Career Services programming provides students at any level of their education with the knowledge, skills and confidence necessary to make informed, intentional and individual choices about their academic and professional development. Course offerings engage and develop student skills in critical thinking, communication and research to choose inspiring majors, gain significant pre-professional experience and plan their future careers. Program topics and activities include major exploration, career research, exploratory internships, mentorship and professional portfolio development.

As the world of work is increasingly dynamic and diverse, Career Services content encourages students to consider and understand their experiences and value as whole people, and invites them to make meaningful connections between their academic experience and professional goals. This holistic approach promotes necessary habits of adaptability, openness and reflection that allow students to thrive in the workplace both after graduation and throughout their lives.

Career Development Courses

CRSV 210. CAREER DEVELOPMENT. 2 Credits.

This course is designed to help undecided and undeclared students explore and define their individual major and career path. While some content is appropriate for students at all levels, the main focus will be for those students who are exploring majors and careers.
