learners the ability to make the most of the summer term.
ABOUT THE CATALOG

Guide to Organization of This Catalog

The catalog is organized into sections starting with general information about the university, an outline of academic programs and an outline of the organization of the university, academic policies and admission information for undergraduate and graduate study. The main body of the catalog lists in alphabetical order the programs of study offered by Eastern. The back section contains information on student services, faculty and administration, key state and federal policies and an index. A map of the campus, a general telephone listing and a two-year academic calendar are inside the back cover. The guide below explains what to look for in the central course and program listing section. We welcome any suggestions or comments on the content and usability of this catalog.

How to Read the Course Descriptions

Subject/Course Prefix Code: these letters indicate the subject area of the course.

Cross-listed: some courses will be listed between disciplines.

Note: details special instructions such as grade mode or repeatability.

Prerequisites: the courses that must be completed and any conditions that must be met prior to enrollment are indicated as prerequisites preceding the course description.

General Education Core Requirements or University Graduation Requirements: some courses are designated to meet GECR or UGR for undergraduate programs.

Course Number

Course Title: The official title of the course is listed beside the prefix and number. The course title may appear differently in other publications.

Credits: the numbers or words between parentheses indicate the credit awarded upon successful completion of the course.

When combinations of courses are listed in sequence, the first number in the parenthesis refers to the first course in the sequence. Example: BIOL 232, BIOL 233, BIOL 234.

Course Description: a brief description of the course follows the prerequisite listing indicating the most significant topics to be covered in the course.

EWU courses are numbered according to the following guidelines.

Lower Division

• 100–199 primarily for freshmen; may not be taken for graduate-level credit

• 200–299 primarily for sophomores; may not be taken for graduate-level credit

Upper Division

• 300–399 primarily for juniors and seniors; may be used for graduate-level credit only with permission of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research

• 400–499 primarily for seniors; graduate students may count a limited number of credits from graded courses, only with program approval

Graduate Level

• 500–599 graduate level; senior undergraduates may enroll only with permission of both the department chair and vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research

• 600–699 graduate level only

• 700–799 doctoral level only

All Levels

Course numbers ending in 95 through 99 indicate special courses, with the particular subject matter varying from quarter to quarter. All departments may offer these types of courses, but not all may be listed in this catalog. Check with the individual program for the availability of special courses.

• 95—internships

• 96—experimental courses

• 97—workshops, short courses, conferences, seminars (Only one workshop course of up to 3 credits may be used to fulfill graduate degree requirements.)

• 98—seminars

• 99—Independent and directed study

Colleges—Departments

Arts, Letters & Education—Dean Roy Sonnema

Departments

• Art

• Education

• English

• Modern Languages, Literatures and Philosophy

• Music

• Physical Education, Health and Recreation

• Theatre and Film

Business and Public Administration—Dean Martine Duchatelet

Departments

• Accounting and Information Systems and Business Analytics

• Economics

• Management

• Planning and Public Administration

Health Science & Public Health—Dean Laureen O’Hanlon

Departments

• Communication Disorders

• Dental Hygiene

• Health Services Administration

• Occupational Therapy

• Physical Therapy

• Public Health

Science, Technology, Engineering & Mathematics—Dean Judd A. Case

Departments
• Biology
• Chemistry, Biochemistry and Physics
• Communication Disorders
• Computer Science
• Dental Hygiene
• Engineering and Design
• Geology
• Mathematics
• Nursing
• Occupational Therapy
• Physical Therapy

Social & Behavioral Sciences and Social Work—Dean Vickie Shields

Departments

• Communication Studies
• Geography and Anthropology
• History
• Military Science
• Political Science and International Studies
• Psychology
• Social Work
• Sociology and Justice Studies

ACCREDITATIONS

The university is accredited by the Northwest Commission on Colleges and Universities, the postsecondary institutional accrediting agency for a seven-state region of the country. Accreditation by the Northwest Commission qualifies Eastern Washington University for access to federal funding for teaching, research and student financial aid. Eastern is also approved by the U.S. Attorney General for non-quota immigrant students and is on the approved list of the American Association of University Women. The academic excellence of Eastern’s programs is recognized by numerous accreditations.

Athletic Training
The Bachelor of Science Degree in Athletic Training is accredited by the Commission on Accreditation of Athletic Training Education (CAATE). Graduates of the program are eligible to sit for the national certification examination administered by the Board of Certification (BOC).

Business
AACSB International-The Association to Advance Collegiate Schools of Business has accredited the university’s undergraduate and graduate business programs.

Chemistry / Biochemistry
The department’s professional and environmental bachelor of science options are approved by the American Chemical Society (ACS), and the ACS certifies graduates in these options.

Communication Disorders
The Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA) has accredited the university’s graduate programs in speech-language pathology.

Computer Science
The Bachelor of Science in Computer Science Degree is accredited by the Computing Accreditation Commission of ABET (http://www.abet.org).

Dental Hygiene
The Commission on Dental Accreditation of the American Dental Association has fully accredited Eastern’s undergraduate program in Dental Hygiene.

Education
The State of Washington Professional Educator Standards Board has accredited the Bachelor of Arts in Education Degree programs and the Master of Education Degree programs.

Electrical Engineering and Mechanical Engineering
The Bachelor of Science in Electrical Engineering Degree and the Bachelor of Science in Mechanical Engineering Degree are accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org).

Mechanical Engineering Technology
The Bachelor of Science in Mechanical Engineering Technology Degree is accredited by the Technology Accreditation Commission of ABET (http://www.abet.org).

Health Services Administration
The Bachelor of Arts in Health Services Administration Degree is accredited by the Association for University Programs in Health Administration (AUPHA).

Mental Health Counseling
The master’s program in Applied Psychology: Mental Health Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and fulfills the state of Washington requirements for mental health counselor certification.

Music
The National Association of Schools of Music has fully accredited the undergraduate and graduate programs in music.

Nursing
The undergraduate nursing programs taught at the WSU College of Nursing in Spokane have been accredited by the Collegiate Commission on Nursing Education (CCNE) and approved by the Washington State Board of Nursing and the American Association of Colleges of Nursing.

Occupational Therapy
The Occupational Therapy Program at Eastern Washington University is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA). Graduates of the program will be able to sit for the national certification examination administered by the National Board for Certification in Occupational Therapy (NBCOT).

Physical Therapy
The Department of Physical Therapy is fully and unconditionally accredited by the Commission on Accreditation in Physical Therapy Education.

Planning
Both the undergraduate and graduate Urban and Regional Planning programs are accredited by the Planning Accreditation Board.

Recreation and Leisure Services
The Council on Accreditation of Parks, Recreation, Tourism, and Related Programs has accredited the university’s program in recreation and leisure services at the baccalaureate level.

School Counseling
The master’s program in Applied Psychology: School Counseling is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and fulfills Washington state requirements for Educational Staff Associates (ESA) school counselor certification.

School Psychology
The School Psychology Program is accredited by the National Association of School Psychologists and is approved by the Washington State Board of Education as an Educational Staff Associates (ESA) Certification program.

Social Work
The Council on Social Work Education has accredited the School of Social Work undergraduate and graduate degree programs.
ADMISSIONS

Graduate Admissions (p. 22)

Undergraduate Admission Requirements and Criteria

All applications are completed and submitted online.

Applicants are reviewed individually.

Each category of undergraduate applicant—freshman, transfer, international, adult learners, post-baccalaureate and returning EWU students—have specific admission requirements. Review the information and definitions of each category carefully.

Accessing the Online Application

Access the online undergraduate admissions application (http://www.ewu.edu/apply).

Office of Admissions
304 Sutton Hall
Eastern Washington University
Cheney, WA 99004-2447

Application Deadlines

Term—Priority Deadlines—Final Deadline

- Fall—Feb. 15 quarter and semester—varies based on enrollment
- Winter—Oct. 15 quarter and semester—Dec. 1
- Spring—Feb. 15 quarter—Feb. 15
- Summer—Feb. 15 quarter—two weeks before the start of summer classes

Decisions on fall admission are made beginning in October, so early application is encouraged. Completed applications received after the priority dates are reviewed on a space-available basis. Applications received after August 15 for fall term or within two weeks of the start of all other terms will be deferred for consideration until the next quarter.

Note: Students who were academically dismissed from EWU must apply for reinstatement to good academic standing. Petitions for Academic Reinstatement are available from the General Undergraduate Academic Advising website (http://access.ewu.edu/academic-advising).

EWUs Right to Change Policies

Eastern Washington University reserves the right to change admissions policies and deadlines without notice.

Freshman Admission

A freshman applicant for the purposes of admission meets one of the following criteria:

- currently in high school;
- a high school graduate or equivalent without post-high school transferable college credit;
- a current high school student with Running Start credits.

All freshmen applicants must submit all of the following:

- a completed application for admission;
- self-reported CADR credits or official GED test scores;
- an official college transcript of any college courses completed while in high school;
- official SAT or ACT scores submitted directly from the testing agency or recorded on an official high school transcript;
- a non-refundable $50 application fee;
- official, final high school transcripts.

Freshmen applicants are admissible if they have a cumulative high school grade point average ≥3.3 and have completed the following College Academic Distribution Requirements (CADR).

The minimum CADR credits required for admission to EWU are:

- English—4
- Mathematics—3 (includes Algebra I, II, & Geometry or equivalents)
- Social Science—3
- Sciences—2 (1 laboratory science and 1 algebra based science)
- World Languages—2 (in a single language including ASL)
- Quantitative Reasoning—1
- Fine Arts—1 (or additional year from above CADR areas)

Students are encouraged to complete more than the minimum CADR requirements. The Washington Student Achievement Council provides guidelines of acceptable high school courses that meet these requirements as reported by each high school. Check with a high school counselor or an admissions representative if you have additional questions.

Transfer Admission

A transfer student for the purposes of admission meets one of the following criteria:

- graduated from high school and is currently enrolled in a two-year or four-year institution with course work transferable to EWU;
- earned transferable college-level credit after high school graduation.

All transfer applicants are required to submit all of the following:

- a completed application for admission;
- official high school transcripts or official GED test scores (if transferring with less than 40 quarter credits);
- official transcripts from every two-year or four-year institution attended;
- official SAT or ACT scores (if transferring with less than 40 quarter credits);
- a non-refundable $50 application fee.

At the time of application to EWU, transfer applicants are evaluated for admission in one of two ways:

- transfer applicants with less than 40 quarter hours of transferable college credit at the time of entry must:
  - satisfy the aforementioned freshmen admission criteria; and
  - have a cumulative GPA ≥2.0 in all transferable college-level courses.
- transfer applicants with 40 or more quarter hours of transferable college credit at the time of entry must:
  - show a minimum cumulative GPA ≥2.5 in all transferable college-level course work; or
  - show a minimum cumulative GPA ≥2.0 in all transferable college-level course work and completion of college-level English and intermediate algebra.
Note: Acceptance into many majors requires a GPA ≥2.0, prerequisite courses, service experiences and/or a separate application. Contact the appropriate department for details.

Post-Baccalaureate Admission
A post-baccalaureate student is defined for purposes of admission as any applicant with an undergraduate degree from a regionally accredited institution who is seeking course work toward a second bachelor’s degree, teacher certification or other course work that is not part of any EWU graduate program. All post-baccalaureate applicants must submit official university or college transcripts documenting their undergraduate degrees.

 Exceptions To Admission Criteria
EWU can admit up to 15 percent of all incoming freshmen who have not met CDRs or who have earned a GPA <3.3. Students who are admitted without completing the high school core courses may be required to complete specific courses for college preparation or to satisfy EWU graduation requirements. For example, a student deficient in high school foreign language may be required to complete foreign language at the 103 level at EWU. Some students may be admitted with the condition that they complete a core course during the quarter prior to entering EWU.

General Education Diploma
EWU will accept the General Education Diploma (GED) in lieu of high school graduation. Applicants who have completed the General Education Diploma must have achieved a minimum score of 50 with no score lower than 45 in any subject area.

Home School Students
Home school applicants must present evidence of the completion of the CDRs or their equivalents or a GED as proof of high school completion.

Student Athletes
Student athletes must meet the NCAA Clearinghouse requirements to be athletically eligible. For additional information, call 877.262.1492.

Applicants To EWU with Running Start Credits
Applicants with Running Start credits who are still in high school must meet all freshmen admission criteria as defined above and have a cumulative college GPA of ≥2.0.

Applicants to EWU who have enrolled in another college or university after high school graduation must meet all transfer admission criteria. In general, college credits earned by students through Running Start in the state of Washington are treated as transfer credits, as they are recorded on the official transcript of the college where the work was completed.

International Student Admission
An international student is defined as a student who is in the U.S. or planning to enter the U.S. for academic purposes and holds F-1 or J-1 immigration status.

International applicants will find helpful information about admissions and other student support services at www.ewu.edu/international. The International Admissions Team will assist prospective students in determining the appropriate academic entry level based on their application materials and educational goals.

International students are required to submit official transcripts from all colleges and universities (both foreign and within the U.S.). Applicants whose foreign transcripts cannot be verified must submit documents to World Education Services or another evaluation service member of NACES for evaluation and verification. Applicants must submit evidence of financial support or scholarship prior to receiving a visa eligibility document (Form I-20) from Eastern Washington University.

Required Application Materials for International Students:
• a completed application for admission;
• a US $50 application fee;
• original, official transcripts for all high school, college and university course work from both inside and outside of the U.S. An evaluated transcript with certified English translation is required for any transfer credits from a non-U.S. university or college;
• official financial statements (less than 6 months old);
• evidence of English proficiency as demonstrated via TOEFL, IELTS, a U.S. college composition course or an EWU ELI application;
• copies of current visas, passports, I-20s, or DS-2019 forms.

International students interested in transferring credits from a foreign country are required to submit an evaluated transcript from an accredited evaluation agency and provide individual course descriptions in English of all courses requested for transfer to EWU. For a list of accredited agencies go to www.naces.org.

An application for admission will be considered complete only when all of the required documents are received. Due to the time required to secure a student visa, students applying from outside the U.S. are encouraged to apply as early as possible. Submitting fraudulent documents will
result in automatic denial of application and/or dismissal from Eastern Washington University.

**English Language Requirements for Admission**

International students who have English as their second language and who have not completed a transferable English composition course (with a grade minimum ≥2.0) must submit one of the following official test scores:

- Test of English as a Foreign Language (TOEFL) score of at least 525 paper based, or 71 iBT,
- International English Language Testing System (IELTS) score of at least 6.0.

Applicants who do not meet these English language admissions requirements may be admitted to the university with the condition that they successfully complete a program of study with EWU’s English Language Institute (ELI). Students who wish to apply for conditional admission should submit an ELI application found at [www.eli.ewu.edu](http://www.eli.ewu.edu) in addition to the admission requirements stated above.

**Running Start Admission**

EWU is recognized as a Running Start institution by the Washington Department of Education. Eligible high school students may enroll in courses at EWU on a full- or part-time basis to meet high school requirements and earn college credit. Students must meet the minimum admission criteria, which may include SAT or ACT scores. Students interested in enrolling in Running Start through EWU should contact their high school guidance office or the Running Start Coordinator at Eastern Washington University at 509.359.6155.

**Transfer Agreements**

EWU participates in direct transfer agreements with community colleges in the state of Washington, Oregon, and select colleges in other states. Graduates of these colleges who complete a direct-transfer associate degree are admitted to EWU with junior standing and have satisfied the lower division general education core requirements.

**Intercollegiate (ICAO Policy)**

Students transferring to Eastern Washington University from a Washington public baccalaureate institution who have official documentation certifying completion of all the lower division general education requirements from the sending institution have satisfied EWU’s general education core requirements and university competencies and proficiencies. These are described in the sections titled, Core Requirements and University Competencies and Proficiencies and are shown in the shaded portion of the diagram The Undergraduate Degree.

**Transfer Credit and Evaluation of other Forms of College Credit**

Transfer credit is generally awarded for courses completed at regionally accredited two-year or four-year institutions. When determining transferable credit, EWU adheres to the standards and practices of the American Association of Collegiate Registrars and Admissions Officers. Questions about the transferability of credits completed at institutions that are not regionally accredited should be directed to the Office of Transfer Credit and Evaluation of other Forms of College Credit.

**Credit Totals**

Eastern Washington University will accept in transfer toward a bachelor’s degree no more than 90 lower-division credits. After a student has been admitted to a university major, additional lower-division credit may be allowed when the additional credit will advance the student toward degree completion and the smallest unit responsible for the student’s degree approves a petition filed by the student to allow more than 90 lower-division credits.

No more than 135 credits (lower- or upper-division) may be accepted in transfer for a bachelor’s degree. Transfer credit shall be accepted for upper-division credit only when earned at an accredited four-year, degree-granting institution as upper-division credit.

**Advanced Placement**

Credit for minimum scores on Advanced Placement examinations given by the College Board is awarded upon receipt of official score reports. Official scores should be submitted to the Office of Admissions. See Sources of Credit—AP for current score requirements and corresponding credits awarded.

**College in the High School Credits**

Applicants with credits earned through College in the High School programs must meet freshmen admission criteria. College in the High School courses will be accepted as transferable college credit if they are from a regionally accredited college or university and are consistent with EWU’s general transfer credit policy.

**College-Level Examination Program (CLEP)**

Eastern Washington University will award credit for CLEP tests. Acceptability of credits toward major requirements or general education core requirements is determined by the appropriate department. See Sources of Credit—AP for current score requirements and corresponding credits awarded.

**Experiential Credit**

For information on evaluation of experience for credit, see Interdisciplinary Studies or visit 361 Senior Hall, EWU, Cheney, WA 99004-2442; phone 509.359.2402.

**Foreign Educational Credentials**

Students interested in information about credit awarded for selected foreign educational credentials should contact the Office of Admissions.

**International Transfer Students**

International students interested in transferring credits from a foreign country should submit an evaluated transcript from an evaluation agency and provide individual course descriptions in English of all courses student plans to transfer to EWU. For a list of accredited agencies go to [www.naces.org](http://www.naces.org).

**International Baccalaureate**

Eastern Washington University will award credit for Higher Level International Baccalaureate exam results of 5 or better. Acceptability of credits toward major requirements or General Education Core Requirements (GECRs) is determined by the appropriate department. See Sources of Credit—AP for current score requirements and corresponding credits awarded.

**Military Credits**

Students may earn up to 45 quarter hours of credit for military educational experiences. This includes credits awarded for CLEP/DANTES tests. Note: Any student pursuing a bachelor of arts in Interdisciplinary Studies (Prior Learning Option) will not be awarded more than 90 quarter hours in credit from a combination of military experience and prior learning block credit. See Interdisciplinary Studies on page 20.
Veterans
College credit may be awarded for military service time. Veterans are encouraged to submit a photocopy or true copy of military separation, DD-214, or an equivalent document for credit evaluation.

State Authorization
EWU currently offers educational opportunities to students in multiple state jurisdictions through distance education. Due to a state authorization initiative throughout the nation, all universities offering educational activities, including but not limited to online learning, correspondence, internships, practicums and field placements, outside of their home state must be authorized by each state in which they offer courses. EWU is monitoring developments in state laws in every state. For the most up to date information on EWU’s state authorization progress please check our webpage often. www.ewu.edu/academics/stateauthorization.

Graduate Program Admission
206 Showalter Hall
509.359.6297
email (gradprograms@ewu.edu)

The Graduate Programs (http://www.ewu.edu/grad) office coordinates admission for all of Eastern’s graduate programs and provides a wide range of assistance to prospective and current students as well as to faculty and staff at the university. Admission to Graduate Programs requires—minimum—designation of a baccalaureate degree. For more information about the academic and student services provided by the office, including admissions and policies, call or email the Graduate Programs office or visit the website (http://www.ewu.edu/grad).

Application Process
All programs except Interdisciplinary Studies have an online application available via EagleNET (http://web.ewu.edu/eaglenet). Admission requirements for individual programs vary and usually include supplemental materials beyond the general application to Graduate Programs. Any supplemental materials required by a program should be sent directly to that department. Use the summary guidelines and the departmental listing on the Web or in the catalog immediately following this section to identify specific requirements. To be considered for admission, applicants must submit all materials by the specific deadlines established by each program. Applicants to more than one program (this includes dual-degree programs) must submit a complete, separate application for each program.

Application Requirements and Categories

All Applicants
Apply online and submit the required application fee. Applicants must pay the fee for each graduate program application, except for dual-degree program applicants, who pay only one fee for both applications.

Standardized Test Scores, gre/gmat: Submit official score reports from the Graduate Record Examination General Test (GRE), if required by the department, or score reports from the Graduate Management Admission Test (gmat) for MBA applicants. Official scores must be sent directly by the Educational Testing Service to Eastern (school code 4301). Computer-based testing is available in many areas and is offered regularly throughout the year. Call 1.800.GRE.CALL or refer to GRE (http://www.ets.org/gre) or G (http://www.gmat.org)MAT for more information.

Transcripts: Submit one official copy of transcripts from all colleges and universities previously attended. Students who received undergraduate degrees from Eastern do not need to request that those transcripts be sent to the Graduate Programs office.

International Applicants
In addition to the online application for admission, international applicants are required to submit a course-by-course credential evaluation through World Education Services (WES) or another credential evaluation service recognized by the National Association of Credential Evaluation Services (http://www.naces.org) (NACES). The wes application and forms (http://www.wes.org). Graduates of accredited U.S. universities are not required to submit a credential evaluation. One copy of official university transcripts or postsecondary academic records must also be sent directly to Graduate Programs, 206 Showalter Hall, Cheney, WA 99004-2444. International applicants who have already had a credential evaluation completed by wes or another credential service need to have an official copy of that evaluation sent to Eastern, along with a copy of their university transcripts.

Language Proficiency
All students from countries where English is not the native language must provide evidence of adequate proficiency in the English language before being admitted to graduate study. All applicants must meet all other admission requirements in addition to the English language proficiency requirement in order to be admitted. The language requirement may be satisfied by submitting an official score report showing any of the following scores on the Test of English as a Foreign Language (TOEFL), paper-based test (PBT) or Internet-based test (IBT); the Pearson Test of English, Academic (PTE-A); or the International English Language Testing System (IELTS).

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL PBT</td>
<td>580 or higher</td>
</tr>
<tr>
<td>TOEFL IBT</td>
<td>92 or higher</td>
</tr>
<tr>
<td>PTE-A</td>
<td>63 or higher</td>
</tr>
<tr>
<td>IELTS</td>
<td>7.0 or higher</td>
</tr>
</tbody>
</table>

Otherwise admissible applicants who submit an official score report showing any of the following English language test scores may be admitted conditionally, upon recommendation of the academic program. In such cases, registration for classes is conditional upon having a program of English language study approved by the director of the Teaching English as a Second Language (TESL) program. A student with conditional admission may be granted full admission upon presentation of a new official score report showing any of the test scores identified above as satisfying the English language proficiency requirement or upon recommendation of the director of the TESL program.

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL PBT</td>
<td>550-579</td>
</tr>
<tr>
<td>TOEFL IBT</td>
<td>79-91</td>
</tr>
<tr>
<td>PTE-A</td>
<td>53-62</td>
</tr>
<tr>
<td>IELTS</td>
<td>6.5</td>
</tr>
</tbody>
</table>

Applicants who submit an official score report showing any of the following English language test scores may be admitted to the University.
as post-baccalaureate students and may take up to 12 pre-admission credits to be counted toward a graduate degree after graduate admission and with program approval. These applicants may be granted full admission upon presentation of a new official score report showing any of the test scores identified in the first table above as satisfying the English language proficiency requirement or may be granted conditional admission for new scores in the conditional range in the second table above.

### Test Scores

<table>
<thead>
<tr>
<th>Test</th>
<th>Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>TOEFL PBT</td>
<td>525-549</td>
</tr>
<tr>
<td>TOEFL iBT</td>
<td>79-91</td>
</tr>
<tr>
<td>PTE-A</td>
<td>53-62</td>
</tr>
<tr>
<td>IELTS</td>
<td>6.0</td>
</tr>
</tbody>
</table>

**Please note:** international applicants who have earned an undergraduate degree from an accredited post-secondary institution in the U.S. are not required to submit an English language test score as part of their application.

### Alternative to submitting test scores to meet the English language proficiency admission requirement:
Otherwise admissible applicants may, with the written approval of the academic program, be admitted upon successful completion of a prescribed program of appropriate content course work and English Language Institute (ELI) course work. This course work will be agreed upon in advance by both the program and ELI. Successful completion is defined by the academic program for the content courses and by ELI in the advanced language level by achieving linguistic proficiency with a good rating on the ELI scale of fair/good/excellent. Up to 12 credits of content course work completed before admission may be applied to the appropriate graduate program after admission with the program’s written approval.

**Note:** this policy is not to be construed as replacing evaluation by the director of the TESL program for applicants with an English language test score in the conditional range in the second table above, nor should it be construed as a policy on conditional admission to graduate studies.

### Graduate Admission Requirements and Exceptions to Minimum Requirements

A baccalaureate degree from an appropriately accredited college or university is required for admission to a graduate program. Upon receipt of a complete application, eligibility for graduate admission is determined by evidence of scholarly ability as indicated by a minimum GPA ≥3.0 in the last 90 quarter or 60 semester-graded hours. Applicants with an earned graduate or professional degree from an appropriately accredited institution meet the minimum GPA admission requirements.

Admission to a graduate program is granted only after recommendation by the major department and the approval of the vice provost for Academic Planning, Graduate Programs, Grants and International Research.

### Exceptions to GPA Requirements for Graduate Admission

Upon written recommendation by the program director, the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research may approve the admission of a limited number of students who do not meet the GPA minimum, based upon considerations which include GRE or other test scores, performance in relevant graduate courses, and faculty evaluations.

### Professional Experience and Graduate Admissions

Applicants with at least 10 years of increasingly responsible professional experience in the field for which they are applying may be considered for regular admission to Graduate Programs. These applicants must have a baccalaureate degree from an accredited university, follow the general application procedures outlined above and meet the following requirements:

- submit a transcript showing a GPA ≥3.0 for the last 90 quarter- or 60 semester-graded hours; or
- submit satisfactory scores on the GRE, GMAT or other approved test; or
- write an essay demonstrating critical thinking skills; or
- write a statement of intent demonstrating a level of knowledge and intellectual maturity appropriate to the proposed field of graduate study; or
- present evidence of professional success in a field relevant to the proposed area of study.

Applicants for admission under the professional experience provision must work closely with the program advisor or director to ensure that all required materials are received and reviewed. Any recommendation for admission under this provision must come from the academic department or program to the Graduate Programs office. Admission is granted only with the approval of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research. Call the Graduate Programs office if there are further questions.

### Grading System, Policies and Appeals

General information is provided in the policy section at the back of the catalog, including the full policy on grade appeals. Also see the information following Graduate Programs Academic Policies and Degree Requirements section.

### Graduate Degree Requirements

Each academic program specifies the particular requirements for the degree in the program listings in the center of this catalog. Graduate degree specializations must be built upon adequate undergraduate preparation. The minimum credits required to complete a graduate degree at Eastern are as follows:

<table>
<thead>
<tr>
<th>Degree</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Master of Science</td>
<td>48</td>
</tr>
<tr>
<td>Master of Education</td>
<td>48</td>

</tbody>
</table>

\(^1\) 78 credits at EWU with 12 transfer credits from Gonzaga. Dual-degree students in this program must satisfy all Gonzaga University law school juris doctorate requirements.

\(^2\) 39 credits at EWU with 12 transfer credits from Gonzaga. Dual-degree students in this program must satisfy all Gonzaga University law school juris doctorate requirements.

Complete requirements for all graduate students are established and approved by the Graduate Affairs Council. A copy of the current policy manual (http://www.ewu.edu/about/administration/president/policies).
GRADUATE STUDIES

Graduate Programs
206 Showalter Hall
509.359.6297
e-mail (gradprograms@ewu.edu)

The Graduate Programs (http://www.ewu.edu/grad) office coordinates admission for all of Eastern’s graduate programs and provides a wide range of assistance to prospective and current students as well as to faculty and staff at the university.

Graduate Programs Academic Policies
For a summary of student responsibilities relative to these policies, see the Policies section at the end of this catalog.

Academic Standards
• At least 75 percent of the total credits for a graduate degree must be at the 500 level or above. Note: interdisciplinary degrees (as described separately in this catalog) may include no more than 12 quarter credits of undergraduate course work.
• Distance-delivered courses numbered 400 or above, offered by accredited institutions as graded courses and part of a graduate program of study may be included in a graduate degree program at Eastern at the discretion of the program department.
• No 300-level courses are allowed in a graduate degree program without prior permission from the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research. Only one approved 300-level course of up to five quarter credits is allowed in any graduate program.
• No program requirements can be satisfied with a course grade <2.0.
• Only two courses in a student’s degree program may be <2.5; repeats do not change this rule.
• Pass/No Credit courses may count in a graduate degree program, but a student must complete 75 percent of the quarter credits required for the program as graded work. Upper-division undergraduate courses (300–400) with pass/no credit grades cannot be included as part of the graduate program.
  1. Pass/No Credit grades are utilized only in designated graduate-level courses. (Graduate courses may not be taken Pass/No Credit unless the course has been so designated by departments.)
  2. Students with more than two no-credit (NC) grades in their program will have their record reviewed by the program advisor with possible termination of the program as a consequence.
• Proof of competency in research is required of all graduate degree candidates.
• Senior students with exceptional ability and appropriate background may enroll in 500-level courses only with prior written permission of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research.
• Three-fourths of the minimum credits required for the specific degree program must be earned in approved courses offered by EWU. The remaining credits may consist of approved credits from other accredited institutions.

Appeals
Occasionally, a student may wish to appeal one of Eastern’s graduate policies. Student appeals of graduate policies and procedures should be addressed to the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research. These appeals should be made in writing, initiated by the student, and endorsed by the appropriate graduate program advisor or director. The appeal document must contain adequate justification demonstrating that the student possesses sufficient outstanding qualities to balance identified weaknesses.

Note: appeals of the policy on previous graduate credit found on page 37 are heard by an Academic Appeals Board.

Course Level Policies
All departments may offer these types of courses, but not all may be listed in this catalog; check with individual department offices for the most current information on course availability.

<table>
<thead>
<tr>
<th>Upper Division</th>
<th>Graduate Division</th>
</tr>
</thead>
<tbody>
<tr>
<td>400-499 primarily for seniors; graduate students may count a limited number of credits from graded courses, only with program approval</td>
<td>500-599 graduate level; senior undergraduates may enroll only with permission of both department chair and vice provost</td>
</tr>
<tr>
<td>600-699 graduate level only</td>
<td>700-799 doctoral level only</td>
</tr>
</tbody>
</table>

At all levels, course numbers ending in 95 through 99 indicate special courses, with the particular subject matter varying from quarter to quarter:

- 95: internships
- 96: experimental
- 97: workshops, short courses, conferences (Only one workshop course of up to 3 credits may be used to fulfill graduate degree requirements.)

- 98: seminars
- 99: independent and directed study

Course Loads
The minimum full-time enrollment for graduate students is 10 quarter credits for students on a quarter calendar (QC) and 15 quarter credits for students on a semester calendar (SC). A standard study load normally involves around 12 quarter credits for full-time QC students or 18 quarter credits for full-time SC students. The course load of graduate students may not in any term exceed 18 quarter credits for QC students or 27 quarter credits for SC students. The course load of graduate students may not in any term exceed 18 quarter credits for QC students or 27 quarter credits for SC students without the approval of the student’s advisor and the appropriate department chair or designee. Students receiving a graduate service appointment must also have the approval of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research to enroll in overload credits. Call 509.359.6297 with any questions.

Course Repeat
Courses may be repeated for graduate credit. However, as stated above under Academic Standards, only two courses in a student’s degree program may be <2.5; repeats do not change this rule. Also see the probation policy below and the general information on the grading system in the policy section in the back of the catalog.
Degree Completion and Use of University Resources
After being admitted to a graduate program a student has six calendar years in which to complete a graduate degree program, beginning with the quarter the student is admitted, subject to the following exceptions:

- This policy may not be construed to change the six-year limit between commencement of study toward the degree and completion of the degree program. (The six-year limit begins with the date of the first course used toward degree requirements, including any pre-admission credits.)
- Admitted students who fail to complete the degree within the six-year period will be dropped from the program and must re-apply for admission to the degree program with evaluation of all credits taken to date and pay the application fee.
- Students who are using university resources during the six-year period, including faculty consultation, laboratories, library resources, scheduling and completing final examinations, must register for a minimum of 2 credits. In the quarter of defense, the student must be enrolled for a minimum of 2 credits. (Summer session only permits 1 credit registration.)

Enrollment Policies for Graduate Students
Graduate students may register only after being fully admitted to EWU. Any student who attends classes but fails to register for those classes through the Records and Registration Office will not receive credit for those classes. Students who register after the registration period will be assessed a late registration fee per course. The instructor’s permission is required for late registration. An advisor’s signature is required prior to registration for all new entering students, returning students on academic dismissal, those on probation and any student with an overload of credits.

Failure to attend the first class meeting may result in loss of registration in that course section. Failure to complete all prerequisite requirements prior to registering may result in loss of registration.

Please refer to the quarterly announcement at www.ewu.edu/registrar (http://www.ewu.edu/registrar) for further information on registration procedures such as how to drop, add and withdraw.

Graduate Degree Candidacy
Advancement to graduate degree candidacy means that the department is encouraging the student to complete his or her degree. The student’s program is planned at this time, and the student is assured protection against subsequent program changes.

Advancement to Graduate Degree Candidacy requires the following steps:
- completion of at least 15 graded credits in a degree program;
- maintenance of at least a cumulative GPA ≥3.0 in all courses since admission to Graduate Programs;
- submission of the application for degree candidacy form to the Graduate Programs office, specifying a degree study program approved by the major department. At the student’s option, the program may be based on either current catalog requirements or the catalog in effect at the time of admission. The form must be submitted before the student has completed one-half the minimum credits unless program requirements allow submission after the midpoint of the student's program. All applications for graduate degree candidacy must be submitted no later than the second Friday of the quarter before anticipated graduation unless special permission is granted by the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research;
- completion of any specific departmental requirements;
- approval of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research or designee.

Graduate Degree Committees and Final Comprehensive Exams
After a student has advanced to degree candidacy, a committee is appointed to arrange, conduct and appraise the comprehensive examination. Satisfactory completion of the comprehensive exam is required to graduate.

Graduate degree committees are normally comprised of three members, one acting as the chair. The chair of the graduate committee is a faculty member from the student’s specialization. Another member is chosen to represent the broader academic aspects of the candidate’s program. The third member is a representative of the Graduate Affairs Council, which governs graduate policies and programs. The council representative is selected from a department outside the student’s primary academic area and is appointed to the committee by the vice provost for Graduate Education and Research. (See the approved departmental comprehensive exams third member policy that follows this section of the catalog.) When necessary to represent all the areas of a student’s preparation, the vice provost may authorize additional members.

After the committee is confirmed, the candidate and faculty members are officially notified of the committee membership by the Graduate Programs office. The candidate must confer with his or her chair regarding the date of the comprehensive examination. It may be scheduled any time after submission to the Graduate Programs office of the terminal research approval form. This form is signed by the student’s chair and internal member to indicate their approval for the examination to be held. The Graduate Programs office must be notified of the scheduled examination at least 10 working days prior to the examination date. Except in the case of a written examination, all comprehensive exams are open to the public and must be announced to the student’s academic unit(s) at least one week prior to the exam.

The examination is conducted by the chair of the committee, and questions are based upon the candidate’s research and/or areas of study. The examination is approximately two hours. The committee members then determine, by majority vote, whether the candidate is successful, unsuccessful or not yet qualified. The official report of the committee’s decision must be returned to the Graduate Programs office for inclusion in the student’s permanent records and to use for degree checkout.

Note: A comprehensive examination cannot be scheduled for any student who has an × grade in any course in his/her degree program, current course work excepted. Student and faculty signatures on the terminal research approval form are verification that there are no × grades. Students who successfully complete their comprehensive examinations must meet any outstanding degree requirements within one quarter of their exams or be assessed a late completion fee equal to the cost of one-half of one resident graduate credit for purposes of degree checkout and degree posting. Post-examination internships required for degree completion are excluded. If the student does not complete by the end of one term, the late completion fee will be assessed for each term the course work is incomplete.

Graduation Application
Application for completion of the graduate degree must be filed with the Graduate Programs office no later than the second Friday of the quarter prior to expected graduation. Students on a semester calendar
must apply no later than five months before the last day of the semester of expected program completion. Early application is encouraged. A diploma fee is required. Fees change annually; check with the Graduate Programs office. Late applications are subject to a fee. Applications received after the deadline may delay posting of the degree on official university transcripts and mailing of the diploma.

Note: only students who have completed all degree requirements during the current academic year, or who have applied to graduate by the deadline for summer of the current academic year will be included in the commencement program.

Graduation Grade Point Average
The graduation GPA includes credits and grade points earned at Eastern and transfer credits and grade points accepted by Eastern. This grade point is used for determining graduation eligibility. The transfer GPA does not appear on an EWU transcript. University academic honors (cum laude, magna cum laude, summa cum laude) are not awarded to graduate students based on GPA.

Multiple Graduate Degrees and Programs
Students who have finished one graduate degree may be awarded another graduate degree when they have finished the requirements for the second degree as set forth in the graduate catalog. Students may also pursue and be enrolled in two programs simultaneously.

Students must meet all the requirements of the second degree, including course work, tests, thesis, foreign language, experience, age of credits, departmental recommendations and other requirements as specified. Students may apply a maximum of 12 department/program credits from one graduate degree or degree program to a second or additional graduate degree. (This does not apply to dual-degree programs.)

Maximum Attempted Credits
Graduate students are expected to make efficient progress toward their degree. Those found to have attempted credits on their record at or above 150% of the minimum number of credits required for their program, excluding independent study, thesis or research project courses, will be prevented from registering until they have met with their academic advisor, established a revised plan for program completion and specified a new graduation term. This plan must be submitted with the written support of the student's academic advisor and approved by the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research. Students who have been readmitted will have up to two terms to return to good academic standing with a cumulative graduate GPA ≥3.0. Extensions of probationary status may be approved on the written recommendation of the program and with the approval of the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research. Students who are not recommended for continuation are not eligible for one year to reapply for admission to graduate studies.

Residency Requirement (at EWU)
Three-fourths of the minimum credits required for the specific degree program must be earned in approved courses offered by EWU. The remaining credits may consist of approved credits from other accredited institutions. (For information about establishing residency, see the policy section of this catalog for state of Washington residency.)

Thesis, Research Report or other Terminal Document Requirements
Completion of a thesis or research report is required by most graduate programs. Research reports are submitted to the department in whatever form, style and number the department requires. Instructions on form and style requirements for a master’s thesis are available from the Graduate Programs office and from our website at www.ewu.edu/grad (http://www.ewu.edu/grad). When a student is submitting a thesis, research report or other terminal document, either the document or an abstract must be provided to committee members at least two weeks in advance of the final comprehensive examination. Any required changes are to be completed for final approval by the committee within 10 working days of the examination, or the end of the term, whichever comes first.

Four approved copies of the thesis must be presented to the Graduate Programs office within 10 working days of the oral examination, or by the end of the term, whichever comes first. By that time, a $63 binding fee must be paid. Thesis students must also submit a digital copy (gradthesis@ewu.edu) of their thesis in both MS Word format and PDF format (Computer Science students may use Latex). In addition, thesis students must submit a signed copy of the Graduate Thesis Submission (http://www.ewu.edu/grad) Form along with their thesis copies.

Note: The university has policies and procedures in place to ensure that individuals conducting research, including graduate students, comply
with applicable federal and state regulations governing the use of human subjects, the care and use of animals, significant financial interest disclosure, scientific misconduct, intellectual property and copyrights. If the student’s research is affected by any of the above, he or she may be required to obtain university approval prior to initiating the research. Further information and application materials are available from the Office of Grants and Research Development, 210 Showalter Hall. Also see the Regulations for Research section of this catalog.

**Y grades for Thesis, Research report and other courses requiring more than a single quarter to complete**

Students are expected to enroll for an appropriate number of research credits each term they use university resources such as faculty time, laboratories and the library. The Y grade may be used to defer assigning of a grade until the project is completed. The Y grade is not to be used in lieu of an incomplete. A specified maximum number of Y-graded credits are allowed by each program.

**Y Grade Maximums**

**Approved Departmental Comprehensive Exams Third Member Policy**

**Biology**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.

**Communication Disorders**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.

**Communications**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.

**Computer Science**

Third member for the oral comprehensive exam may be chosen by the Computer Science Department or by the Graduate Programs office. Students must be registered the quarter they take their final oral exams. If the department selects the third member, notification of the third member should be made at the beginning of the term prior to the comprehensive exam (preferably at the time of candidacy).

**Education**

Third member for the oral comprehensive exam may be selected by the student. Students who are unable to select their third members must notify the Graduate Programs office at least one term in advance of the term in which their exams are conducted (preferably at the time of candidacy). Oral comprehensive examination for special education. Third member may be selected by the student or by the Graduate Programs office. Students who select their third members must provide the Graduate Programs office with the third members names at the beginning of the term prior to the term in which their exams are conducted (preferably at the time of candidacy).

**English**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.

**History**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.

**Interdisciplinary**

Third member for the oral comprehensive exam is selected by the Graduate Programs office.
Music
Third member for the oral comprehensive exam is selected by the Graduate Programs office.

Occupational Therapy
The final comprehensive examination must be successfully completed before enrollment in OCTH 695 that begins in the final year of the program. Third member for the oral comprehensive exam is selected by the Graduate Programs office.

Physical Therapy
Written comprehensive examination with review by the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research, in final term of didactic work, prior to commencing full-time clinical internships. At least one graduate faculty member selected by the Graduate Programs office will attend the annual research project presentations.

Psychology
For School Psychology, and all other psychology students, the third member for the oral comprehensive examination is selected by the Graduate Programs office. Orals will not be held during breaks or summer term.

Graduate Programs office is then responsible for selecting the third member. Third member for the written examination, a faculty member, will be designated by the Graduate Programs office.

Physical Education
Third member for the oral comprehensive exam is selected by the student. Students who are unable to select their third members must notify the Graduate Programs office at least one term in advance of their comprehensive exams (preferably at the time of candidacy). The Graduate Programs office is then responsible for selecting the third member.

Music
Students who select their third members must provide the Graduate Programs office with their third member’s name at the beginning of the term prior to the term in which their exams are conducted (preferably at the time of candidacy).

Public Administration
Third member for the oral comprehensive exam is selected by the Graduate Programs office.

Social Work
Third member for the oral comprehensive exam may be selected by the student or by the Graduate Programs office. Students who select their third members must provide the Graduate Programs office with their third member’s name at the beginning of the term prior to the term in which their exams are conducted (preferably at the time of candidacy).

Urban Planning
Third member for the oral comprehensive exam may be selected by the student or by the Graduate Programs office. Students must be registered the term they take their comprehensive exam orals. Students who select their third members must provide the Graduate Programs office with the third member’s name at the beginning of the term prior to the term in which their exams are conducted (preferably at the time of candidacy).

Graduate Student Summary Guide to Policies and Procedures

<table>
<thead>
<tr>
<th>Procedure</th>
<th>Action</th>
<th>Deadline</th>
<th>Explanation</th>
<th>Consequences/Information</th>
</tr>
</thead>
<tbody>
<tr>
<td>Apply for candidacy and select graduate faculty committee members.</td>
<td>Student approaches advisor to formalize graduate program plan, discuss second committee member, and determine if Human Subject (IRB) must be filed. Program approval for candidacy indicated by student and two graduate program faculty signatures on candidacy form. Form then submitted to Graduate Programs Office for review.</td>
<td>After completion of 15 graduate credits and before completing one-half the minimum credits in degree program. In all cases application must be submitted by the second Friday of the quarter prior to intended graduation.</td>
<td>Supports timely progress to degree completion; protects students from degree requirement changes; begins IRB review, if needed. Approved candidacy applications acknowledged by letter of advancement from vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research.</td>
<td>Inaccurate or incomplete candidacy application delays advancement. Late submission requires a written appeal to the vice provost for Academic Planning, Graduate Programs, Grants and Institutional Research and possible delay in graduation. Lack of IRB can invalidate research.</td>
</tr>
<tr>
<td>Submit Graduation Application and fee.</td>
<td>Apply to graduate online through EagleNET. Log in to EagleNET, click on the Student tab, and then click on Student Records.</td>
<td>Second Friday of the quarter prior to intended graduation (earlier is recommended.)</td>
<td>Allows for timely review of student’s program prior to graduation.</td>
<td>Late submission delays graduation until next quarter, and incurs fee. Late applicants must submit a paper application.</td>
</tr>
<tr>
<td>Register in final quarter of program for at least 2 credits (1 credit minimum summer term only).</td>
<td>Consult with advisor or graduate program director about remaining requirements.</td>
<td>Quarter of program completion.</td>
<td>Meets state requirement of registration for students using university resources.</td>
<td>Only currently registered students are eligible to complete a graduate program.</td>
</tr>
<tr>
<td>Select outside member for comprehensive examination.</td>
<td>Review Approved Third Member policy in catalog; Graduate Programs Office selects from approved graduate faculty unless otherwise specified by department policy.</td>
<td>Graduate Programs Office notifies student near the beginning of the quarter of intended graduation (the quarter entered on the candidacy) unless student has already identified a member of the graduate faculty as the third.</td>
<td>Provides rigor, procedural guidance, and helps ensure examination is comprehensive.</td>
<td>Late candidacy application delays selection of outside member required for comprehensive exam to be held.</td>
</tr>
<tr>
<td>------------------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
<td>---------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Submit Terminal Research Approval form.</td>
<td>Committee chair and second committee member sign form and submit to Graduate Programs Office.</td>
<td>Must be received in Graduate Programs Office at least two weeks prior to the exam, earlier is recommended. Exam schedule may be submitted on this form.</td>
<td>Indicates committee approval to proceed with comprehensive examination based on review of drafts.</td>
<td>Comprehensive examination cannot be scheduled without receipt of form in Graduate Programs Office, or if any X grades are on student record for prior terms.</td>
</tr>
<tr>
<td>Schedule comprehensive examination.</td>
<td>Student arranges date, time and location agreed to by all committee members and then notifies Graduate Programs Office.</td>
<td>Graduate Programs Office must be notified two weeks prior to scheduled date and after receipt of Terminal Research Approval Form.</td>
<td>Allows time for notice and comprehensive exam report form to be sent to committee members.</td>
<td>Failure to schedule may lead to cancellation or invalidation of examination.</td>
</tr>
<tr>
<td>Provide approved Thesis, Research Report or other terminal document draft.</td>
<td>Student provides a copy to all comprehensive examination committee members.</td>
<td>Two weeks prior to examination each committee member must have a copy of the document.</td>
<td>Allows faculty sufficient time to review document and prepare for comprehensive examination.</td>
<td>Comprehensive examination could be canceled if documents not provided by deadline.</td>
</tr>
<tr>
<td>Complete Comprehensive Examination.</td>
<td>Committee Chair, or other designated participant in exam submits form to Graduate Programs Office.</td>
<td>Original comprehensive exam report form due in Graduate Programs office immediately following exam.</td>
<td>Verifies examination results; becomes part of permanent student record.</td>
<td>Lack of original form will delay program and degree completion.</td>
</tr>
<tr>
<td>Thesis students only—Submit four copies on 100% cotton bond paper and the $63 thesis binding fee, also submit one electronic copy as a Microsoft Word *.docx file (Computer Science students may submit LaTeX version of thesis).</td>
<td>Graduate Programs Office must receive the following: original comprehensive exam report form.</td>
<td>Original comprehensive exam report form due in Graduate Programs office immediately following exam.</td>
<td>Verifies examination results; becomes part of permanent student record.</td>
<td>Lack of original form will delay program and degree completion.</td>
</tr>
<tr>
<td>Attend Commencement.</td>
<td>Verify completion of application for graduation; order cap, gown, and hood four weeks prior to graduation from EWU bookstore.</td>
<td>All participants in June Commencement must meet posted spring graduation application deadline to be included in bulletin.</td>
<td>Fall, winter, spring, and summer graduates may participate in ceremony.</td>
<td>Participation encouraged; one ceremony and one bulletin published annually.</td>
</tr>

</table>

1 Contact program advisor about any changes to candidacy or committee. All required forms and guidelines can be found at www.ewu.edu/grad (http://www.ewu.edu/grad).

**Graduate or Post-Master's Certificates**

A graduate certificate is not a degree; it is a focused collection of courses that, when completed, affords the student a record of coherent academic accomplishment in a given discipline or set of related disciplines. A graduate certificate is not a guaranteed means of entry into a graduate degree program. While the courses comprising a graduate certificate may be used as evidence in support of a student’s application for admission to a graduate degree program, the certificate itself is not considered to be a prerequisite.

The course content in a graduate certificate program may represent a practice-oriented segment of an existing graduate discipline. An earned baccalaureate degree or its equivalent from an accredited college or university is required for admission to a graduate certificate program.

A Graduate Programs admission application is required before completion of one-half of the credits in a graduate certificate program. No additional admission application fee is charged for current degree-seeking graduate students at EWU. A maximum of 40% of the credit hours toward any certificate program may be accepted as transfer credit. Students pursuing a graduate certificate will be required to meet the same academic requirements as those defined for degree-seeking students.

The Graduate Programs Office will note successful completion of a certificate program on the student’s transcript after receipt of a
completed graduation application. Graduation applications are due following the deadlines for graduate degree graduation applications.

### Transfer Students

Visit the Transfer Students (http://www.ewu.edu/undergrad/transfer) page.

A transfer student for the purposes of admission is defined as a student who has:

- graduated from high school and is currently enrolled in a two-year or four-year institution with course work transferable to Eastern; or
- transferable college-level credit earned after high school graduation.

All transfer applicants are required to submit:

- a completed application for admission;
- official high school transcripts or official GED test scores (if transferring with less than 40 quarter credits);
- official transcripts from every two-year or four-year institution attended;
- official SAT or ACT scores (if transferring with less than 40 quarter credits);
- a non-refundable $50 application fee.

At the time of application to Eastern, transfer applicants are evaluated for admission in one of two ways:

1. transfer applicants with less than 40 quarter hours of transferable college credit at the time of entry must:
   - satisfy the aforementioned freshmen admission criteria and have a cumulative GPA ≥2.0 in all transferable college-level courses.

2. transfer applicants with 40 or more quarter hours of transferable college credit at the time of entry must:
   - show a minimum cumulative GPA ≥2.5 in all transferable college-level courses;
   - show a minimum cumulative GPA ≥2.0 in all transferable college-level course work and completion of college-level English and intermediate algebra.

Note: Acceptance into many majors requires a gpa ≥2.0, prerequisite courses, service experiences and/or a separate application. Contact the appropriate department for details.

### Transfer Agreements

Eastern participates in direct transfer agreements with community colleges in the state of Washington, Oregon, and select colleges in other states. Graduates of these colleges who complete a direct-transfer associate degree are admitted to Eastern with junior standing and have satisfied the lower division general education core requirements.

### Intercollegiate (ICAO Policy)

Students transferring to Eastern Washington University from a Washington public baccalaureate institution who have official documentation certifying completion of all the lower division general education requirements from the sending institution have satisfied Eastern’s general education core requirements and university competencies and proficiencies. These are described in the sections titled, Core Requirements and University Competencies and Proficiencies and are shown in the shaded portion of the diagram The Undergraduate Degree.

### Transfer Credit and Evaluation of Other Forms of College Credit

Transfer credit is generally awarded for courses completed at regionally accredited two-year or four-year institutions. When determining transferable credit, Eastern adheres to the standards and practices of the American Association of Collegiate Registrars and Admissions Officers. Questions about the transferability of credits completed at institutions that are not regionally accredited should be directed to the Office of Admissions.

Eastern Washington University will accept in transfer toward a bachelor’s degree no more than 90 lower-division credits. After a student has been admitted to a university major, additional lower-division credit may be allowed when:

1. the additional credit will advance the student toward degree completion and
2. the smallest unit responsible for the student’s degree approves a petition filed by the student to allow more than 90 lower-division credits.

No more than 135 credits (lower- or upper-division) may be accepted in transfer for a bachelor’s degree. Transfer credit shall be accepted for upper-division credit only when earned at an accredited four-year, degree-granting institution as upper-division credit.

**Advanced Placement:** Credit for minimum scores on Advanced Placement examinations given by the College Board is awarded upon receipt of official score reports. Official scores should be submitted to the Office of Admissions. See the Sources of Credit list immediately following this section of the catalog for current score requirements and corresponding credits awarded.

**College in the High School Credits:** Applicants with credits earned through College in the High School programs must meet freshmen admission criteria. College in the High School courses will be accepted as transferable college credit if they are from a regionally accredited college or university and are consistent with Eastern’s general transfer credit policy.

**College-Level Examination Program (CLEP):** Eastern Washington University will award credit for CLEP tests. Acceptability of credits toward major requirements or general education core requirements is determined by the appropriate department. See the Sources of Credit list that immediately follows this section of the catalog for current score requirements and corresponding credits awarded.

**Experiential Credit:** For information on evaluation of experience for credit, see the information under Interdisciplinary Studies in the alphabetical academic program listings in the center of the catalog or contact Interdisciplinary Studies, 361 Senior Hall, EWU, Cheney, WA 99004-2442; phone 509.359.2402.

**Foreign Educational Credentials:** Students interested in information about credit awarded for selected foreign educational credentials should contact the Office of Admissions.

**International Transfer Students:** International students interested in transferring credits from a foreign country should submit an evaluated transcript from an evaluation agency and provide individual course descriptions in English of all courses student plans to transfer to EWU. Click a list of accredited agencies (http://www.naces.org).
International Baccalaureate: Eastern Washington University will award credit for Higher Level International Baccalaureate exam results of 5 or better. Acceptability of credits toward major requirements or General Education Core Requirements (GECRs) is determined by the appropriate department. See the Sources of Credit list that immediately follows this section of the catalog for current score requirements and corresponding credits awarded.

Military Credits: Students may earn up to 45 quarter hours of credit for military educational experiences. This includes credits awarded for CLEP/DANTES tests. Note: Any student pursuing a bachelor of arts in Interdisciplinary Studies (Prior Learning Option) will not be awarded more than 90 quarter hours in credit from a combination of military experience and prior learning block credit. See the information on Interdisciplinary Studies in the alphabetical listing of programs in the center of the catalog.

Veterans: College credit may be awarded for military service time. Veterans are encouraged to submit a photocopy or true copy of military separation, DD-214, or an equivalent document for credit evaluation.

PLACEMENT

Policy on Enrollment in Pre-University Skills Courses
Students whose placement testing places them in pre-university skills courses must enroll in at least one such course (5 credits) per quarter until these course requirements are satisfied. Furthermore, all students so placed must complete all pre-university mathematics, English and computer literacy courses before the completion of 45 university course credits. Failure to do so will result in a hold on subsequent registration until a plan to satisfy the pre-university requirements is accepted and has been signed off by their advisor. Students who have declared their majors will work with their advisor in their academic departments. Students who are undeclared will work with advisors in General Undergraduate Academic Advising. Students will need adequate advising to remain in compliance with this policy. Unavailability of these courses, as certified by your academic advisor in a given quarter, suspends this requirement for that quarter.

Pre-University Basic Skills include: CPLA 100, ENGL 100, MTHD 103, MTHD 104, MTHD 106.

Admitted freshman and transfer students may be required to complete placement tests in English composition and mathematics.

Examination Requirements
Students must complete a mathematics placement exam if they have not completed the equivalent of MTHD 104 with a grade ≥2.0. Transfer students who do not have an approved direct-transfer associate degree or an intermediate college algebra course with a grade ≥2.0 must take the mathematics placement test. English composition placement is based on a student’s SAT or ACT test scores if the student has not completed at least one composition course at a college or university. Note: the mathematics placement test may be taken twice in a calendar year with at least two weeks between test times.

Computer Literacy Clearance
Computer Literacy clearance must be achieved by all students to earn a baccalaureate degree.

Specific information on what is covered in the challenge exams as well as exam procedures and dates are posted at: complit@ewu.edu

Competency is demonstrated by successful completion of the clearance examination or completion of CPLA 100 (1) with a P grade and CPLA 101 (1) with a grade ≥2.0 or completion of CPLA 120 (5) with a grade ≥2.0.

• CPLA 100 does not count for college credit.

The following students must complete the computer literacy requirements:

• all incoming students without a direct transfer associate degree or a previous bachelor’s degree.
• all students in programs requiring CPLA 100, CPLA 101 or CPLA 120, including students with direct transfer associate degrees.
• all students with course requirements having CPLA 100, CPLA 101 or CPLA 120, including students with direct transfer associate degrees.

English Composition Competency and Proficiency
English Composition competency and proficiency must be demonstrated by all students to earn a baccalaureate degree.

For more information, contact the English Composition Program, 509.359.7064.

Competency is demonstrated by placement into ENGL 201 based on the placement test score or by submission of an official transcript showing completion of ENGL 101 or its equivalent, at a post-secondary institution with a grade ≥2.0.

Students placed into ENGL 100, or ENGL 101, must complete ENGL 100 with a grade of P and ENGL 101 with a grade ≥2.0 before proceeding to the next level of English.

• ENGL 100 does not count for college credit.

Proficiency is demonstrated by completion of ENGL 201 or by submission of an official transcript showing completion of ENGL 201 or its equivalent, at a postsecondary institution with a grade ≥2.0.

• English composition proficiency should be completed as soon as possible because some courses require ENGL 201 as a prerequisite.

Mathematics Competency and Proficiency
Mathematics competency and proficiency must be demonstrated by all students to earn a baccalaureate degree.

Competency is demonstrated by placement into any math course above MTHD 104, based on the placement test scores or by submission of an official transcript showing completion of MTHD 104, or its equivalent, at a postsecondary institution with a grade ≥2.0.

Students must complete the objectives of MTHD 103 and pass MTHD 104 or MTHD 106 with a grade ≥2.0 before proceeding to the next level of mathematics.

• Mathematics competency must be completed before 45 credits are earned.

Note: MTHD 103, MTHD 104, MTHD 106 do not count for college credit.

Proficiency is demonstrated by placement into MATH 161 based on the placement score or by submission of an official transcript showing completion of MATH 161 or its equivalent, at a postsecondary institution with a grade ≥2.0.

Students placed into MATH 141 or its equivalent may obtain mathematics proficiency by completing one of the following requirements with a grade ≥2.0: MATH 107; MATH 121; both MATH 141 and MATH 142; both MATH 211 and MATH 212; MATH 200; MATH 301 or MATH 380 or BIOL 380. Specific mathematics requirements apply to various majors.

Please consult an advisor when deciding which math courses to complete.

• Mathematics proficiency must be completed before 90 credits are earned.
• Additional course work beyond mathematics proficiency may be required to complete the major program requirements.
• Transfer students with an approved direct-transfer associate degree have met the mathematics competency and proficiency
requirement but may need to complete additional math requirements for their major.

- Transfer students who enter the university with 40 quarter credits or more must complete both mathematics competency and mathematics proficiency within three quarters of admission.

## Sources of Credit — AP

Unless otherwise noted, a score of 3 on any exam will receive 5 elective credits.

UNDERGRADUATE DEGREE

- General Education Requirements (p. )
- University Competencies and Proficiencies (p. 41)
- General Education Core Requirements (GECR) (p. 42)
- University Graduation Requirements (p. 43)
- Requirement—Cultural and Gender Diversity in the U.S. and International Studies (p. 44)
- Certificate Information (p. 45)
- SOAR (https://sites.ewu.edu/soar/students) (Student Online Academic Review—automated record reflecting academic progress)

General requirements for the baccalaureate degree at Eastern include all of the following:

Minimum Credits—180 cumulative credit hours

- 60 upper-division credits (300 level or above)
- 45 credits in residence (attendance) at Eastern, with at least 15 upper-division credits in major in residence at Eastern

Note: credits earned in MTHD 103, MTHD 104, MTHD 106, MATH 199, CPLA 100 and ENGL 100 do not count toward the 180 cumulative credits.

Minimum Cumulative GPA ≥2.0

- for Eastern Washington University course work
- for all General Education Core Requirements and University Graduation Requirements
- in major program, subject to departmental requirements
- in minor program, subject to departmental requirements

Note: general education and graduation requirements are waived for a student possessing a baccalaureate degree from an accredited institution who wishes to obtain an additional undergraduate degree from Eastern.

General Education Requirements

All Eastern Washington University students are expected to acquire a liberal education. Eastern defines liberal education to include:

- intellectual skills and habits of mind necessary to the pursuit and transmission of knowledge;
- a broad understanding of the history, institutions and traditions that most profoundly influence our social, political, economic, aesthetic and scientific lives;
- specialized knowledge in a discipline (major).

EWU has designed the General Education Curriculum for the purpose of preparing students with the skills, habits of mind and breadth of subject matter that characterize an educated person. Through this curriculum, Eastern ensures that all students encounter the core academic disciplines, especially as they apply to major questions of our times.

University Competencies and Proficiencies

Refer to the depart./program listing for recommended computer literacy, English composition and mathematics courses.

Computer Literacy

The computer literacy competency requirement may be satisfied by successful completion of a computer literacy examination or completion of the course (or courses) required as a result of the computer literacy examination with a grade ≥2.0. These courses may be CPLA 100 (graded pass/no credit only) and CPLA 101 or CPLA 120. Credit for CPLA 100 does not count toward total graduation credits.

English Composition

All students must complete ENGL 201 or its transferable equivalent with a minimum grade ≥2.0.

Students may be placed into English Composition courses by several means. All Running Start students must take the English Composition Program’s Writing Placement Test to determine their placement. Students may be placed using their SAT critical reading (formerly verbal) scores, their ACT English scores, or their TOEFL scores, if available. Students who do not have an SAT critical reading score, an English ACT score, or a TOEFL score and who did not complete the English Language Institute (ELI) program must take the Writing Placement test to determine placement. Transfer students may be placed into a course if they have transferred equivalent composition courses to Eastern. Finally, they may take the Writing Placement test if they do not have test scores and have not transferred any composition credits. (For A.P. credit see page 21 of the catalog.)

SAT critical reading scores

- 440 or below must meet with a general academic advisor to determine placement
- between 450 and 590 will be placed in ENGL 101
- 600 and above will be placed in ENGL 201

ACT English scores

- 17 or below must meet with a general academic advisor to determine placement
- between 18 and 27 placed in ENGL 101
- 28 or above placed in ENGL 201

TOEFL

- all students must have a 525 or above on the TOEFL exam.
- below 67 on the paper based test, or below 29 on the internet-based test, placed in ENGL 112
- at or above 67 on paper based test, or 29 and above on the internet based test, the student will be placed in ENGL 101.

Mathematics

The general education mathematics proficiency requirement may be satisfied by any one of the following: placement into MATH 161, as a result of the math placement test and successful completion of the Mathematical Reasoning Exam or completion of any of the following courses or its transferable equivalents with ≥2.0 minimum grades.

MATH 142  PRECALCULUS II  5  or HUMN 202  THEATRE IN THE HUMANITIES  
MATH 161  CALCULUS I  5
MATH 200  FINITE MATHEMATICS  5
MATH 211  & MATH 212  STRUCTURE OF ELEMENTARY MATH I and II  10
MATH 301  DISCRETE MATHEMATICS  5
MATH 380  ELEMENTARY PROBABILITY AND STATISTICS  5
or BIOL 380  DATA ANALYSIS FOR BIOLOGISTS  

Students who need additional math development may be required, on the basis of the math placement test results, to complete MTHD 103 and/or MTHD 104.

General Education Core Requirements (GECR)

- All students without an approved Direct Transfer Agreement (DTA) degree must complete eight general education core requirements (GECRs) totaling at least 36 credits.
- A requirement can be completed by a single approved course of no fewer than 3 credits.
- These courses are designed to provide introductory knowledge, intellectual skills and habits of thought found in the core disciplines of the humanities and fine arts, the social sciences and the natural sciences.
- Students must complete two GECR courses from one breadth area and three GECR courses from each of the other two breadth areas below for a total of eight GECR courses. Students should complete university competencies and proficiencies prior to completion of the GECRs.
- Individual courses may require specific prerequisites. Check the catalog course descriptions for more information.

Humanities and Fine Arts (2 or 3 courses)
Students must choose one course per list from each of two or three lists below.

Note: HUMN 290, may be used to satisfy List 1, 2 or 3 and typically is only offered summer term.

List 1: Literature
ENGL 170  INTRODUCTION TO LITERATURE  5
GNML 212  MODERN WORLD MASTERPIECES  5
HUMN 210  CLASSICS IN LITERATURE  5
HUMN 211  MASTERPIECES OF THE WEST WORLD  5
HUMN 290  ARTS AND IDEAS  5
SPAN 170  INTRODUCTION TO LITERATURE  5

List 2: Fine Arts
ART 213  ART IN THE HUMANITIES  5
or HONS 213  ART IN THE HUMANITIES
or HUMN 213  ART IN THE HUMANITIES
FILM 214  FILM AND THE HUMANITIES  5
HUMN 290  ARTS AND IDEAS  5
MUSC 212  MUSIC IN THE HUMANITIES  5
or HUMN 212  MUSIC IN THE HUMANITIES
THTR 202  THEATRE IN THE HUMANITIES  5

List 3: Philosophy and Reasoning
FINC 200  PERSONAL FINANCE: PHILOSOPHY AND PRACTICE  4
HUMN 215  INTRODUCTION TO RELIGION  5
HUMN 270  GREAT WORLD VIEWS  5
HUMN 290  ARTS AND IDEAS  5
PHIL 210  CRITICAL THINKING  5
PHIL 211  INTRODUCTORY PHILOSOPHY  5
PHIL 212  INTRODUCTORY ETHICS  5
PHIL 213  MORAL ISSUES IN AMERICA  5

Social Sciences (2 or 3 courses)
Students must choose one course per list from each of two or three lists below.

List 1: Economics and Government
ECON 100  GENERAL EDUCATION ECONOMICS  5
ECON 200  INTRODUCTION TO MICROECONOMICS  1
ECON 201  INTRODUCTION TO MACROECONOMICS  1
POLI 100  MODERN GOVERNMENT IN AMERICAN CONTEXT  5

List 2: Anthropology, Geography, Psychology and Sociology
ANTH 101  CULTURAL ANTHROPOLOGY  5
CMST 208  MASS MEDIA AND THE INFORMATION SOCIETY  5
GEOG 101  FUNDAMENTALS OF HUMAN GEOGRAPHY  2
PSYC 100  GENERAL PSYCHOLOGY  5
PSYC 201  LIFE-SPAN DEVELOPMENT  4
SOCI 101  INTRODUCTION TO SOCIOLOGY  5

List 3: History
AAST 220  AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT  5
or HIST 220  AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT
or HONS 220  AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT
HIST 105  WESTERN HERITAGE: ORIGINS TO THE 18TH CENTURY  5
HIST 106  WESTERN HERITAGE: 18TH CENTURY TO THE PRESENT  2
HIST 110  AMERICAN EXPERIENCE: A SURVEY  2
MGMT 200  BUSINESS HISTORY IN THE U.S.  4

Open only to admitted Honors Program students
HONS 101  THE INTELLECTUAL TRADITION: THE ANCIENT WORLD (counts as one Social Science GECR; one Humanities GECR)  8
HONS 102  THE INTELLECTUAL TRADITION: MIDDLE AGES THROUGH THE REFORMATION (counts as one Social Science GECR; one Humanities GECR)  8
Eastern Washington University

HONS 103  MODERN SCIENCE AND SOCIETY (counts as one Social Science GECR and with HONS 104 counts as one Natural Science GECR)  

1. This economics sequence is designed for majors in economics, business or science.

2. Elementary Education candidates are strongly recommended to select from these courses as the content is directly related to Washington State Elementary Endorsement and exit exam requirements.

Natural Sciences (2 or 3 courses)  
Students must complete courses from at least two of the lists below.

<table>
<thead>
<tr>
<th>Biology</th>
</tr>
</thead>
</table>
| BIOL 100  | INTRODUCTION TO BIOLOGY  5  
| BIOL 115  | INVESTIGATING BIOLOGY 1  
| Chemistry |  
| CHEM 121  | CHEMISTRY AND ITS ROLE IN SOCIETY  5  
| Geology |  
| GEOG 100  | FUNDAMENTALS OF THE PHYSICAL ENVIRONMENT  5  
| GEOG 115  | INVESTIGATING EARTH SCIENCE 1  
| or GEOL 115  | INVESTIGATING EARTH SCIENCE  
| Geograpy |  
| GEOL 204  | ATMOSPHERIC ENVIRONMENT  5  
| Geology |  
| GEOL 100  | DISCOVERING GEOLOGY  5  
| GEOL 115  | INVESTIGATING EARTH SCIENCE 2  
| or GEOL 115  | INVESTIGATING EARTH SCIENCE  
| Physics |  
| PHYS 100  | PHYSICAL SCIENCE I  5  
| PHYS 115  | INVESTIGATING PHYSICAL SCIENCE 1  
| PHYS 121  | DESCRIPTIVE ASTRONOMY  5  
| Open only to admitted Honors Program students |  
| HONS 103  & HONS 104  | MODERN SCIENCE AND SOCIETY and HONORS NATURAL SCIENCE LAB (with HONS 104 counts as one Natural Science GECR; HONS 103 alone counts as one Social Science GECR)  9  

1. Elementary Education candidates are strongly recommended to select from these courses as the content is directly related to Washington State Elementary Endorsement and exit exam requirements.

Science courses that are offered as part of sequences designed for students majoring in science and related areas will apply to the GECR requirements. The first course and lab completed will fulfill one GECR requirement and the second course in the sequence will fulfill a second GECR requirement in the same subject area. If a student chooses to take two courses from the same subject area, a third course from a different subject area must be chosen for a total of three science courses.

University Graduation Requirements  
These requirements apply to all undergraduate students who do not have baccalaureate degrees. While general education, in the form of competencies, proficiencies and content-rich survey courses, typically occupies the student’s first two years, liberal education continues to color and challenge every student’s intellectual journey toward...
graduation. The following requirements may be satisfied through the courses listed or transferable equivalents:

**Foreign Language Requirement for Bachelor of Arts Candidates**

Two years of one single language in high school or one year of a single language in college. Eastern offers these languages: American Sign Language, Chinese, French, German, Japanese, Salish and Spanish.

**Major/Minor or Certificate Requirement**

A minor or certificate is required for any major with fewer than 60 credits. See the department/program section of this catalog for detailed course and graduation requirements.

**Senior Capstone/Thesis Graduation Requirement**

ITGS 400 or for some majors, students may fulfill this requirement by completing a departmental capstone/thesis course. Check with the chair of the major department.

---

**Requirement—Cultural and Gender Diversity in the U.S. and International Studies**

Select 8 credits—4 credits minimum from the Cultural and Gender Diversity in the U.S. List and 4 credits minimum from the International Studies List.

- Courses and experiences will be designed to provide knowledge and understanding of the cultural diversity of the United States and other societies and cultures of the world.
- Second year or more advanced language study for 4–5 credits or 10 credits of approved (Japanese) first-year language study may satisfy the International Studies requirement. American Sign Language is excluded from fulfilling the International Studies Requirement.

**Cultural and Gender Diversity List**

### Certificates

#### Undergraduate or Post-Baccalaureate Certificates

A certificate is a non-degree sequence, pattern or group of courses or a combination of instruction and independent study that focuses upon an area of specialized knowledge or information developed, administered and evaluated by the institution’s faculty members or by faculty-approved professionals. A certificate may include a capstone or practicum experience to facilitate the students’ ability to apply their knowledge in a variety of contexts.

A certificate can be matched with a major of less than 60 credits to fulfill the requirement for a minor. The purpose of a certificate is to complement a student's degree program just as a minor does. The certificate generally focuses on an area of study that often has an applied or practical orientation and is usually interdisciplinary in nature, thereby distinguishing it from a minor.
**GRADUATION REQUIREMENTS**

**Application for Graduation**

**Major/Minor Form**
Application for graduation is required for any student seeking an undergraduate degree and must be submitted to the graduation evaluator, Records and Registration Office, second floor, Sutton Hall, by the published deadlines. Graduation application deadlines are available in Records and Registration (http://access.ewu.edu/records-and-registration), academic departments, the annual three term announcement. Timely submission provides an opportunity to review degree requirements and to plan or change course enrollment to ensure completion of all requirements.

Students who do not complete all degree requirements in the quarter of intended graduation must reapply for a subsequent quarter with the graduation evaluator. A reapplication fee may be assessed.

The graduation application fee and the reapplication fee change annually. For current fees, please see R (http://www.ewu.edu/registrar)ecords and Registration (http://access.ewu.edu/records-and-registration).

**To Complete an Application for the Undergraduate Degree**
- Submit the Application for Graduation/Major/Minor Requirements approval form with all required faculty signatures to the Records and Registration (http://access.ewu.edu/records-and-registration) Office, 201 Sutton Hall.
- Pay the graduation fee in Student Financial Services (one fee for each degree), 202 Sutton Hall.

**Catalog Options**
The catalog in effect at the time the student is first admitted will be used to determine the general education requirements. The catalog in effect at the time the student declares a major or minor will be used to determine the program requirements. This catalog may only be changed to a newer catalog with the approval of the department chair or program director by resubmitting the major declaration form.

In no case can the catalog used for the major or the minor be more than six years old. A student whose major or minor catalog has expired will be required to submit a new major declaration form; the major and minor will be updated to the catalog in effect at the time of the resubmission.

Exceptional circumstances regarding the catalog used to assess a student’s major or minor may be appealed to the appropriate department.

**Major/Minor Requirements**
Minors are a distinct set of undergraduate courses that have been approved and designated in the catalog. A minor or certificate is required for graduation with any major program of less than 60 credits. Minors or certificates that are required for graduation must contain at least 15 credits that are not part of the major requirements. (The minor or certificate cannot be fully embedded in the major requirements.) Minors that are an option for graduation may be embedded in the major requirements and recorded on official university transcripts.

**Declaring a Major and Minor**
All undergraduates must declare a major by the time they have completed 90 credits. Students who transfer with 90 credits or more must declare a major before registration. Call or email your department of interest for exact procedures on declaring a major/minor. Department contact information is located at the beginning of each Academic Program listing.

**Grading System, Policies and Appeals**
General information is provided in the policy section at the back of the catalog, including the full policy on grade appeals.

**Second Degree Policy**
Students may be awarded more than one undergraduate degree at Eastern Washington University.

- In all cases at least 225 credits are required to earn a second degree. Each subsequent degree requires an additional 45 credits.
- At least 45 credits that are different from those that are included in the first degree and are part of an approved program are required to earn two degrees.
- If fewer than 225 credits are completed, a second major rather than a second degree will be recorded on the university transcript, provided that the credits earned comply with program requirements for that major.
- The student must have the approval of each department chair or program director confirming that all degree requirements have been satisfied.
- If students complete more than one undergraduate degree concurrently, a minor is not required.

Transfer post-baccalaureate students can receive a bachelor’s degree from EWU that is of the same type (BA, BS, BAE, etc.) as awarded at the transfer institution, provided EWU’s degree requirements are completed. The major/minor area of emphasis must be different from that awarded at the transfer institution.

Any questions regarding this policy should be directed to the graduation evaluator in Records and Registration, second floor, Sutton Hall.

Note: general education and graduation requirements are waived for a student possessing a baccalaureate degree from an accredited institution who wishes to obtain an additional undergraduate degree from Eastern.

**Second Major Policy**
Students may be awarded more than one major of the same degree type (BA, BS, BAB, BAE, BM and BFA). At least 30 credits in any major must be different from those in any other major.

This policy became effective spring quarter 2011.
UNDERGRADUATE POLICIES

Academic Appeals Board (p. )

Academic Forgiveness Policy (p. )

Academic Probation, Dismissal and Reinstatement (p. )

Academic Honors (p. )

Academic Standards (p. )

Academic Appeals Board

Exceptions to academic regulations are considered by an Academic Appeals Board that consists of faculty and student representatives. The Academic Appeals Board will consider petitions of the following undergraduate requirements:

- general education
- university graduation
- 60 upper-division credits
- 45 credits in residence
- 15 upper division residence credits in major
- foreign language

To submit an appeal to the board, consult with the graduation evaluator in the Records and Registration Office in Sutton Hall. Submission of an appeal should be made sufficiently in advance of graduation so that program planning can be done according to the decision of the board to approve, deny or reconsider the petition.

The Academic Appeals Board does not consider cases that apply to majors or minors, grade appeals or professional certification. Consult with the appropriate department chair or program director to discuss any of these matters.

Academic Forgiveness Policy

1. Undergraduate students may make a one-time petition to have up to two consecutive quarters removed from the calculation of their credits and GPA. The course work must have been completed at least five years prior to this petition.
2. Forgiven courses cannot be used to satisfy any academic requirement.
3. Academic forgiveness may be recommended on a case-by-case basis during advising.
4. To be eligible for academic forgiveness, a student must have completed 30 consecutive credits at Eastern, maintained a GPA ≥2.5 and have declared a major.
5. Academic forgiveness may not be revoked. For further information on Academic Forgiveness, go to the Records and Registration Office, 201 Sutton Hall or call 509.359.2321.

Academic Probation, Dismissal and Reinstatement

All undergraduate students are held to the following academic policies and standards:

- all Eastern Washington University undergraduate students in their first quarter who do not attain a minimum GPA >2.0 will be placed on Academic Warning;
- at the end of each quarter, continuing undergraduate students who do not attain a cumulative GPA ≥2.0 are placed on Academic Probation for the next quarter of enrollment;
- undergraduate students on Academic Warning or Academic Probation who attain a cumulative GPA ≥2.0 are automatically removed from probation;
- undergraduate students on Academic Probation who attain a quarterly GPA of >2.0 but whose cumulative GPA is still <2.0 will remain on Academic Probation;
- undergraduate students on Academic Probation who attain a quarterly GPA of >2.0 but whose cumulative GPA is still <2.0 will be moved to Academic Probation;
- undergraduate students on Academic Probation whose cumulative GPA remains <2.0 and whose quarterly GPA is <2.0 will be dismissed from the university;
- to re-enroll after being academically dismissed, officially declared and undeclared students must petition for academic reinstatement through the Office of General Undergraduate Academic Advising (GUAA);
- students who were officially declared at the time of dismissal and are out for more than one year are dropped from the major;
- students in this situation will need to re-apply to EWU, as a former student returning (FSR). Please see www.ewu.edu/Apply.xml (http://www.ewu.edu/Apply.xml),
- a dismissed undergraduate student is not eligible to enroll the following academic quarter (fall, winter, spring or summer);
- first-time dismissed undergraduate students will be eligible to petition for reinstatement after one quarter;
- undergraduate students dismissed a second time will be eligible to petition for reinstatement after one year;
- students who are dismissed at the end of spring quarter will not be eligible to enroll in summer or fall quarter but may petition for reinstatement for winter quarter;
- to be eligible for academic reinstatement, dismissed undergraduate students must demonstrate an improved academic performance or readiness for academic success;
- the academic reinstatement process is coordinated through General Undergraduate Academic Advising (GUAA). Visit the GUAA website access.ewu.edu/academic-advising (http://access.ewu.edu/academic-advising) for additional information or call 509.359.2345.

Academic Honors

Deans’ Honor List

Undergraduate and post baccalaureate students who complete at least 12 graded credits in a given quarter with a GPA ≥3.50 will be placed on the quarterly Deans’ Honor List for academic excellence. The honor is also recorded on their university transcript.

Honors at Graduation

4.00 and 3.9 = Summa Cum Laude
3.89 and 3.7 = Magna Cum Laude
Graduating seniors who achieve academic honors will be formally recognized during commencement, on university transcripts and on their diploma. Baccalaureate honors are awarded only to recipients of a first baccalaureate degree. These honors are earned by those students who have completed no fewer than 90 credits at this institution; 60 credits must be for courses in which grade points are awarded. Honors are calculated only on college-level credits earned at this institution.

Academic Standards
Students who enroll at EWU for a second baccalaureate degree, having completed their first undergraduate degree at another university, will have their graduation GPA based on their EWU career only. These students will be eligible for quarterly deans list, under the same standards as any other undergraduate student, but are not eligible for graduation honors.
UNIVERSITY POLICIES

Welcome to Eastern’s Online Policy and Procedure Center (http://www.ewu.edu/about/administration/president/policies)

Academic Integrity Policy (p. 49)
Access to Academic Records (p. 51)
Appendices (p. 54)
Credits (p. 51)
FERPA (p. 77)
Final Exams (p. 52)
Grade Appeals (p. 52)
Grading System (p. 52)
Residency (p. 54)
Washington State Address Confidentiality Program (p. 54)
Withdrawal from the University (p. 54)

Academic Integrity Policy
EWU expects the highest standards of academic integrity of its students. Academic honesty is the foundation of a fair and supportive learning environment for all students. Personal responsibility for academic performance is essential for equitable assessment of student accomplishments. The university supports the faculty in setting and maintaining standards of academic integrity. Charges of academic dishonesty are reviewed through a process that allows for student learning and impartial review.

Definitions

Violations of academic integrity involve the use or attempted use of any method or technique enabling a student to misrepresent the quality or integrity of any of his or her work in the university and the program of study.

Violations of academic integrity with respect to examinations include but are not limited to copying from the work of another, allowing another student to copy from one's own work, using crib notes, arranging for another person to substitute in taking an examination, or giving or receiving unauthorized information prior to or during the examination.

Violations of academic integrity with respect to written or other types of assignments include but are not limited to failure to acknowledge the ideas or words of another that have consciously been taken from a source, published or unpublished; placing one's name on papers, reports, or other documents that are the work of another individual, whether published or unpublished; misuse of the assistance provided by another in the process of completing academic work; submission of the same paper or project for separate courses without prior authorization by faculty members; fabrication or alteration of data; or knowingly facilitating the violation of academic integrity by another.

Violations of academic integrity with respect to intellectual property include but are not limited to theft, alteration or destruction of the academic work of other members of the community or of the educational resources, materials or official documents of the university.

Arbitrator: an individual holding or having held faculty rank, appointed by the dean of graduate and undergraduate studies for the purpose of reviewing charges of academic dishonesty against a student within a prescribed time frame as either a first level reviewer or a second level reviewer.

Instructor(s): the instructor of record.

Resolution/Appeal Form: a set of forms to be utilized to document and communicate charges of a violation of academic integrity, instructor recommendations, student responses, process options and decisions reached.

Sanctions: penalties that may be applied in the event that a violation of academic integrity is found to have occurred. Sanctions may be combined and may include but are not limited to:

- verbal or written reprimand;
- educational opportunity, such as an assignment, research or taking a course or tutorial on academic integrity;
- grade penalty in a specific academic exercise;
- course grade penalty;
- course grade penalty of a failing course grade; A course grade penalty of a failing course grade is recorded on the transcript as an XF and counted as a 0.0 for purposes of GPA calculation. In this case the 0.0 would be a permanent part of the GPA calculation. A student may petition to have the XF on the transcript changed to a 0.0 two years after the date it is entered. A student may have the XF converted to a 0.0 prior to the end of this two-year period if the student successfully completes a course or tutorial on academic integrity. If, after completing this course, a student again receives a sanction for a violation of academic integrity, that sanction shall be a permanent part of the student’s transcript.
- suspension for a definite period of time;
- dismissal from the university. Sanctions involving grades in an academic exercise or a course final grade may be imposed by the instructor following the procedures outlined in this policy.

Sanctions of suspension or dismissal from the university may only be imposed by the President or the President’s designated disciplinary officer who will review recommendations for suspension or dismissal prior to imposing such sanctions.

Privacy: Student privacy rights are to be strictly observed throughout these procedures. A final finding that a student has violated the Academic Integrity Policy is placed in the student’s confidential academic record. Each step of the process to determine whether a violation has occurred is to remain confidential. Only those parties identified in these procedures are considered to have a need to know information regarding an individual student’s actions.

Initiation of Violation of Academic Integrity/Misconduct Hearing Process

An instructor may initiate the process to review charges of a violation of academic integrity by notifying the alleged offending student of the charges and of the sanction proposed by the instructor. This notification shall occur within five (5) university instruction days of establishing that grounds exist that an infraction of the academic integrity code exists. Notification may be oral but must always be supported by written notification. Notification shall include a description of the alleged
violation of academic integrity including appropriate dates, specification of assignment/test/exercise and any relevant evidence. The notification shall also include the specific remedy proposed by the faculty member for the misconduct. The notification shall also indicate to the student whether the instructor elects to offer resolution through Direct Instructor-Student Resolution or through External Resolution. These processes are described separately below.

**Direct Instructor-Student Resolution**

If the instructor elects Direct Resolution, the finding and proposed sanction of the instructor is considered a first level review that can be appealed to an appointed arbitrator at a second level review.

The instructor may elect to attempt resolution through direct interaction with the student. The student would so indicate that notification had been received by signing the appropriate line of the Resolution/Appeal Form.

Upon notification, the student has five (5) university instruction days to respond to the instructor.

The student may accept responsibility for the alleged action and waive the right to appeal by accepting the charges and the sanction proposed by the faculty member or a sanction mutually agreed upon. If the student agrees to direct resolution, the student and faculty member will sign a Resolution/Appeal form and forward the completed waiver (including the sanction imposed) to the student judicial officer for recording in the confidential disciplinary file of the student. The instructor will then implement the sanction.

If the student fails to respond within five (5) university instruction days, the instructor will send another copy of the written notification to the student by certified mail, return receipt requested to the most current address the student has on file with the Records and Registration Office. Failure of the student to respond within five (5) days following receipt of the written notification by certified mail, shall be interpreted as an admission of responsibility and acceptance of the instructor’s proposed sanctions. If a student fails to respond within five (5) university instruction days after receipt of the written notification by certified mail, the dean of graduate and undergraduate studies will send another copy of the written notification to the student judicial officer of the arbitrator’s decision and of the sanctions, if any, to be imposed.

**External Resolution**

The instructor may elect to pursue charges of a violation of academic integrity against a student through the External Resolution process. This process provides an arbitrator, appointed from the university at-large, to review the relevant facts and to take statements from the instructor and the student. By referring charges for External Resolution, the instructor implicitly agrees to accept the findings of the arbitrator and the sanction determined by the arbitrator. Where possible the arbitrator shall be guided by sanctions as detailed in the instructor’s syllabus.

**Initial Notification:** The instructor informs the student in initiating a violation of academic integrity charge as outlined above that the charge will be heard through external resolution process. This notification is forwarded to the dean of graduate and undergraduate studies as appropriate within five (5) university instruction days of establishing that grounds exist that an infraction of the academic integrity code exists.

**Appointment of Arbitrator:** Within five (5) university instruction days of receipt of the notification from the instructor, the dean of graduate and undergraduate studies appoints an arbitrator from among qualified candidates (see definition of arbitrator) and notifies the student of an initial hearing in writing.

**Initial Hearing:** Within five (5) university instruction days of receipt of the notification from the instructor, the dean of graduate and undergraduate studies or designee informs the student of the process as outlined in this policy, reviews the charges in the initial notification, informs the student of the sanction recommended by the instructor and of the range of sanctions that could be imposed by the arbitrator, apprises the student of the right to appeal and potential consequences of appeal. The dean of graduate and undergraduate studies or designee ascertains that the student understands the process and the charges and documents the initial hearing.

**Student failure to respond to notice of initial hearing:** If the student fails to respond within five (5) university instruction days, the dean of graduate and undergraduate studies will send another copy of the written notification to the student by certified mail, return receipt requested to the most current address the student has on file with the Records and Registration Office. Failure of the student to respond within five (5) days following receipt of the written notification by certified mail, shall be interpreted as an admission of responsibility and acceptance of the instructor’s original proposed sanctions. If a student fails to respond within five (5) university instruction days after receipt of the written notification by certified mail, the dean of graduate and undergraduate studies informs the instructor of this failure to respond so that the instructor may impose the sanction proposed initially.

**Arbitrator Review:** After the appointment of the arbitrator, the student may respond to the charges in a written statement submitted to the arbitrator. The student may also include any relevant written documentation, third party statements, or evidence deemed relevant to the student’s interests. The arbitrator primarily reviews written evidence. The arbitrator may consult with the instructor, the student or others as the arbitrator deems appropriate to discovering the facts of the matter or to determining the nature of the alleged violation of academic integrity. The arbitrator shall conclude the review and issue a decision within ten (10) university instruction days after his/her appointment unless the faculty member and student both agree to extend the time line. All evidence collected in this process must be made available to the student and/or faculty member upon request.

**Arbitrator Decision:** after completing a review of the charges and relevant evidence, the arbitrator notifies the dean of graduate and undergraduate studies or designee who in turn notifies the instructor, student and student judicial officer of the arbitrator’s decision and of the sanctions, if any, to be imposed.

**Appeal Rights**

If the arbitrator hears the case after the student declined direct resolution, the arbitrator’s decision constitutes an appeal of the instructor’s initial sanction. This appeal is unqualifiedly available to any student dissatisfied with the instructor’s proposed sanction under direct resolution. In this situation the first level arbitrator’s decision is final and no further appeal is available. The first level arbitrator’s decision is
communicated to the student judicial officer for implementation and recording in the student’s confidential disciplinary record.

If the first level arbitrator hears the case as the result of the instructor’s selection of external resolution, the first level arbitrator’s decision is considered an initial decision and may be appealed. An appeal of that decision will be heard only if at least one of the following criteria is met:

1. evidence is provided that the penalty imposed by the first level arbitrator is disproportionate to the offense;
2. evidence is provided that the first level arbitrator’s decision was arrived at through a violation or misapplication of specified procedures;
3. substantial evidence is provided that the first level arbitrator’s decision was unreasonable or arbitrary; and/or
4. new evidence has emerged that, had it been available at the time of the first level arbitrator’s decision, might reasonably be expected to have affected that decision.

The student may request an appeal of the decision of the first level arbitrator by submitting a request for an appeal to the dean of graduate and undergraduate studies or designee within three (3) university instruction days of receipt of the notification of the arbitrator’s decision. Upon receipt of the student’s request for an appeal, the dean of graduate and undergraduate studies or designee makes an initial determination whether at least one of the four (4) criteria listed in the paragraph above may have been met. If the dean of graduate and undergraduate studies or designee determines that an appeal is justified, he or she appoints a second level arbitrator within five (5) university instruction days of the receipt of the request for an appeal. The second level arbitrator reviews the written record and any additional or new documentation submitted by the student in requesting the appeal. The decision of the second level arbitrator is to be made within ten (10) university instruction days of his/her appointment and is a final ruling. It is transmitted to the dean of graduate and undergraduate studies who then forwards the decision to the instructor, the student and the student judicial officer for implementation and recording.

All evidence collected in this process must be made available to the student and/or instructor upon request.

Repeat Violations

The purpose of recording charges and sanctions in the student’s disciplinary record is to determine patterns of behavior. Repeat violations of academic integrity may result in more severe sanctions imposed by the instructor or arbitrator. The dean of graduate and undergraduate studies or designee is considered to have a need to know of prior academic integrity violations and may request such information from the student judicial officer prior to making or transmitting a decision on a pending charge.

Three sanctioned instances of a violation of academic integrity during a student’s enrollment at Eastern Washington University will constitute grounds for an immediate sanction of dismissal from the university. Such action will be taken by the president or the president’s designated disciplinary officer upon notification of three sanctions by the student judicial officer.

Course Withdrawal Suspended During Hearings

A student officially notified of charges of a violation of academic integrity may not withdraw from the course until the determination of responsibility is made and any sanctions are imposed. A sanction for a violation of academic integrity that affects the course grade will be applied. The student may not avoid the imposition of a sanction by withdrawing from a course. If the student is found not responsible for actions violating the Academic Integrity Policy, the student will be permitted to withdraw from the course with a grade of W and with no financial penalty, regardless of the deadline for official withdrawal.

Continuation in Course Pending Final Decision

A student may continue to attend and perform all expected functions within a course (e.g., take tests, submit papers, participate in discussions and labs) while a charge of a violation of academic integrity is under review, even if the instructor recommendation is a failing grade in the course, suspension or dismissal. Full status as an enrollee in a course may continue until a sanction is imposed. Final imposition of a sanction of a failing grade in a course will result in the immediate suspension of attendance in that class by the student.

Access to Academic Records

Student Directory Information

Certain categories of student information are considered open or directory-type data and may be released to the public if the student is enrolled at the university at the time of request. These categories include name, addresses, telephone number, major field of study, participation in officially recognized activities and sports, dates of attendance, degrees and awards received and the most recent previous educational agency or institution attended.

All other information regarding a student’s record or attendance is restricted and may not be released to a third party without the student’s written permission except as allowed under the Family Educational Rights and Privacy Act of 1974. Examples of restricted information are a student’s course enrollment, the number of credits earned and any grade-related information. This policy is in compliance with federal rules and regulations and is intended to protect each student’s privacy and security. See WAC 172–190 in the appendices in the back of this catalog.

Specific details of the Family Educational Rights and Privacy Act of 1974 are available in the Records and Registration Office, 201 Sutton Hall. Also see Appendix B of this catalog.

Special Note: Students may request that directory information not be released to the public. A directory restriction can be requested in person at the Records and Registration office, 201 Sutton Hall or Riverpoint Student Services, N. 668 Riverpoint Blvd., Room 101. Students who request a directory restriction will not be sent general non-educational information from the university. University notice of Dean’s List to local papers and to the National Dean’s List will not be made for students with restrictions. For more information on the directory restriction, see the information in WAC 172–190 below and check with Records and Registration, 201 Sutton Hall, 509.359.2321 or Riverpoint Student Services, 509.828.1394.

Credits

One quarter hour of credit is assigned in the following ratio of hours per week devoted to the course of study:

- lecture/discussion: one hour in the classroom per week for each credit hour (two hours outside preparation expected);
The order of appeal is as follows.

- Students have the option of appealing a grade they believe is unfair. To appeal, an Intent to Appeal a Grade or an Official Grade Appeal form must be submitted to the Records and Registration Office within two quarters of the initial grade assignment.

- The proportion of time in each course assigned to lecture, studio, laboratory, independent study or ensemble is recommended by faculty of the department offering the course.

- The term quarter hour corresponds with credit hour or credit hour.

### Final Exams

- Final examinations are scheduled for specific dates and times at the end of each quarter. The examination schedule is published in the university’s quarterly announcement. Final comprehensive examinations should not be given during the regular 10-week schedule.

- Students shall not be granted special examinations for any reason other than a family emergency or other bona fide hardship. Course instructors are the final authority in such circumstances.

- Students that have two final examinations scheduled concurrently by the university must contact one or all instructors involved and ask them to resolve the situation and find a suitable solution.

### Grade Appeals

Except for X and Y, all grades are final and can be changed only in the case of university (instructor, clerical or administrative) error. Such corrections must be submitted by the instructor and approved by the department chair and college dean. Requests for grade corrections must be submitted to the Records and Registration Office within two quarters of the initial grade assignment.

Students have the option of appealing a grade they believe is unfair. To appeal, an Intent to Appeal a Grade or an Official Grade Appeal form must be submitted within the times specified below, or the right to appeal is forfeited. Reasonable exceptions to these deadlines may be made by the chair or designee.

#### The order of appeal is as follows.

1. File a notice of Intent to Appeal a Grade form within 10 working days after instruction begins for the next regular quarter. These forms are available on request in the department office, the Records and Registration Office or EWU Spokane, Riverpoint, Student Support Center.

2. Discuss the conflict regarding the grade in a timely manner with the instructor concerned. If the discussion between the instructor and student does not lead to a resolution of the conflict and the student wishes to continue the appeal process, the student must confer with the chair or a designee regarding the proposed appeal. If the conflict is not resolved at this level, the chair or designee must provide a written explanation to the student within five working days. If the written explanation is not provided or if the student is not satisfied with this explanation, he/she may make an official grade appeal.

3. The Official Grade Appeal form must be filed in writing with the chair of the department concerned, normally no later than 30 working days after instruction begins for the next regular quarter. These forms are available on request in the department office, the Records and Registration Office or EWU Spokane, Riverpoint, Student Support Center.

4. The grade appeal is heard by a grade appeals board which is to be convened no later than 20 working days after submission of the official grade appeal. (The date may be extended if mutually agreed upon by both parties.) This board is chaired by the department chair or a designee who serves in a nonvoting capacity. Selection of members is facilitated by the department chair or designee unless there is an obvious conflict of interest decided by the dean, in which case the dean or a designee shall do so.

5. Three people will constitute the grade appeals board. The student petitioner shall first nominate a member and then the faculty shall nominate a member. A third member mutually agreeable to both parties will then be selected. At least one of the three members must be a student. The appeal board must be held at a mutually agreeable time.

Parties to the dispute must make a good faith effort to follow these steps or forfeit access to the appeal process.

If the student, faculty or chair has legitimate concerns about the appeal process, the dean of the college will work to alleviate or correct the problems.

The appeal board does not have subpoena power and every attempt will be made to be fair to both parties. The parties may offer exhibits and/or witnesses. The principals may not be represented by counsel or others and the student appellant has the burden of proving by a preponderance of the evidence (more probable than not), that such inappropriate grading procedures have occurred.

Within 10 working days of first convening the appeal board, through its chair, will submit its recommendation in writing to the faculty member concerned, with a copy to the appellant and the dean of the college.

Decisions recommended by the grade appeal board are advisory only. The final decision to change a grade lies with the instructor, except in cases where the instructor cannot or does not respond to the appeal board’s recommendation or in cases where the appeal board’s findings determine prejudiced or other inappropriate grading practices by the instructor. In these cases the final decision to change the grade lies with the dean. There is no further right of appeal.

Within 45 days of the final decision involving a recommended grade change, the chair of the appeal board shall notify in writing the appellant, the dean of the college and the chair of the department concerned of the decision of the appeal board and the faculty member’s decision and action. When the final decision is made by the dean in the cases noted above, the dean shall implement the decision and shall make the proper written notification to the parties concerned.

### Grading System

#### Grade Reports

At the end of each quarter, grades are available through EagleNET (https://eaglenet.ewu.edu) starting the Wednesday after finals. The report includes current institutional, transfer and all college cumulative GPA.

#### Letter Grades Symbols in Use at Eastern
The types of courses which may be designated as pass/fail are:

NC (No Credit): No credit granted, no grade points assigned.

NR: Not recorded, for work in progress.

P (passing): Credit granted, but no grade point assigned (not used when computing GPA).

W (withdrawal): Withdrawal from a course or the university (not used when computing GPA).

X (incomplete): Temporary grade; special circumstances prevent the student from completing the course (not used when computing GPA).

Y: For thesis, research, practicum and other activities requiring more than one quarter for completion; grade assigned at completion.

Letter Grades Described in Detail

Undergraduate Pass/No Credit (P/NC) Grade Option (Department or Program Designated)

Departments or programs may choose to designate certain courses for pass/no credit grading. Regulations for pass/no credit grading are as follows:

1. Courses required for the following categories may not be designated pass/no credit:
   - General education core requirements
   - Writing, mathematics and computer competency and proficiency requirements
   - Professional education requirements
   - Main and minor requirements except as approved by the Undergraduate Affairs Council, including courses substituted for major courses
   - Professional education requirements
   - Main and minor requirements except as approved by the Undergraduate Affairs Council, including courses substituted for major courses
   - Main and minor requirements except as approved by the Undergraduate Affairs Council, including courses substituted for major courses
   - University graduation requirements

2. A grade ≥2.0 must be earned to receive a passing grade;
3. The P or NC grade will be entered on the transcript. Students receiving the P grade will receive credits toward graduation. Neither the P nor the NC grade will be included in computing GPA averages.

Undergraduate Pass/Fail Grade Option (Department or Program Designated)

Departments or programs may choose to designate only certain types of courses for pass/fail grading.

Regulations for pass/fail grading are as follows:

1. Courses required for the following categories may not be designated pass/fail:
   - Major and minor requirements except as approved by the Undergraduate Affairs Council
   - Required supporting courses (courses required for the major or minor but not taught by the major or minor department) except as approved by the Undergraduate Affairs Council
   - Professional education requirements
   - Writing, mathematics and computer competency and proficiency requirements
   - General education core requirements
   - University graduation requirements

2. A grade ≥2.0 must be earned to receive a passing grade;
3. A P grade will not be calculated in the GPA, but will serve as credits toward graduation, except for non-college credit courses. A fail (0.0) grade will be calculated in the GPA.

Undergraduate Pass/No Credit Grade Option (Student Designated)

Students may choose the pass/no credit grading option in certain courses during the registration process.

Regulations for pass/no credit grading are as follows:

At the time of registration, students must designate the courses for which they wish to receive a pass/no credit grade. They may change this designation by the regular change of registration procedure through the seventh week of the quarter.

1. Courses required for the following categories may not be taken pass/no credit:
   - Major and minor requirements (except as approved by the Undergraduate Affairs Council), including courses substituted for major courses
   - Required supporting courses (courses required for the major or minor but not taught by the major or minor department)
   - Professional education requirements
   - Writing, mathematics and computer competency and proficiency requirements
   - General education core requirements
   - University graduation requirements

2. The minimum level of performance required to receive a grade of P is a 2.0. Students should be aware that performance equal to a grade between 0.7 and 1.9 will not result in a passing mark.
3. The P or NC grade will be entered on the transcript. Students receiving the P grade will receive credits toward graduation. Neither the P nor the NC grade will be included in computing GPAs.

Incomplete (×)

Special circumstances, such as severe illness or death of a family member, may warrant an incomplete or × grade. An × grade may be assigned when the student is passing the course but is unable to complete all course requirements. Incomplete grades are only assigned to students who have been attending the class and performed all necessary work up until the last three weeks of the quarter during the academic year or until the last two weeks of summer session.

Faculty Assignment of an × Grade Requires

1. A meeting with the student to make them aware of the specific terms you are assigning for the completion of work and what the grade will convert to if they do not submit the work in the assigned time frame;
2. Recording the conversion grade if the student does not complete the work (may be a 0.0);
3. Recording the extension date for the grade to automatically convert if the work is not completed (end of one quarter, two quarters, three quarters or a full year. The extension date must be prior to the last day of instruction for the quarter indicated.) Incompletes need to be completed within one year of the registered term.

Ongoing Thesis or Research Work (Y)

Students engaged in lengthy research projects or other courses that may extend for more than one quarter can be given a grade of Y until the project is complete and a final grade is assigned. Normally these courses are graduate research projects, theses, or internships.
Numerical Grades

Most courses at Eastern are graded numerically to the nearest tenth. A guide for equivalents are: Numeric Grade-Letter Grade Equivalent.

<table>
<thead>
<tr>
<th>Numeric Grade</th>
<th>Letter Grade Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.0</td>
<td>A</td>
</tr>
<tr>
<td>3.9</td>
<td>A</td>
</tr>
<tr>
<td>3.8</td>
<td>A-</td>
</tr>
<tr>
<td>3.7</td>
<td>B+</td>
</tr>
<tr>
<td>3.6</td>
<td>B</td>
</tr>
<tr>
<td>3.5</td>
<td>B-</td>
</tr>
<tr>
<td>3.4</td>
<td>C+</td>
</tr>
<tr>
<td>3.3</td>
<td>C</td>
</tr>
<tr>
<td>3.2</td>
<td>C-</td>
</tr>
<tr>
<td>3.1</td>
<td>D+</td>
</tr>
<tr>
<td>3.0</td>
<td>D</td>
</tr>
<tr>
<td>2.9</td>
<td>D-</td>
</tr>
<tr>
<td>2.8</td>
<td>F</td>
</tr>
</tbody>
</table>

Numerical Grades and Cumulative GPA

Instructions to Compute Cumulative GPA

1. Multiply numerical grade by the number of credits assigned for each course to determine the quality points for each course. Add the total number of quality points (qp).
   (Pass/No Credit grades are not computed in the GPA.)
2. Add the total number of numerically graded credits, for the total number of quality hours (qh).
3. Divide the total number of quality points by the total number of quality hours for the cumulative GPA.

Example

<table>
<thead>
<tr>
<th>Grades</th>
<th>x</th>
<th>Credits (QH)</th>
<th>=</th>
<th>Quality Points (QP)</th>
</tr>
</thead>
<tbody>
<tr>
<td>3.0</td>
<td>X</td>
<td>4</td>
<td>=</td>
<td>12</td>
</tr>
<tr>
<td>2.3</td>
<td>X</td>
<td>5</td>
<td>=</td>
<td>11.5</td>
</tr>
<tr>
<td>4.0</td>
<td>X</td>
<td>2</td>
<td>=</td>
<td>8</td>
</tr>
</tbody>
</table>

Total Credits = 11 (QH)

31.5 (QP) = Total Quality Points

31.5 (QP) / 11 (QH) = 2.863 Cumulative GPA

Residency

Residency is determined at the time of formal admission to the university on the basis of information included in the university application for admission. Determination of residency is governed by the statutes and policies of the state of Washington. In general, to qualify for residency, a student must:

- have established a formal residence in Washington for other than educational purposes for at least 12 consecutive months prior to the first day of the quarter for which residency status is requested

or

- be a dependent student whose parent(s) or legal guardian(s) have maintained a bona fide residence in Washington 12 consecutive months prior to the first day of the quarter. A student does not lose residency status because of service in another state or country while a member of the civil or military service, if that person maintains ties and returns to Washington within one year of discharge with intent of maintaining a residence in the state. However, maintaining residency ties in a former or other state (for example by keeping a driver’s license) may invalidate claims to Washington residency.

For more information see Appendix C of this catalog, go to the EWU Residency website at www.ewu.edu/residency or call the Residency Officer for the university at: 509.359.6586.

Washington State Address Confidentiality Program

PO Box 257 Olympia, WA 98507-0257
360.753.2972

This program, administered by the Office of the Secretary of State, provides address confidentiality to relocated victims of domestic violence. If you qualify as a participant, the program allows you to use a substitute mailing address with mail forwarding and service assistance.

Withdrawal from the University

Please see the information on schedule changes under Records and Registration (p. 77).

172–121–110 Preliminary conference
172–121–120 Hearings
172–121–130 Appeals
172–121–140 Interim restriction.
172–121–200 Violations
172–121–210 Sanctions

WAC 172–121–010 Introduction. Eastern Washington University is an academic community dedicated to providing instruction in higher education, advancing knowledge through scholarship and research and providing related services to the community. As a public institution of higher education, the university has a special responsibility to create and maintain an academic environment that promotes freedom of inquiry and expression while protecting the rights, opportunities and welfare of students, faculty, staff and guests. To achieve this, the university establishes rules, regulations, procedures, policies, and standards of conduct. Through the student conduct code as well as other university policies and directives, the university sets forth specific behavioral and academic expectations for students and student organizations. It is the responsibility of each student to clearly understand and comply with those expectations. The responsibility for enforcement of the student conduct code rests with the university president. The Board of Trustees of Eastern Washington University, acting under the authority granted by RCW 288.35.120, has established the following regulations for student conduct and discipline. These provisions are not intended to protect any person or class from injury or harm.

WAC 172–121–020 Definitions. For purposes of the student conduct code, chapter 172–121 WAC, the definitions in this section apply. “Accused” refers to any student or student organization that is accused of violating the student conduct code under this chapter. “Appeal authority” refers to the conduct review official presiding over an appeal under WAC 172–121–130. “Appellant” refers to any accused or complainant who appeals the decisions or sanctions of a hearing authority under WAC 172–121–130. “Business days” refers to the days and hours the university is open for business. Business days are Monday through Friday, from 8:00 a.m. to 5:00 p.m., excluding holidays as set forth in the university holiday schedule. “Complainant” means any person who files a complaint alleging that a student or student organization violated the standards of conduct for students. Complainant also refers to the university when the university files the complaint. “Council” or “the council” refers to the student disciplinary council as described in WAC 172–121–070. “Council hearing” refers to a conduct review hearing before the student disciplinary council. “Dean of Students” refers to the dean of students or a designee of the dean of students. “Director of SRR” refers to the director of student rights and responsibilities, or designated representative. “Harassment” encompasses harassment, sexual harassment, gender-based harassment, and stalking for purposes of WAC 172-121-030 through 172-121-140. These terms are further defined in WAC 172-121-200. “Hearing authority” refers to the university official who holds a conduct review hearing. “Off-campus” refers to any location or facility that is not owned, leased, rented, or operated by Eastern Washington University. “Policies” or “university policy” refers to the written regulations of the university, including the standards of conduct for students, residence life handbook, university policies, and graduate/undergraduate catalogs and handbooks. “Recognized student organizations” refers to clubs, organizations, societies or similarly organized groups recognized by the university or the associated students of Eastern Washington University (ASEWU). “Session council” refers to the student disciplinary council members selected for a specific hearing or appeal. “Sexual misconduct” encompasses domestic violence, dating violence, and acts of sexual violence for the purposes of WAC 172–121–030 through 172–121–140. These terms are further defined in WAC 172–121–140 “Student” includes all of the following: (a) Any applicant who becomes enrolled, for violations of the code committed as part of the application process or committed following the applicant’s submission of the application until the time of enrollment; (b) Any person currently enrolled at the university; (c) Nonmatriculated, international students attending institutes or foreign study programs through the university; and (d) Any person who was previously enrolled at the university for violations of the code committed while enrolled. A person who engaged in conduct in violation of the student conduct code while a student remains subject to action under this code even if the person has graduated, withdrawn, or is not currently enrolled for any reason. “Summary hearing” refers to a conduct review hearing before the conduct review officer. “University” means Eastern Washington University. “University official” includes any person employed or contracted by the university, performing assigned administrative or professional responsibilities. “University premises” means buildings and/or property (including adjacent streets and sidewalks) which are owned, leased, rented or operated by the university, to include all satellite campuses affiliated with the university. “University president” refers to the university president or a designee of the university president. “Vice president for student affairs” refers to the vice president for student affairs or their designated representative.

WAC 172–121–030 Rights of students. Any student or student organization charged with any violation of the student conduct code, and the victim in the case of an allegation of harassment or sexual misconduct, have the following rights: (1) The right to a fair and impartial conduct process; (2) The right to prior written notice to attend a preliminary conference or hearing; (3) The right to remain silent during any conduct review hearing; (4) The right to know who filed the complaint against them as described in WAC 172–121–110 and 172–121–120 (2)(b); (5) The right to speak on their own behalf in all proceedings; (6) The right to hear all information and view all material presented against him or her; (7) The right to call witnesses as described in WAC 172-121-120; (8) The right to submit questions to be asked of witnesses as described in 172-121-120; (9) The right to consult an advisor as described in WAC 172–121–090; (10) The right to appeal as
provided in WAC 172–121–130; and (11) The right to be subjected to university disciplinary action only one time for the same conduct.

**WAC 172–121–040 Jurisdiction.** Eastern Washington University shall have jurisdiction over student behavior which occurs on university premises. The university may also exercise jurisdiction over student conduct which occurs at off-campus locations if the behavior adversely affects the university and/or the pursuit of its objectives and the university determines that a significant university interest is affected. The university has sole discretion in determining what conduct adversely impacts the university and/or the pursuit of its objectives. The student conduct code shall apply to conduct without regard to a student’s academic status at the time the conduct took place. This includes all periods from the time of application for admission through the actual awarding of a degree, including times between academic periods or outside of normal business hours. WAC 172–121–050 External authorities. Many offenses under this code are also violations of federal, state or local laws. A student or student organization may face criminal and civil prosecution as well as university disciplinary action for violation of these laws. The university reserves the right to take action under this code for any offenses over which it has jurisdiction. Proceedings under this code may be carried out prior to, simultaneously with, or following civil or criminal proceedings in the courts. University proceedings under the student conduct code are not subject to challenge, delay, or dismissal based solely on criminal charges.

**WAC 172–121–060 Notification of criminal arrest.** A student is responsible for notifying the university of any off-campus arrest. When student rights and responsibilities (SRR) is informed of the arrest of a student, the university may send a letter to the student requiring that he or she make an appointment for an interview with SRR. During this interview, the director of SRR shall discuss with the student: (1) The facts involved in the student’s arrest; (2) The student’s obligation to keep the university informed of the progress of any criminal charge(s); and (3) The student’s obligation to advise the university of the final disposition of any criminal charge(s). The university will cooperate with law enforcement and other agencies administering a corrective or rehabilitative program for the student.

**WAC 172–121–070 Conduct review officials.** The director of SRR shall: (a) Serve as the primary point of contact for all matters relating to student conduct code violations and proceedings; (b) Manage the proceedings as described in this chapter; (c) Maintain all records of conduct review proceedings as described in WAC 172–121–080; (d) Ensure complaints of harassment or sexual misconduct involving students are promptly investigated and resolved as required by federal and state laws. (2) Conduct review officer: The university president shall designate one or more conduct review officers. The director of SRR may be designated as a conduct review officer. The conduct review officer(s) shall: (a) Preside over conduct review proceedings under this chapter; and (b) Review off-campus incidents of alleged misconduct and make determinations as to whether the conduct involved adversely affects the university community and/or the pursuit of its objectives. (3) Student disciplinary council: The student disciplinary council hears cases of student conduct code violations as described in WAC 172–121–120. The council also serves as an appeal authority under WAC 172–121–130. (a) Council pool: For each academic year, a pool of council members shall be established based on availability. Appointment of council pool members and their terms of service are as follows: (i) Faculty: Three faculty members shall be selected by the faculty senate for three-year terms; (ii) Staff: Three university staff members shall be appointed by the university president for three-year terms; (iii) Students: Six students shall be appointed by the president of the ASEWU for one-year terms. Student appointments shall be made with the advice and consent of the associated students’ legislature, as described in the constitution of the ASEWU. Students holding a position with any of the associated student courts, or who are in any way affiliated with any judicial, quasi-judicial, or advocacy position with the courts of the ASEWU, may not be appointed to the council pool; (iv) Community members: One or more members of the local community may be appointed by the university president. Community members serve until either the community member or university president elects to sever the appointment, up to a maximum period of three years. Community members shall be considered school officials while acting in their capacities as community members on the student disciplinary council and shall sign statements indicating they will comply with the confidentiality requirements of the Family Educational Rights and Privacy Act; (v) Council chair: The director of SRR, or designee, shall serve as chair of the council proceedings but will not have the right to vote; (vi) Vacancies: Council pool vacancies shall be filled as needed by the designated appointing authority. (b) Session council: When a student disciplinary council is needed for a hearing or an appeal, council members shall be selected from the council pool as follows: (i) Composition: A session council will typically consist of one nonvoting chair, two student members, and two faculty or staff members. The faculty/staff members may be both faculty, both staff, or one faculty and one staff member. The number of council members may vary, so long as quorum requirements are met. A community member may also serve on a session council, at the discretion of the director of SRR; (ii) Selection: The director of SRR shall select available members from the council pool to serve as the session council.

**WAC 172–121–075 Conflicts of interest.** (1) Individuals who play a role in receiving, investigating, and otherwise processing complaints shall not have any conflict of interest in the process. In the event such a conflict arises in the process, the person shall disclose such interest to both parties. Parties to the complaint who believe a university official involved in the process has a conflict of interest may report such concerns to the director of SRR of the dean of students. The director or dean shall determine whether a conflict of interest exists and take appropriate action. (2) Challenges to council membership. Members of the student disciplinary council shall not participate in any case in which they are the accused, the complainant, a victim, or a witness; in which they have a personal interest or bias; or in which they have acted previously in an investigatory, advisory, or adjudicatory capacity. (a) If a member has such a conflict, the person shall recuse themselves from further involvement in the case. In the event such a conflict arises after the council has been selected or during a proceeding, the member shall disclose the conflict to the parties. (b) A member’s eligibility to participate in a case may be challenged by parties to the case or by other council members at any time. When such a challenge is made, the session council shall make a decision on the challenge. (c) If a member is disqualified or disqualifies themselves from a case, the director of SRR will appoint a replacement.

**WAC 172–121–080 Administration and records.** (1) Student conduct code. (a) Interpretation: Any question regarding the interpretation or application of this student conduct code are referred to the vice president for student affairs for final determination. (b) Review: This student conduct code shall be reviewed every three years under the direction of the vice president for student affairs. (2) Records of conduct review proceedings. (a) Records of conduct review proceedings under this chapter shall be prepared by the conduct review official(s) involved and maintained by the director of SRR. As much as possible, records should include: (i) A summary of the proceedings during a preliminary conference; (ii) An audio recording of conduct review hearings; (iii) All letters, statements, memoranda, decisions, orders, notices, and
other documents related to conduct review proceedings; and (iv) Any images, articles, recordings, or other materials presented as evidence in a conduct review proceeding. (b) The director of SRR shall keep records of conduct review proceedings for seven years. (c) Records of conduct review proceedings are the property of the university and are confidential to the extent provided in applicable law. (d) Prior to the final disposition of a case, the accused may review the records relative to their case. The accused shall request to review the case records by contacting the conduct review officer. The conduct review officer shall make every reasonable effort to support the accused’s request. (3) Student disciplinary records. (a) Student disciplinary records are confidential and shall be treated consistently with the requirements of the Family Educational Rights and Privacy Act (FERPA) and applicable law. Disciplinary records shall be maintained in accordance with the university’s records retention schedule. (b) Release of student disciplinary records. The university shall not communicate a student’s disciplinary record to any person or agency outside the university without the prior written consent of the student, except as required or permitted by law. Exceptions include but are not limited to: (i) The student’s parents or legal guardians may review these records as permitted by FERPA (20 U.S.C. Sec. 1232g; 34 CFR Part 99). (ii) Release to another educational institution, upon request, where the student seeks or intends to enroll, as allowed by FERPA (20 U.S.C. Sec. 1232g; 34 CFR Part 99). (iii) In response to a judicial order or a lawfully issued subpoena. (iv) The university shall release information related to disciplinary records to complainants, victims, or other persons as required by Title IX of the Education Amendments of 1972, the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act, and other state and federal laws. (v) Disciplinary records will be made available to hearing councils and university personnel as needed for legitimate educational purposes. (vi) A student may authorize release of their own disciplinary record to a third party in compliance with FERPA (20 U.S.C. Sec. 1232g; 34 CFR Part 99) by providing a written consent to student rights and responsibilities. (vii) Any student may review his/her own disciplinary records by contacting student rights and responsibilities. (viii) A student may obtain a copy of their disciplinary record by making a written request to student rights and responsibilities. Student rights and responsibilities may charge the student a reasonable amount to cover copying expenses. (ix) The university may disclose to the student’s parents a violation of any federal, state, or local law, or of any university policy or rules regarding use or possession of alcohol or a controlled substance so long as the student is under the age of twenty-one at the time of the disclosure to the parent. (c) When disciplinary records are released, personally identifiable information may be redacted to protect the privacy of others as permitted by law. (4) Holds: (a) Types of holds. Holds placed on a student’s academic records may prevent admission, registration, graduation, or other academic activities. Holds may also restrict access to transcripts, grades, or other academic records. (b) Discretionary holds: The conduct review officer may place a hold on a student’s academic records in either of the following situations: (i) Pending the student’s satisfactory completion of any sanctions imposed by a conduct review hearing; or (ii) If the student fails to respond to any properly delivered notice from the conduct review officer. (c) Required holds: The conduct review officer shall place a hold on a student’s academic record if the student is accused of violating the conduct code and has withdrawn from the university, or if the student withdraws from the university after a complaint is filed against the student. This hold shall remain in place until the allegation or complaint is resolved.

WAC 172–121–100 Complaints. (1) Filing of complaints. (a) Any person may file a complaint against a student or student organization for any violation of the student conduct code. (b) A person wishing to file a complaint under the student conduct code must submit the complaint, in writing, to one of the following: (i) Student rights and responsibilities; or (ii) The office of the dean of students. (c) Filing a complaint under the student conduct code does not prohibit or limit a person’s right to file complaints or charges with other civil or criminal authorities for violations of local, county, state, or federal law. (d) All student conduct code complaints will be forwarded to the director of SRR for further review and action. (e) In cases where the university is acting as the complainant, the director of SRR shall initiate the complaint. (2) Complaint review. Upon receipt of a complaint, the director of SRR shall review the complaint to determine whether it includes allegations of harassment, sexual misconduct, and/or criminal conduct that will require special processing under subsection (3) of this section and whether appropriate law enforcement or other authorities should be notified. Special rules for complaints of harassment and/or sexual misconduct. Except where specifically stated, this section applies to all allegations the university receives of harassment and/or sexual misconduct. This section shall not apply regardless of where the alleged acts occurred. (a) Report to Title IX coordinator. The director of SRR shall report all complaints which may constitute any form of harassment and/or sexual misconduct to the university Title IX coordinator within two business days. (b) Prompt resolution. The university shall investigate any complaint alleging harassment and/or sexual misconduct when it is legally required to do so to determine if the university will pursue the incident under the student conduct code and/or refer the incident to other departments or agencies for further criminal, civil, or disciplinary action. All allegations of harassment and/or sexual misconduct shall be promptly investigated and resolved. In the absence of extenuating circumstances, the university will seek to have the allegations resolved within sixty days from the date it is notified of the allegation. (c) Confidentiality. To facilitate the investigative process and protect the privacy of those involved, all information will be maintained in a confidential manner to the fullest extent permissible by law. During an investigation, complaint information will be disseminated on a need-to-know basis. If the complainant or victim wishes to remain anonymous, the university will take all reasonable steps to investigate the allegation without disclosing the name of the complainant to the extent allowed by state and federal law. If the complainant or victim wishes to remain anonymous, the university shall inform them that its ability to investigate and respond to the allegation will be limited. The university cannot ensure confidentiality, as its legal obligations under federal or state law may require investigation of the allegation and possible disclosure of the complainant’s name. Reports of crimes to the campus community shall not include the names of the complainants or victims. Files subject to public disclosure will be released to the extent required by law. (d) Right to file a criminal report. Once the university is notified of an allegation of sexual harassment, gender-based harassment, stalking, or any form of sexual misconduct, it will notify the potential victim of their right to file a criminal complaint with campus or local law enforcement. If the victim in such circumstances wishes to report the conduct to local law enforcement, the university will assist them in doing so. The university will also notify the victim that he or she is not required to file a report with local law enforcement. The university will report allegations of harassment or sexual misconduct to law enforcement or other authorities consistent with federal, state, and local law. (4) Interim measures. During the complaint review, the director of SRR will evaluate the circumstances and recommend to the dean of students if any interim restriction action against the accused is warranted or if any interim measures to assist or protect the complainant and/or victim during the conduct code process are needed. In cases of alleged harassment and/or sexual misconduct, the director of SRR shall, in conjunction with the dean of students and other appropriate university officials, take immediate steps to protect the complainant and/or victim from further harassment.
prior to completion of the investigation/resolution of the complaint. Appropriate steps may include separating the accused harasser and the complainant/victim, providing counseling for the complainant/victim and/or harasser, and/or taking disciplinary action against the accused. (5) Inform complainant. As part of the complaint review process, the director of SRR will follow up with the complainant as described below. (a) For cases other than harassment and/or sexual misconduct, the director of SRR will contact the complainant and provide them with the following information: (i) The complainant’s rights under the student conduct code; (ii) The allegations which the complainant has against the accused; (iii) The potential conduct code violations related to the allegations. (iv) How to report any subsequent problems or retaliation, including intimidation, threats, coercion, or discrimination. (b) In all cases alleging harassment or sexual misconduct, the director of SRR will provide the complainant with written notification that will include, at a minimum: (i) The student’s rights and options, including options to avoid contact with the respondent, available resources to assist the student regarding academic, living, transportation and working situations, and possible protective measures they can take; (ii) Procedures to follow to preserve evidence of the alleged incident; (iii) Who will receive a report of the allegation; (iv) Their right to file or not file a criminal complaint as detailed above; (v) A list of resources for obtaining protective, no contact, restraining, or similar orders, if applicable; (vi) The procedures the university will follow when determining if discipline is appropriate; (vii) Steps the university will take to ensure confidentiality and the limits this may place on the university’s ability to investigate and respond, as set forth above; and (viii) Information regarding the university’s policy against retaliation, steps the university will take to prevent and respond to any retaliation, and how the student should report retaliation or new incidents. (6) Following the complaint review, the director of SRR will either dismiss the matter or arrange a preliminary conference. (a) Dismiss the matter. If the director of SRR believes that there is insufficient justification or insufficient evidence to pursue conduct review proceedings against the accused, he/she may dismiss the matter. In such cases, the director of SRR will prepare a written record of the dismissal. The director of SRR will also notify the complainant of their decision, if such notification is appropriate and feasible. The dismissal letter, along with the original complaint and any other related documents, will be maintained as described in WAC 172-121-080. In cases of harassment and/or sexual misconduct, the complainant/victim may request a review of the dismissal by the dean of students. (b) Preliminary conference. If the director of SRR does not dismiss the matter he/she will arrange a preliminary conference as described in WAC 172-121-110. WAC 172-121-105 Conduct review proceedings (1) General provisions. (a) All conduct review proceedings are brief adjudicative proceedings in accordance with WAC 172-108-010(3) and shall be conducted in an informal manner. (b) Nonjudicial proceedings: Formal rules of process, procedure, and/or technical rules, such as are applied in criminal or civil courts, do not apply in student conduct code proceedings. (2) Notification for student organizations: When a charge is directed towards a student organization, the conduct review officer will communicate all matters relative to conduct review proceedings with the president of the organization or their designee. (3) Advisors: The complainant, victim, and the accused may be assisted by one advisor of their choice, subject to the following provisions: (a) Any fees or expenses associated with the services of an advisor are the responsibility of the complainant, victim, or the accused that employed the advisor; (b) The advisor may be an attorney; (c) The complainant and the accused are responsible for presenting their own case and, therefore, advisors may not speak or participate directly in any conduct review proceeding. The complainant and/or the accused may, however, speak quietly with their advisor during such proceedings; and (d) If an attorney is used as an advisor, the person using the attorney shall inform the conduct review officer or the council of their intent to do so at least two business days prior to any conduct review proceeding. (4) Evidence: The accused, and, in cases of harassment and/or sexual misconduct, the complainant/victim may request to view material related to their case prior to a scheduled hearing by contacting the conduct review officer. To facilitate this process, the party should contact the conduct review officer as early as possible prior to the scheduled hearing. The conduct review officer shall make a reasonable effort to support the request to the extent allowable by state and federal law WAC 172-121-110 Preliminary conference. 1) Scheduling: If, after reviewing a complaint, the director of SRR decides to initiate conduct review proceedings, the director shall, within ten business days of receiving the initial complaint, appoint a conduct review officer (CRO) to the case and notify the accused. In cases alleging harassment and/or sexual misconduct, the CRO assigned must have completed training on issues relating to harassment and sexual misconduct, including Title IX requirements. Notification of the accused must: (a) Be made in writing; (b) Include a written list of charges against the accused; and (c) Include the name of the conduct review officer assigned to the case and the deadline for the accused to contact the conduct review officer in order to schedule a preliminary conference. Whenever possible, the deadline for the accused to contact the CRO will be within five business days of the date the director of SRR sent notification to the accused. (2) Failure to respond: If the accused fails to comply with the notification requirements, the director of SRR shall schedule the preliminary conference and notify the accused. The notification shall be in writing and shall include a date, time, and location of the preliminary conference. (3) Follow up with complainant/victim. In all cases alleging harassment and/or sexual misconduct, the CRO shall notify the complainant(s) of the date, time, and location of the preliminary conference and of their right to attend the conference. The CRO shall also follow up with the complainant(s)/victim(s) to determine whether any retaliation or new incidents of harassment have occurred. If the complainant/victim has experienced any type of retaliatory behavior, the university shall take immediate steps to protect the complainant/victim from further harassment or retaliation. (4) Appearance. Except for cases alleging harassment and/or sexual misconduct, only the accused and the accused’s advisor may appear at the preliminary conference. In cases alleging harassment and/or sexual misconduct, the accused and the complainant/victim, along with their advisors, if they choose to have an advisor, may appear at the preliminary conference. (5) Failure to appear. In cases where proper notice has been given but the accused fails to attend the preliminary conference, the conduct review officer may: (a) Proceed with a hearing and decide the case based on the information available; or (b) Place a hold on the accused’s academic records as described in WAC 172-121-080. (6) Proceedings. During the preliminary conference, the conduct review officer will: (a) Review the written list of charges with the accused; (b) Inform the accused who is bringing the complaint against them; (c) Provide the accused with a copy of the student conduct code and any other relevant university policies; (d) Explain the accused’s and complainant’s rights under the student code; (e) Explain the conduct review procedures; (f) Explain the accused’s rights and responsibilities in the conduct review process; and (g) Explain possible penalties under the student conduct code. (7) After the preliminary conference, the conduct review officer will take one of the following actions: (a) Conduct a summary hearing with the accused as described in WAC 172-121-120; (b) Schedule a summary hearing with the accused as described in WAC
172–121–120 Hearings. The provisions of subsections (1) through (8) of this section apply to both summary hearings and to council hearings. (1) General provisions. (a) Hearing authority: The hearing authority exercises control over hearing proceedings. All procedural questions are subject to the final decision of the hearing authority. (b) Closed hearings: All conduct review hearings will be closed. Admission of any person to a conduct review hearing shall be at the discretion of the hearing authority. (c) Consolidation of hearings: In the event that one or more students are charged with the same misconduct arising from the same occurrence, the hearing authority may conduct separate hearings for each student or consolidate the hearings as practical, as long as consolidation does not impinge on the rights of any student. (2) Appearance. (a) Failure to appear: In cases where proper notice has been given but the accused fails to attend a conduct review hearing, the hearing authority shall decide the case based on the information available, without the accused’s input. (b) Complainant’s appearance: The complainant will be provided options for reasonable alternative arrangements if they do not wish to be present in the same room as the accused student during the hearing. The complainant may appear at the conduct review hearing in person, through telephone conference, or through any other practical means of communication, so long as the complainant’s identity can be reasonably established. (c) Advisors: The complainant and the accused may be assisted by an advisor during conduct review hearings as described in WAC 172–121–090. (d) Disruption of proceedings: Any person, including the accused, who disrupts a hearing, may be excluded from the proceedings. (e) Telephonic appearance. In the interest of fairness and expedience, the hearing authority may permit any person to appear by telephone, audio tape, written statement, or other means, as appropriate. (3) Evidence. (a) Evidence: Pertinent records, exhibits and written statements may be accepted as information for consideration by the hearing authority. However, hearing authorities are not bound by the rules of evidence observed by courts. The hearing authority may exclude incompetent, irrelevant, immaterial or unduly repetitious material. (b) The accused, and in cases of sexual harassment or sexual misconduct, the complainant and/or victim, have the right to view all material presented during the course of the hearing. (4) Standard of proof. The hearing authority shall determine whether the accused violated the student conduct code, as charged, based on a preponderance of the evidence. A preponderance means, based on the evidence admitted, whether it is more probable than not the accused violated the student conduct code. (5) Sanctions. In determining what sanctions shall be imposed, the hearing authority may consider the evidence presented at the hearing as well as any information contained in the student’s disciplinary and academic records. If a student fails to appear for a hearing, then the hearings authority shall review the evidence provided and may consider information available from the student’s disciplinary and academic records in determining what sanction should be imposed. (6) Witnesses. (a) The complainant, victim, accused and hearing authority may present witnesses at council review hearings. (b) The party who wishes to call a witness is responsible for ensuring that the witness is available and present at the time of the hearing. (c) The hearing authority may exclude witnesses from the hearing room when they are not testifying. The hearing authority is not required to take the testimony of all witnesses called by the parties is such testimony may be inappropriate, irrelevant, immaterial, or unduly repetitious. (d) The accused has the right to hear or view all information provided by witnesses during the hearing. (7) Questioning: (a) The complainant and the accused may submit questions to be asked of each other or of any witnesses. Questions shall be submitted, in writing, to the hearing authority. The hearing authority may ask such questions, but is not required to do so. The hearing authority may reject any question which it considers inappropriate, irrelevant, immaterial or unduly repetitious. The hearing authority has complete discretion in determining what questions will be asked during the hearing. (b) During a conduct review hearing, only the hearing authority may pose questions to persons appearing before them. (c) The hearing authority may ask their own questions of any witness called before them. (8) The hearing authority may accommodate concerns for personal safety, well-being, or fears of confrontation of any person appearing at the hearing by providing separate facilities, or by permitting participation by telephone, audio tape, written statement, or other means, as determined appropriate. (9) Summary hearing procedures. (a) The conduct review officer may hold a summary hearing with the accused only if all of the following conditions are met: (i) The accused waives his/her right to prior notice about a conduct review hearing; (ii) The accused requests that the case be heard in a summary hearing with the conduct review officer; and (iii) The conduct review officer agrees to conduct the summary hearing. The conduct review officer is not obligated to conduct a summary hearing, but may instead refer the case to the student disciplinary council for a council hearing. (b) Sexual misconduct cases. Allegations of sexual misconduct may not be resolved through a summary hearing but must be referred for a council hearing, unless the case has been otherwise resolved. (c) Scheduling. The summary hearing may take place immediately following the preliminary conference or it may be scheduled for a later date or time, except that, in cases of harassment, a summary hearing cannot take place without first notifying the complainant/victim of the hearing. If the summary hearing will be held at a later date or time, the conduct review officer shall schedule the hearing and notify the accused and, in the case of harassment, the complainant/victim of the date, time, and place of the hearing. The conduct review officer may coordinate with the parties to facilitate scheduling, but is not required to do so. (d) If the accused fails to appear at the summary hearing, the conduct review officer may conduct the summary hearing without the accused present or refer the case to the student disciplinary council for a council hearing under WAC 172–121–110. The conduct review officer may also place a hold on the accused’s academic records under WAC 172–121–080. (e) Deliberation: After the hearing, the conduct review officer shall decide whether the accused violated the student conduct code based on a preponderance of the evidence. (i) If the conduct review officer determines that there is not sufficient information to establish a violation by a preponderance of evidence, the conduct review officer shall dismiss the complaint. (ii) If the conduct review officer determines that the accused violated the student conduct code, the conduct review officer shall impose any number of sanctions as described in WAC 172–121–210. (f) Notification. The conduct review officer shall notify the accused, in writing, of the summary hearing outcome and the right to appeal. In the case of sexual harassment, gender-based harassment, or stalking, the victim shall be provided with written notice of: (i) The university’s determination as to whether such harassment occurred; (ii) the victim’s right to appeal; (iii) any change to the results that occurs prior to the time that such results become final; and when such results become final (20 U.S.C. 1092(f)). Information regarding the discipline of the accused will not be released unless: (A) The information contained in the record directly relates to the complainant, such as an order requiring the student harasser to not contact the complainant; or (B) The misconduct involves a crime of violence or a sexual assault, including rape, dating violence, domestic violence or stalking as defined in 42 U.S.C. Sec. 13925(a). (10) Council hearing procedures. (a) Scheduling and notification. If the conduct review officer has decided to refer the case to the student disciplinary council for a council hearing, the director of SRR shall schedule the hearing and notify the council, accused and
WAC 172-121-130 Appeals. (1) Basis: Appeals may be filed by the accused or the complainant. In cases of harassment and/or sexual misconduct, the victim may also file an appeal. Appeals may be filed for one or more of the following reasons: (a) To determine whether the hearing was conducted according to established procedures. A hearing may have deviated from established procedures if: (i) The hearing was not conducted fairly in light of the charges and information presented; (ii) The complainant was not given a reasonable opportunity to prepare and to present information as provided by the student conduct code; (iii) The accused was not given a reasonable opportunity to prepare and to present a response as provided by the student conduct code. (b) The hearing authority misinterpreted the student conduct code. (c) To determine whether the decision reached by the hearing authority was based on the information presented and that the information was sufficient to reasonably establish that a violation of the conduct code did or did not occur based on a preponderance of the evidence. (d) To determine whether the sanction(s) imposed were reasonable and appropriate for the associated conduct code violation(s). (e) To consider newly discovered, material information which was not known to the appellant and could not reasonably have been discovered and presented by the appellant at the original hearing. It is the party's obligation to present all evidence and the university is not obligated to grant an appeal and conduct a new hearing when parties do not take reasonable efforts to prepare their cases for the original hearing. (2) Filing: Appeals may be filed following a conduct review hearing, subject to the following provisions: (a) The appeal must be submitted to the director of student rights and responsibilities within five business days of receipt of the decision; (b) The appeal shall be in writing and shall include: (i) The appellant's name; (ii) The nature of the decision and sanctions reached by the hearing official; (iii) The basis, as described in subsection (1) of this section, for the appeal; and (iv) What remedy the appellant is seeking. (3) Appeal authorities: (a) For summary hearings heard by the conduct review officer, appeals are determined by the student disciplinary council. (b) For student disciplinary council hearings, appeals are determined by the dean of students. (4) Forwarding of appeals: The director of SRR shall forward the appeal to the appropriate appeal authority. The submitted appeal will include, at a minimum, the appellant’s written appeal and the written report of the case. The director of SRR may also forward any other written records related to the case. (5) Review of appeals: (a) Before rendering a decision, the appeal authority may request additional information or explanation from any of the parties to the proceedings. (b) Except as required to explain the basis of new information, an appeal shall be limited to a review of the verbatim record of the conduct review hearing and supporting documents. (c) In making its decision, the appeal authority will only consider the written record before it, the appellant’s notice of appeal and other information and/or explanation it has requested from the parties to the proceedings. (6) Decisions: After reviewing the appeal, the appeal authority may affirm, reverse, or remand the decision(s) of the hearing authority. (7) Remanded cases: In cases where the appeal authority remands the decision or sanction(s) of the hearing authority, the case will be returned to the hearing authority for reconsideration or other action as specified by the appeal authority. Following such reconsideration, the hearing authority will return the case to the appeal authority for further review/action. The appeal authority will then complete the appeal process or remand the case again. No appeal may, however, be remanded more than two times. After a case has been remanded twice, the appeal authority must affirm or reverse the decision and affirm, reverse, or modify the sanctions. (8) Sanctions: The appeal authority may affirm, reverse, remand, or modify the sanctions assigned to the accused. When determining sanctions, the appeal authority may consider the complete record of the accused’s prior conduct and academic performance in addition to all other information associated with the case. (9) Notification: Once the appeal authority has made a final decision to affirm or reverse and/or to modify the sanctions assigned, the appeal authority shall forward the decision to the director of SRR. The director of SRR shall notify, in writing, the accused, and, in cases of harassment or sexual misconduct, the complainant and victim, of the outcome of the appeal. (10) Further proceedings. The appeal authority's decision is final and no further appeals may be made under the student conduct code. (11) Appeals standards: (a) Appeal authorities must weigh all pertinent information presented to them in determining whether sufficient evidence exists to support reversal or modification of decisions or sanctions. (b) For appeals based on a deviation from established procedures, such deviations will not be a basis for sustaining an appeal unless the alleged deviation materially changed the outcome of the case or the sanctions imposed.

WAC 172-121-140 Interim restriction. In situations where there is cause to believe that a student or a student organization endangers the health, safety, or welfare of themselves, the university community, or property of the university community, the dean of students may take immediate action(s) against the student or student organization without prior notice or hearing. Simultaneous with such action(s), the dean of students will refer the charges to the conduct review officer, who will process such charges in accordance with the provisions of this student conduct code. Interim restriction is subject to the following: (1) Interim restriction actions may only be imposed in the following situations: (a) When a student or student organization poses an immediate threat to: (i) The health, safety or welfare of any part of the university community or public at large; (ii) The student’s own physical safety and well-being; or (iii) Any property of the university community; (b) When it is believed that the student’s or student organization’s continued attendance or presence may cause disorder, substantially interfere with or impede the lawful activities of others, or imperil the physical or mental health and safety of members of the university community; or (c) When a student is undergoing criminal proceedings for any felony charge. (2) During the interim restriction period, a student may be restricted by any or all of the following means: (a) Denial of access, including but
not limited to: Assignment to alternate university housing or removal from university housing, limitation of access to university facilities, or restriction of communication with specific individuals or groups; (b) Interim suspension, including temporary total removal from the university or restriction of access to campus; (c) Mandatory medical/ psychological assessment of the student’s capability to remain in the university. (3) The dean of students will determine what restriction(s) will be placed on a student. (4) All interim restrictions that involve any type of restriction from any university premises will be accomplished by giving a notice against trespass. The notice against trespass may be given by any manner specified in WAC 172–122–200. (5) The dean of students will prepare a brief memorandum for record containing the reasons for the interim restriction. The dean of students will forward copies of the memorandum for record by personal delivery or by U.S. mail to the restricted student, student rights and responsibilities, and all other persons or offices bound by it. At a minimum, the memorandum will state: (a) The alleged act(s) or behavior(s) of the student or student organization which prompted the interim restriction; (b) How those alleged act(s) or behavior(s) constitute a violation of the student conduct code; and (c) How the circumstances of the case necessitated the interim restriction action(s). (6) In all such cases, the student or student organization may appeal the interim restriction to the vice president for student affairs. The challenge must be submitted, in writing, within ten business days after the interim restriction action is taken, unless the student requests an extension. Requests for extension will only be granted to review the following issues: (a) The reliability of the information concerning the student’s behavior; and (b) Whether the student’s continued presence or prior or present behavior warrants interim restriction for the causes listed in subsection (1) of this section. (7) As a result of the challenge, the vice president for student affairs will schedule a meeting with the accused. The vice president for student affairs may have the dean of students or any other person deemed relevant attend the meeting. The accused may have an advisor present at the meeting so long as the name of that person is provided to the director of SRR at least two business days prior to the scheduled meeting. (8) During the appeal meeting, the vice president for student affairs will review available materials and statements. After the meeting, the vice president for student affairs may uphold, modify, or terminate the interim restriction action. (9) The interim restriction does not replace the regular hearing process, which will proceed consistent with this chapter. (10) Duration. An interim restriction will remain in effect until terminated, in writing, but the student disciplinary council or the vice-president for student affairs.

**WAC 172–121–200 Violations.** The following are defined as offenses which are subject to disciplinary action by the university. (1) Acts of academic dishonesty. University policy regarding academic dishonesty is governed by the university academic integrity policy. However, repeated violations, as described in the academic integrity policy, are subject to action under the student conduct code. Academic dishonesty includes, but is not limited to, any of the following activities: (a) Plagiarism: Representing the work of another as one’s own work; (b) Preparing work for another that is to be used as that person’s own work; (c) Cheating by any method or means; (d) Knowingly and willfully falsifying or manufacturing scientific or educational data and representing the same to be the result of scientific or scholarly experiment or research; (e) Knowingly furnishing false information to a university official relative to academic matters. (2) Acts of social misconduct. (a) Abuse. Physical abuse, verbal abuse, and/or other conduct which threatens or endangers the health or safety of any person. (b) Bullying. Bullying is behavior that is: (i) Intentional; (ii) Targeted at an individual or group; (iii) Repeated; (iv) Objectively hostile or offensive; and (v) Creates an intimidating and/or threatening environment which produces a risk of psychological and/or physical harm. (c) Domestic violence and dating violence. (i) Domestic violence means: (A) Physical harm, bodily injury, assault, or the infliction of fear of imminent physical harm, bodily injury or assault, between family or household members; (B) Sexual assault of one family or household member by another; or (C) Stalking of one family or household member by another family or household member. (ii) Dating violence is a type of domestic violence, except the acts specified above are committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim. In determining whether such a relationship exists, the following factors are considered: (A) The length of time the relationship has existed; (B) The nature of the relationship; and (C) The frequency of interaction between the parties involved in the relationship. (d) Harassment, gender-based harassment, and sexual harassment. (i) Harassment is conduct by any means that is sufficiently severe, pervasive, or persistent, and objectively offensive so as to threaten an individual or limit the individual’s ability to work, study, participate in, or benefit from the university’s programs or activities. (ii) Gender-based harassment includes nonssexual acts of verbal, nonverbal, or physical aggression, intimidation, or hostility based on a person’s gender or nonconformity with gender stereotypes. Gender-based harassment violates this code and Title IX when it is sufficiently severe, pervasive, or persistent such that it denies or limits another’s ability to work, study, participate in, or benefit from the university’s programs or activities. (iii) Sexual harassment is unwelcome conduct of a sexual nature and may include unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment violates this code and Title IX when it is sufficiently severe, pervasive, or persistent such that it denies or limits another’s ability to work, study, participate in, or benefit from the university’s programs or activities. In determining whether any of the above-listed types of harassment are severe, pervasive, or persistent, the university shall consider all relevant circumstances from both an objective and subjective perspective, including the type of harassment (verbal or physical); the frequency and severity of the conduct; the age, sex, and relationship of the individuals involved; the degree to which the conduct affected the victim; the setting and context in which the harassment occurred; whether other incidents have occurred at the university; and other relevant factors. (e) Retaliation. Any actual or threatened retaliation or any act of intimidation intended to prevent or otherwise obstruct the reporting of a violation of this code is prohibited and is a separate violation of this code. Any actual or threatened retaliation or act of intimidation directed towards a person who participates in an investigation or disciplinary process under this code is prohibited and is a separate violation of this code. (f) Sexual misconduct. Sexual violence, such as rape, sexual assault, sexual battery, and sexual coercion, are types of sexual misconduct. Sexual violence is sexual intercourse or sexual contact with a person without his or her consent or when the person is incapable of giving consent. Consent means actual words or conduct indicating freely given agreement to the sexual act. Consent cannot be inferred from silence, passivity, or lack of active resistance. There is no consent where there is a threat of force or violence or any other form of coercion or intimidation, physical or psychological. Sexual activity is nonconsensual when the victim is incapable of consent by reason of mental incapacity, drug/alcohol use, illness, unconsciousness, or physical condition. Sexual misconduct also includes, but is not limited to, indecent liberties, indecent exposure, sexual exhibitionism, sex-based cyber-harassment, prostitution or the solicitation of a prostitute, peeping or other voyeurism, or going beyond the boundaries of consent, such as by allowing others to view consensual sex or the nonconsensual recording of sexual activity. (g) Stalking. Stalking is engaging in a course of conduct directed at a specific person...
that would cause a reasonable person to: (i) fear for their health and/or safety or the health/safety of others; or (ii) Suffer substantial emotional distress. (h) Unauthorized use of electronic or other devices: Making an audio or video recording of any person while on university premises without the person’s prior knowledge or without their effective consent, when such a recording is of a private conversation or of images taken of a person(s) at a time and place where the person would reasonably expect privacy and where such recordings are likely to cause injury or distress. This includes, but is not limited to, surreptitiously taking pictures of another person in a gym, locker room, or restroom, but does not include taking pictures of persons in areas which are considered by the reasonable person to be open to public view. (3) Property violations. Theft of, or damage to, or misuse of another person’s or entity’s property. (4) Weapons. No individual shall have on their person, in their vehicle or otherwise in their possession any weapon, explosive, dangerous chemical or other dangerous instrument except as described in (a) through (c) of this subsection. Examples of weapons under this section include, but are not limited to: Shotguns, rifles, pistols, air guns, BB guns, pellet guns, longbows, hunting bows, throwing weapons, stun guns, electroshock weapons, and any item that can be used as an object of intimidation and/or threat, such as replica or look-a-like weapons. : (a) Authorized law enforcement officers are permitted to carry arms while on duty and engaged in their regular duties; (b) Activities requiring use of the prohibited items may be conducted on approval of the activity by the board of trustees; (c) Persons are permitted to have firearms in their possession directly en route to or from campus firearm storage facilities where such possession is incidental to approved on or off campus possession or use of such firearms. (5) Failure to comply. (a) Failure to comply with lawful and/or reasonable directions of university officials or law enforcement officers acting in performance of their duties on campus or affecting conduct on campus; (b) Failure to identify oneself to university officials in their course of duty, refusal or failure to appear before university officials or disciplinary bodies when directed to do so; (c) Failure to attend any medical treatment or evaluation program when directed to do so by the dean of students, or other authorized university official. (6) Trespassing/unauthorized use of keys. (a) Trespass. Entering or remaining on university property without authorization. (b) Unauthorized use of keys and unauthorized entry. Unauthorized possession, duplication, or use of university keys or access cards. (7) Deception, forgery, fraud, unauthorized representation. (a) Knowingly furnishing false information to the university. (b) Forgery, alteration, or misuse of university documents, records, or instruments of identification. This includes situations of identity theft where a person knowingly uses or transfers another person’s identification for any purpose. (c) Forgery or issuing a bad check with intent to defraud. (d) Unauthorized representation. The unauthorized use of the name of the university or the names of members or organizations in the university community. (8) Safety. (a) Intentionally activating a false fire alarm. (b) Making a bomb threat. (c) Tampering with fire extinguishers, alarms, or safety equipment. (d) Tampering with elevator controls and/or equipment. (e) Failure to evacuate during a fire, fire drill, or false alarm. (9) Alcohol, drugs, and controlled substances. (a) Alcohol and substance violations. Use, possession, distribution, or sale of alcoholic beverages (except as permitted by university policy and state law) is prohibited. Under no circumstances may individuals under the age of twenty-one use, possess, distribute, manufacture or sell alcoholic beverages. Public intoxication is also prohibited. (b) Illegal drugs and paraphernalia. Use, possession, distribution, manufacture, or sale of marijuana, drug paraphernalia, and/or illegal drugs, narcotics or controlled substances, is prohibited except. (ii) Being under the influence of marijuana or an illegal substance, while on property owned or operated by the university, is prohibited. Being under the influence of a controlled substance, except when legally prescribed by a licensed medical practitioner, is also prohibited while on property owned or operated by the university. (10) Hazing. Any act which, for the purpose of initiation, admission into, affiliation with, or as a condition for continued membership in, a group or organization: : (a)Endangers the mental or physical health or safety of any student or other person; (b) Destroys or removed public or private property; or (c) Compels an individual to participate in any activity which is illegal contrary to university rules. The express or implied consent of any participant is not a defense. A person who is apathetic or acquiesces in the presence of hazing violates this rule. (11) Disruptive conduct/obstruction. (a) Disruptive conduct. Conduct which unreasonably interferes with any person’s ability to work or study, or obstructs university operations or campus activities. . (b) Disorderly conduct. Conduct that is disorderly, lewd, indecent or a breach of peace. (c) Obstruction. Obstruction of the free flow of pedestrian or vehicular traffic on university premises or at university sponsored or university-supervised events. (d) Demonstration. Participation in a campus demonstration which violates university regulations. (a) Violation of a local, county, state, or federal law. (b) Violation of other university policies or regulations. (13) Assisting/attempts. Soliciting, aiding, abetting, concealing, or attempting conduct in violation of this code. (14) Acts against the administration of this code. (a) Initiation of a complaint or charge knowing that the charge was false or with reckless disregard of its truth. (b) Interference with or attempt to interfere with the enforcement of this code, including but not limited to, intimidation or bribery of hearing participants, acceptance of bribes, dishonesty, or disruption of proceedings and hearings held under this code. (c) Knowing violation of the terms of any disciplinary sanction or attached conditions imposed in accordance with this code. (15) Other responsibilities: (a) Guests. A student, student group or student organization is responsible for the conduct of guests on or in university property and at functions sponsored by the university or sponsored by any recognized university organization. (b) Students studying abroad. Students who participate in any university sponsored or sanctioned foreign country study program shall observe the following rules and regulations: (i) The laws of the host country; (ii) The academic and disciplinary regulations of the educational institution or residential housing program where the student is studying; (iii) Any other agreements related to the student’s study program in the foreign country; and (iv) The student conduct code. (16) Student organization and/or group offenses. Clubs, organizations, societies or similarly organized groups in or recognized by the university and/or ASEWU are subject to the same standards as are individuals in the university community. The commission of any of the offenses in this section by such groups or the knowing failure of any organized group to exercise preventive measures relative to violations of the code by their members shall constitute a group offense. WAC 172–121–210 Sanctions. If any student or student organization is found to have committed any of the offenses described in WAC 172–121–200, one or more of the following sanctions may be imposed against the student or student organization. Failure to comply with any imposed sanction may result in additional sanctions. (1) Individual student sanctions: (a) Admonition: An oral statement to a student that he/she has violated university rules and regulations. (b) Warning: A notice to the student or student organization that they have violated the standards for student conduct and that any repeated or continuing violation of the same standard, within a specified period of time, may result in more severe disciplinary action. A warning may be verbal or written. (c) Censure: A written reprimand for violation of specified regulations. A censure will also state that more severe disciplinary sanctions may be imposed if the student or student organization is found in violation of any regulation within a stated period of time (d) Disciplinary probation:
A formal action which places one or more conditions, for a specified period of time, on the student’s continued attendance. Disciplinary probation sanctions will be executed in writing and will specify the probationary conditions and the period of the probation. A disciplinary probation notice will also inform the student that any further misconduct will automatically involve consideration of suspension. Probationary conditions may include, but are not limited to: (i) Restricting the student’s university-related privileges; (ii) Limiting the student’s participation in extra-curricular activities; and/or (iii) Enforcing a “no contact” order which would prohibit direct or indirect physical and/or verbal contact with specific individuals or groups. (e) Restitution: Reimbursement to the university or others for damage, destruction, or other loss of property suffered as a result of theft or negligence. Restitution also includes reimbursement for medical expenses incurred due to conduct code violations. Restitution may take the form of appropriate service or other compensation. Failure to fulfill restitution requirements will result in cancellation of the student’s registration and will prevent the student from future registration until restitution conditions are satisfied. (f) Fines: The university conduct officer and the student disciplinary council may assess monetary fines up to a maximum of four hundred dollars against individual students for violation of university rules or regulations or for failure to comply with university standards of conduct. Failure to promptly pay such fines will prevent the student from future registration. Failure to pay may also result in additional sanctions. (g) Discretionary sanctions: Work assignments, service to the university community or other related discretionary assignments for a specified period of time as directed by the hearing authority. (h) Loss of financial aid: In accordance with RCW 28B.30.125, a person who participates in the hazing of another forfeits entitlement to state-funded grants, scholarships or awards for a specified period of time. (i) Assessment: Referral for drug/alcohol or psychological [25] assessment may be required. Results of the assessment may lead to the determination that conditions of treatment and further assessment apply to either continued attendance or return after a period of suspension. (j) Suspension: Exclusion from classes and other privileges or activities for a specified period of time. Suspensions will be executed through a written order of suspension and will state all restrictions imposed by the suspension, as well as the suspension period and what conditions of readmission, if any, are ordered. Suspension is subject to the processes outlined in this chapter except any suspension must also be approved by the dean of students and the vice-president for student affairs before such sanction is imposed. (k) Expulsion: Permanent separation of the student from the university with no promise (implied or otherwise) that the student may return at any future time. The student will also be barred from university premises. Dismissal actions will be accomplished by issuing both an order of dismissal and a notice against trespass. The notice against trespass may be given by any manner specified in chapter 9A.52 RCW. Expulsion is subject to the processes outlined in this chapter except any suspension must also be approved by the dean of students and the vice-president for student affairs before such sanction is imposed. (l) Loss of institutional, financial aid funds: Formal withholding of all or a part of institutional funds currently being received by the student or promised for future disbursement to the student for a specified period of time. (m) Revocation of degree: A degree awarded by the university may be revoked for fraud, misrepresentation, or other violation of law or university standards. Revocation of a degree is subject to processes outlined in this chapter except that revocation of a degree must also be approved by the university president. (2) Student organizations and/or group sanctions: Any of the above sanctions may be imposed in addition to those listed below: (a) Probation: Formal action placing conditions on the group’s continued recognition by or permission to function at the university. The probationary conditions will apply for a specified period of time. Violation of the conditions of probation or additional violations while under probation may result in more severe sanctions; (b) Social probation: Prohibition of the group from sponsoring any organized social activity, party or function, or from obtaining a permission for the use of alcoholic beverages at social functions for a specified period of time; (c) Restriction: The temporary withdrawal of university or ASEWU recognition for a group, club, society or other organization. Restriction is subject to the processes outlined in this chapter except any suspension must also be approved by the dean of students and the vice-president for student affairs before such sanction is imposed. (d) Revocation: The permanent withdrawal of university or ASEWU recognition for a group, club, society or other organization. Revocation is subject to the processes outlined in this chapter except any suspension must also be approved by the dean of students and the vice-president for student affairs before such sanction is imposed.; (e) Additional sanctions: In addition to or separately from the above, any one or a combination of the following may be concurrently imposed on the group: (i) Exclusion from intramural competition as a group; (ii) Denial of use of university facilities for meetings, events, etc.; (iii) Restitution; and/or (iv) Fines.

Appendix B
Chapter 172–191 WAC
Student Education Records
WAC Sections Last Update: 9/14/09

172–191–010 Purpose.
172–191–040 Right of review and inspection.
172–191–050 Obtaining copies of records.
172–191–060 Amendment of records.
172–191–090 Disclosures authorized without consent.
172–191–110 Right to file a complaint.

WAC 172–191–010 Purpose.
The purpose of this chapter is to establish rules and procedures to comply with the requirements of the Family Educational Rights and Privacy Act of 1974 (FERPA) 20 U.S.C. Sec. 1232g. FERPA provides students with the following rights:

(1) The right to inspect and review their education records;

(2) The right to seek amendment of their education records to correct information which they believe is inaccurate, misleading or otherwise in violation of student privacy rights;

(3) The right to consent to disclosure of personally identifiable information, except for disclosure to school officials with a legitimate educational interest and except to the extent FERPA authorizes disclosure without consent; and

(4) The right to be informed annually of their rights under the act if they are currently in attendance.

The remainder of this chapter details how these rights shall be administered and protected for students of Eastern Washington University.
The following definitions shall apply in interpreting these regulations:

“Attendance” includes, but is not limited to:

(a) Attendance in person or by paper correspondence, video conference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not physically present in the classroom; and

(b) The period during which a person is working under a work-study program.

“Biometric record” as used in the definition of personally identifiable information, means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual. Examples include fingerprints; retina and iris patterns; voiceprints; DNA sequence; facial characteristics; and handwriting.

“Education record” is defined as any record maintained by the institution or by a person acting for the institution that is directly related to the student.

(a) Education records include, but are not limited to:

(i) Official transcripts of courses taken and grades received; records relating to prior educational experience; and admission records;

(ii) Tuition and payment records;

(iii) Student disciplinary records;

(iv) Course records (e.g., examinations, term papers, essays, etc.); and

(v) Employment records based on student status are part of the student’s education record (e.g., work study and graduate assistant teaching).

(b) Education records do not include the following:

(i) Records that are in the sole possession of the maker and are not accessible or revealed to any other person except a temporary substitute for the maker of the record (e.g., private advising notes);

(ii) Law enforcement records created by Eastern Washington University campus police for the purposes of law enforcement, except that records created by another university department remain education records while in the possession of university police;

(iii) Employment records that are maintained in the normal course of business relating exclusively to the individual in that person’s capacity as an employee and are not available for any other purpose;

(iv) Health care records on a student that are created or maintained by a health care provider or health care facility, including, but not limited to, a physician, psychiatrist, psychologist or paraprofessional acting in a professional capacity or assisting in connection with the treatment of the student and disclosed only to those individuals providing treatment or a health care provider of the student’s choice (see also chapter 70.02 RCW);

(v) Records that only contain information about an individual after he or she is no longer a student at that agency or institution and that are not directly related to the individual’s attendance as a student (e.g., alumni records); and

(vi) Grades on peer-graded papers before they are collected and recorded by a faculty member.

“Parent” is defined as a parent of a student and includes a natural parent, a guardian, or an individual acting as a parent in the absence of a parent or a guardian.

“Personally identifiable information” includes, but is not limited to, the student’s name; the name of the student’s parent or other family member; the address of the student or student’s family; a personal identifier such as the student’s Social Security number or student number; student’s date of birth, student’s place of birth, student’s mother’s maiden name; biometric record, or other information that alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the university reasonably believes knows the identity of the student to whom the education record relates.

“Record” means any information recorded in any way, including, but not limited to, handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

“Student” is defined as any person who is or has been in attendance at Eastern Washington University for whom the university maintains educational records.

“Student net ID” means a unique identifier that allows students to use the university network domain.

Eastern Washington University will provide students, who are currently attending, annual notification of their rights as required by the Family Educational Rights and Privacy Act. Notice will be provided through university catalogs, quarterly course announcements, or other publications and media that the university deems appropriate. Copies of the university rules are available through the Washington Administrative Code. The university will make copies available to students, if requested. At a minimum, annual notification will include the following information:

(1) Rights and procedures related to inspection, review, and requests to amend education records;

(2) Rights to consent to disclosure of personally identifiable information contained in student records, except to the extent that such disclosure is legally authorized without consent;

(3) Rights to file a complaint with the department of education concerning alleged failures of the institution to comply with FERPA; and

(4) University policies related to disclosure of education records to school officials with a legitimate educational interest.
172–191–040 Right of review and inspection.

Any student shall have a right, subject to the limitations described below, to inspect and review his or her education records maintained by the university.

(1) The university may require proof of identification such as: A driver’s license; university student identification card; or other photographic identification.

(2) The university will comply with a request for access to education records within a reasonable period of time, but not more than forty-five days after it has received the request.

(3) Restrictions:

(a) Financial records of the parents of a student or any information contained therein shall not be made available to the student.

(b) Confidential letters and statements of recommendation, which were placed in a student’s education records before January 1, 1975, shall not be made available to the student unless such letters or statements were used for purposes other than those for which they were specifically intended.

(c) Confidential letters and statements of recommendation, which were placed in a student’s education records on or after January 1, 1975, shall not be made available to the student if:

(i) The student has waived his or her right to inspect and review those items in accordance with subsection (4) of this section; and

(ii) The letters and statements involved relate to the student’s:

(A) Admission to any educational institution;

(B) Application for employment; or

(C) Receipt of an honor or honorary recognition.

(D) The right to review and inspect does not include records made, maintained, or used by the institution that do not constitute an education record.

(E) In the case of any education records relating to a student which also include information regarding another student or students, the right to review and inspect is limited to the information related to the student making the request. Responsible university officials will redact any personally identifiable information relating to any other student(s).

(4) Waivers: A student or a person applying for admission may waive his/her right of access to confidential statements described in subsection (3)(c)(ii) of this section.

(a) Such waivers may not be required as a condition for admission or receipt of a service or benefit from the institution.

(b) Such waivers shall apply to recommendations only if:

(i) The student is, upon request, notified of the names of all persons making confidential recommendations; and

(ii) Such recommendations are used solely for the purpose for which they were specifically intended.

(c) Waivers must be in writing and signed and dated by the student.

(d) Waivers may be revoked, in writing, by the student; however, the revocation will be effective only for confidential statements or records dated after the revocation.

(5) Destruction of records: Student education records may be destroyed in accordance with the university’s approved retention schedule. In no case will any record which is requested by a student for review in accordance with these regulations be removed or destroyed prior to final disposition of the records request.

172–191–050

WAC 172–191–050 Obtaining copies of records.

Students may obtain copies of their education records. The office of the registrar is the only office which may issue an official transcript of the student’s academic record. Charges for copies shall not exceed the cost normally charged by the university copy center (except in cases where charges have previously been approved for certain specified services).

(1) The university may refuse to provide copies of education records including transcripts and diplomas in the following circumstances:

(a) If the record is a secure exam as determined by the department that maintains the exam, so that the integrity of such exams may be protected;

(b) If the student has outstanding debts owed to the university, so that the university may facilitate collection of such debts; and/or

(c) If disciplinary action is pending or sanctions are not completed.

(2) The university must provide copies of education records, subject to the provisions of subsection (1) of this section, in the following circumstances:

(a) If failure to do so would effectively prevent the student from inspecting and reviewing a record;

(b) When records are released pursuant to a student’s consent and the student requests copies; and/or

(c) When the records are transferred to another educational institution where the student seeks to attend or intends to enroll and the student requests copies.

172–191–060

WAC 172–191–060 Amendment of records.

If a student believes his/her education records contain information that is inaccurate, misleading or in violation of the student’s rights of privacy, the student may ask the university to amend the record. Requests for amendment must be submitted to the registrar’s office in writing. The registrar will review the request and may consult other university personnel who participated in creation of the record to determine whether to grant the request for amendment.

(1) If the university decides to grant the student’s request, the university shall amend the education record and the registrar will inform the student
of the action taken. Such notification will be in writing and will be made within a reasonable time.

(2) If the university decides not to amend the education record as requested, the registrar will notify the student in writing within a reasonable time after receiving the request for amendment. Notification will also inform the student of his/her right to a hearing as detailed in WAC 172–191–070.

(3) If a student wants a hearing, the student must make a written request within ninety days of the date of the denial. The request shall be submitted to the registrar and must identify why the student believes the information contained in the education record(s) is inaccurate, misleading, or in violation of the privacy rights of the student.

WAC 172–191–070 Hearings. Following receipt of a request for a hearing under WAC 172–191–060, the registrar will schedule the hearing. The associate vice president for enrollment services or his/her designee will act as the hearing officer and will provide the student with written notice of the hearing's date, time and place reasonably in advance of the hearing. The student will be provided an opportunity to present evidence relevant to the contested part of the education record. The student may, at his/her own expense, be assisted or represented by one or more individuals of his/her own choice, including an attorney.

(1) The associate vice president for enrollment services or his/her designee will render his/her decision in writing within a reasonable period of time following the hearing. The decision of the officer shall be the university's final decision. The decision must be based solely on the evidence presented at the hearing, and must include a summary of the evidence and the reasons for the decision. The associate vice president for enrollment services or his/her designee cannot have a direct interest in the outcome of the hearing.

(2) If the associate vice president for enrollment services or his/her designee determines that the record is inaccurate, misleading, or in violation of the privacy rights of the student and grants the student's appeal, the associate vice president for enrollment services or his/her designee will amend the education records of the student accordingly and inform the student in writing of his/her decision and of the amendment.

(3) If the associate vice president for enrollment services or his/her designee determines that the record is accurate, not misleading and not in violation of the privacy rights of the student and denies the student's appeal, the associate vice president for enrollment services or his/her designee shall notify the student of his/her decision in writing and shall inform them of the right to place a statement in the record commenting on the contested information in the record or stating why he/she disagrees with the decision of the university or both. The university must maintain the statement with the contested part of the record for as long as the record is maintained and must disclose the statement whenever it discloses the portion of the record to which the statement relates.

(4) The appropriateness of official academic grades is not subject to review pursuant to this process.

WAC 172–191–080 Disclosure of education records requiring consent. Students shall provide a signed and dated written consent before an educational agency or institution discloses personally identifiable information from a student's education records, except as provided by WAC 172–191–090. The written consent must:

(1) Specify the records that may be disclosed;
(2) State the purpose of the disclosure; and
(3) Identify the party or class of parties to whom the disclosure may be made.

WAC 172–191–090 Disclosures authorized without consent. The university will use reasonable methods to identify and authenticate the identity of persons to whom it discloses personally identifiable information from education records and will not permit the access to or the release of education records or personally identifiable information other than “directory information” as defined in WAC 172–191–100, without the student's consent, to any party other than the following:

(1) Agencies or organizations requesting information in connection with a student’s application for, or receipt of, financial aid if the information is necessary to:
   (a) Determine eligibility for financial aid;
   (b) Determine the amount of financial aid;
   (c) Determine the conditions of financial aid; or
   (d) Enforce the terms and conditions of financial aid.

(2) Authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state or local authorities requiring access to education records, in connection with the audit or evaluation of a federal or state supported education program or in connection with the enforcement of or compliance with federal legal requirements which relate to such a program.

(3) School officials who have a legitimate educational interest in the records.
   (a) A "school official" is:
      (i) A person employed by the university in an administrative, supervisory, academic, research, support staff, law enforcement, or health care service position;
      (ii) A person serving on the university's board of trustees;
      (iii) A student serving on an official university committee or assisting another school official in fulfilling their professional responsibilities
(iv) A contractor, consultant, volunteer or other party to whom the university has outsourced to provide a service and/or to assist another school official in conducting official business (examples include, but are not limited to, an attorney, an auditor, a collection agency, or the National Student Clearinghouse, an agency which acts as a clearinghouse for student loan deferment reporting).

(b) “Legitimate educational interest” exists if the information requested by the school official is necessary for the official to perform a task specified in his/her position description or contract agreement including: The performance of a task related to a student's education; the performance of a task related to the discipline of a student; the provision of a service or benefit relating to the student or student's family, such as a health education, counseling, advising, student employment, financial aid, or other student service related assistance; the maintenance of the safety and security of the campus; and/or the provision of legal assistance regarding a student matter.

(4) Parent of a minor student or a non-minor dependent student, as defined in the Internal Revenue Code and upon submission of a copy of the most recent Internal Revenue Service annual tax return showing the student as a dependent.

(5) Officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. (6) Organizations conducting studies for, or on behalf of, the university for the purpose of developing, validating, or administering predictive tests; administering student aid programs; or improving instruction, if the studies are conducted in a manner that will not permit the personal identification of students or their parents by persons other than representatives of such organizations who have legitimate interests in the information; such information will be destroyed when no longer needed for the purposes for which it was provided; and the university enters into a written agreement with the organization that specifies the purpose, scope and duration of the study and the information to be disclosed, requires the organization to use personally identifiable information from education records only to meet the purpose(s) of the study as stated in the written agreement; and requires the organization to conduct the study in a manner that does not permit personal identification of parents and students to anyone other than representatives of the organization with legitimate interests, and requires the organization to destroy or return all personally identifiable information within a specified time period when it is no longer needed for the purposes for which the study was conducted.

(7) Accrediting organizations to carry out accreditation functions.

(8) Persons or entities designated by a judicial order or lawfully issued subpoena, upon the condition that the university makes a reasonable effort to notify the student of all such orders or subpoenas and of its intent to release records in advance of compliance with the order or subpoena, unless:

(a) It is a federal grand jury subpoena and the court has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed;

(b) A subpoena issued for a law enforcement purpose and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response not be disclosed; or

(c) An ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 U.S.C. 2332b (g) (9)(B) or an act of domestic or international terrorism as defined in 18 U.S.C. 2331.

(9) Appropriate persons, including parents of an eligible student, in connection with an emergency if the knowledge of the information is necessary to protect the health or safety of the student or other individuals.

(10) Persons who request information that is designated as “directory information.”

(11) Victims alleging a crime of violence or a non-forcible sex offense, the final results of a disciplinary proceeding conducted by the university after October 7, 1998, with respect to the alleged crime or offense. Disclosure is permitted regardless of whether the university concluded a violation was committed.

(12) To others, the final results of the disciplinary proceeding when, at its discretion the university believes that disclosure will serve a legitimate educational interest, and determines through a disciplinary proceeding conducted under its student conduct code that the alleged student perpetrator committed a crime of violence or a non-forcible sexual offense that is a violation of the university's rules or policies with respect to such crime or offense. For purposes of this subsection, “final results” means the name of the student perpetrator, the violation committed, and any sanction imposed by the university on that student. Names of other students involved in the violation, such as a victim or witness, will be released only with the written consent of those students.

(13) Parent of a student of the university regarding the student’s violation of any federal, state, or local law, or of any rule or policy of the university, governing the use of alcohol or controlled substance, if the student is under the age of twenty-one, and the university had determined that the student has committed a disciplinary violation with respect to that use or possession. (14) When a parent or eligible student initiates legal action against the university or when the university initiates legal action against the parent or eligible student, the university may disclose to the court any education records of the student that are relevant to the legal action.

(15) Students upon providing evidence sufficient to demonstrate that the requesting individual is in fact the student to whom the records relate such as: A driver’s license; a university student identification card; or other photographic identification.

(16) For deceased students, members of the family or other persons with the written approval of the family or representatives of the estate. The request for education records must be accompanied by a copy of the death certificate or obituary. Absent written approval from the family or representative of the estate, only directory information will be disclosed to persons upon request.

(17) The disclosure concerns sex offenders and other offenders required to register under Section 170101 of the Violent Crime Control and Law Enforcement Act of 1994, and the information was provided to the educational agency or institution under 42 U.S.C. 14071 and applicable federal guidelines.
(18) The disclosure involves records or information from which all personally identifiable information has been removed.

172–191–100

Directory information is defined to include: Student's name, address, email address, student net identification number, telephone number, date and place of birth, participation in officially recognized activities and sports, weight, height and birth dates of athletic team members; dates of attendance at the university, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

The university may release "directory information" unless the student files a written request restricting the disclosure of the information. A student's election to opt out of directory information disclosures does not prevent the university from disclosing or requiring a student to disclose his/her name, identifier, or university email address in a class in which the student is enrolled.

172–191–110

WAC 172–191–110 Right to file a complaint.

Students may file a written complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of the Family Educational Rights and Privacy Act or its implementing regulations.

250–18–060 Exemptions from nonresident status.

Dispositions of Sections Formerly Codified in This Chapter
250–18–040 Evidence of financial dependency.

WAC 250–18–010 Purpose and applicability.

This chapter is promulgated pursuant to RCW 28B.15.015 by the board to establish the necessary regulations for the administration of residency status in higher education. Institutions shall apply the provisions of the regulations specified in chapter 250–18 WAC for the uniform determination of a student's resident and nonresident status and for recovery of fees for improper classification of residency.

WAC 250–18–015 Definitions.
(1) The term "institution" shall mean a public university, college, or community college within the state of Washington.

(2) The term "domicile" shall denote a person's true, fixed, and permanent home and place of habitation for other than educational purposes. It is the place where he or she intends to remain, and to which he or she expects to return when he or she leaves without intending to establish a new domicile elsewhere.

(3) The term "reside" shall mean the maintenance and occupancy of a primary residence in the state of Washington.

(4) The term "financially independent" shall be determined according to WAC 250–18–035.

(5) The term "dependent" shall mean a person who is not financially independent.

(6) The term "resident" for tuition and fee purposes shall be determined according to WAC 250–18–020.

(7) The term "nonresident" for tuition and fee purposes shall be determined according to WAC 250–18–020.

(8) The term "recovery of fees" shall apply to the amounts due to the institution or the student as a result of improper classification.

(9) The term "civil service" shall mean Washington state or federal government nonmilitary employment.

WAC 250–18–020 Student classification.
(1) For a student to be classified as a "resident" for tuition and fee purposes, he or she must prove by evidence of a sufficient quantity and quality to satisfy the institution that he or she:

(a)(i) Has established a bona fide domicile in the state of Washington primarily for purposes other than educational for the period of one year immediately prior to commencement of the first day of the semester or quarter for which he or she has registered at any institution; and(ii) Is financially independent; or

(b) Is a dependent student, one or both of whose parents or legal guardians have maintained a bona fide domicile in the state of Washington for at least one year immediately prior to commencement of the semester or quarter for which the student has registered at any institution provided that any student who has spent at least seventy-five percent of both his or her junior and senior years in high school in this state, whose parents or legal guardians have been domiciled in the
state for a period of at least one year within the five-year period before
the student graduates from high school, and who has enrolled in a public
institution of higher education within six months of leaving high school,
shall be considered a resident only for as long as the student remains
continuously enrolled for three quarters or two semesters in any calendar
year; or

(c) Is a person who has completed the full senior year of high school
and obtained a high school diploma—both at a Washington public or
private high school approved under chapter 28A.195 RCW (http://
apps.leg.wa.gov/rcw/default.aspx?cite=28A.195) (or who has received
the equivalent of a diploma). The person must have lived in Washington
at least three years immediately prior to receiving the diploma (or its
equivalent), and lived continuously in Washington state after receiving
the diploma (or its equivalent) until the time of admittance to an
institution of higher education (defined as a public university, college,
or community college within the state of Washington). In addition, the
person must provide an affidavit to the institution indicating that
the individual will file an application to become a permanent resident
at the earliest opportunity the individual is eligible to do so. Furthermore,
the individual must indicate a willingness to engage in other activities
necessary to acquire citizenship, including, but not limited to, citizenship
or civics review courses; or

(d) Is a student who is on active military duty stationed in the state, or
who is a member of the Washington national guard; or

(e) Is the spouse or dependent of an active duty military person stationed
in the state of Washington; or

(f) Is a student who resides in Washington and is the spouse or
dependent of a member of the Washington national guard; or

(g) Is a student of an out-of-state institution of higher education who is
attending a Washington state institution of higher education pursuant
to a home tuition program agreement under RCW 28B.15.725 (http://
apps.leg.wa.gov/rcw/default.aspx?cite=28B.15.725); or

(h) Is a student domiciled for one year in one or a combination of the
following states: Idaho, Montana, Oregon, or Washington, and is a
member of a federally recognized tribe whose traditional and customary
tribal boundaries included portions of the state of Washington, or whose
tribes was granted reserved lands within the state of Washington. The
official list of federally recognized Washington tribes maintained by the
governor’s office of Indian affairs shall be used to determine eligibility.

(i) Is a student who is a resident of Oregon residing in Columbia, Gilliam,
Hood River, Multnomah, Clatsop, Clackamas, Morrow, Sherman, Umatilla,
Union, Wallowa, Wasco, or Washington county. The student must meet
the following conditions:

(i) Is eligible to pay resident tuition rates under Oregon laws and has
been domiciled in one or more of the designated Oregon counties for
at least ninety days immediately prior to enrollment at a community
college located in the following Washington counties: Aosin, Benton,
Clark, Columbia, Cowlitz, Franklin, Garfield, Klickitat, Pacific, Skamania,
Wahkiakum, or Walla Walla; or

(ii) Is a student enrolled for eight credits or less at the Tri-Cities branch
or Vancouver branch of Washington State University. (2) A student shall
be classified as a “nonresident” for tuition and fee purposes if he or she
does not qualify as a resident student under the provisions of subsection
(1) of this section. A nonresident student shall include a student if he or
she:

(a) Will be financially dependent for the current year or was financially
dependent for the calendar year prior to the year in which application
is made and who does not have a parent or legally appointed guardian
who has maintained a bona fide domicile in the state of Washington for
one year immediately prior to the commencement of the semester or
quarter for which the student has registered at an institution; (b) Attends
an institution with financial assistance provided by another state or
governmental unit or agency thereof wherein residency in that state is a
continuing qualification for such financial assistance, such non-residency
continuing for one year after the completion of the quarter or semester
for which financial assistance is provided. Such financial assistance
relates to that which is provided by another state, governmental unit or
agency thereof for direct or indirect educational purposes and does not
include retirement, pensions, or other noneducational related income. A
student loan guaranteed by another state or governmental unit or agency
thereof on the basis of eligibility as a resident of that state is included
within the term “financial assistance; (c) Is not a citizen of the United
States of America, unless such person holds permanent or temporary
resident immigration status, “refugee-parolee,” or “conditional entrant”
status or is not otherwise permanently residing in the United States
under color of law and further meets and complies with all applicable
requirements of and 250 (http://apps.leg.wa.gov/wac/default.aspx?cite=
250%28%318%28%31%28%30%31%28http://apps.leg.wa.gov/wac/
default.aspx?cite=250%28%318%28%31%28%30%30%315%20%035.

(3) A person does not lose a domicile in the state of Washington by
reason of residency in any state or country while a member of the civil or
military service of this state or of the United States, nor while engaged
in the navigation of the waters of this state or of the United States or of
the high seas if that person returns to the state of Washington within one
year of discharge from said service with the intent to be domiciled in the
state of Washington.

(4) Any resident dependent student who remains in this state when
such student’s parents or legal guardians, having theretofore been
domiciled in this state for a period of one year immediately prior to
commencement of the first day of the semester or quarter for which
the student has registered at any institution, move from this state,
shall be entitled to continued classification as a resident student so
long as such student is continuously enrolled during the academic
year. [Statutory Authority: RCW 28B.15.015 (http://apps.leg.wa.gov/
10/4/06, effective 11/4/06; 03–20–053, § 250–18–020, filed

004, § 250–18–020, filed 3/18/98, effective 4/18/98. Statutory Authority:
Authority: Chapter 28B.15 (http://apps.leg.wa.gov/rcw/default.aspx?
cite=28B.15) RCW as amended by 1982 1st ex.s. c 37 § 4. 87–21–079
(ORDER 87–21–079, RESOLUTION NO. 87–60), § 250–18–020, filed

WAC 250–18–025 Classification procedure.
(1) After a student has registered at any institution as a nonresident, such student’s classification shall remain unchanged in the absence of evidence of a sufficient quantity and quality to satisfy the institution to the contrary. The provision of such evidence to the contrary may be initiated by the student or the institution.

(2) Application for a change in classification shall be accepted up to the thirtieth calendar day following the first day of the instruction of the quarter or semester for which application is made. Applications made after that date in any quarter or semester shall be considered to have been filed as of the first day of the subsequent quarter or semester.

(3) Any change in classification, either nonresident to resident, or the reverse, shall be based upon written evidence maintained in the files of the institution.

(4) Approval of an application for resident status shall be made only after satisfaction that the requirements of domicile and independency or dependency have been made in compliance with RCW 28B.15.012 and WAC 250–18–030 and 250–18–035. Reclassification from nonresident to resident status preliminarily approved sixty days or more prior to the satisfaction of a one–year durational domicile shall be supplemented with additional documented proof of domicile if deemed necessary by the institution prior to final approval.

(5) The burden of proof that a student, parent, or legally appointed guardian has established a domicile in the state of Washington primarily for purposes other than educational lies with the student.

(6) For any student classified as a resident or authorized to pay resident fees or exempted from the payment of the nonresident differential on a basis other than an established domicile in the state of Washington, the fee paying status of such student shall be subject to determination each term on the basis of chapter 28B.15 RCW.

WAC 250–18–030 Establishment of a domicile.

The domicile of any person shall be determined according to the individual’s overall situation and circumstances and is not determined on the basis of a single factor; nor is a predetermined number of factors required. Institutions shall require evidence of a Washington domicile that is of sufficient quantity and quality to negate the existence of a domicile in a state other than Washington.

A nonresident student who is enrolled for more than six hours per semester or quarter shall be presumed to be in the state of Washington for primarily educational purposes. Such period of enrollment shall not be counted toward the establishment of a bona fide domicile of one year in this state unless such student proves that he or she has, in fact, established a bona fide domicile in this state primarily for purposes other than educational.

To aid the institutions in determining whether a student, parent, legally appointed guardian, or the person having legal custody of a student has established a bona fide domicile in the state of Washington primarily for purposes other than educational, the following factors are to be considered for both the individual and his or her spouse. The weight assigned to any given factor should depend on the ease with which it might be established and the degree to which it demonstrates commitment to domicile as a matter of common sense and as part of the individual’s overall circumstances.

(1) Location and duration of registration or payment of taxes or fees on any motor vehicle, mobile home, travel trailer, boat, or any other item or personal property owned or used by the person;

(2) State and duration of any driver’s license for the previous one year;

(3) Location and duration of any continuous full-time employment of the previous one year;

(4) Address and other pertinent facts listed on a true and correct copy of federal and state income tax returns for the calendar year prior to the year in which application is made;

(5) Location and duration of any voter registration for the previous one year;

(6) Location and duration of primary residence, evidenced by title, lease agreement, or monthly rental receipts for the previous one year;

(7) Residence status in all secondary and postsecondary schools attended outside the state of Washington;

(8) Location and duration of any checking accounts, savings accounts, and/or safety deposit boxes for the previous one year;

(9) Address listed on selective service registration;

(10) Location of membership in professional, business, civic or other organizations;

(11) Receipt of benefits under a public assistance programs;

(12) State claimed as residence for obtaining eligibility to hold a public office or for judicial actions;

(13) State claimed as residence for obtaining state hunting or fishing licenses;

(14) State in which a custodial parent has a child attending public schools.

WAC 250–18–035 Evidence of financial dependence or independence.

A person is financially independent if he or she has not been and will not be claimed as an exemption and has not received and will not receive significant financial assistance in any form directly or indirectly from his or her parents, relatives, legal guardians, or others for the current calendar year and for the calendar year immediately prior to the year in which application is made.

(1) To consider a claim that a person is financially independent, the institution may require such documentation as deemed necessary, including but not limited to the following:

(a) That individual’s sworn statement.
(b) A true and correct copy of the state and federal income tax return of the person for the calendar year immediately prior to the year in which application is made.

Should a person not have filed a state or federal income tax return because of minimal or no taxable income, documented information concerning the receipt of such nontaxable income may be submitted.

(c) A true and correct copy of the person’s W-2 forms filed for the previous calendar year.

(d) Other documented financial resources, which may include but are not limited to the sale of personal or real property, inheritance, trust funds, state or financial assistance, gifts, loans, or statement of earnings of the spouse of a married student.

(e) A true and correct copy of the first and signature page of the state and federal tax returns of the parents, legally appointed guardians, or person or persons having legal custody of the student for the calendar year immediately prior to the year in which application is made.

The extent of the disclosure required concerning the parent’s or legal guardian’s state and federal tax returns shall be limited to the listing of dependents claimed and the signature of the taxpayer and shall not require disclosure of financial information contained in the returns.

(f) A student whose parents are both deceased or who has been made an official ward of the court may be required to provide documentation attesting to the fact of such circumstances.

(g) Evidence of coverage for medical, life, automobile, and property insurance.

(2) To aid institutions in determining the financial independence of a student whose parents, legally appointed guardian, or person having legal custody of the student do not provide the documentation because of total separation or other reasons from the student, documentation clearly stating the student’s status and relationship with his or her parents or legal guardian from a responsible third person, e.g., family physician, lawyer, or social worker may be submitted.

(3) To be considered financially independent, a student must demonstrate by evidence satisfactory to the institution that he or she has met, through his or her income, the expenses associated with college tuition and living for the current calendar year and the calendar year immediately prior to the year in which application is made. Personal loans, PLUS loans (parent loan for undergraduate students), gifts, and cash earnings shall not be counted as income in this calculation. Financial aid grants, scholarships and loans authorized by the financial aid office in the student’s name may be considered as personal income.

(4) A trust or other account available to the student shall be considered evidence of financial dependence. If the account was created before the student entered high school, there shall be a rebuttable presumption of dependence.

(5) Information submitted by the student to the institution on the financial aid form may be used to affirm the authenticity of information submitted on an application.

(6) In all cases, the burden of proof that a student is financially independent lies with the student.

WAC 250–18–050 Appeals process.

Any final institutional determination of classification shall be considered a ruling on a contested case and shall be subject to court review only under procedures prescribed by chapter 34.05 RCW.

WAC 250–18–055 Recovery of fees for improper classification of residency.

To aid the institutions in the determination of accuracy of statements made by a student, institutions shall require that a student affirm the authenticity of all information and supporting documentation provided by his or her signature thereon.

If erroneous, untrue, or incorrect information submitted results in an improper classification of resident or nonresident status, or if a final determination is reversed through the appeals process, institutions shall recover from the student or refund to the student as the case may be an amount equal to the total difference in tuition and fees had the proper classification been made.

WAC 250–18–060 Exemptions from nonresident status.

In accordance with RCW 28B.15.014, certain nonresidents may be exempted from paying the nonresident tuition and fee differential. Exemption from the nonresident tuition and fee differential shall apply only during the term(s) such persons shall hold such appointments or be so employed. To be eligible for such an exemption, a nonresident student must provide documented evidence that he or she does reside in the state of Washington, and:

(1) Holds a graduate service appointment designated as such by an institution involving not less than twenty hours per week;

(2) Is employed for an academic department in support of the instructional or research programs involving not less than twenty hours per week;

(3) Is a faculty member, classified staff member, or administratively exempt employee who resides in the state of Washington and is holding
WAC 172–130–020 Exceptions.

(1) Students who will continuously reside with a parent and/or legal guardian throughout the quarter for which the exception is sought.

(2) Students who have primary legal custody of a child.

(3) Students employed off campus and whose housing is part of their overall compensation received. To qualify, employment must be for an established place of business or for an established family unit when a landlord/employer requires the student to reside where the work is performed and a substantial portion of the rent and/or room and board is reduced as a part of the overall compensation for the work performed.

(4) Students with a documented medical issue that is incompatible with living in a university residence hall. The director of disability support services will evaluate documentation and make a recommendation regarding this exception.

(5) Students for whom living in a university residence hall would cause undue financial hardship.

(6) Students who will reach the age of twenty-one during their first year at the university.

(7) Students who have attended an institution of higher education as a full-time student for at least two regular semesters or three regular quarters. Enrollments during summer terms or while simultaneously completing high school requirements, e.g., Running Start or similar programs, do not count as previous attendance under this exception.

(8) Students who have unique situations, not otherwise covered in this section that could make living in a residence hall unduly burdensome.

Applications for permission to reside off campus are available from the Eastern Washington University Department of Housing and Residential Life, 1027 Cedar St., Cheney, WA 99004. Applications are reviewed and a determination is made whether an exception will be granted. Persons applying for such exception will be informed of the decision in writing. Requests for reconsideration of the decision may be submitted to the dean of students within ten working days of the date the student receives notice that their request has been denied. The dean of students, or designee, will evaluate the appeal and approve or deny the appeal. The decision by the dean of students is final; no further appeals are available.
1–1. General
This policy describes university measures in support of state and federal anti-discrimination laws and establishes procedures for responding to associated complaints. Eastern Washington University will not tolerate any form of discrimination and will take appropriate action against a university employee or student who violates any part of this policy.

1–2. Goal
The goal of this policy is to promote an environment that is free of discrimination, sexual harassment, and retaliation. To facilitate that goal, the University retains authority to discipline or take other appropriate action for any conduct that is deemed unacceptable or inappropriate, regardless of whether the conduct rises to the level of unlawful discrimination, sexual harassment, or retaliation.

1–3. Scope
This policy applies to all EWU programs and facilities, including, but not limited to, student services, educational programs and employment. All members, visitors and guests of the campus community are required to comply with this policy. EWU employees and students conducting university business at a location off-campus, i.e. business trips, internships, etc, are also subject to the provisions of this policy.

1–4. Reprisal or Retaliation
It is a violation of this policy and RCW 42.40.020 for any person to engage in reprisal or retaliation against an individual because that individual has, in good faith, opposed the use of a practice forbidden by this policy, or has filed a complaint, testified, assisted, or participated in an investigation, or has attempted to do so.

1–5. Confidentiality
To facilitate the investigative process and protect the privacy of those involved, all information will be maintained in a confidential manner to the fullest extent permissible. During an investigation, complaint information will only be disseminated on a need-to-know basis. Files subject to public disclosure will be released to the extent required by law.

13. Collective Bargaining Agreements

Chapter 2 - Responsibilities

2–1. University President
The university president is responsible for overall compliance with federal and state anti-discrimination laws. The president will ensure development and implementation of university affirmative action, equal opportunity, and discrimination policies and programs. The president will promote those programs and policies and monitor university compliance.

2–2. Director Equal Opportunity / Affirmative Action /ADA Compliance (EO/AA/ADA)
All training and compliance efforts with respect to these laws and regulations are under the direction of the Director EO/AA/ADA. The Director will:

a. clearly communicate to employees and students that EWU will not tolerate any form of discrimination, including sexual harassment;

b. inform employees and students that discriminatory behaviors will subject the offender to disciplinary action under this policy;

c. provide training on discrimination and sexual harassment as required or requested;

d. establish and maintain an effective complaint process; and,

e. respond appropriately when a complaint is received.

2–3. Supervisors and Faculty
Supervisors and faculty members play a key role in both preventing and responding to discriminatory acts or behaviors.

a. Prevention: Prevention is the best method for eliminating discrimination and sexual harassment in the workplace. Supervisors and faculty members can help prevent discrimination and sexual harassment by modeling appropriate behaviors and by arranging discrimination prevention training when necessary.

b. Response: When supervisors and faculty members become aware of incidents of discrimination and/or harassment, they will take appropriate action based on the situation. In all cases, the supervisor or faculty member will report the incident or behavior to appropriate authorities.

c. Faculty members have the additional responsibility to monitor student activities in the classroom and to take appropriate action when discriminatory or harassing behaviors or incidents occur.

d. Supervisors and faculty who are – or should be – aware of discriminatory practices or sexual harassment within their department, area, or classroom will be held responsible for their actions in response to such circumstances. In determining such responsibility, the supervisor’s or faculty member’s extent of control over the circumstances and any corrective actions they have taken will be considered.

Chapter 3 - Human Rights

3–1. Equal Opportunity and Affirmative Action
Eastern Washington University is committed to equal opportunity, fair treatment, and taking affirmative action to increase the number and retention of students and employees from historically underrepresented groups. The University maintains an affirmative action program in support of federal requirements and provides updates on program activities to Office Federal Contract Compliance Program (OFCCP) and Washington State Department of Personnel, as required.

To help meet university affirmative action goals, all advertisements for employment will include the following statement:

“Eastern Washington University is committed to increasing and retaining the diversity of its faculty, staff, students and academic programs. We are an affirmative action/equal opportunity employer. Applications from members of historically underrepresented groups are especially encouraged.”

3–2. Discrimination / Sexual Harassment

The term discrimination, as it is used throughout this policy, means all forms of discrimination and sexual harassment as defined by state and federal antidiscrimination laws.

a. Eastern Washington University does not discriminate on the basis of race, color, creed, religion, national origin, sex, sexual orientation, gender identity/expression, genetic information, age, marital status, families with children, honorably discharged veteran or military status or the presence of any sensory, mental, or physical disability or the use of a trained dog guide or service animal by a person with a disability. Any discriminatory action can be a cause for disciplinary action.

a. Sexual harassment is a form of discrimination and is a violation of the basic tenets of human dignity. Sexual harassment violates university policies, federal and state civil rights laws, and professional ethics. Eastern Washington University does not tolerate sexual harassment. The U.S. Equal Employment Opportunity Commission defines sexual harassment as:

Chapter 4 - Complaints Process

The formal and informal complaint procedures are accessible to all EWU faculty, students, staff, guests and visitors.

a. Any complaint(s) under this policy must be made in good faith and be filed within six (6) months of the alleged act of discrimination. (RCW 49.60.230 (2)).

b. Employees or students who have cause to believe they are being subjected to unlawful discrimination are encouraged to seek confidential advice and assistance as soon as possible.

c. When an informal or formal complaint is filed the complainant and alleged offender will fully cooperate with management and/or the investigator to help ensure a thorough and timely complaint process and resolution.

d. An aggrieved party may file a formal complaint by:

(1) Completing an official complaint form and filing it with the EO Office. The form is available at the EWU Equal Opportunity web site and at any of the offices listed in chapter 5.

(2) Sending an email to the EO Office.

(3) Telephoning the EO Office.

(4) Contacting any agency listed in chapter 5.

4–2. Informal Complaint Process

a. The Discrimination/Sexual Harassment complaint form is available on the web at the EWU Equal Opportunity web site and at any of the offices listed in chapter 5.

b. Because victims subjected to unlawful discrimination may find it difficult to personally and formally address discriminatory actions, informal assistance can be provided at the agencies listed in chapter 5.

c. In lieu of a formal complaint, the following methods for an informal resolution are available to faculty, staff, and students.

(1) Directly address the matter with the alleged offender.

(2) Ask your supervisor or a co-worker to intervene on your behalf.

(3) Engage in an informal meeting with the alleged offender and his/her supervisor or manager.

(4) Request Mediation with the alleged offender. Mediation will be performed by the EO Office or other qualified mediator.

(5) Report matter to the EO Office for assistance.

Use of the University informal process does not restrict the complainant from the external or formal complaint process. If the informal process is unsuccessful or no longer an option, the external and or formal process is available to resolve complaint. The EWU Discrimination/Sexual Harassment complaint form is available on the web at the EWU Equal Opportunity web site and at any of the offices listed in chapter 5.

4–3. Formal Complaint Process

If a complainant decides to file a formal complaint, they may file their complaint through either of the methods shown below.

a. University (Internal) Complaint. This is a formal complaint filed with the university that will initiate an investigation by the Equal Opportunity Office.

b. External Complaint. This is a formal complaint that is filed with an agency listed in paragraph 5–3.

(1) When complaints are filed simultaneously with another investigative agency, any pending or ongoing EO investigation will be suspended until findings are provided by the other agency or until such time as the complaint is referred to the University for investigation.

(2) For additional guidance and information on the formal complaint investigation process, contact the Equal Opportunity Office.

Chapter 5 - Resources

5–1. Complaints

At any time, a complainant may file a discrimination complaint with the Director of Equal Opportunity, Affirmative Action, ADA Compliance. Equal Opportunity/Affirmative Action/ADA Compliance 214 Showalter Hall 509.359.2371
5–2. Assistance

Personnel in the following offices are available to assist with concerns or issues related to this policy.

Equal Opportunity/Affirmative Action/ADA Compliance 214 Showalter Hall
509.359.2371

Human Resources, Rights and Risk 314 Showalter Hall

Appendix F

EWU Policy 104–01
Diversity Policy

EWU Policy 104–01 Authority: EWU Board of Trustees. Effective June 22, 2011 Proponent: University President

Purpose: This policy establishes and describes the President’s Diversity Committee for Eastern Washington University.

History: This is a revision to existing policy. EWU Policy 104–01 was adopted by the EWU Board of Trustees on Sep. 11, 2009, superseding UGS Policy 100 060 120 (May 2004), President’s Advisory Committee on Diversity. This revision was adopted by the Board of Trustees on June 22, 2011.

Applicability: This policy applies to all activities, operations and programs at Eastern Washington University.

1. Committee Responsibilities

The President’s Diversity Committee shall:

a. promote diversity at EWU by facilitating programs, assessments, events, initiatives, and similar activities in support of the President,

b. support, develop, implement, assess, and monitor all matters with regards to diversity,

c. advise the President on diversity issues, and

d. promote effective participation by members of all racial, ethnic and under-represented groups in the civic life of the university

2. Composition

The University President shall appoint the members of the Committee. The Committee shall consist of:

a. a committee chair

b. the Director of Equal Opportunity and Affirmative Action;

c. one faculty member, nominated by the faculty senate;

d. one administrative exempt employee, nominated by vice presidents in consultation with the university president;

e. one classified staff employee, nominated by the classified staff union president

f. two students, nominated by the ASEWU president

g. one Academic Affairs representative

h. one Business and Finance representative

i. one Student Affairs representative

j. one International Affairs representative

k. three ethnic program representatives

l. one women's studies representative

m. one Pride Center representative

n. one Disability Support Services representative

The president may appoint the director of Equal Opportunity and Affirmative Action as the committee chair. In such cases, the president shall also appoint another employee to serve on the committee.

3. Terms

Committee members shall be appointed for varying terms of 1–3 years. Members may be appointed to shorter terms for the purpose of staggering ending dates of individual terms. Committee members may also be re-appointed.

4. Voting

Seven voting members of the committee constitute a quorum. The committee chair may not vote except as needed to break a tie.

5. Ex Officio Committee Members

Ex officio members of the committee include, but are not limited to:

a. university president or designee

b. provost or designee

c. ASEWU Diversity Outreach Representative

d. IRB director

6. Responsibilities
The specific responsibilities of the committee include:

a. review and assess the campus climate and current university programs and initiatives relative to advancing diversity efforts;

b. recommend policies, strategies, programs, and activities involving which support the diversity goals and requirements of EWU; EWU Policy 104–01 • June 22, 2011;

c. encourage members of the campus community to develop specific action solutions that will enhance and advance diversity efforts at Eastern;

d. promote programs and efforts designed to advance diversity efforts;

e. develop and implement ideas and strategies relevant to issues of diversity;

7. Committee Chair Responsibilities

a. Meetings: Each year, the chair of the committee will develop a regular schedule for meetings. The schedule will be distributed to committee members and to members of the executive committee. The current meeting schedule will also be maintained on the president’s diversity committee website.

Minutes: The committee chair will provide minutes of the meetings to committee members and to members of the executive committee. Minutes will also be maintained on the president’s diversity committee website.

Enrollment and Registration Process

Eastern Washington University has a web based registration system through EagleNET (https://eaglenet.ewu.edu). Confirmation of classes occurs at the time of registration. Registration priority is given to students continuing their enrollment from the current quarter to the next; registration is by scheduled appointment, based on class standing. This information is published on the Web.

Continuing students may register during or after their appointed time but not before. Priority registration for fall is held during spring term. Otherwise, registration for continuing students is scheduled late in each term.

New freshman students are strongly encouraged to attend firstSTEP programs, which includes academic advising, registration, campus tours and information seminars. Information about firstSTEP program dates and schedules are included with the admission acceptance notification. Confirmation of acceptance is required to participate in a firstSTEP program.

Undergraduate transfer students are not required to attend a firstSTEP program and they may register during the open registration period that follows priority registration each quarter. However, advising is required prior to initial registration.

To Be Eligible to Register a Student Must

Be either a continuing student or accepted for admission or re-admission for the next quarter.

1. Obtain advisor authorization whenever required, as follows:
   - new students (first quarter of enrollment at Eastern, undergraduate and graduate) registering for 10 or more credits;
   - all freshmen;
   - all athletes;
   - any undergraduate student on academic probation;
   - any returning student on academic probation or after dismissal;
   - any undergraduate student requesting more than 18 credits;
   - any graduate student requesting more than 18 credits.
   - Running Start students;
   - international students;
   - any student with nine or more withdrawals.

2. Clear any registration holds.
   - Continuing students should check on EagleNET or with the Records and Registration Office to determine if there are registration holds and the action required to remove the hold.
   - New students will be advised of any holds at registration or during their advising session.
   - Holds are placed on registration for incomplete transcripts, overdue financial obligations, incomplete Financial Aid forms, academic probation and dismissal, pre-university basic skills and disciplinary action.

3. Register at the appointed time.
   - New undergraduate students may register during their firstSTEP program.
   - Continuing graduate and undergraduate students will have an appointment time based on class standing. See the Classification of Students defined on the next page. Check the Records and Registration website for updated information on registration. All students are advised to have alternate courses selected in case of cancellations.
   - All new students should obtain an Eagle Card (ID card). New undergraduate students will receive a student ID card during their firstSTEP program.

4. Determine whether to restrict student information.
   - Limited general information on registered students such as name, addresses, dates of attendance and degrees earned can be legally provided to third parties; however, release of this information may be restricted anytime at the Records and Registration Office. Grades, class schedule and transcript information are not released to third parties unless authorized in writing by the student. No information on students is released for commercial purposes.
   - A directory restriction may be placed in person at the Records and Registration Office.
   - For detailed information, speak with staff in Records and Registration, 201 Sutton Hall, or call 509.359.2321 or 509.828.1394 and see the policy information in the back of this catalog under Access to Academic Records and the Family Educational Rights and Privacy Act (FERPA) of 1974.

Changes to Registration

Schedule change fees for adding classes begin the eleventh day of the quarter. Beginning the fourth day of the quarter, late registration fees are assessed to students not registered in any classes prior to
the sixth day of the quarter. Instructor authorization is required to add a class or register beginning the fourth day of the quarter. Instructors are not required to provide class notes, assignments and materials to students who add a course after the first class meeting; it is the student’s responsibility to obtain this information.

Some courses may be closed prior to the fourth day of the term. These courses will require instructor authorization to register.

**Dropping Courses**

Courses officially dropped through the Records and Registration Office or EWU Spokane prior to the beginning of the quarter and through the 10th day of the regular academic term will be removed from the student’s record. Refunds are calculated according to the current refund schedule. Schedule change fees for dropping/withdrawing from classes begin the seventh day of the quarter. Current fees are listed on EagleNET.

**Overloading Courses**

Undergraduates who wish to enroll in more than 18 credit hours during a quarter must obtain overload permission from their general or department advisor.

Requests for 19 or more credit hours are generally approved only for students with a GPA ≥3.0. Additional per credit fees are assessed for students enrolled in more than 18 credits per quarter.

**Repeating Courses**

This is general information that may be superseded by specific program rules on repeats, such as those for undergraduate business majors. Graduate students must also follow the specific policies under Academic Standards and Course Repeat.

You may repeat a course for a higher grade. A course may be repeated regardless of its delivery mode (traditional classroom or independent learning). Courses to be repeated for credit value must be identified during the registration process on EagleNET by going to change class options under the registration category or by marking the repeat option square on the paper registration form.

Undergraduate students will be allowed to repeat any single course twice for a total of three enrollments per course. In addition, you are limited to a total of ten repeats. The last grade assigned will be the grade included in the GPA (grade point average) and all grades assigned will remain on the transcript.

**Exception**

If a student is showing progress over time, then he or she may be allowed to take the course additional times. Any repetitions beyond the two allowed by this policy will only be permitted at the discretion of the department chair where the course resides. The total number of repeats may not exceed ten.

If you fail to indicate the repeat during registration, there may be detrimental effects on your GPA and total credits toward graduation.

The previous course, along with its credits, grade and grade point average, will remain recorded on your transcript but will be superseded by the new course, grade and GPA. Your cumulative GPA will be adjusted to reflect the new grade.

If you are repeating a course in which you have received a letter grade with no numeric value such as W you do not need to indicate this at registration. You should register for the repeat W course as you would normally register for regular credit and grading.

**Courses previously taken may not be repeated under the following conditions:**

- receiving a pass (P) grade with the Pass/Fail or Pass/No Credit option;
- to improve an undergraduate GPA after receiving a baccalaureate degree;
- effective spring quarter 2010, courses transferred to Eastern from another institution will not be counted as repeats for the purposes of EWU GPA calculation, but can be used to satisfy prerequisites and all other degree requirements.

**Withdrawing from Courses**

Withdrawals result in a W grade on the student record and are accepted in the Records and Registration Office or at EWU Spokane from the eleventh day of the quarter until the end of the seventh week. Schedule change fees apply. Students who enroll but do not attend class must officially withdraw or they will receive a grade of 0.0 and be held financially responsible for all tuition and fees.

If there are any questions about course withdrawal, please call the Records and Registration Office at 509.359.2321 or 509.828.1394.

**Undergraduate Course Withdrawal Policy**

This policy became effective fall quarter 2007 for new students. EWU students are allowed a total of 10 course withdrawals in their undergraduate work. (Withdrawals occur after the normal drop/add period.) Withdrawal from all courses for a quarter for special reasons (for example, extended illness, accident or military service) as documented and approved by Records and Registration would only be counted as a single withdrawal in the apportionment of course withdrawals.

When a student reaches six withdrawals, the student will be notified by Records and Registration. When a student reaches nine withdrawals, a registration hold will be placed on the student’s record and the student will not be allowed to register unless the student has the authorization from his/her advisor (departmental or program if declared, or his/her advisor in the General Undergraduate Academic Advising Office).

If there are any questions about course withdrawal, please call the Records and Registration Office at 509.359.2321 or 509.828.1394.

**Withdrawing From the University**

Complete withdrawal from the university must be done through the Records and Registration Office or EWU Spokane. Complete withdrawal may be done by phoning the Records and Registration Office at 509.359.2321 or 509.828.1394 or coming in-person to complete the Withdrawal Clearance form. There is no schedule change fee to completely withdraw. Refunds are calculated according to the refund schedule. Any student who stops attending and does not officially withdraw from the university will receive grades of 0.0 and be held financially responsible for all tuition and fee charges as well as any applicable financial aid obligations.

Complete withdrawals may be completed any time during the quarter prior to one week before finals. Instructor’s permission may be required after the seventh week of the quarter. Documentation may also be required in certain cases.

If there are any questions about complete withdrawal, please call the Records and Registration Office at 509.359.2321 or Riverpoint Student Services at 509.828.1394.
Students Ordered to Military Duty
Students who choose to withdraw are entitled to a reversal/refund of paid tuition, fees and other expenses as described in this chapter. See Academic Policy 303–30.7, page 4 (http://cfweb.ewu.edu/policy/PolicyFiles/AP_303_30.pdf).

Withdrawal for Medical Reasons: Students who withdraw from the university due to documented medical reasons may be eligible for a complete withdrawal from courses and a reversal of tuition and fees. See Academic Policy 303–30.8, page 5 (http://cfweb.ewu.edu/policy/PolicyFiles/AP_303_30.pdf).

Classification of Students
A student’s earned credit hours determine undergraduate class standing, including any transfer credits that have been received by the posted deadlines.

Undergraduate: Cumulative Credit Hours Earned Classification

• 0-44: Freshman
• 45-89: Sophomore
• 90-134: Junior
• 135+: Senior

Post-baccalaureate (PB)
Post-baccalaureate students are those who hold at least one earned undergraduate degree as documented with official university transcripts. Effective fall 2006, credits earned in this status are recorded on a post-baccalaureate transcript.

Students who enroll at EWU for a second baccalaureate degree, having completed their first undergraduate degree at another university, will have their graduation GPA based on their EWU career only. These students will be eligible for quarterly Dean’s List under the same standards as any other undergraduate student, but are not eligible for graduation honors.

Fifth-Year (5Y)
Students who hold at least an earned undergraduate degree, as documented with official university transcripts and enrolled in courses to complete certification requirements. Effective fall 2006, credits earned in this status are recorded on a post-baccalaureate transcript.

Graduate
Full admission to a graduate degree or graduate certificate program requires official transcripts documenting at least an undergraduate degree. See the Graduate Admission Requirements in the front of this catalog for more information.

Course Numbers
Eastern’s courses are numbered sequentially from 100 through 799 with divisions designated for each academic level. Use this reference when selecting courses.

Lower Division
100–199 primarily for freshmen; may not be taken for graduate-level credit
200–299 primarily for sophomores; may not be taken for graduate-level credit

Upper Division
300–399 primarily for juniors and seniors; may be used for graduate level credit only with the permission of the vice provost for Graduate Education and Research
400–499 primarily for seniors; graduate students may count a limited number of credits from graded courses, only with program approval

Graduate Level
500–599 graduate level; senior undergraduates may enroll only with permission of both the department chair and vice provost for Graduate Education and Research
600–699 graduate level only
700–799 doctoral level only

All Levels
At all levels, course numbers ending in 95 through 99 indicate special courses, with the particular subject matter varying from quarter to quarter. All departments may offer these types of courses, but not all may be listed in this catalog. Check with the individual program for the availability of special courses.

95–internships
96–experimental courses
97–workshops, short courses, conferences seminars
98–seminars
99–independent and directed study

Enrollment Verification
Eastern Washington University contracts with the National Student Clearinghouse to verify enrollments for loans, housing, military identification and other general verifications. Students have free access to their enrollment verification via their EagleNET account. Employers, lending services and others must access the National Student Clearinghouse directly for enrollment verification information. (Students needing enrollment verifications for good student discounts, Alaska Department of Revenue, Canadian Student Loan Program or Tax Commission, or students who do not have a Social Security number listed with the university may contact the Office of Records and Registration for assistance with their enrollment verification.)

Full-time Enrollment
Undergraduate: 12 credits—Graduate: 10 credits—International Student: 12 credits undergraduate
Half-time Enrollment
Undergraduate: 6-11 credits—Graduate: 5-9 credits—International Student: 6-11 credits

Less-than-half-time Enrollment
Undergraduate: 1-5 credits—Graduate: 1-4 credits—International Student: 1-5 credits

Notes:
• check with the international student Advisor to verify eligibility for part-time enrollment, otherwise, full-time enrollment is required of all international students, except for vacation quarters;
• for COMD and summer session enrollment verifications information please contact Records and Registration.

Grading and Transcripts
See Policies that follow this section of the catalog for general information that applies to all students. For grading policies specific to undergraduate and graduate degree requirements, including academic probation, see the appropriate section in the front of this catalog.

Reporting Grades
At the end of each quarter, grades are available through EagleNET (https://eaglenet.ewu.edu) beginning the Wednesday after final exams.

Transcript Requests
Official copies of Eastern transcripts may be required for a job, a scholarship, graduate school applications or for other purposes. Requests for official Eastern transcripts must be submitted in writing for each transcript to the Records and Registration Office and must include:
• address where the record is to be sent;
• birth date;
• dates of attendance;
• social security number or EWU ID number;
• student’s full name and maiden name if applicable;
• student’s signature;
• transcript fee.

It normally takes three to five (3–5) working days to process a request for a transcript. Instant transcripts are available at the Records and Registration Office, 201 Sutton Hall, for an additional fee along with a processing wait time. Eastern Washington University does not fax official transcripts. Graduating students will be issued two free transcripts, upon request, after the degree has been confirmed and posted to the Eastern record and all financial obligations to the university have been met.

Unofficial transcripts may be printed from EagleNET (https://eaglenet.ewu.edu). Current transcript fees are posted on the Records and Registration Transcript page (http://access.ewu.edu/records-and-registration/student-records/transcripts).

Eastern will only fulfill requests for transcripts of course work completed at Eastern. Transcripts received from a high school or another college to fulfill admission requirements are part of each student’s academic file and cannot be returned. Additional copies of those records must be requested from the granting institution.

FERPA Policies
Chapter 172–191 WAC
Student Education Records
WAC Sections Last Update: 9/14/09

172–191–010 Purpose.
172–191–040 Right of review and inspection.
172–191–050 Obtaining copies of records.
172–191–060 Amendment of records.
172–191–090 Disclosures authorized without consent.
172–191–110 Right to file a complaint.

WAC 172–191–010 Purpose.
The purpose of this chapter is to establish rules and procedures to comply with the requirements of the Family Educational Rights and Privacy Act of 1974 (FERPA) 20 U.S.C. Sec. 1232g. FERPA provides students with the following rights:

(1) The right to inspect and review their education records;
(2) The right to seek amendment of their education records to correct information which they believe is inaccurate, misleading or otherwise in violation of student privacy rights;
(3) The right to consent to disclosure of personally identifiable information, except for disclosure to school officials with a legitimate educational interest and except to the extent FERPA authorizes disclosure without consent; and
(4) The right to be informed annually of their rights under the act if they are currently in attendance.

The remainder of this chapter details how these rights shall be administered and protected for students of Eastern Washington University.

172–191–020

The following definitions shall apply in interpreting these regulations:

“Attendance” includes, but is not limited to:

(a) Attendance in person or by paper correspondence, video conference, satellite, Internet, or other electronic information and telecommunications technologies for students who are not physically present in the classroom; and

(b) The period during which a person is working under a work-study program.

“Biometric record” as used in the definition of personally identifiable information, means a record of one or more measurable biological or behavioral characteristics that can be used for automated recognition of an individual. Examples include fingerprints; retina and iris patterns; voiceprints; DNA sequence; facial characteristics; and handwriting.
“Record” means any information recorded in any way, including, but not limited to, handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

“Student” is defined as any person who is or has been in attendance at Eastern Washington University for whom the university maintains educational records.

“Student net ID” means a unique identifier that allows students to use the university network domain.

172–191–030

Eastern Washington University will provide students, who are currently attending, annual notification of their rights as required by the Family Educational Rights and Privacy Act. Notice will be provided through university catalogs, quarterly course announcements, or other publications and media that the university deems appropriate. Copies of the university rules are available through the Washington Administrative Code. The university will make copies available to students, if requested. At a minimum, annual notification will include the following information:

(1) Rights and procedures related to inspection, review, and requests to amend education records;

(2) Rights to consent to disclosure of personally identifiable information contained in student records, except to the extent that such disclosure is legally authorized without consent;

(3) Rights to file a complaint with the department of education concerning alleged failures of the institution to comply with FERPA; and

(4) University policies related to disclosure of education records to school officials with a legitimate educational interest.

172–191–040

WAC 172–191–040 Right of review and inspection.
Any student shall have a right, subject to the limitations described below, to inspect and review his or her education records maintained by the university.

(1) The university may require proof of identification such as: A driver’s license; university student identification card; or other photographic identification.

(2) The university will comply with a request for access to education records within a reasonable period of time, but not more than forty-five days after it has received the request.

(3) Restrictions:

(a) Financial records of the parents of a student or any information contained therein shall not be made available to the student.

(b) Confidential letters and statements of recommendation, which were placed in a student’s education records before January 1, 1975, shall not be made available to the student unless such letters or statements...
charges have previously been approved for certain specified services.

(c) Confidential letters and statements of recommendation, which were placed in a student’s education records on or after January 1, 1975, shall not be made available to the student if:

(i) The student has waived his or her right to inspect and review those items in accordance with subsection (4) of this section; and

(ii) The letters and statements involved relate to the student’s:

(A) Admission to any educational institution;

(B) Application for employment; or

(C) Receipt of an honor or honorary recognition.

(D) The right to review and inspect does not include records made, maintained, or used by the institution that do not constitute an education record.

(E) In the case of any education records relating to a student which also include information regarding another student or students, the right to review and inspect is limited to the information related to the student making the request. Responsible university officials will redact any personally identifiable information relating to any other student(s).

(4) Waivers: A student or a person applying for admission may waive his/her right of access to confidential statements described in subsection (3) (c)(ii) of this section.

(a) Such waivers may not be required as a condition for admission or receipt of a service or benefit from the institution.

(b) Such waivers shall apply to recommendations only if:

(i) The student is, upon request, notified of the names of all persons making confidential recommendations; and

(ii) Such recommendations are used solely for the purpose for which they were specifically intended.

(c) Waivers must be in writing and signed and dated by the student.

(d) Waivers may be revoked, in writing, by the student; however, the revocation will be effective only for confidential statements or records dated after the revocation.

(5) Destruction of records: Student education records may be destroyed in accordance with the university’s approved retention schedule. In no case will any record which is requested by a student for review in accordance with these regulations be removed or destroyed prior to final disposition of the records request.

(6) If a student believes his/her education records contain information that is inaccurate, misleading or in violation of the student's rights of privacy, the student may ask the university to amend the record. Requests for amendment must be submitted to the registrar’s office in writing. The registrar will review the request and may consult other university personnel who participated in creation of the record to determine whether to grant the request for amendment.

(1) If the university decides to grant the student’s request, the university shall amend the education record and the registrar will inform the student of the action taken. Such notification will be in writing and will be made within a reasonable time.

(2) If the university decides not to amend the education record as requested, the registrar will notify the student in writing within a reasonable time after receiving the request for amendment. Notification will also inform the student of his/her right to a hearing as detailed in WAC 172–191–070.

(3) If a student wants a hearing, the student must make a written request within ninety days of the date of the denial. The request shall be submitted to the registrar and must identify why the student believes the information contained in the education record(s) is inaccurate, misleading, or in violation of the privacy rights of the student.

WAC 172–191–060 Amendment of records.

If a student believes his/her education records contain information that is inaccurate, misleading or in violation of the student's rights of privacy, the student may ask the university to amend the record. Requests for amendment must be submitted to the registrar’s office in writing. The registrar will review the request and may consult other university personnel who participated in creation of the record to determine whether to grant the request for amendment.

(1) If the university decides to grant the student’s request, the university shall amend the education record and the registrar will inform the student of the action taken. Such notification will be in writing and will be made within a reasonable time.

(2) If the university decides not to amend the education record as requested, the registrar will notify the student in writing within a reasonable time after receiving the request for amendment. Notification will also inform the student of his/her right to a hearing as detailed in WAC 172–191–070.

(3) If a student wants a hearing, the student must make a written request within ninety days of the date of the denial. The request shall be submitted to the registrar and must identify why the student believes the information contained in the education record(s) is inaccurate, misleading, or in violation of the privacy rights of the student.

WAC 172–191–050 Obtaining copies of records.

Students may obtain copies of their education records. The office of the registrar is the only office which may issue an official transcript of the student’s academic record. Charges for copies shall not exceed the cost normally charged by the university copy center (except in cases where charges have previously been approved for certain specified services).
and will provide the student with written notice of the hearing's date, time and place reasonably in advance of the hearing. The student will be provided an opportunity to present evidence relevant to the contested part of the education record. The student may, at his/her own expense, be assisted or represented by one or more individuals of his/her own choice, including an attorney.

(1) The associate vice president for enrollment services or his/her designee will render his/her decision in writing within a reasonable period of time following the hearing. The decision of the officer shall be the university's final decision. The decision must be based solely on the evidence presented at the hearing, and must include a summary of the evidence and the reasons for the decision. The associate vice president for enrollment services or his/her designee cannot have a direct interest in the outcome of the hearing.

(2) If the associate vice president for enrollment services or his/her designee determines that the record is inaccurate, misleading, or in violation of the privacy rights of the student and grants the student's appeal, the associate vice president for enrollment services or his/her designee will amend the education records of the student accordingly and inform the student in writing of his/her decision and of the amendment.

(3) If the associate vice president for enrollment services or his/her designee determines that the record is accurate, not misleading and not in violation of the privacy rights of the student and denies the student's appeal, the associate vice president for enrollment services or his/her designee shall notify the student of his/her decision in writing and shall inform them of the right to place a statement in the record commenting on the contested information in the record or stating why he/she disagrees with the decision of the university or both. The university must maintain the statement with the contested part of the record for as long as the record is maintained and must disclose the statement whenever it discloses the portion of the record to which the statement relates.

(4) The appropriateness of official academic grades is not subject to review pursuant to this process.

Students shall provide a signed and dated written consent before an educational agency or institution discloses personally identifiable information from a student's education records, except as provided by WAC 172–191–090. The written consent must:

(1) Specify the records that may be disclosed;

(2) State the purpose of the disclosure; and

(3) Identify the party or class of parties to whom the disclosure may be made.

WAC 172–191–090 Disclosures authorized without consent.

The university will use reasonable methods to identify and authenticate the identity of persons to whom it discloses personally identifiable information from education records and will not permit the access to or the release of education records or personally identifiable information other than "directory information" as defined in WAC 172–191–100, without the student's consent, to any party other than the following:

(1) Agencies or organizations requesting information in connection with a student's application for, or receipt of, financial aid if the information is necessary to:

(a) Determine eligibility for financial aid;

(b) Determine the amount of financial aid;

(c) Determine the conditions of financial aid; or

(d) Enforce the terms and conditions of financial aid.

(2) Authorized representatives of the Comptroller General of the United States, the Attorney General of the United States, the Secretary of the U.S. Department of Education, or state or local authorities requiring access to education records, in connection with the audit or evaluation of a federal or state supported education program or in connection with the enforcement of or compliance with federal legal requirements which relate to such a program.

(3) School officials who have a legitimate educational interest in the records.

(a) A "school official" is:

(i) A person employed by the university in an administrative, supervisory, academic, research, support staff, law enforcement, or health care service position;

(ii) A person serving on the university's board of trustees;

(iii) A student serving on an official university committee or assisting another school official in conducting official business (examples include, but are not limited to, service on a disciplinary committee and work study students); and

(iv) A contractor, consultant, volunteer or other party to whom the university has outsourced to provide a service and/or to assist another school official in conducting official business (examples include, but are not limited to, an attorney, an auditor, a collection agency, or the National Student Clearinghouse, an agency which acts as a clearinghouse for student loan deferment reporting).

(b) "Legitimate educational interest" exists if the information requested by the school official is necessary for the official to perform a task specified in his/her position description or contract agreement including: The performance of a task related to a student's education; the performance of a task related to the discipline of a student; the provision of a service or benefit relating to the student or student's family, such as a health education, counseling, advising, student employment, financial aid, or other student service related assistance; the maintenance of the safety and security of the campus; and/or the provision of legal assistance regarding a student matter.

(4) Parent of a minor student or a non-minor dependent student, as defined in the Internal Revenue Code and upon submission of a copy of the most recent Internal Revenue Service annual tax return showing the student as a dependent.

(5) Officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll,
or where the student is already enrolled so long as the disclosure is for purposes related to the student’s enrollment or transfer. (6) Organizations conducting studies for, or on behalf of, the university for the purpose of developing, validating, or administering predictive tests; administering student aid programs; or providing instruction, if the studies are conducted in a manner that will not permit the personal identification of students or their parents by persons other than representatives of such organizations who have legitimate interests in the information; such information will be destroyed when no longer needed for the purposes for which it was provided; and the university enters into a written agreement with the organization that specifies the purpose, scope and duration of the study and the information to be disclosed, requires the organization to use personally identifiable information from education records only to meet the purpose(s) of the study as stated in the written agreement; and requires the organization to conduct the study in a manner that does not permit personal identification of parents and students to anyone other than representatives of the organization with legitimate interests, and requires the organization to destroy or return all personally identifiable information within a specified time period when it is no longer needed for the purposes for which the study was conducted.

(7) Accrediting organizations to carry out accreditation functions.

(8) Persons or entities designated by a judicial order or lawfully issued subpoena, upon the condition that the university makes a reasonable effort to notify the student of all such orders or subpoenas and of its intent to release records in advance of compliance with the order or subpoena, unless:

(a) It is a federal grand jury subpoena and the court has ordered that the existence or the contents of the subpoena or the information furnished in response to the subpoena not be disclosed;

(b) A subpoena issued for a law enforcement purpose and the court or other issuing agency has ordered that the existence or the contents of the subpoena or the information furnished in response not be disclosed; or

(c) An ex parte court order obtained by the United States Attorney General (or designee not lower than an Assistant Attorney General) concerning investigations or prosecutions of an offense listed in 18 U.S.C. 2332b (g) (5)(B) or an act of domestic or international terrorism as defined in 18 U.S.C. 2331.

(9) Appropriate persons, including parents of an eligible student, in connection with an emergency if the knowledge of the information is necessary to protect the health or safety of the student or other individuals.

(10) Persons who request information that is designated as “directory information.”

(11) Victims alleging a crime of violence or a non-forcible sex offense, the final results of a disciplinary proceeding conducted by the university after October 7, 1998, with respect to the alleged crime or offense. Disclosure is permitted regardless of whether the university concluded a violation was committed.

(12) To others, the final results of the disciplinary proceeding when, at its discretion the university believes that disclosure will serve a legitimate educational interest, and determines through a disciplinary proceeding conducted under its student conduct code that the alleged student perpetrator committed a crime of violence or a non-forcible sexual offense that is a violation of the university’s rules or policies with respect to such crime or offense. For purposes of this subsection, “final results” means the name of the student perpetrator, the violation committed, and any sanction imposed by the university on that student. Names of other students involved in the violation, such as a victim or witness, will be released only with the written consent of those students.

(13) Parent of a student of the university regarding the student’s violation of any federal, state, or local law, or of any rule or policy of the university, governing the use of alcohol or controlled substance, if the student is under the age of twenty-one, and the university had determined that the student has committed a disciplinary violation with respect to that use or possession. (14) When a parent or eligible student initiates legal action against the university or when the university initiates legal action against the parent or eligible student, the university may disclose to the court any education records of the student that are relevant to the legal action.

(15) Students upon providing evidence sufficient to demonstrate that the requesting individual is in fact the student to whom the records relate such as: A driver’s license; a university student identification card; or other photographic identification.

(16) For deceased students, members of the family or other persons with the written approval of the family or representatives of the estate. The request for education records must be accompanied by a copy of the death certificate or obituary. Absent written approval from the family or representative of the estate, only directory information will be disclosed to persons upon request.

(17) The disclosure concerns sex offenders and other offenders required to register under Section 170101 of the Violent Crime Control and Law Enforcement Act of 1994, and the information was provided to the educational agency or institution under 42 U.S.C. 14071 and applicable federal guidelines.

(18) The disclosure involves records or information from which all personally identifiable information has been removed.

172–191–100

Directory information is defined to include: Student’s name, address, email address, student net identification number, telephone number, date and place of birth, participation in officially recognized activities and sports, weight, height and birth dates of athletic team members; dates of attendance at the university, degrees and awards received, and the most recent previous educational agency or institution attended by the student.

The university may release “directory information” unless the student files a written request restricting the disclosure of the information. A student’s election to opt out of directory information disclosures does not prevent the university from disclosing or requiring a student to disclose his/her name, identifier, or university email address in a class in which the student is enrolled.

172–191–110

WAC 172–191–110 Right to file a complaint.
Students may file a written complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures by the university to comply with the requirements of the Family Educational Rights and Privacy Act or its implementing regulations.

ACADEMIC SUPPORT

Centers of Excellence (p. 88)
Diversity Programs (p. 88)
Libraries (p. 89)
Student Life (p. 89)
Student Publications (p. 93)

Academic Resources

Academic Success Center (http://access.ewu.edu/asc)
509.359.2487

Staffed by professionals who are committed to student success, the Academic Success Center (ASC) emphasizes independent scholarship abilities, collaborative learning and developmental advising. The ASC is home base for the TRiO Student Support Services project, Eastern Advantage program and the Eastern Scholars Academy.

Types of Student Services Provided
• Instruction in effective university success skills such as:
  • effective study strategies and test-taking techniques,
  • time management and establishing priorities, and
  • using and improving college level reading strategies.
• personalized, one-on-one academic advising;
• access to peer led collaborative learning groups, one-on-one tutoring, and eTutoring;
• involvement in first-year experience programming; and;
• access to workshops such as GRE prep and FAFSA prep.

Eastern Advantage
Eastern Advantage (EA) is a freshman first-year experience program designed to specifically meet the unique needs of first-generation college students enrolled at EWU. Participants must be Washington state residents, have a demonstrated financial need (FAFSA), apply during their senior year of high school in order to be eligible and be enrolled full time at EWU. Involvement in EA includes the following: intensive first-year academic advising; enrollment in a freshman fall seminar course; and a first-year scholarship toward EWU tuition.

Eastern Scholars Academy
The Eastern Scholars Academy (ESA) is a 10-day, pre-fall program that focuses on enhancing college readiness skills, especially in the areas of math, writing, social engagement, and leadership. Interested students who are selected to attend the Academy must also actively participate in the ASC first-year experience programs throughout the first three quarters of their freshman year.

Get Lit! Literary Programs (http://www.ewu.edu/getlit)
534 E. Spokane Falls Blvd. Suite 203
Spokane, WA 99202
509.368.6590

Get Lit! programs include an annual literary festival and educational outreach programs that engage members of the Inland Northwest community in a celebration of reading, writing and storytelling for all ages. Each April, the week long literary festival hosts presentations by nationally known public intellectuals, writers and poets, as well as readings, writing workshops, panel discussions, contests and more. Out of 50 events, most are free and open to the public.

Throughout the year, the Get Lit! educational outreach program exposes K–12 students to professional writers. They reach an average of 5,000 students a year, helping young people discover the beauty of language and explore their own capacity for storytelling. Get Lit! programs seek to enhance the artistic, social and cultural life of people throughout the region.

Now a part of Eastern’s College of Arts and Letters, Get Lit! offers interactive internships in a variety of departments related to creative writing, communications, marketing and publicity, graphic design, website maintenance, grant writing, photography and arts education. Gather hands-on experience that will make your résumé shine. Contact the Get Lit! Programs (https://sites.ewu.edu/mfa/the-program/contact-us).

Learning Commons (http://www.ewu.edu/learning-commons)
JFK Library
509.359.4574

The Eastern Washington University Learning Commons is a comfortable, student-centered environment focused on academic exploration and collaboration. Located on the main floor of JFK Library, the Learning Commons fosters a community of inquiry where learning becomes creative and where intellectual growth is promoted through the social construction of knowledge. EWU Learning Commons’ Mission is to: provide a collaborative intellectual setting that inspires excellence in learning.

The primary academic support units housed in the Learning Commons are the Writers’ Center, PLUS (offering tutoring, study groups and eTutoring) and the Multimedia Commons. All services are free to EWU students. While their main locations are located elsewhere on campus, the Mathematics Department’s tutoring lab offers after-hours math tutoring in the Learning Commons and Career Services has a kiosk in the Learning Commons to extend services to students. As the Learning Commons grows, more programs will establish kiosks in the Learning Commons.

Professional Design and Photography Services (http://access.ewu.edu/it/services/instructional-technology/graphics-and-photography)
University Graphics
203 Huston Hall
509.359.2435

Graphic design specialists can create a variety of high quality projects for faculty and staff. Let us bring clarity to your content through collaboration with our design staff. From posters to instructional documents for the classroom, we can assist you.

Photographic services include location and studio photography, preparation of digital images, scanning and enhancing slides,
Ronald E. McNair Scholar Program (http://www.ewu.edu/academics/trio-mcnair-scholar-program/about-mcnair)

107 Monroe Hall
509.359.2419

The TRiO McNair Scholar Program is funded by Congress through the U.S. Department of Education to provide opportunities for undergraduates to define their goals, engage in research and develop the skills and student/faculty mentor relationships critical to success at the doctoral level. McNair Scholars participate in paid research internships with faculty mentors in their majors and attend seminars on GRE preparation and application to graduate programs.

Mission Statement

McNair prepares low-income, first-generation and minority undergraduates for doctoral success, providing scholarly activities and community engagement to empower emerging scholars as agents of positive change in a culturally diverse world.

Applicant Requirements

• sophomore standing and above;
• a cumulative GPA ≥ 2.8 overall and ≥ 3.0 in the major;
• U.S. citizen or permanent U.S. resident;
• first generation in college and low-income or belong to a group under-represented in doctoral studies (African Americans, Hispanic/Latinos, Native Americans and Native Hawaiians or other Pacific Islanders).

Technology Services and Support (http://helpdesk.ewu.edu)

Division of Information Technology (IT)
JFK Library, Lower Floor
509.359.2247

The Division of Information Technology (IT), in partnership with the Library, Student Technology Fee funding and departments, support a number of tech-related services for students, faculty and staff. Some of these services include:

Help Desk

Answers to frequently asked questions are available online, additional assistance with technology related questions and problems can be requested by entering a ticket (helpdesk.ewu.edu), emailing (helpdesk@ewu.edu), calling 509.359.2247 or in person at the Help Desk located on the lower level of the library.

Information Technology Training and Consultation

Free online training 24/7/365 of more than 1,100 titles, provided by Lynda Campus (http://access.ewu.edu/it/services/it-training/documentation-and-resources/lyndacampus-information), is available to all EWU students, faculty and staff. IT staff offer consultation on the most effective use of campus technology including email, calendar, Internet, hardware, software, network resources and more. Ten gigabyte NetStorage drive that can be accessed any time and from anywhere.

Computer Labs

Hardware includes access to more than 1,000 physical and virtual Windows and Macintosh workstations, scanners, video editing decks, recording studios, printing options of black/white, color, photo, and large format poster-size output, and more. Learn more about Virtual Labs which provides 24/7/365 access to virtual lab computers (https://whd.ewu.edu/helpdesk/WebObjects/Helpdesk.woa/faqActions/view?faqId=213). Learn more about printing options (https://whd.ewu.edu/helpdesk/WebObjects/Helpdesk.woa/faqActions/view?faqId=413).

Software applications include Microsoft Office, Adobe Suite Master Collection (Photoshop, InDesign, Illustrator, Premiere Pro, Acrobat Pro), class software such as SPSS, SAS, 3dsMax, ArcGIS, Mathematica, MatLab and much more. Additional software can be requested by contacting the Help Desk. Labs open to students during all hours of operations are located in PUB 359 and Riverpoint 207, along with the JFK Library. For more information (http://access.ewu.edu/it/students).

General access departmental computer labs (open during non-class times) are available in many locations around campus including the Academic Success Center, Art, Biology, Chemistry, Computer Engineering and Sciences, Education, GIS, Math, Modern Languages and Psychology. Visit the Computer Labs (http://access.ewu.edu/it/services/computer-labs) link for specific locations and hours of operation.

The JFK Library provides an equipment checkout service which includes laptops, projectors, point/shoot and digital SLR cameras, low- high end video cameras, audio recorders and more. This service is located on the JFK Library lower floor at the Help Desk.

Software discounts for Adobe and Microsoft applications, along with free antivirus, are available at the EWU Bookstore. Visit the EWU Bookstore (http://www.bookstore.ewu.edu) for more details (click the Technology link).

Classroom Technology Services

Eastern has three types of high tech classrooms: Enhanced, Televideo and Computer. These are general university classrooms scheduled through the Records and Registration Office prior to the start of each quarter.

• Enhanced Classrooms allow a wide variety of multimedia sources to be projected on large format screens. These rooms are primarily designed to facilitate multimedia presentations.
• Televideo Classrooms provide two-way compressed video conferencing through the statewide K–20 Telecommunications network and are designed to facilitate distance learning.
• Computer Classrooms provide a teaching environment where the instructor and each student have a computer station connected to the campus network and are designed for hands-on computer interaction.

Writers’ Center (http://www.ewu.edu/writerscenter)

JFK Library
509.359.4872

The Writers’ Center offers thoughtful responses to writers at any stage in their writing processes. Students, faculty and staff are invited to participate in one-on-one sessions with professional responders. A variety of workshops are also conducted to enable students to become more adept at brainstorming, reading, creative writing, thesis preparation,
use of style books and résumé preparation. A conversation group for ELL (English Language Learners) students is regularly scheduled each quarter. Appointments are available Monday-Friday by making a reservation online at our website. Sessions are available at the Cheney or EWU Spokane campuses via in-person, SKYPE and online response. All Writers’ Center services are free.

**Centers of Excellence**

**Honors**
Dana Elder, Ph.D. Director
217 Hargreaves
509.359.2822

The Honors Program at Eastern is an integrated four-year program of academically challenging courses for superior students. The Honors Program invites applications from high school seniors and from the diverse population of students interested in EWU, including transfers, commuters and nontraditional students. Freshman Honors courses satisfy four of the general education core requirements. Upper-division Honors courses include cross-listings such as, HONS 355/ANTH 355 and enriched courses in the major (Departmental Honors). Students who complete one or more of the Honors Program curricular requirements receive special recognition.

Enhanced course work, mentoring, smaller classes with outstanding faculty and emphases on great books, writing and critical-thinking significantly strengthen the undergraduate learning experience. Honors participation also enriches applications for graduate or professional programs, employment and/or further study.

**Inland Northwest Center for Writers**
Riverpoint One–Suite 425
509.359.4956

The Inland Northwest Center for Writers offers an undergraduate emphasis in creative writing within the English major, as well as a Master of Fine Arts degree that is recognized as one of the outstanding programs in the country. Many of the students admitted to the selective MFA program receive support to pursue their studies. The undergraduate and graduate creative writing courses in poetry, fiction and nonfiction are taught by resident faculty, all of whom are practicing writers with numerous and nationally recognized book publications.

In addition to its regular courses, the creative writing program offers internships with the Center’s literary journal, Willow Springs and also affords students the opportunity to edit and produce a publication of the undergraduate program, Northwest Boulevard. Committed junior and senior students may involve themselves with the Writers-In-The-Community Project, a program that takes student interns as creative writing instructors into area schools, prisons, community centers, halfway houses and other institutions.

The Center also features a regular schedule of visiting writers who make a public appearance in downtown Spokane and meet with students. Recent visitors include Jo Ann Beard, Patricia Hampl, Robert Hass, Yusef Komunyakaa, Thomas Lux, Richard Nelson, Tomaž Šalamun, James Welch, John Edgar Wideman, Phillip Loplate, Rick Bass, as well as the Nobel Prize winner, Czesław Miłosz.

**Music**
119 Music Bldg.
509.359.2241

The Department of Music offers undergraduate and graduate programs in performance, composition and education. The goal of the department is to provide students with musical instruction and experiences of the highest possible quality. Students from a wide range of academic programs participate in seminars and ensembles led by outstanding faculty. Furthermore, the music program’s status as an EWU Center of Excellence enhances its ability to enhance the cultural life of the Inland Northwest and Cheney campus. Our outreach events and partnerships with the Spokane Symphony Orchestra, the Spokane Jazz Orchestra, the Spokane Youth Symphony and the Bob Curnow Band, comprised of many EWU music faculty and alumni make our music program a significant foundation for musical arts in our community.

**Diversity Programs**

**Africana Education Program**
204 Monroe Hall
509.359.2205

The Africana Education Program is an academic and student service program. The Africana Education Program develops and teaches courses in Africana Studies, provides recruitment, support and retention services, and conducts research into the African Diaspora. All courses, services and events provided by the program are open to all EWU students.

Africana Studies courses are designed to promote understanding and appreciation of the African Diaspora as it unfolded over time and as it is currently manifested. The program uses the Afrocentric world view as the philosophical basis for the presentation of its courses.

The Africana Education Program provides academic and non-academic student support services including academic advising, scholarships, scholarship information and mentoring. The program assists students, faculty and staff in understanding the culture and issues of people of African descent. The program sponsors speakers and events and recognizes national African American holidays.

**American Indian Studies Program**
706 5th Street
509.359.2441

The American Indian Studies Program at Eastern serves about 200 students, the largest enrollment of American Indians at the three regional state universities in Washington. Its purpose is to make university life a positive growth experience that expands students’ perspectives and vocational horizons. Student services offered through the program include:

- academic planning;
- tutoring;
- career counseling;
- housing and job referral;
- financial aid and scholarship workshops;
- university orientation;
• personal and academic counseling;
• cultural awareness workshops;
• assistance with admissions.
• research and reference materials on American Indians.

American Indian Studies offers twenty courses and a minor. The American Indian Education Center is home of the American Indian Studies Program and the Native American Student Association.

Chicano Education Program (CEP) (http://www.ewu.edu/csbssw/programs/chicano-education)
203 Monroe Hall
509.359.2404

The Chicano Education Program (CEP) is both an academic and a student recruitment and retention program. CEP’s academic focus is on providing all students, regardless of ethnicity, an opportunity to become familiar with the Chicano/Latino community and issues. This is accomplished through CEP’s Chicano Studies 25-credit undergraduate minor. Several Chicano Studies courses fulfill EWU’s cultural diversity requirement. CEP actively participates with the National Association for Chicana/Chicano Studies, stages numerous cultural and art exhibitions and operates a speakers’ forum all of which augment the opportunity to learn about the Chicano/Latino community beyond the classroom setting.

CEP’s student recruitment focuses on increasing the participation of Chicanos/Latinos in higher education. CEP actively recruits Chicano/Latino students from high schools and community colleges and helps prospective students complete their admissions process at EWU.

Retention Efforts Include
• scholarships and scholarship information;
• mentoring opportunities;
• college orientation class;
• tutoring;
• academic advising;
• student advocacy;
• efforts focusing on creating a sense of community for Chicano/Latino students at EWU;
• social/cultural programs.

CEP publishes an electronic quarterly newsletter, Q-VO, which informs students, parents and the community about program activities. The CEP houses the College Assistance Migrant Program (CAMP), which is designed to recruit and retain migrant students during their first year of college at EWU. CAMP provides an array of academic support services and financial assistance to program participants.

Women’s and Gender Studies Programs (http://www.ewu.edu/csbssw/programs/womens-and-gender-studies)
207 Monroe Hall
509.359.2847

The Women’s and Gender Studies Program at Eastern encompasses an academic program and a resource center component. The BA degree in Women’s and Gender Studies, the Women’s and Gender Studies minor and the Gender Studies Certificate are comprised of courses that offer an interdisciplinary examination of women’s roles, contributions, history and experiences, as well as a critical study of gender structures in societies and cultures in the U.S. and the world.

The Women’s Studies Center under the Women’s and Gender Studies program provides:
• a varied series of lunch hour presentations with topics related to women, gender, diversity and children;
• scholarship information for women;
• HOME (Helping Ourselves Means Education), a networking program for low income, nontraditional student parents;
• a comfortable place to meet;
• a library of books focusing on women and gender issues.

Libraries

John F. Kennedy Library (http://www.ewu.edu/library)
816 F St., 100 LIB
509.359.7888
email (ewuref@ewu.edu)

Eastern Washington University’s libraries consist of the John F. Kennedy Library, which is the main library on the Cheney campus, and the Riverpoint Campus Library in Spokane.

The library provides global information resources with over 140 full-text article databases and other online resources; maintains a book collection of over 860,000 volumes and 59,000 online and print periodicals; and serves as a selective depository for state and federal government documents.

The EWU Libraries’ WorldCat online catalog provides access to our resources, the combined holdings of 37 college and university libraries in Washington, Oregon, and Idaho for expedited delivery, as well as the holdings from libraries around the world. Students may obtain materials not owned by EWU Libraries by submitting interlibrary loan requests online.

Library faculty at both JFK Library and Spokane Academic Library provide assistance with library resources. They are also available for class instruction to help students learn the research process.

Spokane Academic Library (http://www.ewu.edu/library/riverpoint)
600 N. Riverpoint Blvd.
Spokane, WA 99210-1495
509.358.7930
email (rivellibrary@ewu.edu)

The Spokane Academic Library, located in the Academic Center at EWU Spokane, supports the Spokane-based programs of Eastern Washington University and Washington State University. It offers a full range of library services including reference and instruction, interlibrary loan and document delivery, and access to full-text article databases and other online resources.

Student Life

Associated Students of Eastern Washington University (ASEWU)
303 PUB
509.359.2514
The Associated Students of Eastern Washington University (ASEWU) are a body of elected student representatives who work to promote and encourage the pursuit of higher education and student life on the main campus and branch campuses of EWU. In addition, the ASEWU promotes the expression of student opinion through formal and informal means in accordance with the EWU Student Conduct Code.

The ASEWU Council is a liaison between state, local and university officials, which includes faculty, staff, administration and the students of EWU. The ASEWU commits itself to the students of Eastern Washington University to act as a resource for student activism, to provide students with leadership opportunities and to send a legislative liaison to lobby the Washington State Legislature and the Washington Student Association (WSA).

Twelve students are elected to their respective positions: president, executive vice president, finance vice president and nine Council representatives that address specific departmental areas.

**These elected officials are charged with**

- representing the issues and concerns of EWU students throughout the campus community, the city of Cheney and at the state level including such venues as WSA and in the state legislature;
- receiving and identifying issues, concerns and questions from the general student body. When a problem has been identified, seeking a solution and/or a resolution in a proactive manner with the appropriate university personnel and/or community personnel;
- funding of various programs on campus. In addition, providing funding for many ASEWU recognized student clubs and organizations and providing funding for a variety of student services;
- maintaining interaction and communication with SAIL—Student Activities Involvement and Leadership— to ensure that the activities, programs and events provided for students meet the needs of Eastern’s diverse student population.

The ASEWU office is located in 303 PUB, or by calling 509.359.2514. Elected members hold regular office hours during the quarter and encourage students to get involved. Students are invited to visit the ASEWU website at asewu.ewu.edu for current information and activities.

**ASEWU Elections**

Election of student body officers takes place during spring quarter. Candidates begin filing for their position on the first Friday of the quarter. The primary election is held the fourth Tuesday of the quarter. The general election takes place on Tuesday of the sixth week. A complete description of ASEWU election governance is found in the ASEWU constitution and bylaws, which can be reviewed in the ASEWU office, at the library or online at www.ewu.edu/asewu.

Elected ASEWU officers and Council representatives earn professional experience and are paid during their tenure in office.

**ASEWU Superior Court**

The ASEWU Superior Court is a judicial body of five appointed student justices (a chief justice and four associate justices) who work to ensure that all policies adopted by the student government adhere to the ASEWU constitution, bylaws, the EWU Student Conduct Code and all university policies, and county, state and federal laws. The Court conducts weekly meetings. These meetings are open to all students and they encourage the general student population to be aware of the Court’s activities. Justices maintain weekly office hours to allow students, faculty, student government officers and staff access to them to address concerns or problems. Vacancies on the Superior Court are filled as they occur by the ASEWU president with the advice and consent of the current ASEWU Council. Once appointed, justices serve in office for the duration of their tenure at EWU or until they resign or no longer meet the eligibility requirements for the position. Members of the Court receive monetary compensation for their services.

**Athletics at Eastern**

You may not have known, but EWU Football won the 2010 NCAA FCS National Championship the last three Big Sky Championships and participated in the National Playoffs! Men’s Basketball is current Big Sky Champions led by the nation’s leading scorer, Tyler Harvey, recently drafted to the Orlando Magic. EWU’s Athletic Department is a vital part of campus life, with six intercollegiate sports for men and eight for women. EWU is an NCAA Division I athletic program providing training and competition for athletically talented student-athletes and provides a source of pride and entertainment for the campus community, students, alumni and the local area. An athletic contest, whether on the red turf (Inferno) or not, gives students at Eastern an opportunity to celebrate on ESPN, Big Sky TV, SWX or other media outlets while supporting the Eagles! Students cheering and having a good time in the stands is vital to the success of Eagle sports! Join the nation’s best mascot, Swoop, on game days to cheer on the Eagles.

The student-athletes at Eastern consistently lead the Big Sky Conference in academic performance and combined with athletic performance won the President’s Trophy in 2011. The Sky provides exciting intercollegiate competition pitting Eastern teams against institutions such as Montana, Montana State, Sacramento State, Northern Colorado, Northern Arizona, Idaho State, North Dakota, Southern Utah, Cal Poly, U.C. Davis, University of Idaho and Weber State. There are also exciting non-conference opponents with the likes of Gonzaga, Washington, Oregon, Oregon State and Washington State.

Division I sports include:

**Men**

- FSC Football
- Men’s Basketball
- Men’s Cross Country
- Men’s Tennis
- Men’s Track and Field—Indoor/Outdoor

**Women**

- Women’s Basketball
- Women’s Cross Country
- Women’s Golf
- Women’s Soccer
- Women’s Tennis
- Women’s Track and Field—Indoor/Outdoor
- Women’s Softball (Fall 2017)
- Women’s Volleyball
Home football games are played on the Inferno at Roos Field on the Cheney campus, while basketball and volleyball games are held in Reese Court, the five thousand seat centerpiece of Eastern's Sports and Recreation Center. Indoor track meets are staged in the Thorpe Field House and outdoor track meets are held at the Roos Field track. Tennis competes indoors in the Thorpe Field House and outdoors on their eight court complex. Soccer competes on the Sports and Recreation Soccer Complex. No admission is charged to Eastern Washington University students to attend all pre-season and regular season competitions. We look forward to seeing you and SWOOP at the games this year!

Career Services (http://www.ewu.edu/community/career-services)
114 Showalter Hall
509.359.6365

Career Services provides resources for every stage of your career development including how to:

- explore career options
- arrange an internship
- search for employment
- polish a résumé
- interview with prospective employers

Career Planning
Career Planning offers a variety of services and resources to help you make well informed academic and career related decisions. Career Planning services include:

- individual career advising
- resources to help you decide on a major
- information on researching career options
- résumé assistance
- job-search preparation
- Career Planning Resource Library with drop in hours each week
- 2 credit Career Development courses—CRSV 210 and CRSV 298

Internship Programs
Receive academic credit by working in positions related to your major field of study and career interest. Internships help you transition from graduation into a career. An internship provides the opportunity to:

- explore specific career interests, evaluate, confirm or reshape career goals
- apply classroom learning to real-life projects and assignments
- establish professional networks
- develop marketable skills

Community Engagement
Career Services can help you find meaningful volunteer positions where you can serve your community and expand your network. Through volunteering, you can:

- increase your awareness of important social issues
- gain exposure to diverse perspectives
- build a valuable network of community contacts
- explore career options
- give back!

All our job, internship and volunteer opportunities can be found through EagleAXIS (http://www.ewu.edu/community/career-services/eagleaxis).

Clubs and Organizations (http://access.ewu.edu/student-activities)
320 Pub
509.359.7924

Today's job market demands more than just good grades. Employers want students who have been engaged in extracurricular activities. These experiences provide the ability for students to gain new skills like communication, problem solving, critical thinking skills, networking, responsibility and working within a team.

With an average of more than 100 student organizations on campus each school year, our student organizations offer leadership opportunities that will enrich your campus experience while providing a venue to learn exceptional job skills. Choose from cultural/ethnic groups, academic major-related clubs, academic fraternities, social fraternities and sororities, political/social action organizations, recreation groups, religious/spiritual organizations, service/philanthropic clubs and sports teams.

Dean of Students—Associate Vice President for Student Life
320 Pub
509.359.7924

Besides the many clubs and organizations already in existence, students are welcome to form a new organization. Stop by the Student Activities, Involvement and Leadership Office in PUB 320 for additional information. The Dean of Students is responsible for fostering a healthy, secure and supportive environment for students that integrates intellectual, social, cultural and emotional development of students. The dean and staff serve as advocates for students. The dean oversees Student Activities Involvement and Leadership (SAIL—Campus Programs, Clubs and Organizations, Greek Life, Student Government, and Eagle Entertainment), Campus Recreation (Outdoor Programs, Intramurals and Club Sports), the Student Rights and Responsibilities (Judicial Programs, Student Support and Advocacy Manager, Counseling and Psychological Services and Disability Support Services.)

EPIC Adventures (http://www.ewu.edu/recreation/campus-recreation/epic-adventures)
URC 150
509.359.4014

EPIC Adventures is the EWU outdoor program offering outdoor and adventure trips, instruction, special events, equipment rentals, and an indoor climbing wall for students. Our programs are designed for all ability levels, and we specialize in introducing people to new activities. From backpacking to ice climbing, canoeing to whitewater kayaking, we provide activities that range from relaxing jaunts to full-on adventures. EPIC is open to all students, so stop by and sign up.

EPIC Adventures is based out of the first floor of the University Recreation Center. Check us out at www.epic.ewu.edu, email us at epicadventures@ewu.edu or call us at 509.359.4014.
Intramural and Club Sports (http://www.ewu.edu/recreation/campus-recreation)

Intramural Sports (I.M.)
Director: Mike Campitelli (mcampitelli@ewu.edu)
509.359.4836
(URC) 201

Club Sport Federation (CSF)
509.359.4013

Intramural Sports (I.M.)
One of the largest student activity programs on campus, the Intramural Sports program has nearly 2,500 active participants annually. The program provides EWU students with a diverse schedule of team and individual sports each quarter with many leagues offered at advanced, moderate and recreational levels of play. New activities recently started are laser tag and paintball as the I.M. program is constantly searching for new and exciting activities to offer EWU students. What’s in it for you? Improved physical fitness, social and group interaction, leadership/individual/team skills development and most importantly, the chance to have fun and relieve stress from the rigors of college life are all benefits to playing in I.M. Sports. There is no cost to students and faculty/staff are welcome to participate with all activities held right on campus for player convenience. I.M. leagues play one night per week for 6 weeks so the time commitment is minimal but the upside is huge. Intramural Sports is funded by the Service and Activities Fee Committee and is a program in the Department of Student Life, Division of Student Affairs. For information on the Intramural Sports program, you can go to ewu.edu/campusrec or ewu.edu/ImSports. All team and player registration is handled on our imleagues.com/EWU web site.

Club Sport Federation (CSF)
Continuing to be one of the fastest growing programs on campus is the Club Sport Federation (CSF). Sport clubs are offered based on student interest and campus trends with each club determining whether they want to be competitive or practice/workout based. The CSF is committed to providing EWU students with the opportunity to participate in the sport of their choice while representing EWU in club competitions or for the pure pleasure of connecting with others interested in their sport. One of the biggest strengths of this program is the wide variety of sport options to choose from and the opportunity for students to try a sport they never thought they would have the chance to participate in. Some of the EWU clubs are among the regions elite with many attending regional and national championship tournaments. Get outside your comfort zone and learn a new sport, that’s what the CSF is about as well as the chance to represent EWU in competitions throughout the region. Currently, there are over 35 active clubs in a variety of team and individual sports with new clubs coming online as student interest dictates. With room for all skill levels and gender groups, this great program has an incredible future.

Student Rights and Responsibilities (SRR)
320 PUB
509.359.6960

The Office of Student Rights and Responsibilities serves as the conduct affairs office at Eastern Washington University. SRR is primarily responsible for enforcement of the EWU Student Conduct Code. SRR also provides student advocacy and mediation/conflict resolution services for EWU students who are seeking to resolve conflicts with other students.

Sorority and Fraternity Life (http://access.ewu.edu/student-activities/sorority-and-fraternity)
320/322 PUB
509.359.7924

Eastern is the only regional university in the state of Washington to host a sorority and fraternity community. There are thirteen fraternities and eight sororities registered on campus, providing students with excellent opportunities to develop leadership skills, school pride and social and community involvement.

Four councils govern the Greek community. The Diversified Greek Council (DGC), Interfraternity Council (IFC), National Pan-Hellenic Council, and the Panhellenic Council (PHC) serve as communication centers for the exchange of ideas and information and are responsible for keeping fraternity and sorority chapters in compliance with university and national standards. Sorority and Fraternity Life also has an honor society, Order of Omega, that is dedicated to high standards of academics, leadership, and community service.

The most common way to get involved with sorority and fraternity life is through recruitment. For more information about how to join a fraternity or sorority please contact the Office of Student Activities in 320/322 Pence Union Bldg.

Listed below are established, and in the process of being established, social fraternities and sororities.

Fraternities
Alpha Phi Alpha (NPHC)
Beta Theta Pi (NIC)
Delta Chi (NIC)
Iota Phi Theta (NPHC)
Kappa Alpha Psi (NPHC)
Omega Delta Phi (DGC)
Omega Psi Phi (NPHC)
Phi Beta Sigma (NPHC)
Phi Delta Theta (NIC)
Pi Lambda Phi (NIC)
Sigma Lambda Beta (NALFO)
Sigma Nu (NIC)
Sigma Phi Epsilon (NIC)

Sororities
Alpha Phi (NPC)
Alpha Omicron Pi (NPC)
Alpha Xi Delta (NPC)
Gamma Phi Beta (NPC)
Kappa Delta Chi (NALFO)
Lambda Theta Alpha (DGC)
Sigma Lambda Gamma (NALFO)
Zeta Phi Beta (NPHC)

Washington Student Association (WSA) (http://www.wastudents.org)
320 PUB
509.359.2514
asewulegaffairs@ewu.edu
Washington Student Association (WSA) is a professional statewide non-profit student organization that lobbies for, represents, serves and protects the collective interests of students in post-secondary education in Washington state. As a united body, the WSA will:

- preserve and enhance the quality of education in the state of Washington;
- represent the collective interests of students through communication with state and federal governments and other interested groups;
- serve as a conduit for communication between universities regarding statewide issues and policies;
- develop positive relationships with other student advocacy groups in the state as well as statewide and national student associations;
- aid in the appointment of students to statewide committees and task forces.

Additionally, the organization introduces students to the legislative process and offers students the opportunity to gain valuable organizational experience and create a valuable network with higher education leaders and state legislators. Currently, the WSA is composed of nine member institutions that include baccalaureate institutions, branch campuses, graduate and professional associations and community colleges. The ASEWU works in partnership with the Board of Directors and General Assembly of the WSA to advocate for:

- affordable and predictable tuition;
- increased financial aid;
- increased access and completion for all to higher education;
- equal student representation on all policies impacting students in higher education.

Students who donate two dollars ($2) each quarter they register are supporting WSA's lobbying efforts in Olympia.

---

**Student Publications**

**The Easterner** (http://easterneronline.com)

102 Isle Hall
509.359.4318

EWU's student newspaper, The Easterner (http://easterneronline.com), serves the university community by providing news and information about campus life. It provides a public forum for discussion and debate of significant ideas and issues. It examines topics that have the potential to highlight solutions to campus problems, to influence the campus community and to promote the common good. The newspaper's online site, also provides news, features and sports stories, commentary, photo slide shows and videos.

All content in The Easterner is either produced or chosen by EWU students. The Easterner's goal is to provide relevant information to the students, faculty, staff and residents of the communities surrounding EWU.

The paper is distributed weekly during fall, winter and spring quarters throughout the Cheney campus and business district as well as the EWU Spokane campus. If you would like The Easterner to be distributed at your business, call the Advertising Department at 509.359.7010.

The first copy of The Easterner is free. Additional copies may be purchased at Isle Hall 102.

The Easterner also provides a learning laboratory for students who are interested in the field of journalism. The Easterner is open to any EWU student or faculty member who wishes to write or copy edit news stories. If you would like to contribute a story or find out more about joining The Easterner staff, call 509.359.4318.

If you have a news tip, press release, or story idea, call The Easterner’s tip line at 509.359.6270. Advertising may be placed by calling 509.359.7010, sending a FAX to 509.359.4319 or email (advertising@theeasterner.info).

**The Focus** (http://www.ewu.edu/asewu)

303 PUB
509.359.2514

The Focus (https://orgsync.com/81396/news_posts/128851) is a daily newsletter published by the Associated Students of Eastern Washington University during the academic year. It is distributed in many campus buildings and EWU Spokane, Riverpoint. This widely read publication contains information of campus events and activities, job opportunities, housing, meetings, general announcements and the popular swap shop section.

Individuals wishing to submit an announcement or advertisement will find submission forms on the first floor of the PUB next to the Eagle Shop, outside the ASEWU (http://www.ewu.edu/asewu) office (303 PUB) or online The Focus (https://sites.ewu.edu/asewu/the-focus). Return signed forms to either the box outside of the Eagle Shop or the ASEWU office, 303 PUB. Forms may also be returned via fax to 509.359.4737 or mailed to the ASEWU office, 303 Pence Union Bldg., Cheney, WA 99004-2463
STUDENT SUPPORT SERVICES

Student Services

Academic Advising (http://access.ewu.edu/academic-advising)
103 Sutton Hall
509.359.2345

Academic advisors will assist with academic planning, major exploration, prerequisite checking and identification of appropriate course sequencing. They also will refer to additional support services on campus as needed. The academic advisors in the Office of General Undergraduate Academic Advising provide academic planning assistance to all students who have earned fewer than 90 credits and who have not yet declared a major. Students who have declared a major receive academic advising from an advisor in that program or department.

Academic advising and a registration authorization are required for all students until sophomore status (earned 45 quarter credits). All other students are strongly encouraged to take advantage of academic advising to stay informed about changes in university and program requirements.

Departmental Advising

Undergraduates who have declared a major will be assigned a program advisor. See the information under Declaring a Major and Minor in this catalog. All undergraduates are required to declare a major by the time they have completed 90 quarter credits.

Graduate Studies Advising (http://www.ewu.edu/grad)
206 Showalter Hall
509.359.6297

The Graduate Studies Office provides general information for prospective graduate students including anyone pursuing interdisciplinary studies at the graduate level. The Graduate Studies Office oversees all policies and procedures for graduate education and is the clearinghouse for admissions, candidacy, degree completion and academic appeals. Please see the general information on Graduate Studies in the front of this catalog for detailed information.

Dining Services (http://www.ewu.edu/dining)
120 Tawanka Hall
509.359.2540

Dining Services is a valuable partner in the daily life of the university community. We demonstrate through our operations the university’s commitment to a high quality, student-centered learning environment focusing on product quality and service. We provide freshly prepared, nutritious food that offers good value in convenient locations. Dining Services provides an extensive menu, which includes a variety of tasty and nutritional choices to our diverse student body at reasonable and affordable prices.

Tawanka Main Street Dining: Truly the diners’ express lane to All You Care to Eat selections including deli sandwiches and Asian food bar. Open Monday through Friday for lunch and dinner and Sundays for brunch.

Baldy’s Food Court: located in the PUB on the second floor, this location has a variety of food offerings throughout the day including a vegetarian food bar and grill, as well as stir fry, pizza and Mexican favorites daily.

The Eagle Express Market: located on the first floor of the PUB, our campus convenience store is filled with personal care items, and beverage and food selections.

The Roost: located in the Recreation Center, featuring northwest fresh cuisine with EWU flair, this location will have an ever changing menu built around some bistro style classics. All served up in an atmosphere of fun with plenty of sights, sizzles and sounds that make this a one-of-a-kind dining location.

Swoop’s: located on the first floor of the PUB, Swoop’s serves up sub sandwiches, burritos and popular grill items.

The Brickhouse Deli: Dining Services newest operation, located a few blocks off campus in the heart of downtown Cheney. We are proud to serve the Eastern and Cheney community fast, fresh, reasonably priced sandwiches. Enjoy the relaxing bistro atmosphere while you study or warm up next to the fireplace during the winter months.

Thirsty Minds Espresso Bar: located in the JFK Library Lobby and offering Craven’s Coffee espresso drinks and fresh bakery treats.

PUB Eagle Espresso Company and Freshens Smoothie Bar: featuring Starbucks espresso drinks and Freshens fruit smoothies throughout the year.

Tawanka’s Beverage, Bakery & Bistro: serving up Seattle’s Best espresso beverages, fresh fruit, grab and go and bakery product displays, and custom blended smoothies and ice cream treats.

EWU Catering Services: Our philosophy is that high quality cuisine combined with beautiful, creative presentation and impeccable personal service is something that every client deserves. Customer service and satisfaction is of utmost importance to us at EWU Dining Services. That service begins with attention to detail—whether it is listening to a client’s desired menu while being sensitive to their budget or checking the freshness of each food product that is purchased. It continues by inspection to insure the quality and presentation of each finished dish as it leaves the kitchen.

Dining Services also focuses on our environment by using earth friendly disposables and by our use of organic and all natural products. We have eliminated products that contain trans-fat ingredients from our operations and continue to incorporate the current trends in the food service industry.

Note: EWU Dining Services operations utilize full production kitchens. These facilities may contain: dairy, eggs, fish, peanuts, shellfish, soy, tree nuts, sesame and wheat. If you have a food allergy or intolerance to any of the above listed items or any other dietary concerns, please contact a Dining Services representative with any questions or concerns.

Disability Support Services (http://access.ewu.edu/disability-support-services)
121 Tawanka Hall
509.359.6871
Providing equal opportunities for students with disabilities at Eastern Washington University is a campus-wide responsibility and commitment.

In accordance with Section 504 of the 1973 Rehabilitation Act, the Washington State Law Against Discrimination and the Americans with Disabilities Act, the Disability Support Services Office (DSS) facilitates reasonable accommodative needs of all self-identified students with documented disabilities.

To qualify for service through the DSS Office, students must self-identify, provide documentation of disability and complete an intake interview with DSS personnel. DSS staff will then assist with determining individual needs and provide timely and effective accommodations.

303 Sutton Hall
509.359.2525
Fax: 509.359.6262

Many students supplement their income and gain valuable work experience with part-time employment. Student Employment assists students interested in finding part-time or full-time jobs to assist in paying for their college and living expenses:

- On-campus
- Off-campus
- Summer positions
- Work Study (awarded by Financial Aid as part of student’s financial aid package).

Search for student employment through EagleAXIS ([http://www.ewu.edu/community/career-services/eagleaxis](http://www.ewu.edu/community/career-services/eagleaxis)).

Housing and Residential Life ([http://www.ewu.edu/housing](http://www.ewu.edu/housing))

1027 Cedar Street
509.359.2451 or 800.583.3345

Living on campus completes the college experience! Residents can get involved in hall government, have quick, convenient access to the entire campus and best of all, can share problems, successes, frustrations, joys, insights and questions with roommates and neighbors. It is also a great way to learn about other lifestyles and cultures right where you live.

You’ll never feel lonely when living on campus because there is always someone to talk to or someone to eat dinner with!

Residence Halls

With seven residence halls, and a variety of dining options, Eastern offers something for everyone.

Anderson, Brewster, Dressler, Dryden, snyamncut (pronounced sen-yam-en-sut, is a Spokane Salish word meaning place of gathering and is not capitalized), Pearce and Streeter are available for single students without dependents. We offer a variety of living arrangements including all female/all male floors, extended quiet hours floors and Living Learning Communities where students with similar interests live together and collaborate with faculty and staff in environments outside the classroom. All rooms have Internet access and cable television. A meal plan is required.

Application Procedures

Visit ([http://access.ewu.edu/housing](http://access.ewu.edu/housing)) housing to learn more about your living options, the contractual agreement and for complete information about each hall.

The process begins with payment of a non-refundable housing application deposit. To pay your non-refundable housing application deposit and apply visit housing ([http://access.ewu.edu/housing](http://access.ewu.edu/housing)).

Room Assignments

Our first round of room assignment notifications will be sent in early July for applications received by July 1st. Additional assignment notifications will be sent approximately every 3–4 weeks thereafter. Room assignment notifications will include each roommate’s name, phone number, email and assigned roommates are encouraged to get acquainted before fall term. In most cases, students can see a room similar to theirs during summer firstSTEP programs. Move-in begins the Friday before classes begin (9 a.m.–5 p.m. daily).

Contract and Rate Information

Fees for residence hall accommodations and meal plans for the academic year are payable quarterly along with tuition and fees. The housing contract is an academic year contract, meaning students are committing to live on campus fall, winter, and spring quarters. Bonuses are available for those submitting their application by May 15. Please visit ([http://access.ewu.edu/housing](http://access.ewu.edu/housing)) for specific room and board rate information.

Graduate Student and Family Housing

Single graduate students may live in the residence halls. The north wing of Dryden Hall is popular with some graduate students because it has single rooms for those 21 and over. Anna Maria Apartments, Holter House and Townhouse Apartments are available to our married students, students with children and domestic partnerships. Additionally, Holter House and Anna Maria apartments are available to single graduate students. These are all unfurnished apartments and no meal plan is required. Application for apartments should be made at least six months in advance since waitlists are common. For apartment information and application, visit ([http://access.ewu.edu/universityapartments](http://access.ewu.edu/universityapartments)), contact us via email (apartments@ewu.edu) or call 509.359.2452.
New Student Programs (NSP) (http://access.ewu.edu/nsp)

322 PUB
509.359.6843
email (nspt@ewu.edu)

New Student Programs (NSP) serves freshmen, transfer, non-traditional and international students in transition. It is the goal of NSP to help students prepare to transition both academically and socially. This goal is met through several of the programming initiatives supported by NSPs: firstSTEP, New Student Orientation and Welcome Week, Orientation Leadership Development, EWU Transitions Center, and New Student Seminar Transition Courses. For more information call, write or visit New Student Programs (http://access.ewu.edu/nstpp), 322 PUB, Cheney WA 99004, 509.359.6843.

firstSTEP Academic Orientation Undergraduate

firstSTEP is a summer academic orientation program for all new students: freshmen, transfer, non-traditional and international that highlights various areas such as understanding the mission of EWU and the university’s expectations; meeting with academic advisors for advising and registration; providing information concerning academic policies, procedures, requirements and programs; helping students and their families develop positive relationships with faculty, staff, administration and peers in the campus and surrounding community; and engaging with faculty and staff through the Eastern Spotlight event held during firstSTEP. For more information call, write or visit the Office of New Student Programs (http://access.ewu.edu/nstpp), 322 PUB, Cheney WA 99004, 509.359.6843.

New Student Orientation and Welcome Week

The mission of New Student Orientation is to provide new incoming students to Eastern Washington University with guidance, positive role models, knowledge and understanding of what EWU has to offer. Students will transition and participate in orientation activities as a global and diverse community. For more information call, write or visit the Office of New Student Programs, 322 PUB, Cheney WA 99004, 509.359.2034, W (http://access.ewu.edu/nstpp/wwo)elcome Week.

Student Financial Services (SFS) (http://www.ewu.edu/sfs)

202 Sutton Hall
Riverpoint Phase One Bldg.
509.359.6372 or 509.828.1395

The Student Financial Services Office assists families with making payments for tuition, refunding excess financial aid, setting up direct deposit and answering billing questions. SFS also assists with payment plan options, third party reimbursements and guaranteed tuition plans. There are two offices available to assist students; the EWU Spokane, Riverpoint campus and the main campus in Cheney. For more information visit us online (http://access.ewu.edu/student-financial-services).

Tuition Pay (Tuition Payment Plan)

Eastern Washington University offers a tuition payment plan administered by Sallie Mae®. Payment plans are convenient, manageable payment solutions that give you the option to pay tuition in interest-free monthly installments, rather than one lump sum. You can also use a plan in conjunction with traditional student loans and financial aid.

Tuition payment plans offer you the opportunity to pay your tuition, interest free, in 11, 10 or 9 payments, beginning June 1, July 1 or August 1 respectively. These plans cannot be used to pay prior balance university debts. Enrolling in a tuition payment plan is easy, follow the Tuition Payment Plan link at S (http://access.ewu.edu/student-financial-services) Student Financial Services.

Third-Party Billing

If a government agency, military, program or company is paying for your tuition and fees, Student Financial Services can assist you in setting up 3rd party billing arrangements.

Students who are sponsored by a third party may request billing to the sponsor by submitting a written authorization for tuition, fees and other educational expenses. Sponsor invoicing occurs once per term. Sponsor payments must be received for the current term in order for students to be eligible to continue enrollment in subsequent terms.

In any sponsor billing arrangement, the student is ultimately responsible for payment of university charges. If a sponsor fails to pay any amounts invoiced, those original charges are returned to the student account with appropriate late penalties assessed.

Students or sponsors may submit billing authorization forms to the following: Student Financial Services, Attn: Third-Party Billing, 202 Sutton Hall, Cheney, WA 99004 or by fax to 509.359.4832.

Complete arrangements for sponsor billing must be made prior to the statement due dates to prevent late payment penalties. For assistance, call Student Financial Services at 509.359.6372.

Other Refund Information

Non-financial aid credits will remain as credit balances for future quarter charges unless a refund is requested. All refunds resulting from enrollment changes will be subject to a processing fee, if not signed up for direct deposit.

T.O.Y. (Thinking of You Gift Program) (http://www.ewu.edu/toy)

120 Tawanka Hall
509.359.2836

EWU’s Thinking of You program is a great on campus gift delivery program. Easy to use and reasonably priced, it offers free delivery of gift packages, balloons, gift mugs and fresh bakery items to EWU residence halls and campus offices. View our seasonal gift selection in 120 Tawanka Hall, the Thinking of You brochure or online. Establish orders two days before desired delivery date. We offer daily deliveries Monday through Friday, 8 a.m.–5 p.m., throughout the academic year.

University Facilities

EWU Spokane, Student Services Center (http://access.ewu.edu/riverpoint-student-services)
N. 668 Riverpoint Blvd. Room 101
Spokane, WA 99202
The Student Services located in the EWU Center provides a wide range of services for students enrolled at any Eastern Washington University campus or those considering admission to EWU. Many services available through Records and Registration and Student Financial Services are available at this convenient location.

**Fine Arts and Music**

119 Music Bldg.
509.359.2241

Eastern’s fine and performing arts facilities are important resources for students in art, music, theater and electronic media programs as well as for students in other disciplines and community members who want to experience the arts.

- Changing exhibitions of local, regional and national artists are featured in Art Department galleries on the Cheney campus, the Gallery of Art and the Photography and Print Gallery. Student work is shown in the Student Gallery in the Art Department.
- Musicals, plays and other dramatic productions are presented regularly at the University Theatre and in Showalter Auditorium.
- The renovated Showalter Hall Auditorium and the Music Department’s Recital Hall are the venues for concerts, recitals and other music productions as well as master classes and performances by visiting artists.
- The Electronic Music Studio provides up-to-date resources in music synthesis, MIDI-assisted recording and printing as well as computer-aided instructional tools for students in composition, performance and music education.
- The Fine Arts Digital Lab offers state-of-the-art hardware and software for digital, visual, filmic and musical composition and editing.

**The Pence Union Building**

212 PUB
509.359.7921

The Pence Union Bldg., or PUB, provides a variety of services, conveniences and amenities, including:

- Free telephones for Cheney and Spokane calls
- Computer Lab
- Complete travel agency
- Hair styling salon
- ATM
- Pool table
- Bookstore for textbooks, trade books, school supplies, EWU clothing, gifts, cards, and computer software.
- A cyber-cafe and Rendezvous room for computer work stations, gaming and a pool table.
- Food services, including Baldy’s, Swoop’s Smoothie Bar, Thomas Hammer Coffee and other unique concession stands.
- The Eagle Express Market for fresh milk, microwavable foods, snacks, candy, school supplies, personal items and seasonal gifts.

**University Recreation Center**

119 URC
509.359.4026
email (urc@ewu.edu)

The University Recreation Center features:

- Multi-purpose arena that is an ice rink from June–March and basketball courts from April–June.
- A two-level 17,000 sq. ft. fitness center
- EPIC Adventures for all of your outdoor trips and rental gear
- 30’ indoor climbing wall
- 200 meter running track
- Gymnasium with basketball and volleyball courts
- Club Sport Federation Office
- Ice rink (June–March)
- Health, Wellness & Prevention Office
- An indoor parking garage
- The Roost dining area

**University Services**

**Bookstore**

152 PUB
509.359.2542
Customer Service 509.359.2826

The University Bookstore rents and sells textbooks for both Cheney and Spokane courses. A wide variety of other products are available including: EWU emblematic clothing and gifts, school and art supplies, general interest and reference books, greeting cards, gifts, health and beauty aids and snack foods. The Customer Service desk located inside the Bookstore sells tickets for various campus events and provides locker and table rentals in the PUB.

**Childcare at the EWU Children’s Center**

923 Washington St.
509.359.2025 or 359.2023
Fax: 359.2027

Eastern Washington University is committed to and proud to have an on-campus childcare program serving the childcare needs of the university community. The EWU Children’s Center, which is managed by the YMCA of the Inland NW, offers a developmentally appropriate, child-centered educational program for the children of EWU students, faculty and staff. The center is currently licensed for 194 children ages six weeks to ten years of age and operates Monday-Friday 7:30 A.M.–6 P.M. The EWU Children’s Center offers flexible scheduling and childcare subsidy for eligible students.
The Comprehensive Health & Wellness Program is an all-inclusive approach to student physical and mental well-being. This approach brings together the student health clinic services provided by Rockwood Clinic, health and wellness education and outreach, and counseling and psychological services (CAPS). Students will have access to basic level of ambulatory health clinic services at any Rockwood Clinic location in Cheney and the Spokane region. Students will also have access to individual and group counseling, wellness programs and outreach, and peer education services at no additional cost.

Please Note: Students taking less than 6 credits can request voluntary participation in the program in order to have access to these services. Students have until the 10th day of the quarter to request and pay for the services.

Summer Students: Summer students do not automatically participate in this program! These services are not included as part of summer tuition and fees, therefore the services are not automatically charged in the summer. Students requesting services must either be registered for classes or be a continuing student in the fall quarter. Summer students must voluntarily pay the fee to use the health services. The fee must be paid by the 10th business day of summer quarter.

Please contact Health, Wellness & Prevention Services at 509.359.4279 or Counseling and Psychological Services at 509.359.2366 for additional information. Recommended immunizations: Eastern Washington University does not currently require written documentation of student immunization status. We do encourage all students to conform with college health recommendations, which include up-to-date immunization status for the following:

- Measles/Mumps/Rubella (MMR) 2 doses
- Td/Tdap
- Polio
- Hepatitis A and B
- Influenza
- Varicella (Chickenpox)
- Meningococcal Quadrivalent Polysaccharide (Bacterial Meningitis)
- HPV (Human Papillomavirus) Male and Female

Recommended Adult Immunization Schedule, by Vaccine and Age Group United States, 2014, Center for Disease Control.

Counseling and Psychological Services (CAPS) is not a place that hands out pat answers or ready made solutions. Rather, it is a place where a student can discuss concerns in a comfortable and confidential setting. New understandings and insights may then be translated into a plan for action and change.

**Eagle Card (EWU ID Card)**

New EWU students are allowed an Eagle ID Card following completion of their registration for classes. A photo ID and proof of enrollment must be provided before an Eagle Card can be issued. The first card is free of charge. A $25 replacement fee is applied for lost, stolen or damaged card. The card is electronically updated each quarter.

Students who do not re-enroll are advised to retain their ID card, or they will be assessed the $25 fee for a new card upon return to EWU.

Students are personally liable for all obligations incurred by the use of their Eagle ID Card. Report lost, stolen or found ID cards immediately to the Tawanka Business Office, Monday–Friday between 8 a.m.–5 p.m.

**HOME (Helping Ourselves Means Education)**

HOME is a networking program for low-income, non-traditional student parents. Several times each quarter, HOME students organize Eagles and Eaglets activities that students can do with their children. Their office maintains a resource referral database on housing, childcare, scholarships and community services, as well as campus resources. They also offer childcare scholarships to help students pay for daycare expenses. Every fall, the HOME program sponsors the Giving Tree, a holiday resource for low-income EWU students. Any student not knowing what to do with books not eligible for the bookstore buyback can donate books to HOME as part of an ongoing fund-raising book drive. For more information about HOME, please go to their blog (http://ewuhomegroup.blogspot.com).

**Parking**

Permits for on-campus parking are obtained at 131 Tawanka Hall. Parking permits are required to park in any on-campus lot. Space is limited so apply early. Metered parking is also available. Please call the parking office for specific information on the availability of visitor or disability parking space. The P-12 lot located behind Roos Stadium is a free parking lot except for special events days. Parking Services, 509.359.7275.
University Police (http://access.ewu.edu/police)
101 Red Barn
509.359.7676

For emergencies call 911.

The University Police Department is located at 7th and Washington in the Red Barn.

Officers are on duty 24 hours a day seven days a week. University police officers can be contacted 24 hours per day by calling 509.359.7676.

The university police officers are commissioned and have the authority to enforce all local, state or federal laws.

The administration office for the University Police Department is open to the public during regular business hours, Monday through Friday. You can call 509.359.6310 to speak to someone in police administration.

Some of the services provided by the University Police:
- vehicle jumps
- vehicle unlocks
- lost and found
- fingerprinting
- weapons storage (for students that live on campus)
- crime prevention awareness training
- alcohol/drug awareness training

Veterans Resource Center (http://access.ewu.edu/veterans-services)
122 Showalter Hall
509.359.7040

The Veterans Resource Center provides critical services and support for our veterans: active-duty, National Guard and Reserve military personnel, their spouses and dependents. The Center assists our veteran students as they transition back into civilian life and learn to navigate the university system. The Center supports the unique recruitment, retention and educational needs of students whose lives are inextricably connected to the military.

The Veterans Resource Center provides
- GI Bill benefits
- admissions and financial aid counseling
- targeted recruitment
- academic and personal advising
- liaison with disability services
- referrals to campus support services
- specialized tutoring
- support for veterans student club
- activities for veteran and military students and their families
- public presentations and speakers
- workshops for veteran and military students
- faculty and staff training

The Veterans Resource Center also provides a space for veterans to socialize, a computer lab and conference/workshop space.

EWU expects to increase the number of student veterans utilizing GI benefits each year, and to see a student retention rate among veterans that exceeds the general student population.

Providing education to the wider community is also a mission of the Center, as it aims to organize discussions and symposia on such topics as best practices for supporting military service members and serving veterans in higher education.

The Center staff includes a director, an academic advisor, a financial aid specialist, VA work study students and faculty liaisons.

The Veterans Resource Center facilitates faculty liaisons in each college to ensure effective communication and coordination with those EWU departments and staff that regularly interact with veteran and military students.
FINANCIAL AID

Please visit Financial Aid (http://www.ewu.edu/admissions/financial-aid) or Student Financial Services (http://access.ewu.edu/student-financial-services) for the most current information.
TUITION & FEES

Please visit Student Financial Services (http://access.ewu.edu/student-financial-services).

The Student Financial Services Office assists families with making payments for tuition, refunding excess financial aid, setting up direct deposit, and answering billing questions. We also offer assistance with payment plan options, third party reimbursements, and guaranteed tuition plans.
ADMINISTRATION & FACULTY

- Administration (p. 102)
- Faculty (p. 102)
- Faculty (p. ) Emeritus (p. )

Trustees, Senior University Administrators, Deans, Faculty

Board of Trustees
Mr. Michael Finley
Mr. Uriel Iñiguez
Ms. Jo Ann Kauffman
Honorable James Murphy
Ms. Mariana Garcia
Mr. Patrick Spanner
Mr. Paul Tanaka
Honorable Robert H. Whaley
Ms. Vicki Wilson

University Administration
President, Mary Cullinan, PhD
Interim Vice President for Academic Affairs and Provost, Mary Ann Keogh Hoss
Vice President for Business and Finance, Mary Voves
Vice President for Student Affairs, Stacey Morgan-Foster, JD
Vice President for University Advancement, Michael Westfall
Vice President for Information Technology and Chief Information Officer, Gary Pratt, PhD

Academic Deans

Dean of the College of Social & Behavioral Sciences and Social Work, Vickie R. Shields, PhD
Dean of Libraries, Suzanne Milton

Full-Time Faculty

The following list reflects the status of the Eastern Washington University faculty as of July, 2015. The date following each name is the academic year the faculty member was first hired by the university and does not necessarily imply continuous service since that time.

A
Abbey, Eric—˜2013, Assistant Professor in Chemistry—˜BA, Whitman College; MS, PhD, University of Oregon
Adler, Diane—˜1993, Senior Lecturer in English as a Second Language—˜BS, Bowling Green State University; MEd, Western Washington University; MA, Eastern Washington University
Adolphson, Keith V.—˜2002, Associate Professor of Mathematics—˜BA, Gustavus Adolphus College; MA, MS, Naval Postgraduate School; PhD, University of Oklahoma
Agriss, Sean W.—˜2010, Assistant Professor in English—˜BS, Indiana University of Pennsylvania; MA, St. John’s College
Alden, Janine—˜1992, Senior Lecturer in English as a Second Language—˜BS, Georgetown University; MA, California State University
Aleccia, Vincent A.—˜2006, Associate Professor of Education—˜BA, MA, California State University, Fullerton; MA, University of San Francisco; EdD, George Fox University
Alhloul, SagerQureish B.—˜2012, Lecturer In Engineering and Design—˜PhD, Anglia Ruskin University
Allison, Ryan—˜2014, Lecturer in Mathematics—˜BS, Portland State University, MS, Portland State University
Almeida, Deidre A.—˜2001, Director of American Indian Studies and Associate Professor of American Indian Studies—˜BA, EdD, University of Massachusetts; MA, Stanford University
Alvin, Barbara—˜1983, Professor of Mathematics—˜BA, MS, Miami University; PhD, University of Washington
Anderson, Dennis W.—˜2004, Senior Lecturer in Psychology—˜BA, Gonzaga University; MS, Eastern Washington University
Anderson, Jonathan W.—˜2006, Associate Professor of Psychology—˜BA, PhD, Seattle Pacific University
Anderson, Matthew—˜2014, Assistant Professor of Human Geography—˜BA, Pitzer College; MA, Northeastern Illinois University; PhD, University of Illinois at Urbana, Champaign
Anderson, Susan K.—˜2001, Associate Professor, Acquisitions/ Electronic Resources Librarian—˜BA, University of Washington; MLS, University of Arizona
Andrews, Marge E.—˜2000, Senior Lecturer in Spanish—˜BA, University of Connecticut; MA, Southern Methodist University
Anton, Daniel C.—˜2007, Associate Professor of Physical Therapy—˜BS, Northwestern University; MS, Samuel Merritt University; PhD, University of Iowa
Askman, Tom K.—1972, Professor of Art—BAEd., B.F.A., California College of Arts and Crafts; MFA, University of Colorado

Asthana, Vandana—2006, Associate Professor of Political Science International Studies—BA, MA, PhD, University of Kanpur, India

Ayers, Drew—2015, Assistant Professor of Film—BA, Carleton College; MA, University of Texas, Austin; PhD, Georgia State University

B

Babcock, Garth—1998, Associate Professor of Physical Education, Health and Recreation—BS, MS, Brigham Young University; PhD, Texas Women's University

BAE, Heechang—2014, Lecturer in Engineering and Design—MS, University of Washington; PhD, University of Washington

Baldwin, Kathryn—2014, Assistant Professor of Foundations and Elementary Science Education—BS, MS, EdD, Washington State University

Ball, Diane L.—2014, Lecturer in Education—BA, Eastern Washington University; MEd, Eastern Washington University

Band, Deacon—2013, Lecturer in Engineering and Design—BS, Eastern Washington University

Bartlett, Robert L.—BA, Colorado Mesa University; MA, Washington State University; PhD, Gonzaga University

Basham, D. Alan—1995, Senior Lecturer in Counseling, Educational and Developmental Psychology—BA, MA, Biola University

Bastow, Justin L.—2014, Assistant Professor in Biology—BA, University of California, Berkeley; PhD, University of California, Davis

Baty, MSG Jacob—2014, Senior Military Instructor—University Senior Leaders Course, Fort Knox

Bazemore, Georgia B.—2004, Associate Professor of History—BA, Emory University; MA, PhD, University of Chicago

Beecher, Blake—2008, Associate Professor of Social Work—BSW, Weber State University; MSW, University of Nevada, Reno; PhD, University of Utah

Bell, Keryn E.—2009, Assistant Professor of Criminal Justice—BA, John Carroll University; Mphil, Cambridge University; MA, PhD, Ohio State University; Cambridge University; MA, PhD, Ohio State University

Bhuta, Prakash H.—1983, Professor of Biology—B.Sc., University of Bombay, Bombay, India; Dpl. Pharm. Bombay College of Pharmacy; M.Sc., University of Baroda, Baroda, India; PhD, University of Louisiana

Bigler, Daniel E.—2011, Lecturer in Sociology—MA, Kings College London

Bilich, Lisa A.—2004, Associate Professor of Dental Hygiene—BS, Eastern Washington University; MEd, University of Idaho

Bilous, Peter T.—2004, Associate Professor of Chemistry/Biochemistry—B.Sc., M.Sc., University of Manitoba; PhD, McGill University

Binney, Matthew W.—2006, Associate Professor of English—BA, MA, University of Alabama, Birmingham; PhD, Auburn University

Birch, Nancy J.—1988, Professor of Decision Science—BS, University of Arizona; MBA, PhD, Arizona State University

Biswa, Bipasha—2012, Assistant Professor of Social Work—PhD, Washington University in St. Louis

Bjerke, Joy—2012, Lecturer in Mathematics—BA, California State University; EdD, University of La Verne

Black, A.Ross—1993, Professor of Biology—BS, University of Washington; MS, PhD, University of Wisconsin, Madison

Blair, Louis F.—2007, Lecturer in Mathematics—BA, Massachusetts Institute of Technology; MS, University of Illinois; PhD, Carnegie Mellon University

Booth, Christina M.—2012, Lecturer in Education—BA, University of West Florida; MEd, Lesley University

Boughter, Stephanie—2013, Lecturer in Education—BA, Eastern Washington University; MEd, University of Idaho

Bowland, Sharon—2013, Associate Professor of Social Work—BSW, MSW, University of Illinois, Chicago; MA, Loyola University, Chicago; PhD, Washington University

Breen, Melinda E.—2000, Associate Professor of Engineering and Design—BA, University of Notre Dame; MA, Eastern Washington University; MFA, University of Idaho

Brewer, Christi—2013, Assistant Professor of Physical Education, Health and Recreation—BS, MS, PhD, University of Mississippi

Briggs, Lynn—1994, Professor of English—BA, MA, St. Bonaventure University; PhD, Syracuse University

Brooks, Kerry—2013, Associate Professor of Urban and Regional Planning—BA, Western Washington University; MURP, PhD, University of Washington

Brown, LuAnn—2002, Senior Lecturer in Social Work—BA, University of Northern Iowa; MSW, Eastern Washington University

Brown, Rebecca L.—2004, Associate Professor of Biology—BS, George Washington University; PhD, University of North Carolina

Bucciferro, Justin R.—2011, Assistant Professor of Economics—BA, SUNY College of Plattsburgh; MBA, Clarkson University; MA, PhD, University of Colorado Boulder

Buchanan, John P.—1984, Professor of Geology—BS, Southern Illinois University; MS, PhD, Colorado State University

Buckingham, Polly—2001, Senior Lecturer in English—BA, Eckerd College; MFA, Eastern Washington University

Bunting, David C.—1971, Professor of Economics—BS, MA, Ohio State University; MS, University of Wisconsin; PhD, University of Oregon

Burgis, Nicholas E.—2007, Associate Professor of Chemistry/Biochemistry—BS, Wayne State University; Ph.D., State University of New York, Albany
Burwash, Susan C.—˜2012, Assistant Professor of Occupational Therapy—˜BA, MS, PhD, University of Alberta

Byrnes, Edward C.—˜2003, Associate Professor of Social Work—˜BS, MSW, PhD, University of Utah

C

Cai, Wensheng—˜2013, Lecturer in Management—˜MBA, Gonzaga University

Canada, Daniel L.—˜2003, Professor of Mathematics—˜BS, Biola University; MS, Western Washington University; PhD, Portland State University

Capaul, Thomas B.—˜2000, Senior Lecturer in Computer Science—˜BA, MS, Eastern Washington University

Cardenas, Norma—˜2014, Associate Professor of Chicano Education—˜MA, University of Texas, San Antonio; PhD, University of Texas, San Antonio

Carnegie, Teena A. M.—˜2003, Professor of English—˜BA, University of British Columbia; MA, PhD, University of Waterloo

Case, Judd A.—˜2006, Dean, College of Science, Technology, Engineering Mathematics and Professor of Biology—˜BS, MS, Humboldt State University; PhD, University of California, Riverside

Castillo, Andrea R.—˜2008, Assistant Professor of Biology—˜BS, Albertson College of Idaho; PhD, University of Colorado

Castillo-Garsow, Carlos—˜2013, Assistant Professor of Mathematics—˜BS, Cornell University; MA, State University New York, Buffalo; PhD, Arizona State University

Cebula, Larry—˜2008, Associate Professor of History—˜BA, University of Chicago; MA, Eastern Washington University; PhD, College of William and Mary

Chaffin, Jamie L.—˜2012, Lecturer in Psychology—˜BA, University of Montana; MEd, EdD, University of Idaho

Chantrill, Patricia—˜1999, Associate Professor of Communication Studies—˜BA, MA, Idaho State University; PhD, Washington State University

Chase, Matthew R.—˜2000, Professor of Physical Education, Health and Recreation—˜BS, Oregon State University; MS, University of Oregon; PhD, Gonzaga University

Chatellier, Megan S.—˜2011, Lecturer in Physical Therapy—˜BA, Pacific Lutheran University; DPT, Eastern Washington University

Chay, Stacey L.—˜2014, Lecturer in Social Work—˜BA, Eastern Washington University; BS, Montana State University; MSW, Eastern Washington University

Chen, Chu—˜2014, Assistant Professor of Accounting Information Systems—˜MS, University of Florida; PhD, University of Texas, El Paso

Cindric, Christopher P.—˜2006, Senior Lecturer in Physical Education, Health and Recreation—˜BA, Radford University; MA, University of Colorado, Denver

Cleanthous, Charalambos C.—˜2007, Associate Professor of Counseling, Educational and Developmental Psychology—˜BA, Sterling College; MS, Fort Hays State University; PhD, University of Kansas

Cleary, Kimberly K.—˜2006, Professor of Physical Therapy—˜BA, University of California, Santa Barbara; MPT, Chapman University; PhD, Idaho State University

Cleveland, Lesli H.—˜2007, Assistant Professor of Communication Disorders—˜BA, Emory University; MA, PhD, Louisiana State University

Cleveland, Lisa F.—˜2012, Assistant Professor of Psychology—˜BA, Carroll College; MED, University of Southern Mississippi

Clute, MaryAnn—˜2000, Associate Professor of Social Work—˜BA, Washington State University; BA, MSW, Eastern Washington University; PhD, Case Western Reserve University

Coelho, Alan J.—˜1992, Professor of Physical Education, Health and Recreation—˜BA, MA, California State University, Fresno; EdD, University of Northern Colorado

Collins, John—˜2013, Lecturer in History—˜BA, Northwestern University; MA, University of Cambridge; PhD, University of Virginia

Conlin, Michael F.—˜2000, Associate Professor of History—˜BA, Miami University; MA, PhD, University of Illinois, Urbana, Champaign

Connole, Heidi L.—˜2014, Assistant Professor of Management—˜BA, University of Montana; BS, University of Montana; MBA, University of Montana; PhD, Washington State University

Coomes, Jacqueline R.—˜2005, Associate Professor of Mathematics—˜BS, University of California, Davis; MS, Eastern Washington University; PhD, Washington State University

Coney, Vance—˜1999, Associate Professor of Management Information Systems—˜BA, Eastern Washington University; PhD, University of Arizona

Corkill, Jeffrey A.—˜1981, Professor of Chemistry/Biochemistry—˜BA, MA, University of Cambridge, Churchill College; MS, University of Washington; PhD, Exeter University

Couraud, Thomas K.—˜2005, Senior Lecturer in Engineering and Design—˜BA, MS, Eastern Washington University

Coy, Jimmie L.—˜2000, Senior Lecturer in English—˜BAE, MA, Eastern Washington University

Creasman, Grace—˜2010, Senior Lecturer in Social Work—˜BA, MEd, MSW, Eastern Washington University

Crofoot, Thomas L.—˜2004, Associate Professor of Social Work—˜BA, The Evergreen State College; MSW, Portland State University; PhD, University of Washington

Cullen, Kelley L.—˜2007, Assistant Professor of Economics—˜BS, MS, MA, Eastern Michigan University; PhD, Washington State University

Culver, Jeffrey N.—˜2009, Lecturer in AIS Business Analytics s—˜BA, MBA, Eastern Washington University
Cutler, Cynthia M.—˜1981, Professor of PR06—˜BS, Eastern Washington University; MS, University of Washington; PhD, Gonzaga University

Daberkow, David P.—˜2010, Assistant Professor in Biology—˜BS, Southeastern Louisiana University; MS, Utah State University; PhD, University of Utah

Dalley, Mahlon—˜1996, Professor of Psychology Emeritus 2015

Das, Arindam K.—˜2012, Lecturer in Engineering and Design—˜MS, PhD, University of Washington

Davis, Larry—˜2010, Lecturer of Management—˜BA, University of Texas at Austin; MEd, University of Texas at Austin

Davis, Shanna—˜2013, Assistant Professor of Psychology—˜PhD, University of Oregon

Dean, Robert D.—˜2001, Associate Professor of History—˜BA, University of Colorado; MA, PhD, University of Arizona

Decker, Kevin S.—˜2005, Associate Professor of PHIL—˜BA, McKendree College; MA, University of Missouri, St. Louis; PhD, St. Louis University

Dempsey, Raymond—˜2013, Lecturer in Mathematics—˜BS, MS, University of Wisconsin, Green Bay

DiMarco, Arthur C.—˜2002, Director, RIDE Program, Professor of Dental Hygiene—˜BS, Dickinson College; D.M.D., Medical University of South Carolina

Djatej, Arsen—˜2010, Associate Professor of Accounting—˜BA, Moscow State University of International Relations; MA, Moscow State University of International Relations; MS, Boise State University; MBA, Boise State University; PhD, Ohio University

Dohm, Gregg R.—˜2011, Lecturer—˜BA, University of Puget Sound; MURP, Portland State University

Dong, Lei—˜2014, Assistant Professor of Accounting and Information Systems—˜MS, Washington State University; PhD, Washington State University

Donnerberg, Jeffrey L.—˜1990, Associate Professor of Engineering and Design—˜BS, Bowling Green State University; MA, EdD., University of Minnesota

Dorwin, John T.—˜2003, Senior Lecturer in Anthropology—˜A.B., MA, PhD, Indiana University

Dowd, Diane S.—˜1995, Professor of Mathematics—˜BA, Asbury College; MA, California State University; PhD, Washington State University

Duchateau, Martine—˜2012, Dean, College of Business and Public Information and Executive Dean—˜EWU Spokane, B.S., M.S., Brussels University; Ph.D., Stanford University

DuMontier, Greg J.—˜2006, Associate Professor of Art—˜BA, Milwaukee Institute of Art and Design; MA, Alfred University

Durfee, Jason K.—˜2004, Associate Professor of Engineering and Design—˜BS, MS, Brigham Young University

Dvorak, Anna—˜2013, Assistant Professor of Geography—˜BA, University of California, Berkeley; MA, California State University, Northridge; PhD, University of California, Los Angeles

Eager, Wendy M.—˜1998, Senior Lecturer in Management—˜BA, State University of Potsdam; MS, State University of New York, Binghamton; PhD, Pennsylvania State University

Eagle, David M.—˜1989, Associate Professor of Finance—˜BA, University of Montana; MA, PhD, University of Minnesota

Edquist, Kristin—˜2003, Associate Professor of Political Science International Studies—˜BA, University of Puget Sound; MA, PhD, University of Washington

Ekundayo, Olugbemiga—˜2014, Associate Professor of Public Health—˜MBBS, University of Ibadan College of Medicine; MD, United States Educational Commission for Foreign Medical Graduates; MPH, DPH, Morgan State University

El-Alayl, I. Amani—˜2003, Professor of Psychology—˜BA, University of Michigan; MA, PhD, Michigan State University

Elder, Dana C.—˜1983, Director, University Honors Program and Professor of English—˜BA, MA, University of Washington; PhD, Washington State University.

Elias, M. Veronica—˜2011, Assistant Professor of Public Administration—˜BS, Universidad Nacional del Sur; MA, PhD., University of Akron

Ellsworth, Jane E.—˜2006, Associate Professor of Music—˜BM, MM, Cleveland Institute of Music; DMA, PhD, The Ohio State University

Evans, Jennifer—˜2014, Lecturer in Dental Hygiene—˜BA, Idaho State University

Facio, Elisa—˜2014, Director of Chicano Education Program and Professor of Chicano Education Studies—˜BA, Santa Clara University; MA, University of California, Berkeley; PhD, University of California, Berkeley

Fan, Xiaohong—˜2011, Assistant Professor of Accounting—˜Bachelor’s of Management, Zhejiang Gonshang University; Masters in Management, Changchun Taxation Institute; PhD, University of Texas, Arlington

Feeney, Kendall—˜1995, Senior Lecturer in Music—˜BM, MM, University of Southern California

Fillmore, Bradley J.—˜2008, Lecturer in Biology—˜BS, Brigham Young University; MS, Idaho State University

Finnie, Scott M.—˜2002, Professor of Africana Education Program—˜MA, Eastern Washington University; BA, PhD, Gonzaga University

Fletcher, Taryn—˜2013, Lecturer in AIS Business Analytics—˜BAE, Teaching Certification, Eastern Washington University

Flinn, Anthony M.—˜1991, Professor of English—˜BA, Grinnell College; MA, PhD, University of Washington
Folsom, Michael M.—1970, Professor of Geography—BS, Portland State University; MA, PhD, Michigan State University

Frenk, Anthony—2013, Lecturer in Mathematics—BA, MS, Eastern Washington University

Friel, Stephan R.—2014, Lecturer in Music—BA, University of Central Oklahoma; MA, University of Central Oklahoma

Fuller, Donald R.—2004, Professor of Communication Disorders—BSE., MSP., Arkansas State University; PhD, Purdue University

Gallimore, Courtney L.—2005, Senior Lecturer in Economics—BA, Florida International University; MS, University of Illinois, Urbana, Champaign; PhD, Iowa State University

Gambill, Jack H.—2008, Lecturer in Accounting—BA, MBA

Garraway, W. Dale—2003, Associate Professor of Mathematics—BS, Simon Fraser University; MS, PhD, Dalhousie University

Gary, Clive—2014, Lecturer in Education—BA, Southern Utah University; MED, University of Nevada, Reno

Gentle, Ronald S.—1990, Professor of Mathematics—BS, University of Toronto; MS, PhD, University of British Columbia

Gerbe, John "Parry"—2015, Assistant Professor of Physical Education, Health Recreation—BS, Brigham Young University; MS, Baylor University; DSc, Baylor University; PhD, University of Utah

Gerlick, Robert E.—2013, Assistant Professor of Engineering and Design—BS, University of Louisiana, Lafayette; MS, Oklahoma State University; PhD, Washington State University

Hajimorad, Meghdad—2013, Assistant Professor of Engineering and Design—BS, State University of New York at Buffalo; MMS, Emory University; PhD, Gonzaga University

Goering, David K.—1990, Senior Lecturer in Mathematics—BA, University of Kansas; MS, Eastern Washington University

Goff, Sara E.—2007, Associate Professor of Theatre—BS, Central Washington University; MFA, Western Illinois University

Gomez Giraldo, N. Julian—2008, Assistant Professor of Music—BA, Universidad Pedagogica Nacional; MMus, Texas Christian University; DM, University of Northern Colorado

Goodwin, Donald F.—2009, Lecturer in Music—BA, MS, Eastern Washington University

Gort, M. David—1999, Senior Lecturer in Accounting—BA, Western Washington University; MBA, Eastern Washington University

Graham, Melissa E.—2004, Senior Lecturer in Mathematics—BA, MS, Eastern Washington University

Graham, Michael C.—2000, Senior Lecturer in Mathematics—BA, MS, Eastern Washington University

Grandos, Patricia L.—2013, Lecturer in the English Language Institute—BA, Indiana University, Bloomington; MA, Eastern Washington University

Graves, Jody C.—2003, Associate Professor of Music/Piano—BM, Eastern Washington University; MM, Catholic University of America; D.M., Eastman School of Music

Greene, Logan D.—2004, Associate Professor of English—BA, University of California, Berkeley; MA, University of Oregon; PhD, University of New Mexico

Greene, Nathaniel D.—2013, Lecturer in Economics—BA, Talladega College; MA, St. Mary's University

Greene, Roberta J.—2012, Lecturer in Economics—BA, Talladega College; MS, Trinity University; JD, Gonzaga University

Grinner, Brian E.—1992, Professor of Finance—BA, Big Sky Bible College; MA, MBA, Fort Hays State University; PhD, Washington State University

Guilyas, Kristina E.—2012, Lecturer in English Language Institute—BA, MA, Eastern Washington University

Guillory, Raphael M.—2002, Professor of Counseling, Educational and Developmental Psychology—BA, Eastern Washington University; MEd, PhD, Washington State University

Hajimorad, Meghdad—2013, Assistant Professor of Engineering and Design—BS, Iowa State University; MS, PhD, University of California, Berkeley

Halaas, Beth—2015, Assistant Professor of Social Work—BS, Boise State University; MS, University of California, Los Angeles; EdD, California State University, Northridge

Hammermeister, Jon J.—1999, Professor of Physical Education, Health and Recreation—BA, University of California, San Diego; MS, PhD, University of Idaho

Hansen, Christian K.—1993, Associate Dean, College of Science, Technology, Engineering Mathematics and Professor of Mathematics—MS, PhD, The Technical University of Denmark

Hasan, Syed M. Jameel—1969, Professor of Management—BCommerce, MCommerce, University of Karachi; MBA, University of Southern California

Haskins, Tara L.—2002, Assistant Professor in Education—BA, Northwestern College; MEd, Eastern Washington University; PhD, Washington State University
Hathaway, Nancy—”2001, Associate Professor of Art—”BA, Eastern Washington University; MFA, University of Idaho

Hawley, Thomas M.—”2003, Associate Professor of Political Science International Studies—”BA, Whitman College; MA, PhD, University of Hawaii, Manoa

Haworth, Karen—”2013, Lecturer in the English Language Institute—”BA, Whitworth University

Hazelbaker, Chadron B.—”2006, Assistant Professor of Physical Education, Health and Recreation—”BA, Whitworth College; MA, Idaho State University; PhD, Gonzaga University

Headley, James E.—”1999, Professor of Political Science International Studies—”BA, University of Washington; J.D., Gonzaga University School of Law

Heady, Margaret L.—”1999, Associate Professor of French—”BA, MA, University of Colorado, Boulder; PhD, University of Massachusetts, Amherst

Hechtman, Todd A.—”1999, Associate Professor of Sociology—”BA, Northwestern University; MA, PhD, University of California, Santa Barbara

Henderson, Reagan E.—”2009, Lecturer in English—”BA, University of Washington; MA, Humboldt State University

Herr, Charles M.—”1994, Associate Professor of Biology—”BS, University of Wyoming; PhD, Washington State University

Heyen, Neil—”1995, Senior Lecturer in English as a Second Language—”BA, Shimer College; MA, University of Illinois

Hill, Margo L.—”2012, Lecturer in Urban and Regional Planning—”BA, University of Washington; JD, Gonzaga University

Hilton, Timothy—”2013, Associate Professor of Social Work—”BA, Boston College; MA, PhD, University of Chicago

Hodgman, Laura L.—”1993, Professor of History—”BA, University of Wisconsin, Milwaukee; MA, PhD, University of Illinois, Urbana

Hodgson, Matthew J.—”2012, Lecturer in English—”MA, Portland State University

Holmgren, Mark—”2010, Assistant Professor of Economics—”BS, Utah State University; MS, Utah State University; PhD, Washington State University

Hope, Keely J.—”2011, Assistant Professor of Counseling, Educational Developmental Psychology—”BS, Louisiana State University; MS, Mississippi State University; PhD, University of Florida

Hossain, N. M. Awlad—”2008, Associate Professor of Engineering and Design—”BS, Bangladesh University of Engineering and Technology; MS, PhD, South Dakota School of Mines and Technology

Houghton, Frank—”2014, Associate Professor of Public Health—”BA, MA, University of Ulster; MS, Queen’s University of Belfast; PhD, National University of Ireland

Houndonougbo, Yao A.—”2008, Assistant Professor of Chemistry and Biochemistry—”BS, MS, University of Abidjan; PhD, University of Kansas, Lawrence

Houser, Brian D.—”1990, Professor of Physics—”BS, University of Michigan; MS, PhD, University of Washington

Howell, Christopher—”1996, Professor of English/Creative Writing—”BS, Oregon State University; MA, Portland State University; MFA, University of Massachusetts

Inoue, Atsushi—”2002, Professor of Management Information Systems—”BS, MS, Eastern Washington University; PhD, University of Cincinnati

Islam-Zwart, Kayleen A.—”2001, Professor of Psychology—”BS, Minnesota State University, Mankato; MS, PhD, Idaho State University

Izon, German M.—”2010, Assistant Professor of Economics—”BA, MA, PhD, University of New Mexico

Jackson, Nick—”1996, Professor of Counseling, Educational and Developmental Psychology—”BA, MA, PhD, University of Kansas

Jackson, Roberta A.—”1999, Senior Lecturer in Communication Disorders—”BA, MA, University of California, Santa Barbara

Jackson, Sarah C.—”2007, Assistant Professor in Dental Hygiene—”BS, Eastern Washington University; MS, Idaho State University

Jenkins, Janelle E.—”2012, Lecturer in Chemistry—”BS, Whitworth College; MS, PhD, Arizona State University

Jensen, Courtney—”2014, Assistant Professor of Public Administration—”BA, University of Washington; MPA, Eastern Washington University; PhD, University of Nebraska, Omaha

Johnson, Jonathan L.—”1999, Professor of English/Creative Writing—”BS, MA, Northern Michigan University; PhD, Western Michigan University

Johnson, Shawnti—”2015, Lecturer in Social Work—”BA, Southern Oregon University; MA, University of Washington

Jones, Merri L.—”2013, Assistant Professor of Dental Hygiene—”BS, University of Washington; MS, Idaho State University

Jorgensen, Donald J.—”2013, Lecturer in Engineering and Design—”BA, Eastern Washington University; MFA, Full Sail University

Joslyn, Shana—”2010, Lecturer in Theatre—”BA, MFA, Western Illinois University
Jostad, Jeremy—2015, Assistant Professor of Physical Education, Health Recreation—BA, California State University, Chico; MA, California State University, Chico; PhD, University of Utah

K

Kamp, Brian A.—2002, Lecturer in Computer Science—BA, MS, Eastern Washington University

Karier, Thomas M.—1981, Member of the Northwest Power and Conservation Council and Professor of Economics—BS, University of Illinois, Urbana, Champaign; MA, PhD, University of California, Berkeley

Keatch, Sharen K.—2008, Lecturer in Geology—BS, Leicester University; MS, Kent State University

Kebede, Kassahun—2015, Assistant Professor of Anthropology—BA, Addis Ababa University; MA, Addis Ababa University; PhD, Syracuse University

Keller, Sarah A. C.—1966, Professor of Anthropology—BA, Lawrence College; PhD, Harvard University

Kellogg, Jenny—2013, Assistant Professor of Music—BM, University of Idaho; MM, University of North Texas

Kenney, Garrett C.—2008, Associate Professor of English/Religious Studies—BA, Whitworth College; B.D., Spokane Bible College; MA, PhD, Gonzaga University

Keogh Hoss, MaryAnn—2002, Professor of PR13—BA, Creighton University; MS, Eastern Washington University; PhD, Gonzaga University

Kerbs, Jodi L.—2009, Lecturer in Social Work—BA, University of Nevada, Reno; MSW, PhD Portland State University

Kiefer, Dean B. Jr.—2001, Associate Professor of Finance—BE, Stevens Institute of Technology; MA, University of Toledo; MBA, University of Akron; PhD, University of New Orleans; C.F.A.

Kieffer, Linda M.—1989, Vice Provost for Academic Administration and Professor of Computer Science—BA, MS, Eastern Washington University; PhD, University of Idaho

Kirby, Christophe C.—2008, Associate Professor of PHIL—MA, University of South Florida; BA, PhD, University of North Florida

Kissling, Elizabeth A.—1993, Professor of Communication Studies—AB, AM, PhD, University of Illinois, Urbana

Klyukanov, Igor E.—1999, Professor of Communication Studies—BA, MA, Tver State University, Russia; PhD, Saratov State University, Russia

Kobayashi, Rie—2010, Assistant Professor in Social Work—BA, MSW, PhD, Michigan State University

Koh, Min Sung—2002, Professor of Engineering and Design—BE, MS, Ulsan University, Ulsan, South Korea; PhD, Washington State University

Kolts, Russell L.—1999, Professor of Psychology—BS, Oklahoma State University; MA, PhD, University of Mississippi

Krause, Rose—2014, Assistant Professor of Library Administration—BA, Whitworth University; MA, Eastern Washington University; MLS, University of Washington

Kreider, Carri—2008, Assistant Professor of Physical Education, Health and Recreation—BEd, Gonzaga University; MA, Emporia State University

Krueger, Robert B.—2013, Assistant Professor of Occupational Therapy—BA, Oregon State University; BS, California State University, Sacramento; DOT, Rocky Mountain University of Health Professions

Krug, Gary J.—2002, Professor of Communication Studies—BA, University of Southern Mississippi; MA, PhD, University of Illinois, Urbana, Champaign

Kuo, Chin—2014, Lecturer in Accounting and Information Systems—BA, Fu Jen Catholic University; MA, Arizona State University; PhD, Arizona State University

Kusz, Natalie—2001, Associate Professor of English/Creative Writing—BA, MFA, University of Alaska, Fairbanks

L

Lake, Hayley N.—2008, Senior Lecturer in Alcohol and Drug Studies—BS, MS, Eastern Washington University

Lam, Pui-Yan—2001, Professor of Sociology—BA, San Jose State University; MA, PhD, Washington State University

Lamm, Ashley—2014, Assistant Professor of Chemistry and Biochemistry—BA, Idaho State University; MS, PhD, University of Oregon

LaPier, Tanya L. Kinney—2003, Professor of Physical Therapy and Distinguished Professor of Physical Therapy—BA, Whitworth College; MS, State University of New York, Buffalo; PhD, Idaho State University

Larsen, Kyle F.—2013, Lecturer in Engineering and Design—BS, MS, California State University, Sacramento; PhD, Brigham Young University

Larsen, Nicholas W.—2013, Assistant Professor of Economics—BA, MA, PhD, University of Illinois, Chicago

Lattimore, Sheryl—2001, Senior Lecturer in English as a Second Language—BA, Gonzaga University; MA, Eastern Washington University

Lawton, Lawrence—2015, Lecturer in Dental Hygiene—BS, Gonzaga University; DDS, University of Washington; MS, University of Washington

LeBar, Ann—1991, Associate Professor of History—BA, University of Montana; MA, PhD, University of Washington

Lee, Hyung Sook—2008, Assistant Professor of Mathematics—BS, Seoul National University; MS, Korea Advanced Institute of Science and Technology, PhD, University of Georgia

Lemelin, Robert J. Jr.—1999, Senior Lecturer in Computer Science—BAE, Med, Eastern Washington University

Lenti, Joseph U.—2010, Assistant Professor of History—BS, Northeastern University; MA, PhD, University of New Mexico
Leonard, Bethany A.–—2002, Senior Lecturer in Counseling, Educational and Developmental Psychology—BA, Whitworth College; MEd, Eastern Washington University

Li, Dan—2011, Assistant Professor of Computer Science—ME, Shenyang Institute of Technology; PhD, University of Nebraska, Lincoln

Li, Ning—2013, Associate Professor of Public Administration—BS, Peking University; PhD, George Mason University

Ligon, Samuel W.—2004, Associate Professor of English/Creative Writing—BA, University of Illinois, Urbana, Champaign; MA, University of New Hampshire; MFA, New School University, New York

Limpaphayom, Wanthanee—2005, Associate Professor of Management—BA, Chulalongkorn University, Bangkok, Thailand; MBA, University of Wisconsin, Whitewater; PhD, University of Mississippi

Lindekugel, Dale M.—1987, Professor of Sociology—BSED, Minot State College; MA, University of North Dakota; PhD, University of Montana

Lindholdt, Paul—1994, Professor of English—BA, MA, Western Washington University; PhD, Pennsylvania State University

Liu, Jing-Qiu—1998, Professor of Education—BA, MA, Western Washington University; PhD, Iowa State University

Liu, Yanxin—2014, Assistant Professor of Management—BA, Liaoning Normal University; MA, University of International Business and Economics; PhD, University of Wisconsin

Logan, Judy K.—1996, Associate Professor of English—BA, Whitworth College; MA, Eastern Washington University; PhD, University of North Carolina, Chapel Hill

Loke, Vernon—2009, Assistant Professor in Social Work—B SocSci, MSocSci, National University of Singapore; PhD, Washington University in St Louis

Lorie, Speer—2015, Assistant Professor in Dental Hygiene—BA, Eastern Washington University

Love, Daniel E.—2004, Senior Lecturer in Chemistry/Biochemistry—BS, Grove City College; PhD, University of Pittsburgh

Lynch, Frank H.—2013, Assistant Professor of Mathematics—BA, Linfield College; MS, PhD, University of Utah

Lynn, Kelly A.—2011, Lecturer in Mathematics—BA, MS, Eastern Washington University

Mackelprang, Romel W.—1987, Professor of Social Work—BS, MSW, D.S.W., University of Utah

MacMullan, Terrance—2002, Professor of PHI—BA, Hamilton College; MA, PhD, University of Oregon

Magori, Krisztian—2014, Assistant Professor of Biology—MSc, PhD, Eotvos University

Manikoth, Poukong C.—2011, Lecturer in Engineering and Design—BA, University of Washington; MS, Ecole Superieure de Commerce de Lille, France

Mann, Donna P.—2009, Assistant Professor in Physical Therapy—BS, Loma Linda University

Manson, Jamie L.—2003, Professor of Chemistry/Biochemistry—BS, Eastern Washington University; PhD, University of Utah

Marchand-Martella, Nancy E.—1995, Professor of Counseling, Educational and Developmental Psychology—BA, Purdue University; MS, Southern Illinois University; PhD, Utah State University

Marinucci, Mary Ellen—2000, Professor of Women’s and Gender Studies and PHI—BA, University of Delaware; PhD, Temple University

Marshall, John—1994, Professor of Music—BM, Indiana University; MM, Yale University; DM, Northwestern University

Martella, Ronald C.—1995, Professor of Counseling, Educational and Developmental Psychology—BA, Fort Lewis College; MS, Southern Illinois University; MBA, PhD, Utah State University

Martin, Theresa J.—1991, Professor of Psychology—BS, MS, PhD, Iowa State University

Martin, William—2014, Assistant Professor of Management—BS, MBA, University of Southern Mississippi; PhD, Mississippi State University

Martinez, Nydia—2015, Assistant Professor of History and Chicano Education—BA, University of Texas, San Antonio; MA, University of Texas, San Antonio; PhD, The University of New Mexico

Masiello, Anthony—2013, Assistant Professor of Chemistry—Eastern Washington University; MS, PhD, Oregon State University

Masingale, Travis L.—2012, Assistant Professor of Engineering and Design—MFA, Maryland Institute College of Art

Mathers, Scott A.—2013, Assistant Professor of Sociology—BA, Coe College; MA, Western Illinois University

Matos, Joanna J.—2008, Assistant Professor of Biology—BS, University of Utah; MS, Washington State University; PhD, University of Florida

Matos, Luis F.—2014, Lecturer in Biology—BS, California State University; MS, Washington State University; PhD, University of Florida

May, David A.—1999, Professor of Political Science International Studies—BA, Whitman College; MA, PhD, Washington State University

McCollum, Linda B.—1983, Professor of Geology—BS, MS, University of California, Davis; PhD, State University of New York, Binghamton

McHenry, Tracey A.—2000, Associate Professor of English—BA, University of Portland; MA, PhD, Purdue University

McKean, Heather R.—1988, Senior Associate in Biology—BS, BAE, MS, Eastern Washington University

McNeal, Jeni R.—2000, Professor of Physical Education, Health and Recreation—BS, Eastern Washington University; MS, PhD, University of Utah

McNeely, Camille C.—2006, Associate Professor of Biology—BS, University of Texas, Austin; PhD, University of California, Berkeley
McRae, Robin P. — 1992, Professor of Chemistry/Biochemistry — “BS, University of Puget Sound; PhD, University of California, Berkeley

Meade, Qing H. — 2014, Assistant Professor of Library Administration — “BA, Beijing Foreign Studies University; MS, University of Illinois, Urbana; MA, University of Arizona

Megaard, Susan L. — 1984, Professor of Accounting — “BA, College of the Pacific; J.D., University of Washington; L.L.M., Georgetown University Law Center

Megow, Jacqueline N. — 2011, Lecturer in English — “BA, University of Washington; MA, Central Washington University

Mehlert, Virginia L. — 2004, Senior Lecturer in Counseling, Educational and Developmental Psychology — “BS, MS, Eastern Washington University

Messina, Emily S. — 2011, Assistant Professor of PEHR — “BS, MS, University of Florida; PhD. Temple University

Metzler, Allison R. — 2012, Lecturer in Alcohol and Drug Studies — “BA, University of Chicago; MSW, Eastern Washington University; MBA, Gonzaga University

Meyer, Rebecca S. — 2013, Lecturer in Mathematics — “BS, Whitworth University; MS, Eastern Washington University

Michaelis, Matthew — 2014, Assistant Professor of Mechanical Engineering — “BS, Walla Walla University; MS, PhD, University of California, Irvine

Middleton, Jonathan N. — 1999, Professor of Music — “BA, Hampshire College; MA, University of California, Santa Barbara; D.MA, Columbia University

Miller, Barbara S. — 1972, Professor of Art — “A.B., MA, PhD, University of Missouri

Miller, Ielleen R. — 2006, Associate Professor in Libraries — “BA, University of Washington; MLS, Rutgers University

Millsaps, Gayle M. — 2013, Assistant Professor of Mathematics — “BA, University of Tennessee; MA, PhD, Ohio State University

Milton, Suzanne — 1992, Professor and Dean of Libraries — “BA, California State University, Long Beach; M.L.S., North Texas State University

Miranda, Elisha — 2014, Assistant Professor of Theatre and Film — “BA, University of California at Berkeley; MCP, Massachusetts Institute of Technology; MFA, Columbia University

Montecalvo, Lucy — 2014, Assistant Professor of Education — “BA, Eastern Washington University; MEd, Lesley University

Moore, Marion E. — 1998, Associate Professor of Counseling, Educational and Developmental Psychology — “BA, Scripps College; MEd, PhD, Utah State University

Morgan, Debra D. — 2000, Senior Lecturer in Management Information Systems — “BAE, MEd, Eastern Washington University

Morley, Laureen V. — 2000, Professor of Physical Education, Health and Recreation — “BS, California State University, Sacramento; MS, Washington State University; EdD, University of Northern California

Mortier, Steven G. — 2009, Lecturer in Music

Mortz, Margaret S. — 2013, Lecturer in Engineering and Design — “BA, MS, San Diego State University; PhD, University of California, Los Angeles

Mount, Sarah — 2014, Assistant Professor of Community Health — “BS, Castleton State College; MS, Cal Poly State University; EdD, University of Texas

Mullins, Christopher L. — 2013, Lecturer in Mathematics — “BS, Gonzaga University; MS, Eastern Washington University

Mulaney, Megan N. — 1985, Senior Lecturer in English as a Second Language — “BAE, MEd, Eastern Washington University

Munson, Doris — 2003, Professor, Systems/Reference Librarian — “BS, Oregon State University; MLS, University of Washington

Munson, Dorothy E. — 2007, Assistant Professor of Counseling, Educational and Developmental Psychology — “BS, Virginia Polytechnic Institute and State University; MA, Ball State University; PhD, University of Nebraska, Lincoln

Mutschler, Charles V. — 2001, Professor, University Archivist — “BA, MA, Eastern Washington University; MA, Western Washington University; PhD, Washington State University

Nappa, Elisa E. — 1999, Professor of Art — “BFA, New York College of Ceramics, Alfred University; MFA, Louisiana State University

Neely, Jamie T. — 2007, Associate Professor of Journalism — “BA, University of Wyoming; MA, Gonzaga University; MFA, Eastern Washington University

Neils, Yaro Shon — 2015, Lecturer in Art — “MFA, University of Montana

Nelson, Patricia R. — 2008, Assistant Professor of Physical Therapy — “BS, University of Minnesota; BS, University of Minnesota, Program in Physical Therapy; ScD, Texas Tech University Health Science Center

Nemetz-Mills, Patricia L. — 1989, Professor of Management — “BS, Pennsylvania State University; MBA, Gonzaga University; PhD, University of Washington

Nezat, Carmen A. — 2007, Associate Professor of Geology — “BS, University of Southwestern Louisiana; MS, University of Alabama, PhD, University of Michigan

Nicholas, Doreen A. — 2006, Senior Lecturer in Communication Disorders — “BA, University of Montana; MS, University of Texas, Dallas

Nievergelt, Yves — 1985, Professor of Mathematics — “Mathematics Diploma, Federal Institute of Technology; MA, MS, PhD, University of Washington

Noble, Karen L. — 1973, Professor of Music — “BA, San Diego State University; MM, D.MA, University of Washington; J.D., Gonzaga University

Oster, Andrew M.—˜2013, Assistant Professor of Mathematics—˜BS, California Polytechnic State University; MS, PhD, University of Utah

Ottmar, CPT Wyatt C.—˜2014, Assistant Professor of Military Science—˜BA, Central Washington University

Otto, Justin L.—˜2007, Associate Professor in Libraries—˜BA, MA, Washington State University; MLS, University of Washington

O’Connell, Margaret A.—˜1991, Professor of Biology—˜BA, Prescott College; MS, PhD, Texas Tech University

O’Quinn, Robin L.—˜2007, Assistant Professor of Biology—˜BS, University of California, Davis; PhD, Washington State University

Palmer, Richard J.—˜2012, Lecturer in Physical Therapy—˜BS, University of Northern Colorado; DPT, Slippery Rock University of Pennsylvania

Pape, LTC Jason M.—˜2011, Professor of Military Science—˜BS, Michigan State University; MA, Columbia University; MS USA CGSC

Parise, Lisa C.—˜2006, Senior Lecturer in Social Work—˜BA, Western Washington University; MSW, University of Washington

Pascal, Vincent J.—˜2001, Professor of Marketing—˜BS, United States Military Academy; MBA, Gonzaga University; PhD, Washington State University

Patterson, Jodi—˜2013, Assistant Professor of Art—˜BS, MA, Central Michigan University; MFA, Goddard College

Pereygo, Barbara M.—˜2001, Senior Lecturer in Communication Disorders—˜BA, Eastern Washington University; MA, Western Washington University; AuD, Arizona School of Health Sciences

Peters, Chris F.—˜2007, Senior Lecturer in Computer Science—˜BS, MS, Eastern Washington University

Petrie, Gina M.—˜2005, Associate Professor of English as a Second Language—˜BA, Valparaiso University; MA Indiana University; PhD, Washington State University

Phelgye, Thupten—˜2013, Lecturer in Psychology

Phillips, Elizabeth A.—˜2013, Lecturer in Education—˜BA, Eastern Washington University

Pickering, Pickering—˜2014, Visiting Associate Professor—˜BS, University of Oregon; MS, University of Oregon; PhD, University of Idaho

Pimentel, Jane T.—˜1998, Associate Professor of Communication Disorders—˜BS, MS, Idaho State University; PhD, University of Washington

Pirch, Kevin A.—˜2007, Associate Professor of Political Science International Studies—˜BS, University of Colorado, Boulder; MS, PhD, University of Oregon

Plamondon, Andrew A.—˜2001, Senior Lecturer in Music—˜BM, Boise State University

Ploeger, Kristina M.—˜2006, Associate Professor of Music—˜BM, Central Washington University; MA, Eastern Washington University

Porter, Peter S.—˜2004, Associate Professor of Electronic Media and Film—˜BA, Grand Valley State University; MA, Indiana State University; PhD, Wayne State University

Potter, Jonathan D.—˜2003, Associate Professor in Libraries—˜BA, Whitman College; MA, M.L., University of Washington

Potter, Lance—˜2014, Assistant Professor of Educational Leadership and Foundations—˜BA, Lewis and Clark College; JD, Portland State University; PhD, Penn State University

Potter, Robert L.—˜2014, Assistant Professor of Education—˜BA, Lewis and Clark College; PhD, Pennsylvania State University; JD, Georgetown University

Preisig, Florian—˜2003, Associate Professor of French—˜BA, University of Geneva; PhD, Johns Hopkins University

Pritchard, Chad J.—˜2011, Assistant Professor Geology—˜BS, Portland State University; MS, Humboldt State University; PhD, Washington State University

Quinn, Robert R.—˜1967, Professor of Geography—˜BS, MS, PhD, Oregon State University

Rahn, Jeffrey A.—˜1990, Professor of Chemistry/Biochemistry—˜BS, Whitworth College; PhD, University of Nevada, Reno
Rao, Seshu R.--~’2014, Lecturer in Mathematics--~’BS, Washington State University; MS, North Carolina State University
Raske, Martha P.--~’2011, Professor of Social Work--~’BA, MacMurray College; MS, Illinois Institute of Technology; Master of Social Work, PhD, University of Illinois.
Raymond, Kenneth W.--~’1982, Professor of Chemistry/Biochemistry--~’BS, Central Washington University; PhD, University of Washington
Reedy, Amanda R.--~’2010, Assistant Professor in Social Work--~’BA, MSW, PhD, University of Iowa
Reeve, LaVona L.--~’1989, Professor of English--~’BA, University of Nebraska; MA, Columbia University; PhD, Indiana University of Pennsylvania
Regalado, Charles L.--~’2011, Lecturer in Dental Hygiene--~’BA, Pacific Lutheran University; DDS, University of Washington
Rehm, Jacob S.--~’2013, Lecturer in Physical Education, Health and Recreation--~’BA, MA, Eastern Washington University
Reepich, Wendy--~’1991, Associate Professor of Physical Education, Health and Recreation--~’BA, University of Puget Sound; MED, University of Cincinnati; PhD, University of Southern California
Richter, Donald--~’1998, Professor of Engineering and Design--~’BS, Ohio State University; MS, PhD, University of Arkansas
Riedel MAJ, Robert H.--~’2009, Lecturer in Military Science--~’BS, James Madison University
Riggs, Kyle W.--~’2014, Lecturer in Mathematics--~’PhD, Indiana University at Bloomington
Robinson, Heather C.--~’2006, Senior Lecturer in Communication Studies--~’BA, MS, Eastern Washington University
Rodriguez-Marek, Esteban--~’2001, Professor of Engineering and Design--~’BS, M.Sc., Washington State University
Rogers, Uri--~’2014, Assistant Professor in Engineering and Design--~’BS, Montana State University; MS, Montana State University; PhD, Boise State University
Rognes, Elizabeth A.--~’2012, Lecturer in English--~’BA, St. Catherine University; MFA, Eastern Washington University
Rojas, Jose--~~’2015, Lecturer in Spanish--~’BA, University Hotel School of Venezuela; BA, Eastern Washington University; MA, Salamanaca University
Rosenzweig, James W.--~’2014, Assistant Professor in Library Administration--~’BA, University of Washington; MLS, University of Washington; MET, Western Washington University
Rowley, Kathy L.--~’2011, Lecturer in English--~’BFA, University of the Pacific; MA, California State University
Ruby, Susan F.--~’2005, Associate Professor of Psychology--~’BS, Texas A M University; MEd, College of William and Mary; PhD, University of California, Riverside
Rudd, Rebecca A.--~’2013, Assistant Professor of Psychology--~’BS, Eastern Washington University; MA, PhD, University of Nevada
Ruiz-Rubio, Natalia--~’2009, Assistant Professor in Modern Languages and Literatures--~’Lic Fiologia Hispanica, Titulación de Posgrado, Universidad de Extremadura, Espana; MA, Michigan State University; PhD, Michigan State University
Ruotsalainen, Robert W.--~’1983, Professor of Physics--~’BS, University of Washington; MS, PhD, University of Hawaii
Russell, Joneel R.--~’2008, Lecturer in Modern Languages and Literatures--~’BA, University of Maryland; MA, Eastern Washington University; MAT, Whitworth University
Russell, Roberta L.--~’2000, Assistant Professor of Occupational Therapy--~’BA, California State University, Fresno; BS, University of Texas Health Science Center; MS, Colorado State University; PhD, Nova Southeastern College
Rutledge, Douglas L.--~’2013, Lecturer in Physics--~’BS, University of Oregon; PhD, Pennsylvania State University
Saad, Hani S.--~’2008, Assistant Professor in Engineering and Design--~’BS, MS, Marquette University; PhD, Washington State University
Sain, Ryan C.--~’2008, Assistant Professor of Counseling, Educational and Developmental Psychology--~’BS, Eastern Washington University; MS, PhD, Washington State University
Salerno, Julia D.--~’2010, Lecturer in Music--~’BM, University of Michigan. MM, DM, University of Southern California
Sanders, Jeffrey A.--~’2009, Lecturer in Electronic Media, Theatre and Film--~’BS, Central Michigan University; MFA, Western Illinois University
Sauders, Robert R.--~’2007, Associate Professor of Anthropology and History--~’BA, Gannon University; MA, George Washington University; PhD, American University
Schimpf, Paul H.--~’2006, Professor of Computer Science--~’BS, MS, PhD, University of Washington
Schultz, Jeremy--~’2013, Assistant Professor of Physical Education, Health and Recreation--~’BS, MS, University of Wisconsin; PhD, University of Utah
Schwab, Suzanne M.--~’1983, Professor of Biology--~’BA, State University of New York, Oswego; MS, Colorado State University, Fort Collins; PhD, University of California, Riverside
Schwendiman, Angela R.--~’2009, Lecturer in Africana Education Program--~’BA, Eastern Washington University; MA, Eastern Washington University
Sedor, Timothy--~’2012, Lecturer in English Language Institute--~’BA, Eastern Washington University; MAT, Washington State University
Seiver, Jillene G.--~’2012, Lecturer in Psychology--~’BA, University of California; MA, California State University; PhD, University of Nevada
Sen, Achin--~’1984, Professor of Physics--~’BS, MS, St. Xavier’s College (Calcutta University); M. Phil., PhD, Columbia University
Shaffer, Shelly—“2015, Assistant Professor of Education—“BA, University of Arizona; MA, University of Phoenix; PhD, Arizona State University

Sharifi, Majid K.—“2008, Assistant Professor of Political Science International Studies—“BA, MA, Florida International University; MA, PhD, University of Florida

Sheffield, Jenny M.—“2012, Lecturer in Social Work—“BSW, Lewis, Clark State College; MSW, Eastern Washington University

Shepard, Charlene R.—“2013, Lecturer in Education—“BA, MS, University of Utah

Shervais, Stephen—“1999, Associate Professor of Management Information Systems—“BA, MA, San Jose State College; MS, University of Denver; PhD, Portland State University

Shields, Peter G.—“2005, Professor of Communication Studies—“BA, MA, PhD, The Ohio State University

Shields, Vickie R.—“2005, Dean, College of Social Behavioral Science and Social Work and Professor of Communication Studies—“BA, Boise State University; MA, PhD, The Ohio State University

Sinekopova, Galina—“2001, Associate Professor of Communication Studies—“Graduate Honors Degree, Kuibyshev State University, Russia; MS, Eastern Washington University; PhD, Odessa State University, Ukraine

Sitzman, Danielle M.—“2013, Assistant Professor of Psychology—“BA, Alfred University; MS, PhD, Colorado State University

Skuza, Nathan S.—“2011, Assistant Professor in Economics—“BA, Central Washington University; MS, PhD, Washington State University

Slack, Edward R. Jr.—“2002, Professor of History—“BA, MA, Pennsylvania State University; PhD, University of Hawaii, Manoa

Slyusareva, Olga V.—“2014, Lecturer in Mathematics—“MS, Washington State University

Smith, Grant W.—“1968, Professor of English and Humanities—“BA, Reed College; MA, University of Nevada; PhD, University of Delaware

Smith, Julia E.—“2004, Associate Professor of Anthropology—“BA Vanderbilt University; MA, PhD, University of Pittsburgh

Snover, Roberta L.—“2000, Associate Professor of Occupational Therapy—“BA, California State University, Fresno; BS, University of Texas Health Science Center; MS, Colorado State University; PhD, Nova Southeastern College

Soleimani, Mohammad Abraham—“2011, Assistant Professor of Management—“BS, Amirkabir University of Technology; MBA, Sharif University of Technology; PhD, Florida International University

Sonnema, Roy—“2014, Dean, College of Arts, Letters and Education—“B.A., Calvin College; M.A., California State University; Ph.D., University of California at Berkeley

Spatz, Gregory—“1998, Professor of English/Creative Writing—“BA, Haverford College; MA, University of New Hampshire; MFA Iowa Writers’ Workshop

Spruell, Paul—“2014, Assistant Professor of Biology—“BS, University of Illinois at Urbana; MS, Michigan State University; PhD, Washington State University

Stafford, Jeffrey L.—“1990, Professor of Communication Studies—“BS, MS, Kansas State University; PhD, University of Kansas

Stearns, Susan A.—“1990, Professor of Communication Studies—“BA, MA, California State University, Fresno; PhD, University of Oklahoma

Steenhuis, Harm-Jan—“2002, Professor of Management—“M.Sc., PhD, University of Twente, The Netherlands

Steigleder, Claire—“2005, Lecturer in Libraries—“BA, College of St. Elizabeth, Morristown, NJ; M.L.S., University of Hawaii

Steiner, Henry-York—“1968, Professor of English—“BA, Grinnell College; MA, Yale University; PhD, University of Oregon

Steiner, Stuart G.—“2001, Senior Lecturer in Computer Science—“BS, Montana State University; MS, Eastern Washington University

Steiner, Wes E.—“2009, Assistant Professor of Chemistry and Biochemistry—“BS, Southern Oregon University; MS, Arizona State University; PhD, Washington State University

Stellwagon, Kurt K.—“2005, Associate Professor of Psychology—“BA, University of Massachusetts, Amherst; MEd, Northeastern University; PhD, University of North Carolina, Chapel Hill

Stewart, Steven D.—“2006, Lecturer in Communication Studies—“BA, Cedarville University; MS, Eastern Washington University

Stewart-Strobelt, Jody—“2002, Senior Lecturer in German—“BA, Washington State University; MEd, St. Martin’s College

Stimson, William L.—“1989, Professor of Journalism—“BA, Eastern Washington University; MA, PhD, Washington State University

Stirling, Robert W.—“2002, Senior Lecturer in Social Work—“BA, MSW, Eastern Washington University

Stolberg, Rebecca G.—“1998, Professor of Dental Hygiene—“BS, Eastern Washington University; MS, University of Missouri, Kansas City

Stradling, Teiko K.—“2002, Senior Lecturer in Japanese—“BA, Kyoritsu College of Pharmacy, Tokyo, Japan; BA, MS, Eastern Washington University; MA, Whitworth College

Stuart, Diana K.—“2014, Lecturer in Mathematics—“BA, Kharkov State University; MA, Eastern Washington University

Sundquist, Jeff—“2014, Assistant Professor in Library Administration—“BA, University of California, Los Angeles; MA, University of California, Los Angeles; MLS, University of California, Los Angeles

Svoboda, Deborah—“2012, Assistant Professor of Social Work—“PhD, University of Maryland, Baltimore

Swan, Karrie—“2015, Assistant Professor of Psychology—“BS, Eastern Oregon University; MEd, University of North Texas; PhD, University of North Texas

Sypkers, David—“2014, Assistant Professor of Physics—“BS, BA, University of Chicago; MS, PhD, University of Washington
Administration & Faculty

T

Tappan, Dan A.---“2012, Assistant Professor of Computer Science---“BA, Arizona State University; MS University of Arkansas; PhD, New Mexico State University

Taudin Chabot, Sean K.—“2003, Professor of Sociology---“BA, University of Puget Sound; MA, Boston University, Paris; PhD, University of Amsterdam

Taylor, Carol S.---“2006, Associate Professor of Computer Science---“BS, University of California, Davis; BS, Colorado State University; MS, PhD, University of Idaho

Teague, Bruce T.---“2006, Associate Professor of Management---“BA, Western Washington University; MBA, Arizona State University; MA, PhD, University of Pennsylvania

Terpstra, David E.---“1999, Professor of Management---“BA, Western Washington University; PhD, University of Tennessee

Thomson, Jennifer A.---“1996, Professor of Geology---“BS, University of New Hampshire; MS, University of Maine, Orono; PhD, University of Massachusetts

Tian, Yun---“2013, Assistant Professor of Computer Science---“PhD, University of Mississippi

Tipton, Elizabeth J.---“2001, Professor of Decision Science---“BS, University of Texas, Dallas; PhD, University of Texas, Austin

Toeneva, Elena T.---“2000, Professor of Mathematics---“MS, PhD, University of Sofia, Bulgaria

Toohey, Michael J.---“2015, Lecturer in Psychology---“BA, Boston University; MA, Hofstra University; PhD, Hofstra University

Toor, Rachel---“2006, Associate Professor of Creative Writing---“AB, Yale University; MFA, University of Montana

Torgerson, Beth E.---“2006, Associate Professor of English---“BA, Montana State University; MA, University of New Mexico; PhD, University of Nebraska, Lincoln

Trella, Deanna L.---“2014, Assistant Professor of Sociology---“BA, State University of New York, Geneseo; MA, PhD, Bowling Green State University

Tressider, Anna---“2013, Assistant Professor of Planning and Public Administration---“BS, Pacific University; MPH, PhD, Portland State University

Tsegay, Goitom Tesfom---“2005, Associate Professor of Management---“BA, University of Asmara, Asmara, Eritrea; M.Sc., PhD, University of Groningen, Groningen, Netherlands

Tyllia, Christopher E.---“2010, Lecturer in Art---“BFA, Eastern Washington University; MFA, Ohio State University at Columbus

V

Vahk, Annika---“2014, Lecturer in Physical Education, Health and Recreation---“BS, Eastern Washington University; MS, Eastern Washington University

Valeo, Christina A.---“2003, Associate Professor of English and Education---“BA, MAT., Brown University; MA, PhD, University of Illinois, Urbana, Champaign

Vander Linden, Darl W.---“1992, Professor of Physical Therapy---“BS, Physical Therapy Certificate, Iowa State University; MS, University of North Carolina at Chapel Hill, PhD, University of Iowa; Physical Therapy Certificate

Victor, Paul E. Jr.---“2008, Assistant Professor in Libraries---“BA, Western Connecticut State University; MA, University of Connecticut; MLIS, University of Pittsburgh

W

Wagner, Randel R.---“1998, Professor of Music---“BME, Walla Walla College; MA, San Diego State University; D.MA, University of Nebraska, Lincoln

Waldrop, Michael V.---“1992, BM, DMA, University of North Texas; MA, Memphis State University

Walsh, Thomas R.---“2010, Assistant Professor of Engineering and Design---“PhD, New Mexico State University

Wang, Lei---“2011, Assistant Professor of AIS Business Analytics---“BA, Henan Teacher’s University; MBA, East Tennessee State University; PhD, University of South Carolina

Warner, Lisa A.---“2012, Lecturer In Education---“BA, MA, Eastern Washington University

Warren, Stacy---“1992, Professor of Geography---“BA, University of Delaware; MA, Clarke University; PhD, University of British Columbia

Watkins, Philip C.---“1990, Professor of Psychology---“BS, University of Oregon; MA, Western Baptist Seminary; MA, PhD, Louisiana State University

Weise, David M.---“2013, Lecturer in PHIL---“BA, MA, Gonzaga University

Weiser, Martin W.---“2010, Assistant Professor of Engineering and Design---“BA, Ohio State University at Columbus; MS, PhD, University of California at Berkeley

Weller, Philip J.---“1969, Professor of English---“BA, University of Puget Sound; MA, Washington State University; PhD, Kent State University

Werckle, Robert C.---“1993, Senior Lecturer in English as a Second Language---“BA, Holy Cross College; MA, Georgetown University

Wetmore, Ann O.---“2009, Assistant Professor in Dental Hygiene---“BSDH, Eastern Washington University; MSDH, Idaho State University

Williams, Christopher E.---“2013, Lecturer in Social Work---“BA, Western Washington University; MSW, Eastern Washington University

Williams, William C.---“1977, Professor of Psychology---“BA, MS, Eastern Washington University; PhD, University of Utah
Willis, Jessica L.—˜2011, Lecturer in Women and Gender Studies—˜BA, University of California, Santa Cruz; MA, New College of California; PhD, Clark University

Wilson, Allison—˜2015, Assistant Professor of Education—˜BS, The University of Idaho; MEd, The University of Montana; PhD, The University of Oregon

Wilson-Fowler, Elizabeth—˜2010, Assistant Professor of Communication Disorders—˜BA, University of Virginia; MA, Western Washington University; PhD, Florida State University

Winchell, Richard (Dick) G.—˜1986, Professor of Urban and Regional Planning—˜BA, Wartburg College; MURP, University of Colorado, Denver Center; PhD, Arizona State University

Winkle, Sally A.—˜1983, Professor of German and Director, Women's and Gender Studies—˜BA, Knox College; MA, University of Georgia; PhD, University of Wisconsin, Madison

Winters, Patrick—˜1987, Professor of Music and Director of Bands—˜BS, Elon College; MA, California State University, San Bernardino

Woodward, Sheila C.—˜2012, Professor of Music—˜BM, PhD, University of Cape Town

Wright, Sue M.—˜1994, Professor of Sociology—˜BA, MA, PhD, University of Oregon

X

Xing, Wentao—˜2014, Lecturer in Music—˜MM, New York University

Xu, Bojian—˜2011, Assistant Professor of Computer Science—˜Bachelor's in Engineering, Zhejiang University; PhD, Iowa State University

Y

Yasmin, Shamima—˜2015, Assistant Professor of Computer Science—˜BS, Bangladesh University; MS, University of New South Wales; PhD, Universiti Sains Malaysia

Young, Justin A.—˜2010, Assistant Professor of English—˜BA, Evergreen State College; MA, CUNY City College; PhD, University of Oklahoma

Youngs, J. William T.—˜1972, Professor of History—˜BA, Harvard; MA, PhD, University of California, Berkeley

Z

Zeisler-Vralsted, Dorothy—˜2006, Professor of Political Science International Studies—˜BA, Carroll College, Helena, Montana; MA, University of Montana; PhD, Washington State University

Zhou, Duanning—˜2001, Professor of Management Information Systems—˜BS, Jiangxi University; MEng., Zhongshan University; PhD, City University of Hong Kong

Zhu, Liping—˜1996, Professor of History—˜BA, East China Normal University; MA, Wichita State University; PhD, University of New Mexico

Zinke, Robert C.—˜1985, Professor of Public Administration—˜BA, Washington State University; MA, Drew University; PhD, New York University

Zovanyi, Gabor—˜1986, Professor of Urban and Regional Planning—˜A.B., University of California at Los Angeles; M.C.P., San Diego State University; PhD, University of Washington

Zukosky, Michael L.—˜2006, Assistant Professor of Anthropology—˜BA, Fort Lewis College; PhD, Temple University

---

**Emeritus Faculty**

A

Albert, James—˜1968, Professor of Music Emeritus 1997

Alonso, José—˜1967, Professor of Spanish Emeritus 1999

Alvy, Harvey—˜2000, Professor of Education Emeritus 2012

Anderson, Betty—˜1968, Associate Professor of Nursing Emerita

Anderson, Philip—˜1965, Professor of Accounting Emeritus 1999

Andrews, J.—˜1954, Professor of Music Emeritus 1977

Arévalo, Rodolfo—˜2006, President Emeritus 2015

Asan, Virginia—˜1962, Professor of Health, Physical Education and Athletics Emerita 1988

Ayot, Gloria—˜1995, Professor of Education Emerita 2006

B

Balabanis, Achilles—˜1969, Professor of Music Emeritus 1994

Barber, William—˜1969, Professor of Psychology Emeritus 1999

Barnes, Rey—˜1979, Professor of Radio-Television Emeritus 1995

Barr, Robert—˜1965, Professor of Physical Education, Health and Recreation Emeritus 1997

Bates, James—˜1975, Professor of Social Work Emeritus 1999

Baumann, Charles—˜1969, University Librarian Emeritus 1991

Beal, Bruce—˜1968, Professor of Art Emeritus 2000

Behm, Roy—˜1963, Professor of Chemistry/Biochemistry Emeritus 1992

Bell, Donald—˜1964, Professor of Applied Psychology Emeritus 1996

Benson, Jack—˜1965, Associate Professor of Physical Education, Health and Recreation Emeritus 1999

Bickerstaff, Douglas—˜1986, Professor of Computer Science Emeritus 2011

Biehl, Arthur—˜1951, Professor of Music Emeritus 1979

Blewett, Stephen—˜1982, Professor of Journalism Emeritus 2007

Bocaz-Moraga, Sergio—˜1971, Professor of Spanish Emeritus 1995

Boggs, Dona—˜1997, Professor of Biology Emerita 2008
Boles, Stamey—˜1968, Professor of Electronic Media, Theatre and Film Emeritus 1997

Bolte, Linda—˜1993, Professor of Mathematics Emerita 2012

Braukmann, James—˜1984, Professor of Engineering and Design Emeritus 2012

Breitenfeldt, Dorvan—˜1962, Professor of Communication Disorders Emeritus 1995

Breneman, Gary—˜1971, Professor of Chemistry/Biochemistry Emeritus 2003

Brock, Barbara—˜1987, Professor of Recreation Management Emerita 2013

Brucker, Benjamin—˜1972, Professor of Education Emeritus 2009

Bruno, Polly—˜1984, Professor of Nursing Emerita 1999

Bruntlett, John—˜1967, Professor of Technology Emeritus 1997

Brzoska, Michael—˜1983, Professor of Engineering Design Emeritus 2010

Bump, Edwin—˜1973, Professor of Accounting Emeritus 1999

Burnham, Kent—˜1970, Professor of Management Information Systems Emeritus 1999

Busskohl, James—˜1970, Professor of English Emeritus 1995

Cameron, Alex—˜1981, Professor of Accounting Emeritus 2010

Carey, Richard—˜1969, Professor of French Emeritus 1990

Carlberg, Karen A.—˜1983, Professor of Biology Emeritus 2015

Carpenter, Marilyn—˜1998, Professor of Education Emeritus 2011

Carr, Robert—˜1969, Professor of Biology Emeritus 2001

Carr Noreena, M.—˜1980, Professor of Education Emerita 1991

Chapman, Gordon—˜1979, Professor of Accounting Emeritus 2005

Christensen, Sandra—˜1990, Professor of Management Emerita 2011

Clark, R. William—˜1987, Professor of Computer Science Emeritus 2015

Cleveland, Thelma—˜1970, Dean, Intercollegiate Center for Nursing Education Emerita 1997

Coffee, Curtis—˜1970, Professor of Music Emeritus 1996

Cogley, John—˜1978, Professor of Physical Education, Health and Recreation Emeritus 2011

Cook-Lynn, Elizabeth—˜1971, Professor of English Emerita 1990

Cornelius, David—˜1984, Professor of Communication Studies Emeritus 2005

Dalla, Ronald—˜1970, Professor of Mathematics Emeritus 2014

Daugherty, Dave—˜1966, Professor of Mathematics Emeritus 1996

Davis, Diane—˜1992, Professor of Social Work Emerita 2012

Davis, Maxine—˜1970, Professor of Physical Education, Health and Recreation Emerita 1999

Denny, Lawrence—˜1984, Professor of Technology Emeritus 1999

Detslo, Dorothy—˜1997, Dean of Washington State University intercollegiate College of Nursing Emerita 2005

Dickerson, Joan—˜1977, Professor of Education Emerita 2003

Donley, Richard—˜1967, Professor of History Emeritus 1997

Douglas, John—˜1960, Professor of Chemistry/Biochemistry Emeritus 1991

Dowd, Joe—˜1999, Professor of Accounting Emeritus 2012

Duenow, John—˜1970, Professor of Music Emeritus 1999

Durie, George—˜1970, Professor of Government Emeritus 2006

Dustan, George—˜1970, Dean and Professor of Nursing Emerita 1982

E.

E., Sarah—˜1977, Professor of Dental Hygiene Emerita 2001

Elkind, Pamela—˜1982, Professor of Sociology Emerita 2006

Elton, Robert—˜1970, Professor of Psychology Emeritus 1999

Engene, Gene—˜1970, Professor of Electronic Media, Theatre and Film Emeritus 2007

Evans, Edie—˜1969, Professor of Theatre and Film Emerita 2009

Exline, Wendell—˜1949, Professor of Music Emeritus 1979

F.

Farris, Kelly—˜1970, Professor of Music Emeritus 2000

Flynn, James—˜1967, Professor of Applied Psychology Emeritus 1997

Ford, John—˜1965, Professor of Management Information Systems Emeritus 1999

Forsman, Earl—˜1970, Professor of Physics Emeritus 1997

Frederickson, H.—˜1977, President Emeritus 1987

G.

Galm, Jerry R.—˜1981, Professor of Geography and Anthropology Emeritus 2015

Gariepy, Robert—˜1968, Professor of English and Humanities Emeritus and Dean, University Honors Program Emeritus 1993

Gazette, C.—˜1966, Professor of Health and Physical Education Emerita 1982

George, Philip—˜1968, Professor of Education Emeritus 1988
Gerber, Sterling—˜1970, Professor of Counseling, Educational and Developmental Psychology Emeritus 2003

Gibbs, Robert—˜1970, Professor of Physics Emeritus 2003

Gibson, Flash—˜1971, Professor of Biology Emeritus 2014

Giles, Ramond—˜1946, Professor of Education Emeritus 1978

Gilmour, Ernest—˜1967, Professor of Geology Emeritus 2011

Glass, James—˜1988, Professor of Physics Emeritus and Dean of the College of Science, Health and Engineering Emeritus 1999

Gohlert, Ernst—˜1970, Professor of Government Emeritus 2002

Gothmann, William—˜1990, Professor of Technology Emeritus 1999

Graul, Paul—˜1986, Professor of Accounting Emeritus 1999

Green, Michael—˜1967, Professor of History Emeritus 2001

Green, Paul J.—˜1981, Professor of Physical Education, Health and Recreation Emeritus 2015

Greene, William—˜1964, Professor of Psychology Emeritus 1998

Gustafson, Dorothy—˜1970, Professor of Nursing Emerita 1982

H

Hagie, Daryl—˜1955, Dean of Students Emeritus 1982

Hahn, Patricia—˜1968, Professor of Communication Disorders Emerita 1994

Hall, Wayne—˜1970, Professor of Education Emeritus 1997

Hall, Wayne—˜1970, Professor of Mathematics and Education Emeritus 1997

Hamel, Ray—˜1970, Professor of Computer Science Emeritus 2010

Hanegan, James—˜1970, Professor of Biology Emeritus 1997

Hanes, Kit—˜1970, Professor of Mathematics Emeritus 2000

Hanke, John—˜1970, Professor of Quantitative Analysis Emeritus 1999

Hartman, Walter—˜1965, Professor of Management Information Systems Emeritus 1996

Haugen, David—˜1969, Professor of Communication Disorders Emeritus 2000

Hawkins, Gregory—˜1973, Professor of Art Emeritus 2003

Hegi, Ursula—˜1984, Professor of English/Creative Writing Emerita 2001

Hernandez-Peck, Maria—˜1981, Professor of Social Work Emerita 2013

Herold, Robert—˜1969, Professor of Government Emeritus 2000

Hicks, Gail—˜1974, Professor of Psychology Emerita 2012

Higman, Perry—˜1971, Professor of Spanish Emeritus 2009

Hoffman, James—˜1991, Provost Emeritus and Professor of Geology Emeritus 2002

Holloway, Jan—˜1970, Professor of Nursing Emerita 1999

Career Services

Virginia Hinch, Director
114 Showalter Hall
509.359.2329

Career Services programming provides students at any level of their education with the knowledge, skills and confidence necessary to make informed, intentional and individual choices about their academic and professional development. Course offerings engage and develop student skills in critical thinking, communication and research to choose inspiring majors, gain significant pre-professional experience and plan their future careers. Program topics and activities include major exploration, career research, exploratory internships, mentorship and professional portfolio development.

As the world of work is increasingly dynamic and diverse, Career Services content encourages students to consider and understand their experiences and value as whole people, and invites them to make meaningful connections between their academic experience and professional goals. This holistic approach promotes necessary habits of adaptability, openness and reflection that allow students to thrive in the workplace both after graduation and throughout their lives.

Undergraduate Program

The Honors Program cultivates excellence in undergraduate education by providing enhanced educational opportunities to superior students and special teaching opportunities to outstanding faculty. Honors courses and Honors activities seek to develop thorough knowledge and appreciation of the liberal arts and sciences; cultivate excellent writing, calculation and critical thinking skills; and inspire an attitude of self-responsibility, lifelong intellectual development and engagement with the world. Admission to Honors at Eastern is based entirely on demonstrated qualifications and potential.

Recognition as an Honors scholar is beneficial to students who apply for admission to graduate or professional schools; it also strengthens applications for employment. Participation in Honors gives academically accomplished students the opportunity to develop and apply their talents by providing closer interaction among faculty and peers. Honors students delve more deeply into their major disciplines and gain a broader perspective of their personal roles in society. Participation in the program shows that students are serious about learning; therefore, they receive special attention. Faculty members honor this commitment by providing special courses, individualized instruction, and special advisors.

University Honors has both general and departmental honors components.

General Honors emphasizes academic excellence in liberal arts curriculum areas. These freshman Honors Sequence courses (HONS 101, HONS 102, HONS 103, HONS 104) are interdisciplinary in nature and satisfy six of the General Education Core Requirements.

University Honors upper-division courses encourage Honors students to consider their own fields of study from the perspective of a broader cultural framework. These courses are offered for transfer students, sophomores, juniors and seniors.

Departmental Honors emphasizes excellence in one of the academic disciplines.

Financial Assistance

Qualified freshmen and transfer students have an excellent chance to receive one of several scholarships: the Killin, Academic Honors, Scholastic Honors four-year scholarships, or the two-year Transfer Honors Award. These awards are specifically for the academically accomplished. Contact Honors staff for additional information.

Other criteria include class rank, letters of recommendation from teachers or counselors, and personal interviews. Special consideration is shown to students who have participated in honors programs while in high school or community college. National Merit Semi-finalists or Finalists, National Achievement Semi-finalists or Finalists and National Achievement Commended students are automatically eligible. Students not admitted to the Honors Program upon initial enrollment may be accepted no later than the middle of their junior year. These students must have a college GPA ≥3.3.

To Apply

Incoming freshmen and transfer students with a GPA ≥3.6 and superior test scores complete the EWU General Scholarship Application. A letter of recommendation from an instructor or counselor and a brief statement of academic interest are sent directly to the Honors Program.

Degree Requirements for Honors Designations

Students fulfilling the following minimum degree requirements will be awarded the baccalaureate degree with honors ad valorem.

Required

Freshmen honors sequence courses (16 credits)
Integrative Studies

Mark Baldwin, Associate Vice Provost for Academic Planning and Policy
Showalter Hall 217

Pre-Professional

Eastern Washington University offers students the opportunity to earn substantial amounts of coursework toward the requirements of a number of specific professions. Although the following Pre-Professional programs have been offered for several years by EWU, this listing is not exclusive; students who are interested in a profession which is not represented (below) are encouraged to contact the Office of General Undergraduate Academic Advising for assistance in identifying departments or programs which can offer coursework and advice as regards alternative Pre-Professional studies.

- Studio Art (p. 126)
- Visual Communication Design (p. 129)
Undergraduate Minors
- Art (p. 125)
- Art/Elementary or Secondary (p. 125)

Undergraduate Programs
The Department of Art offers a curricular program founded on three major concerns: developing the highest levels of individual artistic performance and professional education, providing courses for all students which develop cultural understanding and aesthetic appreciation and functioning as a center of emphasis and resource for the visual arts in the cultural activities of both the university and the community at large.

The Department of Art's unique and multifaceted Gallery Program provides cultural enrichment for both the university and the regional community. In addition to the main Art Gallery, the program sponsors public art lectures, visiting-artists' workshops and cooperative exhibitions with northwest galleries and museums.

General Major and Minor Requirements for Art
All Art majors are expected to complete a core of fundamental courses in Studio Art and Art History relative to their specific degree program.

General Degree Completion Requirements for Art
All 400-level studio courses may be repeated three times for credit.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Program
The Art Department offers courses that may be included in an Interdisciplinary master's degree and Art Department faculty may serve on committees for students whose Interdisciplinary program proposals are accepted through the process described elsewhere in this catalog.

Note: only programs that offer a graduate degree may be the primary discipline in a graduate interdisciplinary degree program. Art does not offer an MA.

The Art Department's Participation in Interdisciplinary Masters Programs
First and foremost—all Interdisciplinary MA applicants must understand that the only terminal degree in Studio Art is the MFA. An MFA is required to teach studio art at levels beyond high school. A PhD is needed to teach Art History and Art Education. (See below)

Acceptance into Program
Interdisciplinary MA applicants must apply with a portfolio of work in the same manner as the BFA applicants.

If accepted, the Interdisciplinary MA candidates will participate in two quarters of twice-quarterly reviews, (i.e., one review by Art faculty and one review by outside professionals each quarter). These reviews are currently listed as ART 470.

During the MA candidate's third and final quarter, the candidate will participate in a thesis exhibition and have an oral review by the thesis committee which must consist of at least one of their Art faculty.

Interdisciplinary MA History and Art
Interdisciplinary MA students in History and Art have a strong record of following the traditional trajectory of the MA preceding the PhD.

Interdisciplinary MA in Publishing, Creative Writing and Art
Art courses can constitute a minor discipline for this degree program based on the determination of the department chair only, with input from other faculty if necessary.

All faculty will participate on committees to work with MA candidates accepted into our program.

Art History Major, Bachelor of Arts (BA)
Students majoring in Art History will be expected to complete courses in methodology and to present a written thesis.

Notes:
- students majoring in Art History will be expected to complete courses in methodology and to present a written thesis;
- two years of a single high school foreign language or one year of a single college level foreign language is required.

ART 431  HISTORY OF CONTEMPORARY ART

Electives—choose additional Art History courses in consultation with department advisor. 3

Total Credits 62-63

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• have a fundamental ability to read and comprehend texts and to analyze works of art with peers and faculty;
• have a fundamental knowledge of major movements, styles and artists within the history of art;
• have the ability to do independent research from diverse texts within the subject of Art History;
• be able to synthesize their art historical knowledge into the practice of the art historical discipline through discussion and writing;
• have the ability to bring together their research into clear written form;
• demonstrate an awareness of current scholarly opinion regarding issues of interpretation in the field and the ability to articulate and discuss art within our own culture and the art of culturally-diverse settings.

ART 420  HISTORY RENAISSANCE ART
ART 422  HISTORY OF BAROQUE AND ROCOCO ART
ART 423  ART OF THE 19TH CENTURY
Studio Art Major, Bachelor of Fine Arts (BFA)

The primary focus of the BFA is to give students who are committed to becoming contemporary artists an opportunity to immerse themselves in a much deeper studio experience and prepare a solid portfolio should they continue on to a MFA degree.

Prior to declaring the BFA major, students must apply to the program by submitting a portfolio spring quarter of their junior year. Notification of acceptance is sent spring quarter. (Students need not be in the BFA to take any art class, with the exception of the senior year three-quarter class ART 470). This course requires previous acceptance into the BFA degree program. ART 470 senior courses are an intensive studio experience as well as engaging students in philosophical dialogues about the nature of being an artist and how to prepare for graduate studies (MFA).

Students have individual mid-term reviews with all art faculty as well as two end-of-quarter reviews with two professional artists from outside the department and the course instructor.

Students prepare work for and make a mailer for an end of year group exhibition in the main gallery or other space if needed.

Note: there is no foreign language requirement for BFA students.

115

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes**—students will:

- have the ability to analyze, interpret and create written or spoken dialogue about diverse works of art;
- be able to convey thoughts and ideas in relation to an art historical timeline, apply contemporary concepts in art to their own work and articulate and discuss art within our own culture and the art of other cultures;
- have basic skills to create works of art in at least three different media;
- have advanced skills and knowledge to create works of art in at least one medium and intermediate skills and knowledge of at least one other medium;
- have the ability to present and apply their skill in studio practice in the creation of a cohesive body of work on a level appropriate to entry into both graduate schools and art professions;
- have the ability to defend their portfolio work both orally and in writing.

**Visual Arts/Elementary Major, Bachelor of Arts in Education (BAE)**

Students seeking certification in Art will be expected to demonstrate basic studio competencies prior to recommendation for admission to professional degree candidacy.

This major satisfies the endorsement for preschool to grade 12.

Notes:

- see the Education Department for prerequisites, core requirements and additional SLOs;
- the above major takes more than 12 quarters at 15–16 credits a quarter;
- ART 390 is listed in the Elementary Education Core and the major, the credits may only be counted once.

**Required Elementary Education Core**

30–hour multicultural education field requirement

Total Credits 112

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

• have the basic knowledge, skills and understanding of art’s role and function in our daily lives, schools, society, and culture;
• have the basic knowledge, skills and understanding to look at, discuss, write about and interpret artworks and become aware of integrated learning opportunities for art in educational settings;
• have the basic knowledge, skills and understanding in contemporary issues and trends in art education and in the role and value of art education for elementary students and in teaching practice;
• have basic knowledge, skills, and understanding of methods and strategies for teaching meaningful art lessons to K–8 students, exploring the values and possibilities in art-making activities;
• demonstrate basic studio competencies using a variety of art materials, methods, styles and techniques appropriate to K–8 education;
• have basic knowledge, skills, and understanding of the community resources available to enhance the integration of art making, art criticism, aesthetics and art history in educational settings.

Visual Arts/Secondary Major, Bachelor of Arts in Education (BAE)

Students seeking certification in Art will be expected to demonstrate basic studio competencies prior to recommendation for admission to professional degree candidacy.

This major satisfies the endorsement for preschool to grade 12.

Notes:

• see the Education Department for prerequisites, core requirements and additional SLOs;
• the above major takes more than 12 quarters at 15–16 credits a quarter;
• all BAE Visual Arts Secondary Education students will meet with an Art Department faculty mentor during their student teaching internship period.

Visual Communication Design, Bachelor of Fine Arts (BFA)

The Department of Engineering & Design and the Department of Art offer an intercollegiate Visual Communication Design program founded on four major concerns: developing the highest levels of individual creative performance and professional education; providing courses for all students which develop ability in both technical visual communications as well as important core skills in the area of fine art; giving students a greater cultural and historical understanding and aesthetic appreciation of the function of design in the arts and in the world around them; and functioning as dual centers of emphasis and resource for the visual arts, visual communication and technology in the cultural activities of both the university community and the community at large.

Both departments are committed to working together to give students access to current technologies in the area of visual communication design, as well as experience in developing the necessary visual skills provided by studio art areas such as drawing, painting and sculpture.

The program ends with a three quarter senior year intensive studio experience for the preparation of portfolios for job placement or graduate school application. This includes midterm faculty review of student work, quarterly outside professional review and a final exhibition as the completion of the student portfolio of work.

Prior to declaring the BFA major, students must apply to the program by submitting a portfolio and academic transcripts. Application is recommended at the end of the sophomore year to help ensure that appropriate junior year courses are selected. Students need not be in the BFA to take DESN or ART classes, with the exception of the senior year three quarter class DESN 471/ART 471. This course requires previous acceptance into the BFA degree program.

Notes:
- there is no foreign language requirement for BFA students;
- including university requirements, the above program requires a minimum of 180 credits or an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions: Students will have satisfied university competencies (ENGL 101 and CPLA 100). If this is not true, then the student will have to complete up to six more credits of classes (See university competencies);
- ART 213 fulfills EWU's Fine Arts core requirement;
- TECH 393 fulfills EWU's International Studies requirement;
- DESN 490 fulfills EWU's senior capstone requirement.

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

- understand, develop, demonstrate and practice knowledge of the theory and practice of Art Education for secondary level students;
- understand, develop, demonstrate and practice appropriate curriculum and teaching methods for studio and for art history, criticism and aesthetics;
- understand, develop, demonstrate and practice appropriate professional dispositions, art content and art knowledge for successful teaching;
- develop, demonstrate and practice understanding and knowledge through discussing the philosophical and historical foundations of Art Education, and be able to articulate and discuss art within our own culture and the art of other cultures;
- understand, develop, demonstrate and practice skill in the use of computers for curriculum development, instruction, as an art media, and for classroom management;
- understand, develop, demonstrate and practice an understanding of the community resources available to enhance the integration of art making, art criticism, aesthetics and art history in secondary educational settings.

Electives

| Design Elective
| Studio Art Elective

Total Credits 113

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- have the ability to solve visual communication problems, including the skills of identification, research and information gathering, analysis and generation of alternative solutions;
- have the ability to draw on thoughts and ideas in relation to an art historical timeline, apply contemporary concepts in design to their
own work and articulate and discuss art within our own culture and
the art of other cultures;
• have basic skills to create a response to visual communication
problems, including an understanding of the principles of visual
organization/composition, information hierarchy, symbolic
representation, typography, aesthetics and the construction of
meaningful images;
• have an understanding of multimedia tools and technology,
including their roles in the creation, reproduction and distribution of
visual messages;
• be able to describe and respond to audiences and contexts that
communication solutions must address, including recognition of
the physical, cognitive and social human factors that shape design
decisions;
• have an understanding of basic business practices, including the
ability to organize design projects and to work productively as
members of a team;
• create a cohesive body of work on a level appropriate to entry into
both graduate schools and design professions and have the ability to
defend their portfolio work both orally and in writing.

Department of Education Mission
The mission of the Department of Education is to prepare student-centered educators to be professionals, leaders, scholars and practitioners.

Washington Teacher Certification
The state of Washington issues two basic teaching certificates: The Residency Teaching Certificate and the Professional Teaching Certificate. Each certificate issued requires payment of a state fee. In addition, the teacher candidate must give evidence of good character and fitness, including a Washington State Patrol and FBI clearance.

The Residency Teaching Certificate
This Certificate is awarded upon completion of a baccalaureate degree and the Professional Education Program requirements. This teaching certificate allows the holder to teach in the state of Washington within the endorsement areas approved by the university. An endorsement is an authorization to teach a specific subject (or to perform a specific type of service) at particular grade level(s) and an indication of such will appear on the Residency and Professional Certificates.

The state of Washington requires teacher education candidates admitted to teacher preparation programs beginning September 1, 2002 to pass the Washington Education Skills Test—Basic (WEST-B) in order to receive a Residency Certificate. Beginning September 1, 2009, candidates are required to pass the WEST-E or NES subject matter test to receive an endorsement for certification purposes.

Undergraduate Programs
Teaching is among the most challenging and personally rewarding of professions. The essential role of the professional educator is to bring together his/her knowledge of subject matter, instructional strategies and interpersonal skills to provide learning experiences for students. In addition, the contemporary teacher must be able to individualize instruction, must be sensitive to developmental and socio-cultural issues involving the learner, make adjustments to instruction based on assessment and provide evidence of positive impact on student learning.

The EWU Department of Education offers a comprehensive Teacher Certification program, culminating with a baccalaureate degree and a Residency Teaching Certificate, to candidates who wish to teach in either P-3, elementary or secondary school settings.

To obtain a Bachelor of Arts in Education degree, a candidate must satisfy the General Education Requirements (GER), Professional Education Program requirements and major fields of study requirements of Eastern Washington University. Upon satisfying requirements for the baccalaureate degree, the candidate may be eligible to receive a Residency Teaching Certificate from the state of Washington, providing he/she meets academic certification and good character and fitness including WSP/FBI clearance.

Note: disclaimer: the final authority for approval of certification endorsements resides within the State Board of Education and in the event the State Board changes certification requirements the student must adhere to the new requirements.

Undergraduate Program Goals of the Department of Education
- To prepare teachers who can provide leadership and cope with the complex problems of rural and urban society. In compliance with the Washington Office of Superintendent of Public Instruction (OSPI), Professional Education Standards Board (PESB) standards, the Department of Education for the university provides a professional
education program which prepares students for teaching at the P-3, elementary and secondary level.

- To promote research designed to investigate best practices for the instruction of and learning by P–K–12 candidates.
- To ensure continuous involvement in programs designed to reform and improve the quality of instructional techniques and theory.
- To provide for university students solid, contemporary and challenging instructional programs that are theoretically sound and experientially based.

Statement of Assurance
EWU's Department of Education assures that each candidate is able to apply the teaching strategies, the classroom management/school discipline methods and the measurement and evaluation process necessary for success as a first-year certificated teacher.

This assurance guarantees that the candidate has successfully completed EWU's (Department of Education) Teacher Education Program, as approved by PESB. The assurance is contingent upon appropriate placement of the candidate within certification endorsement areas.

In the event the candidate displays a lack of competency in any of these pedagogical practices during the first year of teaching experience, EWU's Department of Education will cooperate with the school district to assist the candidate in improving his/her performance. EWU services will be provided at no cost to the school district or to the candidate.

This assistance will be offered by faculty members from the Department of Education and by appropriate faculty members from the Departments of Art, Biology, Business Education, Chemistry, English, French, Health, History, Mathematics, Music, Physical Education, Social Studies.

Grade Requirements
≥2.8 in each course for program prerequisites and professional education core. Specific content areas including majors and minors may have different grade requirements. A minimum of a ≥2.0 is required in any course leading to an endorsement.

Teacher Education Program Requirements
Step 1. Complete Prerequisites to EDUC 200
An Application for Admission is required for the Education Program. Application deadlines are as follows: Fall Quarter—May 15; Winter Quarter—October 15; Spring Quarter—January 15, Summer Quarter—April 15. If the deadline falls on a Saturday, Sunday or EWU holiday applications will be accepted the following business day. All prerequisites must be completed when the application is submitted.

- A grade ≥2.8 in all prerequisite courses is required.
- Transfer students should consult with an advisor from the Education Department.
- GPA Requirement: a minimum ≥2.8 GPA.
- Pass Washington Educator Skills Test-Basic (WEST-B): refer to west.nesinc.com (http://www.west.nesinc.com) for information on this Reading, Mathematics and Writing basic skills test. Satisfactory SAT or ACT scores may waive all or part of the WEST–B requirement. Please see an advisor in the education department.
- Speech Requirement: CMST 200 or CMST 201 (4) or an approved equivalent.
- English Requirement: ENGL 201 (5) or equivalent.

- Mathematics Requirement: MATH 211 is required for Elementary and P–3 Programs, MATH 107 or an approved equivalent is required for Secondary Program.

Step 2. Major/Minor Endorsement Options
Note: It is important to work with an advisor early in your program to help you plan your schedule.

P-3
Candidates must declare Early Childhood Education. The BAE in ECE is an endorsement.

Major
- Early Childhood Education

See Special Education section

Step 3 Professional Education CORE Requirements
- After the prerequisite courses have been met and an application for admission has been received, students will be eligible for consideration for EDUC 200.
- Formal admission to the Teacher Education Program is contingent upon passing EDUC 200.
- Certification Eligibility: each candidate will be asked to give evidence of good character and fitness including submission of fingerprints for WSP/FBI background check.
- Candidates will meet with major advisor to complete a program plan.

Elementary Education Required Core
There are science and social science courses that are strongly recommended for the Elementary Education candidate. See the general requirements section of this catalog. Please see an Education advisor for clarification.

P–3 Education Required Core
The program in Early Childhood consists of an academic major in Early Childhood Education and a sequence of professional certification courses that lead to teacher licensure Pre-Kindergarten–third grade. Upon completion of the program, candidates can work in childcare centers, preschools, Head Start Programs, ECEAP programs, blended preschools and primary grades especially in full day kindergartens in the public schools. The course work offers a combination of theory, methods and field experiences in a variety of early childhood education settings.

**Total Credits** 43

**Step 4. BAE Program Completion**

**Student Teaching Prerequisites**

The student planning to student teach must have satisfied the application/admission steps and must have completed the following clearances verified in EDUC 420.

- three-fourths of the total credit hours in his/her major
- all method course(s) in major must be completed
- candidates must have a minimum GPA ≥2.8 in the professional education program
- no individual course grade of <2.8 in the professional education program
- have current WSP/FBI Clearance
- must have completed program core
- pass the WEST-E/NES in all areas of endorsement(s) prior to student teaching
- multicultural experience requirement

**Application for Student Teaching**

During EDUC 420 the candidate must submit the Application for Professional Admissions and Student Teaching. With permission of the department he/she must register for the student teaching course. The student teacher candidate who does not meet stated deadlines may not be eligible for placement.

**Student Teaching**

The purpose of student teaching is to provide the teacher candidate with direct teaching/learning experience in P–12 public schools. The candidate has the opportunity during this time to observe teachers, to plan and teach under the supervision of cooperating teachers, to participate in the total school program for a full quarter and demonstrate PESB approved program standards. Placement is contingent upon availability and acceptance by schools.

The teacher candidate is required to enroll 15 credits of student teaching. These credits are to be earned in one quarter or in an approved alternative program. Typically the candidate is assigned full time to a P–12 public school. The student teaching assignment is considered a full student credit load and no additional credits may be earned during the quarter except by written consent. Student teaching may be done in selected public school districts throughout the state of Washington within a 60 mile radius of EWU.

**Step 5. Certification Exit Evaluation**

An exit evaluation will be done by the certification officer to verify that all state certification and professional education program requirements have been met, including requirements for the Bachelor of Arts in Education degree.

**Evidence for Certification Includes**

- state of Washington Standard Knowledge and Skills
- state of Washington EdTPA
- Student Teaching Approved Professional Growth Plan
- current WSP/FBI clearance
- copy of graduation application form evidencing all requirements have been met
- 30-hour Multicultural Verification Assessment Form

**Note:** Disclaimer, the final authority for approval of certification endorsements resides within the State Board of Education and in the event the State Board changes certification requirements, the candidate must adhere to the new requirements.

**Graduate Degrees**

**Master of Education in Education**

- Curriculum and Instruction Option (p. 135)
- Literacy Option (p. 139)
- Adult Education Option (p. 135)
- Early Childhood Education Option (p. 136)
- Educational Foundations/Interdisciplinary Option (p. 137)
- Master in Teaching (MIT): Secondary Teaching (5-12) (p. 142)
- Master in Elementary Teaching (MIT): Teaching (K-8) (p. 141)

**Graduate Programs**

**Options under M.Ed. in Education Degree**

**Certification Required**

- Curriculum and Instruction
- Literacy

**Certification Optional**
• Adult Education
• Early childhood Education
• Educational Foundations

Master in Teaching

• MIT Secondary Teaching (5–12)—Earn certification + M.Ed.
• MIT Elementary Teaching (K–8)—Earn certification + M.Ed.

All Options Include Common Core Requirements

Adult Education Option, Master of Education in Education (M.ED.)

Adult Education—certification optional: this program is developed to provide advanced opportunities for those persons seeking to work with adults in a variety of settings.

These settings include but are not limited to community colleges’ vocational programs, adult basic skills programs, in-service coordination for business and industry, and military training. It is anticipated that students will come from a variety of backgrounds, most having a bachelor’s degree with some additional work and some having master’s degrees in other areas.

Recommended prerequisite: PSYC 306.

No teaching certification required.

Electives—support courses approved by advisor. 12

Total Credits 48

Student Learning Outcomes—students will

• demonstrate effective practice in the implementation of learning activities which include: knowledge of content area; problem solving; use of technology;
• opportunity for student choice; motivation; collaboration and respect for diversity in a student centered learning environment;
• demonstrate professional leadership in the field;
• design and implement curriculum based on standards, knowledge, skills and professional dispositions from the Department of Education, state of Washington Professional Education Standards Board (PESB) standards and certification requirements and other applicable professional standards;
• demonstrate excellent communication skills necessary to communicate effectively with all constituencies, including students, colleagues, parents and community.

Curriculum and Instruction Option, Master of Education in Education (M.ED.)

Curriculum and Instruction—certification required: designed for certified teachers who wish to exercise leadership in school curriculum planning and development. Candidates can plan with an advisor to emphasize science education, social science education, working with at risk learners, etc. A copy of state teaching certificate must accompany application.

Student Learning Outcomes—students will:
Early Childhood Education Major, Bachelor of Arts in Education (BAE)

The BAE in Early Childhood Education plus a Teacher Education Program prepares students for a Washington State Teaching Certification.

BAE students must complete the Elementary Education Core or the P–3 Certification Core.

Completion of the ECE Major, Education Core (and successfully completing the ECE NES will satisfy the requirements for Teaching Certificate in the state of Washington.

Candidates who choose the P–3 core will be certified in grades K-3.

P–3. Candidates who choose the Elementary core, will be certified in grades K–8.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—teacher-candidates will

- use multiple instructional strategies to address individual student needs;
- integrate subjects across content areas;
- use a variety of assessments to monitor and improve instruction;
- create a safe, productive learning environment;
- plan and/or adapt curricula for diverse student needs;
- ensure that students can articulate learning targets and can monitor their own progress toward those targets;
- plan Standards-driven curricula to develop student capacity for problem-solving strategies in content areas;
- prepare responsible citizens for a diverse society;
- ensure cultural competence in teaching;
- integrate technology into their classrooms and/or planning;
- involve and collaborate with student families and community;
- utilize feedback and reflection to improve teaching practice;
- collaborate in and contribute to school improvement;
- demonstrate knowledge of responsibilities and policies related to the teaching profession.

Early Childhood Education Option, Master of Education in Education (M.ED.)

Early Childhood Education—certification optional: designed for graduate candidates to provide advanced knowledge of early childhood education in both certificated and non-certificated settings.

Designed to provide candidates with or without certification advanced study in areas of Early Childhood Education.

Note: candidates may or may not be certified teachers.

**Student Learning Outcomes**

Teacher-candidates will:

• use multiple instructional strategies to address individual student needs;
• integrate subjects across content areas;
• use a variety of assessments to monitor and improve instruction;
• create a safe, productive learning environment;
• plan and/or adapt curricula for diverse student needs;
• ensure that students can articulate learning targets and can monitor their own progress toward those targets;
• plan Standards-driven curricula to develop student capacity for problem solving strategies in content areas;
• prepare responsible citizens for a diverse society;
• ensure cultural competence in teaching;
• integrate technology into their classrooms and/or planning;
• involve and collaborate with student families and community;
• utilize feedback and reflection to improve teaching practice;
• collaborate in and contribute to school improvement;
• demonstrate knowledge of responsibilities and policies related to the teaching profession.

**Elementary Education/Add-on Endorsement**

This add-on satisfies the endorsement for Kindergarten to grade 8.

Notes:

• must have a current Washington State Patrol form;
• for candidates who currently possess a Washington State Teaching Certificate;
• see Williamson Hall 310 before registering for these courses.

### Literacy Option, Master of Education in Education (M.ED.)

Literacy—certification required: designed for classroom and reading teachers as they work toward an understanding of the role that literacy plays across the curriculum and over time. The program explores research and processes for teaching literacy in K–12 educational settings.

A copy of state teaching certificate must accompany the graduate application.

#### Required Common Core

### Student Learning Outcomes—students will

- demonstrate effective practice in the implementation of learning activities which include: knowledge of content area; problem solving; use of technology; opportunity for student choice;
- motivation; collaboration and respect for diversity in a student centered learning environment;
- demonstrate professional leadership in the field;
- design and implement curriculum based on standards, knowledge, skills and professional dispositions from the Department of Education, state of Washington Professional Education Standards Board (PESB) standards and certification requirements and other applicable professional standards;
- demonstrate excellent communication skills necessary to communicate effectively with all constituencies, including students, colleagues, parents and community.demonstrate knowledge of the role of literacy in K–12 classrooms and also provide evidence of their understanding of research and accompanying strategies for teaching and empowering literacy in K–12 educational settings.

Literacy, Reading and Writing/Elementary or Secondary Major, Bachelor of Arts in Education (BAE)

Students can choose either the Elementary or the Secondary Core with the Literacy, Reading and Writing major.

The BAE in Literacy, Reading and Writing prepares teacher candidates to teach in grades P–12 in all aspects of literacy. Candidates completing a major in Literacy, Reading and Writing will demonstrate proficiency in the Reading Endorsement competencies through the state of Washington.

This major satisfies the endorsement for preschool to grade 12.

**Total Credits**: 88-90

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes**—teacher-candidates will

- use multiple instructional strategies to address individual student needs;
- integrate subjects across content areas;
- use a variety of assessments to monitor and improve instruction;
- create a safe, productive learning environment;
- plan and/or adapt curricula for diverse student needs;
- ensure that students can articulate learning targets and can monitor their own progress toward those targets;
- plan Standards-driven curricula to develop student capacity for problem-solving strategies in content areas;
- prepare responsible citizens for a diverse society;
- ensure cultural competence in teaching;
- integrate technology into their classrooms and/or planning;
- involve and collaborate with student families and community;
- utilize feedback and reflection to improve teaching practice;
- collaborate in and contribute to school improvement;
- demonstrate knowledge of responsibilities and policies related to the teaching profession.

---

**Master in Elementary Teaching (MIT):**

**Teaching (K–8), Master of Education in Education (M.ED.)**

MIT Elementary Teaching (K–8)—earn certification + M. Ed.: a program designed for those candidates who desire an M.Ed degree and a Washington residency teaching certificate for teaching in the elementary grades.

This program is available to candidates who hold a bachelor’s degree in an area other than education interested in receiving both a MEd degree and a residency teaching certificate for teaching in the elementary grades.

**Prerequisites for this program are**

- Introductory speech course (CMST 200, or an approved equivalent).
- Passing of MATH 211 of equivalent.
- Passing of the WEST-B (Washington Educators Skills Test–Basic).
- Contact www.west.nesinc.org for test information. Satisfactory SAT or ACT scores may waive all or part of the WEST-B requirement. Please see an advisor in the education department.

**Highly recommended**

- Three natural science courses (BIOL 115 or PHYS 115, GEG 115/GEOL 115) and three social studies courses (HIST 110, HIST 104 or HIST 106, GEG 101 or GEOL 230).
- Elementary Teaching with Certification candidates go through a pre-approval interview process and complete a year-long internship in an elementary school.
- All candidates for certification must pass an elementary education WEST-E test to receive an endorsement for certification purposes.

**Additional courses must be completed for certification:**

- ART 390, EDUC 308, EDUC 508, MUSC 450, PHED 390, SPED 363.

Master in Teaching (MIT): Secondary Teaching (5–12), Master of Education in Education (M.ED.)

MIT Secondary Teaching (5–12)—earn certification + M.Ed.: a program designed for those candidates who desire an MEd degree and a Washington residency teaching certificate for the middle school, junior high and high school.

This program is available to candidates who hold a bachelor’s degree in an area other than education, did not previously take teaching certification coursework and are interested in receiving both an MEd degree and a residency teaching certificate for teaching in the middle school, junior high and high school. Candidates for this program must have an endorsable teaching major that has been approved by an Eastern Washington University academic department. Effective 9/1/09 all candidates for certification must pass a WEST-E subject matter test to receive an endorsement for certification purposes.

Prerequisites for this program are

• Introductory speech course (CMST 200, or an approved equivalent).
• At least 90% of the endorsable teaching major must be completed.
• Successful completion of the WEST-B (Washington Educators Skills Test-Basic). Contact west.nesinc.org (http://www.west.nesinc.org) for test information.
• Secondary Teaching candidates go through a pre-approval interview process and complete a year-long internship in a middle or secondary school. Satisfactory SAT or ACT scores may waive all or part of the WEST–B requirement. Please see an advisor in the education department.

Additional courses listed below must be completed for certification

• EDUC 309 Foundations of Secondary Classroom Management (3)
• EDUC 341 Secondary Strategies, Management, Assessment (4)
• EDUC 413 Content Area Literacy, Management Assessment for Secondary Education Candidates (4)
• SPED 363 Introduction to Special Education (4)
• Secondary Methods Class from Major Department (3–5)

Undergraduate Programs
The study of English offers a variety of exciting degree and career choices. At the heart of our programs is a passion for critically, creativity, and professionally understanding and using the English language. The literature option emphasizes the understanding of great literary works and the writing of analytical essays. It develops and refines speaking and writing skills through critical examinations of literary text. The creative writing option emphasizes artistic expression. It builds the skills needed to produce imaginative and inspired, publishable poetry, fiction, and creative non-fiction. The English education major focuses on preparing students for professional careers as technical writers. It develops the skills needed to create, write, and design information to support products, organizations, and people in a technology rich society.

In addition to its major degree programs, the Department of English offers undergraduate minor and endorsement programs for those with majors other than English who wish to enrich and expand their studies. Minors in literary studies, English education, and technical communication offer opportunities for intellectual exploration and for enhancing future career choices and success. The department also offers a range of options for studies at the graduate level for those who seek greater intellectual challenges or academic careers.

Traditional and Non-Traditional Career Paths for English Majors
For the major, the curricula in English are specifically designed to help prepare students in the following fields: creative writing; technical communication; education; and advanced studies in language and literature. In addition to professional careers in education and technical communication, the discipline of English is one of the most recommended pre-professional majors: the development of verbal skills, especially written expression, is of great importance to students planning graduate work in government, business, law or librarianship.

Students with general career goals already in mind should contact the director or co-director of the program in which they may concentrate. This contact should be made as soon as possible to develop a plan of study best suited to the student's individual interests and needs.

Students who are unsure of their career goals are invited to discuss their interests with the chair or any other Department of English faculty member.

Programs closely related to English include the Humanities, Journalism, Linguistics, and Religious Studies. These programs, as well as their degree and course offerings, are listed individually in this catalog.

Special Recognition of Outstanding English Majors
Two of the university's most prestigious academic scholarships are offered by the Department of English. The Tieje and Kleiner scholarships are awarded to English majors at the end of their junior years for use in their senior years and represent a major portion of a student's yearly expenses. Outstanding students are nominated each spring quarter by English department faculty.

General Admissions Requirements for English
ENGL 201, or equivalent satisfaction of university proficiencies in writing, is a prerequisite for all 300- and 400-level English courses. Admission into a specific major program requires the completion of a set of departmental pre-major requirements. Students intending to major in any English program must complete the appropriate pre-major before enrolling in any 300- or 400-level English course except with the approval of the chair; otherwise, students are subject to disenrollment.

Common Departmental Pre-Major
Complete ENGL 201, or equivalent, with a grade ≥2.5. English majors are encouraged to register for one of the following to fulfill humanities list one: HUMN 210 and HUMN 211.

Specific programs may require a writing sample or an additional course in their pre-major beyond the common departmental pre-major requirements given above.

Pre-Major Admission Procedure for English
Students intending to major in English should contact the department chair or a program director for an initial interview and to fill out the major declaration form. Students then meet with a faculty advisor of the program they wish to enter.

Undergraduate Degrees
Bachelor of Arts (BA)
- English - Creative Writing Option (p. 146)
- English - Literary Studies Option (p. 147)
- Technical Communication (p. 150)

Bachelor of Arts in Education (BAE)
- English Education-Secondary (p. 146)

Undergraduate Minors
- English (p. 148)
- Technical Communication (p. 151)

Teacher Certification/Add-on Endorsements
- English/Secondary Minor or English/Add-on Endorsement (p. 148)
Foreign Language Requirements for English
Two years of a single foreign language in high school or one year of a single foreign language at the college level is required for graduation with a BA major in Creative Writing, Literary Studies or Technical Communications.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Degrees
Master of Arts (MA)
• Emphasis in Literature (p. 147)
• Emphasis in Rhetoric and Technical Communication (p. 148)
• Emphasis in Teaching English as a Second Language (p. 148)

Master of Fine Arts (MFA)
• Creative Writing (p. 145)

Graduate Certificates
• Teaching of Literature and Post-Master’s Certification in the Teaching of Literature (p. 149)
• Teaching of Writing and Post-Master’s Certification in the Teaching of Writing (p. 149)

Graduate Programs
This degree program prepares students for careers as professionals and post-secondary educators as well as for further study in doctoral programs. Students complete core courses that focus on research, writing, and professional preparation (foundational courses for a certificate in the teaching of writing). In addition, students complete one of the program’s three professional emphases:

Literature—Judy Logan
Rhetoric and Technical Communication—Teena Carnegie
Teaching English as a Second Language—Lavona Reeves

The literature emphasis provides students with further exposure to a wide variety of literary works and allows for more in-depth study, analysis, and application of a range of critical perspectives. Students conduct original research, determine the value of a wide spectrum of sources, both print and electronic, and sharpen their writing and editing skills. Students engage intellectually in the complex historical and cultural issues that contribute to a text’s production, and synthesize ideas and critical positions in researched essays and seminar presentations. A thesis and a comprehensive examination are a part of the program, and students may intern in teaching both literature and composition.

The RTC emphasis provides students with theoretical and applied knowledge in academic, professional and technical discourses. Students explore interrelationships between rhetoric and technical communication within social, technological and cultural contexts to prepare for careers in public and private sectors, as well as further study in doctoral programs. Students complete core courses in rhetoric, research and technical communication. The program curriculum may include studies in the theory and practice of information design, genre, usability and discourse analysis.

The TESL emphasis prepares pre-service and in-service teachers of English as a second language (ESL) or English as a foreign language (EFL) to teach second language literacy, culture, and communication skills. The program is primarily designed to prepare secondary and post-secondary teachers in a variety of settings and can also serve as preparation for doctoral studies. The emphasis includes all course work recommended for ESL teacher preparation by the national professional organization: Teaching English to Speakers of Other Languages (TESOL). Courses can be applied toward the state endorsement in ESL.

Admission Requirements
All applicants for a Master of Arts in English must:
• declare one of the three professional emphases as their primary area of study,
• submit an 800–1,000 word expository essay explaining what in their background (formal education, professional experience, personal life, as appropriate) has led them to apply to that particular professional emphasis and what they hope to accomplish by completing an English degree in that area, and
• submit two letters of recommendation.

In addition, applicants for literature and RTC must submit (1) scores for the Graduate Record Exam (GRE) General Test and (2) a sample of their best writing (literature applicants should submit an academic essay; RTC applicants should submit a sample of their strongest professional/ technical writing).

In addition, all TESL applicants whose first language is not English must arrange for an interview with the TESL graduate program coordinator, either in person or by telephone.

International applicants must submit a TOEFL score of at least 580 (237 CBT or 92 TOEFL iBT), a PTE Academic score of at least 63 or an IELTS score of at least 7.0. Applicants with a bachelor’s degree from an accredited U.S. university are not required to submit English language scores.

An applicant with a TOEFL score between 550 (213 CBT or 79 TOEFL iBT) and 579 (233 CBT or 91 TOEFL iBT) may be admitted conditionally upon having a program of English language study approved by the TESL graduate program coordinator and the coordinator of the applicant’s declared emphasis (if other than TESL).

Note: students are admitted into the program based on the emphasis declared. Students who wish to change emphasis after being admitted to the program must submit all required application materials to the coordinator for the new emphasis. Students may only declare a change in emphasis with approval of the new emphasis coordinator.

Teaching Assistantships (GSAs)
The program offers a number of teaching assistantships. Our assistantships are highly competitive. Applicants who wish to be considered for teaching assistantships must submit an additional application and letter in which they describe their interest in and prior experience with teaching. (Note: GRE or TOEFL (or equivalent) scores are required for all GSA applicants who have not previously completed master’s degree.) Applications must be submitted by February 15. Teaching assistantships are awarded (for the following academic year) beginning in March and usually ending in May. Incomplete applications will NOT be considered for teaching assistantships.

Completion Requirements
Toward the conclusion of the MA degree program, students must write a thesis (ENGL 600) or professional essays in literature or a professional project in RTC (ENGL 601). Literature students must pass a comprehensive examination in their second year of the program (winter
term for Literature). Candidates must be registered for at least two 600 or 601 credits in the quarter in which they intend to graduate.

**Language Requirement**

Note: foreign language requirement can be completed concurrently with completion of MA in English graduate course work.

TESL students must demonstrate a competence in a foreign language at a level equivalent to completion of one year of college foreign language.

Note: applicants whose first language is not English and who have demonstrated appropriate competence in English are deemed to have met the language requirement.

**Competence in a foreign language may be demonstrated as follows:**

- completion of one year of a foreign language or American Sign Language (official transcript required) or a certificate of completion of a program of study in a recognized language institute, college, or university, or a program of study approved by the TESL coordinator;
- passing a standardized test (official scores must be presented to TESL coordinator) or a written or oral test arranged with the Department of Modern Languages at EWU;
- students may also satisfy the foreign language requirement by successfully completing ENGL 530 Old English, with a grade ≥3.0.

**Creative Writing, Master of Fine Arts (MFA)**

Jonathan Johnson/Greg Spatz, Program Directors

425 ROB

509.359.4955
gspatz@ewu.edu

The Master of Fine Arts Program is an intensive, two-year, pre-professional course of study with an emphasis on the practice of literature as a fine art. The program includes coursework in the study of literature from the vantage point of its composition and history, but the student’s principal work is done in advanced workshops and in the writing of a book-length thesis of publishable quality in fiction, literary nonfiction or poetry. The MFA is a terminal degree program.

**Admission Requirements**

Applicants must take the Graduate Record Exam (GRE) General Test and submit the following documents with the application form: a writing sample consisting of 10–20 pages of poetry and/or 15–25 pages of prose, an 800-word letter stating the applicant’s reasons for pursuing the MFA and two letters of reference.

Applicants for teaching assistantships must write an additional letter in which they describe their interest in and prior experience with teaching. Applications for Teaching assistantships must be submitted by February 15. Teaching assistantships are awarded in March for the following year. No applicant can be considered for a teaching assistantship until all documentation (completed application, GRE scores, writing sample, letters of recommendation and other written materials) has been received.

Note: in order for the department to receive the GRE scores by mid-February, applicants must take the GRE no later than the previous December.

**Completion Requirements**

1. Students should spend six quarters in residence.

2. A student should concentrate in one of the following areas: Poetry, Fiction, Literary Nonfiction. Students, however, are expected to take coursework in areas other than the one in which they concentrate.

3. In consultation with a thesis advisor, each student will compile a list of fifteen books to augment the reading done in coursework. A portion of the oral examination, held near the end of each student’s term of study, will be devoted to questions about this list and works covered in required form and theory literature courses.

4. Each student must submit a literary thesis of substantial length and publishable quality. The thesis will be reviewed in the oral examination.

**Required Courses**

<table>

</tr>
</thead>
<tbody>
<tr>
<td>CRWR 517</td>
<td>GRADUATE WRITING WORKSHOP: FICTION, POETRY, LITERARY NONFICTION, DRAMA, SCRIPTWRITING OR TRANSLATION (Note: this course may be repeated for credit; students should take one workshop from outside the major area.)</td>
<td>20</td>
</tr>
</tbody>
</table>

**Literary Form and Theory Courses**

Choose one Literature course from outside the major area 5

Choose one series—in student’s major area of study 15

**Fiction**

- CRWR 583 FICTION I—THE NOVEL
- CRWR 584 FICTION II—THE SHORT FORM
- CRWR 585 FICTION III—THE CONTEMPORARIES

**Non-Fiction**

- CRWR 586 LITERARY NONFICTION I—ANCIENT ROOTS THROUGH THE 19TH CENTURY
- CRWR 587 LITERARY NONFICTION II—20TH CENTURY AND BEYOND
- CRWR 588 LITERARY NONFICTION III—SELECTED TOPICS

**Poetry**

- CRWR 589 POETRY I—BACKGROUND AND THEORY
- CRWR 590 POETRY II—THE MODERNS AND MODERNISM
- CRWR 592 POETRY III—CONTEMPORARY WORLD POETRY AND POETICS

**Thesis**

- CRWR 600 THESIS 15

**Electives in creative writing, literature and/or a secondary emphasis** 17

Note: variations are possible following consultation with student’s program advisor.

Total Credits 72

**Student Learning Outcomes—students will**

- develop advanced understanding of the publishing process;
- develop familiarity with advanced formal and technical aspects of foundational literary works from the tradition and selected contemporary works in that genre. This knowledge will be evident both in students’ critical responses and in students’ own creative works;
- demonstrate advanced ability to exercise self-criticism and to offer insightful, supportive and productive criticism to others. Part of this can be construed as students’ development of editorial capacities, but part of it must be the development of a capacity to foster their own and others’ continued artistic development through critical reading.
**English Education-Secondary, Bachelor of Arts in Education (BAE)**

This major satisfies the endorsement for grades 5–12.

Note: see the Education Department for prerequisites, core requirements and additional SLOs.

**Recommended:**

- ENGL 408, ENGL 459 and ENGL 493 are prerequisites for ENGL 490 and cannot be taken concurrently with it.
- ENGL 408: THE COMPOSITION PROCESS
- ENGL 459: GRAMMAR FOR TEACHERS
- ENGL 490: SENIOR CAPSTONE (please see your advisor for availability and the appropriate section)
- ENGL 493: TEACHING LITERATURE TO ADOLESCENTS

**Electives—two or more 300- or 400-level literature courses—choose in consultation with departmental advisor.**

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- reflectively assess their own ongoing development as teachers of English/Language Arts;
- demonstrate their competence in established national standards (such as the guidelines of the National Council of Teachers of English) in content knowledge, pedagogical knowledge and professional disposition.

**English Major with Creative Writing Option, Bachelor of Arts (BA)**

Creative Writing is a studio program designed to help students publish their artistic work. It is not intended to prepare a student for a specific career; however, our creative writing graduates, while publishing artistic work, have found diversified careers in editing, publishing, grant writing, teaching, professional schools and many fields less directly related to their writing abilities. Courses in technical communications are complementary to these career interests.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Students in the Creative Writing option are encouraged to register for 5+ credits from the following list of General Education Core Requirements:

- HUMN 210 or HUMN 211 for partial fulfillment of their GECR in Humanities unless students have DTA degrees from an approved community college.

English Major with Literary Studies Option, Bachelor of Arts (BA)

Literary Studies is a liberal arts program. It often is recommended as a pre-professional program and is the most appropriate concentration for those students hoping to pursue the study of language and literature at the doctoral level. Many students pursue this concentration for personal enrichment or in preparation for other types of careers or professional schools. Literary Studies majors are generally successful wherever verbal and analytical skills are important.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Pre-Major Requirements

Note: ENGL 270 and ENGL 271 requires a minimum grade ≥2.5 in each course and a ≥3.0 average for the two courses together.

Note: see admission requirements for remaining requirements for the common departmental pre-major.

ENGL 270 INTRODUCTION TO FICTION 5
ENGL 271 INTRODUCTION TO POETRY 5

Department Core

ENGL 340 SURVEY OF BRITISH LITERATURE I 5
ENGL 341 SURVEY OF BRITISH LITERATURE II 5
ENGL 342 SURVEY OF BRITISH LITERATURE III 5
ENGL 343 SURVEY OF AMERICAN LITERATURE I 5
ENGL 344 SURVEY OF AMERICAN LITERATURE II 5
ENGL 350 SHAKESPEARE 5

Required Literary Study Option Courses

ENGL 273 CRITICAL METHODOLOGIES 5
ENGL 360 LANGUAGE STRUCTURE AND USE 5
ENGL 490 SENIOR CAPSTONE 5

Select one of the following

ENGL 385 MYTHOLOGY 5
ENGL 387 LITERATURE OF THE BIBLE 5

Select two or more seminar courses from the following 10

ENGL 436 SEMINAR IN LITERATURE I: MAJOR AUTHORS 5
ENGL 437 SEMINAR IN LITERATURE II: STUDIES IN GENRE 5
ENGL 438 SEMINAR IN LITERATURE III: LITERARY ERAS 5
ENGL 439 SEMINAR IN LITERATURE IV: SPECIAL TOPICS 5

Elective—select one 400-level literature course 5

Total Credits 75

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• demonstrate adherence to disciplinary conventions, including grammar, mechanics and appropriate citation style;
• compose sophisticated arguments that are well organized and supported;
• develop essential skills of close reading, effective writing, and critical thinking;
• demonstrate a knowledge of a breadth of literary texts, cultures, and time periods.

English with an Emphasis in Literature (MA)

English/Secondary Minor or English/ Add-on Endorsement

Minor for undergraduates, this minor satisfies the endorsement for grades 5–12.
Add-On Endorsement for post-baccalaureates students who currently possess a Washington State Teaching Certificate.

Notes:

- minimum grade point average requirements for the English Secondary Minor and the English Add-on Endorsement are consistent with those required by the English Secondary Major and the minimum grade point for the primary add-on endorsement is ≥3.0 in ENGL 408, ENGL 459 and ENGL 493;
- ENGL 408, ENGL 459 and ENGL 493 are prerequisites for ENGL 490 and cannot be taken concurrently with it;
- students are encouraged to select HUMN 210 or HUMN 211 for partial fulfillment of the GECR in Humanities unless they have an AA degree from an approved community college or a completed BA degree.

Teaching of Literature and Post-Master’s Certificate in the Teaching of Literature, Certificate

Judy Logan, Program Director
509.359.6035

This program is designed for individuals who already have or are working on Master’s Degrees and have significant experience in education, composition/rhetoric, TESOL or technical writing. Documentation of the graduate degree or program in progress and relevant prior experience is required for admission.

Individuals with Master’s degrees in hand often discover that in order to teach literature at the community college level they need some coursework in literature and experience in the teaching of literature. This is particularly true of those with degrees in Rhetoric and Composition because many schools now use literature to teach composition and most who teach composition at the community college level are also expected to teach introductory literature courses. This certification program addresses the needs of these people.

Program Prerequisites: ten quarter or six semester college or university credits in literature and a graduate degree or current graduate-student status in a related program (education, composition/rhetoric, TESOL or technical writing [or literature, if the student has no teaching experience]).

Required Certificate Courses

<table>

</table>

Total Credits 20

Student Learning Outcomes—students will

- demonstrate careful reading of a text and explicate a text using a range of literary theories and critical methodologies;
- reflectively assess their own ongoing development as writers and teachers.

Teaching of Writing and Post-Master’s Certificate in the Teaching of Writing, Certificate

Justin Young (jayoung@ewu.edu), Program Director
509.359.7062

EWU graduate students in good standing who intend to pursue college teaching careers may complete the Certificate in the Teaching of Writing program while working toward their graduate degrees. The Certificate program provides an education in composition theories and pedagogies, including areas of curriculum development, assessment practices, research design, grammar instruction and teaching and/or tutoring. Credits earned as part of the certificate program may also be counted toward students’ graduate requirements upon approval from their advisor.

Any course substitutions must be approved by the current English Composition director before being submitted to the Graduate Programs Office.

Total Credits 28-30
Student Learning Outcomes—students will

- design curricular materials for composition classes or writing centers;
- develop assessment strategies for evaluating and responding to writing and readers;
- learn the methods of research design;
- develop strategies for teaching grammar and syntax;
- practice teaching composition in a classroom or responding to writers in a writing center.

Technical Communication, Bachelor of Arts (BA)

Technical Communication is a professional program designed to prepare students for a career as a technical writer. Technical writers develop, edit, and manage a range of professional documents, including instructional manuals, catalogs, promotional materials, newsletters, organizational policies, websites, training materials, and grant proposals. Because of the diverse nature of the profession, students will need to develop a broad base of professional writing skills, including work in publishing, editing, and information design. Students also choose from two options: one focusing on graphic design and public relations, and the other focusing on information systems (databases) and web development. As part of this program, students will complete a professional internship, requiring at least 200 hours of supervised work in a business, industry or agency related to the student’s academic preparation and career goals. Students will also develop basic computer literacy, including working knowledge in desktop publishing and web design practices.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- analyze communication problems and propose effective and ethical solutions by clearly identifying and describing the problem and its context, the stakeholders and audiences involved, and the possible outcomes and consequences;
- plan and manage team projects by identifying tasks, creating a timeline for task completion, assigning tasks to individuals, and reporting plan and progress to supervisor/client;
- conduct productive research by determining scope of inquiry, identifying credible and useful sources, collecting and assessing data, and arranging data into logical and considerate structures;
- write, design, and edit a variety of professional documents, both print and electronic, using the principles of information design to create useful documents that address audiences’ information and organizational needs and engage users in appropriate action;
- locate, create, design, edit, and present information, using efficiently a variety of standard technologies;
- copyedit and proofread quantitative and technical information, reference citations, illustrations, and tables using the established symbols and conventions, style sheets, and correct grammar, mechanics, punctuation, and spelling.
Technical Communication, Minor

The Technical communication Minor is a strong addition to any major. The set of communication skills offered will work well in a variety of professional contexts, enabling students from any discipline to communicate effectively and thereby excel in their careers.

Note: The prerequisite for TCOM 205 is ENGL 201. Students transferring to Eastern Washington University may need to take ENGL 201.

The English Language Institute is a program focused on helping students improve English language skills in order to participate in academic programs. The curriculum is for non-native speakers of English. After receiving recommendation from the ELI faculty, admissible students can matriculate directly into undergraduate studies at EWU. With the ELI faculty recommendation, students may also enter the Graduate Preparation Program or MBA Preparation Program as a step into graduate studies.

The ELI is fully accredited by the Northwest Commission on Colleges and Universitite (NWCCU) and agrees to uphold the NWCCU Standards for English Language Programs. The ELI is also a member of UCIEP, a consortium of University and College Intensive English Programs in the USA, AAIEP, American Association of Intensive English Programs and NASFA, National Association of International Educators.
English as a Second Language

Gina Mikel Petrie, Program Coordinator
133H Patterson Hall
509.359.6124

Undergraduate Minors

- English as a Second Language (p. 153)

Undergraduate Program

The Teaching of English as a Second Language program (TESL) is offered as a minor in cooperation with the Departments of English and Anthropology. This program works closely with Spokane area English language programs through academic service learning to provide opportunities to put theory into practice in purposeful ways. Completion of either ANTH 445 or ENGL 360 before taking ESLG 480 or permission of the instructor is a prerequisite.

The minor in English as a Second Language is designed for teacher preparation for employment in the U.S. (English as a Second Language) and overseas (English as a Foreign Language). Students are prepared through the examination of fundamentals of linguistics, second language acquisition and culture. An understanding of methods and assessment is built upon this theoretical basis. A practicum experience enables students to put theory into practice. This program is designed as a sequence through an academic year but can be taken over multiple years.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

English as a Second Language, Minor

This minor satisfies the endorsement for preschool to grade 12.

Pete Porter, Chair
107 RTV Building
509.359.6390

Faculty
Drew Ayers, Sara E. Goff, Shana Joslyn, Elisha Miranda, Chase N. Ogden, Peter S. Porter, Jeffrey A. Sanders, Marvin E. Smith.

Undergraduate Degrees
Bachelor of Arts (BA)
- Film (p. 154)

Undergraduate Minors
- Film (p. 154)
- Film Studies (p. 155)
- Screenwriting (p. 155)

Undergraduate Program
The Film program prepares students for creative roles in the filmic arts. The 81-credit program provides intensive experience in production and writing as well as film history, theory, and criticism. Graduates write a classically structured, feature-length screenplay and complete an advanced production project or a theory/criticism project. A faculty-student panel reviews both the screenplay and the project as a part of the Senior Capstone experience.

The Film program requires a very specific sequence of courses and admission to the program is restricted to fall quarter. Failure to complete courses as they are offered will result in a significant delay in progress toward graduation because most courses are offered only once a year. Students should declare their major status no later than the fall quarter that they intend to begin their major in FILM and to consult with the department chair about the program and its requirements. Students are encouraged to complete all, or nearly all, of their GECR courses before beginning the Film program.

The Film Program provides students with audio and video editing suites, field production equipment, and a variety of production facilities.

The location of the campus in proximity to Spokane, a center of motion picture production, allows students to participate in internship programs in a wide range of communication settings.

Transfer Requirements for Film
Students must enter the program in the fall quarter. Students should make application for major status prior to the fall quarter that they intend to begin their major in FILM and consult with the department chair on transferability of courses. Transfer students, including students with AA degrees, must complete FILM 214 no later than their first fall quarter in the program.

Foreign Language Requirements for Film
Two years of a single foreign language in high school or one year of a single foreign language at the college level is required for graduation with a BA major in FILM.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Graduate Program
The Department of Theatre and Film does not offer a graduate degree but does cooperate in the Master of Science in Communications and in individualized interdisciplinary programs. The MS in Communications program is also described elsewhere in this catalog. Proposed interdisciplinary programs must be developed in consultation with a Theatre and Film advisor and submitted in compliance with requirements listed under Interdisciplinary Graduate Programs.

Note: any student enrolling in upper-division courses must be an FILM major or have permission of the instructor.

Film General, Minor
Note: students may complete this minor in one year beginning in a fall quarter if prerequisites are met upon entering the program

Undergraduate Degrees

Bachelor of Arts (BA)
- Humanities (p. 156)

Minors
- Humanities (p. 156)

Undergraduate Programs

Study of the humanities is distinguished by an interest in the human aspect of all knowledge. The humanities are therefore broad in nature and a variety of individual programs can be designed for students who want a non-vocational, liberal arts background.

Each student majoring in humanities is expected to give careful attention to the relationships among the courses chosen for major and supporting purposes and he or she should consult with the program coordinator frequently regarding the most effective means for achieving a synthesis.

The following distribution requirements are expected to meet the needs of most students; other patterns may be developed with approval of the program coordinator. In addition to the courses listed below, individual study of the classical languages, Greek and Latin, may be arranged.

The Humanities program offers two minors—a 20 credit minor in Humanities proper and 21–25 credit minor in Religious Studies.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Humanities Major, Bachelor of Arts (BA)

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required;
- 64 credits must be earned in courses not used for GECRs;
- because this is an interdisciplinary major, all students are required to consult with the program coordinator when selecting courses for the above major.

Required Courses

Fine Arts—choose two or three courses from the following 10
Art Department and/or Music Department and/or Theatre Department

Literature—choose two or three courses from the following 10
English Department and/or Modern Languages and Literatures Department and/or Humanities

Philosophy—choose at least two courses from the following
Department of Philosophy and/or Humanities

Social Sciences—choose two or three courses from the following 10
Geography/Anthropology Department (courses in anthropology) and/or Economics Department and/or Government Department and/or History Department and/or Psychology Department and/or Sociology Department

Electives required in the major 20
Choose any HUMN courses not used for GECRs. These courses may be taken from the participating departments’ offerings or from the Humanities program itself. Consult with the program coordinator.

Capstone

HUMN 491 SENIOR THESIS 4
or ITGS 400 INTERDISCIPLINARY SR CAPSTONE

Total Credits 64

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- learn to distinguish basic forms and strategies of philosophy, literature and at least one of the arts and of the social sciences;
- recognize significant steps in the development of Western Civilization, not only how values have developed internally, but also the ways in which new values have entered the culture from other civilizations;
- write clear and effective English in a variety of rhetorical contexts;
- use the different areas and functions of a library and demonstrate practical use of information resources in simple but independent research;
- learn how useful interpretations arise from differing experiences and information, especially from those who are different in age, abilities, ethnicity, gender or sexual orientation;
- learn the values of intellectual honesty, personal responsibility and the habits of active rather than passive learning.

Humanities, Minor

A Humanities minor is designed for students who wish to broaden and deepen their understanding and skills in selected areas of the traditional liberal arts.

Notes:

- students should seek prior approval of the program coordinator for course selections;
- HUMN courses emphasize analysis, history and theory of a subject;
- practicums, workshops, internships, studio and applied courses are usually not applicable.

Required Courses—in addition to courses used for GECRs 20
Choose from at least two of these areas: Fine Arts—Literature—Philosophy
Select 5 credits, elective, in one of the three areas listed above or in another area of study (e.g., social sciences)
At least 10 credits must be at the 300-level or above
No more than 10 credits may be counted from any one department except HUMN

| Total Hours | 20 |
Undergraduate Degrees
Bachelor of Arts (BA)

- Journalism Major News Editorial Option (p. 158)

Bachelor of Science (BS)

- Journalism: Public Relations (p. 159)

Minors

- Journalism (p. 159)

Undergraduate Programs

The Journalism Program is designed to prepare students for journalism careers in news reporting, public relations and public information.

Few careers demand a more varied body of knowledge than does journalism. Journalists today are constantly working with far-ranging and complex issues. The journalism curriculum at Eastern recognizes that the profession is both a discipline of its own and yet a fusion of many disciplines in our culture.

Program Admissions Requirements

Transfer students should contact a Journalism Program advisor during their application to the university. Freshmen and sophomores should try to complete their GECRs during their first two years. They are encouraged to take JRNM 100. Freshmen and sophomores should contact the Journalism Program’s advisors to identify those courses needed to prepare for their selected degree option. Completion of ENGL 101 and ENGL 201 are required for admission to the Journalism Program.

Because journalism courses build upon one another and most are not repeated during the year, it is recommended that students begin study in the fall.

The BA News–Editorial Option prepares students for roles in print and electronic journalism.

The option in Public Relations provides students with the theoretical and applied knowledge and skills required to enter the field of public relations, community relations and allied disciplines.

Internships

Students completing the News-Editorial Option are encouraged to complete an internship. Those completing the Public Relations Option are required to complete an internship.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.
• understand local government and the public policy process;
• be a critical and analytical observer of the American public policy process;
• know how to observe and write efficiently and clearly about public events and public issues.

**Journalism: Public Relations Major, Bachelor of Science (BS)**

The Journalism Program participates in an interdisciplinary major in Public Relations. Requirements for the major, when taken under the Journalism Program, are listed below; requirements for a similar major, when taken under the Department of Communication Studies, are listed under that department. The major provides the graduate with the theoretical and applied knowledge and skills required to competently enter the field of public relations in either the profit or not-for-profit sectors.

Note: a minor in Technical Communication is recommended.

Undergraduate Minor
  · Linguistics (p. 160)

Undergraduate Program

Linguistics is a broad-based discipline concerned with the study of language. The minor in linguistics is an interdisciplinary program designed for students who require a background in this field as part of their baccalaureate preparation in an allied discipline. It is also intended for those students, regardless of their major, who have a general interest in language and linguistics.

Required courses in the following programs of study may have prerequisites. Refer to the course description section for clarification.

Linguistics, Minor

Note: 1-5 credits in Modern Languages and Literatures courses, as approved by the program advisor, may be applied toward meeting the requirements of the linguistic minor.

The Department of Modern Languages and Literatures offers full major programs in French and Spanish, leading to the Bachelor of Arts and the Bachelor of Arts in Education. Minor programs in German and Japanese are also available. Graduate work leading to the Master of Education in modern languages and literatures is in Patterson Hall, suite 133. The reception number of the department is 509.359.2481. The phone numbers and email addresses of the chair and program faculty are also available on the university’s website.

Placement in Language Courses
When students enroll first enroll in a language course they should follow the guidelines below. If they are in any doubt about appropriate placement, they should consult with their teachers during the first day or two of the quarter.

The Department of Modern Languages and Literatures recommends that students complete the equivalent of at least two years of university language study before taking advantage of a study abroad program.

Summer study abroad programs are available in France at the University of Nice, and in Spain at the Colegio Delibes. Eastern also has established student exchanges with one or more universities in Australia, Japan, Mexico and Germany (as well as with several universities where English is the language of instruction). Since there are often such programs in the development stage and since students have access to the study abroad programs of other American universities as well, students who are interested in exchange opportunities should check with Modern Languages and Literatures and with the Study Abroad Office for the latest information.

Grade Requirement for Majors and Minors: cumulative average ≥2.50.
Practical Values:
- the instruction of basic, intermediate and advanced foreign or second language skills allows students to acquire practical knowledge in the speaking, listening comprehension, reading and writing of the target language.

Intellectual Values:
- through all levels of learning in language and literature programs the student pursues;
- an understanding about the phenomenon of language,

Enhanced Skills for Majors and Minors:
- the instruction of basic, intermediate and advanced foreign or second language skills allows students to acquire practical knowledge in the speaking, listening comprehension, reading and writing of the target language.

Aesthetic Values:
- the study of the literature and of other creative forms of human expression associated with a given national culture promotes greater discrimination and greater enjoyment in aesthetic experience.

Cultural Values:
- the language, literature and culture courses within the language program promote;
- the knowledge and appreciation of cultural history and
- the awareness of the ideas, manners, customs, skills and other cultural attributes that define a particular people as well as a sensitivity to the phenomenon of cultural diversity.

Study Abroad Opportunities
The Department of Modern Languages and Literatures promotes several kinds of values within the academic community and the pursuit of these values constitutes, in a broad sense, the educational mission of the department.

The state of Washington has established equivalency standards for high school and college/university language instruction. Under those official standards, one year of high school language study equals one quarter of university study; two years of high school equal two quarters.
at university; three years high school equal the entire first-year college/university sequence.

The following guidelines show where students should begin university study, according to their high school language background. Students ought normally to begin at the highest level indicated. This makes them eligible for maximum Proficiency Placement Credit (see below). They may elect to begin at a lower level and/or be advised to do so for reasons of weak background and/or a considerable lapse of time between high school study and university enrollment.

Students with one year of high school language study should place themselves in a 102 section (normally winter quarter) at EWU. After completing 102, they become eligible for proficiency placement credit. They may also elect to begin with 101 (fall quarter).

Students with two years of high school study should place themselves in a 103 section (spring quarter) at EWU. After completing 103 (and additional coursework), they become eligible for proficiency placement credit. They may also elect to begin with 102 (winter quarter), but they must have a written waiver from the Department of Modern Languages and Literatures in order to receive credit if they begin with 101.

Students with three years of high school study should place themselves in a 201 section (fall quarter) at EWU. After completing 201 (and additional coursework), they become eligible for proficiency placement credit. They may also elect to begin with 103 (spring quarter), but they must have a written waiver from the Department of Modern Languages and Literatures in order to receive credit if they begin with 102 or lower.

Students with more than three years of high school study should place themselves in a 201 section (fall quarter) at EWU. After completing 201 (and additional coursework), they become eligible for proficiency placement credit. They must have a written waiver from the Department of Modern Languages and Literatures in order to receive credit if they begin with 103 or lower.

College/University Language Experience
Students who have prior university credit for language study may not repeat equivalent courses at EWU for additional credit. They should continue language study in sequence from the point they ended previous study.

Other Intermediate or Advanced Language Experience
Students who believe that they have attained intermediate or advanced knowledge in a language through previous experience may take the proficiency test offered by a program or otherwise consult the program faculty before or at the time of initial enrollment in language courses. (A separate set of guidelines deals with Proficiency Placement Credit at the second-year level.)

Proficiency Placement Credit
The Department of Modern Languages and Literatures offers proficiency placement credit to students who enter EWU with some prior training and knowledge of foreign languages at the first- and/or second-year levels. These guidelines explain the conditions under which students may receive placement credit for previous language study.

First-Year Language Study
Students who through prior training or knowledge are able to skip 101, 102 and/or 103 classes in any foreign language may receive proficiency placement credit for these classes. To do this, they must complete an equivalent number of credit hours in the language program in question at appropriately higher course levels in the Department of Modern Languages and Literatures at EWU. The maximum proficiency placement credit for first-year study in one language is 15 credits.

Proficiency placement credit for first-year language study does not carry a grade and is not assigned a particular course number, but it does appear on the student’s transcript and does count toward the student’s 180 credit hour requirement for graduation.

Second-Year Language Study
Students who believe that they have attained intermediate or advanced knowledge in a language through previous experience may take the proficiency test offered by a program (or otherwise consult the program faculty for proficiency screening) to determine an appropriate placement. We emphasize that it is extremely important for students in this situation to consult with the program faculty before or at the time of initial enrollment in language courses.

Proficiency placement credit for second-year language study carries a grade of PASS (P) for 201, 202 and/or 203 and is awarded contingent: on passing the proficiency test or other proficiency screening by the program faculty before or at the time of initial enrollment in language courses and on completing a minimum of 5 credits at the 200- and/or upper-division level.

Students who receive a P credit for second-year language study are also eligible for proficiency credit for first-year language study.

A. P. Test Credit
These guidelines to explain how the department awards course credit for students who have scored from 3 to 5 in a given language on the College Board’s Advanced Placement Test.

Students scoring a 3, 4 or 5 may receive credit in French, German, Japanese or Spanish with a grade of P when they matriculate at EWU.

A score of 3 • may receive credit for 201 (5 credits)
A score of 4 • may receive credit for 201, 202 (10 credits)
A score of 5 • may receive credit for 201, 202, 203 (15 credits)

Study Abroad and Core Requirements for Spanish
Students majoring or minoring in Spanish must complete SPAN 310/SPAN 311, SPAN 320 (students going to Latin America)/SPAN 321 (students going to Spain) and GNML 390 on campus. Students staying abroad for more than two consecutive quarters may consult the advisors of the Spanish Program about exceptions to these requirements.

Students studying abroad for less than 10 weeks may have the credits courses transferred but these will not meet major/minor degree requirements with the exception of 2 credits of conversation courses at the advanced level (SPAN 305) and 5 credits of culture/humanities courses (upper division courses) which are valid as electives.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

French/Elementary or Secondary Major, Bachelor of Arts in Education (BAE)

Students may choose either the Elementary or the Secondary Core.

This major satisfies the endorsement for preschool to grade 12.

Notes:

• students who do not have sufficient high school language preparation to begin FREN 201 will require more than 12 quarters to complete the BAE; students who want to have a second endorsement in a minor field will require more than 12 quarters to complete the BAE;
• students preparing for teaching certification in a language should be aware that they will need to pass the ACTFL written and oral tests before beginning student teaching—see the department webpage or contact the department chair or a language program advisor for more information.

Modern Languages, Master of Education (M.Ed)

The Master of Education in Modern Languages allows students to specialize in French only. Individual programs are planned with an appropriate advisor from the Modern Languages Department. This specialization is offered principally for secondary foreign language teachers. Students must follow all of the requirements for the Master of Education.

Note: completion of this degree does not provide certification for teaching in public schools.

New Disclosures Related to Written Arrangements (Sec. 668.43)

Twenty out of 48 credits are earned through coursework at the University of Nice, although students receive EWU credits for these courses.

The University of Nice is located at:
Université Internationale d’Été
All University of Nice courses are delivered in a classroom setting. Several program options are available, including tuition only, tuition and housing, and tuition, housing, and meals. Expenses not covered by the program fee include transportation, texts (generally not required), airport taxes, passport fees, spending money, gifts, incidentals, excursions, etc.

### Required Core Courses

- **EDUC 520** METHODS OF EDUCATIONAL RESEARCH (or alternate as designated) 4
- **Historical, Philosophical and Social Foundations of Education**—choose any two 8
  - **EDUC 502** HISTORY OF AMERICAN EDUCATION
  - **EDUC 503** CONTEMPORARY EDUCATION IN OTHER SOCIETIES
  - **EDUC 505** CURRENT ISSUES IN EDUCATION
  - **EDUC 506** EDUCATIONAL SOCIOLOGY
  - **EDUC 507** PHILOSOPHY AND ORGANIZATION OF THE AMERICAN SCHOOL

### Psychological Foundations of Education

- **PSYC 515** ADVANCED EDUCATIONAL PSYCHOLOGY 4

### French Courses—chosen with the approval of the French advisor

- **SPAN 201** SECOND-YEAR SPANISH 5
- **SPAN 202** SECOND-YEAR SPANISH 5
- **SPAN 203** INTRODUCTION TO ADVANCED SPANISH 5
- **SPAN 310** ADVANCED GRAMMAR AND COMPOSITION 3
- **SPAN 311** ADVANCED GRAMMAR AND COMPOSITION 3
- **SPAN 320** SPANISH CIVILIZATION 5
- **SPAN 321** SPANISH AMERICAN CIVILIZATION AND CULTURE 5
- **SPAN 338** SURVEY OF SPANISH LITERATURE 3
- **SPAN 339** SURVEY OF SPANISH-AMERICAN LITERATURE
- **SPAN 340** INTRODUCTION TO SPANISH LINGUISTICS

### Electives—select courses above SPAN 300

- **SPAN 301** SURVEY OF SPANISH LITERATURE 3
- **SPAN 302** INTRODUCTION TO SPANISH LINGUISTICS

### Total Credits

- **48**

### Student Learning Outcomes—students will

- demonstrate knowledge of the customs and idioms of the language culture under study in order to be able to respond to everyday situations in appropriate ways;
- demonstrate proficiency in the oral language skills of listening and speaking; demonstrate proficiency in writing and reading;
- apply knowledge of the historical background of the language culture under study;
- show conversance in contemporary issues political, economic, social and artistic;
- demonstrate an ability to draw comparisons between the students' native culture and the language culture under study and/or among the cultures of the various regions and nations of the language culture;
- apply knowledge of methods of educational research; psychological foundations of education; and historical, philosophical and social foundations of education;
- demonstrate knowledge of major themes, genres, movements in the history of the literature of the language culture under study; demonstrate an understanding of the interconnectedness of language, culture, history and literature.

### The 45-credit major requires the completion of a minor.

#### Required Courses

- **SPAN 201** SECOND-YEAR SPANISH 5
- **SPAN 202** SECOND-YEAR SPANISH 5
- **SPAN 203** INTRODUCTION TO ADVANCED SPANISH 5
- **SPAN 310** ADVANCED GRAMMAR AND COMPOSITION 3
- **SPAN 311** ADVANCED GRAMMAR AND COMPOSITION 3
- **SPAN 320** SPANISH CIVILIZATION 5
- **SPAN 321** SPANISH AMERICAN CIVILIZATION AND CULTURE 5
- **SPAN 338** SURVEY OF SPANISH LITERATURE 3
- **SPAN 339** SURVEY OF SPANISH-AMERICAN LITERATURE
- **SPAN 340** INTRODUCTION TO SPANISH LINGUISTICS

#### Electives—select courses above SPAN 300

- **SPAN 301** SURVEY OF SPANISH LITERATURE 3
- **SPAN 302** INTRODUCTION TO SPANISH LINGUISTICS

### Total Credits

- **45**

### The 60-credit major does not require the completion of a minor.

#### Required Courses

- **SPAN 201** SECOND-YEAR SPANISH 5
- **SPAN 202** SECOND-YEAR SPANISH 5
- **SPAN 203** INTRODUCTION TO ADVANCED SPANISH 5
- **SPAN 310** ADVANCED GRAMMAR AND COMPOSITION 3
- **SPAN 311** ADVANCED GRAMMAR AND COMPOSITION 3

Faculty

Undergraduate Degrees
Bachelor of Arts (BA)
• Music Major with Liberal Arts Option (p. 172)
Bachelor of Arts in Education (BAE)
• Music: Instrument, Choral, General-Elementary (p. 178)
• Music: Instrument, Choral, General-Secondary (p. 178)

Bachelor of Music (BM)
In programs leading to the Bachelor of Music, the department seeks to provide thoroughly professional training, in addition to the requirements set for the liberally educated student. Options under this degree include majors in performance and composition. This course of study presupposes that the student will have a strong background in musical performance.

• Instrumental Performance Option (p. 171)
• Music Composition Option (p. 173)
• Piano Performance Option (p. 173)
• Vocal Performance Option (p. 174)

Undergraduate Certificates
• Jazz and Commercial Music (p. 171)

Undergraduate Minors
• Music (p. 178)

Undergraduate Programs
The Department of Music is committed to preparing students for a variety of music related careers. It also seeks to provide music instruction and experience for non majors. Its fully accredited degrees and options are offered for students who wish to become performers, composers, conductors, theorists, teachers, or scholars. MUSC 212 Music in the Humanities is open to all students and can be counted toward the General Education Core Requirements (GECRs). Opportunities also exist for private instruction in voice and instruments, as well as participation in musical ensembles—bands, choirs, orchestra, chamber ensembles and opera. Numerous public concerts and recitals are presented throughout the school year by faculty and students of the Department of Music.

The goal of the department is to provide students with musical instruction and experience of the highest possible quality. Our belief is that the study of music significantly enables students to become informed, responsible and appreciative members of a democratic society—which is a professed goal of EWU. We recognize differing needs of those for whom music is to become a profession and those for whom it will be an avocation or a listener’s art.

Facilities
Music students enjoy modern facilities featuring a state of the art piano laboratory with 16 units, 32 practice rooms, electronic music laboratory, five technically-enhanced classrooms and an extensive collection of recordings, scores and music reference materials located in the JFK Library. In addition, the department houses music classrooms, two large rehearsal rooms (vocal and instrumental) and a 250-seat capacity recital hall. The renovated Showalter Hall serves as an additional performance venue, as does the Hargreaves Reading Room.

Opportunities (Scholarships)
The Department of Music has scholarships available to incoming freshmen as well as upperclassmen. For information on audition dates and scholarship details, phone 509.359.2241 or visit our website at ewu.edu/music (http://www.ewu.edu/music)

Employment Outlook or Placement
Our students have fared well in receiving employment following graduation. Students receive employment in music education, music industry, music business and in the field of professional solo or ensemble performing. Though the placement record of graduates of the Department of Music is excellent, employment is not guaranteed just because one receives a degree in music.

Undergraduate Degrees
The Bachelor of Music degree is intended for students planning professional careers as performers or composers. Students entering this major are required to have a high level of competence in their chosen performance area. The Bachelor of Arts in Music is recommended for students seeking general studies in music and/or planning for a graduate teaching degree with certification, or graduate studies in music history and theory.

Performance Concentrations: bassoon, clarinet, euphonium, flute, French horn, oboe, organ, percussion, piano, saxophone, string bass, trombone, trumpet, tuba, viola, violin, cello, guitar, harp and voice.

Accreditation Information
The Department of Music is accredited by the National Association of Schools of Music. The department has been continuously accredited since 1963.

High School and Transfer Student Information
High school students considering a major in music should have a competent level of performance on an instrument or voice. Acceptance to the department is determined by audition. Participation in the school bands, orchestras or choirs is encouraged. Students enrolling as music majors should contact the Department of Music office for advising. This refers to both entering freshmen and transfer students.

Admission Requirements for Transfer Students
Students transferring from community colleges should refer to the EWU Online Transfer Guide at ewu.edu (http://www.ewu.edu). All transfers should have enrolled in a major ensemble (band, orchestra or choir) every term of attendance. In addition, you should have taken music lessons in your major performance area. Each transfer student will be
administered a theory placement exam before classes begin. In some instances students may be required to repeat some theory classes in order to assure success in the music program upper division classes. In addition, transfer students are required to pass a Piano Proficiency Exam or register for MUSC 120 Piano Class. Transfer students may transfer a maximum of 90 credits.

**Major Ensemble Requirement**
All students seeking a major in music are required to participate in a major music ensemble appropriate to their principle area of performance each quarter of their university career except during the quarter of student teaching for Music Education majors. Major music ensembles, course numbers and credits are: MUSE 320 Marching Band (1); MUSE 321 Wind Band, (1) MUSE 322 Symphonic Band (1) MUSE 330 Orchestra (1); MUSE 340 Symphonic Choir (1) and MUSE 341 Concert Choir (1). Music Education majors are required to participate for one quarter in a major ensemble outside their principle area of performance.

**Instruction Requirements and Information for Instrument or Voice**
All students pursuing a major in music are expected to study their primary instrument or voice each quarter in residence with a resident instructor (except during student teaching). Every student who is registered for an applied lesson must be concurrently registered for a major ensemble. At the end of each quarter, students in applied lessons will perform in front of a jury panel made of all the area faculty members. Students seeking upper level applied instruction (300 level and above) must audition for a jury panel and be accepted by that panel by fall of their junior year.

All students must audition for acceptance to the department. Students registered for courses with multiple sections (piano and voice) should contact the instructors prior to pre-registration for correct assignments.

**Convocation and Recital Policy**
Enrollment in MUSC 110 Convocation and Recital Attendance is required of all music majors for 11 quarters. The required number for transfer students will be determined on an individual basis.

**Minimum Grade Standards**
The minimum acceptable grade for any music course required for graduation in all majors offered by the Music Department is ≥2.8. This standard also applies to courses transferred from other institutions.

**Piano Proficiency Exam**
Students must pass a Piano Proficiency Exam as a prerequisite to MUSC 202. Exams are usually taken at the conclusion of the third quarter of MUSC 122. All incoming freshmen and transfer students must take a Piano Placement exam prior to registration. Students may be placed in MUSC 120 or MUSC 121 in order to complete the Piano Proficiency requirements depending on the level. Piano Proficiency Requirements are available outside the piano office room 231.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

**Graduate Degrees**

**Master of Music**
- Composition Emphasis (p. 174)
- Jazz Studies Emphasis (p. 175)
- Liberal Arts Emphasis (p. 176)
- Music Education Emphasis (p. 176)
- Performance Emphasis (p. 177)

**Graduate Program**
Jody Graves, Program Director
232 Music Bldg.
509.359.6119

Students intending to pursue the Master of Music degree program should hold an appropriate baccalaureate degree from an accredited institution. Applicants should submit a writing sample of no less than three pages. Ideally, this will be an undergraduate term paper or other essay that contains references to secondary sources that are cited in an accepted scholarly style. If no writing sample of this type is available, another type of sample is acceptable; examples might include program notes, a statement of teaching philosophy for music education applicants, a statement of creative process for composition applicants or any other demonstration of the applicant’s writing ability. Apart from music education students, all students will also take a personal audition or submit an unedited recording of their performance while education applicants should submit a CV with details of at least two years of teaching experience. Students who are interested in teaching careers, performance careers and business careers in music can design a program to suit their needs. The degree is also designed to prepare the student for further graduate study.

**Admission Requirements/Preparation**
Progress toward the degree will follow the information found in the front of this catalog EWU Graduate Student Summary Guide to Policies and Procedures.

**Final Comprehensive Examination**
All master’s degrees in music require an oral comprehensive exam covering salient matters in the candidate’s coursework and the candidate’s internship, thesis, performance or other applicable research or performance project(s). The exam will be administered by a committee chaired by the candidate’s advisor as assigned by the Department of Music and including another music faculty representative and an outside faculty representative assigned by the Graduate Office. MUSC 600 Thesis, MUSC 601 Graduate Recital and MUSC 602 Final Master’s Project guidelines are in the Department of Music graduate program handbook.

Notes:
- students in Music Education Emphasis should take MUSC 521 Research Design in Music Education.
- students in the Composition Emphasis must take MUSC 556 Music of the 20th Century as one of their Music History courses.
- students in the Jazz Studies Emphasis must take MUSC 557 History of Jazz: Styles and Analysis as one of their Music History courses.
- an off-campus option requires advanced signed approval by the Director of Music Education and successful completion of written report.
• Music Education Emphasis students are required to take MUSC 600 Thesis. Prior to commencing research, a thesis proposal must receive approval from the thesis committee and, if human subjects are involved, by the IRB.

Jazz and Commercial Music, Certificate

The Jazz and Commercial Music Certificate is designed to give the music major/minor access to jazz classes and ensembles and increase their skills for the purpose of performing and teaching jazz. The certificate includes a recital experience to enhance students’ abilities to apply their knowledge in a performance setting. Students will also perform for a jury (pass/fail) on materials provided through the curriculum.

Note, the following are required:

• Jury Piano Fundamental Test (Pass/Fail);
• Jury performance—participation must be approved by the director of the Jazz Program;
• Recital—participation must be approved by the director of the Jazz Program.

Electives at the 300- and 400-level 14

Total Credits 81

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• compose, perform, or teach music effectively;
• demonstrate technical and esthetic understanding of music.
### Music Major with Music Composition Option, Bachelor of Music (BM)

A program with a liberal arts orientation designed to prepare students for teaching at the college level, the composition and presentation of concert music, careers in film scoring and theater/dance work. This course of study presupposes that the student will have a strong background in musical performance. Entry into this degree program is by departmental interview and with the consent of the head of composition studies.

Total Credits  109-113

Note: the above option requires more than 12 quarters to complete at 15–16 credits per quarter.

Music with Composition Emphasis, Master of Music (MM)

Notes:

- all master's degrees in music require an oral comprehensive exam;
- students in the Composition Emphasis must take MUSC 556 Music of the 20th Century as one of their Music History courses;
- many courses must be repeated.
**Music with Jazz Studies Emphasis, Master of Music (MM)**

**Notes:**
- all master’s degrees in music require an oral comprehensive exam;
- students in the Jazz Studies Emphasis must take MUSC 557 History of Jazz: Styles and Analysis as one of their Music History courses.
- many courses must be repeated.

**Required Program Core**

**Music Research—choose from the following**
- MUSC 520 RESEARCH TECHNIQUES AND BIBLIOGRAPHY IN MUSIC
- MUSC 521 RESEARCH DESIGN IN MUSIC EDUCATION

**Music History—choose from the following**
- MUSC 538 TOPICS IN MUSIC HISTORY
- MUSC 551 MUSIC OF THE MEDIEVAL ERA
- MUSC 552 MUSIC OF THE RENAISSANCE ERA
- MUSC 553 MUSIC OF THE BAROQUE PERIOD
- MUSC 554 MUSIC OF THE CLASSICAL PERIOD
- MUSC 555 MUSIC OF THE ROMANTIC PERIOD
- MUSC 556 MUSIC OF THE 20TH CENTURY
- MUSC 557 JAZZ STYLES AND ANALYSIS

**Music Theory/Composition**
- MUSC 560 HISTORICAL ANALYSIS OF MUSICAL STRUCTURE
- MUSC 561 COUNTERPOINT

**Three Quarters of Graduate Ensemble Participation**
Note: an off-campus option requires advanced signed approval by the Director of Music Education and successful completion of written report. These are 1 credit and must be repeated.
- MUSE 520 MARCHING BAND
- or MUSE 521 WIND ENSEMBLE
- or MUSE 522 SYMPHONIC BAND
- or MUSE 530 ORCHESTRA
- or MUSE 540 SYMPHONIC CHOIR
- or MUSE 541 CONCERT CHOIR

**Music Thesis/Recital**
Note: prior to commencing research, a thesis proposal must receive approval from the thesis committee and, if human subjects are involved, by the IRB.
- MUSC 600 THESIS
- or MUSC 601 GRADUATE RECITAL
- or MUSC 602 FINAL MASTER’S PROJECT

**Required Composition Emphasis Core**
- MUSC 529 APPLIED LESSON (must be repeated for three quarters)
- or MUSC 530 INSTRUCTION ON INSTRUMENTS OR VOICE
- MUSC 510 ADVANCED CONDUCTING
- MUSC 565 ADVANCED ORCHESTRATION
- MUSC 568 ADVANCED COMPOSITIONAL TECHNIQUES (must be repeated for 2 credits quarterly)

**Electives**—approved in consultation with area advisor and graduate program coordinator

Total Credits: 54

**Student Learning Outcomes**—students will

- demonstrate graduate level musicianship in the understanding, knowledge and performance of music;
- demonstrate critical and creative thinking, particularly in the chosen area of emphasis.
Music with Liberal Arts Emphasis, Master of Music (MM)

Note:
- all master’s degrees in music require an oral comprehensive exam;
- students may focus on areas such as Music History, Music Theory or a customized program.

Required Program Core

Music Research—choose from the following
- MUSC 520 RESEARCH TECHNIQUES AND BIBLIOGRAPHY IN MUSIC
- MUSC 521 RESEARCH DESIGN IN MUSIC EDUCATION

Music History—choose from the following
- MUSC 538 TOPICS IN MUSIC HISTORY
- MUSC 551 MUSIC OF THE MEDIEVAL ERA
- MUSC 552 MUSIC OF THE RENAISSANCE ERA
- MUSC 553 MUSIC OF THE BAROQUE PERIOD
- MUSC 554 MUSIC OF THE CLASSICAL PERIOD
- MUSC 555 MUSIC OF THE ROMANTIC PERIOD
- MUSC 556 MUSIC OF THE 20TH CENTURY
- MUSC 557 JAZZ STYLES AND ANALYSIS

Music Thesis/Recital
- MUSC 600 THESIS
- or MUSC 601 GRADUATE RECITAL
- or MUSC 602 FINAL MASTER’S PROJECT

Student Learning Outcomes—students will
- demonstrate graduate level musicianship in the understanding, knowledge and performance of music;
- demonstrate critical and creative thinking, particularly in the chosen area of emphasis.

Music with Music Education Emphasis, Master of Music (MM)

Notes:
- all master’s degrees in music require an oral comprehensive exam.
- students in Music Education Emphasis should take MUSC 521 Research Design in Music Education.
- an off-campus option requires advanced signed approval by the Director of Music Education and successful completion of written report.
- Music Education Emphasis students are required to take MUSC 600 Thesis. Prior to commencing research, a thesis proposal must receive approval from the thesis committee and, if human subjects are involved, by the IRB.

Required Program Core

Music Research—students in Music Education Emphasis should take
- MUSC 521 RESEARCH DESIGN IN MUSIC EDUCATION

Music History—choose from the following
- MUSC 538 TOPICS IN MUSIC HISTORY
- MUSC 551 MUSIC OF THE MEDIEVAL ERA
- MUSC 552 MUSIC OF THE RENAISSANCE ERA
- MUSC 553 MUSIC OF THE BAROQUE PERIOD
- MUSC 554 MUSIC OF THE CLASSICAL PERIOD
- MUSC 555 MUSIC OF THE ROMANTIC PERIOD
- MUSC 556 MUSIC OF THE 20TH CENTURY
- MUSC 557 JAZZ STYLES AND ANALYSIS

Music Thesis/Recital
- MUSC 600 THESIS
- or MUSC 601 GRADUATE RECITAL
- or MUSC 602 FINAL MASTER’S PROJECT

Student Learning Outcomes—students will
- demonstrate graduate level musicianship in the understanding, knowledge and performance of music;
- demonstrate critical and creative thinking, particularly in the chosen area of emphasis.
MUSC 561  COUNTERPOINT  2

Three Quarters of Graduate Ensemble Participation  3
Note: an off-campus option requires advanced signed approval by the Director of Music Education and successful completion of written report. These are 1 credit and must be repeated.

MUSE 520  MARCHING BAND
or MUSE 521  WIND ENSEMBLE
or MUSE 522  SYMPHONIC BAND
or MUSE 530  ORCHESTRA
or MUSE 340  SYMPHONIC CHOIR
or MUSE 541  CONCERT CHOIR

Music Thesis/Recital
Note: Music Education Emphasis students are required to take MUSC 600 Thesis. Prior to commencing research, a thesis proposal must receive approval from the thesis committee and, if human subjects are involved, by the IRB.

MUSC 600  THESIS  5
or MUSC 601  GRADUATE RECITAL
or MUSC 602  FINAL MASTER'S PROJECT

Music Education Emphasis Core
MUSC 510  ADVANCED CONDUCTING  3
MUSC 531  ALTERNATIVE APPROACHES TO MUSIC EDUCATION  3
MUSC 532  PEDAGOGY OF COLLEGIATE TEACHING  3
MUSC 546  SOCIOLINGUISTIC FOUNDATIONS OF MUSIC  3
MUSC 547  THE PSYCHOLOGY OF MUSIC LEARNING AND TEACHING  3
MUSC 550  PHILOSOPHICAL FOUNDATIONS IN MUSIC EDUCATION  5

Music Education Electives  8
Note: any graduate music or music education electives may be chosen with approval for the Director of Music Education.
MUSC 529  APPLIED LESSON (must be repeated)
or MUSC 530  INSTRUCTION ON INSTRUMENTS OR VOICE
MUSC 620  THE ORFF SCHULWERK APPROACH TO MUSIC EDUCATION
MUSC 621  EARLY CHILDHOOD MUSIC EDUCATION
MUSC 696  COLLEGE TEACHING INTERNSHIP

Total Credits  50

Student Learning Outcomes—students will
• demonstrate graduate level musicianship in the understanding, knowledge and performance of music;
• demonstrate critical and creative thinking, particularly in the chosen area of emphasis.

Music with Performance Emphasis, Master of Music (MM)
Note: all master’s degrees in music require an oral comprehensive exam.

or MUSC 564G  PEDAGOGY BRASS
or MUSC 564H  PEDAGOGY PERCUSSION
Music, Minor

Notes:

- Music Minors must audition on their applied instrument with the appropriate faculty and be accepted into a studio;
- Music Minors must declare their minor with the music office. (This will allow the intended minor to show in Banner, and will assist with graduation advising);
- student files will be maintained in the music office as they are for the music majors;
- MUSC 212 also counts as a GECR.

Faculty
Kevin S. Decker, Christophe C. Kirby, Terrance MacMullan, David M. Weise.

Undergraduate Degrees
Bachelor of Arts (BA)
  - Philosophy (p. 183)
  - Interdisciplinary Studies: Philosophical Studies (See Interdisciplinary Studies (p. 346))

Undergraduate Certificate
  - Applied Ethics and Practical Philosophy Certificate (p. 182)

Undergraduate Minor
  - Philosophy Minor (p. 183)

Undergraduate Program
The Philosophy Program offers general interest courses that deal with our philosophical heritage and contemporary thought and a minor in philosophy that encompasses some principal concerns of the discipline. It also offers a BA in Philosophy and BA in Interdisciplinary Studies (ITDS) with an option in Philosophical Studies that combines intermediate and advanced classes in logic and the history of philosophy with selected offerings from cooperating programs.

The skills learned in philosophy are useful in all academic areas. Immanuel Kant noted that philosophy teaches us to think for ourselves, so that we do not passively receive what we are told. It also encourages us to put ourselves imaginatively in the place of everyone else, so that we occupy the standpoint of universal humanity. Above all, it enjoins us to think consistently. Study of philosophy contributes to a broad, liberal arts education valuable for its own sake as well as a preparation for a career in some related professional, social or humanistic discipline. As an American Philosophical Association pamphlet notes, employees in the business community "want and reward many of the capacities which the study of philosophy develops: for instance, the ability to solve problems, to communicate, to organize ideas and issues, to assess pros and cons and to boil down complex data. These capacities represent transferable skills." Logical skills are especially beneficial in conceptual professions like accounting and law.

Required courses in the following program of study may have prerequisites. Reference course descriptions section for clarification.

Philosophy Streams
Stream #1: Political Philosophy
This stream concentrates on political philosophy and related topics. Political philosophy examines the nature of moral value, normativity and justice in practical and historical contexts. Political philosophers also evaluate classical and contemporary political institutions and suggest ways of improving the political life of our society. Students enrolled in this stream will study both the theory and practice of classical and contemporary politics.

Stream #2: Philosophy of Art and Literature
This stream concentrates on aesthetics, the philosophical study of art. Broadly construed this includes fine arts, performance arts and literature. Students enrolled in this stream will address questions like: What is art? What is beauty? How do we tell good art from bad art and can these judgments ever be objective? What is taste? What is the proper relationship between art and morality? Students of this subject will ground their inquiry in the study of particular art forms such as literature, film, theatre, music and painting.

- ART 423  ART OF THE 19TH CENTURY  5
The Applied Ethics and Practical Philosophy Certificate Program seeks to nurture the application of ethical and philosophical ideas toward concerns in social, political, economic and cultural life. The chief goal of the program is to offer practically oriented, but philosophically based, expertise in ethics and normative theory.

The program will also provide Eastern Washington University students with the cultural understanding, ethical decision-making and critical thinking skills necessary for addressing the dilemmas faced by present and future professionals, policy makers and citizens in general. It is designed to ensure that its recipients have a command of the basic theories of moral philosophy as well as a specialized knowledge of their applications in many areas of public life, including medicine, government, law, public policy, business and education. Consequently, the curriculum includes both core courses essential to a solid foundation in moral thought and specialized courses in practical philosophy and applied ethics.

The certificate will serve as a valuable credential to professionals who require a general understanding of the area, e.g. those who serve on ethics committees or compliance boards and those who seek advanced ethics training to meet licensure demands.

**Required Courses**

Choose one of the following:  

- PHIL 212 INTRODUCTORY ETHICS  
- PHIL 213 MORAL ISSUES IN AMERICA

Choose two of the following:  

- PHIL 311 SOCIAL AND POLITICAL PHILOSOPHY  
- PHIL 417 WOMEN AND ETHICS  
- PHIL 445 BIOMEDICAL ETHICS  
- PHIL 447 ENVIRONMENTAL ETHICS  
- PHIL 499 DIRECTED STUDY

**Elective Courses**

Choose three of the following: 10-15

- AAST 424 ECONOMICS OF POVERTY AND DISCRIMINATION  
- or ECON 424 ECONOMICS OF POVERTY AND DISCRIMINATION  
- or WMST 426 ECONOMICS OF POVERTY AND DISCRIMINATION  
- ACCT 261 BUSINESS LAW

- DSST 310 DISABILITY, CULTURE AND SOCIETY  
- HLED 370 PERSONAL AND COMMUNITY HEALTH  
- HUMN 415 GAY, LESBIAN, BISEXUAL AND TRANSGENDER STUDIES  
- or WMST 415 GAY, LESBIAN, BISEXUAL AND TRANSGENDER STUDIES  
- METC 456 ENGINEERING ETHICS, CONTRACTS AND PATENTS

---

**Stream #3: Philosophy and History**

This stream investigates epistemological issues regarding the nature of historical truth, how present context and the narrative shape our understanding of the past and the diverse philosophical influences that have produced schools of historiographical thought. Students in this concentration address the meaning of historical progress, the theoretical basis for new histories of social affairs, of women and other oppressed groups and philosophical explanations of both recurrence and change in history.

All 300- and 400-level classes in History are eligible for satisfying the electives of this stream. The following courses outside of History are also eligible:

- ART 415 HISTORY OF ANCIENT ART  
- ART 420 HISTORY RENAISSANCE ART  
- ART 422 HISTORY OF BAROQUE AND ROCOCO ART  
- ART 423 ART OF THE 19TH CENTURY  
- ART 430 HISTORY OF MODERN ART  
- ART 431 HISTORY OF CONTEMPORARY ART  
- ECON 417 POLITICAL ECONOMY  
- ENGL 384 FOLKLORE  
- ENGL 385 MYTHOLOGY  
- ENGL 387 LITERATURE OF THE BIBLE  
- ENGL/WMST 389 WOMEN, LITERATURE AND SOCIAL CHANGE  
- ENGL 315 TOPICS IN LITERATURE AND CULTURE  
- ENGL 330 SURVEY OF BRITISH LITERATURE I  
- ENGL 341 SURVEY OF BRITISH LITERATURE II  
- ENGL 342 SURVEY OF BRITISH LITERATURE III  
- ENGL 343 SURVEY OF AMERICAN LITERATURE I  
- ENGL 344 SURVEY OF AMERICAN LITERATURE II  
- ENGL 350 SHAKESPEARE  
- ENGL 360 LANGUAGE STRUCTURE AND USE  
- ENGL 380 SURVEY OF NATIVE AMERICAN LITERATURE  
- ENGL 381 CONTEMPORARY AFRICAN AMERICAN LITERATURE  
- ENGL 382 STUDIES IN EPIC FANTASY  
- ENGL 384 FOLKLORE  
- ENGL 385 MYTHOLOGY  
- ENGL 387 LITERATURE OF THE BIBLE  
- ENGL/WMST 389 WOMEN, LITERATURE AND SOCIAL CHANGE  
- THTR 303 SURVEY OF THEATRE HISTORY  
- WMST 410 FEMINIST THEORY

---

**Applied Ethics and Practical Philosophy, Certificate**
Eastern Washington University  

MGMT 424  EQUITY AND EQUALITY IN THE WORKPLACE
PSYC 340  EMOTION AND EMOTIONAL INTELLIGENCE
PSYC 381  SOCIAL PSYCHOLOGY
SOCI 482  IDENTITY AND POWER
SOWK 450  WOMEN AND SOCIAL CHANGE
or WMST 450  WOMEN AND SOCIAL CHANGE
WMST 471  HUMAN RIGHTS AND WOMEN'S RIGHTS
or SOWK 471  HUMAN RIGHTS AND WOMEN'S RIGHTS

Total Credits  25-30

Student Learning Outcomes—students will

• demonstrate understanding of, and be able to apply fundamental theories in ethics, including but not limited to deontology, utilitarianism, virtue and care perspectives, feminist ethics and pragmatism;
• analyze connections between ethics and law, culture, the environment, history and public policy;
• refine and improve their own ethical perspectives in dialogue and critical writing.

Philosophy Major, Bachelor of Arts (BA)

Students may choose either the 45- or 60-credit major.

Notes:

• two years of a single high school foreign language or one year of a single foreign language at college level is required for this major;
• the 49 credit major requires completion of a minor.

Required Courses

PHIL 301  INTRODUCTION TO FORMAL LOGIC  5
PHIL 320  HISTORY OF ANCIENT WESTERN PHILOSOPHY  5
PHIL 321  HISTORY OF MODERN WESTERN PHILOSOPHY  5
PHIL 322  HISTORY OF CONTEMPORARY WESTERN PHILOSOPHY  5

Capstone Requirement—choose one of the following or any Senior Capstone with advisor's approval.

PHIL 490  PHILOSOPHY SENIOR CAPSTONE  4-5
or ITGS 400  INTERDISCIPLINARY SR CAPSTONE

Electives—choose 40 credits in philosophy in consultation with a departmental advisor.

Note: no more than 15 credits may be taken in 200-level philosophy courses.

Total Credits  64-65

Student Learning Outcomes—students will

• critically analyze, using logic and other tools, the consistency and verifiability of their own beliefs and the beliefs of others, as well as engage in reasoned public deliberation challenging those beliefs;
• understand the main doctrines and evaluate the arguments that underpin the ancient, modern, and contemporary periods of thought;
• offer interpretations of the ideas of major philosophers by showing how they relate to perennial philosophical themes such as: visions of the good life, reality versus appearance, the roles of reason and experience, freedom and morality, etc;
• apply methods for philosophical problem solving by (a) relating theory to practice, (b) evaluating ideas in terms of both generic or universal humanity and perspectival pluralism, and (c) applying normative standards of truth, value and beauty;
• apply philosophical writing styles in writing assignments and research projects that are aimed at extending philosophical inquiry through argumentation and/or comparative studies.

Philosophy, Minor

Required

NOTE: no more than 10 credits may be taken in 200-level philosophy courses.

