Active Catalog Rule (<https://inside.ewu.edu/policies/policies-and-procedures/ap-303-21-undergraduate-students/>) Chapter 4–8

Notes

- **The catalog in effect at the first term of the student's current matriculation is used to determine the BACR and undergraduate graduation requirements.**
 - A former EWU student returning (FSR) will use the general education requirements of the academic year they are returning.
- **The catalog in effect at the time the student declares a major or minor will be used to determine the program requirements.** This catalog may only be changed to a newer catalog with the approval of the department chair or program director by resubmitting the major declaration form. In no case can the catalog used for the major or the minor be more than six years old. A student whose major or minor catalog has expired will be required to submit a new major declaration form; the major and minor will be updated to the catalog in effect at the time of the resubmission.
