

FORENSIC INVESTIGATION MINOR

The Forensic Investigation Minor is designed to provide students with a comprehensive and practical education through hands-on, experiential learning opportunities. Students enrolled in this minor will enroll in specialized courses such as crime scene investigation, forensic photography, and latent fingerprint analysis. These courses are conducted in our modern, state-of-the-art forensic laboratory.

This minor is particularly well-suited for students interested in the applied science aspects of forensic work, such as crime scene investigation (CSI). Those who wish to pursue a career in this area will find the minor to be an excellent fit for their academic and professional goals.