Total Credits  20

Required Courses

PHIL 301  INTRODUCTION TO FORMAL LOGIC  5
PHIL 320  HISTORY OF ANCIENT WESTERN PHILOSOPHY  5
PHIL 321  HISTORY OF MODERN WESTERN PHILOSOPHY  5
PHIL 322  HISTORY OF CONTEMPORARY WESTERN PHILOSOPHY  5

Capstone Requirement—choose one of the following or any Senior Capstone with advisor's approval.

PHIL 490  PHILOSOPHY SENIOR CAPSTONE  4-5
or ITGS 400  INTERDISCIPLINARY SR CAPSTONE

Electives—choose 25 credits in philosophy in consultation with a departmental advisor.

Note: no more than 15 credits may be taken in 200-level philosophy courses.

Total Credits  49-50

Notes:

• two years of a single high school foreign language or one year of a single foreign language at college level is required for this major;
• the 60 credit major does not require completion of a minor.
Undergraduate Degrees
Bachelor of Arts (BA)
- Outdoor Recreation (p. 191)
- Recreation and Tourism Management (p. 192)
- Therapeutic Recreation (p. 193)
- Therapeutic Recreation: Occupational Therapy (See Occupational Therapy (p. 247))

Bachelor of Arts in Education (BAE)
- Health and Fitness/Elementary or Secondary Major (p. 190)

Bachelor of Science (BS)
- Athletic Training (p. 186)
- Community Health (p. 188)
- Exercise Science (p. 188)
- Exercise Science: Major in Interdisciplinary Studies Leading to a Master of Occupational Therapy (MOT) (See Occupational Therapy (p. 247))

Undergraduate Certificates
- Challenge Course Management and Leadership Certificate (p. 187)

Undergraduate Minors
- Aquatics (p. 186)
- Challenge Course Management and Leadership (p. 187)
- Coaching (p. 187)
- Community Health (p. 188)

Undergraduate Programs
The Department of Physical Education, Health and Recreation (PEHR), houses the following major programs: Athletic Training, Community Health, Exercise Science, Health and Fitness (teaching endorsement), Outdoor Recreation, Recreation and Tourism Management and Therapeutic Recreation.
certified to teach K–12 within both the health and fitness (physical education) areas. We also continue to offer a non-teaching physical education coaching minor.

Recreation: The nationally accredited Recreation program focus on a profession that offers many challenging and varied forms of employment. Trained recreation leaders are regularly hired in positions with cities, communities, youth agencies, parks, resorts, outfitting companies, convention centers, rehabilitation medicine, correction facilities, the armed forces and much more.

The recreation curriculum is designed to aid students in developing a philosophical and practical knowledge of recreation and leisure services. Students are exposed to skill-sets and competencies that are relevant to a career in recreation, which prepares them for a ten to sixteen week professional internship.

Students may choose from a comprehensive curriculum in one of three majors: Outdoor Recreation, Recreation and Tourism Management, Therapeutic Recreation and minors in Aquatics, Challenge Course Management and Leadership and a certificate in Challenge Course Management and Leadership.

Special Programs Information
Human Performance Laboratory: The Human Performance Laboratory located in the Physical Education Classroom Building provides state-of-the-art equipment for clinical and research experience in the areas of athletic training, exercise physiology, motor learning, biomechanics, and health promotion conducted by faculty, graduate and undergraduate students. The lab is made available for clinical evaluations and exercise prescriptions for faculty, staff, students and the community.

Fitness Center: The University Recreation Center (URC) Fitness Center is designed to meet the health, wellness and fitness needs of the EWU campus community. The URC Fitness Center has 15,000 square feet of fitness space with a variety of fitness options available. Activity options include: strength training (3 circuits, free weights, racks, and platforms), cardio equipment (treadmills, elliptical trainers, arc trainers, steppers, bikes, ascent trainers, stepmills; most with a view of a TV), and functional equipment (functional trainers, stability balls, TRX, medicine balls, BOSU). Also included are a multi-purpose gym (for basketball, volleyball, etc) and an indoor running track (1/9 mile). Fitness Instructors are always available to assist members during their workouts. To motivate and assist members in achieving their fitness goals personal training is available (for an additional fee). Each quarter the PEHR Department offers both PHED 150 Fast Fitness (2) and PHED 152 Strength/Weight Training (2) as a credit option for EWU students using the facility.

Degree Requirements for all Recreation Majors

- two years of a single high school foreign language or one year of a single college level foreign language is required;
- a minimum grade of 2.50 must be obtained in each required RCLS course (if a lower grade is received, the course must be retaken);
- a minimum cumulative GPA of 2.50 shall be necessary in all upper- and lower-division required RCLS courses;
- a minimum cumulative GPA of 2.50 shall be required for all university coursework; failure to comply with the above standards will jeopardize professional internship eligibility.
- must see your advisor at least once per quarter.
- current First Aid/CPR card is required for all majors;
- computer competency is required.

Internship Requirement
Prior to interning, students must complete three major requirements
- each student must complete 1500 hours of practical experience in the recreation and leisure service field, prior to qualifying for the professional internship. These 1500 hours must be from three (3) separate sources with no more than 750 hours from any one source. (Therapeutic Recreation majors have specific requirements to fulfill, as regards to the number of hours and various populations; these majors must consult with their advisor.);
- applications for the Professional Internship must be presented to their faculty advisor no later than May 15. (Students may register for their internship, only during the summer quarter.);
- each student must obtain a current Standard First Aid Card or Advanced First-Aid Card.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Degrees
Master of Science in Physical Education
- Physical Education (p. 192)

Graduate Program
Admission Requirements
The Master of Science degree in Physical Education prepares students for a diverse array of careers in areas including athletic administration, teaching and coaching, directing fitness facilities and programs in a variety of settings, and sport psychology consultation with athletic teams. Additionally, the degree is applicable to those students interested in pursuing advanced graduate studies in related areas. This program provides an opportunity for students to focus on one of two areas of specialization: Sports and Recreation Administration or Exercise Science. All students are required to take a basic core of courses and then select a specialization area. A thesis is required of Exercise Science students. The Sports and Recreation Administration specialization has the option of a thesis, research report or written examination to complete the degree. Prospective students should hold a related baccalaureate degree from an accredited institution. Applicants for admission to the graduate program in physical education must follow the graduate admission procedures as outlined elsewhere in this catalog. In addition, applicants must submit three professional letters of recommendation and a one to two page essay describing their professional goals and objectives. Students are admitted for fall quarter only; requests for admission in other academic quarters are discouraged.

Final Comprehensive Examination Options
Before the awarding of the master’s degree, each student will successfully complete one of two options: a thesis or other research project; or a written examination.

Option A: The thesis or research project will be selected in consultation with the student’s faculty advisor. Each student shall complete an oral examination, which will focus primarily on the master’s thesis or project but which may also include questions to demonstrate competence in all areas included in the program of that student. Students will provide copies of their master’s thesis or project to the oral examination committee at least two weeks in advance of the scheduled oral examination.

Option B: The written examination is designed to test students’ competence across the breadth of their program. Over the course of
the 4 hours, the student will address questions on research methods and statistics as well theory and content. The student will approach prospective committee members to ensure they are willing to provide examination questions. The examination committee will consist of three graduate faculty members: two from the Physical Education, Health and Recreation Department, one of whom will chair the committee; and a faculty member designated by the Graduate Office. If the student does not pass in their first attempt, the student may be required to take additional courses and will be permitted to take the written examination one additional time. For option A, the final oral examination will be open to interested faculty and students and may be open to questions from non-committee members at the discretion of the committee. The final oral examination for option A will be no longer than 2 hours. With respect to option B, the examination will not be held over vacation periods or during summer quarter except by advance approval of all committee members.

Aquatics, Minor

This minor will develop the student’s knowledge of water safety, aquatic facility management, small craft safety, scuba operations, exercise and fitness. It will utilize nationally recognized certification programs to train students in each area and equip students for employment in the field of aquatics in such diverse areas as fitness clubs, educational institutions, YMCA, YWCA, rehabilitation centers, community centers and Parks and Recreation departments.

Athletic Training Major, Bachelor of Science (BS)

This major is designed for those students who are interested in becoming certified athletic trainers. The major is designed to prepare students to sit for the Board of Certification’s national examination and to work competently in the field of Athletic Training and Sports Medicine. Students must apply and be accepted into the Athletic Training Education Program (ATEP). Admission to the program is based upon evaluation of the student’s entire application, including: the academic record, signed statement of ability to meet the Program Technical Standards, GPA and completion of prerequisite courses, professional references and a written essay. Applications are due the last day of winter quarter each year. The number of applicants may exceed the number of students that can be admitted to the program each year; therefore, no assurance can be given that all applicants admitted to the university and who complete the application requirements will be admitted to the ATEP. For further information regarding the application process, please contact the PEHR Department at 509.359.2341 or refer to program website, athletictraining (https://www.ewu.edu/cale/programs/pehr/pehr-degrees/athletic-training). Opportunities for employment exist in but are not limited to, athletic training in high schools, colleges and professional and non-professional athletic teams; sports medicine clinics; hospitals; health clubs; and corporate fitness programs. Opportunities for those who elect to continue their education beyond the bachelor’s degree level also exist.

Degree Requirements:
1. must earn a minimum ≥3.0 in each ATTR designated required course;
2. must earn a minimum ≥ 2.5 in each Kinesiology and each Biology course;
3. must have a minimum ≥2.0 in all other program required courses;
4. must have a minimum cumulative GPA ≥2.75 for each quarter while in the program;
5. must be a member of the National Athletic Trainer’s Association;
6. failure to comply with the above standards will prohibit degree eligibility.

Total Credits: 15

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- gain an understanding and demonstrate experience in being good citizens both in the community and in their professional organization;
- gain clinical experiences in a variety of service learning settings that will allow them to be prepared to work in the diverse opportunities found within the field of Athletic Training;
- gain the basic knowledge, understanding and skills needed to work competently as an entry level Certified Athletic Trainer.

**Challenge Course Management and Leadership, Certificate**

The Certificate in Challenge Course Management and Leadership addresses the growing challenge education field and the need for trained practitioners within this field. The certificate curriculum closely follows the standards and guidelines developed by the leading national organizations in the challenge course industry. A student completing the full certificate curriculum will gain experience, education and training that is essential as a challenge course facilitator or manager as well as acquire documented experience to apply toward practitioner certification. Students also attain facilitation and leadership skills beneficial in many professional leadership or management roles.

In no course required for the certificate can the student receive a grade <3.0. All courses for the certificate must be completed at EWU; transfer credits will not be accepted for certificate completion.

Total Credits: 18

**Coaching, Minor**

Although this is not an endorsable minor, all the courses can be applied toward meeting the state’s clock hour requirements for school coaches. In the State of Washington high school coaches must have completed 30 clock hours before the beginning of the third year in any of five standards categories (medical aspects, legal aspects, psychological/social foundations, coaching techniques and philosophy sports management/pedagogy). Middle Level coaches must complete a coaching effectiveness training class equivalent to the NFICEP/ASEP coaching principles class before the beginning of their third year.

Required Courses
Community Health Major, Bachelor of Science (BS)

Community health majors are professionals who design, conduct and evaluate activities that help improve the health of all people. Placements will be in a variety of settings including public health and non-profit health agencies, worksite wellness programs, colleges and universities and government agencies. The majors are prepared to sit for the National Commission for Health Education Credentialing (CHES) examination and for graduate programs in public health, health promotion and community health education.

Degree Requirements

1. a minimum ≥2.50 in each required Health Education course;
2. a minimum cumulative ≥2.50 shall be necessary in all upper- and lower-division required Community Health courses;
3. a minimum ≥2.0 in each of the supporting courses from Communication Studies and the Social and Behavioral Science Core;
4. a minimum cumulative GPA ≥2.50 shall be required for all university coursework;
5. must meet with major advisor once each quarter;
6. failure to comply with the above standards will prohibit Professional Internship eligibility.

Note: select supporting courses in consultation with departmental advisor.

Total Credits 24

Exercise Science, Bachelor of Science (BS)

This major has three options and is designed for those students who are not interested in teaching but are interested in fitness, wellness
or clinical positions; or a graduate program in occupational therapy, physical therapy or exercise physiology. Students must complete two quarters of the appropriate science courses with required grades before they can declare Exercise Science and be admitted into the program. Everyone must complete the first appropriate CHEM course for their option. For the Pre-PT option they must complete CHEM 151 (or the equivalent) with a grade ≥3.0, for the Pre-OT option they must complete CHEM 161 (or the equivalent) with a grade ≥3.0, and for Exercise Science they must complete CHEM 161 (or the equivalent) with a grade ≥2.0. The second science course can be the second chemistry course in the sequence (same grade requirements), Anatomy and Physiology (≥3.0 for Pre-PT and Pre-OT, or ≥2.0 for Exercise Science), or Physics for Pre-PT (≥3.0). Graduates are prepared to work in various settings as managers of fitness programs. The options include but are not limited to corporate fitness, commercial fitness clubs, a YMCA, or other non-commercial program, retirement centers or hospital rehabilitation programs in cardiac rehabilitation, respiratory therapy and diabetes support. The program prepares students to pursue advanced degrees in professional programs in occupational and physical therapy or chiropractic as well as advanced degrees in exercise physiology, biomechanics or cardiac rehabilitation and adult fitness. The program and course work prepares students to pursue certifications from organizations including ACSM, NASM, NSCA and ACE. These certifications are widely accepted in the fitness industry.

Note: For all students completion of any one of the three options as shown will not guarantee completion of 60 credits of upper division credits so all three will require additional courses to complete the general education requirement. Students should work with their advisor to select appropriate courses or minor.

Required Core Courses— a minimum GPA ≥2.5 is required for each required course listed below.

Total Credits 90-105

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
• demonstrate competency in foundational skills of reading, writing, arithmetic, speaking and listening and thinking skills demonstrating the ability to learn, to reason, to think creatively, to make decisions and to solve problems;
• be prepared for appropriate certification exams in the industry;
• demonstrate competency in fitness testing of the relatively healthy population in all components of fitness-cardiovascular, muscle strength, endurance, flexibility and body composition.

Health and Fitness/Elementary or Secondary Major, Bachelor of Arts in Education (BAE)

Students can choose either the Elementary or the Secondary Core.

This major satisfies the endorsement for preschool to grade 12.

Notes:
• must earn a minimum ≥2.8 in each required health and physical education course; must have a minimum cumulative GPA ≥2.8 in all university courses;
• this major takes more than 12 quarters at 15–16 credits a quarter;
• required—must be a member of a professional organization;
• each student is required to complete 40 hours of professional development per year while in the health and fitness program and be a member of the EWU Health and Fitness Majors Club.

Outdoor Recreation Major, Bachelor of Arts (BA)

The Outdoor Recreation program qualifies individuals as outdoor leaders or resource managers for public and private organizations, including government agencies.

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required;
- computer competency is required for the this major;
- a minimum grade ≥2.50 must be obtained in each required RCLS course (if a lower grade is received, the course must be retaken);
- a minimum cumulative GPA ≥2.50 shall be necessary in all upper- and lower-division required RCLS courses;
- a minimum cumulative GPA ≥2.50 shall be required for all university coursework; failure to comply with the above standards will jeopardize professional internship eligibility.

Required Core Courses
RCLS 201  RECREATION AND LEISURE IN MODERN SOCIETY  3
RCLS 220  LEADERSHIP IN RECREATION AND LEISURE SERVICES  3
RCLS 240  OVERVIEW OF THERAPEUTIC RECREATION SERVICES  4
RCLS 270  DIVERSITY AND SOCIAL JUSTICE IN RECREATION AND LEISURE SERVICES  3
RCLS 313  WILDLAND RECREATION MANAGEMENT  3
RCLS 325  OUTDOOR ADVENTURE PROGRAMMING  3
RCLS 360  FACILITY PLANNING AND ENVIRONMENTAL DESIGN  3

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

- understand health/physical education content and disciplinary concepts related to the development of a healthy/physically educated person;
- understand how individuals learn and develop, and provide opportunities that support physical, cognitive, social and emotional development;
- understand how individuals differ in their approaches to learning and create appropriate instruction adapted to these differences;
- use and have an understanding of individual and group motivation and behavior to create a safe learning environment that encourages positive social interaction, active engagement in learning, and self-motivation;
- use knowledge of effective verbal, nonverbal, and media communication techniques to enhance learning and engagement;
- understand the importance of planning developmentally appropriate instructional units to foster the development of a healthy/physically educated person.
Physical Education, Master of Science (MS)

Student may choose between two tracks: Exercise Science or Sports and Recreation Administration.

Note: before the awarding of the master’s degree, each student will successfully complete one of two options: a thesis or other research project; or a written examination.

Exercise Science

Total Credits 48-51

Student Learning Outcomes—students will

- demonstrate an ability to plan and lead a backcountry field trip;
- demonstrate essential skills in the areas of outdoor leadership, wilderness survival, backpacking, winter camping, mountaineering, and whitewater rafting;
- demonstrate the ability to perform in a variety of emergency situations including emergency response, wilderness first responder, and search and rescue management;
- demonstrate effective oral and written communication skills;
- demonstrate knowledge of and skill at research, problem solving, and critical thinking;
- demonstrate a working knowledge of technology and its various uses in the recreation profession;
- demonstrate an understanding of the history, breadth, depth, and complexity of the recreation and leisure services industry;
- demonstrate an awareness of diversity, equity, inclusion, and will demonstrate multi-cultural competence in recreation and leisure service delivery settings;
- demonstrate a working knowledge of the career and entrepreneurship opportunities available upon graduation.

Recreation and Tourism Management Major, Bachelor of Arts (BA)

Recreation Management is a growing and dynamic field. The tourism and recreation industry is currently listed as one of the top three business activities in the United States. There are many emphasis areas available in Recreation Management including: city/park recreation, resort/commercial recreation, youth serving agencies, military recreation and corrections recreation.

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required;
- a minimum grade ≥2.50 must be obtained in each required RCLS course (if a lower grade is received, the course must be retaken);
- a minimum cumulative GPA ≥2.50 shall be necessary in all upper- and lower-division required RCLS courses;
• a minimum cumulative GPA ≥2.50 shall be required for all university coursework; failure to comply with the above standards will jeopardize professional internship eligibility.

• must see your recreation management advisor at least once per quarter.

For information on General Education, see Undergraduate Degree (p. 41).

**Therapeutic Recreation Major, Bachelor of Arts (BA)**

Therapeutic Recreation specialists are involved in helping individuals with disabilities learn the skills and attitudes necessary to develop a satisfying leisure lifestyle. Therapeutic Recreation is concerned with the treatment of conditions which are disabling and the facilitation of independent leisure functioning.

This major offers the student a track that will allow them to be eligible to take the national certification examination. The major is nationally accredited and provides a strong educational background for the student. Graduates tend to work in hospitals, state facilities, group treatment and community-based programs in the area of rehabilitation, leisure education and community integration.

**Notes:**

• two years of a single high school foreign language or one year of a single college level foreign language is required.

• current First Aid/CPR card is required for all majors.

• a minimum grade ≥2.50 must be obtained in each required RCLS course (if a lower grade is received, the course must be retaken);

• a minimum cumulative GPA ≥2.50 shall be necessary in all upper- and lower-division required RCLS courses;

• a minimum cumulative GPA ≥2.50 shall be required for all university coursework; failure to comply with the above standards will jeopardize professional internship eligibility.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- demonstrate, through a variety of activities, and participate in events that give a better understanding of how an individual with a disability or illness can participate in leisure activities and apply that knowledge to their internship experience;
- demonstrate skills and techniques to assist individuals in learning to cope with the effects of their disabilities or illness;
- demonstrate the knowledge base to successfully complete the NCTRC Certification practice tests to better prepare students for the National Council on Therapeutic Recreation Certification (NCTRC) exam;
- demonstrate an understanding and application of the therapeutic recreation process: assessment, program planning, implementation, and evaluation;
- demonstrate effective oral and written communication skills;
- demonstrate knowledge of and skill at research, problem solving, and critical thinking;
- demonstrate a working knowledge of technology and its various uses in the recreation profession;
- demonstrate an understanding of the history, breadth, depth, and complexity of the recreation and leisure services industry;
- demonstrate an awareness of diversity, equity, inclusion, and will demonstrate multi-cultural competence in recreation and leisure service delivery settings;
- demonstrate a working knowledge of the career and entrepreneurship opportunities available upon graduation.
Religious Studies

Undergraduate Minor
- Religious Studies (p. 195)

Undergraduate Program

Religion strives to show connections and relationships among all types of human experience. As a major aspect of human life and culture, it receives systematic study in many disciplines. Therefore, many departments offer courses in this program.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Religious Studies, Minor

This minor is designed for those students majoring in an allied discipline and preparing for graduate seminary study, or for students majoring in any other discipline but wishing to pursue the subject of religion for its importance in other fields. Students are also advised to consider other offerings in the humanities program. All interested students should consult with the program advisor or the coordinator of humanities.

Note: special substitutions may be made with the approval of the program advisor or the coordinator of the humanities program.

Dual Endorsement Program in
Special Education and Elementary
Education, Bachelor of Arts in
Education (BAE)
The Dual Endorsement Program in Special Education and Elementary
Education prepares students for teaching in the elementary grades
(kindergarten to grade 8) as well as in special education classes
(kindergarten to age 21). Students in this program complete the
Washington state requirements for an endorsement in special education
and in elementary education.

Prerequisites for Admission to the Education Program
  • minimum cumulative GPA ≥2.8 (no prerequisite course grades <2.8);
  • WEST-B state test—refer to www.west.nesinc.com;
  • CMST 200 Introduction to Speech Communication (4) or an approved
equivalent;
  • ENGL 201 Principles of Effective Thinking and Writing (5) or an
approved equivalent;
  • MATH 211 Structure of Elementary Mathematics I (5) or an approved
equivalent for elementary education students;
  • there are science and social science GECR courses that are strongly
recommended (but not required) for the Elementary Education
candidate. See the general requirements. Please see an Education
advisor.

commitment to hard work for long hours. Previous coursework and participation in music, dance, acting, singing and back stage production is highly desirable, but not mandatory.

Students wishing to major in theatre should declare this major early in their university career. Entering freshman or transfer students should contact the Theatre and Film Department Chair immediately upon arrival at the campus for the assignment of an academic advisor and evaluation of transfer credits.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Theatre Major, Bachelor of Arts (BA)

Theatre majors are expected to complete a senior thesis and participate in the public performance program offered by the Theatre Program.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

COLLEGE OF BUSINESS AND PUBLIC ADMINISTRATION

Departments, programs and degrees are listed on the navigation bar.

For more information about the college, visit the CBPA home page (http://www.ewu.edu/cbpa).
Undergraduate Degrees
Bachelor of Arts in Business Administration (BAB)
- Finance (p. 209)
- International Business (p. 210)
- Management - General Business Option (p. 211)
- Management - Human Resource Management Option (p. 212)
- Management - Operations Management Option (p. 212)
- Management Information Systems (p. 210)
- Marketing (p. 213)
- Professional Accounting (p. 214)

Undergraduate Minors
- Accounting (p. 207)
- Business Administration (p. 208)
- Decision Science (p. 209)
- International Business (p. 210)
- Management Information Systems (p. 211)

Undergraduate Programs
The College of Business and Public Administration at Eastern offers excellent business programs taught by a mix of research producing, terminally qualified faculty and practitioners who are deeply engaged in their professions.

The College is known for these strengths:
- Business Administration degrees accredited by AACSB-International
- classes which allow participation and personal attention
- excellent computer systems and labs available to students
- many opportunities to engage in practical research with professors
- day and evening classes
- internship opportunities

A solid theoretical foundation balanced with practical application is critical to being successful in business. Eastern Washington University’s business programs provide that balance, with emphasis on analysis, critical thinking and intellectual inquiry. An understanding of the economic, social, ethical and legal business environment—along with principles of accounting, finance, management, marketing, production and quantitative analysis, all taught from a global perspective—is part of all Eastern’s business programs.

Preparation Information for Business: The College of Business and Public Administration recognizes the importance of certain basic skills for a career in business. Students planning to enter a degree program in Business Administration are encouraged to prepare through courses in written and oral communications, mathematics and computer fundamentals. These skills will be further developed through coursework in the Business Administration curriculum. All Business Administration students are encouraged to enroll in BUED 302 Business Communication to supplement their communication skills.

Transferring Business Courses from Other Institutions: Eastern Washington University has articulated agreements with all community
colleges in the state of Washington and with certain community colleges in Idaho, Montana and Oregon regarding the transferability of courses into four-year degree programs. Students planning on transferring from these schools are encouraged to consult with their community college counselor and with the Academic Advisors for Undergraduate Business Programs at EWU regarding transferability of courses in Business Administration.

Coursework of students transferring from other institutions of higher education is evaluated on a course-by-course basis to determine equivalence to EWU Business Administration courses. Students seeking a degree in Business Administration must complete a minimum of 50 percent of business credit hours required for the degree in residence at EWU. Additionally, students must complete a minimum of 50 percent of the required courses in the major at EWU. Students seeking a minor in Business Administration, Decision Science, International Business or Management Information Systems must complete a minimum of 12 credits in the minor at EWU.

It is the policy of the College of Business and Public Administration that students, once admitted to and pursuing a course of study at EWU in Business Administration, will take their required courses at EWU. A student wishing to take a course at another institution with the intention to transfer that course into his/her degree program at EWU must receive approval from either the Business Undergraduate Program Advisors (lower division courses) or the appropriate department chair (upper division courses).

Course Enrollment Policies: undergraduate Business Administration courses are offered under the following prefixes:

**Business Administration**

Business Administration courses numbered 300 and above (with the exception of BUED 302, DSCI 346, MGMT 326, MKTG 310, FINC 335 and OPSM 330) are intended for students who either:

1. are formally admitted to the BAB program or
2. have post-baccalaureate standing and have completed the prerequisite courses or
3. have formally declared majors in another degree program, have completed the prerequisite courses and have the appropriate clearances and class standing, and are taking the course for one of the following reasons:
   a. required for their major;
   b. required for their minor;
   c. fulfills a gecr, or International Studies requirement.

Students are also expected to satisfy course prerequisites as listed in this catalog. Students who do not meet one of the above criteria, or who have not satisfied course prerequisites, will be dropped from the course.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

**Admission Requirements for the College of Business and Public Administration Bachelor of Arts in Business Administration (BAB):** The College of Business and Public Administration has specific requirements for formal admission into the Bachelor of Arts in Business Administration (BAB) degree program. These requirements must be met before continuation into upper division business courses. Contact the Academic Advisors for Undergraduate Business Programs for current requirements.

**Grade Requirements for Graduation—Students seeking a BAB degree must achieve**

1. a minimum grade ≥2.0 in each course required for the major;
2. formal admission to the BAB program;
3. a minimum GPA ≥2.5 for all upper division Business Administration core courses as well as required and elective courses taken to fulfill requirements for the major area.

Students seeking a minor in Accounting, Business Administration, Business Analytics, Data Analytics, International Business or Management Information Systems must achieve a minimum grade ≥2.0 in each course that fulfills a requirement for the minor.

**Course Repeat Policy**

The Undergraduate Business Program’s course repeat policy limits students to three graded attempts for each requirement for their business major or minor, including all requirements listed on the business administration core and business classes required for the major or minor. If a requirement for the major or minor is not successfully completed with a minimum grade ≥2.0 on the third graded attempt, the student will be dropped from the program.

For fulfillment of each course requirement, the business program will consider the first three times a student completes the course; further attempts of the course will not be accepted. In accordance with EWU's repeat policy, only the most recent of the (first) three completions will be accepted. Completion is defined as receiving a final grade in the course.

A student who has been denied admission to the business program or who has been dropped from the program based on application of this policy may seek admission into the program or continuation through petition to the Dean of the College of Business and Public Administration.

The policy applies to all business program core, major and minor requirements and includes graded attempts of these requirements at colleges and universities other than EWU. For the specific requirements, refer to the General Undergraduate Catalog or the Business Advising website.

It is anticipated that enforcement of the policy will not be handled automatically by the student information system but will require review of transcripts at the time of admission to the business program and/or review of transcript/graduation forms just prior to graduation. Information as to the policy and the student’s obligation to understand and follow it will be included on program advising information and admission forms and in EWU catalog information.

When a student declares business administration as a degree program, the student will be informed of this policy by the business advisor.
a student applying for formal admission to the business program has completed a business program requirement a third time with a grade <2.0, the student will be informed by the business advisor that the student is not admissible and that further attempts of the course will not be considered. If a student has been formally admitted to the business program and then completes a business program requirement a third time with a grade <2.0, the student will be dropped from the program and informed by the business advisor that further attempts of the course will not be considered. (Go to www.ewu.edu/businessadvising for details.)

Assessment Requirement
The Comp–XM Exam will be administered as part of the MGMT 490 business capstone course. It will serve to assess student learning goals relative to the fundamental knowledge of the core business disciplines as well as the students’ ability to integrate their knowledge to arrive at informed decisions.

Program Location
The Bachelor of Arts in Business Administration (BAB) is offered at four locations: at Eastern’s main campus in Cheney, EWU Spokane at the Riverpoint Campus, in Bellevue at Bellevue College and Longview at Lower Columbia College. All Business Administration Core courses are available at all locations. The following majors are available:

Cheney Campus and EWU Spokane
- Accounting, Professional
- Finance
- International Business
- Management
- Management Information Systems
- Marketing

Bellevue and Longview
- Management

Support services, including registration and advising from both the Undergraduate Program Advisor for Business and from faculty members, is available at three locations.

Degree Requirements for Bachelor of Arts in Business Administration
All students seeking a degree in Business Administration must complete the Business Administration Core plus courses for at least one major.

Graduate Degrees
- MBA (p. 207)
- Affiliated Programs (p. 206)
- Dual MBA/MPA Degree Program (p. 207)

Graduate Programs
Roberta Brooke, Director
EWU Spokane,
668 N. Riverpoint
Spokane WA 99202-1677
509.828.1248

The Master of Business Administration is an advanced professional degree in business administration emphasizing quantitative and qualitative skills necessary for leadership in today’s organizational environment. It prepares students for management positions in business firms, government agencies and not-for-profit entities. Organizations need leaders who can work well in group situations, appreciate the value of diversity, foster creativity and innovation, create an entrepreneurial spirit and provide practical solutions to real-world problems. Managers today are faced with complex global problems and a rapidly changing business environment, so they must have an appreciation for lifelong learning. The MBA at Eastern Washington University is designed to equip graduates with required skills, knowledge and abilities to flourish in a complex organizational environment.

Accreditation
Graduate programs in business began in 1966 and the Master of Business Administration (MBA) was authorized in 1975. Both the graduate and undergraduate business programs are accredited by AACSB-International.

Admission Requirements/Preparation
To be admitted to the MBA, an applicant must hold a four-year baccalaureate degree in any field of specialization from an accredited college or university. An applicant’s qualifications will be assessed though the quality of performance in prior academic programs as well as general aptitude measured by the GMAT or GRE. Other integral factors in the decision making process include work experience, résumé and letter of intent.

Admission will be considered only after all of the following documents have been received from the applicant:

1. the application for admission to a graduate program at Eastern Washington University;
2. two copies of official transcripts for all collegiate work completed;
3. official GMAT scores or GRE scores (no more than five years old);
4. a $50 MBA application fee, in addition to the $50 graduate application fee;
5. statement of intent demonstrating a level of knowledge and intellectual maturity appropriate to the MBA;
6. other information which may be required at the discretion of the MBA program director may include the following:
   - admissions interview;
   - a current résumé;
   - references;
   - an essay demonstrating critical thinking skills.

In addition to the above requirements, international students must demonstrate English language competency by taking the Test of English as a Foreign Language (TOEFL). A minimum score of 92 Internet-based Test (TOEFL iBT) or 580 paper-based TOEFL is required to be considered for MBA Program admission. (7.0 International English Language Test (IELTS) is also accepted)

Note: admission to the MBA foundation coursework requires a TOEFL of at least 71 iBT or 525 paper-based TOEFL or 6.0 IELTS.

All of the above materials should be sent directly to:
Graduate Programs Office
206 Showalter Hall
Cheney, WA 99004–2444

MBA Program Admission Exception Policy
The MBA Program admission exception policy is an alternate admission process. The MBA director will consider applications from students requesting an exception to the minimum admission criteria of an application GPA ≥3.0 and a 450 GMAT or GRE equivalent. In order to be considered for exception students must submit a letter of appeal and a current résumé and must possess an index score (GPA x 200 + GMAT)
Letters of appeal for admission exception should include the following information:

- why you want the Master of Business Administration degree?
- why you feel that you are capable of successfully completing this degree?
- anything else you feel the MBA committee should know.

Application Deadlines
Eastern admits MBA students throughout the academic year. The Graduate Programs Office accepts applications no later than 10 business days before the start of the term of intended enrollment. Applicants must make an appointment with the MBA program director before they begin the program. During that interview the applicant will be advised about program details, schedules and any foundation requirements that must be completed before starting the advanced program. Applicants will be advised by letter from the Graduate Programs Office concerning the admission decision.

Mathematics and Communications Skills Required
The MBA program requires competency on the part of the student in quantitative skills, computer skills and written and oral communication skills. Students lacking these skills are urged to acquire them before applying for admission to the program. Courses in finite mathematics, computer literacy and oral and written communications are stressed as necessary preparation. Courses in differential calculus are highly recommended.

Computers and Research
The courses of the MBA curriculum have been infused with the application of computer technology in managerial decision-making. In addition, MBA students may expect that the courses will require considerable research beyond assigned course texts. Eastern offers computer labs and computer access to nationwide data banks. MBA students also have access to the John F. Kennedy library on the Cheney campus and the Riverpoint Campus library system on the Riverpoint Campus in Spokane.

Academic Requirements
Students in the MBA program must maintain a GPA ≥3.0 at all times. Students who fall below a GPA ≥3.0 are notified by the Graduate Programs Office that they are officially on probation. These graduate students will be allowed one quarter’s study to restore their cumulative GPA to >3.0 level.

The MBA Curriculum Committee of the College of Business and Public Administration may extend this probationary period by one quarter when they feel such an extension is warranted by special circumstances. Those students who are unable to restore their cumulative GPA ≥3.0 in this additional quarter of probation will be terminated from the program.

No course grade <2.5 may count toward the MBA degree. Only two courses in the student’s program may be <3.0. Students who have more than two grades <3.0 are subject to dismissal from the program and will be notifiable by the MBA program director.

Students who are dismissed for academic reasons may appeal to the MBA Curriculum Committee. The committee may allow students to repeat up to two courses in which they received a grade <3.0. The average of the original grade and the grade earned by repeating must be ≥3.0. A given course can be repeated only once. If the average grade is still <3.0, no further remedy is available and the average grade counts.

With readmission granted through appeal students must maintain these same academic standards; however, if they again fall below these standards they will be dismissed and no further appeal remedy will be available to them. Students who are not recommended for continuation must wait one year to reapply for admission to graduate studies.

Students are expected to successfully complete courses for which they register. Thus, the record of any student with more than two W (withdrawal) or X (incomplete) course grades will also be reviewed by the MBA program director, with termination from the program as a possible consequence.

Other graduate academic requirements are set forth in the opening section of the catalog under Graduate Studies Academic Policies. Entering MBA students will be apprised of these regulations at their initial interview with the MBA program director following admission to the program.

The student has the right of appeal to the MBA Curriculum Committee on any actions taken under these grade standards and the probation process. According to university policy, the student also has the right to appeal individual grades.

In the event that a student is dismissed from the program twice as a result of these rules, readmission will not be permitted.

Advising and Special Counseling
All entering students should consult with the director of the MBA program for program information and determination of the student’s interests. The director recommends a program of study compatible with each student’s goals and interests and the MBA program requirements.

Reserved Classes
MBA courses at EWU are reserved exclusively for students who have been formally admitted to the MBA program or other master’s degree programs and who have met all prerequisites for the courses or who have permission of the MBA program director.

Study Groups
Managers interact and so do MBA students. The MBA program makes use of group study, analysis and presentation. Students are frequently assigned to teams of three, four or five or more individuals. Assignments are sometimes based upon assembling a team with diverse academic and work experience backgrounds. Teams are expected to prepare and present many assignments collaboratively.

Working in a group is good reinforcement of management practice, helping to develop interpersonal skills and effectiveness in small group decision-making. Group members begin to understand and appreciate others’ points of view. Study groups also reinforce the managerial technique of networking. Successful managers often draw upon resources from individuals outside the organizations they serve.

Practical Business Experience
All students who graduate from the MBA program should have some practical work experience. The majority of the students accepted into the program are working professionals and meet this requirement. For those students who enter the program lacking professional work experience, an internship should be part of the student’s MBA program. Up to four (4) credits earned while in an internship may be used for MBA elective credit.
Degree Candidacy
No more than one-half of the minimum number of credits in the advanced program may be counted toward the MBA degree before the total program is planned and the application for degree candidacy is submitted.

Major Field Test (MFT) Requirement
Students are required to take the MFT for the MBA before completing their MBA Capstone course. For more information on the MFT, see www.ewu.edu/cbpa/mft-assessment. The MBA application fee covers the cost of this test fee. In the case where a student must retake the exam due to a failed first attempt they will be reassessed the cost of the test.

Oral Examination Requirement
Those students electing a BADM 600 Thesis or a BADM 601 Research Report will present and defend the results of their research to an oral examination committee chaired by the thesis or research project advisor, with a second member from the College of Business and Public Administration and a faculty member from an area outside their discipline. The Graduate Programs Office will select this member. These students will schedule their orals at times mutually convenient to them and the three committee members.

Course Schedules and Time Limits
MBA courses are conducted in the evenings at EWU Spokane. Evening classes are held one night per week from 6 to 9:40 p.m. Three-fourths of the minimum credits required for the MBA degree (at least 36 credits) must be earned in Eastern Washington University resident courses. The remaining credits may consist of approved Eastern extension credits or approved residence or extension credits from other accredited institutions, provided they meet the advisor-approved program.

The MBA program must be completed within six years after the first applicable advanced course has been undertaken. The minimum time to degree for a full-time student is one year (four quarters). Most courses are 4 credit hours. The maximum allowable load is 16 credit hours. MBA students who are employed usually carry no more than 8 credits (two courses).

Visiting Graduate Students
Visiting graduate students may enroll in MBA program courses on a space-available basis, provided they have delivered to the MBA program director documentary proof from their home institution that they are bona fide graduate students in good standing and that their home institution will accept Eastern’s courses as part of their degree program. Such documentation shall be in the form of a letter signed by a home institution official and addressed to Eastern’s MBA program director. In order to register and have their coursework recorded on an EWU graduate transcript, visiting graduate students must submit a graduate non-degree seeking application to the Graduate Programs Office at least 10 business days before the start of the term of intended enrollment.

Affiliated Programs
International Dual Degree Program—MBA/MA in International Business and Economics
A dual-degree program is available in cooperation with the University of Applied Sciences in Schmalkalden, Germany. This program combines the EWU M.B.A. and a Master’s in International Business and Economics from the University of Applied Sciences (FhS) in Schmalkalden, Germany. This opportunity allows a student to earn two master’s degrees in an accelerated schedule of studies. All coursework is taught in English.

EWU students will take the entire MBA curriculum at EWU plus study abroad for one semester at FhS. They will begin a thesis at FhS and finish it after returning to EWU.

The FhS MA degree requires a total of 120 European Credit Transfer System (ECTS) credits. Students will transfer 40–48 EWU MBA credits to FhS, or the equivalent of 60 European Credit Transfer System (ECTS) credits. These transfer credits will be applied toward the MA degree.

In addition, they will take 30 ECTS credits (the equivalent of 24 EWU credits) of coursework at FhS plus write an FhS thesis for another 30 ECTS credits, thus acquiring the necessary 120 ECTS credits for the MA degree.

Students will present and defend the results of their thesis to an oral examination committee chaired by the thesis or research project advisor from the FhS according to their guidelines. A faculty member from the College of Business and Public Administration and an EWU faculty member from an area outside their discipline will be required. The Graduate Programs Office will select this member. The oral exam will be conducted at EWU and include video conferencing with the Schmalkalden faculty members. These students will schedule their orals at times mutually convenient to them and the committee members.

MBA coursework
FhS coursework
FhS thesis
Total Credits
120

Satisfactory completion (including a 60 minute oral examination for the thesis) will result in the awarding of a M.A. (International Business and Economics) degree from FhS.

Dual MBA/MPA Degree Program
A dual-degree program is available with the Master of Public Administration (MPA) program. This dual-degree program combines the requisite supervisory and administrative education for career advancement in either the public or private sectors and bridges the regulatory and supplier aspects of business and government relationships.

Those enrolling in the dual-degree program must be admitted through the Graduate Programs Office and by both the MBA program and the graduate program in Public Administration (MPA). The student also must have satisfied the undergraduate background (prerequisite) course requirements of both programs at the time of entry or soon thereafter.

Students interested in the specific requirements of this dual-degree program must contact either the MPA program director at 509.828.1231 or the MBA program director at 509.828.1248 to be advised in advance of consideration for admission.

Accounting, Minor
Note: the degree is open to all EWU undergraduate students who have declared a major that is not accounting; students who pursue minor in accounting must fulfill the prerequisites for each course.

Required
ACCT 251 PRINCIPLES OF FINANCIAL ACCOUNTING 5
ACCT 252 PRINCIPLES OF MANAGEMENT ACCOUNTING 4

Business Administration, Master of Business Administration (MBA)
The Master of Business Administration is an advanced professional degree in business administration emphasizing quantitative and qualitative skills necessary for leadership in today's organizational environment. It prepares students for management positions in business firms, government agencies and not-for-profit entities. Organizations need leaders who can work well in group situations, appreciate the value of diversity, foster creativity and innovation, create an entrepreneurial spirit and provide practical solutions to real-world problems. Managers today are faced with complex global problems and a rapidly changing business environment, so they must have an appreciation for lifelong learning. The MBA at Eastern Washington University is designed to equip graduates with required skills, knowledge and abilities to flourish in a complex organizational environment.

MBA Program Structure and Coursework
Students with no formal education in business administration may need to complete up to 32 credits of foundation coursework. The specific courses and the resulting required credit hours will be determined by an assessment of each student’s educational background and professional experience. Graduate students in the MBA program have options when fulfilling their foundation course requirements. Students can take courses at EWU or another accredited college or university. Other course equivalents need to be approved by the MBA program director. Students must meet with the MBA program director to determine which foundation courses need to be fulfilled. Students may not register for the MBA core courses until they have fulfilled these requirements:

Foundational Knowledge (for those requiring additional business preparation)
ACCT 261 BUSINESS LAW 4
BADM 500 ECONOMIC ANALYSIS 4
or ECON 200 INTRODUCTION TO MICROECONOMICS
& ECON 201 and INTRODUCTION TO MACROECONOMICS
BADM 503 QUANTITATIVE ANALYSIS IN BUSINESS 4
or DSCI 245 DATA ANALYSIS FOR BUSINESS
& DSCI 346 and ADVANCED DATA ANALYSIS FOR BUSINESS

In addition to the above required courses all students must choose eight credits from the following options:

Option 1 - Elective Coursework

Students choosing this option will be required to take eight (8) credits of MBA elective courses. Students may elect to take courses from other graduate programs if these courses help them achieve their objectives and are preapproved by the MBA Director. Students in this option will be required to pass the Major Field Test (MFT) with a minimum score of 240. The MFT will be taken while the student is enrolled in BADM 590. Students who do not pass the MFT may retake the test no more than one additional time, and must pay a separate fee to re-take the test. Students who do not pass the MFT either the first or second time may subsequently elect to enroll in BADM 603 Final Project, which will increase the number of credits required to graduate by 2 credits (50 total). Students will be charged for the extra 2 credits. If students fail to pass either the MFT (after two attempts) or BADM 603, the MBA degree will not be awarded.

Option II - Research Report

The student conducts a research project and prepares a written report under the direction of a committee of faculty teaching graduate courses. The student can earn a minimum of four and a maximum of eight credits depending upon the extent and depth of research involved. If students elect to conduct a four (4) credit research report, they will select four (4) credits of elective coursework (in consultation with their advisor) from approved elective courses as outlined under Option I. Students choosing Option II must have permission of the MBA Program Director and must pass an oral examination.

Option III- Thesis

This option allows the student to write a thesis under the direction of a committee of faculty teaching graduate courses. The student can earn a minimum of four and a maximum of eight credits depending upon the extent and depth of research involved. If students elect to write a four (4) credit thesis, they will select four (4) credits of elective coursework (in consultation with their advisor) from approved elective courses as outlined under Option I. Students choosing Option III must have permission of the MBA Program Director and must pass an oral examination.

Business Analytics, Minor

Business Analytics is a high-demand field composed of a hybrid of information systems, applied statistics, management science, data analysis, operations research, consumer behavior, risk management, and decision support. The focus is on the analysis of data to develop decision models in a business environment.

Notes:

- this minor is offered only to Bachelors of Arts in Business Administration (BAB) students due to the prerequisite requirements;
- non-BAB students should take the Data Analytics minor;
- given the level of quantitative, critical thinking, and problem-solving skills necessary to complete this minor, students should have a GPA ≥3.0 before starting this minor;
- enrollment is restricted to those who have been formally accepted into the BAB program;
- due to the cross disciplinary nature of Business Analytics, the following business core courses should be completed before starting this minor: ACCT 251, ACCT 252, DSCI 245, DSCI 346, ECON 200, ECON 201, FINC 335, MISC 211, MKTG 310, and OPSM 330.

MISC 481  SYSTEMS ANALYSIS AND DESIGN
MISC 485  ADVANCED DATABASE APPLICATIONS DEVELOPMENT
MISC 487  E-COMMERCE AND E-COMMERCE SYSTEM DESIGN
MISC 498  SEMINAR

OPSM 425  SERVICE AND OPERATION ANALYSIS

Total Credits 20

Data Analytics, Minor

This minor is offered to all students interested in the science of rational decision-making through the study, design and integration of complex situations and systems. This discipline focuses on managerial planning, mathematical modeling and the use of computer technology to help decision-makers choose from among a set of alternatives in light of all possible consequences. This minor is recommended for students who wish to possess problem-solving skills that can be used to make and implement decisions as efficiently and effectively as possible.

Note: offered to all students not pursuing a Bachelor of Arts in Business Administration (BAB) degree

Prerequisites

DSCI 245  DATA ANALYSIS FOR BUSINESS 4
DSCI 346  ADVANCED DATA ANALYSIS FOR BUSINESS 4

Required Courses—at least three of the following. 12

DSCI 445  INTRODUCTION TO BUSINESS ANALYTICS
DSCI 446  BUSINESS FORECASTING
DSCI 447  DESIGN OF EXPERIMENTS
DSCI 448  BUSINESS SIMULATION
DSCI 449  MULTIVARIATE DATA ANALYSIS
DSCI 450  DATA VISUALIZATION

Total Credits 20

Finance Major, Bachelor of Arts in Business Administration (BAB)

The Finance major is for those students with career objectives in the financial management of business firms, banking and other financial institutions, insurance and the securities industries. The course of study analyzes the investment needs, financial requirements and financial performance of business firms. It also is concerned with the role played by financial institutions and security markets in meeting the vital financial needs of business firms, investors and consumers.

Courses taken for the Finance Major beyond the required Business Administration Core are not counted double toward the International Business Major, the Marketing Major, the Human Resource Management Option, the Operations Management Option or the General Business Option

Note: ECON 200 and ECON 201 are considered supporting courses and may be used to fulfill GECRs as well as requirements for the Business Administration degree. However, these courses are not counted twice toward the total of 180 credits for graduation.

Required Business Administration Core

Lower Division Courses

ACCT 251  PRINCIPLES OF FINANCIAL ACCOUNTING 5
ACCT 252  PRINCIPLES OF MANAGEMENT ACCOUNTING 4
ACCT 261  BUSINESS LAW 4
DSCI 245  DATA ANALYSIS FOR BUSINESS 4
ECON 200  INTRODUCTION TO MICROECONOMICS 5
ECON 201  INTRODUCTION TO MACROECONOMICS 5

Total Credits 20

Upper Division Courses

DSCI 346  ADVANCED DATA ANALYSIS FOR BUSINESS 4
FINC 335  FINANCIAL MANAGEMENT 4
MGMT 326  ORGANIZATION THEORY AND BEHAVIOR 4
MGMT 423  BUSINESS AND SOCIETY 4
MGMT 490  DEPARTMENT SENIOR CAPSTONE 4
MKTG 310  PRINCIPLES OF MARKETING 4
OPSM 330  OPERATIONS MANAGEMENT 4

Required Courses

ECON 444  MONEY AND BANKING 5
FINC 431  INVESTMENTS 4
FINC 434  FINANCIAL DERIVATIVES 4
FINC 435  CAPITAL BUDGETING AND LONG-TERM FINANCING 4
FINC 436  SHORT-TERM FINANCIAL MANAGEMENT 2
FINC 474  INTERNATIONAL FINANCE MANAGEMENT 4

Electives—choose approved, related electives in consultation with your faculty advisor. 4-5

Total Credits 96-97

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- understand and be able to apply the time value of money;
- be able to conduct long-term financial analysis in real-world domestic and international applications;
- be able to integrate the cost of capital (derived from risk, capital structure and market factors) into financial analyses;
• be able to conduct short-term financial analysis including cash-flow projections;
• understand how modern securities including derivatives can be used to achieve investment and risk-management objectives.

International Business Major, Bachelor of Arts in Business Administration (BAB)

The International Business major is for students with career objectives in the management of global business organizations. The course of study provides education in the theory and principles of international economics, management, finance, human resource management and marketing. It is concerned with the role of global business in both the host country as well as the world economy.

Courses taken for the International Business Major beyond the required Business Administration Core are not counted double toward the Marketing Major, the Human Resource Management Option, the Operations Management Option or the General Business Option.

Note: required language skill—third quarter oral, written and reading competency in a modern language with a grade $\geq 2.0$.

Note: ECON 200 and ECON 201 are considered supporting courses and may be used to fulfill GECRs and as requirements for the degree; however, these courses are not counted twice towards the total of 180 credits required for graduation.

IBUS 471 | MULTINATIONAL PEOPLE MANAGEMENT | 4 |
IBUS 472 | GLOBAL MARKETING MANAGEMENT | 4 |
IBUS 474 | INTERNATIONAL FINANCIAL MANAGEMENT | 4 |

Total Credits | 95-100 |

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will:

• understand how differences in customs and cultures affect businesses operating in the international arena;
• understand the basic differences between the risks faced by domestic and multinational firms including transaction exposure, operating exposure and accounting exposure;
• have a basic knowledge of how to manage these risks;
• have an appreciation for the foreign exchange markets including their participants, size, functions and impacts on international businesses;
• gain an appreciation of how social and political factors influence global business.

International Business, Minor

This minor is offered for students in the Bachelor of Arts in Business Administration (BAB) degree program. The minor in International Business will enhance the business educational experience by providing an in-depth international dimension that complements any major area of study in business. This minor is recommended for students who wish to work in organizations that are engaged in global business activities and want to be prepared to meet the challenges of ever-increasing global interdependence.

Note: this minor is only available for students who are pursuing a Bachelor of Arts in Business Administration (BAB) degree.

Management Information Systems

Major, Bachelor of Arts in Business Administration (BAB)

The major in Management Information Systems is oriented toward developing specialists who can design, implement and manage business information systems. Upon completion, the student should be able to understand both the technical aspects of these systems and the complexities of their management. Depending upon the electives chosen, the student may prepare for entry-level positions in either the technical areas of data processing or in staff support roles in the various functional areas of business.

Management with General Business Option, Bachelor of Arts in Business Administration (BAB)

Students interested in learning about management should consider the Management major. Within this major students can follow three options: General Business Option, Human Resource Management Option and Operations Management Option.

Students interested in learning the basic theory and principles of business that are crucial to effective organizational performance and communication across business disciplines should consider the General Business Option. The student has the opportunity to study management as applied to specific areas, including marketing, finance, operations management and management information systems.

Courses taken for the General Business Option beyond the required Business Administration Core are not counted double toward the Finance Major, the Marketing Major, the Operations Management Option or the Human Resource Option.

Student Learning Outcomes—students will

- know the vocabulary of the business disciplines;
- know the purpose and responsibilities of each business function: accounting, finance, human resource management, operations and marketing;
- explain key business concepts in each of the business functions, such as the 4 P’s of marketing, motivation theories, time-value of money and financial statements;
- gather, prepare and analyze information necessary to make rational business decisions;
- demonstrate judgment, communication skill and quantitative techniques necessary to solve typical business problems.

Management with Human Resource Management Option, Bachelor of Arts in Business Administration (BAB)

Students interested in learning about management should consider the Management major. Within this major students can follow three options: General Business Option, Human Resource Management Option and Operations Management Option.

The Human Resource Management option focuses on tools, techniques and methods used to maximize satisfaction for both the employer and employee. This option applies human resource management and general management theories to the actual management of the human resources of the organization. Topics covered include equal opportunities, safety and health, compensation, training and development, performance appraisal, motivation and job satisfaction and retirement.

Courses taken for the Human Resource Management Option beyond the required Business Administration Core are not counted double toward the Finance Major, the Marketing Major, the Operations Management Option or the General Business Option.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- be able to understand and deal with the influence of the major environmental factors that affect HRM activities;
- possess the knowledge and skills needed to effectively manage the staffing function;
- possess the knowledge and skills needed to effectively manage the compensation function;
- possess the knowledge and skills needed to conduct effective training and development activities;
- possess the knowledge and skills needed to effectively manage labor relations and employee safety and health.

Management with Operations Management Option, Bachelor of Arts in Business Administration (BAB)
Students interested in learning about management should consider the Management major. Within this major students can follow three options: General Business Option, Human Resource Management Option and Operations Management Option.

The Operations Management Option is for students interested in the daily management activities of an organization. It prepares students with techniques and objectives to help service oriented and/or manufacturing oriented organizations achieve their objectives. Topics that are covered include productivity measures, demand forecasting, location analysis, layout analysis, process choice, scheduling, quality management and supply chain management.

Courses taken for the Operations Management Option beyond the required Business Administration Core are not counted double toward the Finance Major, Marketing Major, the Human Resource Management Option, and the General Business Option.

**Required Business Administration Core**

- OPSM 441 QUALITY MANAGEMENT 4

Electives—select approved, related electives in consultation with your 8-10 faculty advisor.

**Total Credits** 93-95

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- know the vocabulary of the operations management discipline;
- explain key operations management concepts such as operations strategy, planning, scheduling, processes and their relationships;
- apply operations management concepts to solve operations management problems such as related to planning, scheduling, the supply chain and quality management;
- calculate resource allocations using operations management tools and techniques and analyze performance using appropriate quantitative methods;
- assess a company’s resource needs based on weekly shifts in simulated operations performance.

**Marketing Major, Bachelor of Arts in Business Administration (BAB)**

The Marketing curriculum prepares students for a wide variety of occupational possibilities. Marketers are involved with such activities as product planning, pricing decisions, advertising, sales management and marketing research. Marketing practitioners act as the connecting link between the firm and its external environment; they assist management in adapting the firm to an ever-changing society.

Courses taken for the Marketing Major beyond the required Business Administration Core are not counted double toward the Finance Major, the Human Resource Management Option, the Operations Management Option or the General Business Option.

**Required Business Administration Core**

**Lower Division**
- ACCT 251 PRINCIPLES OF FINANCIAL ACCOUNTING 5

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes**—students will

- analyze the impact of marketing environments on marketing strategy and performance;
- explain and apply consumer behavior principles and their implications for marketing strategy and practice;
- collect, analyze, interpret and report market data;
- apply marketing principles to segment consumer groups and develop appropriate positioning strategies;
- explain and apply the principles of managing the marketing mix as they relate to marketing planning and integrate these into a marketing plan.

---

**Professional Accounting Major, Bachelor of Arts in Business Administration (BAB)**

The Professional Accounting major is designed to rigorously prepare students for careers in public accounting (CPA) firms, industry, government and not-for-profit organizations. Several professional certificates are available to professional accounting graduates who pass competitive examinations and meet certain other requirements. For example, the Certified Public Accountant certificate, Certified Management Accountant license or Certified Internal Auditor certificate provide professional recognition to the accountants who successfully complete a comprehensive professional examination and meet an experience requirement.

Requirements to sit for the Uniform Certified Public Accountant Examination vary from state to state. Experience requirements for the license also vary from state to state. Therefore, students must obtain current information from the Board of Accountancy within the state from which they seek licensure.

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes**—students will

- identify ethical issues and apply personal values and professional codes of conduct to resolve ethical issues, including social responsibility and environmental reporting issues;
- develop awareness of diverse perspectives and cultures and their impact on the communication of accounting information in the international arena;
- generate, interpret and communicate accounting information for use in decision making.

Note: ECON 200 and ECON 201 are considered supporting courses and may be used to fulfill GECRs as well as requirements for the Business Administration degree. However, these courses are not counted twice toward the total of 180 credits for graduation.

Undergraduate Degrees

Bachelor of Arts in Education (BAE)

- Business and Marketing Education/Secondary Major or Add-on Endorsement (p. 215)

Undergraduate Programs

The Business and Marketing Education (BME) student will become fully Career and Technical Education (CTE) certified to teach any business or marketing course in the state of Washington grades 4–12.

Business and marketing courses offered in high school, junior high, middle school, and skills centers prepare students to think, communicate, and problem solve through real-world applications. Business and marketing teachers educate students to become thoughtful consumers, achieve success in the workplace, and value life-long learning.

A Bachelor of Arts in Education with a Business and Marketing Education (BME) major provides teachers with practical business and/or marketing experience to share their knowledge and expertise in a secondary education classroom. BME Program completers receive a Washington State teaching license in secondary education with a CTE certification in business and marketing allowing them to teach any business or marketing subject offered in grades 4–12. Please see Education Department for more information on secondary education requirements.

The BME degree or BME Add-on with a CTE certificate allows program completers to teach any of the 50 plus business or marketing courses a school might offer. The degree also certifies completers to coordinate work-site learning educational opportunities at a qualified worksite outside the classroom, linking high school students’ work experiences with classroom learning; and the degree certifies you to instruct the career choices course, facilitating career development, job retention, and resource management. This BAE degree also exceeds the requirements to teach at a community college or technical college. The BME major is offered in conjunction with the College of Education and Human Development. The College of Business and Public Administration provides the required business-related courses in business administration, computer applications, accounting, and Career and Technical Education. The Department of Education provides courses in professional education and advising toward teacher certification within the State of Washington.

All CTE, BME, and business administration courses are offered online. Tuition for online courses differs from on-campus courses; please contact Student Financial Services for current tuition rates.

Grade Requirements for Graduation

1. a minimum grade ≥2.0 in each course required for the major
2. formal admission to the BAE program.
3. a minimum accumulative GPA ≥2.5.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Course Repeat Policy

The Undergraduate Business and Marketing Education Program’s course repeat policy limits students to three graded attempts for each requirement for their Business and Marketing Education (BME) major, including all requirements listed and courses required for the major. If a requirement for the major is not successfully completed with a minimum grade ≥2.0 on the third graded attempt, the student will be dropped from the program.

For fulfillment of each course requirement, the BME program will consider the first three times a student completes the course; further attempts of the course will not be accepted. In accordance with EWU’s repeat policy, only the most recent of the (first) three completions will be accepted. Completion is defined as receiving a final grade in the course.

A student who has been denied admission to the BME program or who has been dropped from the program based on application of this repeat policy may seek admission into the program or continuation through petition to the Dean of the College of Business and Public Administration. The policy applies to all BME program core, major requirements, and includes graded attempts of these requirements at colleges and universities other than EWU. For the specific requirements, refer to the General Undergraduate Catalog or the Business Advising website.

It is anticipated that enforcement of the policy will not be handled automatically by the student information system but will require review of transcripts at the time of admission to the business program and/or review of transcript/graduation forms just prior to graduation. Information as to the policy and the student’s obligation to understand and follow will be included on program advising information and admission forms and in EWU catalog information.

When a student declares BME as a degree program, the student will be informed of the BME repeat policy by the advisor. If a student applying for formal admission to the business program has completed a business program requirement a third time with a grade <2.0, the student will be informed by the business advisor that the student is not admissible and that further attempts of the course will not be considered. If a student has been formally admitted to the business program and then completes a business program requirement a third time with a grade <2.0, the student will be dropped from the program and informed by the advisor that further attempts of the course will not be considered.

Business and Marketing Education/Secondary Major or Add-on Endorsement, Bachelor of Arts in Education (BAE)

For students/teachers who currently possess a Washington State Teaching Certificate.

This add-on satisfies the endorsement for grades 4–12.
Notes:

1. completion of university competencies in computer literacy and writing and university proficiency in math required prior to taking lower division required courses.
2. completion of university proficiency in writing required prior to taking upper division required courses.
3. the above major takes more than 12 quarters at an average of 15 credits per quarter.
4. in addition, career and technical education certification within business and marketing education includes a minimum of 2,000 hours of paid related work experience in business.
5. a required Career and Technical Education (CTE) certification within Business and Marketing Education (BME) requires a minimum of 2,000 hours of paid related work experience in business.
6. student teaching in business and marketing is required as well as the passage of the Washington Educator Skills Test Endorsement (WEST-E) State exam in business and marketing.

Total Credits 115

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Note: see the Education Department for additional SLOs.

- apply integrate the state’s Common Core Competencies and 21st Century skills in the program implementation and assessment and, in addition, be able to identify the diverse needs of students and implement programs and strategies that promote student competency and success;
- create and sustain safe learning environment that prepare diverse students for the workplace, advanced training, and continuing education;
- model personal and professional attributes that reflect productive life and work roles as well as implement and maintain collaborative partnerships with students, colleagues, community, business, industry, and families that maximize resources and promote student self-sufficiency;
- demonstrate workplace competencies in keyboarding and digital input; information technology clusters; information systems management; information processing applications; technical communications; principles of entrepreneurship, marketing essentials, business management, accounting and computation; economics and finance; international business; and business law;
- demonstrate teaching competence in all areas listed in the fourth learning goal above, including career development, work-based coordination, integration of leadership development into the curriculum and management.

Career and Technical Education (CTE) Certificate

Plan 2/Business and Industry Route teacher certification is a short program for teacher candidates who possess 6,000 paid industry work experience in a specific area. The certificate allows teacher candidates to teach only in that specific area.

The Plan 2 requirements are as follows:

- Document three years (6000 hours) of paid occupational experience in the specific CTE subcategory/specialty area for which certification is sought. One year (2000 hours) must be within the past six years. If any of the 2000 hours are more than six years old, 300 hours of the experience must be within the past two years;
- complete EWUs approved Plan 2/Business and Industry Route program.

When you complete the Plan 2 program, you will have a Washington State residency certificate to teach in grades 7–12 ONLY in your specialty area of certification. You will also be certified to teach work-site learning and career choices. Visit the OSPI (http://k12.wa.us/certification/CTE/Initial.aspx) website for further details.

Classes are offered as online courses. Some courses are offered as clock hours for students who possess a Washington State Teaching
certificate; however, clock hours cannot be transferred to credit at any time.

Note: courses also available as clock hours for individuals who possess a Washington State Teaching Certificate.

- Economics (p. 219)
- Economics with Mathematics Option (p. 219)

Bachelor of Science (BS)
- Economics (p. 219)
- Economics Computing Option (p. 218)

Undergraduate Minors
- Economics (p. 220)
- General Education Economics (p. 220)

Undergraduate Programs

The Economics Program offers flexible degree options that can be tailored for a variety of career choices. A Bachelor of Arts (BA) major provides valuable training for students interested in general management positions, public sector careers or attending law school or graduate school in the social sciences with electives in poverty and discrimination, public finance and international economics. A Bachelor of Arts with a Mathematics Option, the Bachelor of Science Option, or the Bachelor of Science with Computing Option provide strong quantitative and analytical training for those considering a career as an analyst or attending graduate school in economics or business with courses in econometrics and mathematical economics. An Economics Minor enhances any EWU major, especially for those interested in social sciences, business or public affairs, with courses in money and banking, industrial organization and political economy. The department also supports health related fields with courses in health economics and risk and insurance.

Economics courses appeal to students who are analytical and problem solvers and interested in social issues or the operation of private organizations. Economics majors have found careers in a wide variety of private and public sector occupations as bankers, union officials, market analysts, managers, stockbrokers, insurance executives, researchers, and legislative staffers. They are employed by port districts, export/import firms, public utilities, consulting firms, railroads, airlines, software firms, aerospace firms and numerous local, state and federal government agencies. Others have gone on to graduate studies at Washington State University, University of Washington, Oregon, Yale, and Purdue; or received law, MBA, MPA, or International Studies degrees.

Prospective majors or those considering a minor or second major should consult with a departmental advisor to design a program consistent with their goals.

General Admissions Requirements for Economics

Upper-division courses in economics assume students have satisfied the university requirement for competency in basic mathematics and English. All programs in the major require some university level mathematics, statistics and computer use. Students are strongly urged to consult with a departmental advisor early in their academic careers to plan an interesting and efficient program in economics.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Graduate Programs

The Department of Economics does not offer a graduate degree program but does support the College of Business and Public Administration by offering upper-division and graduate courses in economics. Students considering selecting economics courses for elective graduate credit should consult with their advisor.

Economics Computing Option,
Bachelor of Science (BS)

Note: in order to graduate with a BS in Economics, students must complete ECON 300 and ECON 301 with a grade ≥2.0 and the cumulative GPA for all courses completed towards the major must be ≥2.0.

Health Informatics Technology and Management, Bachelor of Science (BS)

The Health Informatics Technology and Management Bachelor of Science degree has been created as an interdisciplinary offering. Students admitted to the program would study a curriculum that blends three disciplines: health services administration, management information systems and computer science. This program is designed to prepare students as health information technology professionals to manage and use health information and emerging electronic information technologies in the healthcare industry. Graduates will be prepared to participate in the design of data schemas for health information systems, in the definition and analysis of requirements for health information systems, in the design, deployment and querying of reporting systems via both direct query and reporting tools for use in administrative, clinical and support areas.

Any EWU student who has completed or nearly completed the prerequisite courses may declare a major in HITM. HITM students must maintain a cumulative GPA ≥3.0 for all HSAD, CSCD and MISC classes. No more than two courses in HSAD, CSCD and MISC classes may be <3.0. Students earning three or more grades <3.0 in HSAD, CSCD and MISC will be dismissed from the program. The culmination of the student’s experience in the program will be an internship in a healthcare setting. Students in the HITM program must have an overall cumulative grade point average ≥2.25. MATH 200 is highly recommended before taking business classes.

Note: HITM students must maintain a cumulative GPA ≥3.0 for all HSAD, CSCD and MISC classes.

Professional Membership Requirements

Every student graduating in the Health Informatics Technology and Management must be a student member of a national professional organization for the discipline at least by their senior year.

Work Experience Requirement

It is strongly advised that all students seek as much practical experience as possible, whether paid or volunteer. Students are urged to consult with their advisors in order to plan their program.

Total Credits: 97

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• demonstrate effective written and oral communication skills;
• understand health care administration;
• understand business domain knowledge, such as accounting, finance, marketing, human resource management, logistics and supply chain;
• acquire MIS technical skills, including programming principles, database principles, networking and data communications;
• demonstrate problem-solving abilities by applying MIS technical skills, including business application program design and business database design;
• demonstrate MIS and HSAD project development skills through system analysis and design;
• demonstrate HIT project management skills and team skills.
Planning

Dick Winchell, Chair
668 N. Riverpoint, Suite A
Spokane, WA 99202 509.828.1218

Many social, physical, economic, technical and political issues in society cry out for definition and resolution. Among these are: decline in central cities, deterioration of neighborhoods, inefficient and inequitable taxing and regulation policies, congestion and other problems of accessibility, the impact of growth and change, an erosion of natural resources including water, land and air and inefficient or absent human services. Urban and regional planning is one of society’s means for addressing these problems in a creative, positive manner. Planning is a problem-solving profession that is concerned with the forces that influence the quality of life in the neighborhood, city, region, state, nation and world. Thus, planning provides a unique occupational avenue for those who desire a role in shaping a better future.

The goal of Eastern’s program in Urban and Regional Planning is to train competent professionals for careers in planning. To achieve this goal, the department stresses the acquisition of practical, analytical and organizational skills designed to aid the student in analyzing problems and organizing community activities to help solve problems. The combination of classroom instruction and applied planning field projects develops professional competence and ensures that each student has the requisite abilities to function within the profession after leaving the program. The department takes particular pride in having the only accredited undergraduate planning degree in the Northwest and one of only 14 in the nation.

The department is housed in excellent academic facilities at the EWU Spokane Campus and at Isle Hall in Cheney and has acquired a variety of equipment to support student activities. There are drafting studio facilities, computer terminals, computer labs, a geographic information systems laboratory as well as access to a variety of other resources.

Community Service Information
The department has a long history of providing planning and community development services to urban neighborhoods, towns and cities throughout Eastern Washington through its community service program. This work is conducted either on a contract basis with these communities or through other mechanisms. This work provides students with the opportunity to apply their knowledge and skills in realistic planning settings.

Tribal Planning Curriculum
EWU has developed a special, long term relationship with American Indian Tribal governments and organizations, including the Affiliated tribes of Northwest Indians. EWU has developed coursework and service/ applied research programs to serve and work with tribal governments. Tribal governments maintain sovereign status in relation to the federal government, which includes the power to plan. The MURP offers a specialization in tribal planning. All students are encouraged to take tribal planning courses to better understand tribal planning issues within a regional planning context.

Internships Information
The department maintains an active internship program with local and regional planning agencies throughout the Northwest. Internships are encouraged but not required. An intern gains valuable practical experience while earning credits toward the degree. Credit allocation is determined by the amount of time the student works in the agency.

Awards Program Information
The department conducts an annual awards program to recognize students for work accomplished during their academic careers. These awards include:

- The Frank Schaedegg Memorial Scholarship award ($1000)
- The Washington Chapter APA Scholarship for an undergraduate or graduate student ($2500)
- King Cole Scholarship ($1000)
- Leonard Zickler Scholarship ($1250)

Undergraduate Scholarship Award: awarded to the graduating senior whose academic achievement has been outstanding.

Graduate Scholarship Award: awarded to the graduating master’s degree candidate whose academic achievement has been outstanding.

Community Service Award: awarded to a graduating student who has accomplished noteworthy and exemplary contributions in public service to regional communities.

Professional Achievement Award: awarded to a graduate student who has demonstrated outstanding professional knowledge and skill in the performance of a professional internship or research project.

Teaching Methods
The department emphasizes the acquisition of practical professional skills. Therefore, students not only acquire information in the classroom, but also are involved in field projects requiring systematic application of this information. These field projects are often linked to the Department’s community service function.

Career Placement Information
The long-range job outlook for urban and regional planners is good. There is an expanding need for planners in the private sector including consulting firms, land development companies and large corporations involved in land management and location analysis. Planners are also found in non-profit organizations involved in community problem solving. These positions complement more traditional jobs in the public sector including those dealing with comprehensive planning, land use regulation and transportation systems management. The department takes an active role in placing students and is proud of its continuing success in finding positions for its graduates. Agencies and organizations throughout the Pacific Northwest compliment the program for producing graduates who need little additional training to assume their employment responsibilities.

Undergraduate Programs

General Admissions Information for Urban and Regional Planning:

Students considering a major in planning should contact the Department’s undergraduate program advisor as early as possible. Early counseling can help students select GECR courses which best complement their major course requirements. Transfer students should contact the advisor during their admission process to have their records reviewed.

In general, students that major in planning are advised to select their GECR courses from the following areas: physical and human geography, geology, biology, statistics, sociology, economics and government. Knowledge in these disciplines will aid students in their planning courses.

The university requires that all students receiving a Bachelor of Arts degree fulfill a foreign language requirement. Students who have had two years of the same language during their high school education or one year of the same language at the college level have fulfilled this requirement. This requirement applies to all planning majors. Undergraduates seeking a degree in planning must complete this requirement including students transferring with an associate of arts degree. If the requirement has not been completed prior to admission to the program, the student, in consultation with the program advisor, will have to schedule the completion of their foreign language requirement during their tenure in the planning program.

Although there are no formal admission requirements for entering the undergraduate planning program, acquisition of basic skills in English composition and mathematics is important preparation for the planning major. Normally, students who enter the program as second or third quarter sophomores or juniors should have completed these requirements. Those students who have not will be expected to complete these requirements within the first three quarters of their tenure in the planning program.

Credit Through Evaluation

Students with life experiences that are closely related to work in the planning profession, community organizing or other similar work, can have a faculty member review their work for credit through evaluation. Credits toward the degree requirements can be granted if these life experiences are sufficient. Credits gained through evaluation are applied to the elective credits in the major.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Degrees

- Master of Urban and Regional Planning (p. 226)
- Executive Certificate in Tribal Planning (p. 225)

Graduate Program

Gabor Zovanyi, Graduate Advisor
EWU, Phase One Classroom Bld.
668 N. Riverpoint Blvd., Suite A
Spokane, Washington 99202-1661
509.828.1216

Alternative Degree Options

In addition to the MURP, students have two alternative options for acquiring a degree in planning. Students may elect to complete an Interdisciplinary Master’s Degree by arranging a set of courses with two or more departments. In these cases, students receive the appropriate degrees, MA or MS, but not the MURP degree.

The Department of Urban and Regional Planning and the graduate program in Public Administration offer a dual-degree program in Planning and Public Administration. However, students who complete these programs will not be considered to have graduated from the accredited program as described above without fulfilling all of the above requirements in addition to those specified in the dual degree program.

Students interested in either of these options must contact the department’s graduate program advisor and have approval to register.

Registration

Before the first registration, students should consult the department’s graduate advisor for assistance in planning courses for the first quarter. The graduate advisor has responsibility for guiding the student until the student has selected a graduate committee. Once the committee has been selected, the chair of the committee provides guidance for the student.

To complete this degree in two years, students must take at least 12 credits per quarter. The load for a full-time graduate student is 12 to 16 hours per quarter. An additional charge will be assessed for credits in excess of 18. Students enrolling for 17 credits or more must have written approval from the graduate advisor or chair of their graduate committee plus the department chair and the dean of the College of Business and Public Administration.

Enrollment Requirements

Students admitted to the Master of Urban and Regional Planning Program must maintain continuous enrollment from the first matriculation until all requirements for the degree are completed. Enrollment may be met in one of the following categories:

1. full-time enrollment of 10 credits or more;
2. part-time enrollment of less than 10 credits;
3. in absentia enrollment.

Graduate students are considered to be actively pursuing a degree from the first enrollment in the graduate planning program until graduation or until the limits described in this catalog have expired.

Under unusual circumstances, a student may petition for a leave of absence. If the petition is granted, the registration requirement will be set aside during that period of leave. Leaves will be granted only under conditions that require the suspension of all activities associated with the student’s degree program, including the research project. The leave of absence shall be for no more than one year. A written request for leave of absence shall be submitted to the student’s committee for approval. The recommendation shall be forwarded to the Graduate Studies Office.

Students who have completed all courses in their program other than PLAN 601 shall continue to register for at least 2 credits of planning courses until the degree requirements have been completed. An approved leave of absence is the only exception to this requirement.

Students who do not comply with these requirements for continuous enrollment will have their future registration blocked. They will be allowed to register only after receiving a favorable recommendation from the department’s faculty, the endorsement of the department chair...
and the approval of the dean of the College of Business and Public Administration.

**Student’s Advisory Committee**

After receiving admission to Graduate Programs and the Department of Urban and Regional Planning, the student will consult with the departmental graduate advisor concerning appointment of the chair of the student’s advisory committee. The graduate committee administering the comprehensive examination shall, according to department policy, be comprised of three members: two faculty members from the department, with one serving as chair and a third faculty member from another academic discipline. The committee member from outside the student’s discipline may either be appointed by the Graduate Studies Office or students may elect to take the initiative and have a faculty member of their choosing appointed to the third committee position. If the second option is selected, students have the responsibility of approaching such potential members to secure their willingness to serve and the subsequent responsibility of notifying the Graduate Programs Office so that the willing outside members may formally be appointed to committee assignments.

No adjunct, part-time or other faculty located away from the campus may serve as chair of a student’s advisory committee, but they may serve as a member.

The student’s advisory committee has the responsibility for guiding and directing the entire academic program of the student. The student has the responsibility for initiating academic actions concerning the advisory committee. The chair of the advisory committee has immediate supervision of the student’s academic planning and research project. The chair also has the responsibility for calling required meetings of the advisory committee or other informal meetings considered desirable.

The duties of the advisory committee include the responsibility for the degree program, the research or internship proposal, the research project, the internship report and the final examination. In addition, the advisory committee, as a group and as individual members, is responsible for counseling the student on academic matters and in the case of academic deficiency initiating recommendations to the Graduate Programs Office.

The student’s advisory committee will evaluate the student’s previous training and degree objectives. The committee will then outline a proposed degree program and a research problem or internship proposal or some combination of the two. These activities along with the student’s other courses will constitute the student’s program. The student’s proposed degree program must be included in the Application for Degree Candidacy form. This form must be submitted to the Graduate Programs Office prior to the fourth quarter of registration, with endorsements by the student’s advisory committee and the graduate program advisor.

Additional courses may be added to the approved degree program by the student’s advisory committee if such additional coursework is deemed necessary to correct deficiencies in the student’s academic preparation. Changes to an approved degree program can be made with the approval of the student’s advisory committee.

**Research or Professional Internship Proposal**

Students choosing the research report option must prepare a research proposal for approval by the advisory committee prior to the end of their fourth quarter. Any student contemplating a professional internship must prepare a proposal for the internship which includes a clear set of learning objectives, a work program and an outline of the paper that will evaluate the internship experience.

**Research and Internship Reports**

Successful completion of a research project or a professional internship is required for the degree of Master of Urban and Regional Planning. Both types of experience require a formal report. In the case of the professional internship, this report must be based upon the learning objectives set forth in the internship proposal and must be a reflective review of the work experience in the light of the theories and methods acquired during the student’s tenure in the program. A research report must be the original work of the candidate. Either type of report must be grammatically correct, reflect the candidate’s ability to express thoughts clearly and adhere to the format of articles and reports contained in the Journal of the American Planning Association. The research report shall also contain an abstract not exceeding 350 words and a vita page. Instructions relating to the specific requirements of either type of report may be obtained from the department office.

**Final Comprehensive Examinations**

The candidate for the degree of Master of Urban and Regional Planning must pass a final examination. At the time of the final examination, a student’s cumulative GPA ≥3.0. There must be no unabsolved grades <2.0. The student must have completed all degree program course work with the exception of those courses scheduled during the quarter of the examination. Students who have not met these conditions are not eligible to take the final examination.

All students will be required to pass an oral examination during their final quarter. That oral examination shall consist of questions pertaining to the department’s curriculum and the candidate’s own areas of study. The examination may, at the discretion of the student’s committee, include a written component. In addition, all students are required to defend a research or internship report during the course of the final examination.

The final examination is conducted by the student’s advisory committee. The oral examination is open to the public; however, only committee members vote.

It is the candidate’s responsibility to schedule the comprehensive examination at a time agreeable to committee members and to notify the Graduate Programs Office at least two weeks prior to the examination date. In addition to complying with university procedures regarding such matters as deadlines and notification requirements, students within the department must also satisfy two additional procedural requirements with respect to the written component of their final examinations. They must submit an acceptable draft of their research or professional internship report to the chair of their committee no later than the end of the third week of the quarter in which they intend to graduate. In addition, they are also required to submit a final copy of such reports at least two weeks prior to the comprehensive examination.

Students must be registered at the university during the quarter in which the examination is given. A student shall be given only one opportunity to repeat the final examination and that shall be scheduled within the quarter following the first taking of the examination (summer quarter excluded).

**Urban and Regional Planning Major, Bachelor of Arts (BA)**

The department offers a 90-credit Bachelor of Arts major and a 15-credit minor in urban and regional planning. The Bachelor of Arts major is a fully accredited professional degree that prepares the student for entry-level positions in planning.
Students majoring in planning normally enter the program during their second or third year of undergraduate studies. The Planning minor should be utilized by students majoring in other programs who perceive planning as a complement to their education.

In addition to the baccalaureate programs, the department also offers students the opportunity to earn dual degrees with other academic programs. In the past, students have earned concurrent degrees in geography, economics, sociology and government. Students from other programs may also take courses in the department.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

### Student Learning Outcomes—students will

- possess the skills needed to practice planning in a variety of venues in ways consistent with planning ethics;
- understand human settlements as they relate to planning based on knowledge of the relevant concepts and theories;
- understand historical and contemporary planning practice, policy and processes based on knowledge of the relevant concepts and theories;
- understand the different values and ethical standards affecting the practice of planning.

### Urban and Regional Planning, Executive Certificate in Tribal Planning

Through the unique relations between American Indian tribal governments, the Affiliated Tribes of Northwest Indians and the Northwest Tribal Technical Assistance Program, EWU has developed a curriculum in American Indian tribal planning at the graduate level to serve tribal government leaders and staff, American Indian students and anyone interested in understanding tribal planning practice. The Executive Certificate in Tribal Planning is a 23 or 24 credit curriculum that can be part of a graduate program at EWU or a stand-alone certificate. The purpose of the Executive Certificate is to provide executive level graduate education on tribal planning and tribal government administration. All students must complete the graduate admissions requirements for the Planning Program (above). Students must complete the 20 credits of required classes listed below with an asterisk (*), plus one additional class from the Tribal Planning list.

Note: students in the Certificate program should consult with the Tribal Planning Director.

</tr>
</tbody>
</table>

- PLAN 523  AMERICAN INDIAN PLANNING
The MURP Program is a two-year professional curriculum. The program is one of only four in the Pacific Northwest states that is professionally accredited by the Planning Accreditation Board.

The purposes of the graduate planning program are as follows:

1. to provide communities and agencies with competent professionals in the field of urban and regional planning;
2. to prepare professionals who can develop and administer planning policies for the economic vitality, resource efficiency and environmental quality of communities and regions;
3. to fulfill the need for planning-related research with particular emphasis given to research benefiting the region and state;
4. to provide community services in the form of continuing education for public officials, practicing professionals and citizens; technical assistance for area agencies and communities; information and technology exchange with appropriate local, state and federal authorities.

The major distinction between Eastern's and other planning programs is that our combined teaching and practice focuses on problem solving at regional and community scales.

Admission requirements/Preparation of the MURP program include those required by the graduate school as well as the following:

1. two letters of recommendation submitted to the planning graduate advisor of the Department of Urban Planning, Public and Health Administration. Both letters should be from instructors familiar with the applicant's undergraduate or, where applicable, graduate academic record. In the event the applicant has professional planning experience, letters may come from a supervisor or person familiar with planning work of the applicant;
2. all applicants shall also submit a personal letter of intent explaining why they wish to study planning and outlining their educational and career goals;
3. all applicants for the program must have completed a class in statistics prior to entry into the program or complete a course while in the program. In the latter case, the credits for the class will not be included in the 72 credits required for the degree.

Degree Requirements
Each student will be expected to complete a minimum of 72 credit hours, including at least 36 hours at the 500 level or above. Graduate students are encouraged to use selected upper division undergraduate courses as electives and in support and pursuit of an area of specialization.

Degree Options—choose one of the following specializations for the MA.

- Tribal Planning Option
- Environmental Planning Option
- Small Town Planning Option

Students selecting a specialization must complete the core of a specialization, under advisement from their committee select the majority of their remaining electives from courses that support their area of specialization and do their research paper in the specialty area. The following list indicates the core required classes and additional classes for each specialty area.

The candidate for the degree of Master of Urban and Regional Planning must pass a final examination. At the time of the final examination, a student's cumulative GPA ≥3.0. There must be no unabsolved grades <2.0.

Notes:

- students may not count more than 5 credits in PLAN 599 in their program nor exceed 10 credits in PLAN 599 in combination with PLAN 595 Graduate Internship;
- with the exception of those who have applied for leaves of absence, students who enroll in PLAN 601 Research Project must maintain continuous enrollment until their degree requirements are met.

Degree Options—choose a specialization core and add additional electives to meet the minimum

Note: Students selecting a specialization must complete the core of a specialization, under advisement from their committee select the majority of their remaining electives from courses that support their area of specialization and do their research paper in the specialty area. The following list indicates the core required classes and additional classes for each specialty area.

**Generalist—Required Core**
- PLAN 540  LAND USE PLANNING

Additional courses—choose two of the following courses
- PLAN 460  URBAN DESIGN
- PLAN 510  COMMUNITY FACILITIES PLANNING
- PLAN 551  TRANSPORTATION PLANNING
- PLAN 570  ENVIRONMENTAL PLANNING

**Tribal Planning Specialization—Required Core**
- PLAN 523  AMERICAN INDIAN PLANNING
- PLAN 530  CONTEMPORARY AMERICAN INDIAN PLANNING
- PLAN 531  CENSUS DATA FOR AMERICAN INDIAN PLANNING
- PLAN 533  AMERICAN INDIAN LAW FOR PLANNERS
- PLAN 540  LAND USE PLANNING

Additional courses
- PLAN 524  ADVANCED STRATEGIC PLANNING
- PLAN 528  AMERICAN INDIAN HEALTH AND COMMUNITY
- PLAN 529  AMERICAN INDIAN HEALTH CARE SYSTEMS AND SERVICES
- PLAN 532  AMERICAN INDIAN ECONOMIC DEVELOPMENT
- PLAN 534  AMERICAN INDIAN TRANSPORTATION PLANNING
- PLAN 560  AMERICAN INDIAN PLANNING STUDIO

**Environmental Planning Specialization—Required Core**
- PLAN 540  LAND USE PLANNING
- PLAN 542  SUSTAINABLE COMMUNITIES
- PLAN 570  ENVIRONMENTAL PLANNING
- PLAN 571  ENVIRONMENTAL REVIEW

**Small Town Planning Specialization—Required Core**
- PLAN 510  COMMUNITY FACILITIES PLANNING
- PLAN 514  LOCAL ECONOMIC DEVELOPMENT PLANNING
- PLAN 540  LAND USE PLANNING
- PLAN 572  RURAL AND SMALL TOWN PLANNING

Additional Courses
- PLAN 466  MAIN STREET PLANNING
- PLAN 473  PLANNING IN THE WESTERN U.S.

**Urban and Regional Planning, Minor**

Required—choose one course
- PLAN 201  INTRODUCTION TO URBAN AND REGIONAL PLANNING
- PLAN 261  COMMUNITY DEVELOPMENT
- PLAN 301  PLANNING METHODS AND TECHNIQUES

Electives—additional courses may be selected from above or other PLAN courses.

Total Credits 15

**Student Learning Outcomes—students will**

- understand historical and contemporary planning practice, policy and processes based on knowledge of the relevant concepts and theories;
- understand human settlements as they relate to planning based on knowledge of the relevant concepts and theories;
- demonstrate skills needed to practice planning in a variety of venues in ways consistent with planning ethics;
- understand the different values and ethical standards affecting the practice of planning.
Public Administration

Robert Zinke, Program Director
EWU Spokane
509.828.1239

Faculty

Graduate Degrees

- Master of Public Administration (p. 231)
- Advanced Standing MPA Program (p. 231)

Graduate Certificates

- Public Management Development (p. 232)

Graduate Programs

The Graduate Program in Public Administration (PADM) is designed to provide widely varied educational opportunities in the fields of public and not-for-profit management. Graduate study opportunities are available for those currently employed as well as for recent graduates seeking a career in the public service. Both full-time and part-time study programs are available on a degree and non-degree basis.

Students in PADM are encouraged to become aware of the public service environment, the values that guide public service and the critical and analytical skills necessary to formulate, implement and evaluate public service decisions.

Program faculty, all of whom hold doctoral degrees and have public service management experience, have been selected from the several academic areas most pertinent to public sector applications. Adjunct faculty are highly trained, qualified and experienced academics and practitioners.

Alternatives offered include a master’s degree in public administration (60 quarter credit hours), several types of dual degrees (MBA/MPA, MSW/MPA, MURP/MPA), a Public Management Development Certificate Program (as few as 16 credit hours) and, in cooperation with the Health Services Administration Certificate Program as a specialization in the MPA program (20 credit hours).

Students interested in any of these alternatives should contact the Director of PADM for further information.

Scheduling

To make the PADM courses more accessible to those employed full-time, all coursework is offered at the EWU Spokane Campus, either during weekday evening hours or on weekends.

Assistantships

Paid graduate assistantships are often available. Information and application forms are available from the program office. Applications for academic year assistantships should be completed and returned to the PADM office no later than June 1 preceding the academic year for which the student is applying.

Applying for Admission

In order to apply for admission to the MPA program, one must fill out EWU’s graduate application form and send to the MPA office: 1. a current résumé; 2. a short career plan essay; and 3. three letters of recommendation.

The EWU Graduate Programs Office collects a $50 application fee. No additional fee is charged for application to the MPA program.

Application Deadlines

Priority consideration for admission will be given to applicants who meet the deadlines below. In order to meet the deadlines, 1. all of the application steps listed in the above paragraph must be completed, and 2. all admission requirements must be satisfied (including background requirements).

Priority Admission Deadlines

- fall quarter: May 1
- winter quarter: November 1
- spring quarter: February 1
- summer quarter: April 1

Admission Requirements

Based on the standards described below, students are admitted upon the recommendation of the director of PADM. The director’s recommendation will be sent to the Dean of Graduate Programs. That dean will then notify the student, in writing, of his/her admission or rejection. Applicants may seek admission on the basis of 1. their bachelor’s degree work, 2. completion of another master’s degree or 3. their work experience (if they can demonstrate a least 10 years of progressive responsibility in a related profession). Admission procedures and requirements are the same for the MPA degree and the Public Management Development Certificate programs.

Admission Based on Undergraduate Academic Performance

Students who have completed a bachelor’s degree at an appropriately accredited institution may be admitted to the Graduate Program in Public Administration based on the following criteria: (1) cumulative GPA ≥3.0 in the last 90 quarter graded credits of post-secondary coursework (or its equivalent as computed by the Graduate Programs Office); or (2) recommendation of the director based upon a successful appeal by the student. (This appeals process will be utilized only for students who do not have an undergraduate cumulative GPA of at least ≥3.0.)

Students seeking to utilize the appeals process for admission must directly request reconsideration by the director. In considering that request the director will review such information as:

1. a résumé;
2. letters of recommendation;
3. a combined verbal and quantitative score of 1000 and analytical writing score of 3 on the GRE, a GMAT score of at least 500 and/or 3, successful completion of up to 12 credits in PADM courses with a minimum GPA in those courses ≥3.30. After reviewing these new data, the MPA Program Director may admit students under the 10% exception.

Admission Based on Another Master’s Degree

A student may also be admitted to PADM with proof of possession of another valid master’s degree.

Applicants for admission may seek admission on the basis of 1. their bachelor’s degree work, 2. completion of another master’s degree or 3. their work experience (if they can demonstrate a least 10 years of progressive responsibility in a related profession). Admission procedures and requirements are the same for the MPA degree and the Public Management Development Certificate programs.

Admission Based on Undergraduate Academic Performance

Students who have completed a bachelor’s degree at an appropriately accredited institution may be admitted to the Graduate Program in Public Administration based on the following criteria: (1) cumulative GPA ≥3.0 in the last 90 quarter graded credits of post-secondary coursework (or its equivalent as computed by the Graduate Programs Office); or (2) recommendation of the director based upon a successful appeal by the student. (This appeals process will be utilized only for students who do not have an undergraduate cumulative GPA of at least ≥3.0.)

Students seeking to utilize the appeals process for admission must directly request reconsideration by the director. In considering that request the director will review such information as:

1. a résumé;
2. letters of recommendation;
3. a combined verbal and quantitative score of 1000 and analytical writing score of 3 on the GRE, a GMAT score of at least 500 and/or 3, successful completion of up to 12 credits in PADM courses with a minimum GPA in those courses ≥3.30. After reviewing these new data, the MPA Program Director may admit students under the 10% exception.

Admission Based on Another Master’s Degree

A student may also be admitted to PADM with proof of possession of another valid master’s degree.
Admission Based on Work Experience
Applicants with at least 10 years of increasingly responsible professional experience in public administration may also be offered regular admission. Admission is based on the following: 1. evidence of having obtained a bachelor’s degree from an appropriately accredited institution; 2. an essay demonstrating critical thinking skills; 3. a statement of intent demonstrating a level of knowledge and intellectual maturity appropriate to the proposed field of graduate study; 4. evidence of professional success in Public Administration. No matter which path to admission a student takes, s/he will also need to provide evidence of having met the background requirements for the program (see below).

English Language Requirement
All students from non-English speaking countries must provide evidence of adequate proficiency in the English language before being admitted to the PADM. This requirement may be satisfied by presenting a TOEFL score of 580 (237 CBT, 92 iBT) or its equivalent. A student with a TOEFL score of between 550 and 580 (213–233 CBT, 79–91 iBT) may be granted Provisional Acceptance. In such cases, registration for classes is conditional upon having a program of English language study approved by the director in consultation with the International Education Office.

Students with TOEFL scores of 525 to 550, (197–213 CBT, 71–78 iBT, may be admitted to the university as post-baccalaureate students (i.e. Graduate Preparation). As post-baccalaureate students they may register for classes and demonstrate their ability to do the work required of MPA students. They should be aware of the EWU regulation on previous graduate credit which permits no more than 12 pre-admission credits to be counted toward a graduate degree (see the general policies on page 327). The director of PADM will determine whether they should be granted admission to the program based in part upon their work as post-baccalaureate students. Students with scores below the aforementioned ones may be provisionally admitted to the university as post-baccalaureate students. Students may take up to 12 pre-admission credits to be counted toward a graduate degree after graduate admission and with program approval, and must enroll in English Language Institute (ELI) until completion of Level 5.

The Test Drive
In the test drive applicants will be allowed to take up to 12 quarter credits with permission of the director while completing all admission requirements. The letters of recommendation and career plan summary are not required prior to enrolling in the first 12 credits of classes. It will be necessary to complete the Application for Admission to a graduate program and submit it to the Graduate Programs Office with the appropriate fee. Documentation of completing a bachelor’s degree will also be required. The application should be signed by the MPA Program Director indicating provisional acceptance. In order to be admitted to the program, it is necessary to complete the background requirements (see below), so in addition to the 12 credits in MPA courses in the test drive, students will need to complete any background courses they have not already completed.

Advancement to Candidacy
Prior to completing 30 credit hours of coursework, a student is expected to file for advancement to candidacy. When the candidacy form is filed and accepted, it represents an official statement regarding what courses a student must complete to obtain the MPA degree. Filling out the form involves listing all courses completed, all in progress and all those yet to be taken to complete the courses required for the degree. It also involves identifying two PADM faculty members who will sit on the oral exam committee. The chair of the committee will be the advisor for the student’s research project or thesis. Students may indicate preferences for who serves as the chair and second member of the committee, but the final decision regarding which faculty members are on the committee will be made by the MPA program director.

Comprehensive Examination
Every student seeking a Master of Public Administration degree must take a comprehensive written examination.

The first step toward the comprehensive examination is filing for candidacy. When the student files for candidacy, he or she will designate the term and year in which the student anticipates taking the Comprehensive Examination and complete his or her MPA degree.

The second step is to complete all the designated core courses (except PADM 601 and PADM 602) in the MPA curriculum, and take all or a majority of their elective courses, such that after they finish PADM 601 MPA Capstone and PADM 602 MPA Portfolio, outlined below, they will have completed all of the degree requirements for the MPA degree.

The third step is to concurrently enroll in PADM 601 MPA Capstone and PADM 602 Portfolio during their final term in the MPA program. Both the Comprehensive Examination and the Portfolio will be examined by the MPA faculty.

The Comprehensive Examination will cover the following materials:
1. questions designed to test the student’s understanding and comprehension of relevant MPA knowledge-bases and competencies in the Core Curriculum of the MPA program, and 2. at least one question designed to test the student’s ability to apply the MPA knowledge-base and competencies they have learned to a case-study situation drawn from actual administrative practice. Both PADM 601 and PADM 602 are graded on a pass/fail basis. Should it be necessary to schedule a retaking of the examination, the procedures shall be the same with the exceptions noted under Graduate Affairs Council policy 13.12. A copy of Graduate Affairs Council Policies is available for reading in the main Public Administration office, EWU, Phase One Classroom Bldg., 668 N. Riverpoint Blvd., #325.

Cooperation with Other Graduate Programs
With the permission of the MPA director, courses offered by other graduate programs may be counted toward the 20 credits elective requirement. Master’s degree programs that frequently offer courses considered appropriate as elective courses in the MPA program include: MURP (Planning), MPH (Public Health), MSW (Social Work), Master of Science in Communication Studies and MBA (Business Administration).

Some of courses from the planning program that may be used as electives in the MPA program include:
- PLAN 510 Community Facilities Planning (5)
- PLAN 530 Contemporary American Indian Planning (3)
- PLAN 540 Land Use Planning (5)
- PLAN 542 Sustainable Communities (3)
- PLAN 550 Emergent Community Health Challenges (4)
- PLAN 560 American Indian Planning Studio (3)
- PLAN 571 Environmental Review (3)

We also encourage MPA students with an interest in tribal governance to consider obtaining the Executive Tribal Planning Program certificate and counting those courses toward elective requirements in the MPA program.

The courses in the Executive Tribal Planning program include:
- PLAN 523 American Indian Planning (4)
Courses from the Masters in Public Health that MPA students may use as electives include:

- HLED 505 Trends and Issues in Public Health (4)
- HSAD 500 U.S. Healthcare Systems (4)
- HSAD 540 Health Policy (4)
- PLAN 511 Health Impact Assessment (2)
- PLAN 552 Comprehensive Community Health Planning (4)

Thesis Option

- If a student decides to write a master’s thesis, s/he is required to register for 8 credits of PADM 600 Thesis Research. Two of those credits substitute for the normal PADM 601 requirement. The other 6 credits can be counted toward the 20 credit elective requirement.

Y Grades in PADM Courses

- Y grades are given for coursework that was not expected to be completed by the end of the quarter.

PADM courses in which Y grades may be given include:

- PADM 519 Public Service Learning (2 credits)
- PADM 525 Public Sector Grants-Writing and Administration (4 credits max)
- PADM 599 Directed/Independent Study (4 credits max)
- PADM 600 Thesis Research Seminar (8 credits max)
- PADM 601 MPA Capstone (2)
- PADM 602 MPA Portfolio (2 credits max)
- PADM 603 Internships in Public Administration (8 credits max)

Public Service Learning Field Experience (2 credits)

- Students in the MPA program are expected to evidence an interest in public service. The public service learning field experience requirement is designed to give course credit for field experience involving 100 hours of voluntary public service.
- Students who can provide documentary evidence of having engaged in 100 hours of voluntary public service prior to admission to the program may be allowed to substitute a 2 credit elective course for this requirement.

Internships (optional) (2–8 credits)

Although internships are not a required part of the MPA curriculum, they are strongly recommended for all MPA students who have not had significant public sector administrative experience. The internship is intended to provide a major professional learning experience for the student, including a realistic exposure to a complex organizational environment. The intern is expected both to contribute to the agency by helping to solve problems for the agency and to learn from and about the agency. Normally an internship should be arranged after finishing at least 30 credit hours of coursework in the program. The standard requirement for a 4 credit internship is 20 hours of work per week for one quarter. No more than 8 credits of internship may be counted toward graduation. Academic credit is obtained by registering for PADM 603. Documentation of the work experience is required.

Dual Degree Programs

**MPA/MBA**

A dual-degree program with the Eastern Washington University Master of Business Administration is available through which one can obtain both an MPA degree and an MBA degree. In this program of study, required courses for one degree program serve as elective courses in the second program, thereby reducing the number of credits required for each of the degrees. Any student interested in this dual degree must apply and be admitted to both the Master of Public Administration and the Master of Business Administration Programs. Individuals who have already started one of the two master’s programs can work toward the MPA/MBA by qualifying for admission to the other program. Students complete 73 hours of coursework in addition to those background courses which are prerequisite to either graduate degree program. The average progress requires about eight quarters of full-time study to complete both degrees. Interested parties should contact the PADM director and MBA director at EWU, Phase One Classroom Bldg., 668 N. Riverpoint Blvd., #325, 509.828.1248 or 509.828.1232. For information on the MPA program see Business Administration.

**MPA/MSW**

A dual-degree program with the Eastern Washington University Master of Social Work program is available through which one can obtain both an MPA degree and an MSW degree. In this program of study, required courses for one degree program serve as elective courses in the second program, thereby reducing the number of credits required for each of the degrees.

Any student interested in this dual degree must apply and be admitted to both the Master of Public Administration and the Master of Social Work Programs. Individuals who have already started one of the two master’s programs can work toward the MPA/MSW by qualifying for admission to the other program. The number of credits needed to graduate with the MPA/MSW dual degree is at least 118 for students in the two-year MSW program and 83 credits for students in the advanced standing MSW program. The dual-degree program can be completed in eight to nine full-time quarters by students in the two-year MSW program and in six quarters by students in the advanced standing program. Interested parties should contact the PADM director and MSW director in 203 Senior Hall, Cheney, Washington 99004-2431, 509.359.6485. For information on the MSW program see the Master of Social Work section.

**MPA/MURP**

A dual-degree program with the Eastern Washington University Master of Urban and Regional Planning Program is available through which one can obtain both an MPA degree and an MURP degree. In this program of study, required courses for one degree program serve as elective courses in the second program, thereby reducing the number of credits required for each of the degrees. Any student interested in this dual degree must apply and be admitted to both the Master of Public Administration and the Master of Urban and Regional Planning Programs. Individuals who have already started one of the two master’s programs can work toward the MPA/MURP by qualifying for admission to the other program.

Admitted students must complete 91–92 credits to earn both degrees. One comprehensive examination is required. The complete policy on the MPA/MURP is available in both program offices and in the Graduate Studies Office. Eight quarters of full-time study are typically needed to complete both degrees. Interested parties should contact the PADM director and MURP advisor, Department of Planning, EWU, Phase One Classroom Bldg., 668 N. Riverpoint Blvd., #239, Spokane, WA 99202-1660 or at 509.828.1218.
Public Administration Advanced Standing Program, Master of Public Administration (MPA)

Persons who have completed all of the requirements for the undergraduate Public Policy and Administration Certificate offered through the Government Department and the Economics Department of EWU’s College of Social & Behavioral Sciences and Social Work are allowed to obtain the MPA Degree by meeting the following requirements.

Note: for specifics on the requirements for the undergraduate Public Policy and Administration Certificate, see the description in this catalog under the Economics Department or the Political Science and International Studies Department.

**MPA Elective Courses**—in any of the courses acceptable as electives in the MPA Program.

Note: elective courses acceptable for the MPA program should not be below the 400 level.

Total Credits 46

Student Learning Outcomes—students will

- demonstrate an ability to develop professionally through reflective analysis of employment and educational experiences;
- articulate and apply a philosophy of public service administration practice;
- lead and manage in public governance;
- participate in and contribute to the public policy process;
- analyze, synthesize, think critically, solve problems and make decisions;
- communicate effectively and interact productively with a diverse and changing workforce and citizenry.

Public Administration, Master of Public Administration (MPA)

Note: PADM 500, PADM 501 and PADM 503 should be taken the 1st or 2nd quarter in the program.

- articulate and apply a philosophy of public service administration practice;
- lead and manage in public governance;
- participate in and contribute to the public policy process;
- analyze, synthesize, think critically, solve problems and make decisions;
- communicate effectively and interact productively with a diverse and changing workforce and citizenry.
Public Management Development, Certificate

The Public Management Development Certificate Program is available to students who are interested in engaging in study in public administration but not in commitment to an entire MPA program. Both a basic certificate (16 credits) and an advanced certificate (36 credits) are available. Course offerings within the basic program provide an introduction to the concepts and skills associated with public sector administrative responsibilities. The advanced certificate program permits further development in the fundamentals of public sector management. Admission to the certificate program is upon the same basis as is admission to the MPA program.

Notes:

• admission to the certificate program is upon the same basis as is admission to the MPA program;
• available to students who are interested in engaging in study in public administration but not in commitment to an entire MPA program.

Choose the basic or advanced certificate 16-36

Communication Disorders

Introduction
Lesli Cleveland, Chair
509.828.1376
310 N. Riverpoint Blvd., Box B Spokane, WA 99202
Department webpage (http://www.ewu.edu/commdisorders)

Professionals practicing in Communication Disorders are concerned with impairments and disabilities of speech, language, cognition, communication, voice and swallowing as well as hearing processes and disorders. A certified speech-language pathologist is qualified to assess as well as plan and implement intervention programs for these disorders. A certified audiologist is qualified to provide diagnostic hearing assessment and rehabilitative services for individuals who are deaf or hard of hearing. Audiologists also work with auditory processing problems and dysfunctions related to balance.

The department has a strong clinical orientation that addresses the medical, developmental and educational issues that impact being a competent speech-language pathologist. The general goal (through the master’s degree) is to provide a sound academic background and to complement that instruction with clinical knowledge and experience sufficient to equip the student to provide professional services to individuals across a spectrum of communication disorders in a variety of employment settings. The baccalaureate degree is considered pre-professional. The master’s degree is required for licensure at the state and certification at the national level. Upon earning the master’s degree employment opportunities may include clinics, hospitals, private practice and community agencies. The majority of the positions, however, are in the public schools. The employment outlook for graduates remains excellent. It should be noted that Communication Disorders is a speech-language pathology program only. To meet the requirements to become an audiologist, the student must earn a doctoral degree in audiology from an accredited program.

The Department of Communication Disorders is located at the Health Sciences Building on the EWU Spokane Campus. Clinical practice is conducted at the University Programs in Communication Disorders (UPCD) Hearing and Speech Clinic on the EWU Spokane Campus and in numerous off-campus sites in the area. All programs (undergraduate and graduate) are on a semester schedule.

The undergraduate Communication Disorders program is designed to begin in the junior year following completion of the university’s general education requirements. Upon earning the bachelor’s degree, the student would then apply for graduate study. Individuals earning a bachelor’s degree in another field can prepare for graduate training in communication disorders by first completing a post-baccalaureate year of selected junior and senior level courses in the department (see the separate section in this catalog entitled Pre-Professional Programs). Supervised clinical practice is generally reserved for the graduate level, although limited clinical experience may be obtained at the undergraduate level.

Time to Completion of the Program
Most students complete the graduate curriculum in Communication Disorders within five (5) semesters (i.e., fall, spring, summer, fall, spring). Some students may not complete the program within five semesters; these individuals typically have unfinished research and/or clinical practicum requirements that cause them to not complete the program within the typical time frame. Assuming they are accepted for graduate study, students who enter the program as undergraduate majors can reasonably expect to complete their studies within nine (9) semesters (i.e., two years or four semesters of undergraduate study and five semesters of graduate study). If accepted for graduate study, students who enter the program with bachelor’s degrees outside the discipline can expect to complete their studies within seven (7) semesters (one year or two semesters of post-baccalaureate study and five semesters of graduate study).

Program Accreditation and Professional Certification Information
The graduate program in speech-language pathology is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology (CAA). The current period of accreditation is September 1, 2011 through August 31, 2019. Please check with the department for further information.) Additional information related to accreditation (e.g., complaint procedures, graduate employment rates, national exam pass rates, program completion rates, student assistance plan, etc.) can be found on the department’s website (http://www.ewu.edu/commdisorders). Completion of the undergraduate curriculum and the Master of Science degree will allow the student to satisfy most of the requirements for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) issued by the American Speech-Language-Hearing Association (ASHA). The student must also pass a national examination and successfully complete a Speech-Language Pathology Clinical Fellowship (SLPCF) as prerequisites for earning the CCC-SLP.

Lesli H. Cleveland, Donald R. Fuller, Roberta A. Jackson, Doreen A. Nicholas, Barbara M. Peregoy, Jane T. Pimentel, Elizabeth Wilson-Fowler.

Undergraduate Degrees
Bachelor of Arts (BA)
· Communication Disorders (p. 235)

Undergraduate Programs
Admission Information for High School Students
No specific courses are required. High school students may find it useful to take computer coursework, four years of English and any available speech, behavioral science and natural science courses.

General Admissions Requirements for All Students
A minimum GPA ≥ 2.75 is required for admission to and retention in the undergraduate program. Students wishing to major in communication disorders must meet the minimum GPA requirement, complete a department application form and pay an application fee.

Admissions Information for Pre-Major Students
Freshman and sophomore students must complete their GECRs, university competencies and courses offered by other departments in support of the major prior to enrollment in the required Communication Disorders courses within the major. In addition, students must complete coursework reflecting knowledge in the biological sciences, physical sciences, statistics and the social/behavioral sciences prior to beginning the program. Acceptable courses in biological sciences should emphasize a content area related to human or animal sciences. Acceptable courses in physical sciences should include physics or chemistry. Acceptable courses in social/behavioral sciences should...
include psychology, sociology, anthropology or public health. Research methodology courses in communication sciences and disorders (CSD) may not be used to satisfy the statistics requirement. Entering the program prepared is imperative as the Communication Disorders undergraduate program is on a semester schedule while the rest of the university is on a quarter schedule.

Admissions Information for Transfer Students
Transfer students should satisfy the GECEs and university competencies with equivalent coursework. The transfer student must demonstrate knowledge of the biological sciences, physical sciences, statistics and the social/behavioral sciences. Acceptable courses in biological sciences should emphasize a content area related to human or animal sciences. Acceptable courses in physical sciences should include physics or chemistry. Acceptable courses in social/behavioral sciences should include psychology, sociology, anthropology or public health.

EWU participates in transfer agreements with community colleges in Washington state and select Idaho and Montana community colleges. Graduates of these colleges who complete a direct-transfer associate degree are admitted to Eastern with junior standing and will have satisfied Eastern’s lower division general education requirements. In addition, to earn a Bachelor’s degree from EWU, students will need to have taken one course in International Studies and one course in Culture/Gender (see University Graduation Requirements in catalog). If there are any questions or concerns the student should consult with Communication Disorders faculty to plan their program.

Foreign Language Requirement for Communication Disorders
A foreign language is required by Eastern Washington University for a Bachelor of Arts (BA) degree. To fulfill this requirement, two years of a single foreign language in high school or one year of a single foreign language at the college level is required. American Sign Language (ASL 376, ASL 377 and ASL 378) is an excellent foreign language option for an individual majoring in Communication Disorders. It should be noted that ASL courses are taught on a quarter academic schedule so these courses should be taken prior to declaring Communication Disorders as a major.

Policy Regarding Student Progress within the Major
In addition to maintaining an overall cumulative grade point average ≥2.75 to be retained in the program and to graduate with the BA degree, the student must earn a grade ≥1.7 or better in each of the courses within the major. Earning a grade <1.7 for any given course will require that the student repeat the course. If the course is a prerequisite for a higher-level course, the student will not be allowed to enroll in the higher-level course until a grade ≥1.7 or better has been earned in the prerequisite course. Additionally, ASHA requires that the program regularly assess each student’s progress toward meeting knowledge and skills outcomes (KASA). Each course in the major has its own assessment plan with a built-in academic assistance plan for students who experience difficulty in the course. The program’s Student Assistance Plan can be found on the department’s website (http://www.ewu.edu/commdisorders).

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Degrees
- Master of Science (p. 236)

Graduate Program
Roberta Jackson, Graduate Program Coordinator
310 N. Riverpoint Blvd., Box V, Spokane, WA 99202

Communication Disorders Major, Bachelor of Arts (BA)

Notes:
- two years of a single high school foreign language or one year of a single college level foreign language is required;
- it should be noted that because Communication Disorders is the only semester-based program within the university, courses will be offered on a semester schedule but quarter credits will continue to be listed on the student’s official academic transcript. Courses below are listed in both semester and quarter credits. Semester credits have an “s” after them, while quarter credits have a “q” after them.

Required Supporting Courses—students majoring in COMD must take 7-10 a public speaking course (4-5 credits) and a statistics course (3-5 credits). These courses should be taken prior to entering the COMD major.

Total Credits 83.5-89.5
Student Learning Outcomes—students will

- apply foundational principles for assessment and intervention of disorders of hearing, speech, language and swallowing;
- recall and relate the causes, characteristics and consequences of the disorders of hearing, speech, language and swallowing;
- compare the content and sequence of the development of speech and language in children from birth through school-age;
- describe the anatomical, physiological and psychological properties involved in the normal communication processes of hearing, speech, language and swallowing;
- demonstrate knowledge of the physics of sound and the measurement of its dimensions, and be able to apply basic principles of acoustics to human hearing and speech;
- illustrate insight into the communication disorders profession by participating in service learning opportunities.

Communication Disorders, Master of Science (MS)

The Master of Science degree is designed to equip the student with the academic and clinical skills required to function as a competent professional in the field of communication disorders. The master’s graduate is qualified to provide clinical services to a wide range of communication disordered children and adults in a variety of professional settings. Upon completion of the graduate program, the student will have met all requirements for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP) with the exception of the Speech-Language Pathology Clinical Fellowship (SLPCF). The student must also pass a national examination in speech-language pathology; most students take and pass the exam prior to earning the master’s degree.

The graduate curriculum includes exposure to science and research areas as well as to clinical disorders and related practice. The graduate curriculum is part of a cooperative program between Eastern Washington University and Washington State University—Spokane, and is known as the University Programs in Communication Disorders (UPCD). The UPCD is housed in the Health Sciences Building on the Spokane campus. The undergraduate and graduate curricula are administered on a semester academic schedule in alignment with the academic schedule of Washington State University.

Admission Requirements/Preparation

Admission to the master’s program includes the requirements of the graduate school as well as the GRE general and writing tests, letters of recommendation, a statement from the applicant outlining professional interests and intent, and an application fee. The program utilizes a central application system. Application and the supporting materials are to be submitted to the CSDCAS program http://www.capcsd.org/csdcas/, a separate application is to be submitted to the EWU graduate program office. All application materials must be received by January 15 prior to the fall academic term of enrollment. Students entering the program must have completed an undergraduate major in communication disorders. Students with an undergraduate major in any other field must complete a post-baccalaureate year of required communication disorders courses prior to applying to the graduate program (see the separate section of this catalog entitled Pre-Professional Programs). In addition, students need to take an introductory statistics course prior to graduate school, as it is a requirement for professional certification.

Course selections made by the student and a departmental faculty advisor can be individually tailored to the student’s professional goals. Course selection is guided by the knowledge and skills outcomes of the certification standards for the CCC-SLP as set forth by the American Speech-Language-Hearing Association (ASHA).

According to current ASHA certification standards, it is expected that candidates for the master’s degree will have accumulated a minimum of 400 clock hours of clinical practicum with 25 hours spent in observation and 375 hours spent in direct client/patient contact. At least 325 of the 400 hours must be completed at the graduate level. This is accomplished by completing clinical practicum experiences (COMD 561, COMD 562, and/or COMD 563) and taking one required semester of COMD 697. Completion of the Master’s degree and clinical experience qualifies the student for Washington state licensure in Speech-Language Pathology and makes that individual eligible for the CCC-SLP upon completion of the SLPCF and upon passing the national examination (referred to as the PRAXIS exam).

Students who intend to be employed in the public schools of this state must meet Washington state educational certification requirements, which include three (3) semester credits of coursework and a Clinical Field Experience in the schools.

Research Requirement and Its Defense

A research project of some type (i.e., either thesis or non-thesis) must be completed by all graduate students. The selection of research option is accomplished during the first semester of graduate study in COMD 520. Selection of a research advisor also takes place while the student is enrolled in this course. Only those students who show excellent aptitude in research and scientific writing are given the thesis option. A thesis is intended to be an empirical study that is formal and rigorous. The non-thesis option includes any type of research (e.g., case study, empirical study, survey, etc.) deemed appropriate by the student’s research advisor.

The fall semester of the first year of study is used to develop a research idea while enrolled in COMD 520. During the spring semester of the first year of study, the student and research advisor further refine the research idea and submit the proper paperwork to the Institutional Review Board, if required. The fall and spring semesters of the second year of study are used to complete and defend the research. Students who have been granted permission to conduct a thesis will enroll in 2 quarter (3 semester) credits of COMD 600 during the spring semester of their first year of study, and 2 quarter (3 semester) credits of COMD 600 during each of the fall and spring semesters of their second year of study, for a total of 6 quarter (9 semester) credits of research. Students who conduct a non-thesis research project will enroll in COMD 620 (2 quarter; 3 semester credits) during the spring semester of the first year of study, COMD 621 (2 quarter; 3 semester credits) during the fall semester and COMD 622 (2 quarter; 3 semester credits) during the spring semester of their second year of study, for a total of 6 quarter (9 semester) credits of research.

Two faculty members from the combined UPCD faculty form the student’s research committee (the chair of the committee is the student’s research advisor). The research advisor may be either a WSU or an EWU faculty member who holds graduate faculty status. If the research advisor is a WSU faculty member, the second committee member must be an EWU faculty member. If the research advisor is an EWU faculty member, the second committee member may be either a WSU or EWU faculty member. For the student’s defense of his or her research, a
graduate council representative is assigned by the Office of Graduate Studies as a third committee member.

Toward the end of their graduate program, students orally defend their research project in the presence of their committee members and other interested parties. Students who complete a thesis will make a formal presentation in front of an audience and will entertain questions from their committee members and other interested parties. Students who complete a non-thesis project will develop a poster that will be put on display. Students will stand by their posters and entertain questions from their committee members and other interested parties. The research defense will take place during a designated Research Day that will typically take place during the latter half of the spring semester each year. In some instances, two or more Research Days may be designated; the student will only have to defend his or her research at one of these scheduled Research Days.

At the defense, the student's research committee makes a decision as to whether or not the research project is successfully completed. If the research project is judged as not being successfully completed, the committee indicates what additional work must be accomplished and whether another defense will be necessary. If the research project is judged to be completed and satisfactorily defended, a grade is assigned to the thesis or non-thesis research project.

Policy Regarding Student Progress
In addition to maintaining an overall cumulative grade point average ≥3.00 to be retained in the program and to graduate with the MS degree, the student must earn a grade ≥2.7 or better in each of the graduate courses taken (exclusive of practicum courses). Earning a grade <2.7 for any given course will require that the student repeat the course. If the course is a prerequisite for a higher-level course, the student will not be allowed to enroll in the higher-level course until a grade ≥2.7 has been earned in the prerequisite course. Additionally, ASHA requires that the program regularly assess each student's progress toward meeting knowledge and skills outcomes (KASA). Each graduate course has its own assessment plan with a built-in academic assistance plan for students who experience difficulty in the course. The program's Student Assistance Plan can be found on the department's website (http://www.ewu.edu/commdisorders).

Note: credits are listed as semester(s) and quarter(q).

**Student Learning Outcomes—students will**

- demonstrate application of research in the discipline of communication disorders;
- use the products of technology in both scholarship and clinical applications;
- write and speak clearly and effectively;
- critically evaluate and utilize new information in the discipline of communication disorders;
- demonstrate through discussion and application in class and clinic the principles, processes and procedures for the prevention, identification, evaluation, intervention and management of communication disorders;
- demonstrate knowledge through adherence to the Code of Ethics of the American Speech-Language-Hearing Association in academic and clinical work.

Faculty

Undergraduate Degrees
Bachelor of Science (BS)
  • Dental Hygiene (p. 239)
  • Dental Hygiene (BSDH) (p. 240)

Undergraduate Program
The Department of Dental Hygiene functions within the university setting and offers a Bachelor of Science Degree in Dental Hygiene which combines a strong liberal arts background with a professional education. General education courses, basic dental and dental hygiene science courses are integrated into the practice of dental hygiene.

Students interested in majoring in dental hygiene should request current information on application procedures and seek advising early in their university program. The undergraduate program will move to semesters fall 2016.

General Admissions Requirements for Dental Hygiene
All students enrolling in dental hygiene courses must hold a current Health Care Provider CPR Certification. In addition to the $50.00 university admission fee and the $100.00 new student enrollment fee, there is an additional $42.00 student department application fee.

All students are urged to maintain contact with department advisors during their prerequisite year(s) because admission criteria are revised periodically. Since enrollment is limited and the admission process is competitive, no assurance can be given that all applicants admitted to the university and successfully completing the prerequisite coursework will be admitted to the Department of Dental Hygiene.

Admissions Requirements for Transfer Students
Students transferring from either four-year institutions or community colleges must first apply for admission to the university through the EWU Admissions Office, which will evaluate transfer coursework and, upon request, send a copy of the transcript evaluation to the Dental Hygiene Program.

Once admitted to EWU, transfer students should contact the Department of Dental Hygiene and arrange to meet with a department advisor for curricular planning and to declare a pre-dental hygiene major.

Applications to the Department of Dental Hygiene will not be processed until students have been formally admitted to the university and a copy of their transcript evaluation has been sent from Admissions to the Department of Dental Hygiene.

Attention High School Students
Those students interested in dental hygiene should complete one year of high school chemistry, biology and algebra.

Placement Record for EWU Dental Hygiene Graduates
EWU dental hygiene graduates have a good placement record in Spokane and nationwide. The program has a 46-chair clinic located at EWU Spokane. The clinic provides dental services to the general public by students under direct faculty supervision.

Mission
The department’s mission is to educate baccalaureate dental hygienists to assume positions of responsibility in multiple settings. The faculty of the department are committed to creating a quality educational environment that will facilitate the development of responsible professionals who can function effectively in a constantly changing society.

Department Goals for Dental Hygiene
The following goals direct the design, purpose and philosophy of the Eastern Washington University Department of Dental Hygiene.

The Department of Dental Hygiene will provide all students the skills necessary to function in a constantly changing society, an obligation of Washington’s only Bachelor of Science in Dental Hygiene program.

The Dental Hygiene faculty are supported throughout their careers;
Dental Hygiene students, faculty and staff impact the university, the region and the world.

The Department of Dental Hygiene will grow resources to enhance the dental hygiene academic quality.

While the dental hygiene program consists of one year of pre-dental hygiene courses and general education courses followed by a three-year professional curriculum most students take two years to complete the pre-dental hygiene courses. The professional segment of the three-year curriculum includes emphasis on dental sciences, community dental health, health research theory and clinical practice in traditional and expanded functions. Dental clients are treated at the EWU clinic and at the Veterans’ Administration Medical Center, Community Health Association of Spokane (CHAS), Unify Community Health, and Lake Spokane Community Clinic. While in the program, dental hygiene students are required to participate as operators and patients for each other, and to deliver and receive injections of local anesthetic and administer and receive nitrous oxide sedation for dental hygiene learning experiences. These activities are essential components of the dental hygiene curriculum.

The program is fully accredited by the Commission on Dental Accreditation of the American Dental Association and leads to a specialized Bachelor of Science in Dental Hygiene degree. It is the only traditional Bachelor of Science in Dental Hygiene program in Washington state.

Goals
1. To graduate educationally competent, culturally sensitive, and ethically sound dental hygienists who promote oral and general health and wellness to the public and other health care practitioners.
2. To provide a quality educational program that meets the needs of the students, is sensitive to the changing needs of dentistry and follows the guidelines of the educational community.
3. To graduate dental hygienists who initiate and assume responsibility for health promotion and disease prevention for diverse populations in a variety of settings, and who appreciate interprofessional collaboration.
4. To graduate dental hygienists who possess transferable skills in communication, problem solving, and critical thinking, in order to encourage and take advantage of opportunities for professional growth and development in themselves, their profession and others.
5. To offer a graduate degree program that is sufficient in scope and depth to provide a high quality professional education for dental hygienists that fosters the ability to adapt to the future, to provide leadership in dental hygiene, to practice as an ADHP (if the opportunity exists), and to accept the challenge of doctorate level education.
6. To enhance the body of knowledge for the profession of dental hygiene through support of faculty translational research programs that contribute to the art and science of dental hygiene, to dental hygiene practice, and the improvement of oral health delivery systems.

Mission Statement
The mission of the Master of Science Degree in Dental Hygiene Program is to educate and graduate dental hygienists who are technically, intellectually, and ethically prepared to use critical thinking skills, exemplify life-long learning, employ evidence based decision making, and model cultural sensitivity as community leaders, outstanding citizens, and health care professionals.

This program will encourage the perpetual self-learning capacity to live up to one’s full potential and to contribute to making our community, our profession and our world a better place to live.

Goals

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Program
The graduate program will be taught on the semester system starting fall 2015.

Mission Statement
The mission of the Master of Science Degree in Dental Hygiene Program is to educate and graduate dental hygienists who are technically, intellectually, and ethically prepared to use critical thinking skills, exemplify life-long learning, employ evidence based decision making, and model cultural sensitivity as community leaders, outstanding citizens, and health care professionals.

This program will encourage the perpetual self-learning capacity to live up to one’s full potential and to contribute to making our community, our profession and our world a better place to live.

Goals
1. To graduate educationally competent, culturally sensitive, and ethically sound dental hygienists who promote oral and general health and wellness to the public and other health care practitioners.
2. To provide a quality educational program that meets the needs of the students, is sensitive to the changing needs of dentistry and follows the guidelines of the educational community.
3. To graduate dental hygienists who initiate and assume responsibility for health promotion and disease prevention for diverse populations in a variety of settings, and who appreciate interprofessional collaboration.
4. To graduate dental hygienists who possess transferable skills in communication, problem solving, and critical thinking, in order to encourage and take advantage of opportunities for professional growth and development in themselves, their profession and others.
5. To offer a graduate degree program that is sufficient in scope and depth to provide a high quality professional education for dental hygienists that fosters the ability to adapt to the future, to provide leadership in dental hygiene, to practice as an ADHP (if the opportunity exists), and to accept the challenge of doctorate level education.
6. To enhance the body of knowledge for the profession of dental hygiene through support of faculty translational research programs that contribute to the art and science of dental hygiene, to dental hygiene practice, and the improvement of oral health delivery systems.

Philosophy
The philosophy of the MSDH program is one of commitment to the education and development of oral health professionals who go beyond academic excellence, who are productive, self-sufficient citizens of society, who are responsive to the global community, and who maintain high ethical standards in their personal and professional lives. In order to achieve these goals, our faculty embodies excellence in academic endeavors, professional development in teaching theory and pedagogy, knowledge of scientific advancements in dental care and advanced clinical skills. Our goal is to produce graduates who are prepared to meet the current and future health care demands of the global community.

Admission Requirements for the Graduate Dental Hygiene Program
1. Cumulative undergraduate GPA ≥3.0.
2. BS in dental hygiene or related area from an accredited dental hygiene program in the U.S. or Canada.
3. Successful completion of the Dental Hygiene National Board exam or its Canadian equivalent.
4. A current dental hygiene license in the U.S. or Canada.
5. Submission of an essay on a topic provided by the Department of Dental Hygiene.
6. Clearance of a criminal background check.

In addition to the $50 university graduate application fee, there is an additional $50 departmental application fee. Applications to the Department of Dental Hygiene will not be considered until they have been processed in the university Graduate Programs Office and a copy of the transcript evaluation has been sent from Graduate Studies to the Department of Dental Hygiene.

Dental Hygiene Major, Bachelor of Science (BS)
Note: the above major will require more than 12 terms (or four years) to complete at an average of 15 credits per term.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
- exemplify critical thinking skills, self-assessment, ethical, legal, and moral responsibility to strengthen professional effectiveness in all roles of the dental hygienist;
- synthesize theoretical and empirical knowledge from dental hygiene, scientific, and humanistic disciplines and integrate it into clinical, academic, and leadership roles;
- embody leadership and advocacy skills to enhance the quality of dental hygiene and health care;
- evaluate research and apply findings to evidence-based practices in the roles of the dental hygienist;
- collaborate with other professionals and the public to promote the health and well-being of a diverse society;
- engage in lifelong learning through graduate education and/or specialty training, as appropriate.

Dental Hygiene, Bachelor of Science in Dental Hygiene (BSDH)
The online program will be taught on the semester system starting fall 2015.

Dental Hygiene ONLINE Degree Completion
Program Mission and Goals: The mission of the Bachelor of Science in Dental Hygiene (BSDH) degree completion program is to enhance the educational experiences of dental hygienists who graduated with an associate degree. This is accomplished by providing a liberal arts and broad-based general education component that includes critical thinking, research, writing, cultural sensitivity, and ethical judgment. Graduates of this program gain practical experience intrinsic to the various expanded roles and scopes of practice in the profession of dental hygiene. The BSDH program prepares students to interact effectively with other health professionals in a competent, collaborative, and ethical manner.

BSDH Degree Completion Program Goals Include
1. Compel individuals who possess moral and ethical values/behaviors to be effective participants in an increasingly complex and interdisciplinary health care system.
2. Foster dental hygienists who are culturally sensitive and possess a strong theoretical base in the humanities, psychosocial sciences, and dental sciences.
3. Encourage dental hygienists to be life-long learners who critically think, analyze and solve problems, make sound judgments, and lead others to do the same.
4. Cultivate the communication and leadership skills of dental hygienists to enhance their functional role of practitioner as well as the expanded roles of researcher, manager, change agent, consumer advocate, and health promoter/educator.
5. Instill a commitment to contribute actively to the betterment of the dental hygiene profession through professional involvement, continued education, and advanced professional or graduate education.

Teaching Methods and Learning Environment
The teaching methodology employed by faculty of the Bachelor of Science in Dental Hygiene Degree Completion Program is one of active participatory and collaborative learning. Course content is delivered online therefore, students attend class by participating in activities hosted on the EWU CANVAS. Students experience a variety of teaching methods and learning style strategies including instructor lead online discussions, writing, presentation, group projects, practical experience, and traditional lecture formats utilizing available online technology, in order to develop and expand the student’s capacity for professional growth. Students use reflective learning by participating weekly in writing activities that identify student progress. In addition, the instructor facilitates projects with assigned readings and websites and through electronic communication. Evaluation methods include discussion board participation, peer assessment, online self-paced quizzes, writing assignments, and online project presentation.

BSDH degree completion opportunities are for licensed dental hygienists who desire a baccalaureate degree and have associate degrees from two-year community colleges accredited by the Commission on Dental Accreditation and regional higher education accrediting bodies. EWU accepts a maximum block transfer of 74 quarter credits from an Associate in Applied Science dental hygiene degree program accredited by the Commission on Dental Accreditation and regional higher education accrediting bodies. In addition, to fulfill the EWU requirements for the EWU BS in Dental Hygiene students must complete the required Dental Hygiene courses including Cornerstone and Capstone (40 semester credits/60 quarter credits) and any other degree requirements, as identified by a program advisor after transcript evaluation. Transcripts and inquiries should be directed to Professor Ann O’Kelley Wetmore,
director of the BSDH degree completion program at Eastern Washington University.

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- exemplify critical thinking skills, self-assessment, ethical, legal, and moral responsibility to strengthen professional effectiveness in all roles of the dental hygienist;
- synthesize theoretical and empirical knowledge from dental hygiene, scientific, and humanistic disciplines and integrate it into clinical, academic, and leadership roles;
- embody leadership and advocacy skills to enhance the quality of dental hygiene and health care;
- evaluate research and apply findings to evidence-based practices in the roles of the dental hygienist;
- collaborate with other professionals and the public to promote the health and well-being of a diverse society;
- engage in lifelong learning through graduate education and/or specialty training, as appropriate.

**Dental Hygiene, Master of Science (MS)**

The MSDH program will be taught on the semester system starting fall 2015.

**Student Learning Outcomes—students will**

- exhibit the technical abilities, intellectual knowledge, and ethics necessary to collaborate and advocate for health policy challenges facing the health profession;
- exemplify critical thinking, scholarly inquiry, and professionalism as a leader in the profession and community;
- implement evidence-based theories and methods in a culturally sensitive manner to provide comprehensive care and promote health and well being;
- embody self-learning as a means to meet their full potential and contribute to making our community, our profession, and our world a better place to live.

Undergraduate Degrees
Bachelor of Arts (BA)
  · Health Services Administration (p. 245)

Undergraduate Minors
  · Health Services Management (p. 245)

Undergraduate Programs

The Health Services Administration Program is offered by the College of Business and Public Administration. The undergraduate program is certified nationally by the Association of University Programs in Health Administration. This Interdisciplinary program is designed for students interested in a variety of careers in the field of health services administration. Students are prepared for positions in health clinics, hospitals, long term care facilities, health maintenance organizations, health insurance companies, home health agencies, mental health agencies, physician practices, health departments, various regulatory agencies and community-based agencies among others. Responsibilities carried out by health managers/administrators include: budgeting/financial management, planning, human resource management, data analysis, marketing, physician relations and administration.

The required courses are in the areas of health services administration, business, health and economics. In addition, the program requires that the student complete a track or a minor in a specific sub-specialty. Examples of tracks include: aging, planning, human resource management, information technology, economics and business administration. Students must have approval of the program advisor for track or minor chosen and courses selected. HSAD students must maintain a cumulative GPA ≥3.0 for all HSAD classes and no more than two course grades may be <3.0. Students earning three or more grades of <3.0 in HSAD courses will be dismissed from the program. All other major requirements must be completed with a ≥2.0. The culmination of the student’s experience in the program will be an internship in a health care setting. To qualify for the internship, the student must have a grade point average ≥3.0 in HSAD classes plus permission from the department. Please note that MATH 200 is a prerequisite for some of the courses in the HSAD major.

Students in the Health Services Administration Program must have an overall cumulative grade point average ≥2.25. Also, students must complete one year of a foreign language, such as Spanish or sign language in college or two years of a single foreign language in high school.

Upon acceptance to the program students must complete at least 92 credit hours. Students choosing to minor in health services must complete 20 credit hours. Courses are offered on an every other year basis and students should check with the program director and class schedule each quarter.

Professional Membership Requirements
Every student graduating in Health Services Administration must be a student member of a professional organization at least by their senior year.

Work Experience Requirements
It is strongly advised that all students seek as much practical experience as possible, whether voluntary or paid. Students are urged to consult with their advisors in order to plan their program.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Certificates
  · Health Services Administration (p. 245)

Graduate Program

The College of Health Science & Public Health through its Health Services Administrative and Public Health Programs, offers graduate courses and a graduate level certificate in public health leadership. Courses from health services administration and public health are often included in a variety of undergraduate health disciplines and graduate programs. The graduate courses are designed to expand one’s understanding of the challenges that impact the successful delivery of health services. Individual classes focus on organizational issues that impact health delivery. The topics covered in these classes will be useful to health-related professionals who have specialty expertise in a health discipline and desire a greater understanding of the legal, fiscal, managerial and leadership aspects of delivering health care in several different environments. These classes will also help non health professionals who wish more knowledge of financing and delivery of public, private and not for profit health services.

The graduate certificate supports the goals of the college and the university by providing opportunities for people to expand their leadership, management, critical and systems thinking skills. Students who successfully complete a certificate offered by this program will become more effective managers or collaborators within the health delivery system. The program believes in the concept that health is an interprofessional, team process and is committed to providing education, research and service opportunities for students to become effective in both public and private health settings.

Admission Requirements/Preparation
The identification of necessary prerequisites would occur through a review of transcripts and other application material by the program director.

Program Requirements
  Two copies of official transcripts for all college work completed.
  Meet graduate program admission requirements
  A letter describing one’s background and experience in the health delivery system and how the Health Services Administration fits into ones professionalism goals.

Application materials should be sent directly to Graduate Programs office, 206 Showalter, Eastern Washington University
**Application Deadline**
The Health Services Administration and Public Health programs accept students into courses at any time. HSAD 500S, Health Systems is the first class and is offered in the fall. It is the prerequisite for the remaining classes. Certificate applicants should plan to start with HSAD 500S.

## Health Services Administration

### Major, Bachelor of Arts (BA)

**Notes:**
- two years of a single high school foreign language or one year of a single college level foreign language is required;
- HSAD students must maintain a cumulative GPA ≥3.0 for all HSAD classes.

### Student Learning Outcomes—students will

- focus on five core healthcare competency areas—communication and relationship management, professionalism, leadership,
- knowledge of the healthcare environment and business skills and knowledge;
- demonstrate effective written, oral and presentation communication skills in healthcare settings;
- apply the five core healthcare competencies in healthcare settings;
- problem solve in a variety of situations in healthcare settings;
- manage projects utilizing the five core healthcare competency areas;
- integrate the five core healthcare competencies in an internship in a healthcare setting.

## Health Services Administration, Graduate Certificate

The Health Services Administration Certificate is intended to provide students who have an interest in working within the health field with an understanding of the many different types of health organizations that exist in the U.S. The courses also present students with an overview of the financial, legal and administrative issues that face all health administrators in today's market.

Undergraduate Program

Majors in Exercise Science or Interdisciplinary Studies leading to a Master of Occupational Therapy (MOT)
The Advanced Standing Master of Occupational Therapy program will allow a student to complete the requirements for an undergraduate degree while enrolled in courses required for the first year of the professional Occupational Therapy program. The student begins the occupational therapy track in the senior year, earns a Bachelor of Arts degree in Interdisciplinary Studies or a Bachelor of Science degree in Exercise Science, and applies to the Advanced Standing MOT program, which can be completed over the next one and half years. This program will introduce occupational therapy to undergraduate students early in their career development.

Admission to Combined Bachelor’s and Master of Occupational Therapy Program
The student first meets with the Admissions Coordinator of the Occupational Therapy Department for review of prerequisites, the course of study and a discussion of occupational therapy as a profession. A student pursuing a BA in Interdisciplinary Studies will be referred to the director of Interdisciplinary Studies for formal application, and the students working toward a degree in Exercise Science will work a program advisor from that respective program.

Students interested in working toward a combined Bachelor’s and Master of Occupational Therapy should contact the admissions coordinator, Department of Occupational Therapy, Eastern Washington University, 310 N. Riverpoint Blvd., Box R, Spokane WA 99202-1675 or call 509.828.1344 or contact ot@ewu.edu.

During the first three years of the Exercise Science degree with an emphasis in occupational therapy, the student develops a solid foundation in exercise science, as well as meets all university graduation requirements. Additionally, during this time, the student fulfills the prerequisite requirements for the Master of Occupational Therapy.

Students who require advising in the Exercise Science degree with an emphasis in Occupational Therapy should contact Wendy Repovich, PhD, Exercise Science director, PEHR Dept., 200 Physical Education Building, Cheney, WA, 99004-2476, or call 509.359.7960 or contact wrepovich@ewu.edu.

Students interested in the Bachelor of Arts in Interdisciplinary Studies major are encouraged to meet with an advisor from the Department of Occupational Therapy during the sophomore year and no later than the spring of the junior year. During the first three years of the Interdisciplinary Studies major with an emphasis in Occupational Therapy, the student develops a course of study to address his or her interests, as well as meet university and interdisciplinary studies’ major requirements. Additionally, during this time, the student fulfills the prerequisite requirements for the Advanced Standing MOT.

Students who require advising in the Interdisciplinary Studies major with an emphasis in Occupational Therapy should contact John Neace, Director, Interdisciplinary Studies, 300 Senior Hall, Cheney, WA, 99004-2414 or call 509.359.6524 or jneace@ewu.edu.

Admission into the occupational therapy track is offered only one time per year with students beginning the program summer semester. A personal interview may be required for admission into the occupational therapy track. The deadline for applications is the January 1 prior to the expected summer semester admission. The department admission committee will review and evaluate all applicants’ admission materials and prerequisites. Check with the department for exact admission deadlines: 509.828.1344.

Occupational Therapy Track Admission Criteria
Completion of 122 or more undergraduate credits and all general education requirements for EWU.

Completion of all prerequisite courses for application to the occupational therapy track. All of the prerequisite courses must be completed prior to admission into the occupational therapy track.

Numbers in parentheses indicate the number of quarter credits required.

Additional Requirements
The admissions process in occupational therapy is highly competitive. The requirements listed below are the minimum acceptable requirements to apply to the program and are not indicative of the competitive range of students generally accepted into the program. The following are the minimum acceptable requirements:

1. minimum cumulative GPA ≥3.0 in the last 60 graded quarter hours;
2. minimum cumulative GPA ≥3.0 of all prerequisite courses with no course <2.0.

During the senior year, the student begins a series of required courses listed below.

Students enrolled in the Occupational Therapy Track must complete the schedule of courses in the MOT curriculum toward completion of a BA in Interdisciplinary Studies, or BS in Exercise Science, Occupational Therapy Track.

Notes:
• a student may elect to discontinue the occupational therapy track and decide not to pursue the Master of Occupational Therapy;
• the student may complete the remaining 180 credits toward graduation in courses outside the occupational therapy curriculum and meet the graduation requirements for a Bachelor of Arts in Interdisciplinary Studies or Bachelor of Science in Exercise Science;
• two years of a single high school foreign language or one year of a single college-level foreign language is required for a Bachelor of Arts degree;
• applications for admission into the combined bachelor’s programs with the MOT program are available on the Occupational Therapy Department website or upon request.
Graduate Degrees

Master of Occupational Therapy (MOT)
- Occupational Therapy (p. 249)
- Advanced Standing Master of Occupational Therapy (p. 249)

Graduate Program
Occupational Therapy will be taught on the semester system starting fall 2015.

The Profession: Occupational Therapy (OT) is a health and rehabilitation profession that helps people of all ages to participate more fully in their day-to-day lives. Occupational therapists assist persons who are experiencing a physical, cognitive or emotional issue to recover to their maximum level of independence. Occupational therapists help people take care of themselves and their families, enjoy life and contribute to the social and economic fabric of the community.

Our Mission
- To develop person-centered occupational therapists of the highest integrity who practice with a strong occupation-based foundation from which they support and promote quality of life and full participation.
- To prepare students for a broad scope of practice with consideration for addressing the needs of the under served.
- To deliver an academic program which meets a spectrum of educational needs for students and professionals, in collaboration with community partners, while demonstrating teaching and learning excellence.
- To advance the profession with new, innovative and cost effective services for current and future practice opportunities.

Our Vision
- We envision a globally active community of students, faculty and community partners who demonstrate a respect for diversity, a passion for learning and a commitment to person-centered, occupation-focused and evidence-based practice.

Accreditation: the Occupational Therapy Program at Eastern Washington University is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, STE 200, Bethesda, MD 20814-3449. ACOTE’s telephone number c/o AOTA is 301.652.AOTA. www.aota.org (http://www.aota.org)

Graduates of the program will be eligible to sit for the National Certification Examination for the Occupational Therapist administered by the National Board for Certification of Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). In addition, most states require licensure to practice. However, state licenses are usually based on the results of the NBCOT certification examination. A felony conviction may affect a graduate’s ability to sit for the NBCOT certification examination or attain state licensure. Students must complete Level II Fieldwork within 24 months following completion of the didactic portion of the program.

General Admission Requirements:
Eastern provides two methods for students seeking entry into the profession of occupational therapy:

1. Combined Bachelor of Arts (BA) in Interdisciplinary Studies, Bachelor of Science (BS) in Exercise Science degree programs available at EWU or
2. Completed bachelor’s degree in any discipline ready to pursue graduate studies immediately. General admission requirements to both are each described below.

Complete the prerequisite courses listed:

<table>

Total Credits: 48-49

1. If the full A and P series (BIOL 232, BIOL 233 and BIOL 234) is completed at EWU, the medical terminology prerequisite is waived. The full A and P series is recommended if attending EWU.

2. It is highly recommended that students take OCTH 101 at EWU (offered fall quarter and online every quarter). However, if this is not possible, the course is available online. Contact EWU Online Learning at 509.359.2268.

3. OCTH 292 can also be taken online at EWU. Contact EWU Online Learning at 509.359.2268.

Other
Public Speaking—candidates are expected to be proficient in public speaking;
Computer Competency—candidates are expected to be proficient with and have access to a computer;
Students are required to have an email address during the program.

2. Complete the Graduate Record Examination (GRE) by January 1 of the year of application. Successful candidates are expected to perform a score greater than three (3) on the written section of the examination. GRE scores are valid for five years after test date.

3. Complete a minimum of 40 hours work/observation/volunteer experience with persons who have disabilities. Ten of the 40 hours must be in at least two different types of practice settings (e.g., acute care institutions, rehabilitation centers, pediatric centers, residential facilities, nursing homes, schools or mental health settings) under the supervision of a licensed occupational therapist.

4. Three original letters of recommendation;
5. One letter of recommendation must come from the supervising occupational therapist of the volunteer experience.
6. One letter of recommendation from an instructor/teacher who taught any college-level academic courses taken by the applicant in the areas of: a) Mathematics, or b) Science or c) English, or d) Psychology.
7. One letter of recommendation from a person (unrelated) who can provide a character reference.
8. Personal Essay
1. Submitted the Application of Degree Candidacy form to the Graduate Programs Office, specifying the Master in Occupational Therapy Degree Program approved by the Department of Occupational Therapy;
2. Completed the first semester of the MOT Program’s courses with a minimum GPA ≥ 3.0 in all courses;
3. Removed any/all deficiencies regarding graduate requirements;
4. Met with OT graduate advisor to confirm the required course of study as well as requirements for advancing candidacy and graduation;
5. Received approval for advancement to candidacy from the Dean of Graduate Studies or the dean’s designee.

Candidacy
To be advanced to Master’s Degree Candidacy, graduate students in the Master of Occupational Therapy Degree (MOT) Program must have met the following requirements:

9. Successful completion of a group interview.
10. Formal application is made online to OTCAS (http://www.otcas.org).

Final Comprehensive Examination
The final comprehensive examination for the Master of Occupational Therapy (MOT) Degree includes a research seminar and oral defense of the student’s research project presented to the department and graduate committee. Immediately following the oral defense of the research project, the student is given an oral examination administered by the student’s graduate committee which is composed of two–three departmental faculty members and a faculty member appointed by the Graduate Office. The focus of the examination is the student’s research and general questions related to the profession of occupational therapy and its practice. Successful completion of the comprehensive examination is required before enrollment in OCHR 695S.

Occupational Therapy, Advanced Standing Master of Occupational Therapy (MOT)

Advanced Standing Master of Occupational Therapy
This program allows qualified students who have graduated in one of the combined bachelor’s/MOT program to complete the MOT in one and one half years (73 credits).

Advanced Standing Master of Occupational Therapy Criteria
Prior to January 1, students apply to the Advance Standing Master of Occupational Therapy Program (see Master of Occupational Therapy admission requirements).

Successful completion of the Interdisciplinary Studies, Exercise Science or equivalent (completed by June 30 of the baccalaureate graduation year.)

Students must demonstrate a ≥3.0 cumulative college GPA in all Occupational Therapy courses with no course grade below a C–. Eligibility for graduate admission is determined by a minimum GPA ≥3.0 in the last 90 quarter graded hours.

Admission to Graduate Studies at Eastern Washington University. EWU Graduate Studies is located at 206 Showalter Hall, Cheney WA 99004 (509.359.6297).

Admissions to the Master of Occupational Therapy (MOT) with a bachelor degree
Entry-Level Master’s Admission Requirements
To be admitted to the Entry-Level Master’s of Occupational Therapy Program, applicants must first meet all requirements for admission to the Graduate School as outlined elsewhere in this catalog. The admission process to the Entry-Level Master of Occupational Therapy Program is highly competitive. The requirements listed below are the minimum acceptable requirements to apply to the program and are not indicative of the competitive range of students generally accepted into the program.

Additional Requirements must be completed prior to admission into the program
1. Qualify and apply for acceptance into studies at Eastern Washington University Graduate Studies. (206 Showalter Hall, Cheney, WA 99004, 509.359.6297);
2. Complete a baccalaureate degree from an accredited institution by June 15 of the year of application.

Student Learning Outcomes—students will

- demonstrate knowledge and skills for client-centered occupation-based evaluation and intervention to promote full societal participation of clients;
- understand and apply evidence-based strategies to inform professional practice;
- describe and apply values and ethics represented in the AOTA’s official documents;
- demonstrate leadership and research skills for promoting and advancing the profession;
- demonstrate a commitment to lifelong learning by maintaining currency in professional practice.

The curriculum is designed to prepare leaders for the profession of physical therapy whose focus of practice is to diagnose and manage movement dysfunction and enhance the physical and functional abilities of the clients they serve. The curriculum consists of 11 sequenced quarters of full-time attendance. Basic science courses and physical therapy skill courses are taught in the first academic year. A clinical internship is offered in the summer after the first academic year. In the second year clinical science courses integrate medical science knowledge through increasingly complex client scenarios. Within the clinical science courses, students address client problems in a format consistent with the five elements of patient care (examination, evaluation, diagnosis, prognosis and intervention) which are described in the Guide to Physical Therapist Practice. These elements of patient care are used to address client problems in each of the four practice patterns which include patients with musculoskeletal, neuromuscular, cardiopulmonary or integumentary disorders.

Professional seminars are embedded in the curriculum as are courses in evidence-based practice and clinical research. Students will successfully complete a comprehensive examination at the end of the second year to advance to the final three 10-week clinical internships.

Class sizes are restricted each year to ensure optimal student learning, thus enabling each student to receive comprehensive instructional and clinical experiences.

The Department of Physical Therapy is fully and unconditionally accredited by the Commission on Accreditation in Physical Therapy Education.

Admissions Requirements/Preparation
The admission process to the Doctor of Physical Therapy program is competitive. The requirements listed below are the minimum acceptable requirements to apply to the program and are not indicative of the competitive range of students generally accepted into the professional physical therapy program.

1. Qualify and apply for acceptance into Eastern Washington University Graduate Studies.
2. Complete a baccalaureate degree at an accredited institution by July 15 of the year of admission.
3. Complete the Graduate Record Examination (GRE) by December 1 of application year.
4. Complete the courses listed below, designated for the science major.
5. Please note: courses designated for nursing students, or allied health professions students, are not acceptable in lieu of the science prerequisites for science majors listed below.
6. Please note: some of these courses may require prerequisites prior to admission into the course.
7. Courses for prerequisites must be completed within seven years of admission.

Biology (Zoology) with labs to include:
1 quarter (1 semester) of Human Anatomy
1 quarter (1 semester) of Human Physiology
1 quarter (1 semester) upper division course in (300 level or above) Human or Animal Physiology (this requirement may be satisfied by a course in Exercise Physiology, offered through an Exercise Science Department).
1 quarter (1 semester) advanced course (300 level or above) of your choosing (at least 3 semester credits or 4 quarter credits) in Biology, Zoology or Exercise Science.

Recommended courses include:
Note: classes in botany, fish and wildlife biology and ecology will not satisfy this requirement.

Chemistry with labs to include: 3 quarters (2 semesters) of Chemistry
Physics with labs to include: 3 quarters (2 semesters) of Physics
Psychology or Behavioral Science: any two courses in behavioral science including psychology, sociology or anthropology
Statistics: 1 quarter (1 semester) of Statistics

Notes:
• a minimum grade ≥2.0 (C) is required to fulfill each course listed above for the course to be counted toward your prerequisite fulfillment;
• an overall prerequisite GPA ≥3.0 is required for application;
• All prerequisite coursework must be completed by August 15 of the admission year.

Courses from other institutions with a pre-Physical Therapy or Physical Therapy title will NOT count toward meeting either prerequisite or professional degree requirements;
• Biomechanics
• Cell Biology
• Developmental Biology
• Embryology
• Kinesiology
• Microbiology
• Pathology
• Complete a baccalaureate degree with a minimum overall cumulative GPA ≥3.0 and a minimum GPA in prerequisite courses ≥3.0, at the time of application and admission.
• Complete a minimum of 75 hours of work/observation/volunteer experience under the supervision of a licensed physical therapist. This experience must be verified in writing by the supervising physical therapist, whose license number must appear on the verification form included with the application materials. It is strongly recommended that you maintain contact with the physical therapists who supervised your clinical experiences so that you may call upon them to verify your experiences once you have received the verification form with the application packet. Participation in at least two different types of practice settings (e.g., acute care institutions, rehabilitation centers, pediatric centers, residential facilities, nursing homes, schools, orthopedic outpatient clinics) is required, with a minimum of 30 hours in at least one of these settings. More setting variety is encouraged.
• Have each of the following individuals complete a letter of recommendation form included in the application:
  • 2 physical therapists
  • 1 current or any former employer
• Applications for admission into the Doctor of Physical Therapy Program are available on our university website or upon request from PTCAS (http://www.ptcas.org).

Student Learning Outcomes—students will
• integrate the principles of teaching and learning in professional practice;
• respond to the changing health care environment;
• use ethical and moral principles in professional practice;
• incorporate the principles of research in physical therapy practice;
• practice physical therapy incorporating scientific knowledge and critical analysis;
• value lifelong learning through personal and professional growth.
Pre-Communication Disorders

Eastern Washington University offers students the opportunity to earn substantial amounts of coursework toward the requirements of a number of specific professions. Although the following Pre-Professional programs have been offered for several years by EWU, this listing is not exclusive; students who are interested in a profession which is not represented (below) are encouraged to contact the Office of General Undergraduate Academic Advising for assistance in identifying departments or programs which can offer coursework and advice as regards alternative Pre-Professional studies.

Pre-Communication Disorders (p. 253)
Pre-Dentistry and Pre-Medicine (p. 308)
Pre-Engineering (p. 308)
Pre-Law (p. 363)
Pre-Pharmacy (p. 309)
Pre-Veterinary Medicine (p. 309)

Jane Pimentel, Program Advisor
EWU Spokane, 125M Health Sciences Bldg.
509.828.1325

Program Description

Individuals who have earned a baccalaureate degree in a discipline other than communication disorders can apply for the graduate program in Communication Disorders at Eastern Washington University upon completion of a year of prerequisite courses. These prerequisite courses are intended to prepare the individual for the rigors of graduate study in the discipline. As the graduate program typically takes two years to complete, an individual having a baccalaureate degree in a different discipline can earn the master’s degree within three years.

The individual would take the courses listed below during the first year of study (it is strongly suggested that the candidate apply for fall admission into the post-baccalaureate program). As the individual is taking the prerequisite courses, he/she would apply for graduate study by February 1 of the current academic year (for graduate application requirements, please see the Communication Disorders section of this catalog). If accepted to the graduate program in Communication Disorders, the student would complete the remaining prerequisite requirements and then enroll in graduate study in the fall term immediately following completion of the prerequisite requirements.

It should be noted that the Communication Disorders program operates on a semester-based academic schedule whereas the rest of the university operates on a quarter-based schedule. If the student has deficiencies in his/her academic preparation that are not related specifically to the major, those deficiencies will have to be taken during the summer when there will be no conflict between the Communication Disorders semester-based schedule and the university’s quarter-based schedule.

Pre-Professional Program Requirements

Note: After each course below, credits are listed as both quarter (q) and semester (s). Courses are taught on a semester schedule but the academic transcript will show quarter credits.

Undergraduate Degrees
Bachelor of Science (BS)
• Public Health (p. 254)

Undergraduate Program
This program is currently undergoing curriculum revision with an anticipated start date of fall 2016.

Graduate Degrees
Master of Public Health (MPH)
• Public Health (p. 254)

Graduate Program
In line with the mission of Eastern Washington University the Master of Public Health prepares future public health leaders to manage, develop and re-orient health services to combat health inequalities and promote access and inclusion. The course focuses on developing leadership skills in an engaged, practical and applied manner across the full spectrum of population health domains.

Public Health is a dynamic field recognized for critical and rapidly expanding needs in policy development and research. Professionals are needed to lead change to address critical health and community policy issues. Professionals must be ready to promote effective community response and change, create and support effective health programs and actions to meet critical needs within the health profession and many related fields. An interdisciplinary program bringing together multiple disciplines to promote a broad intellectual framework for problem solving the challenges and emerging issues faced in public health is proposed. This program is built on the core functions of public health: assessment, policy development/implementation and assurance.

The Master of Public Health program is designed to provide the student with the skills to work with the following:
• a rapidly changing political, social and economic environment;
• funding from a variety of sources;
• issues related to disparity in health status for a variety of populations;
• new and innovative public and private partnerships;
• a culturally and ethnically diverse workforce;
• organizational challenges both within and outside the public health arena;
• program development and service delivery.

In addition to a solid core foundation in public health, this program focuses on public health leadership. An elective option offers a unique focus on public health allowing the student to choose an additional focus.

To apply for this program, an individual must have an undergraduate degree and grade point average ≥3.0 meeting the Eastern Washington University graduate school requirements. Students must be computer literate to include word processing, spreadsheet construction and Internet applications. The Computer Literacy Program test (CLP) for the university can fulfill that requirement. Also a computer literacy or a computer-intensive course completed at the undergraduate level will satisfy this requirement. A documented professional experience with word processing, spreadsheets and Internet applications may satisfy the requirement, particularly for mid-career professionals who may not have had an undergraduate course computer intensive or computer literacy course on their transcripts but have worked for several years in a position that is computer intensive.

Students must have documented a recent statistics or biostatistics course to include basic probability concepts, organizing and summarizing data, sampling distributions, hypothesis testing, simple linear regression and correlation and analysis of variance. DSCI 245 Data Analysis for Business (4) or its equivalent fulfill this requirement. Students must also have completed an upper level technical/scientific writing course.

The internship for the program aims to develop public health skills, knowledge and competencies through practice. As part of this experience students develop a portfolio to display their work that addresses specific competency areas within the program. The portfolio serves as a formative assessment of progress through the MPH towards public health competencies. Prior to an internship students must have a student membership in national professional organization that relates to public health.

In order to successfully graduate from the program students must successfully complete a research project which serves as a comprehensive examination, a graduate school requirement.

The intent of the program is to meet the criteria set out by the Council on Education for Public Health (CEPH). Competencies for the program incorporate those identified by the Association of Schools and Programs of Public Health (ASPPH).

Public Health Major, Bachelor of Science (BS)
This program is currently undergoing curriculum revision with an anticipated start date of fall 2016.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Objectives—students will

Public Health, Master of Public Health (MPH)
Taught on the semester system starting fall 2015.

Note:
• to apply for this program, an individual must have an undergraduate degree and GPA ≥3.0 meeting the EWU graduate school requirements;

Undergraduate Programs
Biology encompasses the scientific study of life. The structure and function of organisms are studied at the molecular, cellular, organismal, population and ecosystems levels. The Department of Biology prepares students for careers in a variety of biological fields including the health sciences, natural resource management, biotechnology, veterinary medicine, education, and environmental sciences.

The Department of Biology offers undergraduate programs leading to a Bachelor of Science (BS) and a Bachelor of Arts in Education (BAE) for Biology. All students are expected to work closely with their faculty advisor to determine their curriculum. The BS degree is designed for students who require a broad background in biology, along with specialized training that will prepare them for specific careers. The program is based upon a core curriculum to provide the common background. Students are required to earn a minimum grade in the introductory sequence (BIOL 171, BIOL 172, BIOL 173, BIOL 270) to ensure a solid foundation for upper division courses. Coursework for specific careers is based on selection of elective courses tailored to career choice. Degree options or advising guides to different career options including pre-medicine, pre-dentistry, pre-physical therapy, pre-physician assistant, pre-optometry, pre-medical technology, pre-pharmacy, pre-veterinary medicine, wildlife biology, fisheries biology, and botany/range science are available. The BAE degree prepares students for teaching biology in secondary education. More information on degree programs can be found at the Department of Biology website (http://www.ewu.edu/cstem/programs/biology).

Students in the Department of Biology have varied opportunities to do biology. At the introductory level, students learn the basics of how to design, conduct, and present research projects. During their final year, the senior capstone course highlights a research project. Many upper-division elective courses in biology also incorporate research projects. In addition, undergraduate students can participate in faculty research.

In coordination with the Program in Environmental Science, the Department of Biology offers an Environmental Science major with an emphasis in Environmental Biology. This major includes a core curriculum that provides students with a broad exposure to biology, chemistry, geology, statistics, and geographic information systems. More focused courses in biology provide students with expertise in their emphasis area. Motivated students have the opportunity to obtain a double major in both Environmental Science and Biology. Refer to Environmental Science section of catalogue for more information.

The Department of Biology offers minors in biology, health sciences, biology/secondary, and general science/add-on endorsements.

The Department of Biology is located in a building that houses laboratories designed for instruction and research in most aspects of biology. The department maintains its own aquarium rooms, cell culture facilities, greenhouse and herbarium.

In addition to on-campus facilities, the department operates the Turnbull Laboratory for Ecological Studies on the Turnbull National Wildlife Refuge about four miles from campus. These facilities provide opportunities for research in plant and animal physiology, ecology, fisheries and wildlife biology.

Major Requirements for Biology
Upon declaring biology as a major each student should meet with an advisor as soon as possible. Students should plan to complete BIOL 171, BIOL 172, BIOL 173 and BIOL 270; CHEM 151, CHEM 152, CHEM 153; and the university English and departmental mathematics requirements in the first two years of study. Required 300-level coursework should be completed by the end of the third year. Capstone and advanced elective courses are ordinarily taken in the senior year. A minimum of 50 credits of upper biology courses are required. Only 5 credits of BIOL 399 or BIOL 499 and 5 credits of BIOL 395 or BIOL 495 will be allowed toward the electives. The following biology courses will not fulfill elective requirements: BIOL 100; BIOL 232, BIOL 233, BIOL 234; BIOL 235; BIOL 236; BIOL 390.

Those students planning graduate study are encouraged to take courses in physics, organic chemistry, calculus, statistics and a directed study (research) course in biology.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Eastern Washington University Department of Biology offers a Master of Science in Biology.

The Master of Science in Biology program provides a demanding and rewarding experience in biology, leading to competent scholarship and research capability. The department emphasizes research as a basic component of graduate study. A variety of research specialties are available within the department, including limnology, stream ecology, riparian ecology, fisheries biology, embryology, exercise physiology, neurobiology, wildlife biology, animal physiology, mycology, plant ecology, microbiology and immunology. More information on faculty research interests may be obtained by writing the appropriate graduate program advisor or accessing our website. (http://www.ewu.edu/cstem/programs/biology) Graduates of the biology program either continue in PhD programs, or are employed in various biological fields with federal, state and local agencies, environmental consulting firms, public and private schools or private industry.

The Master of Science in Biology curriculum includes core courses in Biological Research Methods; Graduate Seminar; Current Topics in Ecology/Evolution, Physiology, Cell/Molecular Biology, and Growth of Biological Thought; elective courses in advanced topics; and research thesis.

In addition, an interdisciplinary master’s program is available that can incorporate biology (see separate catalog listing).

The Department of Biology is housed in a remodeled and well-equipped facility. The department administers the nearby Turnbull Laboratory for Ecological Studies on the Turnbull National Wildlife Refuge.

Graduate service appointments, with resident and non-resident tuition waivers, are available on a competitive basis to qualified graduate students. Nonresident students who do not qualify for a graduate service appointment can apply for nonresident tuition scholarship waivers. Other financial support is possible through work-study programs, hourly employment by the department or faculty research grants. All applicants are encouraged to submit an application for federal student aid which, for employment by the department or faculty research grants. All applicants are encouraged to submit an application for federal student aid which, for state and local agencies, environmental consulting firms, public and private schools or private industry.

Graduate students wishing to be considered for a graduate service appointment must have their completed application, including a graduate fellowship application, to the Department of Biology by February 20. Applicants not seeking teaching fellowships must have their completed application to the Department of Biology by April 1, October 15 and January 15 for admission in the fall, winter and spring quarters, respectively.

Candidacy
To be admitted to candidacy, graduate students in the Master of Science in Biology program must have:

- completed 15 credit hours (at least 10 at the 500 level) but not more than one half of the total minimum credits required for the degree;
- removed all deficiencies regarding entrance requirements (deficient coursework cannot be counted toward a degree);
- met with their graduate committee to determine an appropriate course curriculum;
- had their research proposal approved by their internal graduate committee and presented their proposal to the Department of Biology;
- submitted the completed application form with research advisor’s and second committee member’s signatures to the appropriate biology graduate candidacy coordinator;
- had their candidacy approved by the Department of Biology faculty.

1. completed all admission requirements for the Eastern Washington University Graduate Programs Office,
2. submitted scores from the general GRE test,
3. provided a completed supplemental application to the Department of Biology and two evaluation/recommendation forms and
4. identified an appropriate faculty research advisor willing to serve as the major professor.
Biology Major with Pre-Medicine/Pre-Dentistry Option, Bachelor of Science (BS)

This curriculum is recommended for students planning a career in medicine or dentistry. The schedule of classes is designed to prepare students for the aptitude examination (mcat, dat) which is taken during a student’s junior or early senior year. Students interested in other health care professions (e.g., physical therapy, physician’s assistant) need to see a department advisor to plan a curriculum.

Total Credits: 124

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

demonstrate knowledge of evolution, diversity of life, and form and function of living organisms;

- interpret observations through the creation, testing, analysis of hypotheses;
- design laboratory or field experiments;
- inspect data and apply basic statistics to their analysis and communication.
- Write reports and prepare and deliver oral reports that:
  - demonstrate ability to use scientific journals, periodicals, and electronic media to access current biological information;
  - demonstrate ability to evaluate journal articles from the primary literature.

Biology, Master of Science (MS)

Teaching: All Master’s of Science students in biology are required to either teach at least one quarter as a paid teaching assignment or arrange a teaching experience in consultation with their graduate committee. Students who do not have a paid teaching assignment may arrange to receive BIOL 595 credit for the development and execution of this teaching experience.

Final Comprehensive Examination: The final comprehensive examination for the Master’s of Science in biology consists of a research seminar and an oral defense of the master’s thesis presented to the department. Immediately following the student’s seminar, an oral examination is administered by the student’s committee, which is composed of two or three departmental faculty members and a faculty member appointed by the Graduate Programs office. The focus of the examination is the student’s thesis and general biology knowledge.

BIOL 515  GROWTH OF BIOLOGICAL THOUGHT

Electives  16
To be determined in consultation with student’s graduate committee. All 400 and 500 level courses may be used as electives; if a course is stacked as a 400- or 500-level course, students must enroll at the 500-level.

Thesis  16
To be determined in consultation with student’s graduate committee. All Master’s of Science in Biology students are required to conduct original research toward their Master’s thesis.

BIOL 600  THESIS RESEARCH (must be repeated)  14

Total Credits  46

Student Learning Outcomes—students will

• write a research proposal that demonstrates the ability to determine the veracity and value of published information;
• conduct research project, analyze data, and write thesis;
• present completed research in an open forum seminar with question/answer session.

Biology, Minor

This minor does not meet the endorsement requirement for teachers.

Required Biology Courses
BIOL 171  BIOLOGY I  5
BIOL 172  BIOLOGY II  5
BIOL 173  BIOLOGY III  5
BIOL 270  BIOLOGICAL INVESTIGATION  3

Electives—choose additional credits of upper-division biology courses.  13–15

Total Credits  31–33

Biology/Secondary Major, Bachelor of Arts in Education (BAE)

This major satisfies the endorsement requirements for grades 5–12.

Notes:

• BAE students must complete both the courses below and the secondary education core courses;
• the option requires more than 12 quarters to complete at 15 credits per quarter.

Required Secondary Education Core

30-hour multicultural education field requirement
EDUC 200 & EDUC 303 & EDUC 309  ADMISSION TO TEACHER EDUCATION and FOUNDATIONS OF ASSESSMENT and FOUNDATIONS OF SECONDARY CLASSROOM MANAGEMENT (these three courses must be taken concurrently)  7
EDUC 201  INTRODUCTION TO EDUCATION  3
EDUC 341  SECONDARY STRATEGIES, MANAGEMENT, ASSESSMENT  4

EDUC 413  CONTENT AREA LITERACY: MANAGEMENT AND ASSESSMENT FOR SECONDARY EDUCATION CANDIDATES  4
EDUC 420  ADMISSION TO PROFESSIONAL CANDIDACY  1
EDUC 426  SECONDARY STUDENT TEACHING 7-12  15
PSYC 304  EDUCATIONAL PSYCHOLOGY  5
SPED 363  INTRODUCTION TO SPECIAL EDUCATION  4

Required Biology Courses
BIOL 171  BIOLOGY I  5
BIOL 172  BIOLOGY II  5
BIOL 173  BIOLOGY III  5
BIOL 270  BIOLOGICAL INVESTIGATION  3
BIOL 301  MICROBIOLOGY  5
BIOL 302  BOTANY  5
BIOL 310  FUNDAMENTALS OF GENETICS  5
BIOL 340  BIOLOGY AND SOCIETY  2
BIOL 423  EVOLUTION  5
BIOL 440  ECOLOGY  4
BIOL 441  ECOLOGY LAB  2

Choose one of the following  5
BIOL 303  INVERTEBRATE ZOOLOGY
BIOL 304  VERTEBRATE ZOOLOGY

Choose one of the following  4–5
BIOL 334  HUMAN ANATOMY AND PHYSIOLOGY III
BIOL 351  PRINCIPLES OF ANIMAL PHYSIOLOGY
BIOL 352  PRINCIPLES OF PLANT PHYSIOLOGY
BIOL 353  PRINCIPLES OF MICROBIAL PHYSIOLOGY

Required Supporting Courses
BIOL 390  BIOLOGY TEACHING METHODS  1
CHEM 151  GENERAL CHEMISTRY  5
CHEM 152  GENERAL CHEMISTRY  5
CHEM 153  GENERAL CHEMISTRY  5
SCED 390  SECONDARY SCIENCE TEACHING METHODS  1

Choose one of the following  5
BIOL 380  DATA ANALYSIS FOR BIOLOGISTS
MATH 142  PRECALCULUS II
MATH 380  ELEMENTARY PROBABILITY AND STATISTICS

Total Credits  120–121

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

• create a community of diverse learners who construct meaning from their science experiences and possess a disposition for further exploration and learning;
• organize a safe and effective learning environment;
• interrelate and interpret important concepts, ideas and applications in the field of biology; and conduct scientific investigations;
• develop strategies for teaching that organic evolution is a unifying theme;
• construct and use effective assessment strategies to determine the backgrounds and achievements of learners and facilitate their intellectual, social and personal development;
• engage students both in studies of various methods of scientific inquiry and in active learning through scientific inquiry.

Biology/Secondary, Minor
This minor satisfies the endorsement for grades 5-12.

General Science/Add-on Endorsement

For students who currently possess a Washington State Teaching Certificate.

This add-on satisfies the General Science endorsement and allows teachers to teach any science grades 5–12.

To improve their marketability as science teachers, students may wish to complete this option in addition to their BAE in Biology, Chemistry, Earth and Space Science or Physics.

Undergraduate Programs

Chemistry occupies a unique position within the modern sciences. Ultimately, most of the phenomena in the biological, geological, physical, environmental and medical sciences can be expressed in terms of the chemical and physical behavior of atoms and molecules. Because of chemistry’s key role, majors in chemistry and biochemistry are well prepared to pursue careers in a wide variety of disciplines.

The department offers programs leading to the Bachelor of Science and the Bachelor of Arts. These programs prepare students for careers in chemistry, biochemistry, biotechnology, medicine and related fields, forensic science, environmental science and education. The department’s professional BS option is approved by the American Chemical Society.

BS degrees are recommended for students planning professional careers in chemistry or related areas, while BA degrees are recommended for students with other career goals.

Students majoring in chemistry have the opportunity to engage in research projects with department faculty and to gain experience with modern instrumental techniques including gas and liquid chromatography, ultra-violet, visible, infra-red, Raman, fluorescence, and atomic absorption spectrophotometry; nuclear magnetic resonance; and x-ray diffraction. Upon graduation, our students are knowledgeable, experienced and independent laboratory workers.

General Admissions Requirements for Chemistry and Biochemistry: students considering a major in Chemistry and Biochemistry should complete a high school chemistry course and mathematics courses through precalculus.

General Admissions Requirements for Transfer Students: students transferring from other institutions are urged to consult with the department chair to plan their Eastern program of study.

Admissions Requirements for Chemistry Majors: Chemistry courses must be taken in proper sequence and with certain prerequisites satisfied. To graduate within four years, chemistry majors must take CHEM 151, CHEM 152 and CHEM 153 during their freshman year. The physics and mathematics supporting courses must also be started without delay. Students should complete the required calculus and physics courses prior to their junior year in order to have prerequisites for upper division chemistry courses. Completion of a computer programming course is recommended before taking CHEM 431.

Academic Policy: due to the cumulative nature of chemistry courses, the department strongly recommends that students receive a grade ≥2.0 in all prerequisite chemistry courses.

Information Regarding Pre-Pharmacy School Courses: students interested in this pre-professional program should contact a departmental advisor regarding the curriculum, application procedures and professional aptitude examinations.

Graduate Program
The Department of Chemistry does not offer a graduate degree program but does offer graduate-level coursework.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Chemistry/Biochemistry Major with Biochemistry Option, Bachelor of Science (BS)

This program is recommended for students planning to go directly into professional fields of biochemistry, for students planning to attend graduate school in biochemistry, molecular biology or pharmacology and for students planning to enter professional schools such as medicine, veterinary medicine or pharmacy.

Note: the above option will require more than 12 terms (or 4 years) to complete at an average of 15 credits per term.

Required Courses
CHEM 151  GENERAL CHEMISTRY  5
### Chemistry/Biochemistry Major with Forensic Science Option, Bachelor of Science (BS)

The forensic science option prepares students for entry-level positions in state and federal forensic science labs as well as for graduate and professional schools. Competitive internships at regional forensic labs are integrated into the curriculum along with research and independent study. Students must complete 45 hours of specified core courses (see footnote1) with a combined minimum GPA ≥3.0 before being eligible to declare the forensic major. For all internships with law enforcement agencies, students will be required to pass a thorough background check. It is assumed that the student will enter the program ready to take MATH 161. To finish in four years, students must take an average load of more than 15 credits per quarter.

Note: the above option will require more than 12 terms (or 4 years) to complete at an average of 15 credits per term.

### Student Learning Outcomes—students will

- demonstrate a broad-based knowledge of major concepts in the areas of inorganic, organic, analytical and physical chemistry;
- demonstrate sufficient preparation in chemistry to successfully compete in a graduate or professional program or to realize employment in a chemistry- or biochemistry-related career;
- demonstrate a capacity to use modern instrumentation and classical techniques for the analysis and/or separation of chemicals and an ability to interpret data;
- demonstrate effective oral and written communication skills and critical thinking skills as related to the field of chemistry;
- demonstrate knowledge of safe practices in the handling, usage and disposal of chemicals.

**Footnotes**

1. Note: Core courses are to be completed before formal acceptance into the forensics major and enrollment in the forensics science internship course.

2. Note: Students are required to do research on a forensic project and to take it for 5 credits (catalog description states 4-6 credits). Projects must be approved by the forensic science program advisor.

**Completion of a computer programming course is strongly recommended.**

**Student Learning Outcomes—students will**

- demonstrate a broad-based knowledge of major concepts in the areas of inorganic, organic, analytical, and physical chemistry;
- demonstrate sufficient preparation in chemistry to successfully compete in a graduate or professional program or to realize employment in a chemistry- or biochemistry-related career;
- demonstrate a capacity to use modern instrumentation and classical techniques for the analysis and/or separation of chemicals and an ability to interpret data;
- demonstrate effective oral and written communication skills and critical thinking skills as related to the field of chemistry;
- demonstrate knowledge of safe practices in the handling, usage and disposal of chemicals.

**Chemistry/Biochemistry Major with General Option, Bachelor of Arts (BA)**

This program features less concentration in chemistry than the bachelor of science and is not intended to prepare students for employment as a professional chemist.

**Notes:**

- two years of a single high school foreign language or one year of a single college level foreign language is required for this major;
biological integration, e.g., medicinal chemistry, pharmacology, etc. With respect to medical/dental/veterinary school, coursework outlined for the initial three years is specifically designed to meet basic entrance requirements as well as provide optimum preparation for pre-entrance aptitude examinations (MCAT or DAT or GRE). Additional information can be found under Pre-professional Programs in the Fields of Study section of this catalog.

Notes:

• the following should be completed prior to, or concurrent with, taking the MCAT Exam: CHEM 151, CHEM 152, CHEM 153, CHEM 304, CHEM 351, CHEM 352, CHEM 353, CHEM 372, CHEM 373, CHEM 480, CHEM 481; BIOL 171, BIOL 172, BIOL 173, BIOL 301, BIOL 310, BIOL 490; MATH 161, MATH 162; and PHYS 151, PHYS 152, PHYS 153, PHYS 161, PHYS 162, PHYS 163.

• CHEM majors completing BIOL 490 do not need to take CHEM 491 for graduation.

• the above option will require more than 12 terms (or 4 years) to complete at an average of 15 credits per term.

• a computer programming course is strongly recommended—see your chemistry/biochemistry advisor.

Total Credits 134-145

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• demonstrate a broad-based knowledge of major concepts in the areas of inorganic, organic, analytical and physical chemistry;

• demonstrate sufficient preparation in chemistry to successfully compete in a graduate or professional program or to realize employment in a chemistry- or biochemistry-related career;

• demonstrate a capacity to use modern instrumentation and classical techniques for the analysis and/or separation of chemicals and an ability to interpret data;

• demonstrate effective oral and written communication skills and critical thinking skills as related to the field of chemistry;

• demonstrate knowledge of safe practices in the handling, usage and disposal of chemicals.

Chemistry/Biochemistry Major with Professional Option, Bachelor of Science (BS)

This program is approved by the American Chemical Society and it is recommended for those students who plan to become professional chemists. It provides a broad and strong background in the fundamentals of chemistry and an excellent foundation for graduate school or a career in industry.

Notes:

• a computer programming course is strongly recommended—see your chemistry/biochemistry advisor;

• the department strongly recommends that students receive a grade ≥2.0 in all prerequisite chemistry courses.

### Chemistry/Biochemistry Major with Standard Option, Bachelor of Science (BS)

This major program provides the normal preparation in chemistry for students planning employment as chemists and considerable chemical background in preparation for careers outside chemistry. It is appropriate for some students who plan to enter professional schools such as dentistry, or public and environmental health.

#### Notes:
- A computer programming course is strongly recommended—see your chemistry/biochemistry advisor;
- The department strongly recommends that students receive a grade ≥2.0 in all prerequisite chemistry courses.

<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

• demonstrate a knowledge of major concepts in the areas of inorganic, organic, analytical and physical chemistry;
• demonstrate knowledge and skills sufficient for them to safely teach chemistry in the secondary school setting;
• demonstrate a capacity to use modern instrumentation and classical techniques for the analysis and/or separation of chemicals and an ability to interpret data;
• demonstrate effective oral and written communication skills and critical thinking skills as related to the field of chemistry;
• demonstrate knowledge of safe practices in the handling, usage and disposal of chemicals.

General Science/Add-on Endorsement

For students who currently possess a Washington State Teaching Certificate.

This add-on satisfies the General Science endorsement and allows teachers to teach any science grades 5–12.

To improve their marketability as science teachers, students may wish to complete this option in addition to their BAE in Biology, Chemistry, Earth and Space Science or Physics.

Undergraduate Degrees

Bachelor of Arts (BA)
  • Computer Science - Foundations Option (p. 273)
Bachelor of Science (BCS)
  • Computer Science (p. 272)
Bachelor of Science (BS)
  • Computer Science (p. 274)
Undergraduate Minors
  • 3D Animation (p. 271)
  • Computer Applications (p. 271)
  • Computer Information Systems (p. 272)
  • Computer Science Programming (p. 275)
  • Game Development (p. 276)
  • Web Application Development (p. 276)

Undergraduate Programs

Computer Science is an exciting and rapidly evolving discipline involving
the study of computing systems and computation. Computing systems
are now a critical component in nearly every field. As computer
applications have increased in number and complexity, so has the need
for specialists in computer systems and software. Research in computer
science continues to broaden and extend our knowledge and provide new
opportunities.

The study of computer science is a challenging and satisfying intellectual
activity that can be carried forward into graduate school and throughout
one’s life. Our graduates achieve a high degree of success in building
careers in both public and private sectors.

Facilities and Equipment

The Animation Production Studio: equipped with professional grade
software and hardware, this lab houses our motion capture system and
blue screen and offers students an excellent environment for creating
and developing quality animation, computer games and multimedia
applications.

Center for Network Computing and Cyber Security: this lab contains
support materials and hardware for computer science courses in secure
client/server network programming, web server security, network
intrusion detection and computer forensics.

Computer Architecture and Embedded Systems: resources and
equipment are available to supporting studies in architecture and
embedded systems.

Classroom Labs: these teaching labs provide hands-on instructional
capabilities for Computer Science and Computer Literacy courses.

Lower Division Computer Science Lab: this study lab supports lower
division students, staffed by peer tutors.

Upper Division Computer Science Lab: this study lab is designed to
support junior and senior level Computer Science projects in software
design; client/server application development; relational database design
and administration; and signal processing.

Opportunities for Students: upper-division majors should check
on EagleAXIS for opportunities for work-study and departmental
positions as course assistants, paper graders, or tutors.

Many of our students are able to obtain internships where the theory
and skills learned in the academic setting are put to the test. Internships
allow you to gain new knowledge and understanding of current practices.
An internship experience is an excellent opportunity to refine your career
aspirations and make valuable contacts for future employment.

All students in our programs are encouraged to join the student
chapter of the Association for Computing Machinery (ACM). This group
sponsors colloquia, field trips, programming contests and social events.
Membership in the student chapter is the beginning of a long-term
opportunity to connect with professionals in your chosen field.

Preparation: High school students wanting to pursue a major in this
department are advised to take as much mathematics as possible,
including a course or courses in your senior year. You will benefit from
computer science courses available in your high school but do not take
them at the expense of mathematics courses. You also are encouraged
to take laboratory science courses and a keyboarding course.

Community college transfer students interested in Computer Science
should pursue mathematics courses through pre-calculus or beyond,
as well as an advanced sophomore level composition course. Consult
transfer guides (http://www.ewu.edu/transferguide) to determine
whether your institution has developed agreements with Eastern for
transfer equivalencies, and which courses are equivalent for general
education requirements and courses that may apply to the major.

Contact the department for advice on selecting your preparatory
coursework. Courses taken to apply to the major should be taken late in
your community college experience, just prior to transferring to EWU.
All prospective department majors should contact the Department of Computer Science to obtain the latest information to aid in planning a program of study. See grade requirements below.

**Major Declaration**
Freshman and transfer students entering Eastern with an interest in the computing sciences are encouraged to declare their major as soon as practical. To declare a major, complete the declaration form (http://access.ewu.edu/Documents/Records-Reg/MajorDeclarationForm.pdf), print, sign, and bring it and official or unofficial copies of all non-EWU college-level work to a meeting with a computer science advisor. You may contact an advisor for an appointment. At the advising session you will have the opportunity to review course requirements, ask questions, prepare a quarterly schedule and finish the major declaration, which also requires agreeing to abide by the department’s Code of Ethics and Professional Conduct (http://access.ewu.edu/computer-science/code-of-ethics.xml), which is available on the department’s website.

**Grade Requirements**
As a computer science student, you are expected to maintain an overall university GPA ≥2.5. Each computer science course must be completed with a minimum grade ≥2.0. All supporting courses required by the department must be completed with a minimum grade ≥2.0.

**Graduate Degrees**
**Master of Science (MS)**
- Computer Science (p. 275)
- Interdisciplinary (p. 276)

**Application/Admission Requirements**—the petitioner must:
1. meet all Eastern Washington University requirements for admission to graduate study;
2. complete and submit the online application for graduate school (http://www.ewu.edu/grad/application-procedures);
3. submit a completed departmental questionnaire;
4. supply transcripts showing completion of coursework covering the following areas:
   - Fundamental Programming (see CSCD 210, CSCD 211)
   - C Programming & Unix Operating System (see CSCD 240)
   - Data Structures, Algorithms: (see CSCD 300, CSCD 320)
   - Relational Database Systems: (see CSCD 327)
   - Operating Systems (see CSCD 340)
   - Design Patterns and Software Engineering (see CSCD 349, CSCD 350)
   - Discrete Mathematics (see MATH 301)

If you are not taking the GRE, it is important that you indicate all grades received in these courses, or their equivalents, on your departmental questionnaire in order to prevent delays in the processing of your application.

**Provide a résumé:**
- if you are not a graduate of a Computer Science degree from EWU, provide two letters of recommendation, at least one from a computer science instructor or equivalent;
- submit a cover letter discussing your reasons for pursuing a master’s degree, the focus of knowledge you want to explore, and an evaluation of your ability to complete this degree;
- if you are an international student, provide a TOEFL score of 580 or greater (237 CBT, 92 iBT).

**Notes:**
- applicants who have not completed the readiness courses may do so as post-baccalaureate students but may also petition for probationary graduate admission when they have less than a full-time load of readiness courses to complete;
- students needing to satisfy the requirements for CSCD 320 Algorithms, CSCD 340 Operating Systems or CSCD 350 Software Engineering at EWU will first need to pass the Computer Science Advancement Programming Exam;
- elective graduate courses may have prerequisites beyond the readiness requirements above and the student is responsible for mastering prerequisites before taking such courses. If the prerequisite course is not at the senior level it cannot be counted towards the graduate degree.

**3D Animation, Minor**
The minor provides the skills necessary to meet an increasing demand for 3D modeling and animation developers. Included is the study of 3D modeling, 3D animation, character animation, animation scripting and advanced animation tools.

**Required Courses**

Computer Science Major, Bachelor of Computer Science (BCS)

Our Bachelor of Computer Science program provides significant formal training in database and web programming, unique internship opportunities, and team development of information system projects. The program is designed to help prepare you to realize the potential of information systems. You can enjoy a career as a systems analyst, database administrator, web developer or software engineer.

Required Computer Science Courses

CSCD 210  PROGRAMMING PRINCIPLES I  5
CSCD 211  PROGRAMMING PRINCIPLES II  5
CSCD 240  C AND UNIX PROGRAMMING  5
CSCD 300  DATA STRUCTURES  5
CSCD 320  ALGORITHMS  4
CSCD 327  RELATIONAL DATABASE SYSTEMS  4
CSCD 330  COMPUTER NETWORKS  4
CSCD 340  OPERATING SYSTEMS  5
CSCD 349  DESIGN PATTERNS  4
CSCD 350  SOFTWARE ENGINEERING  4
CSCD 488  SENIOR PROJECT  5
CSCD 490  SENIOR CAPSTONE  5

Choose one of the following  4
CSCD 370  GUI PROGRAMMING
CSCD 371  .NET PROGRAMMING
CSCD 372  ANDROID MOBILE DEVELOPMENT
CSCD 373  iOS MOBILE DEVELOPMENT

Choose one of the following  4
CSCD 378  WEB APPLICATION DEVELOPMENT
or CSCD 379  .NET WEB APPLICATION DEVELOPMENT

Choose one of the following  4
CSCD 427  ADVANCED DATABASE MANAGEMENT SYSTEMS
or CSCD 429  DATA MINING

Required Supporting Courses

MATH 301  DISCRETE MATHEMATICS  5
MATH 380  ELEMENTARY PROBABILITY AND STATISTICS  5
PHIL 212  INTRODUCTORY ETHICS  5

Required Focus Group: choose focus group A, B or C  20

Group A—Game Development

CSCD 216  3D MODELING and ANIMATION I
CSCD 470  3D COMPUTER GRAPHICS PRINCIPLES
CSCD 471  ADVANCED 3D COMPUTER GRAPHICS
CSCD 474  COMPUTER GAMES DEVELOPMENT
MATH 231  LINEAR ALGEBRA

Group B—Animation

ART 300  DRAWING
CSCD 216  3D MODELING and ANIMATION I
CSCD 416  3D MODELING AND ANIMATION II
CSCD 417  3D MODELING AND ANIMATION III

Group C—any CSCD dept. approved minor

Required Electives—choose two from the following  10

Note: CSCD 95-99 courses may be used—prior dept. approval of topic content is required.

CSCD 303  COMPUTER AND INFORMATION SECURITY
CSCD 305  C++ PROGRAMMING
CSCD 316  PRACTICAL PROBLEM SOLVING (must be taken twice to be used as an elective)
CSCD 370  GUI PROGRAMMING
CSCD 371  .NET PROGRAMMING
CSCD 372  ANDROID MOBILE DEVELOPMENT
CSCD 373  iOS MOBILE DEVELOPMENT
CSCD 378  WEB APPLICATION DEVELOPMENT
CSCD 379  .NET WEB APPLICATION DEVELOPMENT
CSCD 409  SCIENTIFIC PROGRAMMING
CSCD 416  3D MODELING AND ANIMATION II
CSCD 417  3D MODELING AND ANIMATION III
CSCD 418  3D MODELING AND ANIMATION IV
CSCD 420  AUTOMATA
CSCD 427  ADVANCED DATABASE MANAGEMENT SYSTEMS
CSCD 429  DATA MINING
CSCD 433  ADVANCED COMPUTER NETWORKS
CSCD 434  NETWORK SECURITY
CSCD 435  PRINCIPLES OF PROGRAMMING LANGUAGE
CSCD 437  SECURE CODING
CSCD 439  TOPICS IN COMPUTER SCIENCE (prior dept. approval of topic is required)
CSCD 443  DISTRIBUTED MULTIPROCESSING
CSCD 460  ADVANCED ARCHITECTURE AND ORGANIZATION
CSCD 461  EMBEDDED SYSTEMS
CSCD 462  EMBEDDED REAL-TIME CONTROL
CSCD 467  PARALLEL AND CLOUD COMPUTING
CSCD 470  3D COMPUTER GRAPHICS PRINCIPLES
CSCD 471  ADVANCED 3D COMPUTER GRAPHICS
CSCD 474  COMPUTER GAMES DEVELOPMENT
CSCD 480  INTELLIGENT SYSTEMS
CSCD 487  HUMAN COMPUTER INTERFACE
CSCD 495  INTERNSHIP (up to two 4 credit internships are allowed)

Total Credits  112

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Student Learning Outcomes for the BCS may be found at www.ewu.edu/csslo (http://www.ewu.edu/csslo)

Computer Information Systems, Minor

Demand for computer skills, including database management and design, make this minor a good choice in support of a variety of majors.
Computer Science Major with Foundations Option, Bachelor of Arts (BA)

The Bachelor of Arts degree in Computer Science—Foundations Option provides a solid foundation in the practice of computing, while allowing you to expand your education with coursework in other disciplines. The program will prepare you for a career in software development, and is of particular interest if you wish to pursue interdisciplinary applications of computing that are not covered by any of our other degrees.

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required.
- students are encouraged to choose CMST 340 Intercultural Communications or CMST 314 Gender and Communications to fulfill their cultural and gender diversity requirement and/or CMST 440 Global Communications to fulfill their international studies requirement.

Computer Science Major, Bachelor of Science (BS)

The Bachelor of Science degree in Computer Science is accredited by the Computing Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202, 410.347.7700.

Our traditional computer science degree provides extensive preparation in both the theoretical and practical aspects of computer science. It will prepare you for a variety of careers in computing or for additional study at the graduate level. In this program you will study both general purpose programming and programming for specialized purposes and environments. In addition, you will learn about algorithms, performance analysis, networks, computer architectures, information systems and software engineering. You will also work on a realistic project in a team environment. The program includes a variety of advanced courses that allow you to tailor your degree to your specific interests.

### Computer Science, Master of Science (MS)

Dan Tappan (dtappan@ewu.edu), Program Advisor
315 CEB
509.359.7093

The Master's Program in Computer Science has been designed to provide opportunities for professional growth in this rapidly changing field. The program strives to provide a balance between practical applications-oriented content and a theoretical framework for continued learning.

#### Required Core—this coursework provides core knowledge in the areas of algorithms, database systems, software engineering, operating systems and research methods.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSCD 501</td>
<td>ADVANCED ALGORITHMS</td>

<tr>
<td>CSCD 527</td>
<td>MODERN DATABASE SYSTEMS</td>
<td>5</td>
</tr>
<tr>
<td>CSCD 540</td>
<td>ADVANCED OPERATING SYSTEMS</td>
<td>5</td>
</tr>
</tbody>
</table>

#### Electives—at least one elective must be at the 500-level

Note: This coursework provides the student an opportunity to take courses specialized to their particular area(s) of interest. Any 400-level or non-CSCD course must be approved by the CSCD graduate coordinator or the student’s graduate committee chair. CSCD 695 cannot be used to satisfy any portion of these elective requirements. The courses CSCD 538 and CSCD 539 may each apply more than once, provided distinct topics are studied.

Undergraduate Degrees
Bachelor of Arts (BA)
• Visual Communication Design (p. 277)
Bachelor of Fine Arts (BFA)
• Visual Communication Design (p. 278)
Undergraduate Minors
• Visual Communication Design (p. 278)

Undergraduate Programs
Students studying in the Department of Engineering & Design may select from a broad number of disciplines that include Electrical Engineering, Mechanical Engineering Technology, Mechanical Engineering, Visual Communication Design, Construction, Design and Manufacturing. The primary goal of the Department of Engineering & Design is to provide students with the technical background required for careers in business and industry. Coursework within each program offers experiences in many areas of engineering and design that enhance the preparation of our graduates.

Engineering & Design Departmental Scholarship Information
The department awards two scholarships annually: the M. W. Consulting Engineering Scholarship and Aaron G. Mertens memorial scholarship. These scholarships are awarded to our majors based on academic qualifications and need.

General Admissions Information for Engineering & Design
Students entering the Bachelor of Science degree program as juniors should have completed one year of physics as well as mathematics through precalculus. Failure to complete the mathematics and physics requirements before the junior year likely will delay graduation.

Grade Requirements
In order to graduate, students majoring in the department must earn a GPA ≥2.5 in departmental coursework. Students getting a minor in the department must also earn a GPA ≥2.5 in departmental coursework.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Visual Communication Design, Bachelor of Arts (BA)
A major in Visual Communication Design educates and prepares students to conceive and produce creative solutions to satisfy the visual communication needs of society. Graduates are prepared for careers in graphic design, web design, multimedia design, advertising, printing, publishing or related fields. Theory and practice are covered in a variety of contexts, including process and product, form and content, type and image and inter activity. Current technology and future trends are addressed in the context of industry practices. This major is combined with a related minor in another academic area to specialize in specific career preparation.

Notes:
• two years of a single high school foreign language or one year of a single college level foreign language is required;
• in order to receive the Visual Communication Design degree, students must earn a grade ≥3.0 in DESN 263 and DESN 363 in addition to the department requirement of ≥2.5 GPA in all DESN/TECH coursework;
• MATH 107 is recommended for the above major.

Required Core Courses
DESN 100 DRAWING FOR COMMUNICATION 5
DESN 216 DIGITAL FOUNDATIONS 4
DESN 243 TYPOGRAPHY 4
DESN 259 HISTORY OF DESIGN 4
DESN 263 VISUAL COMMUNICATION DESIGN 1 5
DESN 363 VISUAL COMMUNICATION DESIGN 2 5
DESN 366 PRODUCTION DESIGN 4
DESN 368 WEB DESIGN 1 4
DESN 378 WEB DESIGN 2 4
DESN 463 VISUAL COMMUNICATION DESIGN 3 5
DESN 490 SENIOR CAPSTONE 4
DESN 493 PORTFOLIO 2

Supporting Courses
ART 107 BASIC DESIGN 5
CMST 201 PUBLIC SPEAKING 4-5
or CMST 200 INTRODUCTION TO SPEECH COMMUNICATION
TCOM 205 INTRODUCTION TO TECHNICAL COMMUNICATION 5
TECH 393 TECHNOLOGY WORLD CIVILIZATION 4

Electives
12
Total Credits 80-81

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
• understand basic business practices, including working on teams;
• identify, analyze and solve communication problems;
• create and develop visual form in response to communication problems;
• show respect for diversity and knowledge of contemporary professional, societal and global issues;
• recognize the need for, and the ability to engage in, lifelong learning;
• describe and respond to the audiences and contexts which communication solutions must address.

Visual Communication Design, Bachelor of Fine Arts (BFA)

The Department of Engineering & Design and the Department of Art offer an intercollegiate Visual Communication Design program founded on four major concerns: developing the highest levels of individual creative performance and professional education; providing courses for all students which develop ability in both technical visual communications as well as important core skills in the area of fine art; giving students a greater cultural and historical understanding and aesthetic appreciation of the function of design in the arts and in the world around them; and functioning as dual centers of emphasis and resource for the visual arts, visual communication and technology in the cultural activities of both the university community and the community at large.

Both departments are committed to working together to give students access to current technologies in the area of visual communication design, as well as experience in developing the necessary visual skills provided by studio art areas such as drawing, painting and sculpture.

The program ends with a three quarter senior year intensive studio experience for the preparation of portfolios for job placement or graduate school application. This includes midterm faculty review of student work, quarterly outside professional review and a final exhibition as the completion of the student portfolio of work.

Prior to declaring the BFA major, students must apply to the program by submitting a portfolio and academic transcripts. Application is recommended at the end of the sophomore year to help ensure that appropriate junior year courses are selected. Students need not be in the BFA to take DESN or ART classes, with the exception of the senior year three quarter class DESN 471/ART 471. This course requires previous acceptance into the BFA degree program.

Notes:

1. There is no foreign language requirement for BFA students.
2. Including university requirements, the above program requires a minimum of 180 credits or an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions: Students will have satisfied university competencies (ENGL 101 and CPLA 100). If this is not true, then the student will have to complete up to six more credits of classes (See university competencies.)
3. ART 213 fulfills EWU’s Fine Arts core requirement.
4. TECH 393 fulfills EWU’s International Studies requirement.
5. DESN 490 fulfills EWU’s senior capstone requirement.

Total Credits: 113

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• have the ability to solve visual communication problems, including the skills of identification, research and information gathering, analysis and generation of alternative solutions;
• have the ability to draw on thoughts and ideas in relation to an art historical timeline, apply contemporary concepts in design to their own work and articulate and discuss art within our own culture and the art of other cultures;
• have basic skills to create a response to visual communication problems, including an understanding of the principles of visual organization/composition, information hierarchy, symbolic representation, typography, aesthetics and the construction of meaningful images;
• have an understanding of multimedia tools and technology, including their roles in the creation, reproduction and distribution of visual messages;
• be able to describe and respond to audiences and contexts that communication solutions must address, including recognition of the physical, cognitive and social human factors that shape design decisions;
• have an understanding of basic business practices, including the ability to organize design projects and to work productively as members of a team;
• create a cohesive body of work on a level appropriate to entry into both graduate schools and design professions and have the ability to defend their portfolio work both orally and in writing.

Visual Communication Design, Minor

A minor in visual communication design will provide students with a foundation in the creative, conceptual and technical skills necessary to understand and participate in the visual communication needs of future professional practice. This minor supports endeavors in visual
communication design for print and web, including effective use of design thinking, process and techniques.

Teacher Certification/Add-on Endorsements
• General Science/Add-on Endorsement (p. 281)

Undergraduate Programs

The BAE in Earth and Space Science is for prospective secondary school science teachers. The Earth and Space Science major and minor are interdisciplinary, with required courses from geography, geology, physics, chemistry and biology.

General Admissions Requirements for Earth and Space Science

High school students who plan to enter this program are encouraged to take three or four years of both science and mathematics in high school. University students should generally complete their gecr requirements, particularly in the Natural Sciences, prior to entering the program.

Students are encouraged to contact the Earth and Space Science advisor to aid them in selecting these gecr courses.

General Degree Completion Requirements for Earth and Space Science

Grade Requirement for BAE
• ≥2.5 cumulative average
• ≥2.0 in each course

Generally Earth and Space Science is taught in the junior high school or middle school. Also, it is occasionally taught as a high school elective or in the upper elementary grades.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Earth and Space Science/Secondary Major, Bachelor of Arts in Education (BAE)

Notes:
• the above is an interdisciplinary major—see an advisor to determine if courses required by this major may be taken in partial fulfillment of the GECRs;
• this major takes more than 12 quarters at 15–16 credits a quarter.

Total Credits 107-108

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
• demonstrate an understanding of the principles and concepts of Earth and Space Science and apply supporting knowledge of chemistry, biology and physics;
• demonstrate communication skills necessary to teach Earth and Space Science safely and effectively to secondary school students;
• demonstrate an understanding of various methods of science inquiry;
• plan and implement Earth and Space Science lessons aligned with the national and state standards; construct and use effective assessment strategies.

Earth and Space Science/Secondary, Minor

This minor satisfies the endorsement for grades 5-12.

Teacher Certification/Add-on Endorsements

General Science/Add-on Endorsement

For students who currently possess a Washington State Teaching Certificate.

This add-on satisfies the endorsement and allows teachers to teach any science for grades 5–12.

To improve the marketability of the science teacher, students may wish to complete this option in addition to their BAE in Biology, Chemistry, Earth and Space Science or Physics.

Undergraduate Programs

Students studying in the Department of Engineering & Design (DESN/EENG/MENG/METC/TECH) may select from a broad number of disciplines that include Electrical Engineering, Mechanical Engineering, Mechanical Engineering Technology, Visual Communication Design, Construction, Design and Manufacturing. The primary goal of the Department of Engineering & Design is to provide students with the technical background required for careers in business and industry. Coursework within each program offers experiences in many areas of engineering and design that enhance the preparation of our graduates.

The Department of Engineering & Design faculty, facilities and equipment reflect a commitment to maintaining program relevance. Computer-assisted drafting and manufacturing, networking, signal processing, microprocessors, power systems, digital communication, electronics, integrated circuits design, graphic design/web design, robotics, thermodynamics, fluid dynamics, heat transfer and materials processing laboratories and a variety of other engineering/engineering technology laboratories are constantly being updated with new equipment. Articulation and research with industry have resulted in programs that address the latest trends in industry. These efforts have consistently offered graduates excellent job placement and employment opportunities.

Engineering & Design Departmental Scholarship Information: The department awards two scholarships annually: the M. W. Consulting Engineering Scholarship and Aaron G. Mertens memorial scholarship. These scholarships are awarded to our majors based on academic qualifications and need.

General Admissions Information for Engineering & Design

Students entering the Bachelor of Science degree in the Engineering programs as juniors should have completed one year of physics as well as most of their mathematics. Failure to complete the mathematics and physics requirements before the junior year likely will delay graduation.

Grade Requirements

In order to graduate, students majoring in the department must earn a GPA ≥2.5 in departmental coursework. Students getting a minor in the department must also earn a GPA ≥2.5 in departmental coursework.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Program

Engineering & Design offers courses that students may use as part of a degree in communications, multimedia programming and other interdisciplinary areas. These programs are listed in their respective graduate catalog sections.

Electrical Engineering, Bachelor of Science (BS)

This degree combines studies in selected areas of engineering, physics, mathematics, and science to prepare students to solve real-world problems in electrical engineering. The Bachelor of Science in Electrical Engineering Degree is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org).

The first two years of the curriculum allow students to establish a solid foundation in mathematics and sciences. The third year curriculum introduces students to a broad spectrum of electrical engineering coursework with specialization and capstone introduced in the fourth year. The senior year capstone course allows students to consolidate their education experience with the solution of real-world, practical engineering problems often provided by industry.

The primary objective of the electrical engineering program is to prepare students to enter and progress in electrical engineering positions in business, industry and government. Graduates are generally expected to introduce students to a broad spectrum of electrical engineering problems often provided by industry.

Note: incoming freshmen are expected to start both the Calculus and Physics series in their first year in order to finish the degree in four years.

Total Credits 152-153

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- apply knowledge of mathematics, science and engineering;
- design and conduct experiments, as well as analyze and interpret data;
- design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability and sustainability;
- function on multidisciplinary teams;
- identify, formulate, and solve engineering problems;
- understand professional and ethical responsibility;
- communicate effectively;
- have the broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context;
- recognize the need for and demonstrate an ability to engage in lifelong learning;
- have a knowledge of contemporary issues;

Eastern Washington University
• use the techniques, skills and modern engineering tools necessary for engineering practice.

Mechanical Engineering Technology, Bachelor of Science (BS)

This degree combines studies of Mathematics, Computer Science, Physics and Mechanical Engineering Technology with an emphasis on applications. The Bachelor of Science in Mechanical Engineering Technology Degree is accredited by the Engineering Technology Accreditation Commission of ABET (http://www.abet.org). Before graduation each student will participate in a design project or an internship in industry to gain industrial experience during his or her academic career before employment. The emphasis of this program is the application of engineering principles to the solution of practical problems. MET graduates are in great demand and are employed in a variety of interesting, high-tech careers throughout the state and region. Employment opportunities are available in mechanical design, industrial engineering technology, industrial management, manufacturing, CAD, applied research and sales and service.

Notes:
• *if an internship cannot be found by student, independent study METC 491 Senior Project may be substituted.
• Including university requirements for the degree the above program requires a minimum of 188 credits or an average load of 15.67 credits per quarter, for a 12 quarter, four-year program. The 188 credits are based on the following assumption: a. students have had one year of high school drafting. If this assumption is not true, then the student will have to take METC 102 Introduction to Engineering Graphics.

TECH 404 COMPUTER NUMERICAL CONTROL

Total Credits 146-147

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
• show respect for diversity and a knowledge of contemporary professional, societal and global issues;
• develop the ability to understand professional, ethical or social responsibilities.
• function effectively on teams;
• communicate effectively;
• develop appropriate mastery of the knowledge, techniques, skills and modern tools of their disciplines;
• conduct, analyze and interpret experiments and apply results to improve processes.

**Mechanical Engineering, Bachelor of Science (BS)**

This degree combines studies in selected areas of engineering, physics, mathematics, and science to prepare students to solve real-world problems in mechanical engineering. The Bachelor of Science in Mechanical Engineering Degree is accredited by the Engineering Accreditation Commission of ABET (http://www.abet.org). The first two years of the curriculum allow students to establish a solid foundation in mathematics, sciences and introduces foundation subjects in mechanical engineering. The third and fourth year curriculum explores further areas in Mechanical Engineering and a capstone is introduced in the fourth year. The senior year capstone course allows the students to consolidate their education experience. The primary objective of the Mechanical Engineering program is to prepare students to enter and progress in mechanical engineering positions in business, industry and government. Graduates are generally expected to work in the research and development of ideas, products and processes by applying engineering principles to the solution of practical problems in the mechanical engineering field.

Note: pre-program prereqs include MATH 141, MATH 142, METC 102, METC 110.

## Technology with Applied Technology Option, Bachelor of Science (BS)

This program is designed for students who have graduated with an associate degree in applied arts and sciences (AAAS), associate degree in applied science (AAS), associate degree in technical arts (ATA) in computer technology, electronics, technology, mechanical engineering technology, civil engineering technology, drafting/design technology and similarly named programs at community colleges. This degree allows these students to continue their education by taking liberal arts courses, additional advanced technology courses and supporting courses to complete a Bachelor of Science Degree.

**Note:** Entrance into this program requires an AAS, AAAS, ATA or similar degree in an approved area from an accredited two-year college. Applicants must have a GPA ≥2.5 for the Technology coursework in the AAS, AAAS or ATA degree. Graduation requires maintaining an overall GPA ≥2.5 for this option.

**Note:** This program requires an average of 15–16 credits per quarter to complete in 2 years. The 81 credits are based upon the following assumption: students will have satisfied university competencies. If this assumption is not true, then the student will have to complete up to six more credits of classes. (See university competencies in this catalog.

## Technology with Construction Management Option, Bachelor of Science (BS)

The construction option focuses on selected areas of technology, physics, construction materials and techniques, emphasizing courses such as construction estimating, soils and surveying, building codes, and architecture. This concentration prepares graduates to enter and progress in supervisory or management positions in the construction industry. Initial employment may be as an estimator, laboratory technician in materials testing, construction inspector or field engineer.

**Note:** Including university requirements, the program requires a minimum of 180 credits, an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions:

- Students have had one year of high school drafting. If this assumption is not true, then the student will have to take METC 102;
- Students will have satisfied university competencies. If this assumption is not true, then the student will have to complete up to six more credits of classes. (See university competencies).

Total Credits: 103

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- develop an appropriate mastery of the knowledge, techniques, skills and modern tools of their disciplines;
- develop a recognition of the need for, and the ability to engage in, lifelong learning;
- develop a commitment to quality, timeliness and continuous improvement,
- communicate effectively;
- identify, analyze and solve technical and creative problems;
- develop an ability to understand professional, ethical or social responsibilities.

Technology with Design Option, Bachelor of Science (BS)

The design option prepares the graduate for placement in the world of manufacturing. A student graduating with this option should have mastered the basic skills appropriate for the design, development, manufacturing and sale of consumer products. Students should enter the labor force at the middle-management level. The breadth of preparation in the design option provides a broad foundation from which to build and progress.

Note: Including university requirements, the above program requires a minimum of 180 credits, an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions:

- Students have had one year of high school drafting. If this assumption is not true, then the student will have to take METC 102;
- Students will have satisfied university competencies. If this assumption is not true, then the student will have to complete up to six more credits of classes. (See university competencies.)

Total Credits: 110

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- develop an appropriate mastery of the knowledge, techniques, skills and modern tools of their disciplines;
- develop a recognition of the need for, and the ability to engage in, lifelong learning;
• develop a commitment to quality, timeliness and continuous improvement,
• communicate effectively;
• identify, analyze and solve technical and creative problems;
• develop an ability to understand professional, ethical or social responsibilities.

Technology with Manufacturing Option, Bachelor of Science (BS)

The manufacturing option focuses on select areas of technology, science and methods of materials processing. This option prepares the student to enter and progress in industry in a variety of areas including, quality assurance, inventory control, production line supervision or process management.

Note: Including university requirements, the above program requires a minimum of 180 credits, an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions:

• Students have had one year of high school drafting (if this assumption is not true, then the student will have to take METC 102 Introduction to Engineering Graphics;)
• Students will have satisfied university competencies. If this assumption is not true, then the student will have to complete up to six more credits of classes. (See university competencies.)
• technology majors with applied, construction, design or manufacturing options are not accredited by the Technology Accreditation Commission of ABET.

Undergraduate Program
Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Environmental Science Major with Environmental Biology Option, Bachelor of Science (BS)
Environmental Science is an interdisciplinary field that combines physical, chemical and biological sciences with social, political and economic understanding needed to study the environment and address environmental problems. The Environmental Science program integrates classroom work in biology, chemistry, geology and social sciences (economics and planning) with extensive field, lab and research experience. All students take a core of Environmental Science courses supplemented by a concentration in one of the three core sciences (biology, chemistry, and geology). Motivated students have the opportunity to obtain a double major in both Environmental Science and their concentration area. Graduates leave Eastern with the necessary professional and technical skills for employment in the environmental profession or entry into graduate or professional school.

Major Requirements for Environmental Science
All Environmental Science students must take a junior year (ENVS 300) and a final senior year environmental seminar (ENVS 400). After declaring environmental science as a major each student should meet with an advisor as soon as possible. Students should start the program with the necessary mathematics background to enter into the calculus or statistics sequence (i.e. MATH 141 or equivalent). It is recommended that students take ENVS 100, BIOL 171—BIOL 173, CHEM 151—CHEM 153 and GEOL 120 and GEOL 121 within the first two years. Students must maintain an overall GPA ≥2.50 to remain in the program.

Note: some course options may not result in there being 60 upper division credits required for graduation within the major—advisor consultation is required.

Total Credits 106-109

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
• develop an integrated knowledge of major concepts in the area of environmental sciences and an understanding of fundamental roles that biology, chemistry, and geology play in environmental science;
• demonstrate knowledge of the interrelationships among the physical and biological components of ecosystems;
• use epistemologically sound quantitative techniques for the analysis of biotic and abiotic samples and systems;
Environmental Science Major with Environmental Chemistry Option, Bachelor of Science (BS)

Environmental Science is an interdisciplinary field that combines physical, chemical, and biological sciences with social, political and economic understanding needed to study the environment and address environmental problems. The Environmental Science program integrates classroom work in biology, chemistry, geology and social sciences (economics and planning) with extensive field, lab and research experience. All students take a core of Environmental Science courses complemented by a concentration in one of the three core sciences (biology, chemistry, and geology). Motivated students have the opportunity to obtain a double major in both Environmental Science and their concentration area. - Geology (p. 292)

Bachelor of Science (BS)
- Geology (p. 293)

Undergraduate Minors
- Geology (p. 293)

Undergraduate Programs

Geology is the science of planet Earth. Geologists use elements of chemistry, physics, biology and mathematics in interpreting the evolution of the Earth and its life forms. Applied geology addresses exploration of Earth resources, environmental quality and hazards and practical understanding of the planet on which we live.

Geology is a field-oriented science and our curriculum emphasizes field studies. However, geologists increasingly employ advanced chemical and physical analytic techniques and use computers to model natural systems. Eastern has specialized laboratory facilities for various sub-disciplines in geology. Extensive collections of minerals, rocks and fossils are available for study and research.

Nationwide, approximately half of recent geology graduates are employed in environmental fields while a third go on to graduate school. Most of the rest go into the petroleum industry, teaching, government or mining. The Geology Department has close relations with geotechnical/environmental consulting firms, government agencies and mining companies in the Pacific Northwest.

Students should decide on declaring their geology major early to ensure timely graduation with the many credits needed in the Bachelor of Science program. Course substitutions in the Geology program must be approved by the Department. Most graduate schools require a full year of calculus.

An opportunity exists to earn a double major with a BS in both Geology and Environmental Science. (See catalog section on Environmental Science.)

General Admissions Requirements for Geology

High school students planning to major in Geology should take two years of algebra, one year of geometry/trigonometry and one year of chemistry and physics. They are also encouraged to take four years of English. The ability to express ideas and concepts clearly and concisely, both orally and in written form, is fundamental to all sciences.

Entering freshmen and transfer students electing to major in Geology should contact the Department for advising as soon as possible. Failure to do so may result in an additional year to finish the BS program. Especially important for beginning students is early completion of the chemistry sequence.

Enrollment in GEOL 120 and GEOL 121 requires a major declaration in Geology.

Grade Requirement
- ≥2.50 cumulative average
- ≥2.0 in required supporting and geology classes

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Geology Major, Bachelor of Arts (BA)

The Bachelor of Arts serves students interested in geology-oriented fields which do not require the full range of professional training. Employment opportunities include such varied possibilities as park naturalist, urban and regional planner or geological technician.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Note: GEOL grade requirements are ≥2.50 cumulative average and ≥2.0 in required supporting and geology classes.

Note: enrollment in GEOL 120 and GEOL 121 requires a major declaration in Geology.

GEOL 431  STRUCTURAL GEOLOGY II  
GEOL 470  HYDROGEOLOGY  

Total Credits  66-72  

For information on General Education, see Undergraduate Degree (p. 41).  

Student Learning Outcomes—students will  
• demonstrate effective skills in oral and written communication in order to be successful in the field of geology;  
• demonstrate an understanding of basic principles of the history and development of the earth through time;  
• demonstrate the proper use of computer, laboratory and field equipment used in geology.  

Geology Major, Bachelor of Science (BS)  

The Bachelor of Science program prepares students for careers as professional geologists, provides the basis for admission to graduate school and prepares students seeking registration and licensing as professional geologists. Some courses in the BS degree will also count as Natural Science GECRs and satisfy the university proficiency in mathematics requirement.  

Required Courses  
GEOL 120  PHYSICAL GEOLOGY - THE SOLID EARTH  5  
GEOL 121  PHYSICAL GEOLOGY - SURFICIAL PROCESSES  5  
GEOL 122  HISTORICAL GEOLOGY  5

PHYS 132  INTRODUCTORY PHYSICS II  
PHYS 133  INTRODUCTORY PHYSICS III  

Electives—select credits from Geology courses, eight of which must be upper-division.  12  

Total Credits  108  

For information on General Education, see Undergraduate Degree (p. 41).  

Student Learning Outcomes—students will  
• demonstrate effective oral and written communication skills necessary for employment in the various fields of geology;  
• demonstrate critical thinking skills to solve geological problems encountered in the various fields of geology;  
• use the tools and equipment available to professional geologists to solve geological problems;  
• demonstrate a solid understanding of geologic principles and processes that operate in the complex systems of the earth.  

Geology, Minor  

Required Courses

  • Mathematics/Elementary (p. 298)
  • Mathematics/Secondary Middle Level Endorsement (p. 300)

Undergraduate Programs

Mathematics is both an art and a science: it has the unique feature that, while it is typically studied for its own sake, throughout history its results have been crucial in the advancement of other sciences. Presently there is a shortage of American mathematicians. Many professionals at the forefront of the behavioral, social and pure sciences also must have a solid background in advanced mathematics.

Among the degrees offered by the department is the Bachelor of Science degree in Mathematics. Students who enroll in this program may choose electives in other disciplines, in order to equip themselves for work in industry. They may also choose their electives from mathematics courses in order to prepare them for graduate work in mathematics or related disciplines; examples of related fields include the Putnam competition and prepares students for actuarial exams. It also sponsors a chapter of the mathematical honorary society, Pi Mu Epsilon. Recent graduates are successfully pursuing doctoral work at top-level universities.

The other major programs offered by the department lead to the Bachelor of Arts in Education; the BAE can be earned in Secondary Mathematics Education or Elementary Mathematics Education. In addition, a student may earn a Middle Level Endorsement in Mathematics Education. The preparation of mathematics teachers is a major emphasis of the department. Seven department faculty members have expertise in mathematics education and experience teaching elementary, middle and/or high school mathematics. Employment opportunities for teaching mathematics at elementary, middle and secondary levels are substantial and expected to remain high for the foreseeable future.

The department’s mathematics education programs prepare future teachers by providing background in mathematics content, teaching methods, learning theories, problem solving, the use of technology in teaching mathematics and current developments in curriculum. The secondary mathematics education program is one of the strongest in the state and provides students with a mathematics background that approaches that of the BS in mathematics. Completion of a major in secondary mathematics education satisfies the current requirements for a secondary mathematics teaching endorsement (certificate) for the state of Washington. The elementary mathematics education program is unique in the state; it provides a balance of mathematics content and teaching methods courses to give prospective K–8 teachers a deeper background in mathematics and the teaching of K–8 mathematics. Graduates of this program have the background to be mathematics content specialists at the elementary school level. The middle level endorsement secondary or elementary program options meet the state requirements for mathematics certification at the 4th through 9th grade levels.

The department has been strengthening its faculty and its faculty members are increasingly active in research. On occasion, undergraduates have been involved in research. Currently, faculty members are active in the areas of statistics, higher algebra, real and harmonic analysis, numerical analysis, complex variables, differential geometry, convexity, topology, biomathematics, computational neuroscience, mathematical physiology, reliability engineering, big data and time series analysis and in various areas of mathematics education including functions, number sense in primary children, construction of mathematical understanding, teachers’ mathematical knowledge for teaching, development of mathematics tasks, professional development of secondary mathematics teachers, and mathematical habits of mind.

An important function of the department is to provide services to students from a wide range of disciplines. Mathematics tutoring labs provide employment for high-achieving students and assistance to students in all mathematics courses.

In addition, computers equipped with mathematics software and tutorials are used in conjunction with several courses offered by the department and allow students the practice needed to be successful in their mathematics courses.

General Admissions Requirements for Mathematics

High school students who want to pursue a major in this department (except the BAE elementary mathematics) should complete four years of high school mathematics, which includes two years of algebra, one year of geometry and one year of pre-calculus mathematics. All prospective department majors should contact the Department of Mathematics office as soon as possible after being admitted to EWU to obtain an advisor and to plan a program of study.
Transfer students should contact their counseling office or the EWU Department of Mathematics to identify appropriate lower-division and major/minor preparatory courses.

Placement Assessment Policy
All students admitted to Eastern Washington University without a direct transfer degree must take the mathematics placement assessment (ALEKS) prior to registering for classes at Eastern. The only exceptions are the following: a. students who have received a grade ≥2.0 from a post-secondary institution in a course equivalent to the level of Intermediate Algebra or above; or b. students who have received a score ≥3.0 on the College Board’s Advanced Placement Calculus AB or BC test, or the Advanced Placement Statistics test.

EWU uses placement software called ALEKS to ensure success in mathematics. Payment and sign up are done online through the math placement site (http://ewu.edu/mathplacement).

A photo ID is required at testing time. No calculators are allowed. The math placement assessment may be retaken once per cohort. Please refer to FAQ on the EWU math placement assessment site for complete information. For questions or more information contact the Department of Mathematics (http://www.ewu.edu/cstem/programs/mathematics) (509.359.6225).

Prerequisite Policy
Students must have earned a grade ≥2.0 or better in any course that is to be used to satisfy a prerequisite requirement for a subsequent mathematics course offered by the Eastern Washington University Department of Mathematics.

Academic Progress Policy for Math Majors and Minors
The intent of the Academic Progress Policy is to support Department of Mathematics declared majors and minors who experience difficulty in mathematics courses required in their programs. Department experience has shown that with very few exceptions, requiring a student who has failed to earn a grade ≥2.0 in a required mathematics course to meet with an advisor will be beneficial to the student in terms of maximizing the student’s academic performance and minimizing the expected time to graduation.

A mathematics student is any Eastern Washington University student who intends to complete a major or minor in mathematics; mathematics with an option in computer science, economics, or statistics; mathematics/secondary; or mathematics/elementary.

Mathematics students who fail to make at least a grade ≥2.0 in any mathematics course taken at EWU must review the circumstances with an academic advisor during the term following the failure. A letter from the student explaining the circumstances must be placed in the student’s academic record. Mathematics students failing to follow this procedure will not be allowed to enroll in subsequent mathematics courses.

Mathematics students who fail to make at least a grade ≥2.0 in mathematics courses taken at EWU on any two quarters during their undergraduate program must meet during the term following the second occurrence with a committee consisting of the student’s appointed advisor and two other members of the mathematics faculty: one designated by the department chair and one chosen by the student. The committee will review the circumstances including the letter submitted after the first occurrence and recommend one of the following actions:

• the student be allowed to continue in the program without specific remediation;

Mathematics students who fail to make at least a grade ≥2.0 in mathematics courses in three quarters during their undergraduate program must again meet with a committee of at least three faculty members who will decide if the student will be allowed to continue in the program. Students who are dropped from mathematics programs may be reinstated only by demonstrating the capability of academic excellence and a commitment to complete an undergraduate program in a reasonable time frame. This demonstration must be made before a committee of at least three members of the mathematics faculty.

Mathematics students who are dropped from mathematics programs will not be allowed to take subsequent mathematics courses except for those courses required by another department in the student’s major program. The Department of Mathematics will not submit a letter of recommendation for Professional Degree Candidacy for any student who has been dropped from departmental programs.

Graduation Requirement
Students must receive a grade ≥2.0 in each mathematics course used to satisfy the requirements of an undergraduate major or minor in mathematics.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Mathematics, Middle-Level Mathematics Endorsement, Graduate Certificate

Through completion of the required courses in this certificate program, teachers currently certified in the state of Washington will earn a middle-level (4th through 9th grades) mathematics teaching endorsement. The MA in teaching K–9 mathematics program, with endorsement-specific electives completed, also meets the middle-level endorsement requirements, and students in the degree program need not enroll separately in this certificate program. The certificate program is for students seeking the endorsement only, without the master’s degree, and differs from the undergraduate add-on middle level endorsement program in that the graduate courses will be populated by certified teachers who may have had teaching experience that they will bring to bear. The certificate program courses will also be offered in the late afternoons and summer quarters, whereas the courses in the undergraduate program are primarily offered during the day in the regular academic year.

Completion of this program—by a currently certified teacher with one or more Washington State Teaching Endorsements—will satisfy the Washington state requirements for a middle level mathematics teaching endorsement (grade levels 4–9).

Note: for students who have not previously completed a Pre-Calculus I course or MATH 311, the program will total 40 credits.

General Admission Requirements for the Middle Level Mathematics Add-On Endorsement

1. A Washington State Teaching Certificate.
2. Demonstration of entry-level competency on an inventory of content knowledge for teaching mathematics administered in the Mathematics Department.

* A Pre-Calculus I course or MATH 311 is a prerequisite for this course.

Student Learning Outcomes—students will:

• understand and apply the mathematical processes of problem solving, reasoning, communicating and connecting; use varied representations to support and deepen mathematical understanding; and embrace technology as an essential tool for teaching and learning mathematics;
• demonstrate computational proficiency using various strategies, including a conceptual understanding of numbers, relationships among number and number systems and meanings of operations with all real numbers;
• understand relationships among quantities, functions and the analysis of change and demonstrate a conceptual understanding of and procedural facility with fundamental single variable calculus;
• use spatial visualization and geometric modeling to explore and analyze geometric figures and apply and use measurement concepts and tools;
• demonstrate an understanding of concepts and practices related to data analysis, statistics and probability and apply the fundamental ideas of discrete mathematics in the formulation and solution of problems;
• possess a deep understanding of how students learn mathematics and of the pedagogical knowledge specific to mathematics teaching and learning.

Mathematics/Elementary Major and Middle Level Endorsement Option, Bachelor of Arts in Education (BAE)

Completion of this major and the General Degree Completion Requirements for Education, Elementary, satisfies the state requirements for a generalist (multiple subject) Elementary Education teaching endorsement.

Notes:
• computer literacy proficiency is required;
• it can be demonstrated by CPLA 100 and CPLA 101 test, by CPLA 100 and CPLA 101 course credits or by CPLA 120 course credits;
• this proficiency must be completed prior to enrollment in MATH 311.

• possess a deep understanding of how students learn mathematics and of the pedagogical knowledge specific to mathematics teaching and learning.

Mathematics/Elementary, Minor

Completion of this minor is optional. Completion of the General Degree Completion Requirements for Education, Elementary, and a major field of study satisfies the state requirements for a generalist (or multiple subjects) Elementary Education teaching endorsement.
Notes:

• computer literacy proficiency is required;
• it can be demonstrated by CPLA 100 and CPLA 101 test, by CPLA 100 and CPLA 101 course credits or by CPLA 120 course credits;
• this proficiency must be completed prior to enrollment in MATH 311.

Required Courses
MATH 114 ALGEBRA CONCEPTS 5
MATH 211 STRUCTURE OF ELEMENTARY MATH I 5
MATH 212 STRUCTURE OF ELEMENTARY MATH II 5
MATH 311 FUNCTIONS AND RELATIONS FOR K-8 TEACHERS 5
MATH 420 PROBLEM SOLVING FOR K-8 TEACHERS 4
MTED 390 METHODS OF TEACHING ELEMENTARY SCHOOL MATHEMATICS 5
MTED 412 ADVANCED METHODS OF TEACHING K-8 MATHEMATICS 5

Total Credits 34

* MATH 211, MATH 212 and MTED 390 are required courses in the Professional Education Requirements/Elementary. The actual total of additional credits for this minor when elementary education professional requirements are completed is 19 credits.

Mathematics/Middle Level Major,
Bachelor of Arts in Education (BAE)

Required Education Secondary Core
30–hour multicultural education field requirement
EDUC 200 ADMISSION TO TEACHER EDUCATION 3
EDUC 303 and FOUNDATIONS OF ASSESSMENT 7
EDUC 309 and FOUNDATIONS OF SECONDARY CLASSROOM MANAGEMENT (must be taken concurrently)
EDUC 201 INTRODUCTION TO EDUCATION 3
EDUC 341 SECONDARY STRATEGIES, MANAGEMENT, ASSESSMENT 4
EDUC 413 CONTENT AREA LITERACY: MANAGEMENT AND ASSESSMENT FOR SECONDARY EDUCATION CANDIDATES 4
EDUC 420 ADMISSION TO PROFESSIONAL CANDIDACY 1
EDUC 426 SECONDARY STUDENT TEACHING 7-12 15
PSYC 304 EDUCATIONAL PSYCHOLOGY 5
SPED 363 INTRODUCTION TO SPECIAL EDUCATION 4

Required Courses
EDUC 417 CULTURE OF MIDDLE SCHOOL 3
MATH 114 ALGEBRA CONCEPTS 5
MATH 211 STRUCTURE OF ELEMENTARY MATH I 5
MATH 212 STRUCTURE OF ELEMENTARY MATH II 5
MATH 311 FUNCTIONS AND RELATIONS FOR K-8 TEACHERS 5
MATH 312 GEOMETRY FOR THE K-8 TEACHER 5
MATH 411 DISCRETE MATHEMATICS FOR K-8 TEACHERS 4
MATH 413 DATA ANALYSIS AND PROBABILITY FOR MIDDLE LEVEL TEACHERS 3
MATH 416 CALCULUS FOR MIDDLE LEVEL TEACHERS 4
MATH 420 PROBLEM SOLVING FOR K-8 TEACHERS 4
MTED 290 3
MTED 390 METHODS OF TEACHING ELEMENTARY SCHOOL MATHEMATICS 5
MTED 392 METHODS OF TEACHING SECONDARY MATH I 3
MTED 412 ADVANCED METHODS OF TEACHING K-8 MATHEMATICS 5
MTED 490B SENIOR CAPSTONE: SECONDARY PRACTICUM 5

Total Credits 107

Student Learning Outcomes—students will:

• demonstrate and apply in the classroom a profound understanding of fundamental mathematics;
• demonstrate and apply in the classroom a deep understanding of how students learn mathematics and of the pedagogical knowledge specific to mathematics teaching and learning;
• exhibit a productive disposition: value learning, value and respect student thinking, exhibit curiosity about students and mathematics, demonstrate perseverance, model effective learning, understand and value the role of discourse in promoting the learning of math.

