Student Learning Outcomes—students will

- exhibit the technical abilities, intellectual knowledge, and ethics necessary to collaborate and advocate for health policy challenges facing the health profession;
- exemplify critical thinking, scholarly inquiry, and professionalism as a leader in the profession and community;
- implement evidence-based theories and methods in a culturally sensitive manner to provide comprehensive care and promote health and well being;
- embody self-learning as a means to meet their full potential and contribute to making our community, our profession, and our world a better place to live.
