

CHEMISTRY/BIOCHEMISTRY MAJOR WITH FORENSIC SCIENCE OPTION, BACHELOR OF SCIENCE (BS)

The forensic science option prepares students for entry-level positions in state and federal forensic science labs as well as for graduate and professional schools.

Major Declaration Requirements

Students must complete 45 hours of specified core courses with a combined minimum GPA ≥ 3.0 before being eligible to declare the forensic major (see note below).

It is assumed that the student will enter the program ready to take MATH 161.

For all internships with law enforcement agencies, students will be required to pass a thorough background check. Competitive internships at regional forensic labs are integrated into the curriculum along with research and independent study.

This option will require more than 12 terms (or 4 years) to complete at an average of 15 credits per term.

Note: these core courses are to be completed before formal acceptance into the forensics major and enrollment in the forensics science internship course: BIOL 171, BIOL 172, CHEM 140, CHEM 171, CHEM 171L, CHEM 172, CHEM 172L, CHEM 173, CHEM 173L, CHEM 304, CHEM 304L, PHYS 151.

Grade Requirements: due to the cumulative nature of chemistry courses, the department strongly recommends that students receive a grade $\geq C$ in all prerequisite chemistry courses.

Application for Graduation (use EagleNET (<https://inside.ewu.edu/eaglenet/>)) must be made at least two terms in advance of the term you expect to graduate (undergraduate and post-baccalaureate).

Use the Catalog Archives (<https://catalog.ewu.edu/archives/>) to determine two important catalog years (<http://catalog.ewu.edu/undergraduate-degree/#activecatalogruletext>).

Degree Works (<https://inside.ewu.edu/records-and-registration/degree-works/>) calculates based on these two catalog years.

- a. The catalog *in effect at the student's first term* of current matriculation is used to determine **BACR** (Breadth Area Credit Requirements) **and UGR** (Undergraduate Graduation Requirements).
- b. The catalog *in effect at the time the student declares a major or minor* is used to determine the program requirements.

Students who successfully earn a BS in Chemistry/Biochemistry Major with Forensic Science Option from EWU should be able to do the following:

- demonstrate a broad-based knowledge of major concepts in the areas of inorganic, organic, analytical, and physical chemistry;
- demonstrate sufficient preparation in chemistry to successfully compete in a graduate or professional program or to realize employment in a chemistry- or biochemistry-related career;
- demonstrate a capacity to use modern instrumentation and classical techniques for the analysis and/or separation of chemicals and an ability to interpret data;
- demonstrate effective oral and written communication skills and critical thinking skills as related to the field of chemistry;
- demonstrate knowledge of safe practices in the handling, usage, and disposal of chemicals.