Mathematics/Secondary Major,
Bachelor of Arts in Education (BAE)

Completion of this major and the General Degree Completion Requirements for Education, Secondary, satisfies the state requirements for a state mathematics teaching endorsement (secondary, grade levels 5–12).

Notes:

• computer literacy proficiency is required;
• it can be demonstrated by CPLA 100 and CPLA 101 test, by CPLA 100 and CPLA 101 course credits or by CPLA 120 course credits;
• this proficiency must be completed prior to enrollment in MATH 311;
• the above major takes more than 12 quarters at 15–16 credits a quarter;
• effective 09.01.14 all candidates for certification must pass the NES subject matter test to receive an endorsement for certification purposes.

Required Secondary Education Core
30–hour multicultural education field requirement
EDUC 200 ADMISSION TO TEACHER EDUCATION 3
EDUC 303 and FOUNDATIONS OF ASSESSMENT 7
EDUC 309 and FOUNDATIONS OF SECONDARY CLASSROOM MANAGEMENT (these three courses must be taken concurrently)
EDUC 201 INTRODUCTION TO EDUCATION 3
EDUC 341 SECONDARY STRATEGIES, MANAGEMENT, ASSESSMENT 4
EDUC 413 CONTENT AREA LITERACY: MANAGEMENT AND ASSESSMENT FOR SECONDARY EDUCATION CANDIDATES 4
EDUC 420 ADMISSION TO PROFESSIONAL CANDIDACY 1
EDUC 426  SECONDARY STUDENT TEACHING 7-12  15
PSYC 304  EDUCATIONAL PSYCHOLOGY  5
SPED 363  INTRODUCTION TO SPECIAL EDUCATION  4

Required Mathematics/Secondary Courses
MATH 161  CALCULUS I  5
MATH 162  CALCULUS II  5
MATH 163  CALCULUS III  5
MATH 225  FOUNDATIONS OF MATHEMATICS  5
MATH 231  LINEAR ALGEBRA  5
MATH 241  CALCULUS IV  5
MATH 370  SURVEY OF GEOMETRIES  5
MATH 385  PROBABILITY AND STATISTICAL INFERENCE I  5
MATH 387  REGRESSION CONCEPTS  3
MATH 432  RINGS AND POLYNOMIALS  5
MATH 460  CONTINUOUS FUNCTIONS  5
MATH 492  PROBLEM SOLVING SEMINAR  5

Required MATH Elective—choose from the following.  5
MATH 331  DISCRETE MATHEMATICS WITH APPLICATIONS
MATH 332  NUMBER THEORY
MATH 347  INTRODUCTORY DIFFERENTIAL EQUATIONS
MATH 431  APPLIED GROUP THEORY
MATH 481  COMPLEX ANALYSIS

Required MTED Courses
MTED 390  METHODS OF TEACHING ELEMENTARY SCHOOL MATHEMATICS  5
MTED 490B  SENIOR CAPSTONE: SECONDARY PRACTICUM  5
MTED 493  METHODS OF TEACHING SECONDARY MATHEMATICS III  3

Total Credits  120

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

• understand and apply the mathematical processes of problem solving, reasoning, communicating and connecting, use varied representations to support and deepen mathematical understanding, and embrace technology as an essential tool for teaching and learning mathematics;

• demonstrate computational proficiency using various strategies, including a conceptual understanding of numbers, relationships among number and number systems and meanings of operations with all real numbers;

• understand relationships among quantities, functions, and the analysis of change, and demonstrate a conceptual understanding of and procedural facility with fundamental single variable calculus;

• use spatial visualization and geometric modeling to explore and analyze geometric figures and apply and use measurement concepts and tools;

• demonstrate an understanding of concepts and practices related to data analysis, statistics and probability, and apply the fundamental ideas of discrete mathematics in the formulation and solution of problems;

• possess a deep understanding of how students learn mathematics and of the pedagogical knowledge specific to mathematics teaching and learning.

Mathematics/Secondary Middle Level Endorsement/Minor

Completion of this minor, the General Degree Completion Requirements for Education, Secondary, and a major field of study satisfies the state requirements for a middle level mathematics teaching endorsement (grade levels 4–9).

This minor can be completed for an add-on Middle Level Mathematics Endorsement.

The completion of MATH 211 and MATH 212 satisfies the university Mathematical Reasoning competency/proficiency requirement and the MATH 107 requirement in the secondary education program.

Notes:

• computer literacy proficiency is required;

• it can be demonstrated by CPLA 100 and CPLA 101 test, by CPLA 100 and CPLA 101 course credits or by CPLA 120 course credits;

• this proficiency must be completed prior to enrollment in MATH 311.

• effective 09-01-05, all candidates for certification must pass the WEST-E Praxis II subject matter test to receive an endorsement for certification purposes.

Required Courses
EDUC 417  CULTURE OF MIDDLE SCHOOL  3
MATH 114  ALGEBRA CONCEPTS  5
MATH 211  STRUCTURE OF ELEMENTARY MATH I  5
MATH 212  STRUCTURE OF ELEMENTARY MATH II  5
MATH 311  FUNCTIONS AND RELATIONS FOR K-8 TEACHERS  5
MATH 312  GEOMETRY FOR THE K-8 TEACHER  5
MATH 411  DISCRETE MATHEMATICS FOR K-8 TEACHERS  4
MATH 413  DATA ANALYSIS AND PROBABILITY FOR MIDDLE LEVEL TEACHERS  3
MATH 416  CALCULUS FOR MIDDLE LEVEL TEACHERS  4
MATH 420  PROBLEM SOLVING FOR K-8 TEACHERS  4
MTED 390  METHODS OF TEACHING ELEMENTARY SCHOOL MATHEMATICS  5
MTED 412  ADVANCED METHODS OF TEACHING K-8 MATHEMATICS  5
MTED 490B  SENIOR CAPSTONE: SECONDARY PRACTICUM  5

Varies.

Undergraduate Degrees
Bachelor of Arts in Education (BAE)
- Natural Science Elementary Major and Middle Level Endorsement (p. 301)

Undergraduate Minors
- Natural Science Elementary Minor (p. 302)

Undergraduate Program
The Natural Science major is recommended for those students seeking K–8 certification who are particularly interested in teaching science at the 5–8 level. The coursework in this major provides a foundation of scientific principles required to teach the Washington Essential Academic Learning Requirements for grades 5–9. This major leads to a Middle School Science Endorsement.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Natural Science Elementary Major and Middle Level Endorsement, Bachelor of Arts in Education (BAE)

Completion of this major, the General Degree Completion Requirements for Elementary Education, satisfies the state requirements for an Elementary Education teaching endorsement and a Middle Level Science teaching endorsement (grade levels 5–9).

Prerequisites apply:
* BIOL 320 also meets International Studies Requirement;
* NTSC 301 requires prerequisites of GEOG 115 or GEOL 115;
* MATH 211 and successful completion or concurrent enrollment in CHEM 161;
* NTSC 302 requires prerequisites of BIOL 115;
* CHEM 161;
* MATH 211;
* PHYS 115 require a prerequisite of MATH 211.

Required Elementary Education Core
30–hour multicultural education field requirement

Total Credits 121

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

Note: see Education for additional SLOs.

• understand the process of science;
• understand how energy and matter flow through physical, life and earth systems;
• understand the evolution of natural systems and factors that result in evolution or equilibrium;
• understand how systems are organized;
• understand the process of learning science through inquiry.

Natural Science Elementary, Minor

The Natural Science minor is recommended for those students seeking K–8 certification who are particularly interested in teaching science at the K–5 level. The coursework in this minor provides a foundation of scientific principles required to teach the Washington Essential Academic Learning Requirements for grades K–5.

Completion of this minor, the General Degree Completion Requirements for Elementary Education and a major field of study satisfies the state requirements for an Elementary Education teaching endorsement.

This minor does not fulfill the state middle-level science endorsement.

Notes:
• see Education, for prerequisites, core requirements and additional SLOs;

Undergraduate Degrees

Bachelor of Science (BSN)

• Nursing (p. 303)

Undergraduate Programs

An agreement referred to as the Intercollegiate Nursing Alliance allows for admission of a select proportion of students from three partner universities (Washington State University, Eastern Washington University and Whitworth University) into the upper division portion of the nursing program. This agreement is based on a long-standing collaboration between these universities. Alliance students take lower-division classes at a partner university and upper-division nursing courses at the Washington State University College of Nursing.

General Admissions Requirements for Nursing

Admission to the upper division, nursing major taught in the WSU College of Nursing is based upon evaluation of the student’s entire application, including academic record, GPA and personal interview. The number of applicants to the WSU College of Nursing may exceed the number that can be admitted; therefore, no assurance can be given that all applicants admitted to Eastern Washington University and successfully completing the lower-division requirements would be admitted to the nursing major. Applicants must complete 90 acceptable quarter credits from Eastern Washington University. The credits must include courses that meet general education core requirements university, competencies and proficiencies, university graduation requirements (the EWU senior capstone is waived), and the prerequisite courses for the nursing program. Approximately 650 basic and registered nurse students are enrolled in the baccalaureate, nursing program. The undergraduate program is for students initiating the study of nursing and for registered nurses who wish to obtain a baccalaureate degree in nursing. For more information please contact GUAA.

Instructional programs are conducted at the baccalaureate level to develop responsible citizens and to provide the professional knowledge, skills and values essential to the practice of nursing throughout our global society. The undergraduate curriculum includes both liberal arts education and preparation as a generalist in the practice of nursing.

New Requirements for the College of Nursing for Spring 2014 Admision

• TEAS Testing: TEAS (Test of Essential Academic Skills) is a proctored online multiple choice exam that measures entry level skills and abilities (science, math, language and reading language) of nursing program applicants. Prospective students must score at the proficient, advanced or exemplary level to be eligible for admission.

After admission and prior to registration at the WSU College of Nursing, basic students are required to submit evidence of First Aid and CPR (must be Adult, Infant and Child) certification. CPR certification must also be updated annually unless the initial card is valid for two years. HLED 194 provides both certifications.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Semester IV
NURS 406 Nursing Management (3)
NURS 495 Advanced Clinical Practicum (80 hours as arranged) (2)
Tier III Upper Division Elective (3)

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- provide competent nursing care to individuals, families, groups and communities through promotion, maintenance, and restoration of health; prevention of illness, and physical, emotional, and spiritual support throughout life span;
- formulate nursing practice decisions using evolving knowledge and research from nursing science, the biological and behavioral sciences and humanities;
- use developmentally appropriate teaching-learning principals to assist clients to achieve their health goals and to assist colleagues to improve the quality of their nursing care;
- provide compassionate, ethical care to individuals of diverse cultures, values, beliefs, and lifestyles;
- demonstrate the values central to nursing practice including: altruism, autonomy, human dignity, integrity, and social justice;
- protect the rights of people to receive optimum care and make informed decisions affecting their health welfare.

Undergraduate Programs
Physics is the study of the physical environment and the laws governing the behavior of particles, fields and space/time. More specifically, physicists study mechanics, heat, light, electric and magnetic fields, gravitation, relativity, atomic and nuclear physics, solid state physics and many other topics. In general, physics strives for a mathematical description of the laws of nature at the most fundamental level and is therefore the most mathematical of the basic sciences.

Employment opportunities have been plentiful for physicists in recent years, especially for those with strong backgrounds in electrical instrumentation and computer electronics. Careers in research and development are available in many companies and federal agencies. The armed forces recruit technically trained people, especially physicists, to become officers and offer further educational opportunities to those selected. Secondary teaching positions in math and science are readily available. Careers exist in technical sales. Many students go on to graduate school for advanced degrees before starting a career. Advanced degrees lead to community college and university faculty positions, as well as increased opportunities for leadership roles in research and management.

In addition to its degree programs, the department provides several components to the university community in general and to a wide variety of majors in other disciplines. Introductory Physics and General Physics are supporting courses for such degree programs as chemistry and geology and are required courses for schools of physical therapy and medicine. General Physics is required in all schools of engineering.

General Admissions and Preparation Information for Physics:
Beginning physics students are advised to start the PHYS 151, PHYS 152, PHYS 153, PHYS 221 sequence as soon as possible. This can be done fall quarter if the student is also prepared to enroll in MATH 161. Otherwise the student should take MATH 141, MATH 142 and MATH 161 their first year and be prepared to enroll in PHYS 151 the following fall quarter. Bachelor of Science majors should complete the required chemistry sequence and as much of the General Education Core Requirements as possible during the first two years.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Physics Major, Bachelor of Arts (BA)
The Bachelor of Arts degree allows the student to acquire a physics degree with strong emphasis in one or more related fields of study. This degree is ideal preparation for graduate work in such areas as geophysics, biophysics and physical chemistry. Physics graduates also commonly enter graduate schools in engineering fields.

Notes:
- two years of a single high school foreign language or one year of a single college level foreign language is required;
- this major requires the completion of a minor.

Total Credits 20

**Physics/Secondary Major, Bachelor of Arts in Education (BAE)**

This major satisfies the endorsement for grades 5–12.

**Notes:**

- see the Education Department for prerequisites, core requirements and additional SLOs;
- this major does not require the completion of a minor—students are encouraged to complete a secondary endorsement in at least one other subject area.

**Required Secondary Education Core**

Teacher Certification/Add-on Endorsements

Note: for students who currently possess a Washington State Teaching Certificate.

This add-on satisfies the General Science endorsement and allows teachers to teach any science grades 5–12.

To improve their marketability as science teachers, students may wish to complete this option in addition to their BAE in Biology, Chemistry, Earth and Space Science or Physics.

Undergraduate Programs

Admission requirements for Schools of Medicine, Dentistry or Veterinary Medicine are typically satisfied by a Bachelor of Science degree in either biology or chemistry with substantial coursework from both disciplines. The requirements of these professional schools are so demanding and frequently variable that it is imperative students contact a pre-medical, pre-dental or pre-veterinary medicine advisor immediately upon deciding to earn a degree in one of these areas and work closely with that advisor in developing a complete curriculum. The program of study may vary for each student dependent on his/her preparation, background or specific interests. Other majors may be chosen if the basic requirements are met (two years each of biology and chemistry, one year of physics with supporting mathematics and typically one year of biochemistry and/or molecular biology). As a part of the selection process for admission to professional school, pre-medical and pre-dental students must also take a nationally administered evaluative test (Medical College Admission Test or Dental College Admission Test respectively); these tests are largely based on the science requirements previously noted, Mathematics, Applied Quantitative Assessments, English Comprehension and writing. Since the MCAT or DAT is typically taken either at the end of the third or beginning of the fourth academic year, it is imperative that students complete the basic science requirements during the first three years of study. For additional curriculum information and a complete list of courses required in a four-year program of study leading to the Bachelor of Science degree, see major option descriptions under the Biology or Chemistry/Biochemistry Departments. Note that majors in these areas of study offered by the two departments principally differ only in the fourth year.

Because admission requirements can vary between individual professional schools, it is imperative that students directly contact schools of interest and ascertain specific requirements prior to the application process. Publications such as Medical School Admission Requirements and Admission Requirements of American Dental Schools provide profile information on a school-by-school basis regarding admitted students. Students must realize that admission to professional school is highly competitive and thus uncertain—nothing assures admission.

General Admissions Requirements for Majors in Pre-Medicine, Pre-Dentistry or Pre-Veterinary Medicine

In order to complete degree requirements in four years and be prepared for professional school admission tests at the end of three, it is essential that students are enrolled in college-level chemistry and biology courses at the inception of their pre-professional curriculum. Thus preparation at the high school level should include one year each of biology, chemistry and physics as well as three or four years each of English and mathematics (through pre-calculus). Students transferring from other institutions including community colleges should consult with Eastern’s Admissions Office for information regarding course equivalencies. Students are encouraged to contact Eastern’s pre-professional advisors prior to enrollment.

See the Department of Biology or Chemistry/Biochemistry sections of this catalog for curriculum descriptions.

Pre-Engineering

Eastern Washington University offers students the opportunity to earn substantial amounts of coursework toward the requirements of a number of specific professions. Although the following Pre-Professional programs have been offered for several years by EWU, this listing is not exclusive; students who are interested in a profession which is not represented (below) are encouraged to contact the Office of General Undergraduate Academic Advising for assistance in identifying departments or programs which can offer coursework and advice as regards alternative Pre-Professional studies.

509.359.2447

Pharmacy occupies both a unique and varied position within the health sciences. Undergraduate pharmacy education is largely founded in the biological and chemical sciences and is integrated with coursework in the humanities and social sciences. The curriculum of a school of pharmacy is designed to prepare graduates for a variety of professional careers. These include the practice of community retail and hospital pharmacy, clinical pharmacy, research or sales in the pharmaceutical industry and regulatory and administrative positions at either the state or federal level. Traditionally the pharmacist has been among the most accessible of the health-care team, serving as the first source of advice and assistance for common medical disorders. At present, due to an increased clinical emphasis in pharmacy education, pharmacists are more frequently involved in a direct, patient-oriented practice that includes responsibilities such as selecting and dispensing drug products, monitoring drug interactions and counseling patients.

**Degree Information for Pharmacy**

Most schools of pharmacy offer only one degree in pharmacy: the Doctor of Pharmacy (Pharm. D.). The Pharm. D. degree qualifies the student to take the State Board of Pharmacy Licensing Examination, a requirement for the practice of pharmacy in any state. The academic program leading to the Pharm. D. degree is divided in two parts. The first, termed the pre-professional program provides coursework in the basic sciences, mathematics, English, humanities and social sciences. The second, termed the professional program (four years) provides academic exposure to the practice of pharmacy and includes coursework in areas such as biochemistry, medicinal chemistry, pharmacology, anatomy, physiology, dispensing, law, therapeutics, pharmacokinetics and biostatistics. In addition, clerkships in community and clinical settings are required. Students should contact pharmacy schools of interest to determine specific pre-professional course requirements, and should also contact EWU pre-pharmacy advisors.

**Admissions Requirements/Preparation**

Due to the time requirement necessary for completion of the Pharm. D. degree and substantial prerequisites for courses in the professional portion of the program, students should be prepared to begin college level chemistry and biology at the inception of their pre-professional curriculum. Thus students interested in pre-pharmacy should complete one year of both high school chemistry and biology, as well as mathematics through pre-calculus prior to enrollment at EWU. Students transferring from other institutions, including community colleges, should consult with the Admissions Office for information regarding course equivalencies. Students are encouraged to contact Eastern’s pre-pharmacy advisors prior to enrollment or early in their academic program.

Admission to a school of pharmacy is highly competitive. Application to a school is normally initiated one year prior to transfer and may include application to both the university and the school. In addition to completion of pre-professional course requirements with a satisfactory GPA, the school will likely require a personal interview and/or successful completion of the Pharmacy College Admission Test (PCAT), a nationally administered evaluative test.

**Pre-Veterinary Medicine**

Eastern Washington University offers students the opportunity to earn substantial amounts of coursework toward the requirements of a number of specific professions. Although the following Pre-Professional programs have been offered for several years by EWU, this listing is not exclusive; students who are interested in a profession which is not represented (below) are encouraged to contact the Office of General Undergraduate Academic Advising for assistance in identifying departments or programs which can offer coursework and advice as regards alternative Pre-Professional studies.

- Pre-Communication Disorders (p. 253)
- Pre-Dentistry and Pre-Medicine (p. 308)
- Pre-Engineering (p. 308)
- Pre-Law (p. 363)
- Pre-Pharmacy (p. 309)
- Pre-Veterinary Medicine (p. 309)

**Pre-Veterinary Medicine**

College of Science, Health & Engineering
Department of Chemistry / Biochemistry

Generally, students will apply to a Veterinary Medicine College for their professional training and will thus tailor their programs accordingly. We strongly recommend that students planning a career in veterinary
medicine contact the school(s) of their choice to learn their most current admission requirements. Contacting the program advisor is strongly advised.

**General Admissions Requirements for Pre-Veterinary Medicine**

Applicants are now required to take the General Aptitude Test of the Graduate Record Examination; scores will be included in the assessment of scholastic achievement. The last date to register for this exam is late in September. A minimum of 300 hours of practical experience, under the supervision of a graduate veterinarian, is an essential requirement in the selection process for most colleges.

See the Department of Biology section of this catalog.
COLLEGE OF SOCIAL & BEHAVIORAL SCIENCES AND SOCIAL WORK

Addiction Studies
Grace Creasman, Director
668 N. Riverpoint Blvd. 239
509.828.1437
Jenna Redhawk, Program Coordinator
509.828.1436

Faculty
Grace Creasman, Hayley N. Lake, Allison R. Metzler.

Undergraduate Degrees
Bachelor of Arts (BA)
  • Interdisciplinary Studies: Addiction Studies (p. 314)
Undergraduate Certificates
  • Addiction Studies Suicide Assessment, Treatment and Management Certificate (p. 313)
Undergraduate Minors
  • Addiction Counseling and Prevention Minor (p. 313)

Undergraduate Program
Addiction Studies (ADST) is an approved education provider with NAADAC, The Association for Addiction Professionals. ADST provides university-level education valuable for students in a variety of disciplines such as health education, criminal justice, social work, education, psychology, and other fields of study to enhance the effectiveness of their careers. ADST courses expose students to the multiple demands of working in a treatment agency that can be transferred to other work environments. Employers are especially eager to hire students with a foundation in Addiction Studies coursework as part of their major program.

The main focus of our Interdisciplinary Bachelor of Arts degree is to provide students the educational requirements to prepare them for Washington state certification as Chemical Dependency Professionals. Students who complete all state required courses for certification are eligible to take the NAADAC Exam before completing other state requirements.

Mission Statement
  • Addiction Studies fosters the concept of Transformative Learning following the basic tenet: you cannot change anyone but yourself.
  • Addiction Studies strives to provide opportunities for students to become aware and critical of their own and others’ assumptions and to recognize frames of reference using their sociological imaginations to redefine problems from a different perspective.
  • As we change the way we react and behave in our environments, others around us may also be transformed, thereby enhancing community consciousness.

General Admission Requirements for Addiction Studies
Undergraduate students interested in completing one of our program options can schedule a meeting (either via email or phone) with the director of Addiction Studies. Transfer students from another addiction/chemical dependency program will want to contact the director to evaluate previous coursework for inclusion in the ADST program.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Graduate Certificates
  • Addiction Studies (p. 313)

The Addiction Studies Graduate Certificate is designed for persons who have completed a bachelor’s or master’s degree with a background in social work or a related field who are interested in obtaining coursework leading to certification as a Chemical Dependency Professional in Washington state.

Students without a background in social work, or related field, may need to complete additional coursework to qualify for Washington state certification. State certification as a Chemical Dependency Professional in Washington also requires: 1500 hours in a state approved treatment agency and passing the NAADAC exam. After completing all courses for state certification students are eligible to take the NAADAC exam. Contact ADST for more information.

Students from other states may need to check with their local certification boards to be sure this program will meet their state requirements.

In an effort to accommodate students from across Washington state or other states all courses are taught online. Addiction Studies faculty and staff are available for personal academic advising for prospective and current student needs.

A practicum option is available for students but is not required for the certificate.

Optional Practicum
ADST 595
ADST 695

Students who are not currently working in a treatment agency may benefit from the practicum experience. Practicum hours may count toward Washington state certification required hours.

Admission Requirements
Completion of a bachelor’s or master’s degree with a cumulative GPA ≥3.0.

Prerequisite
Students pursuing Washington state certification as Chemical Dependency Professionals may need to take additional coursework to qualify. Washington state requires students to have 45 quarter or 90 semester credits in addiction related coursework to cover required competencies. ADST provides the bulk of those competencies in the Graduate Certificate as many times students have taken other courses to cover the additional requirements.

Additional requirements necessary for state certification as a Chemical Dependency Professional: hours in a state approved treatment agency (1500 for state certification, 2000 for BA degree), Group Counseling, Counseling Theories and HIV/AIDS Brief Risk Intervention, Passing a National Examination NAADAC Level I or II or the IC&RC
Additional requirements include: ADST 303, ADST 440, ADST 502, coursework in Human Development

Note: student transcripts are evaluated to determine if these additional course competencies are covered in previous coursework.

Program Requirements
Meet Graduate Studies admission requirements (http://www.ewu.edu/Grad/Application-Procedures), consult with ADST director or advisor to discuss program requirements, contact Addiction Studies (http://www.ewu.edu/adst) at 509.828.1436 for further information.

Addiction Counseling and Prevention, Minor
Completion of the ADST Minor is geared toward preparing students for work in both the addiction treatment and prevention arenas.

Required Courses
ADST 300  SURVEY OF ALCOHOL/DRUG PROBLEMS  4
ADST 302  COUNSELING THEORIES FOR THE ADDICTION PROFESSIONAL  4
ADST 303  HIV/AIDS AND ADDICTION TREATMENT  2
ADST 410  COMMUNITY PREVENTION METHODS  4
ADST 412  PHYSIOLOGY AND PHARMACOLOGY OF ADDICTIONS  4
ADST 420  ALCOHOL/DRUG CASE MANAGEMENT  4
ADST 430  ADDICTION TREATMENT WITH FAMILIES  4
ADST 440  ALCOHOL/DRUG GROUP COUNSELING  3

Practicum 1
ADST 350  ADDICTION STUDIES PRACTICUM SEMINAR  1
ADST 385  ADDICTION STUDIES PRACTICUM I  2
ADST 485  ADDICTION STUDIES PRACTICUM II  2

Total Credits  34

1 Note: minor option available without practicum for students who do not plan to work in the field of Addiction Treatment or Prevention. Contact program director for approval.

Addiction Studies Graduate Certificate

Required Courses
ADST 501  RELAPSE PREVENTION  2
ADST 504  ADOLESCENT ADDICTION ASSESSMENT AND TREATMENT  4
ADST 512  PHARMACOLOGICAL ACTIONS OF ALCOHOL AND OTHER DRUGS  4
ADST 520  CASE MANAGEMENT  4
ADST 530  ADDICTION TREATMENT WITH FAMILIES AND DIVERSE POPULATIONS  4
ADST 535  LAW AND ETHICS FOR ADDICTION PROFESSIONALS  4
ADST 542  SCREENING AND ASSESSMENT OF CO-OCCURRING DISORDERS  4
ADST 544  TREATING CO-OCCURRING DISORDERS  4

Total Credits  30

Optional Practicum
Students who are not currently working in a treatment agency may benefit from the practicum experience. Practicum hours may count toward Washington state certification required hours.
ADST 595  ALCOHOL/DRUG PRACTICUM I  1-4
ADST 695  ALCOHOL/DRUG PRACTICUM II  1-4

Student Learning Outcomes—students will
• demonstrate the competency-based knowledge and skills required for working in addiction treatment;
• understand the underlying causes of addictions and approaches to intervention, including assessment, treatment, relapse prevention, case management and self-help;
• recognize the potential for substance-use disorders to mimic a variety of medical and mental health conditions and the potential for medical and mental health conditions to co-exist with addiction and substance abuse;
• describe the behavioral, psychological, physical health and social effects of psychoactive substances on the person using and significant others;
• recognize the social, political, economic and cultural context within which addiction and substance abuse exist, including risk and resiliency factors that characterize individuals and groups in their living environments.

Addiction Studies Suicide Assessment, Treatment and Management Certificate
This certificate enhances development and promotion of effective clinical and professional practice of assessment, treatment and management of suicidal behaviors. Courses provide an overview of the addiction process and issues related to suicide and mental health and explores the prevention public health model.

Required Courses
ADST 300  SURVEY OF ALCOHOL/DRUG PROBLEMS  4
ADST 480  WHERE SUICIDE AND MENTAL HEALTH MEET  4
ADST 482  SUICIDE ASSESSMENT, TREATMENT AND MANAGEMENT  4
ADST 484  SUICIDE PREVENTION  3

Total Credits  15

Student Learning Outcomes—students will
• compare and contrast the different models of addiction and categories of drugs of abuse to understand the cycle of addiction and addictive drugs that increase use;
• identify factors related to the basic knowledge of the fundamental relationship between substance use disorders, mental health and suicide;
• demonstrate proficiency in assessing for suicide potential using an approved risk assessment tool;
Interdisciplinary Studies: Addiction Studies, Bachelor of Arts (BA)

This program provides students with the coursework necessary to become certified as a Chemical Dependency Professional in the state of Washington.

Notes:
- two years of a single high school foreign language or one year of a single college level foreign language is required;
- see Interdisciplinary Studies for complete list of courses or contact Addiction Studies for more information.

Additional required upper division credits in a single complementary subject area.

One course each in Abnormal Psychology and Human Development are also required for state certification.

Additional Requirement for an Interdisciplinary Studies Bachelor of Arts is a Senior Capstone approved by program director.

Total Credits 67

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
- knowledge to understand addictions and approaches to intervention, including assessment, treatment, relapse prevention, and case management;
- individual and group counseling skills and techniques;
- the tools to explore specific needs of individuals and groups including, women, youth, the elderly, adult children of alcoholics, people with concurrent disorders or other disabilities and people with process addictions.
Africana Education Program
Scott Finnie, Program Director
204 Monroe Hall
509.359.6150

Faculty
Scott M. Finnie, Okera Nsobmi, Angela R. Schwendiman.

Undergraduate Degrees
Bachelor of Arts (BA)
• Race and Culture Studies Major (See Race and Culture Studies (p. 374))

Undergraduate Minors
• Africana Studies (p. 315)
• Race and Culture Studies (See Race and Culture Studies (p. 374))

Undergraduate Program
The primary mission of Africana Studies is to help broaden student perspectives through a multidisciplinary curriculum that explores the experiences, contributions and accomplishments of African Americans and other peoples of African descent; and, to assist in the development of culturally competent students for a broad range of academic and professional careers.

Africana Studies courses are designed to provide understanding and appreciation of the African Diaspora both as it has unfolded over time and as it is currently manifested. As part of its founding mission, Africana Studies also provides culturally-centered programming, academic support, and community outreach initiatives. These include community non-paid internships, textbook support, academic advising, peer mentoring, tutoring services, scholarships and scholarship information.

The Africana Studies Program cross-lists with some courses offered through other EWU colleges.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Africana Studies, Minor
The program offers a minor in Africana Studies. Students gain an understanding of the African America, Caribbean and African experiences from ancient Africa to present-day. Africana Studies benefits graduates planning careers in professions where multicultural public contact is extensive, such as education, counseling, social services, medicine, government and many other fields that require diverse perspectives. Students considering this minor should contact the director of Africana Studies.

Undergraduate Minors
- Aging Studies (Interdisciplinary), Minor (p. 316)

Undergraduate Program
The Center for Studies in Aging, administratively located within the College of Social & Behavioral Sciences and Social Work, serves as the coordinating entity for the university's multidisciplinary aging studies minor. This program draws upon the university's existing resources in such fields as social work, sociology, biology, psychology, nursing, nutrition and dietetics, health sciences, recreation and leisure services, physical education, economics and various ethnic studies programs. The program is designed to prepare students for careers in the development, management and provision of services to older persons. Such careers include: management of public and private agencies serving older persons, administration of residential care facilities for the elderly and the management and direction of social, leisure and health services to older persons.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Undergraduate Minors
- Indian Studies (p. 317)
- Race and Culture Studies (See Race and Culture Studies (p. 374))

Undergraduate Programs

The American Indian Studies Program (IDST) consists of

1. Academic Affairs,
2. Student Services and
3. Tribal Organization/Agency Liaison components.

The Academic Affairs function is fulfilled by a minor in Indian Studies and service course offerings in other professional disciplines. The IDST curriculum is designed to develop the cultural and civic co-competencies of students in preparation for professional employment by complementing their learning experiences in an interdisciplinary learning environment at EWU. Indigenous intellectual traditions constitute the philosophy of education for IDST. The student services function is fulfilled by a program counselor/recruiter who provides services in student recruitment, admissions, financial aid, academic advising, employment, housing, tutoring, counseling and career development. The program staff also serves as advisors to the Native American Student Association. The tribal organization/agency function is fulfilled through formal and informal working relationships with regional tribal governments, education organizations and social service agencies.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Undergraduate Degrees

Bachelor of Arts (BA)
- Anthropology (p. 318)

Undergraduate Minors
- Anthropology (p. 318)

Undergraduate Programs

The Department of Geography and Anthropology offers both a major and a minor in anthropology. Anthropology offers students the opportunity to broaden their exposure to peoples and cultures of the world, both now and in the past. The four-field approach considers the biological, cultural, prehistoric/historic and linguistic aspects of the human condition. Specifically, the Bachelor of Arts degree in Anthropology is designed to meet the needs of students who want to:

1. broaden their undergraduate exposure to other peoples and cultures of the world as a part of their general education;
2. prepare for graduate studies in Anthropology; or
3. undertake an undergraduate program leading to work in such fields as social work, law and forensics, as well as business and other occupations interacting with ethnically diverse populations or international agencies and companies.

The department also has a research unit, Archaeological and Historical Services, where students can volunteer and some internships may be arranged both with AHS and other entities. The department has a number of physical facilities available for student use, including a physical anthropology laboratory, a cartography laboratory, a GIS laboratory and a map library.

Optional Requirements for Anthropology

Anthropology students who plan to become candidates for advanced degrees are advised to complete two years of a foreign language and a course in statistics.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Anthropology Major, Bachelor of Arts (BA)

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required for this major;
- the Anthropology major does not require a minor.

Assessment

ANTH 493 PORTFOLIO ASSESSMENT 1

Electives - choose one of the following 25-30

A. Traditional four-field emphasis in Anthropology: choose an additional 30 credits from any courses with an ANTH prefix.
B. A certificate program: select one of the focused, interdisciplinary certificates approved for the ANTH major (consult department for list) 25-30 credits.
C. Specialization focus: under certain circumstances the student majoring in anthropology, in consultation with the advisor and chair, may design a set of 30 credits of electives that best prepares students for a speciality in anthropology they wish to pursue.

Total Credits 68-75

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- demonstrate basic knowledge of the four anthropological sub disciplines: cultural anthropology, archaeology, linguistic anthropology and physical anthropology;
- demonstrate basic knowledge of the history of anthropology;
- demonstrate basic knowledge of anthropological theory;
- demonstrate critical reasoning required to use the knowledge of anthropology s/he has learned;
- demonstrate communication skills required to use the knowledge of anthropology s/he has learned.

Chicano Education

Elisa Facio, Program Director
203 Monroe
509.359.2404

Faculty
Norma Cardenas, Elisa Facio, Martin M. Garcia.

Undergraduate Program

The Chicana/Chicano Education Program (CEP) employs a dual mission at Eastern Washington University (EWU). The program’s first mission is to significantly contribute toward enhancing opportunities for the participation of Chicano and Latino students in higher education. This mission is achieved by vigorously recruiting Chicano and Latino students, and providing the essential support needed for experiencing a positive and successful academic career at Eastern Washington University. A parallel CEP mission is augmenting EWU’s goal in addressing diversity by providing all students, regardless of ethnicity, with a comprehensive and holistic understanding and appreciation of Chicano and Latino communities. Furthermore, CEP is committed to enacting initiatives that sustains the Program’s dual mission. The Chicana/Chicano Education Program is therefore structurally divided into three distinct program components.

Recruitment

The Chicana/Chicano Education Program’s student recruitment efforts involve various activities aimed at encouraging Chicano and Latino students to pursue educational opportunities at EWU. Specific recruitment activities include visiting high schools and community colleges; staging university based student visitations; participating in educational and community career fairs; utilizing Spanish media (radio, television and newspapers) to disseminate information about educational opportunities at EWU, networking with Chicano/Latino community organizations and other recruitment-focused initiatives.

Support Services

The Chicana/Chicano Education Program also provides a variety of academic and non-academic support services for students. Such services include academic advising, scholarship information and scholarships, mentor relationships, culturally based initiatives, linkages for tutoring needs, a college orientation class and other related student support services. More specifically, CEP assists student transition into the university by advocating on the students’ behalf with other university departments and offices (i.e., Admissions Office, Financial Aid, Housing and Residential Life). Additionally, CEP assists students in becoming familiar with university regulations and practices.

The Chicana/Chicano Education Program also houses the CAMP program (College Assistance Migrant Program), which is designed to recruit and retain migrant students during their first year of college at EWU. The CAMP program provides an array of comprehensive and essential academic support services and financial assistance for CAMP student participants.

Chicano Studies

CEP offers a Chicana/Chicano Studies academic minor designed to provide all students, regardless of ethnicity, a comprehensive, interdisciplinary, and critical understanding and appreciation of Chicano and Latino communities. CEP focuses primarily on Chicano and Latino historical experiences of colonization and neo-colonization, economic and cultural contributions to US society, and historical and contemporary struggles, movements, and strategies of survival.

CEP’s Chicana/Chicano Studies offerings include lower and upper division coursework. The Chicana/Chicano Studies minor provides students with an inclusive and interdisciplinary understanding of the Chicano and Latino experience in the U.S. Specifically, the minor prepares students for the rapidly changing demographic trends in the U.S. and provides critical knowledge and skills necessary to contribute to a racially and culturally diverse society. In tandem with this approach, CEP offers a rigorous academic program of study that prepares students for graduate and professional schools, the work force, and employment in community based organizations or the non-profit industrial complex. While the minor is especially suited for those students applying to graduate school, teaching in K-12, educational administration including counseling psychology, social services positions, business, educational, and community organizing, the minor is appropriate for all major fields of study given the discipline’s interdisciplinary foundation. Chicanos and Latinos are now the largest racial ethnic group in the nation, and the Chicana/Chicano Studies minor will provide all students with an appreciation of the history, political, social, and cultural realities of Chicanos and Latinos in contemporary American society.

Please refer to the required courses and course descriptions section for additional information about CEP’s Chicana/Chicano Studies curriculum.

Other CEP Activities

CEP is committed to networking and establishing contacts with all communities throughout the state of Washington with a particular focus on educational related issues, initiatives, and policies. CEP’s outreach efforts include public seminars, lectures and cultural and art exhibitions. The program also publishes and disseminates throughout the US an electronic quarterly newsletter, Q-VO, which informs students and the community about CEP activities. On a national level, CEP actively participates with the National Association for Chicana and Chicano Studies, a professional academic association, which promotes research and teaching relevant to the Chicana/Chicano community.

Required courses in the following program of study may have prerequisites. Reference the course description section for clarification.

Chicano-Latino Studies, Minor

The minor in Chicano and Latino Studies will provide all students regardless of ethnicity with a comprehensive and interdisciplinary understanding of Chicano and Latino communities through its Chicana/Chicano Studies course offerings. For example, lower division courses
such as Introduction to Chicana/Chicano Culture, Latinas/Latinos in Contemporary American Society and Chicana/Chicano History encourage students to develop valid concepts and generalizations regarding Chicano and Latino life conditions in the U.S. Upper division courses expand on aspects of Chicano and Latino experiences. Students are expected to understand how the intersectionality of class, race, gender and sexuality shape and/or influence Chicano/Latino communities. These courses include Chicano/Latino Politics in America, Survey of Chicana/Chicano Literature, Latina/Latino Communities in the United States, and Field Research in Chicano and Latino Studies. The minor will enhance the academic preparation of students planning to pursue graduate studies, professional school, teaching from elementary to post-secondary levels, as educational counselors and administrators, social service agents, and occupations in the non-profit sector.

This minor does not meet a state of Washington endorsement.

**Student Learning Outcomes—students will**

- effectively demonstrate competence in oral, written and/or visual media in presenting research findings;
- demonstrate competence with analyzing contemporary and global issues and how they affect the Chicana/o experience;
- demonstrate an understanding of Chicana/o peoples’ diversity as it pertains to race/ethnicity, gender, sexuality, class, immigrant status, age, region and educational background;
- demonstrate and articulate how Chicano Studies’ training and experience can be applied to various job opportunities;
- demonstrate and articulate an understanding of Chicana and Chicano Studies as an interdisciplinary field of inquiry
- exercise critical, interdisciplinary thinking in order to adequately problem-solve;
- demonstrate an understanding of the role that activism and struggle have and continue to play in building a Chicana/o consciousness and ideologies of empowerment and transformative social change.
Children's Studies

Deanna Trella, Program (http://www.ewu.edu/csbssw/programs/childrens-studies) Director
311 T Patterson Hall
509.359.4828

Undergraduate Degrees

Bachelor of Arts (BA)

- Children's Studies - Research in Children's Studies Option (p. 323)
- Children's Studies - Programming in Children's Studies Option (p. 322)
- Children's Studies - Early Childhood through Children's Studies Option (p. 322)

Undergraduate Programs

The Interdisciplinary Children's Studies majors provide students a strong holistic background in the study of children (birth to adolescence) in a variety of social contexts. Theory and practice from the disciplines of Sociology, Psychology and Education form the basis for this integrated curriculum. The BA Options A, B and C provide an opportunity for all students to develop a foundational and global perspective of children and childhood. Included in the program requirements is the course SOCI 101, which must be taken as a prerequisite to the sociology courses found within the Children's Studies Major. This course may be used to fulfill the requirements for one General Education Course Requirement (gecr) but may not be counted twice toward the 180 credits required to graduate. In addition, EDUC 325, which makes up part of the Children's Studies core, may be used to fulfill the requirement for the Culture and Gender Diversity requirement.

Children's Studies Major with Early Childhood through Children's Studies Option, Bachelor of Arts (BA)

The Early Childhood through Children's Studies option allows students to earn a Bachelor of Arts degree in Children's Studies with a focus on the development, learning and environments of young children.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Student Learning Outcomes—students will

- demonstrate knowledge in addressing children’s lives and experiences from a variety of disciplines;
- demonstrate an understanding of children’s diversity;
- critically evaluate a variety of approaches in working with children and reflect on their own practices and interactions with children;
- design curricula that addresses children's individuality in different types of interactions and contexts;
- demonstrate effective practices in working with children and child service organizations, which include knowledge of content area, problem solving, use of technology, opportunity for choice, motivation, collaboration, and respect for diversity;
- communicate effectively with all constituencies, including children, parents, colleagues, and community members; and demonstrate professional leadership in the field.

Children's Studies Major with Programming in Children's Studies Option, Bachelor of Arts (BA)

The Programming in Children's Studies option allows students to develop an enhanced and broadened perspective about children so they can have the flexibility to work with children in social service agencies and other child focused programs.
Required Core Courses

Undergraduate Certificates
- Leadership (p. 330)

Undergraduate Programs
CMST faculty designed this degree to offer you an exciting and fulfilling educational experience while simultaneously preparing you for a changing world.

The Bachelor of Arts Communication Studies offers you two options:
1. Communication Studies and

Each option provides you with an introduction to concepts in communication and the social sciences. These degrees are similar with the exception of the elective component. The Public Relations option requires 66 credits for completion and has no required minor. The general Communication Studies option requires 59 credits for completion and requires a minor.

For the BA Communication Studies, you begin with two general introductory courses, CMST 207 and CMST 208. These are followed by CMST 309. Another required class is CSBS 310 which introduces general social science concepts and methods.

As you progress in your education, you will choose one course from each of the emphasis areas of communication: Rhetorical and Cultural Studies, Organizational and Leadership Studies and Language and Social Interaction Studies. In addition, if you choose the Communication Studies option (#1 below), you will choose a minimum of 14 elective credits. If you choose the Communication Studies in Public Relations option (#2 below), instead of electives you will take JRNM 332, JRNM 451, JRNM 452 and JRNM 453 and either DESN 360 or DESN 368. Either BA option in Communication Studies culminates in a senior capstone course which allows you to synthesize your knowledge and skills.

All students are welcome to apply for a major in Communication Studies.

Requirements for graduation from Communication Studies are:
1. two years of one foreign language at the high school level or one year of one foreign language at the college level;
2. a minimum cumulative GPA ≥2.0 by graduation.
   - For transfer students, the Department of Communication Studies accepts up to 25 transfer credits, from comparable courses, toward our BA.
   - Students are advised that the university GER requirements for Gender and Cultural Diversity and International Studies require additional courses that are not required in the degree.
   - CMST 200 cannot be taken for credit toward the majors.
   - The program has two degree options in the BA: Communication Studies and Communication Studies in Public Relations.

Graduate Degrees

Master of Science (MS)
- Communication Studies with Organizational Communication Focus (p. 328)
- Communication Studies with Technological Communication Focus (p. 328)
- Communication Studies with Instructional Communication Focus (p. 327)
- Communication Studies with Cultural Communication Focus (p. 326)

Galina Sinekopova, Director
229 Communications Bldg.
509.359.2865

The Department of Communication Studies administers the Master of Science in Communications and cooperates in the Master of Arts in College Instruction and in individualized interdisciplinary programs. Students interested in post-secondary teaching should refer to the College Instruction section in this catalog. The MS in Communications program is also described below. Proposed individualized interdisciplinary programs should be developed in consultation with a Communication Studies graduate advisor 509.359.4947.

The Master of Science in Communications Program is an interdisciplinary professional program. It addresses the growing need for theory-grounded communication professionals in business, government and the non-profit sector, including: public relations practitioners, advertising writers, educators, graphic designers, consultants, training and development professionals, media policy experts, print and electronic journalists—and indeed anyone who must know how to create, manage and assess communication initiatives in a global environment. The MSC program offers students a strong foundation in communication theory and methodology and encourages application in such emphasis areas as organizational, technological, instructional and cultural communication.

The program is designed for career-oriented individuals who want to advance in their chosen fields or to move from their undergraduate programs to the competitive job markets. The MSC program’s rigorous...
coverage of communication theory and methodology also provides a
strong foundation for those intending to pursue doctoral studies.

Applicants are admitted to the program throughout the academic year.
In addition to the general university requirements for admission to
graduate studies, applicants must submit the following directly to the
MSC office: a written essay of no more than 1000 words describing
their background and goals and how the program will help actualize
those goals; résumé; at least two letters of recommendation. The
MSC Director’s recommendation for admission, based on an interview
with the applicant, is required. Applicants must submit a gre general
score; the verbal section score will be given special consideration. If an
undergraduate statistics course is not taken before admission to the
program, it must be taken prior to taking the research methods sequence.
Based on their credentials and entrance requirements, applicants may be
asked to take some classes in addition to the courses in the program in
order to correct deficiencies. At least one year’s successful professional
experience will enhance application.

Interdisciplinary Component
Students will choose a minimum of two courses from at least two
of the following four emphasis areas—organizational, technological,
instructional and cultural communication. One of these two courses must
be the required course in the emphasis area. Suggested course offerings
for each emphasis area are given below. Deviations from the suggested
offerings must be petitioned in writing to and approved by, the graduate
faculty advisor and the MSC Director.

Courses leading to the MS degree in communications are offered by
the following programs:
- Business Administration
- College Instruction
- Communication Studies
- Computer Science
- Psychology
- Education
- Visual Communication
- Design Journalism
- Public Administration
- Rhetoric and Technical Communication

ENGL 573 HISTORY OF RHETORIC
ENGL 575 CONTEMPORARY RHETORICAL THEORIES
SOWK 555 CONFLICT MANAGEMENT
WMST 410 FEMINIST THEORY

Chose one of the following options:

Option A 2-6
The thesis or research project will be selected in consultation with
the student’s faculty advisor. Each student shall complete an oral
examination, which will focus primarily on the master’s thesis or project but which may also include questions to demonstrate competence in all areas included in the program of that student. Students will provide copies of their master’s thesis or project to the oral examination committee at least two weeks in advance of the scheduled oral examination. The oral examination committee will consist of at least two graduate faculty members representing the interdisciplinary content of the student’s program and a third member designated by the Graduate Office. Students who select Option A are strongly encouraged to take CMST 569 Thesis Preparation.
Option B

The written examination is designed to test students’ competence across the breadth of their program. Over the course of 4.5 hours, the student will address questions on theory (1.75 hours), methodology and method (1.75 hours) and one emphasis (1 hour). The student will approach prospective committee members to ensure they are willing to provide examination questions. The MSC Director will provide copies of the student’s written answers to the examination committee at least two weeks in advance of the scheduled oral examination. The written and oral examination committee will consist of four graduate faculty members: two from Communication Studies, one of whom will chair the committee; one from a unit other than Communication Studies that contributes to the MSC; and a faculty member designated by the Graduate Office.

Total Credits 63

Student Learning Outcomes—students will

• deploy various written, oral and electronic media in creating and presenting original work;
• analyze various cultural products through the application of contemporary communications theories and methods.

Communication Studies with Instructional Communication Focus, Master of Science (MS)

Focus: role of communication as developmental phenomenon in any learning environment.

Communication Studies, Bachelor of Arts (BA)

Note: A minor is required for this degree. After your required and minor courses are completed, you may need additional hours to meet the university requirement of 180 hours. You should choose these courses with your needs in mind from either the communication studies offerings or other university offerings. Generally these courses should be 300- and 400-level courses.

Section A—Required Foundation Credits
CMST 201  PUBLIC SPEAKING  5
CMST 208  MASS MEDIA AND THE INFORMATION SOCIETY  5
CMST 309  COMMUNICATION AND INFORMATION  5
CMST 330  INTEGRATED METHODS FOR COMMUNICATION RESEARCH
or CSBS 320  INTRODUCTORY STATISTICS FOR THE SOCIAL SCIENCES
CMST 490  SENIOR CAPSTONE  5
CSBS 310  FOUNDATIONS OF SOCIAL AND BEHAVIORAL SCIENCES THEORY  5

Section B—Required Upper Division Core Credits—choose at least three 400-level CMST classes. Any course in Section B cannot count in Section C. The following classes cannot count in this section: CMST 480, CMST 481, CMST 495, CMST 499 or CMST 490.

Section C—Electives—choose credits from any CMST or from the JRNM Public Relations sequence, JRNM 451, JRNM 452 and JRNM 453 or CSBS 320 if not taken to satisfy foundation credit.
For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• demonstrate an understanding of communications combined with skills in using contemporary technologies;
• present material in written, oral and multi-media formats;
• participate in community activities such as debate, internships or others that demonstrate applications of communications study and training;
• analyze the relationship between politics, economics, experience and communications media in international settings and will understand intercultural bases for communications;
• understand major theoretical positions and implications central to the discipline, additionally, students will demonstrate competencies in at least two research methodologies.

Communication Studies, Minor

Choose courses totaling at least 19 credits from CMST with at least one 5 credit course from the 400 level, excluding CMST 499.

Total Credits

19

Communication in Public Relations Option, Bachelor of Arts (BA)

Students seeking a degree in Communication in Public Relations Option must complete the Foundation and Core Area requirements for the BA in Communications Studies, plus the Public Relations Core requirements.

Leadership Certificate

The purpose of the Leadership Certificate is to educate and empower students to become proactive leaders in our society regardless of chosen profession. The Certificate provides an interdisciplinary course of study with a focus on the theoretical and experiential understanding of leadership. Students will benefit from a broad spectrum of classes that entail a leadership component. Collectively, these courses will provide a rich compilation of perspectives on leadership. Students will also benefit from the thorough examination and critique of their evolving leadership style.

Grade Requirements

Acceptance to the certificate program requires that students have at least a 2.5 cumulative grade point average. Students must maintain a cumulative grade point average in the certificate ≥2.7 with no single course grade <2.5.

Note: some courses on Lists 1 and 2 have prerequisites that are not included in the Leadership Certificate program. Please review the Graduate and Undergraduate Catalog for prerequisite information.

Prerequisites: students must complete the following courses before admission to the certificate program.

Undergraduate Minors
• Criminal Justice (p. 333)

Undergraduate Programs

Within the Bachelor of Arts degree, the Department of Sociology and Justice Studies offers a program in Criminal Justice, blending career education and the liberal arts. Criminal Justice is an integrated major with required coursework in the core disciplines that provide the theoretical and methodological roots of contemporary criminological inquiry as well as applied coursework in Criminal Justice. The program is designed to provide an academic foundation appropriate for an educated citizen as well as particular specializations for career preparation.

The Department of Sociology and Justice Studies believes that a university must educate broadly to enrich both career and life. Accordingly, students in the Criminal Justice program will complete social science foundation courses as well as core disciplinary courses. In order to assist them as they move into a variety of career paths, students must also complete coursework in an approved specialty track.

Note: all 300 and 400 level CRIM courses have a prerequisite of sophomore standing or above.

Recommended (not required) if interest is:

Corrections/Law Enforcement
ADST 300 SURVEY OF ALCOHOL/DRUG PROBLEMS
CRIM 304 FORENSIC INQUIRY
CRIM 307 SPECIAL TOPICS IN CRIMINAL JUSTICE
CRIM 404 FORENSIC IDENTIFICATION
CRIM 460 PENOLOGY
CRIM 468 POLICE SYSTEMS AND PRACTICES
CRIM 495 INTERNSHIP
GEOG 328 GEOGRAPHIC INFO SYSTEMS I
PSYC 425 PSYCHOLOGY AND THE LEGAL SYSTEM

Graduate School
CRIM 302 CRIMINAL JUSTICE SYSTEMS AND DEVELOPMENT
CRIM 416 COMPARATIVE CRIMINAL JUSTICE SYSTEMS

CRIM 420 PEACEMAKING CRIMINOLOGY
CRIM 421 RESTORATIVE JUSTICE
CRIM 495 INTERNSHIP
PSYC 305 CHILD AND ADOLESCENT DEVELOPMENT
SOCI 452 JUVENILE DELINQUENCY
SOCI 455 CRIMINOLOGICAL THEORY

Total Credits 75

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• be able to understand and apply various methodological and theoretical approaches for conducting research and evaluation with regard to criminal justice practices and policies;
• be able to engage in critical inquiry of criminal justice institutions, practices and policies which explores their benefits and consequences for social justice and equity;

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Criminal Justice Major, Bachelor of Arts (BA)

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Required Courses

Introduction
CRIM 300 INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM 5

Foundation Courses
CRIM 330 SOCIAL SCIENCE RESEARCH METHOD 5
or SOCI 357 METHOD FOR SOCIAL RESEARCH
CSBS 320 INTRODUCTORY STATISTICS FOR THE SOCIAL SCIENCES 5
SOCI 301 SURVEY OF CRINOLOGY 5
• demonstrate mastery of theories of criminology and deviance, a strong understanding of the correlates of crime and be able to make clear links between theoretical and applied contexts;
• demonstrate an awareness of the systems, processes and relationships between components which comprise the criminal justice system (courts/law, law enforcement and corrections).

Undergraduate Certificates

• Disability Studies (p. 334)

Undergraduate Program

The Disability Studies Certificate Program is an interdisciplinary program involving multiple academic departments throughout the university. Administratively, it is located in the College of Social & Behavioral Sciences and Social Work drawing students from multiple disciplines from every EWU college. It is offered in both traditional and online educational formats.

Disability Studies is a multidisciplinary field drawing from humanities, liberal arts and the sciences and is taught by faculty from multiple fields and disciplines. The Disability Studies Certificate program, offered at the undergraduate and graduate levels, educates students to develop an understanding of disability, disability culture and people with disabilities as inclusive members of society. The program’s emphasis on universal access complements the university’s mission to prepare its graduates to live and work in a diverse society.

The Disability Studies Certificate program recognizes disability is part of the tapestry of a diverse society. It emphasizes universal access the philosophy that society should be inclusive of people of all diverse backgrounds and traits and that the responsibility for diversity transcends traditional identity based characteristics. Universal Access (UA) embraces an approach that responsible societies do not just accommodate minorities but are constructed; for all people; majority and minority, typical and atypical.

Graduate Certificates

• Disability Studies (p. 334)

Graduate Program

The Interdisciplinary Disability Studies Program encourages people with a minimum of a bachelor’s degree preparation and who are interested in disability, disability culture, and the lived experiences of persons with disabilities to enroll in the graduate courses offered. Post-baccalaureate students and matriculated graduate students are invited to enroll in Disability Studies course that are offered in both traditional and online formats. Non-matriculated students will be required to follow university procedures to enroll in the Certificate Program.

Disability Studies, Certificate

Disability Studies is a 15 credit hour university Certificate Program that approaches disability as diversity and uses universal access as a theme. To receive the certificate, students must successfully complete each of the required courses.

Student Learning Outcomes—students will

• demonstrate knowledge of the perceptions and beliefs about disability throughout history and in contemporary society;
• identify disability culture and recognize the contributions of Disabled persons in society;
• display knowledge of how laws and policies influence the lives of people with disabilities;
• analyze societal representations of defining disability including the moral, medical and social models;
• understand disability as a characteristic in the diverse tapestry of society;
• apply the principles of universal access to disability and to other diverse societal characteristics.

Disability Studies, Graduate Certificate

The Graduate Disability Studies Certificate is a 15 credit hour program, consisting of three courses, including a community-based service learning course.

Faculty

Undergraduate Degrees

Bachelor of Arts (BA)
- Geography (p. 336)

Undergraduate Minors
- Geography (p. 337)

Undergraduate Certificates
- Geographic Information Systems (p. 335)
- Wetlands Science and Management (p. 337)

Undergraduate Programs

The Department of Geography and Anthropology offers courses of study leading to the Bachelor of Arts in Geography. A Minor in Geography is also offered, as well as Certificates in Geographic Information Systems (GIS) and Wetlands Science and Management. The Geography program is designed for students seeking professional careers in environmental fields, GIS, education and graduate study. Typical career fields include computer cartography and GIS, urban and regional planning, community development, environmental analysis, park ranger, intelligence analyst, hydrologist, climatologist, natural resources specialist, demographer, historic preservation specialist and numerous other related environmental fields.

The Department of Geography and Anthropology has a number of physical facilities available for student use in conjunction with coursework. Included are a cartography lab, a map library and a GIS and computer-mapping laboratory.

Admissions Requirements for Geography and Anthropology

Students who plan to become candidates for advanced degrees are advised to complete two years of a foreign language. Also, Geography majors are advised to take at least one course in statistics.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Certificates
- Geographic Information Systems (p. 335)

Geographic Information Systems, Certificate

The Certificate in Geographic Information Systems offers students an intensive, interdisciplinary course of study in the field of Geographic Information Systems (GIS) technology. Candidates must take four required classes and choose three additional classes from a list of options for a total of 24–30 credits. All students study a core of computer mapping and spatial analysis basics and then focus on their own application area (e.g. wildlife biology, wetlands, programming, cartographic design). An internship or similar participation in a ‘real world’ GIS project is a required component of the certificate program. This certificate program is open to all majors and post-degree students. In order to qualify for admission to the GIS Certificate Program, full-time EWU students must hold a GPA ≥3.0 and be entering or past their junior year, or obtain special permission from the certificate program advisor. Post-degree continuing education students who did not graduate from their previous school with at least a GPA >3.0 will be admitted on a probationary basis. A grade ≥3.0 must be earned in each course for it to count toward the Certificate.

Electives

GIS Specialty—choose one
- GEOG 427 DESKTOP MAPPING 3
- or GEOG 499 DIRECTED STUDY

Interdisciplinary—choose one
- GEOG 323 GIS FOR ENVIRONMENTAL SCIENCES (PLAN 496 may substituted for the Interdisciplinary requirement on approval of the GIS Certificate Program advisor.) 3
- or PLAN 496 EXPERIMENTAL COURSE 3

Application Area 3-5

Student selects appropriate (non-GIS) course with approval of certificate advisor, to complement chosen application area focus, e.g. Soils, Wetlands, Visual Basic, Global Issues.

Total Credits 24-30

Student Learning Outcomes—students will

- demonstrate mastery of foundational concepts of geographic information science;
- demonstrate mastery of foundational concepts of social context of geographic information;
- have the ability to critically evaluate quality and accuracy of spatial data;
- show demonstrated proficiency with GIS software;
- have the ability to communicate geographic information through well-designed maps;
- have the ability to work in teams.

Geographic Information Systems, Graduate Certificate

The Graduate Certificate in Geographic Information Systems offers current graduate and post-baccalaureate students an intensive, interdisciplinary course of study in the field of Geographic Information Systems (GIS) technology and theory. All certificate students complete four required courses that introduce GIS concepts and applications, database formats, mapping, and spatial analysis. Based on area of specialization, students then elect to pursue GIS applications in either the environmental sciences or the social sciences. All students are
required to participate in a "real world" GIS project in order to complete the certificate. The graduate certificate is open to all current graduate students and to post-degree continuing education students. No prior background in GIS is required.

Note: Current graduate students in programs other than this certificate program will be required to demonstrate use of GIS analysis in their master's research project. Current post-baccalaureate students will be required to complete an internship with a designated community partner as part of their GEOG 548 course.

**Total Credits**

28

**Student Learning Outcomes—students will**

- demonstrate mastery of foundational concepts of geographic information science;
- demonstrate knowledge of the history of the technologies, methodologies, and philosophies of geographic information science;
- critically evaluate research in the field of geographic information science;
- critically evaluate the quality and accuracy of spatial data;
- demonstrate proficiency with geographic information system software and related programming languages;
- design and implement methods and communicate results using geographic information system software as part of critical spatial analysis research.

**Geography Major, Bachelor of Arts (BA)**

Cooperative studies and programs are coordinated with Environmental Science, Biology, Geology, History, Children’s Studies, International Affairs, and Urban and Regional Planning.

**The Geography program has four major missions:**

1. providing general education courses to enrich the liberal arts offerings in both the sciences and social sciences;
2. offering specialized or more advanced courses to service other programs in the university;
3. providing a solid academic major for students wishing to pursue graduate study or work as a professional; and
4. supporting research, consulting and other services for the region.

**Notes:**

- a minor is strongly recommended for the Geography BA;
- two years of a single high school foreign language or one year of a single college level foreign language is required.

**Elective Concentration: choose one of the following**

20-25

**CSBS Certificate Program**

Students may select one of the approved interdisciplinary certificate programs from the CSBS Certificate Program List, with approval of the Geography Program Director. Additional Geography electives may be required to reach the 20 credit minimum if the approved Certificate is less than 20 credits.

**Geography Graduate School Track**

Students may follow the traditional four field focus (human, physical, regional, technical) that is the expected preparation for graduate school. See full Geography Graduate School Track list below.

**Specialization Track**

Under certain circumstances, students may be allowed to design 20 to 25 credit group of electives that best expose them to the branch of geography they wish to pursue, with approval of the Geography Program Director. Select a minimum 5 credits from each of the following four groups

**Geography Graduate School Track Coursework**

Wetlands Science and Management, Certificate

The Certificate in Wetlands Science and Management provides EWU students with a focused training in the field of Wetland Science. The curriculum encompasses both the physical science that defines wetlands and the social context of wetlands in terms of their functions and value to society. Successful completion of the Wetlands Certificate requires 23 credits of required class work and 8 to 10 credits of electives for a total of 31 to 33 credits. Coursework is interdisciplinary, blending together classes from biology, geography and planning. This certificate program is open to all majors.

Total Credits 31-33

Student Learning Outcomes—students will

- demonstrate mastery of the foundational concepts of wetlands science;
- demonstrate mastery of the foundational concepts of the social context of wetlands;
- be able to identify and analyze wetlands landscapes in a field work setting;
- be able to communicate information about wetlands in written, oral, and mapped forms;
- be able to work in teams.

Undergraduate Programs

George Santayana wrote that “Those who cannot remember the past are condemned to repeat it.” History provides the most useful key of knowledge for unlocking all other realms of human development. It embraces many fields of academic inquiry and uses them to provide a detailed picture of various cultures and their governments, legal systems, social behavior, art, economic systems, literature, religions, medicines, technologies, sports, fashions and a myriad other endeavors. A university-level education would be inconceivable without it, because learning about the past is imperative to understanding the present and preparing for the future. The study of history provides a solid foundation not only for history and social studies education majors but also for careers in law, business, government, international relations, journalism, library services and museums, to name but a few. As peoples of different ethnicities interact with each other more frequently in the 21st century, understanding each others’ past paves the way for harmonious and beneficial cross-cultural relations.

In addition to resources of the university library, students have access to materials at the Northwest Museum of Arts and Culture and the Washington State Archives, Eastern Region. Internships are available at several agencies in the area, such as the Northwest Museum of Arts and Culture, the University Archives and the City/County Historic Preservation Office.

History Degree Descriptions
The History Department offers both a major and a minor for the Bachelor of Arts degrees. History courses also appear in Africana Studies, American Indian Studies, Chicano Studies and Women’s and Gender Studies Programs. The department also offers a Master of Arts degree.

Any student who is considering a major or minor in history is strongly encouraged to consult with an advisor from the Department of History in the early stages of his or her academic study at EWU.

General Degree Completion Requirements
Courses used to fulfill the History Program requirements for the BA (50 and 65 credit options) and the History Minor (18 credits) require a minimum grade ≥2.0 in each course and a minimum GPA ≥2.5 for all such courses.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Program

Michael Conlin (mconlin@ewu.edu), Program Advisor
107 Reid
509.359.7851

The MA program in History is designed to prepare students for pursuits requiring a historical background. Students who are interested in teaching careers, in preparation for doctoral programs and in participation in professional internships such as library, museum or archival work, can design a program to suit their needs.

The Public History MA Concentration at Eastern Washington University prepares students to put history to work in the world. Public historians work in archives, in museums, in local, state and federal government, at historic sites and in private industry. The concentration in Public History is a sequence of courses within the History MA. Public History students will fulfill all the requirements of the History MA, in addition to the required Public History courses. With proper planning, a concentration in Public History should not require any more coursework than a more traditional MA program.

Applicants for the MA program in History should submit:
• an official transcript from an accredited college or university which has awarded the student a baccalaureate degree. At least a (B) ≥3.0 average is normally expected, although most applicants have a higher GPA. Applicants are expected to have a background in history;
• a substantial writing sample reflecting serious academic effort;
• a one-page personal statement on career plans and interest in pursuing graduate studies in history;
• letters of recommendation from two individuals familiar with the applicant’s academic work or other experience relevant to historical training.

Deadlines for admission to the MA program in History
• fall quarter April 15
• winter quarter October 15
• spring quarter February 15

After admission to the graduate program, candidates will complete at least sixty (60) credits of coursework, five (5) to fifteen (15) credit
hours may be HIST 600 or HIST 601. No more than fifteen (15) credits of coursework may be taken at the 400-level. Undergraduate EWU history courses included in a master’s program must be taught by the graduate faculty of the History Department. The student’s program and choice of courses must be approved by the department program advisor. All candidates must take the master’s oral examination. In addition, candidates will either complete a master’s thesis, a research report in lieu of thesis or take written examinations over their two fields, which are explained in the next paragraph. The oral examination and the thesis, research report or written examinations will be completed during the student’s final quarter of graduate study. All courses included in the student’s graduate program must be completed with a grade ≥ 3.0.

Prior to selecting a thesis topic, research report topic or two fields of specialization, graduate students shall acquire appropriate historiographic background by completing HIST 501 and four readings courses, i.e., from HIST 506 to HIST 548.

Notes:
- HIST 501, HIST 550, HIST 590, HIST 598, HIST 599, HIST 600, HIST 601 and HIST 694 are not readings courses;
- Students are also required to complete HIST 550 and HIST 598;
- HIST 550 is a prerequisite for HIST 598. HIST 550 and HIST 598 must be completed before a student can be advanced to candidacy;
- only students who are passed to candidacy can take HIST 600 or HIST 601.

Further specialization for the master’s degree includes the preparation of one of the following:
- two fields (normally selected from two of the readings courses) plus an additional ten credits of HIST 599 or other approved coursework or a thesis, or research report;
- special professional internship programs in library, museum and archival work are available. These must be arranged with the department and have graduate committee approval. Public history students are required to fulfill all of the requirements of the MA described above.

A research report may be substituted for the thesis requirement. Students interested in the public history field should contact the graduate program advisor as early as possible.

Grade Requirements
Students who receive a grade of <3.0 more than once will be dropped from the History MA program.

History Major, Bachelor of Arts (BA)

Students may choose the 50- or the 65-credit major.

The 50-credit History major requires the completion of a minor or certificate approved by a history advisor.

Notes:
- two years of a single high school foreign language or one year of a single college level foreign language is required; completion of two or more years of a college-level foreign language is strongly recommended;
- students must complete at least 25 credits of this major at Eastern Washington University;
- must include 35 upper-division credits in the total.

The 65-credit major does not require a minor.

Notes:

- two years of a single high school foreign language or one year of a single college level foreign language is required; completion of two or more years of a college-level foreign language is strongly recommended;
- students must complete at least 25 credits of this major at Eastern Washington University.

Required Introductory Surveys—choose two from the following

### Student Learning Outcomes—students will

- understand historical studies, including historical methodology and selected aspects of modern historiography;
- demonstrate factual and bibliographic mastery and the ability to interpret institutional and cultural change in two historical fields;
- conduct effective library research and write a major graduate research paper;
- think critically about historical information and historical problems.

30

Latin American and Iberian Studies, Certificate

Stretching over twenty countries, from Mexico to Central America and the Caribbean to South America, Latin America is a major world region, neighbor to the United States and increasingly the point of origin for a significant number of Americans. Through growing hemispheric links such as NAFTA, CAFTA and the OAS, Latin America has been and will continue to be a major area of U.S. business, economic and political relations. The Latin American and Iberian Studies Certificate will provide the EWU student, and the Spokane metropolitan area, with the opportunity to gain a highly specialized and integrative knowledge of the internal and international issues related to Latin America and Iberia (Spain and Portugal), by focusing on culture, history, politics and language in a premier public university setting.

Acceptance to the certificate program requires that the student have at least a cumulative GPA ≥3.0 in all courses at EWU and the approval of the certificate coordinator. In no course required for the certificate can the student receive <3.0 and all courses within the certificate must have a cumulative GPA ≥3.3.

All courses for the certificate must be completed at EWU; transfer credits will not be accepted for certificate completion. Completion of this certificate will also satisfy the minor requirement for students completing majors where a minor is required.

Total Credits 35

Student Learning Outcomes—students will

- demonstrate awareness of the historical, social, cultural, geographic and political dynamics of the Latin American and Iberian countries (Latin America, Spain, and Portugal);
- apply normative and empirical tools to the study of Latin American and Iberian political, cultural and governmental realities, both past and present;
- apply knowledge of Latin American and Iberian history to interpret current political, social and cultural dynamics in Latin America and Iberia (Spain and Portugal) and in comparison to other world regions;
- acquire basic communication skills in Spanish, French or Portuguese;
- attain advanced understanding of Latin America and Iberia, sufficient to enter graduate studies concerning the region, or a track wherein expertise in Latin America, Spain and/or Portugal is necessary.

Public History, Certificate

Public history describes the many applied history careers outside of secondary and collegiate teaching. Public historians work for museums, historic homes, libraries, archives and state and national parks; additionally, they work for local, state and federal governmental agencies. Public historians may apply their knowledge of the past to film, television or web production; they may work as freelance writers or in cultural resource management. The Public History Certificate will prepare students for these exciting career opportunities with a combination of practical coursework and field experiences.

Acceptance to the certificate program requires that the student have at least a cumulative GPA ≥3.0 and the approval of the certificate coordinator. The student must not earn <3.0 in any course required for the certificate or <3.3 cumulatively for certificate courses. At least 21 credits for the certificate must be completed at EWU.

Note: The Public History Certificate coordinator must approve all elective courses applied to completion of the requirements for the Public History Certificate. Depending on the student’s career goals, interdisciplinary courses applied to the Public History Certificate could focus on grant writing, Geographic Information Systems, web design, local government and history or other relevant topics. Interdisciplinary electives will normally be at the 300- or 400-level; at least 5 Interdisciplinary electives will normally be at the 300- or 400-level; at least 5 credits must be HIST credits that were not applied to the completion of the student’s major requirements or to the Public History Certificate’s required core courses.

Required courses in this program of study may have prerequisites. Reference the course description section for clarification.

Student Learning Outcomes—students will

- demonstrate knowledge of public history practice and techniques;
- communicate effectively with a non-academic or client-based audience;
- demonstrate the ability to present original historical research to diverse audiences;
- demonstrate the ability to learn and communicate in multiple learning environments;
- learn the practice of public history through an applied internship.

Teacher Certification/Add-on Endorsement

For students who currently possess a Washington State Teaching Certificate.
This add-on satisfies the endorsement for grades 5–12.

Note: this add-on endorsement requires a grade ≥2.5 in all coursework done in the add-on at Eastern.

Interdisciplinary Studies

John L. Neace, Senior Director
300 Senior Hall
509.359.6524

Faculty
Varies according to degree program option.

Undergraduate Degrees

Bachelor of Arts (BA)
- Interdisciplinary Studies: Liberal Arts (p. 348)
- Interdisciplinary Studies: Prior Learning (p. 349)
- Interdisciplinary Studies (p. 347)
- Interdisciplinary Studies: Addiction Studies (p. 348)
- Interdisciplinary Studies: Philosophical Studies (p. 348)

Undergraduate Programs
The Interdisciplinary Studies Program offers students degree programs which provide a broad background applicable to a variety of careers. The program has three emphases: liberal arts, prior learning and interdisciplinary studies.

This program is intended to serve:
- students who prefer a broad liberal arts concentration (Liberal Arts);
- students who have acquired substantial specialized training and experience outside the academic classroom (Prior Learning);
- students who wish to complete an interdisciplinary option using two or three academic disciplines (Interdisciplinary).

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Course by Course Evaluation
The Course by Course Evaluation process is available for currently enrolled students, seeking to have their out-of-classroom learning evaluated by an academic department for specific course equivalency. The faculty establishes the evaluation criteria in order to determine the students learning which must be comparable to the content of the Eastern course being challenged. All challenges must be approved by the department chair. For more specific information contact the Department of Interdisciplinary Studies.

Major in Interdisciplinary Studies Leading to a Master of Occupational Therapy (MOT)
The Advanced Standing Master of Occupational Therapy program will allow a student to complete the requirements for an undergraduate degree while enrolled in courses required for the first year of the professional Occupational Therapy program. The student begins the occupational therapy track in the senior year, earns a Bachelor of Arts degree in Interdisciplinary Studies and applies to the Advanced Standing MOT program, which can be completed over the next one and half years. This program will introduce occupational therapy to undergraduate students early in their career development.

Admission to Combined Bachelor's and Master of Occupational Therapy Program
The student first meets with the Admissions Coordinator of the Occupational Therapy Department for review of prerequisites, the course of study and a discussion of occupational therapy as a profession. A student pursuing a BA in Interdisciplinary Studies will be referred to the director of Interdisciplinary Studies for formal application.

Students interested in working toward a combined Bachelor’s and Master of Occupational Therapy should contact Carrie Walker, Admissions Coordinator, Department of Occupational Therapy, Eastern Washington University, 310 N. Riverpoint Blvd., Box R, Spokane WA 99202-1675 or call 509.368.6560.

Students interested in the Bachelor of Arts in Interdisciplinary Studies major are encouraged to meet with an advisor from the Department of Occupational Therapy during the sophomore year and no later than the spring of the junior year. During the first three years of the Interdisciplinary Studies major with an emphasis in Occupational Therapy, the student develops a course of study to address his or her interests, as well as meet university and interdisciplinary studies' major requirements. Additionally, during this time, the student fulfills the prerequisite requirements for the Advanced Standing MOT.

Students who require advising in the Interdisciplinary Studies major with an emphasis in Occupational Therapy should contact John Neace (jneace@ewu.edu), Director, Interdisciplinary Studies, 300 Senior Hall, Cheney, WA, 99004-2414 or call 509.359.6524.

Admission into the occupational therapy track is offered only one time per year with students beginning the program summer quarter. A group interview is required for admission into the occupational therapy track. The deadline for applications is the January 1st prior to the expected summer quarter admission. The department admission committee will review and evaluate all applicants' admission materials and prerequisites. Check with the department for exact admission deadlines: 509.368.6560.

Occupational Therapy Track Admission Criteria
- Completion of 122 or more undergraduate credits and all general education requirements for EWU.
- Completion of all prerequisite courses for application to the occupational therapy track. All of the prerequisite courses must be completed prior to admission into the occupational therapy track.

Additional Requirements
The admissions process in occupational therapy is highly competitive. The requirements listed below are the minimum acceptable requirements to apply to the program and are not indicative of the competitive range of students generally accepted into the program.

The following are the minimum acceptable requirements:
- minimum cumulative GPA ≥3.0 in the last 60 graded quarter hours;
- minimum cumulative GPA ≥3.0 for all prerequisite courses with no course <2.5.

Students enrolled in the occupational therapy track must complete the schedule of courses in the MOT curriculum toward completion of a BA in Interdisciplinary Studies.

Notes:
- see Occupational Therapy for the list of courses;
- a student may elect to discontinue the occupational therapy track and decide not to pursue the Master of Occupational Therapy.
Interdisciplinary Graduate Programs (http://www.ewu.edu/grad)

Colin Ormsby, Vice Provost for Academic Planning, Graduate Programs, Grants and Institutional Research
206 Showalter Hall
509.359.4217

Interdisciplinary programs using existing offerings from qualified departments may be arranged with the approval of the vice provost for Graduate Education and Research and a committee representing the fields of study involved. This committee, under the vice provost, provides the student with program advice and supervision.

Admission

Students applying for admission to a Master of Arts or Master of Science interdisciplinary degree program must follow the procedures for general admission to Graduate Studies as set forth previously in this catalog.

In addition, admission to an interdisciplinary degree program requires:

- a GPA ≥3.0 for the last 90 graded quarter credits
- an approved program proposal that has signatures of the faculty who have agreed to serve as advisors. The proposal form can be found at the Graduate Studies website.

Program Requirements

- minimum of 50 quarter credits
- no more than 12 credits at the 400 level
- no more than 12 credits of independent study (499 or 599)
- minimum of 20 credits in the major, including either a research project or thesis, and minimum of 15 credits in at least one minor field.

3. submission of the proposal to the vice provost for Graduate Education and Research or designee, listing the courses in the program of study and signed for approval by the department chair in the major field and each minor field (or graduate program director for fields not located within a single department);
4. inclusion in the proposal of a statement written by the student explaining how the proposed combination of courses comprises an interdisciplinary degree program and is not simply a combination of courses from multiple disciplines;
5. inclusion within the program of a project (variable credit) that integrates the various disciplines represented;
6. inclusion in the proposal of a research component.

Approval of the program by the vice provost for Graduate Education and Research or designee shall be forthcoming only after a meeting of the vice provost or designee and the student’s interdisciplinary faculty committee. A purpose of the meeting will be to clarify how the program is interdisciplinary and not simply a combination of courses from multiple disciplines.

The Interdisciplinary Program Review Committee (IPRC), a Committee to the Graduate Affairs Council, serves as the designee for the vice provost responsible for graduate studies and provides oversight and approval for graduate students submitting interdisciplinary program proposals.

The membership of the IPRC shall consist of three graduate faculty members appointed by the Graduate Affairs Council. At least one of the three committee members must be a member of the Graduate Affairs Council.

The IPRC shall

- review interdisciplinary program proposals distributed to them by the Graduate Programs Office;
- meet with the student’s interdisciplinary faculty committee as required above;
- request and review any additional information or materials from the student or the student’s interdisciplinary faculty committee members that is deemed necessary for assessing the general academic rigor of the proposed program of study; and
- notify, in writing, the student, the student’s interdisciplinary faculty committee members, the Graduate Programs Office, the appropriate vice provost, and the Graduate Affairs Council of all Committee decisions regarding interdisciplinary program proposals.

The student’s Interdisciplinary faculty committee will consist of two or three graduate faculty members representing the disciplines with at least 15 credits in the program and will be chaired by a graduate faculty member from one of the fields represented who has the appropriate background to advise the student on the proposed interdisciplinary research. An oral comprehensive examination is required to complete an interdisciplinary graduate degree program.

Interdisciplinary Studies, Bachelor of Arts (BA)

This option is for students who prefer an interdisciplinary option, combining 60 upper division credits from two or three academic departments, programs or certificates. Interdisciplinary Studies students follow the guidance of department chairs to design their courses in an area that an existing major does not accommodate. Pre-approval is required from departments or program directors and the Interdisciplinary Studies director.

Pre-approval is required from departments or program directors and the Interdisciplinary Studies director.

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Required

This option is for students who prefer an interdisciplinary option, combining 60 upper division credits from two or three academic departments, programs or certificates. Interdisciplinary Studies students follow the guidance of department chairs to design their courses in an area that an existing major does not accommodate.

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- be prepared for career mobility and adaptability by selecting the appropriate academic concentration;
• select the program option to craft a degree plan to enhance career goals and objectives.

Interdisciplinary Studies: Addiction Studies, Bachelor of Arts (BA)

Addiction Studies

(ADST) is an approved provider through NAADAC, The Association for Addiction Professionals. The ADST degree option provides students with the educational requirements necessary to become certified as a Chemical Dependency Professional in the state of Washington. Students who complete all state required courses for certification are eligible to take the NAADAC exam before completing other state requirements.

Our courses provide students with a theoretical knowledge base and practical skills for assessing the level of care needed for persons suffering from various addictive behaviors. The addiction field offers an excellent chance for graduates to make a significant impact on people and to help guide them toward healthy life styles.

Courses are prepared to provide students with:
• knowledge to understand addictions and approaches to intervention, including assessment, treatment, relapse prevention, and case management;
• individual and group counseling skills and techniques;
• the tools to explore specific needs of individuals and groups including, women, youth, the elderly, adult children of alcoholics, people with concurrent disorders or other disabilities and people with process addictions.

Program of Study for the Addiction Studies, Bachelor of Arts (p. 314)

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• knowledge to understand addictions and approaches to intervention, including assessment, treatment, relapse prevention, and case management;
• individual and group counseling skills and techniques;
• the tools to explore specific needs of individuals and groups including, women, youth, the elderly, adult children of alcoholics, people with concurrent disorders or other disabilities and people with process addictions.

Notes:
• two years of a single high school foreign language or one year of a single college level foreign language is required;
• these courses must be completed in addition to EWUs GECR requirements;
• please contact the Department of Interdisciplinary Studies.

Required—choose courses from the following areas—must be upper-division

| Humanities | 20 |
| Sciences   | 20 |
| Social Sciences | 20 |
| Total Credits | 60 |

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• be prepared for career mobility and adaptability by selecting the appropriate academic concentration;
• select the program option to craft a degree plan to enhance career goals and objectives.

Interdisciplinary Studies: Philosophical Studies, Bachelor of Arts (BA)

Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Select at least two 400-level philosophy classes 10

Capstone Requirement

All students must complete either ITGS 400 or any Senior Capstone class with their advisor’s approval 4-5

Interdisciplinary Stream Electives

Students must complete at least 26–30 additional upper division credits from the classes designated in their respective stream. Students may count relevant classes not listed in the streams, including transfer credits, with their advisor’s approval. 26-30

Total Credits 60-65

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• critically analyze, using logic and other tools, the consistency and verifiability of their own beliefs and the beliefs of others, as well as engage in reasoned public deliberation challenging those beliefs;
• understand the main doctrines and evaluate the arguments that underpin the ancient, modern, and contemporary periods of thought;
• offer interpretations of the ideas of major philosophers by showing how they relate to perennial philosophical themes such as: visions
of the good life, reality versus appearance, the roles of reason and experience, freedom and morality, etc;

- apply methods for philosophical problem solving by (a) relating theory to practice, (b) evaluating ideas in terms of both generic or universal humanity and perspectival pluralism, and (c) applying normative standards of truth, value and beauty;

- apply philosophical writing styles in writing assignments and research projects that are aimed at extending philosophical inquiry through argumentation and/or comparative studies.

**Interdisciplinary Studies: Prior Learning, Bachelor of Arts (BA)**

This program is designed for the adult who comes to Eastern with professional or paraprofessional preparation and experience.

**Note:**

- two years of a single high school foreign language or one year of a single college level foreign language is required.
- ITDS 300 enables the adult learner to translate experiential learning into elective credit through the development of a portfolio.
- Portfolios are submitted to faculty members who determine the credit award.
- Portfolio assessment does require a fee: please contact the Department of Interdisciplinary Studies for current fee.

**Required**

Students design a 60-credit, upper-division emphasis that meets their specific goals and objectives. Specific courses are not required other than ITDS 300. A student may earn up to 45 elective credits for prior learning experience that can be applied only to the Interdisciplinary Studies degree.

**Total Credits**

60

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- be prepared for career mobility and adaptability by selecting the appropriate academic concentration;
- select the program option to craft a degree plan to enhance career goals and objectives.
International Affairs
Kristin Edquist, Director
233D Patterson Hall
509.359.7460

Faculty
Varies.

Undergraduate Degrees
Bachelor of Arts (BA)
• International Affairs - Global Security Processes Concentration (p. 351)
• International Affairs - Global Socio-Economic Processes Concentration (p. 352)
• International Affairs - Global Public Policy Concentration (p. 350)

Undergraduate Program
The International Affairs (IA) Program, housed in the Political Science & International Studies Department, is designed for students interested in international politics and global languages and cultures. It offers a carefully integrated and relatively flexible interdisciplinary set of courses in the social sciences leading to the degree of Bachelor of Arts in International Affairs. The goal of this major is to provide students with a solid foundation in the liberal arts for employment and/or advanced study in an international field.

The program of study provides a choice of three concentrations: Global Security Processes, Global Socio-Economic Processes or Global Public Policy. These concentrations give students the opportunity to acquire a theoretically and historically grounded understanding of one significant process in which people and countries are currently engaged. IA students learn to consider issues broadly, to see interconnections among geographic regions, and to engage in critical and creative thinking about them. The IA major prepares students for employment, lifelong learning and life enrichment, and fits Eastern Washington University’s larger purpose of providing quality liberal arts education with meaningful career preparation.

All IA majors are strongly encouraged to pursue study abroad as part of their undergraduate education. The IA major culminates in a Senior Capstone seminar, in which students demonstrate their ability to master analytical approaches to the complex process of globalization and to apply those approaches to a specific issue or process related to globalization. This course thus brings to bear their acquired knowledge of world events and their critical thinking skills on an issue, process or region of significance to the particular student.

Students majoring in International Affairs will gain competency in current global relations scholarship and skills in research, writing and oral communication. Students will be prepared to go on to graduate study in a wide array of disciplines such as international studies, development, education, political science or law. They will also be well equipped for career opportunities in the public, private and non-profit sectors.

The International Affairs program, in conjunction with EWU’s chapter of the political science honor society, Pi Sigma Alpha, sponsors lectures, forums and debates on campus which encourage students to consider the integrated character of global and regional political, economic and social issues. IA students regularly participate in these clubs.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

International Affairs Major with a Global Public Policy Concentration, Bachelor of Arts (BA)

Students may choose the 56- or 74-credit major.

Note: the 56-credit major concentration requires the completion of a foreign language minor.

Eastern Washington University

**POLI 493** PORTFOLIO ASSESSMENT 2

**Methods Requirement** 5

- CSBS 310 FOUNDATIONS OF SOCIAL AND BEHAVIORAL SCIENCES THEORY
- or CSBS 320 INTRODUCTORY STATISTICS FOR THE SOCIAL SCIENCES

**Global Public Policy Concentration Electives**—credits must be taken from at least three of the disciplines listed.

- ECON 421 LABOR ECONOMICS
- ECON 450 PUBLIC FINANCE AND PUBLIC POLICY
- ECON 474 INTERNATIONAL FINANCE
- ECON 475 ECONOMIC DEVELOPMENT
- GEOG 450 GLOBAL TRANSPORT DEVELOPMENT
- GEOG 459 POLITICAL GEOGRAPHY
- GEOG 465 URBAN GEOGRAPHY: ORIGINS, FORMS AND FUNCTIONS
- PLAN 261 COMMUNITY DEVELOPMENT
- PLAN 430 ENVIRONMENTAL PLANNING
- PLAN 440 LAND USE PLANNING
- PLAN 442 SUSTAINABLE COMMUNITIES
- PLAN 476 COMPARATIVE URBANIZATION
- POLI 333 PUBLIC MANAGEMENT

Total Credits 74-76

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes**—students will

- apply social science research methods to at least one non-U.S. case study;
- demonstrate analytical and conceptual skills, reading skills, critical thinking and problem solving skills and be able to effectively apply those skill sets to political issues;
- identify and represent accurately the key ideas, people, historical events, social processes and governmental systems associated with various geographic regions around the world;
- apply critical thinking and problem solving skills to political issues and should utilize normative and empirical analysis tools in the study of national and international political realities;
- demonstrate awareness of racial, ethnic, gender and religious dynamics in historic and contemporary political questions;
- demonstrate mastery of and apply accurately key analytic concepts of the social sciences, to cases, states and regions around the world.

Total Credits 74-76

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- apply social science research methods to at least one non-U.S. case study;
- demonstrate analytical and conceptual skills, reading skills, critical thinking and problem solving skills and be able to effectively apply those skill sets to political issues;
- identify and represent accurately the key ideas, people, historical events, social processes and governmental systems associated with various geographic regions around the world;
• apply critical thinking and problem solving skills to political issues and should utilize normative and empirical analysis tools in the study of national and international political realities;
• demonstrate awareness of racial, ethnic, gender and religious dynamics in historic and contemporary political questions;
• demonstrate mastery of and apply accurately key analytic concepts of the social sciences, to cases, states and regions around the world.

Undergraduate Program

The Department of Military Science offers a four-year curriculum in leadership, both theoretical and practical. The program’s purpose is to produce future Officers for the Army, Active Duty, Reserves and National Guard. Students learn the fundamentals of leadership and then progress through increasingly difficult leadership responsibilities in order to improve individual levels of proficiency. The program incorporates many other life skills such as time management, oral and written communication, problem solving, comprehensive fitness, first aid and adventure training.

The Department of Military Science is synonymous with the Army Reserve Officer Training Corps (ROTC) program. The program consists of two types of students - enrolled and contracted. Enrolled students are those that are exploring ROTC and considering the Army as an option after graduation. They can do so without commitment or obligation to the Army. Contracted students are also enrolled, but they have signed a contract to continue in the program and become a commissioned Officer in the United States Army after graduation. Students who wish to contract as a Cadet must meet medical, physical and military screening standards. The program requires class attendance, leadership labs, off-campus training and may include internship opportunities. Both a major and a minor are offered by the department.

ROTC is traditionally a four-year program and consists of two phases: the Basic Course (usually completed during the freshman and sophomore years or obtained through lateral entry credit) and the Advanced Course (usually completed during the junior and senior years). Students with prior service, current members of the Army Reserve or National Guard, and college students who attend a lateral entry summer camp are eligible to waive portions of the lower division courses (Basic Course) and complete the program in as little as two years. Graduate students are also eligible to enroll, participate, and contract in ROTC, with the same opportunities to abbreviate their leader development timeline.

Basic Course

(MS I/MS II) The Basic Course is open to all EWU students interested in basic leadership skills and training without any military obligation. The freshman 100-level courses is 2 credit hours and consists of a one-hour classroom session and a two hour leadership laboratory (three hours weekly). The sophomore 200-level course is 3 credit hours and consists of a two hour classroom session and a two hour leadership laboratory (four hours weekly). The Basic Course focus is on leader development and small group dynamics combined with basic military training which offers students personal challenges and the opportunity to explore ROTC. Development of critical thinking and problem solving skills and improvement of oral and written communication skills in a variety of situations provide students an environment within which to become a better leader and influencer. Between their sophomore and junior year, students may attend a four-week course at Fort Knox, KY to catch up if they have not completed all of the Basic Course requirements. Students are also afforded the opportunity to apply and compete for on-campus ROTC two- and three-year scholarships throughout their time in the Basic Course if they plan on contracting with the U.S. Army as an EWU ROTC Cadet. Interested students DO NOT incur any military obligation by simply applying for a scholarship.

Advanced Course

(Advanced Course) Upon completion of the Basic Course or equivalent, students (Cadets) may be eligible for entrance into the Advanced Course. Eligible students must be selected by the ROTC Cadre prior to enrollment in the Advanced Course. The Advanced Course is a two-year curriculum consisting of classroom instruction, leadership training, physical fitness training, military field exercises and a variety of training opportunities in the Regular Army. The Advanced Course focus is on small unit leader development, problem solving, planning and decision making, and critical and creative thinking, while completing increasingly complex military missions. The junior 300-level courses prepare Cadets to succeed as individuals and as leaders at the squad and platoon level in preparation for summer training and assessment. Junior level students attend a 29-day Cadet Leader Course (CLC) at Fort Knox, Kentucky, usually during the summer between their junior and senior years. While attending CLC, students (Cadets) are paid for their time at the course and for round-trip travel expenses. The senior 400-level courses prepare Cadets to succeed as a junior Army Officer as they plan and lead all ROTC training events for the program. Completion of the Advanced Course qualifies the Cadet to apply and compete for a commission in the United States Army, either on Active Duty, in the Army Reserves or in the Army National Guard.

Financial Assistance

Each contracted Cadet receives a tax-free stipend allowance of $300–$500 a month for up to ten months a year. There are also cooperative programs with the Army Reserves and Army National Guard that could provide additional funds for tuition and fees, plus monthly drill pay and the ROTC stipend for MS II, III and IV students. Students who join the Army Reserves or Army National Guard and finish Basic Training and Advanced Individual Training (AIT) also qualify for the Montgomery GI Bill ($317/month per academic year). The amount of financial assistance available each year changes based on Congressional mandates.

Scholarships

The ROTC program offers two-, three-, and four-year scholarships for eligible students. Every scholarship provides full tuition, $1200 annual allowance for books and class fees and a tax-free stipend of $300 per month for contracted freshmen, $350 per month for sophomores, $450 per month for juniors and $500 per month for seniors during the academic school year.

Four-Year National Scholarship Program

Interested students apply during their senior year of high school at www.goarmy.com/rotc. This process is also open to students enrolled in Running Start. The application deadline for high school seniors is January 10 of each year. Interested applicants DO NOT incur any military obligation by simply applying for a scholarship. Interested students

**Student Learning Outcomes—students will**
- know and apply basic individual and unit military skills and leadership while functioning in a tactical environment as a member of a squad or platoon;
- know and apply time management skills and troop leading procedures to develop and articulate a complete five paragraph Operations Order;
- know and apply a basic understanding of Army operations, training management, safety, risk management, counseling and communications as a member of the Cadet Battalion Chain-of-Command;
- critically analyze the current Operational Environment in which our Armed Forces are deployed to better prepare to serve as a Platoon Leader.

**Military Science, Minor**

**Notes:**
- must meet university requirements in Computer Literacy, English, Mathematics;
- some courses must be repeated.

Undergraduate Degrees
Bachelor of Arts (BA)
- Political Science (p. 360)
- Political Science Pre-Law Option (p. 359)

Undergraduate Minors
- Political Science (p. 359)

Undergraduate Certificates
- Asia Studies (p. 358)
- Public Policy and Administration (p. 361)

Undergraduate Programs
The Department of Political Science & International Studies offer courses focusing largely on the study of political science, a liberal arts discipline which seeks to understand the political condition and potential of humanity. Each of the department's three degree programs is designed to provide the student with a broad understanding of political phenomena suitable to a liberal arts degree. Thus each, regardless of its specific content, requires courses in political philosophy, in American political institutions and processes and in comparative and/or international politics. In addition, the pre-law program is designed to prepare the student for a particular vocational goal. The department’s International Affairs Program provides a more interdisciplinary approach to the study of government and politics. The discipline of Political Science—and therefore the program of the Department of Political Science & International Studies—is strongly committed to a liberal arts orientation. In concert with the rest of the university the department believes also in linking traditional liberal arts preparation with meaningful career preparation through the inclusion of minor and supporting coursework and/or through student involvement in certificate programs in this or other departments. Employment opportunities for graduates are many and varied. A number of those who graduate each year continue their studies in law or other professional and graduate programs. A similar number find employment in the public sector or with domestic or international business firms. Opportunities also exist in party politics, campaign organizations, the military forces or with the communications media.

The department maintains close relations with the programs in Criminal Justice and contains the International Affairs program. In each, selected government courses are required parts of the core curriculum.

Internship and Work-Study Programs for Students
The department maintains a dynamic internship program which provides practical experience with local political and governmental agencies and annually sponsors a winter quarter in Olympia in which selected students intern with the Washington State Legislature. When possible, it is strongly urged that students include an internship as a part of their program.

In addition to external internships, students may gain practical experience through a combination of work/study and internship with a particular faculty member. Students qualifying for such programs assist the professor to whom they are assigned with research work in an area of the faculty member's interest. The department has an active faculty with diverse research interests who have produced books and monographs, presented papers at conventions of national and regional Political Science associations and of other, more specialized scholarly organizations and completed research grants funded by agencies of the government. The opportunity to assist in such work is of value particularly to those students planning to continue their studies, or to work in the public sector in areas necessitating faculty guidance in research techniques.

Pi Sigma Alpha
In the spring of 1982, the Nu Gamma Chapter of Pi Sigma Alpha, the National Political Science Honorary Society, was chartered at Eastern. This student organization serves as a vehicle for recognition of outstanding academic achievement in government and complements the department's participation in the university Honors Program. Pi Sigma Alpha sponsors a number of social and intellectual programs for students and faculty and with its help the department attempts to maintain contact with its graduates to make available to students their experiences and insights into the value of an education in government.

General Admissions Requirements for Political Science & International Studies
Successful completion of ENGL 101 or its equivalent is required of all majors in Political Science & International Studies; successful completion of a 200-level English course is strongly recommended for all majors in government. Course offerings at the 300–400 level are designed to provide maximum flexibility for faculty and students. Prerequisite courses are required for 300- and 400-level courses and students should consult an advisor to ensure that their course selections are appropriate.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Asia Studies, Certificate
Interest in Asia and Asian Studies has increased dramatically in recent years. For some, Asia represents opportunity for business, trade and commercial exchange as one of the new and vast marketplaces of the 21st century. For others, Asia is a place where remarkable expressions of traditional culture such as religion, poetry and art have stayed alive even into the 21st century. Located in the Pacific Northwest, Washington state is a gateway to the East and offers an ideal setting to learn about the interactions between Asia and the rest of the world. This Asia Studies Certificate offers students the opportunity for a highly specialized and integrative look at trans-regional and international issues related to Asia focusing on the culture, history, politics and languages of the region.

Acceptance to the certificate program requires that the student have at least a 3.0 cumulative grade point average in all courses at EWU and the approval of the certificate coordinator. In no course required for the
The certificate can the student receive below a 3.0 and all courses within the certificate must have a 3.3 minimum cumulative grade point average.

All required courses for the certificate other than the language requirement must be completed at EWU. Transfer credits other than language credits will not be accepted for certificate completion.

Completion of this certificate will also satisfy the minor requirement for students completing majors where a minor is required.

### Required Certificate Courses

**Language requirement:** 10 credits of a relevant language (may be met with credits from outside of EWU.)

**Directed Study Assessment**—all students must complete the assessment course

### Student Learning Outcomes—students will

- demonstrate awareness of historical, social, cultural, geographic and political dynamics in Asia and Asian countries;
- apply normative and empirical tools to the study of Asian political, cultural and governmental realities, both past and present;
- apply knowledge of Asian history to interpret current political, social and cultural dynamics in Asia and in comparison to other world regions;
- acquire basic communication skills in at least one Asian language;
- attain advanced understanding of Asia sufficient to enter graduate studies concerning the region, or a career track wherein expertise in Asia is necessary.

### Political Science with Pre-Law Option, Bachelor of Arts (BA)

**Notes:**

- two years of a single high school foreign language or one year of a single college level foreign language is required;
- no substitutions for core courses.

Total Credits 82

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

- demonstrate basic knowledge, skills and values related to various forms and structure in governments and relate those specifics to political and policy outcomes as necessary for responsible and active participation as both national and international citizens;
- effectively apply critical thinking and problem solving skills to political issues and should be able to utilize normative and empirical analysis tools in the study of national and international political realities;
- be able to apply an understanding of foundational and enduring political thought and ideas throughout history to questions of politics and policy at the national and international levels;
- demonstrate an awareness of the role played by race, ethnicity, gender and religion in historic and contemporary political debates and an awareness of effects of multiculturalism and diversity on domestic and international affairs;
- possess effective communication skills including the verbal and writing skills needed to communicate clearly and effectively, make persuasive, professional presentations and convey information essential to the discipline and beyond in an orderly and understandable manner;
- demonstrate analytical and conceptual skills, reading skills, critical thinking and problem solving skills and be able to effectively apply those skill sets to political issues.

Political Science, Bachelor of Arts (BA)

Students may choose between the 57- or 72-credit major. There is also a 82-credit Pre-law Option (p. 359) within the 72-credit major is designed for students interested in law school or work as a paralegal.

The 57-credit major is designed for the student with a strong interest in the political realm who wishes to combine such interest with study of another major or minor field.

Notes:

- the 57 credit major requires a separate minor or POLI/CSBS approved certificate program for completion;
- two years of a single high school foreign language or one year of a single college level foreign language is required;
- no substitutions for core courses.

- demonstrate analytical and conceptual skills, reading skills, critical thinking and problem solving skills and be able to effectively apply those skill sets to political issues.

### Public Policy and Administration, Certificate

The Certificate in Policy Administration is intended for students who are interested in pursuing a graduate level education in an applied field. Completion of the 44 credit certificate provides a sharply focused view of policy implementation and application within the American system of government. In addition, the certificate provides students the opportunity to receive advanced placement standing within EWU’s Master’s Program in Public Administration. Students who complete the certificate will be
required to take 36 credits of MPA core courses instead of the normally required 40 and will be required to complete 10 elective credits, rather than the usually required 20. Acceptance to the certificate program requires that the student have a cumulative grade point average 3.0 in all courses at EWU and the approval of the certificate coordinator. In no course required for the certificate can the student receive <3.0 and all courses within the certificate must have a minimum cumulative grade point average ≥3.3.

All required courses for the certificate must be completed at EWU, transfer credits will not be accepted for certificate completion.

Completion of this certificate will also satisfy the minor requirement for students completing majors where a minor is required.

These credits are required to qualify for the Advanced Standing MPA Program.

**Student Learning Outcomes—students will**

- acquire an understanding of the institutional, political, legal and economic processes of the United States;
- acquire an understanding of the public policies of the U.S. and the ways in which they are created by and carried out through political and economic processes;
- demonstrate an ability to analyze political and economic phenomena through oral and written communication skills in public presentations, written reports and documents.
Pre-Law

Eastern Washington University offers students the opportunity to earn substantial amounts of coursework toward the requirements of a number of specific professions. Although the following Pre-Professional programs have been offered for several years by EWU, this listing is not exclusive; students who are interested in a profession which is not represented (below) are encouraged to contact the Office of General Undergraduate Academic Advising for assistance in identifying departments or programs which can offer coursework and advice as regards alternative Pre-Professional studies.

Pre-Communication Disorders (p. 253)
Pre-Dentistry and Pre-Medicine (p. 308)
Pre-Engineering (p. 308)
Pre-Law (p. 363)
Pre-Pharmacy (p. 309)
Pre-Veterinary Medicine (p. 309)

Pre-Law
College of Social & Behavioral Sciences and Social Work
Department of Government

James Headley, Advisor
013 Hargreaves
509.359.2781

Program Description (see Political Science & International Studies)
Enterance into law school does not depend on the completion of any particular set of undergraduate requirements, but rather on the attainment of a bachelor’s degree in a recognized field of study, a sufficient GPA and a satisfactory score on the Law School Admission Test. Accordingly, no single pre-professional program can be recommended for the study of law. A balanced preparation for the study of law should include exposure to the traditional liberal arts disciplines and the development of skills in verbal and written communication and in logical thinking.

Since many students interested in law combine that interest with a similar one in public affairs, the Department of Political Science and International Studies offers a special option major designed especially to meet the needs of pre-law students.
Psychology

Undergraduate Minors
- Applied Developmental Psychology (p. 367)
- Psychology (p. 373)

Undergraduate Programs

Psychology is the science of human behavior and experience. Psychologists differ considerably in what they do because the field encompasses a wide range of human activities. Generally speaking, clinical, school, and counseling psychologists provide services to help people make better adjustments in their daily lives, while experimental psychologists conduct research and construct theories to help us better understand the nature of behavior.

The mission of the Department of Psychology is to educate students in the science and profession of psychology. To accomplish this mission, the department seeks to promote the acquisition of the core knowledge and principles of psychology; to enhance the student’s professional growth and development; to further the student’s ability to think analytically, logically and creatively; and to develop the student’s ability to communicate effectively. The department promotes psychology as a science and a profession by excellence in teaching, research, and service. Our undergraduate programs in psychology are patterned after the recommendations of the American Psychological Association for undergraduate majors in psychology.

The Department of Psychology is located in Martin Hall, a building that has up-to-date laboratories, classrooms and specialized clinical training areas. Our laboratories and training areas are extremely well equipped and very active. Students are encouraged to get involved in research projects and other professional activities as undergraduates.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Graduate Degrees

Master of Science (MS)
- Counselor Education with Mental Health Counseling Emphasis (p. 367)
- Counselor Education with School Counseling Emphasis (p. 367)
- Psychology with Clinical Concentration (p. 369)
- Psychology with General/Experimental Concentration (p. 370)

Educational Specialist in School Psychology (EdS)
- School Psychology (p. 370)
- School Psychology Respecialization (p. 371)

Graduate Programs

Graduate study in psychology provides the student with advanced preparation for practice in the field or for entering doctoral-level programs in psychology. Each degree program addresses the changing nature of society and professional requirements. The degree programs available through the Department of Psychology are: Master of Science in Counselor Education with emphases in either Mental Health Counseling or School Counseling; Master of Science in Psychology with concentrations in either clinical or general/experimental psychology; and Educational Specialist in School Psychology. A Post-Master’s Certificate in School Psychology and a School Counselor Professional Certificate are also offered.

Final Comprehensive Examination Policy of the Department of Psychology

1. Each student shall complete, before the awarding of the EdS and master’s degrees, a portfolio, which demonstrates the competence of the student in graduate level work in school psychology. Portfolios will reflect knowledge and skills in the National Association of School Psychology Domains of Training and Practice.

2. Students will begin their portfolio in the first year through the Professional School Psychology courses and will have a formal interview with School Psychology faculty members in the second or third quarter of their second year in the program to serve as preliminary feedback and determination of preparation for the internship experience. An oral examination that will focus primarily on the portfolio but may also include questions regarding professional practice and the internship experience will be held at the end of the third year of the program. The final oral examination will be open to all interested faculty and students and may be open to questions by outside members at the discretion of the committee. Final oral examinations will not be held over vacation periods or during summer quarter except by advance approval of the committee chair, second member and graduate office representative. The final oral examination will not be over two hours.

3. All graduate students in the School Psychology Program are subject to the academic advancement policies of Graduate Studies regarding grades.
A limited number of graduate assistantships are awarded to students of outstanding promise. Duties assigned graduate assistants involve 20 hours per week in tasks which meet the needs of the school and the student.

Loans, work-study jobs and scholarships are available to eligible students through the university’s Office of Financial Aid.

Some fellowships and financial assistance may be available through the College of Social & Behavioral Sciences and Social Work.

Apply for financial aid no later than February 15. Application and financial files should be completed as soon after January 1 as possible for the following year. Do not wait until admission is granted.

Master of Science in Counselor Education

Keely Hope (khope@ewu.edu), Program Director
135 Martin Hall
509.359.2439

All application materials must be received by February 1 for consideration of admission for a fall quarter start. Students applying should follow the procedures for general admission to the EWU Graduate Studies office.

In addition, the following requirements should be met:

- must meet the requirements of the EWU Graduate Studies office. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences, and other relevant factors;
- students eligible for consideration for admission to the Department of Psychology programs by having obtained a GPA ≥3.0 for the last 90 quarter or 60 semester graded credits;
- completion and submission of the Graduate Record Examination (GRE) must be accomplished in time for scores to reach the department by the deadline; the department accepts scores on tests taken within five years of application;
- applicants who have submitted all requested application materials, postmarked by the deadline date may be invited for a personal interview once the admissions committee has reviewed the application;
- individuals whose application materials are not postmarked by the application deadline will only be reviewed at the discretion of the admissions committee;
- application requirements: Graduate Studies Office application, two official transcripts, one department application, three letters of recommendations, one cover letter and resume, one personal statement and GRE Scores.

The Department of Psychology offers a nationally recognized program of studies in counselor education. The program is made up of a theoretical, applied and research-based core curriculum aimed at developing professional counselors who meet national, regional and state certification standards. The program offers two emphases: Master of Science in Counselor Education: Mental Health Counseling; and Master of Science in Counselor Education: School Counseling.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a nationally-recognized specialized accrediting body, has conferred accreditation on the Master of Science in Counselor Education: Mental Health Counseling emphasis and Master of Science in Counselor Education: School Counseling emphasis.

Selection Criteria

In addition to general university and departmental requirements, it is desirable to have a BA or BS degree in a behavioral science or human services area. It is not necessary to have a teaching certificate to enter the School Counseling track. Coursework in adjustment, counseling techniques, evaluation, group dynamics, personality theory and abnormal psychology is recommended. A course in statistics is needed.

Some fellowships and financial assistance may be available through the College of Social & Behavioral Sciences and Social Work.

Apply for financial aid no later than February 15. Application and financial files should be completed as soon after January 1 as possible for the following year. Do not wait until admission is granted.

Master of Science in Counselor Education

Keely Hope (khope@ewu.edu), Program Director
135 Martin Hall
509.359.2439

All application materials must be received by February 1 for consideration of admission for a fall quarter start. Students applying should follow the procedures for general admission to the EWU Graduate Studies office.

In addition, the following requirements should be met:

- must meet the requirements of the EWU Graduate Studies office. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences, and other relevant factors;
- a student is eligible for consideration for admission to the Department of Psychology programs by having obtained a GPA ≥3.0 for the last 90 quarter or 60 semester graded credits;
- completion and submission of the Graduate Record Examination (GRE) must be accomplished in time for scores to reach the department by the deadline; the department accepts scores on tests taken within five years of application;
- applicants who have submitted all requested application materials, postmarked by the deadline date may be invited for a personal interview once the admissions committee has reviewed the application;
- individuals whose application materials are not postmarked by the application deadline will only be reviewed at the discretion of the admissions committee;
- application requirements: Graduate Studies Office application, two official transcripts, one department application, three letters of recommendations, one cover letter and resume, one personal statement and GRE Scores.

The Department of Psychology offers a nationally recognized program of studies in counselor education. The program is made up of a theoretical, applied and research-based core curriculum aimed at developing professional counselors who meet national, regional and state certification standards. The program offers two emphases: Master of Science in Counselor Education: Mental Health Counseling; and Master of Science in Counselor Education: School Counseling.

The Council for Accreditation of Counseling and Related Educational Programs (CACREP), a nationally-recognized specialized accrediting body, has conferred accreditation on the Master of Science in Counselor Education: Mental Health Counseling emphasis and Master of Science in Counselor Education: School Counseling emphasis.

Selection Criteria

In addition to general university and departmental requirements, it is desirable to have a BA or BS degree in a behavioral science or human services area. It is not necessary to have a teaching certificate to enter the School Counseling track. Coursework in adjustment, counseling techniques, evaluation, group dynamics, personality theory and abnormal psychology is recommended. A course in statistics is needed.

Curricular experiences and demonstrated knowledge in each of the eight common core areas are required of all students in the program. The eight common core areas are identified in the CACREP accreditation standards as follows:

- Professional Identity,
- Social and Cultural Diversity,
- Human Growth and Development,
- Career Development,
- Helping Relationships,
- Group Work,
- Assessment,
- Research and Program Evaluation. The precise course titles vary from time to time.

A FBI fingerprint check will be required of all counseling students at the beginning of their first quarter in the program. The fee for this check is presently approximately $45 for students admitted to the Mental Health Counseling track and approximately $57 for students admitted to the School Counseling track. (School Counseling students pay a higher fee because of processing through the public school system.) The results will be assessed before advancing students to candidacy. Students will be required to apply for professional affiliations with the American Counseling Association (ACA) for Mental Health Counseling or the American School Counseling Association (ASCA) for School Counseling. Students must provide proof of affiliation and insurance liability coverage within the first quarter of study in the graduate program. Membership applications for the affiliation and insurance programs will be made available in the professional classes offered fall quarter.

Admission Requirements/Preparation

Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a fall quarter start. Students applying should follow the procedure for general admission to the EWU Graduate School. In addition, the following requirements should be met:
• must meet the requirements of the Graduate School. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences and other relevant factors;

• a student is eligible for consideration for admission to the Department of Psychology programs by having obtained a GPA ≥3.0 for the last 90 quarter or 60 semester graded credits;

• completion and submission of the Graduate Record Examination (GRE) must be accomplished in time for scores to reach the department by the deadline. The department accepts scores on tests taken within five years of application;

• must submit department application directly to the Department of Psychology, a vitae/résumé, and a statement of intent for admission to the Psychology Graduate Program;

• must send three letters of recommendation to the Department of Psychology, preferably all from academic sources;

• must have a bachelor’s degree in psychology or its equivalent. Ordinarily, the applicant’s transcript must show evidence of courses in the following areas: scientific principles of psychology, inferential statistics, learning and personality theory, abnormal psychology, life span development, physiological psychology, history and systems in psychology and general/experimental psychology. Accepted applicants whose transcripts are lacking some areas of proficiency may be asked to complete appropriate courses prior to full acceptance to the program;

• it is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for core classes.

Students accepted will be notified of a general information meeting held preceding the beginning of their first quarter, to provide orientation to institutional and departmental procedures and to provide information about registration.

The Master of Science in Psychology is intended to prepare students to be master’s-level practitioners or to pursue further graduate study in the clinical or experimental areas. A set of core classes provides students in the program with foundational knowledge in the discipline that includes methods classes that impart research and data analysis skills.

Obtaining a Master of Science in Psychology ordinarily takes two years, including summer quarter following the first year. Students are admitted to either a clinical or experimental concentration. Beyond the core classes, the clinical concentration provides additional foundational and applied courses that emphasize clinical knowledge and skills. In addition to the core courses, students in the general/experimental concentration design coursework and research experience in consultation with a faculty advisor to match the interest of the students with the expertise of the department faculty.

Applied Developmental Psychology Major, Bachelor of Science (BS)

The Bachelor of Science in Applied Developmental Psychology prepares students for entry-level work and graduate study in a variety of developmental and human service careers. The program covers basic areas of human developmental psychology across the life span with a special focus on processes and principles of developmental change. Elective packages may be chosen to focus preparation toward attainment of individual student objectives such as child development interventions, pre-counseling, graduate study and others.

Counselor Education with Mental Health Counseling Emphasis, Master of Science (MS)

The Master of Science in Counselor Education: Mental Health Counseling emphasis is designed for students wishing preparation as counselors or therapists in settings such as: mental health centers, hospitals, residential treatment centers, employment services and vocational rehabilitation services. Mental health counselors are also frequently found in the juvenile correction facilities, community colleges, pastoral services and business and industry.

Classes and experiences are organized around four objectives:

1. a thorough preparation in foundation skills and principles;
2. a functional mastery of techniques in various therapy modes; e.g., cognitive, affective, behavioral;
3. coverage of principles, issues and trends in the psychology of counseling; and
4. self awareness as it relates to the counseling process.

Practical application is stressed. Students are provided early and continuous skill practice with personalized feedback and coaching. Continuous opportunities for expanding awareness of the self of the counselor will be provided.

The program is both extensive and comprehensive. It is nationally accredited by CACREP and fulfills education requirements for licensure for mental health counselors. Graduates will complete the NBCC exam for National Counselor Certification.

Note: successful completion of both a written comprehensive examination of conceptual attainments and an oral interview of practical applications is required.

Student Learning Outcomes—students will:

- assess community needs, design, implement and evaluate mental health programs and systems-Mental Health Counseling Emphasis;
- provide accurate assessment, diagnosis (where appropriate) and treatment planning for a diverse client population-Mental Health Counseling Emphasis;
- describe the ethical and legal considerations that govern the practice of mental health counseling-Mental Health Counseling Emphasis;
- utilize the American School Counseling Association’s National Model (a framework for school counseling programs) to develop an individual school’s comprehensive program-School Counseling Emphasis;
- describe and apply the counseling theories and techniques that have proven to be the most applicable to the K–12 school population-School Counseling Emphasis;
- describe and utilize the laws and ethics that govern the school counseling profession-School Counseling Emphasis.

Counselor Education with School Counseling Emphasis, Master of Science (MS)
The Master of Science in Counselor Education: School Counseling emphasis is designed for students wishing preparation as counselors in school settings, primarily public schools.

Classes and experiences are organized to provide thorough grounding in the skills and knowledge generally recognized by the counseling profession. The program is accredited by CACREP and exceeds the Washington state requirement for ESA-School Counselor Certification.

Practical application is stressed and students are provided early and continuous skill practice with personalized feedback and coaching. Continuous opportunities for expanding awareness of the self of the counselor will be provided.

Note: successful completion of both a written comprehensive examination of conceptual attainments and an oral interview of practical applications is required.

Psychology Major, Bachelor of Arts (BA)

General Admissions Information for Psychology

High school students should have at least one year of algebra. Social science courses, including psychology and natural science courses such as biology and chemistry are also encouraged. Transfer students may be given credit for appropriate transfer courses in the major and for electives. Transfer credits will be limited to 20 lower division courses and no more than 30 transfer credits total can be applied toward the degree.

General Degree Completion Requirements for Psychology

Students who major in psychology but who transfer some lower division psychology coursework from other colleges/universities must complete at least 50 hours of upper division credits in the 70 credit psychology major. No more than 20 credits from online courses will be counted toward major requirements.

Notes:

- to declare psychology as a major, students must have a minimum cumulative GPA ≥2.0 and passed PSYC 100 or its equivalent with a GPA ≥2.0.
- two years of a single high school foreign language or one year of a single college level foreign language is required.
- students must attain a grade ≥2.0 for each of the required courses: PSYC 100, PSYC 309, PSYC 313, PSYC 395/PSYC 495, PSYC 398/PSYC 498 and PSYC 399/PSYC 499.

Capstone Course: the university capstone requirement can be met by the department capstone course, PSYC 490.

Required courses are designed to provide students with the foundations of the field. Through careful planning in the selection of cluster and elective courses, students may develop a program of study to prepare for application to graduate school programs or meet specific career goals in psychology-related business/human services occupations.

Required Cluster Credits—PSYC majors are required to take a specified number of courses from clusters A and B as follows:

Cluster A Core Course Requirements—at least four of the following 19-20
- PSYC 301 THEORIES OF PERSONALITY
- PSYC 302 ABNORMAL PSYCHOLOGY
- PSYC 303 FOUNDATION OF PSYCHOTHERAPY
- PSYC 305 or PSYC 306 CHILD ADOLESCENT DEVELOPMENT
- PSYC 316 HUMAN MEMORY AND COGNITION
- PSYC 324 CONDITIONING AND LEARNING
- PSYC 340 EMOTION AND EMOTIONAL INTELLIGENCE
- PSYC 381 SOCIAL PSYCHOLOGY
- PSYC 420 BIOLOGICAL BASIS OF BEHAVIOR
- PSYC 474 CULTURAL PSYCHOLOGY

Cluster B Applied/Lab and Speciality Course Requirements—at least three of the following 11-15
- CSBS 321 COMPUTER AIDED DATA ANALYSIS
- PSYC 314 TESTS AND MEASUREMENTS
- PSYC 317 HEALTH PSYCHOLOGY
- PSYC 318 COMPUTERIZATION RESEARCH TECHNIQUES IN PSYCHOLOGY
- PSYC 323 DRUGS AND BEHAVIOR
- PSYC 325 COGNITIVE AND BEHAVIOR CHANGE
- PSYC 331 PSYCHOLOGY OF WOMEN
- PSYC 359 HUMAN SEXUALITY
- PSYC 421 CARE AND CUSTODY OF FEMALE OFFENDERS
- PSYC 425 PSYCHOLOGY AND THE LEGAL SYSTEM
- PSYC 427 INTIMATE RELATIONSHIPS
- PSYC 430 HUMAN PSYCHOPHYSIOLOGY
- PSYC 431 STRESS AND COPING
- PSYC 433 COMPASSION FOCUSED THERAPY
- PSYC 440 HAPPINESS AND POSITIVE PSYCHOLOGY
- PSYC 450 TRAUMA: THEORY, ASSESSMENT AND TREATMENT
- PSYC 452 SOCIAL INFLUENCE
- PSYC 461 INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY
- PSYC 470 CHILDHOOD PSYCHOPATHOLOGY AND TREATMENT
- PSYC 481 PREJUDICE AND STEREOTYPING
- PSYC 483 GROUP DYNAMICS
- PSYC 496 EXPERIMENTAL COURSE
- PSYC 497 WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR (may be counted as a cluster course or elective as approved by the department chair)

Electives 17
Note: courses used as electives in the major must come from the Cluster A or B course list above (those not used to meet the minimum cluster requirements) or as approved by the department chair.

Total Credits 70-75

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will
- develop ethical and evidence-derived decision-making;
- use APA style effectively in empirically based reports, literature reviews and theoretical papers;
- recognize and understand major perspectives of psychology;
- evaluate the appropriateness of design, statistical analyses and conclusions derived from psychological research;
- design and conduct studies to address psychological questions using appropriate research methods.

Psychology with Clinical Concentration, Master of Science (MS)

The clinical concentration is designed for students who are interested in becoming master’s-level mental health providers in private practice, mental health centers, hospitals or social service agencies, or who are pursuing pre-doctoral studies to support application to doctoral programs in clinical or counseling psychology.

Required Core
- PSYC 503 PROSEMINAR: SCIENTIFIC METHODS 4
- PSYC 522 ADVANCED STATISTICS 5
- PSYC 534 HUMAN NEUROPSYCHOLOGY 4
- PSYC 537 ADVANCED PSYCHOPATHOLOGY 4
- PSYC 538 RESEARCH TOPICS 1
- PSYC 539 SEMINAR IN SPECIAL TOPICS (1-5) 2
- PSYC 600 THESIS (1-15) 6
- or PSYC 601 RESEARCH REPORT 16
- PSYC 694 PRACTICUM (1-8 must be repeated) 16

Required Clinical Concentration Courses
- PSYC 504 PROSEMINAR: LEARNING AND BEHAVIOR THERAPY 4
- PSYC 508 PROFESSIONAL ISSUES 2
- PSYC 551 FOUNDATION OF PSYCHOTHERAPY 5
- PSYC 554 COGNITIVE ASSESSMENT 4
- PSYC 555 CLINICAL PRACTICE IN COGNITIVE ASSESSMENT 3
- PSYC 556 PERSONALITY AND BEHAVIORAL ASSESSMENT 5
- PSYC 557 CLINICAL PRACTICE IN PERSONALITY AND BEHAVIORAL ASSESSMENT 4
- PSYC 694 PRACTICUM 1-8

Required Electives—chosen with an advisor in accord with the following elective course guidelines. 12
1. 400 level or graduate courses within psychology and related fields
2. specific emphases such as alcohol and drug studies, interdisciplinary aging, diagnosis and treatment of children and adolescents, school psych issues, behavioral health, psychology of women, computerized research and analysis, positive psychology, business, children’s studies, technical writing, etc.
3. specific courses of interest to the student in related relevant departments (e.g. PSYC, SOWK)
4. EWU weekend college courses

Total Credits 85

Student Learning Outcomes—students will

- comprehend the discourse of psychology and communicate using the conventions of the discipline;
- be familiar with the historical context in which important theories in psychology were developed;
- develop expertise in the broad science of psychology, including advanced knowledge in research methods, statistics, biological psychology, multicultural issues, history and systems of psychology, and human learning;
- pose research questions and devise research strategies to answer them, including the use of quantitative or qualitative methods;
- gather information from many sources and present persuasive arguments, learn the primary ethical principles of psychologists and recognize basic ethical issues and violations and be guided accordingly.

Psychology with General/Experimental Concentration, Master of Science (MS)

The concentration in general/experimental psychology is designed to prepare students for research or teaching in psychology. Methodology and both basic and applied research are emphasized. Students are prepared to enter doctoral programs or to seek employment in appropriate master’s-level positions. Curricula plans, in addition to the 42 credit hours of core courses, should include a minimum of 26 credits of elective courses chosen with an advisor in accord with the elective courses guidelines shown below. Students particularly interested in acquiring college-level instruction skills should consider courses from the Department of Education.

Note: students must successfully complete PSYC 503, PSYC 522, PSYC 534, PSYC 537, PSYC 538, PSYC 539 during the first three quarters of enrollment in order to continue in the program without a significant delay or required remediation plan during the second year of study.

Required Electives—additional graduate courses are offered within the department and may be taken by students in any program of study—with the appropriate Program Director’s approval, the following type of courses may be taken as part of the student’s graduate program of study.

1. 400-level or graduate courses within psychology;

2. specific emphases such as addiction studies, interdisciplinary aging, diagnosis and treatment of children and adolescents, school psychology issues, behavioral health, computerized research and analysis, forensic psychology, physiological psychology, positive psychology or others;

3. specific courses in related, relevant departments, PSYC or SOWK with permission of the instructor and program director;

4. EWU weekend college courses.

Psychology, Educational Specialist in School Psychology (EdS)

Susan Ruby (sruby@ewu.edu), Program Director
509.359.6050

Prerequisites: A bachelor’s degree in psychology or its equivalent is required. Successful completion of undergraduate coursework in child or life-span development, learning, research, measurement and statistics is required. Faculty will evaluate each applicant on an individual basis to determine prerequisites needs.

Note: successful completion of the National School Psychology Certification Examination and an oral examination that reviews the portfolio project and contents is required.

Admission Requirements/Preparation

Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a fall start. Students ordinarily begin their graduate studies fall quarter. Admission to begin the program in winter or spring is discouraged.

1. Must have a GPA ≥3.0 in the last 90 quarter or 60 semester-graded credits. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Studies for admission based upon standard test scores, intervening experiences and other relevant factors.

2. Must meet the requirements of the Graduate School.

3. Must submit application to the Department of Psychology for the School Psychology Program, vitae/résumé, and a letter of introduction and intent (not to exceed 3 pages) for admission to the School Psychology EdS.
4. Must send three letters of recommendation to the Department of Psychology.
5. Must have a bachelor’s degree in psychology or its equivalent. Ordinarily, the applicant’s transcript must show evidence of courses in the following areas: scientific principles of psychology, inferential statistics, learning and personality theory, abnormal psychology, life span development, physiological psychology, history and systems in psychology and general/experimental psychology. Accepted applicants whose transcripts are lacking some areas of proficiency may be asked to complete appropriate courses prior to full acceptance to the program.
6. Must submit scores for the Graduate Record General Examination (GRE) Test. The GRE must have been taken no more than five years before the date of application.
7. It is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for core classes.

**School Psychology:** early consideration January 15, deadline March 1, (2) Graduate Studies Office applications, (1) department application, (2) official transcripts, (3) letters of recommendation, (1) cover letter/personal statement, (1) résumé/vita, GRE scores (within five years of application)

Applicants may be invited for a personal interview once applications have been reviewed.

Students accepted will be notified of a general information meeting held preceding the beginning of their first quarter, to provide orientation to institutional and departmental procedures and to provide information about registration.

This program is fully approved by the National Association of School Psychologists (NASP). We adhere to a scientist-practitioner model that prepares students for practice as a school psychologist. Candidates graduating from our program are prepared to receive a Residency Certificate in School Psychology from Washington’s Office of Superintendent of Public Instruction (OSPI) and to become nationally certified school psychologists (NCSP). Coursework, practica and internship are aligned with state and national certification and training standards. Specific areas of training include student and program evaluation (i.e., measurement principles); development of academic and social-behavioral intervention plans (i.e., instructional and behavioral analysis, consultation and counseling); and research (i.e., methods and statistics). The program adopts a preventive focus by training candidates to assess and intervene at the school-wide and at-risk group level. Knowledge and skills are developed through integrated coursework, field experiences and internship. The program duration is three years.

### Student Learning Outcomes—students will

- know the history and foundations of school psychology; multiple service models and methods; ethical, legal and professional standards; and other factors related to professional identity and effective practice as school psychologists;
- know the varied models and methods of assessment and data collection for identifying strengths and needs, developing effective services and programs and measuring progress and outcomes;
- know the varied models and strategies of consultation, collaboration and communication applicable to individuals, families, groups and systems and methods to promote effective implementation of services;
- understand school and systems structure, organization and theory related to evidence-based practice;
- use data-based decision making to design, implement and evaluate academic, social, emotional and behavioral programs for students at all levels of need.

---

**Psychology, Educational Specialist in School Psychology Respecialization (EdS) (Online)**

Jamie Chafin (jchaffin@ewu.edu), Program Director
509.359.4736

This online-hybrid distance-learning program is designed for working professionals with a master’s or other graduate degrees or a bachelor’s degree and professional experience. It is offered through online coursework with synchronous and in-person training requirements. Appropriate candidates for the program are educators or those working in an education, counseling or psychology-related field with several years of experience.

### Admission Requirements/Preparation
Early consideration deadline for completed applications is January 15. All application materials must be received by March 1 for consideration of admission for a summer start. The application file must be complete by March 1st for you to be considered for an interview. All interviews will be conducted via video conferencing. The equipment needed for the interview consists of a web-camera (can be internal to your laptop or external), a headset with a microphone and a wired Internet connection (wireless tends to be slower and could impact either the video or audio component of the transmission).

To be considered for the program, students:

1. must have a GPA ≥3.0 in the last 90 quarter or 60 semester-graded credits. The Graduate Admission Committee may recommend a limited number of other students with a lower GPA to the Dean of Graduate Programs for admission based upon standard test scores, intervening experiences and other relevant factors;
2. must meet the requirements of the Graduate School;
3. must submit program-specific application to the Department of Psychology for the Ed.S. in School Psychology Online Program, vitae/ résumé, and a letter of introduction and intent (not to exceed three pages) for admission to the program;
4. must send three letters of recommendation to the Department of Psychology on program specific reference form;
5. must have completed either: (a) a master’s or other graduate degree in psychology, education or a closely related field or its equivalent or (b) a bachelor's degree and at least three years of full-time experience teaching in school or (c) a bachelor’s degree and at least five years of relevant professional experience in a closely related field;
6. students with bachelor’s degrees must submit scores for the Graduate Record General Examination (GRE) Test—students with master’s or other graduate degrees do not need to submit GRE scores.
7. it is expected that a student complete all of the requirements for admission to the Graduate School and the Department of Psychology before registering for classes.

We adhere to a scientist-practitioner model that prepares students for practice as a school psychologist. Candidates completing our program are prepared to receive a Residency Educational Staff Associate (ESA) Certificate in School Psychology from Washington’s Office of Superintendent of Public Instruction (OSPI). Students are encouraged to seek national certification through preparation of individual portfolios. Coursework, practica, internship, and portfolio expectations are aligned with state and national training standards. Specific areas of training include student and program evaluation (measurement principles); development of academic and social-behavioral intervention plans (e.g., instructional and behavioral analysis, consultation and home-school collaboration); and research (methods and statistics). The program adopts a preventive focus by training candidates to assess and intervene at the school-wide and at-risk group level. Knowledge and skills are developed through integrated coursework, field experiences and internship. The program duration is two full calendar years, beginning in summer.

Technology requirements for participation: High bandwidth required; access should be through a direct Internet connection (not wireless); computer and browser requirements should follow program recommendations, webcam; headset with microphone and access to a scanner or printer that scans. Full participation throughout the web-conferencing activities and inter-residence training is required to participate.

Note: Successful completion of the National School Psychology Certification Examination and an oral examination that reviews the portfolio project and contents is required.

Psychology, Minor

The psychology minor requires PSYC 100 plus 15 credits of coursework taken from the following list. The courses are to be approved by the department chair. No more than 10 credits from another institution can be transferred toward the minor.

Notes:

• students must have an overall grade point average ≥2.0 in courses applying toward this minor in order to graduate with this minor;
• no more than 10 credits from another institution may be transferred toward the minor.

Faculty

Undergraduate Degrees
Bachelor of Arts (BA)
- Race and Culture Studies (p. 374)

Undergraduate Minors
- Race and Culture Studies Minor (p. 375)

Undergraduate Program
The mission of the academic major in the study of Race and Culture is to contribute to the overall mission of Eastern Washington University “to prepare broadly educated, technologically proficient and highly productive citizens to obtain a meaningful career, to enjoy enriched lives and to make contributions to a culturally diverse society.” More specifically, RCST provides Eastern Washington University students a comprehensive interdisciplinary curriculum that contributes to their understanding and appreciation of the experiences, concerns and perspectives of the three major historically marginalized populations, (African Americans, Chicanos/Latinos and Native Americans) in the United States.

Central Core Emphasis of the RCST Major
Students majoring in RCST enroll in a core curriculum using interdisciplinary and comparative perspectives. RCST majors study the history, culture, social-economics and political realities of these communities. More specifically, RCST majors gain insights about international connections relevant to these groups as well as participate in research and community based study to augment classroom learning.

RCST Interdisciplinary Nature
The core curriculum is interdisciplinary in nature and draws concepts, constructs, theories, and perspectives from an array of disciplinary areas including: history, anthropology, sociology political science, social work and the arts.

Career Opportunities with a RCST Major
Many professional areas recognize the need to have employees who are aware of and sensitive to the racial and cultural climate of contemporary society. They likewise recognize the rapidly changing racial and cultural demographic diversity taking places throughout the U.S. Employers are looking for professionals who bring with them the knowledge and skills necessary to contribute to a productive work environment that is racially and culturally diverse. Underlying this effort are the many companies and agencies hiring diversity officers/managers to provide racial, ethnic and cultural training to assist in conflict resolution and offer advice on issues of race, ethnicity and culture in the work setting.

Professional fields open to RCST majors include, but are not limited to, law, politics, education, business, urban/regional planning, counseling, social work, health/medicine and public institutions such as schools, libraries and museums. As the contemporary job market becomes more competitive, employers are looking for individuals who possess extraordinary skills to deal with a diverse labor setting and markets.

A major in RCST provides employers and professionals the necessary skills and insights to be a successful in a changing contemporary society.

Grade Requirements
In order to graduate with a BA in Race and Culture Studies students must have a minimum grade point ≥2.0 and all courses completed towards the major must be ≥2.0.

Race and Culture Studies Major, Bachelor of Arts (BA)

Required Foundation Courses
- RCST 101 AN INTRODUCTION TO THE STUDY OF RACE AND CULTURE 5
- RCST 202 RACE, PRIVILEGE AND POWER 5
- RCST 304 LIBERATION AND SOCIAL CHANGE 5
- RCST 330 RESEARCHING RACE AND CULTURE 5
- RCST 430 RESEARCH METHODOLOGIES IN RACE AND CULTURE STUDIES 5

Required—choose two from the following 10
- AAST 101 INTRODUCTION TO AFRICANA STUDIES
- CHST 101 INTRODUCTION TO CHICANO CULTURE
- or ANTH 161 INTRODUCTION TO CHICANO CULTURE
- IDST 101 INTRODUCTION TO INDIAN STUDIES

Required Capstone
- RCST 490 SENIOR CAPSTONE IN RACE AND CULTURE STUDIES 5
- or RCST 491 SENIOR THESIS IN RACE AND CULTURE STUDIES

Degree Options—choose two of the three emphasis areas for the B.A. 40

African Studies Emphasis Area

Required
- AAST 215 EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877
- or HIST 215 EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877
- or HONS 215 EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877

Choose from the following
- AAST 214 AFRICAN AMERICAN CULTURE AND EXPRESSIONS
- or HONS 214 AFRICAN AMERICAN CULTURE AND EXPRESSIONS
- or HUMN 214 AFRICAN AMERICAN CULTURE AND EXPRESSIONS
- AAST 220 AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT
- or HIST 220 AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT
- or HONS 220 AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT
- AAST 301 HARLEM RENAISSANCE: RECONSTRUCTION TO 1930
Chicano Studies Emphasis Area

Required
CHST 218 CHICANO HISTORY
or HIST 218 CHICANO HISTORY
CHST 230 CHICANAS AND LATINAS IN THE U.S.

Choose from the following
CHST 300 SURVEY OF CHICANO LITERATURE
CHST 310 LATINAS/OS IN THE U.S. MEDIA
CHST 320 CHICANO-LATINO POLITICS IN AMERICA
CHST 330 LATINO IMMIGRATION TO THE U.S.
CHST 331 LATINO FAMILY IN THE U.S.
CHST 340 LATINA/O COMMUNITIES IN THE U.S.: FIELD RESEARCH IN CHICANA/O, LATINA/O STUDIES
CHST 495 INTERNSHIP/PRACTICUM
CHST 498 SEMINAR
CHST 499 DIRECTED STUDY

Indian Studies Emphasis Area

Note: only one Salish language class IDST 201, IDST 202 and IDST 203 can count here.

Required
IDST 321 CONTEMPORARY INDIAN ISSUES

Choose from the following
IDST 201 SALISH LANGUAGE AND CULTURE I
IDST 202 SALISH LANGUAGE AND CULTURE II
IDST 203 SALISH LANGUAGE AND CULTURE III
IDST 316 AMERICAN INDIAN HISTORY I
or HIST 316 AMERICAN INDIAN HISTORY I
IDST 317 AMERICAN INDIAN HISTORY II
or HIST 317 AMERICAN INDIAN HISTORY II

Race and Culture Studies, Minor

The mission of the academic minor in the Study of Race and Culture is to contribute to the overall mission of Eastern Washington University "to prepare broadly educated, technologically proficient and highly productive citizens to obtain meaningful career, to enjoy enriched lives and to make contributions to a culturally diverse society." More specifically, RCST provides Eastern Washington University students a comprehensive interdisciplinary curriculum that contributes to their understanding and appreciation of the experiences, concerns and perspectives of the three major historically marginalized populations, (African Americans, Chicanos/Latinos and Native Americans) in the United States.

Central Core Emphasis of the RCST Minor

Students majoring in RCST enroll in a core curriculum using interdisciplinary and comparative perspectives. RCST minors study the history, culture, social-economics and political realities of these communities. More specifically, RCST minors gain insights about
international connections relevant to these groups as well as participate in research and community based study to augment classroom learning.

Note:

• in order to graduate with a minor in RCST students must have a minimum grade point ≥2.0 and all courses completed towards the minor must be ≥2.0.

Undergraduate Degrees
Bachelor of Arts in Education (BAE)
- Social Studies Elementary/Secondary (p. 377)

Teacher Certification/Add-on Endorsements
- Social Studies/Add-on Endorsement (p. 378)

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Social Studies Elementary/Secondary Major, Bachelor of Arts in Education (BAE)

Students may choose the elementary or secondary BAE.

Notes:
- see the Education Department for prerequisites, core requirements and additional SLOs;
- this major requires a grade of ≥2.5 in all coursework done in the major at Eastern;
- students must complete at least 15 credits of this major at Eastern Washington University.

The Elementary major does not meet a state of Washington endorsement.

Required Elementary Education Core
30–hour multicultural education field requirement

</tbody>
</table>

Total Credits 130

The Secondary major satisfies the endorsement for grades 5-12.

Notes:
- this major requires a grade of ≥2.5 in all coursework done in the major at Eastern;
- students must complete at least 15 credits of this major at Eastern Washington University;
- social studies/secondary carries an endorsement in both social studies and history.
• alternative required courses may be used if pre-approved by the coordinator of the social studies education program.
• although this major does not require a minor, it is suggested that majors take minors outside the discipline of social studies education and that these minors coincide with endorsements for teacher certification in disciplines such as English, mathematics, or the physical or biological sciences.

**Electives**

8

One upper division non-U. S. History elective (4)
One upper division U. S. History elective (4)

Total Credits 119

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- understand chronology and cause-and-effect relationships in U.S., world and Washington state history;
- understand the core principles of U.S. democracy and understand the rights and responsibilities of citizenship;
- understand major developments, eras and turning points in U.S., world and Washington state history;
- explain the spatial arrangements of people, places and environments using maps, charts and other tools;
- use sources of information such as historical documents and artifacts to investigate and understand historic occurrences;
- understand monetary systems, consequences of economic choices and influence of government policies upon the economy.

**Social Studies/Add-on Endorsement**

For students who currently possess a Washington State Teaching Certificate.

Also, this constitutes a primary endorsement for those possessing a BA in one of the Social Studies.

This add-on satisfies the endorsement for grades 5–12.

Note:

- this add-on endorsement requires a grade ≥2.5 in all coursework done in the add-on at Eastern.

Undergraduate Programs

Mission of the School of Social Work

The School prepares its graduates to be ethical and effective change agents at the intersection of cultures, communities and professions. Our graduates will practice with mindfulness about historical oppression and hopefulness in fostering a more socially just world. We are especially committed to educating first-generation college students and those from underserved communities.

Vision

The School prepares social work professionals for practice in the public sector or in those private agencies which address the needs of oppressed and disadvantaged populations. Students are provided with the necessary values, knowledge and skills to practice within a rural/regional/small urban service delivery system environment.

Graduates assume key professional practice roles in human service agencies, community organizations, collaborative networks and change focused coalitions.

The curriculum prepares students to engage in processes aimed at empowering individuals to improve their life situation and to modify the organizational, community and societal conditions that prevent oppressed populations from obtaining a basic quality of life.

Through the combined commitment of the practice community and faculty, the School prepares students at the undergraduate and graduate levels for professional social work practice; serves place-bound individuals by providing structured part-time, off-campus, programs; responds to the needs of practitioners through the provision of continuing education, staff development and consultation; and undertakes research activities which contribute to the creation and dissemination of knowledge relevant to the profession.

Accreditation

The School of Social Work at Eastern Washington University is accredited at the baccalaureate and master's levels by the Council on Social Work Education.

Graduates of the School’s BASW Program will be able to:

• identify as a professional social worker and conduct oneself accordingly;
• apply social work ethical principles to guide professional practice;
• apply critical thinking to inform and communicate professional judgments;
• engage diversity and difference in practice;
• advance human rights and social and economic justice;
• engage in research-informed practice and practice-informed research;
• apply knowledge of human behavior and the social environment;
• engage in policy practice to advance social and economic well-being and to deliver effective social work services;
• respond to contexts that shape practice;
• practice professionally with individuals, families, groups, organizations, and communities through effectively engaging, assessing, intervening and evaluating.

Admissions Requirements for High School Students

Students planning to major in social work should have a strong college preparatory background. Volunteer or employment experience with a social service agency is also strongly recommended.

Admissions Requirements for Transfer Students and Students Completing AA Degrees

Early planning is highly advantageous to the student. Transfer students should make an appointment to see the Coordinator of Undergraduate/Graduate Student Services 509.359.6482 to assist in the transfer.

Application Procedures

There are two separate application procedures for admission. Students must be admitted to EWU and be admitted to the School of Social Work. Students seeking admission to the social work program must submit application materials prior to beginning the junior year, normally the winter or spring quarters. Pre-major advising is available through the School by calling 509.359.6482. Applications are available on our web page, ewu.edu/basw (http://www.ewu.edu/basw). Please visit this web page for application deadline information.

Admissions Criteria

Admission to the program is based on cumulative GPA, a personal statement addressed to the applicant's motivation for choosing social work as a career and experience relevant to social work and two personal references from faculty or others familiar with how you could perform social work tasks. Applications are reviewed and evaluated by faculty to select candidates with strong potential to enter practice upon completion of their degree work.
Before applying to the program, applicants should have completed most or all of their GECRs (General Education Core Requirements). In addition, they should have completed or be in the process of completing the university language and other EWU requirements. If these requirements are not complete at the time of application, students should have a plan to complete them and include that plan in their personal statement. Students who have not completed all of their other EWU graduation requirements shall submit a plan for accomplishing this before they will be formally admitted into the BASW Program.

School of Social Work Curriculum
The curriculum is designed to meet the goals of the program within a framework that includes a broad liberal arts education and focused professional social work education and socialization.

Social work classes and support classes with a <2.0 are not acceptable for graduation. Credit for life experience cannot be given for any social work course.

The Field Practicum
The field practicum experience in the social work program is considered a vital element of the curriculum leading to a Bachelor of Arts degree. It is the major vehicle that permits the student to discover abilities and areas of growth, integrate theory with practice and explore the world of social welfare services. Students with prior volunteer or work experience will need to seek placements that offer new learning, different tasks, new contacts and opportunities for personal growth.

To enter the practicum, students must have completed all of the social work courses up to the point of practicum entry with a minimum average GPA ≥2.7. The field practicum is open to majors only. Application for the practicum is completed in spring quarter of the student’s junior year. Based upon their learning objectives, students are carefully matched with public or private agency settings in diverse areas of service. Students with prior volunteer or work experience are urged to seek placements that offer different tasks, new contacts and opportunities for personal growth.

Graduate Degrees
Master of Social Work (MSW)
- Social Work (p. 384)
- Social Work, Advanced Standing Program (p. 384)

Graduate Program
The Master of Social Work Program was established in 1974, following authorization by the state government to meet the need for graduate professional education in social work in the Inland Northwest. The first class of graduate students was admitted in 1975, at which time the program was granted accreditation candidacy status by the Council on Social Work Education (CSWE). Full accreditation was conferred in 1977, reaffirmed in 1984, 1993, 2001 and again in 2008.

The generalist foundation or first half of the MSW program focuses on the CSWE Core Competencies:
- identify as a professional social worker and conduct oneself accordingly;
- apply social work ethical principles to guide professional practices;
- apply critical thinking to inform and communicate professional judgments;
- engage diversity and difference in practice;
- advance human rights and social and economic justice;
- engage in research informed practice and practice-informed research;
- apply knowledge of human behavior and the social environment;
- engage in policy practice to advance social and economic well-being and to deliver effective social work services;
- respond to contexts that shape practice;
- engage, assess, intervene, and evaluate with individuals, families, groups, organizations, and communities.

The advanced or second half of the MSW program focuses on Advanced Generalist Practice. Advanced generalist practice builds on the generalist foundation and increases the depth and breadth for practice from a multi-level and theoretically sound perspective. We are striving for a deep understanding and application of the “spirit” of social work that embraces social justice in all areas of practice.

Specifically, advanced general practice for the EWU School of Social Work prepares the student for self-directed and autonomous practice through:
- advanced knowledge and skills in assessment and intervention methods of research informed practices within a generalist framework;
- readiness for leadership in a variety of arenas and practice settings, including program development, coordination, administration and supervision;
- social action knowledge and skills in policy analysis, development, legislation action, and community development;
- integrated research knowledge and skills that prepare students to evaluate their own practice, programs, and the evidence supporting specific interventions;
- elective content, advanced knowledge and skills in specific areas of practice, such as aging, palliative care, disabilities, public health, mental health, addiction, school social work, and child welfare.

MSW Choices
The School Provides Two Options for the MSW: Campus full-time study and community-based part-time study. Advanced Standing programs are available in both campus and community based settings. The GRE is not required for the full-time, part-time or Advanced Standing.

Full-time Campus Program: Students are admitted to the campus program every fall quarter. They follow standard academic-year calendars and complete their degrees within six quarters, excluding summers, in a program of full-time study. Because of the demands of the full-time program, full-time employment is not recommended while a student is in the program.

Part-Time Community-Based Programs: These structured outreach programs have been designed for people who cannot leave job and family to return to school on a full-time basis for a graduate education. Everett and Vancouver offer coursework two evenings per week. Spokane offers a hybrid program. Courses are held at the Riverpoint campus three weekends per quarter and the rest are online.

All part-time programs are based on a cohort model that begins once every three years. The sequencing of coursework in the part-time programs may vary by location. The curriculum requirements for graduation are the same as those for the on-campus program; however, courses are taken over a three-year period, including summers. These programs charge differential tuition; therefore, there is a higher per-
credit fee than the on-campus program to cover faculty travel, use of off-campus facilities and program coordination.

**Advanced Standing Program:** This program allows qualified BSW graduates to complete their MSW degree within three quarters and one summer term in the full-time program or in seven consecutive quarters in the part-time program. Students are admitted to the full-time campus program every fall quarter. Sequencing of Advanced Standing coursework in the part-time programs may vary by location.

**Admission to the MSW Program is based on the following:**
1. successful completion of a bachelor's degree from an accredited college or university;
2. a cumulative grade-point average ≥3.00 in the last 90 graded quarter credits or 60 graded semester credits; b. upon recommendation of the Graduate Program Director, the Dean of Graduate Studies may admit a limited number of students, with a GPA <3.00, based upon considerations which includes performance in relevant graduate courses and faculty evaluations;
3. completion of 3 credit hours of an introductory statistics course covering descriptive and inferential statistics and basic hypothesis testing with a grade ≥2.5 (B). If you have not completed such a course, you must submit a plan in your admission material describing how you will complete this requirement prior to registering for the first quarter classes in the MSW program.

**Admission to the MSW Advanced Standing Option is based on the following:**
1. admission requirements are similar to those of the full-time program but also require a GPA ≥3.50 in undergraduate social work courses and a bachelor’s degree in social work awarded no longer than seven years before the application date. The degree must be from a CSWE accredited undergraduate social work program. No exceptions are made to policies regarding Advanced Standing;
2. applicants who have questions concerning these criteria are advised to contact the School for further information.

**Application Procedures:** Applications for each academic year are available the prior September. Early application is advised. The School reviews applications when all materials are received. Approved applicants are then pooled and final decisions are made by the MSW Admissions Committee. (Stronger applicants may be informed of the admission decision prior to the decision deadlines.) Please check the website for decision deadlines ewu.edu/msw.

**Transfer Students from other CSWE Accredited MSW Programs:** Up to 45 credits of foundation year MSW course work can transfer. Check with the graduate director for additional information.

**MSW Degree Requirements**

**Overview of the Curriculum:** The MSW program prepares professional social workers to engage in advanced generalist practice across multiple systems and provides leadership for social justice. The curriculum consists of a foundation for generalist practice and an advanced curriculum for advanced generalist practice.

The foundation curriculum focuses on social work practice, social welfare policy and theories of human behavior in the social environment. Courses include Foundations of Professional Social Work Practice, Social Work Assessment and Practice with Individuals and Families, Introduction to Social Welfare and Policy of Practice and Human Development in Contemporary Environments. Social Work Practice in a Diverse Society develops knowledge of diverse populations with whom and on behalf of whom, social workers practice. The course also explores practice principles for working with people of difference and for working in an increasingly diverse society. Social Work Intervention and Evaluation with Individuals and Families and Social Work Groups continue the development of practice knowledge and skills.

The foundation continues to prepare students for generalist practice with systems of different sizes through the course Organizational and Community Practice. Students learn to critically evaluate and use research in their practice in the course Research Methods for Program and Practice Evaluation. Students also begin the first two quarters of a five-quarter field practicum and integrative seminar near the middle of the foundation curriculum.

The MSW program requires a total of 952 hours of field practicum and 80 hours of integrative seminar sequenced over the course of the program. Before beginning their foundation practicum, two year students participate in SOWK 580 Field Preparation during fall quarter. After completing this course, each student is placed in a social service agency or other public or private organization related to the welfare of people. Direction and instruction are provided by a faculty member of the School, working collaboratively with a designated agency supervisor in the organization. The faculty member, the agency supervisor and the student negotiate a contract specifying student learning goals, potential field learning experiences and the means for evaluating the field learning. Agencies and organizations throughout the state of Washington in rural, urban and regional settings are used as field placements.

Students who wish to complete practicum requirements within their current or former workplace must indicate this desire to the School at the time of admission. This indication does not automatically ensure a practicum in the workplace. Consideration will be given to each request individually. Practicum placements in the workplace must conform with all of the School's existing field practicum requirements.

Courses in the advanced portion of the curriculum prepare students for advanced generalist practice with systems of all sizes. Students develop leadership skills working with clients and communities to advance social justice, particularly for socially excluded, at-risk or marginalized populations. SOWK 602 Clinical Diagnosis and Evidence Based Treatment, SOWK 603 Leadership and Management in Human Service Organizations present theoretical models and specific skills in engagement, assessment and intervention with individuals, families, groups, organizations and communities. SOWK 568 Proseminar in Social Welfare Policies and Programs examines the political context for decisions that affect the lives of clients. SOWK 526 Research Methods II, covers advanced research and evaluation methodologies. Students also choose 16 credits of elective courses to help focus their learning to meet their professional goals. The required Practicum and its related seminar continue throughout each quarter of the advanced portion of the curriculum.

**The Curriculum Delivery Plan**

The MSW curriculum comprises sequenced foundation and advanced coursework. On-campus, full-time students complete the curriculum in two years or six quarters. Off-campus, part-time students complete the program in a sequenced manner over the course of three years or 12 quarters.

**Innovative Program Options**

The School of Social Work offers several ways in which students can focus their programs of study to meet their professional goals.
Certificates typically require 12 credits. In some circumstances, such as the MPA Certificate, all 12 of these elective credits may be used in lieu of Social Work electives. For other certificates only 8 credits can be used in lieu of Social Work electives. Interested students should contact the MSW Advisor, at 509.359.6482, for additional information and/or individuals associated with programs listed below.

**Certification for School Social Work** (http://www.ewu.edu/csbssw/programs/social-work)
The state of Washington requires certification to qualify for employment in the public school system. EWU does not manage the certification process. The School of Social Work offers the course School Social Work and School Law. While a practicum is no longer required for certification, we do offer field placements in school settings.

**Addiction Studies Certificate**
Grace Creasman (gcneasman@ewu.edu), 509.359.2356

The Addiction Studies Graduate Certificate is designed for persons who have completed a bachelor’s or master’s degree with a background in social work or a related field who are interested in obtaining coursework that can lead to certification as a Chemical Dependency Professional. MSW/MPA Dual Degree Program and MPA Certificate

Ning Li (ning.li@ewu.edu), 509.828.1264

Certificate: This 12 credit certificate provides interested students with content in: Planning and Budgeting, Grant Writing and Personnel Management. The Three courses provide elective credit to the MSW degree. Students may also take related courses in Public Administration without pursuing the certificate.

Dual degree: More comprehensive than a Certificate, this cooperative degree option allows students to prepare for professional employment in both social worker and public administration. Interested students are encouraged to review the catalog descriptions in Public Administration to get an overview of the coursework in this field.

**Center for Studies in Aging**
Sharon Bowland (sbowland@ewu.edu), 509.359.4584

The Center provides interested students an opportunity to focus their coursework and practicum experience in the growing area of practice with older adults. Many of the community-based internships offer a stipend to qualified students. The Center sponsors a Scholar-in-Residence and has established strong community and organizational linkages to develop programs that better meet the needs of our aging population.

**MSW/JD Degree**
Offered in collaboration with Gonzaga University Law School (http://www.law.gonzaga.edu), students complete the requirements of both professional programs. Approximately 12 credits are counted toward both programs of study. In consultation with advisors in law and social work, students are placed in practice that address the legal and psychosocial needs of vulnerable clients. Integrative seminars allow students to better identify points of intersection of social work and the law and how practice in one field can enhance work in the other.

**Social Work Major, Bachelor of Arts (BA)**
Note: two years of a single high school foreign language or one year of a single college level foreign language is required.

Total Credits: 76

For information on General Education, see Undergraduate Degree (p. 41).

**Student Learning Outcomes—students will**

- be open to new ideas, think critically and be capable of incorporating evidenced based theories and interventions into their professional social work tasks;
- take a leadership role in understanding, articulating and advocating on behalf of client definitions of social and personal problems, client strengths and client defined solutions;
- base their practices on systems and empowerment theories and ecological and strengths perspectives, as well as other understandings supported by scientific evidence;
- perform a wide range of tasks and roles within the context of organizational and service delivery structures and bring enthusiasm and creativity to generalist social work practice;
- define themselves as professional social workers, guided by social work values and ethical standards which include a deep respect for diversity in all its forms and a commitment to work with populations-at-risk for social justice.
Social Work, Advanced Standing Program, Master of Social Work (MSW)

Summer preparation program (6 credits) is required before entry to second year fall quarter classes.

The one-year Advanced Standing Program is only for persons with a BASW/BSW. In addition to the requirements for admission to the two-year program, the following requirements must be met:

1. a bachelor of social work degree must have been awarded no longer than seven years before the application date and the degree must be from a CSWE accredited undergraduate social work program,

2. an overall undergraduate GPA ≥3.0 (on a 4.0 scale) and a GPA ≥3.5 in BSW course work.

This program requires a total of 51 credits. Foundation or first-year, course requirements are waived because students have received equivalent content in their BSW programs. A 6 credit Professional Preparation Seminar is required to prepare students for their advanced portion of the curriculum.

Advanced Standing Preparation

SOWK 561 ADV. STANDING SEM. 6

Advanced Required Classes

SOWK 526 RESEARCH METHODS II 4
SOWK 568 PROSEMINARS IN SOCIAL WELFARE POLICIES AND PROGRAMS 4
SOWK 581 INTEGRATIVE SEMINAR I 1
SOWK 582 INTEGRATIVE SEMINAR II 1
SOWK 583 INTEGRATIVE SEMINAR III 1
SOWK 584 INTEGRATIVE SEMINAR IV 1
SOWK 602 CLINICAL DIAGNOSIS AND EVIDENCE BASED TREATMENT 4
SOWK 603 LEADERSHIP AND MANAGEMENT IN HUMAN SERVICE ORGANIZATIONS 4

Elective Courses 12

Advanced Practicum/Seminar 13

Total Credits 51

Student Learning Outcomes—students will

- critique and implement evidence and strengths-based intervention models within an ecological practice framework;
- form relationships with community partners to meet client needs and address barriers to social justice across systems of all sizes;
- practice from case to case and back to case, demonstrating an understanding of the interplay between policy and practice and the impact on client systems;
- engage in participatory forms of applied research to solve community problems.

Social Work, Master of Social Work (MSW)

Students are required to complete 90 credits of required and elective coursework (51 credits in the Advanced Standing Program) and must maintain a cumulative GPA ≥3.0.

Prior to earning 45 credits (during fall quarter for Advanced Standing Program), students will develop a contract program in consultation with faculty, outlining the program of courses to be completed for the degree. This contract will be based on the student’s career goals, standards of the profession and the objectives of the School. Development and approval of the contract program will be accomplished in conjunction with advancement to degree candidacy.

A final comprehensive examination will be administered in the student’s final quarter.

Note:

• must maintain a cumulative GPA ≥3.0.

Foundation Curriculum

SOWK 525 RESEARCH METHODS FOR PROGRAM AND PRACTICE EVALUATION 4
SOWK 530 ORGANIZATIONAL AND COMMUNITY PRACTICE 4
SOWK 531 INTRODUCTION TO SOCIAL WELFARE AND POLICY 4
SOWK 532 FOUNDATIONS OF PROFESSIONAL SOCIAL WORK PRACTICE 4
SOWK 533 SOCIAL WORK ASSESSMENT AND PRACTICE WITH INDIVIDUALS AND FAMILIES 4
SOWK 540 HUMAN DEVELOPMENT IN CONTEMPORARY ENVIRONMENTS 4
SOWK 541 SOCIAL WORK PRACTICE IN A DIVERSE SOCIETY 4
SOWK 550 SOCIAL WORK WITH GROUPS 4
SOWK 553 SOCIAL WORK INTERVENTION AND EVALUATION WITH INDIVIDUALS AND FAMILIES 4
SOWK 571 FOUNDATION PRACTICUM/SEMINAR (must be taken for 4) 4
SOWK 580 FIELD PREPARATION 1

Advanced Curriculum in Advanced Generalist Practice

SOWK 526 RESEARCH METHODS II 4
SOWK 568 PROSEMINARS IN SOCIAL WELFARE POLICIES AND PROGRAMS 4
SOWK 581 INTEGRATIVE SEMINAR I 1
SOWK 582 INTEGRATIVE SEMINAR II 1
SOWK 583 INTEGRATIVE SEMINAR III 1
SOWK 584 INTEGRATIVE SEMINAR IV 1
SOWK 602 CLINICAL DIAGNOSIS AND EVIDENCE BASED TREATMENT 4
SOWK 603 LEADERSHIP AND MANAGEMENT IN HUMAN SERVICE ORGANIZATIONS 4
SOWK 671 ADVANCED PRACTICUM/SEMINAR (must be repeated 4, 4, 5) 13

Electives 16

Total Credits 90

Student Learning Outcomes—students will

• critique and implement evidence and strengths-based intervention models within an ecological practice framework;
• form relationships with community partners to meet client needs and address barriers to social justice across systems of all sizes;
• practice from case to cause and back to case, demonstrating an understanding of the interplay between policy and practice and the impact on client systems;
• engage in participatory forms of applied research to solve community problems.

Undergraduate Minors
- Sociology (p. 386)

Undergraduate Programs

Sociology may be defined as the scientific study of human society and the social interactions which emerge among people. Sociology seeks to develop a body of interrelated scientific propositions or generalizations that explain social behavior in holistic terms. Its basic goal is to understand how human beings fit their activities together into a system of stable (and sometimes unstable) social arrangements. As such, sociology focuses on the groups, organizations, institutions and communities which make up the larger society. Sociology seeks to place society in the international setting of today’s changing world. More importantly, it helps us to understand the relationships among these various social units and the implications of these relationships for order and change.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Sociology Major, Bachelor of Arts (BA)

Within the Bachelor of Arts degree, the Department of Sociology and Justice Studies offers a program in sociology, blending career education and the liberal arts. The education goal is not to train students; neither is the goal to educate students solely in sociology. Rather, the goal is to use the discipline as a way to critically synthesize what is learned in a liberal arts program. The program envisaged here provides a general background which will enable the student to move into a variety of career paths, while retaining the opportunity for particular specializations within sociology and thematically related disciplines.

The Department of Sociology and Justice Studies believes that a university must educate broadly to enrich both career and life. Accordingly, students in the Sociology Program will complete social science foundation courses, as well as core disciplinary courses. In order to assist students as they move into a variety of career paths, students will complete elective courses selected under the guidance of a Sociology major advisor.

Note: two years of a single high school foreign language or one year of a single foreign language at college level is required for this major.

• Women’s and Gender Studies with a Prior Learning Option (p. 389)

Undergraduate Certificate
• Gender Studies (p. 388)

Undergraduate Minors
• Women’s and Gender Studies (p. 390)

Undergraduate Programs
Women’s and Gender Studies offers students an interdisciplinary examination of women’s roles, contributions, history and experiences as well as a critical study of gender structures in societies and cultures in the U.S. and the world. It utilizes gender, along with race and class as a category of analysis, helping students investigate the role that gender plays in our history, literature, art, politics, education, sports, health and family.

The Women’s and Gender Studies Program is committed to achieving the following goals:

• to contribute to a broad understanding of interdisciplinary scholarship, theories and practices concerning the role of women and gender in society;
• to enhance the credentials and experience of students preparing for careers in a wide range of fields;
• to increase students’ understanding of diversity and equity in society in accordance with university mission, commitments and initiatives.

Women’s and Gender Studies Programs include the academic program and the Women’s Studies Center. Women’s and Gender Studies and the Center work closely together, the Center maintaining a library and offering numerous presentations and events, both educational and social. The HOME (Helping Ourselves Means Education) information network for non-traditional students is one emphasis of the Women’s Studies Center. Women’s and Gender Studies faculty and Women’s Studies Center staff work with student groups such as HOME, VOX, Scary Feminists and Eagle Pride. Since the program’s purpose is to promote equality of opportunity for women and men, the Women’s Studies Center and the Women’s and Gender Studies academic program welcome participation by all members of the university community.

The Women’s and Gender Studies academic program offers a BA degree in Women’s and Gender Studies, a Women’s and Gender Studies minor and a Gender Studies Certificate.

Women’s and Gender Studies provides critical thinking skills and an understanding of women’s diverse contribution to society, all of which are valuable for a wide variety of careers. This integrated degree program is comprised of courses from a broad array of disciplines in four different colleges and provides a strong foundation in the humanities and social sciences.

The Women’s and Gender Studies major will fulfill partial requirements for a Bachelor of Arts degree. This 45–52 credit major requires the completion of a minor or a certificate and provides students with the opportunity to choose a second major to enhance career or post-graduate study opportunities.

The major includes a prior learning option to allow adult learners who have acquired professional or paraprofessional experience to have their experiential learning evaluated for a block of elective credit.

Required courses in the following programs of study may have prerequisites. Reference the course description section for clarification.

Gender Studies Certificate

An interdisciplinary, critical study of gender and its social impact, designed to increase student understanding of ways in which gender is developed, constructed and expressed in attitudes and institutions of modern societies. The certificate includes a capstone or practicum experience to facilitate students' abilities to apply their knowledge in a variety of occupations.

Notes:
- no more than 3 credits of summer workshop may be counted toward the certificate;
- students who are completing a minor in Women's and Gender Studies as well as a Gender Studies Certificate may only count one course for both the certificate and the minor: WMST 101 or WMST 310.

WMST 495  INTERNSHIP (A concentrated set of experiences in a supervised work setting in which the competencies developed through coursework are utilized in actual practice.)

WMST 499  DIRECTED STUDY (Research Project or Guided Teaching/Instructional Development Experience in consultation with Gender Studies Certificate Coordinator and appropriate faculty member.)

Electives in Area or Interest—see the Distribution List of Courses.  11-13
Required distribution of electives: choose at least two courses from the applied emphasis or applied/theoretical emphasis lists. You may choose up to 5 credits from the theoretical emphasis list.

Total Credits  23-28

Student Learning Outcomes

• convey knowledge of historical perspectives on feminist thought and feminism as a movement;
• analyze connections among societal structures such as gender, race, class, age and sexuality that contribute to women’s oppressions;
• analyze the role of language in producing and perpetuating cultural attitudes;
• apply their theoretical knowledge through an internship or experiential learning.

Gender and Sexuality Studies, Graduate Certificate

Notes:

• prerequisite for certificate program: graduate standing, admission to an EWU graduate program and permission of Graduate Certificate coordinator;
• courses taken at the 400 level may not be retaken for credit at the 500 level; substitutions for core courses may be approved on a case by case basis at the discretion of the director of Women’s and Gender Studies or coordinator of the Graduate Certificate in Gender and Sexuality Studies.

Required Core

<table>

</tbody>
</table>

Required Electives

Choose a minimum of 14 credits of WMST or WMST-cross-listed courses at or above the 400 level to bring the total to a minimum of 23 credits for the certificate. A maximum of 5 credits is permitted at the 400 level; the remaining credits must be at or above the 500 level.

Total Credits  23

Student Learning Outcomes, student will

• synthesize knowledge of historical perspectives on gender and sexuality;
• analyze connections between gender and sexuality and other societal structures such as race, class, age, ability status, etc.;
• synthesize knowledge of global perspectives on gender and sexuality;
• analyze the role of language in producing and perpetuating cultural attitudes about gender and sexuality;

Women’s and Gender Studies Major with the Prior Learning Option, Bachelor of Arts (BA)

Same as Women’s and Gender Studies major above with an added 4 credits for ITDS 300.

The Prior Learning Program provides the adult learner who has acquired specialized professional or paraprofessional experience, the opportunity to have their experiential learning evaluated for a block of elective credit. The credit awarded cannot exceed 45 credits and can only be utilized in the prior learning option. The block of elective credit will count toward the 180 credits needed for the baccalaureate degree, but not toward general education requirements or the major. Documenting prior learning requires ITDS 300 to guide the student in preparation of a portfolio that articulates and validates learning. The portfolio completed in the course can be submitted for evaluation by an Eastern faculty who determines the credit award.

The Prior Learning Option can be taken in conjunction with the 45-credit major.

Distribution List (p. 387) of WMST courses.

Notes:

• two years of a single high school foreign language or one year of a single college level foreign language is required for this major;
• this major requires the completion of a minor or certificate approved by a Women’s and Gender Studies advisor or a second major;
• students must complete at least 25 credits of this major at EWU.

Women’s and Gender Studies Major, Bachelor of Arts (BA)

Distribution List (p. 387) of WMST courses.

Notes:

• two years of a single high school foreign language or one year of a single college level foreign language is required for this major;
• this major requires the completion of a minor or certificate approved by a Women’s and Gender Studies advisor or a second major;
• students must complete at least 25 credits of this major at Eastern Washington University.

Required

Introductory Courses—choose one of the following 4-5
WMST 101  INTRODUCTION TO WOMEN’S STUDIES
or HUMN 101  INTRODUCTION TO WOMEN’S STUDIES
WMST 310  ISSUES IN WOMEN’S STUDIES
or HUMN 310  ISSUES IN WOMEN’S STUDIES

Foundation Courses—choose one of the following 4-5
CSBS 310  FOUNDATIONS OF SOCIAL AND BEHAVIORAL SCIENCES THEORY
CSBS 320  INTRODUCTORY STATISTICS FOR THE SOCIAL SCIENCES
DSCI 245  DATA ANALYSIS FOR BUSINESS

Core Courses
WMST 410  FEMINIST THEORY 4
or HUMN 410  FEMINIST THEORY
WMST 490  SENIOR CAPSTONE SEMINAR 4

Experiential Learning Requirement—choose one of the following 4
WMST 495  INTERNSHIP

Electives/Breadth Courses—choose from the WMST course distribution list to meet the minimum of 49 credits for the major. The courses must include cross-listings with at least three different departments/disciplines. 23-25

Total Credits 49-51

For information on General Education, see Undergraduate Degree (p. 41).

Student Learning Outcomes—students will

• demonstrate knowledge of historical perspectives on feminist thought and feminism as a movement;
• analyze connections among societal structures such as gender, race, class, age and sexuality that contribute to women’s oppressions;
• demonstrate knowledge of global perspectives on gender and/or women’s issues;
• demonstrate knowledge of women’s individual and collective cultural contributions;
• analyze the role of language in producing and perpetuating cultural attitudes;
• demonstrate familiarity with the multiplicity of views within feminist scholarship.

Women’s and Gender Studies, Minor

A Women’s and Gender Studies (WMST) minor complements majors in a variety of disciplines. It provides a theoretical, interdisciplinary approach to the critical examination of women’s roles, contributions, history and experiences and of gender structures in societies and cultures in the U.S. and the world.

The minor may also be taken in partial fulfillment of requirements for the Bachelor of Arts degree in Interdisciplinary Studies.

Distribution List (p. 387) of WMST courses.

Notes:

• students should consult with the Women’s and Gender Studies director on choice of electives—see distribution list below;
• students who are completing a minor in Women’s and Gender Studies as well as a Gender Studies Certificate may only count one course for both the certificate and the minor: WMST 101 or WMST 310;
• no more than 8 credits from the Applied Emphasis of the Distribution List will count toward the minor;
• no more than 3 credits of summer workshops may be counted toward the minor.

Required Courses
WMST 101  INTRODUCTION TO WOMEN’S STUDIES 4-5
or HUMN 101  INTRODUCTION TO WOMEN’S STUDIES
or WMST 310  ISSUES IN WOMEN’S STUDIES
or HUMN 310  ISSUES IN WOMEN’S STUDIES
WMST 410  FEMINIST THEORY 4
or HUMN 410  FEMINIST THEORY

Women’s and Gender Studies Electives
To bring total to 22 credits, select 13-14 credits of upper division courses from the WMST distribution list.

| Total Credits | 22-23 |
COURSE LISTINGS

Accounting (ACCT)

ACCT 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 2 Credits.

ACCT 251. PRINCIPLES OF FINANCIAL ACCOUNTING. 5 Credits.
Pre-requisites: sophomore standing.
Introduction to the underlying principles of financial accounting and the application of such data to financial decisions.

ACCT 252. PRINCIPLES OF MANAGEMENT ACCOUNTING. 4 Credits.
Pre-requisites: ACCT 251.
Introduces the principles and techniques of managerial accounting. Emphasizes the use of information outputs from the managerial accounting information system in making managerial decisions.

ACCT 261. BUSINESS LAW. 4 Credits.
Pre-requisites: sophomore standing.
Law as it applies to the business world. Explores background of our system of legal process. Examines law and its social environment and its impact on business organizations and transactions.

ACCT 299. DIRECTED STUDY. 1-10 Credits.

ACCT 351. INTERMEDIATE ACCOUNTING I. 4 Credits.
Notes: ACCT 351, ACCT 352, ACCT 353 are sequential and cannot be taken out of order or concurrently.
Pre-requisites: ACCT 251.
Financial accounting principles and practice: postulates and principles underlying the presentation and interpretation of financial statements, including: working capital, investments, plant assets, long-term liabilities, partnership formation, partnership dissolution and stockholders’ equity.

ACCT 352. INTERMEDIATE ACCOUNTING II. 4 Credits.

ACCT 353. INTERMEDIATE ACCOUNTING III. 4 Credits.

ACCT 356. COST ACCOUNTING I. 4 Credits.
Pre-requisites: completion of CPLA 100 and CPLA 101 or CPLA 120; completion of a math course that satisfies math proficiency (MATH 200 is highly recommended), ACCT 251, ACCT 252, DSCI 245, junior standing. Cost determination and control: cost accounting theory and accounting for manufacturing operations. Emphasis on historic and standard costs, standard cost variance determination, budgeting and cost allocation.

ACCT 357. COST ACCOUNTING II. 4 Credits.
Pre-requisites: ACCT 356.
Cost analysis and control principles and methods applied to manufacturing operations and decision making: applications of information theory to cost accounting reports and decision making; applications of information theory to cost accounting reports and decision processes.

ACCT 358. ACCOUNTING FOR NON-PROFIT ENTITIES. 4 Credits.
Pre-requisites: ACCT 251.
Concepts, principles and procedures of fund accounting and accounting for not-for-profit entities. Emphasis on accounting principles and budgetary control, financial reporting and auditing for effective financial administration of governmental and other non-profit entities.

ACCT 359. ACCOUNTING SYSTEMS. 4 Credits.
Pre-requisites: ACCT 351, ACCT 356, and MISC 211.
This course covers the application of concepts and techniques for the design, function, separation and evaluation of accounting systems. The course also focuses on accounting system design and evaluation in providing timely information along with problems in accounting-system installation and revision.

ACCT 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ACCT 422. ADVANCED BUSINESS LAW. 4 Credits.
Pre-requisites: ACCT 261; senior standing.
Business ethics and social responsibility; public law and regulation including securities law, antitrust law, consumer law, labor law, and debtor/creditor relations.

ACCT 450. AUDITING. 4 Credits.
Pre-requisites: ACCT 353, ACCT 356, ACCT 359.
Generally accepted auditing standards and principles; auditing objectives and methodology; ethical responsibility of the C.P.A. in financial reporting and auditing.

ACCT 451. ADVANCED AUDITING. 4 Credits.
Pre-requisites: ACCT 450.
Special topics in auditing with emphasis on EDP and statistical auditing. Auditing objectives, methodology, and generally accepted auditing standards as they relate to EDP and statistical auditing. Practical audit experience through hands-on computer use on audit cases.

ACCT 452. CONTEMPORARY ACCOUNTING THEORY. 4 Credits.
Pre-requisites: ACCT 353, ACCT 356 and ACCT 359.
This course covers contemporary accounting issues and their theoretical implications; review of accounting literature and research studies and pronouncements of the FASB and other professional organizations.

ACCT 453. ADVANCED ACCOUNTING. 4 Credits.
Selected special topics in financial accounting. Emphasis on financial accounting theory for partnerships, corporate combinations, and other selected advanced topics in financial accounting. Study of official pronouncements and major literature in the above areas.

ACCT 454. FEDERAL INCOME TAX I. 4 Credits.
Pre-requisites: ACCT 251.
Provisions and principles of federal income tax laws affecting the determination of taxable income, tax liability and tax planning for individuals.

ACCT 455. FEDERAL INCOME TAX II. 4 Credits.
Pre-requisites: ACCT 454.
Provisions and principles of federal income tax laws affecting the determination of taxable income and tax liability of corporations and information returns and tax planning for partnerships.

ACCT 456. FEDERAL INCOME TAX III. 4 Credits.
Special topics in federal income taxation. Emphasis on tax research and planning. Designed for specialists in tax work. Technical aspects of taxation - estates, trust, pension and profit-sharing plans, foreign income/foreign taxpayers and audits - tax fraud, rules of evidence and ethics of tax practice.

ACCT 495. PROFESSIONAL INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
ADST 196. EXPERIMENTAL COURSE. 1-5 Credits.

ADST 300. SURVEY OF ALCOHOL/DRUG PROBLEMS. 4 Credits.
Students will learn international and current definitions of alcohol and drug use, abuse and addiction. Recognition of misuse as a social problem and the evolution of social policy and attitudes. Socio-cultural and cross-cultural aspects of chemical dependency, including vulnerable populations—women, youth, elderly and ethnic-cultural groups. Identification and progression of symptoms and disease including the impact on individuals, family and society. Special focus on addressing drug problems personally and professionally with an overview of contemporary treatment modalities.

ADST 302. COUNSELING THEORIES FOR THE ADDICTION PROFESSIONAL. 4 Credits.
Students study the principal theories and techniques of therapeutic and counseling relationships with particular focus on those designed for or adept in addressing defense mechanisms and resistance characteristic of addiction.

ADST 303. HIV/AIDS AND ADDICTION TREATMENT. 2 Credits.
This course presents the study of the impact of air- and blood-borne pathogens and the role of the human service clinician. Students will review the theory and technique for effectively addressing issues of alcohol and drug use for the at-risk person and the issues of risk of exposure for the drug abusing individual. Physiology, epidemiology, risk assessment, legal/ethical issues and societal implications of HIV and other pathogens will be presented. This course is appropriate for students of any discipline but is approved by the DSHS/DASA for state chemical dependency counselor qualification.

ADST 304. PSYCHOLOGY OF ADDICTION. 3 Credits.
This course develops knowledge and functional understanding of the psychology of addiction as supported by the most recent professional theories being presented to date. The concepts of the destructive behaviors associated with addictions of all types are explored. Some to be included will be chemicals, gambling, food, sex, relationship, work, and exercise. This course will explore the ideas of causality and social implication in addictions. The history of our nation in regards to addictions is also a topic of discussion. The various approaches to treatment, alternatives, and social issues are investigated.

ADST 308. CULTURAL ISSUES IN ADDICTION TREATMENT AND BEHAVIORAL HEALTH. 4 Credits.
Pre-requisites: ENGL 101.
Satisfies: cultural and gender diversity university graduation requirement.
Students examine issues regarding the treatment of persons from different cultural and ethnic backgrounds –persons with disabilities (physical, cognitive), GLBTQ individuals, women and the elderly—by the mainstream culture of the U.S. in health care, addiction treatment, educational settings and other social venues.

ADST 350. ADDICTION STUDIES PRACTICUM SEMINAR. 1 Credit.
Notes: graded Pass/Fail.
Pre-requisites: ADST 300, ADST 302 and ADST 412 or permission of instructor.
This course is designed to prepare students to enter into the ADST practicum experience. Students will make application to practicum, obtain proper state-required paperwork and review practicum assignment.

ADST 385. ADDICTION STUDIES PRACTICUM I. 2 Credits.
Pre-requisites: successful completion of or currently enrolled in ADST 350 or permission of instructor.
Students will obtain an opportunity to integrate and develop their knowledge and skills in an appropriate and relevant setting that will assist in their development as addiction treatment or prevention professionals.

ADST 395. INTERNSHIP. 1-3 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Placement in an alcohol/drug prevention or treatment facility to observe and study the application of theory and technique toward generalization to the student’s principal discipline. When the field experience placement is in a state certified alcohol/drug treatment facility, the hours apply toward chemical dependency counselor state certification.

ADST 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ADST 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects vary relative to faculty and student interests.

ADST 410. COMMUNITY PREVENTION METHODS. 4 Credits.
This course explores the role the media plays in prevention, such as media advocacy, media literacy, social marketing and social norms marketing. This course will also discuss the requirements for prevention credentialing in Washington state.

ADST 412. PHYSIOLOGY AND PHARMACOLOGY OF ADDICTIONS. 4 Credits.
Pre-requisites: ADST 300 or permission of instructor.
This course covers information on the physical impact and the response of the human body to alcohol, psychoactive substances and addictive behaviors through the study of fundamentals of pharmacokinetics, neurological functions and current research findings. Concepts and terminology essential for working on a professional addiction treatment team and for communicating with patients and families are covered. There is special focus on effective intervention strategies for each class of drug and for working with a variety of addictive behaviors.

ADST 420. ALCOHOL/DRUG CASE MANAGEMENT. 4 Credits.
Pre-requisites: completion of ADST 300 and ADST 302 or permission of the instructor.
This course builds on the theoretical and technical principles and skills addressed in ADST 302. Thorough review of approaches and philosophies of case management and its essential role in effectively addressing the complexity of multiple-issue recovery, including dual-diagnosis, gender and sexuality issues, suicide and relapse. Includes established national and regional standards of care in treatment planning, record keeping and discharged and aftercare planning.
ADST 300. SCREENING AND ASSESSMENT FOR CO-OCCURRING DISORDERS. 4 Credits.
Pre-requisites: ADST 300.
This course is designed to assist social work, mental health counseling students and chemical dependency professional trainees (students) in obtaining the skills needed to conduct an accurate substance abuse assessment and to determine the appropriate level of treatment by understanding accepted criteria for diagnosis and substance abuse/mental illness. Selected clinical interventions from each of these evidence-based treatment modalities will be taught and practiced for both group work and individual therapy. Clinical approaches, treatment planning, placement, and medications used to treat COD will also be discussed.

ADST 300. SCREENING AND ASSESSMENT FOR CO-OCCURRING DISORDERS. 4 Credits.

ADST 430. ADDICTION TREATMENT WITH FAMILIES. 4 Credits.
Pre-requisites: ADST 300 or ADST 302.
This course examines the dynamics of family in relationship to chemical dependency and models of family counseling, including overviews of structural, strategic, transgenerational, growth-oriented, behavioral, and solution-focused theories as applied to chemical dependency.

ADST 440. ALCOHOL/DRUG GROUP COUNSELING. 3 Credits.
WINTER/SPRING Students will review the theoretical foundations of group dynamics and therapy as applied to alcohol/drug treatment clientele. They will explore the design, leadership, and applications of therapy groups via a combination of lecture readings and experimental lab activities. Emphasis will be placed on learning to observe, understand, and guide the group dynamics as they occur.

ADST 442. SCREENING AND ASSESSMENT FOR CO-OCCURRING DISORDERS. 4 Credits.
Pre-requisites: ADST 300.
This course is designed to assist social work, mental health counseling students and chemical dependency professional trainees (students) in obtaining the skills needed to conduct an accurate substance abuse assessment and to determine the appropriate level of treatment by understanding accepted criteria for diagnosis and substance abuse/mental illness. Selected clinical interventions from each of these evidence-based treatment modalities will be taught and practiced for both group work and individual therapy. Clinical approaches, treatment planning, placement, and medications used to treat COD will also be discussed.

ADST 444. TREATING CO-OCCURRING DISORDERS. 4 Credits.
This class will establish a better understanding of the inherent complexities of co-occurring disorders (COD) and develop a variety of clinical skills necessary in the treatment of COD. We will explore the principles of cognitive-behavioral therapy, solution-focused therapy, motivational enhancement therapy, and brief therapy approaches to both substance abuse and mental illness. Selected clinical interventions from each of these evidence-based treatment modalities will be taught and practiced for both group work and individual therapy. Clinical approaches, treatment planning, placement, and medications used to treat COD will also be discussed.

ADST 446. BEST PRACTICES IN SUBSTANCE ABUSE AND MENTAL HEALTH INTERVENTION. 4 Credits.
Motivational interviewing (MI) is an effective evidence-based approach to overcoming the factors that keep people from making desired changes in their lives, even after seeking or being referred to professional treatment. The first half of this course reviews the conceptual and research background supporting MI and the Transtheoretical model of change (SOC) and provides practice in implementing the skills involved in their approaches. The second half of this course will be an overview of dialectical behavioral therapy (DBT) and how it can be applied when working with chemically dependent clients. Each of the four skill modules will be covered. Students will also become familiar with techniques such as commitment strategies, diary cards, and coaching.

ADST 452. TOPICS IN CONTINUING EDUCATION. 1 Credit.
Notes: graded Pass/Fail.
These courses are designed to teach behavioral health, chemical dependency, and healthcare providers with legal responsibilities for the assessment, management, and care of consumers/patients.
ADST 484. SUICIDE PREVENTION. 3 Credits.
Pre-requisites: ADST 300.
Students examine a brief history of suicidal beliefs and explore present-day suicidal issues that are considered a public health problem. The goals, objectives and strategies of the Surgeon General’s National Strategy for Suicide Prevention and the public health model are discussed in an effort to provide students with tools to examine current programs, media literacy, barriers treatment and research, and cultural & social factors of suicide prevention.

ADST 485. ADDICTION STUDIES PRACTICUM II. 2 Credits.
Pre-requisites: ADST 350 or permission of instructor.
Students will build on experience and strengths developed in Practicum I to prepare them to work independently in the addiction or prevention field.

ADST 495. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Placement in an alcohol/drug prevention or treatment facility which supports the opportunity to learn knowledge and skill by providing direct service. Regular seminars are held for processing and integrating concepts and techniques and addressing professional issues. When the practicum placement is in a state certified alcohol/drug treatment facility, the hours apply toward chemical dependency counselor qualification.

ADST 496. EXPERIMENTAL COURSE. 1-5 Credits.
ADST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-4 Credits.
Subjects vary according to faculty and student interest.
ADST 498. SEMINAR. 1-5 Credits.
ADST 499. DIRECTED STUDY. 1-4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ADST 501. RELAPSE PREVENTION. 2 Credits.
Relapse is not a single event but a process that takes place over time. This class will investigate that process by examining the principles and procedures of relapse prevention therapy. It will also focus on the developmental model of recovery to explore major causes of relapse in each stage of recovery. Another major focus of this class will be to address client relationship with family, employment, education, spirituality, health concerns and legal needs.

ADST 502. COUNSELING THEORIES FOR ADDICTION PROFESSIONALS. 2 Credits.
This course is intended to provide students with specific counseling theory information necessary to meet state requirements for Chemical Dependency Professional certification.

ADST 504. ADOLESCENT ADDICTION ASSESSMENT AND TREATMENT. 4 Credits.
This course will emphasize the unique developmental stages of adolescence and the ways in which substance use/abuse/dependency harm the adolescent’s worldview. The various methods used when providing interventions and treatment will be explored along with assessment requirements specified by the state. This course will expand the issues of the family system as context for recovery using traditional resources and innovative approaches in adolescent chemical dependency treatments.

ADST 512. PHARMACOLOGICAL ACTIONS OF ALCOHOL AND OTHER DRUGS. 4 Credits.
Students will review the physical impact and the response of the human body to alcohol and other drugs of abuse through study of the fundamentals of pharmacokinetics, neurologic functioning and current research findings. They will also learn concepts and terminology essential for working on a professional treatment team and for communicating with patients and families. There will be special focus on effective intervention strategies for each class of drug.

ADST 520. CASE MANAGEMENT. 4 Credits.
This course provides a thorough review of approaches and philosophies of case management and its essential role in effectively addressing the complexity of multiple-issue recovery, including dual-diagnosis, gender and sexuality issues, suicide and relapse. Includes established national and regional standards of care in treatment planning, record keeping and discharged and aftercare planning.

ADST 530. ADDICTION TREATMENT WITH FAMILIES AND DIVERSE POPULATIONS. 4 Credits.
This course uses the Addiction Counseling Competencies to explore the complex issues of family in relation to addiction and models of family counseling. Additionally, this class will include information on diverse cultures, to incorporate the relevant needs of culturally diverse groups, as well as people with disabilities, into clinical practice.

ADST 535. LAW AND ETHICS FOR ADDICTION PROFESSIONALS. 4 Credits.
Students will be exposed to fundamental and technical study of the law, policy, malpractice and liability regarding chemical dependency prevention and treatment practice. Strong focus will be on the contemporary issues of the field relative to current policy and the development of professional knowledge and skills that support ethical and effective practice. Application of ethics for chemical dependency clinicians.

ADST 542. SCREENING AND ASSESSMENT OF CO-OCCURRING DISORDERS. 4 Credits.
This course is designed to assist the Master-level Social Worker, mental health counseling student and chemical Dependency Professional Trainees (students) in obtaining the necessary skills needed to conduct an accurate substance abuse assessment/evaluation and determine appropriate level of treatment. Further, the student will gain an understanding of mental health diagnosis utilizing screening, assessment and diagnostic tool. Students will explore specific skills such as building rapport, gathering data, determining the client’s readiness for change, understanding accepted criteria for diagnosis (DSM IV-TR), understanding placement criteria (ASAM), utilizing assessment instruments, analyzing and interpreting data documenting assessment findings and making appropriate treatment recommendations.

ADST 544. TREATING CO-OCCURRING DISORDERS. 4 Credits.
This class will establish a better understanding of the inherent complexities of co-occurring disorders (COD) and develop a variety of clinical skills necessary in the treatment of COD. We will explore the principles of Cognitive-Behavioral Therapy, Solution-Focused Therapy, Motivational Enhancement Therapy and Brief Therapy approaches to both substance abuse and Mental Illness. First clinical interventions from each of these evidenced-based treatment modalities will be taught and practiced for both group work and individual therapy. Clinical approaches, treatment planning, placement and medications used to treat COD will also be discussed.
ADST 546. BEST PRACTICE INTERVENTION. 4 Credits.
Motivational interviewing (MI) is an effective evidence-based approach to overcoming the factors that keep people from making desired changes in their lives, even after seeking or being referred to professional treatment. The first half of this course reviews the conceptual and research background supporting MI and the transtheoretical model-stages of change (SOC) and provides practice in implementing the skills involved in their approaches. The second half of this course will be an overview of dialectical behavioral therapy (DBT) and how it can be applied when working with chemically dependent clients. Each of the four skill modules will be covered. Students will also become familiar with techniques such as commitment strategies, diary cards and coaching.

ADST 561. SPECIAL TOPICS. 1-4 Credits.
Various topics of concern to addiction professionals in the field of addiction treatment and prevention will be presented to educate students about emerging or recurring issues and concerns.

ADST 595. ALCOHOL/DRAUG PRACTICUM I. 1-4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual learning and career development course with placement in an alcohol/drug treatment or prevention facility coordinated through the Addiction Studies Program.

ADST 596. EXPERIMENTAL. 1-5 Credits.

ADST 695. ALCOHOL/DRAUG PRACTICUM II. 1-4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual learning and career development course with placement in an alcohol/drug treatment or prevention facility. Placement in an alcohol/drug treatment or prevention facility supports the opportunity to learn knowledge and skills by providing direct service with agency supervision. Regular seminars are held for processing and integrating concepts and techniques and addressing professional issues. When practicum placement is in a state certified alcohol/drug treatment facility, the hours may also apply toward chemical dependency counselor state certification.

African Studies (AAST)

AAST 101. INTRODUCTION TO AFRICAN STUDIES. 5 Credits.
This course is a critical survey of the major themes, issues, concepts, methods, philosophies, theories and scholars in the discipline of Africana studies and its historic origin and evolution.

AAST 196. EXPERIMENTAL COURSE. 1-5 Credits.

AAST 214. AFRICAN AMERICAN CULTURE AND EXPRESSIONS. 5 Credits.
Cross listed: HONS 214, HUMN 214.
Satisfies: cultural and gender diversity university graduation requirement.
An interdisciplinary survey of African American culture beginning with ancient African history and traditions through contemporary issues in the African American experience. Attention given to basic principles of history, sociology, political science, economics and the arts in the study of the dynamics of the African American culture.

AAST 215. EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
Examines the African American experience from African civilizations in the 4th century AD through slavery to the end of the Reconstruction era in the United States.

AAST 220. AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT. 5 Credits.
Cross listed: HONS 220, HIST 220.
Satisfies: the GECR for social sciences, list 3, history.
The study of African American history from the perspective of the African American experience since the end of the Reconstruction period.

AAST 222. AFRICAN AMERICAN ECONOMICS. 5 Credits.
Focuses on the economic conditions of African Americans, presenting an analysis of economic problems confronting them, and institutional aspects of those problems.

AAST 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Studies vary according to faculty and student interest.

AAST 301. HARLEM RENAISSANCE: RECONSTRUCTION TO 1930. 5 Credits.
A selective and objective study of the cultural, ideological, and political contributions of African Americans during the period 1918-1929.

AAST 310. AFRICAN AMERICAN SOCIAL AND INTELLECTUAL THOUGHT FROM BOOKER T. WASHINGTON TO CORNEL WEST. 5 Credits.
Pre-requisites: AAST 214.
This course articulates, defines and analyses the significant social thoughts, strategies and philosophies of black intellectuals through the 20th century to the present as they sought to address and propose viable solutions to the color-line.

AAST 315. AFRICAN HISTORY: ANCIENT AFRICA TO MANDELA. 5 Credits.
Cross listed: HIST 315, HONS 315.
Satisfies: international studies university graduation requirement.
A survey of African history from prehistory to the present. Emphasizes earlier African civilizations, extensive contact with the outside world and the formation of African nations.

AAST 320. AFRICAN AMERICAN FAMILY. 5 Credits.
Cross listed: SOCI 371, SOWK 320.
The African American Family as a social system influenced by institutions of the larger American society.

AAST 321. AFRICAN AMERICAN POLITICAL AWARENESS. 5 Credits.
Issues of African American political power and awareness as they relate to several studies of macro and micro institutional racism with alternatives for racial change.

AAST 331. HISTORY AND DYNAMICS OF U.S. SLAVERY. 2 Credits.
This class involves a brief examination of North American slavery, its background, its dynamics, and its legacy. Special attention will be given to issues regarding U.S. race relations today.

AAST 347. PEOPLES OF AFRICA. 5 Credits.
Cross listed: ANTH 347.
A comparative view of tradition and change in sub-Saharan Africa.
AAST 375. AFRICAN AMERICAN CINEMA: 1915–1990. 5 Credits. African American cinema explores the history of African Americans in films, focusing particularly on Hollywood’s representations of Blacks in feature length films. The course examines such issues as the representations of race, gender, and sexuality through observing and discussing feature films in class. Great emphasis will be placed on critical viewing, thinking, analyzing and writing about films. Ultimately, the course will not only investigate Hollywood’s representations of African Americans, but also will examine the struggle and emergence of independent, African American produced films which offer a separate and unique voice that not only challenges Hollywood’s representations, but also expresses themes involving cultural identity.

AAST 381. CONTEMPORARY AFRICAN AMERICAN LITERATURE. 5 Credits.
Cross listed: ENGL 381.
Major African American literature of the 20th century: fiction, poetry, essay, autobiography and drama.

AAST 395. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Internships vary according to program and student interest.

AAST 396. EXPERIMENTAL COURSE. 1-5 Credits.

AAST 399. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: sophomore standing: permission of the instructor, department chair and college dean.
Studies vary according to faculty and student interest.

AAST 424. ECONOMICS OF POVERTY AND DISCRIMINATION. 5 Credits.
Cross listed: ECON 424, WMST 426.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Causes of poverty and evaluation of anti-poverty programs. Examines economic theories of discrimination from different perspectives with a particular focus on issues of gender and race.

AAST 430. AFRICAN AMERICAN WOMEN’S HISTORY. 5 Credits.
Cross listed: WMST 430.
Pre-requisites: ENGL 201.
This course examines historical writings by and about Black women, discussing slavery, lynching, combating prejudices and encouraging racial pride to provide a framework that will deepen understanding of the topic.

AAST 435. NEGRO SPIRITUALS. 1 Credit.
This course offers an immersion in the music and culture of enslaved Africans to understand how and why the music developed. The purpose of the music then and now is examined as well as its impact on modern music.

AAST 465. SLAVERY IN THE NEW WORLD. 5 Credits.
Cross listed: HIST 465.
This course traces new world slavery from its origins in the islands off the west coast of Africa to the end of slavery in United States, Cuba and Brazil in the late nineteenth century. Topics covered include the Atlantic slave trade, the effects of the slave trade on Africa, the Haitian Revolution, slavery and the Enlightenment philosophies, the profitability of slavery and the abolition movement.

AAST 466. SLAVERY IN THE U.S.. 5 Credits.
Cross listed: HIST 466.
This course covers the rise and fall of slavery in the United States and its colonial antecedents. Topics include the transition from indentured servitude to slavery in the Chesapeake in the 1680s, the role slaves played on both sides of the Revolutionary War, the rise of the Cotton Kingdom, the political controversy over slavery, the rise of the abolition movement and the disintegration of slavery during the Civil War.

AAST 481. DR. KING AND MALCOLM X: A COMPARISON. 2 Credits.
This class involves a brief examination into the backgrounds, lives and careers of Dr. King and Malcolm X. Comparison and contrast will be employed to gain a deeper insight into the ideology and effectiveness of each leader with regard to the civil rights movement.

AAST 495. AFRICANA STUDIES INTERNSHIP. 1-5 Credits.
Notes: graded Pass/Fail.
Pre-requisites: junior standing: permission of the instructor, department chair and college dean.
This course requires a supervised student practicum in the internal or external African or African American endeavor. May be but not limited to designing or working on a particular project or event for the betterment of an aspect of the African or African American lived experience on campus or in the surrounding area.

AAST 496. EXPERIMENTAL COURSE. 1-15 Credits.

AAST 497. AFRICANA STUDIES WORKSHOP. 1-5 Credits.
Workshops are held to examine issues in this area.

AAST 498. SEMINAR. 1-5 Credits.

AAST 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Directed study and research projects vary according to faculty and student interest.

Aging Studies (AGST)

AGST 310. MULTIDISCIPLINARY STUDIES IN AGING. 5 Credits.
Required of all students in the minor, this course draws upon a number of disciplines and fields (primarily biology, psychology, social work, sociology, economics, nutrition and dietetics, and ethnic perspectives) to provide a balanced view of both normal and problem aspects of aging. Presents theoretical issues and aspects of aging as well as programs, services and issues involved in working with older persons.

AGST 399. SPECIAL STUDIES. 1-5 Credits.

AGST 410. MINORITY PERSPECTIVES IN AGING. 3 Credits.
Pre-requisites: AGST 310 or special permission of the instructor.
Required of all students in the minor, this course is oriented toward a critical examination of the variations in aging experiences of minority elderly in the United States. Its focus is on the most salient themes, orientations and dimensions of the problems and processes of aging in the broader cultural tradition within each ethnic minority group. Particular attention paid to biological, material and historical bases of such dimensions, regional variations among populations and the effects of such past events as conquest and colonialism.
AGST 455. SOCIAL POLICY AND PROGRAMS IN AGING. 3 Credits.
Cross listed: SOWK 455.
Pre-requisites: AGST 310 or permission of the instructor.
Social welfare policies and programs serving the aged are examined, past and present, in terms of their overall impact on the aged and on society at large. The needs and gaps in services to the aged are evaluated, as well as the adequacy with which these services are delivered and the response of programs and services to the changing needs of the aged.

AGST 456. THE OLDER WOMAN. 4 Credits.
Cross listed: SOWK 456, WMST 456.
Pre-requisites: junior standing.
This course examines the research and practice knowledge on the social, economic and health problems confronting older women. Older women’s needs and potential for change are considered. The course explores U.S. social policy and program alternatives that work to improve the status and quality of life for a growing and diverse population of older women.

AGST 457. CLINICAL ASSESSMENT IN MIDLIFE AND OLDER ADULTS. 4 Credits.
Cross listed: SOWK 457.
Pre-requisites: junior standing or permission of instructor.
An introduction to the assessment skills required for professional social work practice in mental health and other clinical settings dealing with the elderly. The course is intended for social work practitioners.

AGST 458. PERSPECTIVES ON DEATH AND DYING. 4 Credits.
Cross listed: SOWK 458.
This course is designed to assist students in the helping professions who wish to work with the terminally ill. Focus will be on an increased ability to deal with one’s own mortality; the development of beginning skills for working with the terminally ill and their families; an understanding of the complex social system which surrounds death in modern America; as well as the current moral, ethical and philosophical issues in the field.

AGST 496. EXPERIMENTAL COURSE. 1-5 Credits.
AGST 499. DIRECTED STUDY. 1-5 Credits.

American Sign Language (ASL)

ASL 376. SIGN LANGUAGE I. 3 Credits.
ASL 377. SIGN LANGUAGE II. 3 Credits.
Pre-requisites: ASL 376 or permission of the instructor.
Further instruction in the development of expressive and receptive skills in American Sign Language, development of more advanced vocabulary and the use of space and expression as a part of the linguistic form of this visual language. Includes exploration into the structure of the deaf culture.

ASL 378. SIGN LANGUAGE III. 3 Credits.
Pre-requisites: ASL 376, ASL 377 or permission of the instructor.
Further instruction in the development of expressive and receptive skills in American Sign Language, development of more advanced vocabulary and the use of space and expression as a part of the linguistic form of this visual language. Includes exploration into the structure of the deaf culture.

Anthropology (ANTH)

ANTH 101. CULTURAL ANTHROPOLOGY. 5 Credits.
Satisfies: the GECR for social sciences, list 2, anthropology, geography, psychology and sociology.
An introduction to the study of man with principal emphasis on culture.

ANTH 161. INTRODUCTION TO CHICANO CULTURE. 5 Credits.
Cross listed: CHST 101.
Satisfies: cultural and gender diversity university graduation requirement.
A study of Chicano culture providing an initial overview of its roots and conflicts. Specific components discussed are cultural identity, customs, language, psychology and the arts.

ANTH 195. INTERNSHIP. 1-5 Credits.

ANTH 197. FRESHMAN SEMINAR. 2 Credits.

ANTH 201. LATINAS/OS IN CONTEMPORARY AMERICAN SOCIETY. 5 Credits.
Cross listed: CHST 201.
Satisfies: cultural and gender diversity university graduation requirement.
The following course examines the experience of the other Latinos (Hispanics) in the United States: Puerto Rican, Cuban American and Central Americans. The course presents a brief historical overview of their entrance in American society and a demographic comparison of significant socio-economic variables of the groups. The primary focus of the course is to examine the social and cultural profile of the Puerto Rican, Cuban and Central American groups in the U.S. The course covers historical, social and cultural themes, which include the impact of American institutions on identity, culture, language, the family and the future implications of immigration from Latin America.

ANTH 296. EXPERIMENTAL COURSE. 1-5 Credits.

ANTH 299. SPECIAL STUDIES. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ANTH 301. PRINCIPLES OF ARCHAEOLOGY. 5 Credits.
A comprehensive survey of the field of archaeology which will introduce students to the methods of field excavation and reconstruction employed by scientific archaeologists in the reconstruction of prehistoric cultures.

ANTH 302. VISUAL ANTHROPOLOGY. 5 Credits.
Pre-requisites: sophomore standing.
The varied forms of communication are an essential aspect of human diversity. This course explores ethnographically how visual forms—from traditional ritual and performance to modern television and industrial design—communicate sociocultural ideas and practices.

ANTH 310. SILK ROAD AND CENTRAL ASIA. 3 Credits.
An ethnoarchaeographic survey of societies in the Eurasian region including Russia, Mongolia, Kazakhstan, Kyrgyzstan, Tajikistan, Uzbekistan, Turkmenistan and China, emphasizing post-socialist development.

ANTH 320. MIDDLE EASTERN HISTORY AND CULTURE. 5 Credits.
Cross listed: GEOG 320, HIST 320.
Examines the various ethnic, religious and national communities of the Middle East in historical and contemporary context.

ANTH 336. GEOGRAPHIES OF CONFLICT IN THE MIDDLE EAST. 5 Credits.
Cross listed: GEOG 336/HIST 336.
Examines the Middle East and its various ethnic, political, economic, religious and environmental conflicts from a geographic perspective. The course’s holistic combination of geographic and anthropological inquiry will offer insights into how the natural environment and built environment interact and engage with the cultural and political landscapes of the Middle East.

ANTH 342. TRIBES, BANDS AND CHIEFDOMS. 5 Credits.
Cross listed: HONS 342.
Satisfies: international studies university graduation requirement.
Approaches to understanding non-state societies and an examination of how their cultures contrast with each other and with our own way of life.
ANTH 345. PHYSICAL ANTHROPOLOGY. 5 Credits.
An introduction to the origin, genetic adaptation, and evolution of living and extinct humans.

ANTH 347. PEOPLES OF AFRICA. 5 Credits.
Cross listed: AAST 347.
A comparative view of tradition and change in sub-Saharan Africa.

ANTH 348. PEASANT SOCIETIES. 5 Credits.
Satisfies: international studies university graduation requirement.
World survey of what it means to be a peasant; relationship between communities and larger political wholes; revolutionary and protest movements and their future prospects.

ANTH 349. MAJOR CIVILIZATIONS OF ASIA. 5 Credits.
Cross listed: HONS 349.
Satisfies: international studies university graduation requirement.
An ethnographic survey of Japan, China, Islam and India, emphasizing the core values of each.

ANTH 355. INDIANS OF NORTH AMERICA. 5 Credits.
Cross listed: HONS 355.
Satisfies: cultural and gender diversity university graduation requirement.
A comparative overview of distinctive Indian cultures. Opportunities for individual research provided.

ANTH 356. ARCHAEOLOGY OF NORTH AMERICA. 5 Credits.
The pre-Columbian history of America north of the Valley of Mexico.

ANTH 357. PEOPLES OF LATIN AMERICA. 5 Credits.
Cross listed: HONS 357.
Satisfies: international studies university graduation requirement.
An ethnographic survey of contemporary cultures of Central and South America, including both aboriginal and peasant societies. Emphasis is placed on the merging and clashing of European, Indian and African, rich and poor and the continuing character of these conflicts into the present.

ANTH 358. MEDICAL ANTHROPOLOGY. 5 Credits.
Cross listed: HONS 358.
Satisfies: international studies university graduation requirement.
This course offers an understanding of the anthropology of medicine, curing versus healing, the concept of biomedicine and its role in today’s world and other perspectives on medicine and medical practice. A review of folk and professional medical systems will be included.

ANTH 366. REVOLUTIONS AND DEVELOPMENT IN THE THIRD WORLD. 5 Credits.
Cross listed: HONS 366.
Satisfies: international studies university graduation requirement.
This course explores the alternative models available for understanding rapid cultural change in a worldwide array of postcolonial countries. Emphasis is placed on the historical origins of ethnic, nationalist and class conflict in local regions as studied by anthropologists. Opportunities are made available for pursuing students' regional interests.

ANTH 375. ANTHROPOLOGY OF SCIENCE AND TECHNOLOGY. 5 Credits.
This course offers an ethnographic understanding of the culture of scientific practice and technology. Case studies explore culture within the context of the medical and natural sciences, biotechnology and virtual worlds, both in the U.S. and abroad.

ANTH 396. EXPERIMENTAL COURSE. 1-5 Credits.

ANTH 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ANTH 398. SEMINAR. 1-5 Credits.

ANTH 399. SPECIAL STUDIES. 1-15 Credits.
Pre-requisites: permission of the instructor and the department chair and college dean.

ANTH 401. ANTHROPOLOGICAL RESEARCH METHODS. 5 Credits.
A review of anthropological methods for the collection and analysis of cultural data.

ANTH 405. CRITICAL ANALYSIS IN ANTHROPOLOGY. 3 Credits.
Pre-requisites: ANTH 101 and ENGL 201.
This course focuses on practicing and improving critical analytical skills through the study and discussion of various genres of anthropological literature and through guided writing assignments.

ANTH 432. ANTHROPOLOGY OF GENDER. 4 Credits.
Cross listed: WMST 432.
Satisfies: cultural and gender diversity university graduation requirement.
This course examines notions of sex and gender from a cross-cultural perspective. Material covered includes understandings of gender, third genders, human sexuality and the gendered nature of activities in both non-Western and Western societies.

ANTH 435. IRISH HISTORY AND CULTURE. 5 Credits.
Cross listed: HIST 435.
This course examines various aspects of Irish history and culture from prehistory to the present. Attention is given to religious, social, cultural, economic and political institutions and developments.

ANTH 436. POLITICS OF CULTURE: ISRAEL AND PALESTINE. 5 Credits.
Cross listed: GEOG 436/HIST 436.
Examines the role of culture in the political struggles between Israelis and Palestinians. Explores the influence of national, religious, ethnic and historical narratives in the conceptualization of the Israeli-Palestinian conflict. This course will consider how a detailed knowledge of these 'politics of culture' can provide meaningful insights to potential avenues of cultural reconciliation and, ultimately, a more peaceful environment for Israelis and Palestinians.

ANTH 437. WOMAN AND ISLAM. 5 Credits.
Cross listed: GEOG 437/HIST 437/WMST 437.
Pre-requisites: junior or senior standing.
This course examines the status and identity of women in Islamic communities throughout the world and assesses how different interpretations of Islam, as a simultaneous religious, social, cultural, political and economic system, influences perceptions of women within Islamic communities. It further considers the perceptions of Islam vis-à-vis women and Islamic women themselves by non-Muslim communities.

ANTH 438. PEACE, VIOLENCE AND CULTURE. 5 Credits.
Cross listed: GEOG 438/HIST 438.
Pre-requisites: junior or senior standing.
This course is a collective exercise in critical thinking on the intersection and interaction of peace, violence and culture. It explores the cultural dimensions of peace and violence, including the role of culture in defining and understanding the manifestation and enactment of peace and violence both by and against individuals as well as groups.
ANTH 349. TOPICS IN ANTHROPOLOGY. 1-5 Credits.
This course is a variable topics course exploring current interests and specific research foci in each of the four sub-fields of anthropology. Topics might include anthropological perspectives on contemporary issues; current research interests of specific faculty; further investigation of sub-topics included in large survey courses.

ANTH 444. DEVELOPMENT OF ANTHROPOLOGICAL THEORY. 5 Credits.
Pre-requisites: ANTH 101.
Introduction to the development of theoretical anthropology which surveys alternative theories concerning man and culture.

ANTH 445. ANTHROPOLOGICAL LINGUISTICS. 5 Credits.
An anthropological perspective on language, incorporating an examination of contemporary approaches to phonology and syntax with an emphasis on language in culture.

ANTH 446. SOCIOLINGUISTICS. 3 Credits.
The course deals with language in its social setting. It examines linguistic variation in relation to social status and interactional context. The political implications of linguistic variation are also considered.

ANTH 448. ANTHROPOLOGY OF FOOD AND NUTRITION. 5 Credits.
This course explores the diversity of human foodways and their ecological, cultural and social significance.

ANTH 450. CULTURAL ECOLOGY. 5 Credits.
Cross listed: HONS 450.
Satisfies: international studies university graduation requirement.
The relationship between man, nature and culture is contrasted in food collecting, simple farming and technologically more complex cultures.

ANTH 452. ARCHAEOLOGICAL FIELD TECHNIQUES. 5 Credits.
Archaeological theory and method with emphasis on excavation procedures and skills and laboratory analysis. Opportunity for limited field experience.

ANTH 454. MYTH, MAGIC AND RITUAL. 5 Credits.
Cross listed: HONS 454.
This course explores myth, magic and ritual as they relate to religion, philosophy and science, both in western and non-western, urban and non-urban contexts.

ANTH 455. ARCHAEOLOGY OF MESO-AMERICA. 5 Credits.
The pre-Columbian history of Mexico, Central America, and Western South America.

ANTH 456. WORLD ARCHAEOLOGY. 5 Credits.
This course provides a global review of archaeology beginning with the appearance of the first hominids (the Australopithecines) through the beginnings of agriculture and the advent of social stratification and culturally complex civilizations. Topics will include an overview of human evolution, the first humans and their hunting-gathering lifestyles, the increasing specialization of hunter-gatherers and the dawn of horticulture-agriculture.

ANTH 457. WITCHCRAFT, SORCERY AND SHAMANISM. 5 Credits.
An anthropological study of the cultural significance of witchcraft, sorcery, spirit possession, and shamanism.

ANTH 458. FAIR TRADE, COFFEE AND SOCIAL JUSTICE. 2 Credits.
Cross listed: HONS 458.
This class explores the Fair Trade movement, using coffee as a lens. Topics include how the Fair Trade system has worked; debate over the Fair Trade system as a social movement and an alternative market.
ANTH 502. SEMINAR IN LINGUISTIC AND CULTURAL ANTHROPOLOGY. 4 Credits.
This course explores the intersection and interaction of archaeological and physical anthropology and clarifies how synthesizing the unique elements within each subfield enabled improved practice in applied anthropology. The course will address the current state of each subfield within applied anthropology and connect this to the more traditional academic body of work in anthropology.

ANTH 510. THEORIES OF APPLIED ANTHROPOLOGY. 5 Credits.
Applied anthropology is the use of anthropological perspectives, values, data, theories, methods, techniques, and skills for practical purposes. Anthropology has become an essential working tool in many contexts from the environment and human health to economic development and heritage management. This course is an introduction to the way that explanations of Applied Anthropology have emerged from the tradition of anthropological theory. It examines the theoretical frameworks of the discipline, particularly in the way that those frameworks have inspired anthropologists to apply disciplinary explanations and methods to social needs and problems.

ANTH 522. RESEARCH DESIGN. 3 Credits.
Cross listed: GEOG 522.
Provides for the continued development of a practical toolkit with which to conduct applied social science research. Addresses research design elements necessary in areas such as needs assessments and program evaluations through techniques such as participatory research, action research, evaluation, assessment and surveying. The course covers development of research proposals for independent, grant funded or contract designs.

ANTH 523. RESEARCH METHODS IN APPLIED ANTHROPOLOGY. 5 Credits.
This class helps students build a toolkit with which to conduct applied anthropological research. Specifically, the course endeavors to prepare students to become comfortable with the language of applied anthropology in terms of research objectives (needs assessments, program evaluations, etc.) and techniques like rapid appraisals, participatory research and action research. Students will practice the most important anthropological research methods, including participant observation, structured and unstructured interviews, and archival research, in order to be prepared for future independent research projects.

ANTH 524. ARCHAEOLOGICAL FIELD SCHOOL. 5-10 Credits.
This course offers students hand-on experience in archaeological excavation techniques and methods through a formal field school setting. Over the course of several weeks, students will gain practical experience in field survey, excavation, stratigraphic interpretation, data collection and management and associated archaeological field skills. Depending on the nature of the site and excavations scheduled for a particular year, students may have opportunities for limited archaeological laboratory analysis and visitation to other local archaeological sites.

ANTH 525. DATA ANALYSIS AND VISUALIZATION. 3 Credits.
Cross listed: GEOG 525.
Pre-requisites: ANTH 522 or GEOG 522.
This course introduces students to data analysis and data visualization. In particular, students will learn basic data analysis approaches, explore their use and apply them to qualitative and quantitative data sets. In addition students will synthesize the results of their data analysis into a variety of data visualization formats.

ANTH 530. FIELD RESEARCH: LAWS AND ETHICS. 2 Credits.
This course includes topics such as establishing rapport with individuals and communities, the ethical dilemmas faced in fieldwork, professional conduct, legal obligations of practicing anthropologists and conflict management that are the sort of skills and tools necessary for the day-to-day practice of applied anthropology. The Field Preparation Seminar provides students a foundation for coursework such as Community Engagement and Community Projects as well as for future anthropological fieldwork.

ANTH 531. COMMUNITY ENGAGEMENT I. 3 Credits.
Pre-requisites: ANTH 530
First of two courses dedicated to a case study approach of examining ways of engaging community issues through applied anthropology. Explores problems and problem-solving as defined by anthropologists, leaders and community members themselves, and place them into different theoretical, methodological and programmatic frameworks. Ultimately, considers how faculty, graduate students and community members might work together to identify and analyze community problems as well as develop solutions to those problems.

ANTH 532. COMMUNITY ENGAGEMENT II. 3 Credits.
Pre-requisites: ANTH 530 and ANTH 531.
Second of two courses dedicated to a case study approach of examining ways of engaging community issues through applied anthropology. Specifically, this course examines secondary forms of social organization including health care and education as well as at the neighborhood level. The course continues to examine problems and problem-solving in local social organization as defined by local people themselves, and place them into different theoretical and methodological frameworks.

ANTH 540. COMMUNITY PROJECTS I. 5 Credits.
Pre-requisites: ANTH 522, ANTH 523, ANTH 530.
This course is designed to provide students with a framework through which to engage issues of important to a local community through the context of applied anthropology under the mentorship of faculty. Students will identify the particular issue and community that their work will engage and connect these to their particular subfield of applied anthropology. In this course, students will focus on 1) establishing a grounded, needs-based thesis research topic; 2) building community rapport to facilitate community-based research; and 3) engaging in participatory observation of the research topic in the local community.

ANTH 541. COMMUNITY PROJECTS II. 5 Credits.
Pre-requisites: ANTH 540, ANTH 525.
This course is designed to provide students with a framework through which to engage issues of important to a local community through the context of applied anthropology under the mentorship of faculty. Building on the work begun in ANTH 540, students will continue their community-based research while focusing on 1) data collection; 2) data management; and 3) data validation.

ANTH 542. COMMUNITY PROJECTS III. 5 Credits.
Pre-requisites: ANTH 525, ANTH 540, ANTH 541.
This course is designed to provide students with a framework through which to engage issues of important to a local community through the context of applied anthropology under the mentorship of faculty. Building on the work begun in ANTH 540 and ANTH 541, students will continue their community-based research while focusing on 1) data analysis; 2) data visualization; and 3) presentation of results.
**ANTH 595. INTERNSHIP. 1-5 Credits.**

**Pre-requisites:** permission of the instructor, department chair and college dean.

This course will offer vocational experience for students in the Interdisciplinary option within the History MA program. Placement of the student with Federal or State agencies, or private organizations is designed to provide on-the-job training and will be designed for the individual needs of specific master's programs.

**ANTH 598. GRADUATE SEMINAR. 1-5 Credits.**

**ANTH 599. INDEPENDENT STUDY. 1-15 Credits.**

**ANTH 600. THESIS. 1-6 Credits.**

**Pre-requisites:** permission of the instructor, department chair and college dean.

The objective of this course is to conduct original research as part of the completion of a research study bound as a thesis. This document provides partial fulfillment of the MA requirement and will be completed under the direction of a graduate committee. The thesis is designed to sharpen research, writing, and organizational skills.

**ANTH 601. RESEARCH REPORT. 1-5 Credits.**

**Art (ART)**

**ART 107. BASIC DESIGN. 5 Credits.**

**Pre-requisites:** must be one of the following majors or minors: Art, Studio Art, Art History, Art Elementary or Secondary, Graphic Design, Visual Arts Elementary or Secondary, Visual Communication Design, Communication Studies, Theatre, Interdisciplinary Studies or Computer Science or by permission of the instructor.

This course is the exploration of design concepts for 2-dimensional work, including composition, 2-D form, scale value and color.

**ART 155. BEGINNING PAINTING. 5 Credits.**

An introduction to oils and acrylic painting techniques, approaches to visual composition, and concepts about diverse references for painting (from external world realism to intuitive reality). Designed for students with no previous art training - using acrylic and oil.

**ART 196. EXPERIMENTAL COURSE. 1-5 Credits.**

**ART 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.**

Workshop, short course, conference or seminar.

**ART 199. INDEPENDENT STUDY. 1-6 Credits.**

**ART 207. COLOR DESIGN. 5 Credits.**

This course examines color problems in design and fine art.

**ART 213. ART IN THE HUMANITIES. 5 Credits.**

**Cross listed:** HONS 213/HUMN 213.

**Satisfies:** GE CR for humanities and fine arts, list 2, fine arts.

A survey of cultural interrelationships of the arts, emphasizing the visual arts of painting, sculpture and architecture.

**ART 296. EXPERIMENTAL COURSE. 1-5 Credits.**

**ART 299. INDEPENDENT STUDY. 3-5 Credits.**

**ART 300. DRAWING. 5 Credits.**

**Pre-requisites:** must be one of the following majors or minors: Art, Studio Art, Art History, Art Elementary or Secondary, Graphic Design, Visual Arts Elementary or Secondary, Visual Communication Design, Communication Studies, Theatre, Interdisciplinary Studies or Computer Science or by permission of the instructor.

This course is an introduction to fundamentals of drawing. Students use a variety of media.

**ART 303. DIGITAL ART I. 5 Credits.**

**Pre-requisites:** must be one of the following majors or minors: Art, Studio Art, Art History, Art Elementary or Secondary, Graphic Design, Visual Arts Elementary or Secondary, Visual Communication Design, Communication Studies, Theatre, Interdisciplinary Studies or Computer Science or by permission of the instructor.

This is a beginning digital art course that explores the use of digital media in the creation of studio art. The focus of this course is on the development of works of art through the use of computer applications such as Adobe Photoshop, Illustrator and Flash. Students experiment with ways in which other artistic media can be used in combination with the digital image to produce unique works of art.

**ART 304. ART OF PHOTOGRAPHY. 5 Credits.**

**Pre-requisites:** Must be one of the following majors or minors: Art, Studio Art, Art History, Art Elementary or Secondary, Graphic Design, Visual Arts Elementary, Visual Arts, Secondary, Visual Communication Design, Communication Studies, Journalism, Theatre, Interdisciplinary Studies or Computer Science or by permission of the instructor.

Course fee. This class is an exploration of the photographic medium with emphasis on artistic development. Students work with film-based or digital imagery, while learning photographic process and engaging in a dialogue with visual history.

**ART 307. 3D DESIGN. 5 Credits.**

Problems in experimental three-dimension design and structure are considered.

**ART 310. WORLD ART. 5 Credits.**

**Satisfies:** cultural and gender diversity university graduation requirement.

This course is an intensive study of the methodology of research in the field of art history with an emphasis on research techniques and writing.

**ART 311. AFRICAN AND AFRICAN AMERICAN ART HISTORY. 5 Credits.**

**Cross listed:** HUMN 311.

**Pre-requisites:** ENGL 100.

**Satisfies:** cultural and gender diversity university graduation requirement.

Surveys visual arts from prehistoric Africa to the modern African artist.

**ART 325. CERAMICS. 5 Credits.**

Explorations of the aesthetics and techniques in the production of earthenware pottery and clay sculpture. (Charge for supplies)

**ART 339. RESEARCH IN ART HISTORY. 2 Credits.**

**Pre-requisites:** ENGL 101.

This course is an intensive study of the methodology of research in the field of art history with an emphasis on research techniques and writing.

**ART 355. PAINTING. 5 Credits.**

**Pre-requisites:** ART 155 or permission of the instructor.

This is either a beginning course for upper division students or the second course for those who have taken ART 155. The exploration of various techniques and approaches to making paintings (realism to non-representational).

**ART 356. WATERCOLOR. 5 Credits.**

Basic watercolor techniques using still life and landscape models.

**ART 360. PRINTMAKING. 5 Credits.**

**Pre-requisites:** must be one of the following majors or minors: Art, Studio Art, Art History, Art Elementary or Secondary, Graphic Design, Visual Arts Elementary or Secondary, Visual Communication Design, Communication Studies, Theatre, Interdisciplinary Studies or Computer Science or by permission of the instructor.

This course explores printmaking techniques including experimental methods.
ART 365. SCULPTURE. 5 Credits.
Experimentation in sculpture through modeling, casting, carving and fabrication. (Charge for supplies)

ART 390. ART IN THE ELEMENTARY SCHOOL. 3 Credits.
Pre-requisites: junior standing.
Children’s development in visual expression. Teaching procedures and materials used in structuring children’s art experiences and the development of skill in basic studio practices.

ART 391. FOUNDATIONS OF ART EDUCATION. 2 Credits.
Pre-requisites: junior standing.
An examination and review of significant historical and philosophical thought in the development of contemporary art education.

ART 393. ART IN THE SECONDARY SCHOOL. 3 Credits.
Pre-requisites: permission of the instructor.
Designed to examine and verify professional competency prior to student teaching. Required for secondary emphasis art majors.

ART 395. INTERNSHIP. 1-5 Credits.

ART 396. EXPERIMENTAL COURSE. 1-5 Credits.

ART 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ART 398. SEMINAR. 2-3 Credits.

ART 399. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest.

ART 400. DRAWING. 5 Credits.
Pre-requisites: ART 300.
Advanced drawing and figure construction techniques. Students may specialize in one medium.

ART 401. LIFE DRAWING. 5 Credits.
Pre-requisites: ART 300.

ART 403. DIGITAL ART II. 5 Credits.
Pre-requisites: ART 303 or permission of the instructor.
Course fee. This is an intermediate and advanced digital art course that expands on the use of digital media in the creation of studio art. In this section, students work to develop greater proficiency in using the computer as an artistic tool while working to build a strong, independent portfolio of digital work using computer applications such as Adobe Photoshop, Illustrator and Flash. The focus is to refine skills and knowledge of the digital-based works of art.

ART 404. ART OF PHOTOGRAPHY. 5 Credits.
Pre-requisites: ART 304 or permission of the instructor.
Advanced photo techniques and ideas. Subjects vary according to faculty and student interests.

ART 407. ALTERNATIVE MEDIA. 5 Credits.
Pre-requisites: junior standing.
Learning to work with non-traditional materials in the creation of art, students create works dealing with time, chance, light, space and other alternative methods. We will discuss artists and issues surrounding the development of conceptual art and consider its influence on today’s art world.

ART 408. INTERMEDIA. 5 Credits.
Pre-requisites: junior standing.
The focus of this course is on learning to work with more than one medium in the creation of works of intermedia. Students will create works that involve combinations of performance, video and installation. We will discuss artists and issues surrounding the creation of works that are or can be termed intermedia.

ART 409. WOMEN AND MEN IN CONTEMPORARY ART. 1 Credit.
Cross listed: WMST 409.
Pre-requisites: ENGL 201.
The class focuses on how the cultural arts describe society. Examining as it does to a variety of social issues. Students will suggest ways in which they can integrate women into the arts and into their understanding of larger cultural relationships.

ART 415. HISTORY OF ANCIENT ART. 5 Credits.
Cross listed: HONS 415.
Pre-requisites: ENGL 101; ART 213/HONS 213/HUMN 213 (may be taken concurrently).
This course is a survey of early styles of art in Western civilization, including Egypt, the Near East, Greece and Rome.

ART 417. HISTORY OF MEDIEVAL ART. 5 Credits.
Cross listed: HONS 417.
Pre-requisites: ENGL 101; ART 213/HONS 213/HUMN 213 (may be taken concurrently).
This course is a survey of painting, sculpture, architecture and craft art in Europe from the Early Christian period through the Gothic age (ca 400–1400 AD).

ART 420. HISTORY RENAISSANCE ART. 5 Credits.
Cross listed: HONS 420.
Pre-requisites: ENGL 101; ART 213/HONS 213/HUMN 213 (may be taken concurrently).
This course includes discussion of painting, sculpture and architecture of Renaissance Europe from the 14th through the 16th centuries, including a comparison between Italian and Northern styles.

ART 422. HISTORY OF BAROQUE AND ROCOCO ART. 5 Credits.
Cross listed: HONS 422.
Pre-requisites: ENGL 101; ART 213/HONS 213/HUMN 213 (may be taken concurrently).
This course presents European Art between 1600 and 1750, with attention to the interrelation between the visual arts of painting, sculpture and architecture and other areas of cultural development—music, drama, literature and philosophy.

ART 423. ART OF THE 19TH CENTURY. 5 Credits.
Cross listed: HONS 423.
Pre-requisites: ENGL 101; ART 213/HONS 213/HUMN 213 (may be taken concurrently).
This course is a survey of painting, sculpture and architecture in 19th century America and Europe, covering such movements as Neoclassicism, Romanticism, Realism and Impressionism.

ART 425. ADVANCED CERAMICS. 5 Credits.
Pre-requisites: ART 325.
This course emphasizes the development of advanced skills in ceramics, handbuilding and/or wheel throwing and glaze technology.
ART 430. HISTORY OF MODERN ART. 5 Credits.
\textbf{Pre-requisites:} ENGL 101 and ART 213 or HUMN 213. ART 213/HUMN 213 (may be taken concurrently).
This course is a survey of major art forms, including architecture, from French Impressionism (ca. 1865) to the present. Emphasis will be on identifying the origins and tracing the development of 20th century styles.

ART 431. HISTORY OF CONTEMPORARY ART. 5 Credits.
\textbf{Pre-requisites:} ENGL 101 and ART 213 or HUMN 213. Students must be declared in one of the following majors: Art, Studio Art, Art History, Visual Communication Design, Theatre, Interdisciplinary Studies, Computer Science, Humanities or by permission of the instructor.
This course is a survey of art and theoretical writings on art from 1960 to the present. As the art world is increasingly globalized, this course examines the works and ideas from artists and art theorists around the world today.

ART 439. ART HISTORY SEMINAR. 2-3 Credits.
\textbf{Notes:} may be repeated for additional credit.
\textbf{Pre-requisites:} ENGL 101.
This variable topic, variable credit class is an intensive study of the major artists and issues of one historical period. Topics will be developed through readings and group discussions.

ART 446. JEWELRY. 5 Credits.

ART 450. WORKSHOP IN ART. 1-5 Credits.
\textbf{Notes:} may be repeated for additional credit.
\textbf{Pre-requisites:} permission of the instructor.
Exploratory problems in a variety of materials and media.

ART 455. PAINTING. 5 Credits.
\textbf{Pre-requisites:} ART 355.
Exploring a variety of concepts/attitudes and materials relating to art making.

ART 456. WATERCOLOR. 5 Credits.
\textbf{Pre-requisites:} ART 356.
Advanced watercolor techniques.

ART 460. PRINTMAKING. 5 Credits.
\textbf{Pre-requisites:} ART 360.
Continued exploration of print media. Emphasis upon craftsmanship and creative possibilities of media.

ART 465. SCULPTURE. 5 Credits.
\textbf{Pre-requisites:} ART 365.
Advanced study in sculptural media of student’s choice. Opportunity for work in stone, wood, welding, bronze casting and other specialties.

ART 470. SENIOR EXHIBITION. 1 Credit.
\textbf{Notes:} must be repeated three times for credit.
\textbf{Pre-requisites:} senior standing; permission of the instructor and the department chair.
The individual preparation and presentation of work for senior exhibition.

ART 471. SENIOR EXHIBITION. 1 Credit.
\textbf{Cross listed:} DESN 471.
\textbf{Notes:} must be repeated three times for credit.
\textbf{Pre-requisites:} senior standing and declared BFA in VCD major.

ART 490. SENIOR CAPSTONE. 5 Credits.
\textbf{Pre-requisites:} graduating senior in both BFA and BA Studio Art programs.
\textbf{Satisfies:} senior capstone university graduation requirement.
The course addresses issues from portfolio development, to proposals, to opportunities in the art world. Students are encouraged to work with faculty in developing internships as well as grant proposals and slide packages.

ART 491. SENIOR THESIS. 5 Credits.
\textbf{Pre-requisites:} permission of the instructor.
\textbf{Satisfies:} senior capstone university graduation requirement.
The research and writing of an undergraduate thesis in Art History.
Normally taken during the student’s senior year.

ART 495. INTERNSHIP. 1-3 Credits.
\textbf{Pre-requisites:} permission of instructor, dept. chair and college dean.

ART 496. EXPERIMENTAL COURSE. 1-5 Credits.
Subjects vary according to faculty and student interest.

ART 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ART 498. SEMINAR. 1-5 Credits.
\textbf{Notes:} may be repeated for additional credit.

ART 499. INDEPENDENT STUDY. 1-5 Credits.
\textbf{Pre-requisites:} permission of the instructor, department chair and college dean.
Designed for upper-division students who wish to pursue work in any area in which they have completed three prior quarters of work.

ART 501. GRADUATE LIFE DRAWING. 5 Credits.
\textbf{Pre-requisites:} ART 401 or permission of the instructor.
Advanced study of drawing techniques and the human form.

ART 525. GRADUATE CERAMICS. 5 Credits.
\textbf{Pre-requisites:} ART 425 or permission of the instructor.
Emphasis on the development of advanced skills in ceramics, hand building, wheel throwing and glaze techniques.

ART 539. SPECIAL TOPICS. 1-5 Credits.

ART 555. GRADUATE PAINTING. 5 Credits.
\textbf{Pre-requisites:} ART 455 or permission of the instructor.
Advanced studies in painting media.

ART 565. GRADUATE SCULPTURE. 5 Credits.
\textbf{Pre-requisites:} ART 465 or permission of the instructor.
Critical studies in advanced sculpture techniques.

ART 595. INTERNSHIP. 1-12 Credits.
\textbf{Pre-requisites:} permission of the instructor, department chair and college dean.

ART 596. EXPERIMENTAL COURSE. 1-5 Credits.

ART 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
\textbf{Notes:} only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.
\textbf{Pre-requisites:} permission of the instructor, department chair and college dean.

ART 598. GRADUATE SEMINAR. 1-5 Credits.

ART 599. INDEPENDENT STUDY. 1-5 Credits.
\textbf{Pre-requisites:} permission of the instructor, department chair and college dean.
Independent study projects in a selected special field of art.
ART 600. THESIS. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ART 601. CREATIVE RESEARCH PROJECT. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ART 696. COLLEGE TEACHING INTERNSHIP. 15 Credits.
Teaching a lower-division college course under supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction, and student course evaluation.

Athletic Training (ATTR)

ATTR 201. INTRODUCTION TO ATHLETIC TRAINING. 3 Credits.
Introduction to athletic training is a basic course designed to introduce the profession of athletic training to students who are interested in pursuing athletic training as a professional career choice. Students will be introduced to the following areas that encompass the athletic training field: athletic training as an allied health profession, current educational requirements for national practice, emergency planning and procedures, and environmental concerns. Hands-on experiences may include common wrapping, taping and bracing techniques.

ATTR 288. CLINICAL ATHLETIC TRAINING I. 1 Credit.
Pre-requisites: must be a declared Athletic Training major.
The course is designed to provide clinical experience in a professional athletic training setting. The student works as an assistant under the direction of a certified athletic trainer/clinical instructor. A portfolio completed by the student and checked off by the clinical instructor is used to document completion of competencies. This course should be taken three times during an academic career.

ATTR 296. EXPERIMENTAL COURSE. 1-5 Credits.

ATTR 339. ATHLETIC TRAINING. 4 Credits.
Pre-requisites: ATTR 201.
The purpose of the Basic Athletic Training Course is to provide participants with the fundamental aspects of Athletic Training including prevention, recognition, management and treatment of various musculoskeletal injuries. The lab portion of the class will address basic wrapping and taping techniques, as well as hands-on injury evaluation.

ATTR 340. THERAPEUTIC MODALITIES IN SPORTS MEDICINE. 4 Credits.
Pre-requisites: ATTR 339 or permission of course instructor.
The course covers techniques in therapeutic exercise, thermal therapy, hydrotherapy, cryotherapy and electrical modalities. It also introduces students to psychological and physiological responses to injury.

ATTR 341. REHABILITATION IN ATHLETIC TRAINING. 4 Credits.
Pre-requisites:ATTR 340 or permission of course instructor.
Design and supervision of rehabilitation programs for orthopedic athletic injuries. This will include common programs for major joint and musculoskeletal injuries; also will consist of learning techniques in therapeutic exercise, massage, joint mobilization, and proprioceptive neuromuscular facilitation.

ATTR 350. MEDICATIONS IN THE HEALTH CARE PROFESSIONS. 2 Credits.
This course covers usage of therapeutic medications for allied health care professionals. It explores the common medications used in the rehabilitative health professions. It also addresses the mechanisms of drug action in relation to the treatment of diseases, dosage requirements, drug interactions, side effects, legal considerations and general information and guidelines related to medication usage.

ATTR 360. GENERAL MEDICAL CONDITIONS. 3 Credits.
Pre-requisites: ATTR 341 or permission of the instructor.
This course will provide students an opportunity to learn about general medical conditions of the body system. Subjects covered will include mechanism of acquisition, signs, symptoms, referral, treatment and return to participation criteria. Students will develop a framework for decision making when evaluating individuals including athletes that present with these conditions.

ATTR 370. CONTEMPORARY HEALTH ISSUES IN ATHLETIC TRAINING. 3 Credits.
Pre-requisites: ATTR 201 or permission of instructor.
This course provides an understanding of the personal and societal health issues they will encounter as a part of the profession of athletic training.

ATTR 388. CLINICAL ATHLETIC TRAINING II. 1 Credit.
Pre-requisites: ATTR 288 or equivalent.
A course designed to provide a minimum of 1000 hours of clinical experience in a professional athletic training setting over a minimum of at least two years. The students work in an assistant capacity under the direction of a certified athletic trainer/clinical instructor. A portfolio, completed by the students and checked off by the clinical instructor is used to document completion of competencies.

ATTR 428. ORTHOPEDIC EVALUATION I. 4 Credits.
Pre-requisites: ATTR 341 or permission of course instructor.
This course will provide students an opportunity to learn and practice injury evaluation procedures used in athletic training. The course will address history taking, inspection, palpation and orthopedic evaluation, as basic principles used in injury evaluation. Laboratory time will be devoted to palpation, structural assessment, neurologic assessment, range of motion and strength assessment of the pelvis, hip, thigh, lower leg, ankle and foot.

ATTR 429. ORTHOPEDIC EVALUATION II. 4 Credits.
Pre-requisites: ATTR 428 or permission of course instructor.
This course will provide students an opportunity to learn and practice injury evaluation procedures used in athletic training. The course will address history taking, inspection, palpation and orthopedic evaluation, as basic principles used in injury evaluation. Laboratory time will be devoted to palpation, structural assessment, neurologic assessment and strength assessment in injuries involving the spine, shoulder, elbow, wrist, and hand.

ATTR 439. CURRENT TOPICS IN SPORTS MEDICINE. 1 Credit.
This course incorporates current topics that are not generally taught in the athletic training curriculum. It emphasizes student participation through a group presentation. The course is to be taken at least three times for the major.
ATTR 450. ADVANCED PROCEDURES AND TECHNIQUES IN ATHLETIC TRAINING. 3 Credits.
Pre-requisites: ATTR 428 and ATTR 429.
This course introduces students to those skills and techniques used in the practice of athletic training that are beyond those typically considered basic in the profession, in that the procedures discussed and the practical skills attained are more time intensive and require pre-requisite foundational skills.

ATTR 488. CLINICAL ATHLETIC TRAINING III. 2 Credits.
Pre-requisites: ATTR 388 or permission of instructor.
This course should be taken three times during an academic career. A course designed to provide a minimum of 1000 hours of clinical experience in a professional athletic training setting over a minimum of at least two years. The students work in an assistant capacity under the direction of a certified athletic trainer/clinical instructor. A portfolio, completed by the students and checked off by the clinical instructor is used to document completion of competencies.

ATTR 490. SENIOR CAPSTONE. 4 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement.
The course is designed as the capstone for athletic training majors. It will focus on the administrative and management responsibilities required when working in the field of sports medicine including job requirements and problems faced as a professional. There will be group and individual projects and presentations related to sports medicine and athletic training, including a culminating project that will be assessed by class peers and professionals in the related field. The final project will require students to work in groups to design an athletic training facility, addressing facility and equipment selection and organization, personnel selection and management, legal liability, insurance and budgeting.

ATTR 496. EXPERIMENTAL COURSE. 1-5 Credits.
ATTR 499. DIRECTED STUDY. 1-15 Credits.

Biology (BIOL)

BIOL 077. BIOLOGY BLOCK. 5-15 Credits.
BIOL 100. INTRODUCTION TO BIOLOGY. 5 Credits.
Pre-requisites: completion of pre-university basic skills in mathematics requirement.
Satisfies: GECR for natural sciences, biology.
This course is an introduction to the methods of study and the three levels of organization in living organisms: cell, organismal and population. A laboratory is included.

BIOL 115. INVESTIGATING BIOLOGY. 5 Credits.
Pre-requisites: completion of pre-university basic skills in mathematics requirement.
Satisfies: GECR for natural science, biology.
This course is for students planning to teach elementary school. It includes inquiry based biological investigations that support science instruction outlined in the National Science Education Standards and Washington Essential Academic Learning Requirements. Laboratory exercises are included.

BIOL 171. BIOLOGY I. 5 Credits.
Notes: course fee.
Pre-requisites: Concurrent enrollment in MATH 141 or completion of MATH 141 with ≥2.0; Students must receive ≥1.7 to enroll in BIOL 172 and ≥2.0 to enroll in BIOL 270.
This course includes an introduction to biology, covering a review of chemistry from atomic structure through respiration, cell and molecular biology and genetics.

BIOL 172. BIOLOGY II. 5 Credits.
Notes: course fee.
Pre-requisites: ≥1.7 in BIOL 171 and ≥2.0 in MATH 141.
Satisfies: 2nd Natural Sciences biology GECR if BIOL 171 and BIOL 270 are complete or BIOL 172 and BIOL 270 are completed.
Introduction to biology, covering evolution, the diversity of life and interactions among organisms and their environment.

BIOL 173. BIOLOGY III. 5 Credits.
Notes: course fee.
Pre-requisites: ≥ 2.0 in BIOL 172.
This course is an introduction to biology, covering the structure and function of plants and animals, with emphasis on flowering plants and vertebrates.

BIOL 196. EXPERIMENTAL COURSE. 1-5 Credits.
BIOL 197. FRESHMAN SEMINAR. 1-5 Credits.
BIOL 199. SPECIAL STUDIES-BIOLOGY. 1-5 Credits.

BIOL 225. ELEMENTARY MEDICAL MICROBIOLOGY. 5 Credits.
Pre-requisites: completion of or concurrent enrollment in both BIOL 234 and CHEM 163.
This course will discuss micro-organisms and animal parasites, with chief emphasis on those which affect human health. A laboratory is included.

BIOL 232. HUMAN ANATOMY AND PHYSIOLOGY NON-BIOL MAJORS. 5 Credits.
Pre-requisites: one course in college chemistry.
Satisfies: a GECR for natural sciences, biology.
First of a three-quarter sequence concerned with the structure and function of the human organism. Chemistry, cells, histology, integumentary system, skeletal system, excitable tissues and muscular system will be completely and thoroughly covered. Laboratory included that utilizes human cadavers, models, multimedia and other technologies.

BIOL 233. HUMAN ANATOMY AND PHYSIOLOGY NON-BIOL MAJORS. 5 Credits.
Pre-requisites: BIOL 232.
Satisfies: a GECR for natural sciences, biology.
Second of a three-quarter sequence concerned with the structure and function of the human organism. Nervous system, autonomic nervous system, special senses, endocrine system, cardiovascular system, lymphatic system and immunity will be completely and thoroughly covered. Laboratory included that utilizes human cadavers, models, multimedia and other technologies.

BIOL 234. HUMAN ANATOMY AND PHYSIOLOGY NON-BIOL MAJORS. 5 Credits.
Pre-requisites: BIOL 233.
Satisfies: a GECR for natural sciences, biology.
Third of a three-quarter sequence concerned with the structure and function of the human organism. Respiratory system, digestive system, nutrition and metabolism, urinary system, and reproductive system will be completely and thoroughly covered. Laboratory included that utilizes human cadavers, models, multimedia and other technologies.
BIOL 235. ELEMENTARY MEDICAL MICROBIOLOG. 5 Credits.
Pre-requisites: completion of or concurrent enrollment in both BIOL 234 and CHEM 163.
This course will discuss microorganisms and animal parasites, with chief emphasis on those which affect human health. A laboratory is included.

BIOL 270. BIOLOGICAL INVESTIGATION. 3 Credits.
Notes: the completion of BIOL 171 and BIOL 270 satisfies a GECR for natural sciences, biology; the completion of BIOL 171, BIOL 172 and BIOL 270 satisfies a second GECR for natural sciences, biology.
Pre-requisites: ≥ 2.0 in BIOL 171 or BIOL 172.
Experimental design and performance, including data collection and analysis, scientific writing and use of the biological literature.

BIOL 295. INTERNSHIP. 1-15 Credits.

BIOL 296. EXPERIMENTAL COURSE. 1-5 Credits.

BIOL 299. SPECIAL STUDIES BIOLOGY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
An opportunity for students to explore problems of special interest.

BIOL 300. HISTORY OF BIOLOGY. 5 Credits.
Examines the development of biological ideas in the Western world from early times to the present.

BIOL 301. MICROBIOLOGY. 5 Credits.
Pre-requisites: ≥1.7 in BIOL 171, ≥2.0 in BIOL 270, CHEM 153.
This course covers morphology, physiology, taxonomy and ecology of the microorganisms, emphasizing prokaryotes, fungi and the viruses. A laboratory is included.

BIOL 302. BOTANY. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270; completion of or concurrent enrollment in CHEM 151.
This course examines the structure, function and phylogenetic relationships in the plant kingdom. A laboratory is included.

BIOL 303. INVERTEBRATE ZOOLOGY. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270; completion of or concurrent enrollment in CHEM 151.
This course examines structure, function and phylogenetic relationships of the invertebrate phyla. A laboratory is included.

BIOL 304. VERTEBRATE ZOOLOGY. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270; completion of or concurrent enrollment in CHEM 151.
This course explores the structure, function and phylogenetic relationships of the vertebrates. A laboratory is included.

BIOL 306. NATURAL VEGETATION ECOLOGY OF NORTH AMERICA. 5 Credits.
Cross listed: GEOG 306.
Pre-requisites: GEOG 100 or permission of the instructor.
This course is an introduction to the processes and patterns of natural vegetation, emphasizing the Pacific Northwest.

BIOL 310. FUNDAMENTALS OF GENETICS. 5 Credits.
Pre-requisites: ≥1.7 in BIOL 171, ≥2.0 in BIOL 172, and BIOL 173, CHEM 153.
This course provides comprehensive coverage of the major topic areas of genetics: classical, molecular and evolutionary.

BIOL 312. FUNDAMENTALS OF SOIL SCIENCE. 4 Credits.
Cross listed: GEOG 312.
Pre-requisites: MTHD 104 or clearance by test.
A general introduction to physical, chemical and biological properties of soils.

BIOL 318. BIOLOGY OF WOMEN. 3 Credits.
Cross listed: WMST 318.
The history, biology and myths of human reproduction as they apply to women and the interaction of brain, hormones and social life.

BIOL 320. THE HUMAN PROSPECT. 5 Credits.
Cross listed: HUMN 320.
Satisfies: international studies university graduation requirement.
Explores the biological and philosophical roots of humans' relationship with the environment.

BIOL 324. ENTOMOLOGY. 4 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, CHEM 151.
This course is a study of insect biology. A laboratory is included.

BIOL 332. HUMAN ANATOMY AND PHYSIOLOGY I. 5 Credits.
Pre-requisites: BIOL 173 with a grade ≥2.5; CHEM 153 with a grade ≥2.5; or instructor permission.
This is the first course in a three-quarter sequence covering the structure and function of the human body. Intended for students with significant background in biology and chemistry who are pursuing health care careers. A laboratory is included each quarter.

BIOL 333. HUMAN ANATOMY AND PHYSIOLOGY II. 5 Credits.
Pre-requisites: BIOL 332.
The second in a three-quarter sequence covering the structure and function of the human body. Intended for students with significant background in biology and chemistry who are pursuing health care careers. A laboratory is included each quarter.

BIOL 334. HUMAN ANATOMY AND PHYSIOLOGY III. 5 Credits.
Pre-requisites: BIOL 333.
The third in a three-quarter sequence covering the structure and function of the human body. Intended for students with significant background in biology and chemistry who are pursuing health care careers. A laboratory is included each quarter.

BIOL 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

BIOL 340. BIOLOGY AND SOCIETY. 2 Credits.
Pre-requisites: either BIOL 100 or ≥1.7 in BIOL 171 or one of them taken concurrently.
This course will discuss biological, social, ethical and economic implications of current advances in the biological sciences.

BIOL 343. BIOLOGY OF AGING. 3 Credits.
This course will discuss the aging of biological organisms, viewed from the molecular level through the population level. The emphasis will be on human aging.

BIOL 351. PRINCIPLES OF ANIMAL PHYSIOLOGY. 4 Credits.
Pre-requisites: BIOL 173 and CHEM 153.
An integrative understanding of the physiological systems of vertebrates, analyzing physiological processes from the cellular level upwards culminating in organismal function. This course reinforces concepts from biology, physics, chemistry and mathematics.

BIOL 352. PRINCIPLES OF PLANT PHYSIOLOGY. 4 Credits.
Pre-requisites: BIOL 173, CHEM 153.
This course addresses mechanisms by which plants obtain nutrients from the soil and atmosphere, convert light energy to chemical energy, and coordinate responses to shifting environmental conditions in roots, leaves and reproductive structures.
BIOL 353. PRINCIPLES OF MICROBIAL PHYSIOLOGY. 4 Credits.
Pre-requisites: BIOL 173, CHEM 153.
This course explores the physiology of unicellular microbes. It includes topics on microbial replication and how microbes adapt to their environment through regulating gene expression, horizontal gene transfer and cell-cell communication.

BIOL 380. DATA ANALYSIS FOR BIOLOGISTS. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270; completion of or concurrent enrollment in CHEM 151 and a ≥2.0 in MATH 141.
Satisfies: mathematics proficiency.
Students gain the knowledge and skills required to conduct and interpret data analysis and statistics commonly applied in Biology. Key concepts of statistical analysis such as populations and samples, uncertainty, p-values, hypothesis testing, Type I & Type II errors, statistical methods and R programming language are covered.

BIOL 390. BIOLOGY TEACHING METHODS. 1 Credit.
Pre-requisites: ≥1.7 in BIOL 171, ≥2.0 in BIOL 172, BIOL 173 and BIOL 270; co-requisite SCED 390.
This course is designed for individuals seeking endorsement to teach junior or senior high school biology or general science. Various types of biology programs, organization of lesson materials, techniques and laboratory safety are included in the course.

BIOL 395. INTERNSHIP/CO-OP FIELDWK. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean; only 5 credits will be allowed toward the electives.

BIOL 396. EXPERIMENTAL COURSE. 1-6 Credits.

BIOL 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

BIOL 399. DIRECTED STUDY. 1-15 Credits.

BIOL 405. LIMNOLOGY. 5 Credits.
Pre-requisites: any one of BIOL 301, BIOL 302, BIOL 303, BIOL 304 or concurrent enrollment.
This course includes the general study of the physical, chemical and biological features of lakes and streams. A laboratory is included.

BIOL 409. MYCOLOGY. 5 Credits.
Pre-requisites: any one of BIOL 301, BIOL 302, BIOL 303, BIOL 304 or concurrent enrollment.
This course includes discussion of the structure, physiology, ecology and taxonomy of microfungi and mushrooms with an emphasis on fungi of the Northwest. A laboratory is included.

BIOL 411. FIELD BOTANY. 5 Credits.
Pre-requisites: junior standing or permission of instructor.
The goal of this course is to gain an appreciation of natural history and the unique array of plants found in our region. This will be a practical, hands-on, field-based course where students learn how to identify plants.

BIOL 420. EPIDEMIOLOGY. 5 Credits.
Pre-requisites: BIOL 301.
This course is a study of the factors which determine the frequencies and distributions of communicable diseases among humans.

BIOL 421. MEDICAL BACTERIOLOGY. 5 Credits.
Pre-requisites: BIOL 301.
This course addresses microbial agents of human disease, with an emphasis on bacteria.

BIOL 423. EVOLUTION. 5 Credits.
Pre-requisites: BIOL 310 plus any one of BIOL 301, BIOL 302, BIOL 303, BIOL 304.
This course is a study of variation, adaptation and speciation in biological systems.

BIOL 430. IMMUNOLOGY. 5 Credits.
Pre-requisites: Any one of BIOL 301, BIOL 303, BIOL 304 or permission of the instructor. BIOL 460 is recommended.
This course covers immune reactions of animals with principal emphasis on those associated with infectious diseases.

BIOL 432. VIROLOGY. 5 Credits.
Pre-requisites: Any one of BIOL 301, BIOL 303, BIOL 304 or permission of the instructor. BIOL 460 is recommended.
This course includes coverage of the molecular biology of microbial, animal and plant viruses and their host-parasite relationships. Those viruses associated with human and animal diseases are emphasized.

BIOL 435. BIOLOGY OF CANCER. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 173 or BIOL 234, CHEM 153 or CHEM 163. A general study of human neoplasms.

BIOL 436. CELL BIOLOGY. 5 Credits.
Pre-requisites: BIOL 171, BIOL 172, BIOL 173, BIOL 270, BIOL 310 and CHEM 153.
This course is a comprehensive study of cell biology from a structural and functional perspective.

BIOL 438. MOLECULAR BIOLOGY. 5 Credits.
Pre-requisites: BIOL 310 and one of BIOL 301, BIOL 302, BIOL 303, BIOL 304, CHEM 351.
This course includes study of gene structure, organization, function and regulation. Equal emphasis is given to the molecular processes and genetic phenomena of both prokaryotic and eukaryotic cells.

BIOL 440. ECOLOGY. 4 Credits.
Pre-requisites: MATH 161 or MATH 380 and BIOL 172, BIOL 173, BIOL 270 with minimum grade ≥2.0 for all, or permission of the instructor.
This course involves the study of factors which determine the distribution and abundance of organisms.

BIOL 441. ECOLOGY LAB. 2 Credits.
Pre-requisites: current or prior enrollment in BIOL 440. A field and laboratory course which emphasizes testing ecological hypotheses.

BIOL 442. CONSERVATION BIOLOGY. 4 Credits.
Pre-requisites: ≥1.7 in BIOL 171, ≥2.0 in BIOL 172, BIOL 173, BIOL 270 or permission of the instructor; BIOL 440 recommended.
Conservation biology is a synthetic discipline that has arisen in response to the current unprecedented rates of extinction and draws on a wide range of basic sciences and applied fields to address the problem of loss of biological diversity. This course introduces students to the discipline of conservation biology, familiarizes students with literature in conservation biology and provides students with a forum for discussion of some major topics in conservation biology.

BIOL 443. WILDLIFE MANAGEMENT. 4 Credits.
Pre-requisites: ≥1.7 in BIOL 171, ≥2.0 in BIOL 172, BIOL 173 and BIOL 270 or permission of the instructor; BIOL 440 recommended.
This course examines the historical and political development of wildlife management, the ecological principles that underpin management decisions, primary approaches to management, and current management issues.
BIOL 444. FIELD ECOLOGY. 4 Credits.
Pre-requisites: BIOL 423 or BIOL 440 or permission of the instructor.
In this course students conduct observational and/or experimental field studies designed to answer contemporary ecological questions. The course emphasizes hypothesis testing, study design, field techniques, data analysis, and written and oral study presentation. Aquatic ecology, terrestrial ecology, or both may be emphasized.

BIOL 445. STREAM ECOLOGY. 5 Credits.
Pre-requisites: one of: BIOL 301, BIOL 302, BIOL 303, BIOL 304; or permission of instructor.
This course covers the diverse ecological functions of streams and their roles in global processes. The primary focus is on ecosystem function. Stream organisms and their communities are also covered. Laboratories include field work, laboratory techniques, data analysis and professional methods for measuring rates of stream ecosystem processes and investigating stream communities.

BIOL 446. RIPARIAN ECOLOGY. 5 Credits.
Pre-requisites: BIOL 171, BIOL 172, BIOL 173 and BIOL 270 or permission of instructor.
This course will focus on riparian areas (riparia), which experience intermittent flooding by water moving within a catchment. Riparia form the interface between terrestrial and aquatic habitats and perform critical ecosystem functions. This class will address riparian physical processes, biotic adaptations, human impacts, conservation, restoration and management.

BIOL 450. MAMMALOGY. 5 Credits.
Pre-requisites: BIOL 304 or permission of the instructor.
This course covers the classifications, life histories and ecology of mammals. A laboratory is included.

BIOL 454. ORNITHOLOGY. 5 Credits.
Pre-requisites: BIOL 304 or permission of the instructor.
Natural history and taxonomy of birds.

BIOL 460. HEMATOLOGY. 5 Credits.
Pre-requisites: BIOL 310 plus one of BIOL 301, BIOL 303 or BIOL 304; or permission of the instructor.
This course discusses the morphology and hemostasis of the normal and abnormal human hematological system. A laboratory is included.

BIOL 462. ICHTHYOLOGY. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270 or permission of the instructor.
This course is a systematic and ecological study of fishes with emphasis on the freshwater fishes of the U.S. A laboratory is included.

BIOL 463. FISHERIES BIOLOGY AND MANAGEMENT. 4 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270 or permission of the instructor.
This course covers the development of the biological basis of fisheries management and the role of fish populations as sources of food and recreation for humans.

BIOL 470. BIOLOGICAL ILLUSTRATION. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270 or permission of the instructor.
The emphasis in this course is placed on developing the various techniques commonly used in rendering biological illustrations that are suitable for publication.

BIOL 471. PRE-MEDICAL, DENTAL, VETERINARY AND PHARMACY PREPARATION. 1-2 Credits.
Pre-requisites: junior standing or permission of the instructor.
Prepares students for their interviews for medical, dental, veterinary or pharmacy school and for professional activities. Discusses medical ethics and presents students with a wide range of dilemmas associated with the medical field and has students work toward resolutions.

BIOL 473. NEUROBIOLOGY. 5 Credits.
Notes: PHYS 133 or PHYS 153 is recommended.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270; CHEM 153 or permission from the instructor.
This course introduces students to the principles of neurobiology. Emphasis is placed on human neuroscience but examples from a wide range of invertebrates and vertebrates are used to best illustrate neurobiological principles, concepts, and mechanisms. The course also includes a laboratory component focusing on neuroanatomy.

BIOL 476. MUSCLE PHYSIOLOGY. 3 Credits.
Pre-requisites: BIOL 332 or permission of the instructor.
This course examines the structure, function and regulation of muscle tissue with emphasis on skeletal muscle.

BIOL 477. EMBRYOLOGY. 5 Credits.
Pre-requisites: BIOL 310.
This course examines the dynamics, physical features and mechanisms of early organismic development from both the classical embryology and modern genetic perspective. Emphasis is placed on mammalian embryology. Also discussed are state-of-art technologies currently in use in medical and veterinary practice and in research.

BIOL 479. CLINICAL LABORATORY THEORY AND PRACTICUM I. 6 Credits.
Pre-requisites: admission to Professional Training at Sacred Heart Medical Center. This course is a clinical laboratory science course, which will begin at the affiliate hospital in the latter part of summer of a student’s junior year. It includes lecture and laboratory instruction in clinical immunohematology, clinical chemistry, phlebotomy, clinical hematology, clinical microscopy and urinalysis, clinical body fluids, transfusion techniques and clinical microbiology.

BIOL 480. CLINICAL LABORATORY THEORY AND PRACTICUM II. 12 Credits.
Pre-requisites: BIOL 479.
BIOL 480 is the second course in clinical laboratory science at the affiliate hospital. Students will review basic and advanced information in immunohematology, clinical chemistry, clinical hematology, clinical microbiology, clinical immunology, medical mycology and phlebotomy techniques. Students will perform patient laboratory testing under the guidance of trained professionals.

BIOL 481. FRESHWATER INVERT ZOOLOGY. 5 Credits.
Pre-requisites: ≥2.0 in BIOL 172, BIOL 173, BIOL 270 are required; BIOL 405 or BIOL 440 is recommended.
This is a field course stressing the collection, preservation and identification of freshwater invertebrates. A laboratory is included.

BIOL 482. CLINICAL LABORATORY THEORY AND PRACTICUM III. 12 Credits.
Pre-requisites: BIOL 480.
BIOL 482 is the third course in clinical laboratory science at the affiliate hospital. Students continue to study advanced clinical immunohematology, clinical chemistry, clinical microbiology and clinical hematology. During this course, students will perform actual patient laboratory testing under the guidance of trained professionals.
BIOL 483. CLINICAL LABORATORY THEORY AND PRACTICUM IV. 12 Credits.
Pre-requisites: BIOL 482.
BIOL 483 is the fourth course in clinical laboratory science at the affiliate hospital. Students will learn financial and quality management of clinical laboratory, ethics and professional behavior. Students will continue their training in advanced diagnostics in clinical microbiology, clinical chemistry, hematology and immunohematology. During this course, students will perform actual patient laboratory testing under the guidance of trained professionals.

BIOL 485. MOLECULAR BIOTECHNOLOGY. 5 Credits.
Pre-requisites: BIOL 301, BIOL 310, CHEM 480.
A study of the concepts, experiments and industrial applications of fermentation theory, recombinant DNA protocols, plasmids and cloning, DNA, RNA and protein sequencing and synthesis, monoclonal antibodies and cell fusion, solid support enzyme technology, bioenergy reactions, biomass and secondary metabolite production and biodegradation.

BIOL 488. MOLECULAR BIOTECHNOLOGY LABORATORY. 2 Credits.
Pre-requisites: BIOL 485 or concurrent enrollment.
Experiments include basic analytical and separatory techniques, analytical and preparative fermentations, restriction analysis of viral DNA, RNA labelling and sequencing, tissue fractionation and lectin affinity column chromatography, DNA cloning, screening and blot analysis, mammalian cell culture and fusion, immunochemistry and in vitro translation.

BIOL 489. TOPICS IN MOLECULAR BIOTECHNOLOGY. 2 Credits.
Pre-requisites: BIOL 485, BIOL 488.
Readings and discussion of research and issues in molecular biotechnology.

BIOL 490. SENIOR CAPSTONE. 5 Credits.
Pre-requisites: senior standing (135 credits), BIOL 310, and one of the following: BIOL 301, BIOL 302, BIOL 303, or BIOL 304.
Satisfies: senior capstone university graduation requirement.
Integrated Studies in Form and Function, or Integrated Studies in Microbial and Molecular Biology, or Integrated Studies in Ecology and Evolutionary Biology. See your major department advisor for the appropriate section number. A laboratory is included.

BIOL 490A, BIOTECHNOLOGY CAPSTONE. 5 Credits.
Pre-requisites: senior standing, BIOL 485, BIOL 488, BIOL 489.
Satisfies: senior capstone university graduation requirement.
This capstone course is specific to the Biotechnology Option. Integration of lecture and laboratory experience to culminate in research project. See your major department. A laboratory is included.

BIOL 491. SENIOR THESIS. 5 Credits.
Pre-requisites: BIOL 483.
BIOL 491 is a Senior Thesis in clinical laboratory science at the affiliate hospital. Students will have lectures in ethics and professional behavior, management information and participate individually in small clinical laboratory experience and continue their training of advanced diagnostic work in clinical microbiology, clinical chemistry, hematology, and immunohematology. During this course, students will perform actual patient laboratory testing under the guidance of trained professionals. An individual senior project integrating practical and theoretical topics will be the culmination of this course.

BIOL 495. INTERNSHIP. 1-15 Credits.
Notes: only 5 credits will be allowed toward the electives.
Pre-requisites: permission of the instructor, department chair and college dean.

BIOL 496. EXPERIMENTAL COURSE. 1-5 Credits.

BIOL 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

BIOL 498. SEMINAR. 1-2 Credits.
Pre-requisites: advanced standing in departmental program.

BIOL 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

BIOL 500. RESEARCH SEMINAR. 1 Credit.
Notes: must be repeated for at least 2 credits.
Pre-requisites: admission to graduate program in biology.
Students develop and present seminars on their research to an audience of peers and faculty.

BIOL 501. SEMINAR PROGRAMMING. 1 Credit.

BIOL 505. LIMNOLOGY. 5 Credits.
Pre-requisites: admission to graduate program.
An in-depth study of the physical, chemical, and biological features of lakes and streams incorporating independent field work and/or synthesis of primary literature.

BIOL 509. MYCOLOGY. 5 Credits.
Pre-requisites: admission to graduate program or permission of the instructor.
Structure, physiology, ecology, and taxonomy of microfungi and mushrooms, with an emphasis on fungi of the Northwest and on the design and implementation of independent mycological experiments.

BIOL 510. BIOLOGICAL RESEARCH METHODS I. 4 Credits.
Pre-requisites: admission to the Biology Master's Program or permission of the instructor.
Methods of biological research, including scientific writing and presentation, utilization of scientific literature, and a brief introduction to experimental design and data analysis.

BIOL 511. BIOLOGICAL RESEARCH METHODS II. 4 Credits.
Pre-requisites: BIOL 510.
This course will explore implications of observational and experimental study design and expose students to quantitative hypothesis tests appropriate for the biological sciences.

BIOL 512. CURRENT TOPICS IN PHYSIOLOGY. 2 Credits.
Notes: may be repeated for credit.
Pre-requisites: admission to the biology master's program or permission of the instructor.
Current readings in a specialized area of physiology, including functional aspects of animals, plants or micro-organisms or functions common to two or more groups of organisms.
BIOL 513. CURRENT TOPICS IN CELL AND MOLECULAR BIOLOGY. 2 Credits.
_**Notes:**_ may be repeated for credit.
_**Pre-requisites:**_ admission to the biology master’s program or permission of the instructor.
This course will explore modern developments across the molecular and cell biology disciplines. Topics will build on research expertise of faculty as well as current literature. These areas include environmental and medical microbiology, recombinant DNA, immuno-pathology, embryology.

BIOL 514. CURRENT TOPICS IN ECOLOGY AND EVOLUTION. 2 Credits.
_**Pre-requisites:**_ admission to the Biology Master’s Program or permission of the instructor.
Current readings on selected topics of ecology and evolution. Topics will depend upon interests of instructor and students. Possible topics include: evolution of mating systems, aquatic ecology, community ecology, microevolutionary processes, population dynamics, evolution of life history strategies.

BIOL 515. GROWTH OF BIOLOGICAL THOUGHT. 2 Credits.
_**Pre-requisites:**_ admission to the Biology Master’s Program or permission of the instructor.
This course will include readings on topics such as changing biological paradigms, philosophies and ethical behavior of biologists in their historic as well as current context. Topics will be developed in relation to antecedent discoveries, available technology, political events and social climate.

BIOL 519. REVIEW OF LITERATURE. 1 Credit.
Presentations by faculty and graduate students of current biological research papers.

BIOL 520. EPIDEMIOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
A study of the factors which determine the frequencies and distributions of the communicable diseases among humans with an emphasis on independent synthesis of current literature.

BIOL 521. MEDICAL BACTERIOLOGY. 5 Credits.
_**Pre-requisites:**_ BIOL 301. The microbial agents of human disease, with an emphasis on bacteria.

BIOL 530. IMMUNOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
Immune reactions of animals with principal emphasis on those associated with infectious diseases. Students will conduct primary literature review.

BIOL 532. VIROLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
The molecular biology of microbial, animal and plant viruses, especially those viruses associated with human and animal diseases and their host-parasite relationships with an emphasis on synthesis of primary literature.

BIOL 535. BIOLOGY OF CANCER. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
An advanced study of human neoplasms through synthesis of current literature.

BIOL 536. CELL BIOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
A comprehensive study of cellular biology from a structural and functional perspective incorporating independent laboratory and/or synthesis of primary literature.

BIOL 539. SPECIAL STUDIES. 1-5 Credits.

BIOL 542. CONSERVATION BIOLOGY. 4 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
Conservation biology is a synthetic discipline that has arisen in response to the current unprecedented rates of extinction and draws on a wide range of basic sciences and applied fields to address the problem of loss of biological diversity. This course examines the discipline of conservation biology, familiarizes students with literature in conservation biology, and provides students with a forum for discussion of some major topics in Conservation Biology. Students incorporate independent field work and/or synthesis of primary literature.

BIOL 543. WILDLIFE MANAGEMENT. 4 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
An examination of the historical and political development of wildlife management, the ecological principles that underpin management decisions, primary approaches, and current management issues incorporating independent field work and/or synthesis of primary literature.

BIOL 546. RIPARIAN ECOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to the Biology Master’s Program or permission of the instructor.
This course will focus on riparian areas (riparia), areas which experience intermittent flooding by water moving within a catchment. Riparia form the interface between terrestrial and aquatic habitats and perform critical ecosystem functions. This class will address riparian physical processes, biotic adaptations, human impacts, conservation, restoration and management.

BIOL 550. MAMMALOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
The classifications, life histories and ecology of mammals with an emphasis on independent field or literature review studies.

BIOL 554. ORNITHOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
Natural history and taxonomy of birds with an emphasis on independent field or literature review studies.

BIOL 560. HEMATOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
An in-depth study of the morphology and hemostasis of the normal and abnormal human hematological system incorporating primary literature review and seminar preparation.

BIOL 562. ICHTHYOLOGY. 5 Credits.
_**Pre-requisites:**_ admission to graduate program or permission of the instructor.
An in-depth systematic and ecological study of fishes, especially the freshwater fishes of the U.S., incorporating review of primary literature and independent field research.
BIOL 563. FISHERIES BIOLOGY AND MANAGEMENT. 4 Credits.
**Pre-requisites:** admission to graduate program or permission of the instructor.
Development of the biological basis of fisheries management and the role of fish population as sources of food and recreation for humans. Synthesis of this information by developing a comprehensive management plan for a particular species or body of water.

BIOL 573. NEUROBIOLOGY. 5 Credits.
**Pre-requisites:** admission to the MS Biology Program or permission of instructor.
This course introduces students to the principles of neurobiology. Emphasis is placed on human neuroscience but examples from a wide range of invertebrates and vertebrates are used to best illustrate neurobiological principles, concepts, and mechanisms. The course also includes a laboratory component focusing on neuroanatomy.

BIOL 576. MUSCLE PHYSIOLOGY. 3 Credits.
**Pre-requisites:** BIOL 233 or BIOL 436 or BIOL 490.
The structure, function and regulation of muscle tissue, with an emphasis on skeletal muscle.

BIOL 581. FRESHWATER INVERT ZOOLOGY. 5 Credits.
**Pre-requisites:** admission to graduate program or permission of the instructor.
A field course incorporating techniques used in the collection, preservation and identification of freshwater invertebrates into independent field research.

BIOL 585. MOLECULAR BIOTECHNOLOGY I. 5 Credits.
**Pre-requisites:** admission to graduate program or permission of the instructor.
An in-depth examination of animal and plant cell culture and microbial fermentation from the perspective of physiology and biochemical engineering.

BIOL 588. MOLECULAR BIOTECHNOLOGY LAB. 2 Credits.
**Pre-requisites:** admission to graduate program or permission of the instructor.
Advanced quantitative procedures in recombinant DNA and monoclonal antibodies.

BIOL 589. MOLECULAR BIOTECHNOLOGY LAB. 2 Credits.
**Pre-requisites:** admission to graduate program or permission of the instructor.
Advanced quantitative procedures in recombinant DNA and monoclonal antibodies.

BIOL 595. INTERNSHIP. 1-15 Credits.

BIOL 596. EXPERIMENTAL COURSE. 1-5 Credits.

BIOL 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
**Notes:** only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

BIOL 598. SEMINAR. 1-5 Credits.
Students select, develop, and present seminars on selected topics in biology to an audience of peers and faculty.

BIOL 599. INDEPENDENT STUDY. 1-5 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.

BIOL 600. THESIS RESEARCH. 1-10 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.
Thesis will represent culmination of original research under direction of graduate committee.

BIOL 601. RESEARCH REPORT. 1-10 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.
Non-thesis directed research. Not available for Master of Science in Biology.

BIOL 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.

**Business Administration (BADM)**

BADM 077. BUSINESS BLOCK. 5-15 Credits.

BADM 500. ECONOMIC ANALYSIS. 4 Credits.
**Notes:** not open to those who have completed ECON 200 and ECON 201.
This course does not count toward the MBA degree without permission of the MBA Director. This is an accelerated course in micro- and macroeconomic principles, including these topics: functioning of a price system, supply and demand, forms of markets, theory of factor income, market interventions by government, macroeconomic measurements, determinants of national income and output, effects of monetary and fiscal policy and long-term growth.

BADM 503. QUANTITATIVE ANALYSIS IN BUSINESS. 4 Credits.
**Notes:** this course does not count toward the MBA degree without permission of the MBA Director.
**Pre-requisites:** permission of the MBA director.
An accelerated course in descriptive and inferential statistics, including basic regression analysis, chi-square analysis and quality control methodology.

BADM 504. OPER MGMT APPLIC (PRE-MBA). 4 Credits.
An accelerated course that focuses on the business functions of operations management. The primary concentration of this course is the business application of operations management concepts.

BADM 505. ESSENTIALS OF ACCOUNTING. 4 Credits.
**Notes:** this course does not count toward the MBA degree without permission of the MBA Director.
**Pre-requisites:** permission of the MBA director.
An accelerated course in understanding and using accounting information and accounting information systems in a business environment: includes coverage of both financial and managerial accounting information.

BADM 510. BUSINESS DECISION MAKING. 4 Credits.
A study of managerial decision making and problem solving as practiced by local business. This will be a live case study course discussing decision making in a variety of functional areas, possibly including but not limited to marketing, finance, human resource management, organizational theory, accounting and taxation, operations management, general management, ethics, and global perspectives.

BADM 515. MANAGERIAL ECONOMICS. 4 Credits.
This course is a study of economic theory and its specific applications to the manager's decision-making.
BADM 520. ADVANCED DATA MODELING FOR BUSINESS RESEARCH. 4 Credits.
Pre-requisites: permission of the MBA director or admission to the MBA program.
A study of business research methodology, including basic measurement design and the application of statistical analysis in an applied practical business setting.

BADM 530. CORPORATE FINANCE. 4 Credits.
Pre-requisites: permission of the MBA Director, or both of the following: admission to the MBA Program and completion of BADM 515 and BADM 560.
This course covers an analysis of valuation issues and project analysis as well as the relationship between risk, capital structure, cost of capital and dividend policy. It examines contemporary issues and problems confronting financial managers.

BADM 533. CITY GOVERNMENT ADMIN. 4 Credits.
An exploration of the major management issues and techniques involved in the professional management of city governments. Topics include the role of the professional city administrator, the changing face of cities, major city services issues, ethics, decision making and budget preparation. Examines both theoretical and the practical aspects of city government management.

BADM 539. SPECIAL TOPICS. 1-5 Credits.
Notes: some sections are graded Pass/No Credit.
Electives are designed to (1) help students enhance functional business skills by providing an in-depth study of a selected topic from a business core area and (2) expose students to a variety of environments in which business decision making skills are applied, such as international or not-for-profit organizations and/or specific industries, such as health care or service industries. The topics of specific BADM 539 courses offered each quarter are determined by a combination of student and faculty interest and availability.

BADM 540. MARKETING MANAGEMENT. 4 Credits.
Pre-requisites: permission of the MBA director, or both of the following: admission to the MBA program and completion of BADM 520.
This course is a study of both the theoretical and applied aspects of the marketing process. It covers the elements of successful marketing strategies, marketing decision-making and the impact of marketing on business.

BADM 541. MANAGERIAL COMMUNICATIONS. 4 Credits.
Pre-requisites: admission to the MBA program and completion of the MBA foundation or permission of the MBA director.
This course is designed to refine the student's written, oral, and electronic communications skills as applied to the managerial environment within the organization.

BADM 542. MARKETING RESEARCH. 4 Credits.

BADM 543. LABOR RELATIONS. 2 Credits.
Cross listed: PADM 543.
This course covers a broad range of topics such as history of the labor movement, federal and state statutes covering this field, emergency operations planning and legislative lobbying efforts.

BADM 545. COLLECTIVE BARGAINING. 2 Credits.
Cross listed: PADM 545.
This course addresses the process of reaching agreement on a contract.

BADM 552. LEADERSHIP AND ETHICS. 4 Credits.
Pre-requisites: permission of the MBA Director, or both of the following: admission to the MBA Program and completion of BADM 520.
This course inquires as to leaders and leadership from a perspective of ethics. It asks the student to think about principled leadership through three complex lenses: personal character, accountability, and pragmatism (ethical action in an uncertain, competitive, and imperfect world). Each of these lenses reflects traditions in moral philosophy and each emphasizes fundamental aspects of leaders’ responsibilities. The objective of the course is an integrated understanding of the relationship between ethics and leadership achieved through study of the leader.

BADM 555. STRATEGIC OPERATIONS. 4 Credits.
Pre-requisites: permission of the MBA Director, or all of the following: admission to the MBA Program and completion of BADM 520, 530, 540.
This course is a study of business operations practice - including production technology transfer, cause-and-effect for operations problems, operations strategies and action plans - and their applications to managerial decision making.

BADM 560. DECISION MAKING AND ACCOUNT INFORMATION. 4 Credits.
Pre-requisites: permission of the MBA Director, or admission to the MBA Program.
This course focuses on the use of accounting information and accounting information systems in business decision-making.

BADM 564. E-COMMERCE. 4 Credits.
Electronic commerce includes not only selling/buying online but also much more broad activities, such as organizational internal processes supports, electronic collaboration among partners, distance learning, and virtual communities. This course explores how the landscape of E-Commerce is changing and evolving. It covers the important topics of E-Commerce, including selling and marketing online, businesses trading and collaborating with other businesses, internal business process supports, legal, ethical and tax issues. Web security, E-Commerce infrastructure, etc. The course balances the strategic and technological aspects of successful E-Commerce with real-world business cases. This course also introduces the latest technological developments which will significantly impact the current and future E-Commerce, such as wireless technology, RFID (radio frequency identification) GDSN (global data synchronization network), EPC global Network, etc.

BADM 570. INFORMATION TECHNOLOGY AND THE ORGANIZATION. 4 Credits.
Pre-requisites: permission of the MBA Director or admission to the MBA Program.
This course analyzes the concepts and techniques underlying the development and control of informations systems within the firm. It covers the impact of emergent information technologies on strategic planning and emphasizes computer-based management information systems.

BADM 577. ENTREPRENEURSHIP. 4 Credits.
Pre-requisites: permission of the MBA director or admission to the MBA program.
This course is designed to provide the student a rigorous experience in not only learning about global entrepreneurship, but also in developing a business plan for either their own existing firm or a start-up opportunity. While not a capstone course it does require the student to utilize previously learned information that can be incorporated in the business plan. Verbal and oral communication, as well as Internet based communication and searching, are of importance in this course.
BADM 580. INTERNATIONAL BUSINESS ENVIRONMENTS. 4 Credits.
Pre-requisites: permission of the MBA Director, or both of the following:
- admission to the MBA Program
- completion of BADM 520 (may be concurrent)

This course provides an overview of the roles of business in the global
economic, political, social and other environments in which businesses
operate.

BADM 585. STRATEGY, COMPETITIVENESS AND ECONOMIC
DEVELOPMENT. 4 Credits.
Pre-requisites: graduate standing or permission of the MBA Director.
The MOC course is based on materials developed by the Institute for
Strategy and Competitiveness at Harvard Business School. The MOC
course explores the determinants of competitiveness and successful
economic development viewed from a bottom-up, microeconomic
perspective. While sound macroeconomic policies, stable legal and
political institutions, and improving social conditions create the potential
for competitiveness, wealth is actually created at the microeconomic
level. The sophistication and productivity of firms, the vitality of clusters,
and the quality of the business environment in which competition takes
place, are the ultimate determinants of a nation’s or region’s productivity.

BADM 590. MBA CAPSTONE. 4 Credits.
Pre-requisites: permission of the MBA Director or both of the following:
- admission to the MBA Program
- completion of all other core classes.
The study of administrative processes under conditions of uncertainty
including integrating analyses and policy determinations at the
overall management level. Includes a synthesis of the principles of
administrative management from the generalist’s view and integrates
prior specialized instruction in the basic functions of business and
management. Provides an opportunity to develop a capacity for analyzing
problems on a broad company-wide basis.

BADM 596. EXPERIMENTAL COURSE. 1-5 Credits.

BADM 598. GRADUATE SEMINAR. 2-4 Credits.

BADM 599. INDEPENDENT STUDY. 2-4 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.

BADM 600. THESIS. 2-8 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.
Independent research study under the direction of a graduate advisory
committee.

BADM 601. RESEARCH REPORT. 2-8 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.
Independent research resulting in a scholarly paper under the direction of
the student’s graduate committee chairperson.

BADM 603. FINAL PROJECT. 2 Credits.
Pre-requisites: must attempt completion of MFT and receive a score less
than the minimum score of 240.
An individual advanced praxis project in which students, following the
guidelines provided by the MBA program with the advice and editorial
review of the chair of their comprehensive oral exam committee,
develop a portfolio which is presented and discussed as part of the
comprehensive oral exam for the MBA degree.

BADM 695. INTERNSHIP. 2-4 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.

BADM 696. COLLEGE TEACHING INTERNSHIP. 2-4 Credits.
Teaching a lower-division college course under supervision of a regular
faculty member. Includes course planning, arranging bibliographical and
instructional aids, conferences with students, experience in classroom
instruction and student course evaluation.

Business Education (BUED)

BUED 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5
Credits.

BUED 299. DIRECTED STUDY. 1-15 Credits.

BUED 302. BUSINESS COMMUNICATION. 4 Credits.
Pre-requisites: junior standing.
Emphasis is placed on functional writing. This course develops skills
and techniques in writing business letters, office communications, and
business reports.

BUED 376. MULTIMEDIA DOCUMENT DESIGN. 5 Credits.
Pre-requisites: junior standing.
Learn concepts in Microsoft Word, Excel, PowerPoint and Access to
create and design formal and technical documents such as reports,
letters, charts, spreadsheets and databases. Students prepare for and
take the Microsoft Office Specialist (MOS) certification exams in MS
Word and MS Excel and, if desired, MS PowerPoint and MS Access. The
course uses problem-solving and critical thinking methods of learning
without the use of texts in three of the applications.

BUED 396. EXPERIMENTAL COURSE. 1-5 Credits.

BUED 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.

BUED 475. METHODS OF TEACHING BASIC BUSINESS, ACCOUNTING,
BUSINESS ENGLISH AND MARKETING. 4 Credits.
Pre-requisites: ACCT 351, BUED 302, EDUC 341, MKTG 310.
Materials, methods, and techniques of teaching basic business subjects:
marketing, accounting and business English.

BUED 476. METHODS OF TEACHING KEYBOARDING AND
MICROCOMPUTER APPLICATIONS. 4 Credits.
Pre-requisites: EDUC 341, MISC 370, MISC 373, MISC 374.
Materials, methods, and techniques of teaching keyboarding and
microcomputer applications.

BUED 496. EXPERIMENTAL COURSE. 1-5 Credits.

BUED 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5
Credits.

BUED 498. SEMINAR. 1-5 Credits.

BUED 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college
dean.

BUED 599. INDEPENDENT STUDY. 1-5 Credits.

BUED 600. THESIS IN BUSINESS EDUCATION. 1-5 Credits.

BUED 601. RESEARCH REPORT IN BUSINESS EDUCATION. 1-5 Credits.

BUED 695. INTERNSHIP-BUED. 1-5 Credits.

BUED 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.
Career Services (CRSV)

CRSV 210. CAREER DEVELOPMENT. 2 Credits.
This course is designed to help undecided and undeclared students explore and define their individual major and career path. While some content is appropriate for students at all levels, the main focus will be for those students who are exploring majors and careers.

CRSV 295. INTERNSHIP. 1-2 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Internship.

CRSV 296. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

CRSV 298. SEMINAR. 1-5 Credits.
Seminar

Career and Technical Education (CTED)

CTED 299. DIRECTED STUDY. 1-15 Credits.

CTED 300. INTRODUCTION TO CAREER AND TECHNICAL EDUCATION. 4 Credits.
Notes: Industry and Business Route/Plan 2 students may simultaneously take CTED 492.
Pre-requisites: acceptance into the CTE Plan 2 program.
An introduction to the elements of Career and Technical Education (formerly vocational education) and, specifically, Business/Industry Route Certification: Plan 2. Required for Plan 2 students, this course also includes current components of education in Washington state and the nation and both their implications for Career and Technical Education (CTE).

CTED 301. PHILOSOPHY OF CAREER AND TECHNICAL EDUCATION. 4 Credits.
Notes: Industry and Business Route/Plan 2 students may simultaneously take CTED 492.
Pre-requisites: junior standing or permission of the instructor.
Study of the role of Career and Technical Education (CTE) in the American education system at all levels including philosophy and purpose, state and federal legislative acts, alternative delivery systems and their components, certification standards, and funding alternatives.

CTED 309. CTE CLASSROOM MANAGEMENT. 4 Credits.
Pre-requisites: acceptance into the CTE Plan 2 program.
This course addresses instructional practices that provide inclusive learning environments to support diverse learners at the secondary (7–12) level. Candidates develop skills in identifying barriers to student success, selecting strategies that support learners while differentiating learning for student success, and incorporating strategies to assist students in becoming self-managers and accountable for their actions and learning.

CTED 341. CTE SECONDARY STRATEGIES. 4 Credits.
Pre-requisites: acceptance into the CTE Plan 2 program.
This course focuses on assessment and instructional practices for the secondary (7–12) level. The course develops skills in lesson planning, creating student-centered learning environments, implementing strategies to align instruction and outcomes to state and national standards, and teaching core standards in context through project and problem-based processes.

CTED 396. EXPERIMENTAL COURSE. 1-10 Credits.
Experimental.

CTED 398. SEMINAR. 1-15 Credits.

CTED 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

CTED 470. COORDINATION TECHNIQUES. 3 Credits.
Designed for instructors who plan to develop and use worksites for internships and job placement. Students will demonstrate knowledge and understanding of state laws and rules that pertain to all types of high school work-based learning experiences.

CTED 474. ADMINISTRATION OF WORK-SITE EDUCATION. 4 Credits.
Notes: Industry and Business Route/Plan 2 students may simultaneously take CTED 485 and CTED 492.
Pre-requisites: CTED 301.
Operational procedures for conducting work-site learning environments. Includes occupational analysis techniques, school-to-work partnerships and linking classroom learning to the workplace.

CTED 485. MANAGEMENT OF CTE PRACTICUM. 1 Credit.
Notes: Industry and Business Route/Plan 2 students may simultaneously take CTED 300, CTED 301 or CTED 474.
A 60-hour minimum classroom instructional practicum is required for all Plan 2 teacher candidates. The practicum is used to demonstrate student learning as well as an assessment tool for Career and Technical Education (CTE) certification.

CTED 492. CTE PROFESSIONAL PORTFOLIO. 4 Credits.
Notes: Industry and Business Route/Plan 2 students may simultaneously take CTED 300, CTED 301 or CTED 474.
A Professional Development Portfolio course to organize Career and Technical Education (CTE) competencies and curriculum design. Teacher candidates will organize instructional materials as they progress through the Plan 2 program.

CTED 495. PROFESSIONAL INTERNSHIP. 1-15 Credits.

CTED 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CTED 498. SEMINAR. 1-15 Credits.

CTED 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Chemistry and Biochemistry (CHEM)

CHEM 100. INTRODUCTION TO CHEMISTRY. 5 Credits.
This course prepares those who have not had a satisfactory background in high school chemistry to take CHEM 151 or CHEM 161. Topics include the scientific method, SI and metric systems, unit conversions, atomic structure, periodic table, bonding, and stoichiometry. Laboratory work is included.
CHEM 121. CHEMISTRY AND ITS ROLE IN SOCIETY. 5 Credits.
Satisfies: GECR for natural sciences, chemistry.
Basic chemical principles are used to examine some of the chemistry that most directly impacts individuals and society on a day-to-day basis. The course is designed to develop in students an appreciation for the chemical basis of their bodies and their environment. Emphasis is placed on the dynamic nature of the field of chemistry and efforts are made to dispel many of the common misconceptions that nonscientists often have about chemistry and other natural sciences. Laboratory work is included.

CHEM 140. CRIMINALISTICS AND FORENSIC CHEMISTRY. 5 Credits.
Pre-requisites: two semesters of high school science or the equivalent are strongly recommended.
This course provides an overview of forensic science and criminalistics including history and the modern role of forensic science in the judicial system. Topics covered include DNA typing, trace evidence analysis, firearms and tool marks, and impression evidence. Laboratory work is included. Labs will focus on current forensic techniques.

CHEM 151. GENERAL CHEMISTRY. 5 Credits.
Pre-requisites: ±2.0 in MATH 141 or concurrent enrollment; ±2.0 in CHEM 100 or ±2.0 in CHEM 161 or one year of high school chemistry.
Satisfies: the completion of CHEM 151 satisfies a GECR for natural sciences, chemistry.
Topics will include units, uncertainty in measurement, ionic nomenclature, structure of matter, chemical reactions and stoichiometry, thermochemistry, periodic table and chemical bonding. Quantitative and qualitative laboratory work is included.

CHEM 152. GENERAL CHEMISTRY. 5 Credits.
Pre-requisites: CHEM 151; ±2.0 in MATH 141.
Satisfies: the completion of CHEM 151 and CHEM 152 satisfies a second GECR for natural sciences, chemistry.
Topics include properties of gases, liquids and solids; intermolecular forces; properties of solutions; chemical equilibrium and acid base equilibria. Laboratory work includes quantitative and qualitative analysis.

CHEM 153. GENERAL CHEMISTRY. 5 Credits.
Pre-requisites: CHEM 152.
Topics include kinetics, thermodynamics, electrochemistry, nuclear and/or chemistry of nonmetals, and transition metals and coordination chemistry. Laboratory work includes quantitative and qualitative analysis.

CHEM 161. GENERAL CHEMISTRY FOR THE HEALTH SCIENCES. 5 Credits.
Pre-requisites: Concurrent enrollment in or completion of MTHD 104 or MATH 107 or MATH 141 or equivalent. A high school chemistry course or CHEM 100 is highly recommended.
Satisfies: a GECR for natural sciences, chemistry.
Course includes a survey of inorganic chemistry for pre-nursing, pre-dental hygiene and allied health science students. Topics include atomic structure, the periodic table, stoichiometry, solutions, equilibrium, acids and bases. Laboratory work is included. A placement exam will be given during the first week of classes.

CHEM 162. ORGANIC CHEMISTRY FOR THE HEALTH SCIENCES. 5 Credits.
Pre-requisites: CHEM 161.
Satisfies: a GECR for natural sciences, chemistry.
The course is a survey of organic chemistry for pre-nursing, pre-dental hygiene and allied health science students. Topics include naming, properties and reactions of hydrocarbons, alcohols, ethers, amines and carbonyl compounds. Laboratory work is included.

CHEM 163. BIOCHEMISTRY FOR THE HEALTH SCIENCES. 5 Credits.
Pre-requisites: CHEM 162.
This course is a survey of biochemistry for pre-nursing, pre-dental hygiene, and allied health science students. Topics include amino acids, proteins, enzymes, lipids, carbohydrates, nucleic acids, biotechnology, and metabolic pathways. Laboratory work is included.

CHEM 196. EXPERIMENTAL COURSE. 1-5 Credits.
CHEM 199. DIRECTED STUDY. 1-5 Credits.
CHEM 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-10 Credits.
CHEM 304. QUANTITATIVE ANALYSIS. 6 Credits.
Pre-requisites: CHEM 153.
Theory and practice of gravimetric and volumetric analysis with an introduction to some elements of instrumental analysis.

CHEM 316. ENVIRONMENTAL CHEMISTRY. 5 Credits.
Pre-requisites: CHEM 151, CHEM 152, CHEM 153 or CHEM 161, CHEM 162, CHEM 163.
The course is an introduction to environmental chemistry covering both fundamental chemical principles and societal implications. Emphasis will be placed on local issues such as Hanford Nuclear Reservation and the environmental impact of mining. Laboratory work is included.

CHEM 319. MODERN INORGANIC CHEMISTRY. 4 Credits.
Pre-requisites: CHEM 153.
This course covers periodicity, group trends, structure-reactivity relationships of the elements and chemical reactions.

CHEM 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

CHEM 350. PRINCIPLES OF PHARMACOLOGY. 2 Credits.
Pre-requisites: CHEM 163, BIOL 233 or equivalent.
The course is primarily intended for the athletic training or other allied health science students. The course presents a review of the actions of over-the-counter drugs and an introduction to the principles of pharmacological action from the integrated foundations of physiology, organic chemistry, and biochemistry.

CHEM 351. ORGANIC CHEMISTRY. 4 Credits.
Pre-requisites: CHEM 153.
An integrated study of fundamental organic chemistry for Chemistry majors and students planning on careers in medicine, dentistry, pharmacology, engineering, or related fields. Emphasizes nomenclature, bonding, reactivity, stereochemistry, synthetic methods, reaction mechanisms, physical properties, and spectrometric identification of the principal classes of organic compounds, including biochemical examples.

CHEM 352. ORGANIC CHEMISTRY. 4 Credits.
Pre-requisites: CHEM 351.
An integrated study of fundamental organic chemistry for Chemistry majors and students planning on careers in medicine, dentistry, pharmacology, engineering, or related fields. Emphasizes nomenclature, bonding, reactivity, stereochemistry, synthetic methods, reaction mechanisms, physical properties, and spectrometric identification of the principal classes of organic compounds, including biochemical examples.
CHEM 353. ORGANIC CHEMISTRY. 3 Credits.
Pre-requisites: CHEM 352.
A comprehensive study of the chemistry of polyfunctional carbon compounds.

CHEM 357. NEUROPHARMACOLOGY. 2 Credits.
Pre-requisites: CHEM 163 and BIOL 233 or equivalent, or permission of the instructor.
The course is primarily intended for pre-medical, pre-dental, pre-pharmacy or other science students. Topics covered include CNS neurotransmitters and their pharmacology, various biochemical hypotheses for neurological disorders, and the pharmacology of a variety of psychoactive drug classes of use or abuse.

CHEM 372. ORGANIC CHEM LABORATORY I. 3 Credits.
Pre-requisites: CHEM 351.
This course is an introduction to the elementary techniques of the organic laboratory, including synthesis, application of chromatography, and spectrometry. This is a laboratory course.

CHEM 373. ORGANIC CHEM LABORATORY II. 3 Credits.
Pre-requisites: CHEM 352 and CHEM 372.
This course emphasizes spectrometry, synthesis, structure determination and advanced techniques in isolation, purification and analysis. This is a laboratory course.

CHEM 390. CHEMICAL METHODS IN SECONDARY SCHOOL. 1 Credit.
Pre-requisites: CHEM 153 and concurrent enrollment in SCED 390, or permission of the instructor.
This course is for chemistry majors planning to teach in the secondary schools. It includes organization of lesson materials and techniques, and evaluation methods. Laboratory work is included.

CHEM 395. INTERNSHIP. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

CHEM 396. EXPERIMENTAL COURSE. 1-6 Credits.

CHEM 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-10 Credits.

CHEM 399. DIRECTED STUDY. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Library or laboratory study of a chemical problem.

CHEM 416. ADVANCED ENVIRONMENTAL CHEMISTRY. 3 Credits.
Pre-requisites: CHEM 304, CHEM 316 and CHEM 352 (or concurrent), or permission of the instructor.
This course includes a detailed study of atmospheric, soil, water, and waste water chemistry. Aspects of environmental/analytical chemistry will be introduced. Laboratory work will cover aspects of sampling, instrumental and automated analysis, and regulatory requirements. Students will concentrate in the area of their particular interest, leading to a comprehensive written research report and presentation. Laboratory work is included.

CHEM 418. MODERN ANALYTICAL CHEMISTRY. 5 Credits.
Pre-requisites: CHEM 304.
Principles of recently developed methods of analytical chemistry.

CHEM 419. ADVANCED INORGANIC CHEMISTRY. 5 Credits.
Pre-requisites: CHEM 319 and CHEM 422, or permission of the instructor.
This course covers ionic, covalent and metallic bonding, complexes, acids and bases, molecular structure, symmetry, and thermodynamics of inorganic reactions. It also introduces mechanisms of inorganic reactions and organometallic chemistry of selected groups of elements. Laboratory work is included.

CHEM 420. INSTRUMENTAL ANALYSIS. 5 Credits.
Pre-requisites: CHEM 422 or permission of the instructor.
This course introduces instrumental methods of analysis. This is a laboratory course.

CHEM 421. PHYSICAL CHEMISTRY. 4 Credits.
Notes: for CHEM 421, completion of a computer programming course is strongly recommended.
Pre-requisites: CHEM 304, PHYS 133 or PHYS 153, MATH 162.
Classical and statistical thermodynamics, electrochemistry, quantum theory, kinetics, symmetry, spectroscopic, and diffraction methods of structure determination.

CHEM 422. PHYSICAL CHEMISTRY. 3 Credits.
Pre-requisites: CHEM 421.
Classical and statistical thermodynamics, electrochemistry, quantum theory, kinetics, symmetry, spectroscopic, and diffraction methods of structure determination.

CHEM 423. PHYSICAL CHEMISTRY LABORATORY. 1 Credit.
Pre-requisites: concurrent enrollment in CHEM 421.
(See your Chemistry/Biochemistry advisor.) These courses cover data treatment, current physicochemical techniques, computer applications to chemical systems. These are laboratory courses

CHEM 432. PHYSICAL CHEMISTRY LABORATORY. 2 Credits.
Pre-requisites: concurrent enrollment in CHEM 422.
These courses cover data treatment, current physicochemical techniques, computer applications to chemical systems. These are laboratory courses

CHEM 433. PHYSICAL CHEMISTRY LABORATORY. 2 Credits.
Pre-requisites: concurrent enrollment in CHEM 423.
These courses cover data treatment, current physicochemical techniques, computer applications to chemical systems. These are laboratory courses

CHEM 440. ADVANCED PHYSICAL CHEMISTRY. 4 Credits.
Pre-requisites: concurrent enrollment or completion of CHEM 423.
Further development of principles underlying molecular symmetry, group theory and quantum chemistry, with applications to molecular orbitals and molecular spectroscopy. Introduction to semi-empirical calculations of electronic properties of molecules and analysis of spectroscopic data.

CHEM 445. TOPICS IN FORENSIC CHEMISTRY. 5 Credits.
Pre-requisites: acceptance into BS forensic option.
This course includes a detailed investigation of current topics in forensic chemistry and forensic science. Topics will include courtroom testimony, laboratory accreditation, and analyst certification. Laboratory work is included.
CHEM 450. ADVANCED FORENSIC CHEMISTRY. 5 Credits.
Pre-requisites: acceptance into BS forensic option.
This course includes a detailed examination of the techniques of forensic chemistry including organic, inorganic, and instrumental analysis. Topics include gunshot residue, drugs and toxicology, paint, arson and explosives, and biochemical methods such as electrophoresis. Advanced topics in crime scene procedures, chain-of-custody, and quality assurance, will be discussed. Laboratory work is included.

CHEM 454. CLINICAL CHEMISTRY. 4 Credits.
Pre-requisites: CHEM 304 and CHEM 352.
This course is an introduction to both the methodologies involved in the analyses of diagnostically important compounds in clinical chemistry, (i.e., spectroscopy, ion-selective electrodes, enzymology, immunoassays and liquid chromatography), and the biochemical and physiological correlations of normal and disease states. This is intended for medical technology and chemistry majors and students with interests in medical sciences.

CHEM 456. ADVANCED ORGANIC CHEMISTRY. 2 Credits.
Pre-requisites: CHEM 353 and CHEM 421 or permission of the instructor.
This course is an in-depth study of modern analytical techniques used in the structural analysis of organic compounds. This course will comprise both theory and practical experience with the instruments. Topics covered include UV, IR, NMR, mass spectrometry, and chromatography. This is a laboratory course with lecture included.

CHEM 471. PRE-MEDICAL, DENTAL, VETERINARY AND PHARMACY PREPARATION. 1-2 Credits.
Prequisites: CHEM 480 or permission of instructor. Prepares students for their application to medical, dental, veterinary or pharmacy school and for professional activities.

CHEM 480. BIOCHEMISTRY. 5 Credits.
Pre-requisites: CHEM 352 (or concurrent enrollment). Note for the Biochemistry Option only, concurrent enrollment or completion of BIOL 310 is suggested and CHEM 483 must be taken concurrently. (see your Chemistry/Biochemistry advisor.) This course covers elements of biochemistry, including the structure and function of the major classes of proteins, nucleic acids, carbohydrates and lipids.

CHEM 481. INTERMEDIARY METABOLISM. 5 Credits.
Pre-requisites: CHEM 480.
Biosynthesis and metabolism of nucleotides, carbohydrates, lipids, amino acids, and steroids; regulation and integration of biochemical pathways.

CHEM 482. INTEGRATED TOPICS IN BIOCHEMISTRY AND BIOPHYSICS. 3 Credits.
Pre-requisites: CHEM 480.
Explores energy pathways, signal transduction pathways and genetic information pathways in living organisms. Provides a chemical perspective of the key principles of bioenergetics and membrane transport. Specific topics, discussed at a molecular level, are selected from, but not limited to, the following: electron transport, proton pumping, and ATP production in mitochondria and chloroplasts; hormone induced signal transduction; RNA synthesis and processing, and protein synthesis and processing.

CHEM 483. BIOCHEMISTRY LABORATORY. 2 Credits.
Pre-requisites: concurrent enrollment or completion of CHEM 480. Experiments include basic analytical and separatory techniques applied to problems in nucleotide identification, lipid turnover, photosynthesis, enzyme kinetics and cell fractionation.

CHEM 484. BIOCHEMISTRY LABORATORY. 2 Credits.
Pre-requisites: concurrent enrollment or completion of CHEM 480. Experiments include basic analytical and separatory techniques applied to problems in nucleotide identification, lipid turnover, photosynthesis, enzyme kinetics, and cell fractionation.

CHEM 491. SENIOR THESIS. 4-6 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement.
Directed research in your area of chemistry leading to an oral presentation and written report. See your advisor for further information.

CHEM 495. INTERNSHIP. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Supervised chemistry-related experiences with a professional or business organization.

CHEM 496. EXPERIMENTAL COURSE. 1-15 Credits.

CHEM 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-10 Credits.

CHEM 498. SEMINAR. 1-2 Credits.
Pre-requisites: permission of the instructor.
Oral presentation of a chemical topic.

CHEM 499. DIRECTED STUDY. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Research on a chemical problem.

CHEM 539. SPECIAL STUDIES. 2-6 Credits.

CHEM 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-15 Credits.

CHEM 599. INDEPENDENT STUDY. 2-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Chicano Studies (CHST)

CHST 101. INTRODUCTION TO CHICANO CULTURE. 5 Credits.
Cross listed: ANTH 161.
Satisfies: cultural and gender diversity university graduation requirement.
A study of Chicano culture providing an initial overview of its roots and conflicts. Specific components discussed are cultural identity, customs, language, psychology and the arts.

CHST 196. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

CHST 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-3 Credits.
Workshop, short course, conference.

CHST 199. DIRECTED STUDY. 1-5 Credits.
Directed Study
CHST 201. LATINAS/OS IN CONTEMPORARY AMERICAN SOCIETY. 5 Credits.
Cross listed: ANTH 201.
Satisfies: cultural and gender diversity university graduation requirement.
The course examines the experience of the other Latinos (Hispanics) in the United States: Puerto Rican, Cuban American and Central Americans. The course presents a brief historical overview of their entrance in American Society and a demographic comparison of significant socio-economic variables of the groups. The primary focus of the course is to examine the social and cultural profile of the Puerto Rican, Cuban and Central American groups in the U.S. The course covers historical, social and cultural themes, which include the impact of American institutions on identity, culture, language, the family and the future implications of immigration from Latin America.

CHST 218. CHICANO HISTORY. 5 Credits.
Cross listed: HIST 218.
Satisfies: cultural and gender diversity university graduation requirement.
This course offers a study of Chicano history from the time of the Treaty of Guadalupe Hidalgo in 1848, to the present. Specific themes discussed include the Mexican American War, the Treaty of Guadalupe Hidalgo of 1848, the economic, political and social conditions after the Anglo-American conquest of the southwest, Mexican immigration to the U.S., Chicano labor history, the Chicano movement and other Chicano themes.

CHST 230. CHICANAS AND LATINAS IN THE U.S.. 5 Credits.
Pre-requisites: CHST 101 or ANTH 161.
This course provides a description and analysis of the experience of Chicanas and Latinas in the United States. First, the course presents a review of Chicana studies scholarship and the evolution of Chicana feminist theory. Next, the course examines the historical, cultural, political and social-economic themes which define the experience of Chicanas/Latinas in the United States.

CHST 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Workshop, short course, conference.

CHST 300. SURVEY OF CHICANO LITERATURE. 5 Credits.
Cross listed: ENGL 498 (may be cross-listed).
Notes: CHST 101 or CHST 218 recommended.
This course will offer students an overview of the historical development and current trends in Chicano Literature. The course will focus on the literary forms of poetry, novel, and the short story. The class will give students an understanding of various theoretical approaches utilized in critically analyzing literary works. Students will be expected to read, discuss, and apply theoretical techniques on specific Chicano literary works.

CHST 310. LATINAS/OS IN THE U.S. MEDIA. 5 Credits.
Pre-requisites: CHST 101, CHST 218, ANTH 161 or HIST 218 or permission of instructor.
This course surveys how Latinos and Latinas have been depicted in film, news, television and other media formats in the United States. The first section of the course examines Hollywood depictions of the Latino/a experience in the film industry from the early period of U.S. cinema to contemporary representations as well as the depiction of US Latinos/as in Mexican cinema. The second section examines the depictions of Latinos/as in television and the news. Finally, the course presents the emergence of Chicano cinema from the early documentary to the full length dramatic feature.

CHST 320. CHICANO-LATINO POLITICS IN AMERICA. 5 Credits.
Cross listed: POLI 350 (may be cross-listed).
Notes: CHST 101 or CHST 218 recommended.
The purpose of this course is to study the political reality of Latinos in the United States: a heterogeneous group made up largely of Mexican, Puerto Rican, Cuban American origin and others (Central and South Americans). The focus taken in this class is to look at the Latino population in terms of its orientation to the political system, its institutions and actors and their participation in the electoral process. The course will examine the political orientation of the Latino community towards power, authority, role of government and actions taken by governmental bodies and linkages to political participation. Overall, the goal of the course is for students to have a better understanding of the political experience of the second largest racial/ethnic group in the United States.

CHST 330. LATINO IMMIGATION TO THE U.S.. 5 Credits.
Pre-requisites: CHST 101, CHST 218, ANTH 161, HIST 218 or permission of the instructor.
This course is a historical overview of Latino immigration from Mexico, Central America, and the Caribbean. Special attention is given to the largest Latino sub groups in the United States. This course examines the social phenomenon of labor migration and immigration from Latin America and places it in the context of political economic national inequalities. Themes covered in the course include the transnational character of Latino immigrants, the political economy of immigration, the social and cultural impact of immigrants in the U.S. Latino communities and the transnational economic links between the sending and receiving communities.

CHST 331. LATINO FAMILY IN THE U.S.. 5 Credits.
Pre-requisites: CHST 101, CHST 218, ANTH 161, HIST 218 or permission of the instructor.
This course presents an overview of the general direction of current scholarship on the Chicano/Latino family, with a special focus on basic familial structure and the dynamics of change. First, the course examines traditional interpretations and methodologies and suggests alternative theoretical perspectives. Second, the course examines research issues such as familialism, machismo, gender roles, parenting, divorce, family violence, aging, immigration and family, and public policy on family life.

The course is designed to accomplish three objectives. First it presents a typology of the diverse experience of Latina/o Communities in the US. Second, it provides a critical review of theories and methods utilized in the study of the Chicano-Latino experience in the US. Third it incorporates a field research component whereby students apply the theories and methods examined in the course.

CHST 396. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

CHST 398. SEMINARS. 1-5 Credits.
Seminar

CHST 420. READINGS IN DECOLONIZATION. 5 Credits.
Cross listed: IDST 420.
Pre-requisites: IDST 101 and CHST 101 or ANTH 161.
This course grounds students in the theory and concepts of colonization, decolonization and indigenous peoples in America, with brief comparisons with global indigenous peoples and experiences. Through that theoretical understanding, students examine and formulate ways in which decolonization can impact and be integrated into indigenous lives and communities in a meaningful way.
CHST 495. INTERNSHIP/PRACTICUM. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

CHST 496. EXPERIMENTAL COURSES. 1-5 Credits.
Experimental

CHST 498. SEMINAR. 1-5 Credits.
Chicano topics discussed from various disciplines including the humanities and social sciences.

CHST 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
An in-depth, independent research project.

Children's Studies (CDST)

CDST 195. INTERNSHIP. 1-5 Credits.

CDST 301. INTRODUCTION TO CHILDREN'S STUDIES. 2 Credits.
Students will be introduced to the history of Children's Studies and the guiding framework or philosophy. They will also have the opportunity to learn how to develop a professional growth plan and to construct and assess their knowledge through the development of portfolios.

CDST 330. RESEARCH METHODS FOR STUDYING CHILDREN AND CHILDHOOD. 4 Credits.
This course introduces students to research that helps us understand children's lives and experiences. The course examines core research methods, multicultural philosophies and ethical considerations given the power dynamics between adult researchers and child subjects. Students become familiar with scientific methods as applied in research with children, including methods for data collection and skills in analytic techniques.

CDST 402. CHILDREN'S RIGHTS. 5 Credits.
Pre-requisites: CDST 301.
This course provides an extended examination of children's rights, in both national and global contexts. Students are introduced to the history of the children's rights movement, the development and impact of the United Nations Convention on the Rights of the Child, and various theories, perspectives and issues within the children's rights field.

CDST 411. CHILD LIFE THEORY. 5 Credits.
Pre-requisites: CDST 301.
This course involves the careful examination of children and their families in a healthcare setting. It is taught from the perspective of a Child Life Specialist to aid in minimizing the stress and anxiety experienced during hospitalization. It focuses on educational and play components, and the general support and scope of practice unique to the field.

CDST 4112. HEALTH AND CHILDREN. 5 Credits.
CDST 412. HEALTH AND CHILDREN. 5 Credits.
Pre-requisites: CDST 301.
This course introduces concepts and issues in the area of children's health. Using a holistic framework, the course examines the wellbeing of children, including their physical, mental, emotional, social, and spiritual growth and development. The course covers programmatic strategies, social and family support, community practice models and policy that address issues such as child welfare, nutrition and safety management.

CDST 413. MEDIA AND CHILDREN. 5 Credits.
Pre-requisites: CDST 301.
This course focuses on the developmental impacts that modern media has on children and adolescents. Exploration of media covers such issues as advertising, violence, video games, sexuality, drugs, body image, eating disorders, music and the Internet. Students research problems and beneficial aspects of media.

CDST 421. PLAY AND PLAYWORK. 4 Credits.
Pre-requisites: CDST 301.
Students research definitions, history, theories, forms and functions of play. Students examine the different environments for play throughout history. Topics include free play, value of toys and games, children’s digital play, and the roles of creativity and marketing in today's society.

CDST 422. CHILDREN'S LOSS AND GRIEF. 4 Credits.
Pre-requisites: CDST 301.
This course explores the ways children experience loss, including death, at different developmental stages and how different cultures view children’s grief. The course introduces students to a variety of organizational situations where adults work with children who are experiencing loss and grief.

CDST 439. TOPICS IN CHILDREN'S STUDIES. 5 Credits.
Notes: may be repeated for credit, providing the title is different.
This variable topic class explores current issues and interests in the field of children's studies. Topics might include children's studies perspectives on contemporary issues, current research issues of specific faculty or deeper investigation of topics covered in core courses. Topics or issues that might be covered in this course range from play to children's activism.

CDST 490. SENIOR CAPSTONE. 4 Credits.
Pre-requisites: senior standing or approval of instructor.
Satisfies: senior capstone university graduation requirement.
This course is designed to move from basic understandings of children's studies and the multiple disciplines from which it emerges to an integrated and unified interdisciplinary understanding. Integration of learning will be facilitated through service learning or community-based research projects in collaboration with local organizations that address children’s issues.

CDST 492. CHILDREN’S STUDIES SENIOR PORTFOLIO. 2 Credits.
Pre-requisites: senior standing or approval of instructor.
Building on the portfolio process, students will develop and present an exit portfolio. This process will include identifying personal and career objectives; discussing content; developing themes; choosing formats; and revising personal statements, narrative, and resumes. Exit portfolios will be used for program assessment.

CDST 495. CHILDREN’S STUDIES INTERNSHIP. 1-10 Credits.
Pre-requisites: senior standing or approval of instructor.
Students receive academic credit for internships supervised within organizations working with or for children. The internship is initiated by the student and facilitated by their academic advisor, their site supervisor and the Career Services Internship Office. Students complete a Learning Contract, which outlines expectations, roles and responsibilities, as well as the process of documentation and evaluation.

CDST 496. EXPERIMENTAL. 1-5 Credits.
Experimental.

CDST 498. SEMINAR. 1-5 Credits.

CDST 499. DIRECTED STUDY. 1-15 Credits.
**Chinese (CHIN)**

**CHIN 101. FIRST-YEAR CHINESE I. 5 Credits.**
The beginning Chinese sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

**CHIN 102. FIRST-YEAR CHINESE II. 5 Credits.**
Pre-requisites: CHIN 101 or equivalent.
The beginning Chinese sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

**CHIN 103. FIRST-YEAR CHINESE III. 5 Credits.**
Pre-requisites: CHIN 102 or equivalent.
The beginning Chinese sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

**CHIN 199. SPECIAL STUDIES. 1-5 Credits.**

**CHIN 201. SECOND-YEAR CHINESE I. 5 Credits.**
Pre-requisites: CHIN 101 or equivalent.
Second year sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

**CHIN 202. SECOND-YEAR CHINESE II. 5 Credits.**
Pre-requisites: CHIN 201 or equivalent.
Second year sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

**CHIN 203. SECOND-YEAR CHINESE III. 5 Credits.**
Pre-requisites: CHIN 202 or equivalent.
Second year sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

**CHIN 299. SPECIAL STUDIES. 1-5 Credits.**

**CHIN 399. DIRECTED STUDY. 1-3 Credits.**

**College Instruction (COIN)**

**COIN 571. SURVEY POST-SECONDARY EDUCATION. 4 Credits.**
Focuses on the role and purpose of adult and higher education through a study of educational issues. Students will develop a personal philosophy of adult and higher education. Special attention is given to the role of the two-year community college.

**COIN 572. STRATEGIES FOR TEACHING ADULTS. 4 Credits.**
A study of teaching-learning processes suitable for adult education, and analysis of the educational theories from which they derive.

**COIN 581. WORKSHOP IN COLLEGE TEACHING. 3 Credits.**
Supervised training in various teaching strategies for large group, small group and individualized instruction.

**COIN 599. INDEPENDENT STUDY. 1-15 Credits.**
Pre-requisites: permission of the instructor, department chair and college dean.
Individually negotiated studies in an area of post-secondary education, supervised by a member of the college instruction faculty.

**COIN 600. THESIS. 1-15 Credits.**
Notes: graded Pass/No Credit.
Pre-requisites: permission of the instructor, department chair and college dean.
A research study in a negotiated area of post-secondary education, under the guidance and supervision of a graduate advisory committee.

**COIN 601. RESEARCH REPORT. 1-15 Credits.**
Notes: graded Pass/No Credit.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent research in a negotiated area of post-secondary education, supervised by a member of the college instruction faculty.

**COIN 696. COLLEGE TEACHING INTERNSHIP. 1-15 Credits.**
Notes: graded Pass/No Credit.
Pre-requisites: COIN 572 or COIN 581.
Enrollment with permission of the College Instruction program advisor. Teaching under supervision at a two-year or four-year college, or other appropriate institution. Includes regular instructional responsibilities and additional planned experience.

**Communication Disorders (COMD)**

**COMD 201. DISABILITY AND COMMUNICATION DIVERSITY: A COMMUNICATION DISORDERS PERSPECTIVE. 4.5 Credits.**
Satisfies: cultural and gender diversity university graduation requirement.
This course fosters an understanding of the meaning of diversity historically, philosophically, psychologically and morally in reference to persons with disabilities and communication differences by incorporating these concepts with one’s own values and experiences. Examples include deaf culture and English as a Second Language (ESL) learners in the United States.

**COMD 301. INTRODUCTION TO SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY. 4.5 Credits.**
This course provides an overview of speech, hearing and language development, disorders and remediation for students who may have an interest in this discipline as a career choice.

**COMD 304. PHONETICS. 4.5 Credits.**
This course examines the motor and acoustic aspects of speech production, description, and classification of English phonemes, and broad transcription using the International Phonetic Alphabet (IPA).

**COMD 320. SPEECH AND HEARING SCIENCES. 4.5 Credits.**
Pre-requisites: completion of Natural Science GECRs or permission of the instructor.
This course is a study of acoustics and psychoacoustics of speech and hearing.

**COMD 321. ANATOMY AND PHYSIOLOGY OF SPEECH PRODUCTION. 4.5 Credits.**
Pre-requisites: completion of Natural Science GECRs or permission of the instructor.
This course is a study of anatomy, physiology and physics as related to speech and voice production.

**COMD 331. LANGUAGE DEVELOPMENT. 4.5 Credits.**
This course examines the basic principles and sequences of language development; methods of observing, measuring, and describing children’s acquisition of language.

**COMD 357. LANGUAGE IMPAIRMENT. 4.5 Credits.**
Pre-requisites: COMD 301, COMD 331 or permission of the instructor.
This course addresses the measurement as well as analysis of developing language as well as etiology, assessment and intervention for developmental language disorders.
COMD 358. SPEECH SOUND DISORDERS. 4.5 Credits.
Pre-requisites: COMD 301 and COMD 304 or permission of the instructor.
This course describes normal phonological and articulatory development as well as the etiology, assessment and intervention of articulation and phonological disorders.

COMD 371. HEARING AND HEARING DISORDERS. 4.5 Credits.
This course is a study of aural anatomy and physiology, as well as etiology, pathology, and treatment of hearing impairment.

COMD 372. AUDIOMETRY. 4.5 Credits.
Pre-requisites: COMD 301 and COMD 371.
This course is a study of acoustics and psychoacoustics, as well as principles of auditory testing and interpretation of hearing tests.

COMD 396. EXPERIMENTAL COURSE. 1-5 Credits.

COMD 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

COMD 405. SPEECH-LANGUAGE PATHOLOGY AND AUDIOLOGY IN THE SCHOOL. 4.5 Credits.
Pre-requisites: permission of the instructor and fulfillment of additional state requirements.
This course ideally precedes the student teaching experience. Information is provided about the special issues and problems encountered by professional practice in the public school setting.

COMD 422. NEUROANATOMY. 4.5 Credits.
Pre-requisites: COMD 321.
This course is a study of the normal anatomy and physiology of the nervous system and its role in communication processes.

COMD 441. ASSESSMENT OF SPEECH AND LANGUAGE. 4.5 Credits.
Pre-requisites: completion of all 300-level courses in the major.
This course addresses the principles and techniques for assessing communication disorders, including formal and informal assessment methods, practical experience in test administration, theoretical and ethical issues, report writing, and the relationship of assessment to treatment.

COMD 442. INTERVENTION FOR SPEECH AND LANGUAGE DISORDERS. 4.5 Credits.
Pre-requisites: senior standing or permission of instructor.
This course addresses the development of intervention plans, including intervention strategies and rationale, construction of daily therapy plans, methods for data collection, and interpretation and evaluation of therapy outcomes.

COMD 450. LANGUAGE AND LITERACY. 4.5 Credits.
Pre-requisites: COMD 331.
Building upon COMD 331, this course examines the relationship between early language development and later development of literacy skills. Issues related to language disorders and concomitant deficiencies in literacy acquisition will be discussed.

COMD 451. NEUROGENIC COMMUNICATION DISORDERS. 4.5 Credits.
Pre-requisites: COMD 422 or permission of the instructor.
This course provides an introduction to the etiology, assessment and intervention of communication disorders associated with neurological disorders.

COMD 452. TOPICS IN CONTINUING EDUCATION. 1-5 Credits.
This course is offered in cooperation with the Meadowood Speech and Hearing Camp in Pendleton, Oregon. Student volunteers earn college credit while learning state of the art strategies working with children exhibiting a variety of speech, language, and hearing disorders.

COMD 455. VOICE AND RESONANCE DISORDERS. 4.5 Credits.
Pre-requisites: COMD 321.
This course addresses the anatomy and physiology of the vocal mechanism with an overview of functional, congenital, and acquired voice disorders.

COMD 456. FLUENCY DISORDERS. 4.5 Credits.
Pre-requisites: senior standing or permission of the instructor.
This course provides definitions and descriptions of fluency disorders, discussing their effects on the speaker and listener. It examines various theories of the etiology of stuttering as well as its assessment and treatment in children and adults.

COMD 461. CLINICAL METHODS. 3 Credits.
Notes: must be taken twice for the PB Certificate.
Pre-requisites: senior standing or permission of instructor.
This course offers students the opportunity to observe communication disorder assessment and intervention. The students will be introduced to the basic essential ingredients of good therapy. The skills will be introduced and discussed in a classroom setting and reinforced through guided observation of speech-language and audiological assessment and intervention services within a clinical setting. Limited supervised practice in the assessment and treatment of individuals with communication disorders may be assigned.

COMD 473. AURAL REHABILITATION. 4.5 Credits.
Pre-requisites: COMD 371 and COMD 372, or permission of the instructor.
This course addresses the objectives, theory and techniques used in managing hearing impairments of individuals.

COMD 480. INTRODUCTION TO RESEARCH IN COMMUNICATION DISORDERS. 4.5 Credits.
Pre-requisites: senior standing.
This course provides an overview of research methodology in the field of communication disorders. It is designed to familiarize the student with basic elements of reading, understanding, and evaluating research. The student learns about the scientific method, the difference between basic and applied research, and important terms used in the research process.

COMD 490. SENIOR CAPSTONE. 4.5 Credits.
Pre-requisites: senior standing or permission of the instructor.
Satisfies: senior capstone university graduation requirement.
This course focuses on the integration of the knowledge the student has accumulated in the field of communication disorders and its application to issues affecting both professionals and individuals served. The course will strive to facilitate students’ thinking on these issues by requiring the completion of an assignment in which students must integrate their body of knowledge in the profession and apply it to a novel issue or problem.

COMD 496. EXPERIMENTAL COURSE. 1-6 Credits.

COMD 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 3 Credits.
Notes: graded Pass/Fail.

COMD 498. DEPARTMENTAL SEMINAR. 1.5-4.5 Credits.
Seminar

COMD 499. DIRECTED STUDY. 1.5-4.5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
This course is provided to allow the student to study a selected special topic within the discipline of communication disorders on an individual basis and under the direction of a program faculty member.
COMD 520. RESEARCH METHODS. 4.5 Credits.
This course inaugurates the student's research experience in the discipline. It emphasizes the importance of research to a scientific field and acquaints the student with the research literature. By the end of the course, students will have completed the introduction, review of literature and question components of their research proposals.

COMD 538. PHONOLOGICAL ACQUISITION AND BEHAVIOR. 4.5 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course involves advanced study in the theoretical background of the acquisition and development of the phonological system. The relationship between the phonological system and disorders and remediation will also be discussed.

COMD 539. SPECIAL TOPICS. 1.5-4.5 Credits.

COMD 540. PEDIATRIC FEEDING AND SWALLOWING. 1.5 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course is a study of normal and atypical swallowing and feeding in infants and children.

COMD 542. INFANT AND TODDLER COMMUNICATION AND LANGUAGE. 4.5 Credits.
Pre-requisites: Graduate standing or permission of the instructor. This course provides advanced study in communication and language development and disorders in infants and toddlers by focusing on current theory, assessment and remediation.

COMD 543. SCHOOL-AGE AND ADOLESCENT LANGUAGE. 4.5 Credits.
Pre-requisites: Graduate standing or permission of the instructor. This course covers the development of language in typically developing and language impaired school aged and adolescent students. Various language disorders are discussed with the implications for assessment and intervention.

COMD 545. AUTISM SPECTRUM DISORDER. 3 Credits.
Pre-requisites: COMD 542. This course is an overview and discussion of the characteristics, causes, assessment and intervention for persons with autism spectrum disorder (ASD).

COMD 547. AUGMENTATIVE COMMUNICATION. 4.5 Credits.
Prerequisite; graduate standing or permission of the instructor. This course is an in-depth study of the use of augmentative and alternative methods of communication for persons with severe speech and/or language impairments.

COMD 552. NEUROPATHOLOGIES OF LANGUAGE. 4.5 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course is an advanced study of the language disorders that occur as a result of insult to the brain after birth, particularly after language acquisition. Emphasis is on aphasia and related disorders.

COMD 553. VOICE AND RESONANCE. 3 Credits.
Pre-requisites: Graduate standing or permission of the instructor. This course provides information regarding the etiology and characteristics of disorders of the laryngeal and resonance systems. Assessment and treatment of loudness, pitch, vocal and resonance problems are presented.

COMD 554. MOTOR SPEECH DISORDERS. 4.5 Credits.
Pre-requisites: Graduate standing or permission of the instructor. This course is an advanced study of motor speech disorders to prepare the student to work as part of a neurological team as an informed contributor to team management of neurologically disordered patients. Particular content includes medical, surgical, educational, and communication management.

COMD 555. BILINGUAL AND CULTURAL ISSUES. 3 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course is designed to provide the student with information concerning the plurality of our society. More specifically, students will gain knowledge about the issues that may face them when working with clients who come from different cultural and/or language backgrounds.

COMD 556. PROBLEMS IN STUTTERING. 3 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course is an advanced study of current theories, issues, problems and treatment approaches in the area of stuttering.

COMD 557. LEFT PALATE AND OTHER CRANIO-FACIAL ABNORMALITIES. 3 Credits.
Pre-requisites: graduate standing or permission of the instructor. This course examines the etiology and characteristics of cranio-facial anomalies and their effects on communication. Assessment and treatment of the speech problems associated with these disorders are also discussed.

COMD 559. DYSPHAGIA. 4.5 Credits.
Pre-requisites: COMD 552 strongly recommended. This course presents the anatomy and physiology of swallowing as well as the evaluation and treatment of swallowing disorders.

COMD 560. SPEECH-LANG PATH SCHL SETTING. 4 Credits.
This course provides information about therapy methods and procedures and special issues in school settings. Also covered are policies and procedures for preparing for certification as a Speech-Language Pathologist in the State of Washington and all the state/federal laws affecting public school and clinical practice.

COMD 561. CLINICAL PRACTICUM. 3-9 Credits.
Notes: may be repeated for credit with permission of instructor up to 12 quarter credits. This course provides students with practical clinical experience working with children and adults who present with various speech, language, hearing and swallowing disorders.

COMD 562. ADVANCED CLINICAL PRACTICUM. 3-9 Credits.
Notes: graded Pass/No Credit; may be repeated for credit with permission of instructor up to 24 quarter credits. Pre-requisites: permission from off-campus clinical practicum coordinator.
This course is an extension of clinical skills into off-campus practicum sites. Students will apply theoretical concepts to evaluation, treatment planning and therapy services for communicatively handicapped children and adults in community settings.

COMD 563. SPECIAL CLINICAL PRACTICUM. 1.5-3 Credits.
Notes: may be repeated with permission of instructor up to 4 quarter credits. Pre-requisites: COMD 697 or permission of the clinical director. This practicum is designed for post-internship students. It typically involves the assignment of a challenging client and carries an expectation of a high degree of independence in case management.

COMD 566. ADVANCED ASSESSMENT: PRINCIPLES AND PROCEDURES. 3 Credits.
Pre-requisites: graduate standing. This course is designed to facilitate the ability to gather, analyze and synthesize critical case information and make differential diagnoses of communication disorders. It includes independent problem-solving, development of treatment objectives from data and the writing of clinical reports.
COMD 596. EXPERIMENTAL COURSE. 1.5-4.5 Credits.
Experimental

COMD 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1.5-4.5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

COMD 598. SEMINAR. 1.5-4.5 Credits.
Pre-requisites: graduate standing or permission of the instructor.
This course provides graduate level instruction in a specific content area in communication disorders utilizing a seminar format.

COMD 599. INDEPENDENT STUDY. 1.5-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
This course allows the student to engage in an independent study project in a selected field of communication disorders.

COMD 600. THESIS. 1.5-12 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Under supervision of staff members, the graduate student organizes and formally writes and presents a research project in thesis form.

COMD 620. RESEARCH IN COMMUNICATION DISORDERS I. 3 Credits.
Pre-requisites: COMD 520.
This is the first of three courses designed to prepare the student to participate in basic and/or applied research in communication disorders. For this course, students will work with a faculty mentor to further refine the research idea developed in COMD 520. The culmination of this course will be: (1) the initial development of a literature review and methodology and (2) drafting and submission of IRB forms, as appropriate.

COMD 621. RESEARCH IN COMMUNICATION DISORDERS II. 3 Credits.
Pre-requisites: COMD 620.
This is the second of three courses designed to prepare the student to participate in basic and/or applied research in communication disorders. For this course, students will work with a faculty mentor to further refine the research idea developed in COMD 620. The culmination of this course will be a complete and thorough literature review and methodology for the student's proposed research. The initial collection of data may take place under this course.

COMD 622. RESEARCH IN COMMUNICATION DISORDERS III. 3 Credits.
Notes: this course is repeated in subsequent semesters until the thesis or research project is completed and successfully defended.
Pre-requisites: COMD 621.
This is the third of three courses designed to prepare the student to participate in basic and/or applied research in communication disorders. The culmination of this course will be the collection of data (if applicable) and the development of either a thesis or poster to be defended at the end of the academic term in which this course is taken.

COMD 697. CLINICAL FIELD EXPERIENCE. 15 Credits.
Notes: graded Pass/No Credit.
This is an internship of one or more semesters of professionally supervised experience in a departmentally approved clinical setting, agency or institution. This course is typically taken as part of the Master of Science program, but can also be taken by individuals engaged in the speech-language pathology clinical fellowship (SLPCF) through the American Speech-Language-Hearing Association when sponsorship is provided by an Eastern Washington University faculty member.

Communication Studies (CMST)

CMST 195. INTERNSHIP. 1-5 Credits.

CMST 196. EXPERIMENTAL COURSE. 1-15 Credits.

CMST 199. DIRECTED STUDY. 1 Credit.

CMST 200. INTRODUCTION TO SPEECH COMMUNICATION. 4 Credits.
Notes: CMST 200 cannot be taken for credit towards the Communication Studies Majors.
This course is designed to develop critical thinking skills as exhibited in reasoning and argumentation, with a further goal of examining how the power of an individual's voice can affect society. The course begins with a study of the rhetorical tradition of reasoning and argumentation, including elements of ethics. As the course progresses, students will analyze, from historical to modern times, examples of individuals using their voice and the resulting impact upon society. The course will culminate with students creating a reasoned, ethical argument as a final project.

CMST 201. PUBLIC SPEAKING. 5 Credits.
This course is designed to develop critical thinking skills as exhibited in reasoning and argumentation, with a further goal of examining how the power of an individual's voice can affect society. The course begins with a study of the rhetorical tradition of reasoning and argumentation, including elements of ethics. As the course progresses, students will analyze, from historical to modern times, examples of individuals using their voice and the resulting impact upon society. The course will culminate with students creating a reasoned, ethical argument as a final project.

CMST 208. MASS MEDIA AND THE INFORMATION SOCIETY. 5 Credits.
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.
This course introduces students to the range of historical, cultural, economic and social issues affected by the development and continued evolution of mass media. Books, magazines, sound and video recording, the development of electronic media and of the internet provide the context for examinations of media uses and effects, media policy and law and social effects of media.

CMST 209. COMMUNICATION, COMMUNITY AND CITIZENSHIP. 5 Credits.
This course is designed to develop critical thinking skills as exhibited in reasoning and argumentation, with a further goal of examining how the power of an individual's voice can affect society. The course begins with a study of the rhetorical tradition of reasoning and argumentation, including elements of ethics. As the course progresses, students will analyze, from historical to modern times, examples of individuals using their voice and the resulting impact upon society. The course will culminate with students creating a reasoned, ethical argument as a final project.

CMST 210. INTERPERSONAL COMMUNICATION. 5 Credits.
This course is an exploration of the human communication process. It includes the perceptual and attribution processes surrounding messages, the construction of verbal and nonverbal messages, the functions of messages in interaction, and the role of interpersonal communication processes on a variety of interpersonal relationship types.

CMST 250. SMALL GROUP COMMUNICATION. 5 Credits.
This course focuses upon theories, concepts, and skills to improve small group communication with application to various task-oriented groups. This course emphasizes problem-solving communication and participant-leadership skills.
CMST 296. EXPERIMENTAL COURSE. 1-15 Credits.

CMST 299. DIRECTED STUDY. 3-10 Credits.

CMST 300. VISUAL LITERACY. 5 Credits.
Cross listed: DESN 300.
This course helps students develop the set of skills needed to critically interpret images of the past and present and produce images that effectively communicate a message to an audience. This includes an awareness of technology’s role in the creation and dissemination of visual communication along with the role of persuasive strategies to target visual consumers. Students will both analyze and produce rhetorical-visual images and develop the skills needed to manage visual representation in a cultural context.

CMST 301. POLITICAL COMMUNICATION. 5 Credits.
How Americans use oral and televised communication to confront and change their environment. Emphasis on American speakers in American political contexts. Topics vary.

CMST 305. MESSAGE DELIVERY. 4 Credits.
Pre-requisites: junior standing.
Analysis and application of message delivery techniques, focusing on voice and articulation, modes of delivery and style, communication apprehension, situational factors and visual support.

CMST 309. COMMUNICATION AND INFORMATION. 5 Credits.
An introduction to the history and development of communication theory. This is the first course in the communication major as well as the first course in communication theory. Topics include theory development, observation techniques, a survey of theories, and ethical questions.

CMST 312. NONVERBAL COMMUNICATION. 1-5 Credits.
This course is a variable credit course and will be offered from one to five credits. Topics that may be covered include the other-than-words side of human interaction within different cultures, genders, relationships, and situations. There will be an emphasis on the basic theories of nonverbal communication and the interaction between nonverbal and verbal communication.

CMST 314. GENDER AND COMMUNICATION. 5 Credits.
Cross listed: WMST 314.
Pre-requisites: sophomore standing.
Satisfies: cultural and gender diversity university graduation requirement.
This course examines current research on the interactions among language, gender and communication in contemporary social and cultural contexts.

CMST 326. DEBATE. 1-3 Credits.
Notes: this course may be repeated for a total of 6 credits applied toward the CMST major or minor.
The in-class portion of this course teaches how to create, analyze and critique ideas and how to build or defend a reasoned argument. The out-of-class competition portion of this course includes individual events, such as informative and persuasive speaking and oral interpretation.

CMST 330. INTEGRATED METHODS FOR COMMUNICATION RESEARCH. 5 Credits.
Pre-requisites: declared Major in CMST or PR, Interdisciplinary Studies with a CMST emphasis.
An introduction to the core group of scientific methods and analytic techniques used in communication research.

CMST 331. INTERVIEWING. 5 Credits.
This course is an introduction to the principles of interviewing theory and practice. It is considered to be the first course in the BS in Organizational Communication major. The communication components of interviewing are examined from both the interviewer’s and the interviewee’s perspective. Topics include the process of planning, managing, and analyzing the interview. Then, a variety of topical interviews such as selection, performance review, counseling, discipline, termination, focus groups, research, information gathering, information giving, media, sales, and client intake are examined through this process in an organizational and communication context.

CMST 335. CONFERENCE MANAGEMENT. 1-5 Credits.
Notes: may be repeated up to 6 credits.
Focuses on the analytical and critical investigation of the communication process in the conference setting as a means of enhancing communication effectiveness. Provides hands-on experience in selecting a conference theme, designing a public conference, recruiting resource people, advertising the conference, registering participants, and conducting the conference.

CMST 340. INTERCULTURAL COMMUNICATION. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
Study of the basic principles of face-to-face interaction in intercultural and cross-ethnic situations. Topics include perception, stereotypes, prejudice, world views, ethnocentrism, racism, the attribution process and uncertainty reduction.

CMST 341. COMMUNICATIVE REASONING. 5 Credits.
Logical development and support of arguments, analysis of evidence, briefing of arguments, and practice in debate. In addition, this course is designed to prepare students to use practical reasoning applied to persuasive communication situations, to give students a general background on the basic principles of argumentation, and to engage critical and analytical thinking skills in order to identify, understand, and resolve communication problems.

CMST 395. FIELD WORK. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Directed student participation in the communication processes or problems of an industry, a political campaign, or a non-profit organization.

CMST 396. EXPERIMENTAL COURSE. 1-15 Credits.

CMST 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Training programs or workshops emphasizing practical knowledge and skills. Topics vary.

CMST 398. SEMINAR. 1-5 Credits.

CMST 399. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects reflect recent developments in the field of human communication.

CMST 400. MESSAGE DESIGN. 5 Credits.
An investigation of message construction for large, public audiences. Stress on invention, organization, and style. Includes speech writing and written message design.
CMST 410. LANGUAGE AND SOCIAL INTERACTION. 5 Credits.
A study of language and communication from two aspects: form and strategy. The formal study entails the examination of patterns, rules and structures of language, conversation, and discourse. The strategy study focuses on the use of language and communication for accomplishing identity goals, relational goals, and instrumental goals.

CMST 411. NEGOTIATION SKILLS AND STRATEGIES. 5 Credits.
The basic premise of this course is that one needs strong negotiation and analytical skills for effective communication. Hence, the goal of this course is to help the student to understand the theory of negotiation and to master its main strategies. The course will allow the student to develop negotiation skills experientially and to appreciate the nature and role of effective negotiation. The course is relevant to any student pursuing a career in a social science field since, as a working professional, the student will face many conflict problems that can be best resolved through effective negotiation.

CMST 413. COMMUNICATION AND PERSONAL RELATIONSHIPS. 5 Credits.
An advanced examination of the verbal and nonverbal communication processes in the development, maintenance, breakdown, and repair of personal relationships, including romantic, friendship, and family relationships.

CMST 416. GENDER AND MEDIA. 5 Credits.
Pre-requisites: junior standing.
This course examines some of the relationships between media in the U.S. and social constructions of gender and sexuality.

CMST 418. TOPICS IN SEMIOTICS. 5 Credits.
The basic premise of this course is that communication is a process whereby meanings are generated and interpreted through signs. Hence, the overall goal of the course is to show how the process of generation and interpretation of meaning can be studied from the perspective of semiotics, ie., the discipline that studies signs and their meanings. The course provides a general introduction to the nature, role, and kinds of signs in communication. The subject matter of semiotics, or sign theory, is illustrated in such areas as language, myth, media, etc.

CMST 419. SEX, SEXUALITY AND COMMUNICATION. 5 Credits.
Cross listed: WMST 419.
Pre-requisites: one WMST course or CMST course.
This seminar examines the construction of sexuality and sexual identity through communication, with a focus on the relationship between public policy and private sexuality.

CMST 420. HEALTH COMMUNICATION. 5 Credits.
This course surveys theory, research and practice in health communication and health literacy. Topics include clinician-patient interaction, family communication, group and organizational communication, mass media and web-based campaigns.

CMST 430. COMMUNICATION IN ORGANIZATIONS. 5 Credits.
The study of communication systems, channels, networks, and barriers; the role of communication in organizational assessment and change; the relationship between communication practices and organizational effectiveness, corporate image, and credibility.

CMST 431. COMMUNICATION LAW AND ETHICS. 5 Credits.
This course examines the legal limitations on human communication, as well as the rights and responsibilities of professional communicators.

CMST 432. MEDIA SYSTEMS AND COMMUNICATION TECHNOLOGY. 5 Credits.
This course is designed to allow students to explore mass media systems and technology and their interaction with and upon society. Students will learn the historical perspective of media systems and technology along with issues of media convergence upon our lives, specifically upon our communication.

CMST 438. TOPICS IN LEADERSHIP AND STRATEGIC COMMUNICATION. 5 Credits.
This course is a variable topic course focusing on leadership and/or strategic communication. Areas which might be covered include skills training, readings in the knowledge and techniques of leadership, and the effective use of strategic communication. This course is designed to be both a theory and application course.

CMST 440. GLOBAL COMMUNICATION. 5 Credits.
Satisfies: international studies university graduation requirement.
The course provides a critical overview of the field of global communications and examines its main theoretical concepts and practical cases. The course introduces the students to the psychological, social, political and economic dimensions of global communications and their relationship with cultural and technological processes. The course will help the students to become more critical consumers of global news. The course includes such topics as freedom of expression, globalization, propaganda, gate-keeping, technology diffusion, cultural imperialism, media and diasporas, the global digital divide and global surveillance.

CMST 450. RHETORICAL THEORY AND CRITICISM. 5 Credits.
This course will survey contemporary theories of rhetorical communication and analyze areas of methodological controversy. We will discuss topics such as communication's role in defining humanity, power and communication, marginal groups and public discourse, gender/sex and rhetoric, evidence and public policy argument, and the impact of emerging communication technologies on methodological applications. We will operate from the assumption that language reflects, selects, and deflects reality in its construction of how we perceive the world.

CMST 451. ARGUMENTATION AND PERSUASION. 5 Credits.
This course is designed to introduce students to a variety of theoretical perspectives and views of argumentation and persuasion, with a particular focus on both logical development and support of arguments and effective persuasion in today's world. Students examine current texts and images to see how to create powerful persuasive messages. Students create and critique arguments and persuasive messages necessary for effective performance as a producer and consumer of persuasive communication.

CMST 452. CULTURAL STUDIES. 5 Credits.
This course is designed as an introduction to theoretical, historical developments, and current issues of cultural studies as an interdisciplinary subject. In this course key topics in culture and communication will be discussed, such as language, representation, subjectivity, power, ideology, identity, modernity and post-modernity, and globalization.

CMST 458. TOPICS IN IMAGE, MESSAGES AND MEANING. 5 Credits.
This course allows students to learn effective visual and written communication in the creation of meaning. Students will be offered the opportunity to gain knowledge and build on this information by evaluating others' efforts at message design, and then by creating their own effective image and/or message to convey meaning.
CMST 475. ELECTRONIC SURVEILLANCE AND PRIVACY. 5 Credits.
The course examines the social implications of a world in which everyday life is increasingly subject to electronic surveillance. The course begins with a survey of the theoretical and policy approaches to understanding the growth of electronic surveillance and its consequences. As the course progresses, students will conduct in-depth analyses of various modes of surveillance. The course concludes with a critical assessment of regulatory approaches to surveillance.

CMST 480. PRE-INTERNSHIP WORKSHOP. 2 Credits.
Must be taken at least one quarter before internship. May be taken as early as the first quarter of the junior year.

CMST 481. INTERNSHIP WORKSHOP. 2 Credits.
Must be taken at the same time as the internship, CMST 495.

CMST 490. SENIOR CAPSTONE. 5 Credits.
Satisfies: senior capstone university graduation requirement.
Senior Capstone is a required course for all students graduating with degrees in Communication Studies. Communication topics integrated into course content will include audiences, codes, interaction, power and influence, strategy, ethics, messages and contexts. In a seminar format and focused on contemporary issues relating to communication, the course will focus on the professional development of communication studies students. Students will also prepare and defend a portfolio.

CMST 495. INTERNSHIP/PRACTICUM. 3-15 Credits.
Pre-requisites: CMST 480; must be taken concurrently with CMST 481; permission of the instructor, department chair and college dean.
Directly supervised student practicum in the internal and/or external communication processes of a business or professional organization.

CMST 496. EXPERIMENTAL COURSE. 1-5 Credits.
See EagleNET for current listings.

CMST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Training programs or workshops designed to give you practical knowledge and skills in specific areas of communication.

CMST 498. SEMINAR. 1-5 Credits.
Notes: may be repeated for credit.
Major speech communication issues in the areas of public address, group communication, rhetorical theory, speech education, speech criticism, argumentation, persuasion or intercultural communication.

CMST 499. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: junior standing, permission of the instructor, department chair and college dean.
Individual study projects in a selected area of human communication.

CMST 501. ADVANCED COMMUNICATION THEORY. 5 Credits.
This advanced course emphasizes the role of theory in the process of communication inquiry. The course covers a variety of communication theories, reflecting the diverse aspects of the field. In the course communication is analyzed from several theoretical standpoints: as message transfer, as practical art, as mediation by signs, as sharing of experiences, as socio-cultural order, and as arrangement of power. The course shows how advanced theory can be used in the analysis of traditional and emerging communication contexts. (Cross-listed CEDP 501)

CMST 502. CONTEMPORARY TRENDS IN COMMUNICATION STUDIES. 5 Credits.
Pre-requisites: CMST 501.
A survey of the progress of research in communication theory and the exploration of the directions the research will take in the 21st century.

CMST 504. COMMUNICATION SYSTEMS. 4 Credits.
The course consolidates and extends existing knowledge of media and mass communications as institutions and sets of practices. The interlinkage of media forms, institutional constraints, ideologies, law and economics are explored as these affect the construction and interpretation of specific media messages.

CMST 520. COMMUNICATION INQUIRY. 5 Credits.
This course is designed to provide students with knowledge of the history and philosophy of science. This course is the first in a three part sequence on research methods. This course provides the theoretical basis of research methodology.

CMST 521. RESEARCH DESIGN AND ANALYSIS I. 5 Credits.
Pre-requisites: completion of a statistics course (undergraduate or graduate level) and CMST 520.
This course is designed to present experimental and survey methodologies, with a special emphasis upon acquiring the ability to apply which method, how to apply the method and how to interpret the results. Computer statistical analyses are a requirement of this course. Information on how to write quantitative research reports will also be presented and students will be expected to write a quantitative research report.

CMST 522. RESEARCH DESIGN AND ANALYSIS II. 5 Credits.
Pre-requisites: completion of a statistics course (undergraduate or graduate level) and CMST 520.
This course is designed to present a minimum of three qualitative methods, with a special focus upon acquiring the ability to apply and understand the results from these methods. Computer programs and basic statistical analysis may be a requirement of this course. Information on how to write qualitative research reports will also be presented and students will be expected to write a qualitative research report.

CMST 530. COMMUNICATION IN ORGANIZATIONS. 5 Credits.
The focus is on communication systems, channels, networks, and barriers. Also included is a consideration of the role of communication in organizational change, auditing organizational communications, the relationship between communication and organizational effectiveness, and communication training programs.

CMST 539. SPECIAL TOPICS. 1-5 Credits.

CMST 550. PROBLEMS IN CONTEMPORARY PUBLIC COMMUNICATION. 5 Credits.
Problems inherent in adjusting ideas to people in the United States primarily during the last 15 years. Discussion of rhetorical strategy and tactics included in public apology, demagoguery, conflict, public argument, and persuasion.

CMST 568. INTRODUCTION TO GRADUATE STUDIES. 2 Credits.
Pre-requisites: graduate standing or permission of the instructor.
The course is designed to introduce new students to the expectations of our graduate program. Students will learn to write a review of the literature, meet faculty members and learn of the various interdisciplinary concepts of study available in the program.

CMST 569. THESIS PREPARATION. 1 Credit.
Pre-requisites: 10 credit hours of graduate coursework.
The class is designed as a workshop to help MSC students develop a proposal for their master’s thesis or research project. Students in other programs may find it useful as well.
This course introduces students to fundamental computer concepts designed to give an overview of computers, the Internet and The World Wide Web. Students will develop knowledge and skills in word processing, presentation software, spreadsheets, databases, web page creation and locating informational and reference materials using simple and refined Internet searches. No previous computer background is assumed.

CPLA 121. INTERMEDIATE COMPUTER APPLICATIONS LITERACY. 5 Credits.
Pre-requisites: CPLA 100 and CPLA 101 or CPLA 120.
A study of popular microcomputer software including, but not limited to word processing, electronic spreadsheet, database, desktop publishing, presentation graphics, internet and web tools. Course uses the Windows environment.

CPLA 196. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 198. SEMINAR. 1-5 Credits.
CPLA 199. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: Permission of the instructor, department chair and college dean.

CPLA 215. INTERNET AND WWW BASICS. 2 Credits.
Pre-requisites: Computer Literacy II clearance.
Investigation of the Internet and the World Wide Web (WWW). Web searching and research techniques on the Web are presented. Each student will create a home page. Use of electronic mail, mailing lists, news readers, and FTP will be explored. Issues associated with the Internet and WWW will be discussed including privacy and social impact. Projects utilizing the Internet and WWW are major parts of the course.

CPLA 296. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 298. SEMINAR. 1-5 Credits.
CPLA 299. DIRECTED STUDY. 1-10 Credits.
CPLA 396. EXPERIMENTAL COURSE. 3-4 Credits.
CPLA 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
CPLA 398. SEMINAR. 2-5 Credits.
CPLA 399. DIRECTED STUDY. 1-10 Credits.
CPLA 496. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: Permission of the instructor, department chair and college dean.

This course is designed to present the types of professional consulting and general approaches to consulting methodology. It outlines the basic knowledge, skills, and resources that are tools for consulting; introduces the nature and role of change; and helps students to evaluate their own consulting skills and to design a program to improve them.

CMST 570. COMMUNICATION AND CULTURAL STUDIES. 5 Credits.
Pre-requisites: admission to a graduate program or the instructor's permission.
This course examines the post-structuralist and interdisciplinary roots of cultural studies and explores the theoretical and methodological problems and issues central to cultural studies scholarship, including the construct of subcultures and the relationship of power to the cultural formations of identity and difference, institutions, ideologies, artifacts, consumption and production. Skills and methods: social change advocacy, critical analysis, writing, presentation, and the synthesis, conceptualization, and evaluation of how we theorize about, interpret, and critique cultural artifacts and practices.

CMST 578. SEMINAR IN CONSULTING PROCESSES. 2 Credits.
This course is designed to present the types of professional consulting and general approaches to consulting methodology. It outlines the basic knowledge, skills, and resources that are tools for consulting; introduces the nature and role of change; and helps students to evaluate their own consulting skills and to design a program to improve them.

CMST 596. EXPERIMENTAL COURSE. 1-5 Credits.
CMST 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.
CMST 598. SEMINAR. 1-5 Credits.
CMST 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual study projects in a selected area of human communication.
CMST 600. THESIS. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent research study under the direction of a graduate advisory committee.
CMST 601. GRADUATE RESEARCH IN COMMUNICATION STUDIES. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
CMST 602. EXAM PREPARATION. 1-2 Credits.
Pre-requisites: submission and approval of candidacy form; permission of the instructor, department chair and college dean.
Directed course of reading and study under the direction of a faculty member serving on the student's comprehensive examination committee (Option B).

Computer Literacy (CPLA)

CPLA 100. COMPUTER LITERACY I. 1 Credit.
Notes: graded Pass/No Credit; passing this course gives clearance of Computer Literacy Part I; does not count toward the 180 credit requirement.
Satisfies: pre-university basic skills, computer literacy.
This course is an introduction to computer concepts. Hardware, software and operating systems are presented on both Windows and Mac platforms. An introduction to word processing, presentation software and an introduction to basic Internet use are provided.

CPLA 101. COMPUTER LITERACY II. 1 Credit.
Notes: passing the literacy exam at the end of this course gives clearance of Computer Literacy Part II.
Pre-requisites: CPLA 100 or Computer Literacy Part I clearance.
Satisfies: university competencies, computer literacy.
Students will be introduced to and develop skills in spreadsheets, databases and the process of locating informational and reference materials using simple and refined Internet searches. Students will explore societal issues of security, privacy, viruses and computer crime.

CPLA 120. COMPUTER APPLICATIONS LITERACY. 5 Credits.
Notes: this course includes preparation for and testing of Computer Literacy I and II so that students may satisfy computer literacy requirements by taking this course and passing the literacy tests.
This course introduces students to fundamental computer concepts designed to give an overview of computers, the Internet and The World Wide Web. Students will develop knowledge and skills in word processing, presentation software, spreadsheets, databases, web page creation and locating informational and reference materials using simple and refined Internet searches. No previous computer background is assumed.

CPLA 196. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 198. SEMINAR. 1-5 Credits.
CPLA 199. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: Permission of the instructor, department chair and college dean.

CPLA 215. INTERNET AND WWW BASICS. 2 Credits.
Pre-requisites: Computer Literacy II clearance.
Investigation of the Internet and the World Wide Web (WWW). Web searching and research techniques on the Web are presented. Each student will create a home page. Use of electronic mail, mailing lists, news readers, and FTP will be explored. Issues associated with the Internet and WWW will be discussed including privacy and social impact. Projects utilizing the Internet and WWW are major parts of the course.

CPLA 296. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 298. SEMINAR. 1-5 Credits.
CPLA 299. DIRECTED STUDY. 1-10 Credits.
CPLA 396. EXPERIMENTAL COURSE. 3-4 Credits.
CPLA 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
CPLA 398. SEMINAR. 2-5 Credits.
CPLA 399. DIRECTED STUDY. 1-10 Credits.
CPLA 496. EXPERIMENTAL COURSE. 1-5 Credits.
CPLA 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: Permission of the instructor, department chair and college dean.
CPLA 599. DIRECTED STUDY. 1-5 Credits.

CPLA 601. RESEARCH REPORT. 2-16 Credits.

Prerequisites: permission of the instructor, department chair and college dean.

A research study in lieu of a bound thesis conducted as partial fulfillment of a master’s degree under the direction of a graduate committee.

Computer Science (CSCD)

CSCD 110. INTRODUCTION TO PROGRAMMING. 5 Credits.

Students learn fundamental programming concepts, programming environment topics and current technologies in computing. Programming concepts include structure and design using pseudo-code, basic syntax, variables, arithmetic, decisions, repetition, input and output. Programming environment topics include editor use, saving, compiling, running and debugging. Programming projects are required.

CSCD 196. EXPERIMENTAL COURSE. 1-5 Credits.

CSCD 198. SEMINAR IN COMPUTER SCIENCE. 1-5 Credits.

CSCD 199. DIRECTED STUDY. 1-5 Credits.

Prerequisites: permission of the instructor, department chair and college dean.

CSCD 210. PROGRAMMING PRINCIPLES I. 5 Credits.

Prerequisites: ≥2.0 MATH 141 and previous programming experience HIGHLY RECOMMENDED.

This course covers the concepts and practices of information representation, computer algorithms, hardware organization and computer program design and implementation. Students write, run, debug, analyze and evaluate computer programs. Topics include primitive data types, number systems, file I/O classes, control structures, method design and usage, array—sorting and searching algorithms. Programming projects are required.

CSCD 211. PROGRAMMING PRINCIPLES II. 5 Credits.

Prerequisites: CSCD 210 with a grade ≥2.5, MATH 142 with a grade ≥2.0.

This course continues coverage of concepts introduced in Programming Principles I. Topics include 2D arrays, recursion, data abstraction, polymorphism, inheritance, interfaces, inner classes, abstract classes, object cloning, file I/O, exception handling and linked lists. Programming projects are required.

CSCD 216. 3D MODELING and ANIMATION I. 4 Credits.

This course includes the fundamental concepts and implementation of 3D animation using current 3D modeling and animation software. Topics include basics of modeling, texturing and animation. This course requires 3D projects.

CSCD 240. C AND UNIX PROGRAMMING. 5 Credits.

Prerequisites: CSCD 211 with a grade ≥2.5 or concurrent enrollment.

This course includes program development tools of the UNIX operating system and syntax and programming techniques of the C language in that environment. UNIX topics include interactive shells, common text editors, utility programs, file system structure, libraries and operating system calls and system programming. C topics include data types, structures, pointers and pointer arithmetic, arrays, linked lists, and function design and use. Programming projects are required.

CSCD 255. C PROGRAMMING FOR ENGINEERS. 5 Credits.

Prerequisites: MATH 141 or math proficiency.

This course is an introduction to the C language in the context of beginning computer science concepts and engineering practices. Students will write, run, debug, analyze and evaluate C programs. Topics include primitive data types, number systems, file I/O, control structures, function design and usage, 1D arrays, sorting, searching and pointers. Programming projects are required.

CSCD 260. ARCHITECTURE AND ORGANIZATION. 4 Credits.

Prerequisites: CSCD 240 with a grade ≥2.5, EENG 160 with a grade ≥2.0.

This course covers fundamentals of digital computer design and microcomputer systems. Topics include number systems, Boolean algebra, basic digital circuits, and an instruction set for a microprocessor. Homework assignments will include use of current software for the design, analysis, and simulation of digital circuits, assembly language programming emphasizing I/O device access and features that support high level languages. Programming projects are required.

CSCD 296. EXPERIMENTAL COURSE. 1-5 Credits.

CSCD 298. SEMINAR. 1-5 Credits.

CSCD 299. SPECIAL STUDIES. 1-5 Credits.

Prerequisites: permission of the instructor, department chair and college dean.

Subjects studied vary according to student and faculty interest.

CSCD 300. DATA STRUCTURES. 5 Credits.

Prerequisites: CSCD 211 with a grade ≥2.5, MATH 301 with a grade ≥2.0.

This course covers fundamental abstract concepts of data structures as well as their implementation in a programming language. Topics include linked lists, stacks, queues, hashing, recursion, complexity analysis of algorithms, binary search trees and heaps. Programming projects with formal documentation are required.

CSCD 303. COMPUTER AND INFORMATION SECURITY. 4 Credits.

Prerequisites: computer literacy clearance. This course covers fundamentals of computing security, including threat types, how computers become infected with viruses and malware, how to avoid viruses and malware, and how to secure your computers and information stored on them. Possible topics include: operating system security, email security, internet security, virus and spyware scanners, browser tools, firewalls and other defensive techniques. The course includes hands-on practice with security tools and techniques.

CSCD 305. C++ PROGRAMMING. 4 Credits.

Prerequisites: CSCD 240 with a grade ≥2.5 or CSCD 211 with a grade ≥2.5 and CSCD 255 with a grade ≥2.5.

This course teaches the C++ programming language. Topics include basic syntax, pointers, memory management, classes, inheritance and polymorphism, exception handling, standard template library usage, namespaces, memory management, and graphical user interface (GUI) programming. Programming projects are required.

CSCD 310. DISCRETE STRUCTURES. 4 Credits.

Prerequisites: CSCD 300 with a grade ≥2.5, EENG 160 with a grade ≥2.0, MATH 301 with a grade ≥2.0, advancement programming exam clearance.

This course studies mathematical aspects of computer science with emphasis on data structures and algorithmic implementation. Topics include logic, methods of proof, set theory, relations and functions, numerical representations, cardinality, computability, combinatorics, discrete probability, computational complexity and graph theory.
CSCD 316. PRACTICAL PROBLEM SOLVING. 2 Credits.
Notes: repeatable up to twice.
Pre-requisites: CSCD 300 with a grade ≥2.5.
This course explores problem solving techniques. Topics covered may include: useful strategies for the ACM programming contest, strings and their manipulation; sorting strategies; number manipulation, combinations and theory; backtracking; graph algorithms and traversal; dynamic programming; geometry; and grids. Emphasis will be on understanding algorithms and recognizing which algorithm applies to a given problem. Programming projects are required.

CSCD 320. ALGORITHMS. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, MATH 301 with a grade ≥2.0, advancement programming exam clearance.
This course studies data structures and algorithms, with emphasis on algorithmic strategies such as dynamic programming and emphasis on non-linear data structures such as trees and graphs. Programming projects are required.

CSCD 327. RELATIONAL DATABASE SYSTEMS. 4 Credits.
Pre-requisites: MATH 301 with a grade of ≥2.0 (or MATH proficiency) and CSCD 211 with a grade ≥2.5 or CSCD 255 with a grade ≥2.5.
This course covers the basic concepts in relational database systems, including data manipulation language and data definition language. Relational modeling will be covered in depth together with an overview of SQL, Relational Algebra, Entity-Relationship Model and its role in application development.

CSCD 330. COMPUTER NETWORKS. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course covers fundamental concepts, protocol mechanisms and programming skills for computer networks. It includes a technical overview of telecommunication media and fundamental protocols for the Internet such as ISO/OSI layers, Ethernet, collision detection and channel allocation. Programming projects are required.

CSCD 340. OPERATING SYSTEMS. 5 Credits.
Pre-requisites: CSCD 240 with a grade ≥2.5, advancement programming exam clearance.
This course covers major concepts of computer operating systems. Topics may include historical development of operating systems, system calls, resource allocation, process and thread management, basic memory management, and file systems. Programming projects are required.

CSCD 349. DESIGN PATTERNS. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course involves program implementation of object oriented principle design patterns sets to solve real world software design problems. Programming projects and group projects are required.

CSCD 350. SOFTWARE ENGINEERING. 4 Credits.
Pre-requisites: CSCD 349 with a grade ≥2.5 and advancement programming exam clearance.
This course covers formal approaches and tools for conceiving, understanding, analyzing, designing, building, testing, deploying, documenting, and maintaining large software systems. Topics may include software lifecycle models; project and team management; verification and validation techniques; legal and ethical issues; practical development and application of skills in critical-thinking, communication, and professionalism. A major team-based software development project is required.

CSCD 370. GUI PROGRAMMING. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course explores programming techniques for the production of graphical user interfaces. Event driven programming is covered in detail. Topics include event handling, windows and dialogs, GUI widgets such as menus, toolbars, buttons, sliders, combo boxes, lists and scrolling. Multi-threading as it applies to GUI programming is also introduced. Programming projects are required.

CSCD 371. .NET WEB APPLICATION DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course introduces .NET Programming and the .NET framework. Emphasis will be placed on understanding the syntactical features of the language and how to effectively use the design of the language in conjunction with the .NET Framework. Topics include .NET fundamentals, .NET assemblies, language fundamentals, object oriented design and programming, delegates and events, threading, serialization, database connectivity, windows and dialogs, and GUI components. Programming projects are required.

CSCD 372. ANDROID MOBILE DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course introduces Android Programming and the Android framework. Emphasis is placed on understanding the syntactical features of the language, as well as how to effectively use the design of the language in conjunction with mobile development. Topics include event handling, windows and dialogs, and GUI components. Programming projects are required.

CSCD 373. IOS MOBILE DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course introduces iOS programming and the Apple framework. Emphasis is placed on understanding the syntactical features of the language and how to effectively use the design of the language in conjunction with mobile development. Topics include event handling, windows and dialogs, and GUI components. Programming projects are required.

CSCD 378. WEB APPLICATION DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 377 with a grade ≥2.5. DESN 368 or XHTML/HTML knowledge (highly recommended) or permission of the instructor.
This course examines the fundamental principles and techniques associated with the development of multi-tier web applications. Topics include web standards, portability, and usability. Programming projects are required.

CSCD 379. .NET WEB APPLICATION DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 377 with a grade ≥2.5. DESN 368 or XHTML/HTML knowledge (highly recommended) or permission of the instructor.
This course examines the fundamental principles and techniques associated with the development of multi-tier web applications, using the .NET Framework. Topics include web standards, portability, and usability. Programming projects are required.
CSCD 386. SOUND SPACES. 3 Credits.
Cross listed: MUSC 386.
Pre-requisites: DESN 385.
This course is a project-oriented course for designing, building, composing and performing with new instruments. Students will be encouraged to collaborate in the learning process and share their knowledge and experiences. The course is interdisciplinary in nature. Ideally the class would consist of students with backgrounds in music, programming and engineering.

CSCD 395. INTERNSHIP. 1-10 Credits.
Notes: graded Pass/Fail.
Pre-requisites: permission of the instructor, department chair and college dean.

CSCD 396. EXPERIMENTAL COURSE. 1-5 Credits.

CSCD 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CSCD 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

CSCD 402. COMPUTING ETHICS. 4 Credits.
Pre-requisites: senior standing.
This course explores the uses of computing technologies from a socio-cultural perspective, including the impacts of information systems on individuals, organizations, and society and future directions in which the forces of technology and computing are tending to move us.

CSCD 409. SCIENTIFIC PROGRAMMING. 4 Credits.
Pre-requisites: MATH 161 with a grade ≥2.0 and MATH 231 with a grade ≥2.0 or MATH 301 with a grade ≥2.0.
This course provides an introduction to scientific computing in a programmable mathematics-oriented environment such as Matlab or Octave. Topics include programming constructs, data visualization, solutions to linear systems of equations and algebraic approaches to root-finding, signal processing, interpolation and optimization. Programming projects are required.

CSCD 411. MULTIMEDIA TECHNIQUES. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5 and advancement programming exam clearance or permission of instructor.
The theory and creation of multimedia using professional software is covered. This course stresses the appropriate development of a user interface. Several programming projects and research will be required.

CSCD 414. MULTIMEDIA PROGRAMMING. 4 Credits.
Pre-requisites: CSCD 411 with a grade ≥2.5 or permission of instructor.
This course studies object-oriented programming for multimedia. Students will write object-oriented programs that work with web servers and databases to create rich internet applications. Programming projects are required.

CSCD 416. 3D MODELING AND ANIMATION II. 4 Credits.
Pre-requisites: CSCD 216 with a grade ≥2.5.
This course covers intermediate 3D modeling and animation, including creation of aesthetic and technical work by manipulating light, surface materials, soft body dynamics and other features. Topics include photorealism, spline surface modeling, character development, lighting and camera techniques. This course requires projects.

CSCD 417. 3D MODELING AND ANIMATION III. 4 Credits.
Pre-requisites: CSCD 416 with a grade ≥2.5.
This course studies advanced 3D modeling, animation theory and application including creation of characters and creatures that come alive. Topics include organic modeling of character forms, analysis of character movement and 3D scripting. This course requires projects.

CSCD 418. 3D MODELING AND ANIMATION IV. 4 Credits.
Pre-requisites: CSCD 417 with a grade ≥2.5.
This course studies extensions of advanced 3D modeling, animation theory and application including further advanced 3D animation concepts. Topics addressed will include lip synchronization, facial expressions and 3D scripting. This course requires 3D projects.

CSCD 420. AUTOMATA. 4 Credits.
Pre-requisites: MATH 301 with a grade ≥2.0 or MATH 225 with a grade ≥2.0 or permission of instructor. Some prior programming experience is recommended.
This course is a study of the algebraic, structural and logical properties of sequential machines. Projects are required.

CSCD 427. ADVANCED DATABASE MANAGEMENT SYSTEMS. 4 Credits.
Pre-requisites: CSCD 327 with a grade ≥2.5, advancement programming exam clearance.
This course focuses on current trends in database technologies. Topics may include secondary storage, index structures, query processing, query optimization, concurrency control, transaction management, distributed databases, data mining and information retrieval.

CSCD 429. DATA MINING. 4 Credits.
Pre-requisites: CSCD 320 with a grade ≥2.5, CSCD 327 with a grade ≥2.5, advancement programming exam clearance.
Data mining is the process of automatic discovery of patterns, changes, associations and anomalies in massive databases. This course will provide an introduction to the main topics in data mining and knowledge discovery, including: data preparation for knowledge discovery, frequent pattern and association mining, classification and cluster analysis.

CSCD 433. ADVANCED COMPUTER NETWORKS. 4 Credits.
Pre-requisites: CSCD 330 with a grade ≥2.5, advancement programming exam clearance.
This course will cover the design, implementation, analysis and evaluation of networks. Topics include protocol mechanisms, advanced network architecture, network algorithms, network control, network simulation and performance analysis. Programming assignments are required.

CSCD 434. NETWORK SECURITY. 4 Credits.
Pre-requisites: CSCD 330 with a grade ≥2.5, advancement programming exam clearance.
This course explores practical topics in network security. Topics include policy and mechanism; malicious code; intrusion detection, prevention, response; cryptographic and protocols for privacy and integrity. This course emphasizes the trade-offs among risks of misuse, cost of prevention and social issues. Concepts are implemented in programming assignments and comprehensive projects.

CSCD 435. PRINCIPLES OF PROGRAMMING LANGUAGE. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course is a study and comparison of programming languages by evolution, formal specifications, structures, features and application domains. Implementation of syntax and semantics and program run-time behavior for several languages will be considered. Programming projects required and presentations may be required.
CSCD 437. SECURE CODING. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, CSCD 240 with a grade ≥2.5, advancement programming exam clearance.
This course will introduce a variety of topics concern to programmers when writing code. It will examine concepts that apply to programming "in the large" as well as specific aspects such as buffer overflow. C and C++ code will be examined. Written assignments, coding assignments and a team project are required.

CSCD 439. TOPICS IN COMPUTER SCIENCE. 2-5 Credits.
Prerequisites will be applied as required by the topic. This course is a variable topics course dealing with current trends in computer science. Possible topics include compiler design, advanced operating systems, computational complexity, computer graphics, software testing and verification, artificial intelligence, pattern recognition, computer simulation and modeling, graph algorithms.

CSCD 440. ADVANCED OPERATING SYSTEMS. 4 Credits.
Pre-requisites: CSCD 340 with a grade ≥2.5, advancement programming exam clearance.
This course covers a specific operating system involving installation, kernel configuration and kernel modification. The interaction between kernel space and user space is studied and the student designs, implements and tests programs communicating across that programming interface. Programming projects are required.

CSCD 443. DISTRIBUTED MULTIPROCESSING. 4 Credits.
Pre-requisites: CSCD 340 with a grade ≥2.5, advancement programming exam clearance.
This course explores parallel processing concepts and history, including the study and comparison of several multi-processing environments (such as Java threads, PVM and MPI) Programming projects will be required in the Unix environment, and the C and Java languages.

CSCD 460. ADVANCED ARCHITECTURE AND ORGANIZATION. 4 Credits.
Pre-requisites: CSCD 260 with a grade ≥2.5, advancement programming exam clearance.
This course addresses computer processor design at the levels of the instruction set, the system architecture and logical gates. Knowledge of Boolean algebra and digital circuits are combined with a viewpoint of computers at the machine language level to build a complete understanding of how modern computer processors actually work, with some techniques and trade-offs that go into their design. The simulation of systems using a high-level programming language is also covered. programming projects are required.

CSCD 461. EMBEDDED SYSTEMS. 4 Credits.
Pre-requisites: CSCD 260 with a grade ≥2.5 or CSCD 255 with a grade ≥2.5 and EENG 260 with a grade ≥2.0.
This course introduces embedded systems with emphasis on software development. Topics include surveys on digital systems design, software/hardware interface, communication protocols, interrupts service routine and applications programming on an embedded controller.

CSCD 462. EMBEDDED REAL-TIME CONTROL. 4 Credits.
Pre-requisites: EENG 160 with a grade ≥2.0, MATH 161 with a grade ≥2.0 and CSCD 240 with a grade ≥2.5 or CSCD 255 with a grade ≥2.5.
This course covers technologies typically found in embedded control systems, including basic hardware/software interfaces, multitasking, real-time scheduling and feedback control.

CSCD 467. PARALLEL AND CLOUD COMPUTING. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5 and advancement programming exam.
This course explores up-to-date parallel platforms, such as Cluster computing and Cloud computing that use networked computers to store and process large datasets in parallel. Topics include synchronization techniques, high-performance server/service design, performance issues, distributed file systems and MapReduce framework, virtualization and VPN technology in the Cloud, Cloud scalability and availability and Cloud storage. Hands-on assignments and projects are required.

CSCD 470. 3D COMPUTER GRAPHICS PRINCIPALS. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, MATH 231 with a grade ≥2.0, advancement programming exam clearance.
This course introduces the basic theoretical concepts involved in 3D computer graphics. Concepts will be illustrated using 3D rendering software allowing students to understand the practical application of the theory. Programming projects will be required.

CSCD 471. ADVANCED 3D COMPUTER GRAPHICS. 4 Credits.
Pre-requisites: CSCD 470 with a grade ≥2.5, advancement programming exam clearance.
This course involves program implementation of 3D computer graphics theory elements from previous graphics courses using a commonly available cross platform 3D graphics application program interface. Programming assignments include implementation of topics from CSCD 470 such as generation of graphics primitives, the virtual camera, perspective projection, modeling and representation of three-dimensional objects and basic lighting. Additional topics include the theory and implementation of realistic object rendering using Phong and Gouraud shading techniques, texture mapping and other advanced rendering techniques such as the production of shadows and reflections and the use of advanced rendering techniques in 3D games. Programming projects are required.

CSCD 474. COMPUTER GAMES DEVELOPMENT. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5, advancement programming exam clearance.
This course is an in-depth analysis of the source code of a commercial 3D game leading to a major modification of the code and related elements to produce a new 3D game. Topics may include techniques for modification of game graphics, game artificial intelligence and game physics, as well as exploration of external applications for model production, animation and skinning and game level production. Programming projects and game modifications are required.

CSCD 476. ADVANCED 3D MODELING. 4 Credits.
Pre-requisites: CSCD 110 with a grade ≥2.5, CSCD 416 with a grade ≥2.5.
This course involves compositing with complex animation software plug-ins. Topics include reassembling 3D animations in 2D compositing space, color depth, advanced 3D scripting and integration, 3D animations and live-action footage. Professional-level 3D projects are required.

CSCD 480. INTELLIGENT SYSTEMS. 4 Credits.
Pre-requisites: CSCD 300 with a grade ≥2.5 and advancement programming exam.
Fundamental concepts and techniques of modeling, simulating, visualizing and analyzing complex real-world systems by using artificial intelligence, knowledge acquisition and representation, reasoning, planning, machine learning, expert systems, intelligent agents and multiagent architectures, and search strategies; emphasizes practical applications to modern smart and mobile devices.
CSCD 487. HUMAN COMPUTER INTERFACE. 4 Credits.
**Pre-requisites:** CSCD 300 with a grade ≥2.5 or permission of instructor.
This course will begin with a brief historical overview of human-computer user interfaces with an eye to identifying the key steps in their conceptual development. Students will read in the field of classical human factors, focusing on findings of a particular relevance to user interface design and operation. They will explore the domain of interaction design and testing and intellectual property protection as it relates to human-computer interfaces, investigating what constitutes (or does not constitute) a patentable method and how patent protections are pursued. Written projects and team projects are required.

CSCD 488. SENIOR PROJECT. 5 Credits.
**Notes:** students will receive a Y grade until successful completion of CSCD 490.
**Pre-requisites:** CSCD 327 with a grade ≥2.5, CSCD 350 with a grade ≥2.5, either CSCD 378 or CSCD 379, and advancement programming exam clearance.

This course is the first of a two-quarter project sequence. Students will take CSCD 490 Senior Capstone the quarter following successful completion of Senior Project. Student teams apply computer science principles to client-sponsored projects. Based on requirements provided by the client, each team will use appropriate tools, digital systems, and management skills in support of project development.

CSCD 490. SENIOR CAPSTONE. 5 Credits.
**Pre-requisites:** CSCD 488 prior quarter.
**Satisfies:** senior capstone university graduation requirement.

This course is the second course of a two-quarter project sequence and must be taken the quarter following successful completion of the Senior Project course. During this course the client-specified project is completed using appropriate tools and digital systems development methodologies to additionally specify, design, implement, install and test a systems solution that meets the client’s needs. Milestone reports, including a final oral report and complete final project documentation (in printed and electronic form) are required.

CSCD 495. INTERNSHIP. 1-10 Credits.
**Notes:** graded Pass/Fail.
**Pre-requisites:** CSCD 300 a grade ≥2.5; permission of the instructor, department chair and college dean.

CSCD 496. EXPERIMENTAL COURSE. 1-5 Credits.

CSCD 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Selected topics to be arranged in consultation with the requesting organization.

CSCD 498. SEMINAR. 1-5 Credits.
**Pre-requisites:** permission of the instructor.

CSCD 499. DIRECTED STUDY. 1-5 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.

CSCD 500. COLLOQUIUM IN COMPUTER SCIENCE. 1 Credit.
**Pre-requisites:** graduate standing.

This course presents a speaker based seminar for graduate students intended as an introduction to research currently conducted by CS faculty and graduate students with some outside presenters from other institutions and corporations. Students will gain knowledge of current faculty research in order to familiarize them aid them with research in CS sub-disciplines and aid them in selecting a graduate advisor.

CSCD 501. ADVANCED ALGORITHMS. 5 Credits.
**Pre-requisites:** CSCD 320 and either MATH 301 or CSCD 310 or equivalent.

This course studies advanced data structures and skills for designing and analyzing nontrivial algorithms. The course will progress toward advanced topics based on the foundation of basic algorithm design and analysis skills such as divide-conquer and dynamic programming. The course will cover topics including approximate algorithms, randomized algorithms and statistical analysis, string algorithms, algorithms for network flow problems, various advanced data structures and the NP-completeness theory.

CSCD 505. CRYPTOGRAPHY. 4 Credits.
**Pre-requisites:** MATH 225 or MATH 301 or equivalent.

This course covers the general principles of modern cryptography, including symmetric cryptosystems, asymmetric cryptosystems, secure hash functions and cryptographic level randomness. Other topics may include historic cryptosystems and their cryptanalysis, information entropy, zero knowledge proofs, trusted computing architectures, and information theory as it relates to cryptography. Programming assignments will be required. Writing and class presentations may be required.

CSCD 506. RESEARCH METHODS IN COMPUTER SCIENCE. 5 Credits.
**Pre-requisites:** graduate or post baccalaureate standing.

This course explores research and research methods in the computer science discipline. Topics covered include literature review, hypothesis formation, quantitative methods, paper and thesis writing, and presentation skills. Students will also be exposed to research conducted by department faculty and graduate students as well as presenters from other institutions. Students will gain knowledge of current faculty research, which will aid them in choosing their research focus.

CSCD 523. OPERATIONS RESEARCH. 4 Credits.

CSCD 524. ADVANCED SOFTWARE ENGINEERING. 5 Credits.
**Pre-requisites:** CSCD 350 a grade ≥2.5 or equivalent software development experience.

A variable content survey of fundamental and advanced topics in software engineering. The course includes the study of the evolving methods and techniques available to develop high quality, reliable and maintainable software with efficient allocation of organizational resources. Possible topics include system reliability and security, open source development, system architecture, components and system reuse. Individual research projects are required.

CSCD 527. MODERN DATABASE SYSTEMS. 5 Credits.
**Pre-requisites:** CSCD 327 or equivalent.

An in-depth study of relational DBMSs and other selected database topics. Possible topics include recovery, concurrency control, transaction management, distributed DB models and various NoSQL systems.

CSCD 533. COMPUTER NETWORKS. 4 Credits.
**Pre-requisites:** CSCD 330 or equivalent.

Advanced topics in computer networks is the primary focus of this course. Design and performance of networks are studied in depth. Some hardware concepts such as routers, switches and physical connection media are covered. Protocol analysis and design is covered using existing protocol common in today's networks. Performance of networks is also studied including TCP/IP protocols, Ipv6, possibly ATM or other circuit switched technologies. Programming assignments and hands-on labs will be expected.
CSCD 538. TOPICS IN COMPUTER HARDWARE. 4 Credits.
**Pre-requisites:** graduate standing in computer science or permission of the instructor.
A variable content course dealing with some aspect of computer hardware. Possible topics include network theory, VLSI design, control systems, digital systems design, switching and automata theory, computer-aided engineering.

**CSCD 539. TOPICS IN COMPUTER SCIENCE. 4 Credits.**
**Pre-requisites:** graduate standing in computer science or permission of the instructor.
A variable content course dealing with an area of computer science other than hardware. Possible topics include compiler design, advanced operating systems, computational complexity, computer graphics, software testing and verification, artificial intelligence, pattern recognition, computer architecture, simulation and modeling, graph algorithms.

**CSCD 540. ADVANCED OPERATING SYSTEMS. 5 Credits.**
**Pre-requisites:** CSCD 340 or equivalent.
The course covers synchronization in concurrent/distributed computing (which modern operating systems must support) and the implementation of virtual machine operating systems. Implementation includes file systems, memory management, paging, task switching, process management and basic operating system services. The virtual machine must be able to support various CPU time allocations schemes to simulate multiprocessor systems of different processing speeds.

**CSCD 543. DISTRIBUTED MULTIPROCESSING ENVIRONMENTS. 4 Credits.**
**Pre-requisites:** CSCD 340 or equivalent.
This course explores parallel processing concepts and history, including the study and comparison of several multi-processing environments (such as Java threads, PVM and MPI). Programming projects will be required in the Unix environment and the C and Java languages.

**CSCD 544. TIME CRITICAL NETWORKING. 4 Credits.**
**Pre-requisites:** CSCD 330 or equivalent.
This course studies multimedia networking concepts and history, including the study of current practices in multimedia networking technologies and protocols for multimedia signal transport. Selected contemporary multimedia networking application areas are studied as examples. Special Emphasis is placed on challenges to multimedia signal transport involving quality of service such as signal latency and jitter. Research projects are required.

**CSCD 567. PARALLEL AND CLOUD COMPUTING. 4 Credits.**
**Pre-requisites:** CSCD 300 and Advancement Programming Exam clearance or equivalent.
This course studies the core technologies used to develop the essential components in modern distributed, parallel and Cloud systems using networked computers to store and process large datasets in parallel. Topics include synchronization techniques, high-performance server/service design, performance issues, MPI programming, distributed file systems and MapReduce framework, Virtualization and VPN technology in Cloud, Cloud scalability and availability and data consistency in the Cloud. Graduate students are required to read research papers and implement the methodology on parallel platforms or in the Cloud.

**CSCD 570. PHOTO-REALISTIC COMPUTER GRAPHICS. 4 Credits.**
**Pre-requisites:** CSCD 471 or equivalent.
Theory and programming techniques of global illumination for photorealistic rendering in computer graphics. Included topics: basic of ray tracing, advanced ray tracing topics including stochastic ray tracing, incorporation of other global illumination techniques including radiosity and photon tracing. Requires programming assignments.

**CSCD 575. COMPUTER SYSTEMS DESIGN. 4 Credits.**
A survey of computer system architecture including levels of machine description, instruction sets, interrupt handling, memory hierarchies, I/O subsystems, and buses.

**CSCD 580. INTELLIGENT SYSTEMS. 4 Credits.**
Fundamental concepts and techniques of modeling, simulating, visualizing, and analyzing complex real-world quantitative and qualitative systems of systems including artificial intelligence, knowledge acquisition and representation, reasoning, planning, machine learning, expert systems, intelligent agents and multi-agent systems, and search strategies; emphasizes practical applications to contemporary smart and mobile devices. A research project is required.

**CSCD 587. HUMAN-COMPUTER INTERFACE. 4 Credits.**
**Pre-requisites:** CSCD 210 or CSCD 305.
This course will begin with a brief overview of human-computer user interfaces historically, with an eye to identifying the key steps in their development conceptually. Students will read in the field of classical human factors, focusing on finding a particular relevance to user interface design and operation. Exploration of the domain of interaction design and testing and intellectual property protection as it relates to human-computer interfaces, investigating what constitutes (or does not constitute) a patentable method, and how patent protections are pursued will be discussed. Written projects and team projects are required.

**CSCD 589. INTELLIGENT SYSTEMS. 4 Credits.**
**Pre-requisites:** permission of the instructor, department chair and college dean.
Professional Internship.

**CSCD 595. PROFESSIONAL INTERNSHIP. 2-16 Credits.**
**Pre-requisites:** permission of the instructor, department chair and college dean.
Professional Internship.

**CSCD 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.**
**Notes:** only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

**CSCD 598. SEMINAR. 1-5 Credits.**

**CSCD 599. DIRECTED STUDY. 1-6 Credits.**
**Pre-requisites:** permission of the instructor, department chair and college dean.

**CSCD 600. THESIS. 2-16 Credits.**
**Notes:** graded Pass/No Credit.
**Pre-requisites:** permission of the instructor, department chair and college dean.
A research thesis under the direction of a graduate committee.

**CSCD 601. RESEARCH REPORT. 2-16 Credits.**
**Notes:** graded Pass/No Credit.
**Pre-requisites:** permission of the instructor, department chair and college dean.
A research study in lieu of a bound thesis conducted as partial fulfillment of a master's degree under the direction of a graduate committee.
CSCD 602. INDUSTRY PROJECT. 2-4 Credits.
Notes: graded Pass/No Credit.
Development and documentation of applied computer science project in an industry setting.

CSCD 695. DEPARTMENTAL INTERNSHIP. 2-12 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: graduate standing; permission of the instructor, department chair and college dean.
Support work for the department relating to computer science. Activities will take place under the supervision of a department faculty or staff member. May involve experiences such as teaching lower-division coursework, systems administration activities and assisting with research activities.

Core - Social and Behavioral Science (CSBS)

The College of Social & Behavior Sciences and Social Work offers a series of college-wide foundation courses in social science theory, statistics, computer-aided statistics, quantitative research methods and qualitative research methods.

These classes may be required or listed as options in each of the social and behavioral science majors.

Check the foundation course requirements in the specific major.

CSBS 110. PRACTICUM IN COMMUNITY INVOLVEMENT. 2-5 Credits.
This course provides students with an intensive practicum experience working with a local or regional agency.

CSBS 196. EXPERIMENTAL COURSE. 1-5 Credits.

CSBS 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CSBS 200. INTRODUCTION TO LEADERSHIP. 3 Credits.
An introduction to basic leadership skills, this course will cover models in a variety of areas such as communication, decision making, problem solving, time management, conflict resolution and ethics.

CSBS 296. EXPERIMENTAL COURSE. 1-5 Credits.

CSBS 310. FOUNDATIONS OF SOCIAL AND BEHAVIORAL SCIENCES THEORY. 5 Credits.
Pre-requisites: completion of the general education core course requirements in the social sciences as specified in this catalog or permission of the instructor.
This course is intended to expose the philosophic choices and historical constraints that underlie all of the social and behavior sciences. In terms as simple as possible, we explore foundational alternatives (which may include idealism vs. materialism, individualism vs. holism, structure vs. agency, value neutrality vs. social critique) and the impact of history on the social and behavioral sciences. By emphasizing the controversiality and diversity within the disciplines, and the social contexts that shape them, we encourage students to discover sharply critical perspectives on the social and behavioral theories that claim to tell us how the world works.

CSBS 320. INTRODUCTORY STATISTICS FOR THE SOCIAL SCIENCES. 5 Credits.
Pre-requisites: MTHD 104 or mathematics clearance by test. MATH 107 recommended.
Introduces the theory and procedures underlying the use of statistics in the social sciences. During the first half of the class, methods are presented for organizing distributions, summarizing their key properties, conveying the relative standing of individual scores in distributions, and measuring relations between pairs of variables. Commonly used procedures for testing hypotheses in the social sciences are presented in the second half of the class.

CSBS 321. COMPUTER AIDED DATA ANALYSIS. 4 Credits.
Pre-requisites: CSBS 320 or equivalent, CPLA 120 or equivalent.
Introduces the use of SPSS running on personal computers for analyzing data in the social sciences. Topics include basic tasks such as entering and transforming data. Procedures covered include obtaining summary statistics of single variables, graphing variables organizing multivariate data, and testing hypotheses with t-tests, the analysis of variance, regression, and selected nonparametric tests. Fundamentals of factor analysis and discriminant function analysis are introduced with guidelines for interpreting output.

CSBS 396. EXPERIMENTAL COURSE. 1-5 Credits.

CSBS 399. DIRECTED STUDY. 1-5 Credits.

Directed Study

CSBS 494. LEADERSHIP PORTFOLIO. 2 Credits.
Prerequisite: permission of certificate advisor. Supervised by the certificate advisor, students will compile an assessment portfolio of significant assignments completed during the certificate program. In addition, students will enhance the portfolio by completing various exercises, including the development of a formal statement regarding their leadership philosophy. These statements will integrate various concepts and theories surveyed and critiqued during the certificate program. Students are required to give an oral presentation of their statements to an audience composed of invited peers, faculty, and Certificate Advisory Board members.

CSBS 496. EXPERIMENTAL COURSE. 1-5 Credits.

CSBS 498. SEMINAR. 1-5 Credits.

Creative Writing (CRWR)

CRWR 210. INTRODUCTION TO CREATIVE WRITING. 5 Credits.
Pre-requisites: ENGL 101 or ENGL 201.
This course introduces students to the process, techniques and forms of creative writing including poetry, fiction and nonfiction.

CRWR 296. EXPERIMENTAL COURSE. 1-5 Credits.

CRWR 311. FORM AND THEORY OF FICTION. 5 Credits.
Pre-requisites: CRWR 210.
Style and the techniques of fiction, including a delineation of the development of major technical trends in fiction.

CRWR 312. FORM AND THEORY OF POETRY. 5 Credits.
Pre-requisites: CRWR 210.
An intensive study of the history and current use of prosody and poetics and the application of traditional and innovative theories of contemporary poetry.
CRWR 313. FORM AND THEORY OF LITERARY NONFICTION. 5 Credits.
Pre-requisites: CRWR 210.
Students will study the nature of literary nonfiction. Contemporary subgenres to be studied may include nature writing, travel writing, science writing, the memoir, literary journalism and others.

CRWR 314. ADVANCED CREATIVE WRITING—POETRY. 5 Credits.
Pre-requisites: CRWR 210 with a minimum grade ≥3.0 or permission of instructor.
This course is an intensive study in writing poetry, including the reading of contemporary and modern poetry to further students’ study of craft. Extensive poetry and craft reading as well as completing a poetry portfolio is required.

CRWR 315. ADVANCED CREATIVE WRITING—SHORT STORY. 5 Credits.
Pre-requisites: CRWR 210 with a minimum grade ≥3.0 or permission of instructor.
This course is an intensive study in writing literary short stories, including the readings on craft and contemporary modern fiction. Students will write two-three short stories which will be critiqued by instructor and peers.

CRWR 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CRWR 398. SEMINAR. 1-5 Credits.

CRWR 414. LITERARY EDITING AND DESIGN. 5 Credits.
Cross listed: ENGL 414.
Pre-requisites: ENGL 270, ENGL 271, CRWR 210.
The history of literary magazine publishing in America since 1950. Also typography, layout, graphics, and editorial vision. Students will be asked to examine and discuss various influential literary magazines of the past as well as the present and to produce a mock-up of their own literary magazine.

CRWR 417. CREATIVE WRITING WORKSHOP. 5 Credits.
Notes: may be repeated frequently.
Pre-requisites: CRWR 210.
Workshop in various genres, e.g., fiction, poetry, creative nonfiction, drama, script writing or translation. Different genres and subjects will be indicated in the quarterly course listings and on the student’s permanent record.

CRWR 469. LITERATURE OF THE PACIFIC NORTHWEST. 5 Credits.
Cross listed: ENGL 469.
Pre-requisites: ENGL 343 or ENGL 344.
This course is a survey of Northwestern literature from 1800 to the present time, including representative exploration journals as well as more recent works by such writers as Richard Hugo, James Welch, Carolyn Kizer and Ursula LeGuin. Addresses questions of geography and regional culture.

CRWR 491. CREATIVE WRITING SENIOR THESIS. 5 Credits.
Pre-requisites: CRWR 311 or CRWR 312, 2 sections of CRWR 417.
Satisfies: senior capstone university graduation requirement.
A class for senior creative writing majors. Students will revise poetry, fiction and essays from previous creative writing classes, culminating in a final portfolio of polished literary work. A third of the class will be workshops, a third discussion of assigned literary text to supplement the writing of the thesis and a third discussion of career issues (publishing, employment, graduate school).

CRWR 495. WILLOW SPRINGS INTERNSHIP. 1-5 Credits.
Notes: may be repeated for up to six quarters.
Pre-requisites: CRWR 417; permission of the instructor, department chair and college dean.
Reading and critiquing manuscript submissions to EWU’s nationally recognized literary journal.

CRWR 496. EXPERIMENTAL COURSE. 1-5 Credits.

CRWR 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CRWR 498. SEMINAR. 5 Credits.
Cross listed: if topic is literature, this course includes the prerequisite and may be cross-listed with ENGL 498.
Notes: may be repeated for credit; the topic covered will be listed on the student’s permanent record.
Pre-requisites: grades ≥2.5 or better in ENGL 270 and ENGL 271 (if topic is literature).
Special topics in creative writing or literature.

CRWR 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the director of the Creative Writing program, instructor, department chair and college dean.
Independent study under faculty direction, adapted to individual needs of the students.

CRWR 514. LITERARY EDITING AND DESIGN. 5 Credits.
Pre-requisites: graduate standing.
The class will study the history of literary magazine publishing in America since 1950. It will also study typography, layout, graphics, and editorial vision. Students will be asked to examine and discuss various influential literary magazines of the past as well as the present and to produce a mock-up of their own literary magazine.

CRWR 515. INTERNSHIP LITERARY EDITING AND DESIGN. 1-5 Credits.
Pre-requisites: graduate standing.
A practicum in literary production. The course offers hands-on training in connection with the literary magazine Willow Springs. Individually assigned projects typically include reading and editing submissions, proofreading, copy editing, layout, production, and marketing.

CRWR 517. GRADUATE WRITING WORKSHOP: FICTION, POETRY, LITERARY NONFICTION, DRAMA, SCRIPTWRITING OR TRANSLATION. 5 Credits.
Pre-requisites: MFA students; or permission of instructor.
Classroom discussion of student writing, concentrating on editing and revision with a view to attaining publishable quality.

CRWR 539. SPECIAL TOPICS. 1-5 Credits.

CRWR 569. LITERATURE OF THE PACIFIC NORTHWEST. 5 Credits.
A survey of Northwestern literature from 1800 to the present time, including representative exploration journals as well as more recent work by such writers as Hugo, Welch, Kizer, Bass, and LeGuin. The course also addresses questions of geography, economics, and regional culture as they relate to the literature. (Cross-listed ENGL 569)

CRWR 583. FICTION I-THE NOVEL. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor.
A study beginning with the early narratives, such as religious and mythic narratives, epics and folk tales, moving through such defining works as those by Chaucer, Boccaccio, Cervantes, and Grimmelshausen. The course ends with examination of eighteenth through mid-nineteenth century works by such authors as Stern, Defoe, the Brontes, Austen, Dickens, Stendahl, Eliot, Hawthorne, and Melville.
CRWR 584. FICTION II--THE SHORT FORM. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. A beginning point would be the mid-to-late nineteenth century work of Flaubert, Dostoevsky, and George Eliot. The course will then focus on the period of narrative exploration during the first 50 to 70 years of the 20th century. Examples of works examined would be those of Richardson, Joyce, Woolf, Kafka, Mann, Celine, Barnes, Robbe-Grillet, Sarraute, Stein, Wright, Borges, Faulkner, and O'Connor.

CRWR 585. FICTION III--THE CONTEMPORARIES. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. A survey of literature of the last 30 to 40 years with an emphasis on the worldwide explosion of printed fiction in several forms - the short story, the integrated collection, novel, and novella. The course might focus on a problem or on several writers. Examples of writers to be considered are Marquez, Morrison, Achebe, Barth, J. Berger, Welch, Munro, Mishima, and Pynchon.

CRWR 586. LITERARY NONFICTION I--ANCIENT ROOTS THROUGH THE 19TH CENTURY. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. Intensive study of the nature and development of nonfiction, beginning with ancient Greek, Roman, Chinese, and Japanese writings and the Bible, moving to the nonfiction of Continental writers such as Kempe, Montaigne, Browne, Swift, Johnson, Addison and Steele, and Lamb, and on to American writers such as Emerson, Thoreau, Twain, and Muir. Forms such as oral traditions of indigenous peoples, exploration accounts, slave narratives, captive narratives, biography, autobiography, meditation, diaries/journals, and the essay may be considered.

CRWR 587. LITERARY NONFICTION II--20TH CENTURY AND BEYOND. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. Intensive study of the nature and variety of modern and contemporary literary nonfiction, including such established writers as Woolf, Orwell, White, Didion, Mailer, Tom Wolfe, Tobias Wolff, Kingston, Momaday, McPhee, Baldwin, Walker, Kincaid, Dillard, Eiseley, Sanders, Rodriguez and Haines, as well as lesser-known contemporary writers. Forms such as memoir, essay, short nonfiction, literary journalism and the nonfiction novel may be considered, as well as effects of the works on the world.

CRWR 588. LITERARY NONFICTION III--SELECTED TOPICS. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. Advanced, close study of selected topics in creative nonfiction, such as nature writing, travel writing, oral history, memoir, diaries/journals, the personal essay, short nonfiction, radio commentary, literary journalism, biography, nonfiction translation, research methods, ethical questions, cross-cultural writing, political writing, historical writing, and science writing. More than one topic will be considered during the course.

CRWR 589. POETRY I--BACKGROUND AND THEORY. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. A study of some early poetry important to the development of the art, including Sappho, Catullus, Horace, the poets of the Tang Dynasty, and the English Metaphysicals. It will also include discussions of traditional forms and prosody.

CRWR 590. POETRY II--THE MODERNS AND MODERNISM. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. The course will begin with the study of Dickinson and Whitman and move through the High Moderns’ to Robert Lowell also include discussion of Symbolism, the Spanish poets, and the French Surrealists, and other non-English speaking poets of the period.

CRWR 592. POETRY III--CONTEMPORARY WORLD POETRY AND POETICS. 5 Credits.
Pre-requisites: MFA or English MA students or permission of instructor. An intensive study of selected authors and literary developments, both national and international, since 1960.

CRWR 596. EXPERIMENTAL COURSE. 1-5 Credits.
CRWR 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

CRWR 598. SEMINAR. 5 Credits.
Cross listed: if topic is literature, this course includes the prerequisite and may be cross-listed with ENGL 598. This course deals with specialized aspects of creative writing or literature. A student may take the seminar several times. The exact content of the course will be indicated in the title to be entered on his or her permanent record.

CRWR 599. INDEPENDENT STUDY. 1-5 Credits.
CRWR 600. THESIS. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

CRWR 602. MPA PORTFOLIO. 2 Credits.
An advanced reflective praxis project which a student, following the guidelines provided by the MPA program and with the advice and editorial review of the chair of his/her best work in the MPA program. The portfolio is presented and discussed as part of the comprehensive oral exam for the MPA degree.

CRWR 698. INTERNSHIP IN INSTRUCTION. 1-5 Credits.

Criminal Justice (CRIM)

CRIM 195. INTERNSHIP. 1-5 Credits.
CRIM 196. EXPERIMENTAL COURSE. 1-5 Credits.
CRIM 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Individual study in criminal justice. Topics are mutually agreed upon by the instructor and student.

CRIM 300. INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM. 5 Credits.
This course is taught from the perspective of the criminologist and emphasizes the interaction within and between the systems of law enforcement, the courts and treatment.

CRIM 302. CRIMINAL JUSTICE SYSTEMS AND DEVELOPMENT. 5 Credits.
In this course students will explore the origins and development of the contemporary criminal justice system in America.

CRIM 304. FORENSIC INQUIRY. 5 Credits.
Notes: for majors only. Scientific methods of inquiry used in forensic investigations. Includes methodologies from social science, natural science, law, and criminal justice.

CRIM 307. SPECIAL TOPICS IN CRIMINAL JUSTICE. 1-5 Credits.
An open topics course on contemporary criminal justice practice.
CRIM 330. SOCIAL SCIENCE RESEARCH METHOD. 5 Credits.
Pre-requisites: CRIM 300.
An introduction to the scientific method in the social sciences, core concepts and issues in social science methods, core groups of methods for data collection and core group of analytic techniques.

CRIM 340. ETHICS IN CRIMINAL JUSTICE. 5 Credits.
In this course, we will explore major ethical theories with an emphasis on their application to components of the criminal justice system. We will analyze current issues and ethical dilemmas that criminal justice professionals deal with. We will examine the complex process of moral and ethical decision making in the criminal justice system.

CRIM 360. WOMEN IN PRISON. 5 Credits.
Cross listed: WMST 360.
In this course, we examine the socio-structural relationships between women's lives and women's crimes and explore how race, class and gender assumptions shape the experiences of female correctional officers and female inmates. In addition, we analyze how the prison rules and regulations that girls and women have to abide by are deeply gendered. Since the 1980s, the number of women and girls incarcerated has increased drastically. Yet, we know very little about female criminality and women's lives inside prison.

CRIM 382. CRIMINAL JUSTICE ORGANIZATION AND ADMINISTRATION. 5 Credits.
Basic organization and management of criminal justice agencies. Discusses line, personnel, and auxiliary functions.

CRIM 398. PROFESSIONAL DEV SEMINAR. 5 Credits.
Covers values, ethics and personal development.

CRIM 399. INDIVIDUAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual study in criminal justice. Topics are mutually agreed upon by the instructor and student.

CRIM 404. FORENSIC IDENTIFICATION. 4 Credits.
Notes: limited to 15 students.
This course is an advanced laboratory course in forensic facial reconstruction, forensic osteology and computer applications to forensic identification.

CRIM 416. COMPARATIVE CRIMINAL JUSTICE SYSTEMS. 5 Credits.
A comparative approach to understanding the different criminal justice systems found throughout the world.

CRIM 420. PEACEMAKING CRIMINOLOGY. 5 Credits.
Pre-requisites: CRIM 300.
This course provides an overview of peacemaking within communities and the justice system. Topics include leaders and tactics, and the historical and philosophical foundations of peace movements.

CRIM 421. RESTORATIVE JUSTICE. 5 Credits.
Pre-requisites: CRIM 300.
This course provides an overview of restorative justice within communities and the justice system. Topics include the need for restorative justice practices with an emphasis on the causes of deterrence, new trends in community movements and justice procedures.

CRIM 460. PENOLOGY. 5 Credits.
Notes: Acceptable background security check. Course fee. CJ majors have priority.
A study of the contemporary practice of penology in the western world with special attention to the United States and Washington state. Lecture, laboratory and required field trips to Northwest Custodial Institutions.

CRIM 468. POLICE SYSTEMS AND PRACTICES. 5 Credits.
Pre-requisites: CRIM 300 or permission of the instructor.
This course examines the profession of a police officer. Topics include criminal investigations, specialized operations, ethics, liability, and the process, organization and management of policing in the United States.

CRIM 485. CORRECTIONAL COUNSELING: GROUP METHODS. 5 Credits.
Examines group methods used with criminal offenders, both juvenile and adult. Includes treatment programs, evaluation and therapeutic environments.

CRIM 490. SENIOR CAPSTONE. 5 Credits.
Pre-requisites: senior standing; must be taken prior to internship.
Satisfies: senior capstone university graduation requirement.
This course examines the relationship between the major subsystems of the criminal justice system, police, courts, corrections, and juvenile justice. Each of these major components address issues of crime in society with the same constituents, but from a different perspective. Examination of issues that each component has in common and the manner in which they are differently addressed is the focus of this course. Criminal Justice students will gain an appreciation for the eclectic nature of the profession through in-depth analysis of current issues and designing a resolution mechanism. The characterization of a criminal justice system is discussed from the "perspective of individual mission of each element of the system" to identify "the presence or absence of commonality - except for constituency. The distinctive division of labor between corrections, police administration and the courts are described in effort to identify the decision-making processes to further amplify their interdependence and interrelatedness. Through examination of dilemmas faced by the system students will develop an appreciation for and understanding of the system from the macro perspective.

CRIM 495. INTERNSHIP. 6-12 Credits.
Pre-requisites: 2.5 GPA, permission of internship instructor and CRIM 490.
The intern earns credits through participation in a full-time work experience. The length of time is determined by the amount of credit. Normally it will be 10 weeks. Requirements include an on site visit, detailed written report and additional assignments. Internships are limited to the state of Washington and some selected Idaho and Oregon locations. Applications and approval must be obtained prior to the internship experience. Credit for unapproved internship or life experience is not granted.

CRIM 496. EXPERIMENTAL COURSE. 1-5 Credits.

CRIM 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

CRIM 498. CRIMINAL JUSTICE SEMINAR. 5 Credits.

CRIM 499. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
For individual/independent study in criminal justice. Topics are mutually agreed upon by the instructor and the student.
Decision Science (DSCI)

DSCI 245. DATA ANALYSIS FOR BUSINESS. 4 Credits.
Pre-requisites: completion of CPLA 100 and 101 or CPLA 120 and one of the following: MATH 142, MATH 161 or MATH 200.
An introduction to decision making in the business environment using statistical and data analysis procedures. Computer software is used extensively. Written communication skills are emphasized as a means to incorporate analysis results into the decision making process. Topical coverage includes discrete and continuous probability distributions, sampling distributions, estimation and hypothesis testing.

DSCI 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

DSCI 299. DIRECTED STUDY. 1-15 Credits.

DSCI 346. ADVANCED DATA ANALYSIS FOR BUSINESS. 4 Credits.
Pre-requisites: completion of CPLA 100 and CPLA 101 or CPLA 120 and DSCI 245 (or equivalent) and one of the following: MATH 142, MATH 161 or MATH 200.
This course offers an in-depth study of decision making in the business environment using statistical and data analysis procedures. Statistical methods used in decision making include chi-square tests, analysis of variance, correlation, simple and multiple regression, time series analysis, and forecasting. Computer software is used extensively for both analysis and presentation. Case studies or projects are used to integrate statistical methods with problem solving and communication skills.

DSCI 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

DSCI 445. INTRODUCTION TO BUSINESS ANALYTICS. 4 Credits.
Pre-requisites: DSCI 346 or equivalent. Business analytics is a hybrid of information systems, applied statistics, management science, data analysis, operations research, consumer behavior, risk management and decision support. The focus of this particular course is on the analysis of data to develop spreadsheet decision models in a business environment. Topics may include linear programming, network modeling, goal programming, nonlinear programming, regression, data mining, forecasting, simulation, queuing theory and decision analysis.

DSCI 446. BUSINESS FORECASTING. 4 Credits.
Pre-requisites: DSCI 346 or equivalent or permission of the instructor. Integrates several forecasting models with applications to managerial techniques. Topics include regression, multiple regression, time series analysis, autocorrelation, econometric models, exponential smoothing, autoregressive models, adaptive filtering, Box Jenkins methods, and survey techniques. The computer is employed to develop meaningful forecasts for management.

DSCI 447. DESIGN OF EXPERIMENTS. 4 Credits.
Pre-requisites: DSCI 346 or equivalent or permission of the instructor. An in-depth study of quantitative business analysis techniques in a variety of organizational environments. Emphasizes the use of the computer and a discussion of quality in the organizational setting.

DSCI 448. BUSINESS SIMULATION. 4 Credits.
Pre-requisites: DSCI 346 or equivalent or permission of the instructor. An examination of probabilistic robabilistic models in decision science, with emphasis on discrete event simulation.

DSCI 449. MULTIVARIATE DATA ANALYSIS. 4 Credits.
Pre-requisites: DSCI 346 or equivalent. Multivariate data analysis methods are used in fields such as business, engineering, education, data mining and many others. This course examines the concepts and principles of the various statistical methods used in the analysis of multiple simultaneous measurements on the subjects under investigation. Software is heavily used to support the studies in this course.

DSCI 450. DATA VISUALIZATION. 4 Credits.
Pre-requisites: DSCI 346 or equivalent. Data visualization helps people understand the information within data by placing it in a visual context. As statistical results are often communicated poorly in the media, in scientific journals and in business, this course examines methods used in the presentation of these results to non-statistically oriented audiences. A variety of software packages are used to develop appropriate data visualizations. Non-technical writing and presentation skills are emphasized.

DSCI 495. PROFESSIONAL INTERNSHIP. 1-15 Credits.
DSCI 498. SEMINAR. 1-15 Credits.
DSCI 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Dental Hygiene (DNHY)

Please note: Semester courses include an "S" with the number.

DNHY 300. HEAD AND NECK ANATOMY. 3 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
A detailed study of head and neck anatomy, including bones, musculature, blood, lymphatic and nerve supply.

DNHY 301. DENTAL ANATOMY. 3 Credits.
Pre-requisites: admission to dental hygiene program.
The course is a study of tooth anatomy, terminology, morphology and eruption. The following topics are covered: eruption, physiologic tooth form, collective tooth morphology, dental anatomy nomenclature and specific anatomical features of selected permanent and primary teeth.

DNHY 302. HISTOLOGY/EMBRYOLOGY. 3 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
A detailed study of oral histology and embryology. Development of the face and oral cavity; microscopic anatomy of the oral cavity.

DNHY 310. RADIOGRAPHY. 3 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
Clinical and physical principles of x-ray production, hazards, and safety procedures, with an orientation to oral anatomy and completion of acceptable full-mouth surveys on dental clients.

DNHY 311. RADIOGRAPHY. 2 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
Clinical and physical principles of x-ray production, hazards, and safety procedures, with an orientation to oral anatomy and completion of acceptable full-mouth surveys on dental clients. Techniques for advanced skill and panoramic radiography emphasized.
DNHY 320. PHARMACOLOGY FOR THE DENTAL HYGIENIST. 3 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
Principles of pharmacological and therapeutic action of drugs used in dentistry.

DNHY 321. PAIN CONTROL. 3 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
This course is designed to give the student an understanding of the history, theory and use of nitrous oxide sedation and dental local anesthetic agents.

DNHY 330. PRECLINICAL DNHY I. 4 Credits.
**Pre-requisites:** DNHY 330.
This course is the first in a series introducing the basic principles for clinical dental hygiene treatment. Focus is on the integration of didactic and clinical skills.

DNHY 331. PRECLINICAL DNHY II. 5 Credits.
**Pre-requisites:** DNHY 330.
This course is the second in a series introducing the basic principles for clinical dental hygiene treatment. Focus is on the integration of didactic and clinical skills.

DNHY 332. PRECLINICAL DNHY III. 4 Credits.
**Pre-requisites:** DNHY 331.
This course is the third in a series introducing the basic principles for clinical dental hygiene treatment. Focus is on the integration of didactic and clinical skills.

DNHY 341. MANAGEMENT OF THE MEDICALLY COMPROMISED PATIENT. 3 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
This course introduces dental hygiene management of the medically compromised patient. Emphasis will be placed on understanding the concept of total client care and management of the medically compromised patients that are either electing or requiring dental care for optimal health and function.

DNHY 350. CLINICAL DENTAL HYGIENE I. 4 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
This is the first course involving supervised experience in clinical procedures for dental hygiene.

DNHY 351. CLINICAL DENTAL HYGIENE II. 5 Credits.
**Pre-requisites:** DNHY 350.
This is the second course involving supervised experience in clinical procedures for dental hygiene.

DNHY 352. CLINICAL DENTAL HYGIENE III. 5 Credits.
**Pre-requisites:** DNHY 351.
This is the third course involving supervised experience in clinical procedures for dental hygiene.

DNHY 360. PREVENTIVE DENTISTRY. 2 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
This course is designed to introduce the first year dental hygiene student to current theories, knowledge and practices of preventive dentistry.

DNHY 380. INTRODUCTION TO RESTORATIVE DENTISTRY. 5 Credits.
**Pre-requisites:** admission to dental hygiene program.
This introductory lecture and laboratory course provides an opportunity to acquire the knowledge and skills associated with dental materials and restorative functions. This course is the first of several courses that provides basic didactic and laboratory information required to facilitate the selection, manipulation and placement of dental materials.

DNHY 381. PRINCIPLES OF RESTORATIVE DENTISTRY. 3 Credits.
**Pre-requisites:** admission into dental hygiene program.
This course is the second of two courses that emphasize selection, manipulation and placement of dental materials. This course provides an opportunity to acquire the didactic knowledge associated with dental materials and become competent in laboratory restorative procedures necessary to provide clinical restorative therapy.

DNHY 430. ORAL AND GENERAL PATHOLOGY. 3 Credits.
**Pre-requisites:** admission into the dental hygiene program or waiver by instructor.
A histopathological study of oral lesions, pathogenic conditions of particular significance to dentistry, and principles of general pathology.

DNHY 450. CLINICAL DENTAL HYGIENE IV. 3 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
The fourth of seven quarters of supervised experiences in clinical procedures of dental hygiene, increasing in scope of opportunity as skill is attained.

DNHY 451. CLINICAL DENTAL HYGIENE V. 5 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
The fifth of seven quarters of supervised experiences in clinical procedures of dental hygiene, increasing in scope of opportunity as skill is attained.

DNHY 452. CLINICAL DENTAL HYGIENE VI. 5 Credits.
**Pre-requisites:** admission into dental hygiene program or waiver by instructor.
The sixth of seven quarters of supervised experiences in clinical procedures of dental hygiene, increasing in scope of opportunity as skill is attained.
DNHY 453. CLINICAL DENTAL HYGIENE VII. 5 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
The last of seven quarters of supervised experiences in clinical procedures of dental hygiene, increasing in scope of opportunity as skill is attained.

DNHY 460. COMMUNITY DENTAL HEALTH I. 2 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
This course provides a comprehensive introduction to public health practices through the study and evaluation of the principles, terminology and techniques of community dental health. Learning experiences are provided for students to apply public health principles through serving the needs of the community in various settings.

DNHY 461. COMMUNITY DENTAL HEALTH II. 2 Credits.
Pre-requisites: DNHY 460.
This course further develops the concepts and skills of dental public health. Students continue to expand on public health experience in various community settings.

DNHY 467. CAREER STRATEGIES. 1 Credit.
Pre-requisites: acceptance to the BSDH degree completion program.
Students explore alternate career paths and essential skills needed to create a professional development plan related to a non-clinical dental hygiene practice.

DNHY 467S. CAREER STRATEGIES. 1 Credit.
Pre-requisites: acceptance to the BSDH degree completion program.
Students explore alternate career paths and essential skills needed to create a professional development plan related to a non-clinical dental hygiene practice.

DNHY 469S. APPLIED STATISTICS AND EVIDENCE-BASED DECISION MAKING FOR THE HEALTH SCIENCES. 4 Credits.
Pre-requisites: MTHD 104 or MTHD 106 or equivalent logic course approved by the department.
Integration of applied statistics, critical appraisal of research, clinical expertise and client values are examined to formulate evidence-based decisions in providing effective healthcare.

DNHY 470. RESEARCH METHODS. 3 Credits.
Pre-requisites: admission into dental hygiene program or waiver by instructor.
Basic principles of research and the facilitation of the development of analytical skills for evaluation of professional research.

DNHY 471S. PRINCIPLES OF RESEARCH AND SCIENTIFIC WRITING. 4 Credits.
Pre-requisites: acceptance to the BSDH degree completion program.
Basic principles of research and the facilitation of the development of analytical skills for evaluation of professional research culminating in the writing of a scientific research report.

DNHY 475. TEACHING PRACTICUM I. 1 Credit.
Pre-requisites: admission into dental hygiene program.
This course focuses on providing clinical and laboratory teaching methodology and experience to a novice educator. Students are assigned teaching opportunities under the direction of the course instructor.

DNHY 476. TEACHING PRACTICUM II. 1 Credit.
Pre-requisites: DNHY 475.
This course is a continuation of DNHY 475 and focuses on providing clinical and laboratory teaching methodology and experience to a novice educator. Students are assigned teaching opportunities under the direction of the course instructor.

DNHY 477. TEACHING PRACTICUM III. 1 Credit.
Pre-requisites: DNHY 476.
This course is a continuation of DNHY 476 and focuses on providing clinical and laboratory teaching methodology and experience to a novice educator. Students are assigned teaching opportunities under the direction of the course instructor.

DNHY 480. RESTORATIVE CLINIC I. 3 Credits.
Pre-requisites: admission into the dental hygiene program.
This is the first course of a three-quarter sequence in clinical restorative dental hygiene. The course is comprised of lectures, restorative clinics and laboratory experiences, which are designed to facilitate the student's knowledge of various restorative materials and clinical procedures as well as the development of restorative manipulative skills.

DNHY 481. RESTORATIVE CLINIC II. 2 Credits.
Pre-requisites: DNHY 480 and admission into the dental hygiene program.
This is the second course of a three-quarter sequence in clinical restorative dental hygiene. The course is comprised of lectures, restorative clinics and laboratory experiences which are designed to facilitate the student's knowledge of various restorative materials and clinical procedures as well as the development of restorative manipulative skills.

DNHY 482. RESTORATIVE CLINIC III. 2 Credits.
Pre-requisites: DNHY 481 and admission into the dental hygiene program.
This is the third course of a three-quarter sequence in restorative dental hygiene. The course is comprised of restorative clinics and laboratory experiences which are designed to facilitate the student's knowledge of various restorative materials and clinical procedures as well as the development of restorative manipulative skills.

DNHY 485. ORAL HEALTH PROMOTION. 5 Credits.
Pre-requisites: acceptance to the BSDH Degree completion program.
This course focuses on current topics related to oral health affecting changes in global populations.

DNHY 485S. ORAL HEALTH PROMOTION. 3 Credits.
Pre-requisites: acceptance to the BSDH Degree completion program.
This course focuses on current topics related to oral health affecting changes in global populations.

DNHY 486S. CONTEMPORARY ISSUES IN DENTAL HYGIENE. 3 Credits.
Pre-requisites: acceptance to the BSDH Degree completion program.
A seminar on various global roles of the dental hygienist, innovations in technology, best practices, science and policy related to the dental hygiene process of care.

DNHY 487S. PRINCIPLES AND POLICIES OF ORAL HEALTHCARE MANAGEMENT. 3 Credits.
Pre-requisites: acceptance to the BSDH degree completion program.
Management and policy creation for healthcare programs and businesses, specifically oral healthcare are discussed in this course.

DNHY 488S. RELATIONSHIP, ETHICS AND COMMUNICATION IN HEALTHCARE. 3 Credits.
Pre-requisites: acceptance to the Online BSDH Degree completion program.
Overarching themes of cultural diversity and global perspectives are employed in the application of theories and concepts of relationship building, ethics and communication for the healthcare provider.
DNHY 490S. PRINCIPLES OF DENTAL PUBLIC HEALTH. 3 Credits.
**Pre-requisites:** acceptance to the Online BSDH Degree completion program.
This course provides an overview of basic public health concepts including epidemiology, policy, cost, well-being, access and global health focusing on the relationship of oral public health to general public health.

DNHY 490. DENTAL HYGIENE CAPSTONE. 4 Credits.
**Pre-requisites:** admission into the dental hygiene program or waiver by instructor.
**Satisfies:** senior capstone university graduation requirement.
An integrative, theme-based capstone course which focuses on the ethical and legal issues facing the dental hygienist of the future.

DNHY 490S. DENTAL HYGIENE CAPSTONE. 4 Credits.
**Pre-requisites:** acceptance to the BSDH degree completion program.
This course incorporates the major learning themes of the dental hygiene degree completion curriculum resulting in a student-generated culminating capstone project/essay.

DNHY 491S. FOUNDATIONS OF DENTAL HYGIENE. 5 Credits.
**Pre-requisites:** acceptance to the BSDH degree completion program.
A foundation course providing fundamental theories, teaching strategies and applications in education and leadership.

DNHY 492S. EDUCATION/HEALTH PROMOTION PRACTICUM. 3 Credits.
**Pre-requisites:** DNHY 491S.
A practicum experience in didactic, clinical or laboratory instruction integrating leadership, professionalism, ethics, educational theories and teaching strategies, with a focus on assessment and evaluation.

DNHY 494S. MYTHOLOGY, FOLKLORE AND HEALTHCARE. 4 Credits.
**Pre-requisites:** ENGL 201 or DNHY 470S.
A course offering historical and diverse perspectives on health based on folklore and mythology.

DNHY 496. EXPERIMENTAL COURSE. 1-5 Credits.

DNHY 499. DIRECTED STUDY. 1-5 Credits.

DNHY 499S. INDEPENDENT STUDY. 1-4 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.

DNHY 501. ADV. DENTAL HYGIENE PRAC W/LAB. 2 Credits.
**Pre-requisites:** admission to the DNHY graduate program.
DNHY 501.40 is a 2 credit course which focuses on the dental hygiene process of care related to advanced preventive and therapeutic interventions to various population groups, technology and outcomes. Application of advanced dental hygiene care in a clinical setting will be a portion of this course.

DNHY 501S. ADVANCED DENTAL HYGIENE PRACTICE WITH LAB. 1 Credit.
**Pre-requisites:** admission to the DNHY graduate program.
This course focuses on the dental hygiene process of care related to advanced preventive and therapeutic interventions with diverse population groups, technology and outcomes. Provision of advanced dental hygiene care in a clinical setting will be a portion of this course.

DNHY 505. HEALTHCARE LEADERSHIP. 5 Credits.
**Pre-requisites:** admission to the DNHY graduate program.
DNHY 505 actively teaches the relational, operational, and analytical skills that are keys to success in health management. Included are the application of leadership and management theory related to professional issues, policy development, legal and ethical principles, professional associations, strategic planning, conflict resolution, and professional advancement.

DNHY 505S. HEALTHCARE LEADERSHIP. 3 Credits.
Focusing on healthcare providers, this course provides skill building in the critical areas of leadership development. The content develops the leadership skills essential for achieving personal and organizational objectives.

DNHY 520. TRANSLATIONAL RESEARCH. 3 Credits.
**Pre-requisites:** admission to the DNHY graduate program and completion of an undergraduate statistics or biostatistics course.
This course focuses on critical reading, understanding and evaluation of the professional literature. Students learn how to access information electronically in order to make evidence-based decisions that contribute to the development of best practices. Grant writing is included to prepare students for the various components of a thesis.

DNHY 520S. RESEARCH METHODOLOGIES AND SCHOLARLY WRITING. 4 Credits.
**Pre-requisites:** PUBH 510S or approved statistics course by dept.
This course focuses on the research methods, writing, critical and analytical skills necessary to complete a successful thesis, develop a grant, and use evidence based practices as a life-long learner.

DNHY 525. THEORETICAL FOUND. ADV. DH. 5 Credits.
**Pre-requisites:** admission to the DNHY graduate program.
This course focuses on knowledge of primary dental care as the supporting framework for advanced professional practice. Emphasis is placed on the application of both dental and dental hygiene knowledge focusing on cultural competence with diverse patient populations and practice settings. Topics selected in this course are intended to provide dental hygienists with an understanding of the role of the dental hygiene practitioner in disease prevention, treatment and referral. This course will introduce the theory and research related to the concepts of health promotion and risk reduction providing students the opportunity to incorporate strategies of risk analysis and reduction, screening, lifestyle change, and disease detection and prevention in the family oral health care.

DNHY 530. ADV. DENTAL HYG RESEARCH. 5 Credits.
**Pre-requisites:** admission to the DNHY graduate program.
This course promotes the development of life-long learning skills through critical analysis of research findings and continuation of a grant proposal. Writing in this course will include structure and organization of documents, style, usage and drafting.

DNHY 530S. INTRODUCTION TO THESIS. 1 Credit.
**Notes:** graded Pass/Fail.
**Pre-requisites:** PUBH 563S or approved statistics course by dept., DNHY 520S or concurrent enrollment in DNHY 520S.
This course provides a foundation for development of a thesis on a chosen topic under the direction of a faculty member.
DNHY 558. INTRO REST PROCEDURES. 2 Credits.
Pre-requisites: acceptance into the dental hygiene graduate program.
This is a comprehensive lecture and laboratory course that provides the dental hygienist an opportunity to acquire didactic and laboratory knowledge, and skills associated with dental materials and restorative expanded dental hygiene functions. This course is the first of several courses which provide the student with basic information required to facilitate the selection, manipulation and placement of dental materials. This quarter the study of restorative dental hygiene involves learning and understanding, all necessary information associated with matrix and wedge; mercury hygiene, trituration and condensation; basic dental sciences; nomenclature; amalgam properties and placement; amalgam polishing; and rubber dam application.

DNHY 559. BASIC RESTORATIVE PROCEDURES. 5 Credits.
Pre-requisites: Admission to the dental hygiene graduate program. This course is a comprehensive lecture, clinical, and laboratory course which provides the dental hygiene student an opportunity to acquire didactic, laboratory, and clinical knowledge, and skills associated with dental materials and restorative expanded functions. This course emphasizes cements, bases, and sealers; temporary restorations, pulpotomies, rubber dam application, placing composites, amalgams, and stainless steel crowns; techniques for simple extractions, and cavity preparations for composites, amalgams, and stainless steel crowns.

DNHY 560. POLICY, SYSTEMS AND FINANCE. 3 Credits.
Pre-requisites: Admission to the dental hygiene graduate program. This course prepares the practitioner to influence and interpret public health policy and recognize its role as a determinant of health. Students develop skills, participate in health policy development and political action, healthcare financing and delivery, and in the measurement of care delivery and practitioner effectiveness. This course focuses on the political, ethical, societal, and professional issues in advanced practice.

DNHY 565. MANAG OF ORAL HEALTH DEL. 5 Credits.
Pre-requisites: Admission to the dental hygiene graduate program. This course develops skills in negotiation and conflict resolution. The student examines current and emerging advanced practice issues including entrepreneurship, fundamental of tax laws, overhead costs, benefit packages, billing and negotiation with third party payers and facilities. Principles of management and community partnerships in clinical settings will be emphasized with focus on leadership skills, coalition building, and constructive use of power, influence and politics.

DNHY 600. THESIS. 1-3 Credits.
Notes: must be repeated five times.
Pre-requisites: admission to the DNHY graduate program; permission of the instructor, department chair and college dean. This course is a research project conducted under the direction of a faculty member.

DNHY 600S. THESIS. 2 Credits.
Notes: can be repeated for up to a total of 20 thesis credits.
Pre-requisites: DNHY 520S, DNHY 530S, PUBH 563S. Under the direction of faculty, students use current research to write a thesis demonstrating mastery of a chosen topic.

DNHY 605. COMPONENTS OF PROGRAM DEV.. 5 Credits.
Pre-requisites: admission to the dental hygiene graduate program. This course offers an overview of general principles of teaching, learning and evaluation in academic and community oral health programs. Emphasis is on the components of program development (assessment, planning, implementation and evaluation).

DNHY 605S. COMPONENTS OF PROGRAM DEVELOPMENT. 2 Credits.
This course offers an overview of general principles of teaching, learning and evaluation in academic and community oral health programs. Emphasis is on dissecting the components of program development (assessment, planning, implementation and evaluation).

DNHY 610. EDUCATIONAL METHODOLOGY. 3 Credits.
Pre-requisites: admission to the DNHY graduate program. This course is a study of teaching-learning processes suitable for adults and the educational theories from which they derive. An overview of various teaching strategies is included.

DNHY 610S. HEALTHCARE EDUCATION THEORIES AND INSTRUCTIONAL METHODS. 2 Credits.
This course introduces evidence-based concepts to prepare the instructor/health promoter for a successful teaching experience. Major themes include learning and teaching styles, learning objective development, lesson planning, assessment strategies and classroom management techniques in traditional, laboratory, online and community settings.

DNHY 615. ADV. EDUC THEORY. 5 Credits.
Pre-requisites: DNHY 605. This course focuses on the study of educational, program development, leadership, and administrative theories and andragogy unique to the profession of dental hygiene. General and specialized accreditation processes, role of state dental licensure boards, human resources, employee performance assessment, program financing from private support, public funding, or clinical fees, clinic administration and outcomes assessment are examined.

DNHY 615S. PRINCIPLES OF DENTAL HYGIENE COURSE AND CURRICULUM DESIGN. 3 Credits.
Pre-requisites: DNHY 605S, DNHY 610S. This course focuses on the study of course and curriculum development, leadership, administrative theories and andragogy unique to the profession of dental hygiene.

DNHY 620S. SEMINAR ON CONCEPTS OF PUBLIC HEALTH AND HEALTH PROMOTION. 2 Credits.
In this thematic seminar students use current evidence to engage in discussion on topics related to the roles of advocate and health promoter.

DNHY 625. CLINICAL ADMIN TEACHING. 3 Credits.
Pre-requisites: DNHY 610. This course focuses on theories and methods of clinical instruction and supervision, including psychomotor skill development, competency-based evaluation, student mentoring, and remediation. Organizational and administrative philosophy in clinical education based on accreditation standards are examined.

DNHY 625S. CLINICAL TEACHING STRATEGIES. 2 Credits.
Pre-requisites: DNHY 605S, DNHY 610S. This course focuses on theories and methods of clinical instruction and supervision, including psychomotor skill development, competency-based evaluation, student mentoring and remediation. Organizational and administrative philosophies in clinical education based on accreditation standards are examined.

DNHY 630S. SEMINAR ON HEALTHCARE POLICIES AND FINANCE. 2 Credits.
This thematic seminar provides the student with opportunities to investigate and discuss current literature on healthcare policy and finance.
DNHY 635. PRACTICUM I. 5 Credits.
Pre-requisites: completion of DNHY 605, 610, 615 and 625.
This course focuses on an individualized learning experience to apply principle and theories in an emphasis area. Approval required for off-campus sites.

DNHY 635S. PRACTICUM. 5 Credits.
Notes: approval required for off-campus sites.
Pre-requisites: DNHY 605S, DNHY 610S, DNHY 615S, DNHY 625S.
This course focuses on an individualized learning experience to apply principle and theories in an emphasis area.

DNHY 640S. SEMINAR ON ADMINISTRATION, MANAGEMENT AND ORGANIZATION. 2 Credits.
Pre-requisites: DNHY 505S, DNHY 615S.
In this thematic seminar, students discuss the relational, operational and analytical skills key to success in administration including the application of leadership, management theory and organizational behavior. Topics include accreditation, quality assurance, policymaking, relationship building, strategic planning, conflict resolution and communication.

DNHY 645. PRACTICUM II. 5 Credits.
Pre-requisites: completion of DNHY 605, 610, 615 and 625.
This course focuses on an individualized learning experience to apply principle and theories of in an emphasis area. Approval required for off-campus sites. This course is a continuation of DNHY 635.

DNHY 660. COMM BASE PRIM ORAL HEALTHCARE. 3 Credits.
Pre-requisites: Admission to the dental hygiene graduate program.
This is one of several clinical restorative courses. The course is comprised of lectures, restorative clinics, and laboratory experiences, which are designed to facilitate students’ knowledge of various restorative materials and clinical procedures as well as the development of their restorative manipulative skills. Focus on assessment, medical emergencies prevention and planning, diagnosis, treatment planning; preparations placement of restorations including stainless steel crowns, amalgams, composites and glass ionomers; pedodontic treatment; pain control; extractions and pain control.

DNHY 661. COMM BASE ORAL HEALTHCARE II. 3 Credits.
Pre-requisites: Admission to the dental hygiene graduate program.
This course is a continuation of Community Based Primary Oral Healthcare I. This laboratory/clinical-based course is the second in a series of courses throughout the curriculum that provide opportunities for advanced dental hygiene clinical practice across the lifespan. Focus on assessment, medical emergencies prevention and planning, diagnosis, treatment planning; preparations placement of restorations, including stainless steel crowns, amalgams, composites and glass ionomers; pedodontic treatment; pain control; extractions and pain control.

DNHY 670. DENTAL EMERG AND URGENT CARE. 2 Credits.
Pre-requisites: Admission to the dental hygiene graduate program.
This course focuses on the diagnosis, treatment and referral of dental emergencies.

DNHY 675. ADV SPEC FIELDWORK. 3 Credits.
Pre-requisites: admission to the dental hygiene graduate program.
This course is a clinical course that provides the opportunity for concentrated clinical practice in the advanced dental hygiene practice role with specific target population in a variety of setting.

Design (DESN)

DESN 100. DRAWING FOR COMMUNICATION. 5 Credits.
This course covers hand-drawing as a design skill. Emphasis is on sketching, design drawing, design process and composition studies for visual presentation and design solutions. Students gain drawing skills such as basics of drawing techniques, basic shapes, light, texture, pattern, gesture and perspective drawing to communicate and present their ideas visually. Students learn and develop critical thinking and creative problem solving skills using the drawing process.

DESN 216. DIGITAL FOUNDATIONS. 4 Credits.
Introduction to media design and digital culture using computer software for the creation and manipulation of images and text, file management, and preparation for print, web or multimedia uses.

DESN 243. TYPOGRAPHY. 4 Credits.
Pre-requisites: DESN 100 and DESN 216.
An introductory-level course concentrating on the fundamentals of typography with emphasis on letterforms, typographic syntax, type specification, type as image and the use of type in a variety of communicative purposes.

DESN 259. HISTORY OF DESIGN. 4 Credits.
This course considers the development of design in the broad sense of the term. Beginning with the Industrial Revolution and continuing forward to the present day, this course explores the components of design that have influenced the direction of design thinking.

DESN 263. VISUAL COMMUNICATION DESIGN I. 5 Credits.
Notes: In order to receive the Visual Communication Design degree, students must earn ≥3.0 grade in this class, in addition to the department requirement ≥2.5 GPA in all DESN coursework.
Pre-requisites: DESN 100 and DESN 216.
This course provides an introduction to Visual Communication Design including the theories, principles and practices of visual communication, concept development, design process and design technology.

DESN 275. DIGITAL SOUND. 4 Credits.
This course provides a foundation in the techniques of sound design, recording, production and editing for digital media. Students will create and record sound files, apply effects and mix and produce a variety of multimedia audio elements using state-of-the-art digital technology. Applicable uses include websites, games, multimedia products for promotion and learning, entertainment products and virtual worlds.

DESN 300. VISUAL LITERACY. 5 Credits.
Cross listed: CMST 300.
This course helps students develop the set of skills needed to critically interpret images of the past and present and produce images that effectively communicate a message to an audience. This includes an awareness of technology’s role in the creation and dissemination of visual communication along with the role of persuasive strategies to target visual consumers. Students will both analyze and produce rhetorical-visual images and develop the skills needed to manage visual representation in a cultural context.

DESN 325. EMERGENT DESIGN. 4 Credits.
Pre-requisites: DESN 263.
This course explores benefits and risks of new design technologies. Students learn to recognize emergent design technologies and use them to address design problems and explore ways in which new tools reference past paradigms in order to create forward thinking design solutions. Through hands-on, project-based learning, students investigate the possibilities inherent in these new technologies.
DESN 338. PRINCIPLES OF INTERACTION DESIGN. 4 Credits.
Prerequisites: DESN 263 or permission of instructor.
Students investigate principles of interaction design of web enabled devices and differences and similarities between physical interaction and conceptual interaction through the use of metaphor. Exploring relationships between analog and digital frameworks, students become mindful of the overlapping patterns of interaction between the two systems. The five essential principles of interaction design: consistency, visibility, learnability, predictability and feedback are evaluated through the mediums of digital interface, physical object and environment.

DESN 348. RHETORIC OF USER-CENTERED DESIGN. 4 Credits.
Prerequisites: ENGL 201.
Students examine different rhetorical frameworks that inform software user interface/experience (UI/UE) and content design. Supporting theories, such as visual rhetoric, contextual design, information architecture, gestalt, content strategy, and design ethics, are investigated. Students demonstrate their understanding of theoretical principles by creating and redesigning small UI-related deliverables and by practicing rigorous written analysis and critique.

DESN 350. DIGITAL IMAGING AND PHOTOGRAPHY. 4 Credits.
Prerequisites: CPLA 101 or CPLA 120.
This introductory course teaches beginning photographers how to improve their photographic technique, use digital cameras for effective visual communication and edit images with professional software tools. Working with their own digital cameras students will practice professional shooting strategies and produce weekly practical and creative photo assignments. Topics include camera theory; digital formats; composition basics; composing within the frame; using natural and artificial lighting; texture, shape, form and line in the photograph; framing with foreground elements; digital darkroom techniques; repair and retouching; compositing, portraiture, scenic and nature photography; product photography, action photography and close-up photography.

DESN 351. ADVANCED PHOTOGRAPHY. 4 Credits.
Prerequisites: DESN 350.
An extension of DESN 350 with considerable work in advanced enlarging techniques portraiture with emphasis on lighting, architectural photography, slidemaking, color transparencies, and color prints.

DESN 355. MOTION DESIGN. 4 Credits.
Prerequisites: DESN 263.
This course explores the principles of design through motion, with an emphasis on effective use of typography, graphical elements, sound and motion within time and space. Students learn how to import projects, create narrative structures, storyboard, output for various devices and problem solve moving image concerns.

DESN 360. PUBLICATION DESIGN. 4 Credits.
This course covers principles of design, typography, and the use of graphic files, in both print and digital publication. Professional desktop publishing software and common web design software are used. Emphasis is on skills required for basic literacy as well as the effective design of common formats such as brochures, newsletters, books, and web pages.

DESN 363. VISUAL COMMUNICATION DESIGN 2. 5 Credits.
Notes: in order to advance into Visual Communication Design 3, students must earn ≥3.0 grade in this class.
Prerequisites: DESN 243 and DESN 263 with a grade ≥3.0.
This course focuses on the interaction of type and image in the visual communication design process. An introduction to form and composition will be achieved through a sequence of design projects that emphasize compositional structure. The goal of class projects is the development of complex, cohesive visual systems using traditional production skills, design processes and specialized computer applications.

DESN 366. PRODUCTION DESIGN. 4 Credits.
Prerequisites: DESN 263.
This course provides students with theory, knowledge and skill of production design for both print and web application. Students gain conceptual understanding and practical skill in areas including color management, print production and web graphics such as banners and videos.

DESN 368. WEB DESIGN 1. 4 Credits.
This course covers professional web design addressing modern technologies, processes and techniques. Students work with current web technologies, while preparing for future web enabled devices, or the progressive enhancement approach. Technologies will include HTML(5) and CSS(2/3).

DESN 374. BRAND THINK AND SERVICE DESIGN. 4 Credits.
Prerequisites: DESN 363.
This course explores the research and strategies of service design and brand development. Through case study research, students come to understand what constitutes a successful brand solution and how shared community experiences are created.

DESN 375. DIGITAL VIDEO. 4 Credits.
Prerequisites: DESN 216.
This course offers an introduction to digital video techniques. Students will be introduced to production, editing, theory and practical application for the creation of effective visual communication solutions. Emphasis will be on the creative application of concept and design for the moving image and understanding how to integrate textual, graphical and audio elements for the successful communication of messages created for CD, DVD and the Web.

DESN 378. WEB DESIGN 2. 4 Credits.
Prerequisites: DESN 368.
This course covers modern user experience (UX) design, rapid prototyping, and modern user interface (UI) patterns. Web programming continues to build upon HTML(5), CSS(2/3), and with the addition of JavaScript frameworks to complement the progressive enhancement process. This course continues the foundations set by DESN 368.

DESN 385. ADVANCED DIGITAL SOUND. 4 Credits.
Prerequisites: DESN 275.
This course provides in-depth experience in digital sound creation and editing techniques, along with related hardware and software. Topics include live and studio recording techniques, multi-track project recording, mixing and mastering, and the design and creation of sound tracks, including music, to support and enhance typical media productions. Collaborative and individual projects will be required.

DESN 396. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental
DES 463. VISUAL COMMUNICATION DESIGN 3. 5 Credits.
Pre-requisites: DESN 243 and DESN 263 with a grade of 3.0.
This course continues the study of visual communication design, combining theoretical studies with applied projects. It emphasizes awareness of contemporary visual culture through analysis of a wide range of design examples and continued refinement of perceptual, problem-solving and creative skills. Students employ effective design processes and solutions for issues and topics relevant to contemporary visual communication design practice.

DES 468. WEB DESIGN 3. 4 Credits.
Pre-requisites: DESN 378.
Web Lab is a project- and team-based course focusing on the design and development of experimental websites and web applications. Students are introduced to responsive web design processes, techniques and technologies. Design addresses the challenges of mobile interactions and evolving mobile devices.

DES 471. SENIOR EXHIBITION. 1 Credit.
Cross listed: ART 471.
Notes: must be repeated three times for credit.
Pre-requisites: senior standing and declared BFA in VCD major.
This course entails the individual preparation and presentation of work for senior exhibition.

DES 474. ADVERTISING CONCEPTS. 4 Credits.
Pre-requisites: DESN 363 and DESN 368. This course covers principles of advertising design, specifically developing advertising concepts. Open to students in visual communication design, journalism and marketing programs.

DES 480. PROFESSIONAL PRACTICE. 4 Credits.
Pre-requisites: senior standing.
Professional Practice is the study of the visual design industry from both the agency and freelance perspective.

DES 490. SENIOR CAPSTONE. 4 Credits.
Pre-requisites: senior standing; DESN 243, DESN 363, DESN 368.
Satisfies: senior capstone university graduation requirement.
This course expands on previous visual communication design knowledge and skills and also emphasizes communication, collaboration and presentation skills. In teams, students work on a comprehensive design project for a community partner which emphasizes design research and the design processes that lead to creative conceptualization and final design solutions. Students are expected to demonstrate sophisticated design decisions and appropriate design solutions that show a high level of expertise and achievement.

DES 491. SENIOR PROJECT. 1-10 Credits.
Notes: graded Pass/Fail.
Pre-requisites: senior standing; permission of the instructor.
Independent and/or group study and production of a design project.

DES 493. PORTFOLIO. 2 Credits.
Notes: may be repeated for credit up to three times.
Pre-requisites: DESN 463.
In this course, students have the opportunity to develop portfolio quality work. Emphasis is placed upon content and concept development, problem solving, formal solutions, statements of objectives and presentation.

DES 495. INTERNSHIP. 2-6 Credits.
Notes: graded Pass/Fail.
Pre-requisites: junior standing; permission of instructor, department chair and college dean. An internship is on-the-job-training. It exposes students to the professional environment through outside job opportunities in graphic design studios, advertising agencies, corporate communications departments and other acceptable organizations. Students work under the guidance of art directors, creative directors, senior graphic designers or marketing communication managers and perform creative work that is educational and meaningful for their short-term academic goals as well as their long-range career preparation.

DES 496. EXPERIMENTAL COURSE. 1-6 Credits.
DES 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-6 Credits.
DES 498. SEMINAR. 1-6 Credits.
DES 499. DIRECTED STUDY. 1-6 Credits.
Pre-requisites: permission of instructor, department chair and college dean.

**Disability Studies (DSST)**

DSST 310. DISABILITY, CULTURE AND SOCIETY. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
This course introduces students to disability as diversity and to the culture of people with disabilities. Historical and contemporary beliefs about disability will be addressed. Universal access will be introduced as an emerging context for disability rights and human rights.

DSST 410. DISABILITY AS DIVERSITY. 5 Credits.
Disability is just one of many manifestations of human diversity. This course has been developed to help explore disability throughout the lifespan and in the social and societal contexts that frame disability experience. Students from multiple fields will develop understanding of disability accommodation and how universal access benefits all of society, including those from majority and minority backgrounds.

DSST 419. LAW AND DISABILITY. 5 Credits.
Cross listed: SOWK 419.
Pre-requisites: ENGL 201 or equivalent.
This cross curriculum course examines general law and disability law related issues. Students explore the basic working structure of the legal system, specifically: legislation, the court system, case law, administrative law, and legal procedure. Areas of study include disability, ADA accessibility, child welfare, education, social work legal issues and access to governmental and private services.

DSST 490. SENIOR CAPSTONE PROJECT IN UNIVERSAL ACCESS. 5 Credits.
Pre-requisites: DSST 410 or permission of the instructor.
Satisfies: senior capstone university graduation requirement.
This course provides students the opportunity to develop a community-based, service-learning project with colleagues from multiple academic disciplines. Under the direction of the instructor, students participate in a project that addresses universal access in the context of a diverse society. At the discretion of the student’s academic major advisor, it can also serve as a Senior Capstone experience. Weekly lectures will integrate conceptual and practical learning relative to universal access for diverse populations including those with disabilities.
ECON 201. INTRODUCTION TO MACROECONOMICS. 5 Credits.  
Pre-requisites: MTHD 104 completed.  
Satisfies: the GECR for social sciences, list 1, economics and government.  
Reviews national income accounts and the determinants of national income and employment for an economy. Explores the impact of monetary and fiscal policy on aggregate performance and considers specific problems such as full employment, inflation, economic growth and international economic relations.

ECON 295. INTERNSHIP. 1-15 Credits.  
ECON 299. DIR ST IN ECONOMICS. 1-5 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
Individual reading and research. Restricted to sophomores who have completed ECON 201 and freshmen and sophomore participants in Model United Nations.

ECON 300. INTERMEDIATE MICROECONOMIC THEORY. 5 Credits.  
Pre-requisites: ECON 200 and ECON 201 or instructor permission.  
Theoretical basis of exchange, production, private markets and their forms, income distribution, the public sector, resource allocation, welfare economics and application of economic theory to public and private decision making.

ECON 301. INTERMEDIATE MACROECONOMIC THEORY. 5 Credits.  
Pre-requisites: ECON 200 and ECON 201 or instructor permission.  
With references to recent experiences, a theoretical framework is developed to explain the determination of output, employment, price level, interest rate and economic growth of an aggregate economy. Using case studies, policy implications and alternatives are explored.

ECON 337. ECONOMETRICS. 5 Credits.  
Pre-requisites: ECON 200, ECON 201 and DSCI 245 or MATH 380 or MATH 385 or instructor permission.  
Using appropriate statistical software packages for data analysis, examines applications of linear regression and hypothesis testing to provide information for economic and business decision-making.

ECON 396. EXPERIMENTAL COURSE. 1-5 Credits.

ECON 398. SEMINAR. 1-5 Credits.

ECON 399. SPECIAL STUDIES. 1-5 Credits.  
Pre-requisites: ECON 200 and ECON 201 or permission of the instructor, department chair and college dean.  
Subjects studied vary according to faculty and student interest.

ECON 404. INTERMEDIATE MICROECONOMIC THEORY. 5 Credits.  
Pre-requisites: ECON 200 and 201 or instructor permission.  
Theoretical basis of exchange, production, private markets and their forms, income distribution, the public sector, resource allocation, welfare economics and application of economic theory to public and private decision making.

ECON 405. INTERMEDIATE MACROECONOMIC THEORY. 5 Credits.  
Pre-requisites: ECON 200 and 201 or instructor permission.  
With references to recent experiences, a theoretical framework is developed to explain the determination of output, employment, price level, interest rate and economic growth of an aggregate economy. Using case studies, policy implications and alternatives are explored.
ECON 412. ECONOMIC HISTORY OF THE UNITED STATES. 5 Credits.
Cross listed: HIST 487.
Pre-requisites: junior standing.
Economic development of the United States from the early colonial period to the present: explorations, westward movement, labor, rise of great industries, world trade and post-war economic problems.

ECON 415. HISTORY OF ECONOMIC THOUGHT. 5 Credits.
Pre-requisites: junior standing.
Economic thought to the early 20th century; special attention to selected writers including Aristotle, the Mercantilists, the Physiocrats, Hume, Smith, Malthus, Ricardo, Marx, the Marginalists and Marshall.

ECON 417. POLITICAL ECONOMY. 5 Credits.
Pre-requisites: junior standing.
How public decisions can be made more rational, more productive of welfare, or more in the general interest. Selected literature from economics, political science, and related disciplines provides an analytical framework for the discussion of a number of social problems.

ECON 421. LABOR ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
Supply and demand for the labor and important institutions in the labor market, especially the upgrading of labor via education and vocational training, the mobility of labor, the influence of trade unions on wages, the effects of race and sex discrimination on wages, and labor's inflation unemployment problems.

ECON 424. ECONOMICS OF POVERTY AND DISCRIMINATION. 5 Credits.
Cross listed: AAST 424, WMST 426.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Causes of poverty and evaluation of anti-poverty programs. Examines economic theories of discrimination from different perspectives with a particular focus on issues of gender and race.

ECON 427. ECONOMICS OF WOMEN AND WORK. 5 Credits.
Cross listed: WMST 427.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Economic impact of the increasing participation of women in the paid labor force of the United States. Economic theories of labor force participation, discrimination and occupational segregation. Current issues such as comparable worth, affirmative action, nontraditional careers, corporate policies, sexual harassment, child care and social welfare programs.

ECON 429. WOMEN AND MEN IN THE U.S. ECONOMY. 1 Credit.
Cross listed: WMST 402.
In the course we examine the economic activity and labor force participation of women and men in the United States. Employment issues, such as labor market discrimination, affirmative action and comparable worth will be discussed. Other topics include income distribution, poverty, welfare programs and the tax system.

ECON 430. MATHEMATICAL ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 and MATH 161.
Mathematical methods and techniques applied to economic problems.

ECON 433. INDUSTRIAL ORGANIZATION. 5 Credits.
Pre-requisites: ECON 200.
Industrial organization is the study of industry and firm behavior. This course will use the basic tools of microeconomic theory and game theory to explore the relationships among firms in an industry or across industries and examine the nature of strategic interaction among firms.

ECON 437. ECONOMETRICS. 5 Credits.
Pre-requisites: ECON 200 and 201 and DSCI 245 or MATH 380 or MATH 385 or instructor permission.
Using appropriate statistical software packages for data analysis, examines applications of linear regression and hypothesis testing to provide information for economic and business decision-making.

ECON 438. ECONOMETRICS II. 5 Credits.
Pre-requisites: ECON 337 or instructor permission.
This course extends the modeling, estimation, inference and forecasting tools to include moment-based estimation, simultaneous equations models, non-stationary data and cointegration, VAR and ARCH models.

ECON 444. MONEY AND BANKING. 5 Credits.
Pre-requisites: ECON 200 and ECON 201 or instructor permission.
Reviews contemporary US banking practices and regulations; surveys theories of interest rates and bank behavior; surveys monetary policies and determinants and effects of Federal Reserve policies.

ECON 445. INSURANCE AND RISK. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
This course examines the principles of insurance and ways of managing risk. It includes discussion of the development and forms of private and social insurance programs.

ECON 450. PUBLIC FINANCE AND PUBLIC POLICY. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
Examines the causes and consequences of government in the US economy and impact of government expenditure and revenue-raising activities.

ECON 452. HEALTH ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
Examines economic aspects of health care, including factors influencing the demand and supply of health services and the roles of insurance and government in healthcare markets. (Cross-listed HSAD 415)

ECON 454. SPORTS ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
This course uses microeconomic principles to examine the behavior of individuals, teams, leagues, unions and government in the production and consumption of sports entertainment. Topics covered include: competitive balance, salary caps, stadium financing and collective bargaining.

ECON 457. NATURAL RESOURCE ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
Uses microeconomic reasoning and models to examine the allocation and management of non-renewable and renewable resources such as land, water, fossil fuels and mineral resources, fisheries and forests.

ECON 458. URBAN AND REGIONAL ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 or instructor permission.
Economic analysis of urban and regional economies with an emphasis on the Pacific Northwest. Topics covered: spatial economic theory, regional economic growth and stability, land use, urban problems and policies, transportation issues, local government public finance and methods of regional analysis.

ECON 470. INTERNATIONAL ECONOMICS. 5 Credits.
Pre-requisites: ECON 200 and ECON 201 or instructor permission.
Satisfies: international studies university graduation requirement.
Interaction of national economics and the problems arising there from, particularly trade and payments problems and the development of regional and international economic institutions.
ECON 474. INTERNATIONAL FINANCE. 5 Credits.
Pre-requisites: ECON 200 and ECON 201, FINC 335 or instructor permission.
The material in this course develops a general framework to analyze international financial markets, exchange rates, exchange rate derivatives and open macroeconomic economies.

ECON 475. ECONOMIC DEVELOPMENT. 5 Credits.
Pre-requisites: ECON 200 and ECON 201 or instructor permission.
Satisfies: international studies university graduation requirement.
Development prospects of present-day underdeveloped countries.
Historical development of industrial countries by analogy. Attention given to both economic and non-economic factors in the development process and to population problems and human resource development.

ECON 490. ECONOMICS SENIOR CAPSTONE. 5 Credits.
Pre-requisites: ECON 337 and senior standing.
Satisfies: senior capstone university graduation requirement.
This course includes four components: (1) review of modern theories of employment, job search and wage determination (2) portfolio preparation (3) program assessment and (4) a final economics project.

ECON 495. INTERNSHIP. 3-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ECON 496. EXPERIMENTAL COURSE. 1-5 Credits.

ECON 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ECON 498. SEMINAR. 3-5 Credits.

ECON 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean. ECON 200 and ECON 201 and at least 5 credits of prior 400 level ECON courses.
Independent study projects in selected fields of economics. Limited to senior and graduate students.

ECON 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ECON 598. GRADUATE SEMINAR. 1-4 Credits.
Pre-requisites: permission of the instructor.
Variable topics according to student interests.

ECON 599. INDEPENDENT STUDY. 1-4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

ECON 600. THESIS. 2-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent research under the direction of a graduate advisory committee.

ECON 601. RESEARCH REPORT. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent research resulting in a scholarly paper under the direction of the student's graduate committee.

ECON 696. COLLEGE TEACHING INTERNSHIP. 1-4 Credits.
Teaching a lower-division college course under supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction, and student course evaluation.

---

Education (EDUC)

EDUC 146. COLLEGE READING AND STUDY TECHNIQUES. 5 Credits.
Individual evaluation, prescription, and practice for improvement of study reading, note-taking, spelling, and study techniques.

EDUC 150. READING/STUDY SKILLS. 1-2 Credits.
Notes: students may earn a maximum of two credits a quarter and may earn a total of five credits during their tenures at the university.
This class is to assist students with reading and study skills. Techniques introduced and practiced within content areas of courses in which the students are enrolled include: time management, textbook reading, taking lecture notes, reduce-SQ3R, retain-SQ3R, test taking skills. Reading enhancement will involve techniques for improving rate, comprehension, vocabulary and critical reading. Other skills addressed may include spelling and tutoring for specific subjects. [Special

EDUC 160. DIRECT INSTRUCTION TUTORING. 1-6 Credits.
Pre-requisites: permission of the instructor.
Classroom tutoring using Direct Instruction teaching techniques and curriculum.

EDUC 195. INTERNSHIP. 1-6 Credits.

EDUC 196. ADVANCED STUDY SKILLS. 1-2 Credits.

EDUC 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

EDUC 200. ADMISSION TO TEACHER EDUCATION. 1 Credit.
Notes: Acceptance into the Teacher Education Program required. Department authorization and application required. See an advisor for scheduling co-requisites. Graded Pass/Fail.
Pre-requisites: A grade ≥2.8 in each of these courses ENGL 201; MATH 211 or MATH 107; CMST 200 or proof of equivalence; passing the Washington Education Skill Test-Basic (WEST-B) or satisfactory minimum SAT or ACT scores; a minimum cumulative GPA ≥2.8.
This course is a required prerequisite to most education courses and admission to the teacher preparation program. The course includes orientation to the EWU Teacher Education Program; completion of Washington State Patrol/FBI Clearance, moral character and personal fitness supplement; introduction to Washington Administrative Code (WAC) knowledge and skills, Washington State Learning Goals (WASL) and Essential Academic Learning Requirements (EALRs); Office of the Superintendent of Public Instruction (OSPI); the Department of Education reflective teaching model and Evidentiary Portfolio; required P–12 public school field experiences; school-based communication skills and legal and professional certification requirements. This course has co-requisites depending on your program.

EDUC 201. INTRODUCTION TO EDUCATION. 3 Credits.
EDUC 201 is an overview of the role of the schools in a democratic society, an introduction of reflective thinking concept for professional educators, an analysis of various philosophical views of teaching and learning, and an introduction to the restructuring of the K-12 educational system in the state of Washington.

EDUC 260. DIRECT INSTRUCTION MENTORING. 1-6 Credits.
Pre-requisites: EDUC 160 or permission of the instructor.
Classroom mentoring experiences using Direct Instruction teaching techniques and curriculum.
EDUC 296. EXPERIMENTAL COURSE. 1-5 Credits.

EDUC 299. SPECIAL STUDIES. 1-18 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Subjects studied vary according to faculty and student interests.

EDUC 300. INTRODUCTION TO CLASSROOM EXPERIENCE. 1-4 Credits.
Notes: graded Pass/Fail
This course is open to students admitted to the Education Program only. Observation and participation in public school classroom management and instruction. Your schedule must be arranged so time can be spent in a public school classroom during the day. After registering for EDUC 300, sign up for placements in the Department of Education, Williamson Hall, third floor.

EDUC 303. FOUNDATIONS OF ASSESSMENT. 3 Credits.
Pre-requisites: ENGL 201; MATH 211 or MATH 107; CMST 200 or proof of equivalence; passing the Washington Education Skill Test-Basic (WEST-B); ≥2.8 GPA. Co-requisites: EDUC 200 and either EDUC 308 or EDUC 309. This class focuses on developing objectives, lesson planning, assessment of student learning, measurement and assessment of the total school program including National and State Learning Goals/Standards and Washington State Essential Academic Learning Requirements.

EDUC 304. INTRODUCTION TO ELEMENTARY READING. 3 Credits.
Pre-requisites: successful completion of EDUC 200, EDUC 303 and EDUC 308 or may be taken concurrently. This course investigates reading processes, emergent literacy, word identification, vocabulary and comprehension in elementary reading programs.

EDUC 305. CHILDREN'S LITERATURE STUDY AND USE. 4 Credits.
Pre-requisites: ENGL 200, EDUC 303, EDUC 308 or EDUC 309 or may be taken concurrently. This course includes selected readings and discussions of a variety of children's books. It allows students to become acquainted with quality children's literature and suggests media center and K–8 classroom uses.

EDUC 306. INTRODUCTION TO EARLY CHILDHOOD EDUCATION. 1 Credit.
Students have an opportunity to learn about the content and process of early childhood education. Included in the course is an introduction to the ECE major and professional sequence of courses, development of a professional sequence of courses, development of a professional growth plan and assessment of knowledge and pedagogy through e-portfolios and/or written portfolios.

EDUC 308. FOUNDATIONS OF ELEMENTARY CLASSROOM MANAGEMENT. 3 Credits.
Notes: Application required. Department authorization required.
Pre-requisites: ENGL 201; MATH 211, CMST 200 or proof of equivalence; passing the Washington Education Skill Test-Basic (WEST-B); ≥2.8 GPA. Co-requisites: EDUC 200 and EDUC 303.
This course addresses organizational patterns, management skills, discipline practices, individual actions and classroom environmental conditions needed to provide an optimum learning environment at the elementary level.

EDUC 309. FOUNDATIONS OF SECONDARY CLASSROOM MANAGEMENT. 3 Credits.
Pre-requisites: ENGL 201; MATH 107 or MATH 211, CMST 200 or proof of equivalence; passing the Washington Education Skill Test-Basic (WEST-B); ≥2.8 GPA in the last 45 credits completed. Co-requisites: EDUC 200 and EDUC 303.
This course addresses organizational patterns, management skills, discipline practices, individual actions and classroom environmental conditions needed to provide an optimum learning environment at the secondary level.

EDUC 310. LITERACY METHODS, MANAGEMENT AND ASSESSMENT IN THE ELEMENTARY SCHOOL. 4 Credits.
Pre-requisites: EDUC 304.
Washington State Patrol Clearance/FBI fingerprinting clearance. This course extends the understanding of the reading process approach to teaching reading across the elementary school curriculum (K-8). Lesson plan development includes assessment of student learning and classroom management. Placement in P-12 school with minimum 3 hour per week field experience required.

EDUC 320. ASSESSING AND DIFFERENTIATING LITERACY INSTRUCTION. 4 Credits.
Pre-requisites: EDUC 304; may be taken concurrently with EDUC 310. This course offers a comprehensive look at formative and summative assessments for reading, writing and oral language development for P-12 students including those at risk. Candidates learn to use assessment data, make instructional decisions and prepare professional reports.

