

MANUFACTURING TECHNOLOGY MAJOR, PROCESS OPTION, BACHELOR OF SCIENCE (BS)

The manufacturing process option focuses on select areas of technology, science and methods of materials processing. This option prepares the student to enter and progress in industry in a variety of areas including, quality assurance, inventory control, production line supervision or process management.

Notes: Including university requirements, the above program requires a minimum of 180 credits, an average of 15 credits per quarter for a 12 quarter, four-year program. The 180 credits are based upon the following assumptions:

- students have had one year of high school drafting. If this assumption is not true, then the student will have to take METC 102;
- students will have satisfied university competencies. If this assumption is not true, then the student will have to complete up to six more credits of classes. (see university competencies.)
- technology majors with applied, construction, design or manufacturing options are not accredited by the Technology Accreditation Commission of ABET.

Grade Requirements: in order to graduate, students majoring in the department must earn a GPA ≥ 2.5 in departmental coursework.

All admitted students must officially Declare a Major (<https://inside.ewu.edu/center-for-academic-advising-and-retention/academic-planning-tools/declare-your-major/>) by the time they reach 90 credits (junior standing).

Application for Graduation (use EagleNET (<https://inside.ewu.edu/eaglenet/>)) must be made at least two terms in advance of the term you expect to graduate (undergraduate and post-baccalaureate).

Use the Catalog Archives (<https://catalog.ewu.edu/archives/>) to determine two important catalog years (<http://catalog.ewu.edu/archives/2021-2022/undergraduate-degree/#activecatalogrulettext>).

SOAR (<https://soar.ewu.edu/selfservice/general/home.html>) calculates based on these two catalog years.

1. The catalog *in effect at the student's first term* of current matriculation is used to determine **BACR** (Breadth Area Credit Requirements) **and UGR** (Undergraduate Graduation Requirements).
2. The catalog *in effect at the time the student declares a major or minor* is used to determine the program requirements.

Students who successfully earn a BS in Manufacturing Technology, Process from EWU should be able to do the following:
