**This program meets Washington state competencies for the Health & Physical Education endorsement in addition to the masters of education. At the end of this program students will be able to:**

- demonstrate the knowledge and application of discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals;
- demonstrate the knowledge and skills necessary to demonstrate competent movement performance and health enhancing fitness as delineated in the WA State and National K–12 Standards;
- demonstrate the ability to plan and implement developmentally appropriate learning experiences aligned with local, state, and national standards to address the diverse needs of all students;
- demonstrate the ability to use effective communication and pedagogical skills and strategies to enhance student engagement and learning;
- demonstrate the ability to utilize assessments and reflection to foster student learning and inform instructional decisions;
- demonstrate dispositions essential to becoming effective professionals.