EDUC 323. A GLOBAL VIEW THROUGH CHILDREN'S LITERATURE. 5 Credits.
Cross listed: ENGL 323.
Satisfies: international studies university graduation requirement. By reading and discussing a variety of children's literature titles across several interrelated thematic units, students will examine cultural constructs, gain familiarity with international cultures, work toward empathy for other peoples and practice a critical reading stance about stories from around the world. Coursework will include papers, journals, large and small group discussions and presentations.

EDUC 325. INEQUALITIES AND IMPACTS ON EDUCATIONAL EQUITY. 4 Credits.
Pre-requisites: junior standing or permission of instructor.
Satisfies: cultural and gender diversity university graduation requirement. An exploration of concepts, principles and theories of educational equity and their function within a society. This course includes issues of ethnicity and race, socioeconomic status and gender inequalities within the U.S. and the impact of those inequalities on educational equity.

EDUC 338. LANGUAGE ARTS METHODS, MANAGEMENT AND ASSESSMENT IN THE ELEMENTARY SCHOOL. 4 Credits.
Pre-requisites: EDUC 310 or EDUC 456, EDUC 479 and EDUC 493; concurrent enrollment in EDUC 339 or EDUC 340 and EDUC 342. Washington State Patrol Clearance/FBI fingerprinting clearance required. Placement in P-12 school with minimum 9 hour per week field experience required. This course examines the environment needed to teach the skills of listening, speaking and writing in the elementary program; including lesson plan development, assessment of student learning and classroom management.
EDUC 339. SOCIAL STUDIES AND SCIENCE METHODS, MANAGEMENT AND ASSESSMENT IN THE ELEMENTARY SCHOOL. 5 Credits.
Pre-requisites: EDUC 310 or EDUC 456, EDUC 479 and EDUC 493; concurrent enrollment in EDUC 338. Washington State Patrol Clearance/FBI fingerprinting clearance required. Placement in P-12 school with minimum 9 hour per week field experience required. This course includes formulation of goals for social studies and science, selection of content to be taught at each grade level, development of daily lesson plans and unit plans utilizing recommended teaching strategies, assessment of student learning and classroom management and participation in teaching lessons in an elementary classroom.

EDUC 340. SOCIAL STUDIES METHODS, MANAGEMENT AND ASSESSMENT IN THE ELEMENTARY SCHOOL. 4 Credits.
Notes: Washington State Patrol clearance/FBI fingerprinting clearance required. Placement in P-8 school with minimum nine hour per week field experience required.
Pre-requisites: EDUC 310; concurrent enrollment in EDUC 338 and EDUC 342.
This course includes formulation of goals for social studies, selection of content to be taught at each grade level, development of daily lesson plans and unit plans utilizing recommended teaching strategies, assessment of student learning and classroom management and participation in teaching lessons in an elementary classroom.

EDUC 341. SECONDARY STRATEGIES, MANAGEMENT, ASSESSMENT. 4 Credits.
This course deals with teaching and learning procedures appropriate for courses in the junior and senior high school. It demonstrates a variety of teaching strategies. Candidates develop skills in basic instructional techniques including lesson plan development, assessment of student learning and classroom management. The course is designed to supplement methods course work taken in major departments. Placement in P-12 school with minimum 9 hour per week field experience required.

EDUC 342. SCIENCE METHODS, MANAGEMENT AND ASSESSMENT IN THE ELEMENTARY SCHOOL. 4 Credits.
Notes: Washington State Patrol Clearance/FBI fingerprinting clearance required. Placement in P-8 school with minimum nine hour per week field experience required.
Pre-requisites: EDUC 310; concurrent enrollment in EDUC 338 and EDUC 340.
This course includes formulation of goals for science, selection of content to be taught at each grade level, development of daily lesson plans and unit plans utilizing recommended teaching strategies, assessment of student learning and classroom management and participation in teaching lessons in an elementary classroom.

EDUC 396. EXPERIMENTAL COURSE. 1-5 Credits.

EDUC 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

EDUC 398. SEMINAR. 1-5 Credits.

EDUC 399. DIRECTED STUDY. 1-18 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

EDUC 401. YOUNG ADULT LITERATURE STUDY AND USE. 4 Credits.
Pre-requisites: EDUC 305 or permission of the instructor.
This course is designed to provide teachers with the skills and information to develop and implement a classroom literacy program for middle and secondary students. It emphasizes instructional strategies to accommodate student diversity using a selection of literature genres as the curriculum foundation.

EDUC 409. TEACHING THE GIFTED AND TALENTED. 3 Credits.
Analyzes the characteristics of educational programs for the gifted and talented. Helps you develop teaching strategies and curriculum materials designed to provide appropriate educational programs for the gifted and talented.

EDUC 411. LITERACY FOR LINGUISTICALLY AND CULTURALLY DIVERSE LEARNERS. 4 Credits.
Pre-requisites: EDUC 310 or may be taken concurrently.
This course allows teacher candidates to analyze cultural and language differences that may influence how P-12 students acquire literacy. It focuses on teaching students for whom English is not the heritage or first language.

EDUC 412. CONTENT AREA LITERACY: MANAGEMENT AND ASSESSMENT FOR LITERACY MAJORS AND MINORS. 4 Credits.
Pre-requisites: EDUC 304.
This course presents a variety of strategies for improving P-12 students’ comprehension of content area materials and techniques for analyzing written materials. Assessment of student learning and classroom management is covered.

EDUC 413. CONTENT AREA LITERACY: MANAGEMENT AND ASSESSMENT FOR SECONDARY EDUCATION CANDIDATES. 4 Credits.
Pre-requisites: EDUC 200, EDUC 303 and EDUC 309.
Washington State Patrol/FBI fingerprinting clearance. This course presents a variety of strategies for improving 5–12 students’ comprehension of content area materials and techniques for analyzing written materials. Lesson plan development includes assessment of student learning and classroom management. Placement in 5–12 school with minimum three hour per week field experience required.

EDUC 416. WRITING PROCESS ACROSS THE CURRICULUM. 4 Credits.
Pre-requisites: EDUC 412, EDUC 413, may be taken concurrently.
This course provides candidates with a theoretical and strategic approach to writing pedagogy. Teacher candidates are prepared to teach writing across the curriculum.

EDUC 417. CULTURE OF MIDDLE SCHOOL. 3 Credits.
Pre-requisites: EDUC 200; EDUC 303; EDUC 308 or EDUC 309.
This course will promote awareness and understanding of middle level-aged students, of the philosophy and organization of middle level schools and programs and of developmentally appropriate instructional and classroom management strategies for teaching middle level learners.
EDUC 420. ADMISSION TO PROFESSIONAL CANDIDACY. 1 Credit.
Notes: graded Pass/Fail.
Pre-requisites: P-3: EDUC 457; concurrent with EDUC 439 and EDUC 495, Elementary: EDUC 338 and EDUC 339. Secondary: EDUC 341. Washington State Patrol/FBI clearance required. Placement in P–12 school with minimum 3 hour per week field experience required. The successful completion of EDUC 420 leads to student teaching candidacy. The candidate is asked to demonstrate characteristics of desirable teacher-pupil relations. In partial fulfillment of the course requirements, a Teacher Education Evidentiary Portfolio will be presented by each candidate documenting Department of Education performance-based outcomes, Washington State Learning Goals and, evidence of successful performance in the field. Teacher candidates must have completed at least three-fourths of the course work for their major(s) and minor(s) before taking this course. All methods courses within the candidate’s major must also be completed prior to taking EDUC 420. All candidates must have a minimum overall GPA ≥2.8 and all course grades in the candidate’s Professional Education program must be ≥2.8. Majors and minors courses require a minimum grade ≥2.0.

EDUC 423. ELEMENTARY STUDENT TEACHING K-8. 15 Credits.
Notes: graded Pass/Fail.
Pre-requisites: EDUC 420.
Departmental clearance required prior to registration. Students must have completed at least three-fourths of the coursework for their major(s) and minor(s) before taking this course. All students must have a minimum overall GPA ≥2.8 in each of the following: major(s), minor(s) and Professional Education Program. All course grades in the student’s major(s), minor(s) and the Professional Education Program must be at least 2.8. Washington State Patrol and FBI clearance must be current. For a complete description of activities and procedures associated with student teaching, please refer to the department's Student Teaching Handbook.

EDUC 426. SECONDARY STUDENT TEACHING 7-12. 15 Credits.
Notes: graded Pass/Fail.
Pre-requisites: EDUC 420.
Departmental clearance required prior to registration. Students must have completed at least three-fourths of the coursework for their major(s) and minor(s) before taking this course. All students must have a minimum overall GPA ≥2.8 in each of the following: major(s), minor(s) and Professional Education Program. All course grades in the student’s major(s), minor(s) and the Professional Education Program must be ≥2.8. Washington State Patrol and FBI clearance must be current. For a complete description of activities and procedures associated with student teaching, please refer to the department's Student Teaching Handbook.

EDUC 427. GENERAL STUDENT TEACHING K-12. 1-15 Credits.
Notes: graded Pass/Fail.
Pre-requisites: EDUC 420.
Departmental clearance required prior to registration. Students must have completed at least three-fourths of the coursework for their major(s) and minor(s) before taking this course. All students must have a minimum overall GPA ≥2.8 in each of the following: major(s), minor(s) and Professional Education Program. All course grades in the student’s major(s), minor(s) and the Professional Education Program must be ≥2.8. Washington State Patrol and FBI clearance must be current. For a complete description of activities and procedures associated with student teaching, please refer to the department's Student Teaching Handbook.

EDUC 439. SEMINAR: TOPICS IN EDUCATION. 4 Credits.
Notes: repeatable for credit with different titles. Content and titles will vary as education special topics are identified by faculty and students to study relevant and in-depth education concepts, knowledge and skills.
EDUC 440. SEMINAR IN ENVIRONMENTAL EDUCATION AND SUSTAINABILITY. 2 Credits.
This seminar provides depth in selected topics in sustainability and environmental education.

EDUC 452. TOPICS IN CONTINUING EDUCATION. 1-5 Credits.
Notes: graded Pass/Fail.

EDUC 455. PERSPECTIVES OF EARLY CHILDHOOD EDUCATION. 3 Credits.
Pre-requisites: EDUC 306.
Students are introduced to the foundations and current perspectives of early childhood education. Opportunities are provided to learn about issues, trends, appropriate programs, and expectations for working with young children and their families.

EDUC 456. INTEGRATED EARLY CHILDHOOD PRACTICES. 5 Credits.
Pre-requisites: EDUC 455.
The design, implementation, and assessment of appropriate early childhood practices (birth to 8 years) are addressed in this course. The early childhood preservice teacher is guided in a collaborative, reflective, and field-based process that views a learner-centered environment for young children as an organic process of constructivism.

EDUC 457. COLLABORATIVE REFLECTIVE TEACHING IN EARLY CHILDHOOD EDUCATION. 3 Credits.
Pre-requisites: EDUC 200, EDUC 455, EDUC 456.
Early Childhood students are encouraged to focus on their developing practices for working with young children by using a reflective practices model that emphasizes collaboration, constructivism, and caring.

EDUC 458. LEARNING PARADIGM IN EARLY CHILDHOOD EDUCATION. 5 Credits.
Pre-requisites: EDUC 306.
Students will learn about early childhood teacher education through an integrated, holistic and collaborative inquiry approach focusing on appropriate practices for young children.

EDUC 462. INSTRUCTIONAL MEDIA AND TECHNOLOGY. 3 Credits.
Pre-requisites: junior standing, Washington State Patrol/FBI fingerprinting clearance.
This course investigates how to promote student learning by integrating technology with content and instructional methods. Students explore the use of Internet-associated learning tools, multimedia authoring tools, assessment tools and data-analysis tools. The ethical underpinnings associated with instructional media are discussed throughout the course as is student-associated research in the area of instructional media and technology.

EDUC 465. PRODUCTION OF INSTRUCTIONAL MATERIALS. 5 Credits.
Notes: course fee.
This course will use the latest computer technology for teachers in all areas, librarians and media specialists. Producing presentations, creating graphs and charting, producing classroom newsletter publications, scanning documents and pictures, importing clip art, making color transparencies, video production and, evaluation of web page design are covered in this class.
EDUC 478. SCIENCE IN THE ELEMENTARY SCHOOL. 4 Credits.  
Develops instructional competencies in elementary school science through extensive laboratory experiences.

EDUC 479. EARLY LITERACY. 3 Credits.  
Pre-requisites: EDUC 455.  
Students are expected to learn that emergent literacy begins with a child's birth and encompasses those experiences that introduce, involve, and motivate the learning of early language and literacy constructs.

EDUC 480. EDUCATING YOUNG CHILDREN WITH DIVERSE BACKGROUNDS. 3 Credits.  
Pre-requisites: EDUC 455.  
The early childhood education student will learn to integrate the learning of children with diverse backgrounds into developmentally and culturally appropriate programs.

EDUC 485. INDIGENOUS EDUCATION. 5 Credits.  
Cross listed: IDST 485.  
Pre-requisites: junior standing.  
Satisfies: international studies university graduation requirement.  
This course introduces students to the topic of indigenous education from a global perspective. Through readings, discussions, lectures and videos, students will examine the role education has played as an instrument of oppression, and how indigenous nations have restructured educational systems to reclaim their cultural identities and to empower themselves politically.

EDUC 487. EARLY LEARNING CONCEPTS. 4 Credits.  
Pre-requisites: EDUC 306.  
This course introduces students to early childhood subject area concepts and standards for the learning of young children from birth to age eight. Also introduced are teaching and learning approaches and projects that are child relevant and meaningful.

EDUC 490. LITERACY MAJOR CAPSTONE. 5 Credits.  
Pre-requisites: MTED 390, EDUC 304, EDUC 305, EDUC 310, EDUC 401, EDUC 411, EDUC 412, EDUC 416; EDUC 420; EDUC 494 must be taken concurrently.  
Satisfies: senior capstone university graduation requirement.  
This course allows teacher candidates in the Reading Major to analyze their practicum classroom experiences and to develop a philosophy for reading instruction. Students examine and identify the connections among literacy instruction and politics, the economy, school, society, social justice and how these impact young learners. Teacher candidates develop and implement a two-week reading curriculum for their placement practicum and review the Washington Teacher Competencies for the Reading Endorsement. This course must be taken concurrently with EDUC 494 Practicum for Reading Majors.

EDUC 490A. NATURAL RESOURCES. 4 Credits.  
Pre-requisites: senior standing.  
Satisfies: senior capstone university graduation requirement.  
This course allows pre-service teachers to team with natural resource community providers to actively engage in the work they do. Students develop inquiry activities for elementary classrooms around natural resource themes.

EDUC 493. EARLY CHILDHOOD EDUCATION ASSESSMENT. 5 Credits.  
Pre-requisites: EDUC 306.  
This course explores performance-based, authentic and standardized assessments of young children ages birth to eight years in order to assess development and learning and to plan programs.

EDUC 494. LITERACY SEMINAR AND PRACTICUM. 6 Credits.  
Notes: graded Pass/Fail.  
Pre-requisites: MTED 390, EDUC 338 or EDUC 339; EDUC 420; EDUC 490 must be taken concurrently. In this practicum for literacy majors, candidates are supervised while teaching literacy in a K–12 classroom setting. This course must be taken before student teaching. Students must spend 12 hours per week, five days per week, during literacy instruction in a public school classroom. This course must be taken concurrently with EDUC 490.

EDUC 495. PRACTICUM. 5 Credits.  
Notes: graded Pass/Fail.  
Pre-requisites: permission of the instructor, department chair and college dean.

EDUC 495A. EDUCATION INTERNSHIP FOR EARLY CHILDHOOD EDUCATION. 4 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
This course is part of the three-quarter field based requirement for students in the P-3 Certificate Program. Students spend 8 hours in the field and take this course concurrently with EDUC 498 (1) Seminar.

EDUC 496. EXPERIMENTAL COURSES. 1-5 Credits.  

EDUC 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-18 Credits.  
Electives. Major in Reading (Elementary); must be a reading workshop.

EDUC 498. SEMINAR. 1-18 Credits.  

EDUC 499. DIRECTED STUDY. 1-18 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
An opportunity for students with adequate background and experience to make intensive and independent study of some special problems in education.

EDUC 500. FOUNDATIONS OF EDUCATION/MIT. 4 Credits.  
Introduction to the fundamentals of K-12 education, school systems and teaching. Role of schools in a democratic society is analyzed to help pre-service teachers become familiar with the reflective thinking necessary to be an effective classroom teacher, and become familiar with the historical and legal foundations of education as they apply to teaching.

EDUC 502. HISTORY OF AMERICAN EDUCATION. 4 Credits.  
The economic, social, cultural and philosophical development of America and the resulting impact on schools.

EDUC 503. CONTEMPORARY EDUCATION IN OTHER SOCIETIES. 4 Credits.  
Study of systems of education outside the United States.

EDUC 505. CURRENT ISSUES IN EDUCATION. 4 Credits.  
Issues such as federal aid, teachers' tenure, teachers' salaries, the political control of education, indoctrination versus education, religious and public education, school-district reorganization, the community-centered school and academic freedom.

EDUC 506. EDUCATIONAL SOCIOLOGY. 4 Credits.  
An analysis of American democratic ideology in relation to major social problems such as race, social stratification, leisure, population movements, family life, and the involvement of the public schools.
EDUC 507. PHILOSOPHY AND ORGANIZATION OF THE AMERICAN SCHOOL. 4 Credits.
Four philosophies in education will be studied. The implications of each for school organization and classroom instruction will be examined. Participants will be invited to analyze their beliefs and how these beliefs form into a coherent philosophy of education.

EDUC 508. UNDERSTANDING LITERACY INSTRUCTION K-8. 6 Credits.
Teacher candidates gain knowledge and understanding of reading processes, emergent through advanced literacy learning across the K-8 curriculum, lesson plan development based upon assessment, and how to manage classroom literacy instruction.

EDUC 510. CURRICULUM AND ASSESSMENT. 4 Credits.
In this course MIT students will gain understanding of best practice in curriculum development and assessment as well as enhanced competence in application of the practice.

EDUC 511. INTRODUCTION TO TEACHING WITH TECHNOLOGY PORTFOLIO. 1 Credit.
Notes: graded Pass/Fail.
This course focuses on planning and preparation of an initial draft of the Teaching with Technology Portfolio and should be taken early in the program. Learners will gain familiarity with the ISTE’s National Educational Technology Standards (NETs) as they relate to their given context. Learners will take part in a needs assessment which will inventory areas of growth as they relate to instructional technologies and their effective use. Learners will set goals and identify areas of growth and exploration for instructional technologies. Learners will also become familiar with the components of the portfolio and the ways in which it can be delivered and will be evaluated.

EDUC 512. FINALIZING THE TEACHING WITH TECHNOLOGY PORTFOLIO. 1 Credit.
Notes: graded Pass/Fail.
This course focuses on final planning, preparation and delivery of the Teaching with Technology Portfolio and should be taken as one of the final courses. Learners further describe and document how they have effectively integrated their knowledge of instructional technology within a given context and aligned to ISTE’s National Educational Technology Standards. Learners will review their initial instructional technologies needs assessment and reflect and share gains they have made. Learners will prepare and compile remaining artifacts and integrate them into the final portfolio. Once complete, the portfolio will be evaluated and presented in a public forum.

EDUC 517. THE CULTURE OF MIDDLE LEVEL SCHOOL. 3 Credits.
This course will promote awareness and understanding of middle school aged students, of the philosophy and organization of middle level schools and programs, and of developmentally appropriate instructional and classroom management strategies for teaching middle level learners.

EDUC 520. METHODS OF EDUCATIONAL RESEARCH. 4 Credits.
Required of all graduate students pursuing the master of education degree program unless an alternative research course is scheduled. It provides the background of research methods and techniques necessary for meeting the requirements of Education 600 or 601. The methods, tools, and strategies used in educational research, both quantitative and qualitative, will be explored. Continued level teacher certification research requirements may be met through this course.

EDUC 522. TRANSFORMATION OF LEARNING AND TEACHING. 4 Credits.
This course focuses on reforming and transforming the processes, perceptions and practices of learning and teaching by emphasizing diversity, social justice and equity. First, psychological principles underlying current educational culture will be analyzed. Second, reforming relationships, interactions and contexts for learning will be addressed through reflective practices, and third, rethinking and transforming connections, will be viewed through the lens of learners of diverse backgrounds.

EDUC 530. FOUNDATIONS OF EDUCATIONAL COMMUNICATION AND INFORMATION TECHNOLOGY. 4 Credits.
Survey of current issues, philosophical foundations, research, and history in the field of educational communication and information technology applicable to K-12 and adult learners.

EDUC 531. ELEMENTARY SCHOOL CURRICULUM. 4 Credits.
Curriculum practice and instructional materials most likely to improve instruction in the elementary school.

EDUC 532. SECONDARY SCHOOL CURRICULUM. 4 Credits.
Curriculum practice and instructional materials most likely to improve instruction in the secondary school.

EDUC 533. INSTRUCTIONAL SYSTEMS DEVELOPMENT. 4 Credits.
Advanced techniques and methods of developing and utilizing instructional systems. A multimedia correlated system will be designed, produced, organized, field tested and presented.

EDUC 534. GAMES, SIMULATION AND LEARNING. 4 Credits.
Effective learning environments strike a balance between anxiety and boredom. They are typically challenging hard- and enjoyable-fun or, "hard-fun." In this course you will explore how the instructional game method is an excellent vehicle for creating effective, "hard-fun" learning. You will investigate motivation as it relates to learning and the game method of instruction.

EDUC 538. MEDIA LITERACY FOR TEACHERS. 4 Credits.
Focuses on curricular and instructional development of resource-based skills. From examining model K-12 programs for skills in such areas as information, critical television viewing, media production, visual literacy, teachers will apply elements of instructional design and development to resource-based skills programs.

EDUC 539. SPECIAL TOPICS. 1-5 Credits.
Notes: may be graded Pass/No Credit.

EDUC 540. TEACHING AND LEARNING WITH MICROSOFT OFFICE. 4 Credits.
This course provides basic to intermediate skills for using Word, PowerPoint and Excel in classroom settings. You will learn how these technologies can be used to create instruction that meets the diverse needs of learners. Participants will have numerous opportunities to apply new skills and develop their own instructional products that support their curricular goals.

EDUC 542. LITERATURE STUDY IN THE ELEMENTARY AND MIDDLE SCHOOL. 4 Credits.
Advanced study of literature based teaching. Explores ways of building a literate classroom by connecting children and books with special ways on supporting students in becoming fluent readers.
EDUC 544. ADVANCED READING METHODS ACROSS THE CURRICULUM. 4 Credits.
A course designed to provide classroom teachers an opportunity to revisit current reading instruction methodology, examine new research including brain research impacting instruction, and explore meaningful ways in which reading instruction may be infused and integrated within content areas of the curriculum. Teacher assessment and student self-assessment as means to inform teaching and learning will be an additional focus of the course.

EDUC 551. SUPERVISION OF INSTRUCTION. 4 Credits.
The work of the teacher or supervisor in improving instruction.

EDUC 552. SUPERVISION OF STUDENT TEACHING. 4 Credits.
Preparation for positions as supervisors in laboratory schools and for public school teachers who supervise students in off-campus student teaching assignments.

EDUC 560. READING INQUIRY. 4 Credits.
This course centers on theoretical research into reading and literacy instruction. The course is based on the inquiry cycle, which will provide the organizational structure for class participation. Class sessions will include small group brainstorming and discussion, reading, explorations, browsing, workshop experiences, presentations, demonstrations and sharing.

EDUC 563. SCHOOL LAW (MIT). 2 Credits.
In this course MIT students will become familiar with applicable school law, preventive measures and knowledge of seeking legal advice.

EDUC 564. SCHOOL LAW. 4 Credits.
Court decisions and statutory law relating to the duties and powers of school officials and employees, compulsory school attendance, school census, child labor, control, and organization.

EDUC 565. LEADERSHIP FOR TODAY'S SCHOOLS. 4 Credits.
Focus on school leadership, developing with vision the knowledge and skills for strategically leading the planning, decision-making, communication, management, and change processes needed in 21st century schools and communities.

EDUC 566. LEADERSHIP IN SCHOOL-COMMUNITY RELATIONS. 4 Credits.
A problem-based exposure to the multi-dimensional role of school-community relations and communication in school districts. The course addresses the Public Relations domain of the NPBEA and WAC standards for the principalship.

EDUC 567. SCHOOL ADMINISTRATION. 4 Credits.
Students will examine the role of the principal, using the ISLLC Standards as a framework. They will prepare themselves for leadership through research, discussion activity and application. Relevant and practical topics will be used to create the curricular content of the course.

EDUC 570. ELEMENTARY SCHOOL SCIENCE PROGRAMS. 4 Credits.
Pre-requisites: teaching experience beyond student teaching, EDUC 478 or permission of the instructor.
The development of elementary school science programs and materials including the coordination of science instruction with other curricular areas.

EDUC 574. SOCIAL STUDIES IN THE ELEMENTARY SCHOOL. 3 Credits.
Place of social studies in the school program, the development of principles involved in the teaching of social studies.

EDUC 576. ADVANCED LITERACY METHODS. 4 Credits.
Advanced course with emphasis on models for reading and language arts integration. Cover total program: management, methods, materials and techniques.

EDUC 580. CURRICULUM DESIGN IN EARLY CHILDHOOD EDUCATION. 4 Credits.
Pre-requisites: EDUC 455 or permission of the instructor.
An in-depth study of the components of early childhood education curriculum, curriculum models and research regarding early childhood education programs.

EDUC 588. READINGS IN THE CURRICULUM. 1-4 Credits.
An advanced course for students wanting to study the current literature on school curriculum development and offerings. Students will develop an annotated bibliography from a specific area of school curriculum.

EDUC 590. CRITICAL AND SOCIAL LITERACIES. 4 Credits.
An advanced course for students wanting to study current literature on literacy as practiced in a variety of social contexts, as evaluated through a number of critical perspectives. Instructional implications will be highlighted so that students will develop reflective and sound classroom practice.

EDUC 591. INSTRUCTIONAL FOUNDATIONS AND INTERVENTIONS FOR LITERACY DIFFICULTIES. 4 Credits.
This course is designed to examine the causes and correlates of individual differences in reading ability. A number of specialized, intensive approaches for the improvement of the literacy skills will also be examined.

EDUC 594. PSYCHOLOGY OF LITERACY. 4 Credits.
Application of the findings of psychology to understanding the reading, writing, and communication processes and the teaching of literacy.

EDUC 595. SEMINAR IN LITERACY. 4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Course will help develop critical understanding of the reading process through a scholarly exploration of research related to literacy education. The instructional implications of research will be highlighted to help students develop theoretically sound classroom practice.

EDUC 596. EXPERIMENTAL COURSE. 1-6 Credits.

EDUC 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-6 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

EDUC 598. SEMINAR IN EDUCATION. 1-12 Credits.

EDUC 599. DIRECTED STUDY. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

EDUC 600. THESIS. 1-8 Credits.
Notes: may be graded Pass/No Credit.
Pre-requisites: EDUC 520; permission of the instructor, department chair and college dean. Independent research study under the direction of a graduate advisory committee.
EDUC 601. RESEARCH REPORT. 1-6 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: permission of the instructor, department chair and college dean.
Enrollees should have completed a rough draft prior to entering the course. Research projects to be developed and written by graduates.

EDUC 695. INTERNSHIP. 1-18 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: permission of the instructor, department chair and college dean.
Practical, on-the-job experience for specialized school personnel planned cooperatively by a school district and the university. Students are selected for this experience by the university and the district in which the student is working. To register, students must make application to the program advisor during May of the previous year.

EDUC 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.
Notes: graded Pass/No Credit.
Teaching a lower-division college course under supervision of a regular faculty member. Includes course planning, arranging bibliographical and instructional aids, conferences with students, experience in classroom instruction and student course evaluation.

EDUC 697. INTERNSHIP IN EDUCATION. 1-15 Credits.

Electrical Engineering (EENG)

EENG 160. DIGITAL CIRCUITS. 4 Credits.
Pre-requisites: MTHD 104 or equivalent.
Fundamentals of digital computer design including appropriate number systems, boolean algebra, and basic digital circuits. Methods introduced will include the use of Karnaugh Maps and the Quine-Mckluskey procedure. Computer laboratory work will involve the use of current software for the design, analysis, and simulation of digital circuits.

EENG 209. CIRCUIT THEORY I. 5 Credits.
Pre-requisites: PHYS 153 or permission of the instructor.
This course is intended to provide electrical engineering students with an understanding of electricity and its applications. Topics include AC/DC circuit-analysis methods such as nodal and mesh analysis, superposition, Norton Theorem, Thevenin Theorem and transient analysis.

EENG 210. CIRCUIT THEORY II. 5 Credits.
Pre-requisites: EENG 209.
This course covers circuit analysis using Laplace transform, phasors and AC analysis, AC Power, three-phase circuits, magnetically coupled circuits and the ideal transformer.

EENG 250. DIGITAL HARDWARE. 2 Credits.
Pre-requisites: EENG 160.
A continuation of ENGR 160, this course presents logic families, hardware characteristics, noise control and modern programmable logic.

EENG 260. MICROCONTROLLER SYSTEMS. 4 Credits.
Pre-requisites: EENG 160; CSCD 255 or permission of the instructor.
This is an introductory course on microprocessor and microcontroller systems organization. It provides low-level programming principles for microcomputer based systems. The course emphasizes assembly and C language programming techniques and laboratory experiments in input/output programming, memory organization, interrupts and interfacing methods.

EENG 320. SIGNALS AND SYSTEMS I. 5 Credits.
Pre-requisites: EENG 210 or concurrent enrollment in EENG 210 or permission of the instructor.
This course is an introduction to continuous-time signal analysis. Topics include: generalized functions and the relationship to basic signals including impulses, pulses and unit step; system properties such as linearity, time-invariance and causality; and Fourier analysis.

EENG 321. SIGNALS AND SYSTEMS II. 5 Credits.
Pre-requisites: EENG 320.
Introduction to Laplace Transform, Z-transform, the Fourier Series, the Fourier Transform, the Discrete Fourier Transform (DFT), the Discrete-Time Fourier Transform (DTFT) and Sampling Theorem. Introduction to analysis of Linear Time Invariant (LTI) system using above techniques for continuous and discrete time.

EENG 330. MICROELECTRONICS I. 5 Credits.
Pre-requisites: CHEM 151 and EENG 210.
This course introduces the characterization, modeling, and application of semiconductor devices in the context of analog integrated circuits. Emphasis is placed on the development of models for circuit-level behavior of diodes, bipolar transistors, and MOS transistors and applies the models to the analysis and design of linear amplifiers.

EENG 331. MICROELECTRONICS II. 5 Credits.
Pre-requisites: EENG 330.
This course is the second in the characterization, modeling and application of semiconductor devices in the context of analog integrated circuits. The emphasis is on the metal-oxide-semiconductor (MOS) transistor. Topics include differential amplifiers, frequency response and feedback effects.

EENG 350. ENERGY SYSTEMS. 5 Credits.
Pre-requisites: EENG 210.
This course provides an introduction to the different energy sources, methods of electric energy conversion, the electric power system, transformers and electrical machines.

EENG 360. HARDWARE DESCRIPTION LANGUAGES. 5 Credits.
Pre-requisites: EENG 160.
This course introduces methodologies and computer-aided design (CAD) tools for the design of complex electronic systems. The emphasis is on high-level description languages and their use for specifying, designing, simulating and synthesizing digital very large scale integration (VLSI) circuits in MOS (metal-oxide-semiconductor) technologies. Theoretical knowledge will be complemented by hands-on use of several commercial CAD tools.

EENG 383. APPLIED STOCHASTIC PROCESSES. 4 Credits.
Pre-requisites: MATH 163 or permission of the instructor and must be taken concurrently with EENG 388.
This course provides an introduction to the basic concepts of stochastic processes and their application to engineering problems. Topics include analysis of continuous and discrete random signals and systems, as well as modern estimation techniques.

EENG 388. STOCHASTIC PROCESSES LAB. 1 Credit.
Pre-requisites: MATH 163 or permission of the instructor and must be taken concurrently with EENG 383.
This laboratory course introduces basic concepts of stochastic processes and their application to engineering problems.
EENG 401. ENGINEERING APPLIED ELECTROMAGNETICS. 5 Credits.
Pre-requisites: EENG 210, MATH 241.
This course provides students with the technical basis to analyze electromagnetic applications systems. Topics include waves and phasors, vector analysis, electrostatics, magnetostatics, Maxwell's equations for time-varying fields and plane wave propagation.

EENG 415. INTRODUCTION TO COMPUTER COMMUNICATION NETWORKS. 5 Credits.
Pre-requisites: junior standing.
Fundamentals of data communication, telephone/cellular/computer networks, layered network architecture, OSI model, data link layer functions and protocols including ARQ, network layer functions and protocols including IP, transport layer functions and protocols including TCP. Basic MATLAB programming experience is necessary for this course.

EENG 420. DIGITAL SIGNAL PROCESSING. 5 Credits.
Pre-requisites: EENG 321.
This course provides an introduction to digital signal processing. Convolution, time invariance and stability of discrete-time systems are presented. In addition, various signal processing techniques such as Z-transform, discrete Fourier transform (DFT) and fast Fourier transform (FFT) are studied. Time and frequency domain techniques for designing and applying infinite impulse response (IIR) and finite impulse response (FIR) digital filters are introduced.

EENG 425. PRINCIPLES OF DIGITAL IMAGE PROCESSING. 5 Credits.
Pre-requisites: EENG 321.
Image representation, color spaces, image filtering and enhancement, image transforms and image/video coding.

EENG 430. CMOS DIGITAL INTEGRATED CIRCUITS DESIGN. 5 Credits.
Pre-requisites: EENG 160; EENG 331.
This course provides students with the theoretical and practical knowledge required for analyzing and designing digital integrated circuits and systems in complementary metal-oxide-semiconductor (CMOS) technology. Lab includes hands-on use of a variety of state-of-the-art computer-aided design (CAD) tools and design techniques.

EENG 435. ANALOG INTEGRATED CIRCUITS DESIGN. 5 Credits.
Pre-requisites: EENG 331.
This course provides students with the theoretical and practical knowledge required for analyzing and designing analog integrated circuits and systems in CMOS and BJT technologies. Topics include operational amplifier design, biasing and reference circuits, stability, and selected applications of analog circuits (e.g. filters, comparators, data converters, transceiver blocks).

EENG 440. DIGITAL COMMUNICATION SYSTEMS. 5 Credits.
Pre-requisites: EENG 321, EENG 383.
This course provides students with a solid background in modern digital communication systems. Random processing is applied in the realm of communication theory. Common digital modulation and demodulation techniques are presented. Other topics include bandpass transmission of binary data, coherent/noncoherent communications, intersymbol interference and equalization.

EENG 442. MOBILE COMMUNICATIONS. 5 Credits.
Pre-requisites: EENG 321 and EENG 383.
This course covers antennas and propagation, signal encoding techniques; spread spectrum, coding and error control, cellular and wireless control.

EENG 450. POWER SYSTEMS ANALYSIS. 5 Credits.
Pre-requisites: EENG 350.
The course provides students with the ability to analyze power systems from technical and economic perspectives. It includes symmetrical components, calculation of line parameters, power flow control, representation of transmission lines and power components.

EENG 452. PROTECTIVE RELAYS. 5 Credits.
Pre-requisites: EENG 450.
This course provides students with the technical basis to analyze and design protection for power systems. Topics include per unit and phasors, symmetrical components, relay input sources, protection fundamentals, system grounding principles and protection of power system components.

EENG 460. COMPUTING SYSTEMS: ORGANIZATION AND DESIGN. 5 Credits.
Pre-requisites: EENG 160 or permission of the instructor.
This course provides students with the theoretical and practical knowledge required for analyzing and designing complex computing systems. Topics include computer performance, MIPS assembly language, integer and floating point arithmetic, designing a processor, pipelining and memory hierarchies. Assembly programming and design using VHDL are offered in weekly labs.

EENG 461. EMBEDDED SYSTEM DESIGNS. 5 Credits.
Pre-requisites: EENG 161 or permission of the instructor.
This course provides students with the theoretical and practical knowledge required for analyzing and designing embedded computing systems. The key challenge of embedded systems is to optimize the various design metrics and to assess the impact that the organization and interfacing of hardware/software components have on system performance. Hands-on experience using various hardware, such as Field Programmable Gate Arrays (FPGA) and microcontrollers, will be offered in weekly labs.

EENG 470. CONTROL SYSTEMS. 5 Credits.
Pre-requisites: EENG 321.
This course reviews basic topics such as transfer function, step response and stability conditions. Other topics include feedback systems, analysis techniques such as root-locus analysis, transient and steady-state response analyses and frequency response analysis are studied. In addition, state-space analysis techniques are explained within the context of state-space system models. Analysis and design of proportional, integral, and derivative (PID), PI and PD controllers are presented.

EENG 471. DIGITAL CONTROL SYSTEMS. 5 Credits.
Pre-requisites: EENG 470.
This course provides students with the technical basis to understand and analyze digital control systems. Topics include frequency response, modeling digital control systems, steady-state error, stability, Z-domain design and state-space models. An introduction to Lyapunov techniques is presented.

EENG 490A. SR CAPSTONE: DESIGN LAB I. 2 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement.
This course will simulate the industrial environment, where students will have to work in a team to solve a real world problem, from design to implementation. Team dynamics will be strictly monitored and each student’s unique skills will be utilized in different stages of the design process. Dealing with problems typical of a team environment will result in an invaluable learning experience both in the professional and civic lives of the students.
EENG 490B. SR CAPSTONE: DESIGN LAB II. 3 Credits.
Pre-requisites: EENG 490A.
Satisfies: senior capstone university graduation requirement. See course description for EENG 490A.

EENG 491. SENIOR PROJECT. 1-6 Credits.
Pre-requisites: permission of instructor. Independent and/or group study and implementation of a design and development project. (variable time)

EENG 495. INTERNSHIP. 1-6 Credits.
Notes: graded Pass/Fail.
Pre-requisites: junior or senior status and permission of the instructor, department chair and dean.

EENG 496. EXPERIMENTAL COURSE. 1-5 Credits.

EENG 498. SEMINAR. 1-6 Credits.
Seminar.

EENG 499. DIRECTED STUDY. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Designed for students wanting to pursue a subject beyond the scope of regular courses.

English (ENGL)

ENGL 077. ENGLISH LINK. 5-15 Credits.

ENGL 100. FUNDAMENTALS OF ENGLISH COMPOSITION. 5 Credits.
Notes: graded Pass/No Credit; does not count toward the 180 credit requirement.
Pre-requisites: placement based on EWU writing placement test results or through General Advising.
Provides opportunities for students to acquire familiarity with the standard written language of college-educated Americans. Employs lectures, small group activities, tutoring and counseling to encourage and lead students to practice a variety of language skills. This course prepares students for ENGL 101.

ENGL 101. COLLEGE COMPOSITION: EXPOSITION AND ARGUMENTATION. 5 Credits.
Pre-requisites: ENGL 100, Writing Placement Test or General Advising.
Satisfies: university competencies, writing.
Provides opportunities for students to develop and enhance their written communication skills. Stresses the organization, development and support of ideas and perspective in exposition and argumentation as public discourse, familiarization with library resources and application of the rules and conventions of standard American English.

ENGL 111. WRITING FOR ACADEMIC PURPOSES. 5 Credits.
Cross listed: ELIC 111.
An integrated skills course to develop writing and grammar fluency in a variety of writing modalities through reading, writing and discussion to prepare students for the multifaceted demands of academic writing.

ENGL 112. COMPOSITION FOR MULTILINGUAL STUDENTS. 5 Credits.
Notes: students must earn a minimum grade ≥2.0 before being allowed to proceed to ENGL 101.
A course designed for the international student and those students whose native language is not English. Content is adapted to the needs of students in such areas as idiom, usage, reading comprehension and composition, as well as library activities.

ENGL 170. INTRODUCTION TO LITERATURE. 5 Credits.
Satisfies: GECS for humanities and fine arts, list 1, literature.
An examination of literary approaches in human experience including short fiction, poetry and drama. Principal attention to the elements that make up literature, with supporting discussion of ideas, attitudes, problems and values.

ENGL 196. EXPERIMENTAL COURSE. 1-2 Credits.
ENGL 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
ENGL 199. INDEPENDENT STUDIES. 1-5 Credits.
ENGL 201. COLLEGE COMPOSITION: ANALYSIS, RESEARCH AND DOCUMENTATION. 5 Credits.
Pre-requisites: ENGL 101, Writing Placement Test or general advising.
Satisfies: university proficiencies, writing.
Stresses research skills, analytical writing, logic and other skills necessary to comprehend, synthesize and respond intelligently to academic discourse. Practices source evaluation and documentation across the disciplines. A special study unit emphasizing effective use of library resources is included.

ENGL 270. INTRODUCTION TO FICTION. 5 Credits.
Pre-requisites: ENGL 101; ENGL 201 recommended.
The basic elements of fiction. Through class discussions and writing assignments, students analyze, interpret, and evaluate individual short stories and a novella which are broadly representative of a variety of historical periods and narrative genres.

ENGL 271. INTRODUCTION TO POETRY. 5 Credits.
Pre-requisites: ENGL 101; ENGL 201 recommended.
The basic elements of poetry. Presentation similar to ENGL 270.

ENGL 273. CRITICAL METHODOLOGIES. 5 Credits.
Pre-requisites: ENGL 201.
This course is an introduction to the major ideas and questions in literary theory and criticism from Plato to the present.

ENGL 296. EXPERIMENTAL COURSE. 1-5 Credits.
ENGL 299. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Special studies in English or composition. Such studies will vary according to faculty and student interest.

ENGL 309. GRAMMAR FOR PROFESSIONAL WRITERS. 5 Credits.
Cross listed: JRN 309, TCOM 309.
Pre-requisites: ENGL 201.
Many professionals continue to struggle with grammar and usage rules throughout their careers. In this course, students will refresh and improve their knowledge of English grammar, style and usage rules. They will develop confidence in using correct punctuation, capitalization and verb forms, and learn how to create and employ different types of sentence structures, becoming proficient at writing clear, correct sentences to communicate effectively with a variety of audiences.

ENGL 315. TOPICS IN LITERATURE AND CULTURE. 5 Credits.
Notes: may be repeated for credit if taken with a different topic.
Pre-requisites: ENGL 201.
A thematically organized course dealing with literary and cultural topics as they are reflected in literature. Some representative topics are the following: The American Dream in Literature; The Image of Women in American Pioneer Literature; and The Colonial Experience in Literature.
ENGL 323. A GLOBAL VIEW THROUGH CHILDREN'S LITERATURE. 5 Credits.
Cross listed: EDUC 323.
Satisfies: international studies university graduation requirement.
By reading and discussing a variety of children's literature titles across several interrelated thematic units, students will examine cultural constructs, gain familiarity with international cultures, work toward empathy for other peoples and practice a critical reading stance about stories from around the world. Coursework will include papers, journals, large and small group discussions and presentations.

ENGL 340. SURVEY OF BRITISH LITERATURE I. 5 Credits.
Pre-requisites: ENGL 201 and ENGL 271.
This course covers the history of British Literature from the Anglo-Saxon period to Milton, focusing on works of representative authors and examining changes in literary forms and conceptions of culture and society.

ENGL 341. SURVEY OF BRITISH LITERATURE II. 5 Credits.
Notes: English majors must have grades ≥2.5; non majors must have permission of the instructor.
Pre-requisites: ENGL 201 and ENGL 271.
This course covers the history of British literature beginning with the Restoration and ending with the Romantics, focusing on works of representative authors and examining changes in literary forms, including the beginnings of narrative form, as well as conceptions of culture and society.

ENGL 342. SURVEY OF BRITISH LITERATURE III. 5 Credits.
Notes: English majors must have grades ≥2.5; non majors must have permission of the instructor.
Pre-requisites: ENGL 201 and ENGL 271.
This course covers the history of British literature beginning with the Victorians and ending with the present, focusing on works of representative authors and examining changes in literary forms, including the novel, as well as conceptions of culture and society.

ENGL 343. SURVEY OF AMERICAN LITERATURE I. 5 Credits.
Notes: English majors must have grades ≥2.5; non majors must have permission of the instructor.
Pre-requisites: ENGL 201 and ENGL 271.
This course covers the history of American literature from the origin narratives to Transcendentalism, focusing on works of representative authors and examining changes in literary forms, including the short story, and in conceptions of American culture and society.

ENGL 344. SURVEY OF AMERICAN LITERATURE II. 5 Credits.
Notes: English majors must have grades ≥2.5; non majors must have permission of the instructor.
Pre-requisites: ENGL 201 and ENGL 271.
This course covers the history of American literature from the civil war to the present, focusing on works of representative authors and examining changes in literary forms including the short story, and in conceptions of American culture and society.

ENGL 350. SHAKESPEARE. 5 Credits.
Notes: English majors must have grades ≥2.5; non majors must have permission of the instructor.
Pre-requisites: ENGL 201 and ENGL 271.
Reading and interpretation of the principal comedies, histories, tragedies, and sonnets of Shakespeare; usually includes intensive study of one play.

ENGL 360. LANGUAGE STRUCTURE AND USE. 5 Credits.
Pre-requisites: ENGL 201.
The nature and function of language; approaches, concepts, component areas of linguistics.

ENGL 380. SURVEY OF NATIVE AMERICAN LITERATURE. 5 Credits.
Cross listed: IDST 380.
Pre-requisites: ENGL 201 or permission of instructor.
Satisfies: cultural and gender diversity university graduation requirement.
Designed to introduce students to specific examples of narrative, ceremonial, ritualistic, religious and secular literatures from the oral traditions of Indian Nations in North America and South America. Also introduces students to contemporary genres (i.e., poetry, the short story, the novel and drama) as they emerge from the oral traditions, with the specific purpose of articulating the continuity as reflected in literary genres.

ENGL 381. CONTEMPORARY AFRICAN AMERICAN LITERATURE. 5 Credits.
Cross listed: AAST 381.
Pre-requisites: ENGL 201.
Major African American literature of the 20th century: fiction, poetry, essay, autobiography and drama.

ENGL 382. STUDIES IN EPIC FANTASY. 5 Credits.
Pre-requisites: ENGL 201.
Selected works by Tolkien, Lewis, Eddison, Carter, Cabell, and others, with emphasis on the function of fantasy and its statements about contemporary society and the human imagination. Texts selected vary according to student interest.

ENGL 384. FOLKLORE. 5 Credits.
Pre-requisites: ENGL 201.
Surveys the nature of folklore in its theories and practices, with special attention to the function of the folk imagination. Topics include the oral tradition possessed by every group, widespread folk practices and beliefs, and the methods of their collection and study.

ENGL 385. MYTHOLOGY. 5 Credits.
Pre-requisites: ENGL 201.
A survey of classical Greek myths, with special attention to the stories used in literature, and an introduction to comparative mythology.

ENGL 387. LITERATURE OF THE BIBLE. 5 Credits.
Pre-requisites: ENGL 201.
Studies the literature of the Bible, both Old and New Testaments, in its historical, cultural, and linguistic settings through selected readings.

ENGL 389. WOMEN, LITERATURE AND SOCIAL CHANGE. 5 Credits.
Cross listed: WMST 389.
Pre-requisites: ENGL 201.
Satisfies: cultural and gender diversity university graduation requirement.
Examines fictional images of women as these images reflect the changing roles and status of women from Greece to present, focusing on the 19th and 20th centuries.

ENGL 395. FIELDWORK. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
ENGL 396. EXPERIMENTAL COURSE. 1-5 Credits.
ENGL 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
ENGL 398. SEMINAR. 1-5 Credits.
ENGL 399. DIRECTED STUDY. 1-5 Credits.
ENGL 400. WOMEN AND MEN IN LITERATURE. 1 Credit.
Cross listed: WMST 400.
This course teaches the integration of women authors, the ideas of men writing about women and ideas interesting to women in the study of literature. We will deal with textbook selections and a comparative treatment of women and men in a literature survey course. The course will provide a feminist approach and review the literature on gender balance.

ENGL 408. THE COMPOSITION PROCESS. 5 Credits.
Pre-requisites: ENGL 201.
Study and analysis of the cognitive steps taken and of the general process usually followed when a person writes clearly and effectively. Designed especially for those who are interested in the teaching of composition.

ENGL 421. SPECIAL TOPICS IN CHILDREN'S LITERATURE. 4 Credits.
Notes: non-majors must have permission of the instructor.
Pre-requisites: English majors must have grades ≥2.5 in ENGL 201, ENGL 270 and ENGL 271. EagleNET will indicate specific topic to be considered. Offerings include picture books, fantasy literature, myths and folk tales, minority groups and new trends in children's literature.

ENGL 436. SEMINAR IN LITERATURE I: MAJOR AUTHORS. 5 Credits.
Pre-requisites: Three of the five English survey courses. Two of ENGL 340, ENGL 341, ENGL 342 and either ENGL 343 or ENGL 344. This seminar course, through extensive reading and writing as well as student presentations, focuses on the work of major authors from either British, American, Commonwealth, or World literature. It considers their biography and the scope, influence, and development of their achievement, as well as the stature of their principal works. The choice of authors will vary with the instructor.

ENGL 437. SEMINAR IN LITERATURE II: STUDIES IN GENRE. 5 Credits.
Pre-requisites: Three of the five English survey courses. Two of ENGL 340, ENGL 341, ENGL 342 and either ENGL 343 or ENGL 344. This seminar course, through extensive reading and writing as well as student presentations, focuses on a genre or genres in British, American, Commonwealth and/or World literature. Genres studied may include, but are not limited to, nonfiction, prose, poetry, film, drama and electronic media. The choice of genres will vary with the instructor.

ENGL 438. SEMINAR IN LITERATURE III: LITERARY ERAS. 5 Credits.
Pre-requisites: Three of the five English survey courses. Two of ENGL 340, ENGL 341, ENGL 342 and either ENGL 343 or ENGL 344. This seminar course, through extensive reading and writing as well as student presentations, focuses on a specific era in literary history. The selection of literary era will vary with the instructor.

ENGL 439. SEMINAR IN LITERATURE IV: SPECIAL TOPICS. 5 Credits.
Pre-requisites: Three of the five English survey courses. Two of ENGL 340, ENGL 341, ENGL 342 and either ENGL 343 or ENGL 344. This seminar course, through extensive reading and writing as well as student presentations, focuses on a thematic issue in either British, American, Commonwealth, or World literature. These courses will explore the continuity of ideas across literary periods and cultures. The choice of topics will vary with the instructor.

ENGL 450. SPECIAL TOPICS IN SHAKESPEARE. 5 Credits.
Notes: may be repeated, the particular subject matter is described by the added wording in the title and can be substituted for ENGL 436.
Pre-requisites: ENGL 340 and ENGL 350.
This seminar course draws upon special topics such as dark and light comedy, the tragic heroes, Shakespeare history, etc., at the choice of the instructor.

ENGL 452. CHAUCER. 5 Credits.
Pre-requisites: ENGL 340.
This course involves reading and interpretation of the chief poetry of Geoffrey Chaucer. This course can be substituted for ENGL 436.

ENGL 459. GRAMMAR FOR TEACHERS. 5 Credits.
Pre-requisites: ENGL 201.
Major features of English grammar. Course covers word formation; part of speech identification; and the analysis of phrases, clauses, and sentences.

ENGL 460. MODERN GRAMMAR. 5 Credits.
Pre-requisites: ENGL 201 and ENGL 459; ENGL 360 is recommended. Analysis of major syntactic rules of English from the standpoint of transformational grammar.

ENGL 461. SURVEY OF PSYCHOLINGUISTICS. 3 Credits.
Pre-requisites: ENGL 360.
A survey of psycholinguistic process: language comprehension, production, and acquisition.

ENGL 464. GRAMMAR AND COMPOSITION. 5 Credits.
Pre-requisites: ENGL 459 or equivalent knowledge of traditional grammar. Analysis of basic writing problems (grammatical and punctuation errors, and syntactic immaturity) in the writing of secondary students and the development of remediation materials and strategies.

ENGL 468. HISTORY OF ENGLISH LANGUAGE. 5 Credits.
Pre-requisites: ENGL 201; ENGL 360 is recommended. Origins and development of the English language from prehistoric times to the present.

ENGL 469. LITERATURE OF THE PNW. 5 Credits.
Cross listed: CRWR 469.
Notes: this course can be substituted for ENGL 439.
Pre-requisites: ENGL 343 or ENGL 344.
This course is a survey of Northwestern literature from 1800 to the present time, including representative exploration journals as well as more recent works by such writers as Richard Hugo, James Welch, Carolyn Kizer and Ursula LeGuin. Addresses questions of geography and regional culture.

ENGL 489. LGBT WRITERS: THEIR LIVES AND THEIR WORKS. 5 Credits.
Pre-requisites: ENGL 270 or WMST 101/HUMN 101 or WMST 310/HUMN 310 or WMST 410/HUMN 410.
This course examines the lives and works of Lesbian, Gay, Bisexual and Transgendered (LGBT) writers as well as the historical and social contexts of their writing. Genres may include LGBT fiction, nonfiction, auto-ethnography, letters, diaries, film, critical accounts of authors' work, social networks and other artifacts. The readings focus on the lived experiences of the writers and their characters while (1) identifying "relevant gaps" within the traditional literary canon, (2) questioning "existing modes;" (3) examining "connections among societal structures such as gender, race, class, age, and sexuality that contribute to (LGBT) oppression" and (4) connecting theory to practice.
ENGL 490. SENIOR CAPSTONE. 5 Credits.
Satisfies: senior capstone university graduation requirement.
See your major department adviser for the appropriate section number.

ENGL 493. TEACHING LITERATURE TO ADOLESCENTS. 5 Credits.
Pre-requisites: English majors must have grades ≥2.5 in ENGL 201, ENGL 270 and ENGL 271 or ENGL 273; non-majors must have permission of the instructor.
The course involves the study and analysis of adolescent literature and of methods for teaching literature to various grade levels. It is designed primarily for those who will be teaching and dealing with adolescent responses to literature.

ENGL 495. PROFESSIONAL INTERNSHIP. 1-15 Credits.
Notes: may be repeated.
Pre-requisites: permission of the instructor, department chair and college dean.
A minimum of 20 hours work per week as a student-intern in a cooperating business, industry or agency. Students may earn from 5–15 credits.

ENGL 496. TUTORING INTERNSHIP. 1-3 Credits.
Notes: graded Pass/Fail.

ENGL 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

ENGL 498. SEMINAR. 1-5 Credits.
Pre-requisites: Three of the five English survey courses.
Two of ENGL 340, ENGL 341, ENGL 342 and either ENGL 343 or ENGL 344.

ENGL 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent study under faculty direction, adapted to individual needs of the students.

ENGL 503. INFORMATION DESIGN. 5 Credits.
Pre-requisites: graduate standing or permission of the instructor.
A study of the convergence of the visual and the verbal in professional communication, examining the variable expressive power of text and graphics both individually and in conjunction. Particular attention will be paid to the crafting of information for the World Wide Web. Students will study theories of information design and then apply them in individual and collaborative projects.

ENGL 504. INSTRUCTIONS AND PROCEDURES. 5 Credits.
Pre-requisites: graduate standing.
As part of this course, students complete all the course work for TCOM 404. In TCOM 404, students will learn the art and practice of how to write, design, test and deliver instructions and procedures. In addition to the requirements for TCOM 404, graduate students completing ENGL 504 will study theoretical concepts related to instructions and procedures. Concepts may include interactivity, designing user experience, the role of new media and the relationship of technology and society.

ENGL 507. PROPOSAL WRITING. 5 Credits.
Investigation of funding sources, use of government documents for research, and evaluation of submitted proposals are among the areas covered. Emphasis is on clear, concise writing of individualized student projects.

ENGL 509. EDITING IN TECHNICAL COMMUNICATION. 5 Credits.
Pre-requisites: ENGL 459.
This course develops the principles and practices of technical editing. Students will learn how to copy, edit and proofread a variety of technical and professional documents, using standard symbols and conventions. Students will also learn to use style sheets to track emendations, and they will gain an understanding of the responsibilities of an editor to make texts effective and usable. The course is taught in conjunction with TCOM 409, and graduate students are expected to complete additional work beyond that required for the undergraduate course.

ENGL 511. COMPOSITION PEDAGOGIES: THEORIES AND PRACTICES. 5 Credits.
Pre-requisites: graduate standing.
In this course emphasis is placed on the students' own reading and writing processes as they summarize, analyze and synthesize composition theories and practices. First-year teaching assistants and first-year alternate teaching assistants are required to enroll in the course winter quarter.

ENGL 520. SEMINAR IN RESEARCH METHODS AND DESIGN. 5 Credits.
This course examines a range of research methods needed to write a thesis or research project. Students will learn how to design and conduct research related to their discipline. The course includes an introduction to creating literature reviews, conducting peer reviews, and citing references. Students will also learn how to evaluate sources, using databases to access print and online journals. Disciplinary focus of seminar will vary. Students must select a seminar appropriate to their emphasis.

ENGL 530. OLD ENGLISH. 5 Credits.
Pre-requisites: permission of the instructor.

ENGL 536. GRADUATE SEMINAR IN LITERATURE I: MAJOR LITERARY FIGURES. 5 Credits.
Pre-requisites: graduate standing.
This graduate seminar will focus on the work of major figures from British, American, or world literature, considering their biography, the scope and development of their achievement, and the stature of their principal works. May be taken more than once; subject matter described by the added wording in the title.

ENGL 537. GRADUATE SEMINAR IN LITERATURE II: GENRE STUDIES. 5 Credits.
Pre-requisites: graduate standing.
This graduate seminar, through extensive reading and writing as well as student presentations, focuses on a genre or genres in British, American, and/or World literature. Genres studied may include, but are not limited to, nonfiction, prose, poetry, film, drama and electronic media. The choice of genres will vary with the instructor.

ENGL 538. GRADUATE SEMINAR IN LITERATURE III: LITERARY ERAS. 5 Credits.
Pre-requisites: graduate standing.
This graduate seminar, through extensive reading and writing as well as student presentations, focuses on a specific era in literary history. The selection of literary era will vary with the instructor.
ENGL 539. GRADUATE SEMINAR IN LITERATURE IV: SPECIAL TOPICS. 5 Credits.
Notes: may be repeated.
Pre-requisites: graduate standing.
This graduate seminar course, through extensive reading and writing as well as student presentations, focuses on a thematic issue in British, American, or World literature. The course will explore the continuity of ideas across literary periods and cultures. The choice of topics will vary with the instructor.

ENGL 555. CONTEMP COMPOSITION THEORY. 5 Credits.
Pre-requisites: ENGL 511 or ENGL 408.
This course will provide students with the historical frameworks for understanding composition theory, acquaint them with major theories and theorists, and enable them to draw from contemporary theory for scholarship and pedagogy.

ENGL 560. APPLIED LINGUISTICS. 5 Credits.
Notes: Students do not need to take ENGL 360 or ENGL 459, but such courses provide a good beginning point for ENGL 560 and are recommended. It is also recommended that students take ENGL 560 prior to registering for ENGL 580.
Foundational linguistics needed for those teaching or planning to teach English to speakers of other languages in the U.S. and abroad. Content includes basic syntax, phonology, semantics, morphology and pragmatics. Through contrastive analysis, students will demonstrate an understanding of how to apply linguistic theory to create materials and develop approaches to teach sentence structure, pronunciation, word meanings, word parts and speech acts.

ENGL 564. PEDAGOGICAL GRAMMAR AND COMPOSITION. 5 Credits.
This course includes analysis of grammar, structure, and usage of American English and varieties of World Englishes with a focus on error recognition, analysis, and correction within the context of learners’ writing. This is a writing-intensive course for English teachers who must demonstrate mastery of written English, edit their own writing, and develop teaching materials for a variety of levels and settings. Issues of writers’ voice, heritage, region, first language, dialect, and identity are addressed.

ENGL 568. TECHNICAL COMMUNICATION AND ESP: PRACTICE, THEORY AND PEDAGOGY. 5 Credits.
Pre-requisites: graduate standing.
This course introduces students to major theories and practices influencing the teaching of technical communication and ESP (English for Specific Purposes). Students review components of standard curriculum, conduct need analysis for developing curriculum, and research genres and practices of professional communication to develop course materials. In addition, students practice problem-based learning and pedagogy.

ENGL 570. SEMINAR IN TEACHING LITERATURE. 5 Credits.
Pre-requisites: graduate standing.
This course gives students in the Literature program emphasis practical as well as theoretical preparation for teaching literature. Students meet with the instructor once a week and also attend ENGL 270 or ENGL 271. In the lower-division class, students meet once a week and then make presentations and then take over some of the teaching. The weekly meetings involve discussion of assigned pedagogy readings and discussion of experiences in class.

ENGL 571. ADVANCED LITERARY THEORY. 5 Credits.
Pre-requisites: graduate standing.
A study of major approaches in 20th century literary criticism and theory with emphasis on developments since the 1950s. Previous work in this area will be assumed.

ENGL 573. HISTORY OF RHETORIC. 5 Credits.
A survey of major rhetorical traditions from classical times to the present. Major emphasis will be placed on the decline of invention in classical rhetoric and the rise of new rhetorical systems in the 18th and 20th centuries.

ENGL 575. CONTEMPORARY RHETORICAL THEORIES. 5 Credits.
In-depth survey of contemporary rhetorical theories - e.g., developmental rhetoric, process rhetoric, new romantic rhetoric, conceptual rhetoric, neo-classical rhetoric.

ENGL 580. SECOND LANGUAGE ACQUISITION. 5 Credits.
Notes: completion of ENGL 560 is recommended.
Pre-requisites: graduate standing.
This course includes the study of theories of language acquisition and development of reading, writing, speaking and listening in a foreign/second language. First language acquisition will also be discussed briefly.

ENGL 581. SECOND LANGUAGE CURRICULUM DESIGN AND ASSESSMENT. 5 Credits.
Pre-requisites: this is a research-based course, which has no official prerequisite, though some ESL background is highly recommended.
A course directed at prospective ESL teachers and curriculum designers which presents and reviews various current forms of curriculum at all levels (K-13) with an emphasis on secondary and post-secondary, both collegiate and non-collegiate settings.

ENGL 582. MODERN LANGUAGE METHODOLOGY. 5 Credits.
Examines current theories, methods, and research in teaching English and other languages as foreign or second languages. Students may do research in languages other than English. Some foreign language experience would be very helpful, though not necessary.

ENGL 595. PRACTICUM IN PUBLIC SCHOOLS. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
The development, reinforcement, integration, and application of content gained in previous and concurrent graduate courses. This course is intended for students employed as teachers in the elementary or secondary classroom.

ENGL 596. EXPERIMENTAL COURSE. 1-5 Credits.

ENGL 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

ENGL 598. SEMINAR IN LANGUAGE AND LITERATURE. 5-10 Credits.
Cross listed: may be cross-listed CRWR 598.
This course deals with specialized aspects of language and literature. A student may take the seminar several times. The exact content of the course will be indicated in the title to be entered on his or her permanent record.

ENGL 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
ENGL 600. THESIS. 1-12 Credits.
Pre-requisites: Master of Arts in English candidacy; permission of the instructor, department chair and college dean.
Independent research study under the direction of a graduate advisory committee.

ENGL 601. PROFESSIONAL ESSAY. 1-12 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A formally considered summation and emphasis drawn from the principal course work and professional context of the candidate’s program.

ENGL 694. PRACTICUM: TEACHING FIRST-YEAR COMPOSITION. 2 Credits.
Pre-requisites: current English teaching assistantship or alternate English teaching assistantship or permission of the instructor.
Training in the strategies and practices of teaching first-year composition. Emphasis is on developing curricular and assessment materials for use in teaching ENGL 101 at Eastern Washington University. First-year teaching assistants and first-year alternate teaching assistants are required to enroll in the course fall quarter.

ENGL 695A. INTERNSHIP: TEACHING COMPOSITION. 1-5 Credits.
Pre-requisites: permission of the English Composition Program director, English Department chair, and college dean.
An internship or externship in the teaching of pre-college, college or university composition. The mentor for the internship or externship must be a lecturer or professor who is the instructor-of-record for a pre-college, college or university composition course. A graduate-student teaching assistant cannot mentor another student’s internship or externship. The student and the English Composition Program director will work together to determine the location of and the number of credits for the internship or externship.

ENGL 695B. INTERNSHIP: TEACHING LITERATURE. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair, and college dean.
An internship or externship in the teaching literature. The mentor for the internship or externship must be a lecturer or professor who is the instructor-of-record for a literature course. A graduate-student teaching assistant cannot mentor another student’s internship or externship. The student and the instructor will work together to determine the location of and the number of credits for the internship or externship.

ENGL 695C. INTERNSHIP: TEACHING ENGLISH AS A SECOND LANGUAGE. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair, and college dean.
An internship or externship in the teaching English as a Second Language. The mentor for the internship or externship must be a lecturer or professor who is the instructor-of-record for a teaching English as a Second Language course. A graduate-student teaching assistant cannot mentor another student’s internship or externship. The student and the instructor will work together to determine the location of and the number of credits for the internship or externship.

ENGL 695D. INTERNSHIP: PROFESSIONAL WRITING. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair, and college dean.
Intended for graduate students assigned to writing projects in business, government or industry; may be as a campus resident or on location.

ENGL 695E. INTERNSHIP: WRITER’S CENTER. 1-5 Credits.
Notes: Limited spots available quarterly. Visit to center prior to registration is recommended.
Pre-requisites: interview with the director, permission of the Writers’ Center director, the English Department chair and the college dean. Allows interns to assimilate into the workplace of the Writers’ Center. Students will establish a regular working schedule and be initiated into current center practice.

ENGL 697. PRACTICUM: TEACHING ADVANCED COMPOSITION. 2 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Intended for graduate students assigned to writing projects in business, government, or industry; may be as a campus resident or on location.

ENGL 698. PRACTICUM: JOB MARKET. 2 Credits.
Pre-requisites: current English teaching assistantship or alternate English teaching assistantship or permission of the instructor.
A professional development course in the field of Rhetoric and Composition. Prepares current and future teachers of composition for the two-year and four-year job market. Emphasis is on developing curriculum vitae, application letters, teaching philosophies and teaching demonstration materials. First-year teaching assistants and alternate teaching assistants are required to enroll in the course spring quarter.

English Language Instruction (ELIC)

ELIC 100. ENGL LANGUAGE INSTITUTE-NON-CREDIT. 0 Credits.
ELIC 111. WRITING FOR ACADEMIC PURPOSES. 5 Credits.
Cross listed: ENGL 111.
An integrated skills course to develop writing and grammar fluency in a variety of writing modalities through reading, writing and discussion to prepare students for the multifaceted demands of academic writing.

ELIC 113. READING FOR ACADEMIC PURPOSES. 5 Credits.
An integrated skills course that uses essay and narrative at a university level to develop advanced skills in reading, writing, critical thinking, and discussion.

ELIC 114. UNIVERSITY SEMINAR. 5 Credits.
An integrated second language skills course focused on listening and notetaking that prepares students to discuss issues in seminar. Emphasis is given to analyzing, synthesizing, and evaluating university level content from lectures and GECR class observation.

ELIC 116. RESEARCH PAPER. 3 Credits.
A graduated course designed to familiarize students with the process of writing a research paper, synthesis of multiple sources, critical thinking, avoiding plagiarism and use of library and internet resources.

ELIC 196. ENGLISH GRAMMAR 5. 1-5 Credits.
ENGLISH GRAMMAR 5

ELIC 496. EXPERIMENTAL COURSE. 0 Credits.
English as a Second Language (ESLG)

ESLG 395. FIELD WORK/INTERNSHIPS. 1-15 Credits.

ESLG 396. EXPERIMENTAL COURSE. 1-5 Credits.

ESLG 399. DIRECTED STUDY. 1-15 Credits.

ESLG 480. SECOND LANGUAGE ACQUISITION. 4 Credits.
Pre-requisites: ANTH 445 or ENGL 360 or permission of instructor.
This course briefly reviews the various linguistic systems and their
importance in language learning. Acquisition theories are introduced.
The developmental process of interlanguage and the factors that impact
effective language learning are covered. This course includes practical
understanding of how SLA theories relate to instructional choices.

ESLG 481. METHODS AND MATERIALS IN ENGLISH AS A SECOND OR
FOREIGN LANGUAGE. 4 Credits.
Pre-requisites: ESLG 480 or permission of the instructor.
This course provides an overview of the current major concepts shaping
the choice of language teaching methods. This course covers the
following elements: teaching language within content areas such as
math, science and social studies; developing individual language skills as
well as integrating them; and, choosing, developing and using materials
effectively to support the language learning process.

ESLG 484. SUPPORTING SECOND LANGUAGE LITERACY LEARNING. 3
Credits.
Pre-requisites: ESLG 480 or permission of instructor.
This course provides an understanding of effective curriculum and
strategies for assisting language learners to develop oral and print
literacy. Emphasis is given to matching instructional choices to
populations and particular students.

ESLG 486. ENGLISH AS A SECOND LANGUAGE PRACTICUM. 3 Credits.
Pre-requisites: ESLG 480; ESLG 481.
Readings and discussions support the continued development of
effective strategies for working with language learners. Students observe
and carry out instruction in a field placement with English language
learners.

ESLG 488. SECOND LANGUAGE PRINT LITERACY THEORIES. 3 Credits.
Pre-requisites: ESLG 480 and ESLG 481.
This course examines current and seminal research that provides insight
into the factors affecting the development of literacy by second language
learners. Topics covered include prior literacy backgrounds, home-school
connections, orthographies, and vocabulary development.

ESLG 489. CULTURAL AND LINGUISTIC DIVERSITY IN THE CLASSROOM.
4 Credits.
This course provides an introduction to the various cultural and linguistic
backgrounds in the region. It covers the impact of background cultures on
the interactions that occur and expectations that exist in school
environments. It also provides an understanding of the role of culture in
developing theories about what it means to ‘read’.

ESLG 493. K-12 ENGLISH LANGUAGE LITERACY ASSESSMENT AND
PLACEMENT. 3 Credits.
Pre-requisites: ESLG 480 and ESLG 481.
This course provides exposure to placement practices and issues for
English language learners including the standardized tests used to
assess them. It includes a focus on quality classroom assessment with
an emphasis on authentic assessment.

ESLG 494. ADULT ENGLISH LANGUAGE LITERACY ASSESSMENT AND
PLACEMENT. 3 Credits.
Pre-requisites: ESLG 480 and ESLG 481.
This course provides exposure to and evaluation of the standardized
tests used to assess adult language learners’ proficiency. In addition,
focus is given to the range of testing choices teachers have for
classroom assessment of skills. Students will develop several classroom
language tests.

ESLG 496. EXPERIMENTAL COURSE. 1-5 Credits.

ESLG 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5
Credits.

ESLG 498. SEMINAR. 1-5 Credits.

ESLG 499. DIRECTED STUDY. 1-10 Credits.

ESLG 598. SEMINAR. 5 Credits.

Environmental Science (ENVS)

ENVS 100. INTRODUCTION TO ENVIRONMENTAL SCIENCE. 5 Credits.
Pre-requisites: CPLA, ENGL and MATH clearance.
Satisfies: GECR for natural sciences, environmental science.
This course is an introductory exploration of environmental science that
emphasizes a scientific approach toward understanding contemporary
human interaction with the natural environment. The structure,
function and interrelationships of terrestrial, aquatic and atmospheric
systems are treated through the application of biological, chemical and
geological principles. This course includes a weekly laboratory that uses
basic quantitative techniques for collecting and analyzing data from
environmental systems.

ENVS 300. ENVIRONMENTAL SCIENCE JUNIOR SEMINAR. 1 Credit.
Pre-requisites: ENVS 100 and admission to the Environmental Science
program.
The purpose of this seminar course is to expose students to a variety of
potential careers in the environmental sciences.

ENVS 323. GIS FOR ENVIRONMENTAL SCIENCES. 3 Credits.
Cross listed: GEOG 323.
Pre-requisites: CPLA 101 or CPLA 120.
Introduction to Geographic Information Systems (GIS) with an emphasis
on its applications in the environmental sciences. Course includes hands-
on GIS work in the lab. This course satisfies an option for the Certificate
in GIS.

ENVS 399. DIRECTED STUDY. 1-5 Credits.

ENVS 400. ENVIRONMENTAL SCIENCE SENIOR SEMINAR. 1 Credit.
Pre-requisites: ENVS 300 and junior or senior standing.
Through reading current literature, discussion and writing, students
integrate knowledge of chemistry, biology and geology with current
environmental issues.

ENVS 490. CAPSTONE: ENVIRONMENTAL GEOCHEMISTRY. 5 Credits.
Cross listed: GEOL 490B.
Pre-requisites: CHEM 152 or permission of instructor.
Satisfies: senior capstone university graduation requirement.
Application of principles of geochemistry to environmental problems,
including air and water pollution, water-rock interactions, weathering
and soil formation. Origin, distribution and transport of inorganic
contaminants in air, water, soils, sediments and plants. The behavior of
trace elements in near surface environments.

ENVS 496. EXPERIMENTAL COURSE. 1-15 Credits.
Exercise Science (EXSC)

EXSC 301. INTRODUCTION TO EXERCISE SCIENCE. 1 Credit.
Pre-requisites: must be declared exercise science major.
This course covers the basic skills necessary for success in the Exercise Science Program and prepares students for a career or graduate school. Students are exposed to professionals from multiple career fields related to Exercise Science. Presentations include the development of a resume and cover letter, how to use the library effectively and various professional development tools. The goal of this course is to help you gain a clear understanding of your career aspirations and to help direct your studies towards those goals.

EXSC 388. EXERCISE SCIENCE PRACTICUM. 1-8 Credits.
Pre-requisites: permission of the instructor.
This course is designed to assist Pre-Physical Therapy (PT) and Pre-Occupational Therapy (OT) students prepare for their application to graduate school. The Pre-PT and Pre-OT Exercise Science majors are required to observe and/or work under a licensed PT or OT in different settings. They will spend a minimum of 50 hours at any one location and can observe in 2-4 different locations. The experience will be documented through record of hours, and a reflection of the experience as a potential career location as a PT or OT professional at the completion of the hours.

EXSC 395. INTERNSHIP. 1-8 Credits.
Pre-requisites: permission of the instructor.

EXSC 455. RESEARCH AND ANALYSIS. 2 Credits.
Pre-requisites: CSBS 320.
This course is designed to teach the students to critically analyze the literature in the field. In addition, they will be exposed to the criteria for good research and to evaluate how well articles in the field follow that criteria.

EXSC 460. PHYSIOLOGY OF EXERCISE. 4 Credits.
Pre-requisites: PHED 349, PHED 350 and PHED 352 or permission of the instructor.
The application of physiological principles to exercise. Special attention is given to energy sources, work, power, pulmonary system, cardiorespiratory neural control systems, sex differences, hypoxia and hyperbaric pressure, heat balance, body composition, and the endocrine system in exercise.

EXSC 480. CLINICAL EXERCISE PHYSIOLOGY. 3 Credits.
Pre-requisites: PHED 350 or permission of the instructor.
This course presents a detailed understanding of the latest advances in the emerging field of clinical exercise physiology. The focus is on diseases, where exercise can impact onset, treatment or outcomes, i.e., diseases of the cardiovascular, endocrine and musculoskeletal systems.

EXSC 481. ELECTROCARDIOLOGY INTERPRET. 3 Credits.
Pre-requisites: BIOL 232, BIOL 233.
This course teaches the interpretation of electrocardiograms (ECGs). It will cover normal and pathological changes both at rest and during exercise.

EXSC 488. PROFESSIONAL INTERNSHIP. 5-15 Credits.
Pre-requisites: permission of the instructor.
This course is designed to assist Exercise Science students prepare for a job in their chosen field. The internship experience is hands-on under the supervision of a professional, monitored by the faculty advisor. Students will have completed the majority of their course work to prepare for the experience. The requirement is 400 hours and may be divided into up to three locations. The experience will be documented through record of hours and regular reflections of the experience as a potential career location, as well as evaluations by the site supervisor.

EXSC 490. SENIOR CAPSTONE IN EXERCISE SCIENCE. 4 Credits.
Pre-requisites: senior standing and EXSC 460.
Satisfies: senior capstone university graduation requirement.
This course is designated as a departmental capstone for Exercise Science majors. They will study the process of assessment and prescription of apparently healthy adults. There will be end-of-program assessment, both written and practical. Students will also study a current issue in the field through research, group projects and written and oral presentations. The course is designed to help students prepare for the ACSM's Certified Health Fitness Specialist, the benchmark exam in the field.

EXSC 495. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

EXSC 496. EXPERIMENTAL COURSE. 1-15 Credits.

EXSC 499. DIR STUDY. 1-15 Credits.

Film (FILM)

FILM 110. INTRODUCTION TO FILMIC ARTS MEDIA PRODUCTION. 5 Credits.
Notes: offered fall quarter.
Pre-requisites: ENGL 201 or equivalent.
Fundamental overview of the production techniques for telling stories cinematically. Laboratory exercises provide hands-on experience with audio and video equipment.

FILM 196. EXPERIMENTAL COURSE. 1-5 Credits.

FILM 214. FILM AND THE HUMANITIES. 5 Credits.
Notes: offered every quarter.
Satisfies: the GECR for humanities and fine arts, list 2, fine arts.
Explores the varieties of human experience as they are expressed through the vocabulary of the filmic arts. Critical viewing, thinking and writing are central.

FILM 221. NARRATIVE SCRIPT ANALYSIS. 5 Credits.
Notes: offered fall quarter.
Pre-requisites: ENGL 201.
The study and creation of narrative structures in film and video. Topics addressed include fiction and non-fiction, story world and screen world, selectivity and objectivity, and devices used to represent tense and relationship. Students write critical papers as well as original scripts and view films and videos.

FILM 296. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental.

FILM 305. ACTING FOR DIRECTORS AND WRITERS I. 2 Credits.
Notes: offered winter quarter.
Pre-requisites: FILM 110, FILM 214 and FILM 221 or permission of the instructor.
Explores the art of film acting from the perspectives of the director and the writer.

FILM 306. ACTING FOR DIRECTORS AND WRITERS II. 2 Credits.
Notes: offered fall quarter.
Pre-requisites: FILM 305 or permission of the instructor.
Further explores the creative dynamics between film directors, writers and actors.
FILM 311. FILM PRODUCTION. 5 Credits.
Notes: offered winter quarter.
Pre-requisites: FILM 110, FILM 214, FILM 221.
Aesthetic considerations of the video and audio aspects of filmic arts production. Various techniques and media are considered. Laboratory exercises encourage audio and video exploration of new forms and techniques.

FILM 312. FILM DIRECTING AND PRODUCING. 5 Credits.
Notes: offered spring quarter.
Pre-requisites: FILM 311.
Experience in directing and producing short films. Topics include scheduling, budgeting, visual storytelling and working with actors.

FILM 321. WRITING THE SHORT FILM. 5 Credits.
Notes: offered winter quarter.
Pre-requisites: FILM 214, FILM 221.
The course provides experience in writing the short film. Students will learn to develop the visual story through focusing on dramatic structure, character development, scene writing, dialogue and action. Criticism and revision are emphasized.

FILM 322. ADAPTATION. 5 Credits.
Notes: offered spring quarter.
Pre-requisites: FILM 321.
Adapting pre-existing materials, ideas and out-of-copyright literary work into producible short screenplays. Narrative problem solving, structure, criticism and revision are central.

FILM 399. SPECIAL STUDIES IN RADIO AND TELEVISION. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interest.

FILM 410. ADVANCED FILM PRODUCTION I. 5 Credits.
Pre-requisites: FILM 312, FILM 322, FILM 466.
Further exploration of camera work, set lighting and field sound recording encourages each student to develop a unique directorial voice. Laboratory exercises introduce new techniques in multiple aspects of film production. Students critically evaluate their own work as well as the work of their peers.

FILM 417. ADVANCED SCREENWRITING. 4 Credits.
Notes: offered fall quarter and may be repeated for credit when topics vary.
Pre-requisites: FILM 322.
Workshop in various forms of script writing, e.g., documentary, narrative fictional, narrative nonfictional, comedy, adaptation. Students learn the art of the pitch, outlining and writing the film treatment. Different topics will be indicated on EagleNET and on the student’s permanent record.

FILM 420. FEATURE FILM WRITING. 4 Credits.
Notes: may be repeated for credit when screenplay project is different.
Pre-requisites: FILM 417 or permission of the instructor.
Students will write a first draft of a feature film screenplay from a treatment or story outline.

FILM 439. SPECIAL TOPICS. 1-5 Credits.
Pre-requisites: permission of the instructor.
The topics in this course will vary. Examples may include writing for specific genres, examination of films from a historical period and the screenplay as literature.

FILM 465. FILM HISTORY I. 5 Credits.
Pre-requisites: FILM 214.
This course examines the history and development of the filmic arts from inception through the 1950’s with an emphasis on analysis, critical thinking and writing.

FILM 466. FILM HISTORY II. 5 Credits.
Pre-requisites: FILM 465.
History and development of the filmic arts from the 1950s to the present. Emphasis on analysis, critical thinking and writing.

FILM 467. FILM THEORY AND CRITICISM. 5 Credits.
Notes: offered fall quarter.
Pre-requisites: FILM 466.
Explores the major film theories and their evolution. Critical thinking, writing and analytic skills are central.

FILM 470. FILM CRITICISM. 4 Credits.
Notes: may be repeated for credit when topics vary.
Pre-requisites: FILM 467 or permission of the instructor.
This variable topic class explores a significant theory or issue within the filmic arts. Emphasizes critical viewing, reading and writing.

FILM 480. ADVANCED FILM PRODUCTION II. 4 Credits.
Notes: Offered winter quarter. Students must secure instructor approval for their project before enrollment.
Pre-requisites: FILM 410 and permission of instructor.
Intensive study in the preproduction and production of a short film. Emphasis on both schedule adherence and aesthetic realization.

FILM 481. ADVANCED FILM PRODUCTION III. 4 Credits.
Notes: Offered spring quarter. Students must secure instructor approval for their project before enrollment.
Pre-requisites: FILM 410 and permission of instructor.
Intensive study in the production and post-production of a short film. Emphasis on both schedule adherence and aesthetic realization.

FILM 482. ORAL EXAMINATION: PRODUCTION. 1 Credit.
Notes: offered spring quarter.
Pre-requisites: FILM 417 and permission of instructor.
Students will complete a short film and screen it for the public and the FILM faculty. Directors will discuss storytelling and aesthetic choices following the screening.

FILM 483. ORAL EXAMINATION: CRITICISM. 1 Credit.
Notes: offered spring quarter.
Pre-requisites: FILM 470.
Students compose and defend a thesis in Film Criticism.

FILM 484. ORAL EXAMINATION: SCREENWRITING. 1 Credit.
Notes: offered spring quarter.
Pre-requisites: concurrent registration in FILM 490.
Students will prepare a feature length screenplay for submission to faculty as a part of an oral examination in the FILM major.

FILM 490. FILM SENIOR CAPSTONE. 4 Credits.
Notes: offered spring quarter.
Pre-requisites: FILM 410, FILM 420, FILM 470, final quarter senior status.
Satisfies: senior capstone university graduation requirement.
Students will create and defend a feature-length screenplay. Other course requirements include writing a reflective essay that analyzes and synthesizes their coursework in the Film major.
FILM 495. FIELD EXPERIENCE IN FILM AND ELECTRONIC MEDIA. 1-12 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
On-the-job experience in film production companies, commercial radio and television stations, advertising agencies or public relations companies or other communications-oriented industries.

FILM 496. EXPERIMENTAL COURSE. 1-5 Credits.

FILM 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: may be repeated.

FILM 498. SEMINAR. 1-5 Credits.
Notes: may be repeated for credit when topics vary.

FILM 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

FILM 598. SEMINAR IN RADIO-TELEVISION. 1-5 Credits.
Notes: may be repeated for credit when topics vary.

FILM 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

FILM 601. RESEARCH REPORT IN RADIO-TV. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent research resulting in a scholarly paper under the direction of the student's graduate committee.

FILM 696. COLLEGE TEACHING INTERNSHIP. 5-15 Credits.

Finance (FINC)

FINC 196. EXPERIMENTAL COURSE. 1-5 Credits.

FINC 200. PERSONAL FINANCE: PHILOSOPHY AND PRACTICE. 4 Credits.
Satisfies: GECR for humanities and fine arts, list 3, philosophy and reasoning.
Deals with the management of individual financial affairs on both a practical and a philosophical level. Covers a number of topics, such as the relationship between money and success, money and power, the meaning of poverty, the illusion of value, budgeting, tax planning, credit, real estate, major purchases, cash management, insurance, investments and retirement planning.

FINC 296. EXPERIMENTAL COURSE. 1-5 Credits.

FINC 299. DIRECTED STUDY. 1-15 Credits.

FINC 335. FINANCIAL MANAGEMENT. 4 Credits.
Pre-requisites: (MATH 142 MATH 161 or MATH 200) and DSCI 245 and ACCT 251 and (either ECON 200 or ECON 201) and the university computer literacy requirement.
This course covers the application of basic theory and analytical techniques to financial decision making. It discusses the time value of money and capital budgeting, as well as capital structure and risk return trade off as they relate to the cost of capital, securities valuation and capital budgeting.

FINC 395. PROFESSIONAL INTERNSHIP. 1-15 Credits.

FINC 398. SEMINAR. 1-5 Credits.

FINC 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

FINC 431. INVESTMENTS. 4 Credits.
Pre-requisites: FINC 335.
Examines principles of investments valuation; objectives and risks involved; sources of relevant information. Security analysis and investment timing in a portfolio management framework.

FINC 432. RISK MANAGEMENT. 4 Credits.
Pre-requisites: FINC 434.
This course examines risks faced by the economy and businesses. Discussions include the principles of risk and risk management methods.

FINC 433. SECURITIES ANALYSIS. 4 Credits.
Pre-requisites: FINC 431.
This course examines the data and techniques used to evaluate equity securities for investment purposes. Both the fundamental and technical approaches to analysis and evaluation are covered in depth. A complete analysis of a currently traded security is required.

FINC 434. FINANCIAL DERIVATIVES. 4 Credits.
Pre-requisites: FINC 335
Provides an in-depth background to various financial derivatives including futures, options, swaps, securitized securities, and collateralized mortgage obligations. Discusses concepts related to the operation of financial derivatives including marketing to market and clearing corporations.

FINC 435. CAPITAL BUDGETING AND LONG-TERM FINANCING. 4 Credits.
Pre-requisites: FINC 335
Provides in-depth background and skill development for capital budgeting and long-term financial decision-making. Emphasis on discounted cash flow analysis using computer spreadsheets. Discusses capital structure, dividend policy, cost of capital, and risk analysis. Also covers long-term financing issues of a business or corporation. Uses cases, computer simulations and other analytical techniques.

FINC 436. SHORT-TERM FINANCIAL MANAGEMENT. 2 Credits.
Pre-requisites: FINC 335.
Provides necessary background and skill development to understand and analyze short-term financing issues. Topics include financial liquidity, working capital management, cash forecasting, cash budgeting and short-term investing and financing. Cases, spreadsheets and other methods are used extensively.

FINC 438. ENTREPRENEURIAL AND SMALL BUSINESS FINANCE. 4 Credits.
Pre-requisites: FINC 335.
Cases, spreadsheets and other analytical methods are applied to issues and problems in entrepreneurial and small business finance. Specific topics include the sources and sequencing of financing as the business develops, assessing, forecasting and managing short-term and long-term capital needs, developing a financial plan to match the business plan, and valuing the business from the investors' viewpoint.

FINC 439. CURRENT TOPICS IN FINANCE. 4 Credits.
Notes: may be repeated for credit if topics differ.
Pre-requisites: FINC 435.
Individual reports, team projects, team presentations and class discussion are used to examine current issues and problems in finance, business and the global economy.
FINC 441. PORTFOLIO MANAGEMENT I. 2 Credits.
Prerequisite: FINC 335. This is an introductory course dealing with the management of real dollar portfolios. Students enrolled in this course will be expected to enroll in FINC 442 and FINC 443 subsequent quarter. Topics covered include modern portfolio theory, security analysis and valuation, and portfolio performance evaluation. Students will also be involved in management of extant portfolios primarily as observers.

FINC 442. PORTFOLIO MANAGEMENT II. 2 Credits.
Prerequisite: FINC 441. This course is a continuation of FINC 441. Students enrolled in this class will be involved in the day-to-day management of real dollar portfolios. Responsibilities will include presentation of security recommendations, portfolio rebalancing, and analysis of portfolio risk. An end of quarter report will be prepared and presented.

FINC 443. PORTFOLIO MANAGEMENT III. 2 Credits.
Prerequisite: FINC 442. This course is a continuation of the information covered in FINC 441 and FINC 442. Students enrolled in this class will be involved in the day-to-day management of real dollar portfolios. Responsibilities will include presentation of security recommendations, portfolio rebalancing, and analysis of portfolio risk. An end of quarter report will be prepared and presented.

FINC 474. INTERNATIONAL FINANCE MANAGEMENT. 4 Credits.
Cross listed: IBUS 474.
Prerequisites: FINC 335.
This course discusses financial management in the international arena.

FINC 495. PROFESSIONAL INTERNSHIP. 1-5 Credits.
Notes: graded Pass/Fail.
Prerequisites: permission of the instructor, department chair and college dean.

FINC 496. EXPERIMENTAL COURSE. 1-15 Credits.
FINC 498. SEMINAR. 1-5 Credits.
FINC 499. DIRECTED STUDY. 1-5 Credits.
Prerequisites: permission of the instructor, department chair and college dean.

Food and Nutrition/Dietetics (FNDT)

FNND 356. NUTRITION. 5 Credits.
Notes: for health science majors.
This course, for health sciences majors, focuses on nutrients, processes of digestion, absorption, metabolism and nutritive requirements.

French (FREN)

FREN 101. FIRST-YEAR FRENCH I. 5 Credits.
Grammar, composition, conversation, and discussion of cultural topics.

FREN 102. FIRST-YEAR FRENCH II. 5 Credits.
Prerequisites: for FREN 102: FREN 101 or equivalent.
Grammar, composition, conversation, and discussion of cultural topics.

FREN 103. FIRST-YEAR FRENCH III. 5 Credits.
Prerequisites: FREN 102 or equivalent.
Grammar, composition, conversation, and discussion of cultural topics.

FREN 113. SPECIAL TOPICS IN FRENCH. 5 Credits.
Prerequisites: FREN 102.
A supplemental first-year course, covering grammar, composition and conversation and emphasizing discussion of cultural topics.

FREN 196. EXPERIMENTAL COURSE. 1-5 Credits.
FREN 199. INDEPENDENT STUDY. 1-15 Credits.
FREN 201. FRENCH GRAMMAR AND COMPOSITION. 5 Credits.
Prerequisites: first-year French or equivalent.
A review of basic French grammar and intensive practice of basic French composition.

FREN 202. FRENCH GRAMMAR AND COMPOSITION. 5 Credits.
Prerequisites: FREN 201 or equivalent.
A review of basic French grammar and intensive practice of basic French composition.

FREN 203. FRENCH GRAMMAR AND COMPOSITION. 5 Credits.
Prerequisites: FREN 202 or equivalent.
A review of basic French grammar and intensive practice of basic French composition.

FREN 296. EXPERIMENTAL COURSE. 1-10 Credits.
FREN 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-10 Credits.
FREN 299. SPECIAL STUDIES. 1-5 Credits.
Prerequisites: permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest.

FREN 305. FRENCH CONVERSATION. 2 Credits.
Prerequisites: FREN 201 or permission of the instructor.
Concentrated drill in French conversation, discussing such subjects as the culture, civilization and current events of France.

FREN 306. FRENCH CONVERSATION. 2 Credits.
Prerequisites: FREN 201 or permission of the instructor.
Concentrated drill in French conversation, discussing such subjects as the culture, civilization and current events of France.

FREN 310. ADVANCED GRAMMAR AND COMPOSITION. 4 Credits.
Prerequisites: FREN 203.
An advanced French course stressing the review of grammar in such practical applications as writing and translation.

FREN 320. FRENCH CIVILIZATION AND CULTURE I. 4 Credits.
Prerequisites: FREN 203 or permission of the instructor.
Political, social, intellectual and artistic development of French culture from the beginning through 1789, the French Revolution.

FREN 321. FRENCH CIVILIZATION AND CULTURE II. 4 Credits.
Prerequisites: FREN 203 or permission of the instructor.
Political, social, intellectual and artistic development of French culture from the French Revolution of 1789 to the present.

FREN 330. INTRODUCTION TO FRENCH LITERATURE. 4 Credits.
Notes: content varies; course may be repeated.
Prerequisites: FREN 203.
Reading and discussion of selections in French prose, drama and poetry.

FREN 396. EXPERIMENTAL COURSE. 1-5 Credits.
FREN 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
FREN 398. SEMINAR. 1-5 Credits.
Prerequisites: FREN 203 or permission of the instructor.
FREN 399. DIRECTED STUDY. 1-5 Credits.
Prerequisites: permission of the instructor, department chair and college dean.
FREN 430. 17TH CENTURY FRENCH LITERATURE AND CULTURE. 3 Credits.
Pre-requisites: FREN 203 or permission of the instructor.
A survey of the major movements and the outstanding writers of the Classical Period in the context of their society.

FREN 431. 18TH CENTURY FRENCH LITERATURE AND CULTURE. 3 Credits.
Pre-requisites: FREN 203 or permission of the instructor.
A survey of the major movements and the outstanding writers of the Age of Reason in the context of their society.

FREN 433. 19TH CENTURY FRENCH LITERATURE AND CULTURE. 3 Credits.
Pre-requisites: FREN 203 or permission of the instructor.
A survey of the major movements and the outstanding writers of the 19th century in the context of their society.

FREN 496. EXPERIMENTAL COURSE. 1-5 Credits.
FREN 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
FREN 498. SEMINAR. 1-5 Credits.
FREN 499. DIRECTED STUDY. 1-5 Credits.
FREN 515. APPLIED LINGUISTICS. 5 Credits.
Emphasis on analysis and written expression in French and development of communication skills.

FREN 525. FRENCH CULTURAL TRADITIONS. 5 Credits.
Notes: content varies according to the period covered, may be repeated for credit.
An investigation of the significant aspects of French Civilization since the beginning until and including Contemporary France.

FREN 530. FRENCH LITERARY STUDIES. 5 Credits.
Notes: content varies according to the period covered, may be repeated for credit.
The study of a period, a literary movement, or a particular author.

FREN 539. SEMINAR. 1-5 Credits.
FREN 596. EXPERIMENTAL COURSE. 1-5 Credits.
FREN 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

FREN 598. SEMINAR. 1-5 Credits.
FREN 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
FREN 696. EXPERIMENTAL COURSE. 1-5 Credits.

General Modern Languages (GNML)

GNML 101. 1ST YEAR LANGUAGE. 5 Credits.
GNML 102. 1ST YEAR LANGUAGE. 5 Credits.
GNML 103. 1ST YEAR LANGUAGE. 5 Credits.
GNML 196. EXPERIMENTAL COURSE. 1-5 Credits.
GNML 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
GNML 199. DIRECTED STUDY. 1-5 Credits.
GNML 212. MODERN WORLD MASTERPIECES. 5 Credits.
Satisfies: GEGR for humanities and fine arts, list 1, literature.
Literary works selected from 19th and 20th century world literature which illustrate themes and ideas central to modern Western culture, especially emphasizing the role of the individual in modern society.

GNML 296. EXPERIMENTAL COURSE. 1-5 Credits.
GNML 298. SEMINAR. 1-2 Credits.
Seminar.

GNML 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
GNML 396. EXPERIMENTAL COURSE. 1-5 Credits.
GNML 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

Geography (GEOG)

GEOG 100. FUNDAMENTALS OF THE PHYSICAL ENVIRONMENT. 5 Credits.
Satisfies: a GEGR for natural sciences, geography.
An introduction to the principal components of the earth’s natural systems of weather, climate, water, soils, natural vegetation and landforms and their interrelationships.
GEOG 101. FUNDAMENTALS OF HUMAN GEOGRAPHY. 5 Credits.
Satisfies: GEGR for social sciences, list #2, anthropology, geography, psychology and sociology.
An introduction to the study of spatial variations among human cultures and the patterns of interaction between humans and the natural environment, with special emphasis on topics including language, religion, demography, political systems, technology, agriculture, manufacturing and urbanization.
GEOG 115. INVESTIGATING EARTH SCIENCE. 5 Credits.
Cross listed: GEOL 115.
Pre-requisites: pre-university basic skills in mathematics.
Satisfies: a GECR for natural sciences, geology.
For students planning to teach elementary school. Includes inquiry-based earth science investigations that support science instruction outlined in the National Science Education Standards and Washington Essential Academic Learning Requirements.

GEOG 195. INTERNSHIP. 1-15 Credits.

GEOG 201. INTRODUCTION TO FIELD RESEARCH. 5 Credits.
This course presents the fundamentals of field research design and performance.

GEOG 204. ATMOSPHERIC ENVIRONMENT. 5 Credits.
Satisfies: a GECR for natural sciences, geography.
An introduction to the earth-atmosphere system. The course surveys the physical nature of the atmosphere including weather elements, weather systems and climate. The course addresses the social and environmental issues related to natural and human induced changes in the composition of the atmosphere.

GEOG 226. INTRODUCTION TO GIS SOFTWARE DESIGN. 2 Credits.
This course provides hands-on experience and teaches students technical proficiency using GIS software through demonstration and laboratory exercises.

GEOG 227. INTRODUCTION TO MAP AND AIR PHOTO ANALYSIS. 3 Credits.
Pre-requisites: GEOG 100 or GEOG 101 or permission of instructor.
The primary focus of this course is mastering the uses of maps and remote imagery as sources of geographic information, both environmental and cultural. Special attention will be directed toward maps as communication devices. The course assumes no specific prior knowledge about maps and mapping and will be of value for those wishing to move on to cartography and geographic information systems (GIS) courses as well as general background for social science and education majors.

GEOG 230. WORLD REGIONAL GEOGRAPHY. 5 Credits.
Satisfies: international studies university graduation requirement.
A survey of world geographical relationships. Includes an examination of the distribution of selected physical and human phenomena and the processes responsible for the distributions and the varying interrelationships from place to place between humans and the environment.

GEOG 250. GLOBAL ECONOMIC DEVELOPMENT. 3 Credits.
This course is a survey of the patterns, structures and locational principles of economic activity, including world regional and historical economic development, natural resources, agriculture, manufacturing, transportation, communications and the distribution of service sectors. Particular emphasis will be placed on the process of globalization, free trade and the increasing significance of space and place in the 21st century global economy.

GEOG 299. SPECIAL STUDIES. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interest.

GEOG 300. PHYSICAL GEOGRAPHY. 5 Credits.
Pre-requisites: GEOG 100 or permission of the instructor.
Systematic study of physical events and processes within the human environment including elements of landforms, weather and climate, vegetation and soils.

GEOG 301. HUMAN GEOGRAPHY. 5 Credits.
Pre-requisites: successful completion of ENGL 201.
A study of humans, focused on their interaction with the physical and cultural environments of the earth.

GEOG 305. INTRO TO OCEANOGRAPHY. 5 Credits.
Pre-requisites: mathematics clearance.
An introduction to the nature, occurrence, distribution and interrelationships of phenomena in the oceans, the basins and margins.

GEOG 306. VEGETATION ECOLOGY OF NORTH AMERICA. 5 Credits.
Cross listed: BIOL 306.
Pre-requisites: GEOG 100 or permission of the instructor.
This course is an introduction to the processes and patterns of vegetation, emphasizing the Pacific Northwest.

GEOG 312. FUNDAMENTALS OF SOIL SCIENCE. 3 Credits.
Cross listed: BIOL 312.
Pre-requisites: MTHD 104 or clearance by test.
A general introduction to physical, chemical and biological properties of soils.

GEOG 314. WEATHER AND CLIMATE. 5 Credits.
Pre-requisites: GEOG 204 or 10 credits of upper division science or permission of the instructor.
Includes the principles of meteorology, description and use of instruments, weather and climate controls.

GEOG 315. SURFACE HYDROLOGY. 4 Credits.
Pre-requisites: mathematics clearance.
A comprehensive treatment of the hydrologic environment of the earth. Topics include: components of the hydrologic cycles, hydrography of major climate regions, water quality assessment and global water resource problems.

GEOG 317. RESOURCES AND CONSERVATION. 3 Credits.
Studies the nature and distribution of natural resources, and problems and principles of their use and conservation.

GEOG 320. MIDDLE EASTERN HISTORY AND CULTURE. 5 Credits.
Cross listed: ANTH 320, HIST 320.
Examines the various ethnic, religious and national communities of the Middle East in historical and contemporary context.

GEOG 321. GIS FOR SOCIAL SCIENCES. 3 Credits.
Pre-requisites: CPLA 101.
Introduction to Geographic Information Systems (GIS) with an emphasis on its applications in the Social Sciences, including census data, demographic analysis, social justice, and related mapping of social phenomena. Course includes hands-on GIS work in the lab.

GEOG 322. GIS FOR ENVIRONMENTAL SCIENCES. 3 Credits.
Cross listed: ENVS 322.
Pre-requisites: CPLA 101 or CPLA 120.
Introduction to Geographic Information Systems (GIS) with an emphasis on its application in the Environmental Sciences. Course includes hands-on GIS work in the lab. This course satisfies an option for the Certificate in GIS.

GEOG 325. WETLAND SCIENCE I. 4 Credits.
Pre-requisites: permission of the instructor.
An introduction to the fundamental processes that form and sustain wetlands. Emphasizes the distinctive hydrology, soils, and vegetation of wetlands and field experience in delineation. Examines issues of regulation. Focus is on Pacific Northwest wetlands.
GEOG 328. GEOGRAPHIC INFO SYSTEMS I. 5 Credits.
Pre-requisites: Computer Literacy.
Introductory survey of geographic information systems. Focus is on (1) computer techniques for the input, storage, manipulation, analysis, and output of spatial data, and (2) the social and administrative creation and dissemination of geographic information. Lecture and laboratory.

GEOG 329. AIR PHOTO INTERPRETATION. 5 Credits.
Pre-requisites: junior standing or permission of the instructor.
Aerial photographs as records of the earth surface; recognition, measurement, and interpretation of natural and man-made features.

GEOG 330. GEOGRAPHY OF THE PACIFIC NORTHWEST. 4 Credits.
Pre-requisites: junior standing.
An introduction to regional geographic studies on a local scale. A survey and appraisal of the interrelated elements of the economy, resources, population and physical environment as they affect the growth and development of the region.

GEOG 332. GEOGRAPHY OF LATIN AMERICA. 4 Credits.
Pre-requisites: junior standing.
The study of the physical and human geography of the Americas south of the Rio Grande. Emphasizes explanatory description.

GEOG 333. GEOGRAPHY OF MONSOON ASIA. 4 Credits.
This course is a regional study of non-Russian Asia and adjacent islands, from humid monsoon lands of the far east to the arid eastern Mediterranean.

GEOG 334. THE HISTORICAL GEOGRAPHY OF CANADA. 4 Credits.
Cross listed: HIST 334.
Canada occupies a strategic place in world geography owing to its central location with regard to Europe, Asia and the United States; its resource base, its role in regional and world organizations and the distinctive national characteristics and traditions that its peoples have developed. This course provides an overview of the major geographic regions of Canada based on physical environments, history, settlement patterns, natural resources, transportation and industry, urbanization and cultural and ethnic diversity.

GEOG 335. GEOGRAPHY OF THE PACIFIC RIM. 4 Credits.
The growing importance of the nations surrounding the Pacific Ocean in world economic development and international relations has been apparent since the early 1900s, but today, at the threshold of a new century, it is of critical importance. The destiny of the United States, and the Pacific Northwest in particular, is inextricably linked to events in such places as China, Japan, the Koreas, Indonesia, Australia, Latin America, Canada and Russia, to name but a few. This course will focus on the major trading nations of the Pacific Rim and examines their relationships with the nations of North America and each other with an approach that blends geography, economics, political science and cultural awareness.

GEOG 336. GEOGRAPHIES OF CONFLICT IN THE MIDDLE EAST. 5 Credits.
Cross listed: ANTH 336, HIST 336.
Examines the Middle East and its various ethnic, political, economic, religious and environmental conflicts from a geographic perspective. The course’s holistic combination of geographic and anthropological inquiry will offer insights into how the natural environment and built environment interact and engage with the cultural and political landscapes of the Middle East.

GEOG 355. THE GEOGRAPHY OF THEME PARKS. 2 Credits.
Pre-requisites: ENGL 201.
Examination of the geographic history and characteristics of the theme park as a ‘serious’ part of the built environment. We consider the environmental, economic, political, cultural, architectural, and technological impacts of theme parks on urban and suburban space around the world.

GEOG 357. THE GEOGRAPHY OF CHILDHOOD. 3 Credits.
Pre-requisites: ENGL 201.
Examination of the geographic aspects of childhood across space and time. Focus on how cultures in different places and at different times have created, maintained, and controlled spaces for children, including where children are born, who cares for infants, the conditions of schooling, leisure spaces provided, and the ‘virtual geographies’ of television and the internet.

GEOG 390. EARTH SCIENCE TEACHING METHODS. 1 Credit.
Cross listed: GEOL 390.
Pre-requisites: GEOL 120, GEOL 121, GEOG 314, PHYS 121; EDUC 303 or permission of the instructor. SCED 390 co-requisite.
This course is designed for Earth Science majors planning to teach middle school, junior or senior high school. It includes the development of curriculum and the organization of teaching materials, techniques and evaluation.

GEOG 392. SEMINAR IN HISTORY AND PHILOSOPHY OF GEOGRAPHY. 2 Credits.
Pre-requisites: junior standing or permission of the instructor.
The development of geographic thought from early to contemporary time.

GEOG 396. EXPERIMENTAL COURSE. 1-6 Credits.

GEOG 399. DIRECTED STUDY. 1-6 Credits.
Notes: maximum of 6 credits may be earned.
Pre-requisites: permission of the instructor.
Individual study concerned with an appropriate problem closely directed by a geography staff member. Science or social studies credits may be earned depending on the nature of the problem undertaken.

GEOG 406. WOMEN AND MEN IN THE CULTURAL LANDSCAPE. 1 Credit.
Cross listed: WMST 406.
The created landscape reflects human values and experience. This course examines ways in which women and men create, use and experience the humanized landscape. We will examine spatial patterns of human activity from a variety of times and places, linking geographic theory to everyday environments. The course will include map work, slide analysis and a field exercise as tools for identifying and interpreting cultural landscapes.

GEOG 410. GEOMORPHOLOGY. 5 Credits.
Pre-requisites: GEOG 100 or GEOL 121 or permission of the instructor.
This course treats the development of the surface features of the earth caused by mountain-building, weathering, erosion and deposition.

GEOG 420. APPLIED GEOGRAPHIC STUDIES. 2-5 Credits.
Notes: May be repeated for different problems.
Pre-requisites: junior or permission of the instructor.
Credits vary, depending on type of study undertaken. Problem formulation and analysis as they apply to geographic studies. Practical use of geographical techniques mainly for student-originated studies.
GEOG 427. DESKTOP MAPPING. 3 Credits.
Pre-requisites: CPLA 101 or permission of the instructor.
Advanced production of maps and related graphics using computer techniques. Emphasis is placed on the design and creation of thematic maps. Lecture and laboratory.

GEOG 428. GEOGRAPHIC INFORMATION SYSTEMS II. 5 Credits.
Pre-requisites: GEOG 328.
Advanced course in geographic informations systems and their applications. Through detailed examination of conceptual issues and in-depth laboratory work, students develop and implement a project that involves the computer analysis of spatial data. Lecture and laboratory.

GEOG 429. GEOGRAPHIC INFORMATION SYSTEMS III. 5 Credits.
Pre-requisites: GEOG 428 or permission of the instructor.
Advanced course in geographic information systems and their applications. Each student will be responsible for designing and carrying out a GIS project using real world data. Course required for certification in GIS.

GEOG 436. POLITICS OF CULTURE: ISRAEL AND PALESTINE. 5 Credits.
Cross listed: ANTH 436, HIST 436.
Examines the role of culture in the political struggles between Israelis and Palestinians. Explores the influence of national, religious, ethnic and historical narratives in the conceptualization of the Israeli-Palestinian conflict. This course will consider how a detailed knowledge of these ‘politics of culture’ can provide meaningful insights to potential avenues of cultural reconciliation and, ultimately, a more peaceful environment for Israelis and Palestinians.

GEOG 437. WOMEN AND ISLAM. 5 Credits.
Cross listed: ANTH 437, HIST 437, WMST 437.
Pre-requisites: junior or senior standing.
This course examines the status and identity of women in Islamic communities throughout the world and assesses how different interpretations of Islam, as a simultaneous religious, social, cultural, political and economic system, influences perceptions of women within Islamic communities. It further considers the perceptions of Islam vis-à-vis women and Islamic women themselves by non-Muslim communities.

GEOG 438. PEACE, VIOLENCE AND CULTURE. 5 Credits.
Cross listed: ANTH 438, HIST 438.
Pre-requisites: junior or senior standing.
This course is a collective exercise in critical thinking on the intersection and interaction of peace, violence and culture. It explores the cultural dimensions of peace and violence, including the role of culture in defining and understanding the manifestation and enactment of peace and violence both by and against individuals as well as groups.

GEOG 450. GLOBAL TRANSPORT DEVELOPMENT. 3 Credits.
Pre-requisites: GEOG 101 or permission of the instructor.
Transportation, involving the movement of goods, people and information, is the most tangible expression of interaction between regions and places. Because it is a major force in shaping the landscape, transportation studies assume a central position in the field of geography. The creation of rapid and economical access is central to the process of development at local, regional and national scales. Changes in modes of transport, particularly since the mid-19th century, have revolutionized trade, travel and communication. The evolution of transport networks has been critical in fostering urbanization and a specialized space economy. In this course we will explore the basic concepts of geographical transportation analysis and apply them to a variety of historical and contemporary topics.

GEOG 459. POLITICAL GEOGRAPHY. 3 Credits.
Pre-requisites: junior standing or permission of the instructor.
Spatial aspects of political phenomena. Examines the geographical environment as it affects and is affected by political phenomena.

GEOG 465. URBAN GEOGRAPHY: ORIGINS, FORMS AND FUNCTIONS. 3 Credits.
Urbanization has been such a central aspect of human civilization that the forces affecting cities and towns are almost as diverse as those shaping culture itself. This course in urban geography will deal with two major aspects of urbanization: the role, purpose and evolution of cities; and the processes at work in our society that both create and transform the physical structure of cities. Because urban places are central to our economy as well as society, we will consider a broad and varied range of material from other academic disciplines, with the primary focus on the North American city.

GEOG 469. BUILT ENVIRONMENTS OF NORTH AMERICA: SYMBOL AND STRUCTURE. 3 Credits.
Cross listed: HIST 469, PLAN 469.
Pre-requisites: GEOG 101 or permission of the instructor.
This course is a survey of North American architectural landscapes from the colonial period to the present. This course will examine such topics as the diffusion of major styles of residential, commercial and public architecture across the continent, the relationship of geology and climate to the availability of building materials and technology and the effects of these on the human built environment, especially in the Pacific Northwest. Special emphasis will be placed on the visual differentiation of building styles and the symbolic, political and philosophical foundations of architectural form and decoration.

GEOG 490. THE GEOGRAPHER'S CAPSTONE. 5 Credits.
Pre-requisites: senior standing or permission of the instructor.
Satisfies: senior capstone university graduation requirement.
This course is a departmental capstone highlighting original geographic research projects designed by students, integrating both physical and human geography topics. The course culminates in a Geography Conference that students plan and host to display their work.

GEOG 493. GIS PORTFOLIO. 2 Credits.
Pre-requisites: GEOG 429 or permission of the instructor.
Exit synthesis for the certificate in GIS or related GIS studies. Students will produce two versions of a GIS portfolio highlighting their GIS work, one in hard copy and one on the web using appropriate web publishing and map serving software.

GEOG 495. INTERNSHIP IN GEOGRAPHY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

GEOG 496. EXPERIMENTAL COURSE. 1-5 Credits.

GEOG 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-15 Credits.

GEOG 498. SEMINAR. 1-5 Credits.
Pre-requisites: 15 credits successfully completed in geography or permission of the instructor.
Advanced group study. Discussion topics selected for each seminar.

GEOG 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
GEOG 505. SPATIAL THEORY. 5 Credits.
This seminar focuses on the development and evolution of spatial theory both within and beyond the discipline of geography. Working from a global perspective, students explore and critically compare seminal theoretical contributions and their broader social contexts that underscore specific moments in the history of geographical studies. We investigate the ways in which contemporary western geographic thought is inseparable from the interconnected global networks within which it emerged. Original texts are used as often as possible and form the core of seminar discussion material.

GEOG 515. SPATIAL METHODS. 5 Credits.
This course provides advanced experience with the qualitative and quantitative methods of spatial research. Students research, compare and critically apply a variety of geographic methods to different case study scenarios in order to develop proficiency across the spectrum of geographic methods. Priority is given to contemporary digital methods, but older forms are introduced for comparative purposes also. Throughout the course, students build up a suite of methods they then will apply later in the program to their own research.

GEOG 521. GIS FOR SOCIAL SCIENCES. 5 Credits.
This course emphasizes the application of Geographic Information Systems in the Social Sciences, including census data, demographic analysis, social justice and related mapping of social phenomena. Course includes hands-on GIS work in the lab.

GEOG 522. RESEARCH DESIGN. 3 Credits.
Cross listed: ANTH 522.
Provides for the continued development of a practical toolkit with which to conduct applied social science research. Addresses research design elements necessary in areas such needs assessments and program evaluations through techniques such as participatory research, action research, evaluation, assessment and surveying. The course covers development of research proposals for independent, grant funded or contract designs.

GEOG 523. GIS FOR ENVIRONMENTAL SCIENCE. 3 Credits.
This course emphasizes the application of Geographic Information Systems in the Environmental Sciences, including mapping and analysis of topographical, hydrological, geological, biological, and other environmental data. The course includes hands-on GIS work in the lab.

GEOG 525. DATA ANALYSIS AND VISUALIZATION. 3 Credits.
Cross listed: ANTH 525.
Pre-requisites: ANTH 522 or GEOG 522.
This course introduces students to data analysis and data visualization. In particular, students will learn basic data analysis approaches, explore their use and apply them to qualitative and quantitative data sets. In addition students will synthesize the results of their data analysis into a variety of data visualization formats.

GEOG 527. DESKTOP MAPPING. 3 Credits.
This course explores the various ways that spatial information is communicated through cartographic and related methods. The course covers both contemporary theories of cartographic visualization and applied digital design strategies. Includes hands-on lab work using GIS and related mapping software.

GEOG 528. GEOGRAPHIC INFORMATION SYSTEMS I. 5 Credits.
Introductory survey of geographic information systems. Focus is on (1) computer techniques for the input, storage, manipulation, analysis and output of spatial data and (2) the social and administrative creation and dissemination of geographic information.

GEOG 531. TOPICS IN SOCIAL JUSTICE. 5 Credits.
Notes: may be repeated for credit when topics differ.
This seminar examines the breadth of research in human geography focused on issues related to social justice. Through an intensive engagement with relevant literature, students will be exposed to a series of select historical and contemporary debates in critical human geography as we examine the ontological, epistemological and practical dilemmas concerning research driven by and concerned with social justice.

GEOG 533. TOPICS IN ENVIRONMENTAL JUSTICE. 5 Credits.
Notes: may be repeated for credit when topics differ.
This seminar examines the breadth of research in human and physical geography focused on issues related to environmental justice. Through an intensive engagement with relevant literature and contemporary data, students will be exposed to a series of select historical and contemporary debates in critical geographic studies as we examine the ontological, epistemological and practical dilemmas concerning research driven by and concerned with environmental justice.

GEOG 536. GIS PROGRAMMING. 5 Credits.
Pre-requisites: GEOG 528.
This is an advanced course in GIS programming concepts and techniques. Students will be exposed to both legacy and contemporary programming languages integrated with GIS packages. Emphasis will be on creating and interpreting scripts using languages supported by current GIS software. The course includes hands-on GIS and programming work in the lab.

GEOG 538. GEOGRAPHIC INFORMATION SYSTEMS II. 5 Credits.
Pre-requisites: GEOG 528.
This course focuses on the design and implementation of geographic information system database structures. Emphasis is on the construction and analysis of contemporary and legacy vector structures, with basic exploration of raster structures. The course includes hands-on GIS work in the lab.

GEOG 548. GEOGRAPHIC INFORMATION SYSTEMS III. 5 Credits.
Pre-requisites: GEOG 528 and GEOG 538.
This is an advanced course in GIS project design and execution. Students will be expected to work independently on a "real-world" GIS project based on either thesis research or an on-going project developed with a community partner. Students will oversee all stages of the project from design to data collection to presentation of results. The course is required for the GIS Certificate program.

GEOG 549. GIS PORTFOLIO. 2 Credits.
Pre-requisites: GEOG 548 or permission of the instructor.
Advanced GIS course for students finishing their graduate degree and/or GIS Certificate program. This class will offer students the opportunity to review and revise previous work, arrange it into a portfolio, provide supporting documentation and metadata, and, optionally, create a web page featuring the portfolio material.

GEOG 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

GEOG 599. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
GEOG 600. THESIS. 5 Credits.

Notes: may be repeated.

Pre-requisites: permission of the instructor, department chair and college dean.

The goal of this course is the successful production of a master's thesis of defensible quality. The master's thesis will be the presentation of original research in the field of geography and critical GIS. This document provides partial fulfillment of the MA requirement. This course provides an opportunity to sharpen research, writing and organizational skills under the direction of the student's graduate committee.

GEOG 601. RESEARCH PROJECT. 5 Credits.

Notes: may be repeated.

Pre-requisites: permission of the instructor, department chair and college dean.

The goal of this course is the successful completion of a master's research project of defensible quality. The research project will be the culmination of applied research in the field of geography and critical GIS. This research project provides partial fulfillment of the MA requirement for student's not pursuing the thesis track. This course provides the opportunity to sharpen research, writing, cartographic, advocacy and organizational skills under the direction of the graduate committee.

GEOG 696. COLLEGE TEACHING INTERNSHIP. 5 Credits.

Geology (GEOL)

GEOL 100. DISCOVERING GEOLOGY. 5 Credits.

Satisfies: a GECR for natural sciences, geology.

This course explores the interactions between human beings and their geological environment. The earth is a dynamic planet affected by sudden, violent events such as volcanic eruptions, earthquakes and floods, as well as by slower processes operating over long time spans that create, move, and destroy continents and oceans. Other topics include study of energy, mineral and water resources and their importance to modern society. Topics are presented at a level intended for nonscience majors. Satisfies lab science requirement at most universities.

GEOL 115. INVESTIGATING EARTH SCIENCE. 5 Credits.

Cross listed: GEOG 115.

Pre-requisites: pre-university basic skills in mathematics.

Satisfies: a GECR for natural sciences, geology.

For students planning to teach elementary school. Includes inquiry-based earth science investigations that support science instruction outlined in the National Science Education Standards and Washington Essential Academic Learning Requirements.

GEOL 120. PHYSICAL GEOLOGY - THE SOLID EARTH. 5 Credits.

Pre-requisites: MTHD 104 or equivalent and restricted to the following: Computer Science (BS only), Earth and Space Science, Environmental Science or Geology or by permission of the instructor.

Satisfies: the completion of GEOL 120 counts as one course for the GECR in natural sciences, geology; the completion of GEOL 120 and GEOL 121 counts as two courses for the GECR for natural sciences, geology. Introduction to physical geology for students interested in earth and environmental science. This course covers the origin of the earth, its internal structure and minerals, rocks and volcanoes. Earthquakes, mountains and continental drift are discussed in the context of plate tectonics. The formation of mineral deposits is also covered. Weekly laboratories and one field trip are required.

GEOL 121. PHYSICAL GEOLOGY - SURFICIAL PROCESSES. 5 Credits.

Pre-requisites: computer literacy, MTHD 104 or equivalent and restricted to the following: Computer Science (BS only), Earth and Space Science, Environmental Science or Geology or by permission of the instructor.

Satisfies: the completion of GEOL 121 counts as one course for the GECR in natural sciences, geology; the completion of GEOL 120 and GEOL 121 counts as two courses for the GECR for natural sciences, geology. Introduction to physical geology for students majoring in geology, earth science or environmental science. This course emphasizes the quantitative analysis of processes that shape the earth's surface (gravity, wind, water and ice) including weathering and erosion, the creation of sediments and sedimentary rocks and the development of landforms. Energy resources and the concept of earth systems are also explored. Weekly laboratories and one field trip are required.

GEOL 122. HISTORICAL GEOLOGY. 5 Credits.

Pre-requisites: GEOL 121.

Introduction to earth history for students majoring in geology, earth science, or environmental science. This course covers the diversity of life, catastrophic extinctions, and the effect of biologic change on the environment. The basic principles of stratigraphy, use of stable isotopes to interpret sedimentary environments, and the stratigraphic and tectonic history of the earth are also explored. Other topics include identification of the common fossil groups, survey of the fossil record in the context of geological evolution, and practice using geologic maps. Weekly laboratories and one field trip are required.

GEOL 196. EXPERIMENTAL COURSE. 1-5 Credits.

GEOL 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 2 Credits.

GEOL 296. EXPERIMENTAL COURSE. 1-3 Credits.

GEOL 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

GEOL 299. SPECIAL STUDIES. 1-5 Credits.

Pre-requisites: permission of the instructor, department chair and college dean.

Topics vary with interest of student and instructor.

GEOL 311. EARTH MATERIALS. 4 Credits.

Pre-requisites: GEOL 120 and CHEM 151.

This course is an introduction to the materials that comprise the solid earth, including minerals, igneous, sedimentary and metamorphic rocks. The course includes discussions of their occurrence, associations and uses. Methods of identification are stressed during laboratory exercises.

GEOL 312. CRYSTALLOGRAPHY AND OPTICAL MINERALOGY. 4 Credits.

Pre-requisites: GEOL 311.

This second course of a three-course series covers how to describe the external morphology of well-formed crystals using crystallographic techniques. In addition, the techniques of optical mineralogy using a petrographic microscope are introduced as a tool for identifying rock-forming (silicate) minerals.

GEOL 313. IGNEOUS AND METAMORPHIC PETROLOGY. 4 Credits.

Pre-requisites: GEOL 311 and GEOL 312.

The third course in a series is a comprehensive study of the classification, description, and origin of igneous and metamorphic rocks. Students will learn about the use of minerals in helping to interpret the geologic and tectonic significance of the rocks in which they are found. The course builds on skills learned in GEOL 311 and GEOL 312 and stresses hand sample and thin section descriptive techniques. Weekly laboratories as well as one weekend field trip are required. Additional field trips may be offered.
GEOL 30. ENVIRONMENTAL GEOLOGY. 4 Credits.
Pre-requisites: GEOL 100, GEOL 120 or GEOL 121.
Relationship of human activities with earth materials and processes, water quality, atmospheric composition, waste disposal, natural resources, the importance of an interdisciplinary approach to environmental problems. Field trips emphasize local environmental problems. Laboratory.

GEOL 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

GEOL 360. GEOLOGIC HAZARDS. 4 Credits.
Pre-requisites: GEOL 100, GEOL 115, GEOL 120, GEOL 121 or GEOG 100 or GEOG 115.
Introduction to geologic hazards affecting humankind; emphasis on earthquakes, volcanism, floods and landslides. Applications to geological site engineering and city/regional planning.

GEOL 380. WORLD RESOURCES AND POPULATION. 5 Credits.
Satisfies: international studies university graduation requirement. Interaction between population and resource utilization. Renewable and non-renewable energy resources, food and water supply, soil erosion and degradation and deforestation will be related to population growth.

GEOL 390. EARTH SCIENCE TEACHING METHODS. 1 Credit.
Cross listed: GEGO 390.
Pre-requisites: GEOL 120, GEOL 121, GEOG 314, PHYS 121; EDUC 303 or permission of the instructor. SCED 390 co-requisite.
This course is designed for Earth Science majors planning to teach middle school, junior or senior high school. It includes the development of curriculum and the organization of teaching materials, techniques and evaluation.

GEOL 396. EXPERIMENTAL COURSE. 1-6 Credits.

GEOL 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

GEOL 399. DIRECTED STUDY. 1-5 Credits.

GEOL 408. INVERTEBRATE PALEONTOLOGY. 4 Credits.
Pre-requisites: GEOL 121, GEOL 122 or permission of the instructor. Principles of paleontology including methods of description and analyses of invertebrate fossils. Emphasis on principles of morphology and evolutionary development of invertebrates and the use of invertebrate fossils in biostratigraphy and paleoecology. Laboratory.

GEOL 411. SEDIMENTOLOGY AND STRATIGRAPHY. 4 Credits.
Pre-requisites: GEOL 122 and GEOL 311.
Study of the origin of sediments and sedimentary rocks for advanced geology majors. Description and interpretation of facies and environments of deposition and classification of clastic and chemical sedimentary rocks is emphasized. Stratigraphic principles, nomenclature and correlation is also treated. Lecture and weekly laboratory.

GEOL 425. GEOLOGY OF EASTERN WASHINGTON. 4 Credits.
Pre-requisites: GEOL 122 or permission of the instructor.
Study of the local geology in lectures and a series of field trips. Includes field projects and techniques used during geologic mapping. Observing and recording geologic data in the field, and presenting it in terms of a written report and a sketch geologic map of a site-specific area.

GEOL 430. STRUCTURAL GEOLOGY I. 4 Credits.
Pre-requisites: GEOL 411.
Analysis of the kinematics and mechanics of rock deformation and an introduction to geologic structures. Laboratory introduces the solution of structural geology problems, the map-based interpretation of geologic structures and the creation of geologic cross sections. Weekly laboratory exercises. Designed to be taken in series with GEOL 431.

GEOL 431. STRUCTURAL GEOLOGY II. 4 Credits.
Pre-requisites: GEOL 430.
Continuation of an introduction to geologic structures from GEOL 430 and an exploration of the plate tectonic setting of geologic structures. Introduction to the field study of geologic problems with weekly field trips that emphasize the collection and analysis of geologic field data to solve structural problems. Weekly field trips and laboratory exercises required.

GEOL 455. GEOLOGY OF THE COLORADO PLATEAU. 4 Credits.
Notes: course fee.
Pre-requisites: GEOL 100 or permission of the instructor.
This course is a week-long field study of the rocks and landforms of the Colorado Plateau region, specifically in Arches and Canyonlands National Parks. Geologic evolution and structural geology of the region will be discussed and the ancient sedimentary environments of deposition will be emphasized. A field trip will be held during the week of spring break.

GEOL 462. PRINCIPLES OF GEOCHEMISTRY. 5 Credits.
Pre-requisites: GEOL 311, GEOL 312, GEOL 313 or permission of the instructor.
Application of principles of geochemistry to environmental problems, including air and water pollution, water-rock interactions, weathering and soil formation. Origin, distribution and transport of inorganic contaminants in air, water, soils, sediments and plants. The behavior of trace elements in near surface environments.

GEOL 463. ENVIRONMENTAL GEOCHEMISTRY. 5 Credits.
Pre-requisites: CHEM 152 or permission of the instructor.
Application of principles of geochemistry to environmental problems, including air and water pollution, water-rock interactions, weathering and soil formation. Origin, distribution and transport of inorganic contaminants in air, water, soils, sediments and plants. The behavior of trace elements in near surface environments.

GEOL 466. ISOTOPIC TRACERS IN THE ENVIRONMENT. 4 Credits.
Pre-requisites: ≥2.0 in CHEM 153.
This course focuses on the principles and application of radioactive, cosmogenic and stable isotopes as environmental tracers in soil, water, atmosphere and biological materials. Topics include the variations in isotopic composition of natural materials and the processes behind these variations (e.g., fractionation, radioactive decay, mineral dissolution).

GEOL 470. HYDROGEOLOGY. 4 Credits.
Pre-requisites: GEOL 120 or GEOL 121, MATH 142, or permission of the instructor.
Relationship between groundwater and geologic materials, emphasizing quantitative analysis and principles governing groundwater flow. Lecture and weekly lab.
GEOL 475. ENGINEERING GEOLOGY OF SOILS: INTRODUCTION TO GEOTECHNICAL ENGINEERING. 4 Credits.
Pre-requisites: GEOL 313, GEOL 320, GEOL 411 or GEOL 470 or permission of the instructor.
Introduction to theory and lab practice in geotechnical engineering. Content includes engineering properties of soil and rock; ASTM standard laboratory tests for particle size distribution, liquidity/plasticity, compaction, shear strength, permeability, consolidation, CBR, and others; as well as Unified Soil Classification System.

GEOL 485. GEOTECHNICAL ENGINEERING OF SOILS AND FOUNDATIONS. 4 Credits.
Pre-requisites: GEOL 475.
This course uses the principles of rock and soil mechanics to evaluate the stability of natural and engineered slopes, aid in design of earthworks and foundations, and plan the construction of dams, levees, aqueducts and other waterworks.

GEOL 490. SENIOR CAPSTONE: GEOLOGY FIELD CAMP. 10 Credits.
Pre-requisites: junior or senior standing and permission of the instructor.
Satisfies: senior capstone university graduation requirement.
This course applies geologic principles to the solution of field problems in the Rocky Mountain fold and thrust belt. This four-week course of study includes geologic mapping, description of stratigraphic relationships, structural analysis, and GPS data collection. Maps, cross sections, and a formal report of the field study are required. Location of the camp is Dillon, Montana. Prerequisites: Junior or senior standing and permission of the instructor. Course fee is to be determined.

GEOL 490A. SENIOR CAPSTONE: WATER AND THE WEST, WATER RESOURCE ENGINEERING IN ARID LANDS. 4 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement. This course focuses on the relationships between human activities and water resources in the largely arid western United States. Topics include tectonic and meteorological controls on the distribution and quantity of water, the history of conflict over scarce surface and groundwater resources, and construction dams, aqueducts, and other engineered structures to solve water scarcity problems. Case studies involve examples from the western United States and other countries including dry-land irrigation in Israel, dam building in Egypt and China, and fishery loss in Mexico.

GEOL 490B. CAPSTONE: ENVIRONMENTAL GEOCHEMISTRY. 5 Credits.
Cross listed: ENVS 490.
Pre-requisites: CHEM 152 or permission of instructor.
Satisfies: senior capstone university graduation requirement. Application of principles of geochemistry to environmental problems, including air and water pollution, water-rock interactions, weathering and soil formation. Origin, distribution and transport of inorganic contaminants in air, water, soils, sediments and plants. The behavior of trace elements in near surface environments.

GEOL 491. SENIOR THESIS. 4 Credits.
Pre-requisites: senior standing and permission of the instructor.
Satisfies: senior capstone university graduation requirement. Directed research on a geological problem and organization of the results for oral and written presentation. End of program assessment will be required.

GEOL 495. PRACTICUM IN GEOLOGY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Participation in supervised experiences involving acquisition of data or applications of knowledge to help solve geologic problems. Credits earned in this course are not applicable to degree requirements.

GEOL 496. EXPERIMENTAL COURSE. 1-10 Credits.

GEOL 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

GEOL 498. SEMINARS. 1-5 Credits.

GEOL 499. DIRECTED STUDY. 1-5 Credits.

Notes: may be repeated for a total of 15 credits if a different study is undertaken each time.

Pre-requisites: permission of the instructor, department chair and college dean.
Seminars in a selected field of geology to suit a student’s field of interest.

GEOL 596. EXPERIMENTAL COURSE. 1-5 Credits.

GEOL 599. INDEPENDENT STUDY. 1-5 Credits.

GEOL 600. THESIS. 2-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Thesis credit is essential to the geology program. Every student will be expected to produce a resume of his/her research in the form of a formal report or thesis.

German (GERM)

GERM 101. FIRST-YEAR GERMAN I. 5 Credits.
The beginning German sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

GERM 102. FIRST-YEAR GERMAN II. 5 Credits.
Prerequisite GERM 101 or equivalent. The beginning German sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

GERM 103. FIRST-YEAR GERMAN III. 5 Credits.
Pre-requisites: GERM 102 or equivalent.
The beginning German sequence of courses, covering grammar, composition, conversation, and discussion of cultural topics.

GERM 113. SPECIAL TOPICS IN GERMAN. 5 Credits.
Pre-requisites: GERM 102 or equivalent.
A supplemental first-year course, covering grammar, composition and conversation and emphasizing discussion of cultural topics.

GERM 196. EXPERIMENTAL COURSE. 1-5 Credits.

GERM 199. INDEPENDENT STUDY. 1-15 Credits.

GERM 201. SECOND-YEAR GERMAN. 5 Credits.
Prerequisite First-Year German or equivalent. Intensive oral exercises and conversation, written exercises and composition, readings of intermediate difficulty.

GERM 202. SECOND-YEAR GERMAN. 5 Credits.
Pre-requisites: GERM 201 or equivalent.
Intensive oral exercises and conversation, written exercises and composition, readings of intermediate difficulty.

GERM 203. SECOND-YEAR GERMAN. 5 Credits.
Pre-requisites: GERM 202 or equivalent.
Intensive oral exercises and conversation, written exercises and composition, readings of intermediate difficulty.
GERM 296. EXPERIMENTAL COURSE. 1-5 Credits.

GERM 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

GERM 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest.

GERM 305. GERMAN CONVERSATION. 2 Credits.
Pre-requisites: GERM 201 or permission of the instructor.
Concentrated drill in German conversation, discussing such subjects as the culture, civilization and current events of the German-speaking countries.

GERM 310. ADVANCED GRAMMAR AND COMPOSITION. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
Advanced review of grammar, vocabulary building, extensive practice in writing, readings of intermediate/advanced level.

GERM 311. ADVANCED GRAMMAR AND COMPOSITION. 3 Credits.
Pre-requisites: GERM 310 or permission of the instructor.
Advanced review of grammar, vocabulary building, extensive practice in writing, readings of intermediate/advanced level.

GERM 320. GERMAN CIVILIZATION AND CULTURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
An examination of political, social, intellectual and artistic development of German culture from the beginnings to the present day.

GERM 321. GERMAN CIVILIZATION AND CULTURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
An examination of political, social, intellectual and artistic development of German culture from the beginnings to the present day.

GERM 330. SELECTIONS OF GERMAN WRITINGS. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
Surveys various aspects of German writings, such as great themes in German literature, popular literature, essays and biographical writings.

GERM 331. CONTEMPORARY ISSUES. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
Examines major issues in contemporary German-speaking regions. Sample topics: school reform, women's issues, environmental problems, peace movement, foreign workers, reunification, etc.

GERM 332. NATIONALISM AND RACISM IN CENTRAL EUROPEAN FILM. 4 Credits.
Cross listed: HUMN 381.
Pre-requisites: GERM 203.
Satisfies: international studies university graduation requirement.
This course provides the basic elements of film analysis and examines the depiction of national socialism, racism and the legacy of the Nazi past in German-speaking films by German and other Central European directors from the 1970s to the present. Evaluating criteria will differ depending on whether the course is taken for German or humanities credit.

GERM 382. 20TH CENTURY GERMANY, FROM WORLD WARS TO COLD WAR. 5 Credits.
Pre-requisites: ENGL 201 or permission of the instructor.
Cross listed: HIST 382.
Satisfies: international studies university graduation requirement.
This interdisciplinary course introduces students to central problems in German history and culture, from the end of World War I to the end of the Cold War. Topics addressed include: the impact of World War I on German National Identity; Avant-garde culture in the Weimar Republic; the rise of Fascism and daily life in Nazi Germany; the Holocaust; cultural and political divides between East and West Germany. GERM 383 Readings/Discussion of 20th century Germany (1), is a companion course for German language students.

GERM 383. READINGS/DISCUSSIONS OF 20TH CENTURY GERMANY. 1 Credit.
Pre-requisites: GERM 203.
Discussion course for German students enrolled in HIST 382/GERM 382.
Readings in German include memoirs, autobiographical texts, poems, and short stories that focus on the history, culture, and life experiences of Germans.

GERM 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Pre-requisites: GERM 203 or permission of the instructor.

GERM 398. SEMINAR. 1-5 Credits.
Pre-requisites: GERM 203 or permission of the instructor.

GERM 399. IND STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

GERM 415. PHONETICS & APPL LINGUISTICS. 2 Credits.
Theory and practice of German pronunciation with drills on phonetic transcription of conversational materials and literary texts. Special attention to the application of linguistics to the teaching of German.

GERM 430. 18TH CENTURY GERMAN LITERATURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
A survey of the major movements and outstanding writers of the Enlightenment, the Storm and Stress, and the Classical Period in the context of their society.

GERM 431. 19TH CENTURY GERMAN LITERATURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
A survey of the major movements and outstanding writers of Romanticism, Realism and/or other movements in the context of their society.

GERM 432. 20TH CENTURY GERMAN LITERATURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
A survey of the major movements and outstanding writers from the turn of the century to 1945 in the context of their society.

GERM 433. CONTEMPORARY LITERATURE. 3 Credits.
Pre-requisites: GERM 203 or permission of the instructor.
A survey of the major movements and outstanding writers of the period after 1945 in the context of their society.

GERM 434. STUDIES IN GERMAN WRITINGS. 3 Credits.
Notes: content varies, may be repeated.
Pre-requisites: GERM 203 or permission of the instructor.
Focus on a specific aspect of German letters and literature, for example, biographies, memoirs and correspondence, popular literature, a particular writer or genre.
Health Education (HLED)

HLED 115. WELLNESS FOR LIFE. 3 Credits.
Offers an overview of basic concepts of personal wellness from a holistic perspective. Explores behavior change, nutrition, physical activity, stress management, healthy relationships, environmental health, spiritual health, sexuality, drugs and alcohol, and intellectual health. Students assess their own wellness and develop strategies for behavioral change.

HLED 192. SPORTS SAFETY TRAINING. 3 Credits.
The purpose of the American Red Cross Sports Safety Training course is to provide participants with the necessary skills and knowledge to help provide a safe environment for participation, recognize and treat emergency situations, and understand how to apply preventative measures for health and safety of sports participants.

HLED 193. STANDARD FIRST AID AND SAFETY. 2 Credits.
The American Red Cross CPR/AED for Professional Rescuers and Health Care Providers program is to train professional-level rescuers to respond to breathing and cardiac emergencies in adults, children and infants until more advanced medical personnel take over. Students will earn the American Red Cross CPR/AED for Professional Rescuers and Health Care Providers certification good for two years from the course date.

HLED 194. EMERGENCY RESPONSE. 3 Credits.
The course provides the participant with the knowledge and skills necessary to work as a first responder. In an emergency, first responders help sustain life, reduce pain, and minimize the consequences of injury or sudden illness until more advanced medical practitioners can arrive. The course content and activities will prepare participants to make appropriate decisions about the care to provide in an emergency. The course teaches the skills a first responder needs to act as a crucial link in the Emergency Medical Services (EMS) system.

HLED 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

HLED 200. ADMISSION TO HEALTH AND FITNESS. 2 Credits.
This course is designed to introduce potential majors to the Health and Fitness profession as well as describe the major's expectations and requirements for being admitted into the program and becoming certified as a K-12 Health and Fitness instructor.

HLED 201. INTRODUCTION TO HEALTH AND WELLNESS. 3 Credits.
This course is designed to be an introduction to health and wellness. Foundations are laid in nutrition, physical activity and fitness, stress management, substance abuse, disease and injury prevention, sexually transmitted diseases, and environmental health issues, among others. In addition, skills are taught to enhance the student's ability to make health behavior changes.

HLED 250. DRUGS, SOCIETY AND HUMAN BEHAVIOR. 3 Credits.
This course consists of a study of human behavior in the context of drug use, abuse, and addiction. There will be discussions on the physiology of drug consumption, as well as the physical, emotional, psychological, and social affects of various groups of drugs (depressants, stimulants, opiates, hallucinogens, and narcotics). Prescription drugs, over the counter drugs, steroids, and other supplements will also be discussed.

HLED 256. MEDICAL TERMINOLOGY. 2 Credits.
This course examines the nature and function of the medical language, and the building of medical words from word roots, prefixes, suffixes, and combining forms. This course will prepare students who are entering into medical-related fields of interest.

HLED 293. CPR/AED REFRESHER COURSE. 1 Credit.
The American Red Cross CPR/AED for Professional Rescuers and Health Care Providers program is to train professional-level rescuers to respond to breathing and cardiac emergencies in adults, children and infants until more advanced medical personnel take over. Students will earn the American Red Cross CPR/AED for Professional Rescuers and Health Care Providers certification good for two years from the course date.

HLED 299. SPECIAL STUDIES. 1-5 Credits.

HLED 365. TEACHING METHODS IN HEALTH. 3 Credits.
Pre-requisites: PHED 365 and PHED 375.
This course covers methods and procedures of teaching health in elementary, junior and senior high schools. It provides an opportunity for practice teaching and development of teaching units for the classroom.

HLED 366. WOMEN'S HEALTH ISSUES. 4 Credits.

HLED 370. PERSONAL AND COMMUNITY HEALTH. 4 Credits.
This course provides an overview and introduction to basic concepts of personal and community health problems, including mental health, nutrition and weight control, diseases, physical fitness, aging, death and dying, sex and reproduction. It also considers health fundamentals important in making health-related decisions.

HLED 372. APPLIED NUTRITION AND PHYSICAL FITNESS. 3 Credits.
This course is an introduction to the field of applied nutrition. The course content brings together information from a variety of fields - biochemistry, exercise physiology, nutrition, medicine and physiology. The students apply that knowledge to understand how what we eat affects not only sport performance but also personal health.
HLED 374. INVESTIGATION OF DISEASE AND ILLNESS. 3 Credits.  
Pre-requisites: HLED 201 or permission of the instructor.  
This course examines the major communicable diseases of humans with emphasis upon prevention and control, and it provides an introduction to the modern scientific approach to control of communicable diseases and biostatistics.

HLED 375. GERONTOLOGY. 3 Credits.  
Pre-requisites: HLED 201 or permission of the instructor.  
This course examines anatomical, physiological, pathological, medical, psychological and sociological factors that impact individuals moving through the aging process. The topics discussed will include the major problems of degenerative and chronic diseases, and an analysis of the physical and physiological deterioration of the body and mind.

HLED 376. CONSUMER HEALTH. 3 Credits.  
Consumer health has much to do with the way we live. It deals with the selection of the products and services available in the marketplace that have an impact on health. Discussion includes: advertising, methods of distribution, techniques of selling, and methods of making positive decisions about health products and services.

HLED 381. MIND/BODY/SPirit Health. 3 Credits.  
Pre-requisites: HLED 201 or permission of the instructor.  
The course is the study of the interaction of the mind, the body, and an individual's spirituality with his/her health and wellness. Discussion topics will include stress, emotions, coping skills, as well as the connection between physical health and emotional health. The field of psychoneurimmunology will also be discussed. The course studies how understanding one's values, morals and/or purpose in life influences his/her physical and emotional health.

HLED 382. INTERNATIONAL HEALTH. 3 Credits.  
Pre-requisites: HLED 201 or permission of the instructor.  
This class is a study of international health, on how it is defined and its historical roots. Discussion will focus on major international health issues and debates on policies and practices. Also, key contemporary issues involving disease control, primary health care, child survival, essential drugs, and health policies will be examined critically.

HLED 395. Co-op Fieldwork. 1-15 Credits.

HLED 396. EXPERIMENTAL COURSE. 1-5 Credits.

HLED 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

HLED 399. DIRECTED STUDY. 1-5 Credits.

HLED 411. EMERGENCY RESPONSE INSTRUCTOR. 2 Credits.  
Pre-requisites: junior standing and HLED 194.  
Teaching methods and procedures in skills as prescribed by the American Red Cross (ARC) Emergency Response Course. Those who qualify may earn the American Red Cross Emergency Response Instructor Certificate valid for 3 years, and the American Red Cross CPR for the professional rescuer certificate valid for 1 year.

HLED 412. EMERGENCY RESPONSE INSTRUCTOR'S LABORATORY PRACTICUM. 3 Credits.  
Pre-requisites: HLED 194, HLED 411.  
The most current First Aid teaching and skill techniques required by the American Red Cross will be implemented in a laboratory situation. The student will teach an undergraduate level First Aid laboratory class as a student instructor. This instruction will be under supervision of a certified master teacher. Upon successful completion of all requirements the Emergency Response Instructor Certificate will be renewed for one more year.

HLED 440. HEALTH PROMOTION PROGRAM DEVELOPMENT. 4 Credits.  
Pre-requisites: junior standing or permission of instructor.  
In this course students learn how to develop a detailed and evidence-based health promotion program using planning models. Emphasis is placed on developing and understanding: needs assessments, program rationale, mission statements, and goals and objectives. Students also explore theories and models commonly used in health promotion programs and apply these principles in a service-learning project.

HLED 440. INTERNSHIP IN COMMUNITY HEALTH. 1-15 Credits.  
Pre-requisites: HLED 440 or permission of the instructor.  
Practical experience designed primarily for community health education majors; however, all students are welcome, and become members of a health-serving agency performing professional tasks along with the full-time staff of the agency. You must obtain prior approval of the department coordinator.
HELD 490. SR CAPSTONE/COMMUNITY HEALTH. 4 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement.
This course is designated as the capstone course for those students majoring in Community Health within the Department of Physical Education, Health and Recreation. An end-of-program assessment will be completed. The course will focus on the major issues, requirements and problems facing health professionals as they enter the field. Using group problem solving techniques, lecture and a final project developed to encompass past knowledge and skills, the students will present a course plan complete with all necessary components to function. A major focus will be for the students to develop their understanding of the group process as it relates to being a member of the team as well as the ability to effectively assess populations and create and implement a curriculum specific to a population. This course is based on the Certified Health Education Specialist (CHES) competencies.

HELD 495. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

HELD 496. EXPERIMENTAL COURSE. 1-5 Credits.
Provides the opportunity to experience limited on-the-job training within health agencies.

HELD 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Workshops dealing with specific aspects of health education, conducted either during the summer or by extension. These workshops are designed for experienced teachers with interests in health education.

HELD 498. SEMINAR. 1-5 Credits.
Seminars dealing with various aspects of health and health education; designed for advanced students in para-medical sciences and/or experienced teachers.

HELD 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: junior standing or permission of the instructor, department chair and college dean.

HELD 505. SOCIAL AND BEHAVIORAL TRENDS IN PUBLIC HEALTH. 4 Credits.
This course focuses on current trends and issues in public health in the United States. Emphasis is placed on how social determinants (individual behaviors, physical environment, and economic environment) are linked to current health outcomes. The course also examines: current initiatives, disease control practices, health disparities, and national health improvement priorities.

HELD 552. CULTURE, PUBLIC HEALTH PRACTICE AND ELIMINATING HEALTH DISPARITIES. 4 Credits.
This course focuses on the examination of the cultural factors that influence health outcomes. Emphasis will be placed on using targeted interventions in public health to address specific health concerns. The course will also provide an opportunity to critically examine current public health interventions for their efficacy in improving health outcomes.

Health Services Administration (HSAD)

HSAD 196. EXPERIMENTAL COURSE. 1-5 Credits.

HSAD 300. HEALTH CARE ORGANIZATION AND ADMINISTRATION. 4 Credits.
This is a survey course that looks at the multitude of health care entities (public and private), how they interact, and the issues that are in today's complex health care environment.

HSAD 310. HEALTH CARE SUPERVISION. 4 Credits.
Pre-requisites: HSAD 300 or permission of the instructor.
Topics covered include: tasks, education, roles, and values of health services managers in various settings; control, organization behavior, design, professional integration, adaptation, and accountability. Case analysis method will be emphasized.

HSAD 315. SEMINAR ON PROFESSIONAL DEVELOPMENT. 1 Credit.
Pre-requisites: junior standing.
This course provides an introduction to professional development. Identified and reviewed are skills commonly associated with professional behavior critical to establishing and demonstrating competence in young professionals. The focus will be developing and enhancing professional behavior.

HSAD 322. HEALTH CARE TECHNOLOGY. 4 Credits.
Pre-requisites: HSAD 300, MISC 211 or permission of the instructor.
This course introduces the student to the technology used in healthcare for administrative, clinical and facility needs. Support systems for healthcare are also discussed. This illustrates the breadth and scope of technology in healthcare and its impact on patients, providers and payers.

HSAD 395. INTERNSHIP. 1-5 Credits.

HSAD 399. SPECIAL STUDIES. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest and need.

HSAD 410. HEALTH LAW REGULATION AND ETHICS. 4 Credits.
Pre-requisites: HSAD 300, HSAD 310 or permission of the instructor.
This course is an introduction to health-related legislation, regulation and certification/accreditation programs. The legal and ethical implications for providers and consumers of healthcare are explored. Topics covered include contracts, fraud and abuse, antitrust, and corporate, criminal and tax law, informed consent, patient rights, medical worker issues and conflict of interest. Ethics, risk management, and corporate compliance, will also be discussed.

HSAD 435. PROCESS IMPROVMT IN HEALTH CARE. 4 Credits.
Pre-requisites: HSAD 300, HSAD 310 and HSAD 410 or permission of the instructor.
This course examines strategic planning in healthcare, the application of quality management in healthcare and strategies for competitive advantage. The student is exposed to a variety of strategies as well as a systems approach to understanding concepts as they apply to healthcare.
HSAD 440. HEALTHCARE RESEARCH DESIGN AND METHOD. 4 Credits.
Pre-requisites: DSCI 245 and HSAD 300 or consent of the instructor.
This course covers the methods used in health services research and evaluation which includes research designs, measurement, methods of analysis and evaluation of published research. The objective of the course is to provide the student with an understanding of the research process and evidence-based research as it relates to health care.

HSAD 445. POPULATION HEALTH MANAGEMENT. 4 Credits.
Pre-requisites: DSCI 245, HSAD 300, HSAD 310, HSAD 440, MISC 211.
This course focuses on population health and on designing and managing health care for the population. It encompasses both population health and managerial epidemiology concepts and tools to improve decisions about the management of health services. It explores effective management of resources to maintain and promote the health of the population.

HSAD 450. INTERNATIONAL PERSPECTIVES ON HEALTHCARE. 4 Credits.
Satisfies: international studies university graduation requirement. This course evaluates the impact of values and beliefs, types of providers, government, funding and medical technology in the delivery of health care in industrialized, emerging and poor geographic regions outside the United States. It compares the delivery of health care in these geographic areas to each other and to that experienced in the United States to determine best practices and areas for improvement.

HSAD 455. HEALTHCARE BILLING. 2 Credits.
Pre-requisites: HSAD 300, HSAD 310, HSAD 410, HSAD 440.
This course provides an overview of the healthcare billing processes from a variety of healthcare delivery systems both public and private. Systems used in billing, the billing and revenue cycles and application of information for administrative and clinical needs are reviewed.

HSAD 460. LONG TERM CARE ADMINISTRATION. 4 Credits.
Pre-requisites: HSAD 300 or permission of the instructor.
The administration issues of care for long term patients will be addressed with specific discussion on the aged, and primary and extended care of the aged. The peculiar social, cultural, and economic environment will be discussed as each is related to accessibility and availability of health services and the aspects of administration in long term care facilities.

HSAD 470. HEALTHCARE FINANCE. 4 Credits.
Pre-requisites: BUED 302, DSCI 245, HSAD 300, HSAD 310, HSAD 322, HSAD 410, MISC 211.
This course focuses on the practical application of health care finance theory as it applies to the current health care environment. Revenue and expense applications are explored in depth, particularly in relationship to the delivery of health care services. Both private and public healthcare funding are explored. Specific emphasis is placed on understanding the components of the income statement and balance sheet, developing a budget, and using these financial statements for analyzing operational changes.

HSAD 490. SENIOR CAPSTONE. 4 Credits.
Pre-requisites: HSAD 300, HSAD 310 and HSAD 410.
Satisfies: senior capstone university graduation requirement.
This course examines health related differences due to the impact of gender, ethnicity and race on health. It attempts to put this information in a context which allows health program managers to use this information to better plan, design and implement programs which are sensitive to the health needs of diverse populations. To achieve this goal the class will examine epidemiological research, historical and cultural studies and social and psychological theories pertaining to health status and communication.

HSAD 495. INTERNSHIP. 5 Credits.
Pre-requisites: HSAD 300, HSAD 310 and HSAD 410 and permission of the instructor, department chair and college dean.
Students learn the day-to-day operation of a health care organization by spending 20 hours a week on-site under direct supervision.

HSAD 496. EXPERIMENTAL COURSE. 1-5 Credits.

HSAD 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

HSAD 498. SEMINAR. 1-5 Credits.

HSAD 499. DIRECTED STUDY. 3-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual study in a field of special interest.

HSAD 500. US HEALTH CARE SYSTEMS. 4 Credits.
Pre-requisites: graduate standing.
This course focuses on the impact of the law and finance in private as well as public health settings. Topics include the legal system, professional liability issues related to providers, legal issues in the operation and regulation of health care institutions, and legal issues in the institution-patient relationship as well as the institution-physician relationship.

HSAD 500S. HEALTH SYSTEMS. 4 Credits.
This course begins with an examination of the history and philosophy of public health. The course introduces healthcare delivery systems in public and global health and the United States. The systems of care and delivery of services in each area are explored. The history of the development of healthcare in each area is discussed. An overview of the various delivery models, their effectiveness and financing are covered. The course concludes with an exploration of global healthcare delivery, its challenges and financing.

HSAD 510. HEALTH LAW. 4 Credits.
Pre-requisites: HSAD 500.
The objective of the course is to develop in the student an appreciation for the depth and reach of the law in all facets of the health care delivery process. The course will emphasize the impact of the law in private and public health settings. Topics include an introduction to our legal system, professional liability issues related to providers, legal issues in the operation and regulation of health care institutions, and legal issues in the institution-patient relationship as well as the institution-physician relationship.

HSAD 510S. HEALTH LAW AND FINANCE. 4 Credits.
This course focuses on the impact of the law and finance in private as well as public health settings. For law, topics include the legal system, professional liability, operation and regulation in health care settings and relationships of providers, patients, payers and citizens in the provision of services. For finance, both private and public funding is explored along with basic economic principles as they relate to healthcare. Basic statements used in accounting are reviewed for use in analyzing operations and decision support.
HSAD 520. HEALTH REIMBURSEMENT ISSUES. 4 Credits.  
**Pre-requisites:** HSAD 500.  
Reimbursement issues are reviewed for two perspectives (1) institutions/providers, and (2) payers and users of health care, such as insurers, business, and consumers. Topics covered from the providers’ perspective include evaluation of one’s financial information for clinical and managerial decisions. Topics covered from the payer’s perspective include financial incentives and disincentives. Implications for efficient and effective delivery of health care services are identified and explored.

HSAD 520S. ADMINISTRATION AND LEADERSHIP IN HEALTH SERVICES. 4 Credits.  
This course addresses the many aspects of administration in a healthcare organization. Managing and leading are discussed. The responsibilities of supervision, decision support systems, use of analytics, marketing, media, clinical performance, organizational culture, behavior and performance are examined. The course emphasizes the demands of this fast paced industry.

HSAD 530. SEMINAR ON BUSINESS AND HEALTH. 4 Credits.  
**Pre-requisites:** HSAD 500 and advanced graduate standing or permission of the instructor.  
This course examines the role companies and other employers play in the development of health policy and provision of health services pertaining to employee benefits.

HSAD 535. RISK MANAGEMENT AND PROCESS IMPROVEMENT. 4 Credits.  
**Pre-requisites:** HSAD 500, HLED 505, PUBH 510.  
This course introduces students to the processes of risk management and process improvement in healthcare. Current models, methods and tools used in both risk management and process improvement throughout the continuum of health care delivery are examined.

HSAD 540. HEALTH POLICY. 4 Credits.  
This course discusses major relevant policy issues in the United States healthcare system. Public policy process is reviewed. Healthcare policy impacting private and public entities including Medicare, Medicaid, Department of Defense, Veterans Administration and Indian Health Services are examined.

HSAD 540S. HEALTH POLICY. 4 Credits.  
This course begins with an overview of common policy perspectives, before moving on to discuss major relevant policy issues in the United States healthcare system and elsewhere. Public policy process is reviewed. Healthcare policy impacting private and public entities including Medicare, Medicaid, Department of Defense, Veterans Administration, Indian Health Services are examined. The course concludes with an examination of influencing policy development, including media and community initiatives to effect change.

HSAD 541. ADVANCED HEALTH POLICY. 4 Credits.  
**Pre-requisites:** HSAD 540.  
This course builds upon HSAD 540 and discusses policy formulation and administrative implementation. A systems approach to viewing issues related to public health policy implementation is examined and global policy issues are reviewed.

HSAD 545. HEALTH INFORMATICS. 4 Credits.  
This course introduces the fundamentals of health information systems and the management of health information, including health data management, health statistics, biomedical research, quality management and information technology and systems. These elements are discussed in the context of healthcare delivery systems.

HSAD 550. HEALTH ECONOMICS. 4 Credits.  
This course provides an overview of health economics and examines the flow of funds through the health care system. Economic principles important to health care are discussed and the impact of economics related to influencing individual, organization and community health care decisions is explored.

HSAD 560. MANAGED CARE SYSTEMS. 4 Credits.  
**Pre-requisites:** HSAD 500, HSAD 520 or permission of the instructor.  
An examination of the challenges associated with organizing and managing various types of managed care systems. (Health Maintenance Organizations (HMOs), Preferred Providers Organizations (PPOs), etc.) The course places special emphasis on the organization and management of physicians’ practice and the principles of health insurance, including premium development and risk management. Other topics include contractual relationships with hospitals, utilization review, quality assurance systems, and marketing.

HSAD 595. INTERNSHIP. 1-5 Credits.  
**Pre-requisites:** permission of the instructor, department chair and college dean.

HSAD 595S. INTERNSHIP. 5 Credits.  
The internship in MPH is intended to serve as a formative and reflective opportunity for students in the program. The organization at which the internship experience occurs is chosen based on the student’s goals and the organization’s needs. An interview is first conducted with the site supervisor and student to ensure this will work for both. Once the interview is complete and both parties agree, then the needed paperwork is started. The internship plan is to address competencies for the internship experience agreed upon by the student, organization and faculty. The internship plan is to be completed and submitted to the instructor with the EWU-Agency Internship agreement and contact information. Check with the instructor to determine if an agency agreement is already in place. The projects identified as part of the portfolio are to be identified in the internship plan. The placement is for 16 weeks, 40 hours per week. Some students may choose to do 20 hours per week over two semesters. A weekly work schedule is jointly agreed upon by the supervisor and intern. The intern is responsible to present the site supervisor with a copy of the Site Supervisor Handbook and Masters in Public Health Internship Competencies. Both are posted on canvas. Each student must sign up on Canvas.

HSAD 596. EXPERIMENTAL COURSE. 2-5 Credits.

HSAD 598. SEMINAR IN HEALTH SERV ADMIN. 4 Credits.  
This course is designed to emphasize the manager’s role when conducting grant writing or research within the field of health care. The course will emphasize the managerial applications of survey research and grant writing from both a theoretical and practical perspective. Students will learn to conduct survey research or write a grant during this course with the assistance of the instructor.

HSAD 598S. SEMINAR IN HEALTH SERVICES ADMINISTRATION. 4 Credits.  
This course is designed to emphasize the manager’s role meeting the challenges posed in health delivery systems both public and private. This course draws on the knowledge, skills and competencies gained in previous courses to analyze health system challenges in a variety of settings. This class will explore interprofessionalism as it related to ethics, process improvement, strategic planning and health care leadership.
History (HIST)

HIST 102. WORLD HISTORY: TO 1500. 5 Credits.
This course surveys the major events, developments and personalities that have shaped the civilizations of the world from the first appearance of Homo sapiens to the start of the Renaissance. A comparative approach will be applied to the great themes of civilization with details from everyday life.

HIST 103. WORLD HISTORY; FROM 1500. 5 Credits.
This course surveys the major trends in world history from 1500 to 2000, emphasizing the expansion of Europeans around the globe since Columbus reached the New World and the effects on non-European peoples ever since. A comparative approach will be applied to the great themes of civilization with details from everyday life.

HIST 104. EAST ASIA: TRADITION AND TRANSFORMATION. 5 Credits.
Satisfies: international studies university graduation requirement.
The political, social, cultural and other aspects of the Chinese, Japanese and Korean heritage from antiquity to the present. The course deals with forces which shaped these Asian nations.

HIST 105. WESTERN HERITAGE: ORIGINS TO THE 18TH CENTURY. 5 Credits.
Satisfies: GECR for social sciences, list 3, history.
The origins and early development of the political, social, cultural and other aspects of our Western heritage.

HIST 106. WESTERN HERITAGE: 18TH CENTURY TO THE PRESENT. 5 Credits.
Satisfies: GECR for social sciences, list 3, history.
The political, social, cultural and other aspects of the western heritage from the 18th century. The course deals with the forces which shape the modern world.

HIST 110. AMERICAN EXPERIENCE: A SURVEY. 5 Credits.
Satisfies: GECR for social sciences, list 3, history.
A broad survey of unique features of the American experience, this course examines the origins and development of the American social, economic and political heritage on the domestic and international scenes.

HIST 195. INTERNSHIP. 1-5 Credits.

HIST 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 2 Credits.

HIST 199. SPECIAL STUDIES. 1-5 Credits.

HIST 215. EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877. 5 Credits.
Cross listed: AAST 215, HONS 215.
Satisfies: cultural and gender diversity university graduation requirement.
Examines the African American experience from African civilizations in the 4th century AD through slavery to the end of the Reconstruction Era in the United States.

HIST 218. CHICANO HISTORY. 5 Credits.
Cross listed: CHST 218.
Satisfies: cultural and gender diversity university graduation requirement.
A study of Chicano history from the time of the Treaty of Guadalupe Hidalgo in 1848, to the present. Specific themes discussed include the Mexican American War, the Treaty of Guadalupe Hidalgo of 1848, the economic, political and social conditions after the Anglo-American conquest of the southwest, Mexican immigration to the U.S., Chicano labor history, the Chicano movement and other Chicano themes.

HIST 220. AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT. 5 Credits.
Cross listed: AAST 220, HONS 220.
Satisfies: the GECR for social sciences, list 3, history.
The study of American history from the perspective of the African American experience since the end of the Reconstruction period.

HIST 290. HISTORY TODAY: ISSUES AND PRACTICES. 5 Credits.
An introduction to history as a discipline, the theoretical issues relevant to the discipline today, and the organization of the history profession in the United States. Topics to be covered include: an overview of modern historiography; why historians interpret the past in different and often contested ways; problems of historical method, objectivity, causation, periodization and categories of historical analysis (such as nation-state, gender, race and class); and publications professional organizations, and careers in history.

HIST 296. EXPERIMENTAL COURSE. 1-10 Credits.

HIST 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interest.

HIST 300. SPECIAL TOPICS IN HISTORY. 1-5 Credits.
A series of specialized studies of different areas of history, such as conservation, urban history, science, and technology. The topics are announced each quarter and may or may not be offered each year.

HIST 301. HISTORY OF THE PRESENT. 5 Credits.
Satisfies: international studies university graduation requirement.
The historical background of contemporary problems and events, such as the Arab-Israeli conflict. Topics vary with changes in the world situation.

HIST 303. U.S. HISTORY 1607-1877. 5 Credits.
This course is designed primarily, but not exclusively, for history majors and minors and required as part of the social studies major core. It examines aspects of this nation's political, economic, cultural, and social development from its time of English settlement to the end of Reconstruction.

HIST 304. U.S. HISTORY 1877-PRESENT. 5 Credits.
This course is designed primarily, but not exclusively, for history majors and minors and required as part of the social studies major core. It emphasizes American's unfinished journey from the end of Reconstruction to the present. Emphasis is also given to the vast changes in American culture and society since the Civil War.

HIST 305. PATHS TO THE AMERICAN PRESENT. 5 Credits.
Pre-requisites: junior or senior class standing.
An advanced course emphasizing the historical roots of the reform tradition, the political system, the American role in world affairs, and the evolution of the American social structure.

HIST 306. MODERN EUROPE. 5 Credits.
A study of political, social, cultural, diplomatic, economic, and other issues in Europe of the 19th and 20th centuries.
HIST 310. IMPERIAL CHINA. 5 Credits.
Satisfies: international studies university graduation requirement.
This class surveys the imperial era of Chinese history from the Qin dynasty to the mid-Qing (221 BC–1800 AD).

HIST 311. COLONIALISM AND NATIONALISM IN SOUTHEAST ASIA. 5 Credits.
This is a comparative study of indigenous peoples in Southeast Asia and how they have reacted to European, American, Japanese and Soviet expansion into this region, focusing on the period 1500 to 2000. Students will be challenged to critically examine the long-term political, social and economic processes that have shaped the S.E. Asia of the present day.

HIST 313. ASIAN AMERICAN HISTORY. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
American history often focuses on the Atlantic migration and its consequences. Not all Americans have European origins. Many immigrants came from Asia. This course with an emphasis on the Pacific migration examines the experience of these Asian immigrants and their descendants in the United States from the 1840s to the present. The discussions give preference to six major ethnic groups: Chinese, Japanese, Filipino, Korean, Vietnamese, and Asian Indian. Their collective history will be studies within the broad context of American history, involving various historical themes such as westward expansion, modern industrialization, urban development, international conflict, immigration policy, labor unrest, reform movement, and cultural exchanges. The purpose of this course is to deepen our understanding of American history as well as our multicultural society.

HIST 315. AFRICAN HISTORY: ANCIENT AFRICA TO MANDELA. 5 Credits.
Cross listed: AAST 315, HONS 315.
Satisfies: international studies university graduation requirement.
A survey of African history from prehistory to the present. Emphasizes earlier African civilizations, extensive contact with the outside world and the formation of African nations.

HIST 316. AMERICAN INDIAN HISTORY I. 5 Credits.
Cross listed: IDST 316.
This course introduces students to an overview of American Indian history through major themes which include impact and response to European contact, conquest and colonization, empire building, removal and dispossession from traditional lands, treaty making and the origins of Federal Indian Policy.

HIST 317. AMERICAN INDIAN HISTORY II. 5 Credits.
Cross listed: IDST 317.
This course introduces students to an overview to American Indian history from 1887 to the present. Major themes covered in this course include but not limited to questions regarding history as a discipline, origins of indigenous peoples, impacts and responses to colonization and genocide, beginning from assimilationist policies, self-determination, termination and relocation, Red Power movement, gender, sovereignty, identity, land, environment and current issues facing American Indian peoples and communities today.

HIST 320. MIDDLE EASTERN HISTORY AND CULTURE. 5 Credits.
Cross listed: ANTH 320, GEOG 320.
Examines the various ethnic, religious and national communities of the Middle East in historical and contemporary context.

HIST 330. THE HISTORICAL GEOGRAPHY OF CANADA. 4 Credits.
Cross listed: GEOG 334.
Canada occupies a strategic place in world geography owing to its central location with regard to Europe, Asia and the United States, its resource base, its role in regional and world organizations and the distinctive national characteristics and traditions that its peoples have developed. This course provides an overview of the major geographic regions of Canada based on physical environments, history, settlement patterns, natural resources, transportation and industry, urbanization and cultural and ethnic diversity.

HIST 331. MICRO-ECONOMICS IN THE CONTEMPORARY MIDDLE EAST. 4 Credits.
Cross listed: ANTH 331, GEOG 331.
A study of the impact of contemporary developments on the Middle East.

HIST 332. MEASURES OF EMPIRE IN THE CONTEMPORARY MIDDLE EAST. 4 Credits.
Cross listed: ANTH 332, GEOG 332.
The course uses several scientific themes to Rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

HIST 333. THE HISTORICAL GEOGRAPHY OF CANADA. 4 Credits.
Cross listed: GEOG 334.
Canada occupies a strategic place in world geography owing to its central location with regard to Europe, Asia and the United States, its resource base, its role in regional and world organizations and the distinctive national characteristics and traditions that its peoples have developed. This course provides an overview of the major geographic regions of Canada based on physical environments, history, settlement patterns, natural resources, transportation and industry, urbanization and cultural and ethnic diversity.

HIST 334. THE HISTORICAL GEOGRAPHY OF CANADA. 4 Credits.
Cross listed: GEOG 334.
Canada occupies a strategic place in world geography owing to its central location with regard to Europe, Asia and the United States, its resource base, its role in regional and world organizations and the distinctive national characteristics and traditions that its peoples have developed. This course provides an overview of the major geographic regions of Canada based on physical environments, history, settlement patterns, natural resources, transportation and industry, urbanization and cultural and ethnic diversity.

HIST 335. THE HISTORICAL GEOGRAPHY OF CANADA. 4 Credits.
Cross listed: GEOG 334.
Canada occupies a strategic place in world geography owing to its central location with regard to Europe, Asia and the United States, its resource base, its role in regional and world organizations and the distinctive national characteristics and traditions that its peoples have developed. This course provides an overview of the major geographic regions of Canada based on physical environments, history, settlement patterns, natural resources, transportation and industry, urbanization and cultural and ethnic diversity.

HIST 336. GEOGRAPHIES OF CONFLICT IN THE MIDDLE EAST. 5 Credits.
Cross listed: ANTH 336, GEOG 336.
Examines the Middle East and its various ethnic, political, economic, religious and environmental conflicts from a geographic perspective. The course's holistic combination of geographic and anthropological inquiry will offer insights into how the natural environment and built environment interact and engage with the cultural and political landscapes of the Middle East.

HIST 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to Rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

HIST 341. RENAISSANCE AND REFORMATION. 5 Credits.
Pre-requisites: HIST 105 or permission of the instructor.
History of Europe from the 14th through the 16th centuries. This course examines the religious, artistic, and intellectual developments of the period in their social and political context.

HIST 350. WAR AND SOCIETY. 5 Credits.
Satisfies: international studies university graduation requirement.
A survey of military technology, strategy and tactics and their relationship to non-military aspects of society from the Middle Ages to the present. Emphasis is on European land warfare, but aerial, naval and non-European aspects are not excluded.

HIST 351. GENDER AND TOTAL WAR. 5 Credits.
Cross listed: WMST 351.
This course explores the relationship between social constructions of gender and the history of war in the 20th century. Topics include how gender is used to justify war and the use of gender ideologies in pacifist movements. The course also looks at ways that individual men and women experienced war and war's effects on the social, sexual, psychological, political and economic aspects of individuals' lives.

HIST 357. RUSSIA TO 1905. 5 Credits.
Pre-requisites: junior standing.
The history of Russia from state foundation to the 1905 revolution. Major topics include: Russia's position between East and West; social and cultural developments; efforts at political and social reform; and the creation of the revolutionary movement.

HIST 360. HISTORY OF SPAIN. 5 Credits.
A history of Spain from pre-Roman times to the present, with special emphasis on the Imperial Hapsburg years, the Bourbon Enlightenment, and the Napoleonic era. Implicit inclusion of the concurrent developments of Western civilization.
HIST 365. LATIN AMERICAN HISTORY. 5 Credits.
Satisfies: international studies university graduation requirement.
Covers Spanish and Portuguese conquests in the Western hemisphere and the formation of a new civilization. The Hispanic colonial centuries, the revolutions for independence and subsequent experiences with dictatorships and democracy punctuate dramatic and distinct histories.

HIST 373. HIST OF AMERICAN WILDERNESS. 5 Credits.
The course explores the ways men and women have lived in and thought about their natural environment in the United States. It begins with the colonists, who thought of the wilderness as a realm to conquer, and concludes with the contemporary American environmentalists, who seek to preserve "the wilderness.

HIST 382. 20TH CENTURY GERMANY, FROM WORLD WARS TO COLD WAR. 5 Credits.
Cross listed: GERM 382.
Pre-requisites: ENGL 201 or permission of the instructor.
Satisfies: international studies university graduation requirement.
This interdisciplinary course introduces students to central problems in German history and culture, from the end of World War I to the end of the Cold War. Topics addressed include: the impact of World War I on German national identity; Avant-garde culture in the Weimar Republic; the rise of fascism and daily life in Nazi Germany; the Holocaust; cultural and political divides between East and West Germany.

HIST 389. PUBLIC HISTORY. 5 Credits.
Pre-requisites: HIST 110 and prior permission of the instructor.
Research using regional public and private collections to prepare both the general historian and the urban and regional planner for service in the fields of local history, museology and historic preservation. Required of students in public history field.

HIST 390. HISTORIAN AS DETECTIVE. 5 Credits.
Pre-requisites: HIST 290 or HIST 389 and junior standing; or permission of instructor.
This seminar is designed to help advanced history students develop the skills needed to conduct primary-source research and write successful papers. This course prepares students for work in other advanced history courses, in the history capstone course, writing papers for academic conferences and for graduate study in history and related fields.

HIST 392. WOMEN IN THE AMERICAN WEST. 5 Credits.
Cross listed: WMST 392.
Pre-requisites: junior standing.
This course examines the lives of frontier women using a variety of primary sources (letters, diaries, oral histories), as well as secondary sources (books, articles, movies, tapes).

HIST 394. WOMEN IN AMERICAN HISTORY. 5 Credits.
Cross listed: WMST 394.
Satisfies: cultural and gender diversity university graduation requirement.
Prerequisite: junior standing. Brings to life and surveys the accomplishments of the lost women of our past from colonial times to the present. Society's definition of the nature of women and their proper roles is examined as well as the actual life conditions of women and the social and economic functions they performed.

HIST 395. HISTORY INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
An opportunity for history students to work with historical agencies. Individual learning and career development contact is coordinated through the EWU Center for Extended Learning.

HIST 396. EXPERIMENTAL COURSE. 1-5 Credits.

HIST 398. SEMINAR. 1-5 Credits.

HIST 399. DIRECTED STUDY. 1-10 Credits.

HIST 405. WOMEN AND MEN IN HISTORY. 1 Credit.
Cross listed: WMST 405.
This course will deal with the placing of women and men within history. A comparative analysis will be made of the historical treatment given to both women and men. Using American history as an example, the workshop will set forth principles that will effectively help the classroom teacher create a gender balanced course and the student to recognize gender balance in history education. Attention will be given to non-sexist textbooks, audiovisual materials and testing.

HIST 406. DARWIN AND HIS DISCONTENTS. 5 Credits.
Pre-requisites: junior standing or permission of instructor.
This course introduces the Evolution-Creation controversy, including the subfields of intellectual, cultural, scientific, legal, religious and political history. The course includes precursors to Darwin, Darwin's discovery of evolution through natural selection, evolution's reception by scientific and religious communities, the modern synthesis of evolutionary biology, legal challenges to teaching evolution and creationism in public schools, intelligent design and Kuhnian philosophy of science.

HIST 407. HOMETOWN HISTORY. 5 Credits.
Pre-requisites: HIST 110 and permission of instructor.
This course prepares students for jobs in public history. Students research and investigate problems in the practice of local history. The course is tailored for students specializing in public history.

HIST 409. ORAL HISTORY. 5 Credits.
Pre-requisites: junior standing and permission of the instructor.
This course provides a solid foundation in the ethics and practice of oral history. Students learn the steps involved in co-creating primary historical documents through personal interviews. All students are required to prepare an interview suitable for preservation in a local archival repository.

HIST 410. CHINA IN 19TH AND 20TH CENTURIES. 5 Credits.
A political, economic, and diplomatic consideration of China from the late Qing Dynasty, with particular emphasis on the rise of Chinese nationalism and communism as an aftermath of Western and Japanese imperialism in China.

HIST 411. DEMOCRACY AND HUMAN RIGHTS IN ASIA. 5 Credits.
Satisfies: international studies university graduation requirement.
History of Japan as traditionalism is modified and the modern nation emerges, from the 17th century to the present.

HIST 425. GREEK HISTORY TO 400 BC. 5 Credits.
Ancient Greece from earliest times to 400 B.C. The art, archaeology, and history of the Golden Age of Athens.

HIST 426. HELLENISTIC GREECE. 5 Credits.
The history of ancient Greece from 400 B.C. to 30 B.C. This course will focus on Alexander the Great and the results of his conquests. The course covers the period from the end of the Peloponnesian War to the conquest of the East by Rome.
HIST 427. ROMAN REPUBLIC. 5 Credits.
The course begins with the earliest settlements in Italy and follows the Western Greeks, Etruscans, Carthage and the foundations of Rome to 30 B.C. the beginning of the reign of Augustus.

HIST 428. ROMAN EMPIRE. 5 Credits.
The history of Rome from Augustus to Constantine the Great (30 B.C. - 337 A.D.) The course includes cultural as well as political developments.

HIST 429. ANCIENT NEAR EAST. 5 Credits.
An intensive study of the ancient Near East including Mesopotamia, Egypt, the Indus Valley, and Assyria.

HIST 430. HISTORY OF ENGLAND TO 1603. 5 Credits.
Various aspects of English history from the Roman conquest to 1603. Attention is given to social, cultural, economic, and constitutional developments.

HIST 431. HISTORY OF ENGLAND 1603-1870. 5 Credits.
A history of England from 1603 to the late Victorian period, including a study of the cultural, economic and constitutional developments of the period.

HIST 432. MODERN BRITAIN SINCE 1870. 5 Credits.
From Victorian England, this course includes a consideration of the 19th century background. Stress is on the transition of Great Britain from the leading European naval, imperial and commercial power to a less certain position today in relation to Europe and the world.

HIST 433. BRITISH EMPIRE SINCE 1850. 5 Credits.
FALL/SPRING-ALTERNATE YEARS From Victorian England to the aftermath of World War II, this course examines British Imperialism from its peak through the years of decolonization.

HIST 435. IRISH HISTORY AND CULTURE. 5 Credits.
Cross listed: ANTH 435.
Pre-requisites: 5 credit hours of anthropology or 5 credit hours of history or advanced standing with permission of the instructor. This course examines various aspects of Irish history and culture from prehistory to the present. Attention is given to religious, social, cultural, economic and political institutions and developments.

HIST 436. POLITICS OF CULTURE: ISRAEL AND PALESTINE. 5 Credits.
Cross listed: ANTH 436, GEOG 436. Examines the role of culture in the political struggles between Israelis and Palestinians. Explores the influence of national, religious, ethnic and historical narratives in the conceptualization of the Israeli-Palestinian conflict. This course will consider how a detailed knowledge of these ‘politics of culture’ can provide meaningful insights to potential avenues of cultural reconciliation and, ultimately, a more peaceful environment for Israelis and Palestinians.

HIST 437. WOMEN AND ISLAM. 5 Credits.
Cross listed: ANTH 437, GEOG 437, WMST 437. Pre-requisites: junior or senior standing. This course examines the status and identity of women in Islamic communities throughout the world and assesses how different interpretations of Islam, as a simultaneous religious, social, cultural, political and economic system, influences perceptions of women within Islamic communities. It further considers the perceptions of Islam vis-à-vis women and Islamic women themselves by non-Muslim communities.

HIST 438. PEACE, VIOLENCE AND CULTURE. 5 Credits.
Cross listed: ANTH 438, GEOG 438. Pre-requisites: junior or senior standing. This course is a collective exercise in critical thinking on the intersection and interaction of peace, violence and culture. It explores the cultural dimensions of peace and violence, including the role of culture in defining and understanding the manifestation and enactment of peace and violence both by and against individuals as well as groups.

HIST 440. HISTORY OF WORLD WAR I. 4 Credits.
Pre-requisites: basic skills clearance in English composition or permission of the instructor. The history of World War I, including the campaigns and major battles in all theaters, the technology, the diplomacy, and the impact on the politics, society, economy, industry and other aspects of various home fronts.

HIST 441. HISTORY OF WORLD WAR II. 4 Credits.
Pre-requisites: basic skills clearance in English composition or permission of the instructor. The history of World War II, including the campaigns and major battles in all theaters, the war in the air and at sea, the technology, the diplomacy, and the impact of the war on the politics, society, economy, industry, and other aspects of various home fronts.

HIST 445. HISTORY OF MODERN GERMANY. 5 Credits. History of Germany in the 19th and 20th centuries.

HIST 448. FRENCH REVOLUTION AND NAPOLEON. 5 Credits. The history of the French Revolution and Napoleon, from the development of conditions leading to the Revolution through the Congress of Vienna. Emphasizes political, military and diplomatic developments.

HIST 454. DIPLOMATIC HISTORY OF EUROPE, 1914 TO THE PRESENT. 5 Credits. Satisfies: international studies university graduation requirement. European diplomatic history from World War I to the present.

HIST 457. 20TH CENTURY RUSSIA. 5 Credits. Russia in a century of unrest. The course will explore the intent and results of revolution, including the Marxist victory in 1917 revolution from above.

HIST 461. COLONIAL LATIN AMERICA. 5 Credits. An outline of the Spanish and Portuguese conquests in the Western hemisphere, and the two countries' political, economic, and social development. An emphasis upon the process by which they attained independence.

HIST 463. CULTURAL HISTORY OF LATIN AMERICA. 5 Credits. Focuses on the evolution of institutions in Hispanic America related to the thought of their day.

HIST 464. HISTORY OF MEXICO. 5 Credits. A study of Mexico from pre-conquest times to the present. Attention is given to social, cultural, and political developments with special emphasis on the National Period.

HIST 465. SLAVERY IN THE NEW WORLD. 5 Credits. Cross listed: AAST 465. This course traces new world slavery from its origins in the islands off the west coast of Africa to the end of slavery in United States, Cuba and Brazil in the late nineteenth century. Topics covered include the Atlantic slave trade, the effects of the slave trade on Africa, the Haitian Revolution, slavery and the Enlightenment philosophies, the profitability of slavery and the abolition movement.
HIST 466. SLAVERY IN THE U.S.. 5 Credits.

Cross listed: AAST 466.

This course covers the rise and fall of slavery in the United States and its colonial antecedents. Topics include the transition from indentured servitude to slavery in the Chesapeake in the 1680s, the role slaves played on both sides of the Revolutionary War, the rise of the Cotton Kingdom, the political controversy over slavery, the rise of the abolition movement and the disintegration of slavery during the Civil War.

HIST 468. HISTORY OF MODERN AMERICAN WOMEN. 5 Credits.

Cross listed: WMST 468.

Pre-requisites: junior standing.

This course explores the history of women in America from the 1900s to the present through the use of a wide range of contemporary documents that allow a variety of women of the immediate past to speak for themselves.

HIST 469. BUILT ENVIRONMENTS OF NORTH AMERICA: SYMBOL AND STRUCTURE. 3 Credits.

Cross listed: GEOG 469, PLAN 469.

Pre-requisites: GEOG 101 or permission of the instructor.

This course is a survey of North American architectural landscapes from the colonial period to the present. This course will examine such topics as the diffusion of major styles of residential, commercial and public architecture across the continent, the relationship of geology and climate to the availability of building materials and technology and the effect of these on the human built environment, especially in the Pacific Northwest. Special emphasis will be placed on the visual differentiation of building styles and the symbolic, political and philosophical foundations of architectural form and decoration.

HIST 470. COLONIAL AMERICA, 1607-1763. 5 Credits.

The development of American life, thought and institutions from the earliest settlements to the end of the French and Indian War. Topics include Puritanism, colonial wars, Native Americans and the family.

HIST 471. AMERICAN REVOLUTION, 1763-1824. 5 Credits.

Surveys the history and consequences of the American Revolution. Course begins with the colonies in the British imperial system, explores the reasons for revolt and covers the military, political and social history of the Revolution. Students investigate the need for and the nature of the new constitution, then move forward through the presidencies of the revolutionary generation to the Monroe Doctrine and the election of 1824.

HIST 473. THE AGE OF JACKSON. 5 Credits.

The causes, course, and effects of the Jacksonian Revolution, especially in their effect upon the development of the course of American nationality.

HIST 475. CIVIL WAR AND RECONSTRUCTION. 5 Credits.

The struggle over slavery and attendant problems. Particular emphasis is given to the philosophy and statesmanship of Abraham Lincoln.

HIST 478. CONTEMPORARY AMERICA. 5 Credits.

A consideration of United States history in recent decades. Attention is given to the United States' position as a world leader, the interplay of foreign and domestic affairs and the oscillations of U.S. policy in recent times.

HIST 480. NATIVE AMERICAN ORAL TRADITION. 5 Credits.

Cross listed: IDST 480.

Pre-requisites: junior standing.

This course expands the students' understanding of the past through the inclusion of indigenous perspectives. Students will examine the use of oral traditions/histories, particularly the contestation regarding their validity as legitimate, historical sources. This course also examines the evolution of tribal and oral traditions from early records of their existence to the modern issues surrounding their use and maintenance. Students are introduced to the issues, ethics and protocol when working with tribal members and communities.

HIST 481. HISTORY OF AMERICAN FOREIGN RELATIONS FROM 1898. 5 Credits.

A topical approach to the expansion of America's open-door empire from 1898 to the present, with emphasis on the patterns of U.S. intervention around the globe, the impact of World Wars, and the history of the Cold War.

HIST 482. HISTORY OF AMERICAN WEST. 5 Credits.

This course surveys the development of the American West from the wilderness to a distinctive region. It emphasizes the place and peoples, and examines the region's role in the history of the United States.

HIST 483. HISTORY AND GOVERNMENT OF THE PACIFIC NORTHWEST. 5 Credits.

An intensive study of the principal events and institutions of the four states comprising the Pacific Northwest and especially of their relations to the Federal Union. A comparative analysis of British Columbia is also included.

HIST 487. ECONOMIC HISTORY OF THE UNITED STATES. 5 Credits.

Cross listed: ECON 412.

Pre-requisites: junior standing.

Economic development of the United States from the early colonial period to the present; explorations, westward movement, labor, rise of great industries, world trade, and post-war economic problems.

HIST 490. SENIOR CAPSTONE SEMINAR. 5 Credits.

Pre-requisites: senior standing, declared history major, HIST 290 or HIST 389 and HIST 390 or instructor permission.

Satisfies: senior capstone university graduation requirement.

Senior Capstone Seminar includes a major history paper and end-of program assessment.

HIST 493. CERTIFICATE SYNTHESIS AND ASSESSMENT. 1 Credit.

Pre-requisites: permission of the instructor.

Advised by the certificate coordinator, the student will compile an assessment portfolio of significant assignments completed during the relevant certificate program at EWU. The student will also produce a paper addressing her or his experiences in the certificate program as a means of guided academic and/or career planning. Taken during the term in which the student expects to complete the requirements for the certificate, this independent study course allows the student to engage in portfolio development and summative assessment of the certificate program.

HIST 495. HISTORY INTERNSHIP. 1-5 Credits.

Pre-requisites: permission of the instructor, department chair and college dean.

An opportunity for history students to work with historical agencies. Individual learning and career development contact is coordinated through the EWU Distance and Extended Learning Office.
HIST 496. EXPERIMENTAL COURSE. 1-10 Credits.

HIST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

HIST 498. SEMINAR. 1-5 Credits.

HIST 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Directed study and research projects in various fields of history. Limited to senior and graduate students.

HIST 501. INTRODUCTION TO HISTORICAL STUDIES. 5 Credits.
A seminar on the nature and problems of historical study with an emphasis on recent historiographical trends and research methods.

HIST 506. CULTURE AND POLITICS IN ANCIENT GREECE. 5 Credits.
This is a reading course in ancient Greek history. Students will be exposed to both primary or ancient sources, as well as the most recent or pertinent scholarship in this area. Contents will focus upon economics, war and religion with special emphasis placed upon the development of the world's first democracy.

HIST 508. FALL OF THE ROMAN REPUBLIC. 5 Credits.
This course will explore the unique factors within the Roman social structure, which encouraged ceaseless warfare, leading to the accumulation of the largest empire of the ancient world. This course will explore the fact that military necessity allowed the creation of a republican state, while military reality allowed that republican state to be torn down and a totalitarian dictatorship to emerge.

HIST 512. BRITISH HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
The study and analysis of a number of works by different authors representing a variety of views and interpretations of British history.

HIST 515. INTRODUCTION TO WORLD HISTORY. 5 Credits.
Pre-requisites: HIST 501 or permission of the instructor.
Since the establishment of the World History Organization in 1982, World History has emerged as a prominent subfield in the broader discipline of history. This reading seminar provides an understanding of the methodological and theoretical parameters of this new and exciting historical direction.

HIST 517. ISLAM IN CONTEMPORARY PERSPECTIVE. 5 Credits.
Pre-requisites: HIST 501 or permission of the instructor.
The course briefly considers the historical rise of Islam as a set of social, cultural, religious and political practices and then delves deeper into how these beliefs, traditions and practices interact with the contemporary, globalized world. In addition, the course examines and critiques conventional notions of Islam in order to find ways to create bridging dialogues between Muslim and non-Muslim communities.

HIST 525. TOPICS IN GERMAN HISTORY. 5 Credits.
Pre-requisites: permission of instructor.
This graduate reading course introduces students to a central topic in German History from the Middle Ages to the present. Such topics include: the Holocaust and modern Genocide; Popular Revolutions; Gender; Cities and Urban life; Capitalism; Consumer Society; Modernism in culture and the arts. Students will read important English-language scholarship on the quarter's topic, complemented by additional readings on the historiography of the topic from European and/or global perspectives.

HIST 527. COMPARATIVE SOCIAL HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
A reading seminar focused on the sources and methods used to understand the historical significance of ordinary people's lives.

HIST 530. LATIN AMERICAN HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
Readings on problems in Latin American History from colonial times, with the object of expanding the student's understanding of factual material as well as interpretation and bibliography.

HIST 532. AMERICAN COLONIAL AND REVOLUTIONARY HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
A survey of problems of research and interpretation in American History to 1783. Prerequisite: permission of the instructor.

HIST 534. 19TH CENTURY AMERICA. 5 Credits.
Pre-requisites: permission of the instructor.
A survey of problems of research and interpretation in the era from Jackson through Reconstruction, with the objective of preparing the student to conduct original research in the field.

HIST 536. CONTEMPORARY AMERICAN HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
Readings in selected topics relating to contemporary America.

HIST 538. HISTORY OF THE AMERICAN WEST. 5 Credits.
Pre-requisites: permission of the instructor.
The participants in this readings course will be expected to investigate and analyze original documents and secondary accounts.

HIST 540. WOMEN IN U.S. HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
Readings and problems in the history of women in the United States. The course is designed to prepare students for more specialized research in the field.

HIST 542. PUBLIC HISTORY. 5 Credits.
Pre-requisites: permission of the instructor.
Research using regional public and private collections to prepare both the general historian and the urban and regional planner for service in the fields of local history museology, and historic preservation. Required of students in public history field.

HIST 544. DIGITAL HISTORY. 5 Credits.
Readings on developments in the digital turn of history, preparing students to be historians in the 21st century.

HIST 546. CULTURAL RESOURCE MANAGEMENT. 5 Credits.
This course will acquaint students with cultural resources management through reading, completion of projects, and written assignments.

HIST 548. INTRODUCTION TO ARCHIVES. 5 Credits.
This course will provide a historical background to archival administration as practiced in the United States.

HIST 550. GRADUATE RESEARCH SEMINAR. 5 Credits.
Pre-requisites: permission of instructor.
The Research Seminar introduces graduate students to advanced techniques in primary source research in history. With guidance from the instructor and appropriate faculty members, students must find a suitable topic for research, complete with a historiographical justification. Students must conduct primary source research on their topic with special focus on printed sources--periodicals, newspapers, diaries, and manuscripts--available through interlibrary loan. Students will prepare a historiographical essay, an annotated bibliography, and a detailed outline of their project. Moreover, students must give evidence of substantial research in the relevant primary sources.
HIST 590. HISTORICAL WRITING AND EDITING. 5 Credits.
This course sharpens students' research and writing skills and leads them into the realm of actual writing, editing and typesetting of historical articles for publication. The key feature of the class is a hands on approach to historical publication.

HIST 595. INTERNSHIP. 1-15 Credits.

HIST 596. EXPERIMENTAL COURSE. 1-10 Credits.

HIST 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

HIST 598. GRADUATE WRITING SEMINAR. 5 Credits.
Pre-requisites: HIST 550 and permission of the instructor.
Writing seminar involving presentation and critique of research papers.

HIST 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

HIST 600. THESIS. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A bound research study conducted as partial fulfillment of a master's degree under the direction of a graduate committee.

HIST 601. RESEARCH PROJECT. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A research study in lieu of a bound thesis conducted as partial fulfillment of a master's degree under the direction of a graduate committee.

HIST 694. HISTORY INTERNSHIP. 2-5 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: permission of the department chair.
This program will stress application of history to potential vocational opportunities by providing supervised work experiences in cooperating agencies. Internships may be created in several fields; one such program will be a museum internship; others may be created in archives and libraries.

**Honors (HONS)**

HONS 101. THE INTELLECTUAL TRADITION: THE ANCIENT WORLD. 8 Credits.
Satisfies: GECR as one humanities course and one social sciences course.
Introduces major ideas of Western and Eastern thought—ideas that find expression in great works of ancient literature, philosophy, history, drama, art, music and science. Readings, class discussions and written assignments help provide understanding of these ideas through close, detailed study of important primary texts and through reading of secondary works that establish historical and cultural background for the primary texts.

HONS 102. THE INTELLECTUAL TRADITION: MIDDLE AGES THROUGH THE REFORMATION. 8 Credits.
Satisfies: GECR as one humanities course and one social sciences course.
Introduces major ideas of Western thought during the late Middle Ages through the Renaissance and Reformation—ideas that find expression in great works of literature, philosophy, history, drama, art, music and science. Readings, class discussions and written assignments help provide understanding of these ideas through close, detailed study of important primary texts and through reading of secondary works that establish historical and cultural background for the primary texts.

HONS 103. MODERN SCIENCE AND SOCIETY. 8 Credits.
Satisfies: GECR as one social sciences course and with HONS 104 satisfies one natural sciences course.
Introduces major ideas of natural and social scientists of the 19th and 20th centuries. Readings, class discussions and written assignments help provide understanding of these ideas through close, detailed study of important primary texts and through reading of secondary works which establish historical and cultural background of the primary texts.

HONS 104. HONS NATURAL SCIENCE LAB. 1 Credit.
Notes: the completed sequence of HONS 103 and HONS 104 satisfies the GECR as one natural science course and with HONS 103 alone satisfies one social sciences course.
Pre-requisites: HONS 103 (must be taken concurrently).
The Honors Lab employs the scientific method to investigate and process physical, statistical and research generated data. Experiments are generally student designed.

HONS 213. ART IN THE HUMANITIES. 5 Credits.
Cross listed: ART 213, HUMN 213.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
A survey of cultural interrelationships of the arts, emphasizing the visual arts of painting, sculpture and architecture.

HONS 214. AFRICAN AMERICAN CULTURE AND EXPRESSIONS. 5 Credits.
Cross listed: AAST 214, HUMN 214.
Satisfies: cultural and gender diversity university graduation requirement.
An interdisciplinary survey of African American culture beginning with ancient African history and traditions through contemporary issues in the African American experience. Attention given to basic principles of history, sociology, political science, economics and the arts in the study of the dynamics of the African American culture.

HONS 215. EARLY AFRICAN AMERICAN HISTORY: ANCIENT AFRICA TO THE END OF THE RECONSTRUCTION 1877. 5 Credits.
Cross listed: AAST 215, HIST 215.
Satisfies: cultural and gender diversity university graduation requirement.
Examines the African American experience from African civilizations in the 4th century AD through slavery to the end of the Reconstruction era in the United States.

HONS 220. AFRICAN AMERICAN HISTORY: POST CIVIL WAR TO PRESENT. 5 Credits.
Cross listed: AAST 220, HIST 220.
Satisfies: the GECR for social sciences, list 3, history.
The study of American history from the perspective of the African American experience since the end of the Reconstruction period.

HONS 296. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

HONS 298. UNIVERSITY HONORS SEMINAR. 1-5 Credits.
Seminars
HONS 301. CLASSICAL ETHICS AND RHETORIC. 4 Credits.
Pre-requisites: junior standing and admissions to the Honors Program or instructor’s permission
A review and elaboration of some of the key philosophical systems and communication strategies of classical western culture (Greek and early Christian).

HONS 311. SOCIAL AND POLITICAL PHILOSOPHY. 5 Credits.
Cross listed: PHIL 311.
Pre-requisites: successful completion of ENGL 101.
Major political theories and analysis of arguments that attempt to justify actual or proposed political and social institutions.

HONS 312. PHILOSOPHY OF RELIGION. 5 Credits.
Cross listed: PHIL 312.
Pre-requisites: successful completion of ENGL 101.
Philosophical problems with religion and theology. Typical problems concern the existence of God, God’s relation to evil, the immortality of the soul, the meaning of religious language and the criteria for theological verification.

HONS 315. AFRICAN HISTORY: ANCIENT AFRICA TO MANDELA. 5 Credits.
Cross listed: AAST 315, HIST 315.
Satisfies: international studies university graduation requirement.
A survey of African history from prehistory to the present. Emphasizes earlier Farican civilizations, extensive contact with the outside world and the formation of African nations.

HONS 320. HISTORY OF ANCIENT WESTERN PHILOSOPHY. 5 Credits.
Cross listed: PHIL 320.
Pre-requisites: ENGL 100.
The history of Greek philosophy from the first theories about the causes of the universe to the Socratic inquiry about how to live and to Plotinus’ theory of the soul.

HONS 321. HISTORY OF MODERN WESTERN PHILOSOPHY. 5 Credits.
Cross listed: PHIL 321.
Pre-requisites: ENGL 101.
16th–18th century European philosophy against the background of religion and science. The main theme is the relation of knowledge to reason and experience.

HONS 322. HISTORY OF CONTEMPORARY WESTERN PHILOSOPHY. 5 Credits.
Cross listed: PHIL 322.
Pre-requisites: successful completion of ENGL 101.
This course is a survey of the major European and American schools of the 19th and 20th century philosophy. Course material includes German idealism, existentialism, utilitarianism, Marxism, pragmatism, feminism, logical positivism and post-modernism.

HONS 331. CHINESE PHILOSOPHY. 5 Credits.
Cross listed: PHIL 331.
Pre-requisites: successful completion of ENGL 101.
Confucius’ humanistic ethics, the naturalistic philosophy of Taoism and Buddhism—especially the Zen Buddhist method of enlightenment.

HONS 342. TRIBES, BANDS AND CHIEFDOMS. 5 Credits.
Cross listed: ANTH 342.
Satisfies: international studies university graduation requirement.
Approaches to understanding non-state societies and an examination of how their cultures contrast with each other and with our own way of life.

HONS 349. MAJOR CIVILIZATIONS OF ASIA. 5 Credits.
Cross listed: ANTH 349.
Satisfies: international studies university graduation requirement.
An ethnographic survey of Japan, China, Islam and India, emphasizing the core values of each.

HONS 355. INDIANS OF NORTH AMERICA. 5 Credits.
Cross listed: ANTH 355.
Satisfies: cultural and gender diversity university graduation requirement.
A comparative overview of distinctive Indian cultures. Opportunities for individual research provided.

HONS 357. PEOPLES OF LATIN AMERICA. 5 Credits.
Cross listed: ANTH 357.
Satisfies: international studies university graduation requirement.
An ethnographic survey of contemporary cultures of Central and South America, including both aboriginal and peasant societies. Emphasis is placed on the merging and clashing of European, Indian and African, rich and poor and the continuing character of these conflicts into the present.

HONS 358. MEDICAL ANTHROPOLOGY. 5 Credits.
Cross listed: ANTH 358.
Satisfies: international studies university graduation requirement.
This course offers an understanding of the anthropology of medicine, curing versus healing, the concept of biomedicine and its role in today’s world and other perspectives on medicine and medical practice. A review of folk and professional medical systems will be included.

HONS 366. REVOLUTIONS AND DEVELOPMENT IN THE THIRD WORLD. 5 Credits.
Cross listed: ANTH 366.
Satisfies: international studies university graduation requirement.
This course explores the alternative models available for understanding rapid cultural change in a worldwide array of postcolonial countries. Emphasis is placed on the historical origins of ethnic, nationalist and class conflict in local regions as studied by anthropologists. Opportunities are made available for pursuing students’ regional interests.

HONS 393. TECHNOLOGY WORLD CIVILIZATION. 4 Credits.
Cross listed: TECH 393.
Pre-requisites: ENGL 101.
Satisfies: international studies university graduation requirement.
Students will investigate the issues surrounding technological change in discrete cultural settings with a historical perspective of the evolution of technology in a global context.

HONS 396. EXPERIMENTAL COURSE. 1-5 Credits.
HONS 398. HONORS SEMINAR. 1-5 Credits.
Directed Study

HONS 400. SPECIAL PERIODS IN THE HISTORY OF PHILOSOPHY. 5 Credits.
Cross listed: PHIL 400.
Pre-requisites: ENGL 101.
Intensive study of a period in the history of philosophy that is not included in the 320–322 sequence.
HONS 415. HISTORY OF ANCIENT ART. 5 Credits.
Cross listed: ART 415.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course is a survey of early styles of art in Western civilization, including Egypt, the Near East, Greece and Rome.

HONS 417. HISTORY OF MEDIEVAL ART. 5 Credits.
Cross listed: ART 417.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course is a survey of painting, sculpture, architecture and craft art in Europe from the Early Christian period through the Gothic age (ca. 400–1400 AD).

HONS 420. HISTORY RENAISSANCE ART. 5 Credits.
Cross listed: ART 420.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course includes discussion of painting, sculpture and architecture of Renaissance Europe from the 14th through the 16th centuries, including a comparison between Italian and Northern styles.

HONS 422. HISTORY BAROQUE AND ROCOCO ART. 5 Credits.
Cross listed: ART 422.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course presents European Art between 1600 and 1750, with attention to the interrelation between the visual arts of painting, sculpture and architecture and other areas of cultural development—music, drama, literature and philosophy.

HONS 423. ART OF THE 19TH CENTURY. 5 Credits.
Cross listed: ART 423.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course is a survey of painting, sculpture and architecture in 19th century America and Europe, covering such movements as Neoclassicism, Romanticism, Realism and Impressionism.

HONS 430. HISTORY OF MODERN ART. 5 Credits.
Cross listed: ART 430.
Prerequisites: ENGL 101; ART 213 or HONS 213 or HUMN 213 (may be taken concurrently).
This course is a survey of major art forms, including architecture, from French Impressionism (ca. 1865) to the present. Emphasis will be on identifying the origins and tracing the development of 20th century styles.

HONS 435. MAJOR AUTHORS IN THE HISTORY OF PHILOSOPHY. 5 Credits.
Cross listed: PHIL 435.
Notes: repeatable for credit with different authors.
Prerequisites: successful completion of ENGL 101.
Intensive study of a single major philosopher.

HONS 439. HONORS SEMINAR. 1-5 Credits.
Prerequisites: permission of instructor.
This course is a variable topics course exploring current interests and research of participating faculty.

HONS 450. CULTURAL ECOLOGY. 5 Credits.
Cross listed: ANTH 450.
Satisfies: international studies university graduation requirement.
The relationship between man, nature and culture is contrasted in food collecting, simple farming and technologically more complex cultures.

HONS 454. MYTH, RITUAL AND MAGIC. 5 Credits.
Cross listed: ANTH 454.
This course explores myth, magic and ritual as they relate to religion, philosophy and science, both in western and non-western, urban and non-urban contexts.

HONS 458. FAIR TRADE, COFFEE, AND SOCIAL JUSTICE. 2 Credits.
Cross listed: ANTH 458.
This class explores the Fair Trade movement, using coffee as a lens. Topics include how the Fair Trade system has worked, debate over the Fair Trade system as a social movement and an alternative market.

HONS 495. HONORS INTERNSHIP. 1-10 Credits.
Prerequisites: permission of the instructor, department chair and college dean.

HONS 496. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

HONS 498. HONORS SEMINAR. 1-5 Credits.
Honors students present the results of their research project, honors thesis, or other creative work, prepared under the guidance of their major departments.

HONS 499. INDEPENDENT STUDY. 1-5 Credits.
Prerequisites: permission of the instructor, department chair and college dean.

Human Resource Management (HUMR)

HUMR 298. SEMINAR. 1-5 Credits.

HUMR 299. DIR STUDY. 1-15 Credits.

HUMR 328. HUMAN RESOURCE MANAGEMENT. 4 Credits.
Prerequisites: junior standing.
Human resource management (HRM) is an ongoing process consisting of various critical functions including human resource planning, recruitment, selection, training and development, job analysis, performance appraisal, compensation and health and safety. These major HRM functions and their sequential interdependence are discussed and applied. Various external forces that constrain managerial decision-making are also considered including laws and regulations dealing with equal opportunity, workplace diversity and multiculturalism, especially as these impact human resource policies and practices.

HUMR 395. INTERNSHIP. 1-10 Credits.

HUMR 399. DIR STUDY. 1-15 Credits.

HUMR 427. COMPENSATION ADMINISTRATION. 4 Credits.
Prerequisites: HUMR 328.
Part I consists of an analysis of the theoretical concepts, practical techniques, and criteria commonly recognized in the development and control of various compensation models. Part II is the application (field study) of selected concepts, techniques, and criteria considered appropriate for the solutions to local work place compensation problems.

HUMR 429. CURRENT ISSUES IN HUMAN RESOURCE MANAGEMENT. 4 Credits.
Prerequisites: HUMR 328.
Analyses of selected major problems confronted in human resource management.

HUMR 495. PROFESSIONAL INTERNSHIP. 1-5 Credits.
Prerequisites: permission of the instructor, department chair and college dean.
HUM 498. SEMINAR. 1-5 Credits.
HUM 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Humanities (HUMN)

HUM 101. INTRODUCTION TO WOMEN'S STUDIES. 5 Credits.
Cross listed: WMST 101.
Satisfies: cultural and gender diversity university graduation requirement.
Explores the struggle for equality, the message and impact of the media, power of language, influence of religion and the effects of socialization, education, race, class, roles, stereotypes and romantic love on the experience of women.

HUM 196. EXPERIMENTAL COURSE. 1-5 Credits.
HUM 202. THEATRE IN THE HUMANITIES. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
Elements of theatre, dramatic structure, types and styles; tradition, values and ideas of the theatre and humanity's relationship to it.

HUM 210. CLASSICS IN LITERATURE. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 1, literature.
Studies works generally considered among the best and most typical of the early (e.g., Hebrew and Greco-Roman) expressions of Western culture and traditions. Discusses the development of specific themes and ideas (e.g., humanism) as they are found in several different works.

HUM 211. MASTERPIECES OF THE WEST WORLD. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 1, literature.
Literary works selected from the Early Middle Ages through the Renaissance which illustrate themes and ideas central to Western culture, especially the interaction of faith and individualism.

HUM 212. MUSIC IN THE HUMANITIES. 5 Credits.
Cross listed: MUSC 212.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
This course is a survey with primary focus on Western classical music in terms of humanistic development with emphasis on musical style and structure and relations with the other arts.

HUM 213. ART IN THE HUMANITIES. 5 Credits.
Cross listed: ART 213, HONS 213.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
A survey of cultural interrelationships of the arts, emphasizing the visual arts of painting, sculpture and architecture.

HUM 214. AFRICAN AMERICAN CULTURE AND EXPRESSIONS. 5 Credits.
Cross listed: AAST 214, HONS 214.
Satisfies: cultural and gender diversity university graduation requirement.
An interdisciplinary survey of African American culture beginning with ancient African history and traditions through contemporary issues in the African American experience. Attention given to basic principles of history, sociology, political science, economics and the arts in the study of the dynamics of the African American culture.

HUM 215. INTRODUCTION TO RELIGION. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 3, philosophy and reasoning.
An introduction to the range of basic conceptual, historical, comparative, cultural and methodological issues in religion.

HUM 270. GREAT WORLD VIEWS. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 3, philosophy and reasoning.
An analyses of selected writings from the viewpoint of what is said about human nature, the scheme of things and man's place in that scheme. Emphasis on rational reflection and the relation of various philosophies to the life and conduct of the student.

HUM 290. ARTS AND IDEAS. 5 Credits.
Notes: normally offered in summers only.
Satisfies: any one of the three Humanities and Fine Arts areas in the General Education Core Requirements (List 1, 2, or 3)
This course traces the development of basic ideas and values in Western culture during the Renaissance—e.g., individualism and technical innovation. Special focus is placed on similar ideas and techniques found in the art, music, theater, literature and philosophy of the period, with frequent guest presenters from different fields of study.

HUM 296. EXPERIMENTAL COURSE. 1-5 Credits.
HUM 298. SEMINAR. 1-5 Credits.
HUM 299. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Special humanities studies vary according to faculty and student interests.

HUM 303. SURVEY OF THEATRE HISTORY. 5 Credits.
Cross listed: THTR 303.
Pre-requisites: THTR 202 or upper class standing.
Surveys the major periods of Western theatre from Greek to modern trends.

HUM 310. ISSUES IN WOMEN'S STUDIES. 4 Credits.
Cross listed: WMST 310.
Satisfies: cultural and gender diversity university graduation requirement.
Analyzes causes and effects of sexual stereotypes and surveys new scholarship through women's studies in psychology, economics, female biology, history, literature and others.

HUM 311. AFRICAN AND AFRICAN AMERICAN ART HISTORY. 5 Credits.
Cross listed: ART 311.
Pre-requisites: ENGL 100.
Satisfies: cultural and gender diversity university graduation requirement.
Surveys visual arts from prehistoric Africa to the modern African American artist.

HUM 315. EAST-WEST PHILOSOPHIES AND RELIGIONS. 5 Credits.
Satisfies: international studies university graduation requirement.
Comparative study of the world's theological systems in their philosophical, historical and ethical contexts.

HUM 320. THE HUMAN PROSPECT. 5 Credits.
Cross listed: BIOL 320.
Pre-requisites: sophomore standing.
Satisfies: international studies university graduation requirement.
Explores the biological and philosophical roots of humans' relationship with the environment.

HUM 339. SPECIAL TOPICS. 2-5 Credits.
Notes: may be repeated for credit for different topics or titles.
Variable topics.
HUMN 381. NATIONALISM AND RACISM IN CENTRAL EUROPEAN FILM. 4 Credits.
Cross listed: GERM 381.
Pre-requisites: ENGL 201.
Satisfies: international studies university graduation requirement.
This course provides the basic elements of film analysis and examines the depiction of national socialism, racism and the legacy of the Nazi past in German-speaking films by German and other Central European directors from the 1970s to the present. Evaluating criteria will differ depending on whether the course is taken for German or Humanities credit.

HUMN 396. EXPERIMENTAL COURSE. 1-5 Credits.

HUMN 398. SEMINAR. 1-5 Credits.

HUMN 399. DIRECTED STUDY. 1-5 Credits.

HUMN 410. FEMINIST THEORY. 4 Credits.
Cross listed: WMST 410.
Pre-requisites: WMST 101 or HUMN 310 or WMST 310.
Feminist theories developed to explain women’s subordinate position in society and current trends in feminist thought. Includes psychoanalytic feminism, feminist literary criticism and cross-cultural views of feminism.

HUMN 415. GAY, LESBIAN, BISEXUAL AND TRANSGENDER STUDIES. 5 Credits.
Cross listed: WMST 415.
Pre-requisites: one course in or cross-listed with Women’s and Gender Studies.
Satisfies: cultural and gender diversity university graduation requirement.
This course consists of a theoretical examination of gay, lesbian, bisexual and transgender identities. The course material will include texts from queer theory and a wide variety of academic disciplines.

HUMN 440. PERSPECTIVES ON DEATH. 5 Credits.
Satisfies: international studies university graduation requirement.
Human awareness of death is unique, but the philosophical, religious and cultural response to it has been one of great variety. All human beings have dealt with the reality of death and the course will consider the most prevalent and meaningful perspectives.

HUMN 491. SENIOR THESIS. 4 Credits.
Pre-requisites: permission of the instructor and senior standing.
Satisfies: senior capstone university graduation requirement.
Humanities majors will present the results of a research project or creative work prepared under the direction of a mentor approved by the Coordinator of Humanities. A second reviewer must approve the final evaluation of the project. This course or ITGS 400 must be used as the Senior Capstone required for graduation for Humanities majors.

HUMN 496. EXPERIMENTAL COURSE. 1-5 Credits.

HUMN 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

HUMN 498. SEMINAR. 1-5 Credits.

HUMN 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Indian Studies (IDST)

IDST 101. INTRODUCTION TO INDIAN STUDIES. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
This course introduces the basic philosophy (spiritual and intellectual sources), method and major topics of the discipline. Material explored includes organizing concepts, theories and patterns within a historical context-including white contact time and pre-white contact time.

IDST 196. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

IDST 201. SALISH LANGUAGE AND CULTURE I. 5 Credits.
Pre-requisites: IDST 101.
These courses are the beginning courses in Salish language and culture, focusing on the nselzcin dialect traditionally spoken by the aboriginal people of the northern areas of central and Eastern Washington as well as southern British Columbia. Students will learn to speak and understand basic Salish vocabulary and phrases, and will be introduced to the International Phonetic Alphabet as applied to nselzcin.

IDST 202. SALISH LANGUAGE AND CULTURE II. 5 Credits.
Pre-requisites: IDST 201.
These courses are the beginning courses in Salish language and culture, focusing on the nselzcin dialect traditionally spoken by the aboriginal people of the northern areas of central and Eastern Washington as well as southern British Columbia. Students will learn to speak and understand basic Salish vocabulary and phrases, and will be introduced to the International Phonetic Alphabet as applied to nselzcin.

IDST 203. SALISH LANGUAGE AND CULTURE III. 5 Credits.
Pre-requisites: IDST 202.
These courses are the beginning courses in Salish language and culture, focusing on the nselzcin dialect traditionally spoken by the aboriginal people of the northern areas of central and Eastern Washington as well as southern British Columbia. Students will learn to speak and understand basic Salish vocabulary and phrases, and will be introduced to the International Phonetic Alphabet as applied to nselzcin.

IDST 296. EXPERIMENTAL COURSE. 4 Credits.
Experimental

IDST 316. AMERICAN INDIAN HISTORY I. 5 Credits.
Cross listed: HIST 316.
This course introduces students to an overview of American Indian history through major themes which include impact and response to European contact, conquest and colonization, empire building, removal and dispossession from traditional lands, treaty making and the origins of federal Indian policy.

IDST 317. AMERICAN INDIAN HISTORY II. 5 Credits.
Cross listed: HIST 317.
This course introduces students to an overview to American Indian peoples from 1887 to the present. Major themes covered in this course include but not limited to questions regarding history as a discipline, origins of indigenous peoples, impacts and responses to colonization and genocide, beginning from assimilationist policies, self-determination, termination and relocation, Red Power movement, gender, sovereignty, identity, land, environment and current issues facing American Indian peoples and communities today.
IDST 321. CONTEMPORARY INDIAN ISSUES. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
This course will examine the contemporary educational, social, political and cultural issues currently impacting Native American communities. Through individual and group research, students will discuss a range of issues including educational reform, community organizing, economic development, land rights, the breakdown of traditional families and culturally relevant program development within various Native American communities. Focus will be on the Native American nations throughout North America.

IDST 325. NATIVE AMERICAN WRITING. 5 Credits.
Pre-requisites: ENGL 101.
The course focuses on the development of writing from a Native American perspective. Through the study of various Native American writers, writing exercises, and skills development, students will develop their own writing style.

IDST 330. INDIAN WARS: PAST AND PRESENT. 5 Credits.
The focus of this course is Indian wars of the Pacific Northwest during the first stages of white conquest. It will also include the study of contemporary native American political and social struggles.

IDST 338. AMERICAN INDIAN CINEMA. 5 Credits.
Pre-requisites: IDST 101.
This course explores how the Hollywood film industry both constructs and appropriates images of American Indians. The course examine Native American themed films, which have been made by both Native and non-natives, in order to critically compare the images presented from each perspective.

IDST 380. SURVEY OF NATIVE AMERICAN LITERATURE. 5 Credits.
Cross listed: ENGL 380.
Pre-requisites: ENGL 201 or permission of instructor.
Satisfies: cultural and gender diversity university graduation requirement.
Designed to introduce students to specific examples of narrative, ceremonial, ritualistic, religious and secular literatures from the oral traditions of Indian Nations in North America and South America. Also introduces students to contemporary genres (i.e., poetry, the short story, the novel and drama) as they emerge from the oral traditions, with the specific purpose of articulating the continuity as reflected in literary genres.

IDST 396. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

IDST 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Workshop

IDST 398. SEMINAR. 4 Credits.
Seminar

IDST 399. DIRECTED STUDY. 5 Credits.
Directed Study

IDST 420. READINGS IN DECOLONIZATION. 5 Credits.
Cross listed: CHST 420.
Pre-requisites: IDST 101 and CHST 101.
This course grounds students in the theory and concepts of colonization, decolonization and indigenous peoples in America, with brief comparisons with global indigenous peoples and experiences. Through that theoretical understanding, students examine and formulate ways in which decolonization can impact and be integrated into indigenous lives and communities in a meaningful way.

IDST 421. FEDERAL INDIAN LAW AND POLICY I. 5 Credits.
Cross listed: POLI 421.
This is the first course in a two course series on federal Indian law and policy. Federal Indian law is the body of law that regulates the relationship between Indian tribes and the United States. Federal Indian policy consists of the various doctrines underlying federal legislative and executive actions affecting Indian tribes. This course will introduce students to laws, regulations and case law that comprise federal Indian law as well as the policies underlying those laws. Topics will be further explored through the use of case studies.

IDST 422. FEDERAL INDIAN LAW AND POLICY II. 5 Credits.
Cross listed: POLI 422.
This course is a continuation of IDST 421. Topics include Modern Trust doctrine, the Federal-Tribal Relationship, congressional plenary power, tribal land and sovereignty issues, and tribal justice systems. These topics are explored through the use of case studies.

IDST 437. INDIAN CHILD WELFARE. 4 Credits.
Cross listed: SOWK 437.
This course introduces Indian child welfare with an emphasis on understanding legal, historical and cultural issues applying to work with American Indian and Alaska Native youth. This course emphasizes Indian child welfare issues relevant to the Pacific Northwest (Washington, Idaho, Oregon and Montana).

IDST 477. CONTEMPORARY INDIGENOUS WOMEN. 5 Credits.
Cross listed: WMST 477.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
This course is designed to introduce students to the role of indigenous women in the struggles for national self determination from a historical/cultural/spiritual/political context. Historically, indigenous women have always played a very prominent and powerful role within all spheres of indigenous social/political/cultural and economic issues affecting indigenous nations from a contemporary context.

IDST 480. NATIVE AMERICAN ORAL TRADITION. 5 Credits.
Cross listed: HIST 480.
Pre-requisites: junior standing.
This course expands the students’ understanding of the past through the inclusion of indigenous perspectives. Students will examine the use of oral traditions/histories, particularly the contestation regarding their validity as legitimate, historical sources. This course also examines the evolution of tribal and oral traditions from early records of their existence to the modern issues surrounding their use and maintenance. Students are introduced to the issues, ethics and protocol when working with tribal members and communities.

IDST 485. INDIGENOUS EDUCATION. 5 Credits.
Cross listed: EDUC 485.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
This course introduces students to the topic of indigenous education from a global perspective. Through readings, discussions, lectures and videos, students will examine the role education has played as an instrument of oppression, and how indigenous nations have restructured educational systems to reclaim their cultural identities and to empower themselves politically.

IDST 495. INDIAN STUDIES INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

IDST 496. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental.
IDST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  
Workshop

IDST 498. SEMINAR. 1-5 Credits.  
Seminar

IDST 499. DIRECTED STUDY. 1-5 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
Independent study in areas of Indian Studies.

IDST 599. INDEPENDENT STUDY. 1-5 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
Graduate level directed study and research projects in American Indian and Indigenous studies varying according to faculty and student interest.

**Integrative Studies (ITGS)**

ITGS 110. FYE: HUMANITIES. 3 Credits.  
Pre-requisites: a restriction available to advisors.  
Satisfies: Students who complete this course will have one HUMANITIES requirement cleared, student’s choice.  
Freshman Year Experience.

ITGS 120. FYE: NATURAL SCIENCE. 3 Credits.  
Pre-requisites: freshman standing.  
Satisfies: students who complete this course will have one NATURAL SCIENCE requirement cleared, student’s choice.  
Freshman Year Experience.

ITGS 130. FYE: SOCIAL SCIENCE. 3 Credits.  
Pre-requisites: freshman standing.  
Satisfies: students who complete this course will have one SOCIAL SCIENCE requirement cleared, student’s choice.  
Freshman Year Experience.

ITGS 196. EXPERIMENTAL COURSE. 1-5 Credits.  
Experimental

ITGS 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  
Workshop

ITGS 198. SEMINAR. 1-5 Credits.  
Seminar

ITGS 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  
Workshop

ITGS 396. EXPERIMENTAL COURSE. 1-5 Credits.  

**Interdisciplinary Studies (ITDS)**

ITDS 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  

ITDS 199. SPECIAL STUDIES. 1-5 Credits.  

ITDS 201. PORTFOLIO ASSESSMENT. 1-45 Credits.  
Notes: graded Pass/Fail.  
Experiential learning credit transcribed from Eastern Washington University faculty Portfolio Assessment.

ITDS 295. INTERNSHIP. 1-15 Credits.  

ITDS 296. EXPERIMENTAL COURSE. 1-10 Credits.  

ITDS 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  

ITDS 300. PORTFOLIO DEVELOPMENT. 4 Credits.  
Notes: graded Pass/Fail.  
Pre-requisites: permission of the instructor.  
Significant prior learning is documented for evaluation and awarded elective academic credit.

ITDS 395. CONTRACTED LEARNING. 1-15 Credits.  

ITDS 396. EXPERIMENTAL COURSE. 1-5 Credits.  

ITDS 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  

ITDS 399. DIRECTED STUDY. 1-18 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.

ITDS 495. INTERNSHIP. 1-15 Credits.  

ITDS 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-15 Credits.  

**International Affairs (INST)**

INST 200. GLOBAL ISSUES. 4 Credits.  
Satisfies: university graduation requirement international studies.  
A survey of important large-scale issues and conditions which are active in the contemporary world. Includes global perspectives of ecological and social/economic issues.

INST 296. EXPERIMENTAL. 1-5 Credits.  

INST 299. DIRECTED STUDY. 1-5 Credits.  

INST 380. JAPAN TODAY. 4 Credits.  
Cross listed: JAPN 380.  
Pre-requisites: ENGL 201 or instructor permission.  
Satisfies: international studies university graduation requirement.  
A broad survey of contemporary Japan including society, culture, geography, government and economy. No knowledge of Japanese language required.

**International Affairs (INST)**

INST 395. CONTRACTED LEARNING. 1-15 Credits.  

INST 396. EXPERIMENTAL COURSE. 1-5 Credits.  

INST 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  

Notes:

The Interdisciplinary Senior Capstone carries students from the academic community into civic life. The course assembles students into teams for studying problems which graduates will confront as citizens in the Pacific Northwest. It asks students individually and in collaboration with others to produce documents which address these problems by drawing from an array of disciplinary perspectives. The University offers this course as an option for completing the senior capstone graduation requirement, depending on the student’s major.
International Business (IBUS)

IBUS 470. INTERNATIONAL BUSINESS MANAGEMENT. 4 Credits.
Cross listed: MGMT 470.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
Analysis of the impact of international business variables on global organizations and the impact of these organization on the societies in which they operate.

IBUS 471. MULTINATIONAL PEOPLE MANAGEMENT. 4 Credits.
Cross listed: MGMT 471.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
A systems approach to multinational human resource management incorporating three interrelated subsystems: internal (the multinational company), external (the nation state) and the individual (the manager) in a cross-cultural context.

IBUS 472. GLOBAL MARKETING MANAGEMENT. 4 Credits.
Cross listed: MKTG 472.
Pre-requisites: IBUS 470/MGMT 470 or MKTG 310.
A practical approach to understanding the implications to marketing functions that result from competing in a global marketplace. Marketing function differences and similarities are explored across national borders and cultures.

IBUS 474. INTERNATIONAL FINANCIAL MANAGEMENT. 4 Credits.
Cross listed: FINC 474.
Pre-requisites: FINC 335.
This course discusses financial management in the international arena.

Japanese (JAPN)

JAPN 101. FIRST-YEAR JAPANESE I. 5 Credits.
The beginning Japanese sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

JAPN 102. FIRST-YEAR JAPANESE II. 5 Credits.
Pre-requisites: JAPN 101 or equivalent
The beginning Japanese sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

JAPN 103. FIRST-YEAR JAPANESE III. 5 Credits.
Pre-requisites: JAPN 102 or equivalent.
The beginning Japanese sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

JAPN 199. DIRECTED STUDY. 1-6 Credits.

JAPN 201. SECOND-YEAR JAPANESE. 5 Credits.
Pre-requisites: First-Year Japanese or equivalent.

JAPN 202. SECOND-YEAR JAPANESE. 5 Credits.
Pre-requisites: JAPN 201 or equivalent.

JAPN 203. SECOND-YEAR JAPANESE. 5 Credits.
Pre-requisites: JAPN 202 or equivalent.

JAPN 299. DIRECTED STUDY. 1-6 Credits.

JAPN 305. JAPANESE CONVERSATION. 2 Credits.
Pre-requisites: JAPN 201 or permission of the instructor.
Concentrated drill in Japanese conversation discussing such subjects as the culture, civilization and current events of Japan.

JAPN 331. CONTEMPORARY ISSUES I. 2 Credits.
Pre-requisites: JAPN 203 or instructor’s permission.
Examines and discusses major contemporary issues in Japan. Topics include housing conditions, marriage and women's social progress, the aging society, education, Japanese-style management, etc.

JAPN 332. CONTEMPORARY ISSUES II. 2 Credits.
Pre-requisites: JAPN 203 or instructor’s permission.
Examines and discusses major contemporary issues in Japan. Topics include housing conditions, marriage and women's social progress, the aging society, education, Japanese-style management, etc.

JAPN 380. JAPAN TODAY. 4 Credits.
Cross listed: INST 380.
Pre-requisites: ENGL 201 or instructor permission.
Satisfies: international studies university graduation requirement.
A broad survey of contemporary Japan including society, culture, geography, government and economy. No knowledge of Japanese language required.
JAPN 396. EXPERIMENTAL COURSE. 1-5 Credits.
JAPN 399. DIRECTED STUDY. 1-6 Credits.
JAPN 499. DIRECTED STUDY. 1-5 Credits.

**Journalism (JRNM)**

JRNM 100. EASTERNER STAFF. 3 Credits.
Notes: graded Pass/Fail; repeatable for up to 9 credits.
Pre-requisites: permission of the instructor.
This course requires students to engage in reporting and editorial assignments on the staff of the university paper.

JRNM 196. EXPERIMENTAL COURSE. 1-5 Credits.

JRNM 197. FRESHMAN SEMINAR. 2 Credits.

JRNM 199. SPECIAL STUDIES. 1-5 Credits.

JRNM 296. EXPERIMENTAL COURSE. 1-10 Credits.

JRNM 299. DIRECTED STUDY. 1-3 Credits.
Pre-requisites: permission of the instructor.

JRNM 309. GRAMMAR FOR PROFESSIONAL WRITERS. 5 Credits.
Cross listed: ENGL 309, TCOM 309.
Pre-requisites: ENGL 201.
Many professionals continue to struggle with grammar and usage rules throughout their careers. In this course, students will refresh and improve their knowledge of English grammar, style and usage rules. They will develop confidence in using correct punctuation, capitalization and verb forms, and learn how to create and employ different types of sentence structures, becoming proficient at writing clear, correct sentences to communicate effectively with a variety of audiences.

JRNM 330. MASS NEWS MEDIA. 5 Credits.
This course is a survey of scope, function, standards and career opportunities in mass news media.

JRNM 332. NEWS WRITING. 5 Credits.
Pre-requisites: ENGL 201.
This course covers the news gathering process and how to write basic news reports.

JRNM 333. ADVANCED NEWS WRITING. 5 Credits.
Pre-requisites: JRNM 332, co-requisite JRNM 341
This course engages students in the process of writing features, narratives and analyses.

JRNM 334. MAGAZINE ARTICLE WRITING. 4 Credits.
Pre-requisites: JRNM 332 or permission of the instructor.
This course focuses on the development of article ideas, the preparation of manuscripts and analysis of various markets with a view of selling articles.

JRNM 341. REPORTING. 5 Credits.
Pre-requisites: JRNM 332, co-requisite JRNM 333
In this course students gain a greater appreciation of public issues and controversies while exploring strategies for explaining these often complex issues to the general public.

JRNM 349. PHOTOJOURNALISM. 4 Credits.
In this course students learn to take photographs and study how photography illustrates newspaper, magazine and internet news. The process of choosing and editing photographs for publication is analyzed.

JRNM 351. THE LAW OF JOURNALISM. 4 Credits.
Prerequisite: sophomore standing or permission of the instructor In this course students learn about laws pertaining to the profession of journalism. Topics may include freedom of the press, libel, privacy and copyright.

JRNM 395. INTERNSHIP. 5-16 Credits.
Notes: may be repeated.
Pre-requisites: permission of the instructor, department chair and college dean.
Students obtain real-world experience by spending one or more quarters working with professionals in the news media. These experiences may be with practitioners working at newspapers, radio, television, online news outlets or working in public relations with an organization.

JRNM 399. DIRECTED STUDY. 1-5 Credits.

JRNM 400. EASTERNER STAFF LEADERSHIP. 3 Credits.
Notes: repeatable for up to 9 credits.
Pre-requisites: JRNM 100.
Students learn how to manage the publication of a student newspaper.

JRNM 442. ADVANCED REPORTING. 5 Credits.
Pre-requisites: JRNM 333 and JRNM 341.
This course considers philosophical questions pertaining to news coverage. It also analyzes the judicial system as a topic of journalistic writing.

JRNM 451. INTRODUCTION TO PUBLIC RELATIONS THEORY. 4 Credits.
Pre-requisites: junior standing.
Explores a broad range of concepts, elements, skills and impacts, including theory and applications; examines the role of public relations in business and society and as a profession.

JRNM 452. ADVANCED PUBLIC RELATIONS THEORY. 4 Credits.
Pre-requisites: JRNM 332, JRNM 451 or permission of the instructor.
Applies journalism, communications and public relations theories and skills to case study examples in organizations and communication environments.

JRNM 453. PUBLIC RELATIONS WRITING. 4 Credits.
Pre-requisites: JRNM 332, JRNM 451 or permission of the instructor.
Practice in methods of preparing and producing messages for organizations in print and other media forms.

JRNM 470. DESKTOP PUBLICATION DESIGN. 4 Credits.
Pre-requisites: DESN 360 or permission of the instructor.
Applies the theories and principles of publication design to newspaper, newsletter, magazine and brochure formats as produced with desktop publishing technology.

JRNM 475. EDITING AND PUBLISHING. 4 Credits.
Pre-requisites: ENGL 459.
This course covers the editing of newspapers, magazines and online publications. It considers issues of design in the preparation of copy, art and photography for publication.

JRNM 480. NON-FICTION WRITING PROJECTS. 5 Credits.
Pre-requisites: ENGL 459, permission of the instructor.
This course consists of both classroom instruction and editorial advice on finding, writing, revising and placing non-fiction articles.
MGMT 120. THE WORLD OF BUSINESS. 5 Credits.
Notes: not open to upper-division business administration majors.
Surveys the basic roles and functions performed by business firms in modern free enterprise societies.

MGMT 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

MGMT 200. BUSINESS HISTORY IN THE U.S.. 4 Credits.
Satisfies: GECR for social science, list 3, history.
Provides an overview of the historical development of business practice and thought in the United States using readings from both the time period in question and contemporary scholarly essays.

MGMT 295. PRE-PROFESSIONAL INTERNSHIP. 1-10 Credits.

MGMT 296. EXPERIMENTAL COURSE. 1-5 Credits.

MGMT 299. DIRECTED STUDY. 1-15 Credits.

MGMT 326. ORGANIZATION THEORY AND BEHAVIOR. 4 Credits.
Pre-requisites: junior standing.
Explores the nature of human behavior in organizations as well as the structural effects of change. Application to the management of human resources is provided. A conceptual foundation is applied to practical situations throughout the course.

MGMT 395. INTERNSHIP. 1-15 Credits.

MGMT 396. EXPERIMENTAL COURSE. 1-5 Credits.

MGMT 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

MGMT 398. SEMINAR. 1-5 Credits.

MGMT 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MGMT 422. ENTREPRENEURSHIP. 4 Credits.
Pre-requisites: junior standing.
A study of entrepreneurial qualities and methods used to start and expand business ventures. Maximum flexibility is used to allow students to pursue individual interests. Marketing and accounting background helpful.

MGMT 423. BUSINESS AND SOCIETY. 4 Credits.
Pre-requisites: MGMT 326, senior standing.
Study of the interrelations between business and its external environment, focusing on the social, political and legal interactions. Review of critical managerial issues from historical, theoretical and ethical perspectives and their impact on organizations.

MGMT 424. EQUITY AND EQUALITY IN THE WORKPLACE. 3 Credits.
Cross listed: WMST 424.
Pre-requisites: ENGL 201.
This course examines feminist theory, the law and business management theories as they apply to equality and equity in the workplace. The course is an integrated approach to business and gender issues.

MGMT 470. INTERNATIONAL BUSINESS MANAGEMENT. 4 Credits.
Cross listed: IBUS 470.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
Analysis of the impact of international business variables on global organizations and the impact of these organizations on the societies in which they operate.

MGMT 471. MULTINATIONAL PEOPLE MANAGEMENT. 4 Credits.
Cross listed: IBUS 471.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
A systems approach to multinational human resource management incorporating three interrelated subsystems: internal (the multinational company), external (the nation state) and individual (the manager) in a cross-cultural context.

MGMT 480. ORGANIZATIONAL LEADERSHIP. 4 Credits.
Pre-requisites: MGMT 326.
This seminar examines the various leadership styles in organizations. Students investigate and develop leadership profiles of past, present and future leaders. Project teams develop a video profile and case of a specific organization.

MGMT 490. DEPARTMENT SENIOR CAPSTONE. 4 Credits.
Notes: graded Pass/Fail.
Pre-requisites: permission of the instructor, department chair and college dean.

MGMT 495. PROFESSIONAL INTERNSHIP-MANAGEMENT. 1-15 Credits.
Notes: See your major department advisor for the appropriate section number.

MGMT 496. EXPERIMENTAL COURSE. 1-5 Credits.

MGMT 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

MGMT 498. SEMINAR. 1-5 Credits.

MGMT 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MGMT 599. DIRECTED STUDY. 1-15 Credits.

MGMT 601. RESEARCH REPORT. 1-15 Credits.

MGMT 695. INTERNSHIP. 1-5 Credits.
Management Information Systems (MISC)

MISC 211. INFORMATION TECHNOLOGY IN BUSINESS. 4 Credits.
Notes: students who have passed MISC 311 do not need to take MISC 211.
Pre-requisites: successful completion of the clearance examination or completion of CPLA 100 with a P grade and CPLA 101 with a grade ≥2.0 or completion of CPLA 120 with a grade ≥2.0 and sophomore standing.
This course provides the basic concepts of the use of information technology in business, both globally and locally, to collect, organize, distribute, and present information in a business environment. Students will learn how to collect information from external sources, such as libraries and the internet, and from internal functional areas. Productivity tools such as database, spreadsheets, wordprocessor, and presentation software will then be used to consolidate, organize, synthesize, and present the external and internal information to business decision makers.

MISC 295. INTERNSHIP. 1-6 Credits.
MISC 298. SEMINAR. 1-5 Credits.
MISC 299. DIRECTED STUDY. 1-15 Credits.
MISC 311. INFORMATION TECHNOLOGY IN BUS. 4 Credits.
Pre-requisites: junior standing.
Provides the basic concepts of the use of information technology in business, both globally and locally, to collect, organize, distribute, and present information in a business environment. Students will learn how to collect information from external sources, such as libraries and the internet, and from internal functional areas. Productivity tools such as database, spreadsheets, wordprocessor, and presentation software will then be used to consolidate, organize, synthesize, and present the external and internal information to business decision makers.

MISC 370. MULTIMEDIA PRODUCTION OF BUSINESS DOCUMENTS. 4 Credits.
Pre-requisites: MISC 211 or equivalent and BUED major, or permission of the instructor.
Learning advanced applications of word processing, presentation, and multimedia software to design formal and technical reports and presentations, correspondence, newsletters, brochures, forms, charts, and graphics. Emphasis is on problem-solving ability to convert raw data into acceptable form using the computer, the Internet, and additional multimedia.

MISC 371. BUSINESS APPLICATIONS PROGRAM DESIGN. 4 Credits.
Pre-requisites: MISC 211 or CSCD 210 or permission of the instructor.
This course provides a thorough coverage of the program design and development process. The student will develop algorithmic solutions to a variety of business computer applications using a number of logic tools for programming and documentation. A high level programming language is used to illustrate the logic and structure of common business applications.

MISC 372. DATA COMMUNICATION AND NETWORK FUNDAMENTALS. 4 Credits.
Pre-requisites: MISC 211 or CSCD 210 or permission of the instructor.
This course is a general introduction to current technology for local area networks (LAN), wide area networks (WAN) and the Internet.

MISC 373. BUSINESS DATABASE APPLICATIONS. 4 Credits.
Pre-requisites: MISC 211 or CSCD 210 or permission of the instructor.
This course provides an in-depth study of theory and applications of databases. Emphasis is on the design of flexible databases to meet business information requirements. Topics include database concepts, data modeling, data dictionary, database models, database design, data integrity and managerial considerations.

MISC 374. SPREADSHEET MODELING FOR BUSINESS APPLICATIONS. 4 Credits.
Pre-requisites: MISC 211 or CSCD 211 or permission of the instructor.
Problem solving and data modeling of business applications utilizing spreadsheet software. Graphics, file management, and proper spreadsheet organization topics are covered as well as use of macros for development of user-friendly applications.

MISC 375. EXPERT SYSTEMS APPLICATIONS IN BUSINESS. 4 Credits.
Pre-requisites: MISC 211 or CSCD 211 or permission of the instructor.
Introduction to expert systems design and implementation. Topics covered include the study of existing successful applications, the techniques of knowledge representation, and a review of knowledge engineering methodologies and languages. Students build a model expert system using an expert system software package.

MISC 395. COOP FIELDWORK. 1-15 Credits.
MISC 398. SEMINAR. 1-5 Credits.
MISC 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MISC 481. SYSTEMS ANALYSIS AND DESIGN. 4 Credits.
Pre-requisites: MISC 373 or CSCD 327.
This course involves the analysis and design of business systems. It includes the structure and life cycle of systems. The methodology of systems studies and the use of computer aided software engineering (CASE) tools are emphasized. Systems studies are undertaken utilizing cases and actual business systems projects.

MISC 482. SYSTEMS PROJECT AND PROJECT MANAGEMENT. 4 Credits.
Pre-requisites: MISC 371 and MISC 481.
This course emphasizes solving an information systems problem using project management and information systems methodologies. Students will develop a computer information system through the use of CASE tools. Interactive and prototyping approaches to system development are investigated and employed. In addition, students will acquire additional knowledge in planning, managing and presenting a systems project.

MISC 485. ADVANCED DATABASE APPLICATIONS DEVELOPMENT. 4 Credits.
Pre-requisites: MISC 373 or permission of the instructor.
This course is a continuation of business applications of databases. The course stresses application development through fourth generation programming techniques. The course is designed to take advantage of advanced capabilities in current database management systems. Emphasis is on the design and implementation of business database applications. Topics include data modeling, database design, database implementation, report design, form design, application design, security, backup and recovery and multi-user databases.
MISC 486. INFORMATION SECURITY MANAGEMENT. 4 Credits.
Pre-requisites: MISC 211.
Provides an understanding of the information security vision and strategy set forth by executive management. Concepts and techniques from the management and organizational behavior disciplines are integrated in order to identify and propose solutions to the problems of information security administration. Domain specific issues such as HIPAA and SOX are addressed as appropriate.

MISC 487. E-COMMERCE AND E-COMMERCE SYSTEM DESIGN. 4 Credits.
Pre-requisites: MISC 211 and MISC 371 or permission of the instructor.
This course explores how the landscape of e-commerce is changing and evolving. The course covers important topics of e-commerce, such as: selling and marketing online, businesses trading and collaborating with other businesses, internal business process supports, legal, ethical and tax issues, Web security and e-commerce infrastructure, and provides students with the technical skills of developing e-commerce applications.

MISC 488. HEALTH INFORMATION TECHNOLOGY. 4 Credits.
Pre-requisites: MISC 211 or permission of the instructor.
This course acquaints students with current and emergent issues in the area of health and medical information technology from a regional, national and international perspective. The classroom format combines lecture and case-based work with hands-on work using a variety of current electronic medical record (EMR) and ancillary systems.

MISC 495. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MISC 496. EXPERIMENTAL COURSE. 1-15 Credits.

MISC 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

MISC 498. SEMINAR. 1-5 Credits.

MISC 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MISC 595. INTERNSHIP. 1-15 Credits.

Marketing (MKTG)

MKTG 298. SEMINAR. 1-5 Credits.

MKTG 299. DIRECTED STUDY. 1-15 Credits.

MKTG 310. PRINCIPLES OF MARKETING. 4 Credits.
Pre-requisites: junior standing.
An introduction to marketing. The marketing mix: Product offering, supply chain management, pricing, promotion, and introduction to buyer behavior.

MKTG 395. PROFESSIONAL INTERNSHIP MARKETING. 1-15 Credits.

MKTG 399. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MKTG 400. BUYER BEHAVIOR. 4 Credits.
Pre-requisites: MKTG 310.
Study of the buyer decision-making process, both consumer and industrial, for the purpose of planning and implementing successful marketing strategies. Includes an examination of both the internal psychological and external sociological factors influencing the decision-making process, and how these factors relate to strategic marketing decisions such as product development, segmentation, and positioning.

MKTG 411. MARKETING RESEARCH. 4 Credits.
Pre-requisites: MKTG 310 and DSCI 346.
A practical and theoretical approach to understanding and applying the procedures and methods used in collecting and analyzing market information for managerial decision-making. Topics include research design, data collection, sampling, questionnaire design, qualitative research methods, processing and interpreting data, and presentation of findings. An applied approach provides practical application of methods studied.

MKTG 412. MARKETING MANAGEMENT. 4 Credits.
Pre-requisites: MKTG 400 and MKTG 411.
An exploration of key marketing management variables such as buyer behavior, market segmentation and product positioning, product policy, pricing, distribution, promotion and market research in the contexts of strategy development, decision making, implementation and control.

MKTG 413. INTEGRATED MARKETING COMMUNICATIONS. 4 Credits.
Pre-requisites: MKTG 310.
A practical and theoretical approach to understanding communications theory and how advertising, sales promotion, public relations, and direct marketing are designed and used by organizations in communicating with various publics.

MKTG 414. RETAIL MANAGEMENT. 4 Credits.
Pre-requisites: MKTG 412.
A study of the strategies used by retailers as critical members of a supply chain. The relationships among store organization, human resource management, and the retail strategies used by various types of retail outlets are investigated. Merchandising policies (buying, selling, stock control and management), various control strategies, promotion, and public relations activities are also covered.

MKTG 416. SALES FORCE MANAGEMENT. 4 Credits.
Pre-requisites: MKTG 310.
This course covers the concepts and theories associated with planning, organizing, evaluating, controlling, and managing a professional sales force.

MKTG 417. MARKETING ANALYSIS. 4 Credits.
Pre-requisites: MKTG 412.
Strategical analysis of managerial marketing issues involving market trends, marketing research, product planning, distribution channels, pricing, promotion, social trends and the influence marketing strategy has on society.

MKTG 444. APPLIED PROMOTION. 4 Credits.
Pre-requisites: MKTG 310.
This course involves students in the research, planning, implementation and evaluation of a promotional event for a local business or organization. A variety of marketing principles are applied in a hands-on real world experience.

MKTG 472. GLOBAL MARKETING MANAGEMENT. 4 Credits.
Cross listed: IBUS 472.
Pre-requisites: IBUS 470/MGMT 470 or MKTG 310.
A practical approach to understanding the implications to marketing functions that result from competing in a global marketplace. Marketing function differences and similarities are explored across national borders and cultures.
Mathematics (MATH)

MATH 100. BASIC/INTERMED ALG COMBINED. 5 Credits.
Does not count toward the 180 credit requirement. Prerequisite for MATH 100: Recommendation by Advising or Developmental Mathematics Coordinator. Prerequisite for Math 101 and 102: Permission of Instructor MATH 100, 101, 102 is offered as a three-quarter sequence alternative to MATH 103A & B and 104A & B. Students who have a history of difficulty in mathematics may benefit from the slower pace of this course. Completion of MATH 100 and 101 with a grade of 2.0 or higher provides MATH 103A and B clearance and completion of MATH 102 with a grade of 2.0 or higher provides MATH 104A and B clearance.

MATH 101. BASIC/INTERMED ALG COMBINED. 5 Credits.
Does not count toward the 180 credit requirement. Prerequisite for MATH 101 and 102: Permission of Instructor MATH 100, 101, 102 is offered as a three-quarter sequence alternative to MATH 103A & B and 104A & B. Students who have a history of difficulty in mathematics may benefit from the slower pace of this course. Completion of MATH 100 and 101 with a grade of 2.0 or higher provides MATH 103A and B clearance and completion of MATH 102 with a grade of 2.0 or higher provides MATH 104A and B clearance.

MATH 102. BASIC/INTERMED ALG COMBINED. 5 Credits.
Does not count toward the 180 credit requirement. Prerequisite for MATH 101 and 102: Permission of Instructor MATH 100, 101, 102 is offered as a three-quarter sequence alternative to MATH 103A & B and 104A & B. Students who have a history of difficulty in mathematics may benefit from the slower pace of this course. Completion of MATH 100 and 101 with a grade of 2.0 or higher provides MATH 103A and B clearance and completion of MATH 102 with a grade of 2.0 or higher provides MATH 104A and B clearance.

MATH 103A. BASIC ALGEBRA PART A. 2.5 Credits.
Does not count toward the 180 credit requirement. Topics include algebraic properties of number systems and the algebra of polynomials. This is a half-term course, after which successful students move on to MATH 103B (also a half-term course).

MATH 103B. BASIC ALGEBRA PART B. 2.5 Credits.
Prerequisites: 2.0 or better in MATH 103A
Does not count toward the 180 credit requirement. Topics include algebraic properties of number systems, the algebra of polynomials, and algebraic, graphical and numerical solutions to equations of the first and second degree (including systems of linear equations, absolute value equations and literal equations). This is a half-term course, after which successful students move on to MATH 104A (also a half-term course).

MATH 104A. INTERMEDIATE ALGEBRA PART A. 2.5 Credits.
Prerequisites: 2.0 or better in MATH 103B
2.0 or better in MATH 100 and 101 Appropriate score on math placement test 2.0 in approved transfer course Does not count toward the 180 credit requirement. Topics are fundamentals of algebra, including linear and rational functions and equations. This is a half-term course, after which successful students move on to MATH 104B (also a half-term course).

MATH 104B. INTERMEDIATE ALGEBRA PART B. 2.5 Credits.
Prerequisites: 2.0 or better in MATH 104A
Does not count toward the 180 credit requirement. This is a half-term course after which successful students satisfy the pre-university basic skills in mathematics. Topics are fundamentals of algebra, including quadratic and exponential functions and equations.
MATH 107. MATHEMATICAL REASONING. 5 Credits.
Pre-requisites: MTHD 104 or MTHD 106 or equivalent course, or a satisfactory score on the mathematics placement test (MPT); Computer Literacy Competency recommended.
Satisfies: completion of this course with a grade ≥2.0 satisfies the university proficiencies in mathematics.
The course explores sets, basic logic, truth tables, elementary probability and statistics, geometry and the connections between mathematics and art, exponential functions, logarithms and geometric series. The spirit of the course is one of reasoning and problem solving. This is a terminal course intended for students not taking any other mathematics courses for their program of study. This proficiency may be satisfied by examination.

MATH 114. ALGEBRA CONCEPTS. 5 Credits.
Notes: completion of this course with a grade ≥2.0 or better satisfies mathematics competency.
Pre-requisites: grade ≥2.0 or better in MTHD 104, or a satisfactory score on the mathematics placement test (MPT).
This course provides an in depth treatment of quadratic and exponential functions. Linear and logarithmic functions are also studied and rate of change of a function is introduced. Problem solving, use of graphing tools, and quantitative and abstract reasoning are emphasized throughout the course.

MATH 121. INTRODUCTORY STATISTICS. 5 Credits.
Pre-requisites: MTHD 104 or MTHD 106 or a satisfactory score on the mathematics placement test.
Satisfies: completion of this course with a grade ≥2.0 satisfies the university proficiencies in mathematics.
This course develops statistical literacy and the ability to think statistically, and understand how probability plays a role in statistical inference. Descriptive statistics and their graphical representations are used to summarize real and simulated data sets. Students understand how the variation present in a population affects the precision of estimates of population attributes. Confidence intervals and hypothesis testing are introduced, with an emphasis on understanding their use in context.

MATH 141. PRECALCULUS I. 5 Credits.
Pre-requisites: MATH 114 or equivalent course or a grade ≥3.0 in MTHD 104 or a satisfactory score on the mathematics placement test (MPT).
This course includes modeling, rates of change and structure of functions; especially polynomial, rational, logarithmic and exponential. Problem solving, use of graphing tools and abstract reasoning are emphasized throughout the course.

MATH 142. PRECALCULUS II. 5 Credits.
Pre-requisites: MATH 141 or equivalent.
Satisfies: completion of this course with a grade ≥2.0 satisfies the university proficiencies in mathematics.
This course includes an in depth treatment of trigonometric and inverse trigonometric functions, identities, complex numbers, sequences, series, conic sections and mathematical induction. Polar coordinates, parametric equations and vectors are introduced. Problem solving, use of graphing tools, and quantitative and abstract reasoning are emphasized throughout the course.

MATH 161. CALCULUS I. 5 Credits.
Notes: for the university proficiencies, course may be substituted for MATH 107.
Pre-requisites: MATH 142 and ENGL 100.
A review of the concepts of functions, absolute value, open and closed intervals and solutions of inequalities. Limits, derivatives of single variable functions and their applications, anti-derivatives, the definite and integral.

MATH 162. CALCULUS II. 5 Credits.
Pre-requisites: MATH 161.
Applications of the definite integral, inverse functions, transcendental functions, techniques of integration, improper integrals, Taylor’s formula.

MATH 163. CALCULUS III. 5 Credits.
Pre-requisites: MATH 162.
Polar coordinates, a brief treatment of conic sections, vectors, in R2 and R3, parametric equations, introduction to partial differentiation, sequences and series.

MATH 196. EXPERIMENTAL COURSE. 1-5 Credits.
MATH 199. SPECIAL STUDIES. 1-5 Credits.
Notes: does not count toward the 180 credit requirement.
Pre-requisites: permission of the instructor, department chair and college dean.

MATH 200. FINITE MATHEMATICS. 5 Credits.
Notes: for the university proficiencies, the course may be substituted for MATH 107.
Pre-requisites: MATH 114 or equivalent course, or a grade ≥3.0 in MTHD 104, or a satisfactory score on the mathematics placement test (MPT); Computer Literacy Competency recommended; ENGL 100 or placement into or above ENGL 101.
This course provides an introduction to the mathematical systems encountered in the study of the behavioral sciences and a study of matrices, linear systems, linear programming, set theory and probability.

MATH 211. STRUCTURE OF ELEMENTARY MATH I. 5 Credits.
Notes: for the university proficiencies, the completion of MATH 211 and MATH 212 may be substituted for MATH 107.
Pre-requisites: MATH 114 or equivalent course, or a grade ≥3.0 in MTHD 104, or a satisfactory score on the mathematics placement test (MPT); Computer Literacy Competency recommended; ENGL 100 or placement into or above ENGL 101.
This course is designed to give future K–8 teachers a basis for understanding elementary school mathematics. Topics include sets, number systems, functions and relations, operations on whole numbers, decimals and fractions, integers, percents, ratio and proportions and data analysis. There is a strong emphasis on conceptual understanding and problem solving.

MATH 212. STRUCTURE OF ELEMENTARY MATH II. 5 Credits.
Notes: for the university proficiencies, the completion of MATH 211 and MATH 212 may be substituted for MATH 107.
Pre-requisites: MATH 211. The course is designed to give future K–8 teachers a basis for understanding elementary school mathematics. Course topics include probability (including simple and complex experiments and fundamental counting principles), geometry (including relationships, symmetry and transformations) and measurement. All topics are approached from theoretical and practical perspectives.
MATH 225. FOUNDATIONS OF MATHEMATICS. 5 Credits.
Notes: you may not receive credit for both MATH 225 and MATH 301.
Pre-requisites: MATH 161.
Provides a transition from freshman-level to higher-level mathematics and is required for higher-level courses. Topics include logic, methods of proof, set theory, relations and functions and cardinality.

MATH 231. LINEAR ALGEBRA. 5 Credits.
Pre-requisites: MATH 142.
Theory and practice of vector geometry in R2 and R3, systems of linear equations, matrix algebra, determinants, vector spaces, bases and dimension, linear transformations, eigenvalues and eigenvectors, rank and nullity and applications.

MATH 241. CALCULUS IV. 5 Credits.
Pre-requisites: MATH 163.
Differentiation of functions of several variables, multiple integrals, vector calculus. This course should be taken immediately after MATH 163, when possible.

MATH 296. EXPERIMENTAL COURSE. 1-5 Credits.

MATH 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 3-5 Credits.

MATH 298. SEMINAR. 1-5 Credits.

MATH 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MATH 301. DISCRETE MATHEMATICS. 5 Credits.
Notes: for the university proficiencies, the course may be substituted for MATH 107; you may not receive credit for both MATH 225 and MATH 301.
Pre-requisites: MATH 142.
This course covers the theory and application of the mathematics most relevant to computer science. Foundation topics include logic, induction and recursion, methods of proof, set theory, relations and functions, and combinatorics. Implementation topics include graphs and matrices, including systems of linear equations, two dimensional rotation matrices and matrix representations of graphs, as well as selected topics in graph theory.

MATH 307. MATHEMATICAL COMPUTING LABORATORY III. 1 Credit.
Notes: the laboratory may be repeated for credit.
Pre-requisites: successful completion of CPLA 100 and 101 or CPLA 120 and permission of the instructor.
The laboratory consists of exercises, experiments and reports, using applications, calculators or mathematical software such as Maple, Mathematica, Matlab, MINITAB, Geometer's Sketchpad or SAS, on topics closely related to the contents of the designated concurrent mathematics course. However, the laboratory is not required by the designated course. The topics are specified in the section subtitles.

MATH 311. FUNCTIONS AND RELATIONS FOR K-8 TEACHERS. 5 Credits.
Pre-requisites: MATH 114 or equivalent or satisfactory score on MPT; MATH 211 and MATH 212; CPLA 100 and CPLA 101 or equivalent.
A discussion of the algebraic concepts of functions and relations from numeric, graphic and symbolic viewpoints.

MATH 312. GEOMETRY FOR THE K-8 TEACHER. 5 Credits.
Pre-requisites: MATH 311 or permission of the instructor.
Concepts from two- and three-dimensional geometry are explored and demonstrated. The course includes geometric proofs and requires the use of technology widely used in the K–12 system (and available in the Mathematics Department).

MATH 320. HISTORY OF MATHEMATICS. 4 Credits.
Pre-requisites: ENGL 201; MATH 225 or permission of the instructor.
A historical development of mathematical ideas and methods. Emphasizes the individuals involved, the development of the intellectual activity called mathematics and the ebb and flow of mathematics in history.

MATH 331. DISCRETE MATHEMATICS WITH APPLICATIONS. 5 Credits.
Pre-requisites: MATH 225 or both MATH 161 and MATH 301.
Graph theory, chaos theory and fractals, combinatorics, combinatorial game theory and the surreal numbers. Selected applications for each topic.

MATH 332. NUMBER THEORY. 5 Credits.
Pre-requisites: MATH 225.
Arithmetic in different bases, fundamental theorem of arithmetic, modular arithmetic, Wilson's and Fermat's theorems, RSA codes, perfect numbers, linear and quadratic congruences, quadratic reciprocity, Pythagorean triples, Gaussian integers and arithmetic in other settings, Fermat's last theorem and the method of descent.

MATH 341. TOPICS IN APPLIED ANALYSIS I. 4 Credits.
Pre-requisites: for MATH 341: MATH 163; for MATH 342 and MATH 343: MATH 241.
Selected topics in applied mathematics such as vector analysis, complex variables, partial differential equations, etc.

MATH 342. TOPICS IN APPLIED ANALYSIS II. 5 Credits.
Pre-requisites: MATH 241.
Selected topics in applied mathematics such as vector analysis, complex variables, partial differential equations, etc.

MATH 343. TOPICS IN APPLIED ANALYSIS III. 4 Credits.
Pre-requisites: for MATH 341: MATH 163; for MATH 342 and MATH 343: MATH 241.
Selected topics in applied mathematics such as vector analysis, complex variables, partial differential equations, etc.

MATH 347. INTRODUCTORY DIFFERENTIAL EQUATIONS. 4 Credits.
Pre-requisites: MATH 163.
An introduction to ordinary differential equations, a nonrigorous, problem-solving approach including Laplace transforms and Fourier series with applications.

MATH 360. CONTINUOUS FUNCTIONS. 4 Credits.
Pre-requisites: MATH 163 and MATH 225.
This course develops the topology of the n-dimensional real Euclidean space. Topics include the completeness of the real numbers, topological spaces, continuity and properties preserved by continuous functions, compactness and connectedness.

MATH 370. SURVEY OF GEOMETRIES. 5 Credits.
Pre-requisites: CPLA 100 and CPLA 101 or equivalent; and MATH 225.
Introduction to various finite and infinite geometries, both Euclidean and non-Euclidean. The logical notions of consistency, independence, interpretation and models and completeness will be explored. Properties and theorems of each geometric system will be developed synthetically, analytically and through use of technology.
MATH 380. ELEMENTARY PROBABILITY AND STATISTICS. 5 Credits.
Notes: for the university proficiencies, course may be substituted for MATH 107.
Pre-requisites: MATH 141 or Mathematics Proficiency Clearance, Computer Literacy Competency recommended.
Empirical and theoretical frequency distributions. Discrete and continuous random variables. The binomial random variable and the normal. Descriptive statistics including measures of location, spread and association. An introduction to inferential statistics including confidence intervals and hypothesis testing.

MATH 385. PROBABILITY AND STATISTICAL INFERENCE I. 5 Credits.
Pre-requisites: MATH 163 and MATH 225 or permission of the instructor.
This course introduces mathematical theory of probability and statistical inference. This includes proofs of simple theorems, applications of probability to real world problems, discrete and continuous random variables and their probability distributions, sampling distributions and the central limit theorem, basic properties of estimators including bias, constructions of confidence intervals and hypothesis tests.

MATH 386. APPLIED STATISTICS. 4 Credits.
Pre-requisites: MATH 380 or MATH 385 or equivalent.
Statistical methods for research in the natural sciences. The course includes analysis of variance, multiple regression, analysis of covariance and nonparametric statistical procedures.

MATH 387. REGRESSION CONCEPTS. 3 Credits.
Pre-requisites: MATH 385.
This course is designed to provide an introduction, development and applications of regression concepts including Type 1 and Type 2 errors, statistical power, p-values, t-tests, F-tests, linear and polynomial regression, stepwise regression and the relationship between correlation and regression. Technology will be used throughout the course.

MATH 395. CO-OP FIELDWORK. 1-5 Credits.
MATH 396. EXPERIMENTAL COURSE. 1-5 Credits.
MATH 399. SPECIAL STUDIES IN MATH. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MATH 401. ADVANCED FORMAL LOGIC. 5 Credits.
Pre-requisites: PHIL 301 or math equivalent and successful completion of ENGL 101 and recommended placement above MTHD 104 on the mathematics placement test or MTHD 104 or equivalent.
Advanced study of formal deductive systems. Develops predicate logic on a rigorous basis, establishes some important metatheorems for logical systems and introduces some concepts in semantics and issues in the philosophy of logic.

MATH 407. MATHEMATICAL COMPUTING LABORATORY IV. 1 Credit.
Notes: the laboratory may be repeated for credit.
Pre-requisites: successful completion of successful completion of CPLA 100 and 101 or CPLA 120 and permission of the instructor.
The laboratory consists of exercises, experiments and reports, using applications, calculators or mathematical software such as Maple, Mathematica, Matlab, Minitab, Geometer’s Sketchpad or SAS, on topics closely related to the contents of the designated concurrent mathematics course. However, the laboratory is not required by the designated course. The topics are specified in the section subtitles.

MATH 411. DISCRETE MATHEMATICS FOR K-8 TEACHERS. 4 Credits.
Pre-requisites: MATH 161 or MATH 311.
This course introduces the elementary mathematics major to the process of doing mathematics via mathematical proofs and mathematical reasoning. Throughout the course, familiar topics will be approached in a less intuitive, more formal way and in greater depth than previously experienced. Topics to be covered include logic; sets, functions and sequences; methods of proof; and combinatorics.

MATH 413. DATA ANALYSIS AND PROBABILITY FOR MIDDLE LEVEL TEACHERS. 3 Credits.
Pre-requisites: MATH 212 and MATH 311; MTED 390 and MTED 412.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of concepts of data analysis and probability. Students will deepen their understanding of the research on the teaching and learning of data analysis and probability in K–9 mathematics.

MATH 416. CALCULUS FOR MIDDLE LEVEL TEACHERS. 4 Credits.
Pre-requisites: MATH 141 or MATH 311.
This course is intended for pre-service middle school teachers and focuses on conceptual and procedural understandings of limit, continuity, differentiation and integration. It includes the techniques and applications of calculus and use of technology to explore and represent fundamental concepts of calculus.

MATH 420. PROBLEM SOLVING FOR K-8 TEACHERS. 4 Credits.
Pre-requisites: MTED 390 (or math teaching experience) and MATH 311 or equivalent course approved by the department and CPLA 100 and CPLA 101 or the equivalent.
This math content course for prospective K–8 teachers requires students enrolled in the class to solve a large variety of problem-solving problems using a variety of strategies including the use of manipulatives, technology and mathematical representations. Techniques for teaching problem solving are discussed in the course. The use of a variety of types of technology is a required component of the course.

MATH 430. ADVANCED LINEAR ALGEBRA. 5 Credits.
Pre-requisites: MATH 225 and MATH 231.
This course provides an advanced study of linear algebra. Topics will be Jordan decomposition, inner product spaces, hermitian operators. Applications to other branches of mathematics, physics and chemistry will be included.

MATH 431. APPLIED GROUP THEORY. 5 Credits.
Pre-requisites: MATH 225 and MATH 231.
Groups, cyclic and permutation groups, cosets and Lagrange’s theorem, Cayley graphs, group actions, counting theorems with applications, tilings and groups of symmetries with applications.

MATH 432. RINGS AND POLYNOMIALS. 5 Credits.
Pre-requisites: MATH 225 and MATH 231.
Binary operations and algebras, rings and polynomials, factor rings and ideals, integral domains and fields (both finite and infinite), factor theorems, prime, irreducible and unique factorization, power series and differential operators, applications including computer algebra techniques, digital communication and encryption.

MATH 433. GALOIS THEORY. 5 Credits.
Pre-requisites: MATH 432.
Field theory, splitting fields, Galois groups, fundamental theorem of Galois theory, applications to classical problems of Euclidean constructibility and solvability by radicals, applications of the theory to encryption and digital communication.
MATH 444. NUMERICAL LINEAR ALGEBRA. 5 Credits.
Pre-requisites: junior, senior or graduate standing; MATH 161 and MATH 231.
This course develops numerical linear algebra and error estimates essential for scientific computing: machine arithmetic, algorithms for solving systems of linear equations, algorithms for computing eigenvalues and singular values (LU, QR, Jacobi's and SVD) and the theory of error estimates through condition numbers and backward analysis. The course also includes such topics as the design and analysis of algorithms for floating-point arithmetic, linear regression, orthogonal linear regression, linear programming, or cubic splines, with applications to engineering and the sciences. Typical applications are Google PageRank, Kalman filtering, data compression and image processing with wavelets. This course requires the use of computers and software available at EWU.

MATH 445. NUMERICAL ANALYSIS. 5 Credits.
Pre-requisites: junior or higher standing; MATH 444.
The course combines numerical linear algebra with numerical differentiation and integration to derive methods of scientific computing: numerical differentiation and integration, existence, uniqueness, stability and numerical approximation of solutions to nonlinear systems and of ordinary or partial differential equations, splines and fast Fourier or wavelet transforms. The course also includes such applications to engineering and the sciences as the design and analysis of algorithms to compute special functions, computed geometric design, fluid dynamics, heat diffusion or financial Black-Scholes models, image processing or nonlinear regression.

MATH 447. DIFFERENTIAL EQUATIONS. 5 Credits.
Pre-requisites: MATH 225, MATH 231 and MATH 347.
This course is an advanced study of ordinary differential equations focusing on linear and nonlinear systems, with analytical, qualitative, and numerical methods of solution including Euler’s method, matrix exponential, stability, phase plane analysis, linearization, Lyapunov functions, existence and uniqueness and applications. This course provides experience with mathematical software.

MATH 448. PARTIAL DIFFERENTIAL EQUATIONS. 5 Credits.
Pre-requisites: MATH 225 and either MATH 347 or MATH 444.
This course is an advanced study of partial differential equations via boundary value problems and Fourier series representations, centered on classical and numerical solutions of the heat equation, wave equation, advection equation and Laplace equation, introductory finite differences, modeling applications and use of technology through mathematical software. Selected topics may include Bessel’s inequality, energy methods, existence and uniqueness, eigenfunction expansions and integral transforms.

MATH 460. CONTINUOUS FUNCTIONS. 5 Credits.
Pre-requisites: MATH 163 and MATH 225.
The course lays out the foundations for calculus and analytical geometry; the course develops the topology of the n-dimensional real Euclidean space. Topics include the completeness of the real numbers, topological spaces, continuity and properties preserved by continuous functions: compactness and connectedness.

MATH 461. ADVANCED CALCULUS I. 5 Credits.
Pre-requisites: MATH 241 and MATH 460.
This course applies notions from linear algebra and continuous functions to develop the calculus of functions of several variables. Topics include differentiability, the derivative as a linear transformation, extreme value problems and the implicit and inverse function theorems.

MATH 462. ADVANCED CALCULUS II. 5 Credits.
Pre-requisites: MATH 461.
This course builds on topics introduced in MATH 461, and develops integration with differential forms. Topics include line integrals, exterior algebra and a general form of Stokes’s theorem; the course includes selected applications to algebraic topology and fluid dynamics, if time permits.

MATH 470. FOUNDATIONS OF GEOMETRY. 5 Credits.
Pre-requisites: MATH 225 and MATH 231 or concurrent enrollment.
The course includes the study of Euclidean and non-Euclidean isometries. Selected topics in advanced geometry stressing applications to other branches of mathematics, physics, chemistry and biology will be explored.

MATH 481. COMPLEX ANALYSIS. 5 Credits.
Notes: MATH 225 and MATH 460 are recommended.
Pre-requisites: MATH 163.
The course proves relations between derivatives, integrals along curves, Maclaurin series, and singularities of complex-valued functions of a complex variable, in particular, theorems of Abel, Cauchy-Goursat, Green, Laurent, Liouville, Morera, Riemann and Rouche (\('\phi\)'). Applications include the solution of Laplace’s partial differential equation by Green’s functions (Cauchy's and Poisson's integral formulae) or Fourier Transforms. Detailed proofs of theorems also provide a theoretical foundations for the corresponding theorems from calculus with one or two variables: differentiation and integration of power series and Fourier series, differentiation relative to parameters of integrals along curves and the fundamental theorem of algebra.

MATH 485. PROBABILITY AND STATISTICAL INFERENCE II. 5 Credits.
Pre-requisites: MATH 231, MATH 241 and MATH 385 or permission of the instructor.
This course covers a variety of statistical methods for research in the natural sciences, including analysis of variance, multiple regression, general linear models and nonparametric statistical procedures. One or more additional topics will be selected by the students in consultation with the instructor teaching the course. Use of statistical software will be emphasized.

MATH 486. PROBABILITY AND STATISTICAL INFERENCIE III. 5 Credits.
Pre-requisites: MATH 485 or permission of the instructor.
This course covers advanced topics in probability and statistical inference including discrete and continuous multivariate distributions, moment generating functions, proof of the central limit theorem, properties of estimators including efficiency and sufficiency, best linear unbiased estimators (BLUE), maximum likelihood estimation, the Neyman-Pearson lemma and likelihood ratio tests. The course concludes with a practical student-project component in which students apply methods learned to the analysis of a real-world data set.

MATH 491. SENIOR THESIS. 5 Credits.
Pre-requisites: MATH 231, MATH 241, MATH 347, MATH 385, MATH 460.
Satisfies: senior capstone university graduation requirement.
This course provides students with an opportunity to research a mathematical topic and present their findings in writing and orally.

MATH 492. PROBLEM SOLVING SEMINAR. 5 Credits.
Pre-requisites: MATH 225 or permission of the instructor; MATH 380 or MATH 385.
The course examines various problem solving strategies and techniques for teaching problem solving at the secondary level such as direct proof, indirect proof, inferences, mathematical representations and the use of technology.
MATH 494. SENIOR SEMINAR. 2 Credits.
Pre-requisites: for students pursuing the BA in Mathematics: prior or concurrent enrollment in MATH 462 and MATH 432; for students pursuing the BAE Secondary: prior or concurrent enrollment in MATH 432 and MTED 493.
The Senior Seminar course will explore the culture of mathematics through readings and classroom discussions. The students will be required to write a paper on some aspect of mathematics. At the same time, students will review the core mathematics they have studied and comprehensive tests will be administered in order to assess the knowledge they have acquired in their degree programs.

MATH 496. EXPERIMENTAL COURSE. 1-5 Credits.

MATH 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Selected topics to be arranged in consultation with the requesting organization.

MATH 498. SEMINAR. 1-5 Credits.

MATH 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MATH 507. MATHEMATICAL COMPUTING LABORATORY. 1 Credit.
Notes: the laboratory may be repeated for credit.
Pre-requisites: concurrent enrollment in or prior credit for a 500-level mathematics course designated by the Department of Mathematics each academic term.
The laboratory consists of exercises, experiments and reports, with applications or calculators or with such mathematical software as Maple, Mathematica, Matlab, MINITAB, Geometer's Sketchpad or SAS, on topics closely related to the contents of the designated concurrent mathematics course. However, the laboratory is not required by the designated course. The topics are specified in the section subtitles.

MATH 510. NUMBER SENSE FOR TEACHERS. 3 Credits.
Pre-requisites: graduate standing.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of the concepts of number systems, base ten and place value, operations, fractions, decimals, percents, integers, real numbers and number theory and will deepen their understanding of the research on the teaching and learning of these topics in K–9 mathematics. Major emphases will be learners' cognitive development through and across different grade levels, including that of diverse and exceptional learners, typical student conceptions and misconceptions, meaningful use of representations and technology in developing understanding and state and national standards related to number-sense topics.

MATH 512. GEOMETRIC REASONING - TEACHERS. 3 Credits.
Pre-requisites: graduate standing.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of geometry concepts and deepen their understanding of the research on the teaching and learning of geometry concepts in K–9 mathematics. Major emphases will be learners' cognitive development through and across different grade levels, including that of diverse and exceptional learners, typical student conceptions and misconceptions, meaningful use of representations and technology in developing understanding and state and national standards related to geometry.

MATH 513. DATA ANALYSIS AND PROBABILITY FOR TEACHERS. 3 Credits.
Pre-requisites: graduate standing.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of concepts of data analysis and probability and deepen their understanding of the research on the teaching and learning of data analysis and probability in K–9 mathematics. Major emphases will be learners' cognitive development through and across different grade levels, including that of diverse and exceptional learners, typical student conceptions and misconceptions, meaningful use of representations and technology in developing understanding and state and national standards related to data analysis and probability.

MATH 514. ALGEBRAIC REASONING - TEACHERS. 3 Credits.
Pre-requisites: graduate standing.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of algebraic reasoning and deepen their understanding of the research on the teaching and learning of algebraic reasoning in K–9 mathematics. Major emphases will be learners' cognitive development through and across different grade levels, including that of diverse and exceptional learners, typical student conceptions and misconceptions, meaningful use of representations and technology in developing understanding and state and national standards related to algebraic reasoning.

MATH 515. MEASUREMENT FOR TEACHERS. 3 Credits.
Pre-requisites: graduate standing.
Through readings, discussion and a hands-on problem-centered approach, students will develop a profound understanding of measurement concepts and deepen their understanding of the research on the teaching and learning of measurement in K–9 mathematics. Major emphases will be learners' cognitive development through and across different grade levels, including that of diverse and exceptional learners, typical student conceptions and misconceptions, meaningful use of representations and technology in developing understanding and state and national standards related to measurement.

MATH 516. CALCULUS FOR MIDDLE LEVEL TEACHERS. 4 Credits.
Pre-requisites: graduate standing and MATH 311 or equivalent.
This course is intended for middle school teachers and focuses on conceptual and procedural understandings of limit, continuity, differentiation and integration. It includes the techniques and applications of calculus and use of technology to explore and represent fundamental concepts of calculus. It also addresses the historical development of calculus and the contributions to its development from many cultures. Students will create a project focusing on connections between calculus, the middle school curriculum and current understandings of how students learn mathematics.
MATH 528. PROBLEM-CENTERED LEARNING. 3 Credits.
Pre-requisites: graduate standing.
This course explores how to create classroom environments where rich tasks form the basis for mathematical learning. Special emphasis will be placed on task construction, selection and problem-posing. Participants will engage in a series of non-routine problem-solving activities. They will also be expected to develop non-routine problem-solving activities addressing specific mathematical ideas. These activities will serve as a basis for examining and reflecting on the research about and the implications of such an approach to the teaching and learning of mathematics.

MATH 531. ALGEBRA I. 4 Credits.
Pre-requisites: MATH 431 or permission of the instructor.
The theory of groups, starting at the Sylow Theorems. Topics: group actions, normal series, solvable and nilpotent groups, structure theorem for abelian groups, semidirect products, extensions.

MATH 539. SEMINAR IN SPECIAL TOPICS. 1-5 Credits.

MATH 573. TOPICS IN APPLIED MATHEMATICS. 4 Credits.
Notes: may be repeated for credit.
Pre-requisites: MATH 571 or permission of the instructor.
The course focuses on the mathematics of applications, depending on the interests of the class and the instructor. Topics will be specified in the section subtitle.

MATH 581. COMPLEX ANALYSIS I. 4 Credits.
Pre-requisites: MATH 81 through the proofs of advanced results, such as the general Riemann Mapping Theorem, or properties of the special functions of Riemann and Weierstrass. If time permits, may include application to Algebraic Geometry, Number Theory and Coding extensions to several complex variables, for example.

MATH 582. COMPLEX ANALYSIS II. 4 Credits.
Pre-requisites: MATH 581.
Continues MATH 581 through the proofs of advanced results, such as the general Riemann Mapping Theorem, or properties of the special functions of Riemann and Weierstrass. If time permits, may include application to Algebraic Geometry, Number Theory and Coding extensions to several complex variables, for example.

MATH 596. EXPERIMENTAL COURSE. 1-5 Credits.

MATH 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

MATH 598. SEMINAR. 1-5 Credits.
Pre-requisites: permission of the instructor.

MATH 599. DIRECTED STUDY. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

MATH 600. THESIS. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A research thesis under the direction of a graduate committee.

MATH 601. RESEARCH REPORT. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A research study in lieu of a bound thesis conducted as partial fulfillment of a master’s degree in education under the direction of a graduate committee.

MATH 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.
Teaching a lower-division college course under supervision of a regular faculty member. Includes course planning, arranging bibliographical and instructional aids, conferences with students, experience in classroom instruction and student course evaluation.

Mathematics Education (MTED)
MTED 299. DIRECTED/INDEPENDENT STUDY. 1-5 Credits.
Independent/Directed Study.

MTED 390. METHODS OF TEACHING ELEMENTARY SCHOOL MATHEMATICS. 5 Credits.
Pre-requisites: MATH 311 or department approved equivalents; EDUC 310 or concurrent enrollment for Elementary/Middle Level Math majors.
This course is designed to teach current methods for teaching math (grades K–8).

MTED 392. METHODS OF TEACHING SECONDARY MATH I. 3 Credits.
Pre-requisites: EDUC 200, MATH 225.
This course is designed to address the development and evaluation of select content and process standards involved in middle and high school algebra: measurement, modeling, equivalence, algebraic manipulation, proportion and communication in middle and high school. It includes the use of traditional, technological and manipulative materials consistent with current theory and practice.

MTED 393. METHODS OF TEACHING SECONDARY MATHEMATICS II. 3 Credits.
Notes: if through communication with your major and minor advisors you determine that taking MTED 393 concurrently with EDUC 413 will result in an overload, please contact the instructor of MTED 393.
Pre-requisites: MTED 392 and concurrent enrollment in EDUC 413.
This course is designed to address the development and evaluation of select content and process standards involved in the preparation of students for calculus: variation, algebra, functions, rate of change and communication in high school. It includes the use of traditional, technological and manipulative materials consistent with current theory and practice.

MTED 396. EXPERIMENTAL. 1-5 Credits.
Experimental.

MTED 399. INDEPENDENT DIRECTED STUDY. 1-6 Credits.
Independent and directed study.

MTED 412. ADVANCED METHODS OF TEACHING K-8 MATHEMATICS. 5 Credits.
Pre-requisites: MTED 390 and MATH 311 or MTED 493 or approval of the instructor; and CPLA 100 and CPLA 101 or the equivalent.
Advanced course in methods of teaching math (grades K–8), including the (required) use of technology. Focused on the teaching of topics in measurement, probability and statistics, algebraic reasoning, ratio and proportion and geometry.
MTED 490A. SENIOR CAPSTONE: ELEMENTARY PRACTICUM. 5 Credits.
Pre-requisites: MTED 390 and MTED 412 and senior standing.
Satisfies: senior capstone university graduation requirement.
This course is a practicum for students majoring in Mathematics Education. The students will do a pre-student teaching classroom experience in a K-12 mathematics classroom (3 credits) and participate in a a seminar (2 credits). Lessons will be planned and taught. Emphasis will be on putting educational theory into practice and reflecting on the process, particularly in the areas of problem solving, the NCTM Standards, use of manipulative materials and assessment. MTED 490A will fulfill the Senior Capstone requirement for the BAE Math/Elementary majors, and MTED 490B will fulfill the Senior Capstone requirement for the BAE Math/Secondary majors.

MTED 490B. SENIOR CAPSTONE: SECONDARY PRACTICUM. 5 Credits.
Pre-requisites: MTED 393 and senior standing.
Satisfies: senior capstone university graduation requirement.
This course is a practicum for students majoring in Mathematics Education. The students will do a pre-student teaching classroom experience in a K-12 mathematics classroom (3 credits) and participate in a seminar (2 credits). Lessons will be planned and taught. Emphasis will be on putting educational theory into practice and reflecting on the process, particularly in the areas of problem solving, the NCTM Standards, use of manipulative materials and assessment. MTED 490A will fulfill the Senior Capstone requirement for the BAE Math/Elementary majors, and MTED 490B will fulfill the Senior Capstone requirement for the BAE Math/Secondary majors.

MTED 493. METHODS OF TEACHING SECONDARY MATHEMATICS III. 3 Credits.
Notes: if through communication with your major and minor advisors you determine that taking MTED 493 concurrently with EDUC 341 will result in an overload, please contact the instructor of MTED 493.
Pre-requisites: MTED 393, MATH 370 and MATH 380 or MATH 385. Concurrent: EDUC 341.
This course is designed to address the development and evaluation of select content and process standards—geometry, measurement, statistics, probability, problem solving, connections and communication in the middle and high school. The course includes the use of traditional, technological and manipulative materials consistent with current theory and practice.

MTED 499. DIRECTED STUDY. 1-5 Credits.
Directed Study.

MTED 525. ASSESSMENT AND MATHEMATICS LEARNING. 3 Credits.
Pre-requisites: graduate standing.
This course explores the relationship between assessment and mathematics learning. In particular, we will focus on the forms and purposes of assessment in the mathematics classroom, including the alignment of assessment to instruction, use of multiple sources of assessment information as evidence of learning and appropriate methods. Through readings, discussion and a hands-on problem-centered approach, students will extend their understanding of the research on assessment and the roles of assessment in K–9 mathematics classrooms.

MTED 527. TECHNOLOGY IN MATH TEACHING. 3 Credits.
Pre-requisites: graduate standing.
This course will explore the appropriate use of technology in mathematics education from philosophical, social, theoretical and pedagogical perspectives. It will provide perspectives on current and future trends and issues regarding the use of technology in mathematics teaching and learning. Students will use technology to solve mathematical problems, create mathematical demonstrations and construct new ideas of mathematics. Special attention is devoted to developing a deep understanding of the appropriate use of technology to explore and learn mathematics.

MTED 529. TOPICS IN MATH EDUCATION. 3 Credits.
Notes: may be repeated for credit with different topics.
Pre-requisites: graduate standing.
This course includes topics regarding the teaching and learning of mathematics selected depending on the interest of the class and instructor. Possible topics may include (but are not limited to): history and culture of mathematics, history of mathematics education, systems theory and learning and equity. Topics will be specified in the section subtitle.

MTED 590. MATH METHODS FOR ELEMENTARY TEACHERS. 5 Credits.
Pre-requisites: bachelor's degree or permission of instructor. Designed to expose participants to a variety of instructional techniques for teaching mathematics concepts and skills at the K–8 level. Strengths and weaknesses of different techniques, such as lecture demonstration, small-group activities and problem solving are modeled and discussed.

MTED 592. THEORY AND RESEARCH IN MATHEMATICS EDUCATION. 3 Credits.
Pre-requisites: graduate standing.
This course is designed for graduate students in mathematics education who intend to pursue or further teaching careers. This course will explore the history of research in mathematics education; discuss various theories of mathematics learning; evaluate, synthesize and critique mathematics education research; and become acquainted with a diverse sample of quantitative and qualitative studies in mathematics education, as well as, with issue of current interest within the community. The course will be focused on issues that mathematics teachers should understand and investigate; including both content and research methods. In addition, students will be expected to select a mathematics content and/or pedagogical topic for particular emphasis in the course and conduct a research review. Students will leave the course with an understanding of the history of mathematics education research and of the use of research to inform teaching practice.

MTED 599. INDEPENDENT STUDY. 1-6 Credits.

MTED 694. MATHEMATICS MIDDLE LEVEL TEACHING INTERNSHIP. 4 Credits.
Pre-requisites: four courses from the MATH 510 to MATH 516 series and MTED 525 or MATH 528.
This course is a field experience in a middle level mathematics classroom. Candidates will demonstrate competency at designing and implementing mathematics instruction, guided by continuous formative assessment, that enables a broad diversity of learners to construct meaning, create and defend conjectures, solve problems, utilize procedures and notation, and monitor their learning.
MTED 695. MATHEMATICS EDUCATION INTERNSHIP. 6 Credits.
**Pre-requisites:** graduate standing; permission of the instructor, department chair and college dean.
The theories of teaching and learning mathematics explored in MATH 592 Theory and Research in Mathematics Education are made practically relevant in this course, as student teach classes such as MATH 211 or MATH 212 while being mentored by faculty having experience with those classes. One-hour weekly seminars complement the in-class teaching assignment.

**Mechanical Engineering (MENG)**

MENG 199. DIRECTED STUDY. 1-5 Credits.
**Directed Study**

MENG 201. MATLAB. 4 Credits.
**Pre-requisites:** MATH 141.
This course introduces the student to the application of basic MATLAB building blocks to engineering problems. Students will get a thorough introduction to data visualization, data analysis, symbolic calculations, numeric computations and other basic skills related to MATLAB.

MENG 207. ELECTRICITY. 4 Credits.
**Pre-requisites:** MATH 162, PHYS 153 or PHYS 133 .
This course is intended to provide students with a basic understanding of electricity and its applications. In this course, basic concepts of current, voltage and resistance will be presented as well as basic circuit-analysis methods including inductor and capacitor.

MENG 217. 3D PARAMETRIC COMPUTER AIDED DESIGN. 4 Credits.
**Pre-requisites:** METC 110 or High School AUTOCAD or permission of instructor
This course uses the computer to draft parametric models in three dimensions. File management methods, rapid prototyping and 2D drawing development techniques are discussed. (Four hours per week.)

MENG 240. STATICS. 4 Credits.
**Pre-requisites:** PHYS 151, MATH 161 or Technical Calculus I or equivalent.
Fundamentals of applied mechanics, equivalent force systems, equations of equilibrium, structures, three dimensional force systems and friction. (two hours lecture, four hours laboratory per week)

MENG 241. STRENGTH OF MATERIALS. 4 Credits.
**Pre-requisites:** MENG 240, MATH 162, PHYS 152 or Technical Calculus II or equivalent.
A study of the internal stresses, internal deformations and deflections of materials. Topics may include: shear and moment diagrams for beams, combined loading on beams, temperature stresses and torsional loading. (four hours lecture per week)

MENG 242. DYNAMICS. 4 Credits.
**Pre-requisites:** MENG 240.
Kinematics and kinetics of particles and rigid bodies using vector analysis; force mass acceleration, work and energy, impulse and momentum, translating and rotating coordinate system.

MENG 353. INDUSTRIAL MATERIALS. 5 Credits.
**Pre-requisites:** CHEM 121 or CHEM 151.
Students in this course achieve a thorough understanding of engineering materials, their properties, responses and applications. Laboratory work includes destructive and non destructive testing and image analysis of microscopic structure of industrial materials.

MENG 380. THERMODYNAMICS. 5 Credits.
**Pre-requisites:** PHYS 152; MATH 162; ENGR 381 (may be taken concurrently).
This course explores properties of materials, work, heat, conversion of energy, conservation of mass and energy transformation processes. Emphasis is on application of the first and second laws to engineering systems.

MENG 381. LABORATORY ANALYSIS AND REPORTS. 5 Credits.
**Pre-requisites:** PHYS 153 or PHYS 133, MATH 162.
This course examines the different aspects of laboratory analysis and report writing. This includes description of engineering problems, analysis of data including error analysis and data interpretation, instrumentation and measurements. In addition, the application of spreadsheets for solving and analyzing engineering problems, creating technical graphs, trending and curve fitting and project management will be addressed.

MENG 382. FLUID MECHANICS. 5 Credits.
**Pre-requisites:** PHYS 152; MATH 162; MENG 381 (may be taken concurrently).
This course introduces the student to theory, concepts and applications of fluid mechanics. Topics include static and dynamic forces; conservation of mass, energy and momentum; flow in pipes and ducts; and fan and pump performance. Laboratory work is included.

MENG 385. ROBOTICS AND AUTOMATION. 5 Credits.
**Pre-requisites:** MENG 207 or TECH 208 or permission of the instructor.
This course covers various electrical and mechanical systems used in robotics and other automated industrial systems. It includes automated equipment programming and industrial planning as applied to automated systems. (3 hours lecture, 4 hours laboratory per week)

MENG 386. ENGINEERING NUMERICAL ANALYSIS. 5 Credits.
**Pre-requisites:** PHYS 153; MATH 163; and either MENG 201 or CSCD 255.
This course covers a multitude of numerical approximation methods used to solve specific structural engineering problems and highlights the algorithms used in many common scientific software packages.

MENG 398. SEMINAR. 1-5 Credits.
**Seminar**

MENG 399. DIRECTED STUDY. 1-5 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.

MENG 405. DESIGN OF MACHINE ELEMENTS. 5 Credits.
**Pre-requisites:** MATH 162, MENG 241, MENG 353.
This course covers the design of machine components and mechanisms and utilizes the concepts of engineering mechanics and strength of materials.

MENG 407. HVAC. 5 Credits.
**Pre-requisites:** PHYS 132 or PHYS 152.
The study of the principles of Heating, Ventilating and Air Conditioning (HVAC) including the investigation of the basic calculations to determine heating and cooling loads and the study of the basic equipment design for HVAC.

MENG 412. FUNDAMENTALS OF ENGINEERING. 2 Credits.
**Pre-requisites:** senior standing in ME, MET, CET or EE; or permission of instructor.
This course reviews the fundamentals of engineering. It provides an overview of principles of the practice of engineering and assists students in preparation for the first steps in professional licensure.
MENG 444. HEAT TRANSFER. 5 Credits.  
**Pre-requisites:** MATH 241, MATH 347, MENG 380, MENG 381 (MENG 381 may be taken concurrently), and MENG 386.  
This course provides a detailed calculus-based analysis of the heat transfer through solids, fluids and vacuums. Concepts include convection, conduction, radiation, heat transfer in one and two dimensions for steady and unsteady states.

MENG 452. ENGINEERING ECONOMICS. 2 Credits.  
**Pre-requisites:** junior standing or permission of instructor.  
This course focuses on the systematic evaluation of the economic benefits and costs of projects involving engineering design and analysis. Engineering economics quantifies the benefits and costs associated with engineering projects to determine whether they make (or save) enough money to warrant their capital investment.

MENG 453. MATERIALS AND DESIGN. 5 Credits.  
**Pre-requisites:** MENG 241, MENG 353.  
This course expands upon the concepts covered in the Industrial Materials class. Focus is on how materials and the design of products and the processes to make them are interrelated. Students explore processing and properties of materials such as glass, ceramics, polymers and metals other than steel.

MENG 455. COMPOSITE MATERIALS. 5 Credits.  
**Pre-requisites:** MENG 201, MENG 353.  
This course covers basics of composite materials including manufacturing, design and applications. Students learn anisotropic and heterogeneous material systems; types of composite constituents; physical and mechanical properties; micro, macro and ply mechanics; composite design related to strength and different failure modes; and applications of composite beams, plates and stiffened panels.

MENG 482. ADVANCED TOPICS IN FLUID DYNAMICS. 5 Credits.  
**Pre-requisites:** MATH 347, MENG 217, MENG 382.  
Students apply fluid principles to various technical situations and utilize advanced methods to derive a solution. Topics covered may include Computational Fluid Dynamics (CFD), turbo machinery, compressible fluid flow, turbulence, thermo-fluid system design, and fan and pump performance.

MENG 485. ADVANCED ROBOTICS AND AUTOMATION. 5 Credits.  
**Pre-requisites:** MENG 385.  
A study of the various electrical and mechanical systems used in advanced robotics and other automated systems. Topics include automated equipment, programming and industrial planning as applied to automated systems, robotic vision, cooperative robotics and service robots.

MENG 486. PROGRAMMABLE LOGIC CONTROLLERS IN AUTOMATION. 5 Credits.  
**Pre-requisites:** MENG 385.  
A study of Programmable Logic Controllers used in industrial automation and advanced robotics. Course explores automated equipment, ladder logic programming and industrial planning as applied to automated systems.

MENG 487. SENSORS THEORY FOR AUTOMATION. 5 Credits.  
**Pre-requisites:** MENG 385.  
This course introduces the common sensors used in robotics and automation, including the theory of how sensors work, the circuitry involved and the programming logic for input/output.

MENG 490A. SENIOR CAPSTONE: DESIGN LABORATORY I. 2 Credits.  
**Pre-requisites:** MENG 241, TECH 301 and senior standing  
**Satisfies:** senior capstone university graduation requirement.  
This course simulates the industrial environment, where students work in teams to solve a real world problem from design to implementation. Team dynamics and project constraints are strictly monitored and each student's unique skills are utilized in different stages of the design process.

MENG 490B. SENIOR CAPSTONE: DESIGN LABORATORY II. 3 Credits.  
**Pre-requisites:** MENG 490A.  
**Satisfies:** senior capstone university graduation requirement.  
See description for MENG 490A.

MENG 491. SENIOR THESIS. 1-6 Credits.  
**Pre-requisites:** permission of instructor.  
Independent and/or group study and implementation of a design and development project. (variable time)

MENG 492. FINITE ELEMENT ANALYSIS. 5 Credits.  
**Pre-requisites:** MATH 347, MENG 217, MENG 241.  
This course introduces the computational methods to solve engineering problems using the finite element approach. Modeling techniques for different engineering structures such as truss, beams, frames, two and three dimensional solids, and thin-walled structures are introduced in this course. Students solve a wide variety of engineering problems dealing with statics, dynamics, fluid mechanics, heat transfer and design and material selections using the state of art FEA software.

MENG 493. SENIOR SEMINAR. 1 Credit.  
**Notes:** graded Pass/Fail.  
**Pre-requisites:** senior standing or permission of instructor.  
This course provides the students firsthand exposure to the latest technological advances directly from the manufacturer or researcher. This helps students in their lifelong learning and provides an opportunity to inquire about particular topics or fields of interest.

MENG 495. INTERNSHIP. 1-6 Credits.  
**Notes:** graded Pass/Fail.  
**Pre-requisites:** junior or senior status and permission of the instructor, department chair and dean.

MENG 496. EXPERIMENTAL COURSE. 1-10 Credits.

MENG 499. EXPERIMENTAL COURSE. 1-10 Credits.  
**Pre-requisites:** permission of the instructor, department chair and college dean.  
Designed for students wanting to pursue a subject beyond the scope of regular courses.

**Mechanical Engineering Tech (METC)**

METC 102. INTRODUCTION TO ENGINEERING GRAPHICS. 4 Credits.  
**Notes:** graded Pass/Fail.  
This course offers an introduction to the fundamentals of technical drawing. It emphasizes the technical methods used to describe the size and shape of objects. This course will not satisfy elective requirements for a major or minor in Technology.

METC 110. ENGINEERING GRAPHICS. 5 Credits.  
**Pre-requisites:** METC 102, two years of high school drafting or equivalent.  
A study of the technical portion of the graphics language. This language, technical drawing, is used by engineers to communicate proposed designs and new ideas. Includes the theory and practice of descriptive geometry and the graphic representation of data.
METC 340. STATICS. 5 Credits.
Pre-requisites: PHYS 131 and MATH 142 or equivalent.
A study of applied mechanics and the principles of statics dealing with forces and with the effects of forces acting upon rigid bodies at rest. (four hours lecture per week)

METC 341. STRENGTH OF MATERIALS. 4 Credits.
Pre-requisites: METC 340.
A study of the relationship that exists between externally applied forces and internally induced stresses in members and parts, including the relationship existing between these same externally applied forces and the resulting deformations. (four hours lecture per week)

METC 342. DYNAMICS. 4 Credits.
Pre-requisites: METC 340 and MATH 162.
This course is a study of the motion of rigid bodies and forces affecting their motion. Topics include kinematics and kinetic of motion, curvilinear motion, plane motion, work, energy and power, impulse and momentum. (four hours lecture per week)

METC 348. ENERGY MANAGEMENT AND UTILIZATION. 5 Credits.
Pre-requisites: MENG 380.
The study of energy usage and energy management within industrial facilities. The development of Energy audit procedures including the energy saving calculations for industrial settings. Students will develop and explore the creation of industrial energy audits through the extensive use of case studies.

METC 387. FLUID MECHANICS. 5 Credits.
Pre-requisites: PHYS 132 or PHYS 152, MATH 162; TCOM 205 or MENG 381 (may be taken concurrently). This course introduces the student to theory, concepts and applications of fluid mechanics. Topics include static and dynamic forces; conservation of mass, energy and momentum; flow in pipes and ducts; and fan and pump performance. Laboratory work is included.

METC 388. THERMODYNAMICS AND HEAT TRANSFER. 5 Credits.
Pre-requisites: PHYS 132 or 152, MATH 162; TCOM 205 or MENG 381 (may be taken concurrently). This course introduces the student to theory, concepts and applications of thermodynamics and heat transfer. Topics include properties of materials, work, heat, conservation of mass and energy, energy transformation processes, and heat transfer via conduction, convection and radiation.

METC 415. DESIGN OF MACHINE ELEMENTS. 5 Credits.
Pre-requisites: METC 341, MENG 353, and MATH 162 or permission of instructor.
This course covers the design of machine components and mechanisms and utilizes the concepts of engineering mechanics and strength of materials.

METC 417. ADVANCED PARAMETRIC DESIGN. 5 Credits.
Pre-requisites: MENG 217; MATH 162; METC 341 or MENG 241.
Advanced techniques and best practices for parametric design of parts and assemblies. These advanced methodologies include design simulation and analysis including stress analysis, thermal analysis, flow analysis, vibration and motion studies, and design optimization.

METC 456. ENGINEERING ETHICS, CONTRACTS AND PATENTS. 2 Credits.
Pre-requisites: junior standing or permission of instructor.
This course investigates the elements of professional engineering practice including their relationship to the law, to the public and the ethics of the profession. Topics covered range from ethics, contracts, patents, copyrights, sales agreements and engineering specifications to professionalism, licensing, intellectual property, liability, risk, reliability and safety. Further discussion areas involve interdisciplinary teams, team tools, codes, standards, professional organizations, careers, entrepreneurship, human factors and industrial design.

METC 468. QUALITY ASSURANCE AND INTRO TO LEAN. 5 Credits.
Pre-requisites: PHYS 132 or PHYS 152; MATH 162; TCOM 205 or MENG 381 (may be taken concurrently). Application and theory of quality control and continuous improvement systems. This includes statistical analysis, design of experiments, development and use of process control charts, sampling processes, time and motion studies, and introduction to other Lean tools.

METC 490A. SENIOR CAPSTONE: DESIGN LABORATORY I. 2 Credits.
Pre-requisites: MATH 162, METC 341 (may be taken concurrently), TECH 301 and senior standing.
Satisfies: senior capstone university graduation requirement.
This course simulates the industrial environment, where students work in teams to solve a real world problem from design to implementation. Team dynamics and project constraints are strictly monitored and each student’s unique skills are utilized in different stages of the design process.

METC 490B. SENIOR CAPSTONE: DESIGN LABORATORY II. 3 Credits.
Pre-requisites: METC 490A.
Satisfies: senior capstone university graduation requirement.
See description for METC 490A.

METC 491. SENIOR PROJECT. 3-10 Credits.
Pre-requisites: permission of the instructor.
Independent and/or group study and implementation of a design and development project. (variable time)

METC 495. INTERNSHIP. 1-15 Credits.
Notes: graded Pass/Fail.
Pre-requisites: junior or senior status and permission of the instructor, department chair and dean.
A maximum of 5 credits may be earned toward electives for a Technology major. Students considering electives for a Technology minor should consult with their departmental advisor.

METC 499. DIRECTED STUDY. 1-5 Credits.

Military Science (MLSC)

MLSC 101. BASIC MILITARY SKILLS I. 1 Credit.
Pre-requisites: permission of the department chair.
MLSC 101 introduces students to the personal challenges and competencies that are critical for effective military leadership. Students learn how the personal development of life skills such as time management, physical fitness, and stress management relate to leadership, Officership, and Army operations. Focus is placed on developing basic knowledge and comprehension of Army Leadership Dimensions while gaining a big picture understanding of the ROTC program, its purpose in the Army, and its advantages for the student.
MLSC 196. EXPERIMENTAL COURSE. 1-5 Credits.

MLSC 201. BASIC MILITARY TEAM BUILDING I. 2 Credits.
Pre-requisites: permission of the department chair.
MLSC 201 explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework (trait and behavior theories). Students practice aspects of personal motivation and team building in the context of planning, executing and assessing team exercises. Focus is on continued development of the knowledge of leadership attributes and core leader competencies through an understanding of Army rank, structure, duties and basic aspects of land navigation and squad tactics. Case studies provide tangible context for learning the Soldier’s Creed and Warrior Ethos as they apply in the contemporary operating environment (COE).

MLSC 202. BASIC MILITARY TEAM BUILDING II. 2 Credits.
Pre-requisites: permission of the department chair.
MLSC 202 examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). The course highlights dimensions of terrain analysis, patrolling and operations orders. Further study of the theoretical basis of the Army Leadership Requirements Model explores the dynamics of adaptive leadership in the context of military operations in a constantly changing world and applies these challenges to practical Army leadership tasks and situations.

MLSC 203. BASIC MILITARY TEAM III. 2 Credits.
Pre-requisites: permission of the department chair.
MLSC 203 provides a horizontal transition into MLSC 301. Students develop greater self awareness as they assess their own leadership styles and practice communication and team-building skills. COE case studies provide insight into the importance and practice of teamwork and tactics in real-world scenarios.

MLSC 204. BASIC MILITARY TEAM BUILDING LAB. 1 Credit.
Notes: this course is repeatable.
Pre-requisites: MLSC 201 or MLSC 202 or MLSC 203 concurrently.
This lab is focused on basic military skills such as land navigation, first aid, the Army Warrior Task Training tasks (CTT), weapons marksmanship as well as the development of leadership, stressing the practical application of leadership principles, techniques, styles and responsibilities. Students also participate as a member of a team or as a leader of the team given responsibility for accomplishment of given tasks. MS II students are being prepared to be evaluated as leaders and share in leadership roles.

MLSC 296. EXPERIMENTAL COURSE. 1-5 Credits.

MLSC 299. INDIVIDUAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Topics are mutually agreed upon by students and the instructor

MLSC 301. MILITARY SCIENCE AND TACTICS I. 2 Credits.
Pre-requisites: permission of the department chair.
MLSC 301 challenges students to study, practice, and apply the fundamentals of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the team and squad level. Each student, by the end of the course, will be capable of planning, coordinating, navigating, motivating and leading a team or squad in the execution of a tactical in a field environment. In addition, MS III students rotate through a variety of leadership positions that support ROTC battalion training and recruiting events. The MS III student receives detailed and constructive feedback on their leader attributes and core leader competencies.

MLSC 302. MILITARY SCIENCE AND TACTICS II. 2 Credits.
Pre-requisites: MLSC 301.
MLSC 302 challenges students to continue in the study, practice, and application of Army leadership, Officership, Army values and ethics, personal development, and small unit tactics at the team and squad level. Each student will be capable of planning, coordinating, navigating, motivating and leading a team or squad in the execution of a tactical in a field environment. MS III students rotate through a variety of leadership positions that support ROTC battalion training and recruiting events throughout the quarter. The MS III students receive detailed and constructive feedback on their leader attributes and core leader competencies.

MLSC 303. MILITARY SCIENCE AND TACTICS I. 2 Credits.
Pre-requisites: MLSC 302.
MLSC 303 is the final review of advanced land navigation techniques, communication and small unit tactics in preparation for the thirty day summer Leadership Development and Assessment Course Camp (LDAC) (MLSC 307) at Fort Lewis, Washington. MS III students rotate through a variety of leadership positions that support ROTC battalion training and recruiting events. The MS III student receives detailed and constructive feedback on their leader attributes and core leader competencies.

MLSC 304. MILITARY SCIENCE AND TACTICS LAB. 2 Credits.
Notes: this course is repeatable.
Pre-requisites: completion of ROTC Basic Course (MLSC 100 and 200 series) or department chair approval required.
An advanced training exercise in the development of leadership, that stresses the practical application of leadership principles, techniques, styles and responsibilities, focusing on planning, resourcing and execution. Students are responsible for the evaluation, counseling and mentoring of 10 to 30 subordinates and team members.
MLSC 307. LEADERSHIP DEVELOPMENT AND ASSESSMENT. 8 Credits.
Pre-requisites: permission of the department chair.
The summer following their junior year, cadets attend the Leadership Development and Assessment Course (LDAC), a five-week Course at Ft. Lewis, WA. It is designed to evaluate a cadet's leadership abilities while providing additional leadership and individual skills instruction.

MLSC 396. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental Course

MLSC 399. INDIVIDUAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Topics are mutually agreed on by the student and the instructor

MLSC 401. MILITARY SCIENCE AND OFFICERSHIP I. 2 Credits.
The MLSC 401 course transitions the focus of student learning from being trained, mentored and evaluated as an MS III Cadet to learning how to train, mentor and evaluate underclass Cadets. MS IV Cadets will learn the duties and responsibilities of an Army staff officer and apply the Military Decision Making Process (MDMP), Army writing style and the Army’s principles of training and training management cycle during weekly training meetings to plan, execute and assess battalion training events. Cadets will learn about the special trust proposed by the U.S. Constitution to Army Officers; a trust above and beyond other professions. Cadets will learn Army values and ethics and how to apply them to everyday life as well as in the Contemporary Operating Environment. The MS IV Cadet will learn about the officer’s role in the Uniform Code of Military Justice, counseling subordinates, administrative actions and methods on how to best manage their career as an Army Officer.

MLSC 402. MILITARY SCIENCE AND OFFICERSHIP II. 2 Credits.
Pre-requisites: MLSC 401.
This course continues MLSC 401 instruction on how to train, mentor and evaluate subordinates. MS IV Cadets function as a Cadet staff officer and apply the Military Decision Making Process (MDMP), Army writing style and the Army's principles of training and training management cycle during weekly training meetings to plan, execute and assess battalion training events.

MLSC 403. MILITARY SCIENCE AND OFFICERSHIP III. 2 Credits.
Pre-requisites: MLSC 402.
This is the final course a Cadet takes prior to commissioning and graduating. MS IV Cadets complete their last quarter as a Cadet staff officer and apply the Military Decision Making Process (MDMP), Army writing style and the Army’s principles of training and training management cycle during weekly meetings. Cadets apply the special trust as they transition to Army Officers. Cadets live Army values and ethics and apply them to everyday life. The MS IV Cadet continues to learn about the officer’s role in the Uniform Code of Military Justice, counseling subordinates, administrative actions and methods on how to best manage their career as an Army Officer.

MLSC 404. MILITARY SCIENCE AND TACTICS IV LAB. 2 Credits.
Notes: this course is repeatable.
Pre-requisites: permission of the department chair.
This course is an advanced training exercise in the development of leadership, stressing the practical application of leadership principles, techniques, styles and responsibilities. It focuses on leadership planning, resourcing and execution. MS IV Cadets plan and execute training exercises for the Basic Course Cadets and assist the cadre in the execution and evaluation of the MS III students.

MLSC 490. MILITARY LEADERSHIP SENIOR CAPSTONE. 5 Credits.
Pre-requisites: MLSC 307 and senior standing; or permission of instructor.
Satisfies: senior capstone university graduation requirement.
This course is a senior-level seminar designed to integrate and further refine the analytical, writing, and presentation skills acquired as a Military Science major and Army Officer. The course covers case studies and analyses of actual leadership examples from past and present military exercises and engagements. Students prepare and present an original, extensive case study and analysis of military leadership, if possible relating to the student’s actual assignment in the Active or Reserve Component of the Armed Forces.

MLSC 495. PROFESSIONAL INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Provides practical military experience through participation in a work experience program. Requires a detailed written report. The program is mutually agreed upon by students and instructor.

MLSC 496. EXPERIMENTAL COURSE. 1-5 Credits.

MLSC 499. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Topics are mutually agreed on by students and the instructor

Music (MUSC)

MUSC 100. INTRODUCTION TO PIANO AND MUSIC THEORY. 3 Credits.
This course includes basic musical skills, including notation, scales, key signatures, chords, intervals and keyboard experience.

MUSC 101. MUSIC THEORY I. 3 Credits.
Pre-requisites: concurrent enrollment in MUSC 104; music minors and non-music majors/minors require permission of the department chair.
This course involves study of basic theory devoted to notation, scales, intervals, keys and elementary harmony.

MUSC 102. MUSIC THEORY II. 3 Credits.
Pre-requisites: MUSC 101; concurrent enrollment in MUSC 105 is required; music minors and non-music majors/minors require permission of the department chair.
This course is the study of harmonic practice and part writing. It involves treatment of major and minor seventh chords and melodic construction.

MUSC 103. MUSIC THEORY III. 3 Credits.
Pre-requisites: MUSC 102; concurrent enrollment in MUSC 106 is required; music minors and non-music majors/minors require permission of the department chair.
This course emphasizes analysis, modulation, non-dominant and secondary dominant seventh chords as used in American popular song and American jazz forms.

MUSC 104. SIGHT SINGING AND AURAL SKILLS. 1 Credit.
Pre-requisites: concurrent enrollment in MUSC 101; music minors and non-music majors/minors require permission of the department chair.
This course involves singing of materials emphasizing stepwise melodic motion and triadic motion and the study of basic rhythms. Ear training will help students identify intervals and scale forms.
MUSC 105. SIGHT SINGING AND AURAL SKILLS II. 1 Credit.

Pre-requisites: MUSC 104; concurrent enrollment in MUSC 102; music minors and non-music majors/minors require permission of the department chair.

This course introduces C clefs, compound meter and advanced rhythms. Dictation includes error detection as well as melodic dictation.

MUSC 106. SIGHT SINGING AND AURAL SKILLS III. 1 Credit.

Pre-requisites: MUSC 105; concurrent enrollment in MUSC 103; music minors and non-music majors/minors require permission of the department chair.

These classes will consist of modulation exercises and introduction of sequentials. Error detection and harmonic dictation will be emphasized.

MUSC 108. INSTRUCTION ON INSTRUMENT OR VOICE. 1 Credit.

Notes: may be repeated; this course is intended for all freshman except those majoring in Music Performance.

Pre-requisites: permission of instructor.

This course is designed to provide students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a musical, linguistic and performance viewpoint. Students without previous credit in applied music must audition to be accepted into applied study. Every student who is registered for applied music must be registered for a major ensemble.

MUSC 110. CONVOCATION AND RECITAL ATTENDANCE. 0 Credits.

Notes: may be repeated.

This course is comprised of attending all weekly convocations, as well as department recitals and selected non-EWU performances for a total number of 15 per quarter. Course must be passed 11 quarters quarter for music majors. The required number for transfer students will be determined on an individual basis.

MUSC 117. PIANO CLASS I BEGIN/NON-MAJORS. 1 Credit.

Notes: these classes are for non-music majors only.

These classes will consist of basic theory, simple harmonization, improvisation, sight-reading, chord recognition and fundamental jazz/blues.

MUSC 118. PIANO CLASS II BEGIN/NONMAJORS. 1 Credit.

Notes: these classes are for non-music majors only.

Pre-requisites: MUSC 117.

These classes will consist of basic theory, simple harmonization, improvisation, sight-reading, chord recognition and fundamental jazz/blues.

MUSC 119. PIANO III BEGIN/NON-MAJORS. 1 Credit.

Notes: these classes are for non-music majors only.

Pre-requisites: MUSC 118.

These classes will consist of basic theory, simple harmonization, improvisation, sight-reading, chord recognition and fundamental jazz/blues.

MUSC 120. PIANO CLASS I FOR MAJORS. 1 Credit.

Notes: These classes are for music majors only.

These classes will consist of: harmonization, improvisation, score-reading, sight-reading, repertoire, accompanying skills, technique, scales and chords.

MUSC 121. PIANO CLASS II FOR MAJORS. 1 Credit.

Notes: these classes are for music majors only.

Pre-requisites: MUSC 120.

These classes will consist of: harmonization, improvisation, score-reading, sight-reading, repertoire, accompanying skills, technique, scales and chords.

MUSC 122. PIANO CLASS III FOR MAJORS. 1 Credit.

Notes: these classes are for music majors only.

Pre-requisites: MUSC 121.

These classes will consist of: harmonization, improvisation, score-reading, sight-reading, repertoire, accompanying skills, technique, scales and chords.

MUSC 126. HONORS KEYBOARD. 1 Credit.

Notes: may be repeated.

Accelerated offering of the material covered in MUSC 120. Covers all components of the Piano Proficiency Exam.

MUSC 130. VOICE CLASS. 1 Credit.

Notes: may be repeated until the student reaches the proficiency level necessary for advanced instruction.

This course provides instruction in vocal performance. All students without previous credit in applied vocal music at the university level should register for this course.

MUSC 140. APPLIED INSTRUCTION ON INSTRUMENT OR VOICE. 2 Credits.

Notes: may be repeated; concurrent enrollment in a major ensemble is required.

Pre-requisites: permission of instructor.

This course stresses vocal or instrumental practice. Only declared freshmen music performance majors should register for this number. Students registered for courses with multiple sections (piano, instrument and voice) should contact the instructor prior to pre-registration for correct assignments.

MUSC 201. MUSIC THEORY IV. 3 Credits.

Pre-requisites: MUSC 103; concurrent enrollment in MUSC 204; music minors and non-music majors/minors require permission of the department chair.

This course emphasizes contrapuntal techniques, variation techniques and study of chromatic and color harmonies.

MUSC 202. MUSIC THEORY V. 3 Credits.

Pre-requisites: MUSC 201; concurrent enrollment in 205; Piano Proficiency Exam clearance.

This is the study of advanced harmonic practice including altered dominants and chromatic mediants. It will also include study of large forms emphasizing various forms of rondo.

MUSC 203. MUSIC THEORY VI. 3 Credits.

Pre-requisites: MUSC 202.

This course acquaints students with late 19th and 20th century compositional and formal techniques and devices.

MUSC 204. SIGHT SINGING AND AURAL SKILLS IV. 1 Credit.

Pre-requisites: MUSC 106; concurrent enrollment in MUSC 201.

This course emphasizes rhythmic and melodic complexity including chromaticism, modulation and dictation of comparable material.

MUSC 205. SIGHT SINGING AND AURAL SKILLS V. 1 Credit.

Pre-requisites: MUSC 204; concurrent enrollment in MUSC 202; Piano Proficiency Exam clearance.

This course emphasizes unusual modulation, scales and time signatures.

MUSC 208. INSTRUCTION ON VOICE OR INSTRUMENT. 1 Credit.

Notes: may be repeated; this course is intended for all sophomores except those majoring in Music Performance.

This course is designed to provide students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a musical, linguistic and performance viewpoint. Students without previous credit in applied music must audition to be accepted into applied study. Every student who is registered for applied music must be registered for a major ensemble.
MUSC 209. COMPOSITIONAL TECHNIQUES. 2 Credits.
Notes: may be repeated.
Pre-requisites: MUSC 204; Piano Proficiency Exam clearance.
This course is the practical study of the techniques and devices of composition in the various primary forms.

MUSC 212. MUSIC IN THE HUMANITIES. 5 Credits.
Cross listed: HUMN 212.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
This course is a survey with primary focus on Western classical music in terms of humanistic development with emphasis on musical style and structure and relations with the other arts.

MUSC 213. ROCK AND ROLL AND BEYOND. 5 Credits.
MUSC 213 investigates the musical and cultural melting pot of American popular music from the early 20th Century to the present. Significant portions of the class will deal with the important artists and songs of popular music’s evolution.

MUSC 230. GUITAR AND MUSIC FUNDAMENTALS. 3 Credits.
Fundamentals of music, including notation, scales, key signatures, chords, intervals, experience with use of guitar.

MUSC 240. APPLIED INSTRUCTION ON INSTRUMENT OR VOICE. 2 Credits.
Notes: may be repeated; only declared sophomore music performance majors should register for this course; students registered for courses with multiple sections (piano, instrument and voice) should contact the instructor prior to registration for correct assignments; concurrent enrollment in a major ensemble is required.
This course is designed to provide students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a musical, linguistic and performance viewpoint.

MUSC 244. MUSIC TECHNOLOGY. 2 Credits.
Pre-requisites: Computer Literacy II clearance, Piano Proficiency Exam clearance.
This course is a practical study of music technology for performers and educators. Topics include the study of music notation/accompaniment software, recording programs, MIDI applications, and sound reinforcement.

MUSC 250. MUSIC HISTORY AND LITERATURE I. 3 Credits.
Pre-requisites: MUSC 103.
Detailed study and analysis of music in Western civilization from its origin to modern times. The fall quarter covers antiquity through the Renaissance.

MUSC 251. MUSIC HISTORY AND LITERATURE II. 3 Credits.
Pre-requisites: MUSC 103, MUSC 250.
Detailed study and analysis of music in Western civilization from the origin to modern times. Music 251 includes the Baroque and Classical periods.

MUSC 252. MUSIC HISTORY AND LITERATURE III. 3 Credits.
Pre-requisites: MUSC 103, MUSC 251.
A detailed study and analysis of the music in Western Civilization from 1800 to the present.

MUSC 280. BASIC JAZZ ARRANGING. 1 Credit.
Pre-requisites: MUSC 108 and MUSC 277.
This course provides fundamental arranging techniques including basic instrumental ranges through pedagogical rhythm section skills. Topics include developing introductions, endings, form, basic ranges of instruments, creating bass lines, piano voicings, guitar voicings and drum set nomenclature.

MUSC 281. ADVANCED JAZZ ARRANGING. 1 Credit.
Pre-requisites: MUSC 280.
This course covers arranging techniques for compositions and arrangements for the jazz idiom. Skills include: voicings for sections; harmonic development; compositional development; and music notation programs. Students will develop a 8-10 piece composition/arrangement as a final project.

MUSC 286. INTRODUCTION TO JAZZ THEORY AND AURAL SKILLS. 1 Credit.
Pre-requisites: MUSC 103.
Students are introduced to musical concepts relating to the jazz idiom such as scales, harmonies and styles. They acquire basic jazz piano and aural skills.

MUSC 287. BASIC JAZZ THEORY/IMPROVISATION. 1 Credit.
Pre-requisites: MUSC 103.
This course introduces various aspects of basic improvisational tools and skills, combining theory with playing and piano skills.

MUSC 288. INTERMEDIATE JAZZ THEORY/IMPROVISATION. 1 Credit.
Pre-requisites: MUSC 287.
This course provides a firm grounding in the fundamental concepts of jazz theory, including mode and chord construction. It includes basic forms such as AABA, Rhythm Changes and Blues.

MUSC 289. ADVANCED JAZZ THEORY/IMPROVISATION. 1 Credit.
Pre-requisites: MUSC 288.
This course helps students gain mastery over the melodic minor concept of improvisation. Students will learn the modes of melodic minor and how the modes relate to modal and functional harmony. Students will also learn to manipulate various patterns based on the melodic minor modes.

MUSC 296. EXPERIMENTAL COURSE. 1-5 Credits.

MUSC 299. SPECIAL STUDIES. 1-5 Credits.

MUSC 305. COUNTERPOINT. 2 Credits.
Pre-requisites: MUSC 101, MUSC 102, MUSC 104.
Study and application of contrapuntal techniques in two and three voices.

MUSC 308. INSTRUCTION ON VOICE OR INSTRUMENT. 1 Credit.
Notes: may be repeated; students without previous credit in applied music must audition to be accepted into applied study; every student who is registered for applied music must be registered for a major ensemble; this course is intended for all juniors except those majoring in Music Performance.
This course provides students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a musical, linguistic and performance viewpoint.

MUSC 310. BASIC CONDUCTING SKILLS. 2 Credits.
Pre-requisites: MUSC 103.
This course is the study of fundamental conducting techniques including score study and rehearsal techniques.

MUSC 312. ADVANCED CONDUCTING SKILLS. 2 Credits.
Pre-requisites: MUSC 310.
Students in this course learn to apply conducting and rehearsal techniques to choral and performance groups.
MUSC 320. DICTION FOR SINGERS I. 1 Credit.
Introduction to diction for singers, choral conductors and collaborative pianists. The class introduces International Phonetic Alphabet (IPA) and its practical application to English, Ecclesiastical Latin, Italian, German and French through both in-class practice and dictionary reference. This course is designed to provide introductory information and develop knowledge of basic IPA symbols, their pronunciation and the implementation of this learning into vocal/choral repertoire.

MUSC 321. DICTION FOR SINGERS II. 1 Credit.
Pre-requisites: MUSC 320 or permission of instructor.
Continuation of diction for singers, choral conductors and collaborative pianists. This class continues work with International Phonetic Alphabet (IPA) and its practical application to Italian and German through in-class pronunciation practice and extensive IPA transcription of Italian and German vocal and choral music texts.

MUSC 322. DICTION FOR SINGERS III. 1 Credit.
Pre-requisites: MUSC 321 or permission of instructor.
Continuation of diction for singers, choral conductors and collaborative pianists. This class continues work with International Phonetic Alphabet (IPA) and its practical application to French and English (British and American) through in-class pronunciation practice and extensive IPA transcription of French and English vocal and choral music texts.

MUSC 332. ORCHESTRA. 2 Credits.
Notes: may be repeated.

MUSC 333. SYMPHONIC CHOIR. 2 Credits.
Notes: may be repeated.

MUSC 334. MUSIC THEATRE. 2 Credits.
Notes: may be repeated.

MUSC 335. MUSIC ENSEMBLE:INSTRUMENTAL. 1 Credit.
Notes: may be repeated.

MUSC 336. MUSIC ENSEMBLE:VOCAL. 1 Credit.
Notes: may be repeated.

MUSC 337. CONTEMPORARY MUSIC ENSEMBLE. 3 Credits.
Notes: may be repeated.
This ensemble provides students the opportunity to explore music of the 20th and 21st Centuries. Music will be chosen from the standard repertoire of the 20th century as well as music of the avant-garde and recent music. Faculty occasionally join students in ensembles.

MUSC 338. ORCHEST REPERTOIRE FOR STRING. 1 Credit.
Notes: may be repeated.
Pre-requisites: MUSC 203.
An intensive study of the standard orchestra repertoire. Students will use score analysis and use of recordings to aid in their preparation.

MUSC 340. APPLIED INSTRUCTION ON INSTRUMENT OR VOICE. 2 Credits.
Notes: may be repeated; concurrent enrollment in a major ensemble is required; only declared junior music performance majors should register for this course; students registered for courses with multiple sections (piano, instrument and voice) should contact the instructor prior to registration for correct assignments.
This course provides students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a music, linguistic and performance viewpoint.

MUSC 341. ADVANCED FUNCTIONAL KEYBOARD. 2 Credits.
Pre-requisites: junior or senior standing.
This course is an advanced study of the techniques of harmonization, transposition, score reading, sight reading and improvisation.

MUSC 356. HISTORY OF JAZZ. 3 Credits.
This course investigates the cultural, historical and musical elements of jazz from its development into the 21st century.

MUSC 357. MUSIC IN DIVERSE CULTURES. 3 Credits.
Pre-requisites: MUSC 102.
This course examines musics across the globe, including non-Western music and Jazz.

MUSC 382. STRINGED INSTRUMENT TECHNIQUES. 1 Credit.
Notes: may be repeated once for a total of 2 credits; music minors and non-music majors/minors require permission of the department chair.
The students will receive elementary and pedagogical instruction for stringed instruments. Instruction will include materials and techniques for music education majors.

MUSC 383. WOODWIND INSTRUMENT TECHNIQUES. 1 Credit.
Notes: may be repeated twice for a total of 3 credits; music minors and non-music majors/minors require permission of the department chair.
The students will receive elementary and pedagogical instruction for woodwind instruments. Instruction will include materials and techniques for music education majors.

MUSC 384. BRASS INSTRUMENT TECHNIQUES. 1 Credit.
The students will receive elementary and pedagogical instruction for brass instruments. Instruction will include materials and techniques for music education majors. Music minors and non-music majors/minors require permission of the department chair.

MUSC 385. PERCUSSION INSTRUMENT TECHNIQUES. 1 Credit.
The students will receive elementary and pedagogical instruction for percussion instruments. Instruction will include materials and techniques for music education majors. Music minors and non-music majors/minors require permission of the department chair.

MUSC 386. SOUND SPACES. 3 Credits.
Cross listed: CSCD 386.
Notes: this course may be repeated.
Pre-requisites: CSCD 386.

MUSC 387. THE PIANO BEYOND THE KEYBOARD: A TECHNICIAN’S GUIDE FOR THE PIANIST. 3 Credits.
This practical and interactive course, designed for pianists and piano teachers, probes the vital relationship between pianist and technician while exploring pianos from a technical perspective. Students take many "field trips" inside pianos to see how their human energy is transformed into musical expression.

MUSC 396. EXPERIMENTAL COURSE. 1-5 Credits.

MUSC 399. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interest.

MUSC 401. ADVANCED ANALYSIS. 2 Credits.
Notes: may be repeated for credit.
Pre-requisites: MUSC 203.
It is an exploration of analytical techniques for many styles of music.
MUSC 404. BAND ARRANGING. 3 Credits.
Pre-requisites: MUSC 204.
Instruments of the band with practical application to the art of band scoring. Original work and transcriptions.

MUSC 405. ORCHESTRATION. 3 Credits.
Pre-requisites: MUSC 204.
Practical study of the art of symphonic scoring. Original work and transcriptions.

MUSC 408. INSTRUCTION ON INSTRUMENT OR VOICE. 1 Credit.
Notes: may be repeated.
This course provides students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a musical, linguistic and performance viewpoint. Students without previous credit in applied music must audition to be accepted into applied study. Every student who is registered for applied music must be registered for a major ensemble. This course is intended for all seniors except those majoring in Music Performance.

MUSC 409. COMPOSITION. 1-5 Credits.
Notes: may be repeated.
Pre-requisites: MUSC 209.
Students learn to organize musical ideas into logical forms and apply the skills learned to musical works using a broad variety of media.

MUSC 440. APPLIED INSTRUCTION ON INSTRUMENT OR VOICE. 2 Credits.
Notes: may be repeated; concurrent enrollment in a major ensemble is required; only declared senior music performance majors should register for this course; students registered for courses with multiple sections (piano, instrument and voice) should contact the instructor prior to registration for correct assignments.
This course provides students with basic to advanced vocal or instrumental skills and a knowledge of the assigned repertoire from a music, linguistic and performance viewpoint.

MUSC 441. MUS METH FOR ELEM MUS SPCLST. 3 Credits.
Pre-requisites: junior standing, PSYC 304.
Methods and materials for teaching a complete music program in the first six grades.

MUSC 445. CHORAL METH/MAT SEC SCHOOL. 2 Credits.
Pre-requisites: MUSC 130, MUSC 310.
The course helps students develop a sequential choral program in the secondary schools.

MUSC 446. INSTRUMENTAL METHODS/MATERIALS. 2 Credits.
Pre-requisites: MUSC 310.
This course is designed to impart the skills and knowledge to design and direct instructional experience for bands and orchestra in the secondary schools.

MUSC 447. JAZZ ENSEMBLE METHODS/MATERIAL. 2 Credits.
Pre-requisites: MUSC 203.
This course helps music education majors develop skills in the jazz idiom. It includes techniques and materials for basic jazz piano, improvisation and ensemble direction.

MUSC 450. INTEGRATING MUSIC INTO ELEMENTARY CLASSROOM COURSES. 3 Credits.
Pre-requisites: EDUC 303.
Development of critical understanding and skills in supporting elementary classroom learning through curricular integration of music.

MUSC 451. MUSIC OF THE MEDIEVAL ERA. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the Medieval Era. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 452. MUSIC OF THE RENAISSANCE ERA. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the Renaissance Era. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 453. MUSIC OF THE BAROQUE ERA. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the Baroque Era. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 454. MUSIC OF THE CLASSICAL ERA. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the Classical Era. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 455. MUSIC OF THE ROMANTIC ERA. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the Romantic Era. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 456. MUSIC OF THE 20TH CENTURY. 3 Credits.
Pre-requisites: MUSC 203 and MUSC 252.
This course offers intensive study of the music literature of the 20th century. This study may be either a survey or focus on a selected topic(s) of the era.

MUSC 458. PIANO PEDAGOGY I. 2 Credits.
Pre-requisites: junior or senior standing.
Methods and materials for teaching all levels of piano in the private studio and group class setting.

MUSC 459. PIANO PEDAGOGY II. 2 Credits.
Pre-requisites: junior or senior standing or MUSC 458.
Methods and materials for teaching all levels of piano in the private studio and group class setting

MUSC 460. PIANO PEDAGOGY III. 2 Credits.
Pre-requisites: junior or senior standing, MUSC 459.
Methods and materials for teaching all levels of piano in the private studio and group class setting.

MUSC 461. VOCAL PEDAGOGY. 3 Credits.
Pre-requisites: senior standing.
Preparation for teaching individual and class voice in the studio.

MUSC 462. STRING PEDAGOGY. 3 Credits.
Pre-requisites: senior standing.
Preparation for teaching individual or class lessons in string instruments.

MUSC 463. WOODWIND PEDAGOGY. 3 Credits.
Pre-requisites: senior standing.
Preparation for teaching individual or class lessons in woodwind instruments.

MUSC 464. BRASS PEDAGOGY. 3 Credits.
Pre-requisites: senior standing.
Preparation for teaching individual or class lessons in brass instruments.
MUSC 467. ACCOMPANYING. 3 Credits.
Notes: may be repeated.
Vocal and instrumental literature, analyzing accompanist’s problems.

MUSC 468. PERCUSSION PEDAGOGY. 3 Credits.
Pre-requisites: senior standing and permission of the instructor.
Preparation for teaching individual and class percussion in the studio.

MUSC 470. SENIOR RECITAL. 1-5 Credits.

MUSC 472. VOCAL ACCOMPANYING. 2 Credits.
Pre-requisites: MUSC 467.
Focus is exclusively on the art of vocal/keyboard collaboration, and is open to pianists and vocalists. Students explore and project different styles and sound qualities required for the artistic performance of diverse chamber ensemble repertoire. Students are engaged in intensive listening, coaching, writing, rehearsing and performing.

MUSC 473. INSTRUMENTAL ACCOMPANYING. 2 Credits.
Pre-requisites: MUSC 467.
Focus is exclusively on the art of instrumental/keyboard collaboration and is open to both pianists and instrumentalists. Students explore and project different styles and sound qualities required for the artistic performance of diverse chamber ensemble repertoire. Students are engaged in intensive listening, coaching, writing, rehearsing and performance.

MUSC 480. KEYBOARD LITERATURE I. 2 Credits.
Pre-requisites: junior or senior standing.
A study of keyboard literature from pre-Baroque through Classical Periods.

MUSC 481. KEYBOARD LITERATURE II. 2 Credits.
Pre-requisites: junior or senior standing or MUSC 480.
A study of keyboard literature from late Classical through the Romantic Period.

MUSC 482. KEYBOARD LITERATURE III. 2 Credits.
Pre-requisites: junior or senior standing or MUSC 481.
A study of keyboard literature from the late Romantic Period through the 20th century.

MUSC 485. THE HEART OF PERFORMANCE. 1 Credit.
Pre-requisites: junior, senior, or graduate students only.
An interactive course that explores philosophical and practical issues in establishing and maintaining a professional performing career.

MUSC 488. SENIOR PROJECT. 4 Credits.
Notes: This course is the first in a two course sequence. Upon successful completion of MUSC 488, students will take MUSC 490 for a capstone.
Pre-requisites: CSCD 386/MUSC 386.
MUSC 488 is a projects-based course designed for seniors. Students will work in teams on client sponsored projects. Each team will use appropriate tools, digital systems and management skills in support of project development.

MUSC 490. SENIOR CAPSTONE. 4 Credits.
Pre-requisites: MUSC 488.
Satisfies: senior capstone university graduation requirement.
This course will provide project-oriented learning experiences for seniors in preparation for professional working environments (e.g., software development for musical training). Emphasis will be placed on the development of: 1) creative thinking and design skills, 2) independent initiative to achieve goals and 3) collaborative skills for working in teams.

MUSC 491. MUSIC SENIOR THESIS. 4 Credits.
Pre-requisites: senior standing.
Satisfies: senior capstone university graduation requirement.
Students apply their intellectual and research skills to a relevant music project. This thesis project serves as a basis for their professional careers as they enter the fields of performing arts, music education, composition or music scholarship.

MUSC 493. MUSIC OUTREACH. 1-3 Credits.
Students perform 30 hours of work preparing, delivering and reporting on music classroom/field based outreach experiences in cooperation with a course instructor.

MUSC 495. INTERNSHIP. 1-10 Credits.

MUSC 496. EXPERIMENTAL COURSE. 1-5 Credits.

MUSC 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

MUSC 498. SEMINAR. 1-5 Credits.

MUSC 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual study projects in selected special field of music.

MUSC 510. ADVANCED CONDUCTING. 3 Credits.
Notes: may be repeated for a maximum of 9 credits.
Instrumental and choral scores with extensive application of conducting techniques to these forms.

MUSC 520. RESEARCH TECHNIQUES AND BIBLIOGRAPHY IN MUSIC. 3 Credits.
Basic references, bibliographic aids and research techniques.

MUSC 521. RESEARCH DESIGN IN MUSIC EDUCATION. 3 Credits.
Interpreting, reviewing and designing various types of music education research and writing research proposals and reports.

MUSC 529. APPLIED LESSON. 1 Credit.
Notes: may be repeated each quarter.
Participation in an instrumental ensemble.

MUSC 530. INSTRUCTION ON INSTRUMENTS OR VOICE. 2 Credits.

MUSC 531. ALTERNATIVE APPROACHES TO MUSIC EDUCATION. 3 Credits.
Notes: no longer a 1 credit class, repeated up to 3 times, instead, it will be a 3 credit class.
Examining diverse philosophical, curricular and administrative components of community-based music education, spanning life-long learning in increasingly varied settings.

MUSC 532. PEDAGOGY OF COLLEGIATE TEACHING. 3 Credits.
Notes: no longer a 1 credit class, repeated up to 3 times, instead, it will be a 3 credit class.
A preparation for teaching in the modern university environment, examining the role of the professor, and focusing on the development of innovative teaching skills appropriate to the college setting.

MUSC 535. MUSIC ENSEMBLE: INSTRUMENTAL. 1-2 Credits.
Notes: may be repeated each quarter.
Participation in an instrumental ensemble.

MUSC 536. MUSIC ENSEMBLE: VOCAL. 1-2 Credits.
Notes: may be repeated each quarter.
Participation in an instrumental ensemble.
MUSC 537. CONTEMPORARY MUSIC ENSEMBLE. 3 Credits.
Notes: may be repeated each quarter.
This ensemble allows students the opportunity to investigate through performing the music and the stylistic performance practices of music of the 20th century.

MUSC 538. TOPICS IN MUSIC HISTORY. 3 Credits.
This course will address topics in music history, which will vary from year to year. Topics will include (but are not limited to) the music of specific nationalities, genres or composers; the history of musical instruments; music in drama; historical performance practice; and other subjects related to music history that are not covered in other music history courses offered by our department.

MUSC 546. SOCIOLOGICAL FOUNDATIONS OF MUSIC. 3 Credits.
Study of the interdependent relationship between society, music and music education.

MUSC 547. THE PSYCHOLOGY OF MUSIC LEARNING AND TEACHING. 3 Credits.
Exploration of research and theory in the process of learning and teaching music, impacting effective functioning as music performers and teachers.

MUSC 550. PHILOSOPHICAL FOUNDATIONS IN MUSIC EDUCATION. 5 Credits.
Exploration of philosophical thinking in the field of music education, with emphasis on philosophical foundations for music learning and teaching.

MUSC 551. MUSIC OF THE MEDIEVAL ERA. 3 Credits.

MUSC 552. MUSIC OF THE RENAISSANCE ERA. 3 Credits.

MUSC 553. MUSIC OF THE BAROQUE PERIOD. 3 Credits.
Intensive study of the music literature of the Baroque Period with emphasis on library research. An extensive research paper is required.

MUSC 554. MUSIC OF THE CLASSICAL PERIOD. 3 Credits.
Intensive study of the music literature of the Classical Period with emphasis on library research. An extensive research paper is required.

MUSC 555. MUSIC OF THE ROMANTIC PERIOD. 3 Credits.
Intensive study of the music literature of the Romantic Period with emphasis on library research. An extensive research paper is required.

MUSC 556. MUSIC OF THE 20TH CENTURY. 3 Credits.
Intensive study of the music literature of the 20th Century with emphasis on library research. An extensive research paper is required.

MUSC 557. JAZZ STYLES AND ANALYSIS. 3 Credits.
This class is for the jazz pedagogy major to learn and become familiar with various artists through transcription, biographical information pertaining to a specific instrument.

MUSC 558. HISTORY OF JAZZ. 3 Credits.
Pre-requisites: permission of the instructor.
This class is for the graduate student to learn and become familiar with various aspects of the history of jazz by preparing and developing a twenty-class sequence covering historical, musical and social elements.

MUSC 560. HISTORICAL ANALYSIS OF MUSICAL STRUCTURE. 3 Credits.
Structural analysis of music from the 16th century to the present and the relationship of this analysis to effective interpretation, performance and teaching.

MUSC 561. COUNTERPOINT. 2 Credits.
This course explores the contrapuntal rules and recommendations that guide music composition in tonal contexts.

MUSC 562. TOPICS IN THEORY. 3 Credits.
Exploring a variety of topics in Music Theory through research and discovery of analytical methods.

MUSC 564A. PIANO PEDAGOGY I. 2 Credits.
Notes: This course will be stacked with MUSC 458.
Methods and materials for teaching all levels of piano in private studio and group settings.

MUSC 564B. PIANO PEDAGOGY II. 2 Credits.
Notes: This course will be stacked with MUSC 459.
Methods and materials for teaching all levels of piano in private studio and group settings.

MUSC 564C. PIANO PEDAGOGY III. 2 Credits.
Notes: This course will be stacked with MUSC 460.
Methods and materials for teaching all levels of piano in private studio and group settings.

MUSC 564D. PEDAGOGY VOCAL. 3 Credits.
Notes: This course will be stacked with MUSC 461.
Methods and materials for teaching all levels of voice instruction in private studio and group settings.

MUSC 564E. PEDAGOGY STRINGS. 3 Credits.
Notes: This course will be stacked with MUSC 462.
Methods and materials for teaching all levels of string instruction in private studio and group settings.

MUSC 564F. PEDAGOGY WOODWINDS. 3 Credits.
Notes: This course will be stacked with MUSC 463.
Methods and materials for teaching all levels of woodwind instruction in private studio and group settings.

MUSC 564G. PEDAGOGY BRASS. 3 Credits.
Notes: This course will be stacked with MUSC 464.
Methods and materials for teaching all levels of brass instruction in private studio and group settings.

MUSC 564H. PEDAGOGY PERCUSSION. 3 Credits.
Notes: This course will be stacked with MUSC 465.
Methods and materials for teaching all levels of percussion instruction in private studio and group settings.

MUSC 565. ADVANCED ORCHESTRATION. 3 Credits.
Advanced practical arranging, orchestration and composition for school and professional orchestras.

MUSC 568. ADVANCED COMPOSITIONAL TECHNIQUES. 1-5 Credits.
Notes: may be repeated.
Original work in composition in larger musical forms, with emphasis on different stylistic periods.

MUSC 569. TOPICS IN ADVANCED ARRANGING. 3 Credits.
Offers intensive study and analysis of a variety of arranging techniques in music theory. This course will cover skills needed to arrange music for instrumental and vocal ensembles such as: Band, Choir, Orchestra.

MUSC 571. JAZZ ENSEMBLE DIRECT/CONDUCT. 3 Credits.
This class is for the jazz pedagogy major to learn and become familiar with various aspects of their potential program. This class will deal extensively with budgets, scheduling, rehearsal techniques and literature.

MUSC 572. GRADUATE IMPROVISATION-PEDAGOGY. 3 Credits.
This class is for the jazz pedagogy student to learn and become familiar with various aspects of teaching improvisation in a classroom setting. Experiences working with high school and middle school students highlight the class work.
MUSC 573. GRADUATE IMPROVISATION-TRANSCRIPTION. 3 Credits.  
The purpose of this class is to study style and harmonic nuances through transcription of important artists in the history of jazz. Weekly assignments include transcriptions and theoretical study.

MUSC 574. GRADUATE JAZZ ARRANGING. 3 Credits.  
The purpose of this class is to learn fundamental arranging techniques beginning with basic instrumental ranges through learning useful big band band voicings. The class will cover extensively examples of arrangements and proper compositional techniques for piano, bass, drum set and guitar.

MUSC 575. STRING PEDAGOGY-BASS. 2 Credits.  
This class is designed to educate the non-bassist with the basic functions and pedagogical materials for the instrument within the jazz idiom.

MUSC 576. JAZZ PIANO PEDAGOGY. 2 Credits.  
Designed to educate the non-pianist with the basic functions and pedagogical materials and views of the instrument within the jazz idiom.

MUSC 577. DRUM SET PEDAGOGY. 2 Credits.  
Designed to educate the non-percussionist with the basic functions and pedagogical materials and views of the instrument within the jazz idiom.

MUSC 578. SAXOPHONE PEDAGOGY. 2 Credits.  
Designed to educate the non-saxophonist with the basic functions and pedagogical materials and views of the instrument within the jazz idiom.

MUSC 579. BRASS PEDAGOGY. 2 Credits.  
Designed to educate the non-brass player with the basic functions and pedagogical materials and views of the instrument within the jazz idiom.

MUSC 582. ADVANCED ACCOMPANYING-VOCAL. 2 Credits.  
Focus is exclusively on the art of vocal/keyboard collaboration, and is open to both pianists and vocalists. Students explore and project different styles and sound qualities required for the artistic performance of diverse chamber ensemble repertoire. Students are engaged in intensive listening, coaching, writing, rehearsing and performing.

MUSC 583. ADVANCED ACCOMPANYING-INSTRUMENTAL. 2 Credits.  
Focus is exclusively on the art of instrumental/keyboard collaboration and is open to both pianists and all instrumentalists. Students explore and project different styles and sound qualities required for the artistic performance of diverse chamber ensemble repertoire. Students are engaged in intensive listening, coaching, writing, rehearsal and performance.

MUSC 585. THE HEART OF PERFORMANCE. 1 Credit.  
Pre-requisites: junior, senior, or graduate students only.  
A “dialogue interactive” course that will approach, but not be limited to the following topics: What is my intention as a professional artist? What blocks my ability to perform at the highest levels? What does it mean to live an artistic life? How do I create abundance in my career, both in opportunity and financially? Purpose and Passion—how do I generate those vital aspects of my chosen career path? Artistic mastery—process versus progress.

MUSC 593. MUSIC OUTREACH. 3 Credits.  
Students perform 30 hours of work preparing, delivering and reporting on music classroom/field based outreach experiences in cooperation with a course instructor.

MUSC 596. EXPERIMENTAL COURSE. 1-10 Credits.

MUSC 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

MUSC 598. GRADUATE SEMINAR. 3 Credits.

MUSC 599. INDEPENDENT STUDY. 1-5 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
Independent study projects in a selected field of music.

MUSC 600. THESIS. 1-15 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.

MUSC 601. GRADUATE RECITAL. 1-15 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.

MUSC 602. FINAL MASTER’S PROJECT. 1-15 Credits.  
For students whose culminating master’s project is not a thesis. This includes students in the Performance Emphasis who are writing a recital document; students in the Jazz Studies Emphasis who are writing a method book or other practical/applied document; or students in any M.M. emphasis who, with advisor permission, are completing any kind of non-thesis final project.

MUSC 620. THE ORFF SCHULWERK APPROACH TO MUSIC EDUCATION. 6 Credits.  
Exploring research on the philosophical and historical bases of the Orff Schulwerk approach and acquiring skills in applying relevant pedagogies in educational settings.

MUSC 621. EARLY CHILDHOOD MUSIC EDUCATION. 3 Credits.  
Exploration of philosophical, sociological, psychological, and pedagogical perspectives in Early Childhood Music Education, leading to the development of skills in the design and implementation of programs.

MUSC 695. GRADUATE JAZZ INTERNSHIP. 1-5 Credits.  
Notes: may be repeated twice for a maximum of 5 credits.  
Pre-requisites: permission of the instructor, department chair and college dean.

This class is for jazz pedagogy students to learn various aspects of their potential program, including organizing and coordinating a jazz festival. This class will deal extensively with budgets, scheduling, guest artists and all major aspects of a professional event.

MUSC 696. COLLEGE TEACHING INTERNSHIP. 3-15 Credits.  
Notes: graded Pass/No Credit.  
Teaching a lower-division college course under supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction and student and course evaluation.

Music Ensemble (MUSE)

MUSE 301. CONCERT JAZZ ORCHESTRA. 1 Credit.  
Notes: may be repeated.  
Music performance ensemble.

MUSE 302. REPERTORY JAZZ ENSEMBLE. 1 Credit.  
Music performance ensemble.

MUSE 303. JAZZ LAB ENSEMBLE. 1 Credit.  
Music performance ensemble.

MUSE 304. COLLEGIANS. 1 Credit.  
Music Performance Ensemble.

MUSE 305. VOCAL JAZZ II. 1 Credit.  
Music performance ensemble.

MUSE 310. JAZZ COMBO I. 1 Credit.  
Music performance ensemble.
MUSE 311. JAZZ COMBO 2. 1 Credit.
Music performance ensemble.

MUSE 312. JAZZ COMBO 3. 1 Credit.
Music performance ensemble.

MUSE 313. JAZZ COMBO 4. 1 Credit.
Music performance ensemble.

MUSE 314. JAZZ COMBO 5. 1 Credit.
Music performance ensemble.

MUSE 320. MARCHING BAND. 1 Credit.
Music performance ensemble.

MUSE 321. WIND ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 322. SYMPHONIC BAND. 1 Credit.
Music performance ensemble.

MUSE 330. ORCHESTRA. 1 Credit.
Music performance ensemble.

MUSE 332. SYMPHONIC BAND. 1 Credit.
Music performance ensemble.

MUSE 340. SYMPHONIC CHOIR. 1 Credit.
Music performance ensemble.

MUSE 341. CONCERT CHOIR. 1 Credit.
Music performance ensemble.

MUSE 350. OPERA. 1 Credit.
Music performance ensemble.

MUSE 360. BRASS QUINTET. 1 Credit.
Music performance ensemble.

MUSE 361. CELLO ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 362. CHAMBER MUSIC. 1 Credit.
Music performance ensemble.

MUSE 363. WOODWIND CHAMBER ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 364. DOUBLE BASS ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 365. FLUTE ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 366. GUITAR ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 367. PERCUSSION ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 368. PIANO ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 369. SAXOPHONE ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 370. TROMBONE CHOIR. 1 Credit.
Music performance ensemble.

MUSE 371. TRUMPET ENSEMBLE. 1 Credit.
Music performance ensemble.

MUSE 372. TUBA/EUPHONIUM CHOIR. 1 Credit.
Music performance ensemble.

MUSE 373. HORN ENSEMBLE. 1 Credit.
Students read, rehearse and perform repertoire for the horn ensemble.

MUSE 380. POP COMBO. 1 Credit.
Music performance ensemble.

MUSE 475. TRUMPET ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for trumpet ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 501. CONCERT JAZZ ORCHESTRA. 1 Credit.
A large ensemble course designed to provide exposure and performance experience in large jazz arrangements, new and standard jazz repertoire. Student Learning Outcomes: students successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 502. REPERTORY JAZZ ENSEMBLE. 1 Credit.
This is a music ensemble course, designed to provide exposure to a wide variety of small jazz ensemble literature as well as an opportunity for students to develop musical interaction skills in a small group/chamber ensemble setting. Literature includes standard repertory and related jazz performance traditions. Student Learning Outcomes: students will successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 503. JAZZ LAB ENSEMBLE. 1 Credit.
This is a music ensemble course, designed to provide exposure to a wide variety of small jazz ensemble literature as well as an opportunity for students to develop musical interaction skills in a small group/chamber ensemble setting. Literature includes standard repertory, techniques in jazz rehearsing and related jazz traditions. Student Learning Outcomes: students will successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 504. COLLEGIANS. 1 Credit.
This is a music vocal ensemble course, designed to provide exposure to a wide variety of small jazz ensemble literature as well as an opportunity for students to develop musical interaction skills in a small group/chamber ensemble setting. Literature includes standard repertory, techniques in jazz rehearsing and related jazz traditions. Student Learning Outcomes: students will successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 505. VOCAL JAZZ. 1 Credit.
This is a music vocal ensemble course, designed to provide exposure to a wide variety of small jazz ensemble literature as well as an opportunity for students to develop musical understanding of the vocal jazz techniques. Literature includes standard repertory, techniques in jazz rehearsing and related jazz traditions. Student Learning Outcomes: students will successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.
MUSE 510. JAZZ COMBO 1. 1 Credit.
A small jazz ensemble group designed to provide performing experience in this specialized jazz idiom. Students will develop collaborative performing skills and opportunity to learn jazz combo repertoire. Students will audition and be placed in the appropriate combo based on level. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 511. JAZZ COMBO 2. 1 Credit.
A small jazz ensemble group designed to provide performing experience in this specialized jazz idiom. Students will develop collaborative performing skills, and opportunity to learn jazz combo repertoire. Students will audition and be placed in the appropriate combo based on level. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 512. JAZZ COMBO 3. 1 Credit.
A small jazz ensemble group designed to provide performing experience in this specialized jazz idiom. Students will develop collaborative performing skills, and opportunity to learn jazz combo repertoire. Students will audition and be placed in the appropriate combo based on level. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 513. JAZZ COMBO 4. 1 Credit.
A small jazz ensemble group designed to provide performing experience in this specialized jazz idiom. Students will develop collaborative performing skills, and opportunity to learn jazz combo repertoire. Students will audition and be placed in the appropriate combo based on level. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 514. JAZZ COMBO 5. 1 Credit.
A small jazz ensemble group designed to provide performing experience in this specialized jazz idiom. Students will develop collaborative performing skills, and opportunity to learn jazz combo repertoire. Students will audition and be placed in the appropriate combo based on level. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 520. MARCHING BAND. 1 Credit.
A large performing ensemble designed to learn music for marching band, perform at football games, and learn marching band field formations. Students will develop collaborative performing skills and precision in marching techniques. Student Learning Outcomes: students will successfully perform in outdoor game venues throughout the Fall term, demonstrating mastery of the music, individually and collaboratively.

MUSE 521. WIND ENSEMBLE. 1 Credit.
A large concert ensemble designed to provide rehearsal and performance experience in the Wind Ensemble repertoire. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 522. SYMPHONIC BAND. 1 Credit.
A large concert ensemble designed to provide rehearsal and performance experience in the symphonic band repertoire. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 530. ORCHESTRA. 1 Credit.
A large concert ensemble designed to provide rehearsal and performance experience in the orchestral repertoire. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 540. SYMPHONIC CHOIR. 1 Credit.
A large concert ensemble designed to provide rehearsal and performance experience in the symphonic choral repertoire. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 541. CONCERT CHOIR. 1 Credit.
A large concert ensemble designed to provide rehearsal and performance experience in the concert choral repertoire. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

MUSE 550. OPERA. 1 Credit.
This course is designed to provide experience with opera production techniques, relevant vocal repertoire from the opera genre, and opera staging. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 560. BRASS QUINTET. 1 Credit.
This course is designed to provide the opportunity to experience the literature for brass ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 561. CELLO ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for cello ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 562. CHAMBER MUSIC. 1 Credit.
This course is designed to provide the opportunity to experience the literature for the traditional chamber ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.
MUSE 563. WOODWIND CHAMBER ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for woodwind ensemble, and to build performance experience and techniques in stage presence. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 564. DOUBLE BASS ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for double bass ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 565. FLUTE ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for flute ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 566. GUITAR ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for guitar ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 567. PERCUSSION ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for percussion ensemble and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 568. PIANO ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for piano ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 569. SAXOPHONE ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for saxophone ensemble and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 570. TROMBONE CHOIR. 1 Credit.
This course is designed to provide the opportunity to experience the literature for trombone ensemble and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 571. TRUMPET ENSEMBLE. 1 Credit.
This course is designed to provide the opportunity to experience the literature for trumpet ensemble, and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 572. TUBA/EUPHONIUM CHOIR. 1 Credit.
This course is designed to provide the opportunity to experience the literature for tuba/euphonium ensemble and to build musicianship through the small ensemble genre. Repertoire will be from the standard repertoire as well as new compositions by both professional artists and student composers. Techniques in style and interpretation are included. Student Learning Outcomes: students will successfully perform in concert opportunities, demonstrating mastery of the music, individually and collaboratively.

MUSE 580. POP COMBO. 1 Credit.
This is a music ensemble course, designed to provide exposure to a wide variety of small ensemble literature drawn from the repertoire composed since 1940. The course provides intensive coaching on the unique techniques of contemporary repertoire, as well as an opportunity for students to develop musical interaction skills in a small group/chamber ensemble setting. Student Learning Outcomes: students will successfully perform in numerous ensemble concert opportunities throughout the year, demonstrating mastery of the music, individually and collaboratively.

Natural Science Education (NTSC)

NTSC 196. EXPERIMENTAL COURSE. 1-5 Credits.
NTSC 296. EXPERIMENTAL COURSE. 1-5 Credits.
NTSC 299. INDIVIDUAL STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individual studies in natural science or planetarium operations.
NTSC 301. MIDDLE LEVEL EARTH SCIENCE. 5 Credits.
Pre-requisites: GEOG 115 or GEOL 115; MATH 211 and successful completion or concurrent enrollment in CHEM 161.
This is a required class for students planning to teach middle school science. Emphasis will be on laboratory and inquiry based earth science investigations the contents of which support instruction of the National Science Education Standards and Washington Essential Academic Learning Requirements (EALRs).

NTSC 302. MIDDLE LEVEL LIFE SCI INQUIRY. 5 Credits.
Pre-requisites: BIOL 115; CHEM 161; MATH 211.
This course is designed for students seeking the Middle Level Science Endorsement. Emphasis is placed on understanding the life science principles underlying the 5-9 grade level expectations of the Washington State Essential Academic Learning Requirements. Students will construct knowledge of these principles through inquiry.

NTSC 390. MIDDLE LEVEL SCIENCE METHODS. 3 Credits.
Pre-requisites: NTSC 301 and NTSC 302.
This science methods course is designed for students seeking endorsement to teach middle school science. The class includes information and strategies for teaching the Washington State science standards. The focus will be on addressing commonly held misconceptions, lab safety as well as techniques and activities for teaching life, earth and physical sciences at the middle school level.

NTSC 396. EXPERIMENTAL COURSE. 1-5 Credits.

NTSC 496. EXPERIMENTAL COURSE. 1-5 Credits.

NTSC 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

NTSC 499. DIRECTED STUDY. 1-10 Credits.

NTSC 539. SPECIAL TOPICS. 1-10 Credits.

Nursing (NURS)

General Undergraduate Academic Advising (GUAA)
103 Sutton Hall
509.359.2345
genadvising@ewu.edu

Note: Information (http://access.ewu.edu/academic-advising).

Occupational Therapy (OCTH)

OCTH 101. INTRODUCTION TO OCCUPATIONAL THERAPY. 2 Credits.
This course is to provide an overview of occupation, the practice of occupational therapy, disability awareness, and community supports for individuals with disabilities. The students will become aware of the diversity of occupational therapy practice, practice environments, and occupational therapy practitioners.

OCTH 196. EXPERIMENTAL. 1-5 Credits.

OCTH 292. FOUNDATIONS OF DOCUMENTATION AND MEDICAL TERMINOLOGY FOR THE REHABILITATION PROFESSIONAL. 2 Credits.
This is a self-paced course designed for the student to acquire a foundational knowledge of medical terminology and professional documentation and their applications within the rehabilitation professions. This is accomplished by examining the processes of basic word-building skills and definitions including word roots, prefixes, suffixes and combining forms. Students will apply these concepts and skills to basic medical chart review and professional documentation.

OCTH 296. EXPERIMENTAL COURSE. 1-10 Credits.

OCTH 299. SPECIAL STUDIES. 1-5 Credits.

OCTH 396. EXPERIMENTAL. 1-5 Credits.

OCTH 398. SEMINAR. 1-5 Credits.

OCTH 501. CADAVE ANATOMY FOR OT. 6 Credits.
Pre-requisites: admission to the MOT program.
This course is an intensive review of human anatomy and physiology as it pertains to the practice of occupational therapy. It is designed to provide the student with an opportunity to learn anatomical structures and the functional relationships of these structures to each other. Cadaver dissection is a critical component of all labs.

OCTH 501S. APPLIED HUMAN ANATOMY FOR OCCUPATIONAL THERAPY. 4 Credits.
This course is an intensive review of human anatomy and physiology as it pertains to the practice of occupational therapy. It is designed to provide the student with an opportunity to learn anatomical structures and the functional relationships of these structures to each other. Cadaver dissection is a critical component of all labs.

OCTH 502. OCC PERFOR & MOVEMENT. 4 Credits.
Pre-requisites: admission to the MOT program.
This is an overview study of human movement in a person/environment context. The study of the normal structure and function of the musculoskeletal system is seen as a prerequisite to the application of assessment procedures and therapeutic interventions in occupational therapy. Incorporation of clinical problems and pathokinesiology are involved. The lab portion of the class trains students in the basic principles and application of manual muscle testing and goniometry.

OCTH 502S. CLINICAL KINESIOLOGY AND BIOMECHANICS. 3 Credits.
This course is an overview study of human movement in a person/environment context. The study of the normal biomechanics and kinesiology of the musculoskeletal system is seen as a prerequisite to the application of assessment procedures, data collection, and assessment interpretation for the planning of therapeutic interventions in occupational therapy. Incorporation of clinical problems and pathokinesiology are also included through a structured inquiry-based case-study process. The lab portion of the class also trains students in the basic principles and application of manual muscle testing, goniometry, and principles that enhance strength and activity tolerance. To enhance student learning, designated assignments, and course laboratory activities. Application of content knowledge and a synthesis of how it relates to occupational performance will be emphasized. Students will be expected to use the Occupational Therapy Practice Framework: Domain and Process as a mechanism for expressing physical performance elements in the practice of occupational therapy.

OCTH 503. APPLIED NEUROLOGY FOR OCTH. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course is an overview of the neurological function and process in the human body. Normal neurologic development throughout the life span will be the primary focus. Application of knowledge concerning neurological process and occupational performance will be emphasized.

OCTH 503S. APPLIED NEUROLOGY FOR OCCUPATIONAL THERAPY. 3 Credits.
This course is an overview of the neurological function and process in the human body. Normal neurologic development throughout the life span will be the primary focus. Application of knowledge concerning neurological process and occupational performance will be emphasized.
OCTH 504. FOUNDATIONS OF OCTH. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course is an overview of the founding principles of occupational therapy practice as well as the development of foundational skills concerning cultural competence as a health care practitioner. The occupational performance of individuals across the life span within a multicultural context will be emphasized. Likewise, the role of theory in the understanding of practice frames of reference and standards of the profession will be closely examined and applied. Additionally, the history of the profession, clinical reasoning strategies, professional ethics, and sociocultural and political impacts on the profession will all be explored.

OCTH 504S. OCCUPATIONAL THERAPY THEORY AND FOUNDATIONS. 4 Credits.
This course introduces students to the current occupational therapy practice framework, which defines domain and process. It provides opportunities to understand the historical and current evolution of occupational therapy’s philosophy and theory development, along with the contributions of theorists within the profession. Students will learn the process of theory development and analyze selected practice models and frames of reference for application to occupational therapy evaluation and intervention. The course will also explore the application and importance of occupational therapy practice models and frames of reference to the development of new knowledge, ongoing research, and the advancement of the profession.

OCTH 505. HUMAN DISEASE & OCC THRPY. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides an overview of human disease and injury processes occurring throughout the lifespan. The etiology, course, prognosis, treatment, and management of each condition will be explored. The content of course material will be investigated within the framework of human occupation emphasizing the impact of disease and injury on occupational performance and quality of life.

OCTH 505S. IMPACT OF HUMAN DISEASE ON OCCUPATIONAL PERFORMANCE. 1 Credit.
This course provides an overview of human disease and injury processes occurring throughout the lifespan. The etiology, course, prognosis, treatment and management of each condition will be explored. The course is designed to introduce the student to a variety of injuries and disease processes encountered in the field of occupational therapy. Emphasis will be placed on providing necessary, precautionary and practical information of each disease within a framework of group process and problem solving related skills. Further, the impact of disease and injury on occupational performance and quality of life will be explored. Considerations for the practice of occupational therapy will be discussed with a focus on clinical judgment, team collaboration and global treatment interventions.

OCTH 506. OCCUP PERFORM THRU LIFE SPAN. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course is designed to apply concepts of human lifespan and development from birth to the end of adulthood to practice perspective of occupational therapy and appreciation of the complexity of typical and atypical development. Focus is on understanding the development of human occupation as it relates to the profession from birth to death, including: occupational performance, as well as the influence of context (Occupational Therapy Practice Framework, Second Edition).

OCTH 506S. PRACTICE SKILLS AND ETHICS. 1 Credit.
Notes: graded Pass/Fail.
This course is designed to provide entry level occupational therapy students’ knowledge and skills in practice skills and policy. The course will focus on four main elements of practice including basic clinical skills, clinical writing and documentation, professional roles and policy, and ethics. The intent is for the student to establish basic skills that can be further developed in practice specific courses to enable them to demonstrate entry-level practice competencies.

OCTH 507. ANAL OCCUPAT PERFORMANCE I. 2 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course is the first of a two part series, OCTH 507: Analysis of Occupational Performance I, and OCTH 508: Analysis of Occupational Performance II. The Analysis I course will provide the learner with opportunities to develop a foundation of knowledge and skills for the evaluation of occupational performance through the process of activity analysis. Students will gain and demonstrate fundamental assessment skills for human activity that incorporates the contribution of performance skills, patterns, context, activity demands, and client factors.

OCTH 507S. ACTIVITY ANALYSIS. 1 Credit.
This course is the first of a two part series, OCTH 507S Activity Analysis and OCTH 508S Occupational Synthesis. The Activity Analysis course will provide the students with a method, structure, and process on how to analyze daily life activities and discover the therapeutic values that are inherent in all activities. Students will gain the knowledge and skills to analyze daily life activities and discover the potential therapeutic values in daily life activities that support the intervention strategies with persons who are experiencing dysfunction in occupational performance. This course will introduce students to the relationship between activity analysis, theories of occupation, and the development of intervention strategies for clients.

OCTH 508. ANAL OCCUPAT PERFORMANCE II. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course will provide the learner with opportunities to develop advanced knowledge and skills for the in-depth evaluation and analysis of occupational performance through the process of activity analysis and intervention planning. The relationship between the assessment of occupational performance and the conceptualization of grading and adapting occupations will be critically examined.

OCTH 508S. OCCUPATIONAL SYNTHESIS. 3 Credits.
This course will provide the learner with opportunities to develop the knowledge and skills for the in-depth evaluation and analysis of occupational performance through the process of task analysis, the lens of the Occupational Therapy Framework, and the concepts of occupational justice, identity, and meaning as related to occupation. The relationship between the assessment of occupational performance and the conceptualization of grading and adapting occupations coupled with the importance of the personal meaning of occupation for those engaged in them will be critically examined. Students will learn and apply the process of activity synthesis to occupational therapy interventions for individuals across the lifespan with cognitive, physical, and/or emotional conditions or aspects of their occupational needs or who they are as occupational beings. The development of science and social based observational, organizational and problem-solving skills for analysis and activity adaptation will be integral to the course activities. The course content is offered through lecture, discussion, case studies, readings and interactive laboratory activities.
OCTH 509. THEORY & PRACTICE IN OT. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course builds upon the knowledge and concepts presented in OCTH 504 Foundations of Occupational Therapy by providing opportunities to understand the historical evolution of occupational therapy’s philosophical basis and the contributions of the theories within the profession. Students will learn the process of theory development and complete an in-depth analysis of core concepts, theories, models, and frames of reference for application in occupational therapy practice. Finally, the course will explore the application and importance of occupational therapy and frames of reference to the research process and the advancement of the profession.

OCTH 510. GROUP PROCESS. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course focuses on several advanced skills of professional communication and behaviors. Emphasis is on: a) interviewing, b) group process, c) intercultural communication, d) teaming and collaboration with families, clients, and other health care providers, and e) a reflective evaluation process used for building interpersonal communication skills. Advanced professional communication skills are necessary tools for emerging and traditional practice arenas in occupational therapy.

OCTH 510S. GROUP PROCESS. 3 Credits.
This course focuses on developing several advanced skills of professional communication and behaviors. Emphasis is on: a) intentional use of self; b) group facilitation, b) group process, c) interpersonal communication, d) skills in motivational interviewing, and e) a reflective evaluation process used for building interpersonal communication skills. Advanced professional communication skills and group design/process skills are necessary tools for emerging and traditional practice arenas in occupational therapy.

OCTH 511. LEADERSHIP IN OT. 2 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course focuses on leadership within the profession of occupational therapy. The course will provide a foundation for understanding leadership theories, strategies, and styles. Opportunities will be offered to learners to analyze and create a personal leadership mision and to examine the diverse requirements for leadership within the profession. Leaders within the field of occupational therapy will be identified and critically debated. Additionally, the course will examine other opportunities for leadership for occupational therapy practitioners in association with OCTH 532. This course also continues to support your professional behavior development from the previous seminar of courses.

OCTH 512. FIELDWORK II SEMINAR. 1 Credit.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course will focus on preparation for the transition from classroom to Fieldwork Level II (FW II) experiences. Students will have the opportunity to identify and analyze the Level II fieldwork expectations, explore the supervisory and interdisciplinary team relationships, review professional and ethical behavior, develop a Level II Fieldwork Portfolio, review AOTA, NBCOT and the State of Washington licensure requirements, and begin preparation for job searches.

OCTH 512S. FIELDWORK SEMINAR. 1 Credit.
This course will focus on preparation for the transition from classroom to Fieldwork Level II (FW II) experiences. Students will have the opportunity to identify and analyze the Level II fieldwork expectations, explore the supervisory and interdisciplinary team relationships, review professional and ethical behavior, develop a Level II Fieldwork Portfolio, review AOTA, NBCOT and the State of Washington licensure requirements and begin preparation for job searches.

OCTH 520. PRINCIPLES OF EVIDENCE BASED PRACTICE I. 1 Credit.
Cross listed: PHTH 540.
Notes: graded Pass/Fail.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This is the first of three courses designed to introduce the student to evidence based practice and the process of critical inquiry. This course will be offered in an interdisciplinary format with the Department of Physical Therapy. These courses will prepare the student to become a knowledgeable consumer of research and the professional literature as it relates to the practice of occupational therapy. In this course the student will develop competence in identifying, locating, retrieving, understanding and applying the principles of research to the practice of occupational therapy.

OCTH 520S. PRINCIPLES OF EVIDENCE BASED PRACTICE II. 1 Credit.
Notes: graded Pass/No Credit.
This is the second of three courses designed to introduce the student to evidence based practice and the process of critical inquiry. This course will be offered in an interdisciplinary format with the Department of Physical Therapy. These courses will prepare the student to become a knowledgeable consumer of research and the professional literature as it relates to the practice of occupational therapy. In this course the student will develop competence in identifying, locating, retrieving, understanding and applying the principles of research to the practice of occupational therapy.

OCTH 521. SURVEY RES METHODS IN OT. 2 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This is the second of a three course series designed to introduce the student to evidence based practice and the process of critical inquiry regarding a broad spectrum of research methodologies including quantitative, qualitative, ethnographic and phenomenological approaches. This course will prepare the student to be a knowledgeable consumer of research and the professional literature as it relates to the practice of occupational therapy. In this course the student will develop competence in critiquing and applying various research methods and designs to the application of evidence based practice in occupational therapy.
OCTH 522. FUNDAMENTALS OF OT RESEARCH. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point.
Satisfies: Senior capstone university graduation requirement for students pursuing the Interdisciplinary BA Occupational Therapy Track. Students pursuing a Bachelor of Arts degree in Therapeutic Recreation or a Bachelor of Science degree in Exercise Science need to complete the senior capstone university graduation requirements specific to those programs.

This course provides the learner with an overview of the research production process. Specific areas of focus include analyzing current professional research, developing research topics, designing research projects, synthesizing information in order to develop a sound research proposal and comprehending the institutional review process. Students will develop skills in providing and receiving research and writing feedback, using various library and search resources in a focused, hands-on manner and will engage in the writing-rewriting process essential to the research process.

OCTH 522S. RESEARCH METHODS IN OCCUPATIONAL THERAPY. 3 Credits.
Satisfies: Senior capstone university graduation requirement for students pursuing the Interdisciplinary BA Occupational Therapy Track. Students pursuing a Bachelor of Science degree in Exercise Science need to complete the senior capstone university graduation requirements specific to those programs.

This course is designed to introduce the student to the process of critical inquiry regarding a broad spectrum of research methods across the quantitative and qualitative spectrum. This course will prepare the student to be a knowledgeable consumer of research and the professional literature as it relates to the practice of occupational therapy. In this course, the student will develop competence in critiquing and applying various research methods and designs to the application of evidence based practice in occupational therapy. This course serves as the capstone for the Interdisciplinary Studies, Occupational Therapy Track. The Capstone Project will require the completion of either a case study based on current evidence or a research proposal.

OCTH 523. EVALUATION AND ASSESSMENT. 2 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course will provide the learner with the opportunity to identify, evaluate, and critically analyze the psychometric properties and application of the most commonly used evaluation and assessment tools by practitioners in the profession of occupational therapy. The course offers learners information and experiences in analyzing the assessment need, critical selection of appropriate evaluation tools to address the assessment need, pragmatic application of the tools on a human subject, interpretation of data, and conceptualizing the development of intervention goals based on the evaluation results.

OCTH 523S. ASSESSMENT AND EVALUATION OF OCCUPATIONAL PERFORMANCE. 3 Credits.
This course will provide you with the opportunity to identify, evaluate, and critically analyze the psychometric properties and application of several of the most commonly used evaluation and assessment tools in the profession of occupational therapy. The course offers learners the following information and experiences: 1) knowledge of the psychometrics for standardized assessment tools, 2) analysis of the assessment need, 3) critical selection of appropriate evaluation tools to address the assessment need, 4) pragmatic application of the tools on a human subject whenever possible, and 5) interpretation of data.

OCTH 530. OCC PERFORMANCE/MENTAL HLTH. 6 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides the learner with foundational skills in the evaluation, analysis and critical intervention planning critical to effective occupational therapy service provision for children, adolescents and adults with mental illness. This course will focus on the provision of occupational therapy services to clients with mental illness. The course includes Fieldwork Level I experiences and practice labs.

OCTH 530S. OCCUPATIONAL PERFORMANCE AND MENTAL HEALTH. 4 Credits.
The goal of this course is to provide the learner with the foundations of service provision for working with individuals with mental illness. Varying roles for the occupational therapist will be explored in this practice arena. The lived experience of mental illness and recovery is highlighted. This course is paired with a Level I fieldwork experience which will allow students to apply what they are learning in OCTH 530S in a variety of settings within the community that offer services to persons experiencing mental illness and/or addiction.

OCTH 531. OCCUPATL PERF & CHILDREN. 6 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides the learner with theories, knowledge and application opportunities related to evaluation, analysis and intervention planning for children with special needs in a variety of pediatric occupational therapy practice settings. The course will focus on the provision of occupational therapy services with children. Fieldwork Level I experiences are included in the course proceedings as well as advanced practice labs.

OCTH 531S. OCCUPATIONAL PERFORMANCE AND ADULTS. 4 Credits.
This course provides the learner with the knowledge and skills for assessment, intervention, planning, provision of intervention and outcome analysis related dysfunction in occupational performance in adults. The course will focus on the provision of occupational therapy services from young adulthood through geriatrics. Students will learn about disabling conditions, documentation, use of assessment tools/procedures (e.g., evaluation of muscle strength, ROM, ADL/IADL, soft tissue dysfunction, etc.), evidence-based practice, frames of reference and service implementation throughout the continuum of care for this population. Occupational therapy principles and theories will be applied through case studies, classroom discussion laboratory exercises and fieldwork experiences.

OCTH 532. OCCUP PERFORM ADOLES/ADULTS. 6 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides the learner with the knowledge and skills for assessment, intervention planning, provision of intervention, and outcome analysis related to adolescence and adulthood dysfunction in occupational performance. The course will focus on the provision of occupational therapy services with older adolescents and adults approximately 18-60 years of age. This course includes Fieldwork Level I experiences and practice labs.
OCTH 532S. OCCUPATIONAL PERFORMANCE AND PEDIATRICS. 4 Credits.
This course provides the learner with theories, knowledge and application opportunities related to evaluation, analysis and intervention planning for children with special needs in a variety of pediatric occupational therapy practice settings. The course will focus on the provision of occupational therapy services with infants, children and adolescents. Specific skill building will also focus on evaluation, interpreting evaluation information and designing evidence-based intervention. The analysis of childhood occupations, disabling conditions, documentation, analysis and application of frames of reference and issues of practice leadership will be examined. Occupational therapy principles and theories will be applied to case studies and through analysis and discussion of Fieldwork Level I (FWI) experiences.

OCTH 533. OCCUPAT PERFORM & OLDER ADULTS. 6 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides the learner with an understanding of the theoretical basis and practice skills applied in the occupational therapy assessment/evaluation, intervention, and consultation for persons who are aging. The course will address multiple topics related to aging including: 1) a review of the physiological and psychological aspects of typical aging and the relationship to occupational performance, 2) the development of occupational therapy evaluation and intervention skills for common health conditions affecting functional performance in the aging population, and 3) current and emerging issues in occupational therapy geriatric practice. This course includes Fieldwork Level I experiences and practice labs.

OCTH 540. HEALTH WELLNESS AND OCCUPATIONAL THERAPY. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides an overview of occupational performance within a health promotion and disease prevention framework. Health promotion and disease prevention concepts will be discussed in relationship to a broad perspective of health and the profession of occupational therapy. Selected theoretical concepts and health promotion models will be presented and discussed.

OCTH 540S. HEALTH AND WELLNESS. 3 Credits.
This course provides an overview of occupational performance within a health promotion, wellness and lifestyle medicine framework for both mental and physical wellness. Students will explore opportunities for occupational therapists to promote health and wellness through participation in occupations. Course assignments will highlight traditional and contemporary approaches occupational therapists can use with individual clients and in population health settings. Selected occupational therapy theories and health promotion models will be presented and discussed, including their application to the practice of occupational therapy. Course written assignments will incorporate principles of clinical reasoning, practical clinical applications and professional documentation. Students will explore and evaluate tools and approaches to health and wellness and contribute to creating an online professional resource.

OCTH 541. TECH & OCCUP PERFORMANCE. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course is designed as a vehicle to help occupational therapy students integrate previous learning by providing opportunities for occupational assessments, needs identification, and the selection and design of both high and low technology devices to maximize client independence in their occupational performance areas. Additionally, the course is designed to incorporate an interdisciplinary experience with graduate students from the Department of Engineering Technology and Multimedia Design when creating products and providing technology services to consumers.

OCTH 541S. TECHNOLOGIES FOR ENABLING OCCUPATIONAL PERFORMANCE. 3 Credits.
This course is designed to help occupational therapy students integrate occupational assessments, needs identification, selection and design of both high and low technology devices to maximize client independence in their occupational performance areas. Additionally, the course incorporates interprofessional experiences with senior students from the Department of Engineering and Design in creating products and providing technology services to consumers.

OCTH 542. ADMINISTRATION AND ORGANIZATION IN OCCUPATIONAL THERAPY. 5 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course covers topical areas related to the development, administration and management of occupational therapy services in both traditional and emerging areas of practice. Issues such as quality management, ethics, fiscal and resource management, organizational behavior and marketing will be discussed. The course will explore the provision of services within a managed care and health environment, examining the organization, function and programs of various health and human service organizations within the Accountability Care Act.

OCTH 542S. LEADERSHIP AND MANAGEMENT IN OCCUPATIONAL THERAPY PRACTICE. 3 Credits.
This course focuses on leadership and management. The course will provide a foundation for understanding leadership theories, strategies and styles. It will cover topical areas related to the management of occupational therapy services in both traditional and emerging areas of practice. Opportunities will be offered to explore learners’ current leadership style and to apply concepts of leadership through community experience. Comparisons between leadership and management will be discussed with the underlying concept being that strong leadership foundation is critical to successful management. Current themes, opportunities and challenges for both leadership and management will be explored.
OCTH 543. EMERGING PRACTICE I. 4 Credits.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This course provides foundational concepts, knowledge, and skills for emerging practices within the profession of occupational therapy. This course is the first in a series of two focusing on emerging practice within the Program. The course content is organized into four units: 1) theoretical frameworks for the provision of occupational therapy services in role-emerging sites; 2) context and service environments that underlie the provision of client-center services at role emerging sites including community supports and services; 3) methods for conducting an occupational performance needs assessment and community assessment for the development of occupational therapy services at emerging practice sites; and 4) discussion concerning selected emerging practice roles for occupational therapists as identified by the American Occupational Therapy Association.

OCTH 543S. EMERGING PRACTICE. 3 Credits.
This course is designed to explore the provision of occupational therapy services within community-based and emerging settings and roles. This course is organized into three areas of content: 1) a focus on the context and theoretical foundations for emerging and community-based practices in the profession of occupational therapy both nationally and internationally, 2) an examination of the processes of program and community development for community-based and emerging roles and services, and 3) an overview of the occupational therapy evaluation and intervention processes for selected practice settings and roles. The course will also include information and discussion about strategies to gain skills relevant to the challenge of developing and delivering services in expanded practice contexts and roles. Diverse professional roles and activities within the occupational therapy scope of practice will be presented.

OCTH 595S. CLINICAL FIELDWORK I. 1 Credit.
Notes: must be repeated four times for a total of 4 credits and is graded Pass/Fail.
The Clinical Fieldwork Level 1 introduces students to the fieldwork experience, integrates application of classroom knowledge to the clinical setting and offers opportunities in developing a therapeutic rapport and understanding the needs of client.

OCTH 599. DIRECTED STUDY. 1-5 Credits.
This course provides the student with a self-selected study experience under the guidance of a preceptor to demonstrate knowledge and/or skills that will enhance the students’ understanding of occupational therapy and occupational performance and provide additional experiences in building life-long learning skills.

OCTH 599S. DIRECTED STUDY. 1-4 Credits.
Independent and directed study.

OCTH 601. OT RESEARCH PROJECT I. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This is the first in a series of three small-group research project courses in which student research groups, established in OCTH 522 Fundamentals of Occupational Therapy Research, will conduct the data gathering phase of their research project. Data collection will be in direct relationship to the research proposals developed in the Fundamentals of Occupational Therapy Research course. Student groups and individuals will be guided by the chair of their master’s degree committee.

OCTH 601S. PROFESSIONAL PROJECT I. 3 Credits.
Notes: graded Pass/Fail.
This is the first in a series of two capstone/research project courses in which students work on projects established in OCTH 522S Research Methods. This is the first in a series of two capstone/research project courses in which students are introduced to research methods and design. This course will also serve as the mechanism by which students select their capstone/research project to be addressed in OCTH 601 and OCTH 602. Students will establish timelines for completion of the capstone/research project which may be done in either group or individual formats.

OCTH 602. OT RESEARCH PROJECT II. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This is the second course in a series of three small-group research projects in which the student research groups, established in OCTH 522 Fundamentals of Occupational Therapy Research, will analyze the data collected in OCTH 601 and synthesize the results into the results section of their research project report.

OCTH 602S. PROFESSIONAL PROJECT II. 3 Credits.
Notes: graded Pass/Fail.
This is the second of two courses in which students will continue to develop and will complete and present their graduate capstone project. In this course students will continue to work with their Graduate Faculty Committee Chair, either individually or in small groups as determined by their capstone/research project selection, to synthesize the ideas and concepts relevant to the capstone/research project. All projects will require the completion of a scholarly report demonstrating effective communication for professional writing. Publication of the reports is highly encouraged. The assignment is to be completed as partial completion of the requirements for the degree of Master of Occupational Therapy.

OCTH 603. OT RESEARCH PROJECT III. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This is the third in a series of research project courses in which small-groups of students are completing their research proposals established in OCTH 522 Fundamentals of Occupational Therapy Research. Students will write their study’s results using APA guidelines and seek final approval for the project from their master’s degree committee. Likewise, group members will prepare presentation formats for their oral comprehensive examinations. Students will be encouraged to present their research findings at the EWU spring Student Research and Creative Works Symposium (optional).
systems applicable to the above topics. Also studies computer-based operations control
inventory control, forecasting, materials requirement planning, PERT/CPM and quality control. Also studies computer-based operations control systems applicable to the above topics.

Certification Examination.

Pre-requisites: admission to the MOT program and successful completion of all coursework in the professional curriculum to this point. This experience is done either on a part time (20 hrs per wk for 12 mos with permission from the Academic FW Coordinator) or fulltime basis (40 hrs per wk for 6 mos). The advanced internship experience is conducted at a clinical and/or community site in which treatment for persons of all ages with physical dysfunction, behavioral and/or mental health disorders affecting occupational performance occurs. The student must complete 2 qtrs (24 wks or 960 hrs) of FW II within 24 mos of completing their professional OT academic program before graduating. The student may elect to enroll in one or two additional quarters of FW II for further experience in an area of special interest. Upon successful completion of the required FW II experience, and graduation with a (MOT), the student will be eligible to sit for the National Certification Examination for the Occupational Therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). Graduates must initially pass the NBCOT exam before practicing as an occupational therapist in the United States. Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. A felony conviction may affect a graduate’s ability to sit for the NBCOT Certification Examination or attain state licensure.

OCTH 695S. CLINICAL FIELDWORK LEVEL II. 8 Credits.
Notes: must be repeated twice for a total of 16 credits and is graded Pass/Fail.
This experience is done on a full-time basis (40 hours per week for six months). The advanced internship experience is conducted at a clinical and/or community site in which treatment for persons of all ages with physical dysfunction, and behavioral and/or mental health disorders affecting occupational performance occurs. The student must complete two semesters (24 weeks or 960 hours) of Fieldwork Level II within 24 months of completing their professional OT academic program before graduating. The student may elect to enroll in one or two additional semesters of FW II for further experience in an area of special interest. Upon successful completion of the required FW II experience and graduation with a Master of Occupational Therapy Degree (MOT), the student will be eligible to sit for the National Certification Examination for the Occupational Therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). Graduates must initially pass the NBCOT exam before practicing as an occupational therapist in the United States. Most states require licensure in order to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination.

Operations Management (OPSM)

OPSM 299. DIRECTED STUDY. 1-15 Credits.

OPSM 330. OPERATIONS MANAGEMENT. 4 Credits.
Pre-requisites: completion of CPLA 100 and CPLA 101 or CPLA 120 and DSCI 245 (or equivalent) and one of the following: MATH 142, MATH 161 or MATH 200.
An integrating study focusing upon the models and methods of production and operations management. Managerial approaches to planning, scheduling and controlling both product and service. Tools include process analysis, plant location, plant layout, capacity planning, inventory control, forecasting, materials requirement planning, PERT/CPM and quality control. Also studies computer-based operations control systems applicable to the above topics.

OPSM 395. INTERNSHIP. 1-5 Credits.

OPSM 398. SEMINAR. 1-5 Credits.

OPSM 399. DIRECTED STUDY. 1-15 Credits.

OPSM 425. SERVICE AND OPERATION ANALYSIS. 4 Credits.
Pre-requisites: OPSM 330.
This integrating course focuses on both service and manufacturing organizations. The course focuses on case studies and applied quantitative techniques for managing the entire operations of a firm. Decision-making is emphasized through computer simulation and interactive discussion of field and textbook case studies.

OPSM 428. GLOBAL SUPPLY CHAIN MANAGEMENT. 4 Credits.
Pre-requisites: senior standing or permission of instructor.
This course examines the actions and values responsible for continuous improvement in the design, development and management process of an organization's supply system. The objective of the course is to understand how to improve the supply system's profitability and ensure its survival as well as the profitability and survival of its customers and suppliers. Global issues and development of supplier relationships are integrated throughout the course material. Cases and field trips are included as appropriate.

OPSM 441. QUALITY MANAGEMENT. 4 Credits.
Pre-requisites: OPSM 330.
This course is a review and application of quality management concepts in public and private enterprises. Both qualitative and quantitative techniques are analyzed. Cases and field trips are included as appropriate.

OPSM 495. PROFESSIONAL INTERNSHIP-OPSM. 1-5 Credits.
Notes: graded Pass/Fail.
Pre-requisites: permission of the instructor, department chair and college dean.

OPSM 498. SEMINAR. 1-5 Credits.

OPSM 499. DIRECTED STUDY. 1-5 Credits.
Prerequisite: permission of the instructor, department chair and college dean

OPSM 598. GRADUATE SEMINAR. 1-5 Credits.

Philosophy (PHIL)

PHIL 210. CRITICAL THINKING. 5 Credits.
Pre-requisites: successful completion of ENGL 101 and pre-university basic skills in mathematics.
Satisfies: GECR for humanities and fine arts, list 3, philosophy and reasoning.
Logic as a tool for the analysis of informal arguments. The course develops techniques for formalizing and testing arguments from everyday life.

PHIL 211. INTRODUCTORY PHILOSOPHY. 5 Credits.
Pre-requisites: successful completion of ENGL 101.
Satisfies: GECR for humanities and fine arts, list 3, philosophy and reasoning.
Some traditional problems about the nature of the world and human knowledge. Typical problems concern the existence of God, personal identity and free will, the relations of minds to bodies and of perception to the external world.
PHIL 212. INTRODUCTORY ETHICS. 5 Credits.
Pre-requisites: successful completion of ENGL 101.
Satisfies: GE CR for humanities and fine arts, list 3, philosophy and reasoning.
An examination of the nature and content of morality. Two questions are central: Is morality based on knowledge or on emotion? Is there a rational motive to act morally?

PHIL 213. MORAL ISSUES IN AMERICA. 5 Credits.
Pre-requisites: successful completion of ENGL 101.
Satisfies: GE CR for humanities and fine arts, list 3, philosophy and reasoning.
An introduction to normative moral issues in current thought and life. Typical problems concern social justice, the relation of work to a person’s concept of himself, manipulation and indoctrination in a technological society and relationships between social success and human flourishing.

PHIL 214. PHILOSOPHICAL VOICES AND POP CULTURE. 5 Credits.
Pre-requisites: ENGL 101.
Satisfies: cultural and gender diversity university graduation requirement.
This course is a thematic survey of several areas of basic philosophical problems. It will combine an examination of philosophical themes in media and popular culture—including fiction, television and cinema—with retrieval of under-represented, diverse voices addressing each thematic area. Themes may include, but are not restricted to: metaphysics, theory of mind and knowledge, aesthetics, ethics and social and political theory.

PHIL 299. INDEPENDENT STUDY. 1-5 Credits.
Independent Study

PHIL 301. INTRODUCTION TO FORMAL LOGIC. 5 Credits.
Pre-requisites: successful completion of ENGL 101 and and MTHD 104 or placement into college-level MATH. PHIL 210 suggested.
Logic as a formal deductive system. The course develops sentential logic and introduces predicate logic. It examines arguments typical of science and mathematics and covers some elementary metatheorems for sentential logic.

PHIL 311. SOCIAL AND POLITICAL PHILOSOPHY. 5 Credits.
Cross listed: HONS 311.
Pre-requisites: successful completion of ENGL 101.
Major political theories and analysis of arguments that attempt to justify actual or proposed political and social institutions.

PHIL 312. PHILOSOPHY OF RELIGION. 5 Credits.
Cross listed: HONS 312.
Pre-requisites: successful completion of ENGL 101.
Philosophical problems with religion and theology. Typical problems concern the existence of God, God’s relation to evil, the immortality of the soul, the meaning of religious language and the criteria for theological verification.

PHIL 320. HISTORY OF ANCIENT WESTERN PHILOSOPHY. 5 Credits.
Cross listed: HONS 320.
Pre-requisites: successful completion of ENGL 101.
The history of Greek philosophy from the first theories about the causes of the universe to the Socratic inquiry about how to live and to Plotinus’ theory of the soul.

PHIL 321. HISTORY OF MODERN WESTERN PHILOSOPHY. 5 Credits.
Cross listed: HONS 321.
Pre-requisites: successful completion of ENGL 101.
16th–18th century European philosophy against the background of religion and science. The main theme is the relation of knowledge to reason and experience.

PHIL 322. HISTORY OF CONTEMPORARY WESTERN PHILOSOPHY. 5 Credits.
Cross listed: HONS 322.
Pre-requisites: successful completion of ENGL 101.
This course is a survey of the major European and American schools of the 19th and 20th century philosophy. Course material includes German idealism, existentialism, utilitarianism, Marxism, pragmatism, feminism, logical positivism and post-modernism.

PHIL 331. CHINESE PHILOSOPHY. 5 Credits.
Cross listed: HONS 331.
Pre-requisites: successful completion of ENGL 101.
Confucius’ humanistic ethics, the naturalistic philosophy of Taoism and Buddhism—especially the Zen Buddhist method of enlightenment.

PHIL 398. SEMINARS ON SELECTED TOPICS. 1-5 Credits.
Pre-requisites: 5 credits of philosophy and successful completion of ENGL 101.

PHIL 400. SPECIAL PERIODS IN THE HISTORY OF PHILOSOPHY. 5 Credits.
Cross listed: HONS 400.
Pre-requisites: successful completion of ENGL 101.
Intensive study of a period in the history of philosophy that is not included in the 320–322 sequence.

PHIL 411. THEORY OF KNOWLEDGE. 5 Credits.
Pre-requisites: 5 credits of philosophy and successful completion of ENGL 101. The nature, grounds, and limits of human knowledge. Topics typical of the course are perception, memory, truth, knowledge of other minds, and the relations among knowing, believing and doubting.

PHIL 417. WOMEN AND ETHICS. 5 Credits.
Cross listed: WMST 417.
Pre-requisites: at least one of the following: WMST 101 or WMST 310 or PHIL 211 or PHIL 212.
Satisfies: cultural and gender diversity university graduation requirement.
The course will begin with a brief examination of the treatment of women within traditional ethics. We will then address the views of early women philosophers, followed by a close analysis of contemporary feminist approaches to ethics.

PHIL 420. QUEER THEORY. 5 Credits.
Cross listed: WMST 420.
Pre-requisites: junior standing.
This course examines the emerging field of queer theory. Queer theory questions the stability of various identity categories, suggesting instead that all performances of sex, gender, and sexuality are influenced by cultural, historical and political factors.

PHIL 435. MAJOR AUTHORS IN THE HISTORY OF PHILOSOPHY. 5 Credits.
Cross listed: HONS 435.
Notes: repeatable for credit with different authors.
Pre-requisites: successful completion of ENGL 101.
Intensive study of a single major philosopher.

PHIL 440. WOMEN AND PHILOSOPHY. 5 Credits.
Cross listed: WMST 440.
Pre-requisites: at least 4 credits in WMST and/or PHIL.
The course offers an examination of the treatment of concepts relating to women and femininity, both by traditional philosophers and by more recent feminist philosophers. The course will address key issues within philosophy while simultaneously exploring the role of gender in the production of philosophical knowledge.
PHIL 445. BIOMEDICAL ETHICS. 5 Credits.
Pre-requisites: ENGL 101.
This course is an examination of a variety of moral theories as well as professional oaths and codes of ethics in order to clarify, analyze and propose solutions to significant contemporary ethical problems in biological research and medical practice. These may include abortion, genetic research on humans, animals and crops, stem cell research, advance directives, end-of-life issues, etc.

PHIL 447. ENVIRONMENTAL ETHICS. 5 Credits.
Pre-requisites: PHIL 212 or PHIL 213 or permission of instructor.
This course is a study of mainstream and alternative moral theories regarding the environment, including the application of these theories towards contemporary environmental problems, such as climate change, pollution, resource depletion, species extinction and land use.

PHIL 490. PHILOSOPHY SENIOR CAPSTONE. 5 Credits.
Pre-requisites: completion of PHIL 301, PHIL 320, PHIL 321 and PHIL 322.
Satisfies: senior capstone university graduation requirement.
In this seminar, the advanced student of philosophy consolidates and synthesizes philosophical scholarship and community-focused, practical application. Working collaboratively, instructor and students relate the theories and methods of public intellectuals and social critics across various disciplines, drawing conclusions about the nature of critical thinking, public argumentation, and social change.

PHIL 496. EXPERIMENTAL COURSE. 1-5 Credits.

PHIL 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

PHIL 498. SEMINARS. 1-5 Credits.

PHIL 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: 10 credits of philosophy and successful completion of ENGL 101; permission of the instructor, department chair and college dean.

Physical Education (PHED)

PHED 120. PE ACTIVITIES. 1 Credit.
Notes: designed primarily for women.
Women’s conditioning classes for varsity sports, volleyball, tennis, basketball, soccer, track, etc.

PHED 125. PE ACTIVITIES. 1 Credit.
Notes: coeducational.
Aerobics, archery, aquacise, aquatic fitness, badminton, basketball, better back program, bicycling, corrective lab, country swing dance, frisbee, fun and fitness, golf, gymnastics, jogging, karate, military conditioning, personal defense, pickleball, progressive weight training, racquetball, running, self-defense, skiing, soccer, softball, social dance, swimming, tennis, trap shooting, triathlon training, volleyball, and walking. Corrective laboratory is offered for those unable to participate in regular activities because of disability.

PHED 130. PE ACTIVITIES. 1 Credit.
Notes: designed primarily for men.
Men’s conditioning classes for varsity sports: baseball, basketball, cross country, football, tennis and track.

PHED 132. KINESIOLOGICAL APPLICATIONS OF HUMAN ANATOMY AND PHYSIOLOGY. 4 Credits.
Offered: Fall This course will provide students with an understanding of the physiological and anatomical basis of human movement. Students will be presented with examples from sports, physical activity, recreation and rehabilitation to enhance their understanding of anatomical structures, their origin, insertion and function.

PHED 135. SPECIALIZED FITNESS ACTIVITIES. 2 Credits.
Includes a group of fitness-based activity classes designed to promote muscular strength and endurance, cardiovascular endurance and flexibility. Programs are developed to meet individual participants’ interests and fitness levels, and activities are conducted at a variety of locations.

PHED 150. FAST FITNESS. 2 Credits.
Comprehensive physical fitness course designed to develop strength, flexibility, and endurance (muscular and cardiovascular) in an effective and efficient manner through use of the EWU Fitness Center. Mandatory orientation and evaluation (pre-testing and post-testing) accompanies the program. Designed to develop baseline fitness levels for all persons with varying fitness levels. Lab.

PHED 151. GROUP EXERCISE. 2 Credits.
Group Exercise involves fitness activities done with music using cardiovascular exercise, muscular strength endurance, and flexibility exercises are used to develop the health related components of physical fitness. Classes may include step training, aerobic kickboxing, yoga for fitness, stability ball training, and muscle pump classes. Emphasis will be placed on improving fitness, having fun, and learning about healthy living.

PHED 152. STRENGTH/WEIGHT TRAINING. 2 Credits.
Strength/weight training provides students an opportunity to develop musculoskeletal fitness based on the scientific principles of resistance training. Assistance will be given to students in developing a program design to meet their fitness goals.

PHED 196. EXPERIMENTAL COURSE. 1-5 Credits.

PHED 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 2 Credits.

PHED 199. DIRECTED STUDY. 1-15 Credits.

PHED 251. MOTOR CONTROL AND LEARNING. 4 Credits.
This course introduces students to the processes that underlie human movement through bridging the gap between research and practice. It provides the necessary tools to build a solid foundation for assessing performance, providing effective instruction, designing practices and training experiences to optimize skill acquisition and performance.

PHED 259. SPORTS FIRST AID AND INJURY PREVENTION. 3 Credits.
This course is designed for those seeking to become coaches in high school, college and university, Olympic and competitive club-sport programs for athletes 14 years of age and older. The primary objective of this course is to introduce the coach to the importance of safety and injury prevention in sport settings.

PHED 260. SPORT SCIENCES FOR COACHING. 3 Credits.
Notes: Leader Level.
Men’s conditioning classes for varsity sports: baseball, basketball, cross country, football, tennis and track. A professional preparation course for coaches designed to acquaint students with basic scientific information needed in coaching.
PHED 261. COACHING SPORTS TECHNICAL AND TACTICAL SKILLS. 3 Credits.
The course is designed for those seeking to become coaches in high school, college and university, Olympic, and competitive club-sport programs for athletes 14 years of age and older. Students will gain a solid understanding of sport-specific technical and tactical skills in order to teach these skills effectively. They will also gain valuable insight on developing practice and season plans and coaching on game day.

PHED 265. INTRODUCTION TO COLLEGE LIFE. 3 Credits.
Notes: only offered fall quarter.
This course is designed to assist EWU freshman and transfer student-athletes in transitioning to Eastern Washington University and to Eagle athletics, developing and improving essential academic, personal health and wellness, and social skills, making connections with the campus and local community as well as becoming oriented with campus resources and facilities and exploring career and academic goals.

PHED 278. COACHING VOLLEYBALL. 3 Credits.
Coaching techniques and strategies in volleyball.

PHED 281. COACHING FOOTBALL. 3 Credits.
Coaching techniques and strategies in football.

PHED 282. COACHING BASKETBALL. 3 Credits.
Coaching techniques and strategies in basketball.

PHED 283. COACHING TRACK. 3 Credits.
Coaching techniques and strategies in track.

PHED 285. COACHING BASEBALL/SOFTBALL. 3 Credits.
This course provides an introduction to coaching techniques and strategies in baseball and softball.

PHED 296. EXPERIMENTAL COURSE. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair. Special studies in physical education. Selected topics vary according to student and faculty interest.

PHED 299. INDIVIDUAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Study of selected problems in physical education.

PHED 301. PERFORMANCE ENHANCEMENT IN SPORT AND PHYSICAL ACTIVITY. 3 Credits.
This course is designed to be a practical, hands-on approach to a broad range of interventions aimed at improving performance in sport and physical activity settings. The focus of the course is on key mental tools (e.g., imagery, goal-setting, relaxation techniques, self-talk) and how they can be applied to facilitate enhancement of the key mental skills such as self-confidence, concentration, controlling emotions and staying optimally motivated. The course material is designed to help all students who are interested in maximizing performance in sport or physical activity.

PHED 333. GROUP EXERCISE /PERSONAL TRAINING. 3 Credits.
This comprehensive course is designed to educate potential group exercise and personal training instructors. The content will include human anatomy, anatomical and mechanical kinesiology, exercise physiology, nutrition, weight control, special populations, fitness testing, health screening, exercise prescription, legal duties and proper handling of emergencies. Students will also gain practical experience in group fitness class instruction and practical experience towards becoming a personal trainer. Upon completion of this course, students will be better prepared to take the ACE national group fitness and personal training certification exams and design a safe and effective class.

PHED 335. STRENGTH AND CONDITIONING PROLAB. 2 Credits.
A professional laboratory course is designed to provide the knowledge and practical experiences necessary for becoming a certified strength and conditioning professional. The focus of the course is on athletic populations.

PHED 336. INDIVIDUAL SPORTS. 2 Credits.
Pre-requisites: HLED 200 and PHED 365 or permission of the instructor.
This course is a physical education course designed to develop skills and progressive methods in teaching individual sports for effective K-12 instruction.

PHED 337. TEAM SPORTS. 2 Credits.
Pre-requisites: HLED 200 and PHED 365 and concurrent with PHED 375 or permission of the instructor
This is a physical education course designed to develop skills and progressive methods in teaching team sports for effective K-12 instruction.

PHED 340. RHYTHMS AND GAMES. 2 Credits.
Pre-requisites: HLED 200 and PHED 365 or permission of the instructor.
This course is designed to develop skills and progressive methods in teaching games using rhythm for effective K-12 instruction. Activities could include dance, movement experiences and games that help develop motor skills.

PHED 341. ELEMENTARY SCHOOL ACTIVITIES. 2 Credits.
Pre-requisites: HLED 200 and concurrent with PHED 365 or permission of the instructor.
This course is designed to develop skills and progressive methods in teaching a wide range of activities appropriate for elementary physical education classes.

PHED 342. LIFELONG LEISURE ACTIVITIES. 2 Credits.
Pre-requisites: HLED 200. This course is designed to develop skills and progressive methods in teaching lifelong leisure activities for effective K-12 instruction. Activities such as road and mountain bicycling, rock climbing, hiking-camping, canoeing, golf, cross-country skiing, orienteering and adventure ropes may be included.

PHED 343. WELLNESS AND FITNESS. 2 Credits.
A physical education course designed to develop skills and progressive methods in teaching wellness and fitness for effective K-12 instruction.

PHED 348. ANATOMICAL/MECHANICAL KINESIOLOGY. 4 Credits.
A study of the structural components of human movement, as well as the study of the laws of physics as they affect human movement. Special attention is given to the analysis of movement.

PHED 349. ANATOMICAL KINESIOLOGY. 4 Credits.
A study of the structural components of human movement. Special attention is given to the analysis of movement.

PHED 350. PHYSIOLOGICAL KINESIOLOGY. 4 Credits.
A study of the functional components of human movements, especially the variables of flexibility, strength and endurance, the cardiovascular system and ergogenic aids.

PHED 352. MECHANICAL KINESIOLOGY. 4 Credits.
This course is concerned with the mechanical principles applied to athletic movements. The information will provide a biomechanical basis for teaching and coaching physical activities. Sports skills will be analyzed and the underlying mechanical principles governing these movements will be identified. A significant amount of mathematical and quantitative calculations will be performed in this course. A final project is required.
PHED 365. GENERAL METHODS AND PROCEDURES FOR PHYSICAL EDUCATION. 3 Credits.
Pre-requisites: HLED 200 and concurrent with PHED 341 or permission of the instructor.
This course is designed to introduce Health and Fitness majors to the general methods and procedures related to conducting physical education classes in elementary and secondary schools.

PHED 366. INTRODUCTION TO SERVICE, CITIZENSHIP AND COMMUNITY. 3 Credits.
Notes: offered spring quarter only.
Pre-requisites: PHED 265 or permission of instructor.
This course is designed to build upon the activities completed in "Introduction to College Life" that make a successful college career while also thinking more deeply about career choices. Furthermore, this course is designed to provide students with an opportunity to engage in a 15-hour service-learning component working with a population or in a program of interest career wise (i.e., coaching, education, public relations, etc.) that will assist them in examining their strengths through the lens on the project.

PHED 367. ENGAGED LEADERSHIP. 3 Credits.
Notes: this class will only be taught summer quarter.
Pre-requisites: PHED 366 or permission of instructor.
This course is designed to assist students in developing their leadership skills. Students build upon the work they performed at their previous service-learning placement by creating a sustainable, capacity building legacy project with the organization. They develop skills for becoming leaders in their fields of study and in their communities.

PHED 370. SPORT AND CULTURE. 4 Credits.
WINTER This course is the study of the interrelationships between sport and culture, including religion, politics, economics, race, arts and science.

PHED 375. ASSESSMENT IN HEALTH AND FITNESS. 3 Credits.
Pre-requisites: HLED 200 and PHED 365 and concurrent with PHED 337 or permission of the instructor.
This course covers the knowledge of commonly used health and fitness assessments in order to analyze K-12 student learning and development, as well as teaching effectiveness.

PHED 390. HEALTH AND PHYSICAL EDUCATION IN THE ELEMENTARY SCHOOLS. 3 Credits.
Pre-requisites: junior standing and a minimum GPA ≥2.0.
Analysis of educationally sound programs and of procedures and practices in the development of basic health and physical education principles in the elementary school.

PHED 393. WATER SAFETY INSTRUCTOR’S COURSE. 3 Credits.
This course is designed to train students to teach the American Red Cross Learn to Swim Program. Prospective students are advised to take Lifeguard Training (PHED 394). Course is conducted to meet the requirements of the American Red Cross Instructor’s course. Certificates are awarded to those who qualify.

PHED 394. LIFEGUARD TRAINING. 3 Credits.
Pre-requisites: 1. Swim 500 yds. continuously, using each of the following strokes for 100 yds. each: front crawl, breaststroke and sidestroke; remaining 200 yds. student’s choice. No time requirement for this skill; 2. Submerge to a minimum of 7 ft. and retrieve a 10 pound object and return with it to the surface. No time requirement for this skill; 3. Tread water for two minutes using legs only. These skills will be tested the first class session.
A nationally certified course for Eastern Washington University students designed to teach lifeguard candidates the skills and knowledge needed to prevent emergencies and respond to aquatic emergencies (Professionalism, Prevention, Aquatic Rescues, CPR for the Professional Rescuer, First-aid and Spinal Injury Management). This course certification (National American Red Cross Lifeguarding) will prepare and qualify students for aquatic employment throughout the United States.

PHED 395. FIELD PRACTICUM. 2 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Course designed to provide a minimum of 20 hours of practicum school experience in teaching physical education or coaching. The student works in an assistant capacity under a master teacher or coach (Elementary or Secondary Level). Journal procedures are planned and evaluated with the university instructor. At least two on-site visits are made by the instructor.

PHED 396. EXPERIMENTAL COURSE. 1-5 Credits.

PHED 399. DIRECTED STUDY. 1-5 Credits.

PHED 452. ADAPTED PHYSICAL EDUCATION. 4 Credits.
Pre-requisites: junior standing or permission of the instructor.
Laws and skills required of Physical Educators for the inclusion of all students with physical, mental, or social disabilities within a least restrictive environment.

PHED 454. MEASUREMENT AND EVALUATION IN HEALTH AND FITNESS. 3 Credits.
Pre-requisites: EDUC 303 or permission of the instructor.
This course assists in developing an understanding of assessment in health and fitness. The issues addressed include the importance of assessment for health and fitness, the components of assessment currently used in health and fitness, the development of personal beliefs about assessment, the matching of assessments to educational objectives, the evaluation of practice in relation to theory, and the need to reflect on actions to make necessary changes.

PHED 461. SPORTS AND EXERCISE PSYCHOLOGY. 3 Credits.
Pre-requisites: junior.
Designed to provide physical education teachers and coaches with information about motivation, communication, stress management, mental imagery and other topics for enhancing instructor-performance relationships and for stimulating improved sport performances.

PHED 490. SENIOR CAPSTONE: HEALTH AND FITNESS. 4 Credits.
Pre-requisites: HLED 365 and PHED 365 and senior standing or permission of the instructor.
Satisfies: senior capstone university graduation requirement.
This comprehensive course is specific to health and fitness knowledge, skills and practical hands-on teaching experience with variable content. Students will develop outlines and lesson plans and practice generic and specific instruction and management skills necessary for effective teaching.
PHED 495. PROFESSIONAL INTERNSHIP. 1-15 Credits.  
Pre-requisites: Permission of the instructor, department chair and college dean. Learning Contract must be on file before the internship commences.  
This course is a full-time working experience with youth in a health and/or fitness promotion program. The experience is under the direction of an health and fitness professional or a person of equivalent training. An approved CEL.

PHED 496. EXPERIMENTAL COURSE. 1-10 Credits.  
A course in the developmental stages.

PHED 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.  
Workshops dealing with specific aspects of physical education are conducted either during the summer or by extension.

PHED 498. SEMINAR. 1-10 Credits.

PHED 499. DIRECTED STUDY. 1-15 Credits.  
Pre-requisites: permission of the instructor, department chair and college dean.  
Study of selected problems in the field of physical education.

PHED 500. INTRODUCTION TO GRADUATE STUDIES. 1 Credit.  
Notes: graded Pass/No Credit.  
The purpose of this class is to introduce students to Eastern Washington University (EWU) and the Physical Education, Health and Recreation (PEHR) graduate school program.

PHED 505. CURRENT ISSUES AND ETHICS. 3 Credits.  
This course is designed to prepare graduate students to make decisions based on the professional ethics and standards of practice.

PHED 506. SOCIO-CULTURAL STUDIES IN PHYSICAL ACTIVITY. 3 Credits.  
An examination of the nature and place of sport in American life and an analysis of the interrelationship between sport and institutions, social systems and culture.

PHED 507. ADMINISTRATION AND MANAGEMENT IN HEALTH AND PHYSICAL EDUCATION. 3 Credits.  
Planning, financing, designing, managing, and administering health, physical education, recreation and athletic facilities and programs.

PHED 508. PSYCHOLOGICAL BEHAVIOR IN SPORT. 3 Credits.  
Pre-requisites: general psychology course.  
An examination of individuals participating in play, games, sports, and their competitive behavior.

PHED 509. ADVANCED PEDAGOGY IN PHYSICAL EDUCATION. 3 Credits.  
Pre-requisites: graduate standing.  
A course detailing methods and procedures to teaching Physical Education classes and coaching athletic teams at all educational levels. The strong focus on advanced technology and methodology emphasizes that proper teaching/coaching procedures and techniques be employed in the instructional process, while allowing varying and personal teaching styles and attitudes to surface.

PHED 510. ADVANCED MOTOR CONTROL AND LEARNING. 3 Credits.  
Provides the student with a comprehensive understanding of how physical movements are controlled and learned. Such an understanding is of practical importance to teachers and coaches of physical performers.

PHED 511. APPLIED SPORT PSYCHOLOGY. 3 Credits.  
Pre-requisites: PHED 508.  
Provides comprehensive overview of applied educational strategies and techniques in sport and exercise psychology. Techniques such as imager, goal setting, self-talk, PRT and autogenies will be discussed as a means to achieve a prospective level of motivation, emotional control, self-confidence and concentration.

PHED 512. MOTIVATION IN SPORT AND EXERCISE. 3 Credits.  
This class is designed to assist physical educators, coaches, recreation specialists, and others interested in sport motivation. Students will be introduced to a broad range of theoretical and applied motivational questions, including investigation of major motivational theories and paradigms, identification of primary motivational antecedents and consequences, as well as discussions on important measurement issues comparing the effectiveness of the most influential intervention strategies for enhancing motivation, and applying the motivational theory to answering critical applied motivational questions in sport and exercise.

PHED 517. SURVEY RESEARCH. 3 Credits.  
The primary purpose of this course is to provide the student with a framework for the systematic evaluation of Physical Education, Exercise Science, and Recreation programs, services, facilities, and administrative functions as well as a basic understanding of the creation, implementation, and descriptive statistical analysis of survey research.

PHED 518. REVIEW OF LITERATURE. 3 Credits.  
Pre-requisites: PHED 505 or permission of instructor.  
Review of research literature to assist the student in identifying areas of research in their discipline.

PHED 519. STATISTICS IN PHYSICAL EDUCATION. 3 Credits.  
Pre-requisites: grades ≥3.0 in any of the following upper-division courses (or equivalent): BADM 503, BADM 561; CSBS 320, DSCI 346; DSCI 449 MATH 380, MATH 485, MATH 486, PHYS 514, PSYC 522, PSYC 532.  
Application, analysis and manipulation of datasets drawn from research in physical education using SPSS and SAS.

PHED 520. RESEARCH METHODS IN PHYSICAL EDUCATION. 3 Credits.  
Pre-requisites: PHED 518 and PHED 519 or permission of the instructor.  
Study of the methods and techniques of research in physical education; practice in application to problems of current interest.

PHED 521. HISTORY AND PHILOSOPHY IN SPORT AND PHYSICAL ACTIVITY. 3 Credits.  
This course is an examination of historical and philosophical issues pertaining to sport and physical activity as it relates to global culture. Topics will include ethics, sportsmanship, gamesmanship, play and cultural influences of sport and physical activity from a historical and philosophical framework.

PHED 522. RISK MANAGEMENT: SPORT AND SCHOOL LAW. 3 Credits.  
This course is a study of legal issues as they relate to athletic administrators, coaches, teachers and sport management personnel in the sporting realm. Students will examine and discuss current legal standards, issues and risk management theories utilizing case law studies, which will provide an understanding of the responsibilities and working knowledge of the law.

PHED 523. PROGRAM PROMOTION AND ADVOCACY. 3 Credits.  
This course is designed to assist students in developing or enhancing their promotional efforts in advocating for their selected program. If you are currently engaged in implementing promotional activities, this class will provide you with an opportunity to enhance your efforts. If you need to start a promotional project, this class will kick-start you.
PHED 524. SPORTS MARKETING. 3 Credits.
This course is a study of sports marketing theories from experience and research, which provides an examination of marketing strategies, plan development, sporting organizational needs and goals, in both the public and private sector of sports business. Students will also reflect upon the influence of licenses, sponsorships, promotions, advertising, broadcasting and sales in the sporting world.

PHED 525. FACILITIES PLANNING, OPERATIONS AND MANAGEMENT. 3 Credits.
This course is designed to provide students with a framework for understanding various aspects of facilities in sport and recreation including: planning, management, design, scheduling, and operations.

PHED 550. ADVANCED BIOMECHANICS. 3 Credits.
An examination of the mechanical aspects of human movement with an emphasis placed on descriptive and causal analysis. Students will perform laboratory projects using force plates, digitization of movement, and electromyography. Undergraduate experience in physics or biomechanics is expected to enroll in this course.

PHED 554. BEHAVIOR CHANGE-THEORY AND PRACTICE. 3 Credits.
This course will provide an overview of various models and theories of behavior change as they relate to wellness. Emphasis will be placed on applying theoretical concepts to facilitate the behavior change process among individuals and groups using a positive psychology approach.

PHED 555. ADVANCED PHYSIOLOGY OF EXERCISE. 3 Credits.
The physiological effects of muscular exercise, physical conditioning, and training along with the significance of these effects on health and physical performance will be discussed. Students are expected to possess a background in undergraduate anatomy and physiology as well as a course in exercise physiology to enroll in this course. Check with your advisor if you are unsure about your preparation for this course.

PHED 556. ADVANCED CLINICAL EXERCISE PHYSIOLOGY. 3 Credits.
The focus of this course will follow the requirements for the American College of Sports Medicine (ACSM) Registered Clinical Exercise Physiologist (RCEP) certification. The content will include how exercise impacts a variety of clinical conditions including cardiovascular, pulmonary, metabolic, orthopedic, musculoskeletal, neuromuscular and immunologic/hematologic systems.

PHED 557. TRAINING, PLANNING AND PERIODIZATION. 3 Credits.
The content of this course will cover classical and modern theories of periodization as a means of maximizing performance in sport. Planning sports training in terms of the physical, technical, tactical, psychological, and theoretical domains will be discussed in depth from the career level to the individual training lesson.

PHED 595. GRADUATE INTERNSHIP. 1-15 Credits.

PHED 596. EXPERIMENTAL COURSE. 1-6 Credits.

PHED 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-6 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

PHED 598. SEMINAR. 1-10 Credits.
Seminars dealing with special aspects of physical education.

PHED 599. INDEPENDENT STUDY. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

PHED 600. THESIS. 1-9 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
PHTH 503. CLIN ANATOMY/PHYSIOLOGY III. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course is the third of three focusing on the structure of the human body and its related function. This course is designed to provide the student with an opportunity to learn anatomical structures and the functional relationships of the structures to each other. The major emphasis of this course will be structures contained in the head and neck, the thoracic cavity, the abdomen and the pelvis. The physiology of the special senses of taste, smell, sight, and hearing will be discussed. The physiology of the cardiovascular system including the heart and circulatory system, of the lungs and the pulmonary system, and of the lungs and the pulmonary systems, and of the gastrointestinal system will be discussed in relation to the function of the anatomical structures studied during the course.

PHTH 533. FUNCTIONAL ANATOMY I. 5 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the first of two courses which focus on the study of human motion with emphasis on biomechanics and functional anatomy and their relationship to the fundamental understanding of exercise concepts and musculoskeletal evaluation with application to the practice of Physical Therapy. Studies will include the osteokinematics, arthrokinematics and assessment of accessory joint movements of the upper and lower extremities. Musculoskeletal evaluation will focus on manual muscle testing, goniometry and surface anatomy to include palpation.

PHTH 534. FUNCTIONAL ANATOMY II. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the second of two courses which focus on the study of human motion with emphasis on biomechanics and functional anatomy and their relationship to the fundamental understanding of exercise concepts and musculoskeletal evaluation with application to musculoskeletal dysfunction. Studies will include the osteokinematics, arthrokinematics and assessment of accessory joint movements of the spine and temporomandibular joint. Musculoskeletal evaluation of the spine and head will include manual muscle testing, goniometry, palpation of surface anatomy structures, and posture with reference to the whole body.

PHTH 536. PT PRACTICE SEMINAR I. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course examines the professional role of the physical therapist, the American Physical Therapy Association, the history of the profession, Standards of Practice, the Code of Ethics, licensure issues, current issues facing the physical therapy practitioner and the law related to physical therapy.

PHTH 538. THERAPEUTIC EXERCISE AND INTERVENTIONS. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course includes concepts and practice with therapeutic exercise and interventions, including passive, active assistive, active and resistive range of motion, strengthening programs, stretching exercises, mobilization techniques for the extremity joints, relaxation exercises and gait training. Students will develop and write home programs, design exercise programs for therapeutic purposes, and critically analyze interventions.

PHTH 540. PRIN EVIDENCE-BASED PRACTICE I. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the first of three courses designed to introduce the student to evidence-based practice and the process of critical inquiry. These courses will prepare the student to become a knowledgeable consumer of research and the professional literature as it relates to the practice of physical therapy. In this course the student will develop competence in identifying, locating, retrieving, understanding and applying the principles of research to the practice of physical therapy.

PHTH 541. PRINCELES OF EVIDENCE-BASED PRACTICE II. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the second of three courses designed to introduce the student to evidence-based practice and the process of critical inquiry. These courses will prepare the student to become a knowledgeable consumer of research and the professional literature as it relates to the practice of physical therapy. In this course the student will develop an understanding of research design, research methods and statistical applications related to critical inquiry in physical therapy.

PHTH 542. PRIN EVIDENCE-BASED PRACT III. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the second of three courses designed to introduce the student to evidence-based practice and the process of critical inquiry. These courses will prepare the student to become a knowledgeable consumer of research and the professional literature as it relates to the practice of physical therapy. In this course the student will develop an understanding of outcome measures used in physical therapy to document effectiveness and efficacy of clinical practice. Students will develop oral presentation skill through the preparation and presentation of a group project on a specific outcome measure.

PHTH 546. INTEGUMENTARY THERAPEUTICS. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course provides the student with classroom discussion and laboratory experiences on the physiological bases for and clinical applications for physical therapy interventions applied to the integumentary system. These include massage, superficial and deep heat, ultraviolet radiation, cryotherapy, aquatic therapy, hydrotherapy, and basic wound management. Foundational client management skills such as positioning, draping, transfers, universal precautions and examination of vital signs are also included.

PHTH 547. PROFESSIONAL DEVELP SEMINAR. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The purpose of this seminar is to provide students with opportunities to explore the responsibilities and behaviors expected of the physical therapist and to assess their own progress toward professional development. Included are presentations by master clinicians, and group discussions with experts to explore issues of professional development.
PHTH 553. EDUCATIONAL ASPECTS OF PT. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course will introduce the student to the role of the physical therapist as an educator. The course includes theories of teaching and learning, the importance of learning styles, behavioral objectives, evaluation of teaching, motivation and compliance, and adult learners. The differences in educating multicultural patient populations will be discussed. Clinical teaching will be done in role-playing situations. Students will prepare and present a teaching unit to a community group.

PHTH 554. DIAGNOSIS IN PHYSICAL THERAPY. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course will introduce students to screening for referral in physical therapy practice, with particular emphasis on the patient interview process and using health history as a screening tool. The course will provide an overview of review of systems and screening for disease to facilitate the students’ knowledge of signs and symptoms that mimic neuromusculoskeletal conditions, and warrant referral to a primary care provider. Fundamentals of musculoskeletal imaging will be introduced relative to the screening process.

PHTH 561. CLINICAL EDUCATION SEMINAR I. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the first of six clinical education seminars. The purpose of these seminars is to prepare students for the clinical internships. Included in Clinical Education Seminar I are an introduction to the clinical education program, procedures for internship site selection, introduction to the generic abilities and education in the Occupation Health and Safety Administration requirements.

PHTH 562. CLINICAL EDUCATION SEMINAR II. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the second of six clinical education seminars. The purpose of these seminars is to prepare students for the clinical internships. Included in Clinical Education Seminar II are discussions on clinical education, the generic abilities and AIDS education.

PHTH 563. CLINICAL EDUCATION SEMINAR III. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the third of six clinical education seminars. The purpose of these seminars is to prepare students for the clinical internships. Included in Clinical Education Seminar III are discussions of the role of the clinical instructor, characteristics of an effective clinical instructor and an effective student, the clinical performance instrument and cardiopulmonary resuscitation.

PHTH 569. HEALTH CARE SYSTEMS I. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course is the first of two courses that address health care delivery issues. This course explores and compares models of health care systems. Included are the issues of managed care, multiprovider systems, marketing, availability and accessibility of health care.

PHTH 571. NEUROSCIENCE. 5 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The structure and function of the central nervous system are presented in this foundational course in physical therapy. The relationships between the somatosensory system, spinal cord and brainstem reflexes, and motor systems are presented. Students will also learn how the CNS develops, and the consequences of malformation of the CNS during development. Clinical signs and symptoms of specific CNS pathology will be presented, and related to patients with movement disorders that receive physical therapy services.

PHTH 572. APPLIED NEUROSCIENCE. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course provides the student with the opportunity to apply principles of neuroscience, anatomy, and biomechanics to the control of sensation, posture and balance, motor control in disordered systems, and motor learning. Students will learn to perform clinical sensory, reflex, and cranial examinations, examinations of posture, balance, spasticity and rigidity. Students will also learn to apply selected physical therapy interventions directed at modulation of the sensory and motor systems.

PHTH 576. PHARMACOLOGY. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The course provides a basic knowledge of pharmacology for the physical therapist in order to incorporate the effects of drugs into an appropriate design and implementation of the patient care process.

PHTH 581. CLINICAL INTERNSHIP I. 5 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
Clinical Internship I consists of a full time educational experience in a clinical setting for 5 (five) weeks during summer quarter of the first year of the DPT Program. The primary purposes are to gain experience with examination, evaluation and intervention skills learned in the first academic year, practice and demonstrate developing level behavioral criteria in the generic abilities and interact with patients and health care professionals in the clinical environment.

PHTH 596. EXPERIMENTAL COURSE. 1-8 Credits.

PHTH 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-8 Credits.
Workshop credit cannot be used to fulfill degree requirements.

PHTH 599. INDEPENDENT STUDY. 1-8 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: permission of the instructor and department chair.
Independent Study.

PHTH 616. MUSCULOSKELETAL SYSTEMS I. 5 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course is the first of three on examination, evaluation, and intervention of the musculoskeletal system. Content includes, but is not limited to, fundamental orthopedic principles, scanning examinations; diagnosis and intervention of clients with musculoskeletal conditions of the cervical spine, thoracic spine/rib and shoulder, and musculoskeletal imaging, fractures, and bone pathology. Emphasis is on differential diagnosis, clinical decision making, and interventions such as region specific manual therapy (e.g., mobilization, manipulation, muscle energy), therapeutic exercise, therapeutic modalities and orthotics.
PHTH 617. MUSCULOSKELETAL SYSTEMS II. 5 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course is the second of three on examination, evaluation and intervention of the musculoskeletal system. Content includes, but is not limited to, scanning examinations; diagnosis and intervention of clients with musculoskeletal conditions of the elbow, wrist/hand, lumbar sacral spine, hip and knee; and musculoskeletal imaging, fractures and bone pathology. Emphasis is on differential diagnosis, clinical decision making and interventions such as region specific manual therapy (e.g., mobilization, manipulation, muscle energy), therapeutic exercise, therapeutic modalities and orthotics.

PHTH 618. MUSCULOSKELETAL SYSTEMS III. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course is the third of three on examination, evaluation and intervention of the musculoskeletal system. Content includes, but is not limited to, diagnosis and intervention of clients with musculoskeletal conditions of the ankle/foot, acroiliac, craniovertebral region and temporomandibular regions; musculoskeletal imaging, fractures and bone pathology; special topics in spinal manipulation. Emphasis is on differential diagnosis, clinical decision making and interventions such as region specific manual therapy (e.g., mobilization, manipulation, muscle energy), therapeutic exercise, therapeutic modalities and orthotics.

PHTH 626. NEUROMUSCULAR SYSTEMS I. 5 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course utilizes a patient-centered, case study approach to teach students patient management skills for people with neurological medical diagnoses. The course focuses on the physical therapy examination, evaluation, diagnosis, prognosis and intervention processes for patients across the continuum of care, with a focus on the inpatient rehabilitation setting. Approaches for patients with traumatic brain injury, cerebrovascular accident, spinal cord injury, and degenerative diseases, tumors or infections of the central nervous system will be considered.

PHTH 627. NEUROMUSCULAR SYSTEMS II. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course utilizes a patient-centered approach to teach students patient management skills for people with neurological medical diagnoses. The course will focus on the physical therapy examination, evaluation, diagnosis, prognosis and intervention processes for patients across the continuum of care, with a focus on higher levels of medical acuity (Neuro Intensive Care Unit) and long term acute care settings. Approaches for patients with complex medical diagnoses, safe intervention progression, handling complications and effects of functional limitations on other systems, and consideration of technology and specific equipment needs will be considered.

PHTH 628. NEUROMUSCULAR SYSTEMS III. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course utilizes a client-centered (case study) approach to provide the student with the knowledge and skills to manage a pediatric client with a disability. Theories of motor development, motor milestones and standardized assessments will be studied to provide a basis for understanding movement dysfunction in children with disabilities.

PHTH 634. EXERCISE PHYSIOLOGY. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
Study of the acute and chronic effects of exercise and work on the human body with emphasis on the processes that control and regulate important properties of living systems. Topics including the fundamentals of human energy, nutrition, measurement of human energy expenditure, the cardiovascular system, the pulmonary system, the neuromuscular system, hormone factors affecting physiological function, body composition and the effects of aging will be studied. The application of exercise for fitness and wellness in the practice of Physical Therapy will be emphasized.

PHTH 635. CARDIOPULMONARY SYSTEMS. 4 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course utilizes a client-centered (case study) approach to provide the student with the knowledge and skills to manage a client with cardiac and/or pulmonary system pathology. This course includes but is not limited to the care of clients with angina pectoris, coronary artery disease, congestive heart failure, mitral valve stenosis, myocardial infarction, post-coronary artery bypass graft surgery, heart and heart/lung transplantation, chronic obstructive pulmonary disease, bronchitis, cystic fibrosis, asthma, restrictive lung disease, pneumonia, atelectasis, pneumothorax, hemothorax, and pulmonary embolus.

PHTH 636. PT PRACTICE SEMINAR II. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The role of physical therapy in health care will be discussed. Speakers will present information on health care delivery, contrasting urban and rural areas. Community agencies, clinical decision making/ethics, and the role of other health care professionals will be introduced. Leadership/Advocacy issues will be addressed as they relate to these topic areas.

PHTH 639. TOPICS IN PHYSICAL THERAPY. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This course will provide the student with opportunities to explore specific topic areas in depth using the four practice patterns described in the Guide to Physical Therapist Practice: musculoskeletal, neuromuscular, cardiopulmonary, and integumentary patterns. Specific course content will be offered in a variety of practice arenas to provide the participant with an opportunity to increase knowledge and skills in physical therapy practice. The behaviors and attitudes expected at the doctoral level will also be addressed.

PHTH 641. MULTIPLE SYSTEMS. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The course applies an analytical approach to the treatment of patients/ clients with multiple systems involvement and requires integration of aspects of learning from previous courses. Emphasis is placed on comprehensive case study management of clients with psychiatric disorders, immunologic disorders, cancer, eating disorders, women’s health problems, complex medical problems, metabolic disorders, hematologic disorders, and medical emergencies. The topic of wellness is also explored.
PHTH 646. INTEGUMENTARY SYSTEMS. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This patient-centered course provides the student with the knowledge and skills to examine, evaluate, provide interventions and evaluate outcomes for patients/clients with peripheral vascular disease, or integumentary system (wound) disorders or complications, and patients with amputations secondary to diabetes, peripheral vascular disease, complications from wounds, or other etiologies who require rehabilitation including prosthetic evaluation and training.

PHTH 661. CLINICAL EDUCATION SEMINAR IV. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the fourth of six clinical education seminars. The purpose of these seminars is to prepare students for the clinical internships. Included in Clinical Education Seminar IV are discussions on the first clinical internship, the generic abilities, student responsibilities, communication, professional behavior and internship expectations.

PHTH 662. CLINICAL EDUCATION SEMINAR V. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the fifth of six clinical education seminars. The purpose of these seminars is to prepare the students for the clinical internships. Included in Clinical Education Seminar V are active learning opportunities with physical therapist assistant students, chart review, discussion on professionalism and goal writing.

PHTH 663. CLINICAL EDUCATION SEMINAR VI. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the sixth of six clinical education seminars. The purpose of these seminars is to prepare students for the clinical internships. Included in Clinical Education Seminar VI are the selections for clinical internships, discussion of expectations and the syllabi for the ten-week internships, discussions of legal and ethical issues that may occur during clinical internships and participation in a team conference on a case-based patient.

PHTH 665. PHYSICAL THERAPY ADMIN. 3 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
Upon completion of this course, the student will be able to develop, administer and manage a physical therapy practice, utilizing the human and material resources available, for effective delivery of services.

PHTH 669. HEALTH CARE SYSTEMS II. 3 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The student must successfully complete all course work each quarter to progress to the next quarter in the curriculum. This is the second of two courses related to the delivery of health care services, specifically physical therapy services. This course focuses on professional development, financial, legal and humanitarian issues, and service as a professional expectation.

PHTH 675. CLINICAL RESEARCH I. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the first of four courses designed to guide the student through the process of contributing to the body of knowledge in physical therapy through the preparation of clinical case reports. In this course, students will prepare a case report based upon the case history of a patient they provided intervention to during Clinical Internship I. Students will work with faculty mentors to prepare the case report and will present the case report to faculty and clinicians in a platform format presentation.

PHTH 670. GERIATRICS. 2 Credits.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
The course will provide physical therapist students with opportunities to discuss the demographics and theories of aging, examine personal attitudes on aging, contrast normal and pathological aging in patients presented from long term care facilities and the community, design a physical therapy plan of care, and create an exercise program for an elderly client.

PHTH 770. CLINICAL RESEARCH II. 3 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the second of four courses designed to prepare the student to participate in clinical research in the field of physical therapy. In this series of courses students will prepare a multiple case report, based upon patients they identified during their full-time clinical internships. Students will work with an assigned faculty mentor to prepare a written multiple case report. Students will present their multiple case reports to a committee of faculty members as part of their final project.

PHTH 771. CLINICAL RESEARCH III. 3 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the third of four courses designed to prepare the student to participate in clinical research in the field of physical therapy. In this series of courses students will prepare a multiple case report, based upon patients they identified during their full-time clinical internships. Students will work with an assigned faculty mentor to prepare a written multiple case report. Students will present their multiple case reports to a committee of faculty members as part of their final project.

PHTH 772. CLINICAL RESEARCH IV. 3 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: all courses in physical therapy are restricted to students accepted into the program.
This is the fourth of four courses designed to prepare the student to participate in clinical research in the field of physical therapy. In this series of courses students will prepare a multiple case report, based upon patients they identified during their full-time clinical internships. Students will work with an assigned faculty mentor to prepare a written multiple case report. Students will present their multiple case reports to a committee of faculty members as part of their final project.
PHYS 100. PHYSICAL SCIENCE I. 5 Credits.
Pre-requisites: pre-university basic skills in mathematics.
Satisfies: a GECR for natural sciences, physics.
Course covers the elementary aspects of physical science and astronomy. It operates in an informal laboratory mode with ample opportunity for discussion and individual assistance. No mathematics beyond basic arithmetic is used.

PHYS 115. INVESTIGATING PHYSICAL SCIENCE. 5 Credits.
Pre-requisites: MATH 211.
Satisfies: a GECR for natural sciences, physics.
For students planning to teach elementary school. Includes inquiry based physical science investigations that support science instruction outlined in the National Science Education Standards and Washington Essential Academic Learning Requirements.

PHYS 121. DESCRIPTIVE ASTRONOMY. 5 Credits.
Pre-requisites: pre-university basic skills in mathematics.
Satisfies: a GECR for natural sciences, physics.
This course follows the development of astronomy from the earth-centered model of the early Greeks through the sun-centered model of Copernicus to the modern dynamic model of the universe incorporating the known laws of physics in its description. Topics covered in this development include a study of the solar system and a brief description of the physical laws used in astronomy. Additional topics such as distances, motions properties and evolution of stars lead to a study of galaxies, the structure of the universe and to modern cosmological models. Laboratory activities include naked-eye observation and measurement, planetarium sessions, Celestial Globe activities, computer simulations, as well as experiments in optics, spectra and the use of telescopes.

PHYS 131. INTRODUCTORY PHYSICS I. 4 Credits.
Notes: Each course consists of 4 credits of lecture and 1 credit of required instrumentation laboratory.
Pre-requisites: MATH 142, concurrent enrollment in PHYS 161 for PHYS 131 is recommended, PHYS 131 for PHYS 132, and PHYS 132 for PHYS 133.
Satisfies: The completion of PHYS 131, PHYS 161 satisfies the GECR for natural sciences, physics; counts as one course. The completion of PHYS 131, PHYS 132, PHYS 161, plus any one of the following: PHYS 162, PHYS 163, PHYS 164 satisfies the GECR for natural sciences, physics; counts as two courses.
These courses are designed primarily for science students with mathematical preparation through algebra and trigonometry. No calculus is used. The topics covered are PHYS 131—kinematics, dynamics, conservation of momentum and energy and simple harmonic motion; PHYS 132—sound/waves, heat/thermo-dynamics, geometric optics; PHYS 133—electricity and magnetism, physical optics, modern physics.

PHYS 132. INTRODUCTORY PHYSICS II. 4 Credits.
Notes: Each course consists of 4 credits of lecture and 1 credit of required instrumentation laboratory.
Pre-requisites: MATH 142, concurrent enrollment in PHYS 161 for PHYS 131 is recommended; PHYS 131 for PHYS 132; and PHYS 132 for PHYS 133.
Satisfies: The completion of PHYS 131, PHYS 161 satisfies the GECR for natural sciences, physics; counts as one course. The completion of PHYS 131, PHYS 132, PHYS 161, plus any one of the following: PHYS 162, PHYS 163, PHYS 164 satisfies the GECR for natural sciences, physics; counts as two courses.
These courses are designed primarily for science students with mathematical preparation through algebra and trigonometry. No calculus is used. The topics covered are PHYS 131—kinematics, dynamics, conservation of momentum and energy and simple harmonic motion; PHYS 132—sound/waves, heat/thermo-dynamics, geometric optics; PHYS 133—electricity and magnetism, physical optics, modern physics.
PHYS 133. INTRODUCTORY PHYSICS III. 4 Credits.
Notes: Each course consists of 4 credits of lecture and 1 credit of required instrumentation laboratory.
Pre-requisites: MATH 142, concurrent enrollment in PHYS 161 for PHYS 131 is recommended; PHYS 131 for PHYS 132; and PHYS 132 for PHYS 133.
Satisfies: The completion of PHYS 131, PHYS 161 satisfies the GECR for natural sciences, physics; counts as one course. The completion of PHYS 131, PHYS 132, PHYS 161, plus any one of the following: PHYS 162, PHYS 163, PHYS 164 satisfies the GECR for natural sciences, physics; counts as two courses.
These courses are designed primarily for science students with mathematical preparation through algebra and trigonometry. No calculus is used. The topics covered are PHYS 131—kinematics, dynamics, conservation of momentum and energy and simple harmonic motion; PHYS 132—sound/waves, heat/thermo-dynamics, geometric optics; PHYS 133—electricity and magnetism, physical optics, modern physics.
PHYS 151. GENERAL PHYSICS I. 4 Credits.
Notes: the completion of PHYS 151, PHYS 161 satisfies the GECR for natural sciences, physics; counts as one course.
Pre-requisites: Concurrent enrollment in MATH 161. Concurrent enrollment in PHYS 161 is recommended.
Part of a four-quarter beginning sequence (PHYS 151, PHYS 152, PHYS 153, PHYS 221) suitable for all students of natural science and mathematics. Topics covered include: one and multi-dimensional kinematics and dynamics, energy and momentum and oscillations.
PHYS 152. GENERAL PHYSICS II. 4 Credits.
Notes: the completion of PHYS 151, PHYS 152, PHYS 161, plus any one of the following: PHYS 162, PHYS 163, PHYS 164 satisfies the GECR for natural sciences, physics; counts as two courses.
Pre-requisites: PHYS 151 and concurrent enrollment in MATH 162. Part of a four-quarter beginning sequence (PHYS 151, PHYS 152, PHYS 153, PHYS 221) suitable for all students of natural science and mathematics. Topics covered include: rotational motion, gravity, fluids, waves and thermodynamics.
PHYS 153. GENERAL PHYSICS III. 4 Credits.
Pre-requisites: PHYS 152 and concurrent enrollment in MATH 163. Part of a four-quarter beginning sequence (PHYS 151, PHYS 152, PHYS 153, PHYS 221) suitable for all students of natural science and mathematics. Topics covered include: electrostatics, direct current circuit theory, magnetism and geometric optics.
PHYS 161. MECHANICS LABORATORY. 1 Credit.
A laboratory course in mechanics, including one-dimensional motion, motion in a plane, dynamics, conservation of energy and momentum, and oscillating motion.
PHYS 162. HEAT AND OPTICS LABORATORY. 1 Credit.
A laboratory course suitable for use with either Introductory and General Physics. Experiments in optics include reflection and refraction, lenses and mirrors, microscopes and telescopes, optical spectra and microwave optics. Experiments in heat include heat and temperature, thermal expansion, mechanical and electrical equivalents of heat and a study of gas laws.
PHYS 163. INSTRUMENTATION LAB I. 1 Credit.
This laboratory emphasizes the use of electronic instruments in the measurement of physical quantities.
PHYS 164. INSTRUMENTATION LAB II. 1 Credit.
This laboratory emphasizes the use of electronic instruments in the measurement of physical quantities.
PHYS 395. CO-OP FIELDWORK. 1-5 Credits.
PHYS 396. EXPERIMENTAL COURSE. 1-6 Credits.
PHYS 401. ELECTROMAGNETISM I. 4 Credits.
    Pre-requisites: MATH 163, PHYS 221.
    A study of electric forces, fields, potentials, dielectric behavior, currents, magnetic forces, and electromagnetic waves.
PHYS 402. ELECTROMAGNETISM II. 4 Credits.
    Pre-requisites: MATH 163, PHYS 221.
    A study of electric forces, fields, potentials, dielectric behavior, currents, magnetic forces, and electromagnetic waves.
PHYS 403. ELECTROMAGNETISM III. 4 Credits.
    Pre-requisites: MATH 163, PHYS 221.
    A study of electric forces, fields, potentials, dielectric behavior, currents, magnetic forces, and electromagnetic waves.
PHYS 411. CLASSICAL THERMODYNAMICS. 3 Credits.
    Pre-requisites: PHYS 153, MATH 163.
    Introduction to elementary thermodynamics; first, second and third laws of thermodynamics; ideal gases; and kinetic theory.
PHYS 424. ASTROPHYSICS. 4 Credits.
    Pre-requisites: PHYS 153, MATH 163.
    Application of the physical principles of mechanics, fluid dynamics, thermodynamics, electromagnetism, optics, and relativity within the astronomical contexts of observational techniques/instrumentation, planetary science, stellar structure/evolution, galactic/extragalactic structure, and cosmology. Computer-based laboratory exercises in orbital motions, rotational motion, photometry, and spectroscopy are included.
PHYS 431. SOLID STATE DEVICES PHYSICS. 3 Credits.
    Pre-requisites: MATH 163, PHYS 221.
    A course dealing with crystalline semiconductors, carrier transport generation and recombination, p-n junctions, metal-semiconductor junctions, microwave devices, photonic devices like solar cells and semiconductor lasers.
PHYS 441. SOLID STATE PHYSICS. 3 Credits.
    Pre-requisites: PHYS 431.
    A course dealing with the quantum properties of electrons in solids, mechanisms of electron and hole conduction, and the theory of operation of solid state devices.
PHYS 451. OPTICS. 4 Credits.
    Pre-requisites: MATH 163, PHYS 153.
    A study of the nature of light and its applications, with emphasis on physical optics and the electromagnetic wave theory of light. Topics selected from modern optics include Fourier optics, basics of coherence theory, and aspects of the quantum nature of light.
PHYS 461. NUCLEAR PHYSICS. 3 Credits.
    Pre-requisites: PHYS 381.
    A continuation of PHYS 381 which deals with properties of the nucleus, laws of radioactivity, nature of radiation, nuclear, X- and gamma rays, and nuclear reactions.
PHYS 495. INTERNSHIP. 1-5 Credits.
    Prerequisite: permission of the instructor, department chair and college dean
PHYS 496. EXPERIMENTAL COURSE. 1-5 Credits.
PHYS 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-6 Credits.
PHYS 498. SEMINAR. 1-2 Credits.
PHYS 499. DIRECTED STUDY. 1-5 Credits.
    Prerequisite: permission of the instructor, department chair and college dean
PHYS 596. SPECIAL TOPICS. 1-5 Credits.
PHYS 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
PHYS 598. SEMINAR. 1-5 Credits.
PHYS 599. INDEPENDENT STUDY. 1-5 Credits.
PHYS 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.

Planning (PLAN)

PLAN 100. THE CITY. 5 Credits.
    Surveys the nature of transformations of cities during the course of their evolution from preindustrial to industrial to the postindustrial cities of today, and explains the factors that have contributed to these transformations.
PLAN 201. INTRODUCTION TO URBAN AND REGIONAL PLANNING. 5 Credits.
    This lecture/discussion course uses a historical context to introduce the concepts, theories and applications of urban and regional planning.
PLAN 261. COMMUNITY DEVELOPMENT. 5 Credits.
    Applied studies of the process of community development emphasizing the interactive roles of citizens, community officials and planners.
PLAN 271. PROFESSIONAL PRACTICE. 2 Credits.
    This course provides new majors a general overview of the practice of planning through discussion with planning practitioners and guided student activities.
PLAN 296. EXPERIMENTAL COURSE. 1-10 Credits.
PLAN 300. PLANNING PRESENT TECHNIQUES. 5 Credits.
    Introduces the written, oral and graphic presentation techniques common to the planning profession.
PLAN 301. PLANNING METHODS AND TECHNIQUES. 5 Credits.
    Pre-requisites: PLAN 201.
    This course develops specific skills and techniques in the collection, analysis and interpretation of data commonly used in planning.
PLAN 302. CENSUS AND PLANNING. 2 Credits.
    This course introduces students to census data and their application to planning research and provides background for demographic and other data useful in describing urban places.
PLAN 375. TRIBAL PLANNING. 3 Credits.
    Presents an overview of Native American community and culture, the history of tribal government and its contemporary structures, and the applications of planning techniques to Native American communities. Emphasizes identifying appropriate planning techniques which promote tribal self-determination and preserve tribal sovereignty.
PLAN 395. INTERNSHIP. 1-10 Credits.

PLAN 396. EXPERIMENTAL COURSE. 1-10 Credits.

PLAN 398. SEMINAR. 1-5 Credits.

PLAN 402. PLANNING IMPLEMENTATION. 5 Credits.
Pre-requisites: PLAN 201.
A survey of zoning, subdivision regulations and other tools used to implement public plans and policies. Introduces students to the administrative practices associated with the planning implementation process.

PLAN 403. COMMUNITY FACILITIES PLANNING. 5 Credits.
An examination of the issues and techniques associated with planning, budgeting and programming for community infrastructure such as sewer and water systems.

PLAN 406. PLANNING LAW AND LEGISLATION. 5 Credits.
Pre-requisites: PLAN 201 or permission of instructor.
Reviews the constitutional, statutory and case law governing public planning and regulatory activities, with specific emphasis on the legal aspects of regulating private lands to further public objectives and Washington state law.

PLAN 421. TRIBAL TRANSPORTATION PLANNING. 3 Credits.
This course introduces planning students and tribal members to the issues of transportation planning on Native American reservations.

PLAN 422. TRIBAL ECONOMIC DEVELOPMENT. 3 Credits.
This course provides an understanding of tribal economic development for tribal governments and how it is carried out by planners, economic development specialists and tribal leaders.

PLAN 424. STRATEGIC PLANNING. 4 Credits.
Pre-requisites: junior standing.
This course presents an overview of strategic planning process components in public, private and government organizations. Components explored include mission, vision and value review, environmental analysis, identification of assumptions and premises, internal assessment, customer/market analysis both internal and external, critical strategic issues and plan operationalizing.

PLAN 430. ENVIRONMENTAL PLANNING. 5 Credits.
Surveys the philosophy and techniques of environmental planning, emphasizing an understanding of why environmental considerations should be incorporated into land use planning activities and developing skills needed to carry out an environmental analysis.

PLAN 431. ENVIRONMENTAL IMPACT STATEMENTS. 3 Credits.
Pre-requisites: PLAN 430 or permission of the instructor.
Individual and team field work in the preparation of environmental impact statements. A review of state and federal environmental legislation and procedural requirements.

PLAN 440. LAND USE PLANNING. 5 Credits.
Pre-requisites: PLAN 300, PLAN 301 and PLAN 430.
Explores the issues and methods of analyzing and organizing land uses in urban and regional environments by balancing the demand for uses with the environmental conditions that limit the supply of the land.

PLAN 441. SITE PLANNING. 5 Credits.
Pre-requisites: PLAN 430 or permission of the instructor.
A studio course in the application of site planning methods and principles to subdivision and site development.

PLAN 442. SUSTAINABLE COMMUNITIES. 3 Credits.
This course examines the case for sustainable urban and rural development and explores examples of efforts to create sustainable development.

PLAN 445. LAND DEVELOPMENT. 3 Credits.
A seminar in the financial feasibility analysis and packaging of land development projects with emphasis on the private land development process and its interaction with the public planning processes. 

PLAN 446. DEVELOPMENT REVIEW. 3 Credits.
Pre-requisites: PLAN 201 or permission of instructor.
This practice oriented course guides the student through the process of development review at the local level.

PLAN 450. TRANSPORTATION PLANNING. 5 Credits.
A lecture/studio class that explores the procedural and conceptual transportation planning process, including a framework for addressing system characteristics, institutional arrangements, theories of travel, supply and demand, selected forecasting models, and interactions with land use and other urban systems.

PLAN 451. WALKABLE COMMUNITIES. 2 Credits.
This course explores the relationship between urban form and pedestrian activity and the utility of having communities that are accessible and pedestrian friendly.

PLAN 457. SPECIAL TOPICS IN TRANSPORTATION. 2 Credits.
A workshop introducing knowledge and skills related to selected issues in transportation planning and policy. Topics vary each year. Recent topics included rural transportation planning, transportation of hazardous materials, and pedestrian and bicycle planning.

PLAN 460. URBAN DESIGN. 3 Credits.
This seminar explores the theory and techniques of analysis of the design of urban environments, emphasizing the impact local decision-making has on community aesthetics.

PLAN 465. HISTORIC PRESERVATION PLANNING. 3 Credits.
Pre-requisites: junior standing.
Presents the issues, policies and methods for preserving historic properties as a means for ensuring the longevity of the artifacts of our public heritage.

PLAN 466. MAIN STREET PLANNING. 2 Credits.
Pre-requisites: junior standing.
This class uses the Main™ Street model to inform students about a process for improving downtowns of small towns and neighborhood business centers.

PLAN 467. PARKS PLANNING. 5 Credits.
A studio which presents the basic theories and techniques of park planning through the design and development of a park planning project.

PLAN 469. BUILT ENVIRONMENTS OF NORTH AMERICA: SYMBOL AND STRUCTURE. 3 Credits.
Pre-requisites: junior standing.
This course is a survey of North American architectural landscapes from the colonial period to the present. This course will examine such topics as the diffusion of major styles of residential, commercial and public architecture across the continent, the relationship of geology and climate to the availability of building materials and technology and the effects of these on the human built environment, especially in the Pacific Northwest. Special emphasis will be placed on the visual differentiation of building styles and the symbolic, political and philosophical foundations of architectural form and decoration.

PLAN 470. COMMUNITY PARTICIPATION TECHNIQUES. 2 Credits.
Pre-requisites: PLAN 261 or permission of the instructor.
A workshop on the application of skills and techniques of community development and participation, emphasizing personal growth, group formation and dynamics, consulting with groups, and creative change within groups.
PLAN 471. RURAL AND SMALL TOWN PLANNING. 3 Credits.
Pre-requisites: PLAN 301 or permission of the instructor.
Discussion and research of the patterns of rural land use, emphasizing legislation, environmental characteristics, community values and anticipated land use demand.

PLAN 472. HOUSING. 3 Credits.
Pre-requisites: PLAN 201, PLAN 261 or permission of the instructor.
Discussion and research into the nature of shelter, housing need, policy and programs, codes and standards, and housing assistance plans.

PLAN 473. PLANNING IN THE WESTERN U.S.. 3 Credits.
This course explores how historical context shapes planning in the western U.S. today, examines current problems/prospects of sustainable development in the west, and imagines potential ways of creating a society to match our scenery.

PLAN 476. COMPARATIVE URBANIZATION. 4 Credits.
Pre-requisites: PLAN 261 or permission of the instructor.
Satisfies: international studies university graduation requirement.
A review of the nature of urbanization in developed and developing countries, examining planning-related issues associated with urbanization, overurbanization and counterurbanization in a variety of natural settings.

PLAN 490. SENIOR CAPSTONE: PLANNING STUDIO. 5 Credits.
Pre-requisites: completion of 15 credit hours of planning courses.
Satisfies: senior capstone university graduation requirement.
The culminating studio for undergraduates that demonstrates their abilities through the application of their knowledge and skills to a real community problem. Students typically work in consultation with practicing professionals for a community or agency in producing a planning-related product for use by the client.

PLAN 495. PLANNING INTERNSHIP. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Supervised work in a public agency or with a private consultant. Daily journals are kept, a report is written on the work, and the student is evaluated by the supervisor and faculty member. One hour credit for each four hours of work per week per quarter.

PLAN 496. EXPERIMENTAL COURSE. 1-5 Credits.
PLAN 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Conferences and short courses on selected planning topics are offered for credit from time to time. These may be on campus or in the communities.

PLAN 498. SEMINAR. 1-5 Credits.
Selected seminar discussions of various planning topics: law, land development, energy, futures, philosophy and practice.

PLAN 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the department chair and the instructor.

PLAN 500. PLANNING PRACTICE. 2 Credits.
This course provides an overview of the practice of planning through presentations and discussions with planning practitioners, lectures and guided student activities.

PLAN 501. FOUNDATIONS OF PLANNING. 5 Credits.
Survey of the history, theory, philosophy, and practice of planning. Subject matter treated during the course includes consideration of the nature of the planning profession's evolution, the profession's relationship to politics, the extent of ideological pluralism among planners, and the highly varied nature of professional planning activities.

PLAN 502. ADVANCED COMMUNITY DEVELOPMENT. 5 Credits.
A survey of the structure and process of community development. Emphasis will be on the role of planners and community development specialists as agents for change in the context of community growth. Course will feature seminars and exercises in community problem solving, needs assessment, small group theory and process facilitation.

PLAN 503. PLANNING METHODS I. 5 Credits.
An introduction to planning process models, work programs, research methods, survey research, and descriptive and inferential statistics. Students also learn to present data graphically and orally.

PLAN 504. PLANNING METHODS II. 5 Credits.
Pre-requisites: PLAN 503.
An introduction and application of population forecasting, economic analysis, and cost/benefit techniques and their application to planning problems. Students also learn to incorporate information from these techniques into professional planning reports and policy analysis.

PLAN 505. PLANNING IMPLEMENTATION AND LAW. 5 Credits.
Review of zoning, subdivision regulations, and other tools employed by planners to implement public plans and policies. Consideration of constitutional, statutory, and case law governing the realm of plan and policy implementation.

PLAN 506. PLANNING METHODS III. 5 Credits.
Pre-requisites: PLAN 503, PLAN 504.
This is a case studies course focused on comprehensive planning demonstrating how the techniques from previous courses are applied in a comprehensive planning setting and how the functional areas of planning interact with the basic models learned in the previous courses.

PLAN 507. ADVANCED PLANNING STUDIO. 5 Credits.
Preparation of a major planning project for a community or other agency. Students work in cooperation with practicing professionals, conduct general research, perform analysis, develop specialized plans and draft implementation tools. Each student is assigned specific responsibilities on an interdisciplinary team.

PLAN 508. REFLECTIVE PLANNING THEORY. 3 Credits.
Pre-requisites: second year of graduate program.
This course will present an overview of the range of the philosophical and methodological approaches to planning and their varying roles within the discipline. The emphasis is on examining professional knowledge and reflection in action to provide a contextual guide for planning practitioners as they enter the profession.

PLAN 510. COMMUNITY FACILITIES PLANNING. 5 Credits.
A seminar in the historical development of the planning profession in the United States tracing its roots from colonial town planning to the present. Emphasis is placed on the evolution of the profession and its efforts to cope with the changing urban environment.

PLAN 511. HEALTH IMPACT ASSESSMENT. 2 Credits.
Health impact assessment (HIA) is an analytic and communicative public health process used to inform decision-makers about health impacts of proposed projects, programs and policies that do not traditionally focus on health outcomes, such as transportation, education and housing. HIA serves as a systematic way to shed light on the health consequences of a particular policy decision.
PLAN 512. GROWTH MANAGEMENT. 3 Credits.
An examination of techniques and strategies for affecting the amount, rate, location, and quality of growth. A review of existing efforts at local and state levels to manage growth. Consideration of the legal limits to growth management activities.

PLAN 514. LOCAL ECONOMIC DEVELOPMENT PLANNING. 3 Credits.
This course offers a review of the objectives, strategies, and techniques associated with economic development programs for cities, counties and towns. Students survey techniques including consideration of financial assistance programs, expenditures on public capital, and regulatory reforms. The course will examine ties between economic development, land use planning, and capital budgeting processes.

PLAN 515. DESIGN AND BEHAVIOR. 3 Credits.
This course explores the relationships between environment and human behavior with special emphasis given to the design and planning implications of this body of knowledge.

PLAN 523. AMERICAN INDIAN PLANNING. 4 Credits.
This course will outline the unique context of tribal governments as sovereign nations under the federal government, examine the history and evolution of tribal government institutions within the unique tribal cultural systems and describe the role and relationship of governance and planning within such a framework.

PLAN 524. ADVANCED STRATEGIC PLANNING. 4 Credits.
This course presents an overview of strategic planning processes and their application in public and private management including an overview of management theory and practice, organizational planning, program planning, program management, financial management planning and critical issue analysis.

PLAN 528. AMERICAN INDIAN HEALTH AND COMMUNITY. 4 Credits.
This course focuses on the history, traditional and current practices, and health implications of the American Indian population. Emphasis will be placed on understanding the federal obligation to tribes and tribal sovereignty, the behavioral response and resulting health issues. The course will also examine current health practices and current research with the American Indian population.

PLAN 529. AMERICAN INDIAN HEALTH CARE SYSTEMS AND SERVICES. 4 Credits.
This course focuses on American Indian health, to include the history, relevant laws and legal structure, and health implications of the American Indian population. Emphasis will be placed on history of Indian health care and the federal Indian policies, federal obligation to tribes and resulting health status of American Indians. The course will also examine inherent tribal sovereignty and the federal-tribal (government-to-government) relationship.

PLAN 530. CONTEMPORARY AMERICAN INDIAN PLANNING. 3 Credits.
Pre-requisites: PLAN 523.
The purpose of this class is to provide a comprehensive overview and assessment of the current practice of planning on American Indian Reservations. Key topics include the powers to plan; the structures of tribal government and tribal planning; the tribal comprehensive plan; tribal planning regulations and ordinances; public engagement and tribal representation in tribal decision-making as part of planning; and critical research and development to identify and address long-term tribal needs and issues.

PLAN 531. CENSUS DATA FOR AMERICAN INDIAN PLANNING. 2 Credits.
The U.S. Census Bureau provides American Indian/Alaskan Native social and economic data critical for marketing, business, planning and public administration. This class offers an introduction to those data sets and their application to American Indian/Alaskan native and reservation populations for applied basic demographic, economic, business and housing data analysis. Students will complete a socio-economic profile for a selected reservation.

PLAN 532. AMERICAN INDIAN ECONOMIC DEVELOPMENT. 3 Credits.
The purpose of this class is to provide an understanding of tribal economic development for tribal governments, including data inventory, analysis, and how economic development is carried out by planners, economic development specialists, and tribal leaders. The class will review existing literature on tribal economic development, provide students with the skills and expertise to complete economic development analysis of tribal data and develop strategies and plans for economic development of American Indian reservations. The class will also discuss tribal entrepreneurship.

PLAN 533. AMERICAN INDIAN LAW FOR PLANNERS. 3 Credits.
The purpose of this class is to provide a comprehensive understanding of American Indian Law for planners. The complex structures of tribal powers in relation to federal, state, local governments, and the ability for tribes to complete plans, land use regulations and environmental regulations operate within the context of Indian Law. It is essential for tribal planners to have a strong understanding of key court cases, legal issues and powers that frame how tribal governments and tribal planning work.

PLAN 534. AMERICAN INDIAN TRANSPORTATION PLANNING. 4 Credits.
This class will provide a comprehensive understanding of American Indian tribal transportation planning including safety and community well-being. The course emphasizes the Tribal Transportation Plan as part of a community assessment, including existing frameworks and guidelines for transportation planning, program development, road construction and critical transportation needs assessment of safety, enhancement, tribal transit and intergovernmental relations.

PLAN 539. SPECIAL TOPICS. 1-5 Credits.
Advanced planning topics will be offered periodically.

PLAN 540. LAND USE PLANNING. 5 Credits.
Explores the issues and methods of analyzing and organizing land uses in urban and regional environments by balancing the demand for uses with the environmental conditions that limit the supply of land and locates these uses based upon criteria that satisfy human needs.

PLAN 542. SUSTAINABLE COMMUNITIES. 3 Credits.
Examines the case for sustainable urban and rural development and explores examples of efforts to create sustainable developments.

PLAN 550. EMERGENT COMMUNITY HEALTH CHALLENGES. 4 Credits.
Critical issues in community health often impact large areas or regions and require interdisciplinary perspectives as part of effective policy analysis. The focus of this class is to identify and create an in-depth examination of a selected emergent community health challenge. The course will feature lectures, independent research, site visits, guest speakers and the exploration of competing public policy priorities such as economic development. The outcome of the class will be documentation of one emergent community health challenge.
PLAN 551. TRANSPORTATION PLANNING. 5 Credits.
A lecture class that explores the procedural and conceptual transportation planning process, including a framework for addressing system characteristics, institutional arrange- ments, theories of travel supply and demand, selected forecasting models and interactions with land use and other urban systems.

PLAN 552. COMPREHENSIVE COMMUNITY HEALTH PLANNING. 4 Credits.
The purpose of this class is to create frameworks for comprehensive community health planning through restructuring standard planning tools within local and regional government including community involvement. The class will assess current planning theory, models, tools and practice in a context of community health planning, including an examination of planning tools that can be used to assess and improve community health.

PLAN 553. COMMUNITY HEALTH PLANNING STUDIO. 5 Credits.
This planning studio will engage students in an applied project where students learn and demonstrate skills and professional applications of theory, models and processes. This is a hands-on planning course that will address a real life community health issue such as the preparation of a neighborhood or tribal health plan, HIA or the community wellness element of a comprehensive plan or neighborhood plan.

PLAN 556. AMERICAN INDIAN PLANNING STUDIO. 3 Credits.
A Planning Studio represents an application of planning methods and techniques in a comprehensive manner. Each student will design an applied research plan or project for a selected tribe, plus complete a “Portfolio” synthesis report incorporating tribal planning assignments and papers on a selected tribe from each class into a comprehensive assessment of tribal planning for that tribe.

PLAN 570. ENVIRONMENTAL PLANNING. 5 Credits.
Surveys the philosophy and techniques of environmental planning, emphasizing an understanding of why environmental considerations should be incorporated into land use planning activities and developing skills needed to carry out an environmental analysis.

PLAN 571. ENVIRONMENTAL REVIEW. 3 Credits.
Surveys the philosophy and techniques of environmental planning, emphasizing an understanding of why environmental considerations should be incorporated into land use planning activities and developing skills needed to carry out an environmental analysis and environmental review.

PLAN 572. RURAL AND SMALL TOWN PLANNING. 3 Credits.
Lectures, discussion and research of the patterns of rural land use that form rural areas and small towns, and the special rural and small town planning issues that emphasize legislation, environmental characteristics, community values and anticipated land use demand.

PLAN 591. RESEARCH PROJECT PREPARATION. 1 Credit.
A seminar course designed to prepare students for their capstone research or professional internship report. Reviews research strategies, helps students select topics, produce a work program, and begin research on their project.

PLAN 595. GRADUATE INTERNSHIP. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Students may participate in structured internships in agencies without the responsibility of using the internship as a capstone course. However, students must set learning objectives, maintain a journal of their experiences, and prepare a short report.

PLAN 596. EXPERIMENTAL COURSE. 1-5 Credits.

PLAN 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

PLAN 598. ADVANCED PLANNING SEMINARS. 1-5 Credits.
Advanced seminar topics offered quarterly.

PLAN 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A major planning project approved by the student’s advisory committee. Students must file a record of study in the standard research format which will describe the approach, objectives, methods and conclusions of the project.

PLAN 601. RESEARCH PROJECT. 1-15 Credits.
Pre-requisites: substantial completion of degree requirements and permission of the instructor, department chair and college dean.
A major planning project approved by the student’s advisory committee. Students must file a record of study in the standard research format which will describe the approach, objectives, methods and conclusions of the project during the student’s tenure in the program.

Political Science (POLI)

POLI 100. MODERN GOVERNMENT IN AMERICAN CONTEXT. 5 Credits.
Satisfies: GECR for social sciences, list 1, economics and government.
A general introduction to the concepts, methods, and concerns involved in the study of Political Science. This course discusses fundamental ideas such as power, ideology, and constitutionalism; the citizen role in democratic politics; the structure and processes of major governmental institutions; and selected areas of policy making. Emphasizes the comparison of the American political system with that of other major, chiefly democratic, systems.

POLI 202. INTRODUCTION TO POLITICAL THEORY. 5 Credits.
This course is an introduction to major thinkers and ideas within the tradition of Western political thought. Authors may include Plato, Aristotle, Machiavelli, Hobbes, Locke and Rousseau. Themes discussed include power, human nature, rights, political legitimacy and the ideal form of government. The course is also a primer on how to think and write theoretically. Through the essay composition process, students will refine their critical thinking skills and their ability to construct arguments of their own.

POLI 203. INTRODUCTION TO COMPARATIVE POLITICS. 5 Credits.
Satisfies: international studies university graduation requirement.
An introduction to concepts, such as state, power, ideology and political phenomena, emphasizing similarities and differences in selected political systems.

POLI 204. INTRODUCTION TO INTERNATIONAL POLITICS. 5 Credits.
Satisfies: international studies university graduation requirement.
A basic introduction to the nature of politics in the international arena, with special attention to the instruments of national power, diplomacy, international law and the role of various international organizations and alliance systems.

POLI 295. INTERNSHIP. 1-5 Credits.
Internship.
POLI 299. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interest.

POLI 300. U.S. JUDICIAL PROCESS. 5 Credits.
Pre-requisites: POLI 100.
This course examines the relationship of judicial behavior to structure, politics and the behavior of other actors in the judicial process. This includes examination of judicial processes from the trial court level through the Supreme Court of the United States.

POLI 302. CRIMINAL PROCEDURE. 5 Credits.
This course in an examination of the philosophic and legal bases for the protection of the rights of the criminally accused, with emphasis on Supreme Court decisions on the 4th, 5th, and 6th amendments and on the due process clause of the 14th amendment.

POLI 304. U.S. CIVIL RIGHTS AND LIBERTIES. 5 Credits.
Pre-requisites: POLI 100.
This course examines the history and development of civil rights and liberties in the constitutional context of the United States. It emphasizes the problems of racial, religious, economic, political and sexual discrimination and their remedies under the law.

POLI 305. JURISPRUDENCE. 5 Credits.
Pre-requisites: POLI 100 and POLI 202.
This course examines the philosophical underpinnings of the idea of law by examining the evolution of legal thought from Natural Law thinkers through Postmodern conceptions of legal reasoning. It includes discussion about the concepts of rules and justice as well as the nature and possibility of legal reasoning.

POLI 306. BASIC CONCEPTS OF CRIMINAL LAW. 5 Credits.
A survey of the basic concepts and content of the American substantive criminal law, including consideration of the purposes of the criminal law, the basic concepts utilized to define criminal offenses, defenses to criminal charges, and examination of selected substantive offenses; e.g., assault, homicide, larceny.

POLI 307. U.S. CONSTITUTIONAL SYSTEM. 5 Credits.
Pre-requisites: POLI 100 and POLI 300.
This course examines the principal structural features of the U.S. governmental system, primarily through the study of decisions of the United States Supreme Court. Particular attention is paid to the structural realities of separation of powers and federalism and to the development of the specific powers of the national government in the light of the powers retained by the states.

POLI 313. ANCIENT AND MEDIEVAL POLITICAL THOUGHT. 5 Credits.
Pre-requisites: POLI 202.
This course engages thinkers and themes from the political theory of ancient Greece. Authors read include the Presocratics, Plato, Aristotle, and Seneca, among others. Questions concerning the nature and purpose of politics, the ideal political order, the definition of justice and virtue, and classical conceptions of knowledge, among others, will be pursued in detail. In addition to comparing various authors on these questions, students will spend some time considering the relationship between ancient views and more contemporary attitudes.

POLI 314. MODERN WESTERN POLITICAL THOUGHT. 5 Credits.
Pre-requisites: POLI 202.
This course is a detailed encounter with various thinkers of the Western political theoretical tradition, including Machiavelli, Hobbes, Locke, Rousseau, and John Stuart Mill, among others. Ideas discussed include human nature, the rise of the modern state, the role of the individual and the people, the role of law, and the origins and nature of political power.

POLI 317. AMERICAN POLITICAL THOUGHT. 5 Credits.
Pre-requisites: POLI 100 and POLI 202.
This course examines the major works which have influenced the political debate and the creation of institutions in the United States. Emphasis will be on America’s liberal tradition and those values which are in competition with the liberal philosophy in the United States. Other topics in the tradition of American political thought include democracy, liberty, individualism, localism and equality.

POLI 318. MARX AND MARXISM. 5 Credits.
Pre-requisites: POLI 202 and POLI 203.
This detailed examination of the political, economic, and social theory of Karl Marx begins with a discussion of the ideas of G.W.F. Hegel, perhaps the most important European philosopher of the 19th Century and a major influence on Marx’s thinking. Students subsequently read a large number of primary texts by Marx himself with excerpts from the writings of Vladimir Lenin, the protagonist of the 1917 Russian Revolution.

POLI 319. NATIONS, NATIONALISM AND PATRIOTISM. 5 Credits.
Pre-requisites: POLI 100 and POLI 202.
This course is a detailed inquiry into nations, nationalism and patriotism, with specific emphasis on the United States. Authors read include Benedict Anderson, Anders Stephanson, and David Campbell among others. Topics explored include the conceptual predicates upon which nations depend, the idea of citizenship, violence and warfare, national identity, manifest destiny and more.

POLI 320. INTERNATIONAL SYSTEMS. 5 Credits.
Pre-requisites: POLI 203 or POLI 204.
This course is a focused study of contemporary theories, debates and major scholarly traditions in the study of international politics. By studying and analyzing contending perspectives in world politics, the course covers how scholars of international relations differ from each other in their conceptualization of what the system is or ought to be. The course enables students to have a comprehensive appreciation of the global issues, difficulties and challenges that states and non-state actors face as they interact in the global arena.

POLI 321. INTERNATIONAL ORGANIZATIONS. 5 Credits.
Pre-requisites: POLI 203 or POLI 204 or permission of instructor.
Satisfies: international studies university graduation requirement.
The course engages students in a study of the history, structures and processes of international organizations within the world community. Focusing primarily on the United Nations system and its role in shaping global, national, group and state-society relations, the course also addresses other organizations such as the European Union and the World Trade Organization, as well as non-governmental organizations (NGOs).

POLI 322. INTERNATIONAL POLITICAL ECONOMY. 5 Credits.
Pre-requisites: POLI 203 or POLI 204.
This course examines international economic systems and their relation to world political realities. Students will examine theories of state political-economic relations and the history of international efforts to manage trade, monetary and financial systems by applying theories to contemporary global political economics, such as North-South issues and the political economy of oil and war.
POLI 323. U.S. FOREIGN POLICY. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
In this course students analyze important cases in U.S. foreign policy formulation since WW II with particular emphasis on the bureaucratic factors that shape foreign policy decisions.

POLI 324. COMPARATIVE AND INTERNATIONAL WATER POLICY. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
If the 20th century was all about oil, the 21st century is about water. Issues that include privatization, water markets, transboundary conflicts, loss of indigenous water rights and water governance, dams and river basin management, and a host of habitat and water quality issues dominate contemporary water policy in the United States and international arenas. Knowing the issues and the policies that guide the distribution of water will form the basis of the course. Case studies will include privatization in Chile; the upcoming Columbia River Treaty and indigenous claims to the river and its tributaries; treaty negotiations over the Nile and Indus Rivers; the loss of fish species, such as the salmon; and the water quality of several major rivers. The course material will be interdisciplinary drawing from political science, law, geography, history and natural resource economics.

POLI 325. EUROPEAN POLITICS. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
**Satisfies:** international studies university graduation requirement.
This course is an in-depth study of political life in European states beginning with the origins and contemporary practices of parliamentary democracy in Europe. It also addresses contemporary challenges to and opportunities for European states, including European integration through the European Union and the North Atlantic Treaty Organization (NATO), the broadening of the West toward the former Soviet states and the social, political and economic implications of immigration and international crime and violence.

POLI 326. POLITICS OF DEVELOPING NATIONS. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
This course examines the problems that attend political development in developing nations emphasizing the dilemmas of political development in traditional and transitional societies. Special emphasis is placed on nation-building, economic and social change; ideologies and political development; and elites, political parties, military and bureaucracies.

POLI 327. POLITICS OF THE PEOPLE’S REPUBLIC OF CHINA. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
This in-depth study of the modern political history and contemporary political system of China includes the fall of imperial China; the origins, development and victory of the Chinese Communist revolution; the rule and legacy of Chairman Mao Zedong, particularly the Great Leap Forward and the Cultural Revolution; economic reform, governance and political repression (especially the Tiananmen crisis) in the era of Deng Xiaoping; and current Chinese politics in the post-Deng China. The course focuses on China’s domestic politics as well as China’s position in the region and its role in the world.

POLI 328. POLITICS OF SOUTH ASIA. 5 Credits.
**Pre-requisites:** POLI 203 or POLI 204.
This course examines two of the ways that people can affect the political system, by voting and joining political parties, and it considers ways to link those through political campaigns. It will analyze and evaluate party systems and explore the functions of modern U.S. political parties. Students will explore how and why people vote, the nature of modern elections and the evolution of campaigning in the United States.
POLI 350. CONTEMPORARY POLITICAL PROBLEMS. 1-5 Credits.
Cross listed: may be cross-listed with CHST 320.
Notes: may be repeated for credit when topics vary.
A topical course designed to accommodate the interest of the general student and the department faculty. Topics vary from quarter to quarter and are listed in the quarterly Course Announcement. Recent offerings include Citizen and Law, and Pacific Rim. Analysis of contemporary problems may be under the guidance of one or more department members.

POLI 360. STATE LEGISLATIVE POLITICS EXPERIENCE. 5 Credits.
Pre-requisites: permission of the instructor.
This course is designed to be a guided field experience with students in Olympia during the winter legislative session. It will connect the practical experiences students receive while interning in the Washington State legislature with theoretical models of legislative behavior and case studies of legislative action. Course requires instructor approval and acceptance into the Washington State Legislative Internship Program.

POLI 370. MOCK TRIAL I. 5 Credits.
Pre-requisites: permission of instructor.
Mock Trial I exposes students to courtroom procedures in civil or criminal cases, studying a trial as one form of dispute resolution. Working in teams, students receive a fictional legal case and prepare and argue both sides of that case by applying rules of evidence in a simulated courtroom. Students play the roles of attorneys and witnesses as they prepare and present their case to a panel of judges. POLI 370 focuses on the basics of preparing and building a fictional legal case and introduces students to trial advocacy.

POLI 395. INTERNSHIP. 1-15 Credits.
POLI 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: may be repeated for credit.
Specialized offerings in a workshop-type situation of materials emphasizing current topics and problems in the political arena.

POLI 399. DIRECTED STUDY. 1-5 Credits.
Directed Study.

POLI 400. TOPICS IN AMERICAN POLITICS. 5 Credits.
Notes: may be repeated for credit.
An intensive examination of selected questions in the arena of American political institutions, processes, and public policy. Topics vary from quarter to quarter and include executive reorganization, congressional reform, politics and the press, post-partisan politics and various policy impact studies that cover the values of individual choice and problems of political economy.

POLI 401. TOPICS IN POLITICAL THEORY. 5 Credits.
Notes: may be repeated for credit.
Pre-requisites: POLI 202.
Each of the topics chosen for this course explores in some depth the fundamental relationship between such common political phenomena as obligation, consent, freedom, law, authority, etc. The course is structured so that even when the particular topic is quite narrow, its development touches on the major nodes in the web of relationships these phenomena have with one another.

POLI 402. TOPICS IN INTERNATIONAL RELATIONS AND COMPARATIVE POLITICS. 5 Credits.
Notes: may be repeated for credit.
Pre-requisites: POLI 203 or POLI 204.
The topic of this course varies from quarter to quarter, depending on student and faculty interests. Topics in the past have included international law, international organizations (especially the European Union), problems of the international political system, comparative analysis of West European gender regimes, causes of political change and political stability, modernization and political development, causes and results of revolutions, the impact of social forces on the political system. The course may cover other topics as faculty and student interests change.

POLI 421. FEDERAL INDIAN LAW AND POLICY I. 5 Credits.
Cross listed: IDST 421.
This is the first course in a two course series on federal Indian law and policy. Federal Indian law is the body of law that regulates the relationship between Indian tribes and the United States. Federal Indian policy consists of the various doctrines underlying federal legislative and executive actions affecting Indian tribes. This course will introduce students to laws, regulations and case law that comprise federal Indian law as well as the policies underlying those laws. Topics will be further explored through the use of case studies.

POLI 422. FEDERAL INDIAN LAW AND POLICY II. 5 Credits.
Cross listed: IDST 422.
This course is a continuation of IDST 421. Topics covered include Modern Trust Doctrine, the Federal-Tribal Relationship, congressional plenary power, tribal land and sovereignty issues and tribal justice systems. These topics are explored through the use of case studies.

POLI 470. MOCK TRIAL II. 5 Credits.
Pre-requisites: POLI 370 or permission of instructor.
Mock Trial II exposes students to more advanced courtroom procedures in civil or criminal cases. Working in teams, students work with a fictional legal case to prepare and argue both sides by applying rules of evidence in a simulated courtroom. Students play the roles of attorneys and witnesses as they prepare and present their case to a panel of judges at local and regional competitions. Students may also engage in negotiation competitions as an alternate form of dispute resolution. This course follows POLI 370 with more emphasis on conducting competitive mock trials.

POLI 490. SENIOR CAPSTONE: GLOBALIZATION. 5 Credits.
Cross listed: INST 490.
Pre-requisites: POLI 203 or POLI 204 and senior standing; or permission of instructor.
Satisfies: senior capstone university graduation requirement.
This course is a senior-level seminar designed to integrate and further refine the analytical, writing and presentation skills acquired as a Political Science or International Affairs major. Its premise is that any student of politics or international affairs should graduate a bachelor’s degree program with a refined sensibility of the concept (and varying realities) of globalization. The course covers case studies and theoretical analyses of the global dynamics of economic, cultural, religious, media and political relations as well as the influence of technology on globalization. Students prepare and present an original, extensive case study and analysis of globalization processes, if possible relating to the student’s work as an International Affairs or Political Science major.
POLI 493. PORTFOLIO ASSESSMENT. 1-2 Credits.
Pre-requisites: senior standing or declared major POLI or INST or permission of instructor.
Advised by a member of the Political Science faculty, the student compiles an assessment portfolio of academic assignments completed in program specific courses at EWU. Taken during the term in which the student expects to complete the requirements for a program of study, this course provides the student with an opportunity to undertake guided academic/career planning as well as to participate in summative assessments.

POLI 495. PUBLIC AFFAIRS INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Guided field experience designed to acquaint you with the formation and instrumentation of public policy; involves actual work with a political party, interest group, legislative body or administrative agency.

POLI 498. SEMINAR. 1-5 Credits.
Pre-requisites: permission of instructor.
An in-depth analysis of particular political phenomena, with emphasis on student research. Usually offered on an interdisciplinary basis in cooperation with other departments offering similar courses.

POLI 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor.
Projects in selected fields of government.

POLI 599. INDEPENDENT STUDY. 1-10 Credits.

Psychology (PSYC)

PSYC 100. GENERAL PSYCHOLOGY. 5 Credits.
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.
A general introduction to psychology as the scientific study of behavior and thought; an overview of the areas of psychology and their development; methods in psychology; biological, sensory and developmental influences on behavior; physiological and cognitive components of behavior; theories of learning; a survey of theories of normal and abnormal behavior; principles of psychotherapy; personality theory and testing; and social influences.

PSYC 190. RISKY BEHAVIOR. 2 Credits.
The course will explore, discuss and teach skills that are alternatives for managing risky behavior. Topics that will be covered include decision-making, sexually transmitted infections, sexual assault, alcohol and other drug use, and ways of combating risky behavior including birth control and abstinence, assertiveness and self-management techniques.

PSYC 195. INTERNSHIP. 1-5 Credits.

PSYC 196. EXPERIMENTAL COURSE. 1-5 Credits.

PSYC 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

PSYC 201. LIFE-SPAN DEVELOPMENT. 4 Credits.
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.
A broad overview of human development from birth to death. Topics covered include the biological, cognitive, learning, cultural and socio-emotional influences on development. Designed for the non-major.

PSYC 295. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placements and procedures from the Career Services Internship office. Two sections are available, one for psychology majors, one for non-psychology majors.

PSYC 296. EXPERIMENTAL COURSE. 1-5 Credits.

PSYC 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

PSYC 298. SEMINAR. 1-6 Credits.

PSYC 299. DIRECTED STUDY. 1-6 Credits.

PSYC 301. THEORIES OF PERSONALITY. 5 Credits.
An objective and comprehensive study of the major theories of personality.

PSYC 302. ABNORMAL PSYCHOLOGY. 5 Credits.
Explores and evaluates research and theoretical concepts relating to deviant and abnormal behavior.

PSYC 303. FOUNDATION OF PSYCHOTHERAPY. 5 Credits.
Pre-requisites: PSYC 301 and PSYC 302.
Survey of theories of psychotherapy dealing with psychopathology. Particular attention is given to effectiveness of theory construction. Evaluates the role of intervening variables and logical consistency.

PSYC 304. EDUCATIONAL PSYCHOLOGY. 5 Credits.
Pre-requisites: PSYC 201 recommended.
Principles of learning and development as applied to improvements in classroom instruction.

PSYC 305. CHILD AND ADOLESCENT DEVELOPMENT. 4 Credits.
Pre-requisites: ENGL 201; math proficiency recommended.
Mental, physical, social and emotional development from infancy through adolescence.

PSYC 306. ADULT DEVELOPMENT. 4 Credits.
Pre-requisites: ENGL 201; math proficiency recommended.
Covers the processes, evidence, theories and socio-cultural influences on adults.

PSYC 307. PSYCHOLOGY OF ADJUSTMENT. 5 Credits.
Pre-requisites: ENGL 201; math proficiency recommended.
A psychological approach to human behavior, growth and change.

PSYC 309. SCIENTIFIC PRINCIPLES OF PSYCHOLOGY. 5 Credits.
Pre-requisites: MTHD 104.
The study of the methodology and attitudes of psychology irrespective of any special area. Considers techniques for evaluating information, discovering invalid interpretations, and uncovering alternative explanations. These are illustrated by reading research articles and classroom discussion of the articles and of popular beliefs.

PSYC 313. RESEARCH METHODS IN PSYCHOLOGY. 5 Credits.
Pre-requisites: CSBS 320, ENGL 201 and PSYC 309.
This course is an introduction to typical research methods used in psychology. Students complete several research projects reflecting these various methods.
PSYC 314. TESTS AND MEASUREMENTS. 5 Credits.
Pre-requisites: CSBS 320.
This course will provide students with a current analysis of the most widely used psychological tests in schools, professional training programs, business, industry, the military, and clinical settings. Students will learn how psychological tests are constructed, how they are used, and how an understanding of them can make a difference in their careers and everyday lives. Issues of fairness, bias, and social consequences for use and interpretation with diverse populations will be addressed.

PSYC 315. PSYCHOLOGY OF HUMAN RELATIONS. 4 Credits.
Pre-requisites: ENGL 201; math proficiency recommended.
Helps develop your understanding and skill in interpersonal relationships needed for professional consultation and/or counseling.

PSYC 316. HUMAN MEMORY AND COGNITION. 5 Credits.
Pre-requisites: junior level standing or permission of the instructor.
Examination of the principles and theories of human memory and selected topics in cognitive psychology.

PSYC 317. HEALTH PSYCHOLOGY. 5 Credits.
Pre-requisites: PSYC 309.
An examination of the psychological influences on health including both wellness and illness; a focus on the etiology and correlates of health and illness as well as the prevention and treatment of illness. Exploring the psychological dynamics at work in utilization of the health care system and patient-practitioner interactions. Specific coverage of the illness process in pain, lung disease, stress, chronic illness, and AIDS.

PSYC 318. COMPUTERIZATION RESEARCH TECHNIQUES IN PSYCHOLOGY. 4 Credits.
Pre-requisites: CSBS 320 and PSYC 309.
Introduces the use of computers in psychological research through software that inexperienced users can program by filling out forms. Hands-on experience on the system will be acquired during the first 2-3 weeks. Recent experimental findings in a number of research areas will be introduced. Working individually or in small groups, students will select a problem for study and develop a method of investigation using the software system.

PSYC 320. DEVELOPMENTAL THEORIES AND APPLICATIONS. 4 Credits.
Pre-requisites: PSYC 305, PSYC 315 or permission of the instructor.
Covers principles and concepts of major theories of human development, evaluation of theories, appreciation of alternative views of development and alternative strategies for enhancing development.

PSYC 323. DRUGS AND BEHAVIOR. 5 Credits.
Pre-requisites: PSYC 100 recommended.
An introduction to the action, use, and abuse of psychotropic agents from analgesics to hallucinogens. Special attention given to drug abuse.

PSYC 324. CONDITIONING AND LEARNING. 4 Credits.
Pre-requisites: junior standing.
A study of human learning emphasizing conditions for acquisition, learning structures, learning sets, levels of learning and measurement.

PSYC 325. COGNITIVE AND BEHAVIOR CHANGE. 4 Credits.
Pre-requisites: PSYC 100.
This course is designed to examine various cognitive and behavioral change procedures in terms of their theoretical basis and applied strategies. Operant, respondent, social learning, and cognitive theories and their applications will be studied. Students will be required to engage in a self-change project throughout the quarter in order to better understand the principles of cognitive and behavioral change.

PSYC 331. PSYCHOLOGY OF WOMEN. 4 Credits.
Cross listed: WMST 331.
Pre-requisites: completion of ENGL 201 or equivalent.
Satisfies: cultural and gender diversity university graduation requirement.
The psychology of women in terms of their bodies, socialization, personality, affiliation and achievement motivations, abnormal behavior patterns, therapy and personal growth needs.

PSYC 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to rediscover from the past and find in contemporary research the women who have made significant contributions to science.

PSYC 340. EMOTION AND EMOTIONAL INTELLIGENCE. 5 Credits.
Pre-requisites: PSYC 100 or equivalent.
This course explores the psychology of emotion and how emotion impacts behavior and experience. This class investigates what emotion is, how it can be measured, basic theories of emotion, and what factors contribute to the different emotional states. Issues related to emotional intelligence will also be explored, with particular emphasis on emotion identification, understanding, and regulation.

PSYC 344. INTRODUCTION TO THE HELPING PROFESSIONS. 4 Credits.
Pre-requisites: PSYC 305, PSYC 315.
This course provides students with an introduction to the helping professions, their specializations, history and ethics issues. Content includes communication skills, blocks to personal effectiveness and sequential stage model of problem solving for helpers.

PSYC 359. HUMAN SEXUALITY. 5 Credits.
Psychological, biological, and cultural perspectives of human sexual behavior. The basis for successful functioning; frequency and significance of various types of sexual behavior; anatomy and physiology of reproduction; sexual inadequacy and deviations.

PSYC 381. SOCIAL PSYCHOLOGY. 5 Credits.
Pre-requisites: PSYC 309 recommended.
Individual behavior as socially determined: interpersonal attraction, aggressiveness, attitude formation, group dynamics, conformity, and leadership.

PSYC 395. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the department internship director and the department chair and the university Career Services Internship office. Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placements and procedures from the Career Services Internship office. Two sections are available, one for psychology majors, one for non-psychology majors.

PSYC 396. EXPERIMENTAL COURSE. 1-5 Credits.

PSYC 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 2 Credits.

PSYC 398. SEMINAR IN PSYCHOLOGY. 1-5 Credits.
Notes: offered fall/winter/spring.

PSYC 399. DIRECTED STUDY. 1-6 Credits.
Pre-requisites: permission of the instructor and the department chair.
PSYC 402. BEHAVIOR MODIFICATION. 4 Credits.
Pre-requisites: PSYC 305, PSYC 324 or permission of the instructor.
Behavior modification provides an in-depth exposure to the principles, concepts and procedures from both behavioral and cognitive theories as applied to individuals, couples and families, organizational groups and community settings.

PSYC 404. PSYCHOLOGY OF THE GIFTED/TALENTED CHILD. 3 Credits.
Pre-requisites: PSYC 304 or permission of the instructor.
Giftedness and talent from a psychological perspective. Seminar format covers issues of development, measurement, theories, prediction and special needs.

PSYC 417. PEDIATRIC AND ADOLESCENT HEALTH PSYCHOLOGY. 4 Credits.
Pre-requisites: PSYC 402 or permission of the instructor.
An examination of health factors affecting developmental outcomes. There will be an emphasis on the health aspects of development and how to maintain and improve health-related behaviors in children and adolescents.

PSYC 420. BIOLOGICAL BASIS OF BEHAVIOR. 5 Credits.
Pre-requisites: PSYC 309.
Organic foundations of behavior.

PSYC 421. CARE AND CUSTODY OF FEMALE OFFENDERS. 5 Credits.
Cross listed: WMST 421.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.

PSYC 425. PSYCHOLOGY AND THE LEGAL SYSTEM. 5 Credits.
Pre-requisites: PSYC 100 or permission of the instructor.
This course is designed to provide an introduction to the field of forensic psychology. The course provides an overview of the role of mental health professionals in correctional settings and in conducting forensic evaluations.

PSYC 427. INTIMATE RELATIONSHIPS. 5 Credits.
Pre-requisites: PSYC 100 and junior standing or permission of instructor.
This course explores how social scientists think about, study, research and treat intimate relationships. Issues of communication, gender, sexual orientation, culture are explored within the context of intimate relationships.

PSYC 430. HUMAN PSYCHOPHYSIOLOGY. 5 Credits.
Pre-requisites: CSBS 320.
An overview of the following topics: automatic nervous system, biofeedback, clinical applications, emotion, instrumentation, measurement, pain, psychosomatic processes, sleep, social aspects of physiological processes and stress. Laboratory includes: biofeedback, blood flow, ECG, EDR, EEG, EMG, and respiration. Course is especially suited for students of the health sciences.

PSYC 431. STRESS AND COPING. 3 Credits.
Examines the psychological, physiological, and health consequences resulting from selected psychological and environmental stressors. Psychological stressors include personality type, social disorganization, competition, and conflict. Environmental stressors include cold, heat, hypo- and hyperbaric pressures, and exercise. Examines coping responses such as biofeedback, progressive relaxation, autogenic training, and physiological adaptation.

PSYC 433. COMPASSION FOCUSED THERAPY. 3 Credits.
Pre-requisites: PSYC 100, PSYC 302 preferred.
This course presents students with the theoretical background and approach to psychotherapy taken in Compassion Focused Therapy (CFT). CFT is based in evolutionary psychology, affective neuroscience, cognitive-behavior therapy and centuries-old mindfulness and compassion practices. Students learn to understand emotional difficulties and work with them.

PSYC 440. HAPINESS AND POSITIVE PSYCHOLOGY. 5 Credits.
Pre-requisites: junior standing.
Happiness has been a neglected topic in psychology, and yet it is an important human pursuit. This class investigates what happiness is, how it can be assessed, and what factors facilitate happiness. Other human virtues important to well-being such as gratitude, wisdom, courage, humanity, justice, temperance, and transcendence are explored.

PSYC 450. TRAUMA: THEORY, ASSESSMENT AND TREATMENT. 4 Credits.
Pre-requisites: recommend PSYC 302.
This course explores traumatic experience in terms of substance, impact, and reactions, including the assessment and treatment of trauma-related psychopathology.

PSYC 452. SOCIAL INFLUENCE. 4 Credits.
Pre-requisites: junior standing or permission of instructor.
This course focuses on topics pertaining to social influence, including persuasion, compliance, and obedience. The course covers both intentional and unintentional forms of influence from a psychological perspective.

PSYC 456. TEACHING AND SKILLS TRAINING IN THE MANAGEMENT OF RISKY BEHAVIOR. 3 Credits.
Pre-requisites: PSYC 190.
The course provides guided experiences in developing skills to be a peer-facilitator for PSYC 190. Both knowledge and teaching skills will be explicitly taught and practiced. Such knowledge and skills are necessary in facilitating PSYC 190.

PSYC 461. INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY. 5 Credits.
Notes: Cluster B requirements of Psychology BA.
Pre-requisites: junior level standing or higher or instructor permission.
Students apply psychological principles and methods to the workplace, including employee selection, motivation, performance and behavior; the structure and function of occupational positions and activities; and the nature, processes and development of organizations.

PSYC 470. CHILDHOOD PSYCHOPATHOLOGY AND TREATMENT. 5 Credits.
Pre-requisites: junior standing.
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and abnormal developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical intervention methods.

PSYC 474. CULTURAL PSYCHOLOGY. 5 Credits.
Pre-requisites: PSYC 100.
Satisfies: international studies university graduation requirement.
This course investigates the literature and methods involved in the psychological study of people from different cultures – both subcultures within the US and peoples from around the world. It also addresses the question of universality of psychological phenomenon.
PSYC 476. CHILD AND FAMILY GUIDANCE. 4 Credits.
Pre-requisites: PSYC 305, PSYC 324 or permission of the instructor.
The interaction between parents and children, the development and socialization of the child within the family and the relationship of the family to the school and community from a developmental perspective. Approaches to child rearing, management, discipline and communication for parents, teachers and other child care personnel are presented. Also examines family social support functions and considers multicultural issues in child socialization and guidance. Appropriate for present and future parents, teachers and child care personnel.

PSYC 481. PREJUDICE AND STEREOTYPING. 5 Credits.
Pre-requisites: PSYC 381 or instructor permission.
The course Prejudice and Stereotyping is a five credit discussion course that examines the social psychological underpinnings of prejudice, stereotyping and discrimination. The course topics will address specific types of prejudice such as sexism and racism, individual differences and cognitive states that can lead to prejudice, the effect of prejudice on its targets and reducing prejudice.

PSYC 483. GROUP DYNAMICS. 5 Credits.
Pre-requisites: PSYC 315, PSYC 344 or permission of the instructor.
Introduces the principles formed through the scientific study of small-group dynamics and considers the issues and problems arising in the study of groups.

PSYC 484. CHILD ABUSE: RECOGNITION AND INTERVENTION STRATEGIES. 3 Credits.
This course will focus on recognition of abuse in children and specific intervention strategies for their social/emotional needs. Physical, emotional and sexual abuse will be addressed along with factors of recognition for each of these areas of abuse. Specific common indicators of abuse will be looked at as it relates to the impact on the social, emotional, cognitive and behavioral realm of children.

PSYC 485. ADD/ADHD IN THE SCHOOLS. 3 Credits.
This course will provide the skills needed to help minimize the everyday struggles encountered while working with difficult behaviors. Areas to be addressed include characteristics of AD/HD, common treatment approaches, myths about AD/HD and matching interventions to behaviors.

PSYC 490. SENIOR CAPSTONE: THE TRADITION OF PSYCHOLOGY. 6 Credits.
Pre-requisites: CSBS 320, PSYC 309 and PSYC 313.
Satisfies: senior capstone university graduation requirement.
This course fulfills the university capstone requirement and may also be used as an elective within the department’s major. The course consists of three components: (a) the history of psychology, (b) a collaborative project and (c) portfolio preparation.

PSYC 490A. SENIOR CAPSTONE: DEVELOPMENTAL PSYCHOLOGY SEMINAR. 4 Credits.
Satisfies: senior capstone university graduation requirement.
The course is designed to help students make the transition from the academic world to the world of work and civic life or to a higher level of academic achievement. The primary goal for the student’s successful transition will be accomplished via the process of application. The course is designed also as an end-of-program assessment tool. The basic assumption is that the developmental coursework has equipped the students with the knowledge of developmental theories, counseling strategies, research methods, and assessment procedures. This capstone will test the student’s ability to apply the course work to real-world situations. The course objectives are organized to facilitate the process of application.

PSYC 490B. SENIOR CAPSTONE: MINDS AND VINES: PSYCHOLOGY OF WINE. 4 Credits.
Pre-requisites: senior standing; 21 years of age and declared major.
Satisfies: senior capstone university graduation requirement.
The goal is for students to integrate their knowledge and hone their psychological problem-solving skills in diverse areas. The integration will include (a) the history and culture of wine, (b) sensory discrimination and marketing of wine, (c) the positive and negative impact of wine on biological and psychological health and (d) the treatment of the latter effects.

PSYC 491. SENIOR THESIS. 4 Credits.
Pre-requisites: invitation of the instructor/advisor.
Satisfies: senior capstone university graduation requirement (replaces ITGS 400 as a senior capstone experience).
Directed research resulting in a formal write-up. Limited to those students for whom research experience will be helpful in obtaining entrance to graduate school.

PSYC 492. FIELD STUDY IN CHILD ISSUES AND PROBLEMS. 4 Credits.
Pre-requisites: PSYC 305, PSYC 324, some senior major courses and faculty advisement.
This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 493. FIELD STUDY IN ADOLESCENT ISSUES AND PROBLEMS. 4 Credits.
Pre-requisites: PSYC 305, 324 some senior, major courses and faculty advisement.
This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 494. FIELD STUDY IN ADULT ISSUES AND PROBLEMS. 4 Credits.
Pre-requisites: PSYC 305, PSYC 324 some senior major courses and faculty advisement.
This course introduces students to professional human service settings through shadowing a professional in the community. Students are expected to enroll in this course over two consecutive quarters.

PSYC 495. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individualized learning and career development through an off-campus internship. An internship agreement-learning contract form is required and can be picked up prior to registration, along with information about placements and procedures from the Career Services Internship Office. Two sections are available, one for psychology majors and one for non-psychology majors.

PSYC 496. EXPERIMENTAL COURSE. 1-5 Credits.

PSYC 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

PSYC 498. SEMINAR. 1-5 Credits.

PSYC 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor and the department chair.

PSYC 503. PROSEMINAR: SCIENTIFIC METHODS. 4 Credits.
Pre-requisites: admission into psychology MS program or school psychology program or graduate standing and instructor permission.
Introduction to logic of scientific method, decision making, hypothesis testing, measurement, and model and theory construction.
PSYC 504. PROSEMINAR: LEARNING AND BEHAVIOR THERAPY. 4 Credits.
Pre-requisites: graduate standing.
An intensive survey of important learning phenomena as they relate to theoretical issues and controversies. Consideration of methodological problems.

PSYC 505. APPLIED LEARNING THEORY AND BEHAVIOR MODIFICATION. 4 Credits.
Applied learning theory, methodology, and research paradigms will be defined and their inter-theory, inter-subject, inter-problem-solving relevance demonstrated.

PSYC 506. COUNSELING DEVELOPMENT AND TRANSITION ACROSS THE LIFESPAN. 4 Credits.
Pre-requisites: Admission to the graduate counseling program: mental health or school counseling emphasis or permission of the instructor.
Major theories of human development, the nature and needs of individuals at all developmental levels and the counseling implications associated with developmental processes are covered.

PSYC 507. HUMAN DEVELOPMENT: RESEARCH, THEORIES AND APPLICATIONS. 4 Credits.
Pre-requisites: graduate standing in psychology. If from a related area, instructor permission is required.
An examination of the field of human development and the contribution of those findings to professional practice. The philosophical and empirical basis for the theories explaining human development will be explored. The course will focus on the criteria that determine the adequacy of a theory and the applications generated by particular theories. Application and interpretation of research according to contemporary, empirically-based theories, and emerging issues and approaches will be key components of the course.

PSYC 508. PROFESSIONAL ISSUES. 2 Credits.
Pre-requisites: admission into psychology MS program.
Professional Issues presents legal, ethical and moral aspects of the professional practice of psychology. Topics will include professional credentialing, registration and licensing; ethical principles of psychologists; confidentiality; disclosure to clients, duty to protect and warn; suicide risk assessment and other ethical dilemmas. Students will receive state required AIDS/HIV training.

PSYC 509. CLASSROOM MANAGEMENT FOR THE SCHOOL COUNSELOR. 3 Credits.
Pre-requisites: admission to the graduate counseling program, school counseling emphasis.
This course will provide an understanding of the role of the counselor in managing classroom behavior, including how to establish positive counselor-student relationships and peer relationships that help meet students’ basic psychological needs while building a community of support within the classroom.

PSYC 510. PROFESSIONAL SCHOOL PSYCHOLOGY I. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology.
This course is the first in the series of Professional School Psychology and focuses on the history and principles of school psychology, the professional role of the school psychologist and current trends in education. The course includes various pre-practicum observations in applied settings.

PSYC 511. PROFESSIONAL SCHOOL PSYCHOLOGY II. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology.
This course focuses on the impact of legal issues on the role and functions of school psychologists in Washington.

PSYC 512. PROFESSIONAL SCHOOL PSYCHOLOGY III. 4 Credits.
Pre-requisites: PSYC 510, PSYC 511.
This course is the third in the series of professional school psychology and focuses on professional practice and ethical issues in the field. Best practices in school psychology and considerations of NASP, AERA and APA ethical guidelines and codes of conduct will be covered. The course includes pre-practicum observations in applied settings.

PSYC 514. RESEARCH AND STATISTICS. 4 Credits.
Pre-requisites: accepted to PSYC graduate program.
In this course you will learn the basic principles of research methods (both group and small n) and statistics used in school psychology. Our focus will be learning to evaluate existing research and applying the principles of scientific methodology to the field.

PSYC 515. ADVANCED EDUCATIONAL PSYCHOLOGY. 4 Credits.
The relevance of psychological theory to educational practice as applied to teaching, learning, development, and evaluation.

PSYC 516. HUMAN MEMORY AND COGNITION. 5 Credits.
Pre-requisites: graduate standing or permission of the instructor.
Examination of the principles and theories of human memory and selected topics in cognitive psychology.

PSYC 517. HEALTH PSYCHOLOGY. 5 Credits.
Pre-requisites: graduate standing or permission of the instructor.
An examination of the psychological influences on health including both wellness and illness; a focus on the etiology and correlates of health and illness as well as the prevention and treatment of illness. Exploring the psychological dynamics at work in utilization of the health care system and patient-practitioner interactions. Specific coverage of the illness process in pain, heart disease, cancer, stress, and chronic illnesses.

PSYC 518. COMPUTERIZED RESEARCH TECHNIQUES IN PSYCHOLOGY. 4 Credits.
Pre-requisites: CPLA or equivalent.
This class is intended to provide graduate students in psychology and allied disciplines with an efficient method of presenting stimuli and gathering data using personal computers. The class introduces the MEL programming system by which users can prepare programs by filling out forms and supplementing the forms with MEL code. Demonstrations and class exercises will apply the programming techniques to carry out common psychological tasks. Students will select a problem for individual study and develop a method of investigation using the software system.

PSYC 520. TACTICS PSYCHOLOGICAL RESEARCH. 4 Credits.
Pre-requisites: admission to graduate program or permission of instructor.
A critical analysis of research methodologies in psychology. Emphasis is placed on developing student skills in asking and answering sound research questions.

PSYC 521. CARE AND CUSTODY OF FEMALE OFFENDERS. 5 Credits.
Pre-requisites: graduate standing.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.

PSYC 522. ADVANCED STATISTICS. 5 Credits.
Pre-requisites: CSBS 320 or other inferential statistics class.
Statistical theory, interpretations, and procedures which are especially valuable to workers in education, psychology and related fields.
PSYC 523. ACADEMIC AND SOCIAL BEHAVIORAL INTERVENTIONS. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology. This course will assist students in understanding the link between assessment and intervention. School-wide Academic and Behavioral Assessment and Interventions, supplemental programs and intensive interventions will be addressed. Students will gain knowledge regarding early intervention, prevention and evidenced based academic and behavioral programs within Pre K-12 schools.

PSYC 525. PSYCHOLOGY AND THE LEGAL SYSTEM. 5 Credits.
This course is designed to provide an introduction to the field of forensic psychology. The course provides an overview of the role of mental health professionals in correctional settings and in conducting forensic evaluations.

PSYC 526. ACADEMIC ASSESSMENT FOR SCHOOL PSYCHOLOGY. 4 Credits.
Pre-requisites: enrollment in school psychology program.
An in-depth review of the purposes and methods of academic assessment in school psychology practice. The course focuses on the administration of various academic assessments and interpretation of the scores obtained from the instruments for use in making data-based decisions. Special attention will be given to the applicability of assessments to diverse student populations.

PSYC 530. SCHOOL COUNSELOR PROCERT CULMINATING SEMINAR. 3 Credits.
Pre-requisites: admitted to the School Counselor Professional Certificate Program.
Spring quarter. Candidates will complete the school year's work on their professional growth plan that will culminate with a panel presentation and a completed portfolio. The presentation will highlight the school year's work on Standard Six. The entire professional growth plan portfolio will also be evaluated.

PSYC 531. PSYCHOEDUCATIONAL GROUPS. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology or permission of instructor.
This course examines the theory, assessment and application of different types of psychoeducational groups for children and adolescents in school and agency settings. In addition to didactic learning, students will be required to participate and lead a psychoeducational group.

PSYC 532. ADVANCED RESEARCH AND STATISTICS I. 4 Credits.
Pre-requisites: accepted to psychology graduate program.
In this course you will learn the basics of research design and analysis for the behavioral sciences. We will be covering concepts, applications techniques for designing and evaluating research studies for both field and laboratory research.

PSYC 533. ADVANCED RESEARCH AND STATISTICS II. 4 Credits.
Pre-requisites: accepted to psychology graduate program.
In this course you will continue to learn the basics of research design and analysis for the behavioral sciences. In this course our primary focus will be the natural science of psychology and single subject (small n) research methods and analysis.

PSYC 534. HUMAN NEUROPSYCHOLOGY. 4 Credits.
Pre-requisites: admission to psychology MS program or school psychology program or instructor permission.
The relationships between physiological processes and behavior.

PSYC 535. INTRODUCTION TO MENTAL HEALTH COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate counseling program: mental health counseling emphasis.
An introduction to the profession of mental health counseling. The course will emphasize historical, philosophical, professional, ethical and public policy perspectives. The focus is on the role of the counselor with various clientele.

PSYC 537. ADVANCED PSYCHOPATHOLOGY. 4 Credits.
Pre-requisites: admission into psychology MS program or graduate standing and instructor permission.
This course is designed to teach strategies in diagnosing mental disorders, and to evaluate the most current treatment modalities. Problems of cultural diversity and ethnic differences are explored.

PSYC 538. RESEARCH TOPICS. 1-5 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: admission to the Psychology Department’s MS program. This course introduces incoming graduate students in the Psychology Department’s MS program to research interests of the department faculty. Lectures cover theory and previous work on problems of interest, design of recent experimental investigations and analysis of experimental data. Students participate in discussions with lectures and develop their own research interests through meetings with selected faculty.

PSYC 539. SEMINAR IN SPECIAL TOPICS. 1-5 Credits.
Notes: may be graded Pass/No Credit.

PSYC 540. INTRODUCTION TO SCHOOL COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate program: school counseling emphasis or permission of instructor.
The development of the school counseling profession; counseling functions within systems; the structure and management of school counseling programs. CACREP standards and PESB standards for School Counselors.

PSYC 542. CAREER COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate counseling program: mental health or school counseling emphasis or permission of instructor.
Career development theory; educational and vocational information; career decision-making processes; components of school or community career programs.

PSYC 543. SCHOOL-BASED INDIVIDUAL INTERVENTIONS. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology.
A general introduction to the theory and process of providing individual psychotherapeutic services to children and adolescents in the schools. Particular attention will be paid to ethical issues and the importance of providing culturally sensitive interventions.

PSYC 544. COUNSELING THEORY AND TECHNIQUES. 4 Credits.
An introduction to principles of counseling, and a survey of contemporary theories and techniques.

PSYC 545. APPRAISAL IN MENTAL HEALTH COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate program: mental health counseling emphasis or permission of instructor.
The administration, scoring and interpretation of standardized tests in the mental health counseling profession. Includes a focus on testing ethics, sources of testing bias and diversity issues in assessment, as well as the use of interview assessment/mental status exam and psychological testing for treatment planning.
PSYC 547. ASSESSMENT: SCHOOL COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate program: school counseling emphasis or permission of instructor.
The use of assessment techniques in the school counseling setting, including standardized instruments, sand play and observation. Includes a focus on testing ethics, sources of testing bias, diversity issues, implications of high stakes testing and effective use of assessment in counseling outcomes.

PSYC 548. COUNSELING CHILDREN AND ADOLESCENTS. 4 Credits.
Pre-requisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor. Counseling principles and techniques as applied to children and adolescents will be presented and analyzed.

PSYC 550. TRAUMA: THEORY, ASSESSMENT AND TREATMENT. 4 Credits.
Pre-requisites: undergraduate degree in psychology or related field. This class explores traumatic experience in terms of substance, impact, and reactions, including the assessment and treatment of trauma-related psychopathology.

PSYC 551. FOUNDATION OF PSYCHOTHERAPY. 5 Credits.
Pre-requisites: admission into psychology MS program with clinical emphasis or instructor permission. Main types of psychological treatment with emphasis upon those which primarily rely on verbal exchanges between the counselee and the therapist. Practical application of techniques will be experienced.

PSYC 552. ESA PEER REVIEW: SCHOOL PSYCHOLOGISTS. 3 Credits.
Pre-requisites: permission of the instructor. This course is designed to fulfill the requirements specified in the Washington Certification Handbook and the Washington Administrative Code for Continuing Certification of School Psychologists. The major emphases of this course are on documenting the knowledge and skills of practicing school psychologists and providing a forum for peer review based on contemporary standards of practice. Required peer review course for continuing ESA certification.

PSYC 553. SOCIAL, EMOTIONAL AND BEHAVIORAL ASSESSMENT OF CHILDREN AND ADOLESCENTS. 4 Credits.
Pre-requisites: admission to a psychology graduate program. Students learn assessment techniques to examine social, emotional and behavioral functioning in children and adolescents. A problem solving approach is utilized with training in reviewing, interviewing, observing, and testing children. Major tests considered and applied within this course include broad rating scales such as the Achenbach and BASC systems and narrow rating scales utilized to diagnose more specific disorders.

PSYC 554. COGNITIVE ASSESSMENT. 4 Credits.
Pre-requisites: admission to psychology MS program with clinical emphasis or school psychology program. This course will provide in-depth training in cognitive assessment, including intelligence, memory, academic, and special abilities testing.

PSYC 555. CLINICAL PRACTICE IN COGNITIVE ASSESSMENT. 3 Credits.
Pre-requisites: admission to psychology MS program with clinical emphasis. Administration, scoring and writing of psychological reports; Stanford Binet, W.I.S.C. and W.A.I.S.

PSYC 556. PERSONALITY AND BEHAVIORAL ASSESSMENT. 5 Credits.
Pre-requisites: admission to psychology MS program or school psychology program. This course focuses on assessment techniques utilized to examine emotional and behavioral functioning in children and adolescents. A problem solving approach is utilized with training in reviewing, interviewing, observing, and testing children. Major tests considered and applied within this course include broad rating scales such as the Achenbach and BASC systems and narrow rating scales utilized to diagnose more specific disorders.

PSYC 557. CLINICAL PRACTICE IN PERSONALITY AND BEHAVIORAL ASSESSMENT. 4 Credits.
Pre-requisites: PSYC 556. Supervision of practice testing with projective techniques, structured personality instruments, and teacher, parent, and self-report rating scales.

PSYC 558. SCHOOL PSYCHOLOGY PRACTICUM. 1-8 Credits.
Notes: Graded Pass/Fail. Repeatable for credit. Supervised experience of school psychology students in assessment, intervention, and consultation, as well as professional and ethical areas.

PSYC 559. COGNITIVE ASSESSMENT LAB. 3 Credits.
Pre-requisites: must be in school psychology program and permission of the instructor. School Psychology graduate students take this course concurrently with PSYC 554. Students will administer, score, report, and interpret published norm-referenced measures of intelligence, memory, achievement, perceptual, adaptive, and special abilities typically used in educational environments.

PSYC 560. SCHOOL PSYCHOLOGY CONSULTATION. 4 Credits.
Pre-requisites: admission to the graduate program in school psychology. This course focuses on the history and principles of collaborative consultation and their application within the school setting. While traditional models of consultation are taught (organizational, behavioral and mental health), this course explores the key components to developing healthy family-school relationships and requires students to work with parents and teachers through Conjoint Behavioral Consultation. Consultation with systems as a preventive strategy is also emphasized, and students complete a school-wide analysis project.

PSYC 561. INDUSTRIAL AND ORGANIZATIONAL PSYCHOLOGY. 5 Credits.
Pre-requisites: graduate standing. This course surveys the application of psychological principles and methods of work. It includes employee selection, motivation, performance and behavior; the structure and function of occupational positions and activities; and the nature, processes and development of organizations.

PSYC 565. DEVELOPMENTAL PSYCHOPATHOLOGY. 4 Credits.
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and abnormal developmental sequences. Attention is given to the diagnosis and implications of such disorders, and to clinical and educational intervention methods.

PSYC 566. DEVELOPMENTAL PSYCHOPATHOLOGY AND CLINICAL NEUROSCIENCE I. 4 Credits.
This is the first course in a two-quarter sequence of instruction that focuses on describing and understanding psychopathological disorders of childhood and adolescence. A critical emphasis is placed on the neurobiological influences that underlie typical and atypical developmental sequences. Attention is also given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.
PSYC 567. DEVELOPMENTAL PSYCHOPATHOLOGY AND CLINICAL NEUROSCIENCE II. 4 Credits.
This is the second course in a two-quarter sequence of instruction that focuses on describing and understanding psychopathological disorders of childhood and adolescence. A critical emphasis is placed on the neurobiological influences that underlie typical and atypical developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical and educational intervention methods.

PSYC 569. FAMILY SYSTEMS AND PARENT EDUCATION. 4 Credits.
Pre-requisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.
The foundations of family systems theory. Examines the interaction between parents, development of the child and the relationship of the family to the school and community. Approaches to child rearing, management and discipline will be considered. Special consideration is given to parent education classes and recent literature in parent counseling.

PSYC 570. CHILDHOOD PSYCHOPATHOLOGY AND TREATMENT. 5 Credits.
Pre-requisites: graduate standing.
This course focuses on psychopathological disorders of childhood and adolescence, critically attending to normal and abnormal developmental sequences. Attention is given to the diagnosis and implications of such disorders and to clinical intervention methods.

PSYC 574. CULTURAL PSYCHOLOGY. 5 Credits.
Pre-requisites: psychology graduate status.
This course investigates the literature and methods involved in the psychological study of people from different cultures – both subcultures within the US and peoples from around the world. It also addresses the question of universality of psychological phenomenon. Graduate students focus particularly on how these findings apply within their graduate field of study.

PSYC 575. DSM TREATMENT ISSUES FOR COUNSELORS. 4 Credits.
Pre-requisites: admission to the graduate counseling program: mental health or school counseling emphasis or permission of the instructor.
The examination of current issues related to the classification and diagnosis of abnormal behavior and psychological states and their relationship to treatment. Dimensional, categorical and functional approaches to classification are reviewed, with emphasis on current forms of child and adult psychopathology found in the DSM-IV-TR. Diagnostic topics include historical influences, cultural variation, symptomology, etiology, developmental patterns and treatment approaches to various diagnostic categories.

PSYC 576. PROFESSIONAL ISSUES IN MENTAL HEALTH COUNSELING. 3 Credits.
Pre-requisites: successful completion of two quarters of mental health counseling Internship in the graduate counseling program: mental health emphasis.
This course provides students an opportunity to transition from the role of a counselor in training to a beginning professional in the field of mental health counseling. Topics will include advocacy, post graduate credentials, supervision, managed health care systems, agency and private practice and organizational change. An emphasis will be placed on professional identity and roles.

PSYC 579. ADVANCED DIAGNOSTIC ASSESSMENT. 4 Credits.
This course is an advanced assessment course that prepares candidates for diagnosis and classification in accordance with multiple theories existing in the clinical and educational research. Students utilize cognitive, academic, and social/emotional data in developing hypotheses regarding the presence of learning and social-emotional disability and in planning for intervention delivery. The course emphasizes the complex variables of culture, environment and language in making inferences regarding the presence of a disability.

PSYC 580. CONSULTATION IN THE COUNSELING PROFESSION. 2 Credits.
Pre-requisites: advanced standing (2nd year) in graduate counseling; mental health or school counseling emphasis, graduate social work, or graduate school psychology programs or permission of instructor.
Application of psychological skills to organizations and systems; systems analysis and interventions; case consultation; peer consultation and consultation with other human service professionals. Includes information on team building, conflict resolution and the counselor’s role as a systems change agent.

PSYC 581. PREJUDICE AND STEREOTYPING. 5 Credits.
Pre-requisites: PSYC 381 or instructor permission.
The course Prejudice and Stereotyping is a five credit discussion course that examines the social psychological underpinnings of prejudice, stereotyping and discrimination. The course topics will address specific types of prejudice such as sexism and racism, individual differences and cognitive states that can lead to prejudice, the effect of prejudice on its targets and reducing prejudice.

PSYC 582. ADVANCED SCHOOL COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate counseling program: school counseling emphasis.
This course provides students with an understanding of the comprehensive school counseling model. Students will learn how to convey themselves as a professional school counselor and to create documents to convey that. Students will learn ways to collaborate with other school professionals and those in K-12 students lives.

PSYC 583. GROUP EXPERIENCE. 1 Credit.
Pre-requisites: admission to the graduate counseling program: mental health or school counseling emphasis or permission of the instructor.
This class will provide a group process experience for first year students in mental health and school counseling emphases.

PSYC 584. GROUP THEORY. 2 Credits.
Pre-requisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.
Factors that lead to group change, membership, goals, productivity and organization.

PSYC 585. GROUP PROCESS IN COUNSELING. 2 Credits.
Pre-requisites: successful completion of PSYC 584 or permission of instructor.
Students will participate in and practice serving as facilitators of groups.

PSYC 587. ADDICTIVE BEHAVIOR COUNSELING. 4 Credits.
Pre-requisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.
Graduate course of theory and pragmatics in addictive behavior counseling that documents the personal, social and cultural impact of addiction. The course is designed for those with a specific interest in the nature and treatment of addictive behavior and students preparing for careers in the helping professions. The course presents an integrated overview of modern research and intervention approaches. A variety of viewpoints, theories and treatment approaches will be introduced.
PSYC 588. CRISIS INTERVEN AND TRAUMA COUNSEL. 4 Credits.
Pre-requisites: admission to the graduate program: mental health or school counseling emphasis or permission of instructor.
This course is designed to provide students with an overview of the theory, impact, issues and skills of crisis counseling due to traumatic events such as: violence, child abuse, mass casualty events and suicide ideation, as well as the nature, causes and symptoms of professional burnout for crisis workers. The course will examine models for working with children and adolescents, working with victims of violence, suicide prevention, issues of health-related school and mental health crises and the ethical, legal and diversity factors of crisis intervention.

PSYC 590. DIVERSITY COUNSELING. 3 Credits.
Pre-requisites: admission to the graduate counseling program: mental health or school counseling emphasis or permission of instructor.
This course will introduce students to a broad spectrum of issues of diversity in counseling, including an examination of their own personal history/background and its impact on their perception of and response to diversity in clients. In this class, the term “diversity” includes differences in racial and ethnic origins, gender, ability, physicality, belief systems, socio-economic status, sexual orientation, developmental stage and variability of intellectual functioning.

PSYC 592. SUICIDE ASSESSMENT AND TREATMENT. 1 Credit.
Pre-requisites: Admission to the Counselor Education program, or instructor permission. Undergraduate enrollment with instructor permission.
This course provides an overview of suicide risk and protective factors. Outlines a working assessment framework to assign risk as well as intervention techniques and best practices, including referral when needed.

PSYC 594. PROFESSIONAL ISSUES IN SCHOOL COUNSELING. 2 Credits.
Pre-requisites: admission to the graduate counseling program: school counseling emphasis.
This course provides information and experiences to enable the student to transition from the role of counselor in training to that of a professional in the field of school counseling. Topics include advocacy, management of school counseling services and programs, professional identity. Students contribute to the topics surveyed in this course based on experiences in the program.

PSYC 596. EXPERIMENTAL COURSE. 1-5 Credits.
PSYC 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

PSYC 598. SEMINAR. 1-5 Credits.
Notes: may be graded or offered Pass/No Credit at the discretion of the instructor.
Current problems in psychology are presented by department faculty.

PSYC 599. INDEPENDENT STUDY. 1-5 Credits.

PSYC 600. THESIS. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A bound research study conducted as partial fulfillment of a master’s under the direction of a graduate committee.

PSYC 601. RESEARCH REPORT. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
A research study in lieu of a bound thesis conducted as partial fulfillment of a master’s under the direction of a graduate committee.

PSYC 602. SCHOOL PSYC PORTFOLIO. 1-6 Credits.
Pre-requisites: admission to School Psychology Program.
Students prepare reflections and evidence to document their knowledge and competence in the NASP standards for training and practice. An informal presentation of the portfolio is provided at the end of the second year of the program to document readiness for the internship experience. In the third year of the program, students provide a formal presentation as a culminating experience in the program.

PSYC 651. ADVANCED PSYCHOTHERAPY STRATEGIES. 3 Credits.
Pre-requisites: admission into the psychology MS program with clinical emphasis or instructor permission, PSYC 551.
Advanced techniques and strategies of psychological treatment. Techniques reviewed could include compassion focused therapy, solution focused therapy, brief therapeutic strategies, dialectical behavior therapy and/or other therapeutic strategies used in the field. Practical application of techniques will be experienced.

PSYC 694. PRACTICUM. 1-8 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: admission to psychology MS program or school psychology program.
Supervised experience of a clinical or counseling nature in service areas or supervised experience in research.

PSYC 695. INTERNSHIP IN SCHOOL PSYCHOLOGY. 1-6 Credits.
Notes: may be graded Pass/No Credit.
Pre-requisites: permission of the instructor, department chair and college dean and must be in the school psychology program.
Experience under supervision in selecting, administering and scoring tests. Opportunities for diagnosis, counseling evaluation and reporting.

PSYC 696. COLLEGE TEACHING INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair.
Teaching a lower-division college course under the supervision of a regular faculty member. Includes course planning, arranging bibliographical and other instructional aids, conferences with students, experience in classroom instruction, and student and course evaluation.

PSYC 697. INTERNSHIP IN PSYCHOLOGY. 1-10 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Internship experience of professionally supervised training in approved agency or institution. The period of internship will commence on the date it is approved by the department chair and no internship credit will be granted retroactively.

Public Administration (PADM)

PADM 500. PERSONAL ASSESSMENT. 1 Credit.
Notes: Graded Pass/No Credit. This course should be taken the 1st or 2nd quarter in the program.
Pre-requisites: admitted MPA student or director signature required.
A seminar in weekend format during the student’s first or second quarter; it concentrates on career choice issues and assists in determining job fit, teaching students the use of psychometric instruments and techniques for assisting employees to make sound career decisions. The weekend will also include an abbreviated assessment center so students can gain experience in both the roles of assessor and assessee.
PADM 501. PUBLIC ADMINISTRATION RESEARCH APPROACHES. 4 Credits.
Notes: this course should be taken the 1st or 2nd quarter in the program.
Pre-requisites: A college level course in U.S. domestic political institutions taken within seven years with a grade ≥2.5 or C. Admitted MPA student or director signature required.
Assists the student in developing skills in locating, obtaining and assembling information pertinent to public administration. The course explores various approaches to research found in public administration literature. It also involves students in critically examining research with attention to the tasks of defining a research purpose, posing research questions, writing a literature review and selecting an appropriate research approach (quantitative, qualitative or mixed methods).

PADM 503. CONCEPTS AND VALUES PUBLIC SERVICE. 4 Credits.
Notes: this course should be taken the 1st or 2nd quarter in the program.
Pre-requisites: A college level course in U.S. domestic political institutions taken within seven years with a grade ≥2.5 or C. Admitted MPA student or director signature required.
Offers an analysis of the development of the administrative state and the profession of public administration. Emphasis is placed on the value system underlying modern public administration and its impact on the administrative process.

PADM 505. PUBLIC POLICY CYCLES. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required, domestic political institutions required.
An examination of the impact of environmental forces on the formulation and content of public policy on the local, state or national level. Such elements as social values, political institutions and processes, intergovernmental relations, political resource distribution and the structure of policy are central to this investigation.

PADM 507. PUBLIC POLICY ANALYSIS. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required, statistical techniques through inferential required.
Offers an examination of rational decision making with a focus on use of analytical tools as an instrument of public policy. Analytic tools include political and economic modeling. Emphasis varies with instructor.

PADM 509. PUBLIC PERSONNEL MANAGEMENT. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required. Addresses the fundamentals of human resource management in the public sector. Topics covered may include the civil service system, merit principles, equal employment opportunity, and/or current human resource management issues or techniques related to such concerns as employee recruitment, selection, orientation and motivation.

PADM 511. PUBLIC SECTOR ORGANIZATION THEORY AND DYNAMICS. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required. A review of contemporary organization theory and ways that it helps understand the dynamics of organizational change and transformation, with special reference to the public sector and the basic values of modern public administration.

PADM 513. PUBLIC PLANNING AND BUDGETING. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required. An examination of budget process emphasizing bureaucratic politics, policy issues, alternative methods, and planning techniques.

PADM 515. ADMINISTRATIVE LAW AND REGULATION. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required, domestic political institutions required. A description, analysis and critique of the American systems of administrative law and regulations and their impact on the public manager.

PADM 517. PROFESSIONAL EMPLOYMENT. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required.
A seminar in weekend format offered as a student's graduation approaches; it focuses on transition into the job market, giving students experience in résumé preparation, hiring practices and interview techniques from the perspective of both the employer and prospective employee. Additional topics to be covered include personnel system reform efforts, handling of stress in the workplace and ethical issues which commonly arise.

PADM 519. PUBLIC SERVICE LEARNING. 2 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required.
Guided field placement in at least 100 hours of voluntary service with an agency or organization that provides public service. (Students may be excused from this course based on evidence of at least 100 hours of voluntary service provided in a context outside of this requirement. If a student is excused from this course, the 2 credits will be replaced with 2 credits of elective classes.)

PADM 523. PUBLIC FINANCIAL MANAGEMENT. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required. Guided field placement in at least 100 hours of voluntary service with an agency or organization that provides public service. (Students may be excused from this course based on evidence of at least 100 hours of voluntary service provided in a context outside of this requirement. If a student is excused from this course, the 2 credits will be replaced with 2 credits of elective classes.)

PADM 525. PUBLIC SECTOR GRANTS-WRITING AND ADMINISTRATION. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required.
Examination of the development of public sector grant programs and the distribution and fiscal management of money transfers. Topics include project development, grant applications, program planning and implementation and public policies for the improvement of intergovernmental operations.

PADM 527. CAPITAL FINANCE AND BONDS. 2 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required.
Within a general vision of larger governmental finance system, this course describes optional means of financing and addresses the pros and cons of each.

PADM 531. INTERGOVERNMENTAL RELATIONS. 4 Credits.
Pre-requisites: PADM 500, PADM 501, PADM 503 and admitted MPA student or director signature required.
Explores the interdependence and linkages between governmental agencies explored from the perspectives of the legal/regulatory, fund raising/fund transfer and administrative/cooperative elements in our federal system.
PADM 533. CITY GOVERNMENT ADMINISTRATION. 4 Credits.
An exploration of the major management issues and techniques involved in the professional management of city governments. Topics include the role of the professional city administrator, the changing face of cities, major city services issues, ethics, decision making, and budget preparation. Examines both theoretical and the practical aspects of city government management.

PADM 539. SPECIAL TOPICS. 1-5 Credits.

PADM 543. LABOR RELATIONS. 2 Credits.
This course covers a broad range of topics such as history of the labor movement, federal and state statutes covering the field, emergency operations planning and legislative lobbying efforts.

PADM 545. COLLECTIVE BARGAINING. 2 Credits.
Cross listed: BADM 545.
This course addresses the process of reaching agreement on a contract.

PADM 547. HIRING RIGHT. 2 Credits.
This course addresses hiring issues such as employee screening, using employment agencies and search firms, and staying out of court.

PADM 551. COMPARATIVE PUBLIC ADMIN. 4 Credits.
A comparative examination and analysis of the impacts of political and social cultures on public administrative systems within nation states.

PADM 553. CONSTITUTION AND PUBLIC ADMINISTRATION. 2 Credits.
This course is intended to engage public administrators in serious consideration of how the U.S. Constitution and U.S. Supreme Court cases interpreting it affect our practice.

PADM 555. THE POLITICAL EXECUTIVE. 4 Credits.
Examines the role, responsibilities and powers of the elected and politically appointed executives in government and agencies in the U.S.

PADM 561. PUBLIC ADMINISTRATION THROUGH FILM AND TELEVISION. 2 Credits.
This course explores, through cinematic images, how government and government employees are portrayed in film and television.

PADM 563. PUBLIC SECTOR ETHICS. 4 Credits.
This course seeks to provide an understanding and appreciate of basic ethical concepts and frameworks, a variety of ethical theories and approaches are considered and applied to public sector situations. A main focus of the course is on the exercise of both individual and collective judgment - "Right Action" or "Good Conduct" - In public organizational and policy setting.

PADM 571. ENTREPRENEURSHIP: JOURNEY OR DESTINATION. 4 Credits.
This course is designed to assist students in assessing their personal interests in entrepreneurship and as part of that assessment, the course will include learning from the life and times of entrepreneurs, both historical and present. The student will be expected to develop a biosketch of their chosen entrepreneur and share that information with the class. cross listed with BADM 571

PADM 596. EXPERIMENTAL COURSE. 1-4 Credits.

PADM 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-4 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

PADM 598. SEMINAR IN PUBLIC ADMINISTRATION. 1-5 Credits.

PADM 599. INDEPENDENT STUDY. 1-4 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

PADM 600. THESIS RESEARCH SEMINAR. 1-15 Credits.
Notes: continuous registration of 2 credit hours per quarter; maximum of 8 credits allowed toward MPA degree.
Pre-requisites: PADM 501 and permission of the instructor, department chair and college dean.
A seminar designed to assist students completing research requirements in connection with the MPA program. This is a required course if the thesis option is chosen. The thesis can be substituted for the advanced research and writing seminar within a chosen specialization and as an elective. The thesis option is intended for those students going on to doctoral study.

PADM 601. MPA CAPSTONE. 2 Credits.
Pre-requisites: permission of the MPA director or both of the following: 1. completion of all other core classes, and 2. taken concurrently with MPA 602 MPA Portfolio in the last quarter before obtaining the MPA degree.
An integrative analysis of public administration from a generalist’s perspective and synthesizes prior specialized instruction in the basic theories, institutional and organizational dynamics, and processes involved in public administrative practice. This course concludes with the MPA Written Comprehensive Examination, successful completion of which is required for students to receive the MPA degree.

PADM 602. MPA PORTFOLIO. 2 Credits.
Notes: graded Pass/No Credit.
An advanced reflective praxis project in which a student, following the guidelines provided by the MPA Program and with the advice and editorial review of the chair of his/her comprehensive oral exam committee, develops a portfolio including his/her best work in the MPA Program. The portfolio is presented and discussed as part of the comprehensive oral exam for the MPA degree.

PADM 603. INTERNSHIP IN PUBLIC ADMINISTRATION. 2-8 Credits.
Notes: grade Pass/No Credit; may be repeated.
Pre-requisites: permission of the instructor, department chair and college dean.
Guided field placement with a public agency.

PADM 695. INTERNSHIP. 5-10 Credits.

Public Health (PUBH)

PUBH 201. INTRODUCTION TO ENVIRONMENTAL HEALTH. 3 Credits.
This course is designed to give students the basic understanding of how the relationship between people and the environment impacts their physical well-being. The student becomes acquainted with the scientific and technical foundations of the field of environmental health and examines the practice of environmental health and problems which are addressed. Emphasis is on the general understanding of environmental factors, the transmission of communicable diseases and health hazards related to exposure to chemical and physical factors in the environment.

PUBH 250. INTRODUCTION TO GLOBAL HEALTH AND HEALTHCARE. 5 Credits.
This course explores social issues of health and health care in the United States and other developed and developing countries. Content includes structure of health care systems, social and political influences on health and health care, and the geographical influence of health and disease.

PUBH 301. EMERGING DISEASES IN PUBLIC HEALTH. 2 Credits.
Pre-requisites: sophomore standing.
This course explores the origin, epidemiology, and methods to control emerging infectious diseases of global health importance.
PUBH 401. EPIDEMIOLOGY IN PUBLIC HEALTH. 3 Credits.  
Pre-requisites: CSBS 320 or MATH 380.  
This course is a basic introduction to epidemiology. The course uses descriptive and analytical epidemiological methods to explore public health problems. Major concepts to be explored include: classification of disease, incidence and prevalence, outbreak investigation, study design, and screening.

PUBH 460. CURRENT ISSUES IN PUBLIC HEALTH I. 3 Credits.  
Pre-requisites: PUBH 201, PUBH 250, PUBH 301, PUBH 401.  
This course addresses current issues in public health related to epidemiology, environmental health, and health care delivery at the regional, national, and international level.

PUBH 461. CURRENT ISSUES IN PUBLIC HEALTH II. 3 Credits.  
Pre-requisites: PUBH 460.  
This course consists of an in-depth study of local public health practice.

PUBH 490. PUBLIC HEALTH SENIOR CAPSTONE. 5 Credits.  
Pre-requisites: PUBH 461.  
Self-directed application of theoretical knowledge to real world problems in public health at the local, regional, national or global level.

PUBH 500S. ORIENTATION TO PUBLIC HEALTH 1. 1 Credit.  
This course introduces students to the history and background of public health. It aims to develop a public health orientation among students, and discusses some of the successes and failures of public health.

PUBH 501S. FURTHER HISTORY AND PHILOSOPHY OF PUBLIC HEALTH. 1 Credit.  
This course provides a more detailed introduction to public health approaches and concepts. It aims to continue to develop a public health orientation among students, and discusses public health issues, concepts and terminology.

PUBH 506. ISSUES IN GLOBAL HEALTH. 4 Credits.  
This course discusses the major health problems of the human population at a global level and the major challenges to improving health. It explores the factors that influence health patterns, ranging from their physiological basis to the social and political context. Topics include: infectious diseases, injuries, risk factors, health care systems and international agencies role in forming global health policy.

PUBH 510. BIOSTATISTICS. 4 Credits.  
This course prepares students to understand and apply biostatistical methods needed in the design and analysis of biomedical and public health investigations. The major topics to be covered include: types of data, descriptive statistics and plots, theoretical distributions, probability, estimation, hypothesis testing and one-way analysis of variance. The course is intended for graduate students and health professionals interested in the design and analysis of public health studies.

PUBH 511. APPLIED BIOSTATISTICS. 4 Credits.  
Pre-requisites: PUBH 510.  
This course is an introduction to the principles and application of regression methods for statistical analysis of data. The course is designed for students who have a working knowledge of basic statistical concepts which include descriptive statistics, components of statistical inference and concepts of confounding and effect modification. Topics include: linear regression models, logistics and regression models. Students will learn to work with covariates such as confounding variables, effect modifiers and precision variables in the use of regression.

PUBH 516. ENVIRONMENTAL HEALTH. 4 Credits.  
This course provides an overview of the multidisciplinary field of environmental/occupational health. The course covers a wide variety of environmental hazards and influential factors, their interactions with the health and well-being of humans, and their relationship to assuring and promotion the health of the public. Environmental problems of the workplace, community, home, regional and global settings will be discussed with use of case studies including developing countries. Environmental health concerns will be examined relative to social, economic and other factors that influence the effects of environmental hazards or influence public health.

PUBH 520. FUNDAMENTALS OF EPIDEMIOLOGY. 4 Credits.  
This course introduces the principles and concepts of epidemiology, methods of epidemiologic investigation, and the design, interpretation and evaluation of epidemiologic research. The course prepares the student to apply epidemiologic concepts to solve public health problems.

PUBH 521. EPIDEMIOLOGICAL METHODS. 4 Credits.  
Pre-requisites: PUBH 510 and PUBH 520.  
This course prepares the student to engage in epidemiologic research of issues of public health concern. Topics include: confounding, multivariate analysis, randomized trials, cohort studies, case-control studies, meta-analysis. Students apply a variety of research designs to solve public health problems.

PUBH 524. APPLICATION OF EPIDEMIOLOGICAL METHODS. 4 Credits.  
Pre-requisites: PUBH 521.  
This course is designed to introduce the student to advanced concepts in epidemiologic methods with a primary emphasis on observational studies. Topics include: measures of disease frequency, causal inference, measures of association, stratified and logistic regression analysis, interpretation of epidemiologic study results.

PUBH 560S. FOUNDATIONS IN EPIDEMIOLOGY. 3 Credits.  
This course imparts in students the foundations of epidemiology, including its principles, concepts, and methods of epidemiologic practice; design, interpretation and evaluation of epidemiologic investigation. The course prepares the student to apply epidemiologic concepts to solve public health problems. Emphasis is placed on the principles and methods of epidemiologic investigation, and the use of classical statistical approaches to describe health of populations, and appropriate summaries and displays of data. Topics include the dynamic behavior of disease; calculation and use of rates, ratios and proportions; methods of direct and indirect adjustment measuring and describing the extent of disease problems. Various epidemiologic study designs for investigating associations between risk factors and disease outcomes are studied, with standard criteria for causal inferences. The application of these disciplines in the areas of health services, screening, genetics, environment, systems, behavior and policy are presented. This course also discourses the influence of epidemiology and biostatistics on the decision making process.
PUBH 561S. SOCIAL AND BEHAVIORAL ISSUES IN PUBLIC HEALTH. 4 Credits.
An overview of the vast body of literature that incorporates social and personality factors, cultural influences upon individual behavior, stress and related psychosocial factors as determinants of health. These determinants of health and illnesses are multi-factorial and enmeshed in the social fabric and psychological constitution of the person or may involve a complex interaction of the person and environment. This course will illustrate how public health, epidemiology and the medical sciences have borrowed from theoretical and conceptual bases of the behavioral sciences for etiologic models of disease. Public health literature using psychosocial epidemiology measures will be discussed, such as the chronic, degenerative diseases: hypertension, CVD, depression, arthritis, certain cancers and diabetes. The potential of the behavioral sciences for the development of explanatory frameworks and expanding knowledge of social conditions of unknown etiology will be emphasized. In addition, research methodology in Psychosocial epidemiology will be reviewed.

PUBH 563S. RESEARCH, BIOSTATISTICS AND OTHER WAYS OF ‘KNOWING’. 3 Credits.
This course begins with an introduction to differing research paradigms, before moving on to discuss the important issue of ethics in research. The course then concentrates on biostatistics. This approach is subsequently critiqued and alternative more qualitative and participatory approaches are examined. A critical approach is adopted to explore all of the paradigms presented.

PUBH 564S. ENVIRONMENTAL AND OCCUPATIONAL PUBLIC HEALTH. 3 Credits.
This course introduces students to the twin fields of environmental and occupational health. It begins with an examination of human-environment interactions, global climate change and the Anthropocene concept. The course then explores potential environmental threats (physical, chemical, radiological and biological agents) and bodily responses to such insults in both the workplace and the wider environment. Vectors for dissemination are then examined, as are susceptible populations and biomarkers. The potential of GIS is explored via a practical project as part of a risk analysis. Risk management and response are briefly introduced. A critical approach to environmental and occupational health induced illness is adopted through an exploration of the impacts of race, ethnicity, socio-economics and industrial interests on debates in the field.

PUBH 565S. COMBATTING HEALTH INEQUALITIES. 3 Credits.
This course begins with an examination of health inequalities locally, nationally and globally. This is followed by an examination of competing explanations for the existence of such inequalities. Particular attention is paid to structural issues and racism and exclusion. The course then focuses on health promoting responses to such inequalities at all relevant levels through focusing on an annual health issue (individual, family, group, community, neighborhood, City, State, National, International).

PUBH 572S. HEALTH RISK MANAGEMENT AND RESPONSE. 3 Credits.
This course focuses on risk management, preparedness and response. The course starts with an examination of the risk management process and adopts a systems based approach. Attention is given to legal, governance and ethical dimensions of risk management before a vulnerability assessment is completed by students. The course then examines emergency planning and preparedness for ‘major incidents’, before concluding with an exploration of public health responses to infectious disease outbreaks.

PUBH 573S. HEALTH PROGRAM PLANNING, EVALUATION AND PROCESS IMPROVEMENT. 3 Credits.
This course introduces the student to community program planning and evaluation. The course is designed to develop the core competencies needed to plan, implement and evaluate public health interventions. The course introduces the major activities and processes involved in planning, implementing, and evaluating public and community health programs. Students will be introduced to a range of theories, evidence-based strategies, and resources critical to effective public health practice. Students will learn concepts by applying them to ongoing projects in cooperation with real clients in the field.

PUBH 574S. SEMINAR IN PUBLIC HEALTH PREPAREDNESS. 3 Credits.
This course focuses on public health preparedness and response to major incidents and communicable disease outbreaks. The course starts with an examination of concepts of risk before examining the principles of response. The major foci of this course are: initial rapid assessment; surveillance; personnel and logistics; and communicable disease control.

PUBH 582S. PROFESSIONALISM IN PUBLIC HEALTH 1. 1 Credit.
This course provides an introduction to professionalism in public health. It focuses on self-presentation and internship preparation.

PUBH 583S. PROFESSIONALISM IN PUBLIC HEALTH 2. 1 Credit.
This course provides an introduction to professionalism in public health. It focuses on self-presentation and internship preparation.

PUBH 585S. RESEARCH PROJECT PROPOSAL 1. 1 Credit.
The first half of this course guides students in developing a clear focused ethical relevant and achievable research proposal. It then focuses on advanced academic skills in conducting a comprehensive in-depth literature search and writing a literature review worthy of publication.

PUBH 586S. RESEARCH PROJECT PREPARATION 2. 1 Credit.
The first half of this course further develops students’ understanding of philosophical approaches to research. The second half then turns to advanced skills in methodological questions relating to conducting a research project worthy of publication.

PUBH 587S. RESEARCH PROJECT. 2 Credits.
Pre-requisites: PUBH 585S and PUBH 586S.
Completion of a research project under guidance from a faculty member.

PUBH 594S. SEMINAR IN HEALTH PROMOTION. 3 Credits.
By reviewing specific programs, this course introduces the student to health communication, its theories, its role in health promotion and behavior. It also provides the student with an understanding of health communication research and practice, its role in patient provider interactions, public health campaigns and media advocacy. In addition, this course allows the student to understand the foundations of social, cultural and organizational complexities of communicating about health.
PUBH 598S. SEMINAR IN EPIDEMIOLOGY. 3 Credits.
Pre-requisites: must be declared in MPH.
This course provides an overview of methods and procedures for conducting research in Race and Culture studies and prepares students to develop a general understanding of research methods commonly used to gain and extend knowledge about race and culture. Students gain exposure to theory, knowledge and techniques that increase their effectiveness in thinking about consuming and conducting research about race and culture. The course is designed to be both an application and a theory course with the emphasis on gaining an initial understanding of the research processes.

PUBH 390. SENIOR CAPSTONE IN RACE AND CULTURE STUDIES. 5 Credits.
Pre-requisites: senior standing.
This course encourages personal engagement in the interest of relevance and pragmatism, through community study, research and documentation; directed research on an ethnic community problem to include fieldwork within the student’s chosen community.

Race and Culture Studies (RCST)

RCST 101. AN INTRODUCTION TO THE STUDY OF RACE AND CULTURE. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
This course is specifically designed to discuss at length the social construct and the lived realities of race and culture and how global diversity, the richness of culture, and complexities that internationalization and globalization impact our current realities.

RCST 202. RACE, PRIVILEGE AND POWER. 5 Credits.
Satisfies: cultural and gender diversity university graduation requirement.
This course examines social stratification in the United States through the prism of race, privilege, and power. The course analyzes how social structure and ideology maintain social inequality. Specifically, it examines the ways in which the American economic, political and social systems perpetuate and reinforce inequality based on differences in class, race, culture and gender, and access to power.

RCST 304. LIBERATION AND SOCIAL CHANGE. 5 Credits.
Pre-requisites: RCST 101.
This course examines the ageless social liberation movements and struggles to be free through change: free to be critical of one’s condition; free to express oneself without fear of retribution; or free from social, economic, political or religious oppression. It examines social change as it refers to an alteration in the social order of a society. This course is designed to focus on the liberation struggles, movements and social change of those historically marginalized populations in the U.S. The objective is to focus specifically on the struggles of African Americans, Chicanos, Native Americans and Asian Americans, a select few women and men and the liberation movements most associated with them.

RCST 330. RESEARCHING RACE AND CULTURE. 5 Credits.
Pre-requisites: RCST 304.
This course allows students to present and discuss papers on topics relative to epidemiologic principles and practice. Guest speakers will present on a range of topics that may not have been covered previously. Possible topics for student presentation include: issues in measurement, casual reasoning, research ethics and issues of a research career. Faculty will guide the selection of topics and readings and facilitate active dialogue during discussions.

RCST 390. EXPERIMENTAL. 3 Credits.
Experimental course in Public Health.

RCST 490. SENIOR CAPSTONE IN RACE AND CULTURE STUDIES. 5 Credits.
Pre-requisites: RCST 330.
This course provides an overview of methods and procedures for conducting research in Race and Culture studies and prepares students to evaluate research findings and practices, to design and carry out basic research procedures. Students learn to critically evaluate and utilize research, select research instruments and design applied research projects.

Notes:
RCST 491. SENIOR THESIS IN RACE AND CULTURE STUDIES. 5 Credits.
Pre-requisites: senior standing.
The thesis represents a summative assessment of the student’s academic competence in his or her field of study. Students complete and defend an original research project in the study of Race and Culture.

RCST 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair.

Recreation & Leisure Services (RCLS)

RCLS 125. RECREATION AND LEISURE SERVICES ACTIVITIES. 1 Credit.
Notes: co-educational.
Backpacking, basic rock climbing, scuba diving, skiing (cross country), canoeing, and rafting.

RCLS 196. EXPERIMENTAL COURSE. 1-5 Credits.

RCLS 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

RCLS 201. RECREATION AND LEISURE IN MODERN SOCIETY. 3 Credits.
An introduction and orientation to the professional opportunities, areas, requirements, and responsibilities involved in the professional preparation of recreation and leisure services administrators. Includes basic problems and trends influencing the status of recreation and leisure in our contemporary society. Covers history, definitions, and professional organizations.

RCLS 205. WINTER CAMPING. 3 Credits.
Introduction to winter camping and modes of oversnow travel such as showshoeing and cross-country skiing. Emphasizes skill development in winter camping techniques, natural shelter construction, and equipment familiarity, supported through field experience.

RCLS 206. WILDERNESS BACKPACKING. 3 Credits.
An introduction to techniques and procedures of living and traveling in a wilderness environment. Special attention is given to modern conservation practices for using and preserving wilderness. Includes two weekend field experiences.

RCLS 220. LEADERSHIP IN RECREATION AND LEISURE SERVICES. 3 Credits.
Pre-requisites: must be a declared Recreation Major (Outdoor Recreation, Therapeutic Recreation or Recreation and Tourism Management) or Challenge Course Management and Leadership Minor or permission of instructor. Emphasis on the elements of leadership in the recreation setting. Designed to provide ideas on how to lead programs so they fit participant needs. Fieldwork is part of the requirement.

RCLS 225. FACILITATION TECHNIQUES. 3 Credits.
Pre-requisites: RCLS 220. This course teaches advanced leadership and facilitation skills for group initiatives and teambuilding activities. This course covers topics that are vital to the framework for developing teambuilding and group facilitation programs and sessions. Topics discussed include selection of appropriate challenge activities to meet the needs of a specific group, understanding group dynamics, group goal setting and assessment, sequencing, framing, debriefing techniques and leadership considerations for individual and co-leader facilitation. Fieldwork is part of the course requirements.

RCLS 230. WHITewater KAYAKING. 2 Credits.
This course is designed to instruct paddlers in whitewater kayaking techniques. The course will emphasize the essential skills needed for paddling moderately difficult rivers. The basic kayaking skills that are taught in the course include: paddle strokes, boat control, and basic whitewater safety information.

RCLS 240. OVERVIEW OF THERAPEUTIC RECREATION SERVICES. 4 Credits.
FALL/SPRING This course focuses on understanding the basic problems, needs and strengths of all disability groups in relation to developing and implementing a therapeutic recreation program.

RCLS 245. THERAPEUTIC RECREATION FOR PEOPLE WITH DISABILITIES. 3 Credits.
Deals with basic information necessary for you to identify, define, and describe major physical disabilities including their implications for therapeutic recreation programming.

RCLS 250. CAMP ADMINISTRATION AND LEADERSHIP. 3 Credits.
This course covers the philosophy, objectives, planning and operation of camps. It also provides an overview of counselors’ responsibilities, programming, marketing, health and safety, as well as individual and group guidance techniques and trends.

RCLS 260. ARTS IN RECREATION. 3 Credits.
This course presents several media of art, i.e. mask making, clay, paper art, music and physical movement, and delves into the historical and cultural interpretations of each medium. Hands on application and practice with the medium follows, accompanied by teaching guidelines and discussion of adaptations for various populations.

RCLS 270. DIVERSITY AND SOCIAL JUSTICE IN RECREATION AND LEISURE SERVICES. 3 Credits.
Pre-requisites: RCLS 201 or permission of instructor.
This course is designed to enhance understandings of leisure in a diverse society. Students examine factors that influence leisure, explore how leisure mirrors broader cultural values, and learn ways to use leisure to expand their own cultural understandings. In addition, students learn to think critically, understand and respect different perspectives, and appreciate the cultural and contextual nature of their leisure choices and actions.

RCLS 296. EXPERIMENTAL COURSE. 1-5 Credits.

RCLS 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

RCLS 300. PUBLICITY AND PROMOTION IN RECREATION. 4 Credits.
Provides skills, techniques and ideas for designing visual aids, working with the media and developing a five-step promotion package for recreation and leisure service agencies.

RCLS 305. WINTER CAMPING. 3 Credits.
Pre-requisites: RCLS 206 or permission of the instructor. Introduction to winter camping and modes of oversnow travel such as showshoeing and cross-country skiing. Emphasizes skill development in winter camping techniques, natural shelter construction, and equipment familiarization, supported through field experience.

RCLS 307. MOUNTAINEERING. 3 Credits.
Pre-requisites: RCLS 305 or permission of the instructor.
Designed to provide a comprehensive program of basic mountaineering. Intensive consideration given to snow and glacier travel as well as other skills necessary for safe alpine mountaineering. Includes two weekend field trips.
RCLS 310. OUTDOOR RECREATION. 3 Credits.
This course will examine the broad spectrum of outdoor recreation. The course materials are designed to explore the following aspects of outdoor recreation: agencies affecting the management of outdoor recreation experiences; concepts of wilderness and wilderness management; a review of the pertinent issues related to those who work in the field. Responding to the challenges of building a career in the field of outdoor recreation, the focus of this course will be in designing, planning, interpreting, and transferring outdoor recreation experiences. This course will rely on a combination of critical reading, creative thinking, exploratory writing and group participation to enable the student to broaden her or his understanding of the expansive domain of the outdoor recreation industry.

RCLS 313. WILDLAND RECREATION MANAGEMENT. 3 Credits.
Pre-requisites: RCLS 201.
This course is designed to provide an overview of wildland recreation management history, principles, practices and contemporary issues. An additional emphasis of the course is to expose students to the seven principles that guide the mission of the Leave No Trace Center for Outdoor Ethics.

RCLS 315. WILDERNESS SURVIVAL. 3 Credits.
Provides basic life-support skills and information to help you predict and prepare for the types of emergencies you are likely to encounter in a particular geographic location. Course includes an overnight encounter with limited supplies.

RCLS 321. CHALLENGE COURSE LOW ELEMENT. 3 Credits.
Pre-requisites: RCLS 220.
In this course students will learn proper facilitation skills for spotted activities and low challenge course elements. Topics discussed include: program safety, standard operating practices and procedures, assessing the physical, human and social environment to improve participant safety and program effectiveness, various spotting techniques, conducting low element inspections, equipment maintenance and risk management for low challenge courses. Students will be introduced to current challenge course industry standards for low challenge course elements. Course requirements include hands-on experience and spotting at low height.

RCLS 325. OUTDOOR ADVENTURE PROGRAMMING. 3 Credits.
A survey of outdoor adventure education programs. Includes historical development and future trends as well as methods of initiating outdoor adventure education within a curriculum or program.

RCLS 330. INTERMEDIATE WHITewater KAYAKING. 2 Credits.
Notes: Further instruction and development is advised upon the completion of this course. The ACA recommends completing an advanced whitewater kayaking class as the next step in the student progression. See the instructors of this class or go to www.ACA.org for more information.
Pre-requisites: permission of instructor.
The course is best suited for paddlers who have continued to develop their kayaking skills and acquire experience in the whitewater environment, including the ability to reliably roll a capsized boat in Class II whitewater. The intermediate kayaking skills and information taught in this course emphasize developing good judgment and decision-making skills; group management; developing an ethic of environmental stewardship; intermediate paddling techniques and mechanics; the presentation of on-water scenarios to assess risk, evaluate rapid features, and develop strategies; and the principles of safety and rescue for individuals and groups.

RCLS 340. AQUATIC FACILITIES MANAGEMENT. 3 Credits.
Emphasis on pool, beach, and lake properties concerning operation, administration, maintenance, supervision, trends, water chemistry, health and safety, public relations and other aquatic topics.

RCLS 349. YOUTH SPORTS MANAGEMENT. 3 Credits.
This course is designed to introduce students to the primary responsibilities of a programmer or administrator in the youth sports management setting. Topics include managing risk, finances, leagues and tournaments, parents, coaches, and referees.

RCLS 350. RECREATION PRACTICUM. 5 Credits.
Pre-requisites: RCLS 201.
Direct observation and on-the-job participation in the programming and operation of recreation programs within the local recreational community to enhance your programming, scheduling, and leadership techniques under a supervised situation.

RCLS 351. FIELD PRACTICUM. 1-15 Credits.
Involves the practical application of theoretical concepts and recreation-related skills in a recreation and leisure services organization. Requires three (3) hours of work, per week, for every credit assigned; i.e.; one credit equals thirty hours of work over a ten-week period. Students must document their work in accordance with PEHR department policies.

RCLS 352. CHALLENGE COURSE TECHNICAL SKILLS. 3 Credits.
Pre-requisites: RCLS 220.
In this course students will learn proper technical and facilitation skills for high challenge course elements. Students will be introduced to current challenge course industry standards for challenge course installation, inspection, operations and certification. Topics discussed include equipment, spotting techniques, belay techniques and systems, knot tying skills, challenge course set-up and breakdown, challenge course terminology, proper safety guidelines and risk management. Course requirements include hands-on experience and climbing at height.

RCLS 353. CHALLENGE COURSE ADVANCED TECHNICAL SKILLS. 3 Credits.
Pre-requisites: RCLS 352.
In this course students will expand their technical skills for both low and high challenge course elements. Current challenge course industry standards for challenge course installation, inspection, operations and certification will be emphasized and reviewed. Topics discussed include emergency management including executing high course rescue techniques, understanding critical applications and climbing in a leading edge environment, learning advanced belay systems and descending techniques and developing technical teaching skills for the challenge course environment. Course requirements include hands-on experience and climbing at height.

RCLS 360. FACILITY PLANNING AND ENVIRONMENTAL DESIGN. 3 Credits.
Pre-requisites: RCLS 201 and junior standing or permission of the instructor.
Design and trends in recreation facilities, as well as knowing environmental design techniques, environmental impact statements, and inter-agency cooperation. Field work is part of the requirement.

RCLS 365. SKIING FOR THE HANDICAPPED. 2 Credits.
This course is designed to acquaint you with current alpine teaching progressions and their applications to skiing for the handicapped. You are assigned a handicapped skier to work with during the quarter.
RCLS 370. OUTDOOR RECREATION AQUATIC PROGRAMS. 3 Credits.
Pre-requisites: RCLS 125 Rafting.
An overview of major outdoor aquatic adventures such as river rafting and kayaking. Emphasis placed on developing a fundamental awareness of skills necessary in each activity in addition to logistical and business aspects of conducting excursions.

RCLS 375. INTERMEDIATE WHITWATER RAFTING TECHNIQUE. 4 Credits.
Pre-requisites: RCLS 125 Rafting or permission of the instructor.
The course focuses on intermediate rafting techniques and the development of leadership procedures in paddle rafts. River skills and guide competencies will be developed through hands-on experience. Emphasis will be placed on good decision making and safety concerns. A three-day field trip is required.

RCLS 385. PROGRAMMING IN RECREATION AND LEISURE SERVICES. 3 Credits.
FALL/WINTER This course presents steps to programming within the role and structure of public and private recreation services. Special focus is placed on determining participant needs and values, brainstorming, selection and implementation of ideas, evaluation techniques, and volunteer recognition and retention. Fieldwork is part of the requirement.

RCLS 395. INTERNSHIP. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
An opportunity to gain field experience with various recreation and leisure service agencies.

RCLS 396. EXPERIMENTAL COURSE. 1-5 Credits.

RCLS 400. LEGAL FOUNDATIONS IN RECREATION AND LEISURE SERVICES. 4 Credits.
Pre-requisites: RCLS 201 and RCLS 220 or permission of the instructor.
This course includes the major considerations necessary to comply with legal safeguards in the leisure service profession.

RCLS 405. WILDERNESS UPGRADE FOR MEDICAL PROFESSIONALS. 4 Credits.
Pre-requisites: HLED 194 or permission of the instructor.
This course will provide the necessary skills to assist an injured or ill person in a wilderness environment where advanced medical help is delayed by time, terrain, weather or distance. The focus of this class is on the acquisition of skills and knowledge to be able to assess a victim’s condition, make an appropriate decision regarding treatment, use available or otherwise improvise the necessary supplies or equipment to manage the patient’s condition and implement a plan for evacuation.

RCLS 410. OUTDOOR LEADERSHIP. 4 Credits.
Pre-requisites: RCLS 201 and RCLS 220 and junior standing or permission of the instructor.
A culmination of the outdoor recreation and skill-oriented courses with an emphasis on the concepts of outdoor leadership. Offers opportunities in group dynamics, program planning. Objective is to foster necessary attitudes and leadership skills related to adventure prograining in outdoor recreation through field experiences. Includes two weekend field trips.

RCLS 415. SEARCH AND RESCUE MANAGEMENT. 4 Credits.
Pre-requisites: junior standing or permission of the instructor.
A practical approach to learning search and rescue techniques and management. Emphasis on administrative procedures. A variety of resource specialists will present portions of the course.

RCLS 420. PROGRAM PLANNING AND EVALUATION IN THERAPEUTIC RECREATION. 4-5 Credits.
Pre-requisites: RCLS 245, PHED 132 or BIOL 232, senior standing or permission of the instructor.
The purpose of this course is to suggest various activities which may be used in rehabilitation of the disabled. The selection of activities is made using a social-behavior skill factor analysis of the activity lab.

RCLS 425. EVALUATION, RESEARCH AND STATISTICS IN RECREATION AND LEISURE SERVICES. 4 Credits.
Pre-requisites: RCLS 385 and junior standing or permission of the instructor.
Covers basic methods of personnel and program components. Methods of sampling and survey techniques are addressed as they relate to recreation and leisure services.

RCLS 435. EMPLOYMENT PROCESSES IN RECREATION AND LEISURE SERVICES. 2 Credits.
Pre-requisites: RCLS 201, RCLS 220 and senior standing.
Designed to introduce the recreation student to the employment process: recruiting, application and resume screening, interviewing, checking of references, hiring, on-the-job training and probationary period.

RCLS 440. PROFESSIONAL ISSUES IN TR. 4 Credits.
Pre-requisites: RCLS 240, senior standing.
Course keeps you informed of the constant changes and developments in the therapeutic recreation profession.

RCLS 445. PROCESSES AND TECHNIQUES IN THERAPEUTIC RECREATION. 4 Credits.
Pre-requisites: RCLS 245; PHED 132 or BIOL 232; junior or senior standing or permission of the instructor.
This course is designed to assist therapeutic recreation majors with the mastery of skills, attitudes and knowledge required for professional service in therapeutic recreation. Special attention given to the therapeutic recreation specialist as a therapist in a medical model.

RCLS 450. ASSESSMENT TECHNIQUES IN THERAPEUTIC RECREATION. 4 Credits.
Pre-requisites: RCLS 201; RCLS 245; PHED 132 or BIOL 232; junior or senior standing or permission of the instructor.
This course is designed to enable the Therapeutic Recreation major to develop an understanding of the process of assessment and the use of appropriate standardized tools used by the profession. A number of the most widely accepted tools will be studied in-depth.

RCLS 455. RESORT AND COMMERCIAL RECREATION MANAGEMENT. 3 Credits.
Pre-requisites: RCLS 201 and RCLS 385.
This course is intended to provide working management knowledge related to resort and commercial recreation enterprises.

RCLS 460. SUPERVISION OF THERAPEUTIC RECREATION SERVICES. 4 Credits.
Pre-requisites: RCLS 201 and RCLS 385.
This class will introduce the concepts, theories and practices of effective supervision in the health and human service delivery system. Covers the essential elements of supervision that are pertinent to being an effective practicing therapeutic recreation supervisor in either a clinical setting or a community-based therapeutic recreation setting.
RCLS 462. FOUNDATIONS OF TRAVEL AND TOURISM. 3 Credits.
Notes: offered spring quarter.
Pre-requisites: RCLS 455 or permission of instructor.
This course provides students with an introduction and overview of the travel and tourism industry including historical, behavioral, societal and business aspects of travel and tourism. Narrowing in focus, students learn about the impact of tourism on communities and strategies for sustainability. Students examine various sectors of the tourism industry and have the opportunity to explore their own special areas of interest.

RCLS 463. GLOBAL CITIZENSHIP AND INTERNATIONAL TOURISM. 4 Credits.
Notes: offered spring quarter.
Students explore global citizenship with regard to travel and tourism. In particular, students examine ethical dilemmas in travel and tourism and learn how to research and identify environmental, socio-cultural and economic impacts of tourism on the destination.

RCLS 465. SEMINAR IN TRAVEL AND TOURISM. 4 Credits.
Pre-requisites: RCLS 462 or permission of the instructor.
This course is designed to offer recreation management majors an insight into some of the multidimensional and complex issues currently seen in the travel and tourism industry. Students explore problem solve, report, and discuss current issues as presented in a series of tourism case-study scenarios. In addition, students gain hands-on experience by planning and implementing a seven-day field trip to a major tourist destination or city.

RCLS 470. ADMINISTRATION, ORGANIZATION AND SUPERVISION IN RECREATION AND LEISURE SERVICES. 4 Credits.
Pre-requisites: RCLS 425 and senior standing or permission of the instructor.
Local, state, and federal recreation and park programs; their organization and administration, and their relation to other social institutions; special emphasis on planning, financing and legislative provisions, governmental control, budget, personnel, departmental organization and administrative practices, especially on the local level.

RCLS 475. CHALLENGE COURSE MANAGEMENT AND OPERATION. 3 Credits.
Pre-requisites: RCLS 353.
In this course students will learn the skills needed to properly maintain the overall operation of a challenge course program. Students will gain an understanding of current challenge course industry standards and how to implement them effectively in a challenge course program. Topics discussed include challenge course program administration and management, site specific operational polices and procedures, program philosophy, documentation, risk management, insurance, staff supervision and technical accountability of the challenge course.

RCLS 480. BUDGETING IN RECREATION AND LEISURE SERVICES. 4 Credits.
Pre-requisites: RCLS 201 and RCLS 385 or permission of the instructor.
This course is designed to identify both traditional and innovative methods of financing recreation services at the public and private level along with an analysis of personal spending and budgeting procedures. A complete budget document for a selected organization will be developed.

RCLS 490. SENIOR CAPSTONE IN RECREATION. 4 Credits.
Pre-requisites: RCLS 470 and senior standing.
Satisfies: senior capstone university graduation requirement.
This course is designated as the capstone course for those students majoring in recreation and leisure services within the Department of PEHR. An end-of-program assessment will be completed for each major. The course will focus on the major issues and problems facing recreation professionals as they enter the field. Using group problem solving techniques, lecture and a research paper, the students will present and defend a position on an issue or develop and defend a solution to an existing problem. A major focus will be for the students to further develop their understanding of the group process as it relates to being a member of a team as well as the ability to effectively use resources to develop a research paper.

RCLS 493. THERAPEUTIC RECREATION PROFESSIONAL INTERNSHIP. 12 Credits.
Pre-requisites: compliance with RCLS department’s internship requirements; permission of the instructor, department chair and college dean.

RCLS 494. OUTDOOR REC PROF INTERNSHIP. 12 Credits.
Pre-requisites: compliance with RCLS department’s internship requirements; permission of the instructor, department chair and college dean.

RCLS 495. RECREATIONAL MANAGEMENT PROFESSIONAL INTERNSHIP. 12 Credits.
Pre-requisites: compliance with RCLS department’s internship requirements; permission of the instructor, department chair and college dean.

RCLS 496. EXPERIMENTAL COURSE. 1-15 Credits.

RCLS 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Periodically scheduled special workshops deal with aspects of recreation and leisure services.

RCLS 498. SEMINAR. 1-5 Credits.
Periodically scheduled special seminars deal with aspects of recreation and leisure services.

RCLS 499. INDEPENDENT STUDY. 1-10 Credits.
Reg Init in Dental Education (RIDE)

RIDE 505. HUMAN PHYSIOLOGY I. 4 Credits.
Pre-requisites: admission to UWSOD.
Intensive coverage of physiology through lectures and conferences. Excitable tissues, skeletal muscles; spinal reflex; pain physiology; endocrinology; autonomic nervous system; reproductive endocrinology.

RIDE 506. HUMAN PHYSIOLOGY II. 4 Credits.
Pre-requisites: admission to UWSOD.
Intensive coverage of the gastrointestinal, renal, cardiovascular and respiratory systems through lectures and conferences.

RIDE 509N. MOLECULAR AND CELLULAR BASIS OF DISEASE—FOUNDATIONS 1. 18 Credits.
Notes: graded Pass/Fail.
Pre-requisites: admission to UW School of Dentistry (UWSOD).
This course teaches the principles of cell and molecular biology, physiology, biochemistry and genetics. Aspects include the organization of the genome, properties of macromolecules, and cytoarchitecture. Students will gain an understanding of intracellular communication, cell-cell interactions, properties of differentiated cells, and the diversity of their physiological properties and functions.

RIDE 510. PERSPECTIVES IN DENTISTRY. 2 Credits.
Pre-requisites: admission to UWSOD.
This course introduces the process of critical thinking and its application to clinical problem solving in a behavioral and social context.

RIDE 510N. DENTAL ANATOMY AND OCCLUSION. 3 Credits.
Notes: graded Pass/Fail.
Pre-requisites: admission to UW School of Dentistry (UWSOD).
This course includes lecture and laboratory content on the morphology and nomenclature of individual teeth of the adult dentition, introduction to tooth histology and function and the influence of tooth anatomy on clinical dental procedures.

RIDE 511N. INVADERS AND DEFENDERS—FOUNDATIONS 2. 18 Credits.
Notes: graded Pass/Fail.
Pre-requisites: admission to UW School of Dentistry (UWSOD).
This course covers and integrates the immune system, microbial biology, infectious diseases (including treatment), inflammation and repair, and skin and connective tissue. Topics discussed include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, the basis of immunologic diagnostics.

RIDE 512N. INTRODUCTION TO PERIODONTICS. 2 Credits.
Notes: graded Pass/Fail.
Pre-requisites: admission to the UW School of Dentistry (UWSOD).
This course explores the clinical, histopathologic and radiographic features of periodontal diseases, principles of preventive periodontics and initial examination of the periodontium. Topics include normal structure, classification and epidemiology of periodontal diseases, etiologic factors, host response, and pathogenic lesions in periodontal disease.

RIDE 513. COMMUNICATION SKILLS I. 1 Credit.
Pre-requisites: admission to UWSOD.
Introductory communication skills with an emphasis towards the skills needed for interviewing patients. The course is presented in seminar format. Topics covers in this course and RIDE 514 will be applied in RIDE 515.

RIDE 513N. ORAL MICROBIOLOGY. 2 Credits.
Pre-requisites: admission to the UW School of Dentistry (UWSOD).
This course applies basic sciences to an understanding of the molecular bases of the interactions between microorganisms and oral tissues that lead to plaque formation and dental diseases. Principles of clinical asepsis and diagnosis of caries and periodontal diseases are also covered.

RIDE 514. COMMUNICATION SKILLS II. 1 Credit.
Pre-requisites: admission to UWSOD.
This course will provide a basic introduction to the role that culture can play in healthcare utilization. Topics covered in this course and RIDE 513 will be applied in RIDE 515.

RIDE 514N. FOUNDATIONS OF DENTAL MEDICINE. 2 Credits.
Notes: graded Pass/Fail.
Pre-requisites: admission to the UW School of Dentistry (UWSOD).
In this course, the students will become familiar with the elements of patient interviewing, including developing a problem-focused, medical, social and dental history. They will also learn how to physiologically assess the dental patient. They will learn and apply principles of cultural competence and ethics throughout this process.

RIDE 515. COMMUNICATION SKILLS III. 1 Credit.
Pre-requisites: admission to UWSOD.
Provides early clinical experiences, and develops skills necessary to learn from patients what you need people to know about their social, medical, and dental histories to effectively understand the "whole patient" which allows you to diagnose, plan and provide appropriate treatment.

RIDE 516. PHYSICAL EXAMINATION I. 1 Credit.
Pre-requisites: admission to UWSOD.
This is Part I of a course that occurs over two quarters (winter-spring). The design of the course-at-large includes lectures, seminars and clinical sessions that provide instruction on the techniques and interpretation of medical history taking and physical examination. Part I will include lectures and clinical opportunities to learn the techniques of general survey, assessment of vital signs and interviewing patients with psychological problems.

RIDE 517. PHYSICAL EXAMINATION II. 2 Credits.
Pre-requisites: admission to UWSOD.
This course consists of lectures, clinical practice sessions, clinical rotations, and seminars that address techniques of patient assessment including history-taking, physical examination, and interpretation of findings. Includes development of skills through participation in clinical sessions.

RIDE 519. MEDICAL MICRO & IMMUNOLOGY. 3 Credits.
Pre-requisites: admission to UWSOD.
Bacterial structure, physiology and genetics. Viral structure and function. Bacterial and viral diseases of the respiratory tract, skin, GI tract. Innate and adaptive immunology. Immune response to infection, immunodeficiencies and autoimmunity.

RIDE 519N. CARDIAC, PULMONARY AND RENAL DISEASES—FOUNDATIONS 3. 8 Credits.
Notes: graded Pass/Fail.
In this course students will become familiar with the structure, function and diseases of the cardiac, pulmonary and renal systems with special emphasis on the management of these diseases in the practice of dental medicine and surgery.
RIDE 520. DENTAL MATERIALS SCIENCE. 1-2 Credits.
**Pre-requisites:** admission to UWSOD.
This course is a didactic course in which basic concepts of dental materials science are presented to dental students. In addition, physical, mechanical, chemical and biological properties of a variety of restorative dental materials will be discussed. Emphasis will also be given to proper selection and handling of dental materials with clinical use.

RIDE 520N. DENTAL OCCLUSION. 3 Credits.
**Notes:** graded Pass/Fail.
Topics include: fabrication of master case models, articulator use and function, contacts in MIP and CO, temporomandibular joint function, mandibular excursive movements, mandibular envelopes of movement and how anatomical determinants influence occlusal function in all anatomical planes.

RIDE 521. APPLIED DENTAL MATERIALS. 3 Credits.
**Pre-requisites:** admission to UWSOD.
Consists of a weekly orientation lecture and laboratory session that provides first-year dental students with practical instruction in the proper use of restorative dental materials. Attention will also be given to student self-evaluation of their performance with the various laboratory projects.

RIDE 521N. INTRODUCTION TO DENTAL PUBLIC HEALTH. 2 Credits.
**Notes:** graded Pass/Fail.
Students analyze a real-world public health case and develop feasible solutions. Each small group will present their solutions at the end of the course. Students submit weekly critical summaries of research articles and complete reading assignments. On the final examination students demonstrate basic dental public health knowledge.

RIDE 522N. FOUNDATIONS OF DENTAL MEDICINE 2. 2 Credits.
**Notes:** graded Pass/Fail.
Students will increase expertise with patient interviewing and developing a problem-focused medical, social and dental history. They will improve their skills in physical assessment, including diagnostic tests. They will learn how to develop a differential diagnosis. They will learn and apply principles of cultural competence and ethics throughout this process.

RIDE 523N. ORAL HISTOLOGY AND EMBRYOLOGY 1. 3 Credits.
**Notes:** graded Pass/Fail.
Development of orofacial and neck structures; tooth/pulp histology, development, eruption and exfoliation; innervation of teeth and oral structures; craniofacial and dental anomalies; cranioskeletal development; emporomandibular joint; masticatory muscle structure and function; oral mucosa and epithelial differentiation; periodontium and epithelial attachment; specialized mucosa; gustation; salivary gland structure and physiology.

RIDE 524N. INTRODUCTION TO EVIDENCE-BASED DENTISTRY. 1 Credit.
**Pre-requisites:** must be admitted to UW School of Dentistry.
Evidence-based dental decision-making considers patient needs and desires, clinician strengths and weaknesses, and updated research evidence. The student will learn about why evidence-based patient care is safer and more effective. They will learn how to evaluate scientific evidence on oral health, and apply it in clinical decision making.

RIDE 525N. INTRODUCTION TO OPERATIVE DENTISTRY. 4 Credits.
**Pre-requisites:** must be admitted to UW School of Dentistry.
In this course students will become familiar with and obtain expertise in radiation protection, potential risks of ionizing radiation, justification of exposures, decision making in type of radiographic exposure and radiographic interpretation of oral and maxillofacial anatomy and basic dental pathology (e.g. periapical radiolucency and caries).

RIDE 526N. ORAL AND MAXILLOFACIAL RADIOLOGY THEORY. 3 Credits.
**Pre-requisites:** must be admitted to the UW School of Dentistry.
In this course students will become familiar with and obtain expertise in radiation protection, potential risks of ionizing radiation, justification of exposures, decision making in type of radiographic exposure and radiographic interpretation of oral and maxillofacial anatomy and basic dental pathology (e.g. periapical radiolucency and caries).

RIDE 530. ANATOMY & EMBRYOLOGY. 13 Credits.
**Pre-requisites:** admission to UWSOD.
Normal gross structures of the thorax, abdomen, pelvis, perineum, upper extremity, and neck are discussed, and then dissected on human cadavers. The development of each organ system is presented and related to the definitive normal adult structure. Developmental anomalies and diagnostic anatomy are also discussed.

RIDE 530N. BLOOD AND CANCER - FOUNDATIONS 4. 8 Credits.
This course provides an overview of hematology and oncology. Students learn the biology of bone marrow and blood, with an introduction to the field of cancer medicine. Specific cancer subtypes are discussed, providing illustrative examples of the impact of molecular biology and environmental risk factors in the development/treatment of malignancy.

RIDE 531. INTRO TO NEUROANATOMY. 2 Credits.
**Pre-requisites:** admission to UWSOD.
General survey of the structure of the central nervous system, including an analysis of sensory and motor systems and higher integrative functions and clinical correlation.

RIDE 531N. ENERGY AND HOMEOSTASIS - FOUNDATIONS 5. 8 Credits.
**Pre-requisites:** must be admitted to the UW School of Dentistry.
This course covers energy metabolism, nutrition, obesity, diabetes, gastrointestinal/liver physiology, and endocrinology. Topics include physiology and pathology of digestion and hepatic function, principles and practice of clinical nutrition, endocrine integration of metabolism, and endocrine pathophysiology. Relevant anatomy, histology and pharmacology of the Endocrine and GI Systems are also covered.

RIDE 532N. ORAL HISTOLOGY AND EMBRYOLOGY 2. 3 Credits.
**Pre-requisites:** must be admitted to the UW School of Dentistry.
In this course students will become familiar with and obtain expertise in radiation protection, potential risks of ionizing radiation, justification of exposures, decision making in type of radiographic exposure and radiographic interpretation of oral and maxillofacial anatomy and basic dental pathology (e.g. periapical radiolucency and caries).
RIDE 541. MICROSCOPIC ANATOMY. 4 Credits.
Pre-requisites: admission to UWSOD.
Lecture and laboratory work in microscopic anatomy. An integrative introduction to the structure and function of cells, tissues, and organs of the body. Coursework focuses on the microscopic examination of these structures and their functions. Interconnections will be made throughout the course with physiological, biochemical, and gross anatomical data.

RIDE 542. MICRO AND ORAL DISEASES. 2 Credits.
Pre-requisites: admission to UWSOD.
Applies students' background knowledge in basic sciences to an understanding of specific microbiology of various niches of the oral cavity, formation and metabolic activity of dental plaque, etiology, pathogenesis, histopathology, and clinical characteristics of dental diseases. Principles involved in prevention of cross-contamination and diagnosis of clinical infections.

RIDE 544. PATHOLOGY. 2-3 Credits.
Pre-requisites: admission to UWSOD.
Basic pathologic processes that underlie disease, including cell alterations, genetic pathology, developmental and environmental pathology, genetic aspects of cancer and neoplasia, immunopathology and inflammation, and host responses. Correlates the gross, functional, and biochemical alterations. Survey of pathologic processes affecting organs and systems pertinent to the practice of dentistry. Lectures present a coherent picture of systemic disease.

RIDE 554. CLINICAL DENTISTRY. 1 Credit.
Pre-requisites: admission to UWSOD.
This course is intended as an introduction to clinical operative dentistry for RIDE students. The course uses lectures, discussions, audiovisuals and laboratory sessions to introduce the students to important principles needed in preparation for entering their second year of dental school. The course will also enhance the students' understanding of proper use of the rubber dam and high speed handpiece and introduce them to instrumentation of simple cavity preparations.

RIDE 555. DENTAL ANATOMY. 3 Credits.
Pre-requisites: admission to UWSOD.
Lecture and laboratory on the morphology and nomenclature of individual teeth of the adult dentition. Introduction to tooth histology and function and the influence of tooth anatomy on clinical dental procedures.

RIDE 556. INTRODUCTION TO OCCLUSION. 3 Credits.
Pre-requisites: admission to UWSOD.
This is a lecture and laboratory course which will provide a basis for evaluation and problem solving in dental occlusion. It will integrate the materials learned in Dental Anatomy with ideal and functional occlusion. The course builds on knowledge of tooth morphology and the nomenclature gained in dental anatomy. The laboratory will be an extension of dental anatomy and will reward a student's ability to discriminate what is correct and not correct as well as correctly solving problems of occlusion. The students will be treated as dental colleagues.

RIDE 557. FUNCT. ANALYSIS OF OCCLUSION. 3 Credits.
Pre-requisites: admission to UWSOD.
Clinical and laboratory experiences in examination and charting of patient's occlusion, record-taking for analysis of occlusion on a dental articulator, and predental diagnostic correction of problems of occlusion on articulated clinical casts. Provides basic background and technique information relative to laboratory and clinical experiences.

RIDE 558. OPERATIVE DENTISTRY. 1 Credit.
Pre-requisites: admission to UWSOD.
This lecture series introduces concepts of operative dentistry to first year dental students. Nomenclature, cavity classification, instrumentation, pulp protection, and principles of cavity preparation, and principles of cavity preparation are presented and discussed.

RIDE 559. LOCAL ANESTHESIA. 1 Credit.
Pre-requisites: admission to UWSOD.
This course is intended as an introduction to dental local anesthesia for RIDE students. Pharmacology, neurophysiology, techniques, emergency prevention and management, armamentarium safety, and client management will be discussed. Safe administration and student-operator decision making are emphasized in both didactic and laboratory activities.

RIDE 567. INTRODUCTION TO PERIODONTICS. 2 Credits.
Pre-requisites: admission to UWSOD.
An introductory didactic course in periodontology for pre-doctoral dental students. Successful completion of this course should allow students to apply knowledge obtained from basic science disciplines to the understanding of the infectious nature of periodontal diseases and the disease process resulting from the host inflammatory response. The student will learn how to assess clinical conditions and associate these conditions with periodontal pathology.

RIDE 590. MEDICAL INFO FOR DECISION. 1 Credit.
Pre-requisites: admission to UWSOD.
Introduction to methods for: a) identifying and retrieving high quality, relevant documents for clinical decision making, b) applying rigorous criteria when reading primary research studies or reviews of primary studies or other medical information sources that report on the effectiveness of therapeutic or preventive interventions.

RIDE 596. EXPERIMENTAL COURSE. 1-5 Credits.

RIDE 610. INTRO TO CLINICAL DENTISTRY. 2 Credits.
Pre-requisites: admission to UWSOD.
Introduction to clinical dental education. Students will participate in classroom and clinical exercises that lead to integration of didactic and clinical skills. This course will focus on developing the qualities of a professional and the introduction of the process of care with an emphasis on assessment. Students will practice professional, communication, teamwork and instrumentation skills necessary for the practice of dentistry. Basic techniques are introduced and practiced on dentoforms and peer partners.

Science Education (SCED)

SCED 390. SECONDARY SCIENCE TEACHING METHODS. 1 Credit.
Pre-requisites: EDUC 303 or by permission of the instructor.
This course is designed for biology, chemistry, earth science and physics majors and individuals seeking endorsement to teach junior or senior high school. Students will study types of science programs, organization of lesson materials, techniques, laboratory safety and evaluation.

SCED 396. EXPERIMENTAL COURSE. 1-6 Credits.

SCED 399. DIRECTED STUDY. 1-5 Credits.

SCED 499. DIRECTED STUDY. 1-5 Credits.
Social Studies (SOST)

SOST 196. EXPERIMENTAL COURSE. 1-5 Credits.
SOST 199. SPECIAL STUDIES. 1-5 Credits.
SOST 299. DIRECTED STUDY. 1-5 Credits.
SOST 390. SOC STUDIES IN SEC SCHOOL. 4 Credits.
Pre-requisites: EDUC 303 or permission of the instructor.
The social studies program for secondary schools. Objectives, curricula, teaching materials, techniques, and field experience.
SOST 396. EXPERIMENTAL COURSE. 1-5 Credits.
SOST 399. DIR STUDY. 1-5 Credits.
SOST 490. SENIOR CAPSTONE: SOCIAL STUDIES IN THE PUBLIC SCHOOLS. 4 Credits.
Pre-requisites: SOST 390 and senior status in the Social Studies Education major or permission of the instructor.
Satisfies: senior capstone university graduation requirement.
An examination of the objectives, curricula, teaching materials, techniques and methods of social studies.
SOST 495. INTERNSHIP. 1-5 Credits.
SOST 496. EXPERIMENTAL COURSE. 1-5 Credits.
SOST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
SOST 498. SEMINAR. 1-5 Credits.
SOST 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair and college dean.
SOST 596. EXPERIMENTAL COURSE. 1-5 Credits.
SOST 599. INDEPENDENT STUDY. 1-5 Credits.

Social Work (SOWK)

SOWK 273. INTRODUCTION TO SOCIAL WORK. 5 Credits.
Pre-requisites: ENGL 101.
This course explores the history of social work and social welfare in the United States. Students will gain an understanding of values and ethics related to social work practice social work interventions related to issues of social justice, oppression and discrimination.
SOWK 320. AFRICAN AMERICAN FAMILY. 5 Credits.
Cross listed: AAST 320, SOCI 371.
The African American Family as a social system influenced by institutions of the larger American society.
SOWK 377. ALTERNATIVES TO DOMESTIC VIOLENCE. 2 Credits.
Cross listed: WMST 377.
Working to interrupt the cycle of violence this course analyzes theories relevant to issues of domestic violence in their historical, legal and cultural contexts.
SOWK 378. HUMAN BEHAVIOR IN THE SOCIAL ENVIRONMENT I. 4 Credits.
Pre-requisites: BASW major.
Employs a systems framework for using biopsychosocial research findings, theories and related knowledge to understand the development and behavior of individuals and families. Examines the reciprocal influences of culture, social injustice, poverty and related phenomena on development and behavior. Critically assesses the related research.
SOWK 379. HUMAN BEHAVIOR IN THE SOCIAL ENVIRONMENT II. 4 Credits.
Pre-requisites: BASW major.
A continuation of the approach to understanding the biopsychosocial influences on development and behavior taken in SOWK 378.
SOWK 381. DIVERSITY AND SOCIAL WORK. 4 Credits.
Pre-requisites: BASW Major.
This course emphasizes the development of a knowledge base and skills for working in a diverse society at both the direct and indirect practice levels. Diverse populations refers mainly to major ethnic/racial groups although other oppressed populations will be addressed. While brief descriptive materials are explored for each population, a primary critical task is the examination of one’s own attitudes and values. Models of evidence-based practice with diverse populations will be presented for comparative purposes. Various experiential techniques may be used to implement the teaching objectives.
SOWK 395. EXPERIENTIAL LEARNING. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individualized learning and career development through an off-campus internship. Designed to help students develop beginning knowledge of agency work. Does not substitute for Field Practicum but gives added preparation to students with minimal work experience.
SOWK 399. SPECIAL STUDIES. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
SOWK 419. LAW AND DISABILITY. 5 Credits.
Cross listed: DSST 419.
Pre-requisites: ENGL 201 or equivalent.
This cross curriculum course examines general law and disability law related issues. Students explore the basic working structure of the legal system, specifically: legislation, the court system, case law, administrative law, and legal procedure. Areas of study include disability, ADA accessibility, child welfare, education, social work legal issues and access to governmental and private services.
SOWK 420. CONFLICT MANAGEMENT. 4 Credits.
This course provides an introduction to the theory and practice of conflict management in four contexts: intrapersonal, interpersonal, groups and societal. The focus is on the analysis and practical management of conflict as a common denominator linking a wide variety of human activities. A micro to macro overview of the dynamics of conflict management from one-on-one communication to the practices of negotiation and mediation to international/global efforts toward peace will be explored.
SOWK 421. SOCIAL WORK PRACTICE WITH MEN AND FAMILIES. 2-4 Credits.
This course addresses important information regarding social work services with men and their families. It is designed to be a broad overview of common issues faced by men who come to the attention of social services and what social workers can do to support and engage with men in practice.
SOWK 422. SPIRITUALITY AND SOCIAL WORK PRACTICUM. 2-4 Credits.
This overview of spirituality and social work provides a framework of knowledge, values and skills for spiritually sensitive social work practice and prepares students to respond competently and ethically to diverse spiritual perspectives through a comparative, critically reflective approach.
SOWK 424. INTERNATIONAL SOCIAL WORK. 4 Credits.
Notes: may be repeated for credit when title varies.
Pre-requisites: permission of instructor.
This variable topic course will provide students with a cross cultural experience in which they will learn about another culture, social development and various ideologies of social welfare. Students will learn about social development strategies intended to address specific social problems and social justice issues.

SOWK 425. FAMILY VIOLENCE. 4 Credits.
Cross listed: WMST 425.
Pre-requisites: ENGL 201.
This interdisciplinary course addresses contemporary concerns about family violence and discusses feminist perspectives on violence in the family. Theories about the historical and socio-cultural context of family violence and other explanatory theories provide frameworks for understanding personal and societal responses to family violence. Discussions include dynamics of trauma and recovery and all forms of family violence. Treatment as well as intervention, prevention, and social change approaches are discussed on both the personal and societal level.

SOWK 437. INDIAN CHILD WELFARE. 4 Credits.
Cross listed: IDST 437.
This course introduces Indian child welfare with an emphasis on understanding legal, historical and cultural issues applying to work with American Indian and Alaska Native youth. This course emphasizes Indian child welfare issues relevant to the Pacific Northwest (Washington, Idaho, Oregon and Montana).

SOWK 445. BEHAVIORAL AND COGNITIVE BEHAVIORAL INTERVENTIONS. 4 Credits.
Pre-requisites: SOWK 475.
This course introduces participants to the theory and practice of behavioral and cognitive behavioral intervention. This course facilitates participants understanding of key concepts of applied behavior analysis, including behavioral assessment, behavioral interventions methods for monitoring the efficacy of behavioral approaches with individual cases. This course will also enable participants to become better acquainted with how to apply cognitive behavioral (CB) principles in assessment and intervention, including identifying self-defeating cognitions and cognitive restructuring. Participants should come to understand behavioral and cognitive behavioral interventions as individualized approaches to practice. The applied nature of this course requires a commitment from participants to attend all class sessions during this course.

SOWK 448. LGBTQ ISSUES FOR THE PROFESSIONAL. 4 Credits.
Cross listed: WMST 448.
Pre-requisites: junior standing.
The course is designed to assist professionals working with individuals whose identity includes lesbian, gay, bisexual, transgendered or queer/questioning. Topics include: historical oppression, “coming out” as a process, counseling approaches and resources, and social inclusion and exclusion of sexual minorities. Personal attitudes are explored in order to improve professional response to the needs of the LGBTQ communities.

SOWK 450. WOMEN AND SOCIAL CHANGE. 4 Credits.
Cross listed: WMST 450.
Pre-requisites: junior standing.
This course examines the historical and contemporary role of women as leaders and participants in U.S. social movements. The course critiques the models and strategies used to organize communities and groups to improve the status of marginalized people.

SOWK 452. GENDER AND SEXUAL ASSAULT. 4 Credits.
Cross listed: WMST 452.
Pre-requisites: ENGL 201.
This course addresses contemporary concerns about sexual assault, primarily, but not exclusively, against women. Feminist perspectives on gender socialization and sexual violence provide frameworks for understanding personal and societal responses to sexual violence. Dynamics of trauma and recovery, treatment, prevention and change strategies will be discussed.

SOWK 455. SOCIAL POLICY AND PROGRAMS IN AGING. 3 Credits.
Cross listed: AGST 455.
Pre-requisites: AGST 310 or permission of the instructor.
Social welfare policies and programs serving the aging are examined, past and present, in terms of their overall impact on the aged and on society at large. The needs and gaps in services to the aged are evaluated, as well as the adequacy with which these services are delivered and the response of programs and services to the changing needs of the aged.

SOWK 456. THE OLDER WOMAN. 4 Credits.
Cross listed: AGST 456, WMST 456.
Pre-requisites: junior standing.
This course examines the research and practice knowledge on the social, economic and health problems confronting older women. Older women's needs and potential for change are considered. The course explores U.S. social policy and program alternatives that work to improve the status and quality of life for a growing and diverse population of older women.

SOWK 457. CLINICAL ASSESSMENT IN MIDLIFE AND OLDER ADULTS. 4 Credits.
Cross listed: AGST 457.
Pre-requisites: junior standing or permission of the instructor.
An introduction to the assessment skills required for professional social work practice in mental health and other clinical settings dealing with the elderly. The course is intended for social work practitioners.

SOWK 458. PERSPECTIVES ON DEATH AND DYING. 4 Credits.
Cross listed: AGST 458.
This course is designed to assist students in the helping professions who wish to work with the terminally ill. Focus will be on an increased ability to deal with one's own mortality; the development of beginning skills for working with the terminally ill and their families; an understanding of the complex social system which surrounds death in modern America; as well as the current moral, ethical and philosophical issues in the field.

SOWK 459. SURVEY OF MICROSYSTEMIC PRACTICE THEORIES. 4 Credits.
Pre-requisites: BASW major.
This survey course prepares students for professional practice involving the dynamic and interactive processes of engagement, assessment, intervention and evaluation through identifying and analyzing evidence-based interventions designed to achieve client goals. Students will distinguish, appraise and integrate multiple sources of knowledge, including research-based knowledge and practice wisdom, as these inform micro systemic practice theories. Students will continue learning to use research evidence to inform practice through critical thinking.

SOWK 468. SOCIAL WORK RESEARCH. 4 Credits.
Pre-requisites: BASW major.
Prepares students to evaluate research findings and to engage in evidence based social work practice.

SOWK 469. DATA ANALYSIS FOR SOCIAL WORK. 4 Credits.
This course covers descriptive and inferential statistics. Students are introduced to software for data analysis.
SOWK 470. SOCIAL POLICY ANALYSIS. 4 Credits.
Pre-requisites: BASW major.
Introduction to social policy analysis and the social policy process. Examines various policies and processes of social legislation in terms of their impact on social service programs.

SOWK 471. HUMAN RIGHTS AND WOMEN'S RIGHTS. 4 Credits.
Cross listed: WMST 471.
Pre-requisites: junior standing.
The course examines the history of human rights and dignity using the declaration of rights by the United Nations and research and initiatives by the World Health Organization and other international human rights groups. The course covers topics on the human rights of women and children including health, food insecurity, economic status, housing, education, violence, war crimes and residency/citizenship status. It also examines international and national strategies for furthering human rights on the global stage.

SOWK 475. SOCIAL WORK ENGAGEMENT AND ASSESSMENT I. 4 Credits.
Pre-requisites: BASW major.
In this first of a two course sequence relationship building skills are emphasized to begin gathering and interpreting biopsychosocial data on the interactions between individuals, families, and other groups and their environments. Emphasizes culturally competent, strengths-based and systems oriented assessment. Demonstrates how social work values and the generalist perspective guide engagement. Explores the role of self in helping process.

SOWK 476. SOCIAL WORK ENGAGEMENT AND ASSESSMENT II. 4 Credits.
Pre-requisites: BASW major.
In this second of a two course sequence assessment skills are emphasized to begin gathering and interpreting biopsychosocial data on the interactions between individuals, families, and other groups and their environments. Emphasizes culturally competent, strengths-based and systems oriented assessment. Demonstrates how social work values and the generalist perspective guide assessment. Explores the role of self in helping process.

SOWK 477. SOCIAL WORK WITH COMMUNITIES. 4 Credits.
Pre-requisites: BASW major.
This course prepares students to engage with, assess the needs and assets of and plan for action with communities. This course also guides students in experiences of direct assessment and action in the context of community. Students will learn to apply Asset Based Community and Social Development models in their work with communities toward social justice and sustainable change in communities and services.

SOWK 478. SOCIAL WORK WITH INDIVIDUALS. 4 Credits.
Pre-requisites: BASW major.
Applies the assessment information obtained in SOWK 475 and SOWK 476 to social work interventions with individuals. Emphasizes culturally competent interventions which build on strengths and resources in multiple environments. Continues examination of self in role of change agent.

SOWK 479. SOCIAL WORK WITH GROUPS. 4 Credits.
Pre-requisites: BASW major.
This course focuses on the social work skills for working with groups. Values, use of self, cultural competence, strengths and resources continue to be important practice skills within this new context. Critical thinking and effective communication are additional foci for knowledge and skill development.

SOWK 480. FIELD PREPARATION. 1 Credit.
Notes: graded Pass/Fail.
Pre-requisites: BASW Major.
This course prepares students to enter the social work practicum/ seminar. Students will learn how to create a résumé, be interviewed for an agency placement and learn how to be a student worker within a social service environment. Students will integrate their knowledge and skills with practices in the agency.

SOWK 481. PRACTICUM SEMINAR II. 1 Credit.
Integrates classroom knowledge and skills with real world social agency tasks and processes student experiences in the practicum. Because the student will be asked to perform different tasks at this stage in practicum learning, the content of the seminar will likewise change. Continued emphasis on application and fit of social work values in the real world.

SOWK 482. PRACTICUM/SEMINAR. 1-6 Credits.
Notes: Graded Pass/Fail. Must be repeated three times for a total of 15 credits.
Pre-requisites: BASW major in good standing and SOWK 480.
Students integrate coursework in a practice setting and process agency experience in a seminar setting. In a social work agency, students, agency field instructors and faculty field instructors plan activities which support the development of generalist skills as specified in individualized learning agreements.

SOWK 483. PRACTICUM II. 7 Credits.
In Block Practicum II, students integrate course work in a practice setting. In a social work agency, students, agency field instructors, and faculty field instructors plan activities which support the development of generalist skills as specified in individualized learning contracts.

SOWK 490. SOCIAL WORK SENIOR CAPSTONE. 4 Credits.
Notes: this course should be taken in the student's final quarter in the BASW program.
Pre-requisites: senior and in good standing as a BASW major.
Satisfies: senior capstone university graduation requirement.
This course further develops students’ applied knowledge and skill in the domains of critical, integrative, multidimensional and contextual thinking; cultural competence; social work practice with populations at risk; civic mindedness; professional identity; problem solving; the ability to understand the connection between social policy, social problems and social work practice; and evidence based social work practice.

SOWK 492. CHILD WELFARE PROGRAMS AND SERVICES. 5 Credits.
The function and purposes of child welfare programs, public and private; child welfare legislation; trends in child welfare services. Elective.

SOWK 496. EXPERIMENTAL COURSE. 1-6 Credits.
Experimental course, title and credits vary.

SOWK 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Short duration programs of contemporary significance in societal-cultural behavior areas. The range and scope of topics are essentially interdisciplinary, and students from all academic areas are eligible to participate.

SOWK 498. DEPARTMENTAL SEMINAR. 1-5 Credits.
Notes: may be repeated once for credit.
Readings and evaluations in contemporary issues in social welfare. Elective.
SOWK 499. DIRECTED STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent study in selected areas of social work. Open to seniors and graduate students from any department. Elective.

SOWK 525. RESEARCH METHODS FOR PROGRAM AND PRACTICE EVALUATION. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
An overview of methods and procedures for conducting research in social work. Attention is given to research designs for evaluating social work practice with small systems and social welfare programs. Students learn to critically evaluate and utilize research, select research instruments, and design applied research projects.

SOWK 526. RESEARCH METHODS II. 4 Credits.
Pre-requisites: SOWK 525 and 2 credits of SOWK 571; or SOWK 561.
This course facilitates the integration of foundation year research knowledge into a form that readily applies to professional social work practice. Students will learn how to apply and utilize research data through an exploratory best practice model and other models by deconstructing existing research.

SOWK 530. ORGANIZATIONAL AND COMMUNITY PRACTICE. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
This course explores the nature of community organizations and social service delivery systems and their relationships to other community systems. Attention is given to understanding the dynamics of power, economics, politics, and social policies impacting the life of organizations and communities. Students are introduced to ways of assessing organizations and communities with a particular emphasis on community collaborative networks and partnership projects that impact direct service delivery for at-risk populations in urban and rural contexts.

SOWK 531. INTRODUCTION TO SOCIAL WELFARE AND POLICY. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
This course provides students with a foundation understanding and appraisal of social welfare policies and programs in the United States, and the historical and contemporary forces that have shaped their development. It introduces core concepts to provide both an understanding of the political process and the analytic skills needed to further the achievement of social work goals regarding social policies and programs. The course also reviews the development of the social work profession and its influence on social welfare policies.

SOWK 532. FOUNDATIONS OF PROFESSIONAL SOCIAL WORK PRACTICE. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
This course provides a framework for understanding the mission and purpose of social work practice, the historical roots and ethical foundations for the profession, and emerging themes and models of practice. The course highlights required theoretical knowledge for informed practice, advanced generalist practice principles, and the specific roles in day-by-day professional practice. Cultural competence as an essential element of practice is also emphasized. The course introduces students to the challenges of graduate social work education and to the professional culture of social work, typified by NASW, its professional organization.

SOWK 533. SOCIAL WORK ASSESSMENT AND PRACTICE WITH INDIVIDUALS AND FAMILIES. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
Examines individual and family intervention within American social systems across ethnic, social, class and gender differences. Students learn effective strengths-based interviewing processes with individuals and families and build communications skills. The organizing framework for intervention is ecological systems and a strengths perspective. Current practice models that incorporate the organizing framework are reviewed for their application to specific problem situations.

SOWK 534. HUMAN RIGHTS AND WOMEN'S RIGHTS. 4 Credits.
This in an interdisciplinary course for students in social work and women's studies, who are interested in how human rights standards can be understood and applied in social work and civic life. The purpose of this course is to explore how the promotion of human rights relates to the mission of social work and women's studies and how this knowledge can affect social change efforts and promote civil society.

SOWK 536. SPIRITUALITY AND SOCIAL WORK PRACTICE. 4 Credits.
This overview of spirituality and social work provides a framework of knowledge, values and skills for spiritually sensitive social work practice and prepares students to respond competently and ethically to diverse spiritual perspectives through a comparative, critically reflective approach.

SOWK 537. INDIAN CHILD WELFARE. 4 Credits.
This course provides an introduction to Indian child welfare with an emphasis on understanding legal, historical and cultural issues applying to work with American Indian and Alaska Native youth. This course emphasizes Indian child welfare issues relevant to the Pacific Northwest (Washington, Idaho, Oregon and Montana).

SOWK 538. INTERNATIONAL SOCIAL WORK. 4 Credits.
Pre-requisites: special permission of the instructor.
International Social Work provides students with a cross-cultural experience in which they will learn about various cultural norms, social development and ideologies of social welfare from the unique perspective of the area visited. Students will learn about social development strategies intended to address specific social problems and social justice issues relevant to the native population of the region.

SOWK 540. HUMAN DEVELOPMENT IN CONTEMPORARY ENVIRONMENTS. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
Research and theory about contexts and interactions influencing human development over the life course. Emphasis on understanding life course development in oppressed, vulnerable, and underserved populations. Critical attention is paid to the use and limits of research and theory in relation to these populations.

SOWK 541. SOCIAL WORK PRACTICE IN A DIVERSE SOCIETY. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
For purposes of this course, diverse populations refers mainly to ethnic groups; however, other diverse groups are discussed. After brief descriptive materials are presented for each population, the course emphasizes the development of a knowledge base and skills for working with diverse populations at both the direct practice and macro levels. A primary critical skill is the examination of one's own attitudes and values. Models of practice with diverse populations are presented for comparative purposes.
SOWK 542. SOCIAL WORK IN CHILD WELFARE. 4 Credits.

SOWK 543. ALTERNATIVES TO DOMESTIC VIOLENCE. 2-4 Credits.
Analyzes theories relevant to issues of domestic violence in their historical, legal and cultural contexts. Therapeutic interventions are explored.

SOWK 544. SPECIAL PROBLEMS: FAMILY VIOLENCE. 4 Credits.
Students will identify factors related to stress in families, socioeconomic and cultural patterns, historical traditions and societal values and investigate how these may relate to violent behavior.

SOWK 545. BEHAVIORAL AND COGNITIVE BEHAVIORAL INTERVENTIONS. 4 Credits.
This course will introduce participants to the theory and practice of behavioral and cognitive-behavioral intervention. The course will facilitate participants understanding of (1) key concepts of behavior modification, including reinforcement, punishment and extinction; (2) key concepts of behavioral assessment, including target behaviors, antecedents and consequences, as well as dimensions of behavior (frequency, intensity, duration); (3) types of behavioral interventions, including conditioning, shaping and behavior-maintenance schedules; and (4) methods for monitoring the efficacy of behavioral approaches with individual cases. This course will also enable participants to become better acquainted with how to apply cognitive behavioral (CB) principles in assessment and intervention, including (1) behavioral self monitoring, successive approximation, identifying self-defeating cognitions, cognitive restructuring and working with cognitive schemata; (2) implementing CB principles in a group setting using the Adolescent Coping with Depression Course (CWD-A) as a model; and (3) supporting and monitoring the progress of the clients in CB intervention through the use of CWD-A homework assignments. Participants should come to understand behavioral and cognitive-behavioral interventions as ideographic, as opposed to homothetic, approaches to practice.

SOWK 546. MINDFULNESS AND ACCEPTANCE APPROACHES IN BEHAVIORAL HEALTH. 4 Credits.
Prerequisites: current MSW student or by permission of instructor.
This intensive course will introduce participants to the theory and practice of acceptance and mindfulness applications in cognitive behavioral interventions. The course will facilitate participants understanding of; (1) key concepts of cognitive behavioral therapy, including acceptance and mindfulness approaches, (2) key concepts of assessment, including value inventories, (3) types of acceptance and mindfulness CBT interventions, including Dialectical Behavior Therapy (DBT) and Acceptance and Commitment Therapy (ACT) and (4) in-session activities and interventions to facilitate change with individuals and groups.

SOWK 547. MOTIVATIONAL INTERVIEWING. 4 Credits.
Motivational Interviewing (MI) is an effective evidenced-based approach to overcoming the factors that keep people from making desired changes in their lives even after seeking or being referred to professional treatment. This course reviews the conceptual and research background supporting MI and the Transtheoretical Model (Stages of Change-SOC) and provides practice in implementing the skills involved in their approaches.

SOWK 548. SOCIAL WORK WITH GROUPS. 4 Credits.
Prerequisites: graduate standing in the MSW program or permission of the instructor.
The course develops knowledge and skills for social work practice with groups and natural helping systems. Prepares students to utilize mutual aid groups as a helping resource for clients, facilitate treatment groups, and participate effectively as a member of committees, interagency teams, and other task groups. The practice of work with groups is presented through lecture and discussion, observational assignments, role plays, and participation in small group learning experiences.

SOWK 549. ORGANIZATIONAL LEADERSHIP, MANAGEMENT AND CHANGE. 4 Credits.
This course examines the historical and contemporary role of women as leaders and participants in U. S. social movements. The course critiques the models and strategies used to organize communities and groups to improve the status of marginalized people.

SOWK 550. SOCIAL WORK INTERVENTION AND EVALUATION WITH INDIVIDUALS AND FAMILIES. 4 Credits.
Prerequisites: graduate standing in the MSW program or permission of the instructor.
Continues social work practice knowledge and skill development for work with individuals and families. This is the second of a two-course sequence focused on the intervention, ongoing assessment and the termination and evaluation phases of the helping process. The course provides both didactic and experiential learning experiences relative to communication skills, counseling and therapy skills, and termination and practice evaluation strategies.

SOWK 551. SOCIAL WORK INTERVENTION AND EVALUATION WITH INDIVIDUALS AND FAMILIES. 4 Credits.
Prerequisites: graduate standing in the MSW program or permission of the instructor.
This course focuses on leadership and change in social service agencies in relationship to the roles and functions of managers and administrators. The course provides a general overview of administrative and supervisory functions in social agencies focusing on the knowledge, values and skills needed for managing change and providing leadership. These are the qualities needed for successful administrative practice in first line and middle management positions and in small agencies typically found in rural and regional contexts.

SOWK 552. ORGANIZATIONAL LEADERSHIP, MANAGEMENT AND CHANGE. 4 Credits.
This course focuses on leadership and change in social service agencies in relationship to the roles and functions of managers and administrators. The course provides a general overview of administrative and supervisory functions in social agencies focusing on the knowledge, values and skills needed for managing change and providing leadership. These are the qualities needed for successful administrative practice in first line and middle management positions and in small agencies typically found in rural and regional contexts.

SOWK 553. SOCIAL WORK INTERVENTION AND EVALUATION WITH INDIVIDUALS AND FAMILIES. 4 Credits.
Prerequisites: graduate standing in the MSW program or permission of the instructor.
Continues social work practice knowledge and skill development for work with individuals and families. This is the second of a two-course sequence focused on the intervention, ongoing assessment and the termination and evaluation phases of the helping process. The course provides both didactic and experiential learning experiences relative to communication skills, counseling and therapy skills, and termination and practice evaluation strategies.

SOWK 554. CLINICAL ASPECTS OF HUMAN SEXUALITY. 4 Credits.
From the time of conception, there are forces continuously affecting our sexuality. This course has been developed to assist participants to develop skills to work with people as sexual beings. Self assessment by each person with regard to his or her own values should occur throughout the course. Sexual functioning and a variety of conditions affecting sexual functioning will be explored. It is intended that participants will leave this course with the basic knowledge, attitudes and skills to deal with sexual questions and concerns of clients. Course content will include: (1) basic issues in sexuality; (2) sexuality throughout the lifespan; (3) anatomy and physiology of the sexual response cycle; (4) sexual alternatives; (5) sexuality in illness and disability; (6) sexual dysfunctions; and (7) treatment issues.

SOWK 555. ORGANIZATIONAL LEADERSHIP, MANAGEMENT AND CHANGE. 4 Credits.
This course explores an introduction to the theory and practice of conflict management in four contexts: intrapersonal, interpersonal, groups and societal. The focus is on the analysis and practical management of conflict as a common denominator linking a wide variety of human activities. A micro to macro overview of the dynamics of conflict management from one-on-one communication to the practices of negotiation and mediation to international/global efforts toward peace will be explored.
SOWK 556. THE OLDER WOMAN. 4 Credits.
The course examines the research and practice knowledge on the social, economic, and health problems confronting older women. Older women's needs and potential for change are considered. The course explores U.S. social policy and program alternatives that work to improve the status and quality of life for a growing and diverse population of older women.

SOWK 557. BIOPSYCH BASES FOR HUMAN DEV. 4 Credits.
Pre-requisites: graduate standing in the MSW program or permission of the instructor.
This course focuses primarily on the biosocial aspects of human development. Biosocial development is defined as including heredity, physical traits and diseases, neurological functioning and disorders, and sexual functioning and the reciprocal relationships between biosocial development and social contexts—the meanings of gender, sexual orientation, and disability in society. The course is designed to help students gain familiarity with human physical systems, to identify their functions and to understand the implications of dysfunction. The course will also focus on disability issues and the effects of living with a disability. Students will be able to critically analyze the biopsychosocial and cultural implications of physical functioning in people's everyday lives and apply this understanding to professional practice.

SOWK 558. GAY/LESBIAN ISSUES FOR SW. 4 Credits.
This course is designed to assist professionals who may encounter lesbians, gays, bisexuals, persons questioning their sexuality and transgendered as clients. Students in the course will be encouraged to deal openly with their feelings and attitudes about homosexuality. Class members will be allowed to explore their motivations and resistance to working with this client group and those hostile to them and will be helped, where possible, to resolve blocks to effective social provision. Additionally, this course is designed to educate and suggest counseling approaches that might be most helpful to this client population and to explore available support systems. Issues that will receive special attention include health, problems of rural lesbians and gay men, the aging, child welfare, homophobia, the "coming out" process and societal attitudes toward gays, lesbians, questioning and transgendered populations.

SOWK 559. SCHOOL SOCIAL WORK AND SCHOOL LAW. 4 Credits.
Pre-requisites: baccalaureate degree.
This course will review Federal and State legislation as well as local policies which affect the role of the social worker in the public school. We will review how the school system functions as a part of our total society. The course will describe how social work knowledge, skills, and values provide an ecological approach to preventative, crisis, and remedial care for school children and their families.

SOWK 560. TOPICS OF SOCIAL WORK PRACTICE. 1-6 Credits.
Selected and variable content around topics related to social work and social welfare.

SOWK 561. ADV. STANDING SEM.. 6 Credits.
Pre-requisites: admission into advanced standing MSW program or permission of MSW Director.
This course provides Advanced Standing students with an overview of the foundation requirements for advanced study in the MSW program. It prepares students with additional problem formulation, sampling, data collection, measurement and research designs to complete the advanced year applied research project.

SOWK 562. PROCESSES OF SOCIAL WORK PRACT. 1-5 Credits.
Selected and variable content on processes employed in social work practice.

SOWK 563. BRIEF INTERVENTIONS. 4 Credits.
This course is designed to help students to integrate a cognitive and practical understanding of brief intervention strategies within their practice with individuals, couples and families. Content areas include an overview of the theoretical base of the solution-focused model of intervention, the professional debate regarding the use of the short-term model, and the potential benefits of its application in the health-care reform environment.

SOWK 564. SOCIAL WORK WITH VETERANS AND MILITARY FAMILIES. 4 Credits.
This course includes content on military culture, strengths and needs of military families, and interventions for military service members and their families. The course goal is to prepare social workers to work with veterans and military service members. As soldiers continue to deploy and return from service, they and their families' needs for professional social work services will continue to increase. This means that social workers in all areas of practice need to be educated about working with this population.

SOWK 565. FAMILY-CENTERED PRACTICE WITH POPULATIONS AT-RISK. 4 Credits.
Provides students with advanced direct practice knowledge and skills for work with populations at-risk in the context of families. Students are introduced to strategies for family-centered practice that are derived from ecological systems, developmental, behavioral, intergenerational, and cognitive practice traditions. Core concepts emphasized in the course include respect and support of family decisions, collaborative problem-solving, a strengths orientation, flexibility of approach, family empowerment, and support for families in their caregiving role.

SOWK 568. PROSEMINARS IN SOCIAL WELFARE POLICIES AND PROGRAMS. 4 Credits.
Pre-requisites: SOWK 525, SOWK 531 and 2 credits of SOWK 571; or SOWK 561.
Advanced seminars on current policy and program developments in contemporary areas of social welfare which impact populations at-risk, including health care, aging, mental health, and services to children and families. Seminars provide research and theory pertaining to social problems and institutional responses. Three domains of institutional response—legal, professional, and program—receive attention.

SOWK 569. ADVANCED SCHOOL SOCIAL WORK PRACTICE. 4 Credits.
The goal of this course is to assist the student in developing a comprehensive and in-depth understanding of current school social work practice. The values, purpose, knowledge base and sanctions which undergird the specialized, professional practice of school social work will be discussed, analyzed and applied experientially to practice situations. Learning experiences are designed to promote understanding of the many dimensions, opportunities for creative practice and rigor of social work practice in schools.
SOWK 571. FOUNDATION PRACTICUM/SEMINAR. 1-4 Credits.  
Notes: graded Pass/No Credit.  
Pre-requisites: SOWK 531, SOWK 532, SOWK 553. (A total of 4 credits distributed over 2 qtrs for the full-time program and over 3 qtrs. for the part-time programs.) Students in Foundation Practicum/Seminar utilize the agency setting for integration of coursework knowledge and for the development of professional practice skills. The placement agency is the laboratory for the application of classroom learning. Practicum is a supervised experience which allows students to learn to use supervision as a professional development process and to receive feedback concerning their professional functioning. The seminar is the forum in which students share, compare and analyze the field experience and participate in learning activities focused on application of curriculum content to practice. It is designed to assist in the integration process to provide support for students in discussion of practice issues and learning experiences and to engage students in utilizing course content to enhance their professional practice.

SOWK 572. FAMILY SYSTEMS AND ILLNESS. 4 Credits.  
This course examines the impact of chronic and life-threatening illness upon the functioning abilities of both healthy and troubled families, communities and health care systems. Through the lens of illness, the course looks at how families communicate, how they are structured, how they function over time and what non-illness related issues typically unbalance them. The course will focus on ways the social worker can rebalance families in the face of the chaos and unpredictability generated by illness.

SOWK 573. ALTERNATIVES IN HEALING: COMPLEMENTARY CARE IN SOCIAL WORK. 4 Credits.  
This course examines the ways that people benefit from ancient and modern mind/body healing techniques that can help them deeply relax and draw upon inner strengths, alleviating much of the physical, emotional, cognitive and spiritual suffering associated with chronic or acute illness and dying.

SOWK 574. DEATH AND DYING. 4 Credits.  
This course explores issues related to death, dying, grief and loss as well as their relevance and application to social work practice. The content draws from an interdisciplinary knowledge base and emphasizes the acquisition of practice skills. Topics include loss events throughout the life span; psychological and sociological theoretical perspectives in death, dying, grief and loss; social work practice models in grief, loss and coping with terminal illness; the impact of individual differences and cultural diversity on reactions to loss-related events; available resources for those dealing with these issues, and policy and ethical implications related to end-of-life care and decision making.

SOWK 575. ADVANCED SOCIAL WORK PRACTICE WITH CHILDREN AND ADOLESCENTS. 4 Credits.  
Advanced practice strategies and techniques for current problems facing children, youth and families. Students will apply assessment paradigms to case situations and design appropriate intervention strategies based on contemporary practice theory. Direct practice knowledge and skills will be evaluated through experiential and written assignments.

SOWK 576. ADDICTION: A BIOPSYCHOSOCIAL APPROACH. 4 Credits.  
This course applies the biopsychosocial perspective to the addiction field. The emphasis is on an examination of the reciprocal interaction between the individual experiencing addiction and the various systems that impact misuse, addiction, treatment and recovery. Topics will include harm reduction, the biology of addiction, the psychology of addiction, co-existing disorders and social aspects of addiction, including family risks and resilience, racial and ethnic issues, gender and sexual orientation, the nature of mutual help groups and public policy issues. The content of the course will draw heavily on current research and emphasize critical thinking and analysis of the current controversies in the addiction field. The overall framework of the course rests on the foundation of the strengths perspective and client-centered practices. Although alcohol and drug problems will be emphasized, the course will also address other related disorders, including eating disorders, pathological gambling and compulsive shopping.

SOWK 577. CLINICAL SOCIAL WORK ASSESSMENT. 4 Credits.  
Examination of the assessment skills required for professional social work practice in mental health and other professional settings. Application of mental health diagnosis and clinical assessment techniques to case situations.

SOWK 578. GENDER AND SEXUAL ASSAULT. 4 Credits.  
This course addresses contemporary concerns about sexual assault primarily, but not exclusively against women. Theories about the sociocultural context of gender socialization and other explanatory theories will provide a framework for understanding personal and societal responses to sexual violence. The course will survey all forms of sexual violence and discuss dynamics of trauma and recovery. Treatment approaches will be discussed as well as the importance of prevention and change strategies on both the personal and the societal level.

SOWK 580. FIELD PREPARATION. 1 Credit.  
Notes: graded Pass No Credit.  
Pre-requisites: graduate standing in the MSW program or permission of instructor.  
This course serves as an introduction to field practicum and to a community agency setting. It provides the students with the necessary information, skills and practices to maximize their success in their field practicum.

SOWK 581. INTEGRATIVE SEMINAR I. 1 Credit.  
Notes: graded Pass/No Credit.  
Pre-requisites: graduate standing in the MSW program or permission of MSW graduate director.  
This seminar is the forum in which students share, compare and analyze their social work educational experience and participate in learning activities focused on application of curriculum content for the comprehensive exam. It is designed to assist in the integration process, to provide support for students in discussion of learning experiences and to engage students in utilizing course content to enhance their professional practice.

SOWK 582. INTEGRATIVE SEMINAR II. 1 Credit.  
Notes: graded Pass/No Credit.  
Pre-requisites: graduate standing in the MSW program or permission of MSW graduate director.  
This seminar is the forum in which students share, compare and analyze their social work educational experience and participate in learning activities focused on application of curriculum content for the comprehensive exam. It is designed to assist in the integration process, to provide support for students in discussion of learning experiences and to engage students in utilizing course content to enhance their professional practice.
SOWK 583. INTEGRATIVE SEMINAR III. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: graduate standing in the MSW program or permission of MSW graduate director.
This seminar is the forum in which students share, compare and analyze their social work educational experience and participate in learning activities focused on application of curriculum content for the comprehensive exam. It is designed to assist in the integration process, to provide support for students in discussion of learning experiences and to engage students in utilizing course content to enhance their professional practice.

SOWK 584. INTEGRATIVE SEMINAR IV. 1 Credit.
Notes: graded Pass/No Credit.
Pre-requisites: graduate standing in the MSW program or permission of MSW graduate director.
This seminar is the forum in which students share, compare and analyze their social work educational experience and participate in learning activities focused on application of curriculum content for the comprehensive exam. It is designed to assist in the integration process, to provide support for students in discussion of learning experiences and to engage students in utilizing course content to enhance their professional practice.

SOWK 596. EXPERIMENTAL COURSE. 1-5 Credits.
SOWK 597. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

SOWK 599. INDEPENDENT STUDY. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Students take intensive and independent study of some special area in social work or social welfare.

SOWK 600. THESIS. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Elective course.

SOWK 601. RESEARCH PROJECT. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Individually supervised research work.

SOWK 602. CLINICAL DIAGNOSIS AND EVIDENCE BASED TREATMENT. 4 Credits.
Pre-requisites: SOWK 553 or currently enrolled in SOWK 561.
This course examines evidence-based treatments across the lifespan from a social work perspective, with a specific focus on the most common mental disorders and evidence-based treatments. Students will demonstrate application of the most current version of the Diagnostic and Statistical Manual of Mental Disorders and become critical consumers of evidence-based treatment research with diverse populations. The course emphasizes strengths and ecological systems perspectives, risk and resiliency factors, and the impact of biological, psychological, cultural, spiritual and other social factors.

SOWK 603. LEADERSHIP AND MANAGEMENT IN HUMAN SERVICE ORGANIZATIONS. 4 Credits.
Pre-requisites: SOWK 530 or SOWK 561.
This course is designed to expand students’ knowledge and understanding of human service organizations and to provide approaches for designing and managing human service programs effectively. Organizational and management theories and principles are applied to a range of human services. The course focuses on the knowledge, values and skills needed for successful leadership in creating a meaningful work environment, managing organizational outcomes, and engaging the community.

SOWK 671. ADVANCED PRACTICUM/SEMINAR. 1-5 Credits.
Notes: graded Pass/No Credit.
Pre-requisites: SOWK 571 or SOWK 561.
A total of 13 credits distributed over three quarters for the full-time program and over five quarters for the part-time programs. Advanced Practicum/Seminar is a continuation of the Foundation Practicum/Seminar. Students in Advanced Practicum/Seminar will utilize the agency setting for integration of coursework knowledge and for the development of professional practice skills. The placement agency is the laboratory for the application of classroom learning. Practicum is a supervised experience which allows students to learn to use supervision as a professional development process and to receive feedback concerning their professional functioning. The seminar is the forum in which students share, compare and analyze the field experience and participate in learning activities focused on application of curriculum content to practice. It is designed to assist in the integration process to provide support for students in discussion of practice issues and learning experiences and to engage students in utilizing course content to enhance their professional practice.

SOWK 695. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

Sociology (SOCI)

SOCI 101. INTRODUCTION TO SOCIOLOGY. 5 Credits.
Satisfies: GECR for social sciences, list 2, anthropology, geography, psychology and sociology.
Explores the concepts, principles and theories of sociology. Sociology seeks to develop a body of interrelated scientific propositions or generalizations that explain social behavior in non-psychological terms. Its basic goal is to understand how human beings fit their activities together into a system of stable (and sometimes unstable) social arrangements.

SOCI 195. INTERNSHIP. 1-5 Credits.
SOCI 263. SOCIAL PROBLEMS. 5 Credits.
Satisfies: international studies university graduation requirement.
An overview of major perspectives on social problems and a demonstration of their relevance for contemporary issues. Topics may include poverty, racism, sexism, aging, alienation, colonialism and the Third World, human ecology, crime, deviance and the law.

SOCI 290. INTRODUCTION TO STUDENT SERVICES. 2 Credits.
Notes: graded Pass/Fail.
Pre-requisites: must be admitted as an ambassador.
A history of the university and campus. An overview of the university curricula and range of student services with emphasis on the development of leadership and communication skills. Lab.
SOCI 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

SOCI 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair.

SOCI 301. SURVEY OF CRIMINOLOGY. 5 Credits.
Pre-requisites: SOCI 101.
Provides an introduction to the field of criminology, including descriptions and explanations of crime and efforts to control it. Topics include theories of crime causation, measurement of crime, criminal law, the criminal justice system, and street, victimless, white collar, political and corporate crime.

SOCI 320. RACE AND ETHNIC RELATIONS: GLOBAL PERSPECTIVES. 5 Credits.
Pre-requisites: SOCI 101.
Satisfies: cultural and gender diversity university graduation requirement.
A socio-structural analysis of the bases of oppression of minority groups in society. The course deals with economic, political and cultural factors involved in the emergence and perpetuation of racism/ethnocism in the United States and around the world.

SOCI 321. SEX AND GENDER. 5 Credits.
Cross listed: WMST 321.
Pre-requisites: SOCI 101.
Satisfies: cultural and gender diversity university graduation requirement.
A sociological analysis of differences and similarities between women and men. Examines the impact of gender ideologies of individual identity and social and political arrangements (especially instances of stratification and inequality). Also considers how changes in the gendered nature of society (e.g., socioeconomic organization, socialization, sexuality) occur.

SOCI 331. CLASSICAL SOCIOLOGICAL THEORY. 5 Credits.
Pre-requisites: SOCI 101.
Establishes the nature and requirements of sociological explanation. Identifies main currents of preclassical social thought. Explains, discusses and evaluates classical systems of sociological theory.

SOCI 351. SOCIAL STRATIFICATION. 5 Credits.
Pre-requisites: SOCI 101.
Course investigates class structures, stratification systems, and social mobility in contemporary American society.

SOCI 357. METHOD FOR SOCIAL RESEARCH. 5 Credits.
Pre-requisites: SOCI 101.
This course seeks to realize two complementary objectives: First, to acquaint you with the origins of sociological inquiry and the variety of styles and logical systems which shape such research; secondly, to demonstrate the nature of the research techniques which follow.

SOCI 362. SOCIOLOGY OF POLITICS. 5 Credits.
Pre-requisites: SOCI 101.
Analyzes causes and consequences of the distribution of power within and between societies and with the social and political conflicts which lead to changes in the distribution of power.

SOCI 363. SOCIOLOGY OF DEVIANCE. 5 Credits.
Pre-requisites: SOCI 101.
Examines the conditions under which deviance as a social reality emerges, develops, and changes over time. Typical concerns are the process of social typing; official responses to deviances; managing the deviant identity; and the role of bureaucracies and social class in promoting deviance as a political construction.

SOCI 370. SOCIOLOGY OF THE FAMILY. 5 Credits.
Cross listed: WMST 370.
Pre-requisites: SOCI 101.
A consideration of family structures, cultures and interactions, changing family patterns and contemporary family debates.

SOCI 371. AFRICAN AMERICAN FAMILY. 5 Credits.
Cross listed: AAST 320, SOWK 320.
The African American family as a social system influenced by institutions of the larger American society.

SOCI 395. CO-OP FIELDWORK. 1-15 Credits.

SOCI 396. EXPERIMENTAL COURSE. 1-5 Credits.

SOCI 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1 Credit.

SOCI 398. SEMINAR. 1-5 Credits.

SOCI 399. SPECIAL STUDIES/PROGRAMS. 1-5 Credits.
Pre-requisites: permission of the instructor and the department chair.

SOCI 452. JUVENILE DELINQUENCY. 5 Credits.
Pre-requisites: SOCI 101.
Provides an in-depth examination of the phenomenon of juvenile delinquency. Included in the examination are analyses of types of delinquency, measurement of delinquency, theories of delinquency causation, and the juvenile justice system. Includes field trips and class visitations from professionals who work with juveniles.

SOCI 455. CRIMINOLOGICAL THEORY. 5 Credits.
Pre-requisites: SOCI 301.
Provides an in-depth inquiry into crime and criminalization. Course places particular emphasis on the social context within which these phenomena occur.

SOCI 459. SOCIOLOGY OF COMMUNITY CORRECTIONS. 5 Credits.
Pre-requisites: SOCI 101.
Provides a sociological examination of correctional programs and practices in non-institutional settings for both adults and juveniles. Topics include program alternatives to institutional commitment, reintegration of offenders after institutionalization, the community corrections officer, and the process of working with offenders. Field trips to area agencies are also included.

SOCI 463. COMPLEX ORGANIZATIONS. 5 Credits.
Pre-requisites: SOCI 101.
Analyzes large, complex organizations as a social system. Includes theory related to the emergence and structure of bureaucracy, authority and control; organizational conflict and change, the individual and the organization; and the organization and its environment.

SOCI 465. CONTEMPORARY SOCIOLOGICAL THEORY. 5 Credits.
Pre-requisites: SOCI 101.
Establishes the nature and requirements of sociological explanation. Identifies the classical repertoire of contemporary sociological theories. Explains, discusses and evaluates contemporary systems of sociological theories.

SOCI 470. SOCIAL CHANGE. 5 Credits.
Pre-requisites: SOCI 101.
This course examines change in everyday life as well as in social institutions. Our discussions will focus on the importance of social movements in creating and responding to cultural and political transformations in the past, present and future.
SOCI 471. SOCIOLOGY OF WORK. 5 Credits.
Pre-requisites: SOCI 101.
A sociology of knowledge approach to work that examines ways in which much of the conflict that characterizes the world of work arises from differing realities that individuals and groups construct. Also examines the major location of work, organizations, and the way work can be organized as a result of images held and the impact this organization has on the construction of reality.

SOCI 472. SOCIOLOGY OF RELIGION. 5 Credits.
Pre-requisites: SOCI 101 or advanced standing in department program.
Investigates religious institutions in society in terms of their structure, function, and change.

SOCI 481. SOCIAL PSYCHOLOGY. 5 Credits.
Pre-requisites: SOCI 101.
An analytic approach to the social-psychological consequences of social structure. Focal concerns may include alienation, anti-psychiatry, personality and social class, role behavior, and socialization.

SOCI 482. IDENTITY AND POWER. 5 Credits.
Pre-requisites: SOCI 101.
This course is about the relationship between power and identity. Identity can be defined as presentations of the self that facilitate human social interaction and thereby situate individuals in social structures. We will use the concept of power* to explore how identities are central to various forms * of social inequality.

SOCI 483. SOCIOLOGY OF CHILDREN. 5 Credits.
Cross listed: WMST 483.
Pre-requisites: SOCI 101.
Addresses children and childhood from the preschool years through adolescence. Examines historical shifts in the meanings of childhood and the methods used for studying the worlds of children. Explores the theoretical approaches to child development and socialization and how these can be used to understand children's experiences in different cultural settings and situations.

SOCI 485. SOCIOLOGY OF REVOLUTIONS. 5 Credits.
Revolutionaries are rapid, widespread and deep transformations in the institutional structures, ways of thinking, relationships and cultural habits of society. They involve not only taking power by replacing governments, but also transforming power by radically changing people, spaces and social systems. We will first study The Communist Manifesto by Marx and Engels, arguably history’s most important book on revolutions. Then we will consider nonviolent means for challenging global capitalism and promoting social justice. And finally, we will discuss whether contemporary world social forums really help make another world possible. Throughout the course, we will think about how past and present struggles shape the future of revolutions.

SOCI 486. CONTEMPORARY WORLD SYSTEMS. 5 Credits.
Pre-requisites: choice of either SOCI 263 or INST 200.
Satisfies: international studies university graduation requirement.
Course examines contemporary world systems; integration, conflict and change.

SOCI 488. SOCIOLOGY OF EDUCATION. 5 Credits.
A sociological analysis of the controversies surrounding the limits and possibilities of schooling in society. It examines, in a historic and comparative manner, the issues of educational expansions, equality of opportunity, unequal achievement and school quality, the school's role in reinforcing inequality, what schools teach, and the problems of order, control, and motivation. At all times, the material reviewed is set in a theoretical context.

SOCI 489. DOING SOCIOLOGY. 5 Credits.
Pre-requisites: senior standing; SOCI majors only.
This course explores the wide variety of ways one can do sociology. Students reflect on their academic journey and think critically about how they can use the sociological knowledge they have acquired. Students examine real-life examples of how individuals use sociology in their personal, community and professional life. Students conduct research on possible career paths where they can pursue their passion in sociology.

SOCI 490. SENIOR CAPSTONE: SOCIOLOGICAL PRACTICE. 5 Credits.
Pre-requisites: SOCI 489 or approval of instructor.
Satisfies: senior capstone university graduation requirement.
This course is designed to move from a basic understanding of sociological research and practice to more advanced applications in the field. Working as a team and addressing a specific social problem or issue, students will define the problem, carry out research, craft and/or evaluate strategies and present reports in appropriate formats.

SOCI 491. SENIOR THESIS. 5 Credits.
Pre-requisites: SOCI 489.
Satisfies: senior capstone university graduation requirement.
The thesis represents a summative assessment of the student’s academic competency in his or her field of study. Students will complete and defend an original research project in the field of sociology.

SOCI 495. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Supervised field experience aligned with the student’s academic program.

SOCI 496. EXPERIMENTAL COURSE. 1-5 Credits.

SOCI 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Special short-duration programs of contemporary significance in societal-cultural behavior areas. The range and scope of topics is essentially interdisciplinary and students from all academic areas are eligible to participate.

SOCI 498. SEMINAR. 1-5 Credits.
Notes: may be repeated once for credit.
Examination of current research topics in sociology. The specific content of the seminar varies according to recent developments in sociology and according to the interests of the instructor.

SOCI 499. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Independent and/or group study in selected areas of sociology.

SOCI 599. INDEPENDENT STUDY. 1-10 Credits.

Spanish (SPAN)

SPAN 101. FIRST-YEAR SPANISH I. 5 Credits.
The beginning Spanish sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

SPAN 102. FIRST-YEAR SPANISH II. 5 Credits.
Pre-requisites: SPAN 101 or equivalent.
The beginning Spanish sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.

SPAN 103. FIRST-YEAR SPANISH III. 5 Credits.
Pre-requisites: SPAN 102 or equivalent.
The beginning Spanish sequence of courses, covering grammar, composition, conversation and discussion of cultural topics.
SPAN 113. SPECIAL TOPICS IN SPANISH. 5 Credits.
Pre-requisites: SPAN 102
This is a supplemental first year course, covering grammar, composition, reading and conversation that emphasizes discussion of cultural or social topics.

SPAN 170. INTRODUCTION TO LITERATURE. 5 Credits.
Notes: In English, no knowledge of Spanish is required.
Satisfies: GECR for humanities and fine arts, list 1, literature.
Examines, on the basis of selected Spanish works in English translation, literary approaches to human experience, including the short story, novel, poetry and drama; emphasizes the elements of literature with supporting discussion of ideas, attitudes, problems and values.

SPAN 196. EXPERIMENTAL COURSE. 1-5 Credits.
SPAN 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
SPAN 199. SPECIAL STUDIES. 1-10 Credits.
SPAN 201. SECOND-YEAR SPANISH. 5 Credits.
Pre-requisites: First-Year Spanish or equivalent.
Intensive oral work to develop fluency, written composition and reading of medium difficulty from Spanish literature.
SPAN 202. SECOND-YEAR SPANISH. 5 Credits.
Pre-requisites: SPAN 201 or equivalent.
Intensive oral work to develop fluency, written composition and reading of medium difficulty from Spanish literature.
SPAN 203. INTRODUCTION TO ADVANCED SPANISH. 5 Credits.
Pre-requisites: SPAN 202 or equivalent.
Grammar review and intensive oral work to develop fluency, written composition, and reading of medium difficulty from Spanish literature.
SPAN 296. EXPERIMENTAL COURSE. 1-5 Credits.
SPAN 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 3-5 Credits.
SPAN 299. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest.
SPAN 305. SPANISH CONVERSATION AND COMPOSITION. 3 Credits.
Pre-requisites: SPAN 201 or permission of the instructor.
This course encompasses a wide range of oral and written practice. Students will develop their cultural understanding of the Spanish world while targeting the four language skills through authentic material.
SPAN 310. ADVANCED GRAMMAR AND COMPOSITION. 3 Credits.
Pre-requisites: SPAN 203 or permission of the instructor.
SPAN 311. ADVANCED GRAMMAR AND COMPOSITION. 3 Credits.
Pre-requisites: SPAN 203 or permission of the instructor.
SPAN 312. SPANISH FOR HERITAGE SPEAKERS. 5 Credits.
Pre-requisites: being a heritage speaker; take an advanced placement test.
Satisfies: cultural and gender diversity university graduation requirement. A grammar course oriented to Spanish heritage speakers. The course will concentrate on specific linguistic problems of the Hispanic population.
SPAN 313. SPANISH COMPOSITION FOR HERITAGE SPEAKERS. 5 Credits.
Notes: placement required through the Department of Modern Languages and Literatures.
Satisfies: cultural and gender diversity university graduation requirement. A course oriented to Spanish Heritage Speakers. The course concentrates on specific linguistic (writing and reading) and cultural issues of the Heritage population in the USA.
SPAN 320. SPANISH CIVILIZATION. 5 Credits.
Pre-requisites: SPAN 203 or permission of the instructor.
Political, social, intellectual and artistic development of Spanish culture from the beginnings to the present day.
SPAN 321. SPANISH AMERICAN CIVILIZATION AND CULTURE. 5 Credits.
Pre-requisites: SPAN 203 or permission of the instructor.
Political, social, intellectual and artistic development of Spanish American culture with emphasis on Spanish America today.
SPAN 338. SURVEY OF SPANISH LITERATURE. 3 Credits.
Pre-requisites: SPAN 310 or SPAN 312.
Major works of literature from the Middle Ages to the present.
SPAN 339. SURVEY OF SPANISH-AMERICAN LITERATURE. 3 Credits.
Pre-requisites: SPAN 310 or SPAN 312.
Major works of literature from the period of the Colonies to the present.
SPAN 340. INTRODUCTION TO SPANISH LINGUISTICS. 3 Credits.
Pre-requisites: SPAN 310 and SPAN 311 or SPAN 312 and SPAN 313.
This course offers an introduction to the scientific study of Spanish. It will consist in an overview of descriptive linguistics: syntax, phonetics, semantics, sociolinguistics and some aspects of the history of the Spanish language. This class will also provide an exposure to the main issues in the area of language in contact and will examine a variety of Spanish dialects spoken in the United States.
SPAN 396. EXPERIMENTAL COURSE. 1-5 Credits.
SPAN 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
SPAN 398. SEMINAR. 1-5 Credits.
Pre-requisites: SPAN 310 or SPAN 312.
SPAN 399. DIRECTED STUDY. 1-15 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
SPAN 460. SPANISH POETRY. 3 Credits.
Notes: may be repeated.
Pre-requisites: SPAN 310 or SPAN 312.
Selected poems within a designated thematic or period framework. Content varies.
SPAN 473. POLITICAL AND PHILOSOPHICAL THOUGHT IN SPAIN. 3 Credits.
Pre-requisites: SPAN 310 or SPAN 312.
Readings and discussion of some of the most significant works by writers and thinkers in Spain.
SPAN 474. SPANISH TRAVEL NARRATIVE. 3-5 Credits.
Pre-requisites: SPAN 310 and SPAN 311 or SPAN 312 and SPAN 313 and SPAN 320; SPAN 321.
This course is a chronological exploration of the connections between travel narratives and the construction of Hispanic identity. Students continue to develop their cultural understanding of the Spanish speaking world while targeting the four language skills through material related to Spanish travel narratives.
Special Education (SPED)

SPED 475. WOMEN’S WRITING IN LATIN AMERICA. 4 Credits.
Cross listed: WMST 475.
**Pre-requisites:** SPAN 310 or SPAN 312 and SPAN 321 or HIST 365.
This course offers an introduction to women’s writing in Latin America, focusing on narrative productions of the 20th century. We will discuss issues such as feminine representation and identity, women's perspective and subjectivity through the reading and analysis of contemporary texts by Latin American women.

SPAN 477. LATIN AMERICAN FILM. 3-5 Credits.
**Pre-requisites:** SPAN 310 and SPAN 311 or SPAN 312 and SPAN 313 and SPAN 320, SPAN 321.
This course reviews, discusses and analyzes the history of cinema in Latin America, major trends in Latin American cinema, and Latin American history and culture through its film production. Students have the opportunity to perform a variety of linguistic skills (reading, speaking, listening and writing).

SPAN 491. SPANISH SENIOR THESIS. 4 Credits.
**Notes:** graded Pass/Fail.
**Pre-requisites:** SPAN 310 and SPAN 311 or SPAN 312 and SPAN 313 and SPAN 320, SPAN 321 and at least one literature elective and at least one literature elective.
**Satisfies:** senior capstone university graduation requirement.
A course oriented toward the general research of cultural and literary aspects of the Hispanic world. Each student will select a topic at the beginning of the quarter from a number of topics suggested by the instructor. Discussion, critique and analysis of the cultural and literary topics selected by the student will configure the body of the thesis. Selected bibliography will be recommended by the instructor.

SPAN 495. INTERNSHIP/PRACTICUM. 1-15 Credits.

SPAN 496. EXPERIMENTAL COURSE. 1-5 Credits.

SPAN 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

SPAN 498. SEMINAR. 1-5 Credits.

SPAN 499. DIRECTED STUDY. 1-5 Credits.
**Pre-requisites:** SPAN 310 or SPAN 312 or permission of the instructor, department chair and college dean.

**Special Education (SPED)**

SPED 460. SPECIAL EDUCATION RESEARCH METHODS. 5 Credits.
**Pre-requisites:** EDUC 201.
This course provides a critical analysis of research methodologies in special education. Emphasis is placed on developing student skills in asking and answering sound research questions.

SPED 463. INTRODUCTION TO SPECIAL EDUCATION. 4 Credits.
Overview of definitions, causes, characteristics and educational approaches concerning students with disabilities and exceptional students.

SPED 399. SPECIAL STUDIES. 1-5 Credits.
**Pre-requisites:** permission of the instructor, department chair and college dean.
Subjects vary according to faculty and student interest.

SPED 412. INTRODUCTION TO EARLY CHILDHOOD SPECIAL EDUCATION. 4 Credits.
**Pre-requisites:** SPED 363.
Overview of trends and services related to providing intervention for young children with disabilities (ages 0–8) and their families.

SPED 420. PRINCIPLES OF BEHAVIOR FOR STUDENTS WITH EXCEPTIONAL NEEDS. 4 Credits.
**Pre-requisites:** SPED 363.
Overview of principles of behavior change and how they apply to students with exceptional needs.

SPED 421. CLASSROOM MANAGEMENT IN SPECIAL EDUCATION SETTINGS. 4 Credits.
**Pre-requisites:** SPED 363, SPED 420.
Covers fundamental knowledge and experiences for assessing and developing effective management strategies in special education classrooms.

SPED 460. SPECIAL EDUCATION METHODS. 4 Credits.
**Pre-requisites:** SPED 363.
Overview of the primary instructional and behavior management techniques needed to work successfully with persons with special needs.

SPED 461. SPECIALLY DESIGNED INSTRUCTION FOR LANGUAGE ARTS. 4 Credits.
**Pre-requisites:** SPED 363, SPED 420.
This course provides students with skills in designing explicit instruction lessons for reading, writing and spelling as well as using scientifically-validated reading, writing and spelling curricula. The focus is on using specially designed instruction for students with disabilities.

SPED 462. METHODS FOR TEACHING STUDENTS WITH AUTISM AND SEVERE DISABILITIES. 4 Credits.
**Pre-requisites:** SPED 363, SPED 460.
Covers instructional techniques used to teach skills to students with autism and severe disabilities.

SPED 463. METHODS FOR TEACHING INFANTS AND YOUNG CHILDREN WITH DISABILITIES. 4 Credits.
**Pre-requisites:** SPED 363, SPED 412, SPED 460.
Covers intervention strategies for teaching infants and young children with disabilities skills in home-and center-based programs.

SPED 464. SPECIALLY DESIGNED INSTRUCTION FOR MATH AND CONTENT AREAS. 4 Credits.
**Pre-requisites:** SPED 460.
This course develops skills in designing explicit instruction lessons for math and content areas as well as using scientifically-validated math and content area curricula. The focus is on using specially designed instruction for students with disabilities.

SPED 470. SPECIAL EDUCATION ASSESSMENT. 4 Credits.
**Pre-requisites:** SPED 363, SPED 460.
Covers how to evaluate, interpret, select, develop and use formal and informal assessment tools specifically for students with special needs.

SPED 472. ASSESSMENT OF INFANTS AND YOUNG CHILDREN WITH DISABILITIES. 4 Credits.
**Pre-requisites:** SPED 363, SPED 412, SPED 460.
Covers how to evaluate, interpret, select, develop and use formal and informal assessment tools specifically for infants and young children with disabilities and their families.

SPED 480. INCLUSIONARY PRACTICES AND COLLABORATION. 4 Credits.
**Pre-requisites:** SPED 363, SPED 460.
Covers information and skills needed to collaborate effectively with students, educators, parents and agencies to implement appropriate special education programs.
SPED 488. SPECIAL EDUCATION PRACTICUM. 3 Credits.
Notes: graded Pass/Fail; must be completed twice for a total of 6 credits.
Pre-requisites: EDUC 200 and permission of instructor.
Students observe and demonstrate effective teaching practices in a special education setting.

SPED 489. SPECIAL EDUCATION STUDENT TEACHING. 16 Credits.
Notes: graded Pass/Fail.
Pre-requisites: SPED 490 and permission of instructor.
Provides the student with teaching experience in a special education setting.

SPED 490. SPECIAL EDUCATION CAPSTONE. 4 Credits.
Pre-requisites: to be taken the quarter before student teaching; permission of instructor required.
Satisfies: senior capstone university graduation requirement.
This is a culminating experience for the special education major.
Students are required to integrate knowledge from other courses and apply it to a variety of situations. This course is required for special education and dual endorsement majors.

SPED 491. SENIOR THESIS. 4 Credits.
Pre-requisites: invitation of the instructor/advisor.
Satisfies: senior capstone university graduation requirement; replaces ITGS 400 as a senior capstone experience.
Directed research resulting in a formal write-up. Limited to those students for whom research experience will be helpful in obtaining entrance to graduate school.

SPED 495. EXPERIENTIAL LEARNING. 1-12 Credits.
Notes: graded Pass/Fail.
Pre-requisites: permission of the instructor, department chair and college dean (interview required).
Individual learning and career development course with an off-campus internship contract coordinated through the Internship Program.

SPED 496. EXPERIMENTAL COURSE. 1-5 Credits.

SPED 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-10 Credits.

SPED 498. SEMINAR. 1-5 Credits.

SPED 499. DIRECTED STUDY. 1-10 Credits.
Notes: graded Pass/Fail.
Pre-requisites: permission of the instructor, department chair and college dean.

Technical Communication (TCOM)

TCOM 205. INTRODUCTION TO TECHNICAL COMMUNICATION. 5 Credits.
Pre-requisites: ENGL 201.
In this introduction to technical communication, students will learn the basic principles of effectively structuring information for a variety of purposes and audiences, using an applicable document type. Students will solve various communication problems individually and they will be required to work in teams to complete a research or service learning project.

TCOM 305. USABILITY AND INFORMATION DESIGN IN TECHNICAL COMMUNICATION. 5 Credits.
Pre-requisites: TCOM 205.
In this course, students learn about the principles of document design as applied in the field of technical communication. As part of the course, students learn about usability testing and conduct tests to measure the effectiveness of a document. Students work individually and in teams to complete a variety of projects, including a service learning or client-based project.

TCOM 309. GRAMMAR FOR PROFESSIONAL WRITERS. 5 Credits.
Cross listed: ENGL 309, JRNM 309.
Pre-requisites: ENGL 201.
Many professionals continue to struggle with grammar and usage rules throughout their careers. In this course, students will refresh and improve their knowledge of English grammar, style and usage rules. They will develop confidence in using correct punctuation, capitalization and verb forms, and learn how to create and employ different types of sentence structures, becoming proficient at writing clear, correct sentences to communicate effectively with a variety of audiences.

TCOM 404. INSTRUCTIONS AND PROCEDURES. 5 Credits.
Pre-requisites: TCOM 205.
In our technologically rich world, instructions and procedures pervade our professional lives. In this course, students will learn the art and practice of how to write, design, test and deliver instructions and procedures. Skills learned in this course are highly desired in a variety of settings including government, industry, corporate and non-profit agencies.

TCOM 407. PROPOSAL WRITING. 5 Credits.
Pre-requisites: ENGL 201.
Investigation of funding sources, use of government documents for research and evaluation of submitted proposals are among areas covered. Emphasis is on clear, concise writing of individualized student projects.

TCOM 409. EDITING IN TECHNICAL COMMUNICATION. 5 Credits.
Pre-requisites: ENGL 459.
This course develops the principles and practices of technical editing. Students will learn how to copy, edit and proofread a variety of technical and professional documents, using standard symbols and conventions. Students will also learn to use style sheets to track emendations and they will gain an understanding of the responsibilities of an editor to make texts effective and usable.

TCOM 490. SENIOR CAPSTONE: ISSUES IN TECHNICAL COMMUNICATION. 5 Credits.
Satisfies: senior capstone university graduation requirement.
TCOM 495. TECHNICAL COMMUNICATION INTERNSHIP. 1-15 Credits.
Notes: may be repeated.
Pre-requisites: TCOM 404, TCOM 407 and TCOM 409; permission of the instructor, department chair and college dean. A minimum of 20 hours work per week as a student-intern in technical communication for a cooperating business, industry or agency. Students may earn from 5–15 credits.
Technology (TECH)

TECH 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

TECH 199. DIRECTED STUDY. 1-5 Credits.

TECH 208. SURVEY OF ELECTRICITY. 4 Credits.
Pre-requisites: pre-university basic skills in mathematics. Introduces the student to direct current, alternating current (including residential wiring), and amplifying devices. (3 hours lecture, 2 hours laboratory per week)

TECH 235. CONSTRUCTION MATERIALS AND TECHNIQUES. 5 Credits.
Pre-requisites: METC 102, two years of high school drafting or equivalent. This course introduces various materials and techniques used in construction. Students gain an understanding of the fundamental principles of structural, physical, and long-term performance of some of these materials through lecture and lab experiments. Students also gain an understanding of some of the mechanical and non-mechanical properties of various materials, common construction methods and knowledge of material properties and applications in construction.

TECH 297. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

TECH 298. SEMINAR. 1-5 Credits.

TECH 299. SPECIAL STUDIES. 1-6 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

TECH 301. METALLIC PROCESSES. 5 Credits.
Pre-requisites: junior standing or permission of instructor. Metallic Processes is a comprehensive basic course in technical metals which is designed to survey metalworking materials and processes which have been developed by modern industry. The course provides opportunity to learn the theories and scientific principles basic to the application of metalworking tools and procedures.

TECH 305. CONSTRUCTION ESTIMATING. 4 Credits.
Pre-requisites: TECH 235. This course provides students with the ability to estimate construction costs by reading and interpreting technical drawings. Primary focus is on calculating materials, labor and equipment cost for both residential and commercial building projects. Students generate quantity takeoffs for specific building projects.

TECH 317. COMPUTER-AIDED DRAFTING. 4 Credits.
Using the computer to draft mechanical, electrical, and architectural drawings in 2- and 3-dimensions. File management methods, job management methods, and macro development techniques are discussed. (3 hours lecture, 3 hours laboratory per week)

TECH 320. NON-METALLIC PROCESSES. 5 Credits.
Pre-requisites: METC 110 or permission of instructor. Survey of non-metallic materials (such as woods, plastics, and ceramics) and the industrial processes utilized to convert raw materials into finished products. Course includes characteristics and properties of non-metallic materials and utilization of industrial tools and processing equipment.

TECH 330. TECHNOLOGY PROBLEM ANALYSIS AND DESIGN I. 4 Credits.
Pre-requisites: junior standing or permission of the instructor. Development of advanced skills in technical problem analysis, planning, research, solution strategies, critical thinking and presentation. Computer-aided design tools such as CAD, project-planning software, spreadsheets, as well as imaging and publishing software are used. Emphasis is on consideration of interconnected systems.

TECH 331. TECHNOLOGY PROBLEM ANALYSIS AND DESIGN II. 4 Credits.
Pre-requisites: TECH 330. Development of student’s synthesis, design, organizational, and learning skills through examination of current research and/or design topics in Technology.

TECH 335. ARCHITECTURE. 4 Credits.
Pre-requisites: METC 110. Design, layout, and development of residential dwellings and large structures. (4 hour lecture per week)

TECH 345. SOILS/SURVEYING. 4 Credits.
Pre-requisites: TECH 335. This course introduces soil mechanics and site surveying. Through lecture and field work the course examines characteristics and compositions of soil, soil classification systems and the strength of soil masses. Students practice fundamentals of construction surveying, including tapping, leveling, angular measurement, traversing, topographic surveying, building layout and grade staking.

TECH 354. BUILDING CODES. 4 Credits.
Pre-requisites: TECH 335. Building Codes is a comprehensive course pertaining to International Building Codes (IBC). Emphasis is placed on code requirements for both commercial and residential applications to include structural, mechanical, plumbing, fire, fuel gas and private sewage code requirements.

TECH 357. MANUFACTURING PROCESSES. 4 Credits.

TECH 393. TECHNOLOGY WORLD CIVILIZATION. 4 Credits.
Cross listed: HONS 393.
Pre-requisites: ENGL 101.
Satisfies: international studies university graduation requirement. Students will investigate the issues surrounding technological change in discrete cultural settings with a historical perspective of the evolution of technology in a global context.

TECH 395. CO-OP FIELDWORK. 1-5 Credits.

TECH 396. EXPERIMENTAL COURSE. 1-6 Credits.

TECH 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.

TECH 398. SEMINAR. 4 Credits.

TECH 402. MACHINE TOOL I. 5 Credits.
Pre-requisites: METC 110 and TECH 301. A comprehensive course in machine tool operations, both conventional and CNC. Course includes cutting operations, precision measurement, set up, and CNC programming. (3 hours lecture, 4 hours laboratory per week)

TECH 403. COMPUTER-AIDED DESIGN AND PROJECT MANAGEMENT. 4 Credits.
Pre-requisites: MATH 107 or permission of the instructor. The application of spreadsheets to solve engineering problems, technical graphs, trending and curve fitting. The introduction to the use of computer-aided scheduling of projects, critical path planning, project tracking and cost collection.
TECH 404. COMPUTER NUMERICAL CONTROL. 5 Credits.  
Pre-requisites: TECH 301 and TECH 402.  
This course provides the learner with experience utilizing CNC processes. Programming methods will include manual, CAM software and conversational languages.

TECH 406. WELDING TECHNOLOGY. 4 Credits.  
Pre-requisites: TECH 301 or permission of the instructor.  
Theory and practice of welding ferrous and non-ferrous metals. Practice in oxyacetylene, shielded metal arc and inert gas processes. (4 hours lecture, 4 hours laboratory per week)

TECH 430. MACHINE TOOL II. 5 Credits.  
Pre-requisites: TECH 301 and TECH 402.  
Application and theory in the design, development and function of tooling, dies, molds, jigs, and fixtures. Laboratory experiences provide a problem solving approach to development of prototypes in both unit and mass production applications. (5 hours lecture, 4 hours laboratory per week)

TECH 452. ENGINEERING ECONOMICS. 4 Credits.  
Pre-requisites: junior standing or permission of instructor.  
This course focuses on the systematic evaluation of the economic benefits and costs of projects involving engineering design and analysis. Engineering economics quantifies the benefits and costs associated with engineering projects to determine whether they make (or save) enough money to warrant their capital investment.

TECH 454. ENVIRONMENTAL ENGINEERING. 4 Credits.  
Pre-requisites: junior standing or permission of the instructor.  
This course explores ways to promote the design and manufacturing of environmentally sound products and processes. Benefits include environmentally-friendly products, more efficient operations and the good will of an informed public that expects a clean, healthy environment.

TECH 456. ENGINEERING ETHICS, CONTRACTS AND PATENTS. 4 Credits.  
Pre-requisites: junior standing or permission of instructor.  
This course investigates the elements of professional engineering practice including their relationship to the law, to the public and the ethics of the profession. Topics covered range from ethics, contracts, patents, copyrights, sales agreements and engineering specifications to professionalism, licensing, intellectual property, liability, risk, reliability and safety.

TECH 458. QUALITY ASSURANCE. 4 Credits.  
Pre-requisites: junior standing.  
Application and theory of quality control systems including development and use of process control charts, sampling, time and motion studies, and statistical analysis. (4 hours lecture, 1 hour laboratory per week)

TECH 462. INDUSTRIAL SAFETY ENGINEERING. 4 Credits.  
Fundamentals of safety, classification of hazards, accident statistics, organization problems, safety codes, machine guarding, mechanical, electrical and chemical hazards, ventilation, respiratory and safety devices. (4 hours lecture per week)
Theatre (THTR)

THTR 110. MOVEMENT AND VOICE. 3 Credits.
Movement and Voice is beginning training in the use of voice and body for the actor. The course is designed to offer students a wide variety of exercises and experiences that contribute to self-awareness, ensemble building, actor preparation, effective communication and strength and flexibility.

THTR 150. FUND OF MUSIC/DANCE THEATRE. 3 Credits.
An introduction to skills necessary to perform musical theatre roles. Fundamentals of singing and basic dance techniques are emphasized.

THTR 198. SEMINAR. 1-5 Credits.

THTR 202. THEATRE IN THE HUMANITIES. 5 Credits.
Satisfies: GECR for humanities and fine arts, list 2, fine arts.
Elements of theatre, dramatic structure, types and styles; tradition, values and ideas of the theatre and humanity’s relationship to it.

THTR 203. THEATRE GRAPHICS. 5 Credits.
The first in a series of courses in technical theatre. Introduction to drafting, blueprint reading, sketching, perspective drawing, rendering in watercolor and model making for theatrical settings, lighting and properties.

THTR 205. THEATRE INTERNSHIP. 1-5 Credits.

THTR 206. EXPERIMENTAL COURSE. 1-6 Credits.

THTR 207. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-6 Credits.
Notes: only one workshop course for up to 3 credits may be used to fulfill graduate degree requirements.

THTR 208. SEMINAR. 1-6 Credits.

THTR 209. INDEPENDENT STUDY. 1-6 Credits.
Notes: may be repeated within the 6 credits allowed to fulfill the student’s goals and needs in specific areas.
Pre-requisites: permission of the instructor, department chair and college dean.

THTR 210. ACTING I. 4 Credits.
Pre-requisites: THTR 110.
Acting I is an introduction to the actor’s creative process using exercises, improvisations and scenes with a special emphasis on the Stanislavski method.

THTR 226. STAGE MAKE-UP. 1 Credit.
Lecture and laboratory where the student may learn basic and advanced techniques and principles of straight and character make-up.

THTR 295. THEATRE INTERNSHIP. 1 Credit.
Pre-requisites: permission of the instructor, department chair and college dean.
Internship experience at University Theatre in the scene shop, costume shop, or publicity office.

THTR 299. DIRECTED STUDY. 3-10 Credits.

THTR 303. SURVEY OF THEATRE HISTORY. 5 Credits.
Cross listed: HUMN 303.
Pre-requisites: THTR 202 or upper class standing.
Surveys the major periods of Western theatre from Greek to modern trends.

THTR 310. ACTING II. 4 Credits.
Pre-requisites: THTR 202 and THTR 210.
Acting II is a continuation of Acting I. Acting II continues an exploration of the Stanislavski method through exercises, improvisations and advanced scene-work.

THTR 312. SPECIAL SKILLS FOR ACTORS. 1-5 Credits.
Notes: repeatable six times for credit with permission of instructor.
Pre-requisites: THTR 110.
Special Skills for Actors is a practical course in developing special skills for actors, such as juggling, dialects and theatrical swordplay.

THTR 319. REHEARSAL AND PERFORMANCE. 1-5 Credits.
Notes: repeatable for credit.
Pre-requisites: permission of the instructor.
Performance on stage in a University Theatre production. Amount of credit is determined by role played.

THTR 321. PLAY PRODUCTION. 3 Credits.
Techniques of producing a play for public performance. Methods of selecting scripts, casting, rehearsal procedure, and performance responsibilities. Elements of the business of production, including contractual policies and limitations.

THTR 326. CREATIVE DRAMATICS. 3 Credits.
Pre-requisites: permission of the instructor.
Aims, objectives and role of creative dramatics in education; includes participation with children.

THTR 330. STAGE COSTUME. 3 Credits.
Principles of costumes for the stage. The nature and function of this area of production including procedures, policies, sources plus historical and professional data.

THTR 331. THEATRE DESIGN AND TECHNOLOGY I. 5 Credits.
Pre-requisites: Permission of the instructor.
Theatre Design and Technology I introduces students to design and execution of theatre scenery, lighting and sound.
THTR 332. THEATRE DESIGN AND TECHNOLOGY II. 5 Credits.
Pre-requisites: THTR 331.
Theatre Design and Technology II continues to help students develop skills in the scenicographic arts. Students will operate the machinery and utilize the crafts of scenic construction including rigging, painting, rendering, modeling, drafting and wiring. Programming for sets, lights and audio in the theatre are other topics covered in this course.

THTR 336. STAGE LIGHTING. 5 Credits.
Pre-requisites: THTR 203 or consent of instructor.
A beginning course in basic electricity and lighting for the theatre. Introduction to types of instruments and lamps, their uses and capabilities. Color media, circuitry and patching for manual and computer boards. Computation of electrical loads; safety measures. Three lectures and two laboratory sessions per week.

THTR 337. STAGE LIGHTING DESIGN. 3 Credits.
An intermediate course concerned with the methodology of physically designing lights for the stage.

THTR 338. CONCEPTS OF THEATRICAL DESIGN. 3 Credits.
A beginning course in the styles, history, and examples of theatrical scenic design.

THTR 339. ACTING WORKSHOP: VARIABLE TOPICS. 4 Credits.
Pre-requisites: THTR 110.
Acting Workshop is a special topics performance course, including, but not limited to, The Meisner Technique, Chekhov and improvisation.

THTR 340. SCENE CONSTRUCTION. 5 Credits.
Pre-requisites: THTR 203 or consent of instructor.
Introduction to style and types of scenery; materials; tools; stage mechanics and construction. Three lecture hours and two two-hour laboratory sessions per week.

THTR 380. THEATRE EXPERIENCE. 1 Credit.
Notes: repeatable for credit up to eight times with instructor approval.
Pre-requisites: THTR 202.
Theatre Experience provides students with internship experience at the University Theatre in the scene shop, costume shop, publicity office, box office, stage management or in performance.

THTR 395. UNIVERSITY THEATRE INTERNSHIP. 1 Credit.
Notes: repeatable for credit.
Pre-requisites: permission of the instructor, department chair and college dean.

THTR 396. EXPERIMENTAL COURSE. 1-5 Credits.

THTR 398. SEMINAR. 1-5 Credits.

THTR 399. SPECIAL STUDIES. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.
Subjects studied vary according to faculty and student interests.

THTR 410. ACTING III. 4 Credits.
Pre-requisites: THTR 310.
Acting III combines an intensive practical analysis of heightened language with the performance skills needed to bring classic plays to life.

THTR 412. ACTING: THE PROFESSION. 4 Credits.
Pre-requisites: THTR 110.
Students will acquire practical skills to select, prepare and perform audition pieces. They will learn about headshots, resumes, unions and professional etiquette.

THTR 419. REHEARSAL AND PERFORMANCE. 1-5 Credits.
Notes: repeatable for credit.
Pre-requisites: permission of the instructor.
Practical experience of working backstage during actual stage productions. Amount of credit to be determined by work done on the production.

THTR 421. DIRECTING I. 4 Credits.
Pre-requisites: THTR 303, THTR 310, THTR 330, THTR 332.
Directing I focuses on the process of stage directing, with emphasis on action analysis, principals of staging, composition, picturization, casting, effective use of a rehearsal process, artistic vision and collaboration with designers.

THTR 422. DIRECTING II. 4 Credits.
Pre-requisites: THTR 421.
Directing II builds upon the foundation of Directing I. The focus is on creating believable and engaging dramatic action and exploring the primary relationship between the actor and director through intensive scene-work.

THTR 425. PROFESSIONAL STAGE MANAGEMENT. 3 Credits.
A study into the preshow production and post-show requirements, supervised by a stage manager. Includes work description of related department heads and the interaction therein, both in academic and professional theatre.

THTR 430. THEATRE DESIGN AND TECHNOLOGY III. 5 Credits.
Pre-requisites: THTR 332.
Theatre Design & Technology III serves as the advanced course work in design arts for the theatre and methodology of constructing, rigging, painting, shifting, lighting, wiring and finishing of set pieces and properties for theatrical stage production.

THTR 438. SCENE DESIGN. 3 Credits.
A course in the methods available to the scene designer in presenting the design idea.

THTR 439. TOPICS IN THEATRE. 1-5 Credits.
Pre-requisites: THTR 202.
Topics in Theatre examines specific issues related to theatre arts.

THTR 445. SCENE PAINTING. 2 Credits.
A practicum in techniques and mechanics of choosing, mixing, and applying scene paint for theatrical production.

THTR 491. SENIOR THESIS PROJECT. 5 Credits.
Satisfies: senior capstone university graduation requirement.
Senior theatre majors whose schedules will not allow them to complete this course as their capstone, must enroll in an ITGS 400 course and complete the theatre department’s senior comprehensive written and oral examination. The final exit assessment instrument for graduation. Senior theatre majors expecting to graduate following the spring quarter of their senior year must undertake either the direction or design of a one-act play produced and presented on the main stage of the University Theatre as a capstone project during spring quarter. This project will result in the production of a major thesis document. The project will be conducted under the supervision of the faculty. The examination may be scheduled during any quarter.

THTR 494. STAGE DOOR TO THE FUTURE. 1-5 Credits.
Opportunity to work with professional theatre company on two or more productions each summer.
**THTR 495. FIELD EXPERIENCE IN THEATRE. 1-15 Credits.**

**Pre-requisites:** permission of the instructor, department chair and college dean.

Experience in production, performance, or management of a theatre outside the university. Amount of credit is dependent on responsibilities undertaken.

**THTR 496. EXPERIMENTAL COURSE. 1-5 Credits.**

**THTR 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.**

Group workshop projects in a selected field of theatre.

**THTR 498. SEMINAR. 1-5 Credits.**

**THTR 499. DIRECTED STUDY. 1-5 Credits.**

**UNST 196. EXPERIMENTAL COURSE. 1-5 Credits.**

Experimental courses descriptions will vary.

**UNST 197. WORKSHOPS. 1-5 Credits.**

Workshop

**UNST 198. SEMINAR. 1-5 Credits.**

Seminar

**UNST 199. INDEPENDANT STUDY. 1-5 Credits.**

Independent Study

**UNST 215. SERVICE AND LEADERSHIP. 2 Credits.**

The course is designed to explore the links between service, leadership and social change. From global to local contexts, students examine the people and circumstances involved in social transformations. Through their service-learning praxis experience, students draw upon leadership and social change theory to apply it to the context of their service experience. The goal of the course is to deepen students' understanding of the social change model of leadership and the ways in which it shapes their ability to become change agents.

**UNST 295. INTERNSHIP. 1-5 Credits.**

Internship

**UNST 296. EXPERIMENTAL. 1-5 Credits.**

Experimental

**UNST 297. WORKSHOP. 1-5 Credits.**

Workshop

**UNST 298. SEMINAR. 1-5 Credits.**

Seminar

**UNST 299. INDEPENDENT STUDY. 1-5 Credits.**

Independent Study

**UNST 495. ENGAGED INTERNSHIP. 2 Credits.**

Students develop their civic and professional skills through experiential learning in a community context. Throughout the quarter, students attend required meetings and complete assignments that encourage them to reflect on their experience and role in fostering positive social change.

**UNST 498. SOCIAL CHANGE SEMINAR. 2 Credits.**

This course examines the theory and practice of social change. The course builds upon prior and ongoing community engagement providing students a space to examine the question of “what’s next?” as they transition from college into leadership roles in their careers and communities. From global to local contexts, students examine the people and circumstances involved in social transformations and then critically reflect on their own social change work now and in the future.

**Women's Studies (WMST)**

**WMST 101. INTRODUCTION TO WOMEN'S STUDIES. 5 Credits.**

Cross listed: HUMN 101.

Satisfies: cultural and gender diversity university graduation requirement.

Examines the struggle for equality, the message and impact of the media, power of language, influence of religion and the effects of socialization, education, race, class, roles, stereotypes and romantic love on the experience of women.

**WMST 195. INTERNSHIP. 1-5 Credits.**

Internship

**WMST 196. EXPERIMENTAL COURSE. 1-5 Credits.**

Experimental

**WMST 197. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.**

Workshop

**WMST 296. EXPERIMENTAL COURSE. 1-5 Credits.**

Experimental

**WMST 299. DIRECTED STUDY. 1-5 Credits.**

Directed Study

**WMST 310. ISSUES IN WOMEN'S STUDIES. 4 Credits.**

Cross listed: HUMN 310.

Satisfies: cultural and gender diversity university graduation requirement.

Analyzes causes and effects of sexual stereotypes and surveys new scholarship through women’s studies in psychology, economics, female biology, history, literature and others.

**WMST 314. GENDER AND COMMUNICATION. 5 Credits.**

Cross listed: CMST 314.

Pre-requisites: sophomore standing.

Satisfies: cultural and gender diversity university graduation requirement.

This course examines current research on the interactions among language, gender and communication in contemporary social and cultural contexts.

**WMST 318. BIOLOGY OF WOMEN. 3 Credits.**

Cross listed: BIOL 318.

The history, biology and myths of human reproduction as they apply to women and the interaction of brain, hormones and social life.

**WMST 321. SEX AND GENDER. 5 Credits.**

Cross listed: SOCI 321.

Pre-requisites: SOCI 101.

Satisfies: cultural and gender diversity university graduation requirement.

A sociological analysis of differences and similarities between women and men. Examines the impact of gender ideologies on individual identity and social and political arrangements (especially instances of stratification and inequality). Also considers how changes in the gendered nature of society (e.g., socioeconomic organization, socialization, sexuality) occur.
WMST 331. PSYCHOLOGY OF WOMEN. 4 Credits.
Cross listed: PSYC 331.
Pre-requisites: ENGL 201 or equivalent.
Satisfies: cultural and gender diversity university graduation requirement.
The psychology of women in terms of their bodies, socialization, personality, affiliation and achievement motivations, abnormal behavior patterns, therapy and personal growth needs.

WMST 338. DISCOVERING WOMEN IN SCIENCE. 1 Credit.
The course uses several scientific themes to rediscover from the past and find in contemporary research, the women who have made significant contributions to science.

WMST 351. GENDER AND TOTAL WAR. 5 Credits.
Cross listed: HIST 351.
This course explores the relationship between social constructions of gender and the history of war in the 20th century. Topics include how gender is used to justify war, and the use of gender ideologies in pacificist movements. The course also looks at ways that individual men and women experienced war, and war's effects on the social, sexual, psychological, political and economic aspects of individuals' lives.

WMST 360. WOMEN IN PRISON. 5 Credits.
Cross listed: CRIM 360.
In this course, we examine the socio-structural relationships between women's lives and women's crimes and explore how race, class and gender assumptions shape the experiences of female correctional officers and female inmates. In addition, we analyze how the prison rules and regulations that girls and women have to abide by are deeply gendered. Since the 1980s, the number of women and girls incarcerated has increased drastically. Yet, we know very little about female criminality and women's lives inside prison.

WMST 366. WOMEN'S HEALTH ISSUES. 4 Credits.
Cross listed: HLET 366.
Satisfies: cultural and gender diversity university graduation requirement.
This course will explore the unique personal and social concerns regarding women's health. Emphasis will be placed on the social and health related issues that women face throughout the life cycle. Discussion will include the effect of gender stratification in the workforce, gender roles in the family unit, female depiction in the media, substance abuse, body image, pregnancy and sexuality and other issues that affect women's mental, physical and emotional health. Historical dimensions of women's health will also be explored, including contributions from historically noteworthy women.

WMST 370. SOCIOLOGY OF THE FAMILY. 5 Credits.
Cross listed: SOCI 370.
Pre-requisites: SOCI 101.
A consideration of family structures, cultures and interactions, changing family patterns and contemporary family debates.

WMST 371. CULTURAL STUDY: AFRICAN AMERICAN WOMEN AND HAIR. 2 Credits.
This course covers the history of African American women's hair. Students will learn how different hairstyles and treatments document a journey of cultural and self-rejuvenation plagued by conflict and accusations. The course will also examine the relationship between hairstyles and racial identity.

WMST 377. ALTERNATIVES TO DOMESTIC VIOLENCE. 2 Credits.
Cross listed: SOWK 377.
Analyzes theories relevant to issues of domestic violence in their historical, legal and cultural contexts. Therapeutic interventions are explored.

WMST 389. WOMEN, LITERATURE AND SOCIAL CHANGE. 5 Credits.
Cross listed: ENGL 389.
Pre-requisites: ENGL 201.
Satisfies: cultural and gender diversity university graduation requirement.
Examines fictional images of women as these images reflect the changing roles and status of women from Greece to the present, focusing on the 19th and 20th centuries.

WMST 392. WOMEN IN THE AMERICAN WEST. 5 Credits.
Cross listed: HIST 392.
Pre-requisites: junior standing.
This course examines the lives of frontier women using a variety of primary sources (letters, diaries, oral histories), as well as secondary sources (books, articles, movies, tapes).

WMST 394. WOMEN IN AMERICAN HISTORY. 5 Credits.
Cross listed: HIST 394.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Brings to life and surveys the accomplishments of the lost women of the past from colonial times to the present. Society's definition of the nature of women and their proper roles will be examined, as well as the actual life conditions of women and the social and economic functions they performed.

WMST 396. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

WMST 397. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Workshop

WMST 398. SEMINARS. 1-5 Credits.
Selection of prose writings by German female authors of the past two centuries, with an emphasis on contemporary writers.

WMST 399. DIRECTED STUDY. 1-5 Credits.
Directed Study

WMST 400. WOMEN AND MEN IN LITERATURE. 1 Credit.
Cross listed: ENGL 400.
This course teaches the integration of women authors, the ideas of men writing about women and ideas interesting to women in the study of literature. We will deal with textbook selections and a comparative treatment of women and men in a literature survey course. The course will provide a feminist approach and review the literature on gender balance.

WMST 402. WOMEN AND MEN IN THE U.S. ECONOMY. 1 Credit.
Cross listed: ECON 429.
In the course we examine the economic activity and labor force participation of women and men in the United States. Employment issues, such as labor market discrimination, affirmative action and comparable worth will be discussed. Other topics include income distribution, poverty, welfare programs and the tax system.
WMST 405. WOMEN AND MEN IN HISTORY. 1 Credit.
Cross listed: HIST 405.
This course will deal with the placing of women and men within history. A comparative analysis will be made of the historical treatment given to both women and men. Using American history as an example, the workshop will set forth principles that will effectively help the classroom teacher create a gender balanced course and the student to recognize gender balance in history education. Attention will be given to non-sexist textbooks, audiovisual materials and testing.

WMST 406. WOMEN AND MEN IN THE CULTURAL LANDSCAPE. 1 Credit.
Cross listed: GEOG 406.
The created landscape reflects human values and experience. This course examines ways in which women and men create, use and experience the humanized landscape. We will examine spatial patterns of human activity from a variety of times and places, linking geographic theory to everyday environments. The course will include map work, slide analysis and a field exercise as tools for identifying and interpreting cultural landscapes.

WMST 409. WOMEN AND MEN IN CONTEMPORARY ART. 1 Credit.
Cross listed: ART 409.
Pre-requisites: ENGL 201 or equivalent.
The class focuses on how the cultural arts describe society, examining as it does so a variety of social issues. Students will suggest ways in which they can integrate women into the arts and into their understanding of larger cultural relationships.

WMST 410. FEMINIST THEORY. 4 Credits.
Cross listed: HUMN 410.
Pre-requisites: WMST 101 or HUMN 310/WMST 310.
Feminist theories developed to explain women’s subordinate position in society and current trends in feminist thought. Includes psychoanalytic feminism, feminist literary criticism and cross-cultural views of feminism.

WMST 411. FEMINIST METHODOLOGIES. 5 Credits.
Pre-requisites: HUMN 101 or HUMN 310 or WMST 101 or WMST 310 or permission of instructor.
This course introduces fundamental concepts and methodological approaches to conducting feminist research. A specific focus is placed on examining and interrogating power relations and ways of knowing, and connecting theory and practice.

WMST 413. GENDER AND YOUTH CULTURE. 5 Credits.
Pre-requisites: HUMN 101/WMST 101 or HUMN 310/WMST 310 or permission of instructor.
This course investigates the shaping of gender generationally, culturally and historically. A specific focus on girl culture invites critical considerations of the ways that masculinity and femininity change over time and simultaneously interact with socially imposed dichotomies of “girlhood / boyhood.”

WMST 414. GENDER AND SEXUALITY IN CINEMA. 5 Credits.
Pre-requisites: HUMN 101/WMST 101 or HUMN 310/WMST 310 or permission of instructor.
This course investigates various constructions of sexuality within cinematic representations of intimacy, desire and the body. Students develop media literacy skills for critically engaging with dominant cultural stories and images that communicate changing understandings of sexuality, gender, class, race and nation.

WMST 415. GAY, LESBIAN, BISEXUAL AND TRANSGENDER STUDIES. 5 Credits.
Cross listed: HUMN 415.
Pre-requisites: one course in or cross-listed with WMST.
Satisfies: cultural and gender diversity university graduation requirement.
This course consists of a theoretical examination of gay, lesbian, bisexual and transgender identities. The course material will include texts from queer theory and a wide variety of academic disciplines.

WMST 416. GENDER AND MEDIA. 5 Credits.
Cross listed: CMST 416.
Pre-requisites: junior standing.
This course examines some of the relationships between media in the U.S. and social constructions of gender and sexuality.

WMST 417. WOMEN AND ETHICS. 5 Credits.
Cross listed: PHIL 417.
Pre-requisites: at least one of the following: WMST 101 or WMST 310 or PHIL 211 or PHIL 212.
Satisfies: cultural and gender diversity university graduation requirement.
The course will begin with a brief examination of the treatment of women within traditional ethics. We will then address the views of early women philosophers, followed by a close analysis of contemporary feminist approaches to ethics.

WMST 419. SEX, SEXUALITY AND COMMUNICATION. 5 Credits.
Cross listed: CMST 419.
Pre-requisites: one WMST course or CMST course.
This seminar examines the construction of sexuality and sexual identity through communication, with a focus on the relationship between public policy and private sexuality.

WMST 420. QUEER THEORY. 5 Credits.
Cross listed: PHIL 420.
Pre-requisites: junior standing.
This course examines the emerging field of queer theory. Queer theory questions the stability of various identity categories, suggesting instead that all performances of sex, gender, and sexuality are influenced by cultural, historical and political factors.

WMST 421. CARE AND CUSTODY OF FEMALE OFFENDERS. 5 Credits.
Cross listed: PSYC 421.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.

WMST 424. EQUITY AND EQUALITY IN THE WORKPLACE. 3 Credits.
Cross listed: MGMT 424.
Pre-requisites: ENGL 201.
This course examines feminist theory, the law and business management theories as they apply to equality and equity in the workplace. The course is an integrated approach to business and gender issues.
WMST 425. FAMILY VIOLENCE. 4 Credits.
Cross listed: SOWK 425.
Pre-requisites: ENGL 201.
This interdisciplinary course addresses contemporary concerns about family violence and discusses feminist perspectives on violence in the family. Theories about the historical and socio-cultural context of family violence and other explanatory theories provide frameworks for understanding personal and societal responses to family violence. Discussions include dynamics of trauma and recovery and all forms of family violence. Treatment as well as intervention, prevention, and social change approaches are discussed on both the personal and societal level.

WMST 426. ECONOMICS OF POVERTY AND DISCRIMINATION. 5 Credits.
Cross listed: AAST 424, ECON 424.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Causes of poverty and evaluation of anti-poverty programs. Examines economic theories of discrimination from different perspectives with a particular focus on issues of gender and race.

WMST 427. ECONOMICS OF WOMEN AND WORK. 5 Credits.
Cross listed: ECON 427.
Pre-requisites: junior standing.
Satisfies: cultural and gender diversity university graduation requirement.
Economic impact of the increasing participation of women in the paid labor force of the United States. Economic theories of labor force participation, discrimination and occupational segregation. Current issues such as comparable worth, affirmative action, nontraditional careers, corporate policies, sexual harassment, child care and social welfare programs.

WMST 430. AFRICAN AMERICAN WOMEN'S HISTORY. 5 Credits.
Cross listed: AAST 430
Pre-requisites: ENGL 201.
This course examines historical writings by and about Black women, discussing slavery, lynching, combating prejudices and encouraging racial pride to provide a framework that will deepen understanding of the topic.

WMST 432. ANTHROPOLOGY OF GENDER. 4 Credits.
Cross listed: ANTH 432.
Satisfies: cultural and gender diversity university graduation requirement.
This course examines notions of sex and gender from a cross-cultural perspective. Material covered includes understandings of gender, third genders, human sexuality, and the gendered nature of activities in both non-Western and Western societies.

WMST 437. WOMEN AND ISLAM. 5 Credits.
Cross listed: ANTH 437 GEOG 437, HIST 437.
Pre-requisites: junior or senior standing.
This course examines the status and identity of women in Islamic communities throughout the world and assesses how different interpretations of Islam, as a simultaneous religious, social, cultural, political and economic system, influence perceptions of women within Islamic communities. It further considers the perceptions of Islam vis-à-vis women and Islamic women themselves by non-Muslim communities.

WMST 440. WOMEN AND PHILOSOPHY. 5 Credits.
Cross listed: PHIL 440.
Pre-requisites: at least 4 credits in WMST and/or PHIL.
The course offers an examination of the treatment of concepts relating to women and femininity, both by traditional philosophers and by more recent feminist philosophers. The course will address key issues within philosophy while simultaneously exploring the role of gender in the production of philosophical knowledge.

WMST 448. LGBTQ ISSUES FOR THE PROFESSIONAL. 4 Credits.
Cross listed: SOWK 448.
Pre-requisites: junior standing.
The course is designed to assist professionals working with individuals whose identity includes lesbian, gay, bisexual, transgendered or queer/questioning. Topics include: historical oppression, “coming out” as a process, counseling approaches and resources, and social inclusion and exclusion of sexual minorities. Personal attitudes are explored in order to improve professional response to the needs of the LGBTQ communities.

WMST 450. WOMEN AND SOCIAL CHANGE. 4 Credits.
Cross listed: SOWK 450.
Pre-requisites: junior standing.
This course examines the historical and contemporary role of women as leaders and participants in U.S. social movements. The course critiques the models and strategies used to organize communities and groups to improve the status of marginalized people.

WMST 452. GENDER AND SEXUAL ASSAULT. 4 Credits.
Cross listed: SOWK 452.
Pre-requisites: ENGL 201.
This course addresses contemporary concerns about sexual assault, primarily, but not exclusively, against women. Feminist perspectives on gender socialization and sexual violence provide frameworks for understanding personal and societal responses to sexual violence. Dynamics of trauma and recovery, treatment, prevention and change strategies will be discussed.

WMST 456. THE OLDER WOMEN. 4 Credits.
Cross listed: AGST 456, SOWK 456.
Pre-requisites: junior standing.
This course examines the research and practice knowledge on the social, economic and health problems confronting older women. Older women's needs and potential for change are considered. The course explores U.S. social policy and program alternatives that work to improve the status and quality of life for a growing and diverse population of older women.

WMST 458. HISTORY OF MODERN AMERICAN WOMEN. 5 Credits.
Cross listed: HIST 458.
Pre-requisites: junior standing.
This course explores the history of women in America from the 1900s to the present through the use of a wide range of contemporary documents that allow a variety of women of the immediate past to speak for themselves.

WMST 471. HUMAN RIGHTS AND WOMEN'S RIGHTS. 4 Credits.
Cross listed: SOWK 471.
Pre-requisites: junior standing.
The course examines the history of human rights and dignity using the declaration of rights by the United Nations and research and initiatives by the World Health Organization and other international human rights groups. The course covers topics on the human rights of women and children including health, food insecurity, economic status, housing, education, violence, war crimes and residency/citizenship status. It also examines international and national strategies for furthering human rights on the global stage.
WMST 475. WOMEN'S WRITING IN LATIN AMERICA. 4 Credits.
Cross listed: SPAN 475, taught in Spanish.
Pre-requisites: SPAN 310 or SPAN 312 and SPAN 321 or HIST 365.
This course offers an introduction to women’s writing in Latin America, focusing on narrative productions of the 20th century. We will discuss issues such as feminine representation and identity, women’s perspective and subjectivity through the reading and analysis of contemporary texts by Latin American women.

WMST 477. CONTEMPORARY INDIGENOUS WOMEN. 5 Credits.
Cross listed: IDST 477.
Pre-requisites: junior standing.
Satisfies: international studies university graduation requirement.
This course is designed to introduce students to the role of indigenous women in the struggles for national self determination from a historical/cultural/spiritual/political context. Historically, Indigenous women have always played a very prominent and powerful role within all spheres of indigenous social/political/cultural and economic issues affecting indigenous nations from a contemporary context.

WMST 483. SOCIOLOGY OF CHILDREN. 5 Credits.
Cross listed: SOCI 483.
Pre-requisites: SOCI 101.
Addresses children and childhood from the preschool years through adolescence. Examines historical shifts in the meanings of childhood and the methods used for studying the worlds of children. Explores the theoretical approaches to child development and socialization and how these can be used to understand children's experiences in different cultural settings and situations.

WMST 489. LGBT WRITERS: THEIR LIVES AND THEIR WORKS. 5 Credits.
Cross listed: ENGL 489.
Pre-requisites: ENGL 270 or HUMN 101 or WMST 101 or HUMN 310 or WMST 310 or HUMN 410 or WMST 410.
This course examines the lives and works of Lesbian, Gay, Bisexual and Transgendered (LGBT) writers as well as the historical and social contexts of their writing. Genres may include LGBT fiction, nonfiction, auto-ethnography, letters, diaries, film, critical accounts of authors’ work, social networks and other artifacts. The readings focus on the lived experiences of the writers and their characters while (1) identifying “relevant gaps” within the traditional literary canon, (2) questioning “existing modes,” (3) examining “connections among societal structures such as gender, race, class, age, and sexuality that contribute to (LGBT) oppression” and (4) connecting theory to practice.

WMST 490. SENIOR CAPSTONE SEMINAR. 4 Credits.
Pre-requisites: WMST 101 or WMST 310 and one additional WMST course of 3 credits or more and ENGL 201.
Satisfies: senior capstone university graduation requirement.
The advanced student of women’s studies consolidates and synthesizes feminist scholarship in the seminar. Working collaboratively, instructor and students draw together scholars and their work in numerous disciplines, relating them and drawing conclusions about the nature of society and feminist reality.

WMST 495. INTERNSHIP. 1-5 Credits.
Pre-requisites: permission of the instructor, department chair and college dean.

WMST 496. EXPERIMENTAL COURSE. 1-5 Credits.
Experimental

WMST 497. WORKSHOP, SHORT COURSE, CONFERENCE, SEMINAR. 1-5 Credits.
Workshop

WMST 498. SEMINAR. 1-5 Credits.
Seminar

WMST 499. DIRECTED STUDY. 1-12 Credits.
Directed Study

WMST 510. FEMINIST THEORY. 4 Credits.
Notes: core requirement for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
Feminist Theories developed to explain women's position in society and current trends in feminist thought. Includes a variety of perspectives and cross-cultural views on sex and gender.

WMST 511. FEMINIST METHODOLOGIES. 5 Credits.
Notes: core requirement for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing and WMST 410 or WMST 510 or permission of instructor.
This course introduces fundamental concepts and methodological approaches to conducting feminist research. A specific focus is placed on examining and interrogating power relations and ways of knowing, as well as connecting theory and practice.

WMST 513. GENDER AND YOUTH CULTURE. 5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
This course investigates the shaping of gender generationally, culturally and historically. A specific focus on girl culture invites critical considerations of the ways that masculinity and femininity change over time and simultaneously interact with socially imposed dichotomies of “girlhood / boyhood.”

WMST 514. GENDER AND SEXUALITY IN CINEMA. 5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
This course investigates various constructions of sexuality within cinematic representations of intimacy, desire and the body. Students will develop media literacy skills for critically engaging with dominant cultural stories and images that communicate changing understandings of sexuality, gender, class, race and nation.

WMST 517. WOMEN AND ETHICS. 5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
The course will begin with a brief examination of the treatment of women within traditional ethics. We will then address the views of early women philosophers, followed by a close analysis of contemporary feminist approaches to ethics.

WMST 520. QUEER THEORY. 5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing and WMST 410 or WMST 510 or permission of instructor.
This course examines a variety of texts in the emerging field of queer theory. Queer theory questions the stability of various identity categories, suggesting instead that all performances of sex, gender and sexuality are influenced by cultural, historical and political factors.

WMST 521. CARE/CUSTODY FEMALE OFFENDERS. 5 Credits.
Pre-requisites: graduate standing.
This course explores the care and custody of female offenders in the criminal justice system, with particular focus on psychological factors and mental health treatment.
WMST 540. WOMEN AND PHILOSOPHY. 5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
The course offers an examination of the treatment of concepts relating to women and femininity, both by traditional philosophers and by more recent feminist philosophers. The course will address key issues within philosophy while simultaneously exploring the role of gender in the production of philosophical knowledge.

WMST 596. EXPERIMENTAL. 1-5 Credits.
Experimental.

WMST 598. GRADUATE SEMINAR. 1-5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: graduate standing.
This special topics seminar offers students an opportunity to engage in new and experimental topics within the field of Gender and Sexuality Studies.

WMST 599. INDEPENDENT STUDY. 1-5 Credits.
Notes: elective for Graduate Certificate in Gender and Sexuality Studies.
Pre-requisites: permission of instructor, program director, department chair and college dean.
Graduate level directed study and research projects in Gender and Sexuality Studies, varying according to faculty and student interest.
